### Fireboys Warn Of Fire Hazards At Christmas

#### Care In Decorating Of Homes May Prevent Costly Fires

A warning to all citizens to use care in decorating for Christmas in order to create as few fire hazards as possible was issued Tuesday by the Munday Volunteer Fire Department.

"Christmas is near at hand," the fireboys said, "and we always have a lot of fire hazards. Let's clean up our alleys and watch our Christmas wiring to prevent any fires that might occur."

The firemen warned against the use of cotton decorations, as well as tinsel and other forms of inflammable decorations being placed near flames or overheated fixtures. These are the principal causes of disastrous fires at Christmas time.

"Munday has the lowest key rating it has had in many years," Curtis Coates, secretary of the department, said, "and the fireboys want to urge all citizens to help them keep it that way. A costly fire will surely cause an advance in the fire insurance key rating, and you cannot be too careful in keeping down all fire hazards."

### Munday P.-T.A. To Have Christmas Program Dec. 18

The Munday Parent-Teacher Association will meet on Wednesday afternoon, December 18, at four o'clock in the elementary school auditorium.

"This is our Christmas program, and one you will enjoy," Mrs. A. L. Smith, president, said.

Each and every member is urged to be present and to bring a friend to enjoy this program.

### AAA Committees To Be Elected On December 13th

Knox county AAA community committeemen will be elected Friday, December 13, at ten o'clock at the following places:

Knox City, Legion hall; Sunset, school building; Munday, city hall; Goree, school building; Rhineland, community hall; Vera, Methodist church; Gilliland, at tabernacle church; Truscott, Browning's service station; Benjamin, assembly room.

The community committeemen will serve as delegates, and they will meet in Benjamin on Saturday, December 14, at 9:30 a.m. to elect county AAA committeemen. Any farmer living in Knox county and who derives the major portion of his income from farming in Knox county is eligible to serve. In years past men who have had some experience as AAA committeemen have been elected, stated County Agent Walter Rice.

### Dewey Struck Is Painfully Burned On Last Saturday

Dewey Struck, who is employed on the farm operated by Moore and Hobert, southeast of Munday, was painfully burned last Saturday morning by fire which ignited his clothing.

While servicing a tractor, Struck spilled gasoline on his clothes and his clothes caught fire when he struck a match to light a cigarette. The flames were extinguished, but not before he received painful burns on his right limb.

Struck was rushed to Munday, where a local physician dressed the burns. He is reported to be getting along nicely.

### Soil Conservation District Election Is December 14th

Knox county landowners will ballot between the hours of 7 a.m. and 7 p.m. Saturday, December 14, on whether they desire the formation of a state soil conservation district, composed of the northern half of Haskell county and all of Knox county.

County Agent Walter Rice has conducted meetings in all communities, discussing the proposed district.

The question has often been raised: Can a district vote bonds or levy taxes? Gerald C. Mann, attorney general of Texas, on April 16 handed down the following opinion:

"Section seven of House Bill No. 20 enumerates the powers of the district and its supervisors, but the language used avoids the mention of debt in any form or the levying of any kind of tax."

You are therefore advised that in our opinion House Bill No. 20 Acts of the 46 Legislature, regular session, does not authorize the issuance of bonds, or the levying of any taxes."

Every eligible landowner should vote in the election Saturday, Walter Rice, county agent, said Tuesday.

### City Park Work Nears Completion

#### Work Of Facing Dam Now Under Way

According to reports of progress on the city park project, this work is expected to be completed within the near future.

### Munday Street Will Be Paved

#### \$11,000 Appropriated For Street Project

Word was received here this week that the Texas highway department has appropriated \$11,000 for the purpose of hard-surfacing Earnest street in Munday, from the point where the pavement ends at Isbell Motor Co., to connect with the pavement on Highway 222, west of Munday.

A letter from Brady Gentry, chairman of the highway commission, to County Judge E. L. Covey confirms the appropriation of this money. The letter, under date of December 4, said in part:

"We passed a motion yesterday providing \$11,000 to do the .7 mile in Munday. Because of your interest in that and the final completion of the road all the way from Knox City to Munday, the commission intends to carry it through to completion just as soon as possible. You may tell your people that we are going to do this."

### Christmas Seals Being Sold By Ward School Students

Christmas Seals are now on sale by the elementary school students at 1c each. You may purchase these through the students, telling them the number you want and asking them to deliver same.

As we in this country prepare to protect American children from the tragedies which children in the war-torn countries of Europe and Asia are faced, we must not lose sight of the fact that the protection of health and the prevention of disease are in themselves important defense measures.

The Christmas Seal and all that it stands for is endorsed by leaders of this nation led by the President of the United States who says in part: "The American people are now called upon for 'total defense'."

This means vast military preparedness and the best manpower possible, involving intensified war against those insidious enemies of health, chief of which in the vital age period from 15 to 45 is the communicable disease, tuberculosis.

From now until Christmas day, we, as individuals, by generous purchase of the Seals, can do our part to help the tuberculosis associations free us from the deadly menace of this communicable disease. We know from past experience that our dollars will be well spent in behalf of the public good.

Mrs. Curtis Coates and little daughter and Mrs. Robert Green and little daughter spent a few days last week in Paducah, visiting in the homes of Mr. and Mrs. H. B. Leathers and Mr. and Mrs. Truman White.

## WHAT THE CCC IS DOING

The CCC offers the most wonderful opportunities to become fitted for private employment available in the country. Their hours at work are supervised by efficient superintendents, and those who show leadership may be promoted to Project Assistants and Leaders, both ratings carrying increases in pay. Those who have been unable to continue their school work will find the Educational Advisors able and willing to assist them to obtain high-school certificates. Special rates are obtainable from colleges to enable the enrollees to complete all courses through correspondence. The cooking and automobile schools turn out boys who have no difficulty in finding jobs. In fact, many are allowed to leave before the expiration of their enrollment to go to work. Those who desire training in clerical work find such positions available in camp under competent management. There is no limit to the possibilities for an ambitious boy. A great many former enrollees are now camp commanders.

The CCC has everything a boy may desire. He

## "Cotton Gifts" Drive Under Way

Waco.—"Give Cotton Gifts," is the slogan adopted by the State-wide Cotton Committee of Texas for the 1940 Christmas season, and an urgent appeal is made to the people of Texas to join in the movement which is sweeping the nation under the auspices of the National Cotton Council of America.

Governor O'Daniel has issued a proclamation declaring the month of December as "Cotton Christmas Gift Month" in Texas, in which he says that the giving of Christmas gifts made of cotton will prove to be a boomerang, reflecting joy and happiness not only to the recipients but to the givers.

Mayor L. T. Murray of Waco, chairman of the mayors' committee for the state, has urged the head of every city government, big and little, to issue a proclamation of his own to arouse the interest of the people in this important matter in each community.

The Texas Retail Dry Goods Association, the Retail Merchants Association of Texas and dozens of State Associations strongly joined in the Cotton Christmas campaign.

Burrus C. Jackson of Hillsboro, a director of the National Cotton Council, and chairman of the general Texas committee in charge, stressed that many beautiful and useful products are made from cotton such as towels, curtains, draperies, handkerchiefs, fine dresses, table cloths, napkins, auto seat covers, mattresses, sheets, and hundreds of other articles.

"Now is the time for the people of Texas to really come to the aid of its greatest industry, and it is to be hoped that the people will give a universal response to this call," Mayor Murray said in urging widespread cooperation with the Cotton Christmas movement.

## PATROLMAN CONNER SPEAKS TO STUDENTS

"Driving a car is dangerous," stated E. J. Conner, state highway patrolman, before a group of History III students after he had addressed the entire student body last Friday.

To make the state and future citizens of the country safety conscious, Patrolman Conner spoke also to a group of English students and then a Homemaking class on first aid. He pointed out that more people were killed on highways in this country the past year than in England by bombs. Also, that most accidents occur on the highway about dusk; on dry highways and in clear weather.

"The three main causes of fatalities are drunken drivers, too much speed and failure to observe right-of-way. They occur on curves, passing cars when another car is coming because people cannot judge distance accurately, and on passing cars on a hill," he explained.

In the history class he explained the Department of Public Safety, how it operates, and the training patrolmen get after being employed.

## REEVES MOTOR COMPANY VISITED BY STUDENTS

Mr. J. E. Reeves, of the Reeves Motor Company explained, with the aid of charts, the workings of the transmissions, valves, spark plugs, crank shafts, and other parts of the gasoline motor for cars, to a group of students from Munday High School science class.

Something of the accuracy needed in motor parts was demonstrated by a device that would measure two-thousandths of an inch in thickness.

Late developments in increasing horsepower without altering the bore of the cylinder was explained. A new type of transmission that works without the aid of the conventional clutch was mentioned.

Bobbie Ballinger of Wichita Falls spent the week end here with his grandparents, Dr. and Mrs. A. A. Smith. They took him home last Sunday, returning home Monday.

## Anson To Hold Texas Cowboys' Christmas Ball

ANSON.—The cowboys of the ranges are bedding down their 'dogies, putting away their branding irons, polishing up their high heel boots and getting ready to hit Anson for one grand "sworray," the Cowboys' Christmas Ball, to be held here December 19, 20, 21.

For the first time the ball will be held in its own home, the new Pioneer Hall, of rock construction, erected this year. There is plenty of space of hundreds of partners to do the square, Virginia Reel, Heel and Toe, waltz, polka, two-step, dressed in their cowboy togs, with their partners in fashions of the 1890's. For Pioneer Hall has the largest dance floor in this section and in addition has a lobby, kitchen, rest rooms, cloak rooms and stage. For those who just want to watch, there is a large balcony.

As usual many of the pioneers who attended the first Ball will be back to re-live by-gone days of

"That whirl at Anson City just takes the cake with me. I'm tired of lazy shufflin', of them I've had my fill, Give me a frontier breakdown, backed up by Windy Bill."

And just as in the early days the lads and ladies who attend will come attired in fashions of the 1880's and each night the most appropriately costumed couple will be given a prize, as well as for individuals.

So to the tune of the fiddle and banjo, the modern cowboys will turn time back for three nights, to enjoy the festivities at the Cowboys' Christmas Ball on December the 19, 20 and 21st.

Mr. and Mrs. S. Hassen of Haskell and Mr. and Mrs. D. Hassen of Stamford visited in the home of Mr. and Mrs. Sied Waheed last Sunday.

Mr. and Mrs. Wade Mahan, Mr. and Mrs. Aaron Edgar, Mrs. Jack Mayes and Miss Gail Preston attended the Chillicothe-Hamlin ball game at Hamlin last Friday night.

Mr. and Mrs. Grady Roberts and their guests, Mr. and Mrs. Lee Glazner of Chillicothe, attended the Hamlin-Chillicothe ball game in Hamlin last Friday night.

Mrs. W. E. Braly and Mrs. P. V. Williams were business visitors in Wichita Falls last Thursday.

## RANKING OF TEXAS BOYS AT INTERNATIONAL

Woodrow Mills, member of the Sterling county 4-H club team in livestock judging at the 1940 International Livestock Show in Chicago, was placed third in the individual cattle judging contest, according to information received at A. and M. College from Chicago.

Mills was one of the 42 boys from Texas attending the national congress of the clubs held in connection with the International.

The Texas team placed second in cattle judging, 12 points behind the Oklahoma team and one point ahead of Minnesota. The Lone Star boys ranked eleventh out of 25 teams in "all classes," or the entire contest, with Mills nineteenth and his teammate, George Mills, also of Sterling county, in twenty-fourth place, in individual scoring.

In horse judging, the Texas team captured third place, with Claude Broome of Sterling county seventh in the individual ranking. The Texas swine judging team finished tenth and last, with Colorado leading in that division.

Texas boys won first honors for team judging of livestock the two previous years, Reagan county youths winning in 1939 and a group from Menard county in 1938.

A home run for rural electrification. The United States Department of Agriculture reports that cowpunchers in areas having lines use electric branding irons. The branding irons remain at uniform temperature and beef critters can be marked as fast as they are brought in.

Workers on projects of the W. P. A. have canned 43,333,000 quarts and dried 1,680,000 pounds of food for distribution to the needy during four and one-half years of its operation.

## THIS IS SHRUB HUNTING SEASON

College Station.—While any time of year is a good time to visit a nursery or to explore field corners and pastures to discover attractive shrubs, and trees, this time of year has three definite advantages for the amateur gardener. Sadie Hatfield, Extension Service Specialist in landscape gardening, says:

Now it is easy to distinguish between evergreen trees and shrubs which lose their leaves.

This is a good time to observe brilliant fall colors of various plants and choose the most attractive ones to give bright spots in the landscape when flowers have quit blooming.

And third, shrubs and trees may be taken up and transplanted now with more certainty of success than during the summer or spring.

In suggesting evergreens for planting, Miss Hatfield points out that for the warmer regions of Texas the cenizo or purple sage is popular. It does well in alkali soils or neutral soils. Then the agarita or algerita will grow almost all over the state. Native hollies which are popular include the well-known Christmas holly, the evergreen, deciduous, and desert yaupon. Among the other beautiful native plants are swamp myrtle or bayberry, cherry laurel, Indian cherry, buck thorn, evergreen sumac or kiniknik, mountain laurel, madrona or Texas arbutus,

cedars, arizona cypress, and live oak.

Some of the shrubs which add color after the flowers are gone are the sumacs, maples, dogwood, Spanish oak, red oak, wild cherry, bald cypress, deciduous yaupon.

"Shrub hunting, like deer hunting, can be fun and frequently it's more successful," is Miss Hatfield's comment.

Through the week ending October 26, the port of Houston had exported 130,000 bales of cotton, or nearly one-half of the United States total supply of 300,000 bales since August 1. This gave Houston a substantial lead over other ports.

Scientists at the University of Tennessee have announced development of an unusually high quality plastic which can be produced at a relatively small cost from cottonseed hull, which heretofore has been used principally as a feed for livestock.

There is a lot of difference in grasses. Some have as much as seven times more feeding value as others.

**Third Grade**  
 Three or four students in the third grade barely missed being on the honor roll; but they are going to work harder to try to make it next time.

**First Grade**  
 All of the children are busy decorating the rooms, and seem to be in a big Christmas spirit already.

Troy Stephens has been ill for several days, and the students will be glad when he comes back.

**Honor Roll**  
 First Grade—Coy Phillips, Jr., Charles Lynn Lemley, Gladys Nell Simmons, Ivena Harber.

**Second Grade**—Martha Jane Gentry, June Lowrey, Marjorie Campsey, Betty Sue Yost, Tommy Frances Yost, Lois Reddell, Betty Matthews.

**Third Grade**—Patsy Matthews, Brucilla Frost.

**Fourth Grade**—Doris Wayne Phillips.

**Fifth Grade**—Patsy Nell Campsey, Leroy Ressel, Jo Ann Whittemore.

**Sixth Grade**—T. W. Hertel, F. A. Johnston, John Voss, J. B. Walling, Barbara Jane Almanrode, Margie Lowrey.

**Seventh Grade**—Mart Hardin, Christine Lindsay.

**Eighth Grade**—None.

**Sophomores**—None.

**Juniors**—Polly McAfee, Jeanelle Partridge, Jane Burton, Wynell Lowrey.

**Seniors**—Jane McLeRoy.

**Fifth Grade**  
 Christmas spirit is really in the air in room five. They are making a Christmas frieze, posters, and Christmas cards. Every one of them has some part in making decorations for the room.

This time of year is so exciting to them that they can hardly sit still. Each of them is trying to be especially good so that Santa won't have an excuse for forgetting them.

The best citizen in the fifth grade is Riley Gene Hoover, who is the newest member of the class, and a very nice and polite little fellow.

Friday week the fifth grade is to have a Christmas party. There will be fun, fruit, and presents for everybody.

**Seventh Grade**  
 The seventh grade is starting out on the second week of the third six weeks, hoping to do better and have more on the honor roll than they did last six weeks. They only had two on the honor roll this six weeks, but hope to have more next time, so everyone get his mind together.

**Sophomores**  
 The Sophs drew names Friday for Christmas. Are they getting childish or just out to have a good time?

**Chatterbox**  
 Two certain girls (Sophs) were

because Christmas is near either). Johnnie seems to like home better than school. (Well, who doesn't?)

Joe, Harold and Garland are really wise; or do they just act that way?

Edna likes to get letters from a certain person. (Who is it? Come one now Hardin, fess up!) Juanita doesn't like to be reported. Who says so? She doesn't.

**Second Grade**  
 The second grade is busy fixing presents for their mothers. They are also learning Christmas songs and reading Christmas stories. They had seven on the honor roll.

**Seniors**  
 The Seniors are happy to say that Billy Bean and the Herrington trio made a good appearance here last Friday night. The program was about an hour long. The program opened with their theme song, "How Do You Do, Everybody, How Do You Do." Some of the songs they sang were: "New San Antonio Rose," "Truck-Driver Blues," "There's A Love-Knot in My Lariat," "Worried Mind," and many other popular songs. They also sang a few hymns. Their program ended with their theme song.

The Seniors were certainly glad to have them, and hope they come back again some time.

Be sure and watch to see when the Seniors are going to present their play. They are planning to present it some time next week. Keep your eyes open for the great one-act play ever presented, "The Obstinate Family," starring Guy Hardin, Kay Eggleston, with Gean Griffith, Ruth Poyner, Claude Richardson and Jane McLeRoy.

Be sure to see this. It's grand and lots of laughter, and thrills for everybody. Don't forget to watch for the date and time... and admission!!!!

**Junior Report**  
 Since Christmas is just around the corner, the Juniors have devoted most of their spare time thinking what they want Ole Santa to bring them. They asked me to write Ole Santa for them because they were entirely too busy writing themes for English. Here's hoping Ole Santa will take heed to their wishes.

Sunset High School, December 9, 1940.  
 Dearest Santa Claus:

Since this has not been such a fiscal year we will try not to ask for too much, however, please bring Alyne a tricycle, because she's get-

ting tired of motorcycles. Bring Randall a bottle of Peruna for his bad cold—you know he's always being in bed with a bad cold.

Ruth Jeanelle wants a huge box of adhesive tape so she can keep her new class ring on. Marvin wishes for a big little book on "How to Make Love." Polly needs a picture album for all those new pictures she's been having made at K.C. Wynell is not asking for much—just a big doll with curly hair which says "mama-papa." Juanita wants a big tube of kiss-proof lipstick—she heard it was good. Bernice wants either a typewriter or an alarm clock so she will make haste in getting her English in on time. Doris Jane is simply dying for a set of false teeth—she had two pulled Saturday. Rufus wants a new book full of wisecracks—the people are getting tired of his old ones. Smitty needs a book on "How to Regain Lost Flames" it seems she has been losing one. Evelyn only wants one thing this Christmas, that's a glimpse of you, dear Santa.

Oh yes, Santa dear, please don't forget our sponsor, Mrs. Holder. Bring her a supply of paint so she can paint her little car, Putt-Putt, Jr. She wishes a can of black paint.

Thanks a million, Santa, and

don't forget the other good little boys and girls out at Sunset.

Lots of love,  
 The Juniors  
 P.S.—Bring Mrs. Savage a new record book; her old one is too full of zeros.

**Freshman Report**

The Freshmen are glad six weeks tests are over and are glad to get started on their third six weeks of school and hope their algebra grades are better than last time. A majority of the eighth grade boys are coming out for basketball, and they hope to get a game soon. The boys coming out are: Keith Burnison, Houston Sweatt, Kenneth Whittemore, Harold Freeman, Raymond Decker, Dwain Russell, Billy Bob Burton, and Glynn Myers. Nearly all of the girls are coming out for volleyball.

**IS EMPLOYED HERE**  
 Miss Dorothy Hendrix of Cooper, Texas, has accepted a position at the Rexall Drug Store, beginning her work there several days ago.

Miss Ruth Baker spent several days last week in Rochester, visiting with Mrs. Bess Porter, a former teacher in the local school system.

Mrs. A. B. Warren, Mr. and Mrs. Joe Duke and little daughter, and Mr. and Mrs. Lewis Warren spent last Sunday in Weinert with Mrs. A. B. Warren's mother, Mrs. J. W. Medley.

Mrs. W. A. Strickland and several others from Munday attended the singing convention in Seymour last Sunday.

Mr. and Mrs. S. T. Easley, Mrs. Sessions and other Munday people attended the singing convention in Rochester last Sunday. They reported an interesting program given at the convention by the Tipton Orphans Home.

# Children live in a different world

...and the climate is 5 to 10 degrees colder!

DON'T GIVE A COLD AN EVEN BREAK!

Fight the dangerous common cold this winter with these simple rules: (1) Don't "huddle" but provide comfortable temperatures in every room so that quick body-chilling changes will be avoided at all times; (2) Introduce sufficient oxygen-laden air into the home through adequate ventilation; (3) Keep connecting doors open so that a natural circulation of warm air prevails from one room to another; (4) If you should "catch cold" consult your family doctor before it has an opportunity to undermine your health.

THE FLOOR is the most popular winter playground. Have you ever asked yourself, "How is the climate down there?" So far as healthful comfort is concerned, it is a different world at floor-level temperature than it is in the comfort zone in which grown-ups move about in the household.

In guarding your family's health against winter illness, give serious thought to proper heating. Give your floor the "Health Test." Note the temperature at floor level and compare it to the temperature at five-foot heights. You'll find it to be 5 to 10 degrees COLDER at floor levels, depending upon the manner in which you heat your home.

Heat your entire home and live all over it this winter. Provide adequate heat in every room and at all times avoid danger of uneven, unhealthy temperatures.

### Sports

A series of moans and groans came from a group of boys as they hobbled painfully out of the gym. Upon inquiring, it was discovered that they were merely suffering from stiff backs, sore joints, strained muscles, and a general pain all over, as a result of the workout that they have been having. The basketball boys have begun practice in earnest now. With a new gym and new suits, they have decided that we should have a well-trained team. Everyone is extremely happy over the new suits which are to be satin purple trunks (both boys and girls) with white stripes down the sides. White jerseys with purple stripes running horizontally under the arms (for the boys). The volleyball girls' blouses are to be white with purple buttons down the front. These suits will not be used for practice. Our old suits are still

wearable for that purpose.

We are very pleased to have Mr. Cunningham for our volleyball coach this year, and intend to cooperate with him in every way to make our team one which will be hard to beat.

### Freshman Report

The Fish all have their minds on exams this week, so we don't have much news. We plan to have a Christmas party soon, and we hope all the other classes have enjoyable ones. So long until next time.

The Sophs, like all the other classes, are very busy this week. Some time next week our room-mother, Mrs. L. A. Parker, is giving us a Christmas dinner. We are very proud to have Mrs. Parker as our room-mother, and we know we will have lots to eat at this dinner. We will also have the

Sophomore Christmas tree at this time.

### Junior Report

The Juniors had a party at the home of Mrs. Spikes, one of our room-mothers, Saturday night. We were accompanied by our sponsors, Mr. Curry and Miss Cole, and our room-mothers, Mrs. Parker and Mrs. Spikes. Most of the class attended. We were permitted to invite one person each. Everyone enjoyed themselves very much.

We are studying hard this week and getting ready for the six-weeks exams, which are to be this Thursday and Friday.

## James L. Harris Buried Sunday

James Lester Harris, son of Mr. and Mrs. J. F. Harris of Haskell county, died at Haskell on Saturday, December 7. He had been an invalid since he was about four years of age.

He was born May 29, 1907, near Munday and died at the age of 33 years, 6 months and 8 days.

Surviving are his parents, five brothers, two sisters and two half sisters, who are: Alton Harris, Walnut Springs, Lloyd Harris, Tucson, Ariz.; Luther Harris, Haskell; Mrs. Q. P. Gordy, Weinert; Jeral Harris, Nogales, Ariz.; Orville Harris and Charlotte Sue Harris, Haskell; Mrs. A. C. Robertson, Weinert, and Mrs. Sidney Lyles, Hamlin.

Funeral services were held at 2:30 last Sunday afternoon from the First Baptist church in Munday. Services were conducted by Rev. W. H. Albertson, and burial was in the Johnson cemetery.

## Bert Griffin Makes Record Cotton Crop

What is believed to be a record 1940 cotton crop for this section was reported Monday by Bert Griffin, who farms about five miles southwest of Munday.

Mr. Griffin, who is one of the farm owners by his father, A. W. Griffin, completed gathering his 1940 crop last Monday. From 29½ acres of cotton, he gathered 44 bales, all of which weighed 500 pounds or better, an average of nearly 1½ bales per acre.

Griffin stated that the frost on October 16 did some damage to his crop, stating he possibly would have gathered 50 bales from this land had the frost come later.

His success in cotton raising this year is attributed in a measure to the fact that he used good seed. He planted second year Acala cotton, which was from the first seed brought in here by the Munday Cottonseed Co. Only two bales fell under an inch in staple, and these were early bales.

Griffin placed his cotton in the loan, and he received from 9½ to 10½ cents per pound.

## Traffic Control Saves Six Lives

"Visible Control" of traffic on Thanksgiving No. 2, November 28, resulted in the saving of six lives and a really thankful Thanksgiving in scores of homes, Colonel Homer Garrison, Jr., Director of Public Safety said today.

The Highway Patrol operated that day on a 24-hour schedule which placed double and triple patrol on holiday travel lanes under the personal direction of Chief Hill Foreman.

State Police Statisticians estimated that on the basis of past years experience eight persons were marked for death on November 28. To date only one fatal accident has been recorded for that date in which two persons were killed. The remaining six marked persons lived, thanks to Chief Foreman's "Visible Control" and the cooperation of the motoring public.

### Curing Pork

Hog-killing time is here, and a good many farmers have already slaughtered hogs. Farmers can secure bulletins at the county agent's office which gives information on the killing and curing of pork.

The dry sugar cure for every 100 pounds of pork is as follows: Eight pounds salt, 3 pounds sugar, 3 ounces salt peter.

Rub about half of this mixture on meat and pack in barrel, box, or stone jar. At the end of seven days repack the meat, using the remainder of the salt mixture, and let cure 1½ days per pound per piece of bacon and 3 days per pound per piece of ham.

### CHICKENS CAME HOME TO ROOST

A railroad man was ready to make his regular run. His wife instructed him to get her some turkey eggs to set.

While passing through a small town, a dirty country lad approached the engineer and asked, "Don't you want some buzzard eggs?"

Seeking to play a joke on his wife, he gave the lad a nickel for them. About a month he asked his wife, "How are the turkeys getting along?"

"Oh, I decided that it was too late for turkeys, so I put them in your lunch pail."

Plans are being made for our Christmas program. We would be pleased to see a great crowd attend it and help us create the real Christmas spirit.

**Senior Report**  
The Seniors are beginning to behave, because they think it is about time for Santa Claus to be peeping around the corner. They said they weren't so particular this year. You may send them anything you wish, Santa, just so

you don't forget them entirely. We wonder why... Rose gets weak in her joints when she thinks of C.L. The geometry teacher calls Gerald when he wants Theresa to go to the board. Albert goes to see his English teacher after school. The other day our Economics teacher said: "Cletus, name some commodity in which the supply exceeds the

demand." Cletus replied: "Trouble." Something to keep you guessing—What is always behind time? The back of a watch.

When is a man greatly tickled but never laughs? When a fly alights on his nose. Why should a poor man drink coffee. Because he has no property (tea).

**Did You Know—**  
Geneva drove all the way to Munday just to see Mutzie? The boys in our class are wondering what happened to Ethel's face. Could it be...? When Mr. Hoffman says "Get that book out (Bookout) C. L. is ready to get started.

**Junior Report**  
Geometry teaches us to be reticent, because proof must follow every statement we make. Looking about us convinces us that many people in this wide world of ours did not have geometry or failed to profit from it. If Santa gives according to behavior and diligence, don't you believe we ought to enlarge our stocking, Juniors? Don't you agree with us, teachers? Of course, we dare not ask our schoolmates for their opinions. Prejudice and envy have been known to warp otherwise sound judgement.

**Sophomore News**  
Monday morning the Sophs were talking about the Santa Claus parade they saw in Munday Saturday afternoon. The Sophs all seemed to have gotten over Thanksgiving all right. All had a very good time at the picnic. They also enjoyed the dance which followed.

We thought the music furnished by the Munday band last Wednesday afternoon was good. The band was advertising the Santa Claus parade which took place in Munday Saturday afternoon.

**We Wonder Why—**  
Kenneth wasn't in school Friday. We couldn't get our algebra. Calvin can tell funny jokes. Francis doesn't play volleyball.

**Freshman Report**  
The Freshmen found out sulphur is odorless, tasteless and is a yellow solid, but does not dissolve in water. When you put sulphur on a penny, you will notice that a black spot appears. If you melt sulphur it will form a light yellow liquid, which is easily poured. However, as you heat it more it becomes darker and harder to pour. Heating it still more you will find that it remains dark in color but easy to pour. When sulphur is boiled a light brown gas is given off.
