Display Shows Winners in 4-H Baby Beef Show

Silver Plaque for 4-H Show Feary 10th Is Also Shown

A display which has been creating considerable interest during the past week is shown in the show window of Baker-McCarty Dry Goods.

The display, advertising the Knox county 4-H Clubs' baby beef show, to be held in Munday on Saturday, February 10th, shows a large silver plaque which will be presented to the grand champion of this year's show.

In addition is the plaque received by Arnold Koenig last year when his calf won first prize at the Knox City show.

Shown also are various ribbons won by the county club boys and pictures of the boys with their winning calves at various county, district and state shows during the past four years.

The show here on February 10th, will be the fifth annual show for the club boys of Knox county who have been feeding calves. County Agent Rice says that many club boys of the county are getting their calves in top condition for this show.

Lewis Williams Announces For District Judge

Lewis Williams, present district attorney of the 50th judicial district, Wednesday authorized The Times to announce his candidacy for the office of District Judge of the 50th judicial district, which is composed of Knox, Cottle, King and Baylor counties, subject to the action of the voters in the Democratic primary in July.

Mr. Williams is by no means a stranger to the voters of this judicial district. He lived in Knox county for more than 14 years before becoming a candidate for this office, having lived a portion of this time in Munday. He moved to Benjamin in 1926. He has served two years as county attorney of Knox county and four years as district attorney, having lived at Benjamin during this time.

Williams has made an outstanding record both while he was county attorney and during the four years he has served this district as its attorney. His record in the courts of this district is one that may well be envied by any lawyer, and his ability as a prosecutor is well known in legal circles.

In asking to be promoted to the office of District Judge, Mr. Williams invites the voters to examine his record. It is upon this record and upon his merits that he asks this office. Williams said he would probably make a formal statement to the voters at a later date, but he asks that they carefully consider this as a personal solicitation for their vote and influence.

Negro Dies of Burns Received In Fire Sunday

Died Tuesday in Knox City Hospital; Fire Razes Home

J. P. Thompson, 23-year-old negro, died last Tuesday afternoon at five o'clock, a victim of fire which razed his home early Sunday morning. He died in the Knox City hospital where he was taken for treatment for the burns.

Thompson was attempting to "hurry up" a fire which he had built in the stove, and poured kerosene on the fire from a five-gallon container. The kerosene exploded setting fire to his clothing. His home, which was on the property of West Texas Cotton Oil Co., was almost completely destroyed by the fire.

Funeral services for Thompson are pending the arrival of his mother, Savannah Mayes of Belvie, Texas.

New Science Teacher Takes Up His Work Here

Ford Allen Is Elected To Schools in Place Of W. F. Benson

Ford Allen came in from Abilene last Saturday and assumed his duties here this week at instructor of science in the Munday Public Schools. Mr. Allen succeeds W. F. Benson, who resigned recently to enter the University of Tennessee medical school.

Mr. Allen, who has been teaching in McMurry College, is a graduate of that school and is a graduate student of Northwestern University in Illinois. He has a double major in his college work, in speech arts and science.

Mr. Allen comes to the local school well recommended as to his qualifications and experience, and school authorities feel that he is a valuable addition to the teaching staff of the local school. He is living in the A. C. Brock home.

MORE ENTER GOLDEN GLOVES TOURNAMENT

Coach Billy Cooper, district director, announced that additional entries were received this week for the district Golden Gloves boxing tournament, to be held in Munday on February 5, 6 and 7.

Coach Cooper has visited most of the towns in the district and says contestants will be here from all over the district to participate in the bouts. Howard Garner is continuing his free boxing instructions each afternoon for those desiring training before the tournament.

February 5, 6 and 7 will be big days for boxing fans when these boxers vie for honors and the free 5-day trip to the Fort Worth Tournament.

\$6,300 Paid To Gin Patrons In 1939 Dividends

Farmers Union Plant Makes Profit

Patrons of the Munday Farmers Union Gin gathered in a meeting at the Farmer Union Hall last Saturday afternoon to hear reports on the operation of their gin. Dividend checks covering a portion of the profits for the year's operations were issued.

The local gin paid \$6,300 in dividends to the gin patrons. Wallace Reid, manager, said everyone who ginned at the local plants last year participated in the dividends. Some 300 checks were issued, ranging from \$1.60 to almost \$100. The dividends were for the amount of \$1.60 per bale on the 3,900 bales ginned during the 1939 season.

In addition to the dividend checks the local gin paid \$4,750 on accounts and paid about \$3,000 for high grade planting seed. Some of the seed are still on hand and will be ready for distribution at the next planting season.

Not all farmers were present for their checks last Saturday, but those who were absent are calling at the gin office and receiving their checks.

Fire Damages Ford Grocery At Weinert Thurs.

Fire which originated in the rear of the store did some damage to the Ford Grocery in Weinert early Thursday morning. The damage was estimated at around \$300.

A call for help came to the Munday fire department, and the fire-brothers rushed to Weinert with all available extinguishers. The fire was under control when they arrived. The fire department from Haskell was also called, arriving in Weinert soon after the local fire-brothers.

IN TEMPLE HOSPITAL

Dr. and Mrs. A. A. Smith and daughter, Mrs. Carol Blacklock, left the latter part of last week for Temple, Texas, where Dr. Smith entered the hospital for treatment. Reports from Temple are that Dr. Smith will undergo an operation within the next few days.

Lucille Elmore Co. to be Here Jan. 31

The Lucille Elmore Company will appear in the Munday school auditorium on Wednesday, January 31, at 7:30 p.m., according to an announcement by Munday Lions Club. Admission prices are 25c for adults and 10c for school pupils.

David Hartley and Lucille Elmore present one of the most delightful programs of the year. Mr. Hartley is an artist in his own right, a pianist with an individual style, a violinist of exceptional tone with a repertoire ranging from the classics to unique modern arrangements, and possessing a pleasing baritone voice.

Miss Elmore, petite comedienne, less than five feet tall, is noted for her child impersonations as well as characters old and young. She appeared with her famous cousin, Fred Stone, in music comedy successes and stepped from the stage into a company of her own. She is the true exponent of high type entertainment which meets with popular and enduring favor.

Cottle Attorney Asks Office Of District Atty.

C. E. Blount, County Attorney for the past five years of Cottle County, and prominent attorney of this district has authorized the Munday Times to announce his candidacy for the office of District Attorney of the 50th Judicial District of Texas, composed of Baylor, Knox, King and Cottle Counties, subject to the action of the Democratic Primary in July.

We take great pleasure in presenting Mr. Blount's formal announcement to the voters of this District.

To the Citizens of the 50th Judicial District

This will announce my candidacy for the office of District Attorney of the 50th Judicial District.

Realizing that there are many of you who do not know me, I feel it nothing but right that I tell you something of myself and my qualifications for the office I am seeking, before I come around and personally solicit your vote and influence.

I was born and reared on a farm in Cottle County, Texas, and having obtained my law degree before reaching my majority, in fact when I was but 18 years of age, I came back to Paducah, and entered the law offices of Bell & Bell, a prominent law firm composed of J. Ross Bell, a former District Attorney of this District, and Joe D. Bell, where I remained one year, after which time I moved to the State of New Mexico and there accepted a position as Assistant District Attorney of the 6th Judicial District, which position I held until the latter part of 1932, when I returned to Cottle County and upon securing my license in this state engaged in the private practice of law. For the past five years I have been County Attorney of Cottle County.

Since obtaining my license to practice law I have tried and been associated in the trial of many prominent cases, both civil and criminal, not only in the District Court of Cottle County, but in many of the courts of the surrounding counties, as well as the Court of Criminal Appeals at Austin, Texas, the Court of Civil Appeals, at Amarillo, Texas, and the Supreme Court of Texas at Austin, Texas. I say, not boastfully, but with just pride, that I have had more than an average success with these cases, and my record in these various courts will bear me out.

My parents and many of my relatives are natives or old pioneers of this district. I am married and have a daughter ten years of age and a son six years of age.

Many of the ones I hold most dear as well as many lifelong friends are citizens of this district. It is my desire to serve them, and

Mrs. Fitzgerald, County Pioneer, Dies on Friday

Funeral Services Are Held Saturday With Burial Here

Mrs. Nancy Ann Fitzgerald, a pioneer resident of Knox county, passed away last Friday afternoon at four o'clock at her home here. She had resided in Knox county for thirty-five years.

Mrs. Fitzgerald was born March 28, 1872, in South Carolina, and died at the age of 67 years, 9 months and 19 days. She was a member of the Methodist church in Munday, but due to ill health had been unable to attend the services for a number of years.

She was married to W. A. Fitzgerald on October 27, 1903, and to this union five sons were born, one of whom died in infancy and another was killed in the oil fields in 1931. The three surviving sons are Bob and Cecil Fitzgerald, both of Munday and R. B. Fitzgerald, of Odessa. She is also survived by a number of brothers and sisters, stepchildren and 6 grandchildren.

Funeral services were held from the First Methodist church at 3:30 o'clock last Saturday afternoon, being conducted by Rev. H. A. Longino, pastor. Interment was in the Johnson cemetery by the Mahan Funeral Home.

Palbearers were H. B. Stubblefield, Lee Haynes, George Hammock, John Spann, Levi Bowden, and Doss West.

Geo. Hammett's Father Dies At Austin Friday

W. A. (Kid) Hammett, father of George H. Hammett of Munday, died last Friday morning at 3:30 o'clock at Brockenridge Hospital in Austin. Mr. Hammett had been in the hospital for treatment for the past three months. He was 70 years of age.

Mr. Hammett was a member of the Baptist church and the Masonic Lodge, and he lived a consecrated Christian life. His home was in the Gorman and DeLeon area for many years, where he was beloved by all who knew him. He visited his son here in 1938, at which time he met a number of Munday people.

Surviving him are his wife and the following children: George of Munday, Bob of Corpus Christi, Lee of Houston, Quincy and Lynn of Austin, 3 daughters; Mrs. Lena Miller of DeLeon, Mrs. Lula Campbell of Pecos and Mrs. Ora Hunt of Albany; 2 sisters, Mrs. Jim Jones and Mrs. Tom Fuller, both of Gorman.

Funeral services were held from the South Side Baptist church in Austin last Saturday afternoon at three o'clock. Burial was in the Austin cemetery.

Is Candidate

W. N. Corry of Keller, Tarrant county farmer and former legislator, has announced as a candidate for State Commissioner of Agriculture this summer.

ONLY FIVE DAYS

Only five days remain, not counting Sunday, in which Knox citizens may pay their poll taxes and be entitled to a vote in the various elections this summer.

This will be an interesting political year—already seven candidates has made their announcements in The Times . . . and it will soon be a busy time in precinct, county, district and state politics.

Surely you'll want a vote in the elections. Then pay your poll tax before February 1!

Funeral For R. A. Cavett Held Here Sunday

R. A. Cavett, a resident of Munday for the past two years, died at 2:15 o'clock last Saturday morning at the Knox City hospital, where he had been taken for treatment for pneumonia.

Born in Red River county on July 25, 1874, Richard Andrew Cavett was 65 years, 5 months and 20 days of age. He was a member of the Baptist church, having joined in 1908.

Surviving him are his wife and seven daughters, who are: Mrs. L. M. Glascock, Morgan, Texas; Mrs. J. A. Manire, Munday; Mrs. W. A. Barnes, Kopperl, Texas; Mrs. O. K. Kingery, Littlefield; Mrs. Clifton McBride, Lubbock; Mrs. Ed D. Smith and Mrs. C. C. Smalley, Matador. She is also survived by three brothers and 17 grandchildren.

Funeral services were held from the Baptist church in Munday at four o'clock last Sunday afternoon, being conducted by Rev. W. H. Albertson, pastor. Interment was in the Johnson cemetery by the Mahan Funeral Home.

His sons-in-law served as pallbearers. They were J. A. Manire, W. A. Barnes, O. K. Kingery, Clifton McBride, Ed D. Smith and C. C. Smalley.

Young People To Hold Rally Here; Opens Saturday

Rev. T. M. Johnston To Preach on Sunday

The Methodist Church of Munday will be hosts to young people from all over the Stamford district next Saturday and Sunday, when they gather here for a district young people's rally. Citizens of Munday are opening their homes to these young people who will come here for the services Saturday night and Sunday.

A committee which is in charge of assigning them to homes are well pleased with the manner in which Munday folks are welcoming the young people into their homes. It is believed enough homes will be opened to care for them, since many of them will not here until Sunday.

Adding interest to the young people's gathering will be the first official visit of Rev. T. M. Johnston of Stamford, district superintendent, to the local church. Rev. Johnston, who was assigned to this district by the conference at Lubbock last November, will preach at the morning services next Sunday.

Studying the theme of "Crusading for Christ," the young people will observe the following program:

Saturday, January 27

4:00 to 7:00 p.m., registration and assignment to homes; 7:00 to 7:45, lunch at the church, to be followed by recess.

The program will open again at eight o'clock Saturday night for Youth's Forum. The following topics will be discussed: "Youth Establishing Himself in the Business World," J. W. Gamble, conference president; "Youth and the Church," Mrs. Vaughter of Rochester; "Youth and the International World," Della Allison, McMurry College. A recreational hour will be held from nine until ten o'clock, after which Rev. H. A. Longino will lead a 15-minute devotional period before adjournment for the night.

Sunday, January 28

Morning watch will be conducted by Miss Jeanette Weibert of Weinert from 7:00 to 7:30 o'clock. At nine o'clock the business meeting will be held, with reports coming from all churches. Sunday school will be from 10:15 to 10:55, and Rev. Johnston will preach at the eleven o'clock hour.

The young people will assemble again at 1:30 for the consecration service, led by Rev. Cecil Tune of Sagerton.

Passion Play To Show in Seymour

The Passion Play in a talking motion picture, showing the crucifixion of Christ, will be shown in the city hall auditorium in Seymour on Sunday, January 28. The picture is sponsored by the Seymour Lions Club.

For years you have heard of the famous Passion Play as given in Oberammergau and Freiberg, and now it is being shown in its most dynamic and thrilling form—a talking picture.

Matinees will be shown Sunday at 2:00 and 4:00 p.m., night shows at 7:00 and 9:00 p.m. Admission to the show will be 15 and 35 cents.

Passion Play Is Coming to Munday

The Passion Play will be shown in Munday on Monday night, February 26, it was announced Wednesday by Rev. W. R. Bryant, pastor of the Presbyterian church.

The picture will be shown under the auspices of the Presbyterian church. Place of showing will be announced between now and the date booked for the show, February 26th.

Benjamin To Be Host to Singers

The Knox county singing convention will meet on Sunday, January 28, at the Baptist church in Benjamin. All singers in this section are cordially invited to attend.

Officials of the association announce that they now have the new books, and everyone will enjoy the singing of these hymns.

Sheriff Louis Cartwright of Benjamin was here Saturday on official business.

INVENTIONS MAKE JOBS

In the midst of a period when for the first time in many years national prosperity seems to be on the way back, it is disconcerting to read that persons are again publicly uttering an old and discredited piece of misinformation.

We refer to the hoary declaration that "inventions take away jobs."

Actually, this is a time when the statement that inventions take away jobs is most meaningless, coming as it does in the face of plans being made all over the country for commemoration next month of the 150th anniversary of the American patent system. During this celebration of "Modern Pioneers Day" nearly one thousand inventors whose achievements in recent years have created new industries and hundreds of thousands of jobs will be honored.

Here are a few facts that help to show the truth: 84 per cent of all machines invented in this country are "labor saving" rather than "labor saving." That is, they are designed to create entirely new products or services, or improve old products and services.

One out of every seven persons employed in American industry today works for one of 14 new industries that did not exist in 1870. These new industries owe their existence to invention.

Between 1900 and 1930, the period of most intensive machine development in this country's history, the number of jobs increased at the rate of 68 per cent while the population was increasing 62 per cent. The inventor was behind those extra jobs.

Today, with manufacturing industry employing workers than it did in 1929, and with thoughtful Americans looking to invention to create still more jobs, attacks on the inventor come to an unfortunate time.

They seem to resemble all too closely the attitude of the stay-at-homes who moaned that progress was at an end and at the same moment that covered wagons were moving westward and the whole new world of American life was being built by adventurers with courage and faith in the future.

"I HATE WAR"

President Franklin D. Roosevelt has said in all seriousness, "I Hate War." He voiced the sentiment of the rank and file of the common citizens of this country.

The people of America know from painful experience that "War is Hell!" And they are saying to their leaders at Washington: "Let us keep out of it; we want none of it."

"Our first and fundamental maxim should be never to entangle ourselves in the broils of Europe . . . I have ever deemed it fundamental for the United States never to take active part in the quarrels of Europe. Their political interests are entirely different from ours," stated Pierce Brooks of Dallas, speaking at Wichita Falls. "Their mutual jealousies, their balance of power, their complicated alliances, their forms and principles of government are all foreign to us. They are nations of eternal wars. On our part never has a people so favorable a chance of trying the opposite system of peace and fraternity with mankind, and the direction of all our means and facilities to the purposes of improvement instead of destruction. Our difficulties are indeed great, if we consider ourselves alone, but when viewed in comparison to those of Europe, they are the joys of Paradise . . . I expect that Europe will again be in a state of general conflagration. What a divine contrast is the calm of our condition to the volcanic state of that. How do our little party bickerings and squabbles shrink to nothing compared with the fire and sword and havoc of that arena of gladiators.

"Let us stay out of this world strife and thus not sacrifice the real mission of America which is to preserve a democracy, undisturbed by the ravages of war, holding steadily aloft the lamp of freedom and the light of liberty."

IMPROVEMENT

Some fifty or sixty years ago, it was suggested by a man who believed that all of the great discoveries and inventions had been made, that the United States Patent Office should be closed. We all know how mistaken he was. Since then the telephone, the automobile, the radio have been developed and television is on the way. Nearly 2,000,000 patents have been issued since that time.

Sometimes we feel that something quite near perfection has been reached in the things we use and come in contact with each day. But there is always a better day. Everything can be improved. Consequently it's a good idea to look at one's own job frequently to see what can be done to improve the way of doing it.

Before modern methods of refrigeration, ships commonly carried cows to give fresh milk and near the end of the voyage the animals were slaughtered and used for meat.

Until recently camphor came entirely from abroad. As a result of American research, this essential product is now made from turpentine and sold at 1-10th its former price.

PRAIRIE SCHOONER TO SKY WAGON

Sometimes we find ourselves saying that Americans are like no other people on the face of the globe. It isn't merely a narrow national pride that produces this attitude, either; it's simply the fact that our particular advantages in possessing individual freedom have made us more adaptable, better able to move ahead, and also better able to accept change as it comes.

The reflections occur naturally to mind upon reading a recent news item from New York City about the arrival by airplane from the West of an 82-year-old American woman who had made the trip the other way many years ago in a covered wagon. Besides being an indication of the great progress this country has made in less than one lifetime, the story helps to picture that pioneer spirit that is part of most Americans and has made our forward progress possible.

"I'm not afraid of anything," the intrepid passenger told reporters. "Why, I told my husband years ago that one day the skies would be full of flying machines and that I'd ride in one. I'm certainly thrilled to think that I jumped from a covered wagon to an airplane in one lifetime."

The spirit that has brought America so far along the road of progress is as strong as ever. There's testimony to prove it!

FIRE COMES HOME TO YOU

By this time, most of your New Year's resolutions have probably been broken. It's time to make a new and perhaps more sensible set. And here's one that none of us should miss: "I resolve to do my part to help prevent fire during this and every other year."

If every American would make and keep that resolution, some half billion dollars worth of property would be saved from destruction. Indirect fire loss estimated at several times that figure would be prevented. Infinitely more important, about ten thousand people would be saved from the most ghastly of deaths. And the legion of jobs and opportunities which fire destroys when it strikes at businesses, would be preserved.

Fire isn't somebody else's business. It's your business. You and other people like you, whether you know it or not, are responsible for fire. You benefit every time a fire is prevented. Human ignorance, human carelessness, human failures—these are the things that keep our annual fire loss at an incalculable level. Probably not one fire in ten can honestly be classed as unavoidable. Practically all fires, great and small, can be traced to the human element.

As 1939 came to a close, fire loss in this country was tending upward, by comparison with the same months in other recent years. That means that more of us have been taking chances, and refusing to put into effect the simple precautions that will prevent most fires. That means also that it's time to take action. Don't forget that the prevention of fire may save your home from ruin—as well as your life.

Our per capita debt for all branches of government totaled \$59.28 in 1913; in 1938 it totaled \$432.65. In other words, the worker with the smallest income, who probably delays going to the dentist or hesitates to buy a new pair of shoes because he can't afford it, owes the government nearly \$500. Some day a start must be made to pay the public debt. Paying it will be painful—but less painful than not paying it, which is something all of us will eventually find out if we continue to follow the line of least resistance. Those who have subscribed to the belief we have been getting something for nothing are due for a rude awakening, and the sooner it comes the better off we shall be.—Charlotte, N.C., Observer.

PLENTY MORE TO DO

THEY SAY!

"Free men cannot risk being controlled by professional politicians. Free men must themselves control the mechanism of free institutions. Free men must be ever vigilant that no group, no individual, no single power shall control the political and economic processes of our country."—R. W. Moore, president Canada Dry Ginger Ale, Inc.

"Our constant goal of a higher standard of living requires the wise use and conservation of our public funds. Waste and extravagance should find no place in government expenditures. Economy in government is the path to lower taxes."—H. Smith Richardson, president, Viek Chemical Co.

The control of government expenditures is vital and imperative, as it is the only way to decrease discouraging, unfair, destructive taxes, which, continued indefinitely, destroy the vital, impelling force of industry, venture and progress under our free enterprise system.—A. W. Hawks, president Congoleum-Nain, Inc.

Soil Fertility as a Basis Of National Defense

"A constant abundant supply of food, clothing, and shelter are the fundamentals of national defense. It appears to all sensible men that everything possible should be done to protect the top crust of the earth's surface from whence these things come abundantly with profit or with scarcity accompanied with poverty in accordance with the amount of phosphorus, nitrogen, and potash found in the top soils of our farm lands and which are in fact the nation's first natural resource." This was the way that Harper H. Nixon of Vernon expressed the subject of conservation to a group of North Texas farmers and farm leaders in a recent Land Use Planning Conference. Nixon is a member of the Wilbarger County Soil Advisory Committee and a member of the State Land Use Committee.

"If, because of the nation's unconcern or indifference, it permits the further deterioration of our cropland, national defense will only be necessary to protect ourselves from our own poverty rather than being militantly defensive against possible foreign foes.

"The President's message to Congress requiring curtailment in Government spending must take into account the necessity of continuing a program of soil and water conservation if national defense is to be provided. As farmers we must realize that there are a few mineral substances in the top soil of our farms that must be protected and kept where they are because without phosphorus, nitrogen, and potash we cannot produce grain and fiber and grass. We want to see the conservation program continued until all the farms on the upper reaches of the watersheds shall have been protected with

To the Sheriff or any Constable of Knox County—GREETING:

You are hereby commanded to summon Elzie W. Davis by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 50th Judicial District; to appear at the next regular term of the District Court of Knox County, Texas, to be held at the Court House thereof, in Benjamin, Texas, on the 2nd Monday in February A. D. 1940, the same being the 12th day of February A. D. 1940, then and there to answer a petition filed in said Court on the 15th day of January A. D., 1940, in a suit numbered on the docket of said Court, No. 4065, wherein Audrey Davis is Plaintiff and Elzie W. Davis is Defendant; the nature of plaintiff's demand being as follows: Suit for divorce, costs of suit, and for the care and control of two minor children, namely Theda Mae Davis, a girl, 3½ years old, and Randall Wayne Davis, a boy, 18 months old; Plaintiff alleges cruel treatment, non-support, and excesses, which render their further living together as husband and wife insupportable, alleging the marriage on the 6th day of April A. D. 1935, and the separation on the 22nd day of July A. D. 1939, and such other and further relief that plaintiff may be justly entitled to receive, both in law and in equity.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Benjamin, Texas, this 15th day of January, A. D. 1940.

If we are to keep our farms fertile and to be good husbandmen of the soil, we must realize that the plant food found in the top soil is precious and that there is just so much of it in the world and no more, and if we permit it to be misplaced by erosion, we must face the sordid facts of poor land poverty."

A Yale player was teaching some cowboys how to play football. He explained the rules and ended as follows:
"Remember, fellows, if you can't kick the ball, kick a man on the other side. Now, let's get busy. Where's the ball?"
"One of the cowboys shouted "T' heck with the ball! Let's start the game!"

 Virginia Parkhill, the daughter of Mr. and Mrs. E. G. Parkhill, Sr., was born on January 1, 1924, six miles southeast of Knox City.

"Pat" as she is generally called, is five feet and one inch tall and weighs 97 pounds. She has blue eyes and brown hair.

Some of Pat's favorites are: subject, typing; color, blue; song, "Careless"; sport, bicycle-riding; and hobby, music. He dislike is people who try to show off. And her favorite movie star is Tyrone Power.

After finishing high school Pat plans to major in Business Administration at Hardin-Simmons University.

Boys Basketball Game

The Sunset Senior Basketball boys went to Knox City last Friday, January 19, to play the Knox City Greyhounds. The boys were defeated only by three points; they hope to do better next time, and we all know they will. The basketball team has had many things to keep them from progressing as they would like to; but they are go-

Olentangy Preserves Natural Beauty

On the banks of the Olentangy River, about three miles from the center of Columbus, Ohio, in the large Georgian Colonial garden apartment project known as Olentangy Village. Taking full advantage of the natural beauty of the situation and with studied orientation of the buildings giving most of them a southern exposure, Olentangy Village provides attractive living quarters for over 400 families. The 404 units of the group comprise 1,376 rooms with a total valuation of \$2,200,000. The Federal Housing Administration insured a mortgage of \$1,735,000 on the property. The average rental per room in Olentangy Village is \$14.08, with family unit rentals averaging \$47.95.

I GIVE YOU TEXAS

By Boyce House

Every time I see Sterling Holloway, successful Fort Worth attorney, an incident of years ago comes to mind.

Holloway graduated from the University of Texas law school, was delegate to a Y.M.C.A. convention in Europe and then went to Eastland to serve as assistant district attorney. One morning a plainly-dressed, middle-aged woman whose features told a story of hardship and lack of opportunity, entered. He did not recognize her as having been defendant in a sensational case some time previously, when she was acquitted because of unsound mind nor did he know that the neighbors, with a queer idea of humor, had told her that, if she took possession of a piece of land and held it for four years, the State would buy it from her.

After the young lawyer had listened long enough to see that his visitor had nothing to present which was any business of the district attorney's office, he said: "There's nothing we can do."

But this didn't please her at all and she declared: "I don't want any trouble; of course, I killed my husband, but . . ."

The naturally rosy-complexioned Holloway turned pale and stammered: "You—you—you killed your husband?"

"Yes," she calmly replied. "I hit him in the head with an ax and then I cut his throat with a knife because I couldn't stand to see him suffer."

"Sit down, madam; sit down," exclaimed Holloway, grabbing a pencil and paper. "Now just tell me all about this land of yours."

Well-known Julian Capers of

ed to the glare of a bolt of lightning.

Lawyers are the subject of more stories than anybody else except the two Irishmen, Pat and Mike, so here are a few for our old joke contest:

A stranger, visiting a small town cemetery one Sunday afternoon, read an inscription, "Here lies a lawyer and an honest man" and then commented:

"Ground must be scarce around here; they're burying 'em two to the grave."

Equally ancient is the story of the old lawyer who was giving some advice to a newly admitted attorney:

"When the law is one your side and the facts are against you, bear down in your argument to the jury that justice must be done even though the heavens fall," the veteran barrister said.

"If the facts are on your side but the law is against you, ask what the world would be if it were not for mercy, for pity, for the sympathetic feeling of man for his fellow man."

The young lawyer said, "But suppose both the law and the facts are against me?"

To which the old-timer answered, "Then give the other side h . . ."

Another antique is the one about the witness who was being cross-examined, and the lawyer bellowed:

"What do you do for a living?" and before the witness could answer, the attorney continued, "You don't work at all, do you? And isn't it a fact that your father is a loafer, too?"

The witness said, "Well, you might ask him; he's sittin' over there on the jury."

And did you ever hear the story of the newspaperman who slipped into heaven and others up there didn't like it and were going to ask St. Peter to put him out but when they looked around for a lawyer to draw up the petition, there wasn't a single one in heaven?

Fire Hazards Intensified By Cold Weather

Austin, Texas.—Many householders learn too late that cold weather intensifies fire hazards, Marvin Hall, state fire insurance commissioner, said today.

The fire demanded by a blustery norther may easily set fire to a house unless chimneys, furnaces and flues are properly cleaned and repaired.

The risk to the farmhouse is even greater than to the urban dwelling because the majority of homes are constructed of flimsy, fire-inviting material.

Hall suggested that farmers learn the rudiments of fire-fighting and take steps to safeguard stored feed, livestock and other property. Once a fire gains headway in a

rural dwelling there is little that can be done in time to save the property, he said. A few moments spent in seasonal caution may save a year's harvest.

MUNDAY METHODIST CHURCH

Despite the cold weather the work on the church has gone forward and we will be ready for the District Meeting of the Young People. The auditorium will be so completely changed as to look that the old-timers will have to pinch themselves to see if they really are in the Munday church. The windows are repaired to keep out the cold, the ceiling has turned white, and the walls are beautiful. The lighting system has been re-wired and we will have light in abundance. The other changes you will see when you look about.

Program of the Young People's District work in brief: Registration from 4 to 7 p.m., Saturday, followed by plate lunch, etc. At 8 p.m., in the main auditorium will be discussion hour on vital topics of youth's problems of today. Adults are invited to sit in at these discussions. 9-10 is recreation hour, closing out with a devotion period and to the homes.

Sunday: 7-7:30, Morning Watch. Breakfast between 7:30 and 9. Business meeting 9 to 10, and Sunday School at usual time, 10:00 a.m.

At 11:00 a.m., Rev. T. M. Johnston, new District Superintendent will preach; young people's choir. Lunch 12 to 1:30 at church. Rev. Cecil Tune, of Sagerton, will conduct a consecration service, closing out at 2:15. Quarterly conference will be held at 2:30 p.m.

Our regular evening service will be held at 7:00 p.m., at which time we want a full choir of adults and lots of singing. You will want to see the church lighted, and what a difference.

A full day but a good day awaits us.

H. A. LONGINO

County Agent W. W. Rice and Chas. Hamilton of Benjamin were business visitors in town last Monday.

Karl Harbin of Dalhart spent last week end here with Dr. and Mrs. Eiland and with Mrs. Harbin, who is visiting in the Eiland home.

Mr. and Mrs. Roy Cutbirth and daughter and Mr. and Mrs. Bernice Andrews of Baird visited in the home of Mr. and Mrs. J. C. Campbell last Sunday.

Rev. and Mrs. A. W. Blaine of Vera were business visitors in town Wednesday morning. Rev. Blaine

is pastor of the Baptist church at Vera.

Miss Jane Stodghill, who recently underwent an appendectomy at the Haskell hospital, was brought home last Saturday. She is reported to be doing nicely.

A Lot of Counting

Counting at the rate of 150 a minute for 40 hours a week, beginning when America was discovered, it would take a man until 2603 A.D., to count \$20,500,000,000—the cost of relief in America since 1932.

Abraham Lincoln appreciated more fully perhaps than any other President the contribution of the American patent system to the social and economic progress of this country. "The patent system," he declared, "added the fuel of interest to the fire of genius in the discovery and production of new and useful things."

In less than 100 years from the number of patents issued annually for products to give better living and more jobs to Americans increased more than 4,700 per cent.

A Home of Your Own—Why Not?

Today, people everywhere are finding out that it's not only a real satisfaction to own their home, but it saves them money as well.

As long as you rent, you're getting only a temporary place to live. But when you're buying your home, you're investing your money in something that belongs to you, with payments often less than rent. And even after you consider insurance and taxes, the full amount you pay will probably be little more than the rent—and remember, most of that goes into the permanent investment—a home that belongs to you in just a few years.

Think over what is would mean to you, in satisfaction and in savings, to own a home of your own, then call and make an appointment to see the homes I have listed.

IN HOLIDAY COLORS

Here is an array of sprightly salads that carry out the red and green holiday color motif. Serve them as the salad course at luncheons or dinners—or let them add a jewel-like note of color to your buffet supper table. You'll find that when it comes to the eating, they will—one and all—live up to their appearance—for they are tangy spirited salads that contrast delightfully with blander meat and vegetable dishes that are served with them. Here they are:

<p>Beet and Avocado Salad</p> <p>2 tbs. gelatin 1/2 cup cold water 1/2 cup mild vinegar 2 cups boiling water 1 tsp. salt</p> <p>Soak gelatin in cold water 5 minutes. Add vinegar, boiling water, salt, sugar and horseradish, and cool. When mixture begins to thicken, add finely chopped beets and pour into lightly oiled ring mold. Chill and when firm unmold on lettuce on a large chop plate. Fill center of the beet ring with the halves of deviled eggs and around it place thin slices of avocado. Serve with Mayonnaise Dressing. This amount serves 8 to 10.</p>	<p>Pimiento Olive Cheese Salad</p> <p>1 tbs. gelatin 1 1/2 cups cold water 3 tbs. mild vinegar 1/2 cup sugar 1/2 tsp. salt 2 cups cottage cheese (or 3 pkgs.)</p> <p>Soak gelatin in 1/2 cup of the water. Combine rest of water, vinegar, sugar, and salt, and bring to a boil. Add gelatin and stir until dissolved. Cool until mixture just begins to set. Blend the gelatin mixture into cheese and blend in olives, pimiento and pickles. Fold in stiffly beaten cream and pour into a lightly oiled mold. Chill thoroughly. Unmold on crisp lettuce on a serving platter and garnish with bits of pimiento and stuffed olives. This amount fills a 10-inch ring mold generously—and makes 12 servings. Note: Part cottage cheese and part cream cheese may be used. Salad dressing isn't necessary, but if you wish some, it can be served in a separate bowl.</p>

Holiday Tomato Salad

<p>1 1/4 tbs. gelatin 2 cups tomato juice 2 tsp. lemon juice 1 tsp. Worcestershire Sauce 1 tsp. sugar</p> <p>Soak gelatin in 1/4 cup of the cold tomato juice. Add 1 cup tomato juice, boiling hot. Stir well to dissolve gelatin. When gelatin is dissolved, add remaining 1 1/2 cup cold tomato juice, lemon juice, Worcestershire Sauce, sugar and salt. Chill until gelatin is slightly thickened. Then add chopped pickles and celery or cabbage and pour into oiled mold and chill until firm. Unmold on bed of lettuce and serve with mayonnaise. This makes 6 servings. Note: When using crisp cabbage instead of celery, add about 1 tsp. grated onion with the other seasonings.</p>	<p>1/2 tsp. sugar 1 tbs. horseradish 1 1/2 cups beets, cut fine 1 avocado 4 deviled eggs</p> <p>white cream cheese) 1/2 cup sliced stuffed olives 1/2 cup chopped pimiento 1/2 cup thinly sliced sweet pickles 1 cup cream, whipped</p>

Reading

Stopping one day last summer by a bookstall in Cleveland an intelligent saleslady was asked how the books were selling.

"Oh," she said, "not so very well. You know only two per cent of the people read, and that means that only two per cent do the thinking."

She was a seller of good books and doubtless her answer concerned the kind of reading people were doing and to what purpose. When most of us consider the matter of reading, we are thinking of the kind of literature which will stimulate thought and action, give a broad view of life, and enable us to form a balanced judgment of contemporaneous happenings.

A home ought no more to be without a library than without a dining room and kitchen. No matter how large or small the house may be, there should always be one corner where a bookshelf can be placed and where it is an easy access.

A good father desires, in this period of general intelligence, to possess for his wife and children and for himself a certain number of well-selected books. If the money in the house is scarce and cannot afford a library, then borrow books or get them at the public library.

Any home can have in it at least four books. One is a clearly printed Bible. If the standard makes of Bible are too unreadable, then the one entitled "The Bible Designed to be Read as Living Literature" is what you need. Then a home needs Shakespeare. We can learn more about human nature in the Bible and Shakespeare than we can in our city or town or village. To these two books a great great biography should be added, and an anthology of poetry.

America gives another kind of library to every home at low cost—the newspaper and the magazine. True, the newspaper is filled with murder and scandal of every sort, but it also gives a history of human life. In it you can find the record of God's work in the world on our day, and this is the greatest age in which anyone has ever lived. There are a dozen good things in every newspaper, such as contemporary poetry, biography, humor, sports, inventions, art, science, all of which are worthy of thought and study.

Then the magazine. "A magazine," says Webster, "is a storehouse, a granary, a cellar, a warehouse, in which everything is stored or deposited." There is a deposit of something rich for the mind and soul in every good magazine. If you can't get a boy or girl to read a book, there is every chance in the world that he or she will read much in each of a half dozen good magazines if they are left lying on the table in the living room. One is sure to find the writings of a whole galaxy of literary men and women in a year's reading of such magazines. If a boy never reads a book, but reads standard magazines, he would go a long distance toward a liberal education.

Every father and mother ought to be reminded, as Freddie Harrison says, "that a man's business here is to know for the sake of living, not to live for the sake of knowing."

A good sign to have over the library is: "Avoid Rubbish."

HONOR ROLL—HIGH SCHOOL
 Although the students of Munday High School received a total of 43 A's the first semester this school year, it belongs only to Patsy Hannah to claim the honor of receiving 4 A's, or an average of 90 per cent on each subject pursued during the first half.

According to records released from the Principal's office this week, 31 students received at least one A, five received 2 A's, and two received 3 A's.

The following students, according to Mr. Hardegree's records, made an average of 80 or better on all courses pursued: Patsy Hannah, Ben Bowden, Harold Longino, Hugh Longino, Dixie Nell Atkinson, Elton Adams, G. C. Conwell, Dick Harrell, Bonnie Jones, Patsy Ruth Mitchell, Jane Stodghill, Mozelle Trammell.

Another Senior

Miss Gladys Booe, daughter of Mr. and Mrs. J. B. Booe was born at Knox City, Texas, on September 22, 1922. After living there for about a year, she and her family moved to Munday, where she has lived ever since.

Gladys is one of the most charming young ladies of our senior class, and this year she was chosen queen of Munday High School. Her

eyes and hair are brown, and she is light-complexioned. She chooses her clothes colors well. Gladys tells us that she would like to become a nurse.

Her favorites are as follows:
 Subject—Secretarial Training.
 Color—White.
 Sport—Football.
 Hobby—Band.
 Song—"Careless."
 Teachers—All, especially Miss Couch and Mrs. Hardegree.

Junior Report

Instead of writing the news for the Tom-Tom, we have been admiring the beautiful white campus. The snow isn't deep enough for rolling each other; but it makes good hard snowballs. At least, Vera thinks so.

We are very happy to have Mr. Allen of McMurry College as an instructor in Munday High this semester. Mr. Allen is filling the vacancy left by Mr. Billy Benson who is continuing his medical study in the University of Tennessee. Mr. Benson was liked by all, and we wish Mr. Allen to be as successful as our former instructor in science.

Last Friday night all of Mr. Benson's students met at the Romy Theatre to enjoy "The Oklahoma Kid." This was made possible by Mr. Benson. He enjoyed western pictures and said that we should see them more often; therefore he took us. Many of his students described him as being "human" and not a strict "prof." We students of Munday High School wish Mr. and Mrs. Benson success and happiness in their new home in Tennessee.

Miss Couch and the English III class completed "The Tempest" today. We enjoyed this interesting drama by William Shakespeare very much. After reading this play, we learned to appreciate more the greatest of all English writers. Since this is such a business world, we have decided to learn to type business letters. Of course, some of us are not very successful, but we will learn.

Laughs From the Past

When Jefferson was President, he was ready to see any visitor at any time. Nevertheless, he abolished the semi-annual levees, or public receptions, that had been given by previous presidents.

Some of the Federalists had a scheme to force the President to hold the levee. One day usually set, people began to arrive at the President's home, dressed for a formal reception. But the President was not at home. He was out on his regular horseback ride. When he returned at three o'clock, with perfect good humor, he went in to the reception, still booted, spurred, splashed with mud, and riding whip in hand. He greeted the guests democratically. They got the point of the joke and laughed at their own discomfiture. It was the last of the levees.

Unarmed Man, Chased By Wolves, Resorts to "Trick" And Escapes

Stretch of "Timber Wolf Country" in North and, right, William Maruska.

Cornered by timber wolves in a densely wooded section in northern Michigan, William Maruska, of Duluth, Minn., believes that he saved his life by a ruse which kept the animals at bay until he could reach the nearest town. Maruska was traveling at night through densely wooded country on the way from Paulding to Watersmeet, a distance of fifty miles. About six miles from Paulding the wolves appeared. "There were three of them," he said, "all big and they were almost on me before I saw them. I thought I didn't stand much chance because it had been snowing a lot and the game they live on had been driven to cover. And when these wolves get hungry they go after larger prey."

"I had to do something quick for they kept closing in. The only thing I had that resembled a weapon was a flashlight. I pointed it at them and pressed the switch. Instantly they turned and ran, but not far. No more than a hun-

ded feet away they stopped and when- ever I turned the light away for a moment, they closed in again.

"From that time on I was kept busy. Whenever one got too close I would level the flashlight beam at him. He would slink back, whereupon the others would rush up in the darkness, sometimes one on each side of me. Then there would have to be some quick work with the flashlight, switching from one side to the other. As time went on, I was afraid that the batteries in my light would become exhausted. I had been using the light a lot in my work. Fortunately, the batteries were fresh when I got them and the beam remained strong and bright. If it had gone out on me, I feel sure I would have been torn to pieces."

According to Maruska, wolves had been seen by several people in that section of the country. He believes that heavy snows may have driven them down from the Canadian woods.

Unchanged

There was a time when, as she walked
 Along the street and avenue,
 She smiled, and sometimes stopped
 and talked
 For hours with every child she
 knew.
 And every salesgirl in the store
 Knew her dislike for tiny

 Yet, night-time, when the lights
 are low
 And in the grate soft firelight
 gleams,
 She's still the one we used to
 know—
 A childish woman, dreaming
 dreams.

Benjamin Seniors to Present Play
 The Senior class of the Benjamin High School is to present three act comedy in the Knox City school auditorium on Friday night, February 2, 1940, at eight o'clock, p.m. Everyone is cordially invited to attend one of the fastest moving comedies which Jay Tobias has written. A Ready Made Family is a farce in three acts, and the following synopsis promises that the play is a procession of riotous joy and laughter.

Agnes Martin, a widow, while vacationing meets an old sweetheart, Henry Turner, a widower, and they become engaged. Neither tells the other of the children at home, three in one household and two in the other. The youngsters plan to upset the matrimonial apocryph by acting up. One has fits, another talks baby talk, another is a holy terror, one is a kleptomaniac, and take it altogether it's a queer mix-up and what fun!

The following characters comprise the cast:

Agnes Martin, a widow—Gert-rude Laird.
 Rob, her son, Buddy Sams.
 Marilee, her eldest daughter, Mary Lucille Smith.
 Gracie, her youngest daughter, Erdyee Elaine Galloway.

Awards

Every year, according to custom, achievement awards are presented to the most deserving students. Selected by the faculty, these are for: Freshman, Sophomore, Junior and Senior scholarships, all-around boy, all-around girl, and for the Seniors, Valedictorian and Salutatorian. The medals are yellow gold, tied on to a blue ribbon. These are now on display on the main bulletin board in the "Administration Building."

The most popular boy and girl are selected by the student body, but they are given no medal. However, they are not without importance and honor.

Everyone is wondering to whom these medals will be awarded. Never has there been such good material to select from, and the faculty is fully aware that it will be no easy matter to determine the winners.

Sophomore Report

We started our examinations last week with a practical test in Home Economics. Each one drew the name of the food she was to prepare. We were graded on personal appearance work in the laboratory and the product. This counted as one question on our examination.

The Home Economics girls are very sorry they had to drop Home Economics IIB this last semester. In its place they will take Business Arithmetic.

The Sophomores had only one entry for the most perfect ears in the contest. Anyone who is acquainted with our class will know without a second thought, that the person referred to is Walter Matt.

Freshman

The fish are still swimming rapidly toward success (we hope.) With the strain and panic shoved upon us by the mid-term examinations, it is our hope that we can start this six-weeks off on the right track.

In Literature, the class has been studying the story unit, and although some of the stories lack color and vividness, they are as a whole, interesting and stimulating to the imagination. The math class has not entirely brushed away the cobwebs from their minds, but are slowly absorbing compound interest; the home economics girls, having finished their cooking unit, are learning to live with and living to learn about the care of children. While the boys are taking World History and are studying and swimming in the knowledge of the Feudal Age. Is that the reason for their superiority around the

Munday Hardware and Furniture Co. Bringing Farm Picture To Roxy Theatre

Munday Hardware and Furniture Co., local John Deere dealer, is sponsoring a big John Deere Day Program at the Roxy Theatre, on Tuesday, January 30, for farmers and their families in this and neighboring communities.

According to E. W. Harrell, an all-Hollywood talking picture entitled "Joel Gentry in Hollywood" will be the feature attraction of the day. This appealing new picture was produced by the John Deere organization, and from all reports it's a picture that will long be remembered for its rich sentiment... amusing situations and charming romance.

In the cast of Hollywood players are John King, Rosina Lawrence,

Marilyn Knowlden, Gene Morgan, Sarah Padden, Robert Homans, Charles Judels, Johnny Arthur and many others.

The picture tells the story of Joel Gentry, a farm boy who wins \$1,000.00 and a trip to Hollywood. Joel's experiences in Hollywood and why he went back to the farm is a story every farmer will enjoy. Four Other All-Talking Pictures.

In addition to "Joel Gentry in Hollywood," four other all-talking pictures will be shown. They include: "Making Tractor History," an interesting picture on the development of the farm tractor... "Horses and Mules for Sale," a picture that points the way to the elimination of animal power on the

farm... "A Short Cut Through Harvest," an educational picture on the ability of the combine to save time, hard work, grain and money on both large and small farms, and a short newsreel on "What's New in Farm Equipment."

Munday Hardware and Furniture Co. cordially invites every farmer, farmer's wife and farm boy in this area to come to this big farm day program. He promises a good time to everyone who comes.

According to Mr. Harrell, admission to the John Deere Day Program will be by ticket only. Any farmer who has not received tickets can get them by inquiring at the store before the day of the show.

TEXAS LIONS MAKE THIRD PILGRIMAGE TO MEXICO

Plans for the third Texas Lions Goodwill Pilgrimage to Mexico have been completed, and General Chairman Julien C. Hyer of Fort Worth has announced the itinerary, and is receiving reservations for the trip.

Sponsored by the Fort Worth Lions Club and endorsed by five district governors of Texas, this

pilgrimage has been extended to include not only members of the International Lions Association, but likewise their families and friends, and to members of the general public who are acceptable to the committee on arrangements. Inquiries, according to Hyer, have been received by the committee from many Northern and Eastern states, as well as from the West as far as California, manifesting much interest in the pilgrimage this year.

"With foreign and all water travel greatly curtailed," Chairman Hyer reported, "the tendency prevalent among those who travel is to take advantage of the beauty, the climate, and the flower season of Mexico just after Easter, and for that reason we are planning our trip this year April 4-15." The trip will originate in Fort Worth with arrangements made for South Texas pilgrims to join the special train at San Antonio, leaving the night of April 4th, arriving in Mexico City, Sunday, April 7th, from which place a daily tour will be made to various points of interest, including Xochimilco, Puebla, Taxco, the Pyramids, and other points of interest. A feature of the trip will be the overnight stay with a dinner-dance at Taxco, the quaint artist colony of Mexico with luncheons

and banquets participated in by members of the Mexico Lions Clubs and non-members, and all will receive the same hospitality from Mexican Lions and their families.

A special all-expense rate of \$129.75 up includes everything except meals enroute and some in Mexico City. Full information is being furnished by the Fort Worth Lions Club to all interested in this Pilgrimage, the reservations being limited to 200. Illustrated folder has been issued and will be furnished on request.

ROSA LEE CHANDLER
Rosa Lee Chandler, daughter of Mr. and Mrs. D. C. Chandler was born February 25, 1922, at Ellaville, Texas. She began her schooling at Lingleville and later she went to Houston for half a year. Then she came to Rhineland where she went until the tenth grade. For the first semester of this year she attended Pampa High School, then she came back to R.H.S. where she has been since. Rosa Lee has played one year on the indoor ball team, and is now on the volleyball team.

Her future plans are to be an artist.
Here are some of her favorites:
Color—Violet.
Flower—Primrose.
Subject—English.
Teacher—All.
Hobby—Painting.
Song—Over the Rainbow.

Junior Report

The ground was covered with snow Monday morning but if you had taken a look at the Juniors and Seniors you would have thought their minds were covered, too. Whether it was snow or dust, we don't know, but it was something. Maybe they aren't used to staying up late every night and it kind of gets them down.

The Juniors have a few favorites and the following are their favorite songs and towns:
Ethel, Bluebirds in the Moonlight, Munday.
Cletus, Scatterbrain, Megargel.
Catherine, South of the Border, Benjamin.

Richard, Rubber Dolly, Guthrie.
Albert, When the Work's All Done This Fall, Benjamin.
Geneva, Scatterbrain, Munday.

Genevieve, Careless, Seymour.
Florine, Over the Rainbow, Munday.

breathless with hurry and excitement. The inspector in charge regarded him gravely for a minute.

"They say you've caught the man who broke into my house," gasped the visitor.

"That's right," answered the inspector. "Do you want to see him?"

"Darn tootin'!" replied the other excitedly. "You see, he managed to get into the house without waking my wife, and that's what I've been trying to do for the last ten years."

Since midterms are over we have made the resolution to study ever so much harder.

Ethel also has made a resolution, and that is to dance and talk with a certain Sunset boy every chance she has. (Look out, Ray!)

Sophomore Report

The Sophomores feel very relieved now that they have passed their midterm examinations.

In English we have now taken up prose and poetry, which is very easy and interesting.

During our English class last Friday, we elected Theresia Andrae as president and Nadine Kreitz as secretary for the second half of the school term.

In biology we are studying the growth of plants and the different parts and names of leaves.
In Economic Geography we are studying mixed farming in the United States, especially in Texas.

Freshman Report

Snow was on the ground again Monday, but fortunately for the girls, it melted soon.

Wichita Boxers Win Five of Nine Bouts Tuesday

Bouts Preliminaries To Golden Gloves Tourney Here

Wichita Falls boxers, coming here Tuesday night, took five of the nine bouts scheduled on the boxing card at the Munday school auditorium, one was a draw, while the other three went to Munday's boxers.

The feature bout at the close of the schedule, featuring Eddie Russey of Wichita Falls, Golden Gloves champion of last year who entered the national tournament at Chicago, proved quite a disappointment to local fans. Russey showed too much punch for Troy Denham, who weighed in five pounds heavier than the champion. Denham took the count of seven and was down again for the count of four, then he conceded the match to Russey before the first round was over.

The first bout featuring Joe Spann, 90, and J. Anderson, 87, ended with a knockout in the third. Joe stopped a hard one to the chin and landed in his own corner to be counted out by Sidney Lee, referee. Joe wasn't hurt, but he didn't want to run chances of catching another hard one.

Raymond Carden, 112-pound sensation of last year's bouts, won the judges' decision over James Russey, 112, of Wichita Falls.

Buck Meinzer, 99, won the unanimous favor of the Judges over H. Gray, 100, of Wichita Falls, in a three round punching bee.

Ullis Booe, 117, and Deno Tufaros, of Wichita Falls, 117, punched it out for three rounds to have the judges pronounce the bout a draw. M. Dorsey of Wichita Falls, 124, won over John Nelson, 128, by a technical knockout. Nelson received an injury to his left eye, and Referee Lee stopped the bout.

Joe Dean Clough, 135, punched them in hard and fast to take the unanimous vote over Wichita Falls Blankenship, 131.

Sargent Lowe, 135, lost to his opponent, O. Cox, 135, of Wichita Falls, by a vote of the judges. Lowe found a little too much arm length for him.

Gene Thompson, 142, and C. Bradford, 147, gave the fans a fine exhibition of connecting with their fists, but the judges called it a draw.

After agitation from the kiddies who participated, the promoters wedged in a battle royal between John Eddie Bevers, Herbert Stodghill, Bobbie Haymes and Charles Masse.

Forest Yancy, 160, and M. Walker, 168, fought hard and fast in the last scheduled bout, each landing some good, hard blows. Walker, the Wichita Falls boy, won the decision.

of the bridge builders, Procrastination, Indifference, Neglect and Company, who were employed to bridge the chasm of bitter disappointment. These builders were under contract to use such materials as good intentions, faith and loyalty. However, they substituted shoddy materials and when the bridge was completed it collapsed with the first strain that was put upon it.

Many A Family . . . has found too late that they failed to build a bridge to span the chasm of Bitter Disappointment. However, there is a safe bridge which any family can provide that offers safe and thrifty protection. It is that part of the family budget called INSURANCE.

\$105 In Prizes To Be Given For Fire Posters

Austin.—Thousands of Texas school children will compete this year in a fire prevention poster contest for \$105 in cash prizes. Marvin Hall, state fire insurance commissioner, announced today.

The contest will be open to all pupils in public schools, and eight awards will be made in each of three divisions—high school, intermediate, and primary.

Posters must be original and may on any phase of fire prevention of general interest, Hall said. All work submitted must reach the office of the fire insurance division in Austin on or before May 1, and no school may submit more than one poster from each grade.

More than 1200 posters, many showing a marked degree of originality, were submitted last year.

Cottle Attorney . . .

(Continued from Page One)

Friends and neighbors, as District Attorney. I have but one promise to make if the sovereign voters of this district see fit to honor me with this high office. I seriously and solemnly dedicate myself to the making of that confidence, to the making of an honest, fearless and upright officer, impartial and unbiased, with fear of or favor to none, but fairness and justice to all, be he high and rich or lowly and poor.

In the very near future I shall start calling on the voters of this district that I may meet you in person and solicit your vote and influence and until the time I get to you I humbly ask that you give this bid for your support to my candidacy your most earnest consideration.

Respectfully,

Weinert Asks Bond Election For Improvement

\$40,000 For Improving Of Weinert School Is Proposed

Voters in the Weinert rural high school district will vote Saturday, January 27, to determine whether a \$15,000 bond issue will be carried for additional classrooms to the present school building.

If the bond issue is authorized, authorities of the school plan to make application for WPA aid on the building project, and estimate that if approval is secured a total of approximately \$40,000 will be available for the improvement program. This would make possible provision of adequate and modern school facilities.

At the present time, 500 pupils are enrolled in the Weinert schools, and an overcrowded condition exists.

The bond election will be held in the school building, with Ed Howard as presiding officer and Edgar Lowe as judge. Assisting as clerks will be J. W. Earp and Grover Newsom.

WHY I AM SAD

This poem is dedicated to the following neighborhood children who recently lost their pets by poison: Bettve Golden, David Eiland, Latreace, LaRue, and Wanallen Johnson, O. H. Jr., Betty Jane, George Sumner, and Bera Faye Spann.

You ask me why I'm sad, sir,
And why that I cry.
I've just buried my little dog, sir,
That's the reason why.

I guess you'd call him just a cur,
For he had no pedigree,
But he was my best pal, sir,
And meant the world to me.

He was always ready for a romp
When I'd go out to play,
And he would follow at my side
All the livelong day.

I'll never forget when we fo und
him, sir,
His body was racked with pain,
Such a pleading look was in his eyes
When I would call his name.

But my little pal is gone now, sir,
He can't play by my side,
For somebody poisoned my little dog,
And that is how he died.

They surely never had a dog
When they were a kid like me,
For if they ever had, sir,
They'd never so heartless be.
Mrs. O. H. Spann

Haskell Banker Speaks at Lions Meeting Here

O. E. Patterson of Haskell, well known banker of this section, was guest speaker at the regular meeting of the Munday Lions Club last Wednesday. Mr. Patterson spoke on the subject of "Sentiment and Luck."

In the beginning of his interesting talk, Patterson stated that most everyone in Munday, or anywhere else, are located there because of sentiment, or because of luck. He spoke of sentiment as that feeling which one person has for another in a business way; of the value he placed on his friends who value his friendship, comparing this sentiment and friendship as a "rich uncle who had remembered him in his will."

Patterson said that Munday, or Haskell, should not go out of town to find talent . . . that it was right here in town if they'd only give it a chance to develop. Speaking of his travels and his admiration for the towering mountains, Patterson wound up that none of these beauties compare with the beauty of a Haskell county sunset. In the mian, his speech emphasized the fact that the Lions Club as a service club should seek to develop the local talent of Munday and look for the beautiful in the town and community.
