## Scarlet Fever, Diphtheria Cases Reported in County

One case of scarlet fever in the Hefner community was reported this week by local health authorities. The case is now well, and the quarantine has been lifted, it was stated.

Two cases of diphtheria have been quarantined in the Vera community, and every effort is being made to prevent spread of these diseases.

Health authorities stated that school authorities in Hefner, Goree and Munday have been notified of existence of these cases and have been advised to send students home from school upon signs of sore throat. The cooperation of parents is urged so the diseases will not spread. Any child with sore throat should see a doctor immediately and should not be sent to school unless parents are sure the child does not have scarlet fever.

## Help the Goodfellow Movement

Lowry Post of American Legion is again sponsoring the Christmas goodfellow barrels this year. Christmas baskets will be filled with toys, clothing and food that are placed in the barrels, and distributed to needy families of Knox County on Christmas eve.

The Legion has placed barrels in all the grocery stores of Munday, where contributions are being received for the baskets. This is a free-will offering upon the part of

Knox County citizens. Everyone is asked to drop something into the barrels, so that worthy families may have something for Christmas. Be a goodfellow; if you haven't contributed to this cause, do it today!

In addition to the barrels in Munday, the grocery firms of Rhineland have barrels at their places for contributions of Christmas toys, clothing, canned goods and other foods.

## AMERICAN LEGION TO RECEIVE GIFTS

The American Legion hall will be open all day Saturday, and Legionnaires will be there to receive gifts of toys, clothing, canned goods, or any articles which citizens wish to contribute to the goodfellow movement.

The American Legion committee urges all people to help with this worthy movement. "There are many families whom we wish to make happy with these Christmas baskets," they said, "and we need your cooperation."

Those wishing to contribute are asked to bring their gifts to the Legion hall or place them in the goodfellow barrels at the grocery stores.

## STATE MONEY RECEIVED FOR LOCAL SCHOOLS

On December 10, the schools of Knox county received \$2 per capita from the state school fund, which makes a total of \$5 which has been received up to the present time, according to Merick McGaughey, county superintendent.

This leaves a balance of \$17.50 to be paid by the state, and another payment is expected some time in January.

### Sunset Teacher Resigns Post

### Underwood to Work On Master's Degree

Sunset Rural High School is losing one of its most valued teachers in the resignation of N. T. Underwood, principal of the high school.

Mr. Underwood announced his resignation this week, taking effect December 20, 1940, when the school closes for the Christmas holidays. He will go to Austin, where he will continue work on his Master's Degree at the University of Texas.

Underwood has been connected with the Sunset school for six years, beginning his work there in 1934. He served as grade school principal three years, and was then promoted to the principalship in high school. He has also served as athletic coach there for several years.

School patrons regret losing such an efficient school man. Underwood also expressed regrets upon leaving the system, but stated he felt that he should continue his degree work at this time.

## Munday Boxers Win Bouts From Olney Tuesday

A group of Munday boxers journeyed to Olney Tuesday night and won three out of five bouts. Olney won two, and two were draws.

A. B. Kitchens, star Munday football player, fighting as a light heavyweight, defeated a rugged opponent from Olney in the best fight of the night.

Raymond Carden, district TAAF bantamweight champ and Mogul quarterback, easily won over Ikard of Olney.

Joe Clough won in a match in which his Olney opponent was badly outclassed.

Troy Denham, Mogul all-district guard and district Golden Gloves welter champ, fought to a draw with Jack Stanley.

Ray Moore, Mogul fullback, was the other Munday boy fighting to a draw decision.

Judge Stevens and Tony Denham were defeated.

The fights were interesting and kept a large crowd of boxing fans enthused for the night.

The district Golden Gloves tournament, known as the Munday-Olney district tournament, will be held in Olney in January. The bouts Tuesday were warmups for the tournament.

## Basketball Games Schedule Arranged

Coaches of seven high schools in Knox county met at Benjamin last week and arranged a county basketball schedule. A round robin to be climaxed by a tournament between the winners in each division was arranged.

Schools represented at the meeting were Benjamin, Goree, Knox City, Vera, Truscott and Munday.

The schedule for the first round of play is as follows: Truscott at Sunset, Benjamin at Knox City, Vera at Munday.

Goree drew a bye and automatically fell into the win column and consequently into the second round of play. One loss in the double elimination tournament does not eliminate the team from competition, it was stated, and this is figured to create greater interest in the season's race.

In addition to the championship tournament, an invitation tourney will be held on each week end during the basketball season, it was stated.

L. S. Hardegree, athletic director for Knox county, acted as chairman at the meeting.

## SCHOOLS CLOSING FOR THE HOLIDAYS

Practically all of the schools of Knox county will close on Friday, December 20, for the Christmas holidays, according to Merick McGaughey, county superintendent. Most of them will convene again on Monday, December 30, giving the students and teachers ten days for Christmas.

## SOIL DIST.

Unofficial returns of the soil conservation district election last Saturday for the creation of a district composed of all of Knox county and the northern part of Haskell county, failed by some 13 votes in receiving the necessary two-thirds majority. Two boxes in Knox county went strong against the proposed amendment.

Knox county's tabulation showed 12 votes short of the majority, while the election failed to carry in Haskell county by 1 vote, it was stated.

Returns are unofficial, since no announcement has been made by the soil conservation board. The vote in Knox county was 162 for and 87 against, while Haskell county voted 65 for and 33 against. Officials stated the vote was far short of being representative of the eligible voters.

The Knox county vote by boxes is as follows:

Box	For	Against
Munday	30	9
Sunset	7	7
Rhineland	17	7
Goree	6	18
Vera	26	0
Gilliland	7	1
Truscott	19	3
Benjamin	31	8
Knox City	19	39

## We Want To See Santa...

It's nearly Christmas, and The Times office boys want to see Santa Claus! And there's a lot of people in Knox and Haskell counties who can help us out a lot! Here's how you can do it:

Somewhere among your "belongings" is a dollar that will bring The Munday Times to you for a full year . . . and this being done before our Bargain Rate is withdrawn will save you four bits. Then we could use the dollar as a sort of guarantee that Santa will visit us this Christmas!

A dollar is worth a dollar to you . . . but a dollar spent for The Munday Times is bringing you much more than a dollar's worth. Then if all of you would renew your Times for another year, just think what it would mean to us—

and to Santa! So just come right on in during the next four days and say: "Give me a dollars worth of Munday Times." You'll be playing Santa Claus to us and to yourself, too, by ordering The Times during our annual Bargain Days. We still have several "honor

roll" members—those who have subscribed to The Times since the list was published last week. Included in these are the following:

Mrs. J. R. Smith, J. T. Shaw, C. L. Mayes, Ardell Spele, Buck Tidwell, C. H. Harrell, J. B. Williams, Mrs. Edna Thomason, H. P. Hill, Doris Dickerson, Earl Pruitt, W. H. Kuhler, Eugene Michels, G. E. Hughes, T. W. Searcy, Tom Browning, Douglas Doshier, L. P. Jones, Cecil Fitzgerald, Jack Franklin, Mrs. J. F. Clayborn, Mrs. Agnes Blake, Alvin Herring and Mrs. Gordon Scroggins.

## "GO FORWARD IN PEACE"

In the opinion of a number of the commentators, the President's Madison Square Garden speech of October 28th was one of the most effective of his campaign. It had much to do, they feel, in turning the tide in his favor. In that speech, the President declared his policy was one that would safeguard our country's peace in a torn and warring world. His last two sentences were these: "We shall continue to go forward in firm faith. We shall continue to go forward in peace."

The issue that confronts us today, is the issue of peace or war. That is the most terrible issue that any President, any government, any nation, can face.

Those polls which proved so accurate in forecasting the result of the election, indicate that an overwhelming majority of Americans are opposed to war. The Congress is a peace Congress, with almost every member committed to the principle that we shall not again participate in a foreign war. The President has said he is a peace president.

We can stay at peace if we set ourselves dead against aggression and make ourselves so strong that no aggressor will dare attack us. That must be the American policy. That must be the ideal in which all Americans share, from the President to the lowliest among us.

## GUNS, AIRPLANES AND TAXES

General Hugh Johnson recently offered some sane and simple economic advice in his column. Speaking of defense programs, he said, "What we need is not merely more taxes but more revenue and more production . . ."

"Excessive taxes produce three results as sure as sunrise. They reduce total revenue because they invariably increase all prices, and reduce production and employment. They do the latter for another reason. Since they must be paid at all events, they decrease the incentive for people to invest to produce. We must finance production . . . by putting private capital to work, or we shall pay for the

failure to the end of our days. The way to keep it from working is unreasonably to increase taxes on its normal gains."

Some persons have come to feel that, in the light of our gigantic defense expenditures, "anything goes" will have to be our policy so far as taxation is concerned. That is dangerous. Nothing can be so destructive to our economy as unsound taxation. If Congress goes ahead in helter-skelter fashion, piling tax bill on tax bill with little regard for cause and effect, this country might as well kiss its hopes for eventual security, stability and prosperity goodbye. If we drive capital out of existence, what can we tax to finance the factories and the assembly plants and the rest of the industrial machine which is necessary to producing the instruments of peace, no less than the weapons of defense?

Congress' clear duty is to sit down and study taxes and tax systems from beginning to end before it even considers another revenue bill. It must see to it that the burden is equitably distributed—that it does not unnecessarily penalize enterprise and progress—that it does not make for price inflation that—in, short, it doesn't ruin the country we are working to defend. Congress has no time to waste. A workable tax policy is as much part of a sound

others who are protected from tuberculosis by the constant fight being made against this purveyor of illness and death," Dr. E. G. Faber of Tyler, president of the association said.

Reports from county and city organizations throughout the state show a 16 per cent increase of Christmas Seals over the 10 days of the sale in 1939 and if the trend is sustained, 1940 will be the banner year of the 34 years of seal sales in Texas, headquarters here reports.

"The public representing every phase of social and business activity; civic and religious groups, and individuals in every walk of life, are not only purchasing seals but are lending active support Pansy Nichols, executive secretary said. "There is not a Texas newspaper, including foreign language papers, that have not helped; even milk companies are decorating bottles with Christmas Seal sale tabs, and that is typical of the cooperation of advertising companies, stores, radio stations, transportation companies, and many other classifications," he added.

"It begins to look as if the country and certainly Texas is determined to be strong in health as well as in national defense," Dr. Z. T. Scott, managing director of the association, declared.

## HOME-GROWN CHRISTMAS GIFTS

College Station.—Home-made and home-grown Christmas gifts are popular with Texas home demonstration club women, especially those who sell high quality products at the homemakers' markets in Texas.

Myrtle Murray, specialist in home industries for the A. and M. College Extension Service, calls these "Christmas gifts from the soil or Christmas gifts from the gods." These represent the creative work of someone who was able to achieve results with the help of the gods, she says.

Some of these home-grown gifts the specialist suggest are good country butter wrapped in gold cellophane, rich cream or a pint of cottage cheese in a decorative container with a recipe for salad. In the poultry line she offers specially fed fat hens, turkeys, or fryers which have been dressed, or a dozen selected eggs attractively wrapped.

Then, not many gifts will beat a home-grown, home-cured ham, backbones with a quart of yellow meal and a recipe for making corn-

meal dumplings, spareribs, good country sausage or head cheese.

Containers of jellies, preserves, or pickles, home-grown sorghum syrup, or home-produced honey are also on Miss Murray's suggested list. She adds also that pecans in an attractive striped, checked, or printed cotton sack make a nice gift.

Here are some of her suggestions: home-grown pot plants, wreaths of yaupon, holly, French mulberry and evergreens; cuttings and roots from shrub beds, native shrubs balled and shrubbed, ready to "set out," rag dolls, especially "Negro Mammys" with bright red bandanas; and home-made play equipment.

## 250 MULES PURCHASED FOR PRISON SYSTEM

P. F. Middleton of Fort Worth was successful bidder last week on a supply of 250 mules for the Texas Prison System, to replenish the system's farm work stock. Middleton's mules were purchased by the Board of Control for approximately \$38,000, an average of about \$141 each.

Chairman Harry Knox said the mules were bought more cheaply than in several years. The rearmament program apparently has not yet sent the price of the work animals upwards.

The Prison System uses mules, tractors, and a few oxen on the farms. Oxen are used particularly to haul heavy logs out of the swamp areas.

Sheriff Louis Cartwright of Benjamin was here Monday on official business.

Miss Delores Campbell visited relatives and friends in Baird over the week end.

Mrs. W. P. Kirk of Littlefield, mother of Rev. Luther Kirk, and Mr. and Mrs. W. B. Kirk and family, also of Littlefield, spent last week end here, visiting in the home of Rev. and Mrs. Luther Kirk.

Mmes. Sebern Jones, W. M. Huskinson and son William, and Misses Louise Atkinson and Gail Preston were Wichita Falls visitors Tuesday.

Mr. and Mrs. Jack Fowler of Goree were business visitors in the city Tuesday.

## 50 Herefords Sold At Arledge Sale on Friday

Choice Heifers Sold At  
Bargain Prices

Roy and Henry Arledge, owners of the Arledge Stock Farms in Knox county, sold around 50 choice Herefords in the annual auction sale held at their place last Friday. Despite the bad weather, buyers were present from several different states, and bidding was active on all of the animals.

The cattle sold for an average of \$320 per head. Twenty-three bulls averaged \$357 and a like number of females brought \$283 around.

A. J. Swenson, manager of the SMS ranch, paid a total of \$2,340 for four bulls, with the top price being paid for Rupert Tone 70th, one of the sons of Hazford Tone 123rd, which brought \$650. Swenson paid \$600 for Rupert Tone A. 2nd, only son of Rupert Tone A. in the sale.

The two top heifers brought \$510 each, going to the Scott Hereford ranch at Baxter Springs, Kan., and the Turner ranch at Sulphur, Oklahoma.

Bidding was active on the three daughters of Rupert Tone A. in the sale. Turner Hereford ranch paid \$510 for Miss Rupert Tone and Dean Ranch, Fort Worth, got Miss Rupert Tone 2nd for \$350. Robert Riley of Teague bought Miss Rupert Tone 3rd for \$300.

The results of the sale, giving the buyers, price, animals and calving dates, are as follows:

## Christmas Seals Aiding TB Work

Austin.—The spirit of Christmas giving, reflected in the sale of Christmas Seals for anti-tuberculosis work, mounts steadily higher, indicating new records for generous Texas support of the program, reports reaching the Texas Tuberculosis Association offices here reveal.

The small seal depicting three small children singing Christmas carols with all their might are adding color to a Niagara of Christmas mail and, according to postal employees writing in, are being used for Christmas package decoration more generously than ever. "Christmas Seals not only add to the spirit of Christmas, they add life itself for thousands of persons afflicted with the dread germ and to the happiness of millions of

# Junior Patrol Organized by Boys of Elementary School

Nineteen boys have joined the junior patrol in the Munday elementary school, and plans are being made to equip these boys with caps and belts suitable for patrol duty.

These boys patrol the highway in front of the buildings as a safeguard against accidents that might happen while children are crossing the street.

Beginning at 8:30 each morning, patrol boys may be found on duty at all hours of the day when school children are on their way to and from school.

Patrolmen serve only 15 minutes, then those on duty are relieved by others. This causes no burden to be upon anyone.

The following boys were elected by their respective classes to serve as patrolmen: 5A, Wayne Rogers, Lawrence Barber and Ray Hamilton; 5B, Lloyd Haynie, Tommie Yates and Kelton Tidwell; 6th, Charles Roden, Joseph Borden and Jackie Bookout; 7A, Herbert Stodghill, Cal Dodson Lowry and Billie McGraw; 7B, Kenneth Harrison, Bruce Dobbs and Davie Lee Morgan. Those appointed by Mr. Palmer are Lloyd Zack Gray, John Brown, James Hogan and Truman Lowrance.

## JUNIOR CLASS HAS DINNER BY MOTHERS

On Friday, the thirteenth, a group of Juniors were feted with a dinner by their room mothers, Mrs. J. O. Bowden, Mrs. C. P. Baker, Mrs. R. D. Atkinson, Mrs. Jones and Mrs. Tom Martin.

The party was held in the home economics cottage. The tables were decorated with cedar, Christmas balls, and candles. Perhaps the most important decoration was the food, which consisted of baked turkey, dressing, creamed potatoes, English peas, fruit salad, and raisin pie.

The Junior sponsor, Miss Moody, led in an evening of hilarious games, "Merry Christmas," "Santa Claus" and "Mrs. McGinty Died" were the most popular. At last, after having a Christmas tree, they departed for home, having enjoyed themselves thoroughly.

## SOCIAL SCIENCE COURSE USES ANSWERS OF PUBLIC IN PROBLEMS OF TODAY

More than one hundred questionnaires will be sent out by students in American Social Science class under the direction of Mr. Colley after the Christmas holidays, to guide them in a course revision to meet the problems particular in this community and that involve our nation today.

Merchants, business men, farmers, teachers and professional men will be called on by students in the class. Each person will be asked to fill out the questionnaire naming the twelve leading problems that confront us today. Among some already submitted are: law observance, safety on the highways, crime, character training, our fiscal system, home defense, and many others.

In this manner the class hopes to study the real problems of today in the view of people in the midst of those problems. Thus the object adopted by the class is: To study the problems of America as they are today and will likely be in the future.

## 4B NEWS

Each week the club chooses some member of the class as the best citizen. Donald Waheed, Delbert Montgomery, Charlotte Williams, Joy Guffey, Laura Bess Moylette, and Mozelle Booe have been selected as best citizens so far this year.

A weekly program is given by the club. The last two programs have been given by the Safety Committee, composed of Donald Waheed, Virginia Nell Yates, and Billy Gene Taylor.

## 4B Decorates Tree

Pupils in 4B have decorated a lovely cedar tree that Howard Gray brought from the canyon. Gifts are already piled around the tree. Then some of the boys decorated the room with cedar boughs. Stockings cut from construction paper are also used in the room decoration, but these stockings serve a double duty. Each time a pupil makes 100 per cent in spelling he gets to put a gift in his stocking.

Charlotte Williams and Darleen Brown are absent with flu.

## Nervy Steeplejack Near Death In Top Of High Smokestack

He was 110 feet in the air, in pitch darkness. He couldn't get up any further, he couldn't get down, and he couldn't stay where he was.

Robert Oleott, steeplejack, of Killawog, N. Y., was inspecting a 125-foot brick smokestack. He had worked himself up inside the stack to within twenty-five feet of the top.

"On stack work," Oleott explains, "you drive a spike as high as you can reach, hook a ladder on to it, and climb up, pulling another ladder after you. Then you drive another spike, hang your second ladder, and climb again, carrying your first ladder. You've got to keep moving fast because a spike will pull out if you let your weight stay on it very long."

"On this job, darkness came on and I lighted an oil lamp attached to my belt. I continued to climb until, about twenty-five feet from the top, the lantern handle pulled out. The lantern went down the stack.

"There I was—I couldn't see to go up any further, I couldn't find the spikes to go down on, and the spike my ladder was on might loosen under the strain any moment. I had a small flashlight in my pocket. I switched it on and it worked fine. The batteries were fresh and they gave a strong light. To have both my hands free I gripped the flashlight in my teeth. Then I started down. It seemed like the longest climb I ever made."

Oleott, a steeplejack for twenty-two years, says he has never been in quite such a tough spot. As a result, he is going to have a light riveted to his belt for use on such jobs.

"What a Man Does For Himself Dies With Him—  
What He Does For His Community Lives On and On—"

"GO FORWARD IN PEACE"

In the opinion of a number of the commentators, the President's Madison Square Garden speech of October 28th was one of the most effective of his campaign. It had much to do, they feel, in turning the tide in his favor. In that speech, the President declared his policy was one that would safeguard our country's peace in a torn and warring world. His last two sentences were these: "We shall continue to go forward in firm faith. We shall continue to go forward in peace."

The issue that confronts us today, is the issue of peace or war. That is the most terrible issue that any President, any government, any nation, can face.

Those polls which proved so accurate in forecasting the result of the election, indicate that an overwhelming majority of Americans are opposed to war. The Congress is a peace Congress, with almost every member committed to the principle that we shall not again participate in a foreign war. The President has said he is a peace president.

We can stay at peace if we set ourselves dead against aggression and make ourselves so strong that no aggressor will dare attack us. That must be the American policy. That must be the ideal in which all Americans share, from the President to the lowliest among us.

## GUNS, AIRPLANES AND TAXES

General Hugh Johnson recently offered some sane and simple economic advice in his column. Speaking of defense programs, he said, "What we need is not merely more taxes but more revenue and more production . . ."

"Excessive taxes produce three results as sure as sunrise. They reduce total revenue because they invariably increase all prices, and reduce production and employment. They do the latter for another reason. Since they must be paid at all events, they decrease the incentive for people to invest to produce. We must finance production . . . by putting private capital to work, or we shall pay for the

failure to the end of our days. The way to keep it from working is unreasonably to increase taxes on its normal gains."

Some persons have come to feel that, in the light of our gigantic defense expenditures, "anything goes" will have to be our policy so far as taxation is concerned. That is dangerous. Nothing can be so destructive to our economy as unsound taxation. If Congress goes ahead in helter-skelter fashion, piling tax bill on tax bill with little regard for cause and effect, this country might as well kiss its hopes for eventual security, stability and prosperity goodbye. If we drive capital out of existence, what can we tax to finance the factories and the assembly plants and the rest of the industrial machine which is necessary to producing the instruments of peace, no less than the weapons of defense?

Congress' clear duty is to sit down and study taxes and tax systems from beginning to end before it even considers another revenue bill. It must see to it that the burden is equitably distributed—that it does not unnecessarily penalize enterprise and progress—that it does not make for price inflation that—in short, it doesn't ruin the country we are working to defend. Congress has no time to waste. A workable tax policy is as much part of a sound

meal dumplings, spareribs, good country sausage or head cheese. Containers of jellies, preserves, or pickles, home-grown sorghum syrup, or home-produced honey are also on Miss Murray's suggested list. She adds also that pecans in an attractive striped, checked, or printed cotton sack make a nice gift.

Here are some of her suggestions: home-grown pot plants, wreaths of yaupon, holly, French mulberry and evergreens; cuttings and roots from shrub beds, native shrubs balled and burlapped, ready to "set out," rag dolls, especially "Negro Mammies" with bright red bandanas; and home-made play equipment.

## 250 MULES PURCHASED FOR PRISON SYSTEM

P. F. Middleton of Fort Worth was successful bidder last week on a supply of 250 mules for the Texas Prison System, to replenish the system's farm work stock. Middleton's mules were purchased by the Board of Control for approximately \$38,000, an average of about \$141 each.

Chairman Harry Knox said the mules were bought more cheaply than in several years. The rearmament program apparently has not yet sent the price of the work animals upwards.

The Prison System uses mules, tractors, and a few oxen on the farms. Oxen are used particularly to haul heavy logs out of the swamp areas.

Sheriff Louis Cartwright of Benjamin was here Monday on official business.

Miss Delores Campbell visited relatives and friends in Baird over the week end.

Mrs. W. P. Kirk of Littlefield, mother of Rev. Luther Kirk, and Mr. and Mrs. W. B. Kirk and family, also of Littlefield, spent last week end here, visiting in the home of Rev. and Mrs. Luther Kirk.

others who are protected from tuberculosis by the constant fight being made against this purveyor of illness and death," Dr. E. G. Faber of Tyler, president of the association said.

Reports from county and city organizations throughout the state show a 16 per cent increase of Christmas Seals over the 10 days of the sale in 1939 and if the trend is sustained, 1940 will be the banner year of the 34 years of seal sales in Texas, headquarters here reports.

"The public representing every phase of social and business activity; civic and religious groups, and individuals in every walk of life, are not only purchasing seals but are lending active support Pansy Nichols, executive secretary said. "There is not a Texas newspaper, including foreign language papers, that have not helped; even milk companies are decorating bottles with Christmas Seal sale tabs, and that is typical of the cooperation of advertising companies, stores, radio stations, transportation companies, and many other classifications," he added.

"It begins to look as if the country and certainly Texas is determined to be strong in health as well as in national defense," Dr. Z. T. Scott, managing director of the association, declared.

## HOME-GROWN CHRISTMAS GIFTS

College Station.—Home-made and home-grown Christmas gifts are popular with Texas home demonstration club women, especially those who sell high quality products at the homemakers' markets in Texas.

Myrtle Murray, specialist in home industries for the A. and M. College Extension Service, calls these "Christmas gifts from the soil or Christmas gifts from the gods." These represent the creative work of someone who was able to achieve results with the help of the gods, she says.

Some of these home-grown gifts the specialist suggest are good country butter wrapped in gold cellophane, rich cream or a pint of cottage cheese in a decorative container with a recipe for salad. In the poultry line she offers specially fed fat hens, turkeys, or fryers which have been dressed, or a dozen selected eggs attractively wrapped.

Then, not many gifts will beat a home-grown, home-cured ham, backbones with a quart of yellow meal and a recipe for making corn-

# Junior Patrol Organized by Boys of Elememetary School

Nineteen boys have joined the junior patrol in the Munday elementary school, and plans are being made to equip these boys with caps and belts suitable for patrol duty.

These boys patrol the highway in front of the buildings as a safeguard against accidents that might happen while children are cross-

ing the street. Beginning at 8:30 each morning, patrol boys may be found on duty at all hours of the day when school children are on their way to and from school.

Patrolmen serve only 15 minutes, then those on duty are relieved by others. This causes no burden to be upon anyone.

The following boys were elected by their respective classes to serve as patrolmen: 5A, Wayne Rogers, Lawrence Barber and Ray Hamilton; 5B, Lloyd Haynie, Tommie Yates and Kelton Tidwell; 6th, Jackie Boden, Joseph Borden and Jackie Bookout; 7A, Herbert Stodghill, Cal Dodson Lowry and Billie McGraw; 7B, Kenneth Harrison, Brice Dobbs and Davie Lee Morgan. Those appointed by Mr. Palmer are Lloyd Zack Gray, John Brown, James Hogan and Truman Lowrance.

## Nervy Steeplejack Near Death In Top Of High Smokestack

He was 110 feet in the air, in pitch darkness. He couldn't get up any further, he couldn't get down, and he couldn't stay where he was.

Robert Oleott, steeplejack, of Killawog, N. Y., was inspecting a 125-foot brick smokestack. He had worked himself up inside the stack to within twenty-five feet of the top.

"On stack work," Oleott explains, "you drive a spike as high as you can reach, hook a ladder on to it, and climb up, pulling another ladder after you. Then you drive another spike, hang your second ladder, and climb again, carrying your first ladder. You've got to keep moving fast because a spike will pull out if you let your weight stay on it very long."

"On this job, darkness came on and I lighted an oil lamp attached to my belt. I continued to climb until, about twenty-five feet from the top, the lantern handle pulled out. The lantern went down the stack.

"There I was—I couldn't see to go up any further, I couldn't find the spikes to go down on, and the spike my ladder was on might loosen under the strain any moment."

"I had a small flashlight in my pocket. I switched it on and it worked fine. The batteries were fresh and they gave a strong light. To have both my hands free I gripped the flashlight in my teeth. Then I started down. It seemed like the longest climb I ever made."

Oleott, a steeplejack for twenty-two years, says he has never been in quite such a tough spot. As a result, he is going to have a light riveted to his belt for use on such jobs.

Old Methods . . .

. . . Soon become obsolete. Especially is this true in Motor Reconditioning.

Valve grinding on modern motors calls for precision tools.

To make our service absolutely up-to-date, we have just installed a Sioux Electric Hard Rock Valve Seating Machine; also a Black and Decker Electric Valve Lathe. This represents an investment of over \$250.00, but it makes your job perfect.

We charge no more than those using the old method. Bring in your valve jobs and be assured of 100 per cent perfect performance.

## Sunset Boy In Knox City Hospital

Homer Lee Kilgore of the Sunset community is in the Knox City hospital with an unusual form of meningitis.

The type of meningitis, unlike the epidemic type, is not contagious, the attending physician said, and people exposed to this case need have no fear of catching the disease.

The child is very much improved and shows every indication of getting entirely well under treatment of the same drug used in treating pneumonia. This is in line with reports that this type of meningitis can be cured, whereas five years ago cases of this type were considered fatal.

## Christmas, 1940 ... New Year, 1941

Dear Friends:  
 Each year we witness the recurring miracle of a world temporarily transformed by the Spirit of Christmas. At the approach of the Holiday Season people think less about their individual feelings, and more about their common interests and welfare. We ask ourselves the question: Why should these conditions be temporary? Why should a world groping in darkness and shivering under war clouds emerge briefly into a band of light and good-fellowship, and then fall back into the abyss of darkness? Why not let the spirit of Christmas possess us throughout the year, and all the years that are ahead?

We wish to say to you out of the deepest sincerity of our hearts: "A Merry Christmas and a Happy New Year." May all and all yours be given the deepest satisfaction and the purest joy possible throughout the Season. May we all rejoice as did the shepherds when they heard the glorious annunciation song of the angels on that first Christmas night so long ago. May the Spirit that possessed the Wise Men dominate us, and as they, may we give our best to Him who gave

so much for us.  
 The Good Master has abundantly blessed all of us, for which we are all thankful. There have been disappointments, sorrows, and separations, but beyond and above all the Star of Hope shines, and there is a hand that beckons on and upward.

May we as we journey on pray for the Peace of God throughout the entire world.  
 With sincerest good wishes to all,  
 W. H. Albertson, Pastor  
 First Baptist Church,  
 Monday, Texas.

official returns showed 134,506 in favor of quotas, 18,336 opposed. Election committees challenged the eligibility of 80 voters. The final tabulation was expected to show a total vote of about 155,000 with the percentage unchanged.

In last year's referendum, the total vote in Texas was 169,859, with 139,206 favoring quotas, a majority of 82 per cent.

The outcome of the referendum was interpreted by E. N. Holmgren, administrative officer in charge of the AAA in Texas, as an indication of the satisfaction of the farmers with the AAA program.

"It is regrettable that the total vote has decreased," Holmgren said, "but at that, the decrease was smaller than we had anticipated. In any election in which such overwhelming majorities are consistently returned as in the case in marketing quota referenda, the total vote is bound to go down. It is only natural for the voter to put off going to the polls when he already is convinced of the outcome."

S. B. Maddox, resident of Truscott for many years, has been quite ill in the Knox City hospital for several days. Latest reports from the hospital are that Mr. Maddox is slightly improved.

# Our Customers Wrote This Advertisement

Recently we asked a large number of our customers this question, "If you could have only one wish for this Christmas, what would it be?" Almost without exception the answer came back, "Good Health!"

Truly, there is no more precious possession than good health. In the light of real value, all other things shrink to insignificance by comparison.

GIVE US "GOOD HEALTH" AND WE'LL MANAGE THE REST.

WE PUT "GOOD HEALTH" AT THE HEAD OF THE LIST AT OUR HOUSE.

AFTER ALL, "GOOD HEALTH" PAYS BIG DIVIDENDS IN HAPPINESS.

I DON'T KNOW OF ANYTHING MORE IMPORTANT THAN "GOOD HEALTH."

"GOOD HEALTH" HAS BEEN LARGELY RESPONSIBLE FOR MY SUCCESS.

... and we have this to add about health protection

America has made great progress in stamping out many diseases that have threatened the health of the nation. However, the common cold is responsible for more than two hundred million illnesses each year. Therefore, along with our Christmas wishes of "Good Health to you and your family," we add this practical suggestion... guard against catching cold!

This is the season of the year when strict precaution against catching cold is of vital importance. Any sudden change of temperature, such as occurs when you go from a warm room into an unheated part of the house, chills your body and makes you an easy prey to the attack of the cold germ. Play safe! Don't give a common cold an even break! Provide adequate heat and a circulation of pure, warm air in every room of your house during the short winter season.

## People, Spots In The News

**SUBWAY SLUMBER . . .** Platforms of London "tubes" are used regularly as dormitories, though subway trains continue to run. Deep stations provide greater safety from nightly-Nazi air raids than many of the specially-constructed air raid shelters.

**MOST VALUABLE . . .** Frank McCormick, big first baseman of world champion Cincinnati Reds, was voted "most valuable" National league player by baseball writers. He played in every game batted .309 in 127 runs. He's native of New York's Bronx, whose Hank Greenberg of Detroit Tigers, also originally a first sacker, won same honor in American league.

**APPLE EXCESS . . .** A. T. Williams, upstate county agent, stops during tour of New York City markets to discuss growers' problems with Orchardist Louis Mansley (left). Growers this year are relying on chain store producer-consumer drives and federal agencies to help move 10,000,000 bushels they cannot market abroad because of war.

little boys—and thoroughly likeable, to boot.

**Hard Curriculum**  
No high school students in Texas have a harder curriculum to cope with than they do, yet four boys off the football team made the honor roll for the past six weeks and the other nine regulars came up with a B-average. Hardy Brown, Walter Finnigan, Leonard Roach, and C. D. Sealey made the honor roll.

The Masonic Home curriculum is harder than most, because in addition to the regular high school work necessary to meet state standards and college entrance requirements, every high school student must take two additional courses for all four years.

School goes on each day (except Saturday and Sunday) from 8:30 a.m. to 4 p.m., with an hour and a half off for lunch. Coach Russell, being also the principal, could just as well relax the rules a little so that football boys could get out of school earlier than 4 p.m. and begin their practice sessions.

But he waits until 4 p.m. and does the best he can (which isn't bad) between that hour and the 6 o'clock dinner bell.

Where there's one good football player in Masonic Home, there may be two or three others coming on from the same family. Ray and Dewitt Coulter, both on the team this year, are brothers. Dewitt, 15-year-old sophomore and all-district tackle, is a talented artist. Ray is the senior end. Two Coulter sisters already have graduated.

**Third From Family**  
Leonard Roach is the third player from his family (Buster and Arlis came first—and there are two more, Donnie Roach, 10, and Bobbie Roach, 12. There is also Arline Roach, a sister, who has brought the school fame as a tennis player.

Cecil Moseley, the 16-year-old guard, is a younger brother of Miller Moseley, Masonic Home valedictorian last year and now in T. C. U. Their sister, Dot, is one of the pretty cheer leaders.

Other boys on the team (Curtis Robbins, Brownie Lewis, Billie Joe Cagle, Sleepy Finnigan, Basal Smith, Clyde Roberts, Hardy Brown, C. D. Sealey, Lewis Burse) either have kid brothers or kid proteges they are bringing on as football players.

They see that even the five-year-olds know how to hold a football, and by the time a kid's six, he can practically heave one off the Masonic Home sandlot without breaking a dormitory window glass. They don't emphasize football at Masonic Home, but they don't exactly neglect it.—Fort Worth Star-Telegram, Dec. 18.

also the school principal) has to pick his team from those 73.

**13 Boys Big Enough**  
He's had 13 boys this season big enough to play football against the bulky squads of other high schools. Seventeen other boys go along on trips, just to observe and learn from the sidelines, but they're mostly peewees, two or three years removed from real schoolboy football. One or two of them might go in as substitutes, but only in an emergency.

If pickin's ever got slimmer than this, there would be nothing Coach Russell could do about it. Only the sons and daughters of deceased Master Masons may go to Masonic Home and School. All the publicity the school's had in its good football years hasn't resulted in any enrollment increase.

It's just made the Masons feel good.

Masonic Home and School has an enrollment of 256 students, ranging in ages from 5 to 19. They are divided just about half and half boys and girls.

They acquire discipline and willingness to work at an early age, but there is little of sternness or harsh rule about the school. Every child in the home has a daily chore to do.

This regularity of work and study, practiced by every student in the school, is given by some as the reason why Masonic Home boys are clever rascals in the football field. No matter their size, they are usually physically tough, smart

## Golden Gloves Tourny Opens January 28th

### Many Boxers To Enter Tourny Events

The following is a letter from Leo M. Kuehn, Jr., manager of the Olney Chamber of Commerce, which gives details of the district golden gloves tournament to be held in Olney in January:

On January 28, 29 and 30, the District Golden Gloves Tournament for your district will be held in Olney. This Golden Gloves Tournament is sponsored by the Olney High School, and we are quite anxious to have you give us write-ups in your paper concerning this event. We are sure that there are many boys in your community who are interested in boxing.

This year we plan to have two classes, Class A for inexperienced boys, and Class AA for experienced boxers. Of course, all entrants will be governed by the Golden Gloves rules concerning eligibility, which I am sure you are familiar with.

The Class A fighters will not be eligible to enter the State Tournament, but the winners of the various classes will receive handsome trophies and proper recognition for their entry. The Class AA fighters will be eligible to enter the State Meet in Fort Worth, and the winners in this district will be given handsome jackets.

In the very near future someone from Olney or Munday will contact you concerning this event, and we ask your whole-hearted cooperation in making this tournament a success. Entry blanks will be furnished you in the very near future, and we would appreciate your giving this matter proper publicity.

The distribution went \$4,939,186 to the general revenue, \$4,437,554 to schools, and \$1,136,515 to pensions.

Winston Blacklock of Vernon visited relatives here over the week end.

Frank Silman of Rochester was visiting with relatives here last Sunday.

## Masons Are Calm About That Game In Amarillo

Any other school but Masonic Home would be hauling wood for a bonfire, painting pep posters all over the walls and sidewalks, and screaming itself hoarse in preparation for the football in Amarillo Saturday.

Masonic Home is so calm it's incredible.

After all, it isn't every school that gets into the semi-finals of Interscholastic League football. Often it's Masonic Home, though. The Masons have been the most consistent winners in Fort Worth since they joined the district in 1932.

But they just win. That's all. They don't get goofy about it. The school has two of the prettiest little pep leaders in Texas, but they've never had a pre-game bonfire. They have never heard football mentioned in assembly. They've never had a pep rally that amounted to more than 10 minutes of yell practice.

They sing one song, occasionally: "When the M.H.S. boys fall in line . . . We're going to win that game another time." But, win or lose, the Masonic Home and School goes the even, happy tenor of its ways. Considering the record its football boys have made, the school puts practically no emphasis at all on football.

For one thing, the Masonic Home team is probably the most thoroughly amateur team in America. There are only 73 boys in all four grades of the Masonic Home High School. Coach H. N. Russell (he's

also the school principal) has to pick his team from those 73.

**13 Boys Big Enough**  
He's had 13 boys this season big enough to play football against the bulky squads of other high schools. Seventeen other boys go along on trips, just to observe and learn from the sidelines, but they're mostly peewees, two or three years removed from real schoolboy football. One or two of them might go in as substitutes, but only in an emergency.

If pickin's ever got slimmer than this, there would be nothing Coach Russell could do about it. Only the sons and daughters of deceased Master Masons may go to Masonic Home and School. All the publicity the school's had in its good football years hasn't resulted in any enrollment increase.

It's just made the Masons feel good.

Masonic Home and School has an enrollment of 256 students, ranging in ages from 5 to 19. They are divided just about half and half boys and girls.

They acquire discipline and willingness to work at an early age, but there is little of sternness or harsh rule about the school. Every child in the home has a daily chore to do.

This regularity of work and study, practiced by every student in the school, is given by some as the reason why Masonic Home boys are clever rascals in the football field. No matter their size, they are usually physically tough, smart

The Seniors are busy planning and decorating the room for Christmas.  
Dear Santa;

Florine (says the rest of the class) wants a double to watch ? ? ? (a certain little Senior boy, so he won't be getting into trouble).

Mr. Hoffman wants some new books since he threw all of his away, and also a hired hand to help him pitch the Seniors out of the window.

The Seniors wish each and every one of you a Merry Christmas and a Happy New Year.

### Sophomore News

The Sophs are glad that Christmas is coming, for they know that means some days off.  
But the Sophs are not so nappy about the exams which are coming at the end of the week. They hope everyone has a fine Christmas and a very Happy New Year.

Considerable excitement was caused Wednesday morning when an acetylene tank blew up at the O. V. Milstead blacksmith shop. The explosion caused an investigating crowd to gather in a few minutes.

Impact from the explosion sent the tank through the roof of the building, and it caused considerable damage to the roof as it went out and then fell back through.

Fortunately no one was injured in the explosion.
