

History Of Baptist Church Read at Anniversary Event

Large Crowd Attends 50th Anniversary Of Local Church

A large crowd, consisting of present members and former members, attended the 50th anniversary celebration of the First Baptist church of Munday in the all-day service last Sunday. Interesting messages were delivered during the day, dinner was served at noon, and the church membership enjoyed associations with former members during the celebration services.

Below is a history of the local church, which was read at the services:

In the latter part of the 19th century several Baptist families settled in Knox county in the territory surrounding what is now the town of Munday. Many of these families had come from distant states to pioneer the settlement of the country in civic and religious development. Immediately after settling and moving into their new homes, which for the greater part were "half-dugouts," they felt the need of an organized church in which they could meet and worship together.

In 1892 (fifty years ago) members of these families met in the Helm schoolhouse, which was located one mile east of Munday on what is now the farm of Mrs. S. A. Bowden. At that time there lived at Munday, a post office about 15 miles southeast of town, a pioneer missionary, whose name was D. James, who met with them for the purpose of organizing a church, which was given the name of the New Hope Missionary Baptist Church.

The constituency of this church was made up of members of the following pioneer families: A. F. (Uncle Abe) Waldron and wife, Mick Fitzgerald and wife, J. H. Page and wife, Grandma King, Mrs. A. Parks and daughters, (Mrs. I. T. Wright and Mrs. A. Brickhouse); the Serogins family, G. W. (Uncle George) Reeves and family, A. M. Reeves, Mrs. L. A. Craft, Jim Rains, Eliza Crouch, the Tines family, the Medlin family and J. A. Reid and family.

England Sends Request to Red Cross Workers

The local Red Cross chairman has asked that all the olive drab army sleeveless sweaters and socks be turned in this week. They must be in the mail by Monday, July 6.

The following article was received by the Red Cross chapter through the Red Cross monthly magazine, The Volunteer.

The following memorandum has come to us from the American Red Cross Committee in Great Britain: "Though chapter-made garments, almost without exception maintain a high standard, both for quality and workmanship, we frequently encounter criticism that the neck-opening is too small, so that the garment will not go over the child's head: in such cases the nurses either reknit the top of the garment or give them to local work parties to be adjusted. Though this detail seems like a minor one, and is easily corrected, it does make considerable extra work over here. And if it were brought to the notice of the women working in our chapters they would certainly be more than glad to take the necessary precautions."

A distinguished English visitor, now in Washington, who helped with the distribution of our Red Cross garments in London, has told us the same thing—not only the necks of the children's sweaters were often too small, but those of the men's sweaters as well. She said the workmanship was excellent, but please let us remember not to spoil the finished garment by neglecting this detail.

Mrs. Sloan Colt,
Assistant Director,
Production Corps.

It's Our Birthday!

Munday Times Starts On 38th Year

Yes, sir, we've had a birthday! We're now 37 years old—going on 38!

With this issue we begin our 38th year of continuous publication and service to Munday and the Knox county region.

Yep! We've had "lean" times as well as good. Revenues have come in well, and they have slowed down considerably. During our ups and downs, we've wondered how we could get all the news and advertising in the paper; and then, as a contrast, we've been faced with the problem of filling it up when times are dull—and of meeting the payroll.

But our advertisers and all citizens have been faced with the same problems, and The Munday Times has tried to share in the joys and sorrows of Knox county people all during the years. Your paper has tried to be a part of your community at all times.

As we enter our 38th year, we do so with unabated confidence in our nation, in victory over brutal and aggressive enemies. We stand willing and ready to join any sacrifices necessary to winning this universal war.

During the war period it will be impossible to publish as good a newspaper as in normal times. We ask you to consider this and give us your cooperation toward publishing the best paper possible. You have done so in the past, and we are confident you will continue to do so.

Knox County Hospital Notes

Patients in the Knox county hospital at Knox City, on June 30, 1942, included:

Mrs. Esker New, Truscott.
Bobby Jack Sims, Throckmorton.
Mrs. T. M. Hall, Rochester.
Mrs. Sam Hodges, Knox City.
Mrs. Bob Hicks, Munday.
Earl Pruitt, Munday.
Wanda McCullough, Knox City.
Mrs. W. H. Clonts, Knox City.
W. H. Clonts, Knox City.
Jerry Wilson, Knox City.
Roy Giddens, Rochester.

Dismissed since June 24, were:
Mrs. W. C. Lain and baby daughter, Munday.

Mrs. John Ed Jones, Munday.
Mrs. J. W. Green, Knox City.
Mrs. W. H. Williams, Houston.
H. H. Jones, Benjamin.
Mrs. Marion Allen, Benjamin.
Mrs. G. S. Foshee and baby son, Knox City.

Mrs. J. W. Walker, Munday.
Mrs. B. B. Hendrix and baby daughter, Knox City.
Mrs. Raymond Hinze, Old Glory.
Mrs. J. A. Thomas, Knox City.
J. S. McBeth, O'Brien.
F. A. Johnston, Jr., Munday.
Barbara Jo Johnston, Munday.

BIRTHS

Mr. and Mrs. B. B. Hendrix, of Knox City, a daughter.

Weather Report

Weather report for week ending July 1st, 1942, as recorded and compiled by H. P. Hill, Munday, U.S. co-operative weather observer.

Rainfall to date this year, 11.74 inches.		
Rainfall to this date last year, 30.95 inches.		

GOREE GIRL MAKES SCHOOL HONOR ROLL

Miss Doris Williams of Goree, who is attending Draughon's Business College in Abilene, is among the high ranking students whose names appear on the school's honor roll during the term just closed, according to reports received here this week.

"BOMBING RAID" DUE IN TOWN TODAY

Planes of the Wichita Falls civil air patrol will fly over Munday from five to six o'clock today (Thursday), simulating a bombing raid. The "bombs" will consist of pamphlets and smoke.

This air raid is staged to boost the national scrap rubber drive. Sirens and whistles will sound as the planes approach, giving the air raid alarm. After the raid, go home and get all that scrap rubber you can find and turn it in to your salvage stations.

Farmers Union To Name Officers Next Saturday

An important meeting of the Munday local of Farmers Union will be held next Saturday afternoon at 2:30 o'clock at the union hall in Munday. It was announced this week by J. C. Rice, secretary.

New officers for the ensuing year will be elected, and delegates will be named to represent this local at the state convention. An urgent appeal is made to all members to attend this meeting.

Present officers are S. J. Warren, president, and J. C. Rice, secretary.

District Soil Meet is Slated

The next step in perfecting the Wichita Brazos Soil Conservation district will be to divide the district into five sub-districts, and to nominate a supervisor for Districts 2 and 4. When the district is divided and the two supervisors appointed, there will then be a state charter granted the district and three additional supervisors will be elected in districts 1-3-5, which will make a total of five supervisors for the district.

In order to transact this business, a meeting of all interested landowners in the north half of Haskell and all Knox county will be held at Knox City, Texas, July 8, at 4:00 p.m. in the movie theatre. This is an important meeting and all interested landowners should make a special effort to attend.

TO FORT WORTH HOSPITAL

Oscar Spann, well known Munday resident, was recently injured during carpenter work. He was taken to a Fort Worth hospital last Saturday for treatment. Latest reports are that he is doing as well as can be expected.

Second Platoon Victors Over First Platoon In Sham Battle By Members of Texas Defense Guard

Using shotguns for rifles and heavy artillery, chaparral bushes for foxholes, a mesquite thicket for a wooded sector, and a Chevrolet coupe in which were water and sandwiches for a supply base, members of Company C, 17th Battalion, Texas Defense Guard staged what some called a sham battle, while others dubbed it "maneuvers," on last Thursday night.

"The Jungle of Bataan" was found in a cowpasture owned by F. T. Jarvis just west of Sunset school, from which the owner had taken all livestock. The shotguns were made harmless, for each members carefully removed all shot from the shells, and very few called at the supply base until the battle was over.

Referees were stationed along the battle zone to keep tabs on the activities. Occasionally one would hear a warrior call out: "Referee, here's a prisoner for you." A report from the heavy artillery, the 12- and 16-gauge shotguns, could be heard distinctly in the distance, while the lighter 20- and 410-gauge

Three Mexican Boys Drown In Farm Tank

Business Firms Will Close Here On July 6th

A petition was circulated Wednesday afternoon and signed by 24 competitive business firms of Munday, agreeing to close their places of business next Monday in observance of July 4th as national independence day.

Munday firms though that since a majority of farm families did their trading on Saturday and Sunday night it would not be wise to close on July 4th, thus inconveniencing these people who are busy in their crops.

Someone conceived the idea of closing Monday so the employees could enjoy a holiday, and the petition which was circulated met with splendid response.

Only competitive businesses were contacted, and it was thought the filling stations would, of necessity, remain open. Signers of the petition included almost every other line of business in Munday.

Druggists of Munday indicated they would likely reach some closing agreement and would close, if not all day, a part of the day. Other firms which have no competition in their lines have also indicated they would be closed next Monday.

So, folks, don't expect to do business here next Monday because grocery, dry goods, hardware stores, barber and beauty shops, tailor shops, and other firms will close for the day.

Fire Destroys Cities Service Tanks at Goree

The oil storage tanks of the Cities Service Company at Goree were destroyed by fire early last Tuesday morning. Black columns of smoke, as well as flames, leaped skyward for a long time, as the tanks and gas and oil were being destroyed by the fire.

Fire was started, according to reports, when a spark from a truck that was being cranked, ignited the gas.

The Cities Service property, including around 7,000 gallons of gasoline and oils, was destroyed, as well as the truck which started blaze.

Louis Blankenship, well known Goree resident, received minor burns during the fire.

Three Mexican boys were drowned late Tuesday near Weinert when a home-made boat in which they were riding capsized on a deep tank on the George Free farm, four miles southeast of that town.

The victims were Jose, 9, and Paulo Barrera, 10, brothers, and Alfredo Valdez, 18. They, with other relatives had just arrived in Haskell county from San Benito, Texas, to work on the Free farm.

Several other Mexican youths witnessed the drowning from the bank and assisted in recovering the bodies. Valdez attempted to rescue his younger companions and lost his life in the effort. The bodies were recovered an hour later after neighboring farmers joined in the rescue attempt.

Funeral services for the victims were held Wednesday.

Victory Council For Agriculture Is Complete in County

The Knox county Extension Service Agents, Neva I. Van Zandt and R. O. Dunkle, report that:

The Knox county Agricultural Victory Council was completed the early part of this week, including 83 community and neighborhood leaders, whereby important information relative to agriculture can be gotten out and received from the most remote section of Knox county.

The responsibility of feeding and clothing the nation and supplying the most important feed products for boys in the army were discussed at each meeting. It was reported that 152 farmers have 912 hogs on feed. This is over three times the number of hogs on feed last year by the same farmers.

This increase would perhaps apply to all farmers in Knox county. The farmers who have reported feeding hogs say that they are using self-feeders and protein supplement. This method of pork production was initiated into Knox county by 4-H Club boys who conducted a pig feeding demonstration last winter. They found pork could be produced four times as fast and at one-half the cost by the self-feeder and protein supplement method. The results of this demonstration were given, by method demonstration, in ten different communities.

Tractor Agency Employees Attend Service School

J. L. Stodghill, who operates the Ford Tractor Agency in Munday, announced this week that all service men of his firm have recently attended a 6-day service school for Ford Tractors. The firm is now equipped with qualified men and tools to service these tractors.

Three days of the school were held in Abilene, and the other three in Wichita Falls. Attending from Munday were Mr. Stodghill, John McMahon, Herbert Stodghill, and Charlie Wood.

Time Extended On Campaign for Rubber

Morris Dean Is Elected New V.A. Instructor

Morris Dean of Burkburnett was recently elected vocational agriculture instructor in the Munday schools, to succeed Manuel W. Ayers. Mr. Ayers has resigned and moved this week to Crosbyton, where he has accepted a position as teacher of vocational agriculture.

Mr. and Mrs. Dean and their 6-year-old daughter are moving to Munday this week to make their home.

Mr. Dean is an experienced instructor at this line, having taught vocational agriculture at Burkburnett for the past seven years. He has been successful in this work, and the family comes to Munday highly recommended as citizens.

Mr. Dean will assume his duties soon after arriving in Munday.

Wind and Sand Damage Cotton Crops Locally

High winds which blew several days, incessantly whipping the sand about in loosely plowed fields, did considerable damage to crops of the county during the past week, according to reports.

Some farmers lost a considerable portion on their cotton, especially those who are farming sandy land. A small portion would start blowing, gradually becoming larger until the blow spot covered a large acreage.

Farmers on the tight land report no damage from the sand. Wind subsided considerably the first of this week, and all are hoping it has stopped, while they agree a good rain would do no harm at this time.

Deadline Extended To July 10th

With government officials expressing disappointment at the amount of scrap rubber collected thus far, President Roosevelt last Monday extended for 10 days the drive to round up all available rubber.

Only 219,000 tons of rubber had been collected, according to government reports.

President Roosevelt's action was taken on recommendation of Sec-

KNOX COUNTY COLLECTS 151,931 POUNDS OF SCRAP RUBBER

Reports from the various commissioner's precincts of Knox county revealed 151,931 pounds of scrap rubber had been collected in Knox county up to Tuesday night of this week.

Largest collection was from Precinct 4, including Munday and Goree, which had 79,558 pounds ready for reclaiming. Other precinct reports are as follows: Precinct 1, Knox City, 37,728; Precinct 2, Benjamin, 19,175; Precinct 3, Truscott, 15,470.

retary of the Interior Ickes, the petroleum coordinator, and William R. Boyd, Jr., in charge of the campaign.

The scrap collection campaign was originally scheduled to end at midnight last Tuesday night, but by the extension will continue through July 10.

The drive in Knox county will be continued through this period, and every effort is being made to get in all available scrap rubber. Local committeemen are gratified at the response given the campaign so far, yet they feel that there is much rubber that could yet be salvaged.

Texas reported 15,212 tons of rubber collected through the drive through last Saturday. This amounts to 4.74 per capita.

Mahan Resigns As C.C. Secretary

Directors Hit Upon Unique Plan For This Summer

Wade T. Mahan, secretary of the Munday Chamber of Commerce the past six months, has tendered his resignation, effective on July 1st, explaining that he was unable to perform the duties of secretary because his time was taken up in other matters.

A meeting of the directors was held Tuesday, at which it was decided the secretary's duties and luncheon arrangements would be carried on by the committees. The first committee, for the July 8th luncheon, is composed of W. E. Braly, W. V. Tiner and J. C. Campbell.

The above committee will appoint another at this meeting to arrange for the next meeting. This will be carried on for the summer months, and a contest will be held to see which committee can have the largest turnout at the luncheons and the most enjoyable program. This is expected to create much interest in the gatherings.

MRS. ARISTEL THOMPSON TEACHING AT AUSTIN

Mrs. Aristel Thompson, daughter of Mr. and Mrs. J. R. Burnison and a recent graduate of North Texas State Teachers College, taking her degree in elementary education with minor hours in art and industrial education, has accepted a position in the School for the Deaf in Austin. Mr. Thompson is with the State Department of Education at Austin.

IMOGENE DECKER RECEIVES BROKEN ARM

Imogene Decker, five-year-old daughter of Mr. and Mrs. Jim Decker, received a broken right arm last Friday while playing with several children. Imogene fell on her arm, breaking it at the wrist. She received medical attention in Munday and is reported to be recovering nicely.

**"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"—**

THE PEACE THAT IS TO COME

While we fight a war, we must also plan for the peace that is to come. When the last shot is fired, this nation will face problems as vast, as difficult and as vital to its survival as those posed by the war itself.

On the credit side, we will have a protective machine greater than that of all the rest of the world combined—a machine which will be unparalleled in efficiency as well as in size. On the debt side, we will have a national debt of over \$200,000,000,000, and interest payments alone on that debt will amount to some \$6,000,000,000 a year. That debt can be serviced, and gradually reduced, only if our national income holds to levels unknown before this war began. And such income can be secured only from private enterprise—from the earnings of industry and the individual—not from government spending.

When the war ends we will have, on the one hand, a colossal bureaucracy built up during the war. We will have, on the other, the incredible resources and installed capacity developed by private enterprise. And then the great test will come. If democracy and freedom are to survive the peace, if the American standard of living is again to rise to ever-greater heights, that system we call private enterprise will have to be freed of all the restraints and controls the war emergency made unavoidable.

We cannot progress in the future with a philosophy of scarcity. We cannot progress and meet our obligations if super-government is perpetuated and competes with private enterprise in many lines of endeavor. We can progress if, and only if, the enormous energies of the American people and American industry are completely released and encouraged to produce—then they can pay the needed taxes to keep this country solvent.

In a famous address, Vice-President Wallace said that the post-war era must be the era of the common man. And that can have only one meaning. It must be the era in which all men are not only permitted but encouraged to go as far and as fast as their abilities and energies can take them, undeterred by the dead hand of bureaucracy. It must be the era of true freedom of all people everywhere.

This country is the leader in producing for war. It must also be the leader in producing for peace. All over the world, hungry and destitute people, living in ruined lands, will want and need what our American factories can provide. The salvation of the world will lie in more trade, more production—and more free enterprise.

The problem of the debt is not simply a problem in economics. It is a problem in philosophy as well. If it is faced in the typical American manner, and all private capital is encouraged to go to work and create maximum production, it can be solved. If it is faced in the manner of the totalitarian states, and more and more power is seized by governments, accompanied by more and more public debt, leaving the people with less and less freedom of action, it can never be solved. Then we would have truly lost the war, aside from the military decision reached.

After this war, free enterprise in America will be in a position to make unprecedented contribution to the well-being of our own people and the peoples of foreign lands. If we have faith in this country, if we understand this country and all it stands for and all it is now fighting for, that will be done.

CRUELTY OF THE AXIS

For sheer unnecessary cruelty, the Axis leaders can bear comparison with the blood-loving conquerors of antiquity.

Additional evidence has been produced to completely substantiate Anthony Eden's almost unbelievable report of what the Japs did at Hong Kong. Wanton murder, torture and rape are apparently a definite part of Japanese policy.

In Europe, Hitler is pursuing a similar course. When "crimes" are committed, against the Germans in occupied countries, no particular effort is made to find and punish the guilty. Instead, scores of innocent people are summarily executed. And the Nazis usually pick victims who have qualities for leadership—in order to further their policy of turning those countries into slave states whose function for all time will be to produce British laborers for the New Order. Cold, planned barbarism is part and parcel of the Axis' design for world conquest.

During World War I, airplane engines had to be overhauled every 50 hours. Today, because vital parts can be machined to within a few ten-thousandths of an inch, they can go 600 hours without repair.

I have never been able to conceive how any rational being could propose happiness to himself from the exercise of power over others.

A LAND OF PLENTY

The vast production machine that has been set up in this country will mean far more than victory over the Axis. It will mean a new and better world after this war is over. Donald M. Nelson, chairman of the War Production Board, expressed this opinion in a recent speech when he said:

"We are fighting for something. For a generation we have been living on the edge of a new world; we are only now beginning to realize it.

"For the first time in the history of the human race there will be enough of everything to go around. Poverty is not inevitable any more. The sum total of the world's greatest possible output of goods, divided by the sum total of the world's inhabitants, no longer means a little less than enough for everybody. It means more than enough. The possibilities in that simple statement are beyond calculation—and what we are fighting for is the right to turn some of those possibilities into realities"

This war is only part of the picture which we face today, according to Mr. Nelson. "For if the war is costing us a fearful price, it is also developing for us new techniques and new abilities. It is placing at our disposal an industrial plant—a set of developed resources—that will simply be beyond price. We shall have the most magnificent opportunity any nation ever had. To accept that opportunity we need only to have the good pioneer sense not to be frightened by it just because it calls for new mental attitudes and new habits of thought."

The industrial miracles that we have recently seen performed in this country show us that the pioneer spirit of America is still alive, and manufacturers promise us that after the war is over the huge production facilities and new techniques that have been developed will be turned over to civilian needs so that this may truly be a land of plenty.

TRAINING MANPOWER FOR WAR PLANTS

War industries were handicapped, when they began moving to Texas, by the lack of skilled help to build the planes and ships and munitions which were expected of them on short order and in large quantities. They were faced with the proposition of having thousands of skilled and semi-skilled jobs to fill, and no workers who were even partly qualified to take hold and turn in a reasonably good performance.

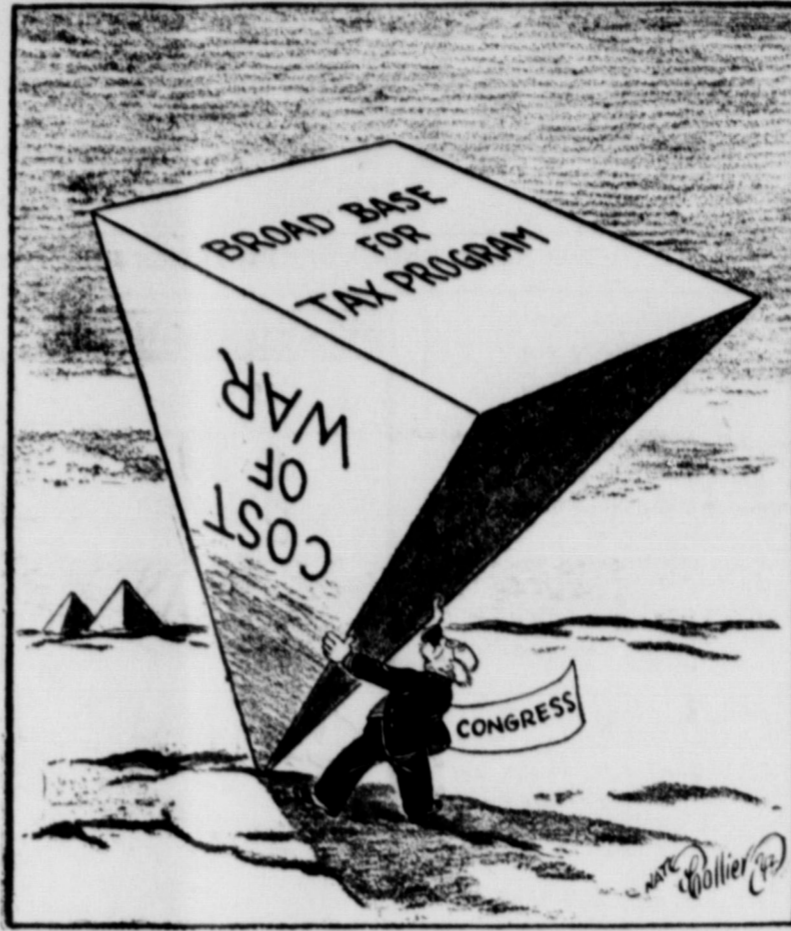

Effective planning on the part of the federal and state government and the public school system seems to have solved the problem, however. Using existing facilities and setting up new ones, they launched into the formidable task of making riveters, machinists, welders and other skilled or semi-skilled workers out of farm boys, office clerks and soda-jerkers. More recently, they have offered the same sort of training to women and th employees find the women just as satisfactory on the job as are men.

Many a youth has spent money to learn some of these wartime trades but the War Industry training schools are free. Thousands of people have learned trades that will benefit them throughout their lives, while the same time becoming able to earn a good living and do their patriotic duty during the emergency.

The agency which creets people into these schools and then into war plant jobs is the United States Employment Service, one of whose most worthwhile functions is to provide the opportunity for people to better themselves while serving their country well.

The chairman of an automobile concern recently disclosed that the company's plants alone were delivering \$5,000,000 worth of war materials daily.

BALANCING IT THE HARD WAY

Gems Of Thought

POWER

Power without justice is soon questioned. Justice and power must therefore be brought together, so that whatever is just may be powerful, and whatever is powerful may be just.—Pascal.

Power is so characteristically calm, that calmness in itself has the aspect of power, and forbearance implies strength.—Bulwer-Lytton.

There is but one real attraction, that of Spirit. The pointing of the needle to the pole symbolizes that all-embracing power or the attraction of God, divine Mind.—Mary Baker Eddy.

It is a strange desire, to seek power, and to lose liberty; or to seek power over others, and lose power over a mans self.—Francis Bacon.

Since nothing is settled until it is settled right, no matter how unlimited power a man may have, unless he exercise it fairly and justify his actions will return to plague him.—Frank A. Vanderlip.

Rules Given For A Sane Fourth

Austin.—A plea for a safe and sane Fourth of July was issued today by Dr. Geo. W. Cox, State Health Officer, who declared, "We should not forget that the glorious Fourth is the anniversary of American freedom—a freedom which is now in jeopardy.

"This nation needs very man, woman and child at maximum physical strength. Unnecessary loss of life or time from careless accidents is a form of sabotage against our total war effort."

Dr. Cox stressed the fact that hundreds of accidents each year among Fourth of July celebrants, including drowning, traffic casualties, and serious injuries from fireworks. He declared that every day's time lost in this manner will handicap the nation's war effort.

"The celebration of American independence is a custom dear to the hearts of all Americans," Dr. Cox said, "but this year as never before care should be taken to avoid accidents which cripple or kill since our maximum manpower is needed for the successful prosecution of a war to defend that same American freedom."

"Using caution in water sports and in traveling on the highways will aid materially in cutting down the total number of accidents and the cautious handling of all fireworks will result in fewer painful injuries to small children," Dr. Cox declared.

Harvey D. Arnold was home from Camp Berkeley over the week end, visiting his parents, Supt. and Mrs. H. D. Arnold of Goree, and with friends in Munday.

Cotton Congress Opens July 9th In Dallas, Texas

Dallas, Texas.—"Cotton in War and Peace" will be the theme of the Third Annual Cotton Congress at the Baker Hotel in Dallas, July 9-10, under the sponsorship of the State-Wide Cotton Committee of Texas, Burris Jackson, Hillsboro, has announced.

Director A. B. Conner of the Texas Agricultural Experiment Station is Congress Chairman. A. L. Ward, Dallas, Educational Director, National Cottonseed Products Association; H. H. Williamson, College Station, Director, Texas Extension Service; and Doctor A. B. Cox, Austin, Director of Bureau of Business Research, University of Texas, are program chairmen of the three Congress sessions.

More than 30 Texas organizations and such national organizations as the Cotton-Textile Institute and National Cotton Council are cooperating in the convention program, to be featured by a large number of exhibits of products and potential products made from cotton and cottonseed, as well as speeches by leaders in the cotton industry.

Nationally-known speakers on the Congress program will include: Doctor Henry G. Knight, chief, Bureau of Agricultural Chemistry and Engineering, U. S. Department of Agriculture, Washington; Doctor Claudius T. Marchison, president, The Cotton-Textile Institute, New York; Ed Lipscomb, director, Domestic Consumption Section, National Cotton Council of America; and others.

Cotton and cottonseed products' important part in the war effort and in post-war developments will be stressed at the 1942 Congress, and the program has been planned especially to be of interest and value to industrialists, bankers, chamber of commerce executives and other business leaders, as well as to several hundred members of the cotton industry who will attend the two-day session.

Autos Available to Eligibles

Declaring that the list of persons eligible to buy new automobiles is growing larger, due to increased employment in war production, Hubert G. Larson of Washington, chief of OPA's auto rationing branch, told a Dallas group last week that it is not unattractive for eligible purchasers to buy new cars. Sales of new cars release needed storage space and idle capital, he pointed out.

Army Needs Nails

All lumber yards in Texas, Oklahoma and Louisiana have received a letter from the region War Production Board office at Dallas, asking for lists of any kegs of nails they may have available, for use by the Army.

Sugar Books Available

Consumers who had excess sugar at the time they registered for rationing may now obtain rationing books from their local War Price and Rationing Boards, if their excess supplies have been depleted by allowances made for home canning, regional OPA Administrator Max L. McCullough announced.

Ceiling on Anti-Freeze

Dollars and cents maximum prices for anti-freeze at the retail, manufacturing and distributing levels have been announced by OPA, at points well below the speculative quotations prevailing at the end of last winter. The new regulation, No. 170, removes anti-freeze from regulation under the General Maximum Price Regulation.

Typewriter Deals Illegal

So-called "lend-lease" transactions by which certain stores have been accepting the full sales price of typewriters under a rental contract, with the agreement that the

purchasers will automatically acquire title to the machine when OPA regulations permit, are in violation of typewriter rationing regulations, OPA announced. Sale of typewriters has been banned since March 6, except to buyers who present certificates issued by their local War Price and Rationing Boards.

Travel to Fairs Not Essential

While postponement of state and county fairs, in accord with ODT's recently announced policy, will be a deprivation to the farmer, it will "by no means be an intolerable deprivation," ODT Director Eastman declared. He reaffirmed the decision that travel to and from fairs is nonessential.

Cosmetics Order Expected

Reduction in the number of permitted shades and odors of a wide variety of items ranging from lipsticks to "cosmetic stockings" will be a feature of a forthcoming WPB order limiting production of cosmetics. Limitations on container sizes and production of less-essential items also may be included in the order.

Rent Control Area Added

Designation of a twelfth defense-rental area in Arkansas has been announced by Price Administrator Henderson, who named the counties of Craighead, Independence, Jackson and Lawrence as the Newport-Walnut Ridge defense-rental area. Henderson recommended that rents in the area be cut back to levels of March 1, 1942, and that provision be made to protect tenants from unwarranted eviction.

Tin Salvaged From Sewers

Several hundred pounds of salvage tin in the form of discarded tooth paste tubes have been recovered from New Orleans sewers by cleaning crews. The search for tin and other metal scrap will be continued, and the collection turned over to the civilian defense salvage committee.

Political Rallies Dropped

A warning to state and county officials that their eligibility for new tires will be cancelled if the tires are used for non-official purposes has been issued by OPA. Reports have come to the Texas OPA office at Fort Worth that cars of county officials have been seen at political rallies loaded with passengers obviously not on official business. In Dallas, Tarrant and Travis counties, candidates in the forthcoming election have responded to OPA's appeal to conserve tires by agreeing to forego political rallies this year.

New Duties for Local OPA Boards
Letters outlining five major duties which board members will be asked to handle have been mailed to local War Price and Rationing Boards by Price Administrator Henderson. These duties include distribution of explanatory material on the General Maximum Price Regulation, filing of lists of cost-of-living commodity prices prepared by retailers, and receiving and forwarding to OPA complaints of price regulations.

Increased Sugar Available
Increased sugar allotments in proportion to the increase in the number of meals being served now are available to restaurants, hotels, boarding houses and other institutional users, region OPA Administrator Max L. McCullough announced. Institutional users of sugar in areas where war facilities have brought an increase in the service of meals will benefit from the increased allotment, he said.

Southwest Leads in Salvage
More iron and steel scrap moved from auto graveyards to the nation's war furnaces in May from the Dallas WPB region, which includes Texas, Oklahoma and Louisiana, than from any other WPB region in the country. Total tonnage moved from the region was 81,888 tons. Nearest figure reported from the 12 other WPB regions was 46,427 tons.

HIGHER AND HIGHER goes Cornelius Warmerdam. He bettered his last year's pole vault record of 15 feet by 2 1/2 inches in this leap at the A. A. U. meet at Randall's Island, New York.

this year trapped 1,227 bobwhite quail in South Texas and released them on 12 depleted game management areas in five counties.

Native Texas Ducks

Not all duck fly farther southward than Texas for the winter. Thousands spend the cold months on East Texas lakes. A Game Department biologist recently counted 7,500 ducks that wintered on nine East Texas lakes.

Feeding Prairie Chickens

Fourteen feeding stations have been completed on the prairie chicken range in Hemphill county by Game Department biologists. They were stocked with shocks of grain and the chickens, instead of straying, stayed on the breeding range and as a result a better breeding season resulted.

INTERESTING FACTS

Bread mold has now become useful and important in industry. One chemical company reports mold helps to convert starch to alcohol, which is needed to make gunpowder.

Hundreds of war plants have stepped up production as much as 50 per cent as a result of job instructor training that is now being provided for new employees.

To provide special alloy steels for war needs, annual electric furnace capacity in the United States was increased from 1,491,000 net tons in 1938 to 3,738,000 tons this year.

More than 50 different articles made from rubber or rubber synthetics are used in the production of airplanes.

Dehydrated vegetables have only about one-fifth the weight of fresh vegetables and for that reason save valuable shipping space today.

To keep employee morale high and to speed production one company set up a table-type board in the factory and placed miniature soldiers on it. The soldiers are moved forward each week, and their position indicates the amount of work that has been done by each division in the plant.

LOCALS

TEXAS OUT-O-DOORS

Austin, Tex.—To supplement the family diet and at the same time to economize on meat purchases during war time, farmers and ranchers of the State were urged today by the Executive Secretary of the Game Department of construct ponds on their properties where suitable for the production of fish. Within the limits that exist, the Department will stock the ponds with an initial supply of fish that over the years, under proper management, will increase greatly. Hundreds of small and large ponds already have been constructed, and the demand made upon the Department for fish for stocking purposes is great, considering that the State's hatcheries must also stock public lakes and streams; but within its ability to do so, the Department will be glad to assist any landowner in this wartime emergency food program, the Executive Secretary said.

In addition to stocking farm and ranch ponds where possible, the Department is also in a position to assist landowners with advice concerning fertilization of the ponds to assure proper food and cover conditions for the fish. This information has been compiled and plainly stated for the average citizen in a mimeographed bulletin by the Department's Chief Aquatic Biologist. The bulletin may be obtained free upon request from the Game Department, Austin, Texas.

In addition to giving information concerning fertilization of ponds, it gives much advice about the proper stocking of these waters.

A LETTER TO UNCLE SAM

Dear Unc,

The priorities around this house are simply terrific. What a time I had getting at the typewriter to make up this letter of thanks.

You see, it's this way. Every Sunday, and after dinner weekdays, Dad used to take Mother and me for a ride. And did we dread it!

Mom said Dad used to drive like a maniac... no regard for my tender feelings and stomach. He'd honk and fight his way through traffic, missing fenders by an eyelash, at a speed that made my heart bump my tonsils.

Now, boyoboy what a relief!... Dad heard a Phillips news broadcast say that Uncle Sam wants every motorist to Care for his car—For his country. Then he saw a Phillips ad which said that any Phillips Service Station man would be glad to show him how to do it. Well, to make a long story not too long,

the Phillips man whispered the magic words to him: **DRIVE UNDER 40**

You'd never think anything so simple could change my whole life. But it did. Dad now drives like a human being. He has found out that he not only saves rubber, but also gas and oil... and saves his nerves, too. Mom swears that Dad is a different man ever since he started getting gas, oil, and car-care at the Phillips Service Station... you know, the ones that have the big Orange and Black 66 Shield.

I guess lots and lots of other folks are going there, too, because I sure hear plenty of talk about Phillips 66 Gasoline and Phillips 66 Motor Oil.

I even hear that you're using some of it yourself.

Respectfully,
Your Grateful Nephew

Phill-up with Phillips for Greater Mileage

Kullman-Myers Wedding Solemnized At Bryan, Texas

Mr. Woodrow Myers of Munday and Miss Katherine Kullman of Magnolia, Texas, were united in marriage at Bryan, Texas, on Saturday, June 20th.

Mrs. Myers is the daughter of Mr. and Mrs. W. E. Kullman of Magnolia, and is employed in the extension service department of Texas A. and M. College.

Woodrow is the son of Mr. and Mrs. R. L. Myers of the Sunset community. He finished high school at Sunset and last spring completed a course in petroleum engineering at A. and M. College. At the present he is serving as second lieutenant in the ordnance department at Fort Knox, Kentucky.

Former Munday Girl Is Recently Married In Breckenridge

Miss Opal Fern Parks, formerly of Munday, and Sgt. Russell B. Bledsoe were united in marriage in Breckenridge at 9 p.m., Thursday, June 25. The Rev. Gray of the Presbyterian church officiated at the single ring ceremony.

The bride wore a blue printed sheer dress with beige accessories. Her corsage was of pink rosebuds.

The couple were attended by T. W. Brown as best man and Mrs. Brown as matron of honor. Mrs. Brown is a sister of the bride. She wore white with beige accessories.

Mrs. Bledsoe is the daughter of Mr. and Mrs. M. W. Parks, formerly of Munday, who now live on their ranch near Breckenridge.

Sgt. Bledsoe, who is stationed at Brownwood, is the son of Mr. and Mrs. G. T. Bledsoe of the Texas Company, also of Breckenridge.

A reception was held for the couple in the home of Mr. and Mrs. Brown immediately after the ceremony. Only families of the bride and groom were present.

Luncheon Club Meets Thursday With Mrs. Pendleton

Mrs. H. A. Pendleton was hostess to the Thursday Luncheon Club in her home last Thursday.

The luncheon was served buffet style, from the dining table that was artistically decorated with morning glories. Morning glories in small jugs, also decorated the quartette tables.

Guests included Mrs. Orb Coffman and Mrs. Cecil Barton from Goree, and Mrs. H. F. Jungman. Members were: Meses. T. G. Bengo, C. R. Elliott, S. E. McStay, W. R. Moore, Effie Alexander, Fred S. Broach, C. P. Baker, W. E. Braly and Miss Shelly Lee.

After lunch the guests enjoyed games of 42.

Birthday Party Given Recently For Ann Adams

Mr. and Mrs. Norman Frey entertained recently with a birthday dinner, honoring their 4-year-old daughter, Ann.

Guests present were Mr. and Mrs. A. J. Stratton, Jr., and little daughter, Gloria Jane, of Fort Worth; Mrs. C. D. Stratton, Hemet, Calif.; Mrs. Jack Carter, Cincinnati, Ohio; Mrs. Donald Stratton, also of Cincinnati.

Mrs. Carter brought the birthday cake from Cincinnati, and the party enjoyed a gala occasion.

New Deal Club Meets Wednesday With Mrs. Jungman

Tables for games of bridge were arranged on the screened front porch last Wednesday morning when Mrs. Carl Jungman was hostess to the New Deal Bridge Club.

Mrs. Grady Roberts held high score honors, and was presented with defense stamps.

A refreshment plate was served to Meses. Fred Broach, Jr., Wade T. Mahan, Grady Roberts, E. M. Roberts of Amarillo, W. M. Huskinson, Alice Wray, Sebern Jones, Agnes Mayes and the hostess.

Mrs. Mattie E. Moore is visiting in the home of her daughter, Mrs. A. C. Brock and Mr. Brock.

Mrs. Lillie B. Courtney and daughter, Mrs. Genoma Baker, of Fort Worth, are visiting in the home of Mrs. Courtney's mother, Mrs. B. L. Bowden, and with other relatives and friends.

Young Ladies Are Guests at Meeting Of Service Guild

Members of the young ladies' missionary society of the Methodist church were guests of the Wesleyan Service Guild last Monday evening in their regular meeting at the church.

The group was entertained with a program on "Love," which was followed by a social hour.

Ruth Baker gave the devotional, and Mrs. C. P. Baker read a story on love. Prayer was given by Merle Dingus, and Mrs. C. H. Giddings, Miss Jeanette Campbell and Mrs. Bill Billingsley sang "Love is the Theme," accompanied at the piano by Mrs. M. F. Billingsley. The group was dismissed by the Guild benediction.

Guests present were Zell Spann, Flora Bell Ratliff, Dixie Atkelson, Margaret Jean Womble, Betty Golden, Flora Alice Haymes, Patsy Ruth Kirk, Bette Morris and Jean Guess. Guild members present were Meses Merle Dingus, Jeanette Campbell and Ruth Baker and Meses. Bill Billingsley, C. P. Baker, M. F. Billingsley, Aaron Edgar, C. H. Giddings, Joe Bailey King, and Levi Bowden and son, Lee Ancil.

Mrs. Dulaney Is To Be Honored With Open House at Goree

Open house will be held in honor of Mrs. Olive Dulaney at her home next Sunday evening from 6 to 8 o'clock.

Mrs. Dulaney's life of active service to her fellowman has been a great inspiration to her many friends in this section. Mrs. Dulaney's husband, the late Rev. H. T. Dulaney, was one of the pioneer Baptist ministers in this part of the country.

This is a special invitation to all of Mrs. Dulaney's friends to call at her home and visit with her.

Congratulations to Mr. and Mrs. C. H. Herring on the arrival of a baby boy, born June 30th.

Miss Sophie Michalik is visiting with friends in Baltimore, Md.

Mrs. Homer Hediger and daughters, Paula and Sue, of San Antonio, have returned home after a visit here in the home of Mrs. Hediger's parents, Mr. and Mrs. L. C. Floyd. Mrs. Floyd accompanied them home for a short visit.

Mr. and Mrs. J. M. Burns, Lewis Reagan, and Mr. and Mrs. Austin Floyd and son, Tommy Wayne, returned this week from a visit with their son, Corporal Edward Burns, who is stationed at Fort Bliss, El Paso. They also visited in Old Mexico and New Mexico.

were present, with only one absent, Mrs. Troy Warren of Phoenix, Ariz., who was unable to attend.

Those present, beside a number of friends who called during the day, were: Mr. and Mrs. B. M. Stodghill and children, Bernadene and Charles of Lovington, New Mexico; Mrs. Gordon Sweatt and daughter-in-law, Mrs. H. Sweatt, and little daughter, Barbara Sue, of Plainview; Mr. and Mrs. R. L. Burton and daughter, Nancy, of Haskell; Mr. and Mrs. Dorse Rogers and son, Bill, Munday; Mr. and Mrs. Joe G. Rogers and daughters, Patricia and Shirley Ann, Fort Worth; Mrs. Alice Wray of Menard.

Other out-of-town relatives included Mrs. N. M. McAdams, a sister of Mr. Rogers, who is 85 years of age and the only other member of the family living; Mr. and Mrs. Dan McDonough, Mrs. Bill Beazley and Mrs. E. J. Seely, all of Dallas.

ICELESS REFRIGERATOR FOR PRESERVING QUALITY OF EGGS

One of the best means of preserving the quality of eggs on the farm prior to their being brought into market is to keep them under refrigeration. This can be mechanical or artificial. Very satisfactory results can be obtained by the use of an iceless refrigerator similar to the old type milk cooler.

Plans and specifications for this refrigerator can be obtained from the Extension Service. This is an MS form No. 443 entitled, "Iceless Refrigerator for Holding Eggs to Check Evaporation and Check Temperature." This type of home-made refrigerator can be constructed with very little expense and is an excellent means of keeping up the quality of eggs on the farm, especially where they are marketed at least twice a week.

When the refrigerator is placed on a porch or some place where there is a good circulation of air, the inside temperature is reduced about 20 degrees under the outside temperature.

An effort should be made to get this information in the hands of all the people with surplus eggs for sale this summer and encourage

Mobile Bridge Ponton

Massive rubberized cotton pontoons like the one above aid in giving added mobility and striking power to U. S. armored forces. By the use of such pontoons with heavy steel treadways, new armored force bridges can be erected faster and carry heavier loads than any other military bridge in existence.

the construction of these refrigerators.

Thin shells on eggs are contributing greatly to the losses we are now having on eggs. A lot of eggs have shells of such texture they cannot be packed or shipped without breaking. This condition can usually be corrected through a change in the management program. Usually when green feed begins to dry up, we notice that thin shells begin to make their appearance. It is suggested that if a person is having this trouble that they add at least three per cent more alfalfa leaf meal to the rations. This should be a good quality dehydrated alfalfa leaf meal. In addition to this, it is suggested that a handful of fresh oyster shell be sprinkled over the top of the mash at least every other day until the shell condition is corrected. It is also a good practice in placing shell in small hoppers that only a small amount be placed in the hoppers and that it be changed whenever it becomes dusty or litter accumulates in the hopper.

Correcting the shell condition on

eggs will mean more eggs will go to market and losses from breakage will be reduced to a minimum.

Mrs. W. R. Moore accompanied her daughter, Mrs. Ralph Bernard, to Wichita Falls last Tuesday, where Mrs. Bernard left by train for Boston, Mass., where she and Mr. Bernard will make their home.

Mr. and Mrs. H. A. Pendleton and Mrs. Paul Pendleton spent last week end in Wichita Falls, visiting in the home of Mr. and Mrs. H. A. Pendleton, Jr.

Mr. and Mrs. R. D. Gray had as their guests last Sunday Mr. and Mrs. Ross Berrie and son, Ross Jr., of Lubbock; Mr. and Mrs. Jack Henderson and family of Seymour; Mr. and Mrs. Hoyt Gray and family of Knox City, and Mr. and Mrs. Zack Gray and family of Munday.

The Town That War Built

Passed by Cannon

In a Canadian Munitions City of 450 buildings and 6,000 workers, a fleet of taxis driven by smart driverettes is operated to save time for busy war workers. A reclaimed swamp nine miles square, once the bottom of a Laurentian mountain lake, is the site of the largest explosives plant established in Canada since the beginning of the war. Still in process of construction, the project is now equipped with 30 miles of tracks on its own railroad, a fleet of 30 trucks, living quarters, dining halls, a post office and hotel, all operating 24 hours a day.

Religious services are held on Sunday in the recreation hall. A thousand employees are engaged in construction of additional building facilities. Using modern production methods and safety devices the plant turns out shells of 2 1/2, 500-pound bombs, depth charges and many other items. Remote control preparation of cordite as a propellant for heavy calibre shells is an interesting series of operations; it is weighed, tied in bundles and cut to the required lengths on a machine once used for preparing cutting—al without being touched by human hands.

family of Hamlin and Mr. and Mrs. Frank Silman of Rochester spent last Sunday visiting in the home of Mr. and Mrs. Jimmie Silman. Misses Poly and Lorene Silman and Jimmie Silman Jr., returned to Hamlin with Mr. and Mrs. B. Hassan to spend this week.

Mr. and Mrs. Sam Hart of Jacksboro visited in the home of Mr. Hart's parents, Mr. and Mrs. W. H. Hart, last Sunday.

Sheriff Louis Cartwright of Benjamin was a business visitor here last Monday.

Good Cattle Sell Steady At Auction Sale

The Munday Livestock Commission Company reports a big run of cattle and hogs for last Tuesday's sale. Good cattle sold fully steady with last Tuesday's market, while common cattle sold around 25c lower than a week ago.

Top hogs sold from \$13.60 to \$13.75; sows, \$12.25 to \$12.75.

Canner and cutter cows sold from \$4.50 to \$7; butcher cows, \$7.50 to \$8.50; beef cows, \$8.75 to \$9.50; butcher bulls, \$7.50 to \$8.50; beef bulls, \$8.75 to \$9.50; butcher yearlings, \$8.50 to \$10.25; beef yearlings, \$10.50 to \$12.50; rannies, \$7.25 to \$8; butcher calves, \$8.50 to \$10.50; fat calves, \$10.50 to \$12.25.

Several head of stocker cattle sold from \$36 to \$46 per head.

Buyers for Tuesday's sale included: Ebner Packing Co., Wichita Frozen Meats, and John Ruddy, Wichita Falls; Bob Dickey and Giles Kemp, Rule; J. H. Lambler and J. M. Cash, Crowell; W. A. Jenkins, Quanah; O. A. Iseng, Truscott; J. M. Bradbury, Knox City; Wash Pogue and G. C. Sellers, Haskell; Ernest Brown, Oney; Louis Phelps, Ranger; C. L. Dar-nell and Perry Woods, Seymour; C. E. Hobert, E. R. Lowe, Mrs. Irene Meers, C. R. Elliott, M. C. Cunningham, G. H. Wyatt, John Al-bus, Munday; J. T. Mardeck and D. C. Haskins, Goree.

YOUNG PEOPLE GO TO LUDERS ENCAMPMENT

Rev. and Mrs. Luther Kirk are in Luders this week, where they are taking part on the program of the Methodist Intermediate Camp held there this week. Accompanying them to the camp were a group of some 12 or 14 youngsters who are attending the camp as representatives of the Munday Methodist church.

MANUEL W. AYERS AND FAMILY GO TO CROSBYTON

Mr. and Mrs. Manuel W. Ayers and little daughter moved to Crosbyton on Monday of this week to make their home. Mr. Ayers, who has been attending summer school in Lubbock, has resigned his position as instructor of vocational agriculture here and has accepted a similar position in the Crosbyton schools.

Miss Doris Bowen is spending a few days in the home of Miss Jean Brown, in Dublin, Texas.

Dr. and Mrs. James N. Walker and daughter Barbara Lee of Wichita Falls spent last week end here with Mrs. Walker's parents, Mr. and Mrs. G. R. Eiland. Mrs. Eiland and daughter remained for a few days visit, while Dr. Walker is preparing to move from the state hospital in Wichita Falls to Parkland hospital in Dallas for a year of internship.

Mrs. Sled Waheed and children visited with Mrs. Waheed's parents, Mr. and Mrs. C. S. Ameen, in Lubbock over the week end.

Weekend Also Weak End Of 1941 Accident Story

Drivers during 1942 may stay home on Saturdays and Sundays to save their precious tires, but in 1941 they were not restrained by this vital consideration. They hit the open road, and each other, in vast numbers on weekends. Consequently, those days proved to be the most dangerous ones in the week for motorists and pedestrians alike.

According to "The Wreckard," a new statistical analysis published by The Travelers Insurance Company, 20.2 per cent of all motor vehicle fatalities occurred on Saturday and 21.8 per cent on Sunday. The deadliest hour of the day between 7 and 8 p.m., statistics reveal, while the 60 minutes between 5 and 6 p.m. ticked off the greatest number of accidents involving injuries. Tuesday, for some reason, proved to be the safest day for motorists to be abroad.

Fatigue and reduced visibility presumably were responsible for the fact that more fatal accidents happened between 6 p.m. and

midnight than during any other six-hour period of each day. The next most dangerous stretch was from midnight to 6 a.m., when parties were breaking up and nearly empty highways encouraged drivers to speed.

How to Budget Your Driving

It took Mr. A. most of his adult life—until January, 1942, in fact—to learn how to go to work. All his life he had "drifted" into the main thoroughfares with their heavy traffic, their stop-and-go lights, and their sudden stops simply because he was too indolent to think out a new route for himself.

Then came the ban on new tires and cars, and Mr. A. got busy. He obtained a traffic density map of his city and charted several new routes. He tried them for a few days, noting the location of stop signals, railroad crossings, congested areas, and other spots which delayed him or subjected him and his car to danger. He jotted them down and gave each a number. He diagrammed his old route for comparison; then made diagrams of each new route as he tried it until he was satisfied that he had found the best one.

Note, in the diagrams at left and right above, that it used to take Mr. A. twenty-three minutes to go to work via his old, danger-fraught route, but by taking two minutes longer on his new route he eliminated four danger or delay spots, but he also found that the trip took one minute less than did the former route.

On this page you will find similar diagrams on which you can plot your old route and two new ones. Maybe your time isn't important, but when your tires are gone it will be too late to figure out how you could have made them last a little longer.

Here are tips that will help you in finding better routes:

Obtain maps of your city's layout, including traffic density maps, and obtain advice from your local traffic authorities. You are likely to find many routes which are practically unused, while thousands of drivers flood the main roads.

To save time and gasoline, and to preserve the life of your car, seek routes where you can maintain a steady pace, even though it is not a rapid one.

To save tires, avoid crooked, twisting roads, bumpy roads and streets which cross trolley tracks. Seek out routes where sudden stops are not necessary.

You can have your cake and eat it too by budgeting your necessary trips in this interesting manner.

YOUR USUAL ROUTE

Goree News Items

Mr. and Mrs. Cliff Moorman are here for a few days visit. Cliff is at Fort Bliss, El Paso, and is with the federal communications department.

Mrs. Jess Bruton has returned from a visit to Guymon and Bakersburg, Okla., and several other points. She was on the train that passed through Crowell during the cyclone, and said everyone thought they would be blown from the track.

Mr. and Mrs. C. R. Robinson of Dallas and Mrs. H. L. Perkins of Bowie were visitors with their parents, Mr. and Mrs. W. O. Barnett, the past week. Mr. and Mrs. Barnett have received word that their son, Foy Bain, who is stationed at Bamp Blanding, Fla., has been promoted to sergeant.

Mrs. Donald Stratton and Mrs. Jack Carter of Cincinnati, Ohio, are visiting with relatives here. Mrs. Carter made the trip to be present for her niece's birthday.

Mrs. Key Jones and Mrs. Tom Williams of Wichita Falls visited their niece, Mrs. O. C. Brock of Quanah. Mrs. Brock was a patient in the hospital in that city.

Mrs. Mabel Hall and Mrs. Quince Hall of Abilene spent the week end in Wichita Falls, where they met Quince, who is in training at Fort Sill, Okla., for a visit.

Sgt. Williams of Houston left last Sunday morning for his home. Mrs. Williams, who underwent surgery in the Knox county hospital, will remain here until she is able to make the trip home. She is reported to be doing fine.

Key Jones, who has been ill and a patient in a Wichita Falls hospital, is improving and expects to be able to come home soon. Mrs. Jones spent Tuesday visiting with Mr. Jones at the hospital.

Mr. and Mrs. A. V. Kemletz of Munday were dinner guests in the home of Mr. and Mrs. Barton Carl last Tuesday evening.

Ruth Robinson is spending a week in Haskell, visiting in the home of Mr. and Mrs. Noah Lane.

Mr. and Mrs. Dewey Robinson of Hawkins are here, visiting a few days in the home of Mr. and Mrs. Hubert Blankenship. Mr. Robinson is a brother of Mrs. Blankenship.

Mrs. Blankenship, who underwent surgery at the Knox City hospital recently, is improving.

Mr. and Mrs. Duane Morris and

son, Edwin, and Mrs. J. L. Brown visited relatives in Denton the past week. Mr. and Mrs. Morris left Saturday evening for Los Angeles, California.

J. W. Fowler and Jack Fowler were business visitors in Wichita Falls the past week.

F. A. Stark of Tulsa, Oklahoma, was a recent visitor in the home of Mr. and Mrs. J. W. Fowler.

Training Given For War Workers

Pointing out that more than 80 per cent of all jobs in Texas war industries are filled by workers who have had specialized training, S. H. Southall, manager of the Vernon office of the United States Employment Service today urged people of this area who wish war plant jobs to apply for the necessary training in the free war training industry schools.

"Most of these war industry jobs," said Mr. Southall, "are entirely new to Texans. Special pre-employment training is necessary before the employers will hire people to fill them. This training is provided to both men and women free of charge by the National Defense schools. There are openings now in these schools, and local people should investigate them through the Employment Service, which refers trainees to the schools."

The training program is operated jointly by the state and federal governments in cooperation with the public schools and provides courses to prepare workers for aircraft, shipbuilding, munitions and other jobs in which there is or will be a heavy demand. It is virtually impossible to get one of these jobs without the training, which has already landed thousands of workers in good paying jobs.

Machine shop, aircraft engine mechanics, aircraft sheet metal (including riveting), drafting and inspection are the courses offered. The training is open to men between the ages of 18 and 65 years, and to women between 18 and 45. The demand for women workers, who can fill most of these jobs is increasing.

Mr. Southall stressed the fact that the training is entirely free, the only cost to a trainee being that he must support himself during the six to 12-week training period. Even this is not true in all cases, as boys and girls from 17 to 24 years may be assigned to National Youth Administration war work centers where they will be boarded and paid a small wage while training.

The war industry schools are operated on a 24-hour daily basis so that all equipment can be constantly used and to provide training at all hours for trainees who must work while attending.

Mr. Southall urged that anyone in or near Munday, who is interested in entering a training class in the subjects listed contact him at the United States Employment Service, located at 1613 Peace street, Vernon, Texas. Also a representative of the United States Employment Service office of Vernon, Texas, can be contacted any Thursday, between the hours of 1 p. m. and 3 p. m., in the City Hall in Munday.

Mr. and Mrs. Aaron Edgar visited with Mr. and Mrs. Don Ferris in Seymour last Sunday afternoon.

CANADA—"AIRDROME OF DEMOCRACY" DECLARES PRESIDENT ROOSEVELT

This air gunner sights his twin machine guns from his "office" in the stern of a U. S.-built "Boston" twin-engine bomber. The Hun has learned, at great cost, that it is not healthy to sit on the tail of these fast, well-armed medium bombers.

"There's the target." Two observers compare notes before their squadron of "Boston" bombers head for Hun territory.

Sgt. Lloyd Sinclair, of Paris, Ont., looks for the signal from his ground crew before taking his Spitfire zooming into enemy-held territory.

Three "Yanks" in the R.C.A.F. L. to R., P.O. Al Lukas, Chicago; Sgt. Bill Handright, Memphis; and Sgt. Haskell, Boston, prepare to take off after being forced down on rocky, treacherous ground. It is difficult to make such a landing, but taking off again is an even greater test of man's ingenuity.

The Royal Canadian Air Force is writing a story of daring and heroism in the war-torn skies of the world. Their part in the aerial battles of this planetary war has become a daily recital of perseverance, perilous missions and cool reconnaissance.

All of this is not accident, or dependent entirely on the bravado and courage of remote individuals. The work these flyers are doing reflects the training they have received.

One of the highlights of a recent air training conference held in Ottawa was a message from President Roosevelt, read by Mr. Robert A. Lovett, United States Assistant Secretary of War for Air, which said in part: "... it is particularly fitting that this conference should be held in Canada, for Canada is increasingly becoming the airdrome of Democracy, sending from her training fields thousands upon thousands of her own men and men of the other United Nations to fight in the cause of liberty."

England's 24-hour schedule for air offensive over continental Europe is calling into action the many men and machines supplied by the United States and Canada. The illustrations here show a few of the activities.

William Jennings Bryan used to tell on himself: When Bryan was a young lawyer, he took an active part in a campaign against the Governor of Nebraska but in spite of the fiery speeches of denunciation which Bryan delivered, the Governor was re-elected. Some time later, there was a celebration in Bryan's home town and the Governor was to be master of ceremonies. What made it embarrassing to Bryan was that he was on the program, too.

As the time approached for him to be introduced, the Governor smiled and motioned to him. Bryan thought, "What a magnanimous man; he has forgiven me for all of those sledge-hammer speeches against him. When Bryan reached the chief executive, who had the program in his hand, the Governor looked up and said, "Young man, do you sing or recite?"

D. F. Walker of Barstow, Texas, spent the week end here visiting with old friends in Knox County. Mr. Walker resided here some 20 years ago, and he had a nice visit with many of the old timers whom he knew at that time.

Miss Charlotte Hannah returned home the latter part of last week after spending several days visiting her sister, Mrs. Troy Denham of Sand Springs, Okla.

Mr. and Mrs. Bernard Stodghill and children of Lovington, New Mexico, visited with relatives and friends here over the week end. They came to attend the golden wedding anniversary celebration of Mrs. Stodghill's parents, Mr. and Mrs. U. S. Rogers.

Mrs. Troy Denham and little daughter of Sand Springs, Okla., are visiting with Mrs. Denham's parents, Mr. and Mrs. Leland Hannah, this week.

Mr. and Mrs. Duane Morris and

son, Edwin, and Mrs. J. L. Brown visited relatives in Denton the past week. Mr. and Mrs. Morris left Saturday evening for Los Angeles, California.

J. W. Fowler and Jack Fowler were business visitors in Wichita Falls the past week.

F. A. Stark of Tulsa, Oklahoma, was a recent visitor in the home of Mr. and Mrs. J. W. Fowler.

Four New Foods Added to Blue Stamp Program

Three fresh fruits and Irish potatoes have been added to the list of blue stamp foods available during July under the Food Stamp program in Knox county, according to D. G. Guthrie, Jr., acting Area Supervisor, Agricultural Marketing Administration.

Fresh peaches, fresh plums, and fresh apples are the fruits added. These, together with oranges, all fresh vegetables, including Irish and sweet potatoes, and the staple foods continued on the list, will give participants a wide variety from which to select the foods they require.

Dried prunes and fresh grapefruit are the only two commodities removed from the July list. Dried prunes are being acquired for use largely by our armed forces and the season for heavy marketing of grapefruit is drawing to a close.

With these changes, the complete list of Blue stamp foods is:

sued by the Agricultural Marketing Administration for July 1 through July 31 in all stamp program areas is as follows: Fresh peaches, plums, apples, and oranges, all fresh vegetables including Irish and sweet potatoes, shell eggs, butter, corn meal, hominy, hominy (corn) grits, dry edible beans, wheat flour, enriched wheat flour, self rising flour, enriched self rising flour, and whole wheat (Graham) flour.

"Farmers," Mr. Guthrie said, "are working to produce abundant quantities of all the food needed by the United Nations. The Food Stamp Program helps to assure them, particularly in seasons of heavy marketings, of a fair return for the efforts they are making. At the same time the program adds many nutritious foods to the diets of families in need."

by BOYCE HOUSE

From inland sea and island,
From forests dark and wide,
From lone lakes deep and silent,
Where peace and beauty bide;
From mines that pour out treasure,
From wheatfields golden red—
We come with marching measure,
Till earth trembles with our tread.

From the hanging hillside village,
From the meadows high and clean,
From the valleys rich with tillage,
And meadows neat and green;
We come with hearts impassioned
With love of Liberty,
And free souls forged and fashioned
By faith and loyalty.

From streets where tower and steeple
Swim dimly in the sky;
From marts where busy people,
Their tasks and labors ply;
From shops where forges glimmer
And great trip-hammers jar—
We come, both saint and sinner,
Prepared from Freedom's war.

We come from hills and prairies,
From canyon, shore and street,
And this our common prayer is,
That God will guide our feet;
And temper mind and spirit
And sanctify each heart,
That each might haply merit
The grace to play his part.

The above stirring lines were written by R. F. Shand of Kerrville, whose son was one of the first Texas heroes to give his life in the present war.

"When picking up the papers that record the happenings in the little towns, one gains renewed faith in life," someone has written. "Here are set forth that which uplifts a community—the activities of the business men, the church items, farm news, and all the thousand and one happy social gatherings, as well as the marriages, births, deaths and daily occurrences that make up the simple annals of the great common people who are really the foundation of this broad country of ours."

"Thoroughbreds"

By BETTYE CRENSHAW

Linda paid little attention to the gait of the horse she was riding until she was out of Naptha's sight, and then she began to put Hammerstein through the different paces. He was really a marvelous horse, Linda observed. Gradually, she reined him to a walk, and patted him affectionately.

"I see no reason, Hammerstein, why I shouldn't ride you. However, your gait has improved." Glancing at her watch, Linda noticed it was almost noon. "I guess we'd better go back. Maybe we can make it before your fond Mr. Patton misses us."

She reined the horse down a beautiful winding path until they reached a private lane, called the "River Road," which connected the Fisher and Greenwood estates, and then she started Hammerstein off toward home in a canter.

Clem Greenwood was drunk when he left the clubhouse, but not to drunk to drive, he assured his friend, Tom Danfield. Tom protested and wanted to drive him home, but Clem, wearing confidence like a halo, only shrugged his shoulders at Tom's protest, climbed into his maroon convertible, and lurched down the highway.

Some time later, with a screech of brakes, he turned the high-powered car down the River Road. The alcohol and lack of sleep combined, lulled Clem's senses so that he failed to see anything in the road before him until, with a terrific impact, his numbened senses realized he had struck a horse and its rider.

With fumbling fingers, Clem managed to open the car door, for, by some miraculous power, he had remained behind the steering wheel. He stood uncertainly upon his feet for a moment, and then ran quickly to the inert form lying a short distance from the body of a

chestnut colored horse. Clem, with his expert knowledge of horses, knew in an instant that the horse was dead.

He knelt beside the figure of a girl and lifted her in his arms. Soft hair fell away from her face. Clem, sober now, his face white and tense, whispered hoarsely, "My God, what have I done?"

Patch Patton was driving slowly back to the Fisher estate. Swing music, coming over the radio, seemed to be beating in rhythm with the joyful word singing over and over in his mind. "Hammerstein, Hammerstein, Hammerstein." Patch was jolted back to reality as he rounded a bend in the road and came upon the scene of a recent accident. Jumping from his car that he had stopped with a jerk, Patch ran toward the man and girl, but stopped suddenly as he saw the horse.

"Hammerstein!" he shouted, and it was almost a cry. The horse was dead. He whirled to Clem with white hot fury. "You—you did this!"

Clem was now very calm. "Yes," he said, "I did it. But help me get this girl to the estate."

Patch was still shouting, "What was she doing riding Hammerstein? Who is she?"

"Hammerstein was her horse," Clem Greenwood announced as he laid the girl carefully in the back of Patch's car. "She is Linda Fisher."

With that announcement, Patch quieted down and drove madly to the estate.

Mrs. Fisher and Mary, the maid, rushed to the door as Clem gathered Linda in his arms. He carried her up the stairs to her room and laid her on the big four-poster bed. Mrs. Fisher asked no questions, but gave orders quietly.

"Call the doctor, Clem. Mary, get some hot water and towels."

She leaned over Linda and began removing her boots. When Clem returned from the telephone, she said, "Go down to the library and wait, Clem. I think she'll be all right."

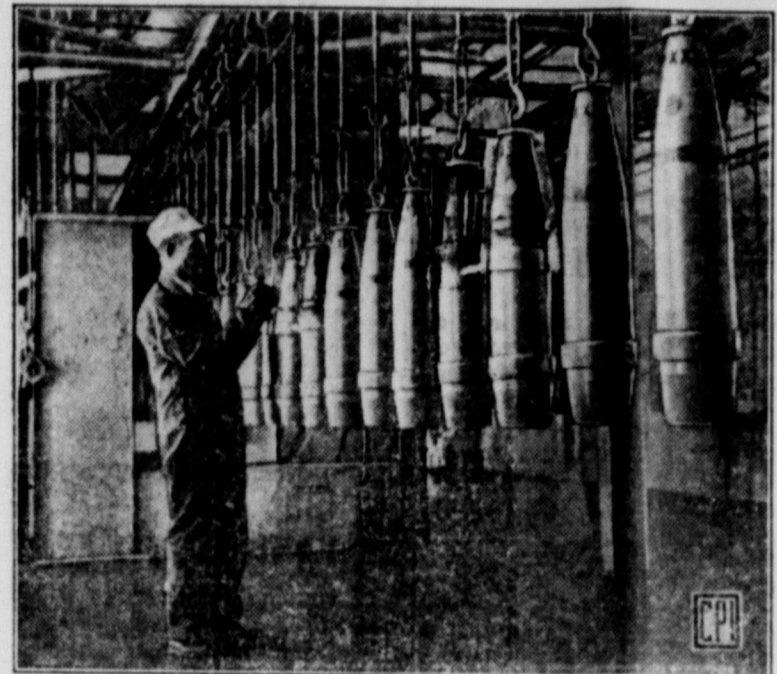

Clem went to the library, where, with shaking hands, he filled a glass with brandy, drank it, and sank into a chair.

Patch Patton did not enter the house when Clem carried Linda in, but ran out to the stables. As he went up the walk he met Colonel Fisher and Mr. Greenwood, who had been looking over a new horse the Colonel had bought at an auction a few days before.

"Patton," the Colonel said, stopping him, "Mr Greenwood here has a horse he wants to run privately against Hammerstein in the morning. Any objections?"

Patch gulped and looked squarely at Colonel Fisher. He had found that even though the Colonel did have a reputation of being a crab and eccentric individual, he was really very likable and considerate. This is one time, Patch thought, that he hoped he

BUNDLES FOR BOCHES

Passed by Censor

THESE 7.2-inch monsters are one of 39 types of shells produced in Canada's munitions factories. Slowly revolving on the endless trolleys these are nearing the end of the production line where they will be crated and sent on their way to strike another blow in the crusade against Hitlerism. The workman in this photograph is selecting each shell with an identifying varnish which covers each shell brings it precisely to the dimensions required by the gun. Perfected in Canadian laboratories to

eliminate a Great War problem, the varnish is a special compound which does not clog the breach of the gun. Canada and the United States have coordinated munitions output under the Joint War Production Board, which since November, 1941, has directed a plan under which both countries divide the responsibility for maximum production, sharing costs, material and labor. Scarce raw materials are being allocated between the two countries, each providing articles it is best able to produce for the most efficient prosecution of the war.

Colonel Fisher, I'm afraid we can't run Hammerstein."

"Well, why not?"

There was a brief pause, while Patch looked squarely at both men. He felt badly about this, too, for he loved Hammerstein as he loved all good horses, and he had no patience with this strong headed girl he had heard so much about, or with any man who thought he could preserve his dignity in alcohol. Deliberately he said, "Hammerstein was struck and killed a few minutes ago by an automobile driven by Clem Greenwood."

Mr. Greenwood started, and Colonel Fisher lifted his bushy eyebrows.

"Who was riding him?" the Colonel asked after a moment.

"Your daughter," came the answer, as Patch walked past the two men.

Colonel Fisher rushed upstairs to Linda's room, and Mr. Greenwood entered the library where he found Clem, just as he had expected. Quietly, Mr. Greenwood pulled a chair up in front of Clem and offered him a cigarette. Clem took it and fumbled with his lighter. Mr. Greenwood struck a match for him, and then leaned back in his chair.

"All right," he said, "Let's have the story."

Clem bit his lip. "I'll begin with last night. I took Carol Mason to New Albany and didn't get back to the club until some time this morning. Tom Danfield and I drank a bit, and combined with what I had at New Albany, I was pretty well lit. Tom didn't want me to drive back, but I did. I guess I must have been asleep, but after I struck then I got my senses back. You know the rest. Hammerstein was dead, and... well, I don't know about Linda."

Clem dropped his head between his hands. Mr. Greenwood didn't answer, but patted Clem lightly on the back.

The doctor was in Linda's room for some time, but at last he came out to the waiting group. "Miss Fisher is asleep now," he announced. "Two fractured ribs and numerous bruises constitute the extent of her injuries. It's really a miracle. Of course," he added, "there was quite a shock."

Mrs. Fisher sank weakly into a chair, and the Colonel patted her hand.

During the afternoon the sedative the doctor had given Linda lost its effect, and she was nervous and restless. Linda rang for the maid.

When Mary came into the room Linda asked about the horse. Tears sprang in Mary's eyes before she answered. "Yes, ma'am. Hammerstein was killed."

Linda didn't speak for several minutes. When she did, her question was, "What does father think?"

"He sure is put out," Mary said truthfully. "I guess maybe it wouldn't have mattered so much to the Colonel, Miss Linda, but you see, they had Hammerstein entered in the Derby."

"That," sighed Linda, her voice trembling, "is one of the freak accidents you read about. Here I lie, only slightly injured, and the best racer on the place is killed. What's more father probably cared more about the horse than he does me. He's always wanted to win the Derby. I've turned out to be a bad bet." She fought back the tears that stung her eyelids. "Just kicked out of school, and now I've killed the best horse. I don't see why it couldn't have been I."

"Oh, Miss Linda!" Mary said, but stopped, for she was not the crying type, and she trusted her

voice no farther. After a few seconds she cleared her throat and stated that Mrs. Fisher had sent for Tom Danfield.

Linda, too, had regained her composure. "I'll be happy to see Tom," she said.

As Mary left Linda's room, Clem entered the front door. Seeing Mary coming down the stairs, he rushed over to her. "How is she," he wanted to know.

"She's feeling dreadful physically, and direful mentally," came the reply.

Mrs. Fisher, coming near, asked whether Clem had been up to see Linda.

"May I?" he asked with almost little boy enthusiasm.

Laying her hand on his arm, Mrs. Fisher said, "Of course you may."

Clem raced up the stairs and knocked lightly on the door. He went immediately to the bed and took Linda's hand.

"I suppose you know..." he began, but Linda smiled and interrupted.

"Yes, Clem, I know, and it isn't at all necessary for you to say you're sorry. It was a terrible, unfortunate accident. I'm thankful neither of us was hurt worse." Echoes of her own words of a few minutes before sang in her ears, regardless of how she felt, she must be brave for Clem. He felt badly enough. "We've always understood each other, Clem," she

finished.

"Much better than you've ever known, my dear," he said. "And it wasn't an unfortunate accident. If I hadn't been drunk and half asleep I might have seen you in time to have stopped." He walked over to the window, then turned and flared at her, "And you—all with the sense of good horses you have—what in the devil did you mean by riding Hammerstein down the river road?"

Clem was standing over her again, gazing down at her red gold hair. Linda was staring straight ahead. Before she had time to answer, Clem gave another ejaculation and yelled with a burst of pent-up emotion, "And what are you doing home in the first place?"

Linda felt her face grow cold, then hot, but she managed to say quietly, "Pipe down, if you don't want our touching little visit interrupted. I didn't know they were training Hammerstein for the race, much less did I know he was entered. We have always ridden the River Road, so naturally, I didn't think. Anyway, I didn't care. I don't care for anything! I'm home because I was expelled." She closed her eyes to prevent Clem seeing the tears welling up in them.

"Linda, I'm sorry. I didn't dream..."

Clem hesitated and wanted so

much to take her in his arms and let her have her cry. But he was no leaning post, he thought, ruefully. He heard the door open and turned to see Tom Danfield, tall, brown, and dignified, standing there. The learning post, Clem thought, as he went quickly from the room.

Clem checked his speed as he reached the veranda, which was drowsy with history, but did not make a motion to stop as he noticed the Colonel was sitting there, smoking his pipe and gazing out across the broad, carefully trimmed lawn.

The Colonel, seeing him, reached out with his cane and halted him. "What's your hurry?" he asked.

"Nothing, I guess," Clem said, fumbling for words. "I was just—"

The Colonel chuckled. "You were just rushing past me because you didn't want to be called upon to face me." He motioned to a large wicker chair. "Sit down, Clem, I want to talk to you."

For some time Colonel Fisher talked kindly to Clem about the accident, then gradually sent the conversational ball into lighter veins. When the stable boy interrupted them, they were both thoroughly enjoying themselves. Clem stated later that when the Colonel started talking to him, he was looking down, but when he left him to go to the Greenwood place, he was looking up again.

(To Be Continued)

Mrs. E. M. Roberts and children, Nancy and Edwin, of Amarillo, are visiting with Mrs. Roberts' father, W. H. Atkinson, and with other relatives here.

Jerry Kane was a business visitor in Stamford last Monday morning.

Mrs. Jimmie Terrell and daughter, Jo Ellen, of Wichita Falls visited in the home of Mr. and Mrs. C. P. Baker last Thursday night.

Charles James Reese of Fort Worth is visiting with his grandmother, Mrs. S. A. Bowden, and with other relatives here this week.

The Munday Times

Church History ...

(Continued From Page One)

church are:
 J. A. May, 1907 to 1909.
 E. E. Dawson, 1909 to 1910.
 J. A. Brendell, 1910 to 1911.
 E. R. Speck, 1911 to 1914.
 Chas. A. Powell, 1914 to 1917.
 W. R. Underwood, 1917 to 1918.
 J. H. McCauley, 1918 to 1919.
 J. O. Heath, 1919 to 1925.
 P. D. O'Brien, 1925 to 1928.
 W. H. Albertson, 1928 to present time.

After the establishment of the town of Munday and the erection of the public school building in 1898, the church changed its place of meeting from the Helm school to the Munday schoolhouse, where they worshipped until the erection of their own building in 1906.

In 1905 the name was changed from New Hope Baptist Church to First Baptist Church, and the present property was bought on which to build a parsonage and church. This same year the parsonage was built, and in 1906 our first church house was erected. We were privileged to worship in this building four years, for on the 28th day of May, 1910, the building was destroyed by fire caused by lightning. The church then held services on the lower floor of the Masonic building until the fall of the same year. By this time the present building was erected.

The first Sunday School was organized in 1906 under the leadership of Bro. R. G. M. Eiland. The first superintendent was A. R. Lawson, who now lives in Alvarado, Texas, serving from 1906 to 1909. Since his resignation the following have served as superintendents:

R. H. Kilgore, 1909 to 1911; J. P. Clements, 1911 to 1912; R. C. Coach, 1912 to 1914; M. H. Reeves, 1914 to 1935; J. E. Reeves 1935 to 1939; R. B. Harrell, 1939 to 1940; Wallace Reid, 1940 to 1941; M. W. Ayers, 1941 to 1942.

Since the organization of the church, seven members have been licensed to preach and one ordained. They are the following: James Waldron, 1900; Rex Ray, 1908; Henry Hicks, 1909; S. E. Stevenson was licensed and ordained in 1914; Joe Burton, licensed in 1926; D. B. Weaver, Jr., 1931, and Walter Counts, 1935.

In the 1905 Baptist Ladies Aid was organized as an auxiliary to the church. Charter members known are: Mrs. J. A. Martin, first president; Miss Dottie Eiland, Mrs. R. C. Coach, Mrs. L. A. Craft, Mrs. R. G. M. Eiland and Mrs. R. L. Reeves.

This name was changed by the south-wide organization to Woman's Missionary Society, commonly called the W.M.S. Many women have served faithfully as presidents of this society. The following have at some time guided the advancement and welfare of the organization:

Mrs. J. A. Martin, first president; and Meses. A. R. Lawson, G. W. Oliver, R. C. Coach, R. L. Reeves, John Cook, E. H. Stodghill, R. J. Paxton, J. O. Bowden, M. H. Reeves, W. E. Reynolds, A. U. Hathaway, Tom Rigaby, B. L. Blacklock and Leland Hannah.

Our church records in part have been lost, so a complete list of those who have held membership in the church is impossible, but it is estimated from the records on hand and other reliable sources, that at least two thousand people have at some time had their names on our church rolls.

The records show that Mrs. O.

U. S. Treasury Dept.

W. Lee holds the longest record of membership, having joined the church in 1893, only one year after its organization.

The Lord has graciously blessed the church, and today it has a membership of about 430 who are striving to carry on to the honor and glory of His name.

SWAT THE ROOSTERS. PRODUCE ONLY INFERTILE EGGS

Buyers of eggs in Texas are reporting considerable losses from fertile eggs. At the present time these losses are running into thousands of dollars daily. Naturally this loss definitely affects the egg producers, the egg buyer, and reduces the volume of eggs that can be dried for armed forces and allies.

There are several ways this condition can be corrected. First, all egg producers, unless they are selling some hatching eggs at the present time, should dispose of every male bird on the premises. Any young cockerel retained for breeders next year should be confined to a pen or placed on a range a considerable distance from the laying flock.

A question was asked me this morning, "Will removing male birds from the flock cause a drop in egg production?" The answer is definitely "No." If we expect to produce a quality of eggs that are needed for our food program, we must produce only infertile eggs this summer. I think it would be entirely in line to organize a "Swat the Rooster" program in each county. I am sure that co-operation from produce houses and civic organizations can be obtained in putting over this program.

Mr. and Mrs. R. J. Paxton and daughter, Hattie Lucille, of Haskell were in town over the week end to attend the homecoming and 50th anniversary celebration at the First Baptist church.

Mrs. S. Hassan and children of Haskell visited with relatives and friends here last Thursday.

Visitors in the home of Mr. and Mrs. J. A. Wiggins over the week end were their children, Dr. and Mrs. J. A. Wiggins of Fort Worth, Miss Quintna Wiggins, who is attending teachers college in Denton this summer, and Mr. and Mrs. J. W. Smith of Houston.

Mr. and Mrs. W. A. Polster of Benjamin were business visitors in town last Tuesday. Mr. Polster stated that wheat turned out good in that section of the county and that he averaged 31 bushels to the acre in his 1942 crop.

Marvin Sweatmon, county superintendent of Hardeman county, and Wayne Terry, also of Quanah, were business visitors in town last Tuesday.

Mrs. Sebern Jones returned home last Friday from San Antonio, where she had been visiting her mother, Mrs. T. A. McCarty, for about two weeks.

Mr. and Mrs. Gene Harrell and daughter, Natalie, returned home last Tuesday from a weeks vacation spent in Oklahoma City with Mrs. Harrell's mother, Mrs. Sue Purkhisier, and with other relatives.

L. E. Hunter was a business visitor in Vernon last Thursday.

New Abstract Volume is Given To Knox County

Bascom Giles, Land Official, Makes Delivery Here

Bascom Giles, Commissioner of the General Land Office announced today the completion and publication of Volume II of the eight new state abstract volumes and presented a copy to E. B. Sams, at Benjamin Tuesday morning. The value, use and changes made in the new and streamlined volume were explained to a number of Knox county attorneys, abstractors and other interested persons.

Listing by counties and on a single line all of the information about original Texas land titles heretofore contained at random in 63 volumes, the book devotes 35 pages to Knox county's 1,947 abstracts. The first abstract from Knox county is on the George G. Alford Survey, which was patented to the heirs of George G. Alford on January 7, 1862.

Authorized by the 47th Legislature, the voluminous work of compiling the complete record of 406,000 Texas abstracts was completed in the General Land Office with the cooperation of the WPA.

"Covering 27 North Texas counties, this volume is invaluable to county tax assessor-collectors, abstractors, and attorneys as a cross index and source of information regarding land titles. It is also a basis of assessments to the quantity of the land," Commissioner Giles said in presenting the book.

Printed in eight permanent volumes of 50,000 abstracts each, the

BASCOM GILES

5,000,000 entries were compiled directly from the original volume issued in 1878 and from each of the supplementary volumes published annually thereafter. Then these old records were checked and rechecked against the original Land Office files. Under the old system, information about the abstracts in each county was taken piecemeal from each of the 63 volumes, necessitating the purchase of the complete set at more than \$200. But the new vastly-simplified books give all the data about one county in a single volume at a cost of \$12.50, and the information about each abstract on a single line.

Five of the remaining six volumes are now in the hands of the printer, and the last volume is in the final editing stage. Each county will receive a copy of the volume in which its records are listed, and additional copies of the set are available at the office of State Comptroller George H. Sheppard at \$12.50 a volume.

Commissioner Giles exhibited a great deal of justifiable pride in

ATTENTION FARMERS!

We learn that many cotton-fields in Baylor county are badly infested with cotton fleas, and we suggest that you examine your cotton and if necessary enlist the services of the County Agent, as they will do a lot of damage before you know they are here.

West Texas Cottonoil Co.

MUNDAY, TEXAS

Woman's Place is in the Factory

AS the reserve of employable male workers available for war industries reaches exhaustion, Canada must rely increasingly upon women for industrial labor. Thus 75,000 women are now working in war industries along with 600,000 men. Starting mainly as inspectors, like the girls in the accompanying photo who are checking 7.2 inch shells in a huge plant near Montreal, women have invaded almost every field of operation. Only in jobs which require physical strength

are they excluded, since new machinery has made it possible for even the heaviest operations to be accomplished by the press of a lever. Women are making intricate radio and electrical devices, shell fuses, parachutes and uniforms; they are driving rivets, welding steel, handling lathes and planers. Modern warfare demands 17 behind-the-scenes fighters for every soldier in action and women are swiftly overcoming the prejudice against them as industrial workers, relieving men for active service.

Benjamin were business visitors here last Monday.

John R. Rayburn, who is stationed at Camp Bowie, Brownwood, visited home folks here over the week end.

Mrs. J. E. Cure has returned from Weatherford where she visited her granddaughter, Mrs. Raymond Matley and little son, Troy Barnett. Her grandson came home with her for a visit.

Mr. and Mrs. H. L. Butler have received word that their son, Randall, is stationed in New York. He has been at sea.

Mrs. C. B. Warren is still confined to her bed, but is improving at this time.

J. G. Martin and Jerry Williams made a trip to Floydada the first of this week to see about the harvest, but found it was too rainy to combine.

Leo Jones left June 30, for Norfolk, Va., where he will enter service in the navy.

Mr. and Mrs. E. J. Jones had a family reunion at their home last Sunday. All of their children were at home for this occasion, and a number of relatives. Those present were: B. B. Jones of Slaton; Gladys Jones of Littlefield; Grace Jones and family of San Angelo; Mr. and Mrs. Leo Jones of Sweetwater; Mrs. Payne Wood of Littlefield and Payne Wood of Camp Barkeley; E. E. Lowe and family; Mr. and Mrs. T. H. Jones; Mr. and Mrs. Sam Hampton and family; Lloyd Hendrix and family; Mr. and Mrs. Marion Jones and family; Mr. and Mrs. Philip Jones and family; Mr. and Mrs. Travis Jones of Munday.

Mr. and Mrs. Rex Holder and little son of Crockett, Texas, came in the latter part of last week for several days visit with Mr. Holder's parents, Mr. and Mrs. D. E. Holder.

Mr. and Mrs. Clyde Burnett of

General Rains Fall Over Area

Rain which started late Wednesday afternoon has brought the much needed moisture to the dry and blowing croplands of Knox county. It is believed that better than an inch had fallen in Munday by noon Thursday, while the slow, but steady precipitation continued coming.

H. P. Hill, U. S. weather observer for Munday, reported that .19 of an inch fell here Wednesday. Reports from other parts of the county, especially those from the Vera community, are that Wednesday's rainfall was heavier than at Munday.

Many sections of the county were getting dry before the welcomed moisture of this week.

Mrs. Edgar Beecher and little daughter, Lila Jo, are visiting in the home of Mrs. Beecher's parents, Mr. and Mrs. J. O. Bowden.

Buddy Gafford, who is employed in Coleman, accompanied his parents home from Anson last Sunday and visited them here a few days this week.

E. H. Bauman returned Wednesday night from a visit with his son, Willard Bauman and family, in Centralia, Illinois, and with his brother, in Onaha, Nebraska. Mr. Bauman made the acquaintance of his young grandson in Centralia, and revisited the scenes of his youth at his home state of Nebraska.
