## SWEET 'N' SOUR

By A. Dill

Eleven more (count 'em) days of swimmin' fishin' 'n just plain loaffin' till school starts -- even fewer for some of the county's youngsters who answer the call of school bells August 29th and 31st -- so don't say we didn't tell ya. If right about now Supt. Warren stepped to his front porch and shouted, "All that aren't ready, holler I!" wonder what the response would be.

For Baird Bear football team it might as well be that season right now -- soft, summer livin' came to a halt for the Big B's Monday with their first work-out and of you wanna see some "bushed bruins" we got 'em -- by game time though, that training is going to pay off and hopes are mounting daily for some big times this fall on the gridiron.

We had a wonderful card this wk from Janet Ross while vacationing in California and visiting the fabulous Disneyland there. Janet and her parents, Mr. and Mrs. Hugh Ross were in Los Angeles to welcome home daughter Mary, who returned from Hawaii this month. Highlight of the trip came to Hugh and Ann when Mary, dripping leis stepped from her plane at International Airport. Right now Mary is busy visiting and telling friends of this glorious summer on the islands; Janet is in Dallas attending Majorette school at SMU, so for the Ross children summer vacation closes in just as gay a note as it began.

Mr. and Mrs. Cole have been enjoying a summer trip to the Big Bend area of Texas and enjoying the scenic wonders of this untamed part of the state. Congratulations are in order for Beverly and Teddy Poindexter -- it's a boy at their house. The young man weighed in at 7 lbs. 13 ozs. on August 11th and has been named Martin Craig.

Still more congratulations for Annie Jo and Durwood Saunders of Odessa -- for this family its a baby girl, Leslye, born on July 20. We are indebted to Susie Coppinger for this news item and sorta' wish to say thanks for it.

Special guests arrived this week to visit Mrs. Virgil Hill -- Linda Hill, daughter of Mr. and Mrs. Lewis Hill, is here from Clemons, S. Car.; Elizabeth and Eleanor Hill, daughters of Mr. and Mrs. Clifton Hill of Houston joined the group; also Jane, Cathy and Beth Carl, children of Mr. and Mrs. Barton Carl of Goree. The youngsters will spend the last few weeks of the summer here in Baird on that "most looked forward to" part of their vacation with their grandmother.

Mrs. Barney Gibbs was delighted last week with a visit from her brothers -- Mr. and Mrs. W. E. Smedley of Davenport, Okla., and N. L. Smedley of Big Spring. The Smedleys were here to attend the Old Settlers reunion, as well as to visit family and friends.

The reunion brought many special visitors to the county -- some very welcome ones were guests of Mr. and Mrs. J. Brice Jones -- Mrs. Jones' niece and nephew, Mr. and Mrs. Max Akins and sons, Steve and Mac of Barcelona, Venezuela, S. A. The Akins joined the Jones family, Ben Williams and Mrs. Albro Wilson to attend the reunion and renew friendships with other Callahan folk.

Ben and Loula Mae Russell, Elaine Hampton and children, Ronny and Beth, and Randy Russell, left this week to vacation on the Gulf Coast and points of interest in South Texas.

A very special congratulations to young Larry Towler, who received a special award from the State Department of Education this week in recognition of the perfect spelling paper he handed in at the Interscholastic League contest this spring. The paper not only had to be 100% correct, but had to pass exceedingly high standards of handwriting in order to be given the award, and in the record of Baird school, 3 such certificates have been won. Miss Isadore Grimes, Larry's teacher, is justifiably proud of her student, and his parents, Mr. and Mrs. John T. Towler feel that way, too.

Happy birthday to a very nice person -- August is special time for Adella Rockey -- and all of you join in wishing her the very best.

Happy folks are the Neels -- Merle and Bob -- son David will

## Charles Wood Sent to Gatesville For August 5th Knife-Slaying

Charles L. Wood, 16, accused knife-slayer, was declared a juvenile delinquent at 10 a. m. Wednesday by Callahan County Judge J. L. Farmer. Wood will be sent to the State School for boys at Gatesville until he is 21 years of age, Judge Farmer said.

Judge Farmer said he had considered probating Wood to a local rancher for five years, but that satisfactory arrangements had not been made.

The only other alternative he said was to hold Wood in county jail until he was 17, and then try him for murder. The judge said that since the 16-year old (he turned 16 the day after the Aug. 5 slaying) was being sent to Gatesville, he would not be tried for murder.

In the juvenile court hearing Monday, testimony etched into the record an evening of aimless driving, drinking of beer and vodka, a visit to a

bootlegger, and a 90-mile per hour auto chase, and the final fracas which resulted in the death of Williams.

One of the witnesses, Billy Joe Tollett of Baird, was fined \$100 and sentenced to a year in jail for lugging a bottle of vodka around on the evening of the slaying.

Johnny Ford, 28, of Abilene, driver of a white sport car in which the slain man was riding shortly before his death, was fined \$25 and court costs of \$27.80 for speeding between 85 and 95 miles an hour between Clyde and Baird.

The driver of the Wood's car, Billy Smith, 16, of Abilene, was fined \$10 and court costs of \$27.80 for speeding 80 miles an hour between Clyde and Baird.

All three pleaded guilty to the charges read by Assistant County Attorney James Paul Shanks before County Judge Farmer.

## Attends Workshop Meetings Aug. 15

W. E. Box and Glen Green attended the district 7 policy developing workshop meeting in Brownwood, August 15th. Rufus Miller, Policy developing chairman for the Callahan County Farm Bureau was unable to attend this meeting, but plans are being made for community meetings to be held over the county to discuss our problems and farm policies for the same.

Farm Bureau is the only farm organization that is large enough to be heard in our State and National Legislature. Farm Bureau is organized in 48 states and Puerto Rico. They have over 1,500,000 members in the nation and more than 75,000 in Texas.

All county organizations vote on their own county policies in the latter part of October of each year. Farm Bureau has members in all phases of agriculture, therefore would like for the dairyman, poultry farmer, hog raiser, sheep and goat men and the cattlemen as well as the cotton, wheat, peanut and sorghum farmers to participate in these meetings. The time is at hand to "join with your neighbors and friends in a united effort" to do together for ourselves what we cannot do so well alone. ## 3,700 Gather at Callahan County Pioneers' Reunion

By HAMILTON WRIGHT

Echoes of early days in Callahan County resounded at the 22nd annual Callahan County Pioneers' Reunion held in Cross Plains Friday, Aug. 12.

From early morning until late afternoon, pioneers mingled, listened to laudatory speeches, ate picnic lunches under shady oak trees, cheered old-time fiddlers in contests, and, as a climax of the day's activities, shuffled in old-time square dances to a medley of lively music scraped on fiddles. Some 3,700 persons attended. Cooler weather aided the attendance.

S. F. Bond, 87, in business at Cross Plains 66 years, was elected president. Mrs. L. L. Blackburn, oldest surviving native-born resident of the county, was elected honorary president, W. B. Barton, Clyde, was elected vice-president and Mrs. B. L. Boydston, Baird, re-elected secretary-treasurer.

The fiddlers' contest in which eight took part, resulted in R. L. Luce of Big Spring being winner. R. H. Wooten, Cross Plains, was second, Ford Smith of Merkel was third and M. L. Rouse of Putnam, fourth. Judges were Pink Fisher of Denton, Hancel Sanders of Rowden and A. E. Gardner of Eula.

"The bigger the government, the smaller we are," he said in appealing to the newer generation to be more independent of government welfare and statism. South, born, three miles north of Baird, taught in Callahan County 24 years.

President Joe Steadham in his welcome address, declared in pioneer days "money wasn't the greatest thing in the world." Pioneers of yesterday had a spirit that the new generation needs "more than ever." They added to the brotherhood of man and they were the kind of folks who did most for mankind.

Wright, Abilene, delivered the invocation. The audience paid silent tribute to the deceased old settlers, after a brief memorial by Freeland. Mrs. V. E. Hill, Baird, at intervals, led singing and played the accordion. The old fiddlers' contest was dedicated to the late C. T. Nordyke, father of the late Lewis Nordyke, prominent author and newspaperman whose last magazine article, about his father and his fiddle, is in the current Saturday Evening Post.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Election year upheavals plus Texas "lame duck law" are playing havoc with the work of interim legislative committees. Atty. Gen. Will Wilson ruled that, except in special cases, interim committee members not re-elected to the Legislature may not continue to serve on the committees. This brings a shake up in the membership of a number of study groups now in the midst of their work.

Biggest change will be in the make up of the House General Investigating Committee which has been asked to look into several politically touchy questions. Going off the five-member committee are the chairman, Rep. H. J. Blanchard of Lubbock, and Reps. Joe Burkett of Kerrville and Carl Conley of Raymondville. Nine other legislative committees lost one or more members

who either did not run again or were defeated.

Not affected were members of the Commission on State and Local Tax Policy. Attorney General noted that this group was set up under a law which specifically provided its members should serve a two-year term.

Also continuing to serve, whether re-elected or not, will be those members of the Legislative Council and Legislative Budget Board who -- like the Speaker of the House -- are members because of the jobs they hold.

In the appointment of committees on which "lame ducks" may not continue to serve, next year's speaker and lieutenant governor face a problem. Only way to prevent vacancies would be to second -- guess the political future of each appointee.

**YOUTH CRIME RISE SEEN** - Juvenile delinquency in Texas will get worse before it gets better, the Texas Youth Council director predicted.

Dr. James Turman presented to the Legislative Budget Board the Council's request for an appropriation of \$4,235,470 for the coming biennium. This is an increase over the present two-year allocation of \$3,487,442.

A part of this increase is to build for future needs. Turman noted that the Gatesville Training School for Boys had 403 boys in 1950 compared to its present average of 1,300. He predicted an average population of 1,790 during the coming two years and 2,959 by the end of the sixties.

Turman also urged the setting up of a system of paid parole supervisors "to keep some of these kids from coming back." He said that some of the boys had been to Gatesville as many as five times and that up to one third were repeaters.

**ANTI-LOAN SHARK COMMITTEE** -- A citizens committee is being formed to work for approval of a constitutional amendment to give the legislature more regulatory power over the small loan industry.

Abner V. McCall, executive vice president of Baylor University, is chairman, and Tom Reavley, Austin attorney and former secretary of state, is vice chairman.

Proposed amendment will be Number Four on the general

election ballot in November. It would give the Legislature power to license and regulate lenders and set maximum rates of interest. Until and unless the Legislature set a new rate, the present constitutional maximum of 10 per cent would apply.

Adoption of Amendment Four is an essential first step, said McCall, to wiping out Texas' reputation as "the lone shark state." He said that Gov. Price Daniel, Lt. Gov. Ben Ramsey and Atty. Gen. Will Wilson favored the amendment and were honorary members of the committee.

**TEC HITS CHEATERS** -- Texas Employment Commission has filed complaints against some 100 persons accused of drawing unemployment compensation pay while actually working.

As a result of a widespread investigation, TEC has filed several score suits against persons it declared were receiving benefits and salaries at the same time.

Some of the defendants have already been tried, fined and ordered to repay the money received from TEC. Most of the cases involve workers in Houston and Brownsville.

Law provides that workers who lose their jobs through no fault of their own and cannot get other jobs may receive \$28 a week for up to 26 weeks, while unemployed. Violators can receive up to a \$50 fine and 30-day jail sentence.

**LAWBREAKING ON INCREASE** -- Department of Public Safety report shows that one of the fastest growing statistics in Texas is the number of major crimes committed -- up 10.3 per cent for the first half of 1960.

One of the brighter spots in the report is that murders and homicides decreased by 15.1 per cent. Burglaries, however, rose 19.2 per cent.

Biggest crime increase was in urban areas -- up 12.5 per cent. In rural sections the rate was down a little -- less than one per cent.

**VACCINATIONS URGED** -- Texas is one of the safer states as far as paralytic polio is concerned, but it's seventh in the nation in number of whooping cough cases, ninth in diphtheria and scarlet fever.

All these rates could be cut, said a State Health Department

spokesman, if there were fewer people who can't be bothered with getting protective shots.

Late August and September are the usual season for polio epidemics, the Department warned.

## OUTDOORS-In Texas

According to a recent survey, two-thirds of the people who fish never eat fish.

When you stop to think about it, that's not too surprising. In the first place, fish is brain food. People who eat fish have large, well-developed brains. And people with large, well-developed brains don't fish.

It's that simple. Kidding, of course. But we've gotta admit that we've wondered more than once what we were doing out in a boat on a hot, blistering, summer day, getting a whale of a burn and landing not one keeper.

But what about the fisherman who does catch them, and doesn't eat them? He has a problem too. But it's a different one.

His problem is how to get rid of them.

Our Pilgrim Fathers solved this problem by burying a dead fish in a hill of corn. It made good fertilizer and the corn grew -- tall and bountiful.

But who's going to take time to hunt up a cornfield today?

Some fishermen try to palm off their catch on friends and neighbors.

However, it doesn't take most folks long to learn that a dead bass, lugged around all day on a stringer until it is as stiff as a board, is poor competition for a tantalizing T-bone steak.

So, fishermen who don't eat fish must find other ways to dispose of same.

**Odd Methods of Disposal** We heard about one fellow who stuffed his fish in a corner mailbox, when nobody was looking. But that's not very satisfactory method. Besides, it's illegal.

Then there was the fellow who checked his in at a bus station -- then threw his check away. That was in bad taste.

Read not so long ago about a fellow who couldn't get a loan from the local bank. It made him so mad he rented a safety deposit box, put a dead fish in a paper bag and deposited the same in the bank box, then and there. He was a stinker. And so was the fish!

Don't know that he ever got his loan, but I do know that it

## People, Spots In The News

**'VENICE of North America,'** town of Salaberry de Valleyfield, Canada, gets first gondola, gift of Schenley Industries, to mark 200th anniversary of Canadian whisky industry.

**STRIKING COSTUME** is just that, as striking miner in Kyushu, Japan, wears helmet, goggles and miner's mask as protection against photographers.

**TWO HEADS** better'n one in McCuan family of Marion, Ind., whose David (left) and Dean have been named "most identical" twins.

**CATAPULTIN'** Cantello, javelin thrower, shown in his distinctive straight-ahead leap as he looses shaft. It's Al Cantello, and he's from Norristown, Pa.

wasn't but a few days until the bank started looking for him.

There are lots of fishermen, who don't eat fish, who just fish for the fun of fishing.

Any true sportsman, if he doesn't plan to make use of his catch, turns them loose. He eas-

es them gently into the water, after carefully removing the hook, so as not to injure them in the least.

He sees to it that they are put back into the water, to grow larger, for other sportsmen to enjoy.

## IN TEXAS...

# You pay 90¢ tax on 10 gallons of gasoline

Gasoline taxes up 51% in ten years

Everywhere in Texas, car owners pay 90¢ tax on every 10 gallons of gasoline they buy.

Does a tax this high--on a basic commodity like gasoline--really make sense? Gasoline taxes across the nation amount to a 50% sales tax--and that's five times as high as the tax rate on luxuries like diamonds and mink coats.

**How did gasoline taxes get so high?** Well, since World War II, there have been three increases in the federal gasoline tax alone. This brought the Federal tax to 4 cents a gallon, in addition to the State tax of 5 cents a gallon.

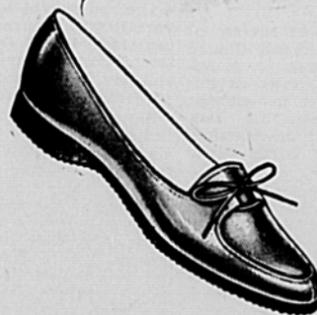

Looking at it another way, in the last ten years gasoline taxes have skyrocketed 51%--yet the price of gasoline itself has risen only 5.5% during the same period. \$78 a year for gasoline taxes! Gallon by gallon, these taxes add up to a lot of money. Each year the average motor vehicle owner in this state pays \$78 for gasoline taxes alone. That's just a few dollars less than the average week's pay for most people!

Your gasoline dealer--who must collect these taxes from you--feels that gasoline taxes are much too high. More and more, thinking people are coming to agree. What do you think?

### HIGHWAYS AND GASOLINE TAXES

Your gasoline retailer, naturally, favors construction of the roads that the motoring public needs. He believes in fair and reasonable taxation for this purpose but feels that taxes on gasoline have now reached unreasonably high levels. He also believes that all special taxes on the motorist should be used only for highway purposes. Yet last year, out of every automobile tax dollar collected by the Federal Government from highway users, more than 40 cents went for non-highway purposes. If these automotive tax revenues were dedicated for highway purposes, there would be no need for the latest increase in the federal gasoline tax.

The weather is nice and cool  
with light rain showers, al-  
though, we measured .06 inch of  
rain fall last week.  
Cotton farmers are predicting  
a good crop of leaf worms as  
the weather is ideal for such  
insects.  
Mrs. L. V. Harris, Lynda Craw-  
ford and your reporter, Lillian  
Crawford visited in Abilene  
Tuesday.  
As we visited my dad, found  
him feeling as well as usual,  
but looking better than in the  
last few weeks.  
We then visited Uncle Willie  
Avery over in another Nursing  
Home, but found him suffering  
from what was thought to be a  
stomach virus. He had been very  
sick for the past three days.  
Mrs. J. B. Sherrod of Abilene  
was going to her doctor having  
X-ray pictures made.  
Our reason for not visiting  
Mr. and Mrs. Elbert Crawford is  
that we can never find them at  
home.  
Our last stop was visiting Mrs.  
Bonnie Hodges at Wylie. Re-  
cently she had been in the hospi-  
tal suffering from a heart con-  
dition.  
Bonnie is better now able to  
be up, but doctor tells her yet  
that she must rest. We enjoyed  
the visit very much in her home  
and also saw the beautiful home  
of Mr. and Mrs. Allen Hodges.  
Allen and Ola Faye were leav-  
ing to visit with her brother,  
Jute Whitley and her parents,  
Mr. and Mrs. Morten Whitley.  
We were requested to take  
Bonnie to her next door neigh-  
bor and friend, Mrs. Janis Wise  
so she wouldn't be alone while  
the Hodge family visited. Mrs.  
Wise, the former Janis Barton  
also has a nice home and they  
have plans for more improve-  
ments.  
Mr. and Mrs. Ita Crawford  
and Lynda visited with Mr. and  
Mrs. Ray Harrison and family  
Sunday night while there they  
served the nicest dish of three  
flavors of good ole home made  
ice cream.

**About Your Health**

Attention parents: It's later  
than you think.  
This comes from W. D. Car-  
roll, state registrar, whose vital  
statistics staff at the Texas  
State Department of Health is  
responsible for handling the  
flood of requests for birth certifi-  
cates for children entering  
school for the first time this  
September.  
Carrolls problem is this: There  
is a tendency among parents to  
put off requesting copies of  
their youngsters' birth records  
until the last moment. When too  
many parents delay in this  
manner, the results is obvious:  
a work overload.  
The condition does not result  
from any lack of effort on the  
part of Carroll's staff. "Our lim-  
ited Vital Statistics Divisions  
staff -- despite long hours of  
night and week end work -- can  
process just so many requests  
before school begins," he ex-  
plains.  
More than 282,000 children are  
expected to enter elementary  
schools of Texas for the first  
time this fall. The estimate is  
based on calculations made by  
the Texas Education Agency.  
A good many parents -- some  
of whom may have waited too  
long in past years -- have al-  
ready requested and received  
birth records on this year's new  
scholars, but tens of thousands  
of additional records will have  
to be processed between now  
and the time that first school  
bell rings in September.  
More than one youngster has  
been forced to postpone his first  
days at school simply because  
his parents couldn't produce  
proof of his age when it came  
time to register him.  
Carroll's advice to parents:  
"Send in your request today to  
the local registrar, county clerk,  
or the State Department of  
Health."

All you have to do is give the  
child's name, date and place of  
birth, the mother's maiden  
name, and the name of the  
father. This information, with  
the legal fee of one dollar,  
should be addressed to your local  
registrar, the county clerk, or  
to the State Department of

## SWEET AND SOUR (Continued from Page 1)

be closer home this year since he signed with the Cross Plains school as director of science and math there.

Mrs. J. T. 'Lynk' Lawrence returned this week from visiting her sister and family in Gainesville.

Very best wishes to Bill Work who is recuperating from illness which has meant hospitalization and high hopes that recovery will be speedy.

And if you are ever down Kerrville way, drop in and say Hi to the Marvin Hunters, who have a gift shop there - the Hunters published the Baird Star and the friends they made here remember them as fine neighbors and 'good folk.'

Saturday was just about the biggest Trades Day on record - more people in town than ever, which is proof positive that the merchants old-fashioned get-together is most popular with you countyites - its fun to 'mix 'n mill' with neighbors and a part of Americana that small towns should never let slip away - make Saturday your trading day here in Baird and join the fun.

Best wishes and congratulations to Sarah Hatchett, lovely blonde daughter of Mr. and Mrs. Buster Hatchett, who has been chosen Callahan County Farm Bureau Queen for the coming season.

Have you seen Echo I, the newest of earth's satellites? We watched its brilliant journey across our heavens and felt we were somehow part of this history making space age. Whether the future of this "new star" is the forerunner of, will be good or evil, peaceful or violent, we can only hope, but of one thing we can be assured, whichever course we steer will be an extreme - either an undreamed of time of progress and achievement or the ultimate in woe and destruction. For our age, its all black or white, with no shades of gray in between.

## County Agent's Column . . . . . By GLEN GREEN

There are two periods when a pecan tree requires available plant food. The first of these is in the early spring when the tree must produce a crop of leaves and new twig growth, develop blooms, and set the crop of nuts.

The second is late August and through September and October when the nuts are becoming fully sized and the kernels are developing.

Pecan trees need a complete fertilizer, and one with a 16-20-0 formula is good. The fertilizer should be applied in holes 10 to 12 inches deep, located under the shadow of the tree, near the ends of the branches. Use two pounds of fertilizer to each one inch of the diameter of the trunk.

There will be a County 4-H Club picnic and awards presentation program Friday night, Aug. 19, at 6 p. m. in the City Park in Baird. If the club members want to play baseball, they should be there and ready to play by 4 o'clock. Don't forget to bring a sack lunch, your parents, and little brother and little sister, too.

In talking to folks who own stock tanks or farm ponds, we find that they usually are not convinced that they receive the proper quantity or kinds of fish when fish hatchery deliveries are made.

When asked what kinds of fish they placed in the tank, they explain that in addition to the hatchery fish, they added a few hundred fish from a friend's pond which was drained, plus some they caught in the creek, etc. Adding unknown quantities of assorted fishes from various sources, including bait fish from minnow buckets is probably the best method of ruining future fishing prospects. This practice is largely responsible for the introduction of undesirable fish. A few adult fish added to a pond can rapidly consume the majority of the small hatchery fish. The addition of crappie (White Perch) to small ponds is another com-

mon error. Crappie do well in large lakes but they produce an excessive amount of food for bass and catfish in small ponds, which results in poor fishing. I have an interesting bulletin on Farm Fish Ponds. A copy is free for the asking.

The Brucellosis Testing Program is nearing completion in Shackelford County, and over here in Callahan County, we still don't have our petitions signed. If we get to work and get the petitions signed and get the cattle tested, we will likely avoid a lot of delay in selling and delivering cattle next year.

Mr. and Mrs. Sam Boydston Stokes and children, Sustine, Terry and Marguerite, on their return from Laramie, Wyo., where Mr. Stokes has been attending the University, stopped off here to visit his grandfather, Will Boydston for a few days before going on to their home in Corpus Christi.

Barbara Snyder has returned home from Mexico City where she took special courses at the University this summer.

Mr. and Mrs. James E. Clark have returned to Baird from Austin where they have been attending Texas University.

Mrs. Corrie Driskill returned home Tuesday night from a vacation trip to Colorado and Kansas.

### Cattlemen' Round-Up For Crippled Children

The Cattlemen of Texas have traditionally, since the days of the open range, come to their neighbor's aid when the need arises. The Cattlemen's Round-Up For Crippled Children is still carrying out this neighborly spirit. A hydrotherapy pool is urgently needed at the West Texas Rehabilitation Center in Abilene to provide additional physical therapy facilities for the handicapped. Cattlemen from a large geographic area have banded together to provide the pool for the crippled children. This will be done by each rancher giving a calf, or a pen of calves, to the Round-Up. The calves will be sold at a special sale at the Abilene Livestock

Auction Commission on September 17th. This sale is in conjunction with a special feeder sale drawing buyers from all of the nation. The idea of the Cattlemen's Round-Up came from Mr. Conda Wylie of Bronte, Texas. Mr. Wylie, who ranches in Coke and Runnels Counties, has run his cattle on the same place under the Cross Brand for more than fifty years. Wylie started the Round-Up off with a donation of twenty calves to be delivered this fall. A committee of more than forty ranchers has been organized under the chairmanship of Jim Skinner to carry out the plans of the Round-Up. Skinner operates under the Hashknife Brand which his late uncle, Mack Merchant, made famous throughout West Texas.

The West Texas Rehabilitation Center has many things in common with the cattle industry. The center, in true West Texas spirit, offers rehabilitation to crippled children and adults free of charge. The center is a private non-profit organization that was built and is operated on funds raised from donations only, with the present facilities and equipment valued at more than \$350,000.00. The entire structure and operation has been built and operated without any form of government aid. The West Texas Rehabilitation Center, like the cattle industry, has proven that private citizens operating as a free enterprise can produce satisfactory results. Cattlemen are requested to cut out a calf, or a pen of calves, for crippled children and from

this donation and the donation of other cattlemen, funds from the sale of these calves will be used to provide the therapeutic pool. A collection point will be designated in each community. Upon delivery of the calf or calves to this point, the calf or calves will be weighed and a receipt will be given for the weight and value of the animal. Cattle will be transported free to the auction. Lots of five or more calves will be sold under the donor's name and credit will be given for each individual calf in the sale. Donations are 100 per cent tax deductible as a gift. The Brand of each rancher donating one or more calves will be permanently recorded in title on the walls of the pool building. Even though the need for rehabilitation is not a present problem for most people, their

neighbors and children may some day need this help. By working together and giving a portion of this year's calf crop, the cattlemen can help make it available for some child to walk or to move with more coordination and live a happier life. Anyone desiring further information please write to the Cattlemen's Round-Up For Crippled Children, 4601 Hartford, Abilene, Texas. Cattlemen on the Round-Up Committee for Callahan County are: James Snyder and Hugh Ross.

### Proposed CONSTITUTIONAL AMENDMENT NUMBER THREE ON THE BALLOT

No Regular Session shall be of longer duration than one hundred and forty (140) days.

"In addition to the per diem the Members of each House shall be entitled to mileage in going to and returning from the seat of government, the which mileage shall not exceed Two Dollars and Fifty Cents (\$2.50) for every twenty-five (25) miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the Comptroller to each county seat now or hereafter to be established; no Member to be entitled to mileage for any extra Session that may be called within one (1) day after the adjournment of a Regular or Called Session.

"AGAINST the Constitutional Amendment allowing an annual salary of not to exceed Four Thousand, Eight Hundred Dollars (\$4,800) per year and a per diem allowance of not to exceed Twelve Dollars (\$12) per day for the first one hundred and twenty (120) days only of each Session of the Legislature as the maximum compensation for Members of the Legislature and limiting the Regular Session to one hundred and forty (140) days."

### IT'S THE LAW In Texas . . .

**REASONABLE TIME**  
Before a contract arises someone must make an offer and another must accept it. Without an offer, no acceptance; with no acceptance, no agreement.

But there is often a time within which you can accept the offer. And if not, the offer ends anyhow within a "reasonable time" which is determined by circumstances and the parties' intentions.

Smith had a set of books which Brown wanted. Brown wrote and offered him \$200 for the set.

Smith didn't answer for six months, and meantime Brown bought a similar set. One day Brown got a letter from Smith saying "I accept your offer of \$200 for the set of books."

Brown told Smith he'd bought the books elsewhere, but Smith still claimed that his belated "acceptance" had nevertheless sealed the contract with Brown.

Was there a contract? No, the offer had lapsed because it had not been accepted in the circumstances within a reasonable time.

There are many ways to end an offer. You may withdraw it, you may say that the offer expires at a given time, or you may die, or the other party may turn it down directly or by making a counter offer.

Here Smith had failed to accept Brown's offer within a reasonable time, which ended it just as though it had been withdrawn.

What is a reasonable time? It varies. The offer could expire in a few minutes in the stock market or last for quite a while, depending upon what a court would think is a reasonable time. But in Smith's case six months was unreasonable.

### Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

**PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1940.**

**HOUSE JOINT RESOLUTION NO. 6** proposing an Amendment to Section 11, Article XVI of the Constitution of the State of Texas, so as to give the Legislature authority to classify loans and lenders, license and regulate lenders, define interest, fix maximum rates of interest, and provide for a maximum rate of interest in contracts where no interest rate is agreed upon; providing for the right of appeal and trial de novo in the event any regulatory agency cancels or refuses to grant any permit; providing for the necessary proclamation and publication.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Section 11, Article XVI of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 11. The Legislature shall have authority to classify loans and lenders, license and regulate lenders, define interest and fix maximum rates of interest; and providing, in the absence of legislation fixing maximum rates of interest all contracts for a greater rate of interest than ten per centum (10%) per annum shall be deemed usurious; provided, further, that in contracts where no rate of interest is agreed upon, the rate shall not exceed six per centum (6%) per annum. Should any regulatory agency, acting under the provisions of this section, cancel or refuse to grant any permit under any law passed by the Legislature; then such applicant or holder of the permit shall have the right to appeal to the courts and granted a trial de novo as that term is used in appealing from the justice of peace court to the county court."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1940, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment giving the Legislature authority to classify loans and lenders, license and regulate lenders, define interest and fix maximum rates of interest; and providing for a maximum rate of interest of ten per centum (10%) per annum in the absence of legislation fixing maximum rates of interest."

"AGAINST the Constitutional Amendment giving the Legislature authority to classify loans and lenders, license and regulate lenders, define interest and fix maximum rates of interest; and providing for a maximum rate of interest of ten per centum (10%) per annum in the absence of legislation fixing maximum rates of interest."

Sec. 3. The Governor shall issue the necessary proclamation for the said election and have the same published as required by the Constitution and laws of this State.

And goes and whispers in a well,  
Is not so apt to get the dollars  
As he who climbs a tree and hollers.
