Many Attend Impressive Mass Ceremonies At Rhineland

Father Diersing Observes First Solemn Mass

250 Citizens Attend Banquet Given At Noon Hour

In spite of the urgent farm work, an unexpectedly large number of people were present at the celebration of his First Solemn Mass by Father Fabian Diersing, O.S.B., last Tuesday at Rhineland. Although many additional seats were provided in St. Joseph's Church for the Mass, all available seats were occupied.

The new priest was met at the rectory by members of the parish and was escorted to the church. The Lone Star Band played a march during the procession. The services in the church were both beautiful and impressive. The little spiritual bride, Jewel Marie Hoffman, and her attendants, Rosemary Claus, Magdalene Wilde, Bernadette Claus and Doralee Kuehler, were an outstanding feature of the ceremonies.

The church was beautifully decorated with white and gold crepe streamers, cut roses, gladioli and ferns.

After Mass Father Fabian imparted his blessings individually to members of his family and generally to the congregation. He also bestowed it individually to all who came to the communion railing for that purpose after Benediction with the Blessed Sacrament at four o'clock Tuesday afternoon.

The banquet at the parish hall at noon was also well attended. At the head of the hall was a special table for the clergy, the relatives of the new priest, the spiritual bride and her maids of honor. This table was beautifully decorated with streamers and flowers. A large three-tiered cake was in the center. Meals were served table d'hote. The Lone Star Band, under the direction of John J. Hoffman, gave a concert during the banquet.

It was estimated that nearly 300 people attended this banquet.

Again at 8:12 p.m., the people filled the school auditorium to overflow to witness the special program for the newly ordained priest, given by the children of the parochial school, and the play, "Beads on a String," by members of the R.G.F.C.

This splendid turnout at all features of the day was undoubtedly a source of joy for the new priest, very gratifying to the pastor, Father Matthew, and a credit to the cooperative spirit of the community.

Court Adjourns Until Next Week

The regular term of District Court, which convened at Benjamin last Monday morning, adjourned after being in session for two days. These two days were taken up mainly in impanelling the grand jury and setting the court docket.

Adjournment was for the remainder of the week. The first week's panel of petit jurors is expected to report for jury duty next Monday morning, at which time trial of jury cases will likely get under way.

American Legion To Have Birthday Feed Tuesday

The Munday American Legion Post No. 44, will hold the regular monthly meeting next Tuesday night.

As has been practiced in the past, this meeting will be in the form of their regular birthday feed, Legionnaires whose birthdays fall during this month are to serve the supper.

All Legionnaires and ex-service men are urgently requested to attend this meeting.

Sheriff Louis Cartwright and District Clerk Lee Coffman of Benjamin were in the city on business Tuesday afternoon.

WEST TEXAS STYLE

A real West Texas barbecue with all the trimmings will be given at noon Friday, June 9, to editors attending the annual meeting of the Texas Press Association in Lubbock June 8, 9, and 10.

Two fine whiteface steers will be barbecued for the newspaper men. One was donated by President Clifford B. Jones at Tech from his Rafter J ranch near Spur and the other was given by Jay Slaughter from his herd on the U Lazy S ranch near Post.

New Officers Of Masonic Lodge Are Installed

The regular stated meeting of the Munday Masonic Lodge was held last Monday night. Sixteen Masons were present for this meeting.

Following the dispatch of business coming before the order, officers for the new Masonic year, beginning on June 24, were installed. Officers were elected at the regular meeting in May.

Elective officers who were installed by Lee Haymes, who served as installing officer, are: L. M. Palmer, W.M.; M. F. Billingsley, S.W.; Roscoe Partridge, J.W.; J. A. Caughran, secretary, and Buel Bowden, treasurer.

Appointive officers installed Monday night are: G. W. Dingus, S.D., and T. W. Harber, J.D. The senior and junior stewards are yet to be appointed.

All Masons are urged to pay their annual dues by June 23, which closes the Masonic year.

Rev. Caughran To Preach Sunday At M.E. Church

Chicago Pastor Is On Visit Here With Relatives

Rev. William I. Caughran, pastor of the Austin Street Congregational Church in Chicago, will preach at the Munday Methodist Church at the morning services next Sunday, it was announced here Wednesday.

Rev. Caughran, who resided in Munday prior to his entering the ministry, is a son of Mrs. O. C. Caughran and a brother of J. A. Caughran. He came in Tuesday for a short visit in Munday.

A widely known preacher and pastor, Rev. Caughran, first served as pastor at Port Arthur in Texas. For about ten years, he served as pastor at Indianapolis before going to the Austin Street church in Chicago. He has served the Chicago congregation as pastor for better than ten years.

A large crowd is expected Sunday to hear this visiting preacher.

Mary Hope Smith Receives Degree

Will Leave Saturday For Study Tour Of Europe

Miss Mary Hope Smith, daughter of Mrs. J. R. Smith and the late Dr. Smith received the degree of Master of Arts in Music Education at the graduating exercises at Columbia University in New York City on June 5th.

Miss Smith is one of this section's most accomplished musicians. She was presented by the Munday Music Club in a concert recently and left soon after for New York to complete work on her degree.

Miss Smith will sail for Europe Saturday for eight weeks of travel and study, a part of which time will be spent in Oxford University.

On Program For Teachers' Meeting

HELEN M. ROBINSON

Dr. Ullin W. Leavell

Denton, Texas.—Two reading specialists have been called in to discuss the use of reading in improving democracy at the ninth annual conference on teacher-training to be held June 15-16 at the North Texas State Teachers College.—Dr. U. W. Leavell and Mrs. Helen M. Robinson, above.

Bankers Of Four Counties Meet In Convention Saturday At Lake Kemp

With Guinn Hdq.

Pictured above is Jim Bell, veteran Munday blacksmith, who has joined the force at the Guinn Hardware Co. Mr. Bell will be in charge of the blacksmithing and welding end of the business.

Mr. Bell has been in this line of business in Munday for many years. He has the reputation of being well qualified in this line of work, and Ben Guinn, owner of the hardware store and blacksmith shop, believes the addition of Mr. Bell to his force is a step toward rendering his farmer friends a better service.

Lions Feed At Rhineland Last Tuesday

Members of the Munday Lions Club turned out strong at Rhineland last Tuesday at noon to attend the dinner sponsored by the Rhineland community. Proceeds of the dinner went to the St. Joseph's Church at Rhineland, and almost 300 people gathered for the dinner.

Munday Lions attended the dinner instead of holding their regular meeting at noon Wednesday. A large number of Munday citizens, both men and ladies, attended the dinner also.

Lions who were present included W. E. Braly, Paul Fendleton, Arthur Mitchell, Dr. D. C. Elland, Dr. R. L. Newsom, Pitzer Baker, Sebern Jones, E. W. Harrell, W. V. Tiner, P. V. Williams, Boyde Cooper, Wade Mahan, Cecil Cooper, Dr. J. Horace Bass, Lee Haymes, Aaron Edgar and Curtis Coates.

Judge and Mrs. E. L. Covey and son Elmer were visitors in the city Tuesday afternoon.

Braly On Convention Program; Others Go From Munday

Bankers of Knox, Haskell, Baylor and Throckmorton counties held their annual four-county bankers convention last Saturday at Lake Kemp. W. E. Braly, Munday banker, was on the convention program, discussing the topic: "The Wage-Hour Law's Effects Upon Banks."

All other employees of the First National Bank of Munday attended the convention. The bankers adopted a resolution to begin Saturday noon closings to comply with provisions of the wage-hour act, which will become effective October 24. Saturday noon closing will begin Saturday, June 17, and will shorten employees' weeks from 44 to 42 hours.

More than 150 bankers from Northwest Texas were in attendance. Randle Gilbert, president of the Federal Reserve Bank of Dallas, delivered the main address. Gilbert paid tribute to the increases in loans and profits reported by banks in the four counties during the past year.

Other speakers besides Gilbert and Braly were O. E. Patterson, Haskell, who talked on "The Effects of Government Lending Agencies on Country Banks"; Malcolm M. Meeks, Abilene, who led discussions on the wage-hour act, and W. J. Evans, vice president of the Federal Reserve Bank.

Haskell county bankers will be host to the association at their annual meeting next year.

Highlighting the Lake Kemp meeting was a fish fry at noon. Afterwards George S. Platts, welcomed the guests, and Oral Jones of Wichita Falls made the response. Dutton Bailes of Seymour, retiring president of the association, presided at the business session.

Newly elected officers are: A. M. Turner, vice president of the Farmers and Merchants State Bank, Haskell, president; A. A. Bradford, vice president of the Farmers State Bank of Rule, vice president; A. M. Burden, cashier of the Home State Bank at Rochester, secretary and treasurer.

Miss Louise Ingram, who has been attending N.T.S.T.C. at Denton, spent several days here last week with home folks. She returned to Denton this week to resume her studies for the summer.

Raymond Ratliff was a business visitor in Fort Worth last Tuesday.

Mr. and Mrs. R. C. Johnson are visiting relatives in Sweetwater this week.

Mr. and Mrs. Virgil Reynolds and children of Haskell were visitors here last Monday afternoon.

Local Youths May Enroll For CC Camp Work

Glenn T. Burnett of Benjamin, who is in charge of CC Camp enrollment for this county, announced last Monday that applications for enrollment will be received during this month. He urged that all Knox County boys wishing to enter the camps make their applications this month.

Enrollment will open on July 1, he said, but applications will be received from now until that time.

Heretofore, it has been evident that Knox county has not been allowed her proper quota in the CC Camps, but an effort is being made to get this county's quota raised for the next enrollment.

Mr. Burnett asked that applications be placed with him at Benjamin.

Teachers Plan To Spend Summer In Many Ways

Summer School Takes Up Time Of Munday Teaching Staff

School over, teachers in the Munday Independent Schools, held varied plans for the summer vacation months. While some are planning quiet summer months with home folks, others are attending summer schools and still others plan enjoyable vacation trips.

Mr. and Mrs. John Ingram will attend the East Texas State Teachers College at Commerce for the first six weeks.

Miss Mildred Kennedy left last week end for Denton where she will attend school during the summer.

Mr. and Mrs. L. M. Palmer will remain in Munday for the first six weeks, and L. M. didn't announce any plans for the remainder of the summer.

Mr. and Mrs. L. S. Hardegree have gone to the "hill country" and friends said Mr. Hardegree would operate a grocery store either at Menard or Junction during the summer.

Miss Dorothy Crawford plans to spend the summer with home folks at Floydada.

Dr. and Mrs. J. Horace Bass will remain in Munday for a while, but it is rumored that they plan to visit the New York World's Fair before school opens next September.

Miss Mayme Crouch will spend a quiet summer with home folks at O'Donnell, it was reported.

Miss Darnell will spend the summer at Kilgore.

Miss Dallas Smith and Mrs. Bess Porter, have not announced their plans for the summer.

Miss Mary Couch, after returning with the seniors, will be at home in Haskell.

Mrs. Elizabeth Dillon will remain in Munday until July 1st, and has not announced her plans beyond that date.

Mr. and Mrs. Howard Cobb will be at Stillwater, Okla., attending Oklahoma A. & M.

Mr. and Mrs. Billy Cooper are to spend the summer at Temple, Houston and other points. Billy will attend several coaching schools before returning to Munday about the first of August.

Wichita's North Side Merchants Win From Goree

The North Side Merchants of Wichita Falls won from Goree 8 to 6 in a hard fought softball game played at Rhineland last Sunday afternoon.

The Rhineland team played a B team and won 8 to 1 in a free hitting contest. Rhineland will play Southwest Coaches of Wichita Falls next Sunday afternoon. This game promises to be one of the best ever played in the home lot.

The score by innings: R H E
North Side...221 003 0 8 11 2
Goree...002 000 0 6 9 5
Batteries Beard and Smith; Denham, Ratliff, Coward.

R H E
Rhineland...032 020 1 8 13 5
B. Team...100 000 0 1 7 5
Batteries: Decker and Len Kuhler; Stengel, Matthew, Hoffman and Leo Kuhler.

Judge O. R. Tipps Presents Books To Munday School

Seniors Leave Tuesday On Trip Into Oklahoma

A majority of the 22 graduates of Munday High School left last Tuesday morning for a sight-seeing trip to the Craterville Park near Craterville, Okla.

Being transported on one of the school buses, between sixteen and twenty members of the 1939 graduating class are spending several days this week on the trip. They are expected to return home next Friday.

The seniors were accompanied by Mr. and Mrs. L. M. Palmer and Miss Mary Couch.

This is a trip which has been planned by the class for several months, and they're having an enjoyable time on this outing together.

To Europe

Miss Mary Hope Smith, daughter of Mrs. J. R. Smith and the late Dr. Smith, will sail Saturday for eight weeks of travel and study in Europe. She will spend a portion of her time studying at Oxford University.

Sale Tuesday Is Lighter Than Prior Sales

Prices Remain High Despite Drop In The Market

Another good sale was entered on the records of the Munday Livestock Commission Co., last Tuesday, as cattle continued to bring high prices despite a slight drop in prices at marketing points.

Tuesday's sale ran somewhat lighter than some held prior to this one, and the auction was completed earlier than usual because there was a lighter consignment of livestock. Lots of young cattle were sold, bringing exceptionally good prices. Constant high prices for stock has kept the Munday weekly sale a leader in this section.

Among the 35 consignors of stock were the following:
Munday: J. W. Earheart, J. F. Simpson, M. Boggs, Grady Thornton, J. O. Blassingame, W. A. Bowman, W. A. Baker, C. R. Elliott, A. M. Moore, and Otis Phillips.
Weinert: L. E. Newton and R. B. Guess.

Goree: Edward Morris, Vernon Murdock, Ross Bates and Lester Bowman.

Haskell: Will Herring and Jack Ratliff.

Benjamin: Grady Hudson.

Dundee: Chas. Drummonds.

Knox City: S. A. Youngblood.

Buyers present at the sale were: L. H. Highnote of Haskell, O. H. Parrott of Throckmorton, Andrew Hill, Henry Jones, E. E. Jones, C. R. Elliott, C. P. Baker and M. C. Kuhler, Munday; Lewis McAlpine, Granite, Okla. Chas. Brothers, Shamrock; Grady Hudson, Benjamin; Vernon Watts and Neal Atkins, Stamford; Lewis Brazier and Mr. Armstrong, Bowie; S. W. Dykes, Seymour; W. M. Trammier, Rochester; Wichita Packing Co., and Ebner Packing Co., Wichita Falls.

T. G. Bengue was a visitor in Vernon last Tuesday.

Delivers Address To Graduates Here On Friday Night

Speaking before a large crowd who had gathered to see the 1939 graduates of Munday High School in their final exercises, Judge O. R. Tipps of Wichita Falls delivered a most forceful address to the graduates last Friday night.

Judge Tipps, who has been a school man of outstanding ability in the past, before entering the law profession, held the interest of his audience as he addressed the 22 graduates of Munday High School.

In addition to being one of the greatest addresses to which a Munday High School graduating class and audience have listened, Judge Tipps took the honorarium which the class mailed to him and invested it in books for the high school library.

The books were sent to Munday this week with the inscription: "To Munday High School from the Class of 1939 and O. R. Tipps."

The books included in the gift are the ever popular Marquis James' "The Raven" and "They Had Their Hour," and Cronin's "The Citadel." "The Raven" is a biography of Sam Houston, and "They Had Their Hour" is likewise historical.

The school library is very grateful to Judge Tipps and the 1939 graduates for this splendid addition to the library.

Firemen Will Leave Tuesday For Convention

Four Munday Boys To Attend Meet Held At Harlingen

The Lower Rio Grande Valley has completed plans and waits with open arms to welcome delegates to the 63rd annual convention of the State Firemen's and Fire Marshals' Association of Texas, according to information received here by Chief Clint Hawes this week.

And ready to be welcomed will be four members of the Munday Fire Department: Buel Bowden, Curtis Coates, Clint Hawes and Marshall M. J. Franklin. They will leave here Tuesday for the convention city.

Headquarters for the convention will be in Harlingen, with all fire chiefs in the Valley serving as co-hosts. Dates for the conclave are June 13, 14 and 15th.

Delegates will be handed some of the famous Rio Grande Valley grapefruit when they register, and the ladies will be carried on a sightseeing trip through the beautiful orchards, gardens and points of interest and served luncheon at San Benito.

A unique feature of this year's convention will be a torchlight parade, with all delegates in the line of march, each Texas fire department to be designated by a banner.

Valley cattlemen announce they will serve Texas fire boys one of the grandest barbecues they have ever tasted.

Dances and sightseeing trips will be offered all delegates, and every one of the 3000 expected to attend the meeting are expected to visit in Old Mexico, or take a swim, boat ride or fishing trip in the nearby Gulf of Mexico.

It will be the first trip of many Texas fire boys to the delightful Lower Rio Grande Valley, and many of them are expected to take their families to make a summer vacation in the land of grapefruit and cool Gulf sea breezes, where a step across a bridge takes one to visit a foreign neighbor, Old Mexico with all its quaint customs and sights.

Mrs. R. H. Neff and daughter, Lucille returned Tuesday afternoon from Waco, where Miss Lucille has been attending Baylor University. Accompanying them on the return trip was Mrs. W. P. Farrington, who had been visiting in Houston, Huntsville and other South Texas points.

Rupert Williams, son of Mr. and Mrs. P. V. Williams is home from school for the summer. Rupert has been attending A. & M. College at College Station, Texas.

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him— What He Does For His Community Lives On and On"—

DO IT TODAY

Every building should be checked at regular intervals for fire hazards. And it is obvious that the checking is largely useless unless the checker is familiar with at least the more common hazards.

You, for instance, can adequately inspect your own home if you are armed with a certain amount of simple non-technical knowledge.

Look at your roof—old or warped roofing easily collects sparks and flying brands. Thoroughly go over your chimneys in search of loose bricks, cracks or any other failure that might start or encourage a fire.

Keep your yard in clean, trim condition—dry grass, leaves, boards, etc., are readily ignited and are a definite danger to nearby buildings. The same thing is true of garages and sheds—cleanliness and good maintenance go a long way toward preventing fire. Pay special attention to the storage of inflammable materials—liquids such as gasoline and benzine should be kept in tight metal containers. And remember that explosive liquids should never be used for home cleaning operations.

Accumulations of discarded material—whether old clothes, furniture or magazines—in closets, basements or attic, constitute one of the worst hazards. Only rags are most dangerous of all, as they are subject to spontaneous combustion.

If you use wood for fuel—pile it neatly. And never mix rags or paper with wood or coal—spontaneous heating may result. The whole heating system should be inspected carefully, and it's wise to hire an expert for this job.

Oil burners should be installed with extreme care, and in accordance with standard regulations. That is true also of gas appliances. No gas appliance should be used which lacks a thermostat for cutting off the supply in case the pilot light goes out.

If your work room, as many are, is littered and disorderly, you're simply asking for a fire. Keep it neat.

This doesn't exhaust necessary instructions by a long shot—but it shows you where to start. And it's a good idea to do it today.

NO ONE LOSES

(From the San Angelo Times)

There's one Federal Agency, anyway, with which it is hard for even the crankiest to find fault. This is the Farm Debt Adjustment division of the Farm Security Administration. During the past eleven months, this agency has secured debt reductions of \$180,291 for farmers and ranchmen in 34 West Texas counties alone.

Beauty of all this, of course, is that this service not only has lifted a great weight from these persons but also aided their creditors to a great extent. Most farmers and ranchmen helped had reached the point where they were unable to go on.

But through the services of the debt-adjustment committees, whose services are not imposed, merely offered, these persons have been enabled to carry on and at the same time their creditors have received something on the debts which otherwise they might not have gotten at all.

That's the beauty of the service—it helps debtor and creditor alike. The FSA lends its money, too, and eventually gets it back. Thus no one is the "loser."

SUDDEN DEATH

We all believe in safety, and there is probably not one of us who do not appreciate the value of life. We talk about safety on the highways and we firmly believe that we should practice safety. But do we?

Do we really and truly think, talk and act safely? In this day of fast automobiles and mounting traffic deaths, new demands are placed upon us. Demands which require us to think beyond ourselves. We must think for the other person. We must think for that child playing along the highway or crossing the street.

Recently, the seriousness of accidents along the highways was brought very forcibly to my attention by a statement made by our State Director, Pierce Brooks of Dallas, when he said: "It is startling to realize that during the past eighteen months there were more people killed in traffic accidents in the United States than there were soldiers killed in the World War. We, as individuals, should think, talk and act safely in the homes, as well as on the highways."

The State of Texas has spent thousands of dollars in the installation of highway signs. Much thought and study has been devoted to properly placing these Caution, Slow, School Zone and other signs along these thoroughfares. If our motorists will "read and believe" in these signs which are installed for your safety, we will be on our sure way towards reducing accidents on the highways of Texas.

There are many fellows who graduated from the school of hard knocks, and are still paying on their back tuition.

A negro truck driver asked by a New Orleans traffic officer why he had gone through a red light, replied: "Well, suh, I saw white folks goin' through the green 'uns, and ah thought the red 'uns was for the colored folks."

THE MUNDAY TIMES

Published Every Thursday at Munday

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

We cannot boast ourselves of tomorrow; sufficient unto each day is the duty thereof.—Mary Baker Eddy.

SOUND ADVICE

There has existed in Washington for the past several months a special Congressional committee investigating the nation's economic ills. This committee known as the Temporary National Economic Committee, but more frequently referred to as the "Monopoly" Committee, is endeavoring to find a formula that will put the Nation back on a "pay-as-you-go" basis. In other words, what is sought is a guide to real recovery.

A recent witness before this committee was the head of one of the country's largest automobile manufacturing corporations. And the advice he offered is worth considerably more than just passing notice by Congress and everyone else interested in prosperity. It is noteworthy, not because it is some new-fangled economic panacea, but because it is just plain, easy-to-understand economics and common sense.

In a few words, the witness' economic theory was this: Release the economic structure of the country from its bonds of regulation, taxes and abuse and let there be a profit to be gained from legitimate effort. When people can make money by business activity, money will flow freely again and recovery will be in sight.

It wouldn't take and experimenting or complicated legislation to follow that theory.

THE N.L.R.B. IN ACTION

There are many we are ready to defend the National Labor Relations Board, which administers the National Labor Relations Act, against the charge that the Board is one-sided—favoring, in its deliberations, the case of the employee. These defenders assert the charges against the Board are always "generalities."

One witness appearing before the Senate committee on Education and Labor considering amendments to the National Labor Relations Act had one piece of testimony which certainly, however, cannot be considered "generalities." He was explaining the appearance of his company's lawyer before the Board, before which the company had been summoned. The witness testified:

"... when he began his argument the Chairman of the Board asked two questions. The first one was, 'You had a strike, didn't you?' The answer was, 'Yes.' The next question was, 'The men are still out, are they not?' The answer was, 'Some of them.' The Chairman then said, 'Well, what else is there in this case?'"

It is doubtful that even the keenest defenders of the Board could disprove such a remark as indicating bias. It would certainly likewise seem to prove the charge that the Board proceeds on the assumption that strife must be the basis of employer-employee relations in the United States.

CURRENT EVENTS

Being a press agent to a post office would seem a rather empty task. Nevertheless, the Post Office Department in Washington has its corps of publicity experts. So it is that the public is informed of these postal developments which should not pass without editorial comment:

The department has perfected a new automatic mailing machine which will soon be installed in various post offices. A letter can be dropped in the machine, along with the proper amount of postage money, and the letter is automatically stamped. No technological unemployment among postmasters is anticipated, for there'll still have to be somebody to read the postal cards and run political errands.

Also the department announces that the volume of mail has been on the increase. The figures show an increase every year for the past three years. There is no way of telling, but could it be that more people are writing to Washington about taxes and the National debt?

Three bandits who kidnaped L. R. Jones of Columbia, S.C., and robbed him of \$4,300 were considered. They returned \$75 to him and gave him a half pint of whiskey.

Janice Gilbert, 16-year-old radio actress, has often played four roles in a single broadcast. Her specialty is making baby sounds.

THE WORLD OF TOMORROW (?)

Gems Of Thought

TODAY
Our todays and yesterdays
Are the blocks with which we build.—Longfellow.

Light tomorrow with today.—
E. B. Browning.

Lay hold of today's task, and you will not depend so much upon tomorrow's.—Seneca.

But bear today whatever Today may bring:
'Tis the one way to make Tomorrow sing.—Richard LeGallienne.

Today God gives us another chance.—Anon.

SLUGGISH CITIZENSHIP CRITICIZED BY EDITOR

Atlantic City.—No government and no individual leaders can successfully do the work for a "lazy citizenship." Dr. Barclay Acheson, editor and writer, recently told the members of the New Jersey State Federation of Women's Clubs.

"No social order, no form of government, no political demagogue is going to solve the problems for a lazy or impotent citizenship," he declared. "What we have now is about all a self-respecting citizen could ask for—namely, a chance to solve his own problems in his own way."

"Viewed in the large, and in the terms of a hundred years, we have made the most extraordinary progress of any nation on the face of the earth, and our problems are not those of failure but those of success.

Germany, Italy and Russia today are adjusting themselves to the same technological problems that we have, but with their form of government they require detention camps, firing squads, bloody purges or wars of aggression to survive. Thus in any field, seen through the perspective of time, we are attaining the higher levels of social justice every one wants faster than they are.

"Liberty and progress throughout history have gone hand in hand, while despotism has gone hand in hand with stagnation and decay, or with a series of bloody revolutions."

EMPHASIZES DUTIES NEW TO MANAGEMENT

St. Louis.—Modern industrial management has a duty to look "beyond the walls of the factory, beyond the gates of the plant," and assume new social obligations. W. A. Carson, president of the Sunbeam Electric Manufacturing Co. of Evansville, Indiana, declared here recently.

"We employers," he said, "have a community obligation and a national obligation. Our community obligation means our position as business men in relation to our next-door neighbors. And our national obligation involves our relation to the public as a whole.

"Both are important. For management today we must look beyond the walls of the factories, beyond the gates of the plant and see itself in the eyes of the community and in the eyes of the nation."

BRILLIANT IDEA
WPA Executive—"If we don't don't figure out a way to spend that \$120,000,000 we lose our jobs."
Secretary—"How about building a bridge over the Mississippi river lengthwise?"

Mr. and Mrs. A. C. Brock of Throckmorton visited friends here last Sunday.

THEY SAY!

"There is infinite need for less haste and more consideration in legislation... A mistake made by federal law is a national mistake and its results are likely to be far more costly to all our people than a mistake by State law or local law. We cannot be successful and prosperous where we have legislation by trading, and with an utter lack of statesmanship; where we have class legislation for the benefit of minorities and not for the benefit of a unified country; where we have legislation that is disciplinary and not educational, legislation founded on policies that are repressive rather than corrective."—Henry W. Johnson.

"This state has no money of its own. It is the taxpayers' money that it is spending."—State Senator Joe R. Hanley of New York.

"To give real service you must add something which cannot be bought or measured with money, and that is sincerity and integrity."—Donald A. Adams.

DAIRY PRODUCTS
Austin, Texas, May 30.—Texans consumed 775,000 gallons of ice cream, 2,556,000 pounds of creamery butter and 1,463,000 pounds of cheese, to drive the State's dairy industry to a production far above that of March, University of Texas business investigators said today.

LUNCHING AT THE CO-OP
"Give me a chicken salad," said a student in the Co-op.
"Do you want the 40-cent one or the 50-cent one?" asked the waitress.

"What's the difference?"
"The 40-cent ones are made of veal and pork, and the 50-cent ones are made of tuna."

Manufacture of ice cream, which reflects urban consumer conditions rather than production conditions which primarily influence butter and cheese output, gained over both March and April, 1938. Production is estimated by the University Bureau of Business Research at 21.2 per cent over March and 11.5 per cent above April last year.

Creamer butter production jumped 31.7 per cent above March but dropped 29.3 per cent from April last year. Manufacture of cheese was estimated at 50 per cent over

March but 37.9 per cent below April 1938.

DECLARES MACHINES MAKE LIVING EASIER

New York.—Electrical aids to modern living in America are equivalent to the services of 22 slaves per family, Walter Robbins, director of the Sangamo Electric Company, declared here recently before the Federal Bar Association.

He said these slaves have been grown under the shelter of the American patent system, "which gives us new ideas and puts them to work by offering incentive for inventors to invent, manufacturers to manufacture, and investors to invest."

"Man, without the aid of machinery, has physical strength equivalent to about one-tenth of one horsepower," he said, "the modern factory worker has mechanical equipment of approximately five horsepower aiding him in his work. At his side are 50 unseen slaves helping him to produce.

"For the nation as a whole there are 22 electrical slaves per family."

"The rise in the American standard of living has paralleled this increase in mechanical slavery. The four-fold rise in real wages—income in terms of goods and services—can be credited more to that factor than all others put together. The development of new mechanical devices for the future is dependent upon the same type of protection we have had in the past."

PLENTY OF EGGS

College Station.—With bright prospect for a plentiful supply of eggs and poultry in Texas, these foods are coming in for extra attention at regular additions to the diet.

Eggs are richer than most foods in some of the minerals and vitamins the body needs, Jennie Camp, home food production specialist of the Texas A. & M. College Extension Service, points out.

Since much of the mineral and vitamin content is concentrated in the yolk, this part is especially valuable. That is why it is one of the first foods added to the baby's milk diet.

Eggs are particularly valued for their iron, vitamin A and for their protein, which is in a readily available form. They are also rich in phosphorus and are a good source of calcium. Besides vitamin A, eggs are an excellent source of vitamins G and E, and the yolks are one of the relatively few good natural sources of Vitamin D.

Nutrition workers consider eggs one of the better foods to help promote growth in children. The Texas Food Standard, prepared by Extension Service nutritionists, specifies an egg a day for children.

Adults need to eat a minimum of four or five every week. Slow cooking at a low, even heat is the secret of success for all egg dishes, Miss Camp said.

Javelina Hog Placed In Wild Game Category by The Texas Legislature

Peccary Open Season Is November 16 To January 1st

The Peccary, the only native North American wild hog, has finally attained the official status of a big game animal in Texas.

The ranks of the Collared Peccary or Javelina, have been depleted through long years of being hunted for their hides and as food, but when Governor O'Daniel signed a bill introduced in the State Legislature by Representative Fred Felty of San Antonio, they became legally protected and it is now unlawful to take them only from Nov. 16 to Jan. 1. The bag limit is two per season.

Texas sportsmen, in general, are only now recognizing the Peccary as a game animal capable of producing considerable sport, but nimrods from other states are invading Southwest Texas in increasing numbers each year.

They find peccaries are capable of doing considerable damage to the unwary hunter and his dogs. Peccaries reach a weight of fifty pounds and its meat is regarded as table fare, but in order to prevent the meat from becoming permeated with a strong taste, it is necessary to cut away a muskbag, found on the rump, immediately after the animal is killed. By doing this the sportsman finds he has not only a fine trophy to go alongside others in his den, but that he has supplies for the larder.

Wild hogs, now found in only 22 counties of Texas, formerly ranged over most of the state. Many references are found in the writings of early day naturalists, hunters and explorers to the ferociousness of the Peccary when it is cornered. Many present-day hunters and other residents of Southwest Texas, who have been forced to hastily retreat to the refuge of a tree or rock pile, where they sat for hours watching the milling hogs gnashing their ugly tusks and hearing the herd utter its shrill war cry, can attest to the gameness of the animal when it is aroused.

Short-legged, but fleet, the Peccary boasts long tusks and it is with these and its sharp hoofs that it does considerable damage to its natural enemies.

H. P. Attwater, Texas naturalist for whom the Attwater prairie

chicken is named, related in his writings in 1896 that "the Peccary was widely hunted for its hide and as food, but that sportsmen also hunted them." Too, he recorded the fact that the hides were used in Zavalla county in 1886. Since that time the hides have been exported, mostly to France, where they were made into ladies' gloves. The bristles are converted into brushes.

Col. Theodore Roosevelt made a successful forage along the Frio River near Uvalde, Texas, in 1892 in search of sport with the peccary. A Kentucky cavalryman reported the peccary rushes his adversary with the ferociousness of a tiger.

Peccaries, unlike most hoofed animals, sleep in some sort of a den and take refuge, head out, in holes. The nests of the young, of which there most always are two in every litter, are found in hollow logs and holes. The animals' principal food during the winter consists of nuts of every description, but in the summer they feed upon fruits, seeds and roots.

The herd's biggest boar is boss of the tribe and it is he who stands guard at the opening of the herd's den while the others sleep. Many a hunter, seeing the big boar on guard, has shot him down. Immediately another member of the herd takes up the post and is shot down. In that way entire herds have been wiped out.

Peccaries now range over 22 Southwest Texas counties, Robert Mauermann, assistant game manager of the Texas Game, Fish and Oyster Commission, has found. Their range includes the following counties: Bandera, Edwards, Real, Uvalde, Dimmitt, Frio, Webb, LaSalle, Starr, Maverick, Medina, Live Oak, Jhm Wells, Brooks, Kleberg, Willacy, Kennedy, Cameron, Hidalgo, Zavalla, Zapata and Jim Hogg.

48 Engineers To Get Work On Texas Highways

Austin, Texas.—Julian Montgomery, State Highway Engineer, today told how the Highway Department is building up and improving its engineering organization. "We realize," he said, "that we must have graduate engineers in our engineering positions. Following a policy adopted a year ago, we are offering employment to 48 civil engineering students who will receive their degrees in June."

"We contacted the senior civil engineering students in all Texas colleges," Mr. Montgomery said, "and we are offering employment to all those who want work. Of course, other agencies and industries take some of the graduates, but the fact that 65 per cent of all civil engineering graduates have expressed a desire to work for the Department indicates that they believe it a good place to locate."

"No attempt to handicap the graduates was made. It is our opinion that a boy who studies for four years and earns a degree has what it takes to make a good engineer, and if he hasn't, we'll soon find it out. Then, too, the State has an investment in these boys, and I am glad there is a place in the Highway department where services may be used to advantage."

It's Tulip Time In Holland

Wooden shoes, a big armful of tulips, and a pretty Dutch maiden serve to tell the story of Tulip Time at Holland, Michigan, where the annual National Tulip Festival has just been held. The young lady perched on the new Chevrolet is Miss Vera Kirchner, one of the hostesses welcoming motorists who visit this spot where millions of tulips are in bloom.

Texas U. Makes Study Of Texas Prison System

Austin, Texas, May 31.—Long strides toward socializing the Texas prison system have been made in the last two years, University of Texas sociologists believe.

Asked by State officials to conduct an 18-month demonstration, the University Bureau of Research in the Social Sciences examined and made thorough case studies of 2,509 white male prisoners from March 1, 1936, to August 31, 1937, including 2,195 new inmates, the third largest number admitted by any state in the country.

Final report of this project has been issued as a University bulletin, "Classification in the Texas Prison System," by Carl Basland, psychologist for the program.

Preliminary reports caused the Legislature at its last regular session to make the Bureau of Classification a part of the State prison system.

Findings of the investigators provoked segregation of first offenders from habitual criminals, young inmates from old, and have provided special custodial supervision for the small but vicious group of "public rats," the hardened criminal leaders, Basland pointed out.

Of the 2,509 inmates studied: 613 were under 26 years of age and of good rehabilitative prospect. 852 had some previous criminal record and doubtful rehabilitative prospects. 320 had a serious history in crime.

16 had records of past viciousness, little regard for human life and general criminal activities—No. 1 "public enemies."

They found that 105 were feeble-minded, 27 others were homosexual and 153 were addicted to drugs.

Of the total, the research classifiers recommended 400 inmates as mentally and socially capable of handling specific trade assignments for special trade training to prepare them for return to useful "free" society.

"Of those assigned all except three or four have worked out successfully," Basland said.

The University investigators recommend construction of a separate unit for housing homosexuals, physically defective and old-age groups.

As the Board of Pardons and Paroles is making use of the Bureau's case studies and records in many cases, Mr. Basland predicted that few of the second or habitual criminals would receive early release by clemency.

A Real Diplomat "Mrs. Smith has a new spring hat, darling."

"Well, dear, if Mrs. Smith was as attractive as you are she wouldn't have to spend so much on new hats."

Liberalized Home Financing Program Continues Under National Housing Act

Dallas.—The amended National Housing Act, signed by the President on June 3, is designed to continue, with modifications, the liberalized home financing program begun in February last year under the National Housing Act amendments of 1938, stated Wm. H. Clark, Jr., State Director, today.

He said, "Its enactment should give renewed assurance to the residential construction industry, to home financing institutions, and to individual home buyers and builders who may have been holding up plans because of uncertainty regarding the future of the FHA. In other words, they may go forward with confidence that virtually all the financing facilities available to them in the past year will still be at their disposal."

As the Senate Banking and Currency Committee pointed out in its report recommending passage of the amended Act: "Such continuance directly concerns the orderly progress of recovery and employment and the opportunity of American families to obtain better living standards."

Principal features of the amended Act are:

1. Authorization for the President to increase to \$4,000,000,000 the amount of outstanding mortgage insurance obligations the FHA may have at one time. The present limitation is \$3,000,000,000, and the outstanding principal obligation at this time is approximately \$1,400,000,000, not including approximately \$400,000,000 in outstanding commitments to insure.

2. Continuation of the FHA's authority to insure mortgages on existing construction until July, 1941. Homes financed with FHA-insured mortgages will continue to be eligible for FHA financing indefinitely.

3. Requirement that in the refinancing of mortgages the applicant for insurance must file a certificate that the mortgage holder has refused to grant him equally favorable terms.

4. Extension indefinitely of the authority of the FHA to insure mortgages on small homes involving mortgages of not more than \$5,400 for terms up to 25 years. Under the old bill the maximum maturity of 25 years reverted to 20 years, as of July 1st.

5. Authorization to continue insurance of lending institutions against loss on property improvement loans up to \$2,500 each with a new provision empowering the Administrator to charge an insurance premium not in excess of three-fourths of one per cent to offset a portion of operating expenses and losses.

6. Establishment of a prevailing wage scale to be determined by the Secretary of Labor on large-scale projects (Section 207).

7. Revision of the conditions under which insurance may be granted on mortgages covering large-scale projects.

8. Repeal of Section 210 under which the Administration was au-

thorized to insure mortgages under special conditions in the price range up to \$200,000.

TEXANS OBSERVE MEMORIAL DAY

There is one day observed in Texas that leaves its mark for good in all parts of the State—that's Memorial Day, May 30th.

There is one day observed in Texas which is observed by all colors, classes and creeds, by the high and the low, by the rich and the poor, by public officials and private citizens—that's Memorial Day.

Cemeteries in all counties had their annual beautification. Weeds were cut and May flowers placed on multiplied thousands of graves. More than a million Texans made their annual pilgrimages to the earthly resting places of their dear dead, where they re-consecrated themselves to blessed memories.

Poppies bloomed everywhere in Texas on Memorial Day, not a product of God's glorious garden but formed and fashioned by the trembling hands of disabled heroes who fought for their country in times of stress and need.

Programs, in keeping with the spirit of the sacred observance, participated in by churches, patriotic bodies, service clubs public officials, and private citizens added to the inspiration of the day and carried out completely the meaning of the event.

And to the Press of the State of Texas goes the credit for the success and service of the day. Had the newspapers failed to carry the announcements, news stories about the observances, the programs, inspiring editorials, poems and songs and ever timely stories gleaned from the archives of our fathers, the day would have failed.

Mrs. H. A. Pendleton, Sr., of Munday and Mr. and Mrs. H. A. Pendleton, Jr., of Wichita Falls attended the graduation exercises at A. & M. College last week. Hal Pendleton will remain at A. & M. for summer school.

Miss Gayle Reynolds, who has been attending T.S.C.W. at Denton, is home for the summer.

Mrs. Deaton Green and children and Miss Tiny Newsom spent several days last week in Wichita Falls visiting their parents, Mr. and Mrs. F. H. Newsom.

Mr. and Mrs. Phillip Hamilton of Quitaque were here Friday night to attend the graduation exercises. Mrs. Hamilton is the former Miss Hazel Tipps, Spanish teacher in Munday High School.

Robert Nelson of Gilmer, Texas, visited in the homes of Mr. and Mrs. G. R. Eiland and Mr. and Mrs. A. U. Hathaway last week.

Mr. and Mrs. F. H. Newsom and son of Wichita Falls visited here last Sunday with their daughters and sisters, Mrs. Deaton Green and Misses Tiny and Lorene Newsom.

Mr. and Mrs. Paul Pendleton, Mr. and Mrs. L. M. Palmer, Mr. and Mrs. Jim McDonald and Mrs. McDonald's father, Mr. Irwin of Wichita Falls, spent last week end fishing at Lake Kemp.

Axeman-Burglar, Ready to Kill, Defeated by 2-Inch Disc of Light

A SINGLE-HANDED capture of two thugs in the act of looting a Los Angeles camera shop has won acclaim for W. H. Edwards, guard for a burglar-and-fire-protection company.

Edwards, answering an alarm which was turned in when one of the robbers crossed the path of an invisible ray inside the camera shop.

"I crept in, and at first I saw nothing amiss," said Edwards. "Then, as I played my flashlight about the shop, its beam shone on a man crouching in a corner.

"Gun in hand, I shouted to him to put 'em up. He did, but at that moment I heard a noise behind me. I swung the beam around—and there was the other thug almost on me with an upraised axe. When

I turned my revolver on him, he dropped the axe and put his hands up too. The other fellow had no gun, so I could take the chance of turning my back on him.

"In half an hour both men were behind bars. If my flashlight, which I had just loaded with fresh batteries, hadn't disclosed in a split second the thug with the axe, I wouldn't be telling about it now."

Even after his escape from sudden death, Edwards was still dependent on his flashlight. Herding the two crooks in a corner, he "covered" them with his light as well as his revolver until the police arrived.

Our Insurance is your Friend

Our protection leaves you free to call the undertaker of your choice, when bereavement comes, and to buy where CASH has greatest PURCHASING POWER.

IF LOWER RATES WERE SAFE, WE WOULD HAVE THEM

When a death occurs to our policy-holders, we ask that we be called, at our expense, as quickly as possible. We do not wait for you to come for your money, WE TAKE IT TO YOU, that you may FEEL FREE and have full exercise of EVERY LIBERTY, which is your SACRED PRIVILEGE.

WE OPERATE UNDER STATE LAWS, with rates that are safe. For your quick relief, we pay CASH, with no strings to it, it BUYS MORE, and helps pay your faithful family doctor.

Gilliland Home Demonstration Club Meets Wednesday

The Gilliland Home Demonstration Club met on Wednesday afternoon, June 7, at three o'clock in the home of Mrs. Groves.

After the business meeting, Miss Nina Astin, home demonstration agent, gave a lecture and demonstration on "Summer Drinks." During the demonstration she combined different fruits into drinks and the ladies compared the various fruit drinks. She also gave hints on serving drinks and on planning combinations of foods and drinks to be served on different occasions.

Nine members attended the meeting.

Sunshine Circle Meets In Home Of Mrs. B. B. Bowden

The Sunshine Circle of Methodist W.M.S. met Monday night, June 5th, in the home of Mrs. B. B. Bowden in a social and business meeting.

A very interesting program was given by members of the circle.

Present were Mrs. L. L. Womble, Mrs. L. Bowden, Mrs. Ed Bowden, Mrs. Aaron Edgar, Mrs. Cecil Cooper, Mrs. Ralph Burrow, Mrs. Glenn Stone, Mrs. Joe B. King, Mrs. M. B. Bounds, Mrs. E. Clayborn, and Misses Merle Dingus, Ruth Baker, Cloe Mayo and Cammie Beaty.

Membership Drive Baptist W.M.S. Closes Recently

The Baptist W.M.S. recently closed a membership contest, with the losing side entertaining. A picnic was greatly enjoyed Tuesday evening at the Roadside Park.

Over seventy people were present for the picnic, including husbands of some of the members.

A delicious picnic lunch consisted of chicken sandwiches, punch and ice cream.

Dorcas Sunday School Class Meets In Dobbs Home

The Dorcas class met on Wednesday afternoon, May 31, in the home of Mrs. Brice Dobbs, with Mrs. Searcey as hostess.

Miss Virginia Smith returned to Austin last Sunday to attend summer school at the University of Texas after a few days visit here with her mother, Mrs. J. R. Smith.

Live Wire Sewing Clubs Meets May 25 With Mrs. Gray

The Live Wire Sewing club met in the home of Mrs. Zack Gray on Thursday, May 25, in a social meeting and tucky party.

Interesting games were played. Later in the evening musical entertainment was given by Miss Mildred Gray.

Refreshments of cake, candy and punch were served to fifteen members and six visitors.

The next meeting is in the home of Mrs. Don Wardlow on Thursday, June 8, at which time the members' pals will be revealed.

CARLOADINGS UP

The Santa Fe System carloadings for the week ending June 3, 1939, were 18,326 as compared with 17,994 for the same week in 1938. Received for connections were 4,827 as compared with 4,311 for the same week in 1938. The total cars moved were 23,152 as compared with 22,305 for the same week in 1938. The Santa Fe handled a total of 24,913 cars during the preceding week this year.

Raymond Ratliff was a business visitor in Fort Worth last Tuesday.

T. G. Benne was a visitor in Vernon last Tuesday.

Sheet metal work. The Munday Plumbing Co.

Mrs. M. F. Billingsley Entertains With Eighty-Four Party

Mrs. M. F. Billingsley entertained a group of friends with an eighty-four party in her home on Wednesday afternoon of last week. Following the games, delicious refreshments of sunshine cake and fruit punch were served.

Present were Mesdames C. L. Mayes, P. B. Baker, C. H. Giddings, S. E. McStay, H. B. Douglas, C. R. Elliott and W. R. Moore.

"Mystic Weavers" Chosen As Name For Sewing Club

The "Mystic Weavers" was chosen as a name for the Sewing Club, when members met in the home of Mrs. Aaron Edgar last Wednesday afternoon.

This name was suggested by Mrs. W. R. Cabaness before she moved to Ozona to make her home, and the club voted Wednesday to adopt it as the club name.

After spending some time at sewing, refreshments of ice cream and cookies were served to the members.

Present were Mesdames Chester Bowden, M. L. Barnard, Tom Haney, Don Ferris, H. B. Douglas and the hostess, Mrs. Aaron Edgar.

The club will meet next with Mrs. Don Ferris, on Wednesday, June 21.

Mrs. Samsill Thanks Friends For Recent Shower

Mrs. Roy Samsill, formerly Miss Loveda Cheek, Wednesday expressed her thanks to her many friends for the shower given her recently in Munday. In a letter to The Times, Mrs. Samsill said:

Since it would be impossible for me to have the privilege of seeing and thanking each and every one for the nice presents that I received at my shower, I take this opportunity of saying that I thank you very deeply for everything. I also want to say that I appreciate all the efforts that the hostesses showed in order to give me a shower. Again may I say thanks to all of you.

Very sincerely,
Mrs. Roy (Cheek) Samsill

Mrs. S. C. Whiteside of Seymour is visiting her granddaughter, Mrs. Chalmer Hobert, this week.

Jim Reeves of Haskell was a business visitor here last Tuesday.

Miss Virginia Smith returned to Austin last Sunday to attend summer school at the University of Texas after a few days visit here with her mother, Mrs. J. R. Smith.

Earl Sams of Benjamin county assessor-collector, was a business visitor here last Friday.

Betty Crocker KITCHEN CLWIC

Prepared by Your Newspaper—Betty Crocker Home Service Department

TROUSSEAU TEA

A few days before the wedding, the bride-to-be often invites her girl friends in to see her "things", and have a cup of tea. It's done very informally. Some of the old family friends, whom the bride and her mother know will be interested, are also included. It saves the bride and her mother from having to display the trousseau linens and other things every time a close family friend happens in. No written invitations are sent. The bride-to-be simply calls her friends and tells them she'll be glad to have them come over on that particular afternoon to see her things.

If a large group of friends have been invited—the dining room table may be arranged as a tea table with a relative at each end of the table pouring, and plates of dainty sandwiches and little cakes arranged on each side.

Or, if it's a smaller group—of ten or twelve or fifteen who've been invited—the tea may be served in the living room and simple little sandwiches or buttered slices of bread passed with dainty little cookies or frosted cakes.

It takes time to make dainty sandwiches, and time is usually at a premium just before the wedding—so dainty buttered slices of a delicious orange or date bread would be not only a very pleasant substitute, but most acceptable little morsels to eat.

So it's with these trousseau teas in mind that I'm offering the following recipe for an Orange Nut Loaf. Of course, it will be excellent for other kinds of tea parties, too. Or, you may want to make it into sandwiches for picnics, lunch boxes or plate lunches. You'll find no end of occasions for using this delightful

Orange Nut Loaf
1 medium-sized orange
Boiling water
1 cup pitted dates
2 tsp. shortening, melted
1 tsp. vanilla
1 egg
Place unstrained juice and pulp from the orange in measuring cup, and fill to 1 cup mark with boiling water. (Orange juice and pulp and boiling water together should measure 1 cup.) Pour into mixing bowl. Discard the white and any orange pulp clinging to skin, and put orange rind and dates through finest knife of food chopper. (The finely chopped orange rind and dates together should measure 1 cup.) Add to liquid in mixing bowl. Blend in the melted shortening, vanilla, and well beaten egg. Sift flour once before measuring. Sift flour, salt, baking powder, soda and sugar together, and blend into fruit mixture. Add nuts. Pour into well greased and floured bread loaf pan, 3 1/2 by 7 1/2 inches across the bottom (and 2 1/2 inches deep), and let stand 20 minutes before baking. Bake 1 hour and 20 minutes in a moderate oven, 350° F.

Recent Bride

Mrs. Millard L. Hipple will make her home in Seattle, Wash., following a wedding trip to California. She was Miss Maxine Burnison before her marriage on Saturday, May 27. She is a daughter of Mr. and Mrs. Jess Burnison of Munday.

Knox Demonstration Council Met Friday At Benjamin

The Knox County Council of Home Demonstration Clubs met in the assembly room at Benjamin at two o'clock last Friday afternoon. The house was called to order by the chairman, with five clubs being represented.

Mrs. Don Phillips and Mrs. Lonnie Offutt and the chairman, Mrs. Marion Jones, were elected to attend the short courses at A. & M. College in July.

Mrs. R. M. Almanrode was nominated for vice chairman of District Three. These will be elected at the meeting at Lubbock in September. The next council meeting will be held on June 30th instead of July 7th.

Miss Wanda June Williams, student at T.S.C.W., at Denton, is home for the summer.

HERE FROM CHICAGO

Rev. William I. Caughran, pastor of the Austin Street Congregational church in Chicago, arrived Tuesday for a short visit with his mother, Mrs. O. C. Caughran, and with Mr. and Mrs. Austin Caughran.

Joe Albertson, son of Rev. and Mrs. W. H. Albertson, is home from school for the summer. Joe has been attending Howard Payne College at Brownwood.

Texas Leading Sheep and Wool State In U. S.

College Station, Texas—Texas' 9,400,000 sheep and a 75,600,000 pound annual wool production makes her the leading sheep and wool state in the Nation, with more than twice the number and production of the second ranking state. The industry contributed \$31,158,000 to the agricultural income of the state in 1938.

The sheep industry has largely centered on the Edwards Plateau of Southwest Texas, but of late years has spread to the Great Plains, North Central Texas, and East Texas.

Workers of the Texas A. & M. College Extension Service see in this development an opportunity for farm families to improve their nutritional standards and to enlarge their choice of foods.

The extension foods committee has compiled a leaflet, C-145, "Starring Lamb," one of a series in its food campaign, designed to promote the increased use of lamb as a food. It contains suggestions for preparing and cooking lamb together with a discussion of the food values.

The leaflet, just off the press, is available for free distribution in the offices of county agricultural and home demonstration agents.

Jeff Dean Bowden, who has been attending Hardin-Simmons University at Abilene, returned home last week.

Mr. and Mrs. Joe Giles and little son went to Dallas this week, where the child underwent an operation on his vocal cords.

Mrs. G. W. Dingus and her grandson, Harry Lynn Cowan, of Haskell county, are visiting relatives in Springtown, Texas, this week.

Mr. Phelps, manager of the Phelps Ice Co., of Haskell, was a business visitor here last Friday.

Mrs. B. F. Hood left Wednesday night for her home in Galveston after several days visit here with her mother, Mrs. Dave Eiland.

Radiator cleaning and repairing. Munday Plumbing Co.

Zoe In Fairyland

Scores of the displays at the California World's Fair are like fairyland, and here beautiful Zoe Dell Lantis gets an obvious thrill as she makes a close-up inspection of a building in a Redwood Empire diorama. The Redwood Empire building is one of nine exhibiting wonders of California county groups.

HEFNER NEWS

Harvesting grain and farming is the order of the day.

Mrs. C. B. Warren was hostess to the Home Demonstration Club Tuesday afternoon. There were seventeen members present and four visitors.

Miss Eva Jones and Mrs. Jay Marlow and children have gone to Denton to attend summer school.

Mrs. Johnnie Bates attended the graduation exercises at A. & M. College last week. Her brother, J. C. Rice, Jr., was among those who received degrees.

Leo Jones after spending a week with home folks, returned to Sweetwater, to work this summer.

Everett Jones spent last week at Crowell with his uncle, Will Jones, in wheat harvest.

Mr. and Mrs. D. B. Jones returned from Dodsonville where they

visited Grandmother Trimble, who is ill.

Vernon and J. T. Murdock were called to Golden, Texas, on the 4th, where they attended their grandmother Murdock's funeral.

Professor Ingram moved into the Hefner teacherage this week. He will teach the next term of school.

Mrs. Clyde Warren visited her parents, Mr. and Mrs. J. C. Newson in Wichita Falls last week.

Mrs. Roy Jones attended a reunion at Bowie on the 3rd of June.

Mr. and Mrs. J. E. Cure have their granddaughter, Miss Barnett of Truseott, as guest this week.

WASTED EFFORT

Husband (feeling a twinge in the back while he is tuning in the radio): "I believe I'm getting lumbago."

Wife: "Well, tune it out. You won't be able to understand a word they say."

THE CHURCH OF CHRIST

J. Cleo Scott, Pastor

The Sunday morning Bible study begins promptly at 10 o'clock. Let all make a strong effort to be present. You cannot grow as a Christian unless you put in some time in study. Come and let us study together. Let's have 150 in classes.

The preaching and communion at 11 o'clock. The sermon subject for the morning service will be "What Is the Church?"

Young peoples meeting at 7:30.

We shall study the Sea of Galilee. The sermon for tonight shall be "Why I Am A Member of the Church of Christ." Come, but do not come alone. Bring a friend along. They will hear nothing but the Gospel.

Ladies' Bible Class will be held Monday at the time most convenient to you. We will begin a study of the Romans.

Midweek singing on Wednesday night at 8:15. Come, let us learn how to teach and admonish one another in songs.

CHICKEN EATING DEER

The mystery of the "thefts" of small chickens from the farm of J. Stevens near Harper, Texas, was cleared up recently when Mrs. Stevens caught a young deer, of which the family had made a pet, devouring chickens.

Why deer, which are herbivorous, should turn away from their "vegetarian" diet is explained by State Game Department biologists as due to the lack of sufficient protein in their usual diet. The Stevens' pet was satisfying its craving for protein by consuming chicks.

The annual interest charge on America's national debt is \$300,000,000, more than the total expenses of government in 1916.

4-H Club Girls Return Sunday From 4 Day Trip; Visit Carlsbad Caverns

Twenty-five 4-H Club girls of Knox county, together with their sponsors, returned home Sunday night from a 4-day trip to the Carlsbad Caverns, El Paso, Juarez, Mexico, and other points of interest. The trip was one of the most interesting and educational trips ever planned from a group of girls, and it is planned that similar trips will be made each year.

The group left Benjamin on Thursday morning at seven o'clock, all going together in a Benjamin school bus. They ate lunch in Brownfield and drove on to Carlsbad that afternoon. After supper Thursday night, the group took a sight-seeing trip over Carlsbad and visited the beautiful beach on the Pecos river.

Breakfast was prepared early Friday morning and noonday lunches were also prepared, after which they drove to the caverns. They entered the cavern at 10:30 Friday morning.

While inside the huge cavern the group heard a rehearsal of Robert Ripley's broadcast which was given on Friday night. This was the first broadcast ever given from the cavern.

The Knox county group was also included in a newsreel which was made of all cavern visitors by Fox Movietone. About 850 visited the cavern that day, and this was the only group of 4-H club girls among the visitors. The group came out of the cavern at 4:30 Friday afternoon.

Jim White, discoverer of the cavern, posed with the Knox county visitors for pictures, and a number of the girls received autographed photos, as well as photos of Robert Ripley with the governor of New Mexico.

After visiting the caverns the bus took our local group to El Paso where they spent the night. Saturday morning they visited the El Paso Chamber of Commerce, where they received information regarding the city and were furnished guides to take them to interesting places. They visited the School of Mines, the museum, the cavalry post, and other points of interest.

A trip into Old Mexico was next, where they visited Juarez and went through the museum and jail at Juarez. After shopping in the Mexican market for a while, they returned to El Paso. Most interesting to the girls was a review of the irrigation systems at El Paso.

Leaving El Paso, they went to Pecos, where they spent Saturday night. On the return home Sunday they ate dinner in Big Spring and arrived in Benjamin shortly after seven o'clock Sunday night—a tired but happy group of girls.

Sponsors for this trip were Miss Nina Astin, home demonstration agent; Mrs. Della McGuire, Mrs. Helen Kinnibrough, Mrs. J. W. Melton, Mrs. Alma Boyd, Beatrice Collier and Lucille Hunter. Club girls making the trip are: Mary Maloney, Jane Faye Boyd, Ernestine Kinnibrough, Edith La-

'Car of Tomorrow' Shown at Fair

CAR-NAMING CONTEST OPEN TO THE PUBLIC

COMBINING beauty, utility, and ingenuity of design and construction, this "Car of Tomorrow," a room-lounge-observation sleeping car, highlights the Pullman exhibit at the New York World's Fair. The upholstery and decorative scheme are eye-appealing and reflect the modern tempo in travel comfort. Four other cars, a Roomette, a Duplex, a Standard Open Section and a Tourist Sleeper, complete the exhibit which occupies a track 500 feet long adjacent to the Railroad Building.

To stimulate World's Fair traveling, the Pullman Company has opened to the public a car-naming contest, prizes being fifty free round-trip to either the New York or San Francisco Fair. Winning names will be based on originality, uniqueness and suitability. The contest closes June 15 and winners will be notified on or about July 1. Entry blanks may be secured at any of the 21,000 railroad ticket agents throughout the United States and Canada, or from the Pullman Company, Chicago.

vern McGaughey, Leota Patterson, Ophelia Ann Evans, Mozelle Richards, Evelyn Rabe, Sammie Lou Shipman, Blanch Goodrich, Mary Ann McGuire, Jeanette Jernigan, Bobby Ruth Christian, Irene Richards, Lois McMurry, Hazel Welch, Mary Jean Stevenson, Madeline Goode, Claudia Meinzer, Ethel Robinson, Virginia Franklin, Elaine Galloway, Betty Gio Norris, Johnny Jackson and Ha Jackson.

Traffic Toll For May Under May of 1938

Austin.—Incomplete statistics indicated today that May's traffic toll will be well under the total of 127 lives lost on streets and highways during May a year ago.

At every point visited the girls received many compliments on their excellent behavior which was outstanding as compared with many other school groups which make similar trips.

Phelps Ice Co. Manager Pleased With Business

Rusty Doran, local manager of the Phelps Ice Company who has been in charge here for a period of several months, this week expressed his appreciation for the patronage given his firm by Munday people.

"We have enjoyed a nice business, both on our ice trade and on the Coolers, for which we have the agency in this territory," Mr. Doran said. "We are glad that our customers who have installed the Coolers are well pleased with this ice refrigerator."

"It is our purpose to serve our customers in every way possible, and we invite a continuation of your patronage."

TO DISTRICT MEET
County Agent W. W. Rice and Miss Nina Astin, home demonstration agent, spent Wednesday in Graham attending a district meeting of agents. At the noon hour the agents were guests of the Graham Chamber of Commerce for luncheon.

Wade T. Mahan was a business visitor in Abilene last Tuesday.

of a house. Heathington was atop the roof of the house, which was being transported by truck, when he shifted to the porch roof. The roof collapsed, plunging the man under the truck wheels.

In San Angelo, seven-year-old Philip Acosta was flying a kite, backing up the street as he did so. To get out of the way of a car, he first started toward the center of the street, then changed his mind and ran for the curb. Confused, the driver was unable to avoid striking the child, who died of a fractured skull.

Mrs. W. K. Fudge of Houston was fatally injured on the sidewalk when an automobile collided with a switch engine and then, out of control, hurtled onto the passing pedestrian.

Trying to avoid two trucks, W. M. Bounds, 75, of Forth Worth ran into the front of a bus and was knocked 30 feet, a fatality report showed. Bounds had parked his own truck, crossed the highway to talk to a man on a tractor and was re-crossing the highway when the accident occurred. Scene of the accident was near Forney.

Homer Ray Pruitt, nine, of Electra was on his way home, happy that school was out and proud of the report card he carried in his hand. A passenger train struck him as he stepped on the track. His report card was found near the body.

Reynaldo Aguirre, 25, of Kingsville was killed in a head-on collision between a car and an oil truck near Beville early one morning, and two others were injured. Aguirre was returning from Yorktown, where he and his sweetheart had planned their wedding for the following Sunday.

Bill Dingus, Tech engineering student, left last week to attend the R.O.T.C. camp at Fort Logan, Colorado.

Miss Drucilla Jones, who has been attending Hardin-Simmons University at Abilene, has returned home for the summer.

Mr. and Mrs. B. Hanks and little son spent Sunday in Rule with Mrs. Hanks' parents, Mr. and Mrs. W. T. Averitt.

Radiator cleaning and repairing. Munday Plumbing Co.

'Agin' Dictators

Dr. Boyd H. Bode

Denton, Texas.—The foremost obligation of the schools in America today is to make clear to a student whether he believes in a democracy or in authority, believes Dr. Boyd H. Bode, salty-witted brick-heaving professor of education at Ohio State University, who is principal speaker at the ninth annual conference on teacher-training to be held June 15-16 at the North Texas State Teachers College.

One of Progressive Education's best-known philosophers, Bode is the author of the recently completed "Progressive Education at the Crossroads" and five other books, and joint author of five more.

Bode will be the speaker at two general meetings of the teacher-training conference and is expected to blast dictators in his talks on "The Use of Education in Improving Democracy" and "Suggestions Toward a Program for Democratic Education."

Cowboy Reunion Grounds To Get Improvements

Stanford.—Improvements costing around \$10,000 are now in progress at the Texas Cowboy Reunion grounds just outside the city and will be completed in advance of the Tenth Annual Reunion, which will meet July 3, 4 and 5.

Major item on the construction program is a recreational building to be known as "The Roundup" which is being built by the oldtime cowboys association. The building will be used for the square dances which in the past have been held in the cowboy bunkhouse. The new arrangement will leave the bunkhouse free for the purposes for which it was originally intended—a meeting place for the pioneer cowboys and their friends.

The Roundup is being built 200 feet southwest of the bunkhouse. The walls will be of native stone veneer, similar to the bunkhouse, and the roof will be of iron, supported by steel trusses. Floor space will be 60 by 100 feet.

Besides this structure costing \$5,500, the Reunion proper is spending some \$4,500 for improvements at the rodeo arena and at other points on the grounds. A large shed has been built over the chutes, pens and alley at the arena. A press box has been built adjoining the judges' stand. New rest rooms are being provided at the grandstands and also at the chuck wagon reservation.

Allen Shahan, an employee of the West Texas Utilities Co., in Abilene was a business visitor here Wednesday.

Completely Electrified Farm at New York World's Fair

THE ELECTRIFIED FARM OF THE ELECTRIC UTILITY INDUSTRY NEW YORK WORLD'S FAIR AN OPERATING FARM ONE ACRE IN SIZE FEATURING MORE THAN 100 PRACTICAL APPLICATIONS OF ELECTRICITY

VISITORS to the Electrified Farm of the electric utility industry at the New York World's Fair will see a practical working farm with a farm house and buildings, completely equipped, cattle, horses, chickens, every last thing one would expect to find on a farm—all on less than one acre. More than one hundred practical applications of electricity will be shown, including some new equipment not yet on the market.

Cattle from famous herds are being supplied by the breeder associations—Guernsey, Jersey, Holstein and Ayrshire.

The farm will be seen under actual working conditions, with cooking and other kitchen work in the all-electric farm kitchen; milking and processing of milk in the milking parlor and dairy room; incubating and hatching of chicks, candling and storage of eggs; preparation of broilers for market, in the poultry house and brooder house; cleaning, packing and storage of fruits in the community packing house; the growing of plants in the greenhouse and hotbeds, etc.

Quick freezing is an important recent development that has tremendous future possibilities for the farmer. Among the equipment shown for the first time at the Electrified Farm are electric quick-freezing cabinets which may take the place of present locker storage, because they make it possible to freeze on the farm and hold for long periods fruits, vegetables, meats and poultry. These cabinets have about 30 cu. ft. of freezing and storage space, the approximate space necessary for an average farm, and can be kept either in the basement of the house or wherever else they might be handy.

Many of the uses of electricity are well known to the nearly 1,500,000 farms receiving electric service. On this farm all of the common uses for this type of farm and many of the new, tested and proved practices that are within the means of the average farmer, are assembled in a complete working unit.

The Electrified Farm shows how electricity can help to make farm life more comfortable for the farmer and his family, and how it can increase farm profits.

GUINN HARDWARE CO.

Desire of Albany High School's Senior Class To Visit Carlsbad Caverns Is Beginning of Ft. Griffin Fandangle

The Fort Griffin Fandangle, annual historical festival presented at Albany, Texas, each summer, began when a senior class of the high school, anxious to finance a trip to the Carlsbad Caverns, decided to stage a show in the football stadium. The production they presented, built around the pioneer and recent day history of Shackelford county, immediately caught the imagination of the local citizenry. A public-spirited superintendent of schools, C. B. Downing, and an ever-alert manager of the Chamber of Commerce, Ollie E. Clarke, were quick to see that the same show, elaborated and sponsored as a county-wide project, would not only serve as an advertisement of the town but as a pleasant, healthy, educational, social activity for the people.

Robert Nail, native son, experienced in Little Theatre direction, volunteered to manage the show and planned the general program that it should follow if continued from year to year. The general idea is that one day in each summer is to be set aside for general merrymaking by everybody in the county and surrounding territory. The main event of that day is to be a carefully prepared outdoor per-

formance, commemorating dramatically the main events of local frontier history. In order to avoid the tedium and pretentiousness of the usual outdoor pageant, the production is designed to be a caricature, a gentle satire on the past. Old timers have stated that this treatment comes closer to re-creating the spirit of the early day life they knew, the humanness of the time, than a more sober handling might have done. It is only the story however, that is told lightly; in all other respects the production is built with great seriousness. Every effort is made to have the performance historically accurate in event, costume and setting.

A special musical score, arranged from the traditional songs and ballads, is the backbone of the performance, and the story—explained by a narrator—is told in dancing, both mass and solo. These dances, like the music, are solidly based on the past. Even the modern tap routines which end the show are transformations of the familiar folk dances of the section—schottische, polka, new shoes, and the square of the last century.

The whole city takes interest and pride in the event, feeling it is something unique in group activity. The word, Fandangle, was carefully chosen in an attempt to name this uniqueness. To the people of Albany the Fandangle means a time of gaiety, of showing-off, dancing and singing—such a time as their forefathers knew when, after a boy and girl married, a whole day was spent in general care-free celebration. For the day, local attics are opened and from them come the real costumes of past years, worn once each summer by the grandchildren of their first wearers. Out of ranch barns and old garages come creaking buggies and puffing cars of times long since gone. All this is a very enjoyable out for the urge to dress-up and to play at make-believe—an urge that lasts long after years of childhood are over.

The second annual production of the Fandangle will be seen in Albany Friday evening, June 16.

Mr. and Mrs. Frasure Moore, of Seagraves, Texas, visited in the home of Mr. and Mrs. Sunset Boone last week-end. They attended the graduation exercises of the local high school while here.

Coach and Mrs. Billy Cooper left Saturday for Temple to visit for a while. During the summer, Coach Cooper will attend coaching schools at Waco and San Antonio. He will return to Munday about August first.

Mr. and Mrs. Howard Cobb will spend the summer at Stillwater, Okla., attending summer school at Oklahoma A. & M.

Sam A. Roberts, publisher of the Haskell Free Press, was a business visitor here last Saturday morning.

Selected as Cowboy Reunion Sponsor

Miss Helen Rosenwasser, daughter of Mr. and Mrs. Louis Rosenwasser, has been selected by the Stamford Chamber of Commerce as Stamford's sponsor at the Texas Cowboy Reunion to be held in that city July 3, 4 and 5. Miss Rosenwasser will assist the Reunion hostess, Mrs. W. J. Bryant, in entertaining the visiting sponsors. She will not compete in the sponsors' contest in which a handsome saddle and other prizes will be awarded.

LETTERS FROM THE PEOPLE

Washington, D.C.
6-3-39

Well here I am, the country boy from the forks who went to the big city and set 'em on fire. Anyhow I arrived in a blaze of glory and the blowing of many horns. Now, don't think it was my fault but the reception committee got all balled up and because my bus was a little late, thought I wasn't coming and went home. I naturally thought the horns were in honor of my visit to the capitol so I proudly marched out to greet everyone and found they were fog-horns. You know, its foggy up here—even the brains of some of the congressmen are foggy. Anyhow, in bewilderment and annoyance I set out to locate a place for my weary body to spend the night. I tried to break in several places that looked like hotels and they all turned out to be government bureaus. Finally I located the hotel—you know Old Man Willard is still running the main hotel and boarding house up here. Well, this morning I woke up and stroll-

ed into the coffee shop for a bite to eat. I soon found out bacon and eggs were worth only 45c for two eggs and two pieces of hog—coffee extra—so I says "bring me a cup of coffee" . . . which cost only 20c per cup, so I spent the balance of the morning looking for a place to eat, but kept on drinking coffee. I finally staggered back to the hotel practically tight on coffee and says "how much do I owe you?" and they say \$5.00, and I says what for, you know I've just been here one night. I believe Sheeny Rayburn could map up here, there is not a single hamburger joint in town.

Well, I finally got down to the capitol and saw a bunch of men standing around on stumps and I stayed around waiting for them to make a speech—most of them were holding papers or swords—and I come to find out they were the old-timers. It was before they started taking pictures, so they cut 'em out in rock. They say these congressmen won't let you in, but boy, they have all got a man in the hall to bring 'em in, as they are afraid some of their clients won't see 'em setting in their fine offices. . . and say, old Ed Gossett is sure fixed up, and a swell guy, too. I haven't gotten around to Connally and Sheppard yet. I got me a place to eat now at the MCA, and when you come up here you can get all you can hold for two bits. After sitting around for a while I decided to go out and take in the old town at nite, but they've got so many lights up here you can't tell when it is night. I lost half of the night waiting for it to get dark, and about the only way I could tell for sure was by the clock.

Oh, yes, I called up Mr. Wallace and told him I had come up to get all the subsidy checks for my farmer friends, and he said he would have them ready by Tuesday.

I got on a street car and they wanted me to pay 'em \$1.55 so I says "If you guys don't let me alone, I'm going to call up Frank and have you investigated, so they couldn't stand investigation they said, and told me to ride free.

While riding around I bumped into an English Lord (knows who) and he invited me to make the address of welcome to King George and his wife, so I paid for the drinks and came on home.

There are so many buildings here I can't find the main part of town and nobody seems to live here, they are all visitors or congressmen, and all live in some kind of a bureau—man, you never saw so many bureaus.

When you boys are reading this in the paper Thursday I'll be marching down Pennsylvania Avenue with the King and Queen of England with Henry Wallace on the handle bars. I know I'm going to need some chiro treatment for the neck when all this is over—you know you just naturally can't see the top of the Washington monument without rearing back and looking up.

Well, I'm going to have a big day tomorrow straightening out the cotton problem with Henry Wallace so I guess I'll go to bed.

P.S.—I can't find the Post Office, so I'll have to send this air mail.

Goodnight and good luck,
JIM HARPHAM

New Map Of Texas Highway System Issued

Austin, Tex.—Julian Montgomery, State Highway Engineer, announced that the Spring Edition of the 1939 Official Map of the Texas Highway System is being issued today.

New features include the designation of National Forests in light green, reproduction of colored photographs of the Main Building of the University of Texas and a scene in a citrus grove in the Rio Grande Valley to make up the frontispiece, reproduction of a colored photograph of forest fire to serve as a warning and to help prevent forest fires, and a list of all State Highway Patrol Stations and their locations and telephone numbers.

The back of the map has been arranged in artistic form and is printed in two colors. Photographs of the various activities, industries, recreational spots, maritime shipping, roads, and bridges are arranged in symmetric form to present a composite representative picture of Texas as a whole.

As an aid in the use of the map a system of indicating mileage has been used which shows the distance between larger cities or more important places in accumulated figures and printed in red, while the mileage between towns is shown in black.

This map is free to the public and copies may be obtained by addressing the Texas Highway Department in Austin or any District office of the Department.

Miss Shirley Kethley of Abilene visited friends and relatives here last week-end.

Rev. H. A. Longino, Miss Lenore Longino, and Miss Ida Belle Sherrod went to Abilene this week to attend the Summer Assembly of Methodist Young People. They were accompanied by Miss Betsy Greor of Bonarton.

Drive safely—save a life!

Coming To Fair

Mrs. Erwin C. Easton is pictured with "High Time," one of the star performers of the Winona Farm stables of her and her husband, which will compete with other members of equine royalty at the California World's Fair on Treasure Island from June 30 to July 9. The international horse show has drawn entry of more than 1,000 champions of the show ring from all parts of the United States to compete for \$55,000 cash awards.

Galveston To Celebrate Centennial By Opening Of Giant New Causeway

The island city of Galveston, Texas, will celebrate its centennial and dedicate its newest lifeline to the mainland, a great \$2,106,000 Public Works Administration financed causeway, at a gigantic four-day celebration August 13-16.

Galveston handles 35 per cent of the export trade of all Texas ports, and the State itself ranks second to New York in total value of exports. Galveston's overland traffic with other Texas cities is also heavy, largely because of the city's fame as a resort. To reach Galveston, this traffic must naturally pass over the causeway linking the island city to the mainland.

The main artery of communication has had to withstand the ravages of time and weather since the city first achieved prominence as a commercial and resort center. In 1900, a hurricane destroyed all bridges to the mainland. Hasty improvements sufficed until 1912, when a new approach crossing was built. Scarcely three years had passed when this structure's foundation was washed away. Again more bridging was erected, in 1922, but the humid weather and the increasingly heavier traffic soon took their toll.

Galveston's city commissioners appealed to the State Highway Commission for an appropriation to build a new causeway. Their request was granted when the Public Works Administration offered to assist the Highway Department in the project.

Work was soon started, and in 831 working days the job was done.

Galveston's new causeway, according to Geo. M. Bull, PWA Regional Director, is one of the nation's finest examples of modern engineering methods. It consists of 39 continuous reinforced girders in the three-span units, each 201 feet long and carried by columns rising from twin cylinder piers. With the navigation and abutment spans, there are 8,200 feet of bridging in the structure. Above the pier tops are cross-struts between the column bases. These, with the heavy deck structure, provide a strong box frame to resist lateral forces.

A 40-foot wide roadway rests 25 feet above the low mean gulf. For

the safety of pedestrians, a 30-inch sidewalk is on either side of the roadway. Including the approaches on the mainland and from Galveston, the causeway is more than two miles long.

To build this structure, 60,000 cubic yards of concrete were used. To reinforce the concrete, 8,000,000 pounds of steel were needed. Another 1,000,000 pounds of structural steel went into the bridging. For construction purposes only, 1,000,000 F.B.M. of lumber were used, and an additional 310,000 lineal feet were made into pilings.

Construction of the causeway created more than 2,000,000 man hours of work at the project site and in producing, processing, and transporting the large quantities of materials required. All of this work was performed under normal conditions with standard or better than standard rates of pay.

A new principle was used in constructing Galveston's causeway. The crossings of years before had depended on mass resistance to the tides and storm waves. Now, with the continuous girder units, an open structure frame greatly reduces the lateral impact of storm waves. It is a new idea in structural resistance, and all indications point to its effectiveness for many years to come.

BABIES ARE THAT WAY
Young Mother—"Why don't you keep the baby quiet?"
New Nursegirl—"I can't keep him quiet, mum, unless I let him make a noise."

Mr. and Mrs. Bob Parks of Abilene were visitors here last Sunday.

The JB Wrecking Yard Has Moved . . .

all new parts to the brick building first door east of the Terry Hotel . . . just getting fixed up. Come to see us.

"If it's auto parts, we hope to have it."

We saved \$100 on the best refrigerator we could buy!

... we got an Air Conditioned

Coolerator

Friends kept bragging about their Coolerators. They talked of ice cubes in five minutes; freedom from covered dishes; fresher, better tasting foods. So John said, "If this is all true, we certainly want a Coolerator. Let's try one ten days free in our own kitchen." Well, every word was true! Now I know what air conditioning means. The foods stay fresh and palatable without the bother of covered dishes. I don't worry about mixing of flavors, or rapid drying out—I have ice cubes that are a delight to serve. Best of all, our Coolerator cost all of \$100 less than what we might have paid. Why don't you arrange for a 10-day free trial—today?

Government Agencies Helping To Increase Prices To Wheat Producers

College Station, Texas.—American wheat producers are caught in a world situation which finds virtually every exporting country using some form of government assistance to increase the price received by domestic producers.

Jess Watson, wheat farmer and member of the Texas Agricultural Conservation Committee with headquarters here, finds this to be true after a study of world wheat production and trade reports: Despite shrinking outlets for world wheat, the world's major exporting countries have increased acreages and fought the stiffened competition by maintaining production levels.

Major net exporting regions include the United States, Australia, Canada, Argentina, and the Lower Danube region.

In the middle '20's, the average total wheat acreage in exporting countries, not counting Russia, was around 130 million acres. In the middle '30's, this figure had been increased to 145 million acres, and for the 1937-38 crop year the acreage was 15 million acres greater, or 160 million acres. This increase of the 1937 acreage over that of the '20's was about the size of the entire wheat acreage of both Australia and Argentina for the 1937 crop.

While acreage and production levels showed no sign of material decrease, net exports from the exporting countries (excluding Russia) in 1937 dropped 75 million bushels below the average of the middle '30's, and 300 million bushels below the average of the middle '20's.

Forms of government assistance being used in the struggle for export markets are as follows:

ARGENTINA: Grain-regulation

board purchases wheat at fixed prices whenever world prices fall below minimum established by the government. The government has complete control of foreign exchange.

AUSTRALIA: In most years the government pays bounties and makes direct grants to wheat producers.

CANADA: Canadian wheat board buys from producers at guaranteed minimum price and sells at the best price it can obtain, sharing an excess, if any, with participating producers, but charging loss, if any, to the national treasury. Government considering subsidies on acreage basis now as alternative.

DANUBE BASIN COUNTRIES: Complete government control of wheat exports. In these countries the most effective means of moving wheat into export has proved to be bilateral treaties or agreements with certain wheat-exporting countries of Europe.

SOVIET RUSSIA: All trade in wheat is government controlled.

Mrs. Ida Davis of Stillwater, Okla., came in last week to spend the summer with her son-in-law and daughter, Mr. and Mrs. E. W. Harrell.

Mrs. C. E. Bailey and son, Jack Lyndon, of Stillwater, Okla., visited in the home of Mr. and Mrs. E. Harrell a few days last week.

Mr. and Mrs. A. P. Garrett and daughter, Dorothy, spent last Friday in Abilene. Dorothy returned home Saturday night, accompanied by friends, Mr. and Mrs. S. M. Shelton and daughter, Myrtle Glenn, who visited in Munday over the week end.

Albany To Present Second Annual Fort Griffin Fandangle

A few of the reasons why the second annual presentation of the Fort Griffin Fandangle, a Cavalcade of West Texas, at Albany, Texas, on June 16, 1939, will draw crowds from all the neighboring towns and key cities. Left, a pair of belles in the hey-day of Old

Fort Griffin. Upper center, one of the straight-shooters. Lower center, the lady who sings of the "Wrong Man." Right, a trio of cuties from the dancing chorus.

The show has been written and is directed by Robert Nail, eminent playwright, and depicts in song,

story and dance the rise of West Texas from the wild and woolly days of the famous old fort, to the modern industrial empire that is new West Texas.

A cast of 150 actors, singers, dancers, cowboys, cowgirls, and Indians offer an unusual show in an

unusual setting in the Albany High School Stadium at 8 p.m., June 16.

The audience will be entertained with an open-air dance in the arena, immediately following the show. One ticket admits to both show and dance.

Texas Farmers Get Cash Income During April

Austin.—Texas farmers received \$27,006,000 in cash income during April, a fourth more than in April last year, and nearly 4 per cent above the five-year average, University of Texas business statisticians said today.

For the first four months of 1939, farm cash income has totaled \$77,950,000 for the corresponding period last year, Dr. A. F. Buechel, assistant director of the University Bureau of Business Research said.

Marked differences are noted in various sections of the State, however. For the most part crop-reporting districts devoted to livestock growing fared well because of heavy shipments of cattle and calves, and areas dependent largely on cotton and cottonseed as a source of income showed unfavorable comparisons.

Dr. Buechel predicted that the improvement over the corresponding periods of last year would be maintained.

Miss Tiny Newsom, who is attending the John Sealy Nursing School in Galveston, is spending her vacation here with her sisters, Mrs. Deaton Green and Miss Lorene Newsom.

Mr. and Mrs. Tom Wood of Odessa came in on Thursday of last week for a visit with Dr. and Mrs. D. C. Eiland.

Mr. and Mrs. Red Leathers were visitors in Paducah last Monday. Mrs. Leathers remained there for a few days visit with her mother.

Mrs. Tom Wood of Odessa and her daughter, Mrs. D. C. Eiland, were visitors in Abilene last Monday afternoon.

Wild Turkeys May Again Roam Texas Counties

First Experiment On Raising Birds In Fannin County

Austin.—A new method of raising wild turkeys under semi-natural conditions being tested by the Game, Fish and Oyster Commission may pave the way to the stocking of many sections of Texas with the big game birds.

In cooperation with the United States Soil Conservation Service and the U.S. Farm Security Administration the Game Department has fenced a fifty-acre tract in the heart of the Fannin County land rehabilitation project area near Bonham. Forty-eight wild turkeys trapped in Southwest Texas were released in the enclosure after their wings had been clipped.

Wild turkeys do not thrive in pens, but it is believed that under the semi-natural conditions they have found in the fifty-acre tract they will prosper and propagate. A number of the hens have already nested. The birds are being given some food, but are foraging for most of their nourishment.

When the young birds hatched on the area grow older it is expected they will fly over the fence. The older birds, when their wing feathers have grown out, will also leave the huge pen and will populate the surrounding territory.

Should the experiment prove successful it will be repeated in several areas of the State which provide the natural environment conducive to raising wild turkeys.

Mr. and Mrs. Roy Cutbirth and daughter and Mr. and Mrs. Bernice Andrews of Baird, Texas, spent Sunday in the home of Mr. and Mrs. J. C. Campbell.

Mrs. Phil Lowery left Sunday for Ruidosa, New Mexico, where she will spend the summer.

Bob Ivy was a visitor in Haskell last Sunday.

Maybe You Know It As Poison Ivy!

Two books drawn from the Milwaukee public library in 1909 were recently returned. The librarian, however, did not collect the accumulated fines of \$219.

Two motorists with identical names, charged with the same offense and arrested the same day at the same place by the same officer each paid a \$25 fine in Salt Lake City.

It's Just As Dangerous By New Name, Rhus Toxicodendron

Austin, Tex.—The main trouble with Rhus toxicodendron, which is blooming now, is that most of us do not recognize it. Not knowing this plant, many Texans, particularly those city folks who seldom go to the country, may contract a severe case of skin poisoning if they are not careful on picnics, camping and fishing trips.

Warning that several cases of poisoning have been reported already this year, Dr. Geo. W. Cox, State Health Officer, describes Rhus toxicodendron for the benefit of those not familiar with it. The plant has three leaves which are now green, and later become red or bright yellow. It grows on a low but erect plant, varying from several inches to three or four feet in height. The plant bears smooth, whitish, waxy berries containing a stony seed.

The easiest way you can distinguish the plant is by its leaves. Two of them are on short stalks and the third is on a longer one. They are from one to four inches long, dark green on top and lighter underneath. The leaves also

Rev. Albertson Attends Baptists' Meeting In Fort Worth This Week

Rev. W. H. Albertson, pastor of the First Baptist Church of Munday, left early this week for Fort Worth where he is attending a meeting of Baptist pastors of Texas, which is being held at Seminary Hill. He was accompanied by his daughters, Lily and Helen, who are visiting in Fort Worth. They will return home Friday.

An outstanding program is being given during the four days of the meeting, in which pastors have started speaking, praying and planning for an intensive statewide summer evangelistic campaign.

Some of the noted speakers and their topics during the meeting are:

O. B. Herrine of Baylor University, who will discuss "Baptists Breaking Over Into Unbeaten Paths."

Rev. Charles St. John, superintendent of the Bowery Mission in New York, will speak on "The Man Down-and-Out."

Rev. W. R. White of Oklahoma City will speak on "Winning the Ups-and-outs."

The pastors have asked D. A. Copps of the Southwestern Seminary to speak on "Masculine Evangelism."

Rev. A. D. Foreman of San Angelo, a successful city pastor-evangelist, will speak on "City Evangelism—A Denominational Necessity." Along this same line Executive Secretary Andrew Potter of Oklahoma City will deal with the subject, "The Impact of Revived City Churches on State Missions," and Superintendent of Evangelism Roland Q. Leavell, Atlanta, will speak on "Taking Our Cities for Christ." Still other speakers will touch on the subject of evangelism among the colored population.

Although the evangelistic crusade began on Seminary Hill just two years ago, at least four remarkable books throbbing with evangelistic fervor have grown out of this movement—"The Products of Pentecost," by L. R. Scarborough, "The Coming Revival," by R. C.

Campbell, "Preaching the Doctrines of Grace" and "Helping Others to Become Christians," by Roland Q. Leavell.

They Returned

Lure of San Saba Gets Local Followers of Isaac Walton

Several local members of the Isaac Walton League have been making annual trips to the San Saba river near Fort McKavett, Texas, and in past years have played with the inhabitants of that stream with fair success. They just seem to catch members of the finny tribe better down there than anywhere else.

Opening day of this year's fishing season found several of them with camp established on the San Saba. Among them were Henry and Dick Atkinson, Leland Hannah, John C. Spann, Lyle Stodghill and Jess, their cook.

But it rained, and hailed—many fish died and the boys didn't catch much of anything!

Not content with results, Leland Hannah and Henry Atkinson loaded up and went back down there last Tuesday night, and will tell you of their results this time!

Jess Cumba and family left last Friday for Edinburg, Texas, upon receipt of a message that Mr. Cumba's mother was seriously ill.

Chancey Hobert, who has been attending A. & M. College, returned home Sunday to spend the summer with his parents, Mr. and Mrs. L. W. Hobert.

Mr. and Mrs. Carl Mahan of Abilene visited a few days last week with Mrs. Mahan's mother, Mrs. E. M. Wilson.

Present Pullman Service Won Over Rail Heads

A STRANGE twist of fate saved the fortunes of George Mortimer Pullman, founder of the sleeping car, from collapse in 1864, when he brought out his famous "Pioneer," first modern sleeper, at a cost of \$20,000. Railroad men admired the car, but shook their heads at the size and construction. "Too wide for station platforms, too high for bridges," they said.

Pullman fought to alter the platforms and bridges, but his was a losing fight. When all seemed lost, a tragic fate intervened. President Lincoln was assassinated April 14, 1865. The President's remains were moved in state from Washington to Springfield and, as special homage to the Emancipator, Pullman's new car was used as part of the funeral train. Bridges and platforms, accordingly, were quickly altered; and the "Pioneer" received its dedication at the solemn pageant.

Overnight the "Pioneer" became celebrated, this car of 75 years ago that was to prove the inspiration for the sleepers of today—sleepers that are carrying travelers to both the New York and San Francisco World's Fairs, as well as to every other point on the nation's map.

As an incentive to visit the Fairs, the Pullman Company is conducting a contest for the naming of new Pullman cars. Fifty free round-trip tickets to either World's Fair will be awarded for the best names submitted. Names will be judged on the basis of originality, uniqueness and suitability. Entry blanks may be secured at any of the 21,000 ticket agencies throughout the country and Canada, or by writing to the Pullman Company, Chicago.

The "Pioneer," shortly after its participation in the funeral of President Lincoln, was put into service on the Chicago & Alton railroad. When General Grant decided to use it on his visit to his old home in Galena, other roads made the necessary alterations on bridges and platforms. This was the spur that Pullman needed; he proceeded to build more cars, to be owned jointly by himself and the railroads.

After thirty years as an industrial leader and philanthropist, Pullman died at Chicago, October 19, 1897. His largest bequest at the time of his death, was of \$1,200,000, which established the Pullman Free School of Manual Training, with these purposes:

"That the children of those associated with him in the town of Pullman and its enterprises might be trained in the ideals of clean living, good citizenship and industrial efficiency, which were his own inspiration, and through which alone the workman might hope to attain his true development."

Crop Insurance Provided by Electric Irrigation System

Part of a ten-acre truck garden where rain-making pays big dividends.

By IRA MILLER
Rural Electrification Bureau

THERE is scarcely a humid area in this country that does not experience at some time of the year—and most frequently during the growing season—a drought of greater or less magnitude and duration. As a result, many of the more tender crops are practically total losses and the yield and quality of the more hardy are seriously affected.

Because droughts have occurred with increasing frequency in so many sections, more and more farmers—especially those whose sole or principal incomes are derived from truck crops—have turned to crop insurance in the form of irrigation. To a lesser but steadily-growing extent, irrigation of numerous field crops as well as pastures and orchards also is undertaken by many farmers.

There are three general types of irrigation employed at present: Surface, sub-surface and spray. The first of these is subdivided into furrow, flood and porous pipe methods; the second into ditch and pipe systems; and the last into revolving sprinkler, low-pressure perforated pipe, overhead pipe sprinkler and eyelet hose types.

As space does not permit a discussion of the methods and merits of these various plans, it is sufficient to say that the contour and area of the land to be irrigated, the texture of the soil, the kind of crop to be irrigated and the availability and quantity of the water supply will determine which system is the most efficient and economical in each particular case.

Detailed information on the various systems of irrigation, the conditions under which each is to be preferred and whether or not you can use it at a profit, can be obtained from the U. S. Department of Agriculture, your state college or university, your power company or the manufacturers of irrigating and pumping equipment.

Where high-line electricity is available, an electric motor is the ideal source of power for irrigation, as it is economical, dependable, quiet and requires little or no attention. On those farms which do not yet have electric service, a tractor can be used if it is not much too powerful for the job at hand. Otherwise, to avoid extremely high power costs and rapid deterioration of equipment, a gasoline engine of the correct size—either vertical or horizontal, new or from an old passenger car or truck—should be installed. Whatever the source of power, the farmer should receive the careful consideration of every farmer whose income is affected by droughts.

Graham Plans Large Crowd At Singers' Meet

Arrangements for the 1939 T-P Sunshine Singing Convention meeting at Graham on June 10-11, are all complete to take care of 5,000 people the second day and to house 100 people on Saturday night.

H. L. Thornton is general chairman of the Chamber of Commerce arrangements committee, O. H.

FASHION PREVIEW

THE princess line is charming for a sixteen-year-old and this imported Irish linen dress with scallops from throat to hem, edged in tating, combines practicality with prettiness. Shown in Good Housekeeping Magazine for June.

McKibben of Graham, and Frank Beard of Newcastle, will act as official hosts. In charge of special music is Mrs. Frances Miller-Crenshaw of Graham.

Officials of the Singing Convention preparing the program are J. Lawrence Deavers, president, of Snyder; T. H. Westbrook, vice-president of Sweetwater, and M. H. Shaw of Abilene, secretary.

Invitations to 300 quartettes in Texas, Oklahoma and Arkansas have been mailed out by Mr. Deavers and the Graham Chamber of Commerce.

The Graham Memorial Auditorium is the meeting place of the convention where everything possible is being done to make the visitors comfortable. Special sound equipment will carry the song and music to those who will be unable to find seats inside the auditorium.

Texas Business Climbs In April

Austin.—In contrast to a national slump, Texas business climbed upward during April, Dr. F. A. Buechel, University of Texas economist, said today.

Charting Texas business on the basis of employment, pay rolls, freight car loadings, runs of crude oil to stills, department store sales, and electric power consumption, Dr. Buechel, statistician for the University Bureau of Business Research, pointed to a composite index figure of 95.1 for April compared with 94.4 in March and 93.2 in April last year.

National business has slumped continuously during the past five months, but Texas has remained horizontal during that period, and took an upward movement last month Dr. Buechel said. He pointed to a number of elements which could contribute toward sustained business recovery.

An abundance of cheap credit. Vast supplies of surplus raw materials, both agricultural and mineral.

Accumulated needs which have developed since 1930 and as a result of under consumption and low level of business spending.

A more realistic and cooperative approach to the consideration of economic problems by industrial leaders and government officials.

Miss Mary Moore, who has been going to school at T.S.C.W., returned home last weekend. Mary is a journalism student in the college.

BACK TO SCHOOL

M. B. Caughran, son of J. A. Caughran, returned to A. & M. College last Friday after a few days visit with relatives. M. B. is taking the required summer course in civil engineering this summer.

Mr. and Mrs. Taft Green of Quanah visited Mrs. Green's parents, Mr. and Mrs. Bill Mabry, last Sunday.

Fiddlers Will Hold Contest At Cowboy Reunion

Stamford.—Several fiddlers already are preparing to compete in the annual old fiddlers contest which will be held here July 5 as part of the program of the Texas Cowboy Reunion which meets July 3, 4 and 5. The contest is limited to musicians over 50 years of age and music must be of the "break-down" variety.

The contest will be held this year for the first time at the cowboy bunkhouse on the Reunion grounds instead of at the downtown auditorium. It is the Reunion's biggest free attraction. Beginning at 8:30 a.m., it usually last until noon.

Prizes totaling \$32.50 will be awarded, first prize being \$15, second \$10, third \$5 and fourth \$2.50. No entry fee is charged. Each contestant is allowed to play two tunes of his own selection. He may play alone or select a second, but only one accompanist is allowed. Jim Stell of Stamford is chairman of the committee in charge of the contest.

Among the fiddlers who already have notified Mr. Stell that they will compete this year are C. A. Ward, Weinert, age 65; Aut Dial, Stamford, 67; Sam Meadows, Lunders, 59; Alva Anderson, Stamford, Stamford, 66, and Ike Evans, Denton.

Another feature of the Reunion designed to keep alive pastimes of the old cattle country is the square dance each night which will be held this year at the new Round-up building. Judge C. E. Coombes, secretary of the oldtime cowboys' association, presides over these dances. Admission is charged for this event.

'38 INSURANCE SALES ROSE \$1,000,000,000

Hartford, Conn.—Ordinary life insurance in force at the end of last year, exclusive of the various types of group contracts, amounted in value to \$1,000,000,000 more than the previous year, according to an estimate recently released by Life Insurance Sales Research Bureau.

The increase, affording a barometer of returning confidence, raised the total value of the policies of \$75,595,209,000, a gain of 1.3 per cent, and meant an increase to over 34 million in the number of policyholders. Every section of the country registered a gain during the year.

The new total was 8 per cent above the depression low of 1934.

Dist. Old Age Supervisor To Be Here Thursdays

Mr. Heindon, old age assistance supervisor of this district, will interview applicants for old age assistance in Knox county during the month of June, according to information received by Judge E. L. Covey this week.

Mr. Heindon will be at the Knox county courthouse at Benjamin on Thursdays of each week during the month of June, Judge Covey stated.

Anyone wishing to see him regarding old age assistance are asked to get in touch with him while he is in the county each Thursday.

THE TIMES Want Ads

"Thank you, Reddy, for keeping the temperature down in my refrigerator."

Reasons Why Electric Refrigeration Is BEST IN West Texas

I. Dry, Hot Climate requires exceptionally low temperature in your refrigerator to properly preserve food. Only Electric Refrigeration can give equally low temperatures (around 40 degrees) in July and August the same as in January.

II. Low Electric Rates are in effect for refrigerator users. Economy of operation, plus the simplest refrigerating mechanism ever built, plus safety from toxic fumes, safety from combustible explosives, plus multiple-cold food protection—all these combine to make electric refrigeration best suited for use in West Texas where summer months undeniably are hot and dry.
