RESOLUTION PASSED BY TEXAS HOUSE MEMBERS AT WASHINGTON

WHEREAS, Japan has made an unwarranted and unprovoked and ruthless attack without warning upon the United States while peace negotiations were still in progress and has sunk our ships and murdered our citizens, when no cause whatever had been given by the United States therefor, and

WHEREAS, the United States had done everything honorably possible to avoid war with Japan, and was still engaged in peaceful negotiations when the attack was made upon our Navy and our soldiers and our citizens,

THEREFORE, be it resolved by the Texas Delegation in the House of Representatives in the Congress of the United States, that we resent with all our force and vigor this treacherous and murderous and dastardly attack as Representatives of the people of Texas—a people whose history and traditions are rich in patriotic service in the defense of our country and our liberties—we pledge our unflinching support to our country and our President as Commander-in-Chief of our Army and Navy in this period of grave crisis.

Gossett Makes Statement As War Declared

The following is a statement by Congressman Ed Gossett following the United States' formal declaration of war on December 8, 1941.

I have today voted for a declaration of war against Japan. Like many of you, I have often prayed that we might never confront this grim necessity. It's a bitter cup, from the drinking of which we cannot escape. For Americans there is no choice. We have been attacked by ruthless barbarians who recognize no law but that of force. They have deliberately embarked upon a campaign of robbery and destruction. They would take from us not only our material possessions but also our possessions of far greater value, possessions for which they have no regard nor respect—honor and freedom. Already American altars are being sacrificed by the tragic flow of American blood and tears. The toils and sacrifices of two centuries of liberty-loving people is at stake. To human decency both now and hereafter we must again dedicate our lives and all the things we hold dear. Before God and our fellowmen, we can do no more, and we can do no less.

Vera Pilots Down Bryson Team; Wins Bi-District Title

Seymour, Tex.—Vera's six-man grid machine swept over the Bryson Cowboys here Friday afternoon 19 to 12, after being down two touchdowns in the first quarter. Vera won the bi-district title of the six-man race.

The Cowboys started off like a whirlwind and drove to the Vera three-yard line, but were halted there for the time being, but Price scored a moment later from the 17.

Then on the kickoff, Vera fumbled and the pigskin was recovered by Bryson on the Pilot 25. Four plays and the Cowboys had another score, with a pass from Price to Cullers making the tally.

In the second period, Vera got started and drove 54 yards for their first marker. Richards aerialled to Trainham for the score.

Three minutes later, Trainham blocked a punt and scooping up the ball scampered 20 yards to tie the score.

The winning tally came in the fourth period, when Woods intercepted a pass on the Bryson 17. And on the fourth down for Vera, the combination of Richards to Trainham worked for the score.

THE BILL OF RIGHTS AND THE BIBLE

It is hoped that all personal prejudices and party affiliation will be forgotten on Monday night, December 15 and that every American citizen who is free to do so will listen to the President as he speaks to the nation on the Bill of Rights. This year marks the 150th anniversary of the adoption of these first ten amendments to our Constitution which are our American counterpart to the Mosaic Ten Commandments.

To us it seems a peculiarly happy coincidence that Sunday, December 14, the day before the President speaks, should be the date of the annual observance of Universal Bible Sunday, when in thousands of churches and in hundreds of broadcasts, including special messages on three of the great networks, the people of the nation will be reminded of the part the Bible played in the founding of our nation and the immeasurable influence the Bible wielded in the world today where it is loved and honored in practically every nation and more and more as the darkness deepens is being sought as the only hope of peace and understanding.

There would have been no Bill of Rights had there been no Bible. Once during the Constitutional Convention someone complained that the Declaration of Independence contained nothing original. Thomas Jefferson, who wrote it, replied that he did not consider that he was to invent any new ideas. He was simply to put into appropriate phrases the convictions that had led to the Revolution. How overlastingly right he was! He belonged to the latest of several generations of people whose thoughts in all serious matters had been channeled by the great pronouncements of Holy Writ. These convictions about men being created equal and endowed by God with certain inalienable rights had been discussed time and time again in the Continental Congress and the Colonial Assemblies and the town meetings and on and on back to the days when, in the sixteenth century, Englishmen first began to read the Bible in their own tongue.

Here we trace the roots of the four freedoms that are guaranteed in the Bill of Rights. They are given to the world by Him who said, "If ye continue in my word . . . ye shall know the truth and the truth shall make you free."

We heartily endorse the suggestions made by the American Bible Society which for years has sponsored the observance of Universal Bible Sunday occurring this year on December 14, that, first we attend the church of our choice on Sunday where the Bible will be expounded, second that during the day we read a considerable portion of the Bible, at least one whole book, and third, that we take steps to see that the boys from our church, our street, our office, our community, who have gone into any one of our nations' services in recent months be supplied with a Bible or a Testament.

DEFENSE STRIKES ARE SABOTAGE

It is time we stopped mincing words in this labor crisis. Those who strike against defense must be called what they are—saboteurs.

This is a war of production. It is the performance of industry which will finally decide it. Hitler is fast organizing the entire continent of Europe to feed the Nazi military machine. The democracies must outstrip him to survive.

Here in our own country we have greater resources than any other power. We have the coal, the oil, and the other basic materials in abundance. We have the greatest electric power and transportation systems on earth. We have the great factories which can produce instruments of war and peace alike in an ever-increasing stream. We have a type of industrial management which is not equalled for initiative, resourcefulness, daring, efficiency.

But all of this will be worthless if labor is determined to sabotage production.

Labor has no just grievance which cannot be cured by arbitration. In no nation on earth has so elaborate a government machine been established to protect the worker against exploitation. In no nation on earth does labor get so large a share of the fruits of industry. Yet labor strikes—at a time when the very system which has given it so much is in mortal danger!

How much longer will labor blindly follow ruthless, self-seeking leaders who think nothing of endangering the very existence of their country?

The man on the street is fed up with attempts to push our country around, not only by foreign nations, but now by men at home who refuse to arbitrate and thereby give the greatest possible aid to our enemies by blocking our own defense.

TIME FOR ACTION

American defense is being attacked by more than Nazi submarines today. We are threatened by aggression at home as well as abroad. The "strikes as usual" policy of a few stubborn labor leaders, who seem to place personal victory above the national interest, continues to rob us of materials vitally needed for our protection.

A recent Labor Department report showed an almost unbroken rise in strikes since we began to produce on a major scale for aid to Britain and national defense in mid-1940. During the month of July of that year strikes cost us 585,651 man-days of lost work. For the four-week period ending last November 21 that figure had risen to 1,252,168 man-days. The first strike in the "captive coal mines" cost a daily loss of potential coal to make steel for upwards of 16,000 freight cars or 32,000 M-3 tanks. During the second such strike we lost enough steel to build 30 destroyers.

The fact that many of these strikes have been called to force a closed shop suggests that the unions are using national defense to create a labor monopoly with themselves in control of all American employees. Many people fail to understand the threat to our traditional freedom that such a situation implies. They fail to realize that in a closed shop every employee must be a member of the union and pay dues to it, whether he wants to or not. They fail to realize that his employer must fire him and the union can blacklist him if for any reason his actions offend the union. Once blacklisted, he can't work again in any union plant. If all the shops in the country were closed shops, he couldn't work at all.

What has the government done about this current wave of strikes? For one thing, it's discouraged all attempts to amend the Wagner Act or otherwise to impose any legal responsibility on unions. It has denied defense contracts to the lowest bidder if he deals with the wrong union. Above all, it has failed to develop a sound labor policy that can deal with strikes.

How much longer will America be forced to endure such a situation? How much longer will it be forced to lose valuable time and materials because of strikes in defense industries? Just as long as Congress fails to pass legislation to gain control of the situation. Just as long as it fails to evolve an effective labor policy.

The time has come for action. Congress will act at once if it is convinced that the country demands action—once it hears from the folks back home. Write your Senators and Representatives what you think should be done. They have a right to know your convictions, and you have an obligation to tell them what you think.

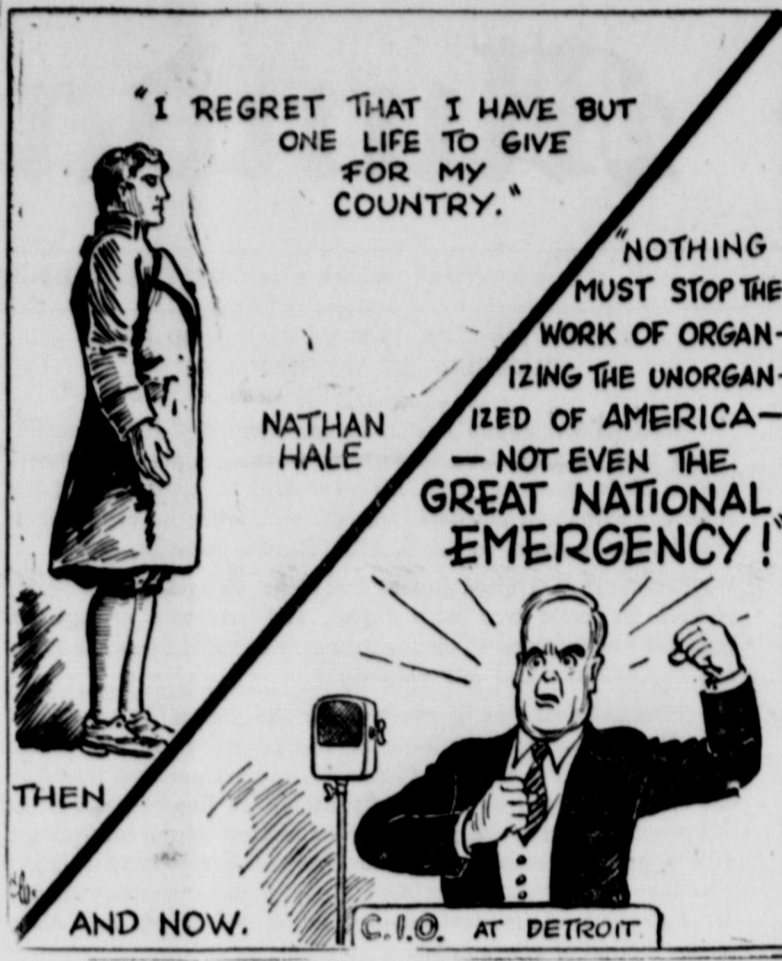

Twenty years ago the average rate for electricity for domestic service was 7.45 cents a kilowatt hour; by the end of 1940 it had been cut to 3.84 cents and is steadily being lowered.

New gloves are now being made in such a way that they can be worn on either hand. If you lose one, you can replace it without buying a pair.

Self-sealing fuel tanks for airplanes have been in use for some time. Now comes word of the development of a process to manufacture self-sealing hose, thus making a completely protected, bullet-sealing fuel system.

More Cotton Would Cripple Defense Needs

Any additional acres planted to cotton in 1942 instead of crops essential to the Food-For-Freedom campaign will cripple the whole farm defense effort, according to August Schumacher, chairman of the Knox county committee. Increased production has been called for in many commodities for 1942 but cotton is not one of them, Mr. Schumacher said in pointing out that the United States has a two-year supply on hand at the present time.

Farmers all over the nation are making Food-For-Freedom pledges now and to fall short of production goals will not only mean less food for Americans but less food for the British.

"National defense requires cutting down on surplus crops and growing the needed food. We'll be lying down on the job if we fail in this task of producing because we have the materials with which to do it," Mr. Schumacher said.

Marketing quotas are a part of the plan under which Knox county cotton farmers may adjust operations to meet Food-For-Freedom goals. As resources are devoted to increasing supplies of crops needed for defense, marketing quotas protect each farmer's proportionate share of the limited cotton market. Saturday, December 13, cotton farmers of the nation will vote in a referendum to decide whether they want to continue marketing quotas. Farmer-committeemen will be located at 9 convenient polling places in the county where eligible farmers will vote.

"Because of world conditions the part our country is playing in national affairs, and the serious task which has been assigned to our farmers we hope for a record vote this year," the chairman said.

Munday School News

Elementary School Honor Roll

6A—Virginia Ruth Albertson.
 6B—Mozelle Booe, La Rue Johnson, Larry Kinsey, Donald Waheed.

7A—Ronald Foshee, Frances Hallmark, Carolyn Hannah, Wayne Rodgers.

7B—Curtis Gollehon, Lloyd Haynie, Kelton Tidwell.

8th—Mary Alice Beck, Bobbie Boggs, Mary Tom Kirk, Patsy Massey, Olga Norman, Betty Jane Spann, Martha Ann Reynolds.

Room 6B

Room 6B is planning in a big way for Christmas. Our room is being decorated by La Rue Johnson, Charlotte Williams, Ruby Joyce Wallace, and Delbert Montgomery, and they are doing a swell job of it. We have drawn names but it is a deep secret as whose names were drawn. How about that, Laura Bess?

Our room is "going over the top" in joining the Junior Red Cross. Already 15 have joined and all the others say they will in a day or so.

Fourth Year News

The pupils of the fourth year class are really looking forward to Christmas. We have our room decorated and we have a committee to put up our tree and decorate it tomorrow.

We have a trip planned to town to see all the store windows and maybe decide on some things we would like for Santa to bring us.

We are also writing our letters to Santa Claus this week.

7B News

The following students have a perfect attendance record for the closing six weeks period:

H. C. Claborn, Jr., Curtis Gollehon, Lloyd Haynie, Jimmie Massey, Kelton Tidwell, Mary Jo Steele and Bernice Stubblefield.

In keeping with the Christmas spirit the students have started decorating their room. In their language work they have been

working on a poem, "The Texas Pioneer's Christmas."

Jane Hill spent the week end in Fort Worth and Bernice Stubblefield went to Wichita Falls. They report that Santa Claus was visiting both cities.

Choral Club News

The Choral Club will sing for assembly Friday. It will be under the direction of Miss Mayme Holcomb. We are inviting everyone who can to come here this group. The news writers for this organization this week are: LaRue Johnson and Ruby Dell Franklin. Le Rue is substituting for Peggy Smith, who is absent.

This is the first public appearance of this group of singers and it is sincerely hoped that as many patrons as possible attend the assembly.

8th Year News

Hurry! Hurry! It won't be long until Christmas. The 8th year class has already drawn names for their Christmas tree. Of course it is a secret. Plans are under way for a Christmas party. Now the big thing is when the party will be. Naturally the Seniors of Munday Grammar School want a night party. But since they have 39 in their room they would be happy with anything—just so it's a party. Room decorators are busy making the room as attractive as they can with the small decorations they have.

Eighth year people are very interested in the news reports these days. Monday morning they all went into the gym and listened to the President deliver a message to Congress.

The library in the elementary school has one big wish—may their letter to Santa Claus be answered. The contents of their letter will appear in the next issue of the paper. So, until then you had better be good, because Santa watches everybody!

The Eighth Year was proud of their seven honor roll members. Several in the class had an average of 89, while several others had all A's. The most unusual thing about the honor roll is that it was made up of girls. Now you boys get busy!

Mr. and Mrs. Howard Hudgins and son of Vernon were visiting friends here last Sunday. Mr. Hudgins is district commander of the 13th American Legion District of Texas.

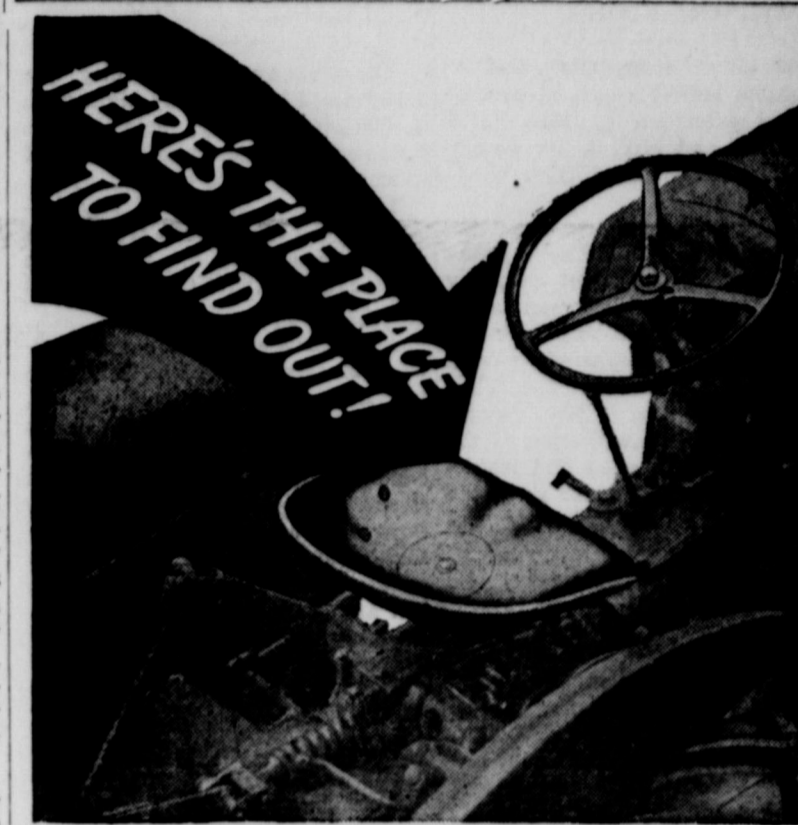

Mrs. E. D. David and son, Billy, of Garland visited Mrs. David's parents, Mr. and Mrs. E. E. Akers, over the week end.

Mrs. Hal Fairman of Vernon

spent several days here last week with her daughter, Mrs. A. A. Smith, Jr., and with her sister, Mrs. W. P. Farrington.

Knox County School Man Writes His Master's Thesis on Lunchroom Projects

A. M. Whitis, superintendent of Knox City Public Schools received his Master's Degree this summer from Texas Technological College, Lubbock, Texas. His Master's Thesis was on "W.P.A. School Lunch Projects." In his thesis, he made an introductory study of the School Lunch Project and compared these lunchrooms in District 7 and 17. He made some recommendations to W.P.A. officials and to school executives throughout Districts Seven and Seventeen of Texas. These recommendations are summarized as follows:

1. That a publicity department be set up to inform all superintendents of rural and metropolitan areas and community welfare agencies of the values and practices of the W.P.A. school lunchrooms.

2. That encouragement to install lunch rooms be given to the common schools in both District Seven and Seventeen, as W.P.A. school lunchrooms are limited.

3. That common schools in District Seventeen be encouraged to serve other than free lunches to extend the benefits derived from W.P.A. school lunch rooms to other than needy children.

4. That sponsors provide additional equipment to lunch rooms, thereby making for efficiency in service and a saving of school time.

5. That school officials keep records from year to year on the effect of the lunchroom on weight of students, on truancy, and on the increased or decreased efficiency of school work of students eating free in the lunchroom.

6. That teachers be required to eat lunch with the pupils and the meal be made a part of the regular school work.

7. That school officials attempt to show the sponsors and the community at large that one of the best methods of aiding in the National Defense Program is for the school and the community to take care of its undernourished children, thereby building a healthier America.

Anti-Strike Bill Faces Senate Test

Washington, D.C., Dec. 8.—Last week the House of Representatives passed by a vote of 22 to 136 the Smith anti-strike bill. This bill was the strongest of four anti-bills from which the House to choose.

Proponents of the bill say it is a straight-forward, reasonable provision to deal with strikes in defense industries. Opponents of the bill have attacked it as radical and unreasonable.

The Smith bill provides for a 30-day notice of intention to strike, a secret ballot of employees before a strike can be called, freezes the closed and open shops for the duration of the emergency, prohibits violence or intimidation of workers on defense contracts, outlaws jurisdictional strikes, provides for full financial statements of union affairs, prohibits Communists or Fascists from holding office in labor unions, and contains other provisions designed to avoid further slow-downs or stoppages of defense production.

Red Cross Goes Over The Top In Recent Drives

at length on the subject of "Heaven." At a meeting of the elders Sunday afternoon several week-day services were planned but it was thought best to postpone most of these services until after the holidays.

Sunday Morning Bible School will begin next Sunday morning promptly at ten o'clock and Minister Collins will preach at eleven o'clock.

His subject Sunday morning will be "The Lord's Business." Sunday night at seven o'clock he will use as his subject: "The Power of God's Word."

It is hoped that the entire membership will be present at both services and all our neighbors and friends are cordially invited to attend.

Orb Coffman, Goree ginner, was transacting business in the city Tuesday.

Bruce Campbell, banker of Knox City, was a business visitor here last Tuesday.
