MARY JANE KUEHLER

Munday Graduate Joins Teaching Staff

Mary Jane Kuehler is no stranger to the halls of Munday High School. She graduated here with the class of '85, and is now back to teach alongside some of her former instructors! She will be teaching 7th and 8th grade Language Arts.

Miss Kuehler graduated from Midwestern State University in December of 1989 with her Bachelor of Science and Education degree. She has taught ninth through twelfth grade English at Rochester High School for the last two years.

After being asked what she thought about teaching at Munday, she stated, "It's going to be a challenge, but I'm ready!"

We wish Mary Jane the best of luck in her teaching career.

Enrollment Figures Show Rise In Munday Schools

With the first week of school behind us, Munday ISD reports an increase in enrollment compared to last year's figures. They had 486 enrolled the first week of school, 21 more students than in 1991.

Doug Donoho, Munday Elementary principal, reports 286 in Pre-Kindergarten through sixth grade. Phil Hall, High School Principal, reports 200 in junior high and high school. The fifth grade has the largest class, with 45, and kindergarten has the small-

est class with only 23 students.

Class totals in elementary are: Pre-K, 35; Kindergarten, 23; first grade, 34; second grade, 42; third grade, 34; fourth grade 36, fifth grade, 45; and sixth grade, 37.

Secondary school breakdown is: seventh grade, 30; eighth grade, 28; freshmen, 33; sophomores, 31; juniors and seniors, 39 each.

The 1992-93 school year is officially underway, but hang in there kids, your first holiday is less than 2 weeks away, which is Monday, September 7, Labor Day.

Dove Season Opens Tuesday, September 1

Hunters, it's time to drag those shotguns out of the closet and get them cleaned up and ready for hunting because dove season opens Tuesday, September 1!

Hunting time will be 30 minutes before sunrise to sunset. Daily bag limit will be 12, with the possession limit being 24 after the second day of the season.

According to Ronnie Ainsworth, Knox County Game Warden, the dove population is fair and pretty scattered over the county. The weather will be a main factor in how good the hunting will be on opening day. He reminds local hunters that all shotguns must be plugged to a three-shot capacity.

Hunting licenses are mandatory, and may be purchased from Mr. Ainsworth in Knox City, *Snack 'n Tackle* at Miller Creek Reservoir,

or at the county clerk's office in Benjamin.

If you were born on or after September 2, 1971, and you are age 17 or over, you must successfully complete a Hunter Education Training Course. If you are age 12 through 16, you must successfully complete a hunter education course or be accompanied by a licensed hunter 17 years of age or older. Children under 12 must also be accompanied by a licensed hunter 17 years of age or older. Proof of certification is required to be on the person while hunting. You do not have to show proof of this certification to buy a license.

If you have any questions concerning hunting regulations, you may contact Ainsworth at his Knox City residence.

THE MUNDAY MOGULS: top row, David Tidwell, Junior Masias, Mike Bunton, Jay Nuckols and Gene Shields; middle row, Ronnie Whitfield, Dink Fields, Andy Dancer, Freddie Sosa, Matt Angerer; bottom row, Jay Kingston, Daniel Sarrato, Jason Zeissel and Ray Hernandez. The Moguls will scrimmage the Stamford Bulldogs Friday night at Stamford. Games start at 5:30.

Moguls To Scrimmage Stamford Friday Night

The Munday Moguls will travel to Stamford for their second scrimmage of the season.

After last Thursday's scrimmage against Anson, Coach Edwards said, "The team as a whole performed good overall. The offense moved the football well. The line controlled their blocks and the backfield moved the ball well."

"The defense attacked the line well. They were hesitant on the passing game at first, but gradually gained confidence as the game

progressed."

The Moguls will have a tough practice against another 2A team, the Stamford Bulldogs. The Bulldogs have 4 returning lettermen and 2-3 starters, from a 7-3 team.

The scrimmage will start at 5:30 p.m. for the junior varsity and 7:30 for the varsity.

Family Can Team Up For Golf Tournament

The Lake Creek Country Club is sponsoring a parent-child tournament this Sunday, August 30. All golfing parents need to pick which son or daughter they want to team up with - or should we say the son or daughter should pick which parent - and enter this special tournament. Tee off time is 1:30 p.m.

Entry fee is \$25, and is limited to the first 27 teams. Call 422-4746 or 422-4242 to enter or for more information.

ROY COX

New Manager At Lone Star Gas Co.

Lone Star Gas Company has hired Roy Cox as Munday's new office manager, replacing Mike Greenwood, who transferred to Wichita Falls.

Roy was raised in Brownwood, where he graduated high school in 1981. He has worked for Lone Star Gas for a total of eight years, the last five years being in the Hamlin office. His wife, Angie, will graduate in May from the University Health Science Center in Lubbock with a degree in physical therapy. They have a daughter, Jessica, who is in the second grade.

We would like to welcome the Cox family to Munday!

WE BUY CANS... at Knox Plains Recycling that is. Greg Oustad, owner, is shown running aluminum cans through the crusher, which then shoots them into the truck. The new business is open from 9 a.m. to 5 p.m. every Monday, Friday and Saturday, and is ready to accept your aluminum cans and irrigation pipe. It's located on Hwy. 277 next door to Reid's Hardware.

Knox Plains Recycling Now Open In Munday

A new business has opened in Munday, *Knox Plains Recycling*, owned and operated by Greg Oustad. The business is located on Hwy. 277, next door to Reid's Hardware.

You can bring your aluminum cans from 9 a.m. to 5 p.m. on Monday, Friday or Saturday, where they will be mashed in the can crusher and shot into the back of a truck. Aluminum irrigation

pipe is also being accepted at this time.

A former Munday resident, Greg moved here from Lake Tahoe, Nevada, with his wife, Gayle, and two sons, Chuck, a freshman, and Justin, who is a senior. Gayle works for Mediplex.

Greg spoke at the Lions Club meeting last Tuesday, telling about his recycling business, and what

he wants to accomplish in the future. He hopes to one day open a D-Inking Plant, which recycles newspapers and other paper goods. A plant like this would employ around 100 people.

Aluminum collection is just a beginning phase of recycling. He feels Munday would be a good place as any to have other recycling facilities. "I want to see Munday survive. I would like to see an increase, instead of a decrease," Oustad stated. "Stop by my place of business and tell me your ideas about further possibilities. The coffee pot is always on."

Birthday Calendars Being Distributed

The band calendars were mailed out last week, and everyone that ordered should have received it by now. If you did not receive your calendar, or if you didn't get the correct amount you ordered, call Cheryl Berryhill, 422-4440, and she will straighten out the problem.

Cheryl also has extra calendars for those who would like to purchase one.

All proceeds from the sales go to the Munday Mogul Band to defray costs of trips to contests and football games.

Sports And Children

When children play sports it is best to remember to always make it a positive experience that will foster fond memories for the child.

Do not coach from the stands. Be supportive of the coaches. Yell things like "good hit", "that a way to go", "keep it up". The child will not have to make a choice between you and the coach. Also, confusion and stress can be avoided.

The Cross and The Flame

First United Methodist Church

Steve Barrett, pastor

Munday, Goree

There is a rhythm in the pastoral ministry that I would recommend to anybody. In the mornings I ponder the Psalm for the week. I read it slowly so that I can feel the passion of the psalmist. She may be a pilgrim picking flowers in the barren desert as she journeys to the Temple to offer the flowers of her life to God (Psalm 84). Such passion guides me through a long week, giving thanks for the Methodist flowers God has planted me with, anticipating the strength we will share on Sunday.

In this week's Psalm (15), I read this morning what kind of conduct I should practice, if I expect

Girl Scouts To Hold Information, Registration Meeting On Monday

Attention: All Munday and Goree girls in grades K through 12. Would you be interested in belonging to an all girl organization with 2 1/2 million members in the U.S. alone?

The Girl Scouts of the U.S.A. will be having an information/registration parent-daughter meeting at the Perry Patton Community Center, Monday, August 31 from 6:30 to 8 p.m.

If you would like more information about our organization, you are encouraged to attend. You will not be required to register.

If you were a registered Girl Scout last year, you will need to re-register. Registration fees will be \$6.00 with one exception. If you were a registered Girl Scout last year and sold cookies, your troop will pay \$3.00 and the re-registering scout will pay \$3.00.

Please fill in the flyers that were received at school and return them to your teacher by Friday, August 28, or bring them with you to this meeting.

We have several fun events planned for the upcoming school year and summer months.

A Girl Scout Fiesta in Seymour for all registered scouts and a non-registered friend for girls in Munday-Goree, Knox City and Seymour.

There will be 2 badge workshops this year. One in Munday for Junior Scouts (grade 4-6) and one in Seymour for Cadettes and

Seniors (grades 7-12).

Knox City will host a "Teddy Bear Picnic" in April for Daisy (grade K) and Brownie (grade 1-3) scouts.

Our older Munday troops will be going camping for the first time this year and we are also planning a week long day camp for the summer of 1993.

These are just a few of the activities scheduled, a complete list can be seen at the meeting. Our Girl Scout troops in Munday have continued to grow each year and the programs we offer the girls continue to improve.

Any adult, age 18 or older, who is interested in the Girl Scout organization, such as becoming a leader, assistant leader, or serving on a troop committee is welcome at the meeting. You are not required to have a girl in a troop to be a volunteer.

This promises to be an exciting year for Girl Scouts in Munday. We would like to issue a special invitation to the girls in Goree to come to this meeting and either register with one of our existing troops in Munday or form your own troops in Goree.

If you have any questions, please contact Nancy Smith at the NorCenTex Girl Scout Council at 817-723-4336, or Laura Stovall at 422-4220.

The Lord's Corner

by Dr. Pete Bradfield, pastor

Rotten apples have a curious property. No matter how many good apples you pack around a rotten apple, you can't make the rotten one good. But you can ruin an awful lot of good apples.

The same is true in the relation-

ships people have with each other. One corrupting friendship is enough to drive a person away from God, even in the presence of countless righteous lives... provided that friendship is close enough and lasts long enough to exert its corrupting influence.

That's why your close friends will mark you for life. Examine your relationships. And if you're courting disaster, make the necessary changes now - before the "rotten apple" becomes you.

See you next week, and remember: sometimes the right enemies can do you more good than the wrong friends.

CONGRATULATIONS to Clem and Doris Wilde of 1350 Redwood Ave., Atwater, CA 95301. The couple celebrated their 50th wedding anniversary on Tuesday, August 25.

At Your Service

by Dr. Larry Fitzgerald
Minister, Munday Church of Christ

Q: Is there a mistake in Matthew 27:9-10 which tells us that Jeremiah and not Zechariah, predicted the betrayal price of Jesus?

A: No, there is no mistake in this scripture nor any other place in the Bible.

Matthew 27 does, indeed, attribute this prophecy to the Old Testament writer of Jeremiah. Our only record of the prophecy is found in Zechariah 11:11-13. However, Zechariah noted that: "Are not these the words which the Lord proclaimed by the former prophets, when Jerusalem was inhabited . . . ?" (Zechariah 7:7).

Zechariah was very familiar with the former prophets' writings, especially those of Jeremiah, and frequently quoted from these writings. In the 17 verses that make up Zechariah chapter 11, there are 10 known loose quotations from Jeremiah (verse 1: Jer. 22:6-7; v. 3: Jer. 25:36; Jer. 50:44; v. 5: Jer. 50:7; v. 6: Jer. 13:14; v. 9: Jer. 15:2; 43:11; v. 10: Jer. 14:21; v. 16: Jer. 23:2; v. 17: Jer. 23:1).

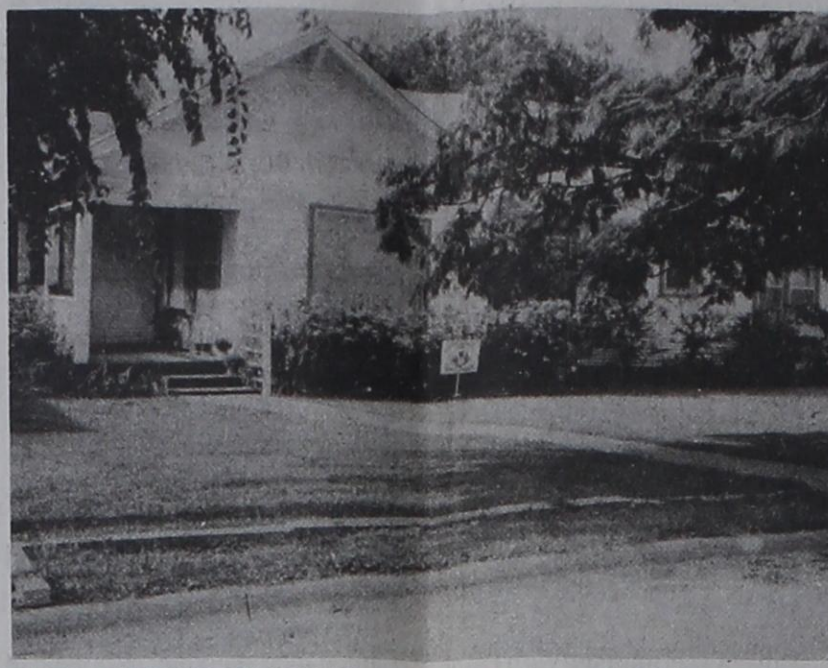

Verse 13 of this chapter is the only verse which is not a quotation from earlier prophets (that we have record of). Likely, Zechariah was quoting from one

of Jeremiah's writings - or even a verbal prediction - that we do not have available, today. There are several books written by the apostles and prophets that are not available. These include: Jashar (2 Samuel 1:18); Acts of Solomon (1 Kings 11:41); Chronicles of Sarnuel, Chronicles of Nathan, Chronicles of Gad (1 Chronicles 29:29); Visions of Ahijah, Visions of Iddo (2 Chron. 9:29); Chron. of the Kings of Judah, Chron. of the Kings of Israel (1 Kings 14:19, 29); another Lamentations (2 Chron. 35:25); two more letters of Paul to the Corinthians (1 Cor. 5:9; 2 Cor. 2:4); Paul's letter to the Laodiceans (Colossians 4:16). And these are just the writings mentioned in the Bible.

The only mistake, here, is that people today still betray Christ by declaring Him to be their Lord, and then turning their backs on His Church.

If you have a question for Larry, write him c/o Box 211, Munday, TX 76371.

Sen. Carriker Appointed To Hospital Committee

Dr. David R. Smith, Texas Commissioner of Health, has announced the appointment of state Senator Steve Carriker, Democrat of Roby, to the Hospital Data Advisory Committee for a three-year term. He was appointed by the Texas Board of Health at a recent meeting in Austin.

The Hospital Data Advisory Committee was created to monitor the delivery of indigent health services in hospitals across Texas. Its mission is to determine the extent of uncompensated care

provided in the state's acute care facilities and to evaluate the effect of the provision of these indigent health services on hospitals.

"No issue is more important to the people of this state than health care. I am pleased to have this opportunity to have an influence on the future of health care in Texas," Sen. Carriker said. He added that the rural perspective he brings to the committee is vitally important to the citizens in Texas' 206 rural counties.

Soil Samples Can Save Money

Wheat producers are urged to get soil tested before making fall fertilizer applications.

Since many wheat fields have had high phosphorus fertilizers applied for years, it may not be necessary to apply phosphorus.

As phosphorus is the highest costing nutrient in fertilizer, at 20-25 cents per pound of actual ingredient, producers will justify the cost of soil tests.

In taking soil samples, it is important that soil be a true representative of the field. Each sample should be achieved by mixing samples from 10-15 different sites using a soil probe or making a V-shaped hole and taking 1/2 inch samples from the smooth side of the hole.

After soil is taken, it should be mixed thoroughly and placed in a soil sample bag which is available at the local county Extension office.

An information sheet should be completed which involves crop history and past management techniques that are used.

A **WATER WELL** should be placed on the highest available ground to avoid contamination. A concrete pad should be installed around the casing and sloping away from the well. Water should be tested annually for bacteria and nitrates.

Location Of Well Important To Avoid Contamination

One of the most important considerations in protecting your well from contamination is the location. If you choose the wrong location you can be inviting trouble by risking contamination of your water.

To avoid contamination it is best to locate the well on the highest available ground, above the flood level of any nearby stream and higher ground than other pollution sources such as septic systems, livestock yards, or gas storage tanks.

Protection from contamination on a well begins with the casing. The casing keeps surface runoff and shallow groundwater from entering the well and contaminating the well. The casing should extend to a depth of 25 feet, or 10 feet below the static water level, whichever is deeper.

To prevent contaminants from

flowing into the well along side the casing, a cement slurry should be placed around the well casing to a depth of 10 feet.

A concrete pad should be installed around the casing at the ground surface. The pad should extend at least 2 feet out from the casing and be 4 inches thick. The pad should be sloped away from the well to keep water from standing alongside the casing. The casing should extend at least 12 inches above the pad.

Keep a check on the water quality in your well be having it tested annually for bacteria and nitrates.

Effective August 10, 1992, a 1% fee will be applied to all payroll checks cashed. A 1% fee will be applied to all checks cashed in excess of \$25.00 above the purchase. This policy was adopted due to the increasing number of uncollectable checks.

EXAMPLE: A \$300.00 check would be cashed for a \$3.00 fee. A purchase with \$25.00 cash would have no charge. A purchase with \$30.00 cash would have a 30¢ fee.

AVISO - PLAN DE CAMBIO DE CHEQUES

Efectivo Agosto 10, 1992 un 1% (por ciento) costo sera aplicado a todo cheque de sueldo cambiado. Un 1% (por ciento) costo sera aplicado a todo cheque en exeso de \$25.00 arriba de la compra. Estos planes fueron adoptados debido al numero de aumento de cheques incolectivos.

EJEMPLO: Un cheque de \$300.00 se cambia a un costo de \$3.00. Una compra de \$25.00 en efectivo no se cobra nada. Una compra de \$30.00 en efectivo se le cobrara 30 centavos.
