

Iron Lung Bought For Knox County

Legion Thanks Those Donating to Cause

The deal for the purchase of an iron lung for the Knox county hospital was completed the first of this week by members of the American Legion purchasing committee.

The lung, purchased from the American Supply Corp., of Chicago, Ill., is the one which was on display in Munday recently. It has been located at the hospital since that time.

In completing the purchase, members of the Knox City and Munday American Legion posts made the following statement thanking everyone for their cooperation.

"We are indeed grateful to everyone who contributed in any way toward the purchase of this iron lung. We realized in the beginning that this was a big undertaking but we had faith in the citizens of Knox county and their willingness to contribute to this humane cause.

"Especially do we thank the banks of Knox county for their services as depositories for the funds while this drive was in progress, and Knox county newspapers for giving this cause much publicity.

"The money was secured entirely by contributions from Knox county citizens. Your contributions will be the means of saving a life. We sincerely hope this iron lung will never be placed in service, but it is a satisfaction to all citizens to know that it is available to anyone who may need its services.

"We are proud of the splendid manner in which citizens of the county have rallied to this cause, and this iron lung is an ever-present reminder of your public-spiritedness."

Two other contributions to the fund have been received since last week's issue of The Times. The contributions of \$1 each were from Mrs. D. C. Chandler and Mrs. J. A. C. Swett.

Knox County Hospital Notes

Patients in the Knox County hospital at Knox City June 11, include: Mrs. Eaker New, Truscott; Mrs. Homer Beard, Knox City; Travis Sharpe, Rochester; Mrs. E. A. Hutchins, Rochester, Louis Montandon, Knox City; James Cude, Munday.

Patients dismissed since June 3 include: Mrs. J. A. Hill, Munday; Mrs. Toy Reed, Gilliland; Mrs. B. B. Bowden, Munday; E. C. Goodrich, Benjamin; Mrs. W. F. Rutledge, Benjamin; Mrs. O. L. Patterson, Jr., and baby son, Benjamin; Robert Wilson, Big Spring; Mrs. S. L. Lusk, Munday; Mrs. J. F. Hertel and baby daughter, Benjamin; Jerry Russell, Eunice, N. M.; Maurice Hughes, Hobbs, N. M.; Mrs. A. T. Adams, O'Brien, Mrs. J. J. Justice, Goodnight; Reba Mae Yarbrough, Knox City.

Births

Born to . . .
Mr. and Mrs. O. L. Patterson, Jr., Benjamin, a son.
Mr. and Mrs. J. F. Hertel, Benjamin, a daughter.

Wheat Meetings Slated for Area

The county AAA office was notified that meetings would be held at the following places for the purpose of informing wheat buyers, elevator operators, warehousemen and wheat millers of their responsibilities under the wheat marketing quotas:

June 12, 1 p. m., Fort Worth, room 520 in courthouse; June 13, 1 p. m., Wichita Falls, Holt Hotel; June 14, 1 p. m., Abilene, Wooten Hotel; June 16, 1 p. m., Amarillo, Herring Hotel.

Representatives of the Washington office will make all of the meetings.

"Knox county wheat dealers should be able to get some very good information at one of these meetings," declared County Agent Walter Rice, "and I do hope Knox county will be well represented."

Mr. and Mrs. Togo Moorhouse of Benjamin visited Mrs. Moorhouse's parents, Mr. and Mrs. G. L. Hunter, over the week end.

C. W. Selman Is New Manager Of Perry's Store

Carl Whitfield Is Sent To Snyder Store

C. W. Selman, formerly of Mineral Wells, has been named manager of the Perry Bros. store in Munday, succeeding Carl Whitfield who was transferred to Snyder last week.

Mr. and Mrs. Selman and little son arrived here last Saturday and Mr. Selman assumed management of the local store on Monday morning. He has been with the company for approximately six years and served as assistant manager at Mineral Wells.

Mr. Selman invites the public to the store, stating he is anxious to make the acquaintance of all local people. They are at home in the Riley B. Harrell apartment.

Mr. Whitfield, who served as manager of the Munday store for about 18 months, will be manager of the store at Snyder, and this transfer comes as a promotion to him.

Their many friends in Knox county wish them success in their new home.

Local Firemen Attend Meet In Wichita Falls

The Munday Volunteer Fire Department was represented at the Texas Firemen's Association convention in Wichita Falls the first of this week.

The program of the convention dealt with modern fire fighting equipment and trained firemen as a part of the national defense program. Prominent speakers appeared on the program among whom were Maj. Richard Eads, eighth corps area chemical warfare officer, and Capt. John W. Long, Camp Wolters fire marshal.

Various luncheons, barbecues, dancing and other programs were featured entertainment for the firemen.

Attending from Munday were Marshall M. G. Franklin, Deaton Green and E. H. Bauman.

Wheatland Maize Said Not Adapted To Knox County

Wheatland maize is not adapted to Knox county. This information was passed on to Knox county by J. R. Quimby, superintendent of the Chillicothe experiment station, recently in a meeting of the land use planning committee held in the county agent's office.

Mr. Quimby explained that wheatland maize was developed for the south plains area around Lubbock where there was very little root rot, or pythium disease, of maize, and was developed to be harvested by combines.

Double dwarf maize is adapted for this area, County Agent Walter Rice said, and can also be harvested by combines. It is resistant to root rot, and Knox county farmers are not taking a risk in planting double dwarf maize.

BAUMAN ACCEPTS POSITION IN TULSA

Willard Bauman, son of E. H. Bauman and recent graduate of Texas Tech, Lubbock, left last Sunday for Tulsa, Oklahoma. Willard has accepted a position as mechanical engineer with the Gulf Oil and Refining Co., but did not know just where he would be stationed when he left Munday.

RAY EASLEYS BUY CAFE IN ANSON

Mr. and Mrs. Ray Easley, formerly of Munday, have purchased the New Haven Cafe in Anson, taking charge of this business last week. Mr. and Mrs. Easley are former residents of Munday.

Mr. Easley stated this week that his business in Anson has started off very satisfactory.

Hold Positions In Woodmen Circle

MRS. JEANIE WILLARD

MRS. LENA SHUGART

Prominent places at the second quadrennial National Institute of the Supreme Forest Woodmen Circle life insurance society, to be held in Omaha, Nebraska, June 22 to 26, will be held by three Texas

women, Mrs. Jeanie Willard of Denison, Mrs. Lena Shugart of Garland and Mrs. Maggie Hyde of Dallas. All three women are distinguished members of the Woodmen Circle society.

U.S.O. Funds Are Coming In Nicely

Stamford P.C.A. Loans At Million Dollar Mark

The Stamford Production Credit Association reports that their volume of loans has passed the one million mark since June 1. They have 870 members with \$1,015,000 loans outstanding as of June 10, 1941.

This Association serves eight counties; Jones, Haskell, Knox, Shackelford, King, Kent, Dickens, and Stonewall. The home office is at Stamford with officers and employees as follows: J. B. Pumphrey, pres.; J. F. McCulloch, vice-pres.; J. L. Hill, Jr., sec.-treas.; Paul L. Summers, ass't sec.-treas.; Horace Arledge, field representative; Clifton Cobb, bookkeeper; Bill Lessing, stenographer.

Branch offices are at Haskell with J. V. Hudson in charge, and Chas. Reed as assistant; Munday, C. R. Elliott in charge, Clint Helms, assistant; Spur, M. L. Rickels in charge, B. K. Ptuman, assistant, and Aspermont with Wayman Smith in charge.

Directors of the Association are J. B. Pumphrey, Old Glory; J. F. McCulloch, Stamford; C. G. Burson, Haskell; Lasater Hensley, Guthrie; and Clark Forbis, Afton. The regular monthly meeting of the directors will be held at Stamford, June 13, 1941, at which time the year's business will be reviewed and plans discussed for further service to the membership.

Munday C of C Meeting Held At Noon Wednesday

The regular meeting of the Munday Chamber of Commerce was held at noon Wednesday at the Terry Hotel. Twenty-three members were present.

C. R. Elliott, president, called for chairmen of various committees for reports of their work. W. V. Tiner reported good work done at the cemetery in refilling graves that had fallen in during the wet weather, and asked help from the organization in erecting dikes to prevent water running through the cemetery.

County Agent Walter Rice was present, and some discussion was held on crop conditions and methods of combating insects which destroy crops in the county. A short discussion was also held on Munday's drainage problem in which all agreed that something needed to be done, but the paramount question of just what can be done remains unsolved.

HERE FROM ABILENE

Mrs. G. C. Spann and daughter, Miss Ida Mae, who make their home in Abilene during the school months, have returned to Munday to spend the summer. Miss Ida Mae teaches in the Abilene schools.

Jimmie Silman was a business visitor in Haskell last Wednesday morning.

Workers Expect Knox County Will Reach Goal This Week

The United Service Organization drive is progressing nicely in Knox county, although the list is not complete. E. L. Covey, county chairman, hopes the county will reach its goal of \$250 during this week.

"Several communities have reached the quota set for them," Mr. Covey said, "and others who didn't get started as quickly are expected to complete their quotas this week."

"We are anxious to send in our full amount. We believe we should do this much for our boys who are serving in the army and navy, and we urgently request everyone to have some part in this drive. We'd rather have a larger number of small contributions than to get all our quota by larger donations. By receiving smaller contributions our goal can be reached easily, and more people could have a part in this worthy cause."

"If you have not yet contributed to this cause, see your local chairman at once and make your contribution."

Three communities have turned in their funds. Benjamin raised \$40, Goree turned in \$30.32 last Saturday, and Mr. Spinks, chairman at Vera, turned in \$21.05 which was contributed in his locality.

Individual contributions in these communities will be found elsewhere in this issue of The Munday Times.

Masonic Lodge At Goree Elects Officers For Year

At a meeting of the Goree Lodge No. 1029, A. F. and A. M. last week the officers for the next fiscal year were elected. They are as follows:

C. J. Moore, worshipful master; S. G. Hampton, senior warden; H. L. Moore, junior warden; S. C. Roberts, tiler; H. D. Arnold, secretary; W. M. Taylor, treasurer; Orb Coffman, chaplain; E. W. Norris, senior steward; S. F. Farmer, junior steward.

The new officers will be installed on June 24, which date begins the new fiscal year.

Charlotte Hannah Breaks Arm While Playing Sunday

Charlotte Hannah, daughter of Mr. and Mrs. Leland Hannah, broke her right arm last Sunday afternoon while playing at the home of her grandfather, S. W. Reeves. Both bones were broken just above the wrist, an X-ray picture revealed.

Charlotte was rushed to the office of a Munday physician where the broken member was set and placed in a cast. She is reported to be doing nicely.

Mr. and Mrs. Jess Burnison and family and Mr. and Mrs. Chan Hughes were visitors in Wichita Falls last Tuesday.

Cotton Stamp Plan To Be Explained

Traffic Death Record Grim Prospect for 1941

An all-time high in traffic deaths may be the grim record of 1941 if the present pace of fatalities is maintained throughout the year, warns the National Conservation Bureau, accident prevention division of the Association of Casualty and Surety Executives.

January-February, with a total of 5,340 dead and statistics still incomplete, topped the 1940 total for the same months by 16 per cent, and the corresponding 1939 deaths by more than 22 per cent, according to the most recent reports," the Bureau's traffic authorities point out. "More cars will be on the road this year than ever before. More persons will be employed, with more money to buy gasoline. The tempo of living, working and playing will accelerate as the nation gears itself to face the possibility of war."

"Only by increased caution, greater courtesy to the other fellow, and the willingness to invest a minute or two now and then in the common cause of safety can we hope to avoid, in the present year, the greatest highway death list in American history."

"Drive Safely!"

June Term Of District Court Opens Monday

Grand Jury Stays In Session One Day

The June term of District Court opened last Monday morning, with District Judge Lewis Williams on the bench. Reports are that a rather light docket faces this term of court.

Judge Williams empaneled members of the grand jury last Monday morning. Work of the grand jury was also completed Monday and its members were dismissed subject to the call of the court.

Reporting for service on the grand jury were: E. W. Harrell, C. C. Jones, C. J. Stengel, G. H. Beatty, Claude E. Reid, Henry White, F. E. Walker, J. C. Reeder, T. H. Jones, J. B. Justice, C. F. Moorman, J. P. Tolson, A. K. McLaughy, Harry Beck, W. T. Cook, and B. R. Westbrook.

Petit jurors who will report Monday morning, June 16, for jury service are the following:

J. E. Cure, Charles Goode, A. L. Haskin, Ben B. Hunt, John West, H. D. Howard, L. L. Hendrix, G. D. Jones, W. O. Barnett, J. C. Decker, and J. T. Murdock, Goree; Cecil Burton, M. W. Simmons, W. H. Hodges, E. R. Carpenter, Ray Willis and C. L. Bohannon, Knox City; J. S. Shannon, J. C. Rice, E. E. Nix, Moody Johnson, R. L. Blacklock, Paul Pendleton, Levi Bowden, Fred Broach, Jr., S. E. Williamson, and W. L. Lansford, Munday; Lester Hickman, J. C. Jones, Jr., H. M. Black, J. O. Sillamon, and J. W. Rutheford, Truscott; S. L. Shipman, Minor Coffman, L. M. Christian and E. A. Albright, Vera.

This week is being taken up in the trial of non-jury cases, it was stated.

C.Y.O. Meeting Slated Sunday At Rhineland

Rhineland will be host to more than 250 members of the Catholic Youth Organization of this area next Sunday in quarterly meeting.

The assembly will open at 9:30 a. m. with mass in St. Joseph's Catholic church, with Rev. Mathew Wiederkehr, O.S.B., as celebrant. Registration will begin at 11 a. m.

The election of new officers will feature a business meeting in the afternoon, which will be preceded by a ball game. Solemn benediction, with Rev. Paul Mosler as celebrant, will close the day's activities.

Young people from Wichita Falls, Electra, Vernon, Scotland, Rhineland, Seymour, Bomarton and Rhineland are expected to be in attendance.

Land Committee Area Meeting To Be Held at Benjamin

An area land use planning committee meeting will be held in Benjamin on Monday, June 23, at 10 a. m. Representatives will attend the meeting from 41 counties in this vicinity of the state, which is known as the rolling plains area.

The group will elect an area committeemen in the forenoon, and the afternoon will be devoted to a discussion of problems confronting framers in this area.

State School Money Is Received Here

An additional \$1 per capita in state scholastic money was received by the Knox county schools recently, according to Merick McLaughy, county superintendent.

This leaves a balance of only \$3 in per capita money due from the state. Mr. McLaughy praised the splendid manner in which this money has been received from the state during this year.

A meeting will be held at the courthouse in Benjamin at two o'clock Friday afternoon, June 13, to explain the cotton stamp program to merchants retailing cotton goods in Knox county. All merchants are invited and urged to attend this meeting if they plan to handle cotton stamps in exchange for cotton goods, stated Walter Rice, county agent.

Individual farmers may earn \$25 worth of stamps for voluntarily reducing their cotton acreage further. He will receive stamps at the rate of ten cents per pound multiplied by the adjusted AAA, cotton yield per acre.

For example: Farmer Jones has an AAA yield of 210 pounds of lint per acre. By reducing his cotton by one acre, he will be issued \$21 in cotton stamps. A large number of Knox county farmers have made application for these stamps.

The stamps will not be delivered to the farmers until after their cotton acreage has been measured under the AAA program.

"I surely believe that Knox county farmers should investigate the cotton stamp plan very carefully before declining definitely to cooperate," explained County Agent Walter Rice.

Farm Loans May Still Be Applied For, Farmer Says

Farmers who desire Farm Security loans to buy their own farms were urged to hurry and file their applications by Ernest A. Beck, farmer and chairman of the county tenant purchase committee.

Mr. Beck said that his committee is trying to hasten this work along so that every farmer will be on his newly-owned farm without interfering with his next year's work.

Loans which bear only three per cent interest and are repayable over a 40-year period may still be applied for by worthy tenants, sharecroppers, and farm laborers. Preference, however, is given to families with an adequate supply of livestock and equipment.

Farmers to whom these loans are made choose the farm they hope to own and are not restricted to those which are fully improved. The loan may include funds to repair or build the home, barn, and other buildings.

Applications for these loans should be made to the Farm Security Administration office located on second floor of county courthouse, Seymour, or the County Clerk's office, Mr. M. T. Chamberlain, Benjamin.

JOE B. SPEARS
Rural Supervisor

American Legion Birthday Feed Is Held on Tuesday

Members of Lowry Post No. 44 of American Legion and several ex-service men held the regular Legion meeting last Tuesday night.

During the business session, Robert Green, scoutmaster of the Munday troop, who was a guest at the meeting, gave a report on the Boy Scout activities. The troop has recently been reorganized.

A splendid birthday feed was served. Those serving the meal are: Mr. Season of Vera, Tom Weber, Jim Reeves and George Weber.

BOOKOUT FAMILY MOVES TO HASKELL

Mr. and Mrs. J. T. Bookout and family moved to Haskell the first of last week to make their home. They will be with their son and daughter, Cecil and Geraldine Bookout, who operate the Bookout Bakery at Haskell.

ATTEND ASSEMBLY AT McMURRY COLLEGE

The Methodist young people's assembly was held at McMurry College, Abilene, last week. The Munday church was represented by Misses Flora Alice Haymes, Margaret Womble, Ida Belle Sherrod and Louise Gafford. They returned home Friday, reporting a very interesting and inspirational meeting.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"—

"FOOD WILL WIN THE WAR"

Back in 1917 and 1918 the slogan in this country was "Food Will Win the War." Today that slogan is again in use, but not for the same reason. There is an abundance of food in this country. We have huge surpluses of the kind of foods needed to develop and make strong our citizens. But we are not consuming it as we should.

Farmers have been taught the value of balanced rations for their poultry and livestock, but many of them do not balance the rations of their families. The result of this is seen in the fact that thousands of young men from the country who have answered the draft are rejected because of physical deficiency. Investigations show that malnutrition is the trouble. Not that they did not fill their stomachs three times a day, but not with the right kind of food.

Farm and Ranch called attention, a few months ago, to a statement by a county agent in one of the rich counties of Texas. He stated that many farmers of his acquaintance were spending their money for pills and patent medicines for their families and that they lacked energy and ambition. He stated that if these farm families would eat more fruit and more green vegetables of their own production, their health would improve 50 to 75 per cent.

It is a mystery to many why so many farmers who can produce fruit and vegetables and a great variety of other foods for their own use, studiously avoid eating anything but the old rations of corn bread, fat pork and a few dried beans.

The situation in this country is serious—so much so that President Roosevelt is advocating a special effort to correct the diet of our citizens.—Farm and Ranch.

BANKS IN A NEW ROLE

Writing in Banking, Albert W. Atwood makes this observation: "Shakespeare said that one man in his time plays many parts, and so it is with the banks. Throughout the long depression they absorbed the mounting national debt, then as the defense program got under way, the lending function became of vital importance, and now they have still another role to play. It is their privilege and duty alike to educate and assist the public to invest in the three new kinds of United States savings bonds."

The banks of this nation are taking on this job purely as a necessary public service in a time of unprecedented spending. The banker knows the dangers of inflation. He knows that thrift and common sense must rule if we aren't to go into a spending spree that will produce the worst hangover in our history. He knows that the worker who has a reserve fund in the form of government bonds has a cushion which both he and the country may require in the future, when the wars end and the boom deflates.

Thousands of banks are now selling the new defense bonds. For those who are unable to buy bonds now, inexpensive defense stamps may be purchased and accumulated until a total sufficient to obtain a bond is reached. All of the stamps and bonds are fully guaranteed by the United States Treasury.

Visit your bank and investigate this method of defense investment. A defense bond is a safe place for your money—and each one helps build a barrier against inflation. Buy all you can.

"MONUMENTAL" WASTE

Secretary of Treasury Morgenthau has urged a billion dollar cut in non-defense expenditures in the interests of fiscal well-being and national defense. Meanwhile some members of Congress aren't exactly joining in a duet with Mr. Morgenthau on the subject.

A whole host of new bills for pet projects have been presented for Congressional consideration. Bills for monuments and memorials alone total over six million dollars. These would honor many local figures in our national history, "way down to Colorado, Spanish explorer, and Leif Ericson who—maybe—first discovered America.

Other measures aimed at increasing salaries and handing out special benefits and easements bring the pet project spending figure to a much higher level. There is even a suggested appropriation of \$50,000 for printing a book on horse and cattle diseases. That volume could go on the shelves of the five libraries which would be built in various cities in order to house government publications—cost of these libraries being a modest \$50,000,000.

"This expenditure is practically nothing," said one representative in seeking authorization for an "historical frieze" at a cost of \$20,000—twice a Congressman's salary.

It is against this attitude that advocates of economy must contend. Perhaps they might dramatize the issue by beating the spenders at their own game and advancing a bill for a small appropriation for just one more monument—an "historical frieze" to the waste in the non-defense activities of government.

More people make machines in this country today than were employed in all manufacturing one hundred years ago.

All incomes of \$10,000 and over, if taken entirely for taxes, would pay all costs of government for only about two months.

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

It is not enough to be busy; so are the ants. The question is: What are we busy about?—Thoreau.

"ISMS" AND HORSELESS CARRIAGES

If the statements made by the "ism" system advocates were as true as they were arrogant, representative democracy would be a very feeble and ineffective way of life by comparison. And, gravely enough, there are some people who, appalled by the roughshod victories totalitarianism has lately won, are half willing to accept such a belief.

For such folk an analogy in a recent book by H. A. Overstreet should be required reading.

Mr. Overstreet points out that the growth of our representative system of government might be likened to the development of the automobile. In the early days of the "motor car" there were people who doubted its effectiveness and shouted, "Get a horse." Then as later improvements proved its worth, there were others who were quite sure that it had reached a stage of near-perfection. But constant trial, constant effort, have made the automobile better each year.

Similarly, the author observes, there are those who look on governments that depend on such gradual progress and who shout, "get a leader!" They feel that if one man is allowed to make all the decisions, a better product will result than if many people are allowed to contribute their ideas.

Not merely the analogy of the automobile, but the whole gradual but tremendous development of our American habit of life, denies the "isms" approach. Constant testing, constant open-mindedness, a willingness to listen to the ideas of others—these are the ways a better product is made. It is the way, too, that the most desirable—and in the long run the most effective—kind of government can be built.

HITLER'S CONQUESTS

Beginning with the occupation of Austria under threat of force in 1938, Hitler now dominates 14 countries which enjoyed independence prior to his setting out to conquer the world. To these 14 nations we may as well add Italy, for her course is now being dictated from Berlin. This is the record:

- Austria—absorbed March 13, 1938.
- Czechoslovakia—Partitioned and dominated after Munich Pact of September 29, 1938.
- Poland—Conquered and partitioned after a month of fighting, October 1, 1939.
- Denmark—Occupied April 9, 1940.
- Norway—Occupied after fighting one month, June 9, 1940.
- The Netherlands—Occupied after four days of fighting, May 14, 1940.
- Belgium—Occupied after 18 days of fighting, May 28, 1940.
- Luxembourg—Occupied May 10, 1940.
- France—Fell in 53 days after invasion began and surrendered June 22, 1940.
- Hungary—Joined Axis November 20, 1940.
- Rumania—Joined Axis March 1, 1941.
- Yugoslavia—Conquered after 12 days of fighting, April 18, 1941.
- Greece—Athens, the capital, occupied April 27, 1941.

Since the time that the Wright brothers made their first successful flight, the airplane industry in the United States has built about 60,000 planes of all types. The present defense program, by contrast, calls for the completion of 40,000 planes by the end of the next 18 months.

The United States, with only 6 per cent of the world's population, has nearly 19,500,000 telephones, or about half of all those in existence. And a telephone in New York City will reach 93 per cent of all the rest of the phones in the world.

Industrial research has made it possible for freight locomotives to perform 1 1/2 times as much work per pound of fuel as was possible in 1920.

In eleven months' time since the defense program first got under way, American industry's output increased 24 per cent. This is a larger increase in productive output than during any other similar period in our manufacturing history.

HEY! TAKE YOUR HAND OFF!

Gems Of Thought

PURPOSE

What men want is not talent, it is purpose; not the power to achieve, but the will to labor.—Lytton.

The question for each man to settle is not what he would do if he had means, time, influence and educational advantages, but what he will do with the things he has.—Hamilton Wright Mable.

When you are so devoted to doing what is right that you press straight on to that and disregard what men are saying about you, there is the triumph of moral courage.—Phillips Brooks.

Unselfish ambition, noble life-motives and purity—these constituents of thought mingling individually and collectively constitute a true happiness, strength and character.—Mary Baker Eddy.

The secret of success is constancy to purpose.

2500 TEXAS FARMERS OWN SHELTERBELTS

Wichita Falls, Texas—"More than 2500 farmers in Northwest Texas have shelterbelts planted on their farms," reported W. E. Webb State Director of the Prairie States Forestry Project. Since the first shelterbelts were planted six years ago in six different counties, this planting program has spread to 32 counties, blocking in areas with belts of trees which are rapidly giving protection to numerous communities in this portion of the state.

Favorable weather has given new and old trees alike a great spurt in growth. Even the slower growing pine and cedar are growing much more rapidly than normal. A number of tree species which struggled through several years of drought have come back with a bang. Cottonwood particularly is showing a wonderful recovery. And other trees like Chinese elm, black and honey-locust, mulberry, green ash, walnut, and many others, have already put out from 12 to 15 inches of growth this year, with the growing season barely under way.

Webb predicts unusual increase in growth. He also stated that many of those shelterbelts which in past years did not receive the proper care, are now being cultivated. Apparently, the unusual amount of moisture has given lots of the farmers a different and a more optimistic outlook on things and they are trying their best to keep the weeds down and give the trees the chance they deserve.

CIGS FOR MEASURING FISH

You can use cigarettes to measure your fish if you are ever in doubt as to whether one is legal and you are in the middle of the lake without a rule. The length of any standard cigarette is 2 3/4 inches, and that of the new "longies" 3 1/4 inches. Lay as many cigarettes end to end beside the fish in doubt and add the total. It may save a fine.

The Texas coast is 400 miles long as the crow flies, but counting islands, bays and inlets it has a 2,000-mile shoreline—a wonderful feeding ground for fish and the waterfowl.

Mr. and Mrs. Ed Hester of Rochester spent last Sunday here, visiting in the home of Mr. and Mrs. A. B. Warren.

THEY SAY!

"Production and more production is the keynote of our all-out race for national defense. Electric power and transportation are limiting factors in the production of planes and guns, tanks and ships"—President Roosevelt.

"We spawned a weird governmental monstrosity in Louisiana, but it was slain by the will of an aroused populace when, a little over a year ago we saw a people rebel. Today, after a year, we function as a democracy again. The dictator laws are gone."—Gov. Sam Houston Jones of Louisiana.

Final Date Set For Supplemental Cotton Program

June 14 is the last day on which Texas cotton farmers planning to earn cotton order stamps can sign their intention-to-participate forms.

B. F. Vance, state AAA administrative officer in charge, points out that producers failing to sign will not be eligible to earn cotton stamps or to earn food production and storage payments under the AAA program, he said.

The supplementary cotton program, a joint effort of three agencies of the United States Department of Agriculture—the Texas A. and M. College Extension Service, the Surplus Marketing Administration, and the Agricultural Adjustment Administration—is designed to encourage voluntary reduction in the acreage planted to cotton in 1941 by payment of cotton stamps to farms on which such reduction is made. The stamps can be exchanged for finished cotton goods. Under the supplementary program, farmers on those farms qualifying for cotton stamps, can each earn an additional \$3 payment for meeting specified food production and storage practices.

No extension of the closing date will be made, Vance said, since, by that time, most of the cotton in Texas will have been planted.

BRIEF ITEMS

Found ... IN OUR EXCHANGES

The difficulty with the present management of the strikes and labor laws in this country is that the employer has no friend in the court. Regardless of the merits of the case, the unreasonable demand of the demand, the employer is always wrong. He has to submit or his plant will in effect be taken away from him.—Foard County News.

Do you remember back yonder about 25 years ago when we had thought the world would be all right and happy if only Kaiser Bill were dead? Well, he is dead and we are still not happy. Now things would be better if Hitler were reduced to so much ground soil, but it looks like there will be heck to pay until the disintegration comes along. However, maybe we can still hope that there are not many more where Bill and Adolf came from.—"Passing Day" in Baylor County Banner.

KEEP OFF MOSQUITOES

A good mosquito repellent may be prepared by mixing one part oil of citronella, one part spirits of camphor and one-half part cedar oil. The mixture may be diluted with olive oil and applied to the hands and face.—Farm and Ranch.

Comes more evidence of rain on the seventh Sunday following a wet Easter Sunday—Jimmie Lee Gordon states that he had to get out of a shower in Anson about 10 p. m. 7th Sunday. Last week's column was unable to report any precipitation on that day. So perhaps the old legend will survive despite the fact that most of us thought we had it forever discredited.—"Town Talk" in Western Enterprise, Anson.

The teacher asked her class to write a short composition on the subject of water. One scholar seemed to be having difficulty, but he finally turned in his paper, and here is what he wrote:

"Water is a light-colored wet liquid which turns dark when you wash in it." Signal Citizen, Honey Grove.

Hard pressed for raw materials with which to keep the Nazi war machine squeaking along, German scientists announced last week the perfection of a new lightweight metal called Mipolam that is being widely hailed as the factor that will keep Stuka dive bombers and other German craft in the air. Truth of the matter is that Germany is so hard-pressed for vital materials an alloy like Mipolam is being relied upon—although structurally weak—to keep production schedules up to par for the next three months—a period that will affect the destiny of Germany in the present conflict. Both American and British statesmen hold to the viewpoint that Germany will be virtually defeated if she can be shut off from raw materials during the coming months.—Leon Guinn in the Surry County Times.

The Negro Citizens Council has agreed to foster a rodeo Thursday night, June 19, which is the night before the regular opening show of the Spur Round-Up. Every performance will be carried out by negro citizens. No one is to do anything that night, except he be a Negro citizen. June 19 is Negro emancipation day and they will hold some other exercises during the day consisting of a parade, a baseball game and other events that will be separate from the rodeo that night.—Dickens County Times.

C. J. STENDEL KILLS HUGE RATTLESNAKE

One of the largest rattlesnakes to be found in this county in some time was killed one day last week by C. J. Stengel, who discovered the rattler on his farm along the Brazos River.

Mr. Stengel stated the rattler was five feet in length and had 16 rattlers.

VISIT IN LUBBOCK

Mr. and Mrs. Sied Waheed and family spent last Sunday in Lubbock visiting with Mrs. Waheed's parents, Mr. and Mrs. C. S. Ameen. Mrs. Waheed and children remained there for about ten days visit.

Mrs. J. W. Medley of Weibert visited her daughter, Mrs. A. B. Warren, and Mr. Warren here last Sunday.

Mr. and Mrs. G. W. Russell of Denver City, Texas spent the week end here with Mrs. Russell's parents, Mr. and Mrs. W. W. McCarty.

I GIVE YOU TEXAS

By Boyce House

Hay-fever sufferers will understand the following lines:
I have blown my nose where the tall palm grows
On the shimmering desert sands; I've blown it well while beneath the spell
Of a tropical island's strands; And amid the snows in my Eskimo clothes
Where the iceberg's song is sung In the arctic chill with a ring good will
My proboscis has been wrung.

I have blown my beak on the ships of teak
That barter in old Cathay. And in Timbuctu, I'ma telling you
My snuzzle has had its day. I have blown my snout as we lumbered out
Of the mouth of the Ho-Ang-Ho; On the Capricorn my infernal horn
Has matched the trade winds blow.

Where the natives chant and the elephant
Drive through the jungle shade; Where the leopard leaps and the serpent creeps
My handkerchief has played. Though I gargle well, 'tis a bit of hell
When my nostrils both go wrong I've blown my nose before friends and foes
But never before in song. (From Jake Smyth's Vindicator.)

Here and There
At Lorenzo there is a "tonorial salon."

And Dallas has an establishment with an intriguing name: "The Rolling Home Trailer Park."

A dollar ad in the Moore County News sold \$2,500 worth of property.

Woozey's Cafe is in Merkel. A tourist camp near Sweetwater claims "Best in the West—10,000 miles to our equal."

And a tourist camp close to Abilene has a sign: "Everybody welcome but Hitler."

Looking at a display of delicious apples, a negro in Lodi, (near Jefferson) said, "Gimme one o dem malitious apples."

Lloyd Glover's one-man crusade in the Pharr Press for a bank in that Lower Rio Grande Valley City has been crowned with success—Deposits the first day were \$291,000.

My friend, R. T. Craig, editor of the Athens Review, has been appointed by Governor Q'Daniel as a member of the board of regents of the state teachers colleges.

Do you like autographed books? Dudley Dobie, San Marcos bookseller who specializes in Texas titles, has some autographed copies of that very fine volume, "The Longhorns," written by his kinsman, J. Frank Dobie.

The most brazen act in connection with the 1941 Legislature was the forging of the name of a member of the House at the instigation of the bold and powerful loan shark lobby, Judge S. J. Isaacks of El Paso, one of the ablest and most highly respected House members, is the author of a bill that makes provision for an added penalty, so as to provide for an adequate attorney's fee when a victim sues a usurious lender. Difficulty had been experienced in getting a quorum of the committee and a meeting was set for the close of the House session one day recently. Judge Isaacks, who does not hear perfectly, nevertheless heard his name called, and upon inquiry he found that the reading clerk had read a notice which had been handed in, bearing Judge Isaacks' name and announcing that the committee meeting had been called off. Judge Isaacks took the floor, denounced the forgery, and the committee met, with the result that the bill received a favorable report by a large majority.

There is a new system of deciding who will pay for the mid-morning coffee in Austin—it's called "Honest John." If you say, "I have not heard of that," some one will explain, "It's decided with matches like this: each man gets five," and he starts counting them around. You count yours and exclaim, "Oh, wait a minute, I have six," and they all yell, "You're Honest John you get to pay the check."

A little girl said:
"Oh, mama, I saw the nicest man today."
"Who was he, dear?"
"He was the garbage man, ma."
"And why was he so nice?"
"Well mama, he was carrying a can of garbage over his head to the wagon. While he had it over his head, the bottom came out and the garbage fell all over him and he just stood there and told God all about it."

Texans who would like to see

Auto-Suggestions

Tommy the Tail-light is a backward sort of fellow but he doesn't mind. He knows how important his part is in accident prevention and he's glad to show his red face at night. Tommy knows that as long as he keeps on the job he's warning approaching cars away from the rear of his own vehicle, and he also knows that as soon as he's allowed to burn out or go dead, his careless owner is asking for a sound swat in the rear. He reminds drivers that his face glows an even brighter red when his driver is slowing down or stopping. Tommy, quoting the eleventh annual safety booklet issued by The Travelers, says that 110 fatal accidents and 5,560 non-fatal accidents last year were caused by a tail-light that was out or obscured.

racings return to Texas point out the fact that some of the leading citizens of the land were in the throngs at the Kentucky Derby: former Postmaster General James A. Farley, Jesse Jones, seven governors, Mayor Edward J. Kelly of Chicago, Major General Bruce M. Gruder, former Ambassador William C. Bullitt and the motion picture stars, Joe E. Brown, Lana Turner, Don Ameche and Robert Young. Texas would have such notables and such crowds if racing were permitted, it is asserted.

WINSTON BLACKLOCK MOVED TO CLARENDON

Winston Blacklock, who has been employed at the Wm. Cameron and Co. lumber yard at Vernon, was transferred to the company's yard in Clarendon, according to word received here. Mr. and Mrs. Blacklock have moved to Clarendon to make their home. The transfer is a promotion for him. Mr. and Mrs. Blacklock were here over the week end to visit Winston's parents, Mr. and Mrs. B. L. Blacklock.

DRYING OF FOOD ADVOCATED

College Station—Texas will do its part in a large-scale food drying program to concentrate much of the nation's foodstuff in convenient form, Extension Service workers said after returning from the White House Nutrition Conference. Mildred Horton, vice director and state home demonstration agent, and Jennie Camp, specialist in home production planning, attended the meeting. Food preservation experts at the conference pointed out that mass food processing of this kind would save millions of bushels of grain now being eaten by rodents or allowed to rot in granaries. The drying program would also be designed to save huge quantities of fruit and vegetables which in the past have been allowed to spoil on the ground since low prices would not justify their harvest.

An Old Art Flourishes at Greenfield

DEARBORN, Mich.—In the days when the tintype was the last word in photography, the gentleman was always seated and his lady stood when they faced the camera. That's still the procedure at the Tintype Studio in Greenfield Village, Dearborn, Michigan, where thousands of visitors have called since the Village was founded a dozen years ago by Henry Ford. The 75-year-old tintypist, Charles Tremear, learned his trade over a half century ago.

Quarter Horse Show Slated For Cowboy Reunion

Stamford, Texas.—Entry blanks and prize lists for the official American Quarter Horse Show to be held in connection with the Texas Cowboy Reunion, July 3, 4 and 5 are being mailed to 190 members of the American Quarter Horse Association and breeders.

D. W. Williams of Texas A & M College has been selected as judge for the show. The horses will be judged on the morning of July 4, but rules require that the animals be kept on exhibit all three days of the show.

Cash prizes amounting to \$650 are offered in six classes, besides cups to be awarded for the champion stallion and champion mare. Entry fee is \$5 per horse and stall fee \$4.

The quarter horse, which gets its name from being very fast for a quarter of a mile, has long been popular with ranchmen but has gained new prominence since the organization of the American Quarter Horse Association and the first quarter horse show held at the Reunion last year. The quarter horse is a type rather than a strain of horse.

Officers of the association are W. B. Warren, president, Hockley, Texas; R. M. Inghart, secretary, College Station, Texas, and J. Goodwin Hall, treasurer, Fort Worth.

The show is not limited to association members but is open to all exhibitors. The prizes are offered jointly by the association and the Texas Cowboy Reunion.

Miss Mary Ellen Bateman of Terrell, Texas, came in last week for several days visit with relatives and friends in Munday.

Douglas Doshier of Benjamin, district superintendent of the highway department, was a business visitor in the city last Monday.

Mr. and Mrs. P. V. Williams and family attended the graduation exercises at A. and M. College the latter part of last week, at which Jack Williams received his degree.

Dr. and Mrs. Don Ferris spent the week end in Dallas and Ennis, Texas, visiting with relatives and friends.

W. H. Atkelson, Wade Mahan, Sebern Jones and Sidney Lee attended the national open golf tournament in Fort Worth on Thursday of last week.

Mrs. George Petrus returned recently from St. Louis, Mo., where she spent some time with her daughter who was in the hospital. While away she also visited with relatives in Arkansas.

News From Goree

Charles Arnold, who had his tonsils removed at the Wichita Clinic hospital last Friday was able to be brought home Sunday.

Naomi Hampton entertained a number of girl friends with a slumber party June 5th. They were served a picnic supper on the lawn at 6 o'clock, and afterward hiked to the butterfly bridge for an outing. Returning they played games and enjoyed a sing-song until a late hour. The following were guests: Imogene Morton, Eunice Thornton, Mary Jean Stevenson, Jonell Fitzgerald, Norma Jean Roberts, Faye Duncan, Roberta Rathliff and Bettie Jean Coffman.

Mr. and Mrs. Nealie Moore of McCamey have been visiting in Goree for several days on their return home from a vacation at Galveston.

Albert Alexander of Benjamin was a Sunday visitor in the home of his uncle and aunt, Mr. and Mrs. Frank Frey.

R. D. Perdue has been on the sick list but is better at this time. Mr. and Mrs. Ben Gerrett of Olney were visitors in the home of Mr. and Mrs. B. R. Boyles.

Mr. and Mrs. Burl Temple of Mineral Wells were week end visitors in Goree. Mr. and Mrs. Temple are liking Mineral Wells and feeling more at home there.

J. C. Blankenship, who has been ill for more than a month, is glad to be up and come to town.

Mrs. Grady Bridges and small daughter have been visiting Mrs. Bridges' parents for several days. Mr. and Mrs. Earl Howery are the proud parents of a girl, born June 6th.

Mr. and Mrs. Homan McMahon and Mr. and Mrs. Nealie Moore made a trip to Wichita Falls Wednesday.

Harold Beaty of Goree and Miss Arrena Hayes were married in Seymour June 6th. Mr. and Mrs. Beaty are at home north of Goree.

Ethelda Robinson attended the young people's summer assembly at Abilene last week and reported a very pleasant time.

Helen Duncan is visiting in Belvue.

Mrs. C. E. Smith of Haskell visited in the home of Mr. and Mrs. Virgil Peck last week.

Mrs. Mary Jane Hardin, pioneer and long-time resident of Haskell, mother of Mrs. Walter Price, died

at Haskell May 29. Her passing is mourned by a host of friends and relatives.

Helen Hunt has returned from an extended visit to Dallas and other points.

Stella Cowsar of Munday was a visitor in Goree last week.

Mr. and Mrs. Jess Bruton and Miss Emma Shaw of north of Goree were recent visitors in Goree.

Marjorie Pryor, who has been attending school at Canyon, has returned home for the summer.

Zoe Moore of Mineral Wells was a recent visitor in Goree. Miss Moore is liking Mineral Wells with its many visitors.

Mrs. Ab Henderson, daughter of Mr. and Mrs. June Bicknell, is reported improving after undergoing a serious operation some time ago.

Mr. and Mrs. Walter Coffman were visitors in Goree last week.

Mrs. Lloyd Stewart entertained with a luncheon in her home last Thursday. Twelve guests were present.

Mr. and Mrs. Forrest Dantel entertained the old-time ball club last Thursday. Forty-two was played, and the following were present for this enjoyable occasion: Mr. and Mrs. Nealie Moore of McCamey, Mr. and Mrs. Walter Coffman, Mr. and Mrs. Leon Fowler, Dallas; Mr. and Mrs. Lavelle Bibeau, Ed Martin, H. E. Blankenship, Rado Hutchens, Mr. and Mrs. Deaton Green, Munday; Mr. and Mrs. Virgil Peck and Mr. and Mrs. Homan McMahon.

Mrs. J. B. Barnett of Moran, daughter of Rev. and Mrs. J. W. Baughman, was a visitor here last

week. Miss Lola Baughman of Moran, sister of Rev. Baughman, was a visitor here.

Mr. and Mrs. John Frits of Seymour were visitors in Goree last week.

Leroy Perdue, who is home from the Knox County hospital, continues to improve. He hopes to be able to use his crutches soon.

SAVING MINNOWS WILL AID FISHING

Now that Texas' season on all species of fish is open, the State Game Department is urging anglers to use care in the handling of minnows. Those small fish are not only excellent bait, but are essential food for a large number of fish found in Texas. Wasting minnows means that you are simply robbing fish of badly needed food and that the fish you do catch may not be as large as they could have, had you helped conserve the minnow crop.

Texas laws are specific concerning minnows. Seines used to catch them must not be longer than 20 feet. Any fish other than minnows and minnows too small for bait must be returned to the water. It is an excellent idea to handle your minnows carefully. If your minnow bucket is not supplied with an air pump, the water should be changed frequently or the bucket should be placed in a stream or lake. A minnow bucket should not be towed or dragged behind a rapidly-moving boat. All minnows remaining after you are finished fishing should be dumped into the lake or stream.

Ray Easley And Mrs. Brewster Are Wed At Seminole

Announcement was made last week of the marriage of Ray Easley and Mrs. Genevieve Brewster, who were married at Seminole on May 28, 1941.

Mr. and Mrs. Easley are well known in Munday, having been reared here. Mrs. Easley is the daughter of Mrs. Seasons, well known Munday resident. Mr. Easley is the son of Mr. and Mrs. S. T. Easley of Munday. He was employed at Seminole until recently.

Mr. and Mrs. Easley will make their home in Anson, where they are engaged in the cafe business.

Bridge Club Meets Monday Night In C. P. Baker Home

Mr. and Mrs. C. P. Baker were hosts to members of the Monday Night Bridge Club last Monday night. High score at the games went to Mrs. W. R. Moore and L. M. Palmer.

The hostess served apricot ice and angel food cake to the following members and guests:

Mr. and Mrs. W. R. Moore, Mr. and Mrs. Fred Broach, Sr., Mr. and Mrs. H. A. Pendleton, Mr. and Mrs. A. H. Mitchell, Mr. and Mrs. L. M. Palmer and the host and hostess.

Wesleyan Service Has World Outlook Program Monday

Members of the Methodist Wesleyan Service Guild met last Monday night at 8:15 o'clock with ten members and one visitor present.

The following program from the World Outlook was rendered, with Mrs. Aaron Edgar as leader:

Song, "Take Time to be Holy"; song, "Near to the Heart of God"; Scripture reading, Twenty-Third Psalm; prayer, Mrs. Ellen Bounds; song, "Sweet Hour of Prayer"; Indian Missions of Methodism, Mrs. Joe B. King; Navajo Indians of New Mexico, Miss Merle Dingus; Indians of Oklahoma, Mrs. J. J. Roberts; prayer, Mrs. Oscar Spann; song, "God Will Take Care of You"; guild benediction.

Absent members were greatly missed at this meeting and are invited to the next meeting on Monday night when the guild completes the study of its book.

Mac Haymes, who has been attending N.T.A.C., at Arlington, came in last Thursday to spend the summer months with his parents, Mr. and Mrs. Lee Haymes.

Mrs. Deaton Green and children visited in Wichita Falls over the week end with Mrs. Green's parents, Mr. and Mrs. F. H. Newsom.

Mrs. M. B. Caughran Honored at Shower On Last Wednesday

Mrs. Otis Coates and Mrs. Earl Clayborn were hostesses for a shower given Wednesday afternoon, honoring Mrs. M. B. Caughran, a recent bride, the former Miss Lura Hughes.

Seasonal flowers were used for decorations throughout the entertaining rooms. Lime salad, open faced sandwiches and punch were served by Janie Spann and Peggy Coates.

Cellophane bags of rice, tied with blue ribbon, with a heart in each bearing the names of Lura and M. B., were used as favors.

A quiz program followed for entertainment. The guest list included approximately 65 persons.

Vera Girl and Seymour Man Are Recently Married

Announcement of the recent marriage of Miss Vera Belle Petty of Vera and Virgil Thomas of Seymour was made the first of this week.

The marriage was an event in Frederick, Okla., with Rev. U. C. Beck, pastor of the Frederick Church of Christ performing the ceremony.

The bride is well known in Vera, where she was reared and attended school. Mr. Thomas has resided in Seymour for some time. The couple are at home in Seymour.

Picnic Enjoyed at City Park On Last Sunday

Several families enjoyed a picnic last Sunday, held at the city park.

Those present were: Mr. and Mrs. Will Moore and family, Mr. and Mrs. Jim Proffitt and family, Mr. and Mrs. Kelton Kemp, Mrs. Claud Hill and children, Mr. and Mrs. Lewis Wallace and family, Mr. and Mrs. M. A. Davis, Mr. and Mrs. A. M. Searcey and family, Betty Simpson and Gwendolyn Yarbrough.

The Knew Klub Meets Tuesday In Holder Home

Members of the Knew Klub were entertained last Tuesday night in the home of Mr. and Mrs. D. E. Holder, Jr. Bridge was played with Mr. and Mrs. L. M. Palmer receiving high score.

At the close of the games, a dessert plate was served to Mr. and Mrs. Palmer, Mr. and Mrs. Paul Pendleton, Mr. and Mrs. Gene Harrell, Mr. and Mrs. Fred Broach, Jr., Mr. and Mrs. Rupert Williams and the host and hostess.

Pioneer Circle Meets Thursday With Mrs. Wilson

Mrs. Bertie Wilson entertained ladies of the Pioneer Circle in her home on Thursday, June 5. The meeting opened at 2 p.m.

Refreshments of cake and iced tea were served. The next meeting will be with Mrs. Edith Russell on Thursday, June 29, at 2 p.m.

Betty Crocker KITCHEN CLINIC

Prepared for Your Newspaper by Betty Crocker Home Service Department

COOKIES FOR SOLDIER BOYS

"They like fruit cookies best" the soldier's sister explained when she was telling me about the hundreds and hundreds of cookies she'd packed and sent to her brother at camp.

Wrap Crisp Cookies Separately

The only way you can hope to get crisp cookies through unbroken, she maintained, is to wrap each cookie separately in waxed paper. Lay a row of wrapped cookies as close together as possible on the bottom of the box. Cover with a card board or piece of waxed paper. Lay another layer of the wrapped cookies on that. Pack the box full... if there is a space between the top of the box and the top layer of cookies, fill it in with crushed wrapping paper... so that the cookies will be so tightly packed in that they cannot be bounced about and broken.

Softer Fruit Cookies Easiest to Pack

The softer fruit cookies that the boys liked best were easiest to pack. They didn't need to be wrapped separately. Just put the waxed paper between the layers. And pack them tight, of course. Sometimes she used tin boxes... or any good stout pasteboard box would do.

These fruit filled cookies with a variety of fillings seemed the most popular with her brother and his friends.

FILLED COOKIES

1/2 cup shortening (part butter for flavor) 1/4 tsp. soda
1 cup sugar 1/4 tsp. salt
2 eggs 2 tsp. thick sour cream or sweet cream
2 1/2 cups sifted all-purpose flour 1 tsp. vanilla
Cream shortening, add the sugar gradually and cream well. Blend in the well-beaten eggs. Sift together the flour, soda and salt and add to the creamed mixture alternately with the cream. Blend in the vanilla. Chill thoroughly.

Roll As Thin As Possible

Roll as thin as possible, cut in 3-inch rounds with cookie cutter. Place a teaspoonful of filling (cooled) on each round. Fold over like a turnover, pressing the edges together.

Place on a heavy lightly greased baking sheet and bake 10 to 12 minutes in a moderately hot oven, 400° F. This recipe makes about 4 dozen cookies.

A VARIETY OF FILLINGS

(Each recipe makes enough filling for 4 dozen cookies)
RAISIN, FIG AND DATE FILLING: Put through a food chopper 1/2 cup each of raisins, figs, dates. Cut them fine if you haven't a food chopper. Add 1/2 cup sugar, the juice of half a lemon, and 1/2 cup water. Cook until thick. Cool thoroughly.

PINEAPPLE FILLING: Blend 1/2 cup sugar, 3 tsp. flour, 1 cup crushed pineapple (well drained), 3 tsp. lemon juice, 2 tsp. butter, 1/4 tsp. nutmeg and 1/2 cup pineapple juice. Cook slowly, stirring constantly, until sauce thickens. Cool thoroughly.

PRUNE FILLING: Remove pits from 1 1/2 cups cooked, slightly sweetened prunes. Mash with fork until smooth. Add a few drops of lemon juice and a dash of cinnamon. Cool thoroughly.

Most Artistic

Singing her way to recognition, Miss Virginia Halbedel of San Antonio won the Leman Award at Texas State College for Women commencement exercises June 2. Presented annually by Dr. L. H. Hubbard, president of the college, the award goes to the student in each graduating class who has made the outstanding artistic contribution to the college during her four years in school. Miss Halbedel won distinction as a singer and composer.

Methodist Choir Enjoys Social On Tuesday Night

Members of the Methodist choir enjoyed a social last Tuesday evening at the church. Hostesses were Mrs. M. F. Billingsley, Mrs. Oscar Spann and Miss Merle Dingus.

Following a short devotional, led by Mrs. Spann, and a business session, the choir members practiced several songs, after which they went to the basement where refreshments were served.

Present were Mr. and Mrs. W. R. Moore, Mr. and Mrs. M. F. Billingsley, Mr. and Mrs. E. W. Harrell, Mr. and Mrs. Walter Phillips, Mr. and Mrs. J. A. Caughran, Mr. and Mrs. Aaron Edgar, Mmes. Ellen Bounds, A. H. Mitchell, Oscar Spann, Erin McGraw and Worth Gafford; Sherman Hill, Lee Haymes and Misses Merle Dingus, Ruth Baker, Flora Alice Haymes, Evelyn McGraw, Louise Gafford and Margaret Jean Womble.

Mystic Weavers Sewing Club Has Meeting Wednesday

Members of the Mystic Weavers Sewing Club held their regular meeting on Wednesday afternoon at three o'clock at the home of Mrs. John Ed Jones.

After guests had spent some time at sewing and visiting, the hostess served a refreshment plate to Mmes. H. B. Douglas, J. C. Borden, Chan Hughes, Riley B. Harrell, Wallace Reid and Aaron Edgar, members; Mrs. Fred S. Broach, Sr., and Mrs. Leland Hannah, guests.

Mrs. Helen von Bauman left last week for Dallas where she has accepted employment.

WASHBURN NEWS

Mrs. C. N. SMITH, Correspondent

Mrs. J. A. Hill, who underwent a major operation in the Knox county hospital recently, was brought home last Saturday.

Mr. and Mrs. W. H. Moore and family of Merkel visited relatives and friends here last week end.

Virginia Nell Yates visited her sister, Mrs. Melvin Cooksey of Goree, last week.

Mr. and Mrs. Cline Peterson and son of Hamlin were week end guests of Mr. and Mrs. Otis Simpson.

Mr. and Mrs. L. A. Searcey and children visited Mr. and Mrs. Delmar Hill of Sunset Sunday.

Mr. and Mrs. C. H. Gulley visited relatives in this community Sunday.

Peggy Cooksey of Goree, spent Friday night with Mary Jeanette Smith.

C. N. Smith was a business visitor in Weinert Monday afternoon.

Mr. and Mrs. Claude Hill of Sunset visited relatives in this community Sunday afternoon.

Mr. and Mrs. Mann Broach and Mr. and Mrs. J. R. King were in Wichita Falls Saturday on business.

Miss Anna Belle Simpson visited friends in Munday last week end.

Mr. and Mrs. C. N. Smith were in Wichita Falls on business last Wednesday.

DRAFT BOARD NEWS

Calling upon all registrants in Texas to investigate possibilities of having remediable physical defects corrected prior to local board examinations, General J. Watt Page, State Selective Service Director, today suggested that they seek the aid of their personal physician and dentists in improving their general health.

General Page's suggestions followed his receipt of a communication from National Headquarters advising that the Selective Service System is seeking to reduce the percentages of men rejected by local board examiners on physical grounds through an extensive program of rehabilitation.

"Many of the men rejected by local boards," General Page said, "are turned down because of defects which clearly are remediable. If registrants will consult their personal physicians and dentists before they are examined by local board physicians they will have an opportunity to learn of their disabilities and have them corrected."

Even though registrants are convinced that they will not be called by local boards for an indefinite period, correction of ailments through rehabilitation will go a long way toward improving their own lives and bettering the general health of the state.

Personal physicians and dentists should be consulted by registrants, he advised, because they are in an excellent position to recommend the proper course of treatment and to advise the men where they should go for medical or dental care.

"It is not only a question of improving one's physical condition

\$11,000,000 Bomber Parts Factory Is 9th Major Ford Defense Project

DEARBORN, Mich.—With plans under way for an \$11,000,000 bomber parts plant, the Ford Motor Company now is engaged in nine major projects in behalf of the national defense program.

Mobilization of the vast Ford productive and experimental facilities represents one of the greatest single contributions being made to defense by American industry.

Henry Ford declared recently that "the Ford Motor Company is ready and eager to do everything within its power to help America and the President in this emergency. The entire Ford organization is working with one main purpose, and that is to do its utmost to speed the defense preparations of this country."

The principal Ford defense projects to date include:

1 An \$11,000,000 bomber parts plant east of Ypsilanti for mass production of wings, fuselages, noses, stabilizers, etc., for long-range Consolidated bombers.

2 A \$21,000,000 airplane engine plant completed in April which will go into production on an initial order of 4,236 Pratt & Whitney airplane engines.

3 Plans for production of huge tricycle-type landing gears for bombing planes.

4 An aircraft apprentice school equipped to train 2,000 students at a time to provide skilled airplane workers.

5 \$800,000 magnesium alloy foundry now producing lightweight castings for the aircraft industry.

6 A complete United States Navy service school at the Rouge plant to train navy recruits in mechanical and other trades.

7 Production of 1,500 pygmy four-wheel-drive reconnaissance and command cars for the U. S. Army.

8 Experimental plans for mass production of 1,500-horsepower airplane engines of original design.

9 Training women volunteers for active work in the Red Cross Motor Corps.

so that there will be a greater certainty of passing the local board and Army physical tests," General Page declared. "Every man in Texas will better his own living and contribute a real service to the public health if he will take definite measures to have his disabilities corrected."

More than 5 per cent cottonseed meal in hens' rations will make the yolk of the eggs mottled after they have been in storage several months. The whites may turn very slightly pink from too much cotton seed meal.

Mr. and Mrs. Arthur Cundy and children of Gas City, Kan., were recent guests in the homes of Mr. and Mrs. E. R. Hobert and Mr. and Mrs. L. W. Hobert.

Chemists in the U. S. Department of Agriculture have been experimenting with the use of peanut flour in delicious cookies, bread and pound cakes.

The United States produces more than 160,000,000 pounds of honey a year and from five to eight million pounds of beeswax.

E. L. COVEY,
Co. Chairman, U.S.O.

Mrs. Dorse Rogers and son, Bill, returned home Thursday after several days visit with relatives in Lawton, Okla. Mr. Rogers met them in Wehita Falls.

He Smiles (but Never Talks) at His Job

ROYAL OAK, Mich.—One of the nation's most unusual machine shops is the Oakland Machine Works, founded by a deaf mute and manned entirely by deaf mutes. Henry Ford helped them get started eight years ago and buys automobile parts from them. Chief Inspector Otto Buby is shown at a balancing machine checking on water pump pulleys stacked high near the instrument.

Defense Bond Sales in Texas At High Figure

Austin, Tex.—When asked about the sales volume of Defense Bonds and Stamps in Texas in May, State Administrator Frank Scofield said: "While no complete figures are available at this time covering the part sold in Texas of the Nation's total of some \$441,000,000, I am sure that our volume is well in excess of the national average. The reports being received daily from our County Chairmen indicate that a great many individual Texans are buying bonds and stamps. This is exactly what the Treasury Department desires in that it gives the greatest number of people an individual investment in the future of America."

This savings program has been designed especially to fit the pocketbook of everyone. The E bonds have been designed for the smaller investors, while the G series is more adapted to those institutions and investors who can invest up to \$50,000 a year, and want a regular cash income from their investment. The Defense Savings Staff would like to emphasize in this connection the importance of buying stamps. Certainly this type of investment appeals to even the small wage earner who wants to have a part in helping his country defend itself. Thousands of Texans are now buying stamps regularly, and thousands in addition are starting this practice daily. Why cannot every man, woman and child in Texas participate in this program, even though your part might seem comparatively small? The total investment of many buyers of stamps can make planes and ships available to our armed forces, and each purchaser will be doing his or her part.

E. L. Covey of Benjamin was here last Saturday, working in the interests of the U. S. O. drive in Knox county. Mr. Covey believed at that time that Knox county would have no trouble in raising her quota of \$250 for this cause.

C. E. Binnion of Sweetwater came in Sunday for a few day visit with his daughter, Mrs. Don Ferris, and Mr. Ferris.

Mr. and Mrs. A. W. Hunter and baby daughter, Sandra Kay, of Fort Worth visited Mr. Hunter's parents, Mr. and Mrs. G. L. Hunter, here last week end.

Weekly Health

Issued by Dr. Geo. W. Cox,
M.D., State Health Officer
of Texas

Austin, Texas—"A marked saving in human lives and improved health conditions may be obtained in large measure by an educational program for the control of the mosquito," suggests Dr. Geo. W. Cox, State Health Officer.

"Malaria is transmitted to humans," he said, "by the bite of the Anopheles mosquito. This mosquito acquires the malaria parasites by biting a person who has these parasites in his blood. She (it is the female who transmits this disease) then bites a well person. The parasites enter the blood, grow and multiply there. Poisons are formed and carried in the blood stream to all parts of the body. The person bitten by the carrier mosquito begins to shiver with chills, burn with fever and to have a headache.

"Prevention of malaria should start with the protection of humans from the bite of the infected mosquito and continue through to the elimination of the mosquito.

"The protection of humans may be accomplished by screening all houses to prevent the entrance of mosquitoes. A 16-inch mesh wire screen should be placed over all openings. Be sure that all chimneys, cracks and other openings are covered.

"The malaria mosquito breeds in still water and the pools and grassy edges of running water, as well as in many places where water is allowed to collect or stand. The female mosquito then lays her eggs on the surface of the water where they float, and in a few days turn into 'wiggly-tails.' These live in the water and in time turn into mosquitoes. These changes must take place in the water and require twelve to fourteen days in summer to complete the cycle.

"In order to prevent the malaria mosquito from breeding, destroy their shelters by removing all the brush and weeds; and drain or otherwise control their breeding places in water by spraying the surface with oil or putting top-feeding minnows in waters where oil or drainage cannot be used. Such a campaign will be waged around all military areas in Texas."

FOR SALE—Used International combine at a bargain. Munday Hardware and Furniture Co. 117

FIRST BAPTIST CHURCH

Next Sunday is Father's Day. Five Sundays ago we observed Mother's Day. We are happy to have these special days when we can honor our fathers and mothers for their love and sacrifices. We like to tell them how much we appreciate them. Everyone should go to church somewhere next Sunday. Especially do we urge the men. God created men first, made him head of the race, head of the home. Most always He has called out men when there were great tasks ahead. We are looking for men for this hour in which we live now. Mrs. Harrell's Department is giving a short program between the Sunday School and the preaching hour, which will be of interest to all.

Next Monday morning, at 8:00 o'clock our Vacation Bible School begins. Much interest is being manifested. There have been several meetings this week of different departmental workers. Friday afternoon of this week all of the workers are meeting at the church from 3 to 5, and all the boys and girls who are interested are asked to meet at 4. We are expecting all of our Sunday School pupils, and all others who will come are welcome.

W. H. ALBERTSON

Youths Wanted For U.S. Marines

Although the U.S. Marines are offering young men an opportunity to enlist in the Marine Corps Reserve for the duration of the national emergency only, the larger percentage of them are enlisting in the regular Marine Corps for a period of four years, Major J. D. O'Leary, recruiting chief of the Dallas recruiting district, stated today. Since the lowering of the minimum age limit from 18 to 17 years, last month, many young men of 17 have taken advantage of this

opportunity to enlist in the Marines. However, Major O'Leary pointed out, while many more would like to enlist, their parents will not sign their consent papers, which is required for men who have not reached their 21st birthday. This is understandable, the Major said, but it is still a fact that young fellows make the best soldiers. The parents of all young men who are interested in the Marine Corps are particularly invited to visit their nearest recruiting station and let the recruiting officer explain the many advantages offered.

An unlimited number of vacancies still exist for enlistment. Marine Corps recruiting stations in the Dallas district are located in Dallas, Abilene, Fort Worth, Tyler and Waco, Texas.

ATTEND GRADUATION AT A. AND M. COLLEGE

Mr. and Mrs. H. A. Pendleton spent the latter part of last week at College Station, where they attended the graduation exercises of A. and M. College and the final review given by the cadet corps. Their son, Hal Pendleton, received his degree in the exercises.

Misses Dorothy and Martha Clements of Brownwood spent several days here last week visiting their sister, Mrs. J. C. Harpham. Mrs. Harpham returned home with them Thursday and will visit relatives there for some two weeks.

TEXAS OUT-OF-DOORS

Ducks Show Some Gain
 Austin, Texas.—While estimates of the U.S. Fish and Wildlife Service, as reported to the executive secretary of the Texas Game, Fish and Oyster Commission show there are approximately 70,000,000 ducks on a continental North America, a gain of 5,000,000 over last year, it is not likely that there will be any liberalizing of the restrictions on shooting next fall, it is believed in the Game Department office.

Dr. Ira N. Gabrielson, chief of the U.S. Fish and Wildlife Service, points out there has been a leveling off of the steady increase in ducks since the federal government placed fairly strict regulations on hunting several years ago. In 1935 there were only 35,000,000 ducks on the continent.

This leveling off, according to Dr. Gabrielson, indicates that present regulations came perilously close to resulting in a complete harvest of last year's crop of ducks. That may be a surprise to hunters in many sections of the United States which had poor shooting weather during last season, as was the case in much of Texas during most of the season.

Too, Dr. Gabrielson points out, there are nearly twice as many hunters in the field now than there were in 1934, when 635,000 federal duck stamps were sold. There were 1,200,000 sold last year.

While regulations may not be liberalized the future for ducks appears bright. Large gains were made by such species of gadwall, black duck, baldpate, green-winged and blue-winged teal, shoveler, scaup and blue and white-fronted, Canada and cackling geese. However the Fish and Wildlife Service is concerned over the redheads and ring-necked ducks. They have decreased in number.

Javelina Invades Town
 A large javelina bear caused considerable commotion, but paid with his life for daring to invade Sonora, Texas, recently, according to word received by the Game Department office. The javelina strolled into a yard in Sonora and cornered the dogs and just about every thing else in sight. The lady of the house, threatened by the big boar when she attempted to go into the yard, called a neighbor, who shot the javelina.

Invasion of "civilization" by javelinas is very rare, but one was found on the streets of Houston about a year ago. However, it was eventually discovered that that peccary had been a pet which had escaped from its pen.

Finally Cost Law Violator
 The Texas Game Department had rather have hunters and fishermen observe the laws than collect fines from them, but occasionally it is necessary to "crack down" on a nimrod or an angler. Such was the case recently in East Texas. A game warden was finally able to arrest a known game hog who was already under an injunction. The result was that he was fined \$50 for killing a doe deer, \$25 for not having a hunting license, \$10 for trespassing and \$100 for violating his injunction. Costs brought the total to more than \$300 in all.

White Wings In "North" Again
 White wing doves formerly ranged no farther north in any numbers than Duval county, and they still concentrate in the Rio Grande Valley area. However, those excellent game birds are again reported as far north as Bandera county. A considerable number are nesting in the vicinity of Medina Lake.

Each year, more and more of the brush which white wings use for cover is being cut off Southwest Texas land and the birds are more hard put to find suitable areas in which to nest. This is believed to be the reason for the moves northward. Plans are being studied by the Game Department to help save the nesting and feeding grounds of the white wings in the Valley.

"Pals" During Emergency
 Denizens of the wild such as owls, raccoons and opossums do not generally seek each others company, but a member of each of those species were rather palmy recently! William Davis of Houston reports that he saw a log floating down a stream during a recent heavy flood, and riding side by side were a hoot owl, a raccoon and an opossum.

Don't forget to take a boy or a girl fishing with you next time you go.

LEAVE FOR VACATION
 Mr. and Mrs. D. E. Holder, Sr., and Mr. and Mrs. S. E. McStay left last Sunday for Galveston and other points along the coast where they are spending their vacation.

Mr. and Mrs. B. E. Jernigan of Vera were visitors in town last Sunday.

Miss Spear, superintendent of the Knox county hospital in Knox City, was a visitor in the city last Sunday.

Another Naval Aviation Class For Hensley

Commander A. Laverents, Senior Member, Naval Aviation Cadet Selection Board, 524 Allen Building Dallas Texas, announced this morning that he had issued orders for another class of 31 aviation students to report to the Naval Reserve Air Base at Hensley Field in Dallas, Texas, on June 16th. This is the third class to assemble at this new Navy Aviation School.

Commander Laverents pointed out that since the Navy Aviation students are being ordered in classes the first and third Monday of each month, there is very little delay between the time the candidate qualifies and when he is ordered to duty. This delay in the past has been as much as several months, whereas now it is but a few days in most cases. Recent modification of the educational requirements which now eliminates the mathematical subjects and a reduction in the minimum height requirements from 5 feet 6 inches to 5 feet 4 inches, has greatly stimulated enlistments in this one branch of the service.

Good Land Use Benefits Farmers And Townspeople

Bulletin No. 597, Texas Agricultural Experiment Station, discusses the relationships of land use to erosion and sedimentation. The feasibility of controlling the water flow and silt transportation by a systematic treatment of watershed lands is suggested and the benefits to be derived are indicated. The bulletin is just off the press and is available for distribution. It is the result of a study of the Trinity River Basin and will serve as a good guide for land owners in the other water sheds where conditions are very similar to those on the Trinity watershed.

The rates of reservoir sedimentation have been excessively increased by unsoiled land use. Soil loss from upland fields not only reduces soil productivity, lowers land values and reduces farm income, but its deposition in reservoirs greatly increases the cost of water storage.

The total annual damage caused by the siltation in all the reservoirs in the Trinity River Basin without upland erosion control was found to be approximately \$165,000 a year. It is estimated that \$90,000 or more than one-half the damage, could be prevented if approved erosion control practices were applied to approximately two thirds of the total land area of the reservoir watersheds.

Soil erosion causes not only the siltation of reservoirs with resultant loss of storage capacity and destruction of reservoir values, but pollution from soil erosion brings with it an added burden of water treatment for industrial or domestic uses. This represents, in the aggregate, serious economic loss to the public. Both of these erosion damages can be reduced greatly by the application of known methods of erosion control on reservoir watersheds. For example, it has been found that the Kaufman Lake is silting at the rate of 6.6 acre-feet per year. On the basis of data available from soil and water conservation experiments, it is estimated that at least one-half of this siltation damage could be prevented if the Soil Conservation program were applied to as much as 90 per cent of the watershed area. As a result, the life of this lake would be increased from 34 to 78 years, or doubled.

It is apparent from this study that substantial benefits may be expected from an erosion control program in reservoir watersheds by both farmers and townspeople. For example, the annual farm benefits of a complete erosion control program in the watershed of the Kaufman Lake are estimated at \$810 and the benefits of the town

at \$425, a total of 1,235. The total initial cost of a complete erosion control program for the Kaufman Lake watershed, including increases in annual maintenance, is estimated at \$5,000. The combined benefits of farm and town benefits of \$1,235 would amortize the \$5,000 at 6 per cent interest in five years. This looks like a good investment for both farmers and the townspeople.

LETTERS FROM THE PEOPLE

DYING DEMOCRACY
 To The Times:
 On Page 1 of The Dallas News on June 2 the headline says, "Pope Defends Rights of the Individual Against Too Extensive Interference of Government." On the same page another headline says, "Wheat Men are Strong for Quota." Evidently the wheat men did not hear the Pope, or else hearing they paid him no heed.

The AAA, the Wagner labor relations act, the wages and hour law and social security are separately and collectively the negation of individualism.

The historian of the future may say that in the period beginning with 1933 two strong men gained control of two great peoples and destroyed individualism in both the Old World and the New World.

This same historian will record that democracy died with individualism, for democracy and individualism are Siamese twins. They were born together in the frontiers of the New World and are so closely connected that they must necessarily die together.

ROSS BATES, GOREE, TEXAS.

LOCALS

Peter Loran of Rhineland was a business visitor in Wichita Falls last Monday.

Mr. and Mrs. Arthur Lawson and daughter, Sue, and Miss Mary Ellen Bateman visited relatives in Stamford last Sunday.

Dr. and Mrs. T. P. Frizzell of Knox City were visitors here last Sunday afternoon.

Bobby Lawson, son of Mr. and Mrs. Arthur Lawson, left last Friday for Dallas, where he is visiting relatives this week.

Mr. and Mrs. G. L. Green and daughter, Helen, of Clarendon spent the week end here visiting in the home of Mr. and Mrs. Robert Green.

Radio's Most Unique Studios Texas Product

G. B. DEALEY.

Attention of the radio world is focused upon Dallas and Texas by the announcement of G. B. Dealey, Dallas publisher, that the new studios for WFAA and KGKO, most unique and unusual radio facilities in the United States will be officially opened Monday, June 23. The studios are in a penthouse atop the Santa Fe Building, Dallas, and present the most revolutionary acoustical development known to radio and sound engineering. Mr. Dealey is chairman of the board of A. H. Belo Corporation, publishers of The Dallas Morning News and owners of Texas radio stations WFAA and KGKO. The opening of the new studios will be celebrated by a national radiobroadcast Saturday, June 21, to be participated in by radio "big wigs" and famous stars of radio, screen and stage. The studios are Texas produced.

O. Simpson Hikes With Marines On Regimental Test

San Diego, Calif.—During a test of the physical stamina of troops on a practice march over the trails of California, Private Otis D. Simpson of Munday, Texas, took part in the 180-mile hike made by the Eighth Regiment of U.S. Marines.

The object of the march was to acquaint the Marines with the conditions they would be required to meet under campaign conditions, and every phase of a mass movement of troops was worked out in detail.

Marches of from 15 to 18 miles a day were made for a 12-day period, while armored cars screened the front and flank of troops to prevent an imaginary enemy force from interrupting the planned schedule. Airplanes, circling overhead, followed the ground troops.

Signal companies kept the regiment in touch with the armored cars and airplanes, while combat engineers repaired and maintained bridges and roads. They also prepared camp sites and provided a water supply for overnight stops, the Marines using "pup" tents for shelter.

Approximately 2,000 officers and men of the Eighth covered most of the route, including a number of lake districts, as well as mountainous regions, in what proved to be a highly successful field maneuver which gave ample proof of the physical fitness of the men.

Mr. and Mrs. Carl Mahan and daughters visited with Mrs. Mahan's mother, Mrs. E. M. Wilson, the latter part of last week. Their daughters remained here several days while Mr. and Mrs. Mahan were attending to business matters on the plains.

Mr. and Mrs. Tom Haney and children, Jimmie Lee and Laverne, visited with Mr. Haney's parents, Mr. and Mrs. G. W. Haney and with other friends here last Sunday. Laverne remained here for several days visit with her grandparents.

R. E. Humphries, who is in the air corps at San Angelo, visited friends here over the week end.

Dan Billingsley, who is in training in the air corps at San Angelo visited his parents, Mr. and Mrs. M. F. Billingsley over the week end.

Farm Ownership Loans Available To Knox Farmers

Long-term, low-interest loans with which tenants, farmers may buy farms of their choice are once again being made by the Farm Security Administration. Applicants are being received at the Farm Security office located in the second floor of the county courthouse at Seymour, Texas, or Mr. M. T. Chamberlain, County Clerk, Benjamin, Texas.

Tenant farmers, share-croppers and farm laborers are eligible for these loans, although preference is given to families which have an adequate supply of livestock and equipment. Both white and Negro farmers may receive these loans.

Farmers choose the farms they hope to buy and are not restricted to those which are fully improved. The loan may include funds to repair or build the home, barn and for other improvements. Only the family-size farms may be bought, however.

These loans bear three per cent interest and are repayable over a 40-year period. Often payments amount to no more than the farmer would have paid as rent. An added feature is the variable payment plan, under which payments are larger in good years and smaller in poor ones.

Applications are being received at the Farm Security Administration office in anticipation of funds being made available for this purpose by Congress.

New Edition Of Texas Almanac Off The Press

A book of 576 pages, the Texas Almanac for 1941-42, just off the press, is the largest volume in the long history of this biennial publication of the Dallas Morning News. A number of new features are included in addition to the usual chapters and statistical tables on such topics as agriculture, industry, population, history, soil and water resources, weather, minerals, manufacturing, transportation, wholesaling and retailing, government, education and civic affairs.

Has Texas really had more than six flags? How has the relationship of rural and urban population changed since 1930? When were the tapir, sabre-toothed tiger and the camel found in Texas? Who was governor in 1893? What facilities has MacKenzie State Park at Lubbock? Who won the Dixie Series in 1931? What are the total retail sales of Brady, Texas? These are typical of the wide variety of questions that can be answered from the pages of the new book.

New census figures on population, manufacturing, agriculture, wholesale and retail trade and service businesses are included. The historical chapter has been supplemented by a number of supplementary topics, including a long list of Texas historical landmarks. There are especially complete chapters on highways and parks in anticipation of increased tourist patronage and trade in Texas during the next two years; the usual large folded maps, showing railroads and highways, respectively have been brought up to date, and there is an individual map of each of the 254 counties of Texas accompanying the county articles. New developments in Texas, including the defense industries, chemistry, conservation programs, changes in farm and farm tenantry, aviation, new army and navy camps and post and political activities are covered. There are more than 50,000 separate and distinct facts about Texas in this "Encyclopedia of Texas."

Runt Ledbetter is the agent for the Texas Almanac in Munday.

27 HOPEFULS SEEK SENATE SEAT

Twenty-seven candidates will go before an estimated 750,000 voters on June 28th when a successor is picked for the late Morris Sheppard in the United States Senate.

The complete list of candidates is as follows:

- W. Lee O'Daniel, Fort Worth, Governor of Texas.
- Gerald C. Mann, Dallas, Attorney General.
- Lyndon B. Johnson, Johnson City, Congressman.
- Martin Dies, Orange, Congressman.
- Joseph C. Bean, Bay City, kin to Judge Roy Bean of Pecos fame.
- Sam Morris, Del Rio, "The Voice of Temperance."
- Politte Elvins, Pharr, Republican.
- John C. Williams, Rockport, Annapolis graduate.
- Guy B. Fisher, San Augustine, "the original Roosevelt bolter."
- Arlon B. "Cyclone" Davis, Dallas.
- Edwin Waller, III, San Marcos.
- O. F. Heath, Sr., Dallas.
- Robert G. Head, Fort Worth.
- A. E. Harding, Fort Worth.
- Commodore Basil Muse Hatfield, Fort Worth.
- W. E. Gilliland, Dallas.
- W. W. "Cap" King, Bronson, former legislator.
- Bubba Hicks, Houston merchant.
- Homer Brooks, Houston, Communist leader.
- Starr G. Newsome, Jr., Gilmer farmer.
- W. R. Jones, San Antonio laundryman.
- E. A. Calvin, Houston tax league official.
- Walter A. Schulz, Burton school teacher.
- Charles LaVerge Somerville, Dallas.
- Joe Thompson, Waco insurance agent.
- W. C. Welch, Fort Arthur chiropractor.
- Floyd E. Ryan, Houston.—The State Observer.

Mrs. Erna Mae Lee of Wichita Falls and her son, Billy Arthur Lee, a student in N. T. A. C. at Arlington, spent the week end with relatives in Munday.

Johnson 'Land Yacht' Will Carry Laboratory And Crew Through Brazil's Carnauba Forests

Engineered For Research Work, It Provides Home For Three.

"SOMETHING new, something different" is a mild description of an automobile or bus designed by Brooks Stevens for Herbert F. Johnson, Jr., president of S. C. Johnson & Son, Inc., manufacturers of wax and polish at Racine, Wis.

Designed for research work in the Carnauba palm forests of Brazil, it is equipped with a complete laboratory which is to be used for research with raw waxes and other materials used in the manufacture of finished wax products.

The strange vehicle accommodates more than a full laboratory. It has sleeping quarters for a crew of three, an oil furnace, hot water, shower bath, complete kitchen and remote control radio. It also is air conditioned.

More than 25 feet in length, it is streamlined like a modern airplane, is of all-metal tubular construction, weighs 6,500 pounds and is equipped with Timken roller bearings to provide trouble-free action in all vital moving parts. It is capable of speeds up to 100 miles an hour.

When test runs have been completed the "land yacht" will be shipped to South America for the research work in Brazil.

LABORATORY AND HOTEL ON WHEELS describes this "land yacht" designed for S. C. Johnson & Son, Inc., by Brooks Stevens. Above are H. F. Johnson, Jr., the owner, and Mr. Stevens, the designer. Below is a cross section of the portable laboratory.

War On Cotton Insects To Be Waged By Farmers And Allied Interests

The threat of the flea hopper and the boll weevil to destroy as high as 20 per cent of the current Texas cotton crop is so serious as to arouse farm leaders, oil millers, and ginners alike to action this year.

Bailey B. Ragsdale, president of the Dirt Farmers Congress, today announced that plans have been perfected to launch an offensive insect control campaign throughout Texas within the next week with the cooperation of the South Texas Cotton Oil Co., who also view the threatened curtailment of production with grave apprehension.

In outlining the proposed program, Mr. Ragsdale pointed out that no stone would be left unturned to appraise not only cotton farmers, but all allied interests of the absolute necessity for immediately waging a widespread, and thorough war upon this "enemy of the cotton industry" which has already begun to invade the cotton fields of this state in unusually large numbers due to the wet season. The active interest and support of the local bankers, vocational agriculture teachers, newspaper men, oil mills, gins and merchants will be sought to furnish all possible aid to A and M. College and the county agents who are on the front firing line in this battle with the insects.

These groups can render a great service by seeing to it that dusting equipment and materials are readily available to the farmer when he needs them; and to render all possible aid to the county agent in conducting dusting demonstrations and getting concrete, practical information on recognizing infestation and controlling it to all cotton farmers in their respective areas.

Mr. Ragsdale pledged the cooperation of organizations, affiliated in the Congress to this effort, and will seek the active support of other organizations and governmental agencies in making this insect control campaign successful in giving County Agents all possible assistance in efforts to save our cotton this year. He emphasized, "that it would be poor economy to save the few dollars insect control will cost and sacrifice from one-eighth to one-third of the potential yield," and expressed confidence that farmers throughout the Texas Cotton Belt will welcome this cooperation and cooperate fully themselves. He expects to launch the program in an address before the 3rd Annual Convention of the Farmers League at Yoakum, Texas, June 9th. From

fense industries should not be stopped from any cause whatsoever. A big majority of this Congress stands behind solidly behind the President's foreign policy and his defense program. We have gladly voted him every power requested and have appropriated to date more than \$40,000,000,000 for defense. But insofar as strikes go the administration has not sought further legislation, contending rather that existing powers were sufficient. Wherever the responsibility lies, on Congress or on the administration, it is time for action. Mr. Roosevelt is a great man who may well live in history as a great human benefactor. However, tragic history reveals that most great men are destroyed by some small weakness. Woodrow Wilson was destroyed because of his inability to deal with politicians. Is Franklin Roosevelt to be destroyed because of his inability to deal with labor? Is labor to be the Achilles heel of the Roosevelt Administration?

Labor And The Defense Program

(Speech made by Ed Gossett, House of Representatives, Friday, June 6, 1941.)

MR. GOSSETT: Mr. President, for the sake of all that America stands for, we have been calling upon this country for a 100 per cent economic effort to avoid war if possible, and in the event of war to avoid defeat. More than a year has passed since the President called for an all-out defense effort. The results to date have been puny in comparison with our possibilities. Last September an emergency was declared, this day a state of unlimited emergency was declared. Yet today we find the strike situation worse than ever before. Vital airplane factories and vital shipyards are closed. No one denies labor the right to strike under certain circumstances and when wage and working conditions are unfair and unreasonable. But today de-

Lamoine Blacklock, son of Mr. and Mrs. B. L. Blacklock, left last week for Vernon, where he has accepted a position with the Wm. Cameron and Co. lumber yard. He succeeds his brother, Winston Blacklock, to this position.

Mr. and Mrs. W. E. Braly visited relatives and friends in Mineral Wells over the week end.

Texas Newsmen Meet This Week In Galveston

Galveston, Texas. The convention city of Galveston will play host June 12, 13, and 14 to newsmen from throughout the state when the annual meeting of the Texas Press Association, Charles K. Devall of Kilgore, president, is held here.

Entertainment will be plentiful, according to Sam Harben of Richardson, secretary, and Louis C. Elbert, former association president, who is in charge of local arrangements, Jack McDermott of Lufkin, program chairman, has arranged a nationally-known list of speakers to head the regular program sessions.

Inspector Lee R. Pennington of the federal bureau of investigation in Washington, will start the three days of well-known speakers on Thursday morning when he talks on "Preparedness and the F. B. I." During the Thursday luncheon James E. Crown of the New Orleans States, who was instrumental in exposing the Louisiana scandal several years ago, will give "Reminiscences of a Newspaper Man."

Thursday afternoon will find another outstanding speaker on the program, when Maj. Gen. Paul B. Malone addresses the group. Maj. Gen. Malone is now a retired officer in San Francisco, Cal., but was once stationed at San Antonio as commanding officer of the Eighth Corps.

Three men in the news today will appear before the newsmen Friday.

Bob Considine, sports writer of New York City will talk on "Sports in the News," during the morning session. He will be followed by a review of "Hollywood," given by fast-talking and fiery Jimmie Fidler of Los Angeles.

Gen. Hugh S. Johnson, who has gained national publicity for his NRA work, will speak during the luncheon Friday at noon. Gen. Johnson has, during the past few years, been writing numerous articles for newspapers and magazines as well as a daily syndicated column.

Again Friday night, the visiting newsmen will hear another of the highlight speeches, Maj. Robert Henry of Washington, D. C., vice president of the American association of Railroaders will address the group during the banquet.

The concluding speech Saturday morning will be given by John W. Barnollar, who is with the bureau of advertising of the American Newspaper Publishers Association in New York City. Mr. Barnollar will speak on "National Advertising."

The convention will be held in the famous Buccaneer Hotel on Seawall Boulevard in Galveston. The largest attendance ever to be present at one of the meetings is expected, Mr. Harben said.

On the entertainment side, in addition to the two luncheons and banquet, boat rides will be given as well as a party for women who attend. Mr. McDermott is also planning an old-fashioned beach party.

Galveston is preparing for the event, Mr. Harben said, and the oleanders, for which the city is famous, are in full bloom.

Champion Truck Driver Selected

Austin—The Texas Motor Transportation Association selected Texas' safest truck and bus driver at its Seventh Annual Convention held in Dallas recently. John Odum with a record of 1,450,000 miles during fourteen years of driving without an accident was selected as Texas' safest truck driver. Mr. Odum is employed by the Red Bull Motor Freight Lines. Earl F. Hardin, who has been driving for the Painter Bus Line in Uvalde for fourteen years qualified as Texas' safest bus driver, with a record of 1,592,240 miles without an accident.

Jimmy Brodnax of Houston, employed by Central Freight Lines, was selected as Texas' champion truck driver for the second year. He will represent the state of Texas at the national contest to be held in Madison Square Garden in New York in October.

A trophy was presented to Mr. Odum, safest truck driver, by the Nabors Trailer Co. The award presented to Mr. Hardin, safest bus driver, was furnished through the courtesy of the Motor Carriers Insurance Agency.

Texas Motor Transportation Association officers elected at the convention were: Ed Spriess, Fort Worth, President; A. E. Cullip, Lufkin, Vice-President; H. E. Longish, Dallas, Treasurer; L. B. Brown, the retiring president, will serve as ex-officio member of the Board.

Mrs. T. L. Stall and little daughter of Abilene were here over the week end for a visit with Mrs. Stall's father, W. H. Atkinson, and with other relatives.

"Here's What I Expect An Advertisement To Tell Me"

"Where Can I Buy It? Naturally, one of the first things I want to know about something I see in an ad is—where can I buy it? It isn't simply a matter of convenience and of saving time in planning my shopping, either! No, the name of the merchant, itself, often decides whether I buy or not. Invariably, you see, I give preference to stores whose ads I see regularly and often—I know these stores must have good value or they couldn't go on advertising year after year!

"What Will It Do For Me? I find it so much easier to make up my mind when the ad tells me facts about the merchandise! What is it? What will it do? How will it help me? Why do I need it? I want to know about color, weight, texture, material, style—I enjoy reading those things and I usually buy from the merchant who tells them to me.

"How Much Is The Price? Of course nearly every ad mentions the price, but if an item has been marked down I want to know from how much. So many sale ads say 'Was Higher'... how much higher? I want to know how much I am saving and I want the chance of deciding for myself if the item is a real value or not. I have more confidence in the store that is consistently truthful and buy from such a store regularly—and my husband says an old customer is worth three new ones because new ones cost money to get!"

READ THE ADS IN THE MUNDAY TIMES—ALL OF THEM HELP YOU TO WISE SPENDING—MOST OF THEM HELP YOU TO MAKE WISE SAVINGS, TOO!

It's Easy

It's easy to shop when you can go where you know they've got what you need! That's why we carry a complete stock of every-day needs for the farm and home... because you'll know we've got them for you.

Whatever you may need in the way of garden and farming tools, farm implements, farming machinery and supplies, you'll find them at Guinn's.

KNOX CITY, TEXAS

Negro Rodeo To Be Held At Spur Round-up

A new pre-feature of the Spur Round-Up Association will be a Negro rodeo Thursday night, June 13. The Negro Citizens Council will be in charge of this event, which will consist of wild cow milking, calf roping on foot, and possibly bronc riding, with other events. This will be the final program of the Emancipation Day events. Kelley E. Bolden, secretary of the organization, says there will be 1,500 Negroes in Spur that night. The events will be in the rodeo arena and will start at eight o'clock. There will be more laughs at these events than any other on the program.

and Saturday night, June 20-21, a short memorial service will be conducted in memory of those early settlers who have passed to the Great Round-Up. A cow pony and an empty saddle will be presented and an impressive ceremony will be carried out each evening.

There will be two performances each day, one at two o'clock in the afternoon and one at eight o'clock in the evening. A grand entry will precede each performance, and \$100 in cash will be given away each day in addition to the arena prizes of \$1,500.00.

Candidates for U.S. Senate will speak downtown each morning in behalf of their candidacy. Attorney General Gerald C. Mann will speak at ten o'clock Friday morning, June 20. No speaking will be at the rodeo grounds. There is a full program and people will enjoy a great time in Spur June 20-21.

RIGHT OUT OF THE AIR

By EARLE FERRIS

She shoots like an expert military marksman and rides as well as a cavalry officer. That's Mimi Cabanne, pictured here, the

exotic black haired songstress of Horace Heidt's "Treasure Chest" broadcasts Tuesdays over NBC.

Raymond Gram Swing, the well-known commentator, doesn't believe there's any such thing as "inside sources" available to a foreign affairs prognosticator. He claims things abroad happen too rapidly to be able to base an opinion on letters from Europe and Asia, which take three weeks to arrive.

Who introduces the new dance tunes for the bands of America to hear? Lyn Murray, noted CBS

maestro, pictured here, does. His Sunday night program over CBS, "Meet the Music," presents the tunes so all the band leaders can hear them—and start playing the ones they like.

Mary Livingstone's recent four-week stay in Palm Springs with Jack Benny developed a touch of "reverse English." Most people go to Palm Springs to rest up and recover from colds. Mary, however, arrived quite healthy and returned

with a bad head cold which she's had ever since.

Eddie Cantor, favorite by letter survey of the air raid shelter radio fans, made a second broadcast to England on April 10, under the auspices of the British-American Ambulance Corps on their "Friendship Bridge" short wave series.

Haunting are the high notes Vivien, pictured here, offers on Phil Spector's "Hour of Charm"

program Sundays over NBC. Every program is high spotted by a solo offered by this young singer, who is also popular with theater audiences.

Margit Hegedus, first violinist in Felix Mills' "Silver Theatre" orchestra, traces her ancestry to the wandering minstrels of Rumania; which accounts for the authentic—and haunting—Gypsy airs she lures from her fiddle.

Lou Costello, of Abbott and Costello, shown here, is now feuding regularly with Charlie McCarthy

on his Sunday night program. This is reminiscent of the W. C. Fields' difficulties with Bergen's piece of pine.

Bombers Take Eighth Victory Last Sunday

Needmore Team Loses 10-0 to Rhineland

On a wind-swept field at Needmore last Sunday, the Rhineland Bombers extended their winning streak to 8—without once tasting the bitterness of defeat—by blanking Needmore 10 to 0.

Decker and Thomas, sharing the mound duties, as usual turned in a brilliant pitching performance, limiting the futilely-swinging Needmore lads, who have yet to tally a run off Rhineland flinging, to only two safeties. Hodges, the losing hurler, in a vain attempt to stem the tide of defeat also performed creditably on the mound, which however, proved inadequate, nevertheless was superior to any pitching the loopleaders have faced this season. Of paramount importance to the winners was the robust hitting of Rhein Kuehler and Clem Wilde who collected 5 resounding wallops between them.

Before what is expected to be the largest crowd of the season, Rhineland meets Munday, the foremost contender for the title, at Rhineland next Sunday, in the feature contest of the day.

Because of the importance of this contest a real battle will result. The Bombers will be striving to clinch first-half honors, while Munday will be in there grasping for their sole remaining opportunity to gain the top position. Although Don L. Ratliff has yet to reach his unbeatable stride of last year, he is a serious threat each time he steps on the mound. A keen although friendly rivalry which exists between the two clubs will further enhance the contest. It is also rumored that this game will decide the fate of the league which is on the verge of collapse due to the supremacy of the Rhineland team. So it is generally felt that unless Munday wins, the league can not survive. In order not to interfere with the procedure of the District Convention of the C. Y. O.,

County Supt. Merick McGaughey of Benjamin was a business visitor here last Tuesday.

Rev. T. M. Johnston of Stamford, district superintendent of Methodist churches, was visiting friends here one day last week.

Mr. and Mrs. Paul Pendleton spent the latter part of last week at College Station, attending the graduation exercises at A. and M. College.

S. F. Smith and daughter, Opal, of Plainview and Otto Smith of Stamford, were visitors here last Wednesday.

which will be held at Rhineland next Sunday, the game is scheduled to commence promptly at 2:00. The box score:

Colored Vacation Bible School Is Closed On Sunday

A vacation Bible school for colored children was opened in Munday on May 2, with an enrollment of sixteen.

Mrs. Luther Kirk and Mrs. D. E. Holder conducted the school, with Aline Johnson as president. Taking part in the school were Mrs. Bessie Warren, Mrs. Fannie Johnson, Mrs. Ora Lee Cherry, Mrs. Katie Washington, Mrs. Helen Sheron.

Marron Offord, Fannie Mae Thomas, Simon Cusel, and Alta Fae Richardson were awarded New Testaments for regular attendance. The school closed on Sunday, June 8. Ice cream and cake were served on the closing dates.

Payne Shannon, a student in N. T.A.C. at Arlington, came in last Thursday to spend the summer months with his parents, Mr. and Mrs. J. S. Shannon of the Sunset community.

Cattle Prices Fully Steady At Auction Sale

The Munday livestock auction sale reports a good run of cattle and hogs for last Tuesday's sale. Cattle prices were fully steady, with some classes selling higher than a week ago.

Top hogs sold from \$9.40 to \$9.50; lights and heavies, \$8.75 to \$9.25; sows, \$8.25 to \$8.50, and stocker shoats, \$7.50 to \$8.

Some of the prices paid for cattle were: Beef bulls, \$6.50 to \$7.25; butcher bulls, \$6 to \$6.50; beef cows, \$6.75 to \$7.50; canners and cutters, \$3.75 to \$5.25; fat yearlings, \$8.75 to \$10; butcher yearlings, \$7.50 to \$8.50; fat calves, \$9 to \$10.50; butcher calves, \$7.25 to \$8.75; rannies, \$6 to \$7.

One load of light stocker calves sold for \$33.25 per head.

Some of the buyers here for Tuesday's sale were Ebner Packing Co. and John Ruddy, Wichita Falls; Jordan and Tucker, Vernon; J. H. Bell, Fort Worth; J. M. Bradberry, Roy Tankersley, Tankersley Bros. and C. H. Keck Market, Knox City; J. C. Goodson, Stamford; Lloyd Hendrix, Goree; Sam Bird and P. F. Weinert, Weimert; J. O. Cure, Gilliland; Barrie Welch, Claud Farr and J. C. Hodges, Seymour; M. C. Josselet and C. E. Turnbow, Haskell; L. Price, Seymour and C. R. Elliott, Munday.

Luther Lytle and daughter, Vonnie Dell, of Peaster, Texas, visited in the home of Mr. Lytle's sister, Mrs. G. L. Hunter, last week end.
