

KNOX COUNTY DEFENSE BOARD ORGANIZED

"Trades Day" Is Being Discussed

Committee to Work On Proposed Plan

A general discussion of inaugurating another trades day plan for Munday was taken up Wednesday at the regular meeting of the Munday Chamber of Commerce. All members present expressed the belief that the weekly trades day has been beneficial to the town and community in the past and stated they believed a plan should be worked out.

C. R. Elliott will appoint a committee this week to work out the plan and present it to the merchants of Munday. In all likelihood the trades day will be started early in September.

As committees made their reports, it was announced that surveys had been made regarding draining flood waters out of the town, and it is possible that something definite will be worked out in the near future.

Following the general discussion of business, Mr. Elliott called on County Agent R. O. Dunkle, who gave an interesting report of his work in the county and the part that agriculture is being called on to play in the national defense industry. Dunkle gave some interesting figures on the amount of foodstuff that has been shipped to England since the Lease-Lend act was passed by Congress.

County Judge J. C. Patterson and August Schumacher were also guests, and Judge Patterson made an interesting talk. Twenty members were present for the meeting.

Travis Jones Moves Into New Location

Travis Jones, owner of the Travis Jones Appliance Co., this week moved his place of business into the building formerly occupied by Coates Cafe. The building has been re-finished and repainted on the inside, which makes it more attractive in appearance.

In citing his reasons for moving, customers when they were in town would be more accessible to his Mr. Jones said this new place shopping for other merchandise, and that he can arrange more attractive displays of merchandise than in his old location. All of the butane plants and appliances which he has been handling will be displayed in the new place.

Travis invites the public to visit his new location and see this merchandise in the new and attractive quarters.

Grady Weaver has accepted a position with the Travis Jones firm.

Four Students Of County Get Tech Degrees

Four Knox county people who have been attending Texas Tech at Lubbock during the summer session received their degrees at the graduation exercises last Friday night.

Summer commencement exercises were held for 259 graduates, which brings the total number of Tech graduates for the year to 666.

Exercises were held at the administration building. President J. A. Hill of West Texas State Teachers College at Canyon, delivered the commencement address. Degrees were issued to the following from Knox county:

Robert L. Sams, Benjamin, B. S. in petroleum engineering; Abe Mulkey Whittis, Knox City, masters in education; George William Dingus Munday, B. S. in mechanical engineering; Paul B. Stengel, Rhineland, B. B. A. in business administration.

Mrs. Cherry Moore of Goree is a patient in the Haskell county hospital at Haskell.

Lamoine Blacklock of Vernon visited his parents, Mr. and Mrs. B. L. Blacklock over the week end.

Goree Schools To Open Monday

Brief Program to Be Given on Monday At 9 o'Clock

The 1941-42 term of the Goree Public Schools will open next Monday morning, September 1, at nine o'clock, it was announced Wednesday by H. D. Arnold, superintendent.

A brief opening program will be given at this hour, and the entire public is cordially invited to be present for this opening program. Following the program, students will be assigned to their various class rooms and lesson assignments will be made, Mr. Arnold stated.

A good enrollment is expected for opening day, and the school faculty and patrons are looking forward to a successful school year.

Mrs. J. J. Roberts Buried at Goree Last Saturday

Mrs. J. J. Roberts, a member of a pioneer family of Knox county, died at her home in Goree last Friday evening at eight o'clock.

Mrs. Roberts had been in poor health for a number of years. She and Mr. Roberts are pioneer residents of Goree having reared their family there and educated them in the Goree schools.

Mrs. Roberts was well known and beloved by many Knox county people.

Besides her husband, she is survived by three sons and two daughters, who are: E. E. Roberts of Memphis, N. W. Roberts of Goree, Mrs. W. A. Moore, Goree; Mrs. J. B. Lawson, Weinert and D. M. Roberts, Goree. She is also survived by a sister, Mrs. Lee West of Wichita Falls, who with her husband was present for the funeral.

Funeral services were held at three o'clock last Saturday afternoon from the First Methodist church in Goree. Burial was in the Goree cemetery.

1.70 Inches Of Rain Received

With skies still overcast and rain falling at 9:30 Thursday morning, farmers are worried about how they are to control the cotton leaf worms with continued wet weather. Many farmers in this area report a new crop of worms, and plans are made to continue poisoning them, although fields are too wet to get into with poisoning machinery.

Munday has received 1.70 inches of rain since last Thursday, according to H.P. Hill, U.S. weather observer.

This brings the year's total to 36.37, almost a record rainfall for this section.

Crop prospects were never brighter in Knox county, and if the cotton insects can be controlled a record cotton crop will be gathered in the county.

Revival Meeting To Start in Munday

A revival meeting will start at the Church of Christ in the grove on Friday night, September 5th, it was announced Monday. The meeting will continue for two weeks.

Evangelist Rex Bernard of Yukon, Oklahoma, will do the preaching. He is a well known evangelist, and large crowds are expected to hear his inspirational sermons.

A cordial invitation is extended to everyone to attend this meeting. Services will start at 8:15 Friday night, September 5.

Dove Season To Open on Monday

Hunters of this section who have been awaiting announcement of open season on doves may take to the field next Monday in search of their prey. Federal regulations announced last week, set the open season on these birds for this section of Texas as September 1 to October 12. Following regulations were announced for Texas:

In Yoakum, Terry, Lynn, Garza, Kent, Stonewall, Haskell, Throckmorton, Young, Jack, Wise, Denton, Collin, and Hunt counties and all counties north thereof and in Parker, Tarrant, Dallas, Rockwall, Kaufman, Johnson, Hopkins, Delta, Franklin and Ellis counties September 1 to October 12; in the remainder of the state, September 16 to October 27.

On white winged doves the open season is September 16 to September 25.

As in recent years, hunters must plug repeating and automatic shotguns to a limit of three shells and must not use guns larger than 10-gauge.

The season on doves was reduced, because, Secretary of the Interior Ickes said, the number of these birds were found "decidedly unsatisfactory." Whereas the season in some areas ran as long as 77 days, this year's season was reduced to a maximum of 42 days.

Half of Cotton Stamps Issued

Farmers Exchanging Stamps for Goods

County Agent R. O. Dunkle, in town Wednesday, stated that about half of the cotton stamps allotted to Knox county farmers have been issued at the county agent's office.

"This means that better than \$15,000 in cotton stamps are now in circulation in the county," he said, "and the remainder will be issued just as rapidly as the farmers call for them."

Dunkle stated this county is receiving more money in cotton stamps than was figured last week. He estimated that between thirty and thirty-five thousand dollars would come to Knox county farmers in the stamps.

Merchants of the county have reported a good business during the past week as farmers are exchanging the cotton stamps for cotton goods. Some 16 retail stores in the county have qualified to handle the stamps, it was stated.

Munday Library News Notes

The Munday public library will be open Tuesday September 2, as Monday is a holiday.

Some 20 books on the free list have been out from two to six months. These books are supposed to be kept out only one week without renewing them. The library committee requests that they be returned by September 15, and no fines will be assessed against the borrowers if they are returned by that time.

At least one-half the books on now on the rental list will be placed on the free list on September 2, the committee said. A large number of best sellers are now available to patrons of the library.

FOR DEFENSE

BUY UNITED STATES SAVINGS BONDS AND STAMPS

Featured At Cafe Esplanade

Orrin Tucker, America's ace orchestra leader, and Wee Bonnie Baker will be the featured attraction at the Cafe Esplanade at the 1941 State Fair of Texas. The Cafe Esplanade will be operated by George T. Smith of Fort Worth, who has operated Lake Worth Casino for the past several years. The Cafe Esplanade will occupy a space of 200 feet by 185 feet in the west end of the Automobile Building and will face the Esplanade.

Extensive improvements will begin shortly after Labor Day, Mr. Smith has announced.

Rev. Willett To Preach at Local Church Sunday

Rev. T. C. Willett, pastor of the First Methodist church at Seymour, will preach at the Munday Methodist church next Sunday morning at the eleven o'clock hour.

Rev. Willett is a former pastor of the Munday church, and many Munday citizens will welcome his return to Munday for the day. Rev. Luther Kirk, pastor, urges the church membership to give him a good hearing.

Rev. Kirk is in a revival meeting at Hart, Texas, north of Plainview, this week. He will close the meeting next Sunday night and will return to his own pastorate.

Revival at Union Chapel Under Way

Rev. D. A. Ross and Chas. W. Sargent are conducting a revival meeting at the Union Chapel Methodist church this week, it was announced Monday.

A cordial invitation is extended to everyone to attend the services. "Why not make it your business to attend—more especially if you are not a Christian," the ministers exhorted.

The meeting will close on Sunday night.

Texas Employment Service to Locate Office in Munday

An office of the Texas Employment Service will be located in Munday this fall, according to an announcement made here Wednesday.

The purpose of this service will be to help farmers secure labor for tending their crops, and to help the unemployed find employment. Although no definite date has been set for opening the office here, announcement has been made by the state headquarters that it will be opened as soon as needed.

Farmers who have begun to worry about a shortage of labor this fall will find this office of much benefit to them, and the Chamber of Commerce has pledged itself to give farmers of this vicinity every aid possible in securing labor.

Paul A. Jones Completes Basic Flying Course

Gardner Field, Taft, California—Paul A. Jones, 22, of Goree, Texas, is one of approximately 47 young men who have completed almost two-thirds of their flight training, and will report shortly to one of the advanced schools for the final ten-week period of training.

Jones reported at Gardner Field on June 2, following completion of the ten-week primary course at the Ryan School of Aeronautics at Hemet, California, one of the Air Corps' Civilian elementary flying schools. With the completion of the basic flying work at Gardner Field, he will be sent to one of the advanced schools for a ten-week period of advanced training.

Prior to his acceptance as a flying cadet in March, Jones, son of Mr. and Mrs. E. A. Jones of Goree, Texas, attended Goree High School, and Texas Technological College, Lubbock, Texas. He participated in football, baseball, basketball and golf while in school, and was a member of the Kemas Fraternity.

On completion of the basic, or second course, at Gardner Field, Jones and his class will go to one of the advanced schools, maybe at Stockton, Calif., for the advanced course. The completion of this course will lead to a commission as a second lieutenant in the Air Corps Reserve, and his wings as a full fledged Air Corps pilot. He will then be assigned with one of the Air Corps Units for tactical instruction and training.

Goree Pioneer Dies Suddenly On Wednesday

H. M. Wright, pioneer of Goree, died suddenly at his Goree home on Wednesday, August 20. Mr. Wright died in his sleep.

Mr. Wright was well known over a large section of the country, being among the earliest settlers in this section. His passing is mourned by family and friends. Mr. Wright was past 81 years of age.

Mr. and Mrs. Wright reared their children in Goree, and all were educated in the Goree school. Eight children survive. They are: Joe Wright, Hollywood, Calif.; Reese Wright, and Morgan Wright, Los Angeles, Calif.; Mrs. Paul Ford and Mrs. Roy Wallace, El Cajon, Calif.; Mrs. Henry Wetzel, Amarillo; Mrs. Ruby Hammons and Bill Wright, Goree. He is also survived by 20 grandchildren and three great grandchildren.

Funeral services were held on Thursday afternoon from the Baptist church in Goree, conducted by Rev. S. E. Stevenson. He was laid to rest in the Goree cemetery beside his wife and youngest son.

Stamford P.C.A. Ass'n Now Has 162 Members

The Munday office of the Stamford Production Credit Association has a total membership of 162, it was announced Tuesday by C. R. Elliott, local manager.

Loans for the local office this week reached the \$200,000 mark, Elliott stated.

A statement of condition of the association at the close of business July 31, 1941, shows loans outstanding in the amount of \$1,194,519.57 for the Stamford association. The association has accumulated earnings of \$47,020.10, the statement shows.

RETURN HOME FROM INTERESTING TRIP

Mr. and Mrs. Ralph Weeks, Mr. and Mrs. Raymond Hargrove and son, Ralph, and Mrs. Emma Hill returned last Wednesday from an extended trip that carried them through a number of states where they saw many interesting sights. The trip included Chattanooga, Tenn., a visit to Rock City on top of Lookout Mountain and several points in North Georgia. All reported a most enjoyable time.

Representatives of the various agricultural agencies operating in Knox county met at the court house in Benjamin last Friday morning for the purpose of organizing a county defense board. The purpose of this board, as explained by Mr. Wickard, will be to coordinate the many activities of the Department of agriculture and to make the greatest use of resources of the country.

"Since agriculture is being called upon to increase production in pork, dairy, and poultry products and various kinds of vegetables, it is an important thing to have an adequate farm labor supply," August Schumacher, chairman of the Knox county board, explained.

The Knox county defense board, designed along the lines similar to the Texas U.S.D.A. defense board, is composed of the following:

Chairman, August Schumacher, chairman of the county AAA committee; vice chairman, R. O. Dunkle, county agent; secretary, Manuel W. Ayers, vocational agriculture teacher at Munday; and the following members: Marvin Allen, secretary Knox county A.C.A.; C. R. Elliott, with the Stamford P.C.A., at Munday; Richard Townsend, with the U.S. Forest Service at Quanah; Mrs. Neva Van Zandt, home demonstration agent; L. A. Parker, Benjamin; H. A. Patterson, Vera; Frank Cerveny, Munday and Hugh Eubank, Truscott.

"Through a questionnaire which has been sent to all chairmen of the county defense boards in Texas, the state AAA office, College Station, is submitting to Secretary of Agriculture, Claude R. Wickard, a report showing the increased progress made in Texas in the production of pork, dairy products and poultry products, and in the production of tomatoes and beans for canning," Mr. Schumacher said.

In assuring Knox county farmers of a labor supply adequate for the production of essential farm goods, the director of selective service has asked all local draft boards to give special consideration to deferment of men needed in agricultural production. In addition the W. P. A. is making a special effort to supply demand for labor.

"Agriculture is not asking treatment that is not warranted," Mr. Schumacher said, "but it is in the national interest that cases affecting production of basic products be studied carefully. The selective service board has recognized this already and a substantial proportion of the occupational deferments have been made for agriculture."

Seymour Man Is Suicide Victim

Lem Bellows of Seymour, one of the most widely known men in West Texas, was a victim of suicide in Seymour last Wednesday morning at 7:30 o'clock.

Mr. Bellows shot himself with a shotgun at his place of business. He was manager of the Musser Lumber Co. in Seymour for many years. He was around 60 years of age.

Bellows lived in Munday for a short time before going to Seymour and is well known here. He has many friends in Knox county, as well as over this entire area.

A general breakdown in health was said to be the cause of Mr. Bellows taking his own life.

Funeral services were held at Seymour at two-thirty o'clock Thursday afternoon.

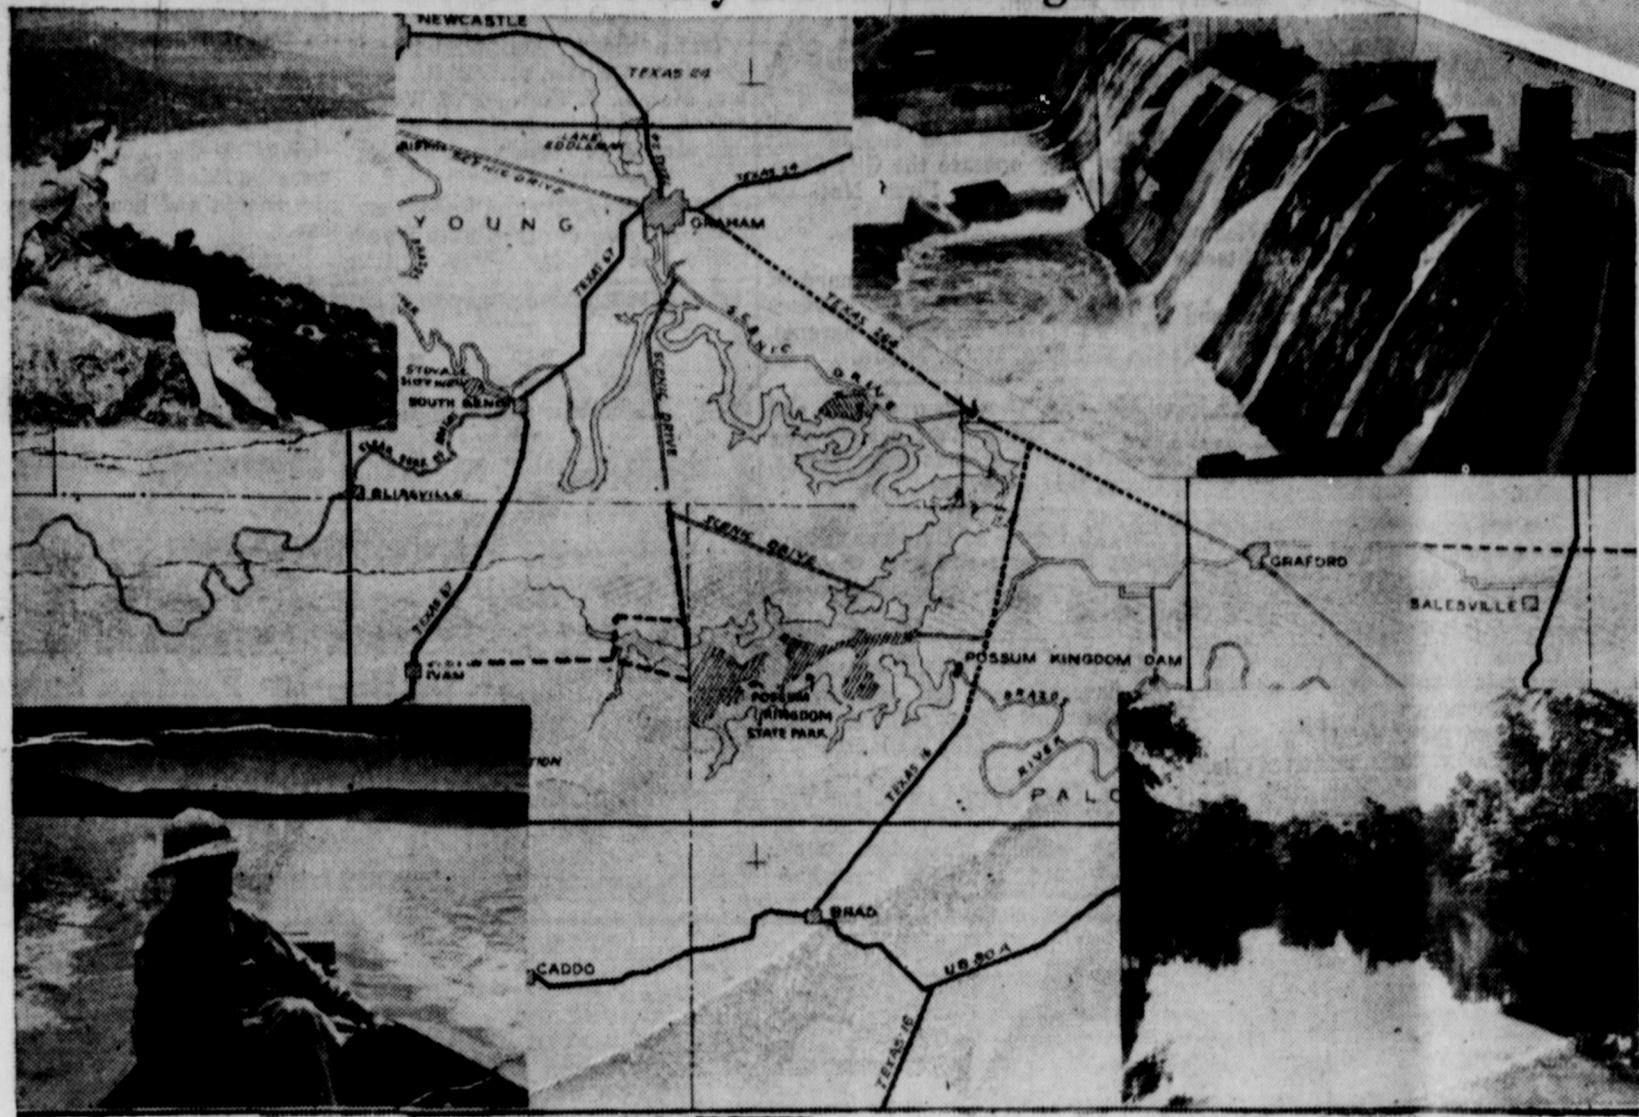

Throckmorton Fair And Rodeo Boosters Are Here Tuesday

Munday citizens were reminded that Throckmorton is going to have a fair and the annual rodeo last Tuesday morning when a group of boosters came noisily into town.

Headed by Lee Atkinson, well known rancher and civic leader, several carloads of the boosters assembled on the streets of Munday and presented a short program. Talks were made by Byrd Thorp, banker; W. C. Whitaker, county clerk and several others.

The rodeo, which is dedicated this year to the memory of Frank Rhoades, who died in the rodeo arena several weeks ago at Seymour, will be held on September 3 and 4.

Several Scenes of Beauty at Possum Kingdom Dam

Photos by Glenn Burgess

Upper left taken from Johnson Peak in the eastern section of the State Park showing the rugged hills and the lake beneath. Upper right is the 3,000-foot concrete dam with water pouring

over the top. The lake filled in six weeks when scheduled to take three years. Lower Left: No more scenic boat rides may be had than along the mountainous shorelines or back

into the limestone canyons of numerous inlets. Lower right: Cedar Creek filled with lake water. Four major creeks empty into the lake and where the lake waters become shallow

will be the ideal fishing spots for bass, channel cat, perch, crappie and other Texas fish. (Map prepared by Brazos River Conservation & Reclamation District.)

Weekly Health LETTER

Issued by Dr. Geo. W. Cox, M.D., State Health Officer of Texas

Austin, Tex.—Dr. Geo. W. Cox, State Health Officer, calls attention to the fact that fair grounds that have been lying idle during the greater part of the year are now taking on activity as they are being made ready for fall festivities. Community and county fairs may present health hazards when the standards of good sanitation are not properly maintained. Civic authorities and community leaders should give careful consideration to the following suggestions which are designed to protect the health of those who visit the fair grounds.

1. Any water supply available for drinking or culinary purposes on the fair grounds should be of a safe sanitary quality.
2. Any water unsafe for human consumption on the grounds should be either eliminated or purified by a process recommended by the

State Department of Health or should be posted with placards definitely warning against its use.

3. Inspect proof pit privies or water flush toilets with a system of sewage disposal approved by the State Department of Health should be provided and should be maintained in a clean and sanitary condition. Separate installments for men and women should be provided to adequately accommodate all persons attending or using the fair grounds.
4. Supervision and equipment sufficient to prevent littering of the grounds with rubbish, garbage or other refuse should be provided and maintained. Insect and rodent tight depositories for such materials should be provided and conspicuously located. These depositories should not be permitted to become foul smelling, unsightly or breeding places for vermin and rodents.
5. All food stuff, stored or offered for sale should be protected from contamination by suitable covers. The term "food stuffs" includes both raw and cooked foods, candy and any other food not sold in sanitary containers except food in the process of cooking.
6. Single service cups, dishes, spoons and drinking straws should

be protected from contamination. All glasses, cups, knives, forks or dishes that are subject to repeated use should be thoroughly washed after each use by cleansing with hot water and soap and then placed for three minutes in water heated to 170 degrees F. or for two minutes heated to 180 degrees Fahrenheit.

7. All drink beverages not bottled should be kept in sanitary containers from which the liquid may be removed only by sanitary faucets.

"Wise indeed are those communities that will give these minimum sanitary standards careful consideration in order to protect the health of those participating in community fairs or those who come to visit in their town," concludes Dr. Cox.

News From Goree

Mrs. Bill Robinson of Globe, Ariz., is visiting here. Mrs. Robinson celebrated her 77th birthday last Wednesday at the home of her son, Mr. and Mrs. Ernest Robinson and family. A number of old friends of early days called.

Mr. and Mrs. M. L. Barnard of Munday and Mrs. Barnard's parents, Mr. and Mrs. J. H. Bilbrey, of Goree, have returned from a vacation trip that carried them to a number of places. Mr. and Mrs. Bilbrey stopped at Greenville, where they visited relatives, and Mr. and Mrs. Barnard visited in Arkansas. They report a fine vacation.

LOCALS

Mr. and Mrs. J. C. Harpham left last Monday afternoon for Corpus Christi and plan to spend a few weeks in that section where Mr. Harpham will buy cotton.

GIN WITH US!

WE KNOW IT WILL BE TO YOUR ADVANTAGE AND WE INVITE YOU TO GIVE US A TRIAL!

Last year we ginned the first bale of cotton ginned in this territory on

August 26, 1940

It was grown by Clarence Hutchinson, who farmed northwest of town. Who will be the first one for 1941?

We have one of the most up-to-date and complete ginning plants to be found anywhere in West Texas. In keeping with the improvement program for cotton we just last year installed the new Split Gin Rib, which assures protection of the staple.

Our Lumus Thermo-Dryer Will Improve the Grade of Your Cotton and Will Protect the Staple!

WE BUY COTTON

... But if you do not wish to sell at the time you gin with us, we help you in preparing your papers for the government loan.

Our plant has been completely overhauled, and in it you will see the latest improved cotton cleaning and ginning machinery, time-tested to fit the needs of this particular section in all kinds of weather.

Mother Allen Honored Recently On Her Birthday

Children and other members of the family of Mother Allen of Gore met recently in celebration of her 94th birthday.

The following were present: Mr. and Mrs. C. R. Allen, Stamford; Mr. and Mrs. A. H. King and Miss Dexta King Throckmorton; J. E. Allen, Wichita Falls; Mrs. E. B. Crites, Paris, Texas; Mrs. E. S. Parks, Dimmitt, Texas; Mr. and Mrs. Hill Allen and Rex Allen, Goree; Mr. and Mrs. W. L. Stewart, Sweetwater; Mr. and Mrs. Springer Allen, Seymour; Mr. and Mrs. Tom Bice and daughter, Joneen, Dimmitt, Texas; Mr. and Mrs. M. B. Pollen, Paris, Texas; Mr. and Mrs. Rupert Williams, Munday.

Amigos Class Has Its Annual Picnic Aug. 19th

Members of the Amigos Sunday School class of the Baptist church held their annual picnic on Tuesday night, August 19, at the Seymour park.

Hostesses were Mrs. R. R. Stapp, Miss Myrtle Munday, Mrs. Andy Hutchinson, Miss Bessie Sue Munday, Mrs. Alvin Reid, Mrs. Arthur Lawson and Mrs. Chester Bowden.

A delicious picnic supper was enjoyed, after which a number of children's games were played. About 40 members of the class attended the picnic.

THE GIFT SHOP presents Fostoria crystal, beautiful patterns; lovely line of China and Glass Gift for showers and anniversaries. Prices to suit all purses.

Mary Ione Tidwell Honored at Party On First Birthday

A party was given Sunday in the home of Mr. and Mrs. Johnny Tidwell, honoring their daughter, Mary Ione, on her first birthday.

Pictures were taken and cake and ice cream were served to the following:

Peggy Harrison, Patsy Jo Tidwell Jimmy Lyle Bell, Wyman Tidwell, Bobby Dee Bell, Garrard Tidwell, Anita Tidwell, Gerald Tidwell and Mary Ione Tidwell.

MISS MAYME CROUCH IS VISITOR HERE

Miss Mayme Crouch, who has been attending N. T. S. T. C. at Denton, was here the first of this week visiting with her sister, Mrs. E. E. Nix and with friends in Munday. Miss Crouch, a former teacher in the Munday schools, recently received her B. S. Degree and will teach at Beaumont, Texas this year.

Mr. and Mrs. J. A. Caughran, Mr. and Mrs. J. A. Wiggins and Miss Shelly Lee attended the summer graduation exercises at N.T.S. T.C. last week. Miss Quintna Wiggins, daughter of Mr. and Mrs. Wiggins, received her B.S. degree at the exercises.

Mystic Weavers Sewing Cub Has Meeting Wednesday

Mrs. Chester Bowden entertained members of the Mystic Weavers Sewing Club in her home on Wednesday afternoon of last week. Several guests were also present.

After those present had done needle work and visited for some time, the hostess served a salad plate.

Members present were Meses. J. C. Borden, Riley B. Harrell, Deaton Green and the hostess. Guests were Meses. M. F. Billingsley, D. E. Holder, A. H. Mitchell, Leland Hannah and Oscar Spann.

Bobbie Marie Boggs Honored Tuesday at Birthday Party

On last Tuesday afternoon, Mrs. Mahlon Boggs entertained with a birthday party honoring her daughter, Bobbie Marie, on her twelfth birthday.

Games were played throughout the afternoon, and the many nice gifts were opened. Birthday cake and punch were served to the following:

Janie Spann, Eloise Gray, Margie May Coady, Geraldine Boggs, Robert Purifoy, Joseph Borden, Waymon Gene Beaver, Kenneth Harrison, Walter Phillips, the honoree, Bobbie Marie Boggs, Gerrie Maree Boggs and the hostess, Mrs. M. Boggs and Mrs. A. C. Boggs.

Polson Reunion Held at Goree Last Sunday

Friends and relatives gathered Sunday, August 24, at the home of Mr. and Mrs. J. W. Polson of Goree for a reunion.

Those enjoying the affair were Mr. and Mrs. Raymond Melton and daughter, Rama Lee, of Garner, Texas; Mr. and Mrs. Rufus Bason and Mr. and Mrs. Lloyd Patterson, Munday; Mr. and Mrs. George Weber, Tom Weber, Mrs. Kate Glasgow, Mr. and Mrs. Sid Polson and family and Mr. and Mrs. Douglas Smith and son, Gordon, Goree; and Mrs. A. G. Jones and Lester Hash of Swenson, Texas.

Family Picnic Held Last Sunday Near Jacksboro

A very pleasant day was enjoyed by Munday citizens last Sunday at Jacksboro at a family picnic. As it was rainy, the group was given the privilege of a church house for the picnic.

Present from Munday were Mr. and Mrs. A. M. Searcey and family, Mr. and Mrs. Jim Proffitt and family, Mr. and Mrs. L. A. Searcey and family. Those from Dallas were Mr. and Mrs. Clifford Womble and family, Mr. and Mrs. Gilbert Dunklin and family, Mr. and Mrs. V. C. Snider and daughter, Mr. and Mrs. Redden Parramore and family and Misses Sybil and Inez Proffitt.

Dickie Owens visited friends and relatives in Vernon over the week end.

Keep Cool

Science says the best way to keep cool in the summer is to wear a large umbrella and nothing else. But science admits that such a costume isn't practical. The next best thing is to wear cotton underwear. It helps keep you cool. Cotton has higher powers of absorbency and evaporation than any other fibre, an important characteristic in comfortable summer clothes.

WASHBURN NEWS

Mrs. C. N. SMITH, Correspondent

Mrs. Hackfield and daughter, Selma, of Knox City, visited their daughter and sister, Mrs. Mann Broach, who was ill last week.

Mr. and Mrs. Homer Rowell of Knox City visited relatives here last Sunday.

Monroe Carroll of Throckmorton visited friends here last week end.

Mr. and Mrs. J. R. King have returned home after a two weeks visit in Tulsa, Okla., with Mrs. King's parents, Mr. and Mrs. Pink Lansford. They were accompanied home by Mrs. Caz Lansford and little son, Joe Lynn.

Mr. and Mrs. George Gaines have moved to California to make their home.

Benson Broach visited his grandmother in Knox City last week.

Mildred Smith visited in the home of Sue Barton of Munday last week end.

Mrs. Sam Crawford and son, Olsson, of Stamford visited Mr. and Mrs. Otis Simpson last Friday.

William and Charles Yates, who are employed at Wichita Falls, visited home folks last week end.

Mr. and Mrs. Cleo Pearce and daughter of Sunset visited in the Yates home last Sunday afternoon.

Mrs. H. C. Claborn received a message last week informing her of the death of her sister, which occurred in a car accident near Big Spring. Mrs. Claborn and Mr. and Mrs. Jerry Nix left at once to attend the funeral.

Mr. and Mrs. Mason Harlan of near Goree visited Mr. and Mrs. J. M. Smith last Sunday afternoon.

M. C. O. Scott had as his guest his sister from Haskell recently.

Mr. and Mrs. C. N. Smith and daughters Frances and Elizabeth

visited friends and relatives at Rule last Wednesday.

Brice Dobbs, Jr., visited relatives in this community last Sunday.

Mr. and Mrs. Euell Reynolds and son Gerald of Munday visited in this community Sunday.

Mr. and Mrs. Floyd Conwell were in Benjamin on business last Tuesday afternoon.

Mr. Otis Simpson's brother, Floyd Simpson, of Lorenzo, Texas, visited him this week.

Bettie Simpson was in Wichita Falls last Sunday night, sightseeing.

Mr. and Mrs. Mann Broach and children were in Wichita Falls on business last Wednesday.

Mr. and Mrs. H. N. McClellan of Iran visited Mr. and Mrs. C. N. Smith and family last week. Mr. McClellan is a brother of Mrs. Smith.

We are sorry to report that Mollie Booe is ill at this writing.

Mr. and Mrs. Ford of Union Chapel were in this community on business last Monday.

Glenn Womble of Dallas is visiting relatives in this community at this writing.

Mr. and Mrs. O. N. Smith of Oklahoma visited relatives here last week.

Mr. and Mrs. J. K. Johnson and Mr. and Mrs. Edwin Johnson re-

turned home the latter part of last week from San Antonio, Corpus Christi and other points in the Rio Grande Valley where they spent their vacation.

Mrs. W. E. Braly and Mrs. J. A. Wiggins spent the first of this week in Dallas, attending the annual gift show and buying gift items. They operate the Gift Shop, located over the First National Bank.

Mr. and Mrs. Ralph Bernard of Austin spent the week end in Munday with Mrs. Bernard's parents, Mr. and Mrs. W. R. Moors.

Mr. and Mrs. Tom Clarke and daughter, Loma Rae, are visiting relatives and friends near Mexia, Texas, this week.

W. G. Parris of Davidson, Okla., spent the week end here with his sister, Mrs. J. A. Warren, and Mr. Warren.

Fred Warren of Lubbock visited his parents, Mr. and Mrs. J. A. Warren, and other relatives and friends here over the week end.

Mrs. Chan Hughes and her sister, Miss Jean Guess visited in Denton several days last week. They were accompanied home Fri-

day by their sisters, Miss LaVera Guess, who has been attending N. T.S.T.C., and Miss LaVerne Guess, who had been visiting Miss LaVera.

Mrs. Floyd McCutcheon and daughter, Glordia, of Wichita Falls and Mrs. L. J. Crowder of Weatherford visited in the home of Mr. and Mrs. J. C. Borden last Sunday.

Mrs. Lillie Little and Lubeth and Dorrothy Ann Perry of Fort Worth spent last Friday here visiting

with Ms. Little's sister, Mrs. Jim Reeves.

Misses Alice Dobbs and Maggie Searcey are visiting with relatives in Dallas this week.

CARD OF THANKS

We wish to express our heartfelt thanks to the many friends who were so kind and helpful during the illness and death of our loved one.

J. J. Roberts and family

How to become A SKILLED DRIVER

By RAY W. SHERMAN
Courtesy of the FORD GOOD DRIVERS LEAGUE

OPERATING THE CLUTCH

Learning to operate the clutch without jerking or jumping the car is not easy. But remember, only skilled drivers are smooth drivers. They understand the clutch and use it correctly.

Try this procedure in your driveway or on an untraveled street: Drive the car at crawl speed. In low gear and with the engine turning over slowly, you can control the speed of the moving car with your left foot on the clutch pedal. Find the spot in clutch movement where the car crawls at one mile an hour. Clutch movement at this stage will be very slight. The important thing is learning to locate the spot where the clutch goes out. This point controls movement of the car. Practice the maneuver described above. It will help you to master the clutch.

Marine Corps Service Men To Visit in Area

A representative of the U.S. Marine Corps recruiting service will visit Stamford Monday and Tuesday, September 1st and 2nd, and Seymour Wednesday and Thursday, September 3rd and 4th, to accept applicants for enlistment in the Marines.

The recruiting officer urges all young men between 17 and 31 years of age to call at the Post Office in the above mentioned places and he will be glad to answer any question concerning the Marines.

Young men of draft age, who are single, with no dependents, may enlist in the Marines for the "actual duration of the national emergency," with assurance of being discharged upon the termination of the present emergency.

The Marines are offering all young men a chance to continue their education, and the opportunity to travel. Men are free to select the type of service they desire; on land, at sea and in the air. The Marine Corps maintains bases in more than a dozen foreign countries, and in the United States on both the east and west coast. This opportunity is given to all young men of good health, excellent character and moderate education.

Parents of young men are invited to call on the recruiting officer in order that they may learn of the many advantages the Marines are offering their sons.

JOE DEAN CLOUGH VISITS PARENTS HERE

Pvt. Joe Dean Clough, who has been stationed at Scott Field, Ill., has been transferred to Duncan Field, San Antonio, Texas. Joe Dean visited his parents, Mr. and Mrs. D. D. Clough, here over the week end. Pvt. D. C. Allen, also being transferred, was his guest.

Mr. and Mrs. Dick Atkinson and daughter, Dixie, and Mrs. Atkinson's sister, Mrs. Sims of Graham, returned Wednesday from a vacation trip to points in New Mexico and Colorado. They were accompanied home by their daughter, Ann, who has been attending school in Boulder, Colo., who is visiting her parents and other relatives here this week.

Planting Of Cover Crop For Winter Urged

College Station.—Texas farmers are being urged in the name of national defense to plant more winter cover crops as a means of increasing production of needed foods for America and the embattled democracies.

Meeting in College Station on the request of Secretary of Agriculture Claude R. Wickard, the Texas USDA Defense Board studied a threatened shortage of winter legume seed and recommended increased plantings of both winter legumes and non-leguminous cover crops.

"Protection of our soil is more important than ever during the defense emergency," B. F. Vance, chairman of the board, told members representing all USDA agencies in the state. "Food is vital to our national defense, and increased production of the necessary foods to a great extent depends on increased productivity of the soil."

Winter cover crops, it was pointed out, prevent leaching and erosion of the soil and add to its fertility. Most widely-used cover crops in Texas are vetch, Austrian winterpeas, and various clovers. Non-leguminous cover crops in the state include oats, barley, rye, and sudan grass.

Texas farmers this year ordered nearly a million pounds of winter legume seed through the AAA's conservation materials program, Vance told the board, and already have received 60 per cent of their order. A delay in shipment of the rest of the order will seriously curtail the planting of winter legumes in the state and will result in serious damage to the state's soil, he declared.

It was explained to the board that most of the vetch and Austrian winterpea seed supply was produced in the northwest, but that an anticipated bumper crop of seed had failed to materialize with the result that growers were holding the seed off the market to await better prices.

LOCALS

Mrs. Ray Hill of Burkburnett spent last Sunday here visiting with Mrs. W. C. Hill and Mr. and Mrs. H. P. Hill.

Mrs. Wesley Marr and children, Jim Ed and Eula Ann, of Jacksboro visited friends here a while Tuesday. Eula Ann entered the Knox City hospital Wednesday for a tonsillectomy.

Mrs. Tug Nesbitt and baby of Dallas are here for a visit with her parents, Mr. and Mrs. Emmett Branch, and with other relatives and friends.

Mr. and Mrs. G. R. Eiland and daughter, Miss Maxine, left Tuesday for Galveston for a few days visit with their daughter and sister, Mrs. J. N. Walker, and Dr. Walker.

Mr. and Mrs. Lee Glazner and little daughter of Chillicothe visited in the home of Mr. and Mrs. Grady Roberts last Sunday. Mr. Glazner and daughter returned home Sunday, while Mrs. Glazner visited here until Thursday.

Mrs. Virgil Reynolds of Austin visited with friends in Munday the first of this week.

Mr. and Mrs. Jim Lawlis and daughters, Mignon and Ann Hardy of Brady, spent last Sunday here visiting with Mrs. Lawlis's mother, Mrs. R. A. Clemens, and with other relatives and friends.

Prepared for Your Newspaper by Betty Crocker Home Service Department

A LATE SUMMER FEAST

"August is my favorite month,"—the rather plump gentlemen from down south explained. His reasons were that so many of his favorite foods were at their best in August. Then he told us his idea of a perfect meal for this time of year. It's the sort of dinner that would appeal to any man or woman... I think... regardless of what part of the country they might call home. Here it is:

- Iced Cantaloupe
- Fried Chicken
- Peas in Cream
- Boiled or Baked Sweet Potatoes
- Hot Biscuits
- Sliced Tomato Salad
- Fresh Peach Ice Cream
- Coffee
- CORN FRITTERS
- 1 egg
- 1 cup uncooked corn (cut from the cob)
- 1/2 tsp. salt

Beat the egg and add other ingredients, mixing thoroughly. Drop by tablespoonfuls into hot frying pan in which 2 tsp. fat have been melted. Cook until golden brown on both sides. Drain on brown paper and serve hot. This will make 10 servings.

Also a Good Lunch or Supper Dish

These Corn Fritters also make a delicious supper or lunch dish served with plenty of butter and syrup.

FRESH PEACH ICE CREAM

- 1 cup milk
- 1/2 cup sugar
- 4 tsp. all-purpose flour
- 1/4 tsp. salt
- 1 1/2 cups mashed or finely cut peaches (6 medium-sized fresh peaches)
- 1/2 to 3/4 cup sugar for peaches
- 1 cup whipping cream
- 1 tsp. vanilla

Scald the milk. Mix together the sugar, flour and salt. Pour the scalded milk slowly over sugar, flour and salt mixture and cook in a double boiler over hot water for about 20 minutes (until mixture thickens slightly). Cool. Add the peaches, sweetened with the 1/2 to 3/4 cup sugar.

Add the stiffly whipped cream, folding it in. Blend thoroughly. Add the vanilla. Pour into the tray of a mechanical refrigerator and freeze until firm, stirring two or three times before the mixture is completely frozen. Or place in an ice cream freezer... using 3 parts ice to 1 part salt. Freeze. This makes 6 servings.

Safe Driving is Aid to Defense

USELESS WASTE OF GAS AND RUBBER SHOULD BE CURBED, SAYS DEALER

Every motorist can contribute a part to the nation's defense effort merely by putting into practice some of the safe and sane driving precautions which have been urged by the automotive industry for several years, according to J. E. Reeves, local Goodyear tire dealer.

"Threat of a rubber shortage has been emphasized by the placing of government restriction on its consumption, but motorists can get many more miles out of their tires and thereby help reduce waste of this valuable commodity," says Mr. Reeves.

"Moderate top speeds for long distance driving are particularly important to long tire mileage and increased safety is an additional dividend. Tires will wear out twice as quickly driven at 60 miles per hour as when driven at 35 miles per hour. If the driver accustomed to making 55 miles per hour reduces his speed to 50, he will gain 12 per cent in the mileage and will also increase his miles per gallon of gasoline.

"Next to speed, quick starts and stops take a heavy toll on rubber. A little less hurry on the takeoff at the change of the traffic light, or a more gradual stop habit, may mean more than 1,000 miles to a set of tires.

"In all of these examples, it is assumed that the tires are properly inflated. If they are not, the cost in useless waste of rubber will be much higher. Underinflation will result in uneven wear and possible destruction of the sidewalls, while the treads are still good.

"Today it's not only patriotic but plain common sense to give reasonable care to automobile tires," Mr. Reeves says.

Dave Jetton, well known Knox county resident, has accepted a position with the Banner Ice Co., in Munday. He has one of the regular ice routes out of Munday. Mr. and Mrs. Jetton are living in the J. A. Gaines house in Munday.

Mr. and Mrs. J. Dee McStay of Vernon were guests Sunday in the home of Mr. McStay's parents, Mr. and Mrs. S. E. McStay.

L. C. Cole of Paducah, game warden of this district, was a business visitor in the city last Monday.

Rhineland News

Fidelis and Daniel Loran of Stinnett, Texas, visited their parents here Sunday.

Mr. and Mrs. Leonard Albus of Pep, Texas, visited in the home of Mr. and Mrs. Ferd Fetsch recently. Catherine Homer left for the St. Scholastica Academy at Fort Smith, Arkansas, last Tuesday.

Mr. and Mrs. T. D. Jones of Wichita Falls visited Mr. and Mrs. L. C. Franklin Sunday.

John Bellinghausen and family of Nazareth, Texas, visited relatives here last week.

Mr. and Mrs. Herbert Jacobi and family of Marietta, Oklahoma, visited Mr. and Mrs. H. N. Claus last Sunday.

Mr. and Mrs. W. A. Carter and family of La Ward, Texas, are now visiting Mr. and Mrs. H. N. Claus.

U. S. O. Chairmen Meet August 30 In Hillsboro

USO CHAIRMEN

District and county chairmen of the Texas United Service Organizations have been called for a meeting in Hillsboro, August 30, by E. B. Germany, Dallas, Southwestern regional chairman embracing Arkansas, Texas, Oklahoma and Louisiana. The regional chairman has sent notices to all Texas chairmen, asking their appearance for the Saturday afternoon session.

Following the meeting, all men chairmen will be guests of Burris Jackson at a barbecue, an annual affair staged by Jackson and the Hillsboro citizens. Jackson is USO congressional chairman for District No. 6. There are 21 congressional chairmen and 238 county chairmen out of a possible 254 counties.

Congressional chairmen are being asked to be prepared to make reports upon the progress of the fund raising campaign in their particular district and plans will be made for a final drive which it is hoped will bring to immediate completion the \$400,000 quota allotted to Texas. The other states in the Southwestern region have completed their quotas weeks ago, Germany said.

Christian Science Committee Aids In Relief to Britain

Boston, Mass.—One war relief activity which has been little publicized is The Christian Science War Relief Committee, with main offices at 237 Huntington Avenue, Boston, Massachusetts. Two thousand nine hundred and ninety-nine cases—half a million garments—valued at \$489,368.23, in the nine months of the Committee's existence, is their record to date.

The work is an activity of the Mother Church, The First Church of Christ, Scientist, in Boston, and branch Christian Science churches throughout America. Only new garments or those comparable to new are accepted by the Committee. These are furnished almost entirely by members of the Christian Science organization. They are shipped to a central Christian Science committee in London, where they are allocated to different almoners in England and Scotland. The work is in the hands of members of the Christian Science denomination until the garments are distributed. They are gladly given to any person in need, regardless of denomination.

It is the purpose of the Committee in the United States to keep its depots in England supplied with an adequate supply of clothing and blankets for emergencies; so, the London committee is becoming known as a storehouse from which emergencies can be met. This was evidenced by the fact that it was crates of clothing from this Committee which first reached Coventry, and when the great fire occurred in London, the Christian Science War Relief Committee was able to meet an appeal for blankets. Fortunately, many hundreds of blankets had been shipped and had just arrived.

Not only garments made by sewing units in about thirteen hundred places throughout the United States, but thousands of new garments are purchased and sent, from a War Relief Fund generously contributed by Christian Scientists. Three motor kitchens have been sent and a motor truck or van is maintained in England for quick deliveries.

The Committee in Boston is grateful for the record of goods sent as well as for the fact that

Ginnings BY COTTON JOE

Sarah writes she's havin' cotton-covered wallboard put in her new house. Says it's cheaper in the long run, an' downright pretty too. Looks like these farm gals just ain't satisfied in the city 'til they get themselves surrounded with cotton.

HOME FROM HOSPITAL

Mrs. E. A. Hollar who recently underwent a major operation at the Knox City hospital, was brought home last Tuesday morning. An ambulance from the Mahan Funeral Home went after her. She is reported to be doing nicely.

Miss Mary Couch of Haskell visited with friends here one day last week.

Mrs. C. C. Coates of Knox City visited her son, Curtis Coates, and his family here one day last week.

Joe Bailey King left last Monday for Dallas to attend the bedside of his father, J. W. King, who underwent an operation in a Dallas hospital.

because services are so largely voluntary, its overhead expense is only 4.1 per cent. It also rejoices that less than one per cent of the goods shipped is all that has been lost by sinking.

The main depot for shipping to England is located at Boston, but shipments are also made from Portland, Oregon; New York City and Los Angeles.

FIRST BAPTIST CHURCH

We are fast coming to the close of the summer, and the busy season will soon be on us. There will be many calls to stay away from the house of the Lord on Sunday. We sing the song, God Bless America, and people everywhere are saying that we must turn back to God if we are ever to see peace come in the world. Why not begin the "turning back" here in Munday! All of us could, with great profit, make some new resolutions concerning our religious responsibilities. In the language of the little book put out by the Danforth Foundation, "I dare you."

For the best storm cellar, see Deut. 33:27; for the best crop insurance, see Chron. 7:14; for the best income guarantee, see Malachi 3:10; for the pass-word to the greatest banker, see Luke 11:9.

We had a good meeting at Lake Creek, also at Brushy. Will be happy to be at home next Sunday. Sermon subject for Sunday morning, Passing The Test.

W. H. Albertson

CARD OF THANKS

We wish to thank everyone who helped us in any way at the passing of our father. Your kind words and graciousness and the beautiful flowers will never be forgotten.

I GIVE YOU TEXAS

By Boyce House

A 10-year-old boy turned in the following essay on "Cats":

"Cats and people are funny animals. Cats have four paws but only one mother. People have forefathers but only one mother. When a cat smells a rat, he gets excited; so do people. Cats carry tails and a lot of people carry tales, also. All cats have fur coats. Some people have fur coats, and the ones that don't have fur coats say catty things about the ones who do have them." Found in the Lometa Reporter.

Some idea of the extent of the loan shark business in Texas may be gained from the fact that, in the city of Houston, alone, 30,000 families are in debt to usurers. This estimate is made by C. E. Buehner, Better Business Bureau manager, who has made a study of loan sharks. He places the number of such concerns in Houston at 250 and says the rate of interest charges, generally, from 10 per cent a month to 10 per cent a week.

Pyramiding makes it difficult for the average borrower to get free again. He borrows, let us say, \$20 for which he agrees to pay back \$25 at \$2 a week. After he has it down to \$15, (in other words, he has repaid all but \$5 for the principal itself), he is persuaded to float a new loan, obtaining \$5 in cash but signing a new note for \$20—and this process is repeated over and over, so that he is paying interest on interest.

How the borrower is kept enchained by debt is shown by a few cases reported to the Better Business Bureau. One man borrowed \$20 and paid \$3.50 a month for two years, a total of \$84—and still owed the original amount. Another borrower had the same experience except that he paid \$3.50 each month for six years, a total of \$252 on a loan of \$20, and yet he still owed the \$20.

Tam Phillips in the Santa Rosa Signal says, "Study is a wonderful thing—last week we stayed up all night figuring out what became of the sun when it went down. Finally it dawned on us."

Far West Texans will be able to see horse races soon—even if they

do have to go out of the state to do so. Like the feller who said, "I'm gonna have peace even if I have to fight for it." New Mexico sportsmen will construct a track just over the State line from El Paso. There also comes a report that the track in Juarez, just across the Rio Grande, will be re-opened.

President Roosevelt sent greetings when the Texas City Sun formally opened its beautiful new home.

"Jack Conway and Clark Gable send you their regards," writes H. N. Fisch, manager of the Justin Boot and Shoe Co. of Fort Worth, visiting in Hollywood. Conway was director of "Boom Town" and Gable was the hero. Your columnist was technical adviser.

A reader quips, "There are no seals in Sealy and no geese in Goose Creek; I wonder if there are any gals in Galveston?"

Word came:

To be read in tears, a poem must be written in tears.—(Horace, Roman poet.)

A prejudice is a vagrant opinion without a visible means of support.—(Ambrose Bierce, American journalist.)

Tilly was one of those persons who are too anxious to please to please. Gentle reader meet the duplicate infinitive.—(O. Henry, Texas short story writer.)

Mr. Ickes' threat of "gasless Sundays" has caused the Donna News-Advocate to dig up this poem of World War No. 1 days:

My Tuesdays are meatless,
My Wednesdays are wheatless,
I am getting more eatless every day.
My home it is heatless,
My bed, it is sheetless—
They're all sent to the Y.M.C.A.
The barrooms are treatless,
My coffee is sweetless,
Each day I get poorer and wiser.
My stockings are feetless,
My trousers are seatless—
Gosh, how I hate the Kaiser!

Weldon Patterson and daughter, Shirley; Mrs. John Patterson and daughter, Marilyn, and Mrs. C. E. Binnion, all of Sweetwater, came in last Friday for a visit in the home of Mr. and Mrs. Don Ferris. Mrs. Binnion remained for a longer visit.

Mrs. W. P. Farrington left last week for St. Petersburg, Florida, where she will visit with her son and daughter-in-law, Dr. and Mrs. Chas. L. Farrington. She spent a night with Dr. and Mrs. Nollie Farrington of Fort Worth en route.

ACT OF RAIDED LINER'S CAPTAIN PREVENTS MAJOR SEA DISASTER

PROMPT action by Captain W. G. Smith, of the Egyptian liner Zam Zam, shelled and sunk by a German raider in the South Atlantic, prevented one of the heaviest losses of life yet threatened in the current ocean warfare, according to Charles A. McCarthy, one of the American survivors.

McCarthy, a member of the British American Ambulance Corps, has arrived in the United States in advance of other members of his group held prisoner in France.

"We were four days from Cape-town," McCarthy says, "when in the darkness just before sunrise the raider attacked us. Without warning, shells fell about the ship. Passengers awakened by the explosions were running about below and on the decks. Then the shells began crashing into the ZamZam, racking her from stem to stern.

"Captain Smith tried to work the Morse blinker but a shell had cut the cable. He ordered the Egyptian flag unfurled. He also swung the liner broadside to show that she had stopped, and directed that lifeboats be put over the side. But the shells kept coming. A German gunner told us later that fifty-five were fired. Nine of them hit the ZamZam.

"Still under shellfire, Captain Smith sent a crew member below for a flashlight that he had bought in New York. Standing in the wreckage of the bridge, the skipper signaled in Morse code, 'Egyptian ship!'

Charles A. McCarthy

"The sharp beam of the flashlight, which had been loaded with fresh batteries, was seen and at once the firing ceased."

Crew members and 330 passengers, some badly wounded, were transferred to the raider. Jammed below decks, the survivors floated about the Atlantic for thirty-three days before being landed on the coast of France. Twenty-one other members of McCarthy's ambulance group have now been released.

Senior Report

The Seniors have elected their class officers. They are as follows: Albert Brown, president; Theresia Andrae, vice president; T. J. Hoffman, secretary. In addition to electing our officers we have organized a class club. As yet, we do not have a name for it. The chief aim of the club will be to teach parliamentary law.

Is It True That . . .

Roselia and Joe J. believe in the good neighbor policy.
Rose is lonesome for someone out West. (Pep is far away, isn't it, Rose?)
The Juniors like Geometry. Isn't the way we have been hearing it!
Everett is a walking Algebra book.
Miss McGraw enjoys teaching the Seniors English. (We often wonder.)
Theresia looks forward to Sunday nights.
Urban wishes Geometry class would never end.

Junior Report

The end of the third week finds the Juniors well on their way in their literary journey.
We are not doing so well in Geometry. We don't seem to get the "hang" of things. Calvin still is in the dark as far as Geometry is concerned.
History is interesting for it is about the growth of our nation. Our ancestors surely were men of much nerve.
We are making good progress in typing. Most of us seem to know the keyboard. We do not make as many mistakes as we made in the beginning. We appreciate our new typewriter.

We Wonder Why—

Bernardine was so sleepy Monday morning. How come, up too late?
Calvin doesn't get his Geometry. Too much brain work?
Theresia doesn't like Geometry. Urban was absent Monday.
The girls like typing.

Sophomore Report

Do you know your flies? Dr. T. U. Harwood has calculated that the progeny of one female fly that began laying eggs in April might reach the number of 5,598,720,000 flies in September. That would make about 143,000 bushels of flies to one female.

In controlling flies there are two general lines of attack: (1) destruction of flies and (2) prevention of breeding by elimination of places where they can breed. All foods at home or at markets should be protected from flies. Meat, bakery products, and candy can be kept under glass and fruit can be covered with mosquito netting.

Freshman Report

Soon our third week of school will be over. Everyone likes to go school, but sometimes our afternoons are rather hot.

We have performed many experiments in the last two weeks. The class is always anxious to see what will happen in the end.

Our class had several meetings in English last week. We wrote compositions one day and the next day read them before the class. The class judged these to see who had the best one. In the first meeting, Herbert S. won first prize. In the second meeting Alvin B. won first prize. We are going to keep a notebook of all the prize-winning papers. The boys said they will have all the prize-winning

papers. Don't talk too soon, boys.

We Wonder Why . . .
Everyone enjoyed the watermelon, Friday.
John had such good drawings. Madelene is so industrious. Charles is so silly.

Marvin wanted to go out in the hall Friday and Miss McGraw told him to sit down.

News of Room III

Another week of school has gone into history and it must be admitted that the eighth grade has made progress during that week.

Our germinators in agriculture have proved successful. Nearly everything we planted sprouted.

We have chosen sides in spelling. We are going to have a spelling match. We hope the girls will win.

We have another new pupil, Lee Roy Decker. He came to school last Monday. Lee Roy, we hope you will like our school.

Report Room IV

Half of the summer session has passed and we have been studying hard. In Health we made our first posters. Our teacher seems to think they are good for the first try.

We are striving to improve our English and we find that correcting one another helps.

The Pupils of Room IV

Betty Lou's favorite subject is Arithmetic.

John Ed never uses the word "ain't."
Donald always has his lessons. Eddie finds it hard to stay awake during reading class.

Herman, those were good watermelons you brought to school. Herbert likes rainy weather.

Sue, that's a pretty blue carpet under your desk.
Marion made a wigwam for the teacher.

Maxine likes reading.
Adelaide likes to hear the dinner bell ring.

Mr. and Mrs. Aaron Edgar visited in the home of County Agent and Mrs. R. O. Dankle of Benjamin last Sunday afternoon.

Mr. and Mrs. Carl Mahan and daughters of Abilene visited with Mrs. Mahan's mother, Mrs. E. M. Wilson, over the week end.

M. and Mrs. Joe Kennedy of Hamilton, Texas, and Jess Kennedy of Haskell were recent visitors here in the home of their sister, Mrs. Eva Belrose.

Ginnings BY COTTON JOE

Used to be, a girl wore cotton stockings was called "sensible," but since these new cotton lisle hose came into style the word is "smart".

Mrs. Karl Harbin and daughter, Lynda of Dalhart, spent Thursday and Friday here visiting in the home of Dr. and Mrs. D. C. Eiland.

C. H. Harrell, Ruth and Troy Harrell and Billy and Margaret Womble returned home Monday from a week end trip to Austin. They were accompanied home by Mrs. C. H. Harrell, who has been visiting relatives and friends in Austin for some time.

Mr. and Mrs. L. L. Womble and sons, Joe, Layne and Charles, and Mrs. A. E. Womble returned home Monday from a week end trip to Moreland, Oklahoma, where they visited Mr. Womble's brother, J. E. Womble, and Mrs. Womble.

Miss Elizabeth Mounce and Mrs. Joe B. King were visitors in Haskell last Sunday afternoon.

Mr. and Mrs. Don Ferris and Mrs. A. E. Womble returned home Monday from a week end trip to Seymour last Sunday evening.

Bill Dingus, who received his degree from Texas Tech last Friday, came in for a visit with his parents, Mr. and Mrs. G. W. Dingus. He went on to Camp Berkeley to take his physical examination for selective service.

Miss Christine Burton has returned to her duties at the J. C. Borden Insurance firm after having recovered from a recent appendectomy.

Miss Maxine Lane of Benjamin spent the week end here with her parents, Mr. and Mrs. John Lane.

Ice Is Pure

Banner Ice is purer than the water you drink! Manufactured from pure, crystal-clear, filtered water—it is taste-free and odor-free—ideal for drinks requiring cracked ice!

Ice serves many needs, and when you patronize the Banner plant you give your business to a home concern that helps carry on your School, City and County Government.

YOUR ICE BUSINESS IS ALWAYS APPRECIATED

LET US HELP YOU GET THE MOST FOR

YOUR COTTON!

As in the past few years, two of our gin plants will be especially prepared for handling the One-Variety Cotton that is grown in this territory.

Again we remind farmers of this area that by ginning here they may be able to participate in

A Dividend

Each year this gin has paid members of the Farmers Union a substantial dividend on their investment. This gin was organized by farmers for farmers. Everyone who patronizes it is helping to make the profits. Therefore, everyone who gins a bale of cotton here shares equally in the patronage dividends.

Three Gins for Your Convenience

● Nothing has been overlooked in making your gins the best plants in the country. All repairs have been made by skilled workmen. New installations have been made where needed, and the Farmers Union Cooperative Gin plants are ready for your 1941 cotton.

TEXAS OUT-DOORS

Violations Really Vary

Austin, Texas—While the Texas Game Fish, and Oyster Commission would rather, much rather, have hunters and fishers observe the many laws enacted by the legislature, which total more than 700, it is necessary that some arrests be made. A check of a recent monthly report of arrests by wardens made in the Austin office reveals an interesting cross section of the variety of laws which can be violated afield and on streams.

Several hundred arrests during the month checked revealed that there were violations in one way or another of thirty-seven different laws. They varied from killing the prairie chickens, upon which there will be no open season for five years, to arrests for the lack of bait dealers licenses.

One fisherman got in trouble for netting during the closed season. Another was fined for possessing short fish. Still another went to court because he was destroying under-sized fish. Several persons who had killed deer out of season, or who had killed doe deer, paid heavy fines. Non-game bird hunters paid off, as did persons

killing Javelinas during the closed season. Possessing game birds out of season wasn't healthy for the pocketbooks of several men. Polluters of streams paid off. Persons caught taking fish with their hands found it necessary to pay in justice court. Several commercial fishermen and fish dealers did not have licenses and were caught up with by wardens. The use of unlawful nets got some men in trouble, while others were arrested for hunting ducks out of season.

And so it goes each month. Most sportsmen observe the laws and strive to know all the special laws pertaining to the section of the state in which they are hunting or fishing; but there are those who intentionally violate the laws, the game and fish hogs, and they are the ones the Game Department feels should be punished so there will be more game and fish for the sportsmen who appreciate nature's offspring for the food and sport they can provide.

Bird Flew to San Salvador
A white-wing dove banded in Cameron County, Texas, July 31, 1940, was shot in San Salvador, Central America, October 15, 1940 two and a half months later, according to word received recently by the Texas Game Department. The distance the bird covered was more than 1,200 miles, and is one of the longest on record for the white-wing dove's flights.

Another bird banded in Texas was killed in Tampico, Vera Cruz. The bird was banded and released in Cameron County in July, 1940 and was killed in March of 1941. White-wings are being banded by Texas and U. S. Fish and Wildlife Service biologists to help them obtain information as to the habits of these game birds. Several hundred were banded in the Rio Grande Valley last year and more were banded during the nesting period this year.

This column recently carried a story of an alligator which inhabits Pecan Bayou, near Brownwood, in West Texas. Alligators are common enough in deep East Texas, but few have ever been seen in west Texas. Now comes word from Mr. L. E. Mannering of Colorado City, Texas, which may clear up the mystery of the Pecan Bayou resident, which is, incidentally, almost six feet long. According to Mr. Mannering, a patent medicine manufacturing company sent an uncle of his, Mr. B. G. Lindley, a small alligator. That was twenty-five years ago. Mr. Lindley kept the reptile several days. Then it escaped. The Lindley drug store was only a few hundred yards from Pecan Bayou. It is entirely possible the gator is the same one which is frequently sighted.

Hitch-Hiking Scissor-Tails
A hitch-hiking scissor-tail fly-catcher has been reported to the Game Department by two of its biologists. They recently flushed a great horned owl from a tree where he was taking an afternoon siesta. A tiny but angry scissor-tail immediately took off in pursuit of the huge bird and twice alighted on the broad back of the owl in flight. The small bird did a good job of feather pulling each time it alighted on the owl's back.

Mr. and Mrs. W. E. Reneau and family of Kermit, Texas, are here this week, visiting in the home of Mr. and Mrs. John B. Reneau.

People, Spots In The News

THREE OF A KIND . . . Three of greatest outfielders and hitters baseball has known get together at annual Amateur Day program of Cleveland and Baseball Federation. This probably isn't necessary, but the left-to-right is: Ty Cobb, Babe Ruth, Tris Speaker.

EPOCHAL MEETING . . . President Roosevelt and Prime Minister Winston Churchill shown aboard British battleship "Prince of Wales" somewhere on broad Atlantic in epochal meeting which saw formulation of historic eight-point declaration of peace aims.

RISE OF 16 per cent in registration of women, reported by U. S. colleges for coming fall term, was interpreted as significant by-product of defense-boosted payrolls, by Dr. James Madison Wood, president of Stephens college, Columbia, Mo. which is stressing women's "citizenship" training as vital factor in strengthening democracy.

Senior News
The main occupation of the Seniors for the last week has been making ice cream and selling it. Some of the Seniors have turned out very good at it.

They are all very glad the lunch room has opened, even if Berne's appetite wasn't so good the first day. The Seniors have all remained intact for the past week except Smitty and Wynell who got just a little too amused at several little incidents on the bus Thursday afternoon.

One of our Seniors—Jeanelle Partridge, is ill at this writing. They hope she is soon better and able to be back again.

One Senior, Polly McAfee, is back in school after an appendectomy.

Junior Report
The Home Ec III girls were very disappointed Friday when they saw the rain coming down. They had planned to go on a Home Making picnic with the rest of the Home Ec Girls. They plan to have this picnic very soon.

The Physics and Plane Geometry class seem to be progressing—very slowly, but everyone hopes to master his work soon.

Sophomore Report
The Sophomores are progressing rapidly in World History and in their other studies. The Home Making girls are planning a picnic to come off some time in the near future. They plan to have it at the Knox City park and are looking forward to it expecting an enjoyable time.

The Sophomore class is planning to have a class party soon at the home of some member of the class.

Freshman Report
Things seem to be progressing very well. The girls are trying to learn future housekeeping. The boys might learn to build their houses in Shop work. We hope they don't cut a finger off as was the tragedy of a boy in another grade last week. Who knows but some of us may become scientists with valuable inventions if we keep experimenting in General Science.

Eighth Grade News
The eighth grade club has elected Betty John Beauchamp as its president, John Voss, vice president; Earleen Brewer, secretary; Denzil Davis, parliamentarian; Betty Nell Walker, treasurer; Jack Burnison, policeman; Betty Snody, policewoman. We know they will do their part well.

We have Kate Bee Wells from

Knox City added to our class, which makes 30 in our class. We are proud to say we have more than any other class in high school.

Seventh Grade News
The seventh grade is starting out on its third week. We have had a very happy time. Almost everyone in the seventh grade is eating in the lunch room and we think the food is very good.

Our two new pupils are Margarita Tolentina and Billie Marie Hughes.

Sixth Grade News
Our new art books are becoming very helpful. We are learning how to sketch and combine colors so they will harmonize more perfectly.

One of the chief faults in writing is that we have not learned to stay on the lines.

Teresa Harber and Gerald Freeman were both ill last week.

Our new pupils are Mary Bob Hughes and Augustina Martinez.

Fifth Grade News
In geography we are to bring arrowheads and make boats. In English we are studying four kinds of sentences. Math is hard for us this year. Last year it was very easy.

We are going to bring cactuses and set them out. We are enjoying the fifth grade. We all like our teacher.

Tremendous Trifles

On the Ford Rouge plant payroll are 11,882 employees generally regarded as unfit for industrial service, yet they are earning full wages working at special jobs. They are men who are blind or otherwise physically handicapped.

The assembly line, now so important to mass production of national defense needs, was originated by the automobile industry. First perfected by the Ford Motor Company, it soon was adopted by all motor car makers.

Coal pulverized so fine it is like talcum powder is consumed at the rate of 2,500 tons a day by the Ford Rouge plant power house.

The greatest single day's production in automobile history was Oct. 31, 1925, when 9,109 Model Ts rolled off Ford Motor Company assembly lines.

Infra-red heat lamps are used to dry the enamel on Ford automobile bodies.

Loss of Foreign Cotton Market Is Need for Home Use

Sales promotional efforts of the Cotton Producing Industry and the Cotton Trades Industry in cooperation with the Surplus Marketing Administration of the U. S. Department of Agriculture here today, were commended as having an important bearing on the future of American cotton.

Declaring that cotton can hope to maintain its position of leadership in fibre markets, only through an aggressive and determined effort to develop new markets and to better its place in established markets, Walter Phillips, chairman of the Knox County Cotton Industry Committee, said that the programs increase domestic cotton consumption undertaken by the National Cotton Council, the Cotton Textile Institute and the Federal Government were already showing telling effects.

"It is significant to note that domestic cotton consumption has increased from 5,000,000 bales in 1935, to 7,500,000 bales in 1940, to a probable ten million bales in 1941," Mr. Phillips said. "Cotton today would be in a better position were it not for the fact that the foreign outlets for seven billion bales a year are this year taking less than 1,000,000 bales of American cotton. It is probable that this situation will remain unchanged for at least the duration of this terrible world conflict. For that reason we must redouble our efforts to increase the home consumption of our greatest fibre."

Mr. Phillips said that through such activities as the Supplemen-

tary Cotton Stamp Program, the Cotton Stamp Plan, the Federal Mattress Program, and the encouragement of such new uses as home insulation made from cotton and high grade paper using cotton as a raw material, the S. M. A. was endeavoring to increase the United States cotton consumption.

"The cotton industry, itself, has underway an all-inclusive program to promote the greater use of cotton through established markets," he said. "The national Cotton Council has a staff of trained scientists who are constantly seeking new uses for cotton and cottonseed products. On the success of those various programs depends the future of the industry."

Mr. and Mrs. A. V. Kemletz of Stamford spent the week end here with Mrs. Kemletz's mother, Mrs. Louise Ingram, and with other relatives and friends.

Mr. and Mrs. Fred Broach and son, Bobby, returned home last week from several days vacation which they spent in New Mexico and Colorado.

Kamal Ameen of Lubbock is visiting in the home of Mr. and Mrs. Sied Waheed and with other relatives here this week.

"Here's What I Expect

An Advertisement To Tell Me"

"Where Can I Buy It? Naturally, one of the first things I want to know about something I see in an ad is—where can I buy it? It isn't simply a matter of convenience and of saving time in planning my shopping, either! No, the name of the merchant, itself, often decides whether I buy or not. Invariably, you see, I give preference to stores whose ads I see regularly and often—I know these stores must have good value or they couldn't go on advertising year after year!

"What Will It Do For Me? I find it so much easier to make up my mind when the ad tells me facts about the merchandise! What is it? What will it do? How will it help me? Why do I need it? I want to know about color, weight, texture, material, style—I enjoy reading those things and I usually buy from the merchant who tells them to me.

"How Much Is The Price? Of course nearly every ad mentions the price, but if an item has been marked down I want to know from how much. So many sale ads say 'Was Higher' . . . how much higher? I want to know how much I am saving and I want the chance of deciding for myself if the item is a real value or not. I have more confidence in the store that is consistently truthful and buy from such a store regularly—and my husband says an old customer is worth three new ones because new ones cost money to get!"

READ THE ADS IN THE MUNDAY TIMES—ALL OF THEM HELP YOU TO WISE SPENDING—MOST OF THEM HELP YOU TO MAKE WISE SAVINGS, TOO!

Oscar Culwell Dies Friday At Lubbock Home

Oscar Culwell, well known former resident of Knox county, was found dead in bed last Saturday morning at 6:30 o'clock at his home in Lubbock. Death was attributed to a heart attack.

Mr. Culwell had been in poor health for a number of years, but had not been seriously ill. Relatives found him dead when they went to awaken him for breakfast Friday morning.

A resident of Lubbock for the past 20 years, Mr. Culwell was a former resident of the Hefner community. He was 53 years of age.

He was a brother-in-law of L. P. James of Munday and C. M. Matlock of Seymour. Mr. and Mrs. James and family were visiting in the Culwell home when he died.

Funeral services were held at five o'clock Saturday afternoon at the First Methodist church in Lubbock. Burial was in the Lubbock cemetery.

Attending the funeral were Mr. and Mrs. L. P. Jones and family and Mr. and Mrs. Carl Smith of Munday, and Mr. and Mrs. Jones' daughter, Mrs. Katherine Finell of Wichita Falls.

ATTEND GIFT SHOW

Mr. and Mrs. E. W. Harrell and son, Dick, spent the first of this week in Dallas, attending the annual gift show there and purchasing gift items for this department in the Munday Hardware and Furniture Co.

Bud Collins of Floydada was here several days last week, visiting in the home of Mr. and Mrs. W. A. Baker.

W. M. Rowan of Knox City was a business visitor in the city last Friday.

WHEAT INSURANCE DEADLINE AUGUST 30

College Station.—All-risk crop insurance contracts may be made in either 50 to 75 per cent of the normal wheat yield, E. R. Duke, state wheat crop insurance supervisor, points out, in reminding Texas wheat growers that August 30 is the deadline for taking out insurance on the 1942 crop.

Wheat insurance covers losses by hail, wind, rain, fire, insects, drouth, winterkill, rust, floods and crop failure Duke said. Applications for insurance must be made either before the August 30 deadline or before the wheat is seeded, whichever is earlier.

The method of paying the premiums and the number of policies taken out by one wheat grower constitute important changes in the insurance program this year, Duke said. Premiums will be paid on the market value of wheat the day the premium is due instead of when it is signed, and only one commodity note is made regardless of the number of farms in which a grower is interested.

The commodity note authorizes the Federal Crop Insurance Corporation to deduct the amount of the premium from future payments in the event it is not paid. Future payments include certificates of indemnity, in case of partial or total crop loss, AAA payments or first payment.

Regardless of the number of wheat farms, only one Commodity Credit Corporation note will be signed by an individual grower. Regulations also specify that insurance must be taken on all wheat farms in which a grower has an interest.

In the event notes are paid before maturity, the AAA official explained, premiums may be paid in the cash equivalent of wheat based on market prices the day the payment is made or in bushels of wheat.

Texas wheat growers insured 4,942,435 bushels of wheat on 11,040 farms under the 1941 wheat insurance program.

THE POCKETBOOK OF KNOWLEDGE BY TOPPS

40,000 rivets are used in a modern fighter plane. 500,000 in a bomber. AND ABOUT 3 MILLION IN THE LATEST "SUPER-BOMBERS".

SPICES WERE SO IMPORTANT IN ANCIENT TIMES THAT A LAW WAS PASSED EXEMPTING FROM MILITARY SERVICE EVERYONE CONNECTED WITH THE SPICE INDUSTRY.

MATERIALS DEVELOPED BY U.S. INDUSTRIAL RESEARCH FOR FOOTBALL UNIFORMS ARE NOW BEING ADAPTED FOR THE USE OF PARACHUTE TROOPS.

PURPLE BECAME THE SYMBOL OF ROYALTY AND WEALTH BECAUSE OF THE HIGH PRICE OF PURPLE DYE IN OLDEN TIMES (A POUND OF PURE DYE COULD BUY AN ACRE OF LAND IN 1775).

IN 1937 THE ELECTRICAL INDUSTRY COULD GENERATE 37,000,000 KILOWATT HOURS OF POWER. THIS YEAR, TO MEET DEFENSE NEEDS, IT WILL REACH 45,000,000 KILOWATT HOURS.

PHILLIPS FAMILY GOES TO REUNION AT SAYRE

Mr. and Mrs. P. C. Phillips and family spent the week end in Sayre, Okla., where they attended a reunion of the Perryman family given in honor of Mrs. Phillips' mother, Mrs. L. C. Perryman. About 45 were in attendance, and Mr. and Mrs. Phillips reported a big time and plenty to eat.

Paul Stengel Gets Texas Tech Degree

Among the summer graduating class of Texas Technological College on August 22, was Paul A. Stengel, son of Mr. and Mrs. F. L. Stengel of Rhineland, who received his bachelor of business administration degree.

Mr. Stengel attended Texas Tech for the past three years, maintaining a high scholastic average and taking part in extra-curricular activities.

Mr. Stengel served as president of the Newman Club one year, is a member of the Kemas Fraternity at Tech, serving as treasurer last year, and was a member of the Matador Band, and was active in the B. B. A. club.

Mrs. Sied Waheed and children returned home Saturday from Lubbock where they visited with Mrs. Waheed's parents, Mr. and Mrs. C. S. Ameen for several days. While there they attended the summer graduation exercises at Texas Tech, in which Mrs. Waheed's brother, Ray Charles Ameen, received his B.A. degree in zoology.

Miss Quintna Wiggins, who has been attending N.T.S.T.C. at Denton, is home for a visit with her parents, Mr. and Mrs. J. A. Wiggins. She received her B.S. degree last Saturday night.

Weather Report

Cattle Higher At Auction Sale Last Tuesday

The Munday Livestock Commission Co. reports a good run of cattle and hogs for last Tuesday's sale with all classes of cattle selling fully steady to higher for week.

Top hogs sold at \$11.40; lights and heavies, \$11 to \$11.25; sows, \$9.75 to \$10.25.

Beef bulls brought from \$7.25 to \$7.80; butcher bulls, \$6.50 to \$7; beef cows, \$7.25 to \$8; butcher cows, \$6 to \$7; canners and cutters, \$3.50 to \$5.75; fat yearlings, \$9 to \$10.50; butcher yearlings, \$7.75 to \$8.75; fat calves, \$9 to \$11; butcher calves, \$7.50 to \$9; rannies, \$6.25 to \$7.

Buyers here for Tuesday's sale were Ebner Packing Co. and John Ruddy, Wichita Falls; Vernon Packing Co. and Tucker and Jordan, Vernon; J. H. Bell, Fort Worth; Fred Keaton, Hollis, Oklahoma; Mr. Gray, Stamford; E. L. Glenn, Throckmorton; W. M. Trimmer, Rochester; C. H. Keck, Market, C. A. Hull, Knox City; T. J. Ferguson, Vernon; W. B. Tysinger, Crowell; Claud Farr, J. L. Cooper, Perry Woods, O. P. Hall, J. C. Causey and J. J. James, Seymour; C. R. Elliott, Claude Hill, and J. I. Welch, Munday.

Frank Steele of Phoenix, Ariz., a former resident of this county, visited friends here several days last week.

Mr. and Mrs. Robert Sims of Austin spent the week end here visiting with Mrs. Sims' parents, Mr. and Mrs. J. S. Kendall.

W. W. McCarty, local jeweler, attended the annual gift show in Dallas the first of this week.

Mrs. Earl McPherson of Quanah spent the first of this week here, visiting in the home of Mr. and Mrs. Grady Roberts.

Mr. and Mrs. R. V. Burton and Mr. and Mrs. Cecil Burton of Benjamin were business visitors here Tuesday.

Dr. O. B. Douglas of Austin is the guest this week of his brother, Dr. Hollis Douglas and other relatives.

More than 40,000 tung trees were planted last spring in test orchards throughout the Gulf Coast region. Department of Agriculture scientists expect this will be the beginning of a successful tung oil industry in the United States.

A California scientist says inexpensive substitutes for novocain, antiseptics and possibly sulfanilamide and its derivatives may soon be made from corn cobs, oat hulls and other farm waste materials.

Packing is not necessary in filling a trench silo with threshed grain. Wet the grain to about the extent of a heavy dew. Fill the trench so that the contents in the center will be higher than the level of the ground or walls.

More than 2,000,000 trees were planted this spring by farmers and ranchers in the Southern Great Plains. Trees and shrubs were furnished for erosion control purposes by the Soil Conservation Service.

"If More Old People would use ADLERKA they would feel better. I'm 70 and have had it on hand for 14 years." (L.M.-So. Dak.) For QUICK bowel action and relief from bloating gas, try ADLERKA today.

OTHER SIZES AVAILABLE PRICED IN PROPORTION

Here's the tire you KNOW will last

Now more than ever is the time to buy quality. This world-famous first-line "G-3" All-Weather will give you many more months of miles than a cheap tire; yet it actually costs you less per mile! You save money, and help save rubber for defense needs, too.

LifeGuards save lives, money, rubber

Goodyear LifeGuards take all the danger out of blowouts. In sizes available, LifeGuards let you drive new tires or your present tires—regardless of make—much longer. You can then have them regrooved, or later retreaded with absolute safety when their carcasses are in good condition. They let you use safely all the mileage built into your tires.

WRITTEN LIFETIME GUARANTEE They make good or We do!
