Farm Program Is Mapped Out For New Year

An Agriculture Program of increased food production; of continuing soil conservation practices and payments to producers of wheat, cotton, tobacco, and other crops; and of financial aid to low-income farmers is being mapped out for 1942. The program seeks to achieve and maintain parity prices for the farm products of commercial producers, and to improve the economic and social condition of the millions of small farmers who are benefiting least from the gains in prices of farm products during the past year. For many small farmers the problem is not to increase the production of milk, eggs, meats, and vegetables; the problem for them is to be able to produce for the first time these commodities for their own use—to become self-sufficing in food production and household economy.

Farmers by and large go into the winter with continuing good promise of improved consumer demand for farm products, and a relatively high level of prices and income. Total cash farm income has been estimated at 11.2 billion dollars for 1941, compared with 9.1 billions in 1940, and with 8.7 billions in 1939. Largest income of record was 14.6 billion dollars in 1919.

Land Use Board To Meet Friday

The other important matter for consideration is the location of a Farm Labor Camp for Knox County. Knox County was one of the eighteen considered by the State Farm Labor Sub-Committee as a possible location for such a project. This committee recommended that the Farm Security Administration present their program with the County Land Use Planning Committee on Friday January 9th.

Local Firm Is Awarded Plaque On Farm Youth

The business firm of Pendleton and Stodghill, now being operated as J. L. Stodghill, local Ford tractor dealer, was recently awarded a plaque for sponsorship of Foreman Nix, second place winner in the 1940 National Farm Youth Foundation classes.

The presentation was made in Abilene by L. B. Hawkins, executive in the Bull-Stewart Equipment Co. of Dallas, and head of the National Farm Youth Foundation in Texas, at a banquet honoring Foreman Nix, son of Mr. and Mrs. E. E. Nix of the Sunset community, who was second place winner in Texas.

According to Mr. Hawkins, the foundation is an educational program sponsored by the Ferguson-Sherman Manufacturing corporation with the co-operation of Henry and Edsel Ford. Its purpose is to provide an opportunity for young men from farms to acquire education in farm engineering and management along with practical experience.

Without cost to themselves, the members of the foundation are given university extension courses in farming, engineering, management and mechanics. Members meet in local groups each week for discussion. Mr. Stodghill is sponsoring another foundation course this year, the classes meeting on Wednesday night of each week. They are being taught by Manuel W. Ayers, vocational agriculture instructor.

At the conclusion of the courses, those who achieve the best records in the district are given contracts covering a paid position with the Ferguson-Sherman Manufacturing corporation. Foreman Nix, as winner last year, is now employed by the corporation.

THE TIRE ADMINISTRATORS' TASK

A difficult and thankless task is ahead for the men appointed to administer the tire-rationing plan. When the average individual, wanting new tires and being denied them, casts about for somebody to blame for his troubles, the brunt of his indignation will fall upon the members of the tire rationing boards. There will be many instances where the tire shortage will necessitate the storing of cars, to the great displeasure of the individuals affected. There will be those who regard themselves as victims of personal or unfair discrimination and they will tell their troubles to all who will listen.

The world war has had its food and fuel administrators. Some of these could give the tire administrators a hint of what is ahead. The tire-rationing job in Wichita County will be especially difficult because of the needs of connection with oil operations which involves much traveling to and fro. A proper start has been made by naming men who have the public's confidence and respect. Let us hope for them that the percentage of petulant and unreasonable

Senior Report

The seniors are taking much interest in the literary club which was organized for the pupils of the Rhineland school. The meetings will consist chiefly of debates, talks on etiquette declamation, readings, current events and comics.

Only juniors and seniors will take part in the debate. The question to be debated at the first meeting is as follows: "Is one dance a month sufficient for the Rhineland young people?" with Theresia Andrae and Florine Decker on the affirmative side and Albert Brown and T. J. Hoffman on the negative side. It is our desire to make these debates as interesting and educational as possible.

At the first meeting T. J. Hoffman will act as chairman and Florine Decker as secretary. In order to give all the seniors experience in parliamentary law, it was decided that different ones will act as chairman and secretary at each meeting.

Junior Report

The junior boys enjoyed themselves Monday in washing the girls' faces and throwing snowballs. We hope that it will snow again soon. We have organized a Rhineland literary club which is for the benefit of pupils at Rhineland. The meetings will consist of highlights in the latest news, debates, declamation, criticism, etc. We all hope to profit by the meetings.

Here are a few points why one should not drink and smoke:

Sophomore Report

Do you know the learning of silk culture came about?

A Chinese lady was believed to have lived in 2,000 B.C., was sitting in her garden when she became very interested in a caterpillar that was spinning a cocoon around its body on the branch of a mulberry tree. While she was watching it, in her imagination, she could see herself unwinding the ferments from the cocoon, and wearing a beautiful garment woven from the threads. She persuaded her husband to give her a grove of mulberry trees. She spent many happy hours in it looking for eggs and worms, and learning the secret of silk culture.

Freshmen Report

As the new year is here we are trying to make this year a great success.

In math we are still working on equations. They grow harder as we go along. In our grammar, we have been punctuating and capitalizing sentences. At first the sentences were puzzling but we soon

ought on.

It was a lot of fun for the boys last Monday, wasn't it? Especially washing the girls' faces.

News From Room III

We are all happy that we have learned the poem, "A Psalm of Life" by Longfellow. We are going to learn "The Village Blacksmith" next.

In English we are diagramming adjuncts, adverbial adjectives and indirect objects. This is more fun than diagramming clauses and phrases.

We are planning on borders for our blackboard. So far we have not succeeded in finding one.

Report From Room IV

The pupils in room IV are really busy these days. We have been drawing maps in our geography class and some of them are very good. In history we have finished the unit on Texas Revolution and Independence. The class made a calendar showing the important dates of 1836.

Wouldn't It Be Funny If:

John Ed didn't grumble, Eddie had straight hair, Herman weren't so quiet, Donald never studied, Herbert liked to go to school, Marion were tall and dark, Sue came to school everyday, Betty Don like arithmetic, Maxine never smiled, Adelaide weren't smart.

Miss Frances Marek and Jim Emil Ed Marek of West, Texas, visited in the home of Mr. and Mrs. R. J. Michalik of Munday several days last week.

Measles, measles everywhere. Patricia Johnson, Martha Jane Gardin, Ethel Hodges and Madge Hartin are suffering from this contagious disease. We hope they will get well soon and will be able to come back to school. Leo Hill and Tommie Frances Yost are out of school due to the flu.

We are still having our citizenship club meetings each week. Lois Reddell and Betty Sue Yost are the best citizens of the week.
 Ray Dean Brown has moved to Munday to go to school.
 Kenneth Ray McWhorter moved to O'Brien. Both were good students, and we hated to see them leave.

Fifth Grade News
 We have a good many in our room with the measles. They are Margie Lee Hollis, Mildred Mickles and June Scott. Our flowers have all frozen since the snow. We all had a good time playing in the snow.

Sixth Grade News
 Juliet Cheek, Mary Frances Booe, Gerald Freeman, Ina Ruth Hardin and several others in our room have been ill since Christmas. Bobby Blankenship and Cora Fayne Tidwell have moved.

Reading class two has made unusual progress. All of us are enjoying those colorful new books that appeared on the reading table last week. We enjoy history so much because Mr. Kimbrough is correlating history with war happenings. Friday our oral English class is planning a kid program. We fear there are no Gerards among us though.

Seventh Grade News
 Elsie Marie Bales is ill with measles.

Senior News
 The seniors' new year's resolutions failed to get in the paper last week but it doesn't matter as they have all been broken by now, that is, all but Randall's and his should be pretty easy to keep (He resolved to ask Santa for another blond curly-haired doll.)

One of our seniors, Bernice Henderson, is leaving Friday to enroll in Olton high school.

Munday School News

Back to school. It was hard to realize we had to start back to school after being out of school for two weeks, but we are all back and ready to start in and try to make better grades. Now let us look in and see what some of the Seniors got for Christmas.

From all the gossip I picked up this morning the Seniors are all satisfied with what Santa left them when he came down their chimney on Christmas Eve. Mary Lois worried all the week before Christmas because she could not find a package on the tree small enough for a watch and all she could find was an Evening in Paris box, but to her surprise on Christmas morning she found a watch in this Evening in Paris box. Charles had his heart set on a typewriter and on Christmas morning he did not find a typewriter but he found a radio and he says that that suited him just about as well as the typewriter would have. One day I saw Dick and asked him what he got for Christmas and he said "A bathrobe". Take it from me Dick if this weather stays cold you will need that bathrobe. Dixie had asked Santa to bring her a radio but had no idea he would do so she wasn't disappointed when she looked under the tree Christmas morning and found a piece of luggage in its place. Ben got boots for Christmas because he thought if he was going to be in the Cowboy band in a few years he had better start getting them broke in. Florene, Juanita, Cora Jean, Doyle and Juanice all got watches. Jimmie had a housecoat for Christmas, but she thinks the blue and satin is the prettiest. Willard and Jursey decided that they would help Uncle Sam out with the war preparations so they got a defense bond. Nadine got a pretty sweater set and an assortment of perfumes.

The Seniors are working hard on the Annual. The staff had a meeting a few days before we let out for the holidays. We will have to have a third of the annual in by Friday so that means work for us.
 Another thing that is keeping the Seniors very busy is their play that you will be hearing more about in a few weeks. I might mention that it is a three act comedy named "Fingerprints" and if you saw our Junior play last year you sure don't want to miss this one so watch the papers for further information on "Fingerprints".

SENIORS ON REVIEW
 Flora Alice Haymes was born in Munday on December 3, 1924. She started to school in Munday and has continued all her school days here in Munday schools.
 Flora Alice has been a member of the Pep Squad for four years and also takes active part in chorus and is now in the sextette. The Senior class wishes her all the success and happiness possible in College next fall where she

plans to major in Elementary Education.

FRESHMEN REPORT
 With our New Year's Resolutions all made out to order we Freshmen all came back to school to start a new year. We sincerely hope everyone had as good a Christmas all of us had.
 As a body, the class wishes to thank the Room Mothers for giving us such a wonderful Christmas Party. It was deeply appreciated by all members of the Freshman class.

JUNIOR NEWS
 Before the Christmas holidays the Juniors met and decided to start buying 10c defense saving stamps. We plan to buy at least one stamp a month.

From what I hear everyone enjoyed the holidays and Santa was very good, but we wonder:

Why several were so eager to begin school again?
 Why Delmar was asked in English if he was raised in a barn?
 Why Margaret was so full of pep Monday?
 Why Tommie Jean was wishing to become ill?
 Why Jane sits sideways in her seat in English?
 Why Bonnie Jean wishes to have another chance with "Sunset"?
 Why Ray and Lowell dislike the "Intention list" (4-5-1)?
 Why Joe brags on his car?

THIRD YEAR NEWS
 King Winter seems to rule with an iron hand. There were only about half of the third year children present the first day following the long holiday.
 The children were excited and anxious to tell of their experiences and the gifts they received. Almost every child got the measles—the one thing that was exactly alike.
 Plans for improving the room were made. The children are going to bring orange crates to make a cabinet for supplies, and a rack for magazines.

FIRST GRADE NEWS
 The snow must have had some magic effect on the first grade children, for more than half of them were absent the first day after the Christmas holidays. At least we hope that is true, but we are afraid it takes more than snow to keep our first grades from school.
 We are sorry that so many of our number were sick during the holidays, and we regret so much that many are still ill. We hope that will be back in school, for we are making plans for many interesting projects in the near future.

SECOND YEAR NEWS
 The second year children present Monday decided Santa Claus must have carried most of our class along with him, as only eight of them were here. Each one reported a grand Christmas, even though the measles kept them in bed part of the time.
 Favorite gifts Santa Claus left for them were:
 Donald Guffey—Doctor set.
 Billy Wolf—Wagon.
 Peggy Massey—Shoes.
 Myra Hsing—Doll.
 Bobbie J. Jones—Desk.
 Ola Wallace—Purse.
 Dorothy McDonald—Perfume.
 Herbert Ford—Doctor Set.

EIGHTH YEAR NEWS
 Hurrah! The Christmas rush is over. Back to school again!
 The members of the Eighth Year Class were very glad to get back to school. Every member told of some adventure or good time they had during the Christmas holidays.
 The eighth year class welcomes two new pupils, Ruby Faye Wallace and Jimmie Cheates.
 Say, have you made any New Year's resolutions? If you haven't you still have some time. Why not resolve to buy at least one defense stamp a week and cut down on your candy, pop, etc. Let that be your main resolution, please!

6B NEWS
 Christmas is over! All room decorations have been taken down and the daily routine is back to normal.

We all enjoyed our Xmas tree very much and everyone got presents. We gave our room-mother pictures for their Xmas gift. The room mothers served us refreshments consisting of hot chocolate, sandwiches, and cakes.
 Mr. Palmer gave each of us a 10c saving stamp as a Xmas gift, and our room has joined the Jr. Red Cross 100 percent so you see our room is certainly not lacking on patriotic spirit. Each student in 6B is going to try to add one 10c stamp to his savings stamp book each week.

Larry Kimsey has withdrawn. 3B not only feels the loss of Larry but the entire school has lost a worthy student. Larry had many friends and all regret losing him. We all sincerely hope Larry will change his mind and return to Munday, but return or not, our wish is for his happiness wherever

7B NEWS
 The 7B students are glad to be back in school. Most of them report that instead of two weeks fun they had two weeks of aches and pains. Oh! Those measles! They are sorry to have lost two of their students—Fredaue Zeissel and Lois Limley. But they are glad to welcome James Smith.

Mrs. Jess Burnison and daughter, Wilma June, spent several days last week in Dallas, visiting their daughters and sisters, Mrs. Aristel Thompson and Mrs. Bob Hipple. They accompanied Mr. and Mrs. Hipple home after they had spent the holidays here.

Mack Haymes, who is attending N.T.A.C. at Arlington, returned to school Sunday after spending the holidays with his parents, Mr. and Mrs. Lee Haymes.

William Allen Eiland and Sgt. G. R. Eiland, Jr., both of Shepard Field, visited relatives and friends here last Sunday.

J. M. Badberry of Knox City was a business visitor in the city Tuesday.

Best Wishes FOR THE New Year
 As we again enter into a New Year, we extend greetings to our friends and remind you that your Good Will is counted as one of our greatest business assets.
 We point with pride to the many good friendships that have enabled us to have eighteen years of continuous business. We are sincerely grateful for your patronage and good will, and we trust that our relations have been such as to merit your continued patronage.
 As our friends enter into "Inventory Time", we find this year, as in years past, that your friendship and patronage is the greatest single item on our books . . . Without this we could not have carried on these eighteen years.
 As our friends prosper, we in proportion likewise prosper, and without our friends there could be no prosperity.
 We sincerely hope that 1942 will be good to you, and we wish you the very best throughout the New Year.

Sports Report

Although riddled by illness, the Benjamin senior boys basketball team was able to win consolation in the Weinert tournament, with a 24-8 victory over Peacock.

The team was composed of Duke, who was high scorer in the final game with 9 points; Cartwright with 7; Hertel, Spikes, Clours and Parker. The team was without the services of guards, Perry J. Stark and Pete Rutledge, center Lee Bivins, and forwards, Joe Ben Qualls and Bill Snailum.

We are proud of the way these inexperienced boys carried on in the tournament.

The Mustangs will begin their conference campaign by playing the Goree Wildcats in their home gym Tuesday night.

Senior Report

As in the entire school, attendance has dropped in the senior class because of the mumps epidemic. Those absent from the senior class because of illness are Perry J. Stark, Pete Rutledge, Nadine Parker and Lee Bivins. We wish them a speedy recovery.

Practice on the senior play has been postponed due to the absence of several members of the cast. The date the play will be given will be announced later.

Don't forget that beautiful quilt that will be given away on the night of the play.

Sophomore Report

There are several members of the sophomore class absent with the mumps.

Mid-term exams will be given at the end of this week and all of the sophomores except those with mumps are working very hard to prepare for them.

We are proud of the trophy the boys won and the good playing they did Saturday night.

CHURCH NEWS

"We all need a time of repair each week. We need time in which to store the battery with spiritual energy. We need to gain reserve power. We need to augment our power to resistance. We need from time to time to take our spiritual bearings, and find out where we are and whither we are treading—John R. Mott.

At this the beginning of a new year, it seems as never before there is a special need for reserve power. We get this power by taking advantage of the privilege which is ours, of worshipping according to the dictates of our own conscience. But the question that faces us is this: "Do we do this?"

We have turned over a new leaf of a new year. May it find us in our place at Sunday school, church services, and mid-week services. Will you help us reach the goal of 150 in our Sunday school? We need you and you need the church.

I GIVE YOU TEXAS

By Boyce House

Speaking of political publicity men (which we were some months ago—recollect):
 Press agenting is just a part of the duties of a press agent.

There was one state candidate who, when he visited a county where he knew no one and therefore had no friend to introduce him, would have his publicity man do in this fashion:
 "Fellow citizens of Buncombe county: As you know I have lived among you for many years and have held myself aloof from active participation in politics but I have decided to make an exception in the case of our great and good friend who is here today"—and each listener figured that the introducer must live in a corner of the county where he himself was not acquainted.

Another candidate would use his press agent as a heckler. Standing on the fringe of the crowd the publicity man would ask a question in a hostile tone about some matter that the candidate didn't want to bring up on his own motion but really was anxious to discuss and the candidate would then deliver a blistering answer and the heckler would slink away.

Maybe a candidate and his press agent happen to catch sight of an opponent's placard in a window and they engage in conversation in a tone loud enough to be heard by all the sidewalk loungers:
 "Bill Perkins' picture huh? Say that was a nice looking blonde that was traveling around with him Monday."

"Blonde? He had a red-head with him last week."

"And that negro chauffeur he has driving his car!"

"Yeah, it does look like, with all the white men there are out o' work he could at least hire a white man to drive him around."

Adventures—you have plenty of them as a political press agent. I remember one time some years ago when we ran out of gas out on the Plains and a motorist pushed our car along the level highway until we overtook a truck which managed to get around safely while we were being shoved at 50 miles an hour; and another time when our car was nearly blown off the road by a gale close to the Gulf—that jalopy rocked like a ship at sea and the rain came down in blinding sheets; and still another occasion when we were rushing along through the night and almost ran right on past the

ferry stop and into the Houston ship channel.

Sitting in a car in 1938 while waiting for Ralph Yarborough, candidate for Attorney General, to finish a round of handshaking, this writer scribbled a few lines of free verse on the back of an envelope:
 "Does the skylark sing as sweetly as Shehilly saws,
 And does the nightingale live up to Keats' claims?
 Dexter Fellows, with his sea-quipedianal words,
 And the Hollywood publicists, with their chronicles of 'glamour girls'—
 There is no new phenomena.
 What was Homer except a press agent for a super-star named Helen? And, by the way, he did a swell job, too."

Little Johnny didn't know much geography or much history but he did know addition and was quite proud to announce that he had made 100 on his first report card—60 in geography and 40 in history.

Mr. and Mrs. O. O. Putnam and little daughter of the Ferris Ranch were business visitors here last Monday.

Mr. and Mrs. P. A. Gressett and Mr. and Mrs. Phillip Gressett of Levelland visited in the home of Mr. and Mrs. G. W. Dingus the first of this week.

Hal Dyer and Mr. Mitchell of Seymour and Jack Seagraves of Wichita Falls were business visitors here Friday. All are employed by the Community Natural Gas Company.

Donald Hobert, son of Mr. and

Mrs. L. W. Hobert, has returned to school at A. and M. after spending the Christmas holidays here.

Miss Jean Williams returned to school in Denton last Sunday. She was accompanied by her father and sister, P. V. Williams and Mrs. Jerry Kane, who returned home Monday. Jean is a student in T.S.C.W.
