GOOD RAIN REVIVES HOPES FOR 1939 CROP

Ball Game Friday Night Ends Spring Practice

1.61 Inches Is Received Monday

List of Jurors For June Term of Court Announced

The list of jurors who have been selected to serve during the June term of district court was announced last week by Lee Coffman, county clerk. The list includes both the grand jurors and petit jurors. They are as follows:

Grand Jury: Ben Hunt, J. B. Bowden, J. C. Borden, C. P. Baker, E. F. Branton, B. Arnold, B. C. Anderson, C. Bohannon, Jack Idol, W. O. Solomon, R. N. Smith, W. M. Ford, J. C. Jones, Jr., Clyde Warren and F. L. Stengel.

Petit jurors, second week of court, are as follows:

Munday: W. R. Moore, I. E. Day, George Isbell, Paul Pendleton, H. L. Bellinghausen, Joe Brown, Chester Smith, J. C. Rice, G. H. Beatty, R. B. Harrell, Levi Bowden, Cecil Voss, T. L. Thompson, Cecil Burton, S. E. Williamson, J. T. Harber, Joe Cerveny, and J. W. Zeissel.

Knox City: S. B. Campsey, W. H. Lankford, B. M. Farmer, C. A. Branton, T. E. Robbins, Russell Boyd, and A. G. Varnell.

Benjamin: R. E. Bradley and E. F. Scales.

Truscott: Lester Hickman, John Black, J. C. Browder, and Elmo Todd.

Vera: S. J. Shipman and Barney Welch.

Goree: Orb Coffman, C. C. Moorman and J. E. Cure.

Petit Jurors Second Week

Munday: C. M. Thompson, B. A. Yarbrough, Jack Tidwell, I. J. Troy, E. H. Bauman, John M. Schumacher, Deaton Green, W. E. Barly, Chas. Haynie, Mike Phillips, Geo. Steinbach.

Knox City: S. L. White, R. M. Almarode, W. H. Hodges, L. W. Graham, H. P. Arledge, E. G. Parkhill, C. W. Armstrong, J. C. Reeder, Audrey Denton, H. E. Wall, L. E. Hunter and L. N. Bridges.

Goree: Lloyd Hendrix, Tom Cowser, J. B. Justice, and D. G. Jones.

Vera: E. C. Hardin and C. C. Allen.

Benjamin: Fred Stephens and O. L. Kirk.

Truscott: H. M. Lack, Frank Gilliland, J. M. Chowning, and B. R. Westbrook.

Gilliland: E. A. Burgess.

13 Graduate At Sunset School

18 Finish In Seventh Grade This Year

The Sunset Rural High School, which held its commencement exercises recently, had thirteen graduates from high school. Wardell Sweatt was valedictorian of the senior class, while E. G. Parkhill was salutatorian.

Members of the graduating class who received their diplomas are: Wardell Sweatt, H. D. Matthews, Jr., Winters Groves, Hallie Phine Clark, Orville Strickland, Nettie Griffith, Louise Gray, E. G. Parkhill, Mary Herring, Traphene Wren, J. E. Hunter, Dorothy Garrett and Mamie Tankersley.

Class officers are: Wardell Sweatt, president; Mary Herring, secretary and Hallie Phine Clark, vice president.

Members of the seventh grade graduating class this year, who were 18 in number, are: Glydolin Frost, Gene Beth Griffith, Bertha P. Jennings, Gaynell Phillips, William Davis, W. C. Stevens, Joe Waldron, James Ford Moore, Juanita Mincey, James Miller, Burl Johnson, Edna Faye Hardin, Frances Walling, Garland Screws, Victor Thomas, Howard Walker, Earl Mincey and Stella Merle Earp.

BIRTH ANNOUNCEMENT

Mr. and Mrs. O. A. Cox are the parents of a boy, born last Friday morning at the Knox City hospital. The youngster tipped the scales at 9 pounds and 2 ounces. He has been named Rex Harold, and both mother and son are reported doing nicely.

J. C. Rice, Jr., To Receive Degree

623 Students Will Get Degrees This Year At Texas A. & M.

College Station.—Candidates for degrees at Texas A. & M. College, to be conferred Friday night, June 2, total 623, making up the largest graduating class in the history of the college. J. C. Rice, Jr., Munday is a candidate for a B.S. degree in agricultural education.

A total of 23 students are candidates for advanced degrees as master of science.

Candidates for baccalaureate degrees include 523 for Bachelor of Science; 27 Bachelor of Arts; five Bachelor of Architecture and 45 Doctor of Veterinary Medicine. Four students are candidates for certificates in the two-year course in cotton marketing and classing.

The candidates come from 285 Texas cities and towns, 29 cities in 16 other states and the District of Columbia, and 7 cities in Mexico, Puerto Rico and India.

Munday Scouts Go To Camporee Held At Seymour

Local Troop Wins In Competition With Other Troops

Twenty Boy Scouts from the Munday troop entered a camporee which was held at Seymour last Friday and Saturday.

Scout parades were held on Friday afternoon, and Friday night was featured by a court of honor at which approximately 100 scouts received merit badges on various phases of scout work.

The Munday troop won a prize for having the most scouts to receive merit badges in the court of honor. All scouts at the camporee spent Friday night in the Seymour park.

Saturday morning, various scout projects were held, such as first aid, fire building, signalling, water boiling, etc. At the close of Saturday's events, the Munday troop received ribbons for having the highest percentage of any troop in the camporee.

Five other troops were in attendance, it was reported.

Seniors To Be Luncheon Guests Of Lions Club

Program To Be Given For All School

The Seniors and the Lions will dine together on Wednesday, May 31.

This was decided last Wednesday at the regular luncheon of the Munday Lions Club. A motion was made by Dr. J. Horace Bass, superintendent of the school and one of the club's leading Lions, that the club invite all members of the Senior class as their guests on the above date. The motion carried unanimously.

Following the luncheon at the home economics cottage, this group of Lions and seniors will then go to the school auditorium where a program will be presented to the entire student body. The committee to work out this program is composed of Lee Haynes, L. M. Palmer and Aaron Edgar.

Wilson Davy of Dallas spent the week-end here, in the home of Mr. and Mrs. R. B. Davy.

Moguls To Play Munday's Exes

Proceeds Of Game To Purchase Awards For Players

The Moguls of the 1939 football season will be featured against ex-football stars of Munday High School in an exciting game here on Friday night of this week. The game will begin at eight o'clock.

Friday officially ends the ten weeks' period of spring football training for the Munday High School team. Coach Billy Cooper has been putting the boys through strenuous workouts and formations during this period, and the team promises to be one upon which Munday fans can pin their hopes for a winning football squad next season.

The Munday school band will also be on the scene, it was announced, and Friday night's game will assume all the aspects of a real fall competition game. The band made a splendid showing at the Chamber of Commerce convention in Abilene last Tuesday, and is an organization of which Munday citizens can justly feel proud.

Coach Cooper stated that admission of 10 and 20 cents will be charged at Friday's game. This money will be used to purchase silver footballs to all football boys who have not missed a single day of practice during spring training.

There are 24 boys who have gone through the entire ten weeks without missing a single practice period.

The 1939 team's lineup will be: John Broach, left end; Red Stevens, left tackle; Troy Denham, left guard; Judge Stevens, center; A. B. Kitchens, right guard; William Walton, right tackle; Lamoine Blacklock or Joe Morrow, right end; Jack Pippin, quarterback; Clifford Pippin, fullback; Doyle Thompson, right wingback, and Forrest Yancey, left wingback.

It is also probable that Marvin McCarty, one of the co-captains, will enter the game at right guard. McCarty has practically recovered from a muscle injury received during practice.

The exes will play such stars as Billy Lowrance, L. B. Patterson, Wayne Patterson, Charlie Haynie, John Phillips, J. B. Pollock, Grady Beck, Winston Blacklock, Lewis Warren, James Carden, Joe Dean Clough, and others.

Musical Program To Be Presented Friday Night

High School Chorus To Be Featured On Performance

Save the night of Friday, May 26, on your schedule for Miss Kennedy's musical program featuring the High School Chorus, Mrs. Orb Coffman, Mrs. Elizabeth Dillon, and the Men's Quartet.

The High School Chorus is fresh from Abilene where it appeared on the W.T.C.C. program. Those who have observed the Chorus have nothing but praise for this group of students and you will certainly want to hear them. Everyone knows the success that goes with a program directed, supervised and trained by Miss Kennedy, and you can't afford to miss it.

Due to interscholastic League expense of medals and trophies as well as other expense acquired during the year by the grammar school, a small admission fee of 5c for students, 10c for adults, and 25c for the entire family will be made. This is a very small charge and should not keep anyone away. If you don't have the admission fee, come any way, and no one will be turned away. They want you to see the program.

Mrs. W. R. Cabanes and son, Ralph, spent the week-end in Cisco, visiting with Mrs. Cabanes' mother, Mrs. Ford.

On Chamber of Commerce Convention Program

Miss Mildred Kennedy, sponsor, and members of the Munday High School Choral Club went to Abilene some fifty strong last Monday, where they appeared on the annual convention program.

The choral club rendered several very enjoyable numbers, appearing on the entertainment program on Monday afternoon. This is one of the best clubs in this section of the country, and the organization consists of some very talented young ladies.

A bus of the Munday Independent School took the group to Abilene. They remained in Abilene for other portions of the day's program, returning home Monday night.

23 Students To Graduate From Munday High School

WTCC PRESIDENT

The naming of E. K. Fawcett of Del Rio as president of the West Texas Chamber of Commerce was among the business transacted during the closing hours of the West Texas Chamber of Commerce convention in Abilene this week.

A City of Telephones China, British India, and Russia, which together have half the earth's population, have only three-fourths as many telephones as New York City, which has approximately 1,569,000.

Mrs. Paul Pendleton spent last Sunday in Pittsburg, Texas, visiting with her mother.

Mr. and Mrs. Loy Dutton of Lubbock spent Mother's Day here with Mrs. Dutton's parents, Mr. and Mrs. E. Beecher.

CARLOADINGS DOWN

The Santa Fe System carloadings for the week ending May 13, 1939 were 19,986 as compared with 18,606 for the same week in 1938. Received from connections were 5,153 as compared with 4,757 for the same week in 1938. Total cars moved were 25,139 as compared with 23,363 for the same week in 1938. The Santa Fe handled a total of 26,022 cars during the preceding week this year.

Marion Elliott Named Winner Of Local Baby Popularity Contest

American Legion And Study Club Express Appreciation

Marion Elliott, son of Mr. and Mrs. J. C. Elliott, won the popularity contest sponsored by the American Legion and the Munday Study Club.

Names of local babies were drawn by various business houses in Munday, and pennies dropped into the jars left at these houses counted as votes.

Marion Elliott's name was drawn by the Coates Cafe, and because of the faithful and untiring efforts of the cafe owners and their friends

he received 809 votes.

The American Legion and the Munday Study Club wish to thank the merchants for the interest manifested in the baby contest which was conducted in connection with the play, "Mystery at Midnight," sponsored by these two organizations.

"We want to especially thank Mansell Hardware Co., who furnished the stage setting for the play, Coates Cafe for their efforts in behalf of the winner of the baby contest and all of the character cast who gave their time and talent to assure the success of this play," members of these organizations said.

McMurry Head Is Speaker For Knox City Class

Final Class Exercises Will Be Held Next Monday Night

Dr. Frank L. Turner, president of McMurry College of Abilene, will be the commencement speaker for the graduating class of Knox City, it was announced this week. Commencement exercises will be held on Monday evening, May 22.

The baccalaureate service will be held Sunday. Rev. H. E. East, pastor of the First Baptist Church of Knox City, will deliver the baccalaureate sermon.

There are twenty-two members of the graduating class. Officers are: Glenn Huntsman, president; Reid Bradley, secretary; Mary Frances Reeder is valedictorian and Glenn Huntsman is salutatorian.

School Board Elects Teachers For Next Year

Three Vacancies On Munday Faculty

The school board for the Munday Independent School District met one night last week for the purpose of electing teachers for the 1939-40 school term. The board was in session until about midnight.

Members of the board stated this week that all of Munday's present teaching staff has been elected for another year with the exception of three teachers who have resigned. They are: Mrs. Elizabeth Dillon, teacher of Home Economics; Miss Dallas Smith, third grade teacher, and Mrs. Bess Porter, teacher of English in the grammar school.

Dr. J. Horace Bass, superintendent, was elected last year for a two-year term and has another year to serve. The two school principals, L. S. Hardegree, high school, and L. M. Palmer, elementary principal, had been re-elected at a previous meeting of the board.

The message was that a brother-in-law in San Antonio had burned to death in a tragic accident, the details of which have not been learned.

The sale was interrupted for only a short time. After an intermission, it was decided to continue, and C. R. Elliott took charge of the auction.

Mr. Elliott, who is an old-time auctioneer in his own right, did a very nice job of disposing of the animals at the auction. He was unaccustomed to the public address system, because in his day he didn't have such new-fangled do-dads and had to yell at the top of his voice. Many recalled the day when C. R. auctioned off mules right here in Munday, and C. R. proved himself to be an auctioneer of no mean ability on Tuesday.

Munday Girl Wins Prize With Fire Poster

Maurice Patterson, a second grade student, has been awarded fourth place prize on her fire prevention poster in the state contest, it was announced this week.

L. M. Palmer, principal of the grade school, received notice Tuesday of the prize. The fire prevention poster contest was sponsored by the State Fire Insurance Commission.

Maurice's poster was judged in her grade class, and with this fourth place went a cash prize of \$2.50. Miss Crawford is her teacher.

Farmers Begin Plans For Planting Of 1939 Crops

Dark faces lighted up with hope as dark clouds loomed up at eventide last Monday. Folks had been waiting, and hoping, for a long, long time—and it looked as if these hopes were to be realized!

People watched the clouds, not so much because of fear of a storm, but with that ever-present hope that rain would at last come to Knox County.

And it came! At about nine o'clock Monday night, it started in here in Munday. Other portions of the county were receiving rain earlier, and the cloud was watched hopefully as she approached nearer and nearer to Munday.

The moisture amounted to 1.61 in Munday, and the western portion of Knox county, which had been exceedingly dry, received around 4 inches. The rain fell steadily for several hours with most of the moisture soaking in, although many of Munday's streets were standing in water Tuesday morning. A slow shower which lasted for some two hours fell on Tuesday afternoon, adding to the moisture received Monday night.

Farmers and business men were wearing the same broad brand of smile after the rain. Although the drought cut the wheat crop far short, hopes for a good row crop were revived with the rains of this week.

And farmers are busying themselves with planting and replanting. Some who have already planted cotton stated that they would replant in order to keep down vegetation that would come up with that which has already been planted.

Tragedy Halts Auction Sale Here Tuesday

Bill White Receives News Of Relative's Tragic Death

News of the tragic death of a relative in San Antonio, received by Auctioneer Bill White during the sale Tuesday caused him to have to quit the sale in its early stages. This news came as such a shock that Mr. White was unable to continue with the auction and left immediately after receiving the message.

The message was that a brother-in-law in San Antonio had burned to death in a tragic accident, the details of which have not been learned.

The sale was interrupted for only a short time. After an intermission, it was decided to continue, and C. R. Elliott took charge of the auction.

Mr. Elliott, who is an old-time auctioneer in his own right, did a very nice job of disposing of the animals at the auction. He was unaccustomed to the public address system, because in his day he didn't have such new-fangled do-dads and had to yell at the top of his voice. Many recalled the day when C. R. auctioned off mules right here in Munday, and C. R. proved himself to be an auctioneer of no mean ability on Tuesday.

The sale was somewhat lighter than the one on Tuesday of last week, although many cattle and quite a few hogs were sold. The sale grossed in the neighborhood of \$8,000, it was stated.

ATTEND OPERA

Mr. and Mrs. T. G. Benge, Mr. and Mrs. Jim McDonald, Mrs. Louise Ingram, Miss Dallas Smith, Mr. and Mrs. John Ingram and Mrs. H. A. Longino attended the opera, "The Bohemian Girl," which was given by the Stamford Music Club in Stamford last Friday night.

Mr. and Mrs. R. H. Lain and daughter of Wichita Falls spent last Sunday here in the home of Mr. and Mrs. D. B. Bowen and family.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"

A MUCH NEEDED WEAPON

A bill to provide for deportation of aliens who advocate an overthrow of the United States form of government, has been under consideration in Congress.

This should provide a much needed weapon at a time when there are a great many agitators beating the drum of Communism, Fascism, or some other "ism" and advocating that Americanism be discarded.

It is to be hoped that the bill will finally be approved by the Senate and signed by the President, even though the C.I.O. is opposing it.

While such a new law would greatly strengthen the powers of officials charged with deportation of undesirable aliens, there are similar laws now on the statute books. It might be well for enforcement agencies to start a rigid application of these existing laws at once.

HOLY BIBLE THE BEST SELLER

In these days when democracy is being forced to take stock of her resources, lovers of human freedom will read with encouragement the releases from the annual report of the American Bible Society, whose 123rd annual meeting has just been held and whose sole purpose for a century and a quarter has been to make the Bible available to men of all nations, however little they may have with which to purchase it.

An announcement from the National Board of Fire Underwriters says that fire chiefs from many sections of the country have announced plans for radio broadcasts this season, and are also widely using the self-inspection blanks, issued free by the National Board, which makes it possible for anyone to go through his home or place of business, locate fire hazards, and easily eliminate them.

Communities which have not yet planned activities of this nature should, as the saying goes, "get on their horse." And where towns are too small to have fire departments, local officials, civic organizations, and individuals can get together and take the lead. A clean-up campaign doesn't involve any great expense or expenditure of time. It does involve making repairs to houses and buildings, painting structures where needed, razing fire-traps if any exist, keeping grass and weeds cut short on empty lots and fields, etc. In many a case, an intensive week or so of work of this sort, once real public interest is aroused, will eliminate literally thousands of fire hazards, large and small, and go a long way toward making a major disaster in the town impossible.

Further, these campaigns are a fine stimulant for local business which sell paint, lumber and other materials used. They arouse pride in the community, and cause many a lasting resolution by citizens, to always keep their property in good order and appearance. The spring clean-up, in brief, helps to make the towns of America beautiful—and safe.

SUDDEN DEATH

Second of a series on Safety written by Dr. Frederick Trembath, Secretary of State Safety League

In these days of fast automobiles and mounting traffic deaths, the need for uniform traffic laws becomes increasingly apparent. Modern traffic requires every natural resource of drivers. Why complicate things by having a jigsaw puzzle of varying laws, frequently misplaced traffic lights, and other distractions at the risk of public safety?

Every municipality in Texas has local traffic ordinances, some good, others bad. A complete lack of coordination of local enforcement regulations, coupled with a question mark instead of a competent driver's license law, is inviting a mounting record of highway accidents, frequently deaths.

Steps should be taken to place the supervision of uniformity, traffic signals and markers under the jurisdiction of the State Highway Department. The Legislature must eventually give some study to the question of Safety on the Highways, and any step that would make the situation less complicated merits immediate study.

"Under a uniform traffic law, ordinances should be coordinated, cars and drivers inspected for fitness, and traffic devices and markers under centralized supervision; the mounting story of accidents and sudden deaths should challenge the attention of every citizen," declared Pierce Brooks, in a recent Dallas address. The present Director of the State Safety League stated what must be the opinion of every responsible driver.

The traffic situation in Texas should be revamped to meet the demands of modern transportation, and the safety of those who use the highways.

Although he fell 55 feet to the ground while painting a grain elevator in Higginville, Mo., steep-lejack James Kelley was only slightly injured.

When cotton came to the South, prosperity followed in its wake; when cotton "comes back" better times will follow again.

Farm fires in the United States take about 3,500 lives and destroy \$100,000,000 worth of property each year, says a recent department of agriculture bulletin.

According to Dr. L. Thompson, an ordinance expert, one coast defense gun in firing one shell develops as much power as all the engines of the Navy's battle fleet. The big gun puts a 10 million horsepower push behind the projectile.

GET ON YOUR HORSE

There has been a praiseworthy increase of interest in spring and summer community clean-up campaigns, which are designed to beautify our towns and cities, raise the values of both business and residential property, and reduce the hazards of that dread destroyer, fire.

An announcement from the National Board of Fire Underwriters says that fire chiefs from many sections of the country have announced plans for radio broadcasts this season, and are also widely using the self-inspection blanks, issued free by the National Board, which makes it possible for anyone to go through his home or place of business, locate fire hazards, and easily eliminate them.

Communities which have not yet planned activities of this nature should, as the saying goes, "get on their horse." And where towns are too small to have fire departments, local officials, civic organizations, and individuals can get together and take the lead. A clean-up campaign doesn't involve any great expense or expenditure of time. It does involve making repairs to houses and buildings, painting structures where needed, razing fire-traps if any exist, keeping grass and weeds cut short on empty lots and fields, etc. In many a case, an intensive week or so of work of this sort, once real public interest is aroused, will eliminate literally thousands of fire hazards, large and small, and go a long way toward making a major disaster in the town impossible.

Further, these campaigns are a fine stimulant for local business which sell paint, lumber and other materials used. They arouse pride in the community, and cause many a lasting resolution by citizens, to always keep their property in good order and appearance. The spring clean-up, in brief, helps to make the towns of America beautiful—and safe.

THE AMERICAN WAY

The National Labor Relations Board, interpreting the provisions of the Wagner Act, has drawn a fine line between what the employer may and may not say to his employees in connection with union activities. So rigid are the Board's interpretations of where the employer stops over the line and commits an "unfair labor practice" that many charges of violation of every American's Constitutional right of free speech have been hurled at that agency.

The Senate Committee on Education and Labor is now holding hearings on proposals to amend the Wagner Act. Closely questioned by several Senators, Chairman Madden of the N.L.R.B., which administers the Act, made known his views that under many circumstances an employer would be held to have coerced his employees by telling them that the leaders of a certain union were Communists. He asserted the effect of such a statement would be to interfere with a right of employees to choose whatever union they wanted to join.

The Chairman of the Board, which has been subjected to an unrelenting barrage of charges of bias and unfairness, carried his attitude still further under questioning by members of the Committee. He said it would be an unfair labor practice if an employer told his employees that a union was controlled by officials who were aliens—persons not even citizens of the United States—if it had the purpose or effect of keeping employees out of a union. The fact that the statements were true, he asserted, would not affect a holding that the employer had violated the law.

To look a such a position as Chairman Madden took as having a vital effect on the Constitutional right of free speech is one thing and it is still another to consider it from the viewpoint of the right of every American to express himself freely about his "isms" and outsiders whose whole philosophy is the destruction of the American system of government.

At least one-third of the 48 states—including several in the South—have laws taxing heavily cottonseed oil products, according to a survey by the National Cotton Council of America.

According to J. B. Timmons of Amarillo, Texas, it has rained on every graduation night of the Bowie, Texas, high school since 1898.

NATIONAL COTTON WEEK
MAY 22-27

★ THE FIBRE OF AMERICAN PROSPERITY

A COTTON SALES EVENT sponsored jointly by the National Cotton Council of America, and the Cotton-Textile Institute.

Gems Of Thought THEY SAY!

TOLERANCE
Tolerance is the vision that enables us to see things from another's point of view.—Lassan.

He that cannot forgive breaks the bridge over which he himself must pass, for every man has need to be forgiven.—George Herbert.

We should endeavor to be long-suffering, faithful, and charitable with all. To this small effort let us add one more privilege—namely, silence whenever it can substitute itself.—Mary Baker Eddy.

Give to every other human being every right that you claim for every right.—R. G. Ingersoll.

Tolerance is good for all or it is good for none.—Burke.

Men condemn because they do not understand.—Cicero.

Judge not thy neighbor until thou art in his situation.—Hillel.

Truth never falters or fails; it is our faith that fails.—Mary Baker Eddy.

We may, without undue tension of speech, speak of Goodness as Love in conduct; of Truth as Love in thought; of Beauty as Love in self-expression.—Richard Roberts.

Truth is the summit of being; justice the application of it to affairs.—Emerson.

They serve God well, who serve His creatures.—Caroline Norton.

IN THE LOOKING GLASS
Most of the cotton belt at one time or another has looked about for some convenient goat on which to hang the blame for cotton's deplorable condition. Bitterly has blame been piled on the civil war in China, high tariffs and high taxes, the boll weevil and the dictators, Washington and the weather.

Yet during National Cotton Week it may be well for the cotton belt to look into a place it has neglected—it's household mirror. There it will find a very unusual figure, one who is both partially responsible for the present condition of cotton, and the only one who has the power to bring about cotton's recovery.

The story of what others have done to cotton is tragic; but the story of what the cotton belt has done to it, and of what it has not done for it, is both tragic and inexcusable. Those to whom cotton means most have not bothered to be loyal in its use.

National Cotton Week offers the opportunity of the year for active and effective support of the agricultural product on which twenty-five million Americans depend for all or part of their income. In sponsoring it the National Cotton Council and other agencies have not asked for sacrifices or inconveniences in behalf of a public cause. Rather they have asked the people of the cotton belt to invest their money in modern merchandise offering full returns in style, smartness and serviceability. They ask the logical support of an American market for one of America's greatest crops—a crop whose products give to every purchaser a little more than his money's worth.

goes down. And this is all life means to us—just one little day. Do today's duty, fight today's temptation, and do not weaken and distract yourself by looking forward to things you cannot see, and could not understand if you saw them.

God gives us nights to shut down the curtain of darkness on our little days. We cannot see beyond. Short horizons make life easier, give us the blessed secret of brave true living.

PRODUCTION TERMED UNEMPLOYMENT CURE

New York.—Those "in high places in Washington" who hold that this country will have a permanent army of five or six million unemployed as mistaken, Dr. Virgil Jordan, president of the National Industrial Conference Board, told the Bankers Forum here.

All that is needed to contradict their claims, Dr. Jordan declared, is a rise on the level of production to a point 25 or 30 per cent above what it was from 1923 to 1925, and this is not too great an increase to expect.

Investment in productive enterprise has been retarded to the extent of some \$100,000,000,000 in the last ten years, Dr. Jordan reported.

NEW USES FOR COTTON

College Station, May 16.—Use of cotton bags for 12 per cent of the 1937 fertilizer sales accounted for 19,000 bales of cotton.

A carload of sugar put up in cotton bags accounts for the production of 4 2-3 acres of average cotton land and gives work to 83 people. In 1938, America used 120,000 carloads of sugar. If it were all in cotton bags, it would have meant four months work to 100,000 people and the crop from more than half a million acres.

If each of the 503,000 farm families in Texas could have a new 50-pound home-made cotton mattress; and most families need several mattresses—it would mean the consumption of 50,000 bales of cotton in this state alone.

Cotton bagging as a package for cotton bales, introduced last year when it was used 17,000 bales in Texas, is superior to jute and sisal bagging from the standpoint of durability and is much preferred by spinners, who now have to comb jute and sisal fibers from the cotton.

Use of cotton bagging, cotton rope for ties, and cotton patches would not only use up around 200,000 bales of cotton annually, but would reduce the gross weight of a bale of cotton by 20 pounds, and would thus effect a saving of several million dollars a year in freight and other handling charges.

These and similar examples were quoted in a letter sent to county agricultural and home demonstration agents and signed jointly by F. E. Lichte, cotton gin specialist, Mrs. Ernie Clayton, home improvement specialist, and Dora R. Barnes, clothing specialist, all of Texas A. and M. Extension Service. The agents were urged to give their support in every possible way to the movement to increase use of cotton.

A working girl earning \$18 a week, pays \$116, or six weeks wages, in hidden taxes each year.

Senior: Lucille Petrus Junior: Alma Schumacher
Sophomore: Ethel Stengel Freshman: Teresia Andrae
Grade School: Elsie Schumacher

Graduation Exercises

Graduation exercises were held in the school auditorium on Friday night, May 12, at 8 o'clock. All available seats were occupied, and many were forced to stand in the aisles.

The stage was beautiful decorated with the class colors, blue, white and rose, predominating. The attractive class motto hung from the canopy above the stage and was brightly illuminated by a carefully concealed electric light.

The following was the program: Band concert, The Rhineland Lone Star Band.

Salutatory, Teresia Birkenfeld. Song: Was It Rain, High School Chorus.

Class History, Wilma Michalik. Class Prophecy, Lucille Petrus. Class Will, Angeline Decker.

Song, My True Love Has Gone, sopranos, Bernice Decker, Ethel Stengel, and Catherine Homer; altos, Angeline Decker and Bertha Stengel.

Distribution of Attendance Certificates, prizes, and announcement of highest scholastic averages in the various grades.

Presentation of Diplomas, John J. Hoffman. Address, Rev. Matthew Wiederkehr.

Whispering Hope, High School Chorus. Advice to Juniors, Josephine Cerveny.

Valedictory, Bertha Stengel. Song, Goodnight My Love, High School Chorus.

Diplomas were issued to Teresia Stengel, Angeline Decker, Bertha Birkenfeld, Lucille Petrus, Wilma Michalik, and Josephine Cerveny.

Scholarship awards were made to the following students: Rayford Gene Chandler, fourth grade; Ber-

nardine Homer, seventh grade; Florine Decker, eighth grade; Alma Schumacher, tenth grade.

Approximately sixty per cent of the students enrolled in the school earned perfect attendance certificates. Those receiving them were: Kenneth Blaschke, Weldon Herring, Bernard Kuehler, Francis Redder, Albert Andrae, Alvin Jungman, Everett Kuehler, Anna Ftsch, Theresia Franklin, Helen Loran, Elsie Schumacher, Lucille Schumacher, Mildred Stengel, Theresia Andrae, Florine Decker, Rose Fetsch, Nadine Kreitz, Joe Birkenfeld, Albert Brown, Joe Jungman, Genevieve Herring, Ethel Stengel, Geneva Wilde, Florine Willamson, Richard Albus, Cletus Wilde, Angeline Decker, Lucille Petrus, Bernice Decker, Alma Schumacher, Jean Wilde, Margaret Birkenfeld, Teresia Birkenfeld.

Senior Day At H.-S.U. Is Largest In Its History

Abilene, Texas.—Attendance at the annual high school senior day at Hardin-Simmons university was larger "by one barrel of lemonade" than at any other in the history of the event.

The calculations are made by Will W. Watson, who presided over the lemonade dispensing as 3000 West Texas high school seniors, with teachers, parents and friends enjoyed a West Texas barbecue, served at noon from the pits on the campus.

"We served eight barrels of lemonade, at 51 gallons each, or 403 gallons. That's one more barrel than we've needed any previous senior day," Mr. Watson said. Registration figures showed delegations from 94 high schools in West Texas, New Mexico and Oklahoma participated in the daylong sports, drama, music and entertainment program. The previous high mark was 78 schools.

Naughty Susie

Little Susie had been naughty, and her mother suggested that she mention the matter in her prayers. She did so, and this is what she said before going to sleep: Dear Lord, I know I'm a bad little girl, and I do wish you would help me be better, and if at first you don't succeed, try, try, again."

One Day Special

Californian: "Now, in my State we can grow a tree that in size in about a year. How long did it take you to grow that one?" Floridian: "Can't say for sure, but it wasn't there yesterday."

Undetermined

Flaherty: "An' who wuz the best man at Kelly's wedding?" O'Conner: "Best man? I don't know. They wuz still fightin' when I left."

Rhineland Wins Double Header Last Sunday

Still Undefeated For Softball Season

Taking both of their games Sunday afternoon, the Rhineland softballers stretched their winning streak to five straight games. A crowd estimated at 500 saw the games.

The first, with Knox City, resulted in a 7-3 victory. The last game with Goree, proved to be a thriller, the final score being 3-2. "Georgie" Decker proved his ability to undergo the strain of two hard-fought games.

In the game with Knox City Knox's scoring started in the first inning as a result of errors, and did not stop until they had scored two runs. Knox scored again in the fifth when a single, a stolen base, and two long outs brought Cypert in with their last tally.

Rhineland bunched four hits and took advantage of two errors to score five times in the second inning. Rein Kuehler reached first on an error and scored on Louis Kuehler's triple to left center. Louis scored on Leo Kuehler's single through third. Leo reached second on a wild pitch and scored on Alphonse Kuehler's single to center. Decker forced Alphonse at second and scored when Albus singled through third. Albus scored the fifth run on an error.

Rhineland scored their remaining two scores in the fourth when Leo Kuehler singled, Alphonse Kuehler walked and Albus drove out a triple to left field.

The second game, with Goree, furnished plenty of excitement from beginning to end. Decker gave up only three hits to the

powerful Ratliff crew, while Denham allowed only four.

Goree, like Knox City, scored twice in the first inning. Errors caused D. Ratliff and Moore to reach first and second, respectively, after two were out. They scored on Lambeth's single through short. After this Decker was in serious trouble only once. In the third men reached second and third with one out. This scoring threat ended however, with a pop-up and a grounder to short.

Rhineland scored their three runs in the fourth. C. Wilde, first up, poked a homer to right field just inside the right field line. Then, after two were retired, errors allowed Louis and Leo Kuehler to reach first and second. Alphonse Kuehler walked, filling the bases. "Georgie" Decker came through, winning his own ball game by getting a two-base knock to center, scoring Louis and Leo Kuehler.

Rhineland will play Benjamin next Sunday at Rhineland. Ladies will be admitted free to this game.

BEAUTY SPOTS IN MUNDAY

Three months ago Mr. and Mrs. J. C. Harpham had a pretty house with a very neat yard. Now they have enchanting gardens in which nestle a home. Several trees have been dug up to make a charming unbroken stretch of soft grass. A cobblestone walk curves gracefully across the front yard to the terrace. Many shrubs have been set out in both the front and back yards. The Harphams will soon have a plum hedge for a view from their back yard instead of the bare field that is now there. Two special attractions in their yard are the fishpond and the barbecue pit, which are being constructed. A visit to this yard would certainly be pleasing.

All of you probably know about Wallace Reed's attractive new house, but have you seen or heard about the house east of Kinsey's that is being remodeled, or Dr. Douglas' reimproved home which is expected to become one of the loveliest spots in Munday?

Among the many beauty spots of the north side of town is Mrs. U. R. Houser's south yard. And right across the street, Mrs. Giddings has one just as beautiful. Mrs. Jim McDonald's back yard is worth seeing. Mrs. Burnison and Mrs. Moore also have pretty yards.

The Austin Caughrans have a beautiful place. The shrubs and flowers on the south side of the house are very pretty.

Poppies are in bloom, and a few of the many places you can see them are at the homes of Ky Hunter, G. W. Dingus, and J. R. Nelson. The Dee Cloughs have some attractive hollyhocks.

All of the beauty spots cannot be mentioned, but try driving up and down each street in Munday. You will be surprised at the number of really attractive yards you will see.

Do not fail to see Mrs. Louise Ingram's yard. Her grass and shrubs make one of the most beautiful sights that can be seen.

Ah! Relief!

Hay Fever Sufferers Will Welcome The News, If True!

Austin, Texas.—University of Texas biologists have found a new way to bring relief to hay fever and asthma sufferers.

Molds—minute little organisms flying around in the air, particularly in common house dust—have been found to be a cause of hay fever, asthma and other respiratory allergies almost to the degree of pollen, arch enemy of the hay fever victim.

Dr. Marie B. Morrow and E. P. Lowe of the University, and Dr. Homer Prince of Houston, former staff member of the University School of Medicine at Galveston, have the cooperation of 21 allergy specialists in ten states in the use of the mold extracts they make for therapeutic treatment.

Each cooperating physician collects specimens of molds in his locality and forwards them to the University laboratory.

Isolating each variety, Miss Morrow and Lowe grow the specimens in culture, identify them, produce large quantities, and dry and store them. They send some of the stock to Dr. Prince in Houston, who prepares extracts and send them to the cooperating physician. He in turn uses them for both skin tests and therapeutic treatment.

Mr. and Mrs. Riley B. Harrell and little daughter visited relatives in Abilene last Sunday.

Mrs. L. C. Davis spent the weekend with relatives in Stamford.

Munday Study Club Closes Year With Morning Breakfast; Officers Elected

The Munday Study Club closed its 1938-39 club year with a breakfast at the club house on Friday, May 12, at 9:00 a.m. The breakfast was served by members of the home economics department of the local high school.

Charlott Ann Williams sang two numbers, accompanied by Mrs. H. A. Longino at the piano.

Mrs. Jack Mayes, outgoing president, called the house to order and presided during the business session.

Mrs. H. F. Barnes made a short speech, complimenting Mrs. Mayes on her splendid work as president during the year. Members drank a toast to Mrs. Mayes. She responded to this honor with a speech of gratefulness to each member for her cooperation during the year.

Mrs. J. C. Harpham gave a review of the year's progress.

New officers were installed as follows: Mrs. Jess Burnison, president; Mrs. Jim McDonald, first vice-president; Mrs. J. C. Harpham, second vice-president; Mrs. Chan Hughes, recording secretary; Miss Maud Isbell, corresponding secretary; Mrs. D. C. Eiland, treasurer; Mrs. Paul Pendleton, assistant treasurer; and Mrs. Jack Mayes, executive member.

Attending this meeting were Mesdames W. L. Barber, H. F. Barnes, J. C. Borden, E. B. Bowden, F. S. Broach, Jr., J. R. Burnison, W. R. Cabaness, D. C. Eiland, L. A. Jobe, J. C. Harpham, R. B. Harrell, Chan Hughes, Sebern Jones, Lawrence Kinsey, Jack Mayes, Jim McDonald, Paul Pendleton, M. H. Reeves, J. L. Stodghill, P. V. Williams, R. D. Atkinson, T. G. Bengel, H. A. Pendleton, Oates Golden, and Miss Maud Isbell.

Pioneer Circle Meets In Home Of Mrs. Marian Pruitt

The Pioneer Circle met in the home of Mrs. Marion Pruitt on Thursday, May 11.

After a very enjoyable social hour, a delicious refreshment plate was served to the members and two visitors.

Present were Mesdames Verna Nelson, Nan Dingus, Dorcus Phillips, Nancy Edwards, Annie Russell, Emily Carden, Kattie Redwine, Hettie Rogers, Hattie Sessions, Phoebe Besaire, Jessie Beecher, Mae Bowden, Bertie Wilson, Algie Huddleston, Mrs. Michela, Mary Ziessel and the hostess.

The next meeting will be at the home of Mrs. Edith Russell on May 21st.

Mrs. L. M. Palmer spent Mother's Day with her mother in Grand Saline, Texas.

Miss Eleanor Jungman of Lubbock, a member of the secretarial staff of Texas Tech, spent the week end here with her parents, Mr. and Mrs. L. A. Jungman.

Mr. and Mrs. Ralph Burrow were visitors in Crowell last Sunday.

Munday Music Club Meets At Goree With Mrs. Taylor

The Munday Music Club met in Goree Thursday afternoon, May 11, at the home of Mrs. W. M. Taylor. The club closed an interesting and altogether successful year's work with a program on American Conservatories of Music, directed by Mrs. J. C. Borden.

Each member answered roll call with a current event in the world of music.

Members of the club were delighted to have Kenneth Frizzell of Knox City give three accordion selections.

The following program was given by members of the club:

Narcissus, piano solo (Nevin); Mesdames W. M. Taylor, Louise Ingram and Jim McDonald.

A Day in June (from Sir Launfal), James Russell Lowell, and Trees, (Joyce Kilmer)

Mrs. C. P. Baker My Lover Is A Fisherman (Strickland) and End of a Perfect Day (Bond)

Mrs. Orb Coffman Guest list included: Miss Daniels and Mesdames Arnold, Daniels, Hampton and Madole.

Members present were: Mesdames C. P. Baker, J. H. Bass, T. G. Bengel, W. E. Braly, Orb Coffman, John Ingram, Louise Ingram, Carl Jungman, Jim McDonald, W. M. Taylor, J. C. Borden, W. R. Moore, Don Ferris and Travis Lee.

Birthday Dinner Given In Honor Of Mrs. Emma Hill

Relatives and friends surprised Mrs. Emma Hill with a "Mother's Day" and birthday dinner on Sunday, May 14. All of her children and grandchildren were present to render to Mother the highest tribute for her love and service through all these years.

Mrs. Hill celebrated her 69th birthday.

At the noon hour, 69 guests arrived with well-filled baskets, and dinner was served picnic style.

Present for the occasion were Mr. and Mrs. Ralph Weeks, Mr. and Mrs. Paul Hill and family, Mr. and Mrs. Delmer Hill and family, Mr. and Mrs. A. M. Searcey and family, Mr. and Mrs. Lamar Searcey and family, Mr. and Mrs. E. J. Cude and family, Mr. and Mrs. W. C. Hill and family, Mrs. Annie Coley and three daughters, Mr. and Mrs. Andrew Hill and family, Mr. and Mrs. Raymond Hargrove and son, Mr. and Mrs. Arthur Hargrove and son, Mr. and Mrs. Brice Dobbs and family, Mr. and Mrs. Elmer Cude and son, Mr. and Mrs. Aubrey Smith and family, Mrs. W. O. Pentecoff, Mrs. Effie Chandler and Miss Dora Norville.

Radiator repairing. The Munday Plumbing Co. 46-17c

Entrancing Vista

When it comes to beauty, the magic isle in the middle of San Francisco Bay which is the site of the California World's Fair, is a setting which leaves nothing to be desired by even the most imaginative. This spring the thousands and thousands of tulips have been a show in themselves. Here is a portion of Treasure Garden which is a riot of blooms, with the romantic South Tower in the background.

Wanda June Williams Has Leading Role In College Stunt Night

Taking an important role in the Texas State College for Women sophomore class stunt when it was given at the West Texas Chamber of Commerce Convention in Abilene Monday night, May 15, was Miss Wanda June Williams of Munday.

The stunt, "A Zamba Zamba Zam Bee," was written by Miss Jane Abbot of Dallas, and won from all the other classes the annual stunts night contest held at the college recently. The 18 girls appearing in the stunts were taken to Abilene in college buses.

Miss Williams, daughter of Mr. and Mrs. P. V. Williams, is a sophomore student studying speech.

Eighty-Four Club Meets Thursday At Club House

The Friendly 84 Club met on Thursday afternoon at the club house of the Munday Study Club. Hostesses for this occasion were Mrs. B. L. Blacklock and Mrs. John Ed Jones.

After the games, a very pretty refreshment plate was served to the members and guests.

Members and guests present were Mr. and Mrs. D. E. Holder, Mr. and Mrs. C. R. Elliott, Mr. and Mrs. Riley B. Harrell, Mr. and Mrs. W. V. Tiner, Mr. and Mrs. Chester Borden, Mr. and Mrs. G. R. Eiland, Mr. and Mrs. Chester Bowden, Mr. and Mrs. M. H. Reeves, Dr. and Mrs. A. A. Smith, Mr. and Mrs. Lee Haynes, Dr. and Mrs. H. B. Douglas, Mr. and Mrs. L. S. Hardegree, Mr. and Mrs. Herbert Barnes, Mrs. W. E. Reynolds, Mrs. Leland Hannah, Mrs. W. L. Barber, J. C. Campbell, B. L. Blacklock, John Ed Jones and the hostesses.

Sewing Club Holds Meet With Mrs. R. B. Bowden

Members of the sewing club met in the home of Mrs. R. B. Bowden on Wednesday afternoon. After spending some time sewing, an ice cream course was served to the members.

Members present were Mesdames R. B. Harrell, L. S. Hardegree, Deaton Green, M. L. Barnard, H. B. Douglas, Chester Bowden, W. R. Cabaness, Aaron Edgar and the hostess.

Guests were Mrs. B. Hanks and Mrs. Lyle Stodghill.

WASHBURN NEWS

Miss Estilene Guley of Wichita Falls visited here parents here last Monday.

Mr. and Mrs. Ezell Reynolds have moved into this community.

Mr. and Mrs. C. N. Smith visited C. V. Morris of Rule last Monday.

Mr. and Mrs. Lamar Searcey visited Mr. and Mrs. Alvin Reid Sunday evening.

Mr. and Mrs. C. H. Guley of Weinert visited Mr. and Mrs. Thurman B. Guley last Sunday.

Mr. and Mrs. John B. Ingram of Munday spent Sunday with Mr. and

Ethelena Simpson spent Wednesday night with their grandparents, Mr. and Mrs. J. F. Simpson of Munday.

Earl Moreley, district superintendent, and T. W. McCoy, district sales manager of the West Texas Utilities Company, both of Quanah, were here first of this week attending to business in connection with the company.

"THE STORE WITH THE GOODS"

LETTERS FROM THE PEOPLE

LOAN COTTON

There are some rumors around town to the effect that it has been beneficial and will be beneficial in the future for the producers to plant short staple cotton because some of this character of cotton has been selling out of the loan recently. Please do not be misinformed or misled. It was not because of any value or virtue in the short cotton itself that caused it to sell, but because of the fact that it was penalized heavily at the time it was put into the loan. The penalty was one hundred points, or five dollars per bale, and if the purchaser of the equities is able to either high density the cotton into seven-eighths—which will substantially reimburse him—or receive the benefit of any misclassification on the part of the classer who put the cotton into the loan, he will be benefited to that extent. Therefore, it was because of the penalty inflicted at the time of the loan, with the other anticipated profits, that he cotton has been able to sell at all. For example—if the seven-eighths cotton had sold there would be a possibility of making only forty points by making fifteen-sixteenths out of it, or raising the staple one-sixteenth of an inch—but by raising the staple of thirteen-sixteenths up to seven-eighths or actually raising it one-sixteenth of an inch, there would be a raise in value of one hundred points, or five dollars per bale.

It is my opinion that the producers of this territory will receive greater benefits and larger returns per acre for their cotton if they will join the Better Cotton Club and go along with the one-variety group and put their cotton into the Export program. Cotton under seven-eighths inch staple will continue to be penalized whether you sell it or put into the loan.

JIM HARPAM

To The Cotton Growers Of This Community:

Since the delay of rain has made late planting of cotton necessary, I wish to present some important facts to the cotton growers of this community. Some farmers still retain the idea that some form of half and half cotton is the quickest maturing cotton for this section. But in many experimental tests it has been proved that the California Acala matures from five to seven days earlier than any other variety.

Not only does Acala mature earlier, but it also has longer and stronger fiber and can be spun into better cloth yarn.

In order to give you a brief review of what Acala has already done for this community I will enumerate a few facts of the last year or two.

Acala cotton sold, roughly speaking for \$10 per bale more than short staple did. On this basis, this community could make \$90,000 more on a crop of 9,000 bales each year. It is estimated that about 60 per cent of the cotton crop in this locality during the past year was Acala, and a postcard survey showed that at one time during this spring about 93 per cent of the cotton land was to be planted in Acala.

This is a great advancement, when it is taken into consideration that the seed has only been in the community about two years.

The growing of this variety of Radiator repairing. The Munday Plumbing Co. 46-tfc

Cecelia Cunningham - Denton
Louise Russell - Saint Jo
Martha Jo Godwin - Whitesboro
Carroll Ellis - Dallas
Martha Jo Edwards - Kaufman
Calvin Daniel - Denton
Nancy Harris - Denton

Denton, Tex.—Five co-ed queens of glamour and grace and two mere males will be featured as campus "favorites" in the 1939 "Yuca," school annual of the North Texas State Teachers College, Raleigh Uary, "Yuca" editor, has announced. The book is scheduled to be released from the college print shop about May 25.

The men favorites this year include a student minister-debater, Carroll Ellis of Dallas, and a talented young musician, Ralph Daniel of Denton. The two good-looking men and a bevy of five beautiful coeds, all elected by popular vote in campus balloting this spring, will be played up in the Favorite Section of the college yearbook, a double-page spread devoted to the pictures and personality of each.

The five co-ed favorites: Miss Cecelia Cunningham of Denton, upper left; Miss Martha Jo Edwards of Kaufman, upper right; Miss Louise Russell of Saint Jo, center; Miss Martha Jo Godwin of Whitesboro, lower left; and Miss Nancy Harris of Denton, lower right.

staple, but it also yields more per acre and is in greater demand in the markets.

Livestock Meet To Be At Lubbock

Lubbock, Texas, May 10—May 31 next has been set as the date of the Agricultural-Livestock-Industrialist meeting for West Texas region at Lubbock. This meeting will be held under the immediate direction of the Texas State Manufacturers Association, the Texas Technological College and the Lubbock Chamber of Commerce.

Dr. John Lee Coulter, economist, Washington, D.C., will be the principal speaker. J. Handy Wright, secretary of the committee on agricultural cooperation of the National Association of Manufacturers will conduct a farmer-manufacturer session. Dr. Kenneth M. Renner, head of the Department of Dairy Manufacturers at Tech will preside.

Dr. Coulter has been described as America's leading authority on foreign commerce and is said to be better posted on "tariff and agriculture" than any other man. He will discuss the "cotton situation" and other agricultural problems as they relate to industry.

This is the first meeting of its kind to be held in Texas and Lubbock has been chosen as the location. The session will begin Wednesday morning, May 31, at 9:30 o'clock at the judging pavilion at Texas Tech and continue through the day. Cost of farm machinery, marketing cattle, wool,

etc., will be discussed at the meeting.

At noon there will be a barbecue given all the visitors. Approximately 1,000 or more are expected. There will be no registration fee.

Letters or invitations are being mailed to farmers, bankers, newspapermen, manufacturers and business men throughout the area.

Del Rio Man Is New President Of W. T. C. C.

E. K. Fawcett of Del Rio, new president of the West Texas Chamber of Commerce, is a typical pioneer West Texan.

For many years he has been one of the largest sheep ranch operators in Texas.

Mr. Fawcett has represented Del Rio and Val Verde county on the board of directors of the West Texas Chamber of Commerce for more than a decade. He was elected second vice-president of the organization in 1937 and was named first vice-president in 1938. He was elevated to the presidency at this year's WTCC convention which closed in Abilene Wednesday, May 17th.

Although he has passed the age when many men retire, Mr. Fawcett is still active and hearty. Through all the years he has maintained an active interest in the welfare, not only of his home city and county, but all of West Texas as well.

He first arrived in Val Verde county on July 24, 1883, coming from Yorktown, Texas. In com-

pany with a group of other young men he drove a flock of 3,000 sheep into Val Verde county and settled on Dolan Creek, about 60 miles northwest of Del Rio. The party lived in a cave until a house could be built of sycamore logs.

Mr. Fawcett has prospered through the years and now owns 53 sections of land, well improved and stocked with sheep and goats. He and Mrs. Fawcett have six children, Horace, Elmer, Walter, Leo, Mrs. O. D. Finnegan and Mrs. F. C. Whitehead, all of Val Verde

county. Now president emeritus of the Del Rio Chamber of Commerce, Mr. Fawcett was active president of that organization for six years. One of his hobbies is city parks and many beautification projects in Del Rio parks have been carried out under his direction.

Another one of his keenest interests is the Boy Scouts. He is president of the Southwest Texas Council of Boy Scouts and has been awarded the Beaver Badge, highest honor that can be given a layman in Boy Scout work. The Council's beautiful camp near Barksdale on the Nueces river was named "Camp Fawcett" in his honor.

He is chairman of the board of directors of Del Rio Wool and Mohair Co., and is past president of the Texas Sheep and Goat Raisers' Association.

Mr. Fawcett also has had the distinction of serving as director in two regional Chambers of Commerce at the same time—the West Texas and South Texas organizations. Val Verde county is on the dividing line of the two territories and maintains memberships in both Chambers.

Cotton Contest 13 Years Ago Is Credited By Wellington Man With His Owning Some 8,000 Acres

F. O. MASTEN, PANHANDLE FARMER, WHO WON \$3,000 WITH WIFE FOR SUCCESS IN MORE-LINT COMPETITION, SAYS DALLAS NEWS HELPED IMPROVE AGRICULTURE

How the lessons of The Dallas Morning News cotton contest back in 1925-26 started him off to profitable farming, now expressed in full ownership of some 8,000 acres of farm land, was told Tuesday by F. O. Masten of Wellington, Collingsworth County, who came here Monday to view the testimonial banquet for Victor H. Schoffelmayer at the Jefferson Hotel given by the Dallas Agricultural Club.

Mr. and Mrs. Masten, The News records show, were awarded four prizes totaling \$3,000 for the West Texas sector of the state-wide More Cotton on Fewer Acres Contest which The News conducted during the period 1924 to 1927, inclusive. A grand total of \$21,000 in cash was distributed among Texas farmers, the awards being based upon definite staple lengths and quality requirements of the cotton grown.

Calling at The News agricultural department Tuesday, Mr. Masten, who had driven from his home in the Panhandle to attend the Monday banquet, told how he and his wife, who is his partner in all his farming operations, had learned that higher yield per acre is the very basis of profitable farming and how they never forgot that discovery.

"We have made farming pay all these years," Mr. Masten said, "but we have followed the kind of farming that we have found is suitable for the plains. Our region is naturally adapted to large-scale mechanized operations both as to cotton and the feed crops. We began to enrich our stiff clay lands with cotton gin trash which we hauled from near-by gins to our farms with the aid first of mules and later of tractors. This trash we plowed under and gradually enriched the soil and increased its water-holding capacity until last season we averaged 531 pounds of lint per acre as compared with an average for our neighborhood of less than 200 pounds.

High Acre Yield
"Mrs. Masten the first year of the contest produced 4,530 pounds of lint on five acres and in the second year 5,719 pounds, or better than two bales per acre. We have tried to keep up high records ever since by practicing the same kind of farming which we did to win The Dallas News prize. As a result we today own 8,000 acres of the best farm land on the Plains and are farming every acre of it along scientific lines. We both think that the effects of The Dallas News cotton contest upon the farming practices of West Texas are of lasting merit and that the interest aroused in those days have made for much better farming all around."

Mr. Masten, who left for Wellington late Tuesday, said he finds it profitable to raise cotton which gives a staple of seven-eighths length, which he finds best adapted

to the region. The longer staples, he said, mature too late on the Plains and because of the structure of some of the bolls of the longer staples, are subject to damage by the dust which occasionally blows. The Mastens divide their crops about evenly between cotton and feed and have no difficulty selling all their hog and mule to grain dealers. They have not made it a practice to feed animals.—The Dallas Morning News, May 3, 1939.

Gov. O'Daniel To Be At Stamford Cowboy Reunion

Stamford, Texas, May 15.—Governor W. Lee O'Daniel is one of half a dozen outstanding men of the State and Nation who already have accepted invitations to attend the tenth annual Texas Cowboy Reunion which will meet in Stamford July 3, 4 and 5.

Lieutenant Governor Coke Stevenson also has said he will be here. Federal Judge James V. Allred, who never missed a session during the four years he was governor, will be back this year, as well as Edward Clarke, former secretary of State, another annual visitor.

Paul Whiteman, famous orchestra director who has taken up horses as a hobby, has accepted an invitation for a second visit to the Reunion. He attended in 1937.

With Whiteman will be Amos G. Carter, Fort Worth publisher, who has become an ardent Reunion enthusiast since his visit here last year. Carter is said to be practicing up on his riding in order to make a good showing with the cowhands.

All of these notables have been given honorary memberships in the Texas Cowboy Reunion Association, but Frank M. King, associate editor of the Western Livestock Journal, Los Angeles, is a member of the oldtime cowboys' organization in his own right, being a former Texas cowhand. He attends the reunion every year and has written Chas. E. Coombes, secretary of the association, that he will be back this year "if somebody don't shoot me."

HIKE IN CARLOADINGS
The Santa Fe System carloadings for the week ending May 6, 1939, were 20,103 as compared with 18,350 for the same week in 1938. Received from connections were 5,919 as compared with 4,857 for the same week in 1938. The total cars moved were 26,022 as compared with 23,207 for the same week in 1938. The Santa Fe handled a total of 26,402 cars during the preceding week this year.

Think of safety and the doctor won't have to think of you.

Traffic Deaths Reduced During First of Year

Expert Scores Excess Night Fatalities

Austin, Texas, May 15.—Julian Montgomery, State Highway Engineer, called attention to a noteworthy reduction in persons killed and injured in motor vehicle traffic accidents the first three months of 1939, as compared to previous years.

Year	Killed	Injured
1939	353	3,398
1938	434	3,650
1937	441	3,846

"This reduction," Mr. Montgomery said, "was the result of an intensive educational campaign being carried on by the Traffic and Safety Division of the Highway Department in conjunction with the Department of Public Safety and other enforcement agencies. It also shows a splendid cooperation by the traveling public of Texas, but we must keep up the good work."

Sunday continues to lead all other days in the number of accidents, with Saturday in second place. 6 p.m., to 8 p.m., are hours in which most accidents occur, and passenger cars were involved in 70 per cent of all accidents. 62 per cent of all accidents happened while the vehicles were going straight ahead, and 14 per cent of all accidents happened while the operators were going too fast for conditions. For your own safety and that of other motorists and pedestrians, drive carefully and respect the other drivers' rights.

Smallpox Put Under Control By Physicians

Austin, Texas, May 16.—Case reports reaching the State Department of Health indicate that smallpox is rapidly forging to the front in the list of preventable communicable diseases over Texas at this time.

"Smallpox epidemics would never occur if everyone, especially children, could be effectively vaccinated," states Dr. Geo. W. Cox, State Health Officer. "At the present time there is an increasing lack of vaccination among school children and this constitutes a menace."

"Modern safeguards have removed every legitimate objection to vaccination. The virus is made from calves, and consequently, is incapable of transmitting human blood diseases. Among some ten million vaccinations performed in the Philippine Islands, there was no loss of life or limb or demonstrable injury to health."

"A primary vaccination with one successful revaccination will, as a rule, protect throughout life from the milder forms of smallpox, but this is not true in the severer types of this disease. Therefore, be vaccinated and revaccinated at least every five years, so that you will have the greatest protection possible and the least chance of being sick. Revaccination should also be done after each time you have been near a known case of smallpox. Vaccination is not to be feared but rather sought as the only safe, positively harmless and absolutely certain safeguard against smallpox. See your doctor today and be sure that you are protected."

All but two States are now paying benefits to employees insured under State unemployment compensation laws. These two States—Illinois and Montana—will begin payments next July, in accordance with their State unemployment compensation laws.

"Go Signal" Is Given Builders By New Legislation For FHA

Passage by Senate of FHA Amendments gives the "go" signal to builders, lending institutions and home buyers who have been holding back because of uncertainty of the extension of liberal provisions of the National Housing Act, according to Wm. H. Clark, Jr., State Director of the FHA.

Legislation has been passed by both Senate and House and is now in Conference with no serious difficulty to be ironed out. Bill should be ready for the President's signature within a few days.

Major features of legislation under Title II:

(a) Increase from three billion dollars to four billion dollars in amount of mortgage insurance which can be outstanding at any one time; increase being subject to Presidential action.

(b) Extension of twenty-five amortization period permitting loans to home-owner occupied houses costing not more than \$6000 to run maximum term of twenty-five years.

(c) 90 per cent loans on home-owner occupied houses costing not more than \$6000 continues without need for additional legislation.

(d) Extension for two years of modernization loan insurance under Title I (repair program) with certain amendments including an annual premium of from 1-2 of 1 per cent to 1 per cent.

(f) Senate bill contains provisions for prevailing wages to be paid laborers and mechanics on National Housing projects costing more than \$16,000.

(g) Senate bill also contains provision limiting mortgages insured under Section 207 (Rental projects) to 80 per cent, of estimated value of project upon completion and also will prevent insurance of mortgages exceeding estimated

Acute Problems Give Emphasis To Cotton Week

Cotton Belt states and communities are uniting this month in a challenging campaign unprecedented in the annals of American cotton-growing history to promote greater consumption of cotton products through National Cotton Week, May 22 to 27.

Backed solidly by other national organizations, the National Cotton Council and the Cotton Textile Institute are leading the drive as official sponsors of the 1939 observance.

Throughout the Cotton Belt, cotton carnivals will abound during National Cotton Week, with many kings and queens of the cotton realm receiving homage in beautifully cotton-decorated courts. The story of cotton from its infancy to reigning supremacy will be unfolded in pageants through which particular stress will be placed upon new cotton styles and fabrics dictated by fashion leaders for the coming summer.

More than 75,000 retail merchants throughout the nation will feature and display cotton products—a new high for cooperation in the annual celebration.

Cooperating with the Cotton Council and the Cotton Textile Institute in the expanded Cotton Week are the National Retail Dry Goods Association, the Wholesale Dry Goods Institute and chains affiliated with the Institute of Distribution, the National Association of Food Chains and the National Association of Chain Drug Stores.

Particular significance is being attached to Cotton week this year by virtue of acute problems facing the crop and the industry. In five years the world price of American cotton, based on the gold dollar, has dropped approximately 18 cents a pound to an all-time low of five cents, while 1939 exports are setting a new low of 3,500,000 bales as compared with the normal annual export of 7,500,000 bales.

At the same time, figures reveal that world consumption of foreign cotton has increased in ten years from 10,000,000 bales to 16,750,000. The cotton industry likewise faces an increasingly destructive threat from synthetic fibers, production of which has increased in ten years from an equivalent of 738,000 bales to 4,500,000 bales per year.

Paper, manufactured in 37 states, has replaced cotton in over 100 varied fields, while jute, wool and flax have also gone flagrantly into cotton original kingdom.

It is predicted that at the close of the current crop year, the world will have on hand more than 14 million bales of American Cotton, a million more bales than has ever existed before as carry-over.

It is toward this staggering surplus and prevention of further increases that the Cotton Council is directing its efforts.

Why Bother?

"Thirty days hath September, All the rest I can't remember. The calendar hangs upon the wall;
Why bother me with this at all?"

A quart of milk furnishes one gram of calcium. A gram of calcium a day is needed by young children, and children in periods of rapid growth as in adolescence.

O'DANIEL GIVES IN TO EAST TEXANS

Last week Governor W. Lee O'Daniel, after three unsuccessful tries to buck the will of the East Texas delegation in the Senate, finally capitulated.

In succession he had named Carr Collins of Dallas, J. C. Hunter of Abilene, and J. M. West of Houston, to the Texas Highway Commission, and in succession the Senate had said "no."

East Texans demanded a full-fledged East Texan to replace John Wood of Timson on the Commission. Last week Governor O'Daniel filled their order by naming popular Brady Gentry of Tyler, former Smith county judge, to the post.

An unsuccessful candidate for Congress last year, Gentry nevertheless is one of the most popular men in East Texas and his confirmation by the Senate was widely predicted.

A Vision of Captain Billy Lowrance
 Height 6 ft. 2 inches.
 Weight, 200 pounds.
 Description: Blond hair, blue eyes.
 Favorite teacher: Mr. Cobb.
 Age: Seventeen.
 Favorite sport: Football.
 Snatches from his life—
 Billy has gone to the Munday Public Schools since he was old enough to go to school. He has always enjoyed sports of all kind, but football has held the spotlight. He was elected captain of the team of '38 and '39. Billy had next to the highest average for the boys, ranking next to Orville Matlock. Billy expects to graduate June 2, but he is undecided as to what he will do thereafter.

It seems to us that a college education is equivalent to little more than a high school education. We never realized before that we were required to hand in so much work before we can graduate. Now with final exams staring us in the face we have to rush to hand in term themes, law cases, typing projects, and book reports. The worst part is that the more we learn the more we realize how little we know! Some of us will amount to something above ordinary... you wait and see!

Home Economics Report
 When a proud mother volunteers to tell her friends across the bridge table that her Mary has so many units of home economics, her friends flutter over Mary with a vague idea that home economics is some sort of science that is taught in public schools. If these women were interested enough to do a little investigating, they would find that home economics is one of the most fascinating subjects a school can offer.

Girls begin by studying personal appearance in their freshman year and work through the ordeal of planning and serving breakfasts. In second year home economics the girls learn more about dietetics and work with wool material. In third year home economics the girls study personality, emergency Red Cross services, interior planning, and decorating the home, care of children, and they are required to plan on graph paper and cut out of cardboard their ideal home.

Drivers! When the Sun Goes Down, Slow Down

During what part of the 24-hour day are most persons being killed on our highways?
 Statistics show that although most of the automobile traffic is in the daytime, most of the fatalities occur at night. Six out of every ten deaths occur while three out of every four cars are safely garaged for the night. These highly pertinent facts are revealed in "Lest We Regret," the ninth in an annual series of booklets published by The Travelers Insurance Company in the interests of highway safety.
 During the period from 1930 through 1937, deaths due to automobile accidents during the hours of darkness increased 54.5%; while fatalities during daylight actually decreased 5.4%.

speed of a sound wave at the distance of 300 meters. The experiment took place at the golf course.
 After eating a huge picnic lunch, we returned to school at one o'clock to find that there would be no school in the afternoon, which fact was received with great enthusiasm.

FIRST BAPTIST CHURCH

Our Sunday School lesson next Sunday is What Alcohol Does to Our Homes. The cost is great from a monetary standpoint, but the cost in other ways is far greater. Every means possible to the ingenuity of man is used to induce the people, both old and young, to drink the terrible stuff. New graves in the cemeteries, wrecks on the highways, moral breakdowns, suicide, rapine and plunder, broken homes, and broken hearts that are the result of this terrible debauching influence should make us stop and consider our ways.

Bob Ingersoll had the following to say about the alcohol business: "I am aware that there is a prejudice against any man engaged in the manufacture of alcohol. I believe that from the time it issues from the coiled and poisonous worm in the distillery until it empties into the hell of death, dishonor, and crime, that it demoralizes everybody that touches it, from its source to where it ends. I do not believe anybody can contemplate the subject without becoming prejudiced against that liquor crime. All we have to do, gentlemen, is to think of the wrecks on either bank of the stream of death, of the suicides, of the insanity, of the poverty, of the ignorance, of the destitution, of the little children tugging at the faded and weary breasts of weeping and despairing wives, asking for bread; of the talented men of genius it has wrecked, the men struggling with imaginary serpents, produced by this devilish thing; and when you think of the jails, the almshouses, of the asylums, of the prisons, of the scaffolds on either bank, I do not wonder that every thoughtful man is prejudiced against this thing called alcohol."
 It speaks for itself. The liquor interests are always looking for raw material, but they never like to face their finished product. They are always interested in selling

Better Lighting Urged As Remedy For Traffic Deaths On Highways

Speaking before the Chicago Junior Association of Commerce as part of its recently launched "Safety With Light" campaign to make Chicago's streets safe after dark, Earl J. Reeder, Chief Traffic Engineer of the National Safety Council said that two-thirds of the traffic fatalities occur between sunset and sunrise, despite the fact that less and one-third of the traffic is moving during those hours. Although there are several minor contributing factors, Mr. Reeder stated that the major cause of excess night fatalities is the lack of adequate visibility. Few streets, he said, today provide lighting conditions which allow objects on the street surface to be adequately distinguished after dark.

"Slow down at sundown," was the warning which Mr. Reeder gave to the motorist when he had to depend entirely in headlights for night driving. Headlights are being improved but there remain many perplexing problems, not the least of which is the proper maintenance of automobile lighting equipment by the motorist himself. The driver must reduce his speed to conform with the visibility and the conditions of lighting under which he is driving at night. The reflection of the lights from the driver's own headlights is apt to be quite slight from most objects on the highway. Dark clothes, the hair on an animal, or a wagon or carriage moving slowly along the road have almost no reflective qualities and are particularly indistinguishable in the presence of light from approaching vehicles.

The primary function of good street or highway lighting is to silhouette objects against the brightened surface of the road and modern lighting must be properly designed to direct lighting onto the pavement and sidewalk and not, as in the case of antique equipment, to dissipate it into the air to illuminate the tree tops or to compete with the stars in lighting the heavens.
 Mr. Reeder said that great strides are being made to determine the exact relation of light to safety by such organizations as the Committee on Night Traffic Hazards of the National Safety Council and through the study of actual "before and after" cases. As an example, the experience of Detroit in slashing its night traffic deaths

The campaign of the Chicago Junior Association of Commerce is but one of those being conducted by similar organizations in 41 cities throughout the country as part of the national "Safety With Light" program of the United States Junior Chamber of Commerce endorsed by President Roosevelt a short time ago. The program has been designed to eliminate America's fatal streets, which, though they represent but ten per cent of total city street mileage, account for almost fifty per cent of total urban auto fatalities. Philip C. Ebeling, president of the United States Junior Chamber of Commerce, expects that several hundred of their affiliated organizations will carry out "Safety With Light" programs during the next year or two. "I have never," he said, "seen an activity which seemed to meet a more general or vital need, or which has met with more immediate and enthusiastic acceptance."

Miss Wanda June Williams, who is attending T.S.C.W., at Denton, spent the week-end here with her parents, Mr. and Mrs. P. V. Williams. She had as her guest her roommate, Miss Violet BeVile.

Strength Needed In New Drivers' License Law

Austin.—Need for a strengthened driver's license law to weed out unfit drivers was emphasized as the Texas Traffic Officers Training School closed a two-week course at state police headquarters.

Among speakers who urged passage of the amended drivers' license bill pending in the Texas Senate were Carl Rutland of Dallas, president of the Texas Safety Association, Inc., and Judge King S. Williamson of the Dallas corporation court.

"Suspension or revocation of a driver's license is no different from suspending a barber's license, for example, or a beauty shop license for cause, or certain permits given operators by the Railway Commission," Rutland pointed out. "If such provision is made in those fields, who not in the bigger one of safeguarding lives and property?"

Judge Williamson declared the privilege to drive "must be based on a driver's license law and ex-

amination of the individual on brains, physique, ability and knowledge of the law." He warned, "We've got to educate the man who thinks only 25 or 30 miles an hour to drive only 25 or 30 miles an hour," and advised the officers they are entering a new era in which "you'll use your head more and your feet less." Their main job, he said, will be to prevent crime instead of catching the culprit after the offense.

The training school, co-sponsored by state police and national safety men, closed with a comprehensive examination and a graduation luncheon. The school was the first of its kind ever held outside the auspices of a university or college and had Lieutenant Franklin M. Kreml of Evanston, Ill., the nation's outstanding traffic expert, as its main instructor.

Mr. and Mrs. J. A. Warren returned home Monday from Malakoff, Texas, where they had been visiting for two weeks.

Mr. and Mrs. Chalmers Hobert and daughter, Diane, spent Sunday and Monday in Arlington with Mrs. Hobert's brother, Clifford Jeffords, who is attending N.T.A.C.

CC Convention Is Attended By Munday People

Munday sent a large delegation to the West Texas Chamber of Commerce convention in Abilene this week.

On Monday, the first day of the convention, the high school chorus, under the direction of Miss Mildred Kennedy, attended and appeared on the program.

W. E. Braly, official delegate from the local Chamber of Commerce, attended during two days of the convention.

The Munday school band also attended and appeared with other bands in Tuesday's parade. Munday's band made an excellent showing at the convention, in spite of the fact that it is only five months old.

Others to attend during at least one day of the convention are: Mr. and Mrs. H. A. Pendleton, J. A. Caughran, Riley B. Harrell, Mr. and Mrs. T. G. Benze, Mrs. Louise Ingram, Mrs. Carl Jungman, Mrs. P. V. Williams, Mrs. Fred Brouch, and Mrs. J. C. Borden.

automobile in which they drift from one end of the state to the other as work becomes available.

"The conditions under which these laborers are living constitute a menace not only to the communities in which they are temporarily located," he stated, "but also to the entire state." He stated that although the migrant labor situation in California has attracted nationwide attention, in the two Texas counties of Hidalgo and Nueces alone placements of these people last year equaled more than one-fourth of the total laborers living in California.

Other migratory labor camps will be located at Weslaco, Robstown, and Sinton.

Gene Howe Is Lubbock Speaker

Lubbock, Texas, May 15.—Gene Howe, president and publisher of the Amarillo Daily News and Amarillo Globe, was principal speaker at a banquet Thursday night sponsored by the Department of Journalism of Texas Technological College. Howe is nationally known as "Old Tack" author of a daily column, "The Tactless Texan."

This is the first time the Amarillo publisher has spoken to Tech journalism students. Cecil Horne, head professor of journalism, said that the department had looked forward to an occasion when Howe, donor of an annual journalism scholarship at Tech, could visit here. The News-Globe gave a \$50 scholarship last year for the best student reporter and will give another scholarship this year.

Howe is a son of the late Ed Howe, "The Sage of Potato Hill," editor of the Atchison (Kan.) Globe and noted author. In his own right he has advanced from reportorial jobs on newspapers in Kansas, Idaho, and Oregon to a position as publisher of several newspapers throughout West Texas.

Benjamin Has 13 Graduates

Honor Students Are Nathan Mitchell, Marie Stark

There are thirteen high school seniors who receive their diplomas from Benjamin high school this year, according to an announcement made by Supt. W. C. Cunningham.

Supt. Cunningham announced the honor students of the class as Nathan Mitchell, valedictorian, and Marie Stark as salutatorian.

Class officers for the session just closing have been Nathan Mitchell, president; Claudia Snallum, vice president; Rubye Jo Trainham, secretary-treasurer, and Marie Stark, reporter.

Members of the graduating class are: Marie Stark, Edna P. Chamberlain, Nathan Mitchell, Minna Lo Porter, Corrine Feemster, Melba Trainham, Beatrice Nichols, Claudia Snallum, Lloyd Feemster, Rubye Jo Trainham, Wilma L. Bratcher, Anna Mae McNeill and Velma Neal.

First Texas Camp-Site Bought For FSA Migrant Farm Laborers

Raymondville, May 16.—The Federal government is today in possession of land near here for the first of four Texas camps to be built by the Farm Security Administration for migrant farm laborers. Regional Director C. M. Evans delivered a check for \$10,468 Thursday (May 18) to pay for the 10-acre tract upon which the camp is to be located. Bids for construction were opened the same day and tabulated for final consideration at Washington.

The Raymondville camp will cost approximately \$250,000 and accommodate 343 families. There will be 50 three-room cottages, 249 one-room metal shelter units, and 44 platforms upon which migrants may erect tents. Sanitary facilities, pure water, and educational facilities will be provided.

"These camps are an experimental remedy for a condition brought about by displacement of many thousands of farm tenants who were once comparatively secure upon the land," Mr. Evans said. "The fundamental remedy, of course, is to help these farmers retain their place upon the land in their home communities. But we have approximately 125,000 migratory laborers in Texas who have no home other than the ramshackle

Questions and Answers

Q—Will policy rates be increased as policyowner reaches higher age classification of rate table?
A—NO! Policyowner retains the same rate throughout life of the policy. Initial rate being based on age at time of application.

Q—Are members of the Association subject to assessments at any time?
A—NO! (Paragraph 12 of policy: No extra assessments shall ever be made of the members above the membership rates quoted herein.) All policies contain rates quoted to applicant.

Q—Under terms of the policy how far will Association travel for deceased member without additional cost?
A—Within 100 miles radius of Munday, Texas.

Q—Where will Association hold church and cemetery services without additional cost?
A—Within 25 miles radius or Munday, Texas, and/or anywhere in Knox County.

Q—Can policy benefit be applied on any price funeral?
A—YES! Example: If \$300 funeral is desired, cost to family is \$300 less policy benefit of \$150.

Q—Are members of Association entitled to all services of Mahan Funeral Home without additional cost?
A—YES! All funerals are given the same considerate service regardless of cost.

Q—How long does one have to be a member of this Association to be entitled to full face amount of policy?
A—Full amount of policy is payable immediately policy is issued.

Real MONEY SAVING Food Buys

"Come on inside and see the show, boys," shouts the barker as the dancing girls, lovelier and more daring than in bygone days perform to the music of famous orchestras. Here's a dancer from Greenwich Village enticing customers to the "Greenwich Village Follies" at the Golden Gate International Exposition.

POEM WRITTEN IN HONOR OF MRS. EMMA HILL

The following poem was composed in honor of Mrs. Emma Hill by her niece, Mrs. E. J. Cude:

There is a good woman who lived all alone,
You always feel welcome when you enter her home,
She has been a great blessing to our land,
For she has always stood ready with a helping hand.

I know some women, and children, too,
That she has given clothes and shoes;
She's so free from selfishness and greed,
And is always helping someone in need.

She's not a famous lady in the eyes of the world,
She does not wear diamonds and pearls;
But to us she's priceless, great and good,
We would not change her if we could.

She has always stood for justice and right,
And for the under-privileged will stand up and fight;
The name of this woman I will not tell,
For you all know her very well.

She has lived in our midst for a number of years,
And she has always been a help to everyone here,
We wish her much happiness on this birthday,
And hope her many more years will us to stay.
