Emergency order prohibits open burning

Knox County Judge David N. Perdue declared that a state of emergency exists in Knox County due to the extreme potential for large and destructive wildfires.

Judge Perdue also issued an emergency order effective immediately, which prohibits any open burning in the unincorporated areas of Knox County except the burning of combustible material in approved enclosures, such as trash barrels and charcoal grills which are designed to contain all flames and embers.

Due to hot and dry conditions, and the lack of significant rainfall, all persons are advised that any open burning is extremely likely to cause very dangerous wildfire, posing risks to lives and property. Local fire department officials, the National Weather Service and Texas Forest Service personnel advise that there is no present forecast for improving conditions.

The order signed by Judge Perdue provides that repeated or flagrant violations of the order shall constitute a misdemeanor, and that any peace officer of the State of Texas may enforce the order in the venue of Knox County.

This will go into effect immediately and will be in effect for the next ten days. (Issued Monday, June 27, 1994)

Heat Units - Indicators of Cotton Growth and Development

Robert Lemon, Extension Agronomist, Vernon,

The growth and development of the cotton plant follows a well defined and consistent order of events. With respect to moisture, temperature is the over-riding factor governing the development of the plant. One of the most useful ways to assess cotton development is the degree day or heat unit concept, commonly known as DD-60's.

The heat unit approach uses temperature rather than calendar days as an indicator of plant development. The concept is based on a developmental threshold of 60° F

-- above 60° the crop grows and below 60° little growth occurs. Temperatures above 100° are considered as 100°.

The basic formula for calculating heat units involves adding the maximum and minimum temperatures for each day, dividing by 2 and subtracting 60 (threshold temperature). Calculation of the accumulated heat units and information on heat unit requirement to attain a particular stage of growth can be used as a tool to help producers better manage their crop.

EXAMPLE CALCULATION:

Maximum daily temperature 95° Minimum daily temperature 71°
Threshold temperature 60°

$$DD60 = \frac{\text{Daily high temperature} + \text{Daily low temperature} - 60}{2}$$

$$(95 + 71) / 2 = 83 - 60 = 23 \text{ heat units accumulated for the day}$$

Stage of Development	Average DD60's Required
Plant to emergence	60
Plant to 1st square	480
Plant to 1st bloom	900
Plant to peak bloom	1600
Plant to 1st open boll	1900
Plant to 70% open boll	2500

Weekly total, June 20 - June 26: 191
Accumulated Total: 841

The festivities will begin by cooling down with some great homemade ice cream at no charge! Following this, there will be a patriotic observance and Gospel music.

A nursery for children 3 years and younger will be provided at First Baptist Church beginning at 7:15 p.m. for those who do not want to take their young children.

In case of rain or extremely high temperatures, the event will be held at First Baptist Church.

Area churches involved in hosting the event are the First Baptist Church, First United Methodist Church, Believers' Chapel and West Beulah Baptist Church, all of Munday, as well as the First Baptist Church of Gorce, Weinert Baptist Church and Gillespie Baptist Church.

Locals' granddaughter receives Star Award for volunteer service

Judy Waller, granddaughter of Pete and Effie Hatfield of Munday, was presented the Texas Department of Mental Health and Mental Retardation Star Award. It was the third Star Award ever presented to a South Texas volunteer.

Judy has been a volunteer at Rio Grande State Center in Arlington for three years, devoting hundreds of hours to working in the thrift store, soliciting donations, assisting in meetings and special projects, and qualifying as an advocate to work on behalf of a mentally retarded resident who has no legal guardian.

The award was given in recognition of Judy's dedication to the state center, its patients, residents and staff. She has done all this while ignoring her own disability which denies her the use of one arm and limited use of one leg.

Her citation reads "... the only limitations on Judy Waller's performance and volunteerism have been those things she has not yet been asked to do. She is one of our most valued assets - a true star of the Valley."

YARD OF THE WEEK honors go to Gary and Lisa Cypert at 220 N. 14th. Their lawn is always neat and well kept, and the colorful variety of flowers make a nice cool picture. The shaded front porch looks very inviting, and makes you want to sit a spell with a glass of lemonade to cool off from this summertime weather.

From A Carpenter's Son

Don Whetsell - Pastor
First Methodist Church, Munday - Goree

Do you remember when you were in elementary school, how the home room teacher always gave you a writing assignment on that first day of school? It was usually titled "What I Did Over Summer Vacation".

I was talking to one of my members who teaches school and she remarked that she was busier now than she was during the school year. That seems to be the case for everybody. Nobody has time, energy, or money to spare, and yet this season demands extra amounts of all three.

It's clear that something is going to have to give, and most of us, when we take shortcuts, are quick to look at our relationship with our churches as a place where we can carve out our lost time, energy, and money. We start to look at the church as a duty that must be suffered through, like flossing between meals or college orientation.

We need to understand that our churches, like our families, hopefully, are always there for us when we need them, and that the gifts of time, energy, and money that we give support the ministries of our churches for everyone. When you help with Sunday School you're laying a foundation for the spiritual lives of your congregation. When you serve on a committee or board you are helping to plot the course for your church's future. When you put money in the plate you are supporting missionaries, feeding the hungry, and sending your pastor to minister to your grandparents, aunts, and uncles at the Munday Nursing Center, among other things.

Don't skip out this summer. There are still many opportunities to be seized and much work to be done, and He who gives you the breath of life will give you the energy to get it done!!

It's a Boy!

Thomas has several great-grandparents to help spoil him. They are Mutt and Doris Chamberlain of Goree, Ricardo and Edelmisa Solis of Farmers Branch, and Miguel DelValle of Miami, Florida.

Debra and Bryan Steven and Gwen Tower of Abilene visited Mary Johnson and Latrece Lane on Friday. They also visited LaRue and Floyd Patton.

Shahan, Wilde united in afternoon ceremony

The First United Methodist Church in Goree was the setting for an afternoon ceremony uniting Lonnie Shahan and Christie Wilde. The wedding was held at 4 p.m. Saturday, June 18, 1994, with Don Whetsell, pastor, officiating.

The bride is the daughter of Delores Wilde of Glen Rose and the late Gifford Wilde. The groom's parents are J.W. and Jimmie Shahan of Goree.

Arrangements of pink carnations, white daisies and gladiolas set on white pedestals decorated each side of the altar.

Molly Urbanczyk, pianist, provided the wedding music.

Escorted down the isle by her brother, Tony, the bride was attired in a white, tea length, western wedding dress with fringe and a wide white belt. The fitted bodice and long sleeves were covered with silver lace. The neckline featured a diamond shape cutout in the front. Her bridal bouquet was white, pink and blue silk flowers and with pink and blue streamers.

Serving her cousin as Maid of Honor was Kathy Wilde of San Angelo. Kathy wore a pink tea length western dress featuring a fitted bodice covered in silver lace,

short sleeves, and a round neckline. She carried a bouquet of pink and white flowers.

The groom was attired in black Wrangler jeans, black ropers and a white dress shirt with a Bolo tie. The Best Man was Derrall Shahan of Seymour, brother of the groom. He was dressed identical to the groom.

Serving as ushers were the groom's nephews, Jason and Greg Blake and Tony Shahan.

Following the wedding ceremony, a reception and dinner was held at the Knights of Columbus Hall in Rhineland, hosted by the bride's grandmother, Bertha Wilde of Rhineland, and her uncle and aunts, George and Sandy Schulte of Wichita Falls and Betty Wilde of Rhineland.

Rhonda Purpera of Denton registered guests.

The bride's table was covered with a white lace cloth and featured a three tier wedding cake with pink and blue roses made by

the groom's sister-in-law, Glenna Shahan of Seymour. The top tier held a cowboy and bride figurine with a heart outlined in rope in the background, and surrounded in dried flowers. A staircase on each side of the cake connected two additional tiers.

Serving at the bride's table were Amie Hays and Teresa Ramos of Wichita Falls, friends of the bride.

The groom's table was covered with a blue cloth and featured a chocolate horseshoe shaped cake and silver coffee service. Nancy Shahan of Munday and Shannon Shahan of Breckenridge served.

The bride graduated from Munday High School in 1990, and re-

ceived her Bachelor of Science in Interdisciplinary Studies degree from Midwestern State University in May of this year.

The newlyweds have made their home in the country between Goree and Munday.

Letter to the editor

To the Editor:
With great reluctance, the Board of Directors of the Munday Chamber of Commerce and Agriculture, this past week, accepted the resignation of our Chamber Manager, Mrs. Lynn Fitzgerald. We feel that Lynn has served our community in this position in a very excellent manner.

As manager, she has reaped many benefits for us that we would not otherwise have attained. We feel that she has made each member of the Board of Directors, in the years she has served, be a better citizen and more aware of the needs of our city and community.

We certainly want to wish Lynn and her husband Larry the very best that life can offer, as they move to Cisco, Texas, where Larry will serve the Church of Christ. We feel that Cisco's gain is our loss, but we realize that this is a positive step for their family.

And so, to Lynn and Larry and their family, we wish to say "Thank You" for being here and helping us keep ourselves focused on the right things in life. Good luck and may God bless you in your new town.

Dan Sloan, President
Munday Chamber of
Commerce and Agriculture

The Chinese philosopher Confucius was really named K'ung Ch'iu. Confucius is a Latin form of the title K'ung'fu'tzu, which means "Great Master K'ung".

Q: What is the "unknown tongue" of the Bible?

A: Six times in the King James Version of the Bible we find the phrase "unknown tongue". The KJV places the word "unknown" in italics to indicate that the translators have added the word to the text. The scholars translating the Greek (the original language of the New Testament) were hoping to make the meaning clearer by adding this word. Instead they made it more confusing and misleading.

The text should simply read "tongue".

Many people have attempted to use the phrase "unknown tongue" in the KJV mistranslation of 1 Corinthians chapters 13 and 14 to prove that the "tongues" of the New Testament were some sort of mystic language. However, Acts chapter 2 makes it clear that the miracle of speaking in tongues was the ability to speak in a language one had not studied.

In Acts 2:1-4 the apostles were given the gift of tongues and began to speak "in other tongues, as the Spirit gave them utterance" (Acts 2:1-4). The people who heard this miracle were bewildered - not because of some strange "gibberish" but because the apostles were speaking their native languages.

By the way, the gift of supernaturally speaking other languages passed away when "that which is perfect" came (1 Corinthians 13:8-13). This perfection (maturity) was the maturity of the church... most likely at the completion of the Bible and the final merging of the Gentile Christians with the Jewish Christians.

KNOX COUNTY KONNECTIONS

By Jane Rowan, County Extension Agent

A question of degrees

Can dairy products be frozen? Yes and no, depending on the product and what you plan to do with it after thawing. Here's a list to help clarify which dairy products can and cannot be successfully frozen for later use:

Butter - Packaged butter wrapped in foil or placed in a resealable plastic freezer bag keeps for 6 to 9 months at 0 degrees F or lower. Note: Because salt helps to extend butter's shelf life, unsalted butter is best kept frozen until ready to use.

Cheese - Cheddar and other hard cheeses can be frozen, but will become crumbly when thawed. It's best to use thawed cheese crumbled or shredded in salads, as toppings or in cooking. For best results:

- * freeze pieces of one-half pound or less and no more than 1 inch thick;
- * use moisture proof and airtight wrapping to prevent drying;
- * store at 0 degrees F up to three months;
- * thaw in refrigerator;
- * use as soon as possible after thawing.

Milk, buttermilk and cream - Freezing is not recommended because separation occurs. If these products inadvertently freeze, thaw in the refrigerator, stir well and use in cooking and baking.

Yogurt - Freeze blended yogurts for smooth snacks and desserts. Ice crystals will form if plain or flavored yogurt is frozen.

Cottage cheese and cream cheese - Freezing is not recommended because of changes in texture.

- 1 cup shredded cheese = 4 ounces cheese
- 1 cup crumbled cheese (such as Blue) = 4 ounces cheese
- 1 cup grated hard cheese (such as Parmesan) = 3 ounces cheese.

Snacks - Are they bad for you? Snacks are not really bad, they

just need to be planned into the total calories allowed for the day. Make snacks and meals work together to give you the total balanced meal plan.

Snacks, if cooked with sugar, can be bad if you are already overweight. Wisely select snack foods from the basic food groupings that are relatively low in calories but high in nutrients. Avoid snacks that are higher in fat such as fried or greasy foods. Remember, you can snack if you keep it healthful. ***

Students discovering job opportunities in summer program

Students must meet special requirements to participate, and will receive credit for one semester.

A group from Knox County, including students from Benjamin, Knox City and Munday, and a Haskell County group toured the Texas A & M Research Station in Munday last week, where they learned about current research on several projects by Resident Director Dr. Jerry Cox of Vemon, Research Associate Roxanne Montandon of Vemon, Research Scientist David Bordovsky of Chillicothe, and Maurine Williams from the local station.

These students have taken several field trips to view different cultural experiences and job opportunities in Texas.

Peggy Guinn of Knox City was on hand representing David Counts.

Don't Drink and Drive - Even on the Fourth of July

The Fourth of July is one of the most highly celebrated of all holidays throughout the United States, and rightly so. This occasion should be remembered and celebrated, because of the rights and freedoms that each of us possess.

We are also reminded this time each year far too many will not have much to celebrate in this great state of Texas by losing a loved one in a wreck caused by an alcohol impaired driver. Trooper Joe Clement with the Texas Department of Public Safety states, "At least 50% of all

traffic deaths are alcohol related and during this holiday many people will celebrate by consuming alcoholic beverages."

We urge those that drink to plan ahead to have a sober driver behind the wheel, or risk finding themselves behind the bars of a jail. To help us protect you, as well as others on our state streets and highways, remember; **If You Drink, Don't Drive — If You Drive, Don't Drink.**

HAVE A NICE DAY!

Pathways

by Randy White
 pastor, First Baptist Church

Did you know that church is the coolest place in town? When it is over 100 degrees outside, church is the place to be.

Go to church on a hot day and you will be refreshed by the inspirational and uplifting music.

Go to church on a hot day and you will be cooled by the warm fellowship the Christians there will give you.

Go to church on a hot day and you'll hear a message from God's Word that is just suited for your need.

Go to church on a hot day and you'll hear about heaven, a place a lot cooler than hell!

Go to church on a hot day and your zeal and vigor that has been zapped by the heat will be restored.

On a hot Lord's Day, I can't think of any better place to be than in Church! See you Sunday.

"Lord, I need the Spirit of God to douse me with His refreshing presence. Amen."

P.S.—I've gone to 108 homes to date in my goal to knock on "every door in '94". Soon I'll knock on your door.
