

Baptist Revival Will Close Sunday Night

Baptismal Service To Be Held Sunday at Evening Hour

Revival services which have been in progress at the First Baptist church here since August 2, will be brought to a close with the services next Sunday night.

Rev. W. H. Albertson, pastor, announced Wednesday that baptismal services will be held immediately following the Sunday night service. Many whose names have been added to the church rolls during this meeting will be candidates for baptism.

Good crowds are attending both morning and evening services this week. "We have had good attendance, and a fine spirit of cooperation has been manifested during the meeting," Rev. Albertson said, "and much good has been accomplished; yet we feel that there is much to be done. We urge your continued cooperation during the remaining services."

Rev. E. T. Miller's messages are full of hope and inspiration, and the congregations have listened with much interest. Some of the evangelist's messages during the closing services are on the following subjects:

Thursday evening, "The Second Coming of Christ"; Friday evening, "The World's Biggest Blackout"; Saturday evening, "Turned Back at Heaven's Door"; Sunday morning, "Heaven."

Pete Fast, choir director and singer, has received a number of requests to sing "Ship Ahoy" again. This song thrilled those who were present at last Sunday evening's service, and complying with the requests, Mr. Fast announced he would sing this song at the closing service Sunday evening.

A cordial invitation is extended to everyone to attend all the remaining services of this revival.

Red Cross Meet To Be on Sept. 7 At Benjamin

The executive committee of the Knox County Red Cross chapter in regular meeting at Benjamin on July 6th, set the date for the annual meeting of the county chapter for September 7, 1942, at 8:30 p.m. at Benjamin.

An interesting program will be given. Officers and committees will make reports of the year's work, and the election of officers and executive committee members for the next fiscal year will be held.

This will be an open meeting, and all members of the chapter are entitled to vote. You are urged to come and bring someone with you.

Fatten Calves For Home Beef Supply

More than ever before, the American family needs a larger supply of good palatable home produced food. Producing beef for home use is a real contribution to the wartime program.

If a milk-pen calf is available it should be started on feed at once. Use the feeds grown on the farm. It will take about 1200 pounds of grain, 1200 pounds of bundle stuff and two sacks of cottonseed meal to develop the average calf into good edible beef.

Neva Van Zandt and R. O. Dunke, extension agents of Knox county, are making an effort to secure the services of Mr. Roy Snyder, animal industries specialist of Texas A. and M. College. Mr. Snyder will perhaps spend one day in the county, giving a demonstration on canning and curing beef.

\$1.00 Per Capita Payment Received

The common schools of Knox county have received their full quota of \$22.50 per capita from the State of Texas for their school funds this year, according to Merick McGaughey, county superintendent.

The final payment of \$1.00 per capita was received last week, McGaughey said, and has been distributed to the common schools of the county.

12 County Men Are Classified

Only twelve registrants of Knox county were classified last Tuesday at the regular meeting of the Knox County Selective Service Board. John Wilson, clerk of the board, announced those being classified as follows:

Goree School To Open August 24

School Faculty Now Completed

At a meeting of the board of trustees of Goree Independent School District last Monday evening, Monday, August 24, 1942, was set as the opening date for the Goree schools.

Mrs. Lucille Marlow has been elected to take Mrs. C. P. Heard's place in the grades; Mrs. Thena Mae Bowdoin will be principal of the elementary school, and Miss Clara Belle Michael has been elected high school English teacher. The election of these teachers completes the faculty for the next school year.

It was announced that the school buses will make the same routes and stops as last year.

Kit Bags Needed For Service Men

From national headquarters of the American Red Cross comes an appeal for kit bags for men in the service. The War Department has indicated that thousands of kit bags will be needed during the next few months if the Red Cross is to fulfill its agreement to supply every service man with one as he leaves this country.

"Already several hundred thousand of these have been filled by nearly 400 chapters, who generously contributed to this project," Mrs. Sloan Colt, national assistant director, said. "We hope that other chapters will welcome this opportunity of adding to the comfort of our men in the armed forces. Already we are receiving many expressions of gratitude from the men who have received these gifts, as well as from their commanding officers."

"Generally the cost amounts to around \$1 per kit, and many chapters have found that different groups and organizations are delighted to assume responsibility for filling these kits."

Aristel Thompson, who recently entered the U. S. service, is in the hospital at Camp Wolters, suffering from an injured knee, according to reports received here. It will be necessary for Mr. Thompson to remain in the hospital for several weeks.

Mr. and Mrs. P.V. Williams and daughters, Jean and Charlotte Ann left last Sunday for Chanute, Tenn., for a visit with Mr. Williams' father, J. A. Williams, and with other relatives. While away they will visit with Lieut. and Mrs. Jack Williams of Wright Field, Ohio.

8 From County Get Certificates For First Aid

A lay instructors' course in first aid, sponsored by the American Red Cross, was completed in Crowell last Thursday night. The course, which opened on August 3, was taught by Elmo Low, Red Cross representative from Saint Louis, Mo.

Those taking the course went to Crowell for five nights for three hours of study. Preparation for the advanced course was given those from this county in a course taught recently at Benjamin.

Eight from Knox county completed the course and received their lay instructor cards in first aid. They are as follows:

- Guy E. Steen and Mrs. Jim Stephens of Knox City, J. C. Patterson, Julia Propps and Ernest Ingram of Benjamin, and Warren Morton, Jack Knox and Mrs. Jack Whitaker of Truscott.

Ration Books Asked When Men Enter Service

The Knox County War Price and Rationing Board called attention this week to the fact that many persons, either from lack of information or through negligence, are failing to surrender their war ration books to the local board when they are inducted into the armed service.

Heirs and next-of-kin also are failing to surrender to the board the books of persons who have died. The war rationing regulations are very strict in this regard, and we hope that the local board will not have to call on the Office of Price Administration to invoke the penalty provisions against persons who fail to observe this regulation.

Holiness Tent Revival to Open On August 17th

Members of the holiness church will open a tent revival in Munday, beginning on August 17th. The tent will be erected on the vacant lots across from the Munday hotel, it was stated.

"You will enjoy the old-time preaching and special singing," the members stated. Rev. W. E. Mitchell of Rochester will be in charge of the preaching.

"Our theme: 'America Back to God.' In unity we stand, divided we fall. Let us all come and reason together. Everyone is extended a cordial welcome to this meeting."

Livestock Sale Has Busy Date

The Munday Livestock Commission reports another big run of cattle and hogs for last Tuesday's sale, with all classes of cattle selling fully 25c to 50c higher than a week ago.

Top hogs sold at \$14 to \$14.25; sows, \$12.75 to \$13.

Canner and cutter cows sold at \$4.50 to \$7; butcher cows, \$7.25 to \$8.25; beef cows, \$8.50 to \$9.40; butcher bulls, 7.25 to \$8.50; beef bulls, \$8.75 to \$9.60; butcher yearlings, \$8.50 to \$10.25; fat yearlings, \$10.50 to \$12.25; rannies, \$7 to \$8; butcher calves, \$8.50 to \$10.50; fat calves, \$11 to \$12.40.

Some common stocker calves sold from \$7.75 to \$9. Fair quality steer yearlings sold from \$10.75 to \$11.25. Stocker steer calves sold at \$11.75 to \$12.50.

There are plenty of good packer and stocker buyers at every sale.

Mrs. James N. Walker and little daughter, Barbara Lee, of Dallas visited with Mrs. Walker's parents, Mr. and Mrs. G. R. Eiland, over the week end. Barbara Lee remained for a week's visit with her grandparents.

Mr. and Mrs. Henry Michels and Mr. and Mrs. Herman Jungman left last Monday for Mineral Wells where they are spending several days, vacationing.

Mr. and Mrs. J. C. Harpham left last Sunday for Dallas where they will visit for several days. They will also visit relatives in Brownwood during their two weeks away from home.

Official U. S. Treasury War Bond Quotas for August

Washington, D. C., August 5.—While maintaining a tentative annual level of twelve billion dollars as its goal, the Treasury Department today fixed the August quota for the sale of War Bonds at \$815,000,000 as shown by the accompanying map by states.

In lowering the quota from a billion dollars in July to \$815,000,000 in August, the Treasury has given recognition to certain factors which may be expected to result in variations in sales over the 12-month period, such as the seasonal character of farm income.

These factors have been taken into account in determining each state's share for the national quota for August and will be given consideration in fixing quotas for subsequent months.

In addition to the state quotas as set out in the map there is a federal payroll allotment quota of \$9,750,000 and territorial quotas as follows: Alaska, \$700,000; Canal Zone, \$213,000; Hawaii, \$4,800,000; Puerto Rico, \$440,000, and the Virgin Islands, \$17,000.

"What a Man Does For Himself Dies With Him—

EXTRAVAGANCE HELPS HITLER

"Extravagance in any form, by citizens or by government imperils the war effort," wrote Dr. Henry M. Writson, president of Brown University, recently. "Individuals are asked to reverse their habits of spending if inflation is not to destroy their substance. The same obligation rests with the government . . .

"If we proceed without waste, if we increase our productive power, if we decrease our expenditures for non-essentials, we cannot only survive but survive without bankruptcy. This can be done only if considerations of political advantage are put aside, if government curtails its own activities as it expects citizens to curtail theirs, only if the government makes its policies consistent with each other."

At the present time, government is taking strenuous steps to reduce consumer purchasing power, in order to prevent inflation. That, as well as the production of needed revenue for the Treasury, is one reason for unprecedented taxation and for ever-increasing sales of War Bonds and Stamps. It is forecast in some circles that a system of enforced savings will be eventually adopted. Yet government spends "as usual." Government will never swallow the medicine it prescribes for the people.

Every dispassionate survey indicates that Federal expense can be reduced billions a year without imperiling the war effort. The cuts could be made entirely in non-war expenditures. But that will never be done until the people demand it—and kick out every public official who refuses to cooperate.

TYPES OF WARFARE

Some United Nations disasters can be laid straight at the door of the high commands. Too many of the Generals seem to think in terms of "classic warfare." That was a relatively leisurely kind of warfare, and it was developed and perfected in the days when tanks and planes and similar machines were minor weapons.

The Germans and the Japs think in terms of dynamic warfare. They are daring. They take long chances. They use the weapon of surprise to the limit.

Libya provides a tragic example of that. As Newsweek says, "British generals figured it would take Rommel a week or ten days to thrust past the Egyptian frontier after the British withdrawal. It took him a matter of hours."

Germany has also been superior in the science of logistics—which simply means the handling of supplies. They have moved more equipment, and moved it faster by far, than have the defenders. In short, the United Nations still have a lot of red tape to cut—and they have a lot to learn.

MEETING THE CHALLENGE

The major part of the conversion of America's peacetime industries to an all-out war production basis has been accomplished. Schedules set for the manufacture of planes, tanks, guns, ships, rifles, shells have been met and passed.

The main load formerly carried by the larger units is now being shouldered to a greater extent by smaller plants through sub-contracting and through outright changes from so-called luxuries to implements of war. Typical is the fact that small machine gun parts, gun sights and gun mounts on through heavy tank parts, are now being manufactured by plants which formerly made home laundering appliances.

"Overnight, the face of American industry has changed almost beyond recognition," Mr. William P. Witherow, president of the National Association of Manufacturers, said in a recent magazine article describing the all-out conversion of industry from peacetime to wartime production.

"A factory that made orange squeezers before Pearl Harbor is now turning out bullet pouches. A peacetime manufacturer of roller coasters is now producing signal towers for the Army. A firm that used to make brassieres is fabricating mosquito netting for the soldiers in the tropics. A wallpaper company is filling incendiary bombs. A plant that made footballs is today producing gas masks."

Yes, industry with typical American ingenuity is meeting the challenge. As Mr. Witherow says, "Lock, stock and barrel American industrial and business management has moved to the firing line, to turn out the wherewithal of warfare. It is proving its world leadership not only with the techniques and ingenuity that blaze new trails but with record-shattering output. In making decisions, industrial executives use only one yardstick: "Will it help win the war?"

A little thought and a little kindness are often worth more than a great deal of money.—Ruskin.

INFLATION—IN ONE CYLINDER WORDS

Inflation, as described in the dictionary, is a disproportionate and relatively sharp increase in the quantity of money or credit, or both, relative to the amount of exchange business. In accordance with the law of quantity theory of money, inflation always produces a rise in the price level.

In simpler language and applied to the present situation, inflation is caused a shortage of consumer goods and a tremendous increase in the amount of money paid out for wages.

For the time being, we have stopped making automobiles, refrigerators, bicycles and other useful, peacetime products that we could buy and use at any time, and have concentrated on the production of warplanes, tanks, guns, bombs, and other things that are useful only in wartime. We have stopped making the things we want and are making the things we must have to win the war.

Thousands of formerly unemployed now have jobs. Added thousands are making more money than they ever made before. So, with more money in our pockets to spend and less to spend it on, either the value of money is reduced or the value of the goods has increased—figure it either way—the result is the same. They both mean inflation to the man on the street.

The danger in inflation lies in the fact that when it is in operation, all the money we earn and all the money we have saved is worth less to us and to everyone else. Inflation is just as simple as that and just as dangerous. That is why the manufacturers of the country are interested in combating it.

THE FACTS ON PROFITS

The Axis partners have some active American allies who because of ignorance of the actual status of war profits are, unintentionally and unknowingly, serving as very effective demolition squads to attack American morale and carry on campaigns started in the propaganda bureaus of Berlin, Rome and Tokyo. Unwittingly, these individuals who lack accurate facts accuse American industry of excessive profits and thus help the enemy's work along.

To show what the facts really are, J. Cheever Cowdin, chairman of the National Association of Manufacturers committee on government finance, recently made public a study of the corporate finances of four thousand manufacturers. He described the report as "the most authoritative study of corporate finances, as effected by the war, yet undertaken."

Mr. Cowdin, revealing a marked decrease in income available for dividends and profits in contrast to billion dollar increases in volume of production, asserted that "there is less danger of creating war millionaires than of impairing the ability of industry to cope with post-war problems under the present tax proposals."

"Although net profits before taxes have risen from a billion and a half in 1940 to an estimated three and a half billion in 1942, net income after taxes has declined from a little over a billion to something under a billion."

As Mr. Cowdin points out, there are much graver concerns than war millionaires today. In addition to merely being an echo of radio propagandists in Berlin, popular sloganizing against "profiteering" has become a futile occupation and should be replaced by efforts to develop a sincere public concern with the development of industrial stability and financial resourcefulness.

Douglas, placed in my hands for service, I, Louis Cartwright, as Sheriff of Knox County, Texas, did, on the 9th day of July, 1942, levy on certain Real Estate, situated in Knox County, Texas, described as follows, to-wit:

First Tract: Being a part of Section (No. 74, Block 2, D. & W. R.R. Co., described as follows: Beginning at a point 642.6 varas south of the northeast corner of said Section 74, Block 2, D. & W. R.R. Co., Thence south 216.3 varas stake for corner. Thence west 274.3 varas stake for corner. Thence north 216.3 varas to stake for corner. Then east 274.3 varas to place of beginning.

Second Tract: 35 acres out of Section 74, Block 2, D. & W. R.R. Co., described by metes and bounds as follows: Beginning at a point 447 varas south of the northeast corner of Section No. 74 as aforesaid, thence west 1010 varas to a stake for corner; thence south 195.6 varas to stake for corner. Thence east 1010 varas to stake for corner. Thence north 195.6 varas to place of beginning.

Third Tract: Being a part of Section 75, Block 2, D. & W. R.R. Co., known as 37 3-4 acres of land out of the north part of the north one half of the west one half of the northwest one fourth of Section No. 75, Block No. 2, D. & W. R.R. Co. survey, Patent No. 357, Volume 62, Abstract No. 517 and the interest hereby conveyed being the interest in said land inherited by us from our deceased mother, Jessie Douglas, together with all other interests in any property belonging to the I. N. Douglas Estate situated in said Section No. 75.

This levy as to second and third tracts is made only upon the undivided interest of Hollis B. Douglas.

And levied upon as the property of Dr. H. B. Douglas and that on the first Tuesday in September, 1942, the same being the 1st day of said month, at the Court House door of Knox County, in the Town of Benjamin Texas, between the hours of 10 A.M. and 4 P.M., by virtue of said levy and said Alias Execution I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Dr. H. B. Douglas.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Munday Times, newspaper published in Knox County.

Witness my hand, this 13th day of July, 1942.

Salvage Chief Named

To expedite movement of junked automobiles to steel mills, M. G. Stevens of New Orleans has been named Louisiana district chief of the auto graveyard section of WPB's Conservation division. The appointment was announced by John L. Dellinger, region director of the Conservation Division at Dallas.

Licenses for Chemicals, Drugs

OPA has licensed all distributors selling chemicals or drugs covered by specific price regulations and has made the holding of a license a required condition for selling. Distributors will be notified later by OPA as to the time and manner of registration. Retailers of chemicals and drugs already are licensed under the general maximum price regulation.

Lamb Price Ceiling Ordered

With the assurance of a 60-day temporary ceiling on lamb prices at the wholesale and retail levels, OPA has completed price control over every major meat item except poultry. The temporary regulation sets the ceiling price as the highest price charged by each seller during the period July 27 to 31, 1942.

Bus Duplication Eliminated

Southwestern bus lines operating between Tulsa and Dallas have been ordered by the Office of Defense Transportation to honor each other's tickets between all points common to their lines, and to divert passengers to each other to relieve overloads and to reduce operation of extra sections. Bus lines affected by the order are the Santa Fe Trail Transportation Co., Dixie Motor Coach Corp., and Southwestern Greyhound Lines, Inc. The companies also were ordered to eliminate duplications in times of departure.

Food Outlets Surveyed

In a move designed to amplify OPA's existing information on price control problems relating to distribution of food products, field representatives of the Bureau of

Labor Statistics Monday began a survey of wholesale and retail grocery establishments in the Southwest. Region OPA officials emphasized that the survey has no connection with compliance or enforcement investigations. With adequate information on food costs and prices, OPA will be better equipped to make necessary adjustments in price regulations. BLS representatives will check distribution factors involved in the merchandising of the nation's 98 most important cost-of-living commodities.

Tube Swap Help Asked

More earnest effort of the public to turn back collapsible tin tubes for tubes of tooth paste and shaving cream they buy from retailers is urged by WPB officials. Stricter observance of the order should at least double the current receipts of tin tubes. Tube turn-backs now are netting 40 tons of critical metal per month for war production.

What You Buy With WAR BONDS

When the American Expeditionary Force landed in Ireland recently newspapers reported the citizenry remarked at the similarity of the steel helmets worn by our boys with those worn by German troops. These steel hats are protection from shrapnel fragments and other light missiles. We need thousands of them for they are a regular issue to every American soldier.

A smart strap fastens under the chin and they are padded for comfort. One steel helmet costs \$5 so every time you fill a \$5 stamp book you are buying protection for an American soldier. Invest at least ten percent of your income in War Bonds every pay day. Help your community reach its War Bond Quota.

U. S. Treasury Department

OFFICIAL UNITED STATES TREASURY TEXAS WAR BOND QUOTAS FOR AUGUST

WASHINGTON, D. C., Aug. 10.—Henry Morgenthau, Jr., Secretary of the Treasury, today announced the August War Bond Quotas for the 3,070 counties in the nation totalling \$815,000,000.

The August quota for the State of Texas is \$27,250,000. In arriving at the county quotas for August the Treasury Department took into consideration major factors affecting incomes which in turn cause significant variations in sales during the twelve-month period.

Hereafter actual Bond sales in the various states will be compared with quotas on a cumulative basis. The amount by which sales fall short of or exceed quotas in any month will be added to or subtracted from quotas for future months.

Quotas by counties are:

Iron, Steel Barred from Mattresses
Manufacture of mattresses containing iron and steel must stop on September 1, under terms of a revision of WPB's order L-49. Studio couches, sofa beds and lounges in which iron and steel are used may not be produced after November 1. Processing of iron and steel for use in such products was banned as of August 1.

School Bus Use Tightened

Reorganization of all school bus routes to eliminate duplications, less-than-capacity loads and unnecessary trips are among the conservation measures called for in a plan for allocating new vehicles to school districts. The plan, worked out by the National Council of Chief State School Officers, has been endorsed by OTD Director Joseph B. Eastman as a "yardstick" for distribution of new school buses. About 93,000 school buses are in daily service over the country, providing transportation for about four million children, or one-sixth of the juvenile population. Normally about 12,000 of these buses would have been replaced this year.

Mexican Labor Available
Under an arrangement just concluded by governments of the United States and Mexico, farm workers will be brought into this country from Mexico to help relieve the farm labor shortage, particularly in the Southwest. Mexican workers will be brought into this country only when domestic labor is not available to fill the demand. Each worker will enter only on written contract providing that he be paid the prevailing wage rate, with minimum of 30 cents an hour, that he be employed at least three-fourths of the time he remains in the area, and that he will return to Mexico at the conclusion of the contract. Under the program, farmers unable to find domestic labor will apply to their nearest U. S. Employment Service office for Mexican helpers.

Machinery Inventory Planned
WPB soon will begin compiling a nation-wide inventory of used construction machinery, to make such equipment as tracklaying tractors, cranes, shovels, mixers and scrapers available for war production. Cards will be mailed to each owner of such equipment for a complete listing. The WPB estimates that there are more than 500,000 pieces of vitally needed machinery in the nation that is not used or are being used only occasionally.

Auto Purchases Tightened
Changes in OPA's new passenger car rationing regulations now exempt from quota restrictions all applications for new automobiles submitted by federal, state or local government agencies. Such applications now will have to complete with applications of individuals where the quota is not large enough to supply both. Official estimates place the need for cars by government agencies at 30,000.

Auto Part Turn-in Liberalization

Liberalization of WPB limitation order L-158 governing purchases of auto replacement parts has been announced. Under the ruling, a car owner may purchase a new part for his car without immediately turning in the old part, provided the replacement is not installed in the car by the distributor from whom it was purchased. The consumer must sign a statement that he will use the new part for replacement purposes only and will within 30 days of purchasing it dispose of the used part through regular scrap channels.

Typewriter Output Stopped

Typewriter production will end on October 31, except for a small number of new machines to be made by Woodstock Company on government orders. Under WPB order, portable typewriter manufacture was shut off on July 31.

Wool Growers Helped

In order to cooperate with domestic wool growers and assure them of a fair price and a stable market, the Army soon will place orders for cloth in quantities that will use the bulk of the wool clip now available. As a result of the orders being placed now, instead of waiting until later when normal buying would be done, growers will be in a position to plan ahead and

Seniors of 1942 Enjoy Picnic at Park in Seymour

Fifteen members of the Senior Class of 1942 spent the day in the Seymour park on Thursday of last week. Most of the morning was spent in swimming. A picnic lunch was enjoyed at twelve o'clock, and the swimming was renewed.

When everyone was tired the group started for home. Everyone had a nice sunburn but in spite of this the day proved to be a big success.

Several members of the class were unable to be present. These included Elnor Beth Hendry, Juanice Jones, Cora Jean Martin, Dick Harrell, Melvin West and Juray Jones.

Seniors attending were Flora Alice Haymes, Jimmie Henslee, Frances Smith, Mary Lois Beaty, Dixie Atkinson, Nadine Kreitz, Maurine Johnson, Florene Pippin, Clyde Hendrix, Joe Morrow, Ralph Tidwell, Charles Baker, Willard Reeves, Doyle Jones, and Ben Bowden. Sponsors for the occasion were Mrs. Lee Haymes and Mrs. J. O. Bowden.

Mr. and Mrs. W. R. Mitchell spent last Sunday and Monday in Fort Worth, visiting and attending to business matters.

Mr. and Mrs. Floyd Bowman and sons, Martin and Don, and Mr. and Mrs. O. O. Putnam and daughter, Patricia, have just returned from a week's vacation in Old Mexico. They visited in Clovis and Carlsbad and in El Paso, Texas.

Mr. and Mrs. L. C. Merrell of Dallas have been visiting in the home of Mr. and Mrs. O. O. Putnam.

Noble Bowman of Clovis, New Mexico, has been visiting with Floyd Bowman.

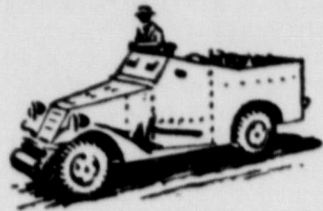

County Supt. Merick McGaughey and son, John, of Benjamin were business visitors here last Wednesday.

Mr. and Mrs. R. O. Dunkle of Benjamin were visiting friends and attending to business matters here Wednesday.

Mr. and Mrs. P. C. Phillips were in Holliday last Tuesday night visiting Mrs. Phillips' sister, Mrs. A. L. Young.

What You Buy With WAR BONDS

A scout car is a low-slung motor car armored with heavy steel plate, used to transport troops from one point to another. It is of low silhouette and gives protection against machine gun and other ground fire. A scout car costs \$5,000.

You and your neighbors joining together can buy one of these vehicles for the Ordnance Department of our army with your purchase of War Bonds. We need hundreds of them and need them quickly. Put at least ten percent of your wages or income into War Bonds every pay day and help your fellow Americans top the War Bond Quota in your county.

Fourth Annual Phillips Reunion Held Here Sunday

THE RIGHT DRESSING FOR EVERY SALAD

All salad dressings can be divided into three classes. The Mayonnaise group—the French Dressing group—and the Cooked Salad Dressing group. The type we choose depends upon the salad itself and the place of that salad in the meal. I mean if it's a salad to introduce the meal—or a salad served with the main course—then a light peppery dressing of the French Dressing group will be the thing. We want this salad to whet the appetite for the food to come. But if the salad is to be the main dish of the meal—as a chicken salad at a luncheon or afternoon party—then we'll want a richer heartier dressing such as the Mayonnaise type or the cooked type. While a salad that is to be a dessert salad will take a sweet rich dressing, probably one of the cooked salad dressings—or a Normandy dressing made with soft white cream cheese, currant jelly and whipping cream.

FRENCH DRESSINGS

Piquant French Dressing

(especially good with fresh vegetables)

- | | |
|----------------------|--|
| 1/2 to 3/4 cup sugar | 4 tsp. mild vinegar (or 3 tsp. mild vinegar and 1 tsp. Tarragon vinegar) or 4 tsp. lemon juice |
| 1 tsp. salt | 1 cup olive oil or other vegetable salad oil |
| 1 tsp. dry mustard | 3 cloves garlic |
| 1 tsp. celery seed | |
| 1 tsp. paprika | |
| 1 tsp. grated onion | |

Mix dry ingredients together in a small mixing bowl. Add a small amount of the vinegar. Beat well with a rotary beater. Add a small amount of oil. Beat well. Continue adding and beating in the vinegar and oil alternately until both are used. When mixture is completely blended add cloves of garlic. Let stand 1 hour. Remove cloves of garlic and serve. (Or keep in tightly covered jar in refrigerator . . . always beating well just before serving.) For a thinner dressing add the juice of one-half lemon at the last.

Sweet French Dressing for Fruit

- | | |
|--|---|
| 3/4 cup salad oil | juices may be substituted for part of the lemon). |
| 3/4 cup lemon juice (orange, grapefruit, pineapple, apricot or maraschino cherry juice or a mixture of any of these) | 1 tsp. salt |
| | 1 tsp. paprika |
| | 1/2 cup confectioners' sugar |

Mix ingredients together. Put into tightly covered bottle and shake well. This makes 1 cup of dressing. A little onion juice or clove of garlic may be added if desired.

MAYONNAISE DRESSING

(good with meat, seafood, or gelatin salads)

- | | |
|-----------------------------|-------------------------------|
| Yolk of 1 egg | Dash of Cayenne pepper |
| 1 tsp. mustard | 1 cup salad oil |
| 1 tsp. confectioners' sugar | 2 tsp. lemon juice or vinegar |
| 1/4 tsp. salt | |

Place egg yolk, mustard, sugar, salt and pepper in a bowl. Beat well, adding oil very slowly at first and more quickly after one-third of oil has been used, thinning from time to time with lemon juice or vinegar. When served with different salads the mayonnaise may be modified as desired by the addition of whipped cream or very thick sour cream.

COOKED SALAD DRESSING

(good with gelatin salads, fruit salads, cabbage or potato salad)

- | | |
|---------------|-----------------|
| 4 egg yolks | 1/2 cup vinegar |
| 1/2 cup sugar | 1/2 cup water |
| 1 tsp. flour | 1 tsp. butter |
| 1/4 tsp. salt | |

Beat egg yolks until light. Add sugar, flour and salt. Mix well. Add vinegar and water, and mix. Add butter. Cook in top of double boiler until creamy, stirring so that it will not lump. This makes 1 1/2 cups dressing.

The Rhineland schools began their 16th consecutive summer term last Monday with a hundred per cent enrollment.

Everybody seems to be in good spirits and eager to get to work with the business of giving and assimilating knowledge. We are anticipating a very successful year.

Senior Report

This finds the Seniors all back in school with the exception of one. Some dreaded the thought of coming, others were glad because this is their last year in the good R.H.S.

We are very sorry that Ben had to remain at home, and couldn't complete his high school education.

We overheard some of our fellow-members spaking of the good times they had during the months we did not have school. The Seniors want to welcome our new teacher, and hope she will enjoy teaching us, as much as we will enjoy taking English by her.

Junior Report

We are beginning another year of school. Everyone should try his best to make this year a success and at the end they will be glad to say they are in the next grade.

This is our first and only year in typing. Yesterday we started to type and we have learned many things about this subject which we didn't know before. We hope that soon we will be able to type well.

Tenth Grade Class Report

We have a new teacher. Her name is Miss Helene Tschoepe. She is well liked by all the students.

Communion, 11:45.
Benediction, 12:00.

Sunday Evening Services
Young people's service, 8:00.
Worship hour song service, 9:00.
Sermon, 9:15.
Benediction, 10:00.
Prayer meeting, on Wednesday night, 9:00.
The public is cordially invited to all services.

We have elected new officers as follows: President, Harold Decker; vice president, Raymond Redder; secretary, Magdalen Homer, and class reporter, Charles Albus.

One of the students, Marvin Urbanczyk, has quit school.

All of the students of the tenth grade, except the boys, think that the election of the class reporter was funny, but I don't.

Report of Room IV

We were very glad to get back to school last Monday. All of our classmates are back in school. There are 14 in the 7th grade, 2 in the 6th, 1 in the 4th and 1 beginner. Practically every desk in the room is taken.

Our classroom is very neat and attractive and we want to keep it that way. The pot plants are very pretty. Jeanette was going to bring two goldfish to school but she couldn't catch them. Well, you tried, didn't you, Jeanette?

Report for Room III

The pupils of Room III were very anxious to start back to school. Our teacher, Miss Himmels, is liked by everyone.

Our class has decided to form a club. We are going to call it the Victory Club. For our officers we chose: Adelaide Kuhler, president; Betty Lou Smajstria, vice president; Donald Decker, secretary; Maxine Williamson, reporter. The pupils hope the club will be a success.

Freshman News

We all came back to school hoping to make this a successful year, which I am sure we will do.

We elected our class officers. They are as follows: Louis Urbanczyk, president; Marvin Zeissel, vice president; and Norvill Sessumes, secretary. Jewel Marie Hoffman was again elected class reporter.

Did You Know That—

Bobbie Lawson returned home last week after spending several days visiting with relatives in Dallas.

People, Spots In The News

WINNERS—In Hollywood contest Jane Russell (left) and Marjorie Woodworth, motion picture starlets, were selected by movie producers as the "ideal" brunette and blonde.

EMBRYO OFFICERS—West Point cadets are going through basic training similar to that experienced by Army infantrymen. Here they hurdle obstacles during bayonet attack.

The new, self-buoying garment being made by the B. F. Goodrich company weighs a few ounces over 14 pounds and slips on over a sailor's regular clothes.

TEXAS OUT-O-DOORS

Austin—"Good fishin'" got my limit just like that," were the words most often reported to the Game Department following the opening of the Texas fishing season.

Fish had a favorable spawning season, according to the Department's chief aquatic biologist, and the "planting" of something over 11,000,000 fish in Texas lakes and streams by the Department's 10 hatcheries contributed at least in part to the favorable opening day.

Due to the many dams both large and small found in the State today, the flood waters that ripped down many streams did little to mar the hopes of fishermen, according to available reports. The Colorado river, which feeds the long stretch of Lower Colorado river lakes, was extremely muddy when its waters entered the upper reaches of huge Buchanan Lake, but it succeeded in making only the upper part of the lake turbid and relatively unfit for opening day outing. In the middle and lower parts of the lake the water was clear and bass, crappie and other fish were yanked out by the score.

Other lakes in the series—Inka, Marble Falls, Marshall Ford and Lake Austin—also provided good catches. Two hopeful, but because of their calling, naturally skeptical newspaper men hurried plugs in Marble Falls Lake and two of the several streams that feed it, and got their limits easily and quickly. For reasons known to no person, bass were more partial to minnows in Lake Austin than to artificial lures.

Lake Waco anglers reported good fishing, as did those who cast in Lake Worth, Eagle Mountain Lake, Lake Bridgeport, and the more northwesterly Lake Kemp and Diversion Lake below it. Medina Lake near San Antonio also was heard from, some good catches being reported.

What You Buy With WAR BONDS

The mess kit is one of the most important items in the Soldier's equipment. It consists generally of a pan, a plastic canteen and cup, a fork, knife and spoon, all in a canvas pack cover. The total cost runs up to about \$2.00.

Canteens and other items such as handles on knives and forks, formerly made of aluminum, are now plastic. Alloy has replaced stainless steel. You can buy many of these mess kits for our boys with your purchases of War Bonds and Stamps. Invest at least 10 percent of your income in War Bonds or Stamps every pay day and top the quota your county. U. S. Treasury Dept.

reported. Stream fishing was reported satisfactory except in flood areas.

Good fishing is expected in Possum Knigdom Lake in Palo Pinto and Stevens counties when the season opens on that body of water June 1st. Anglers now are catching bass and crappie below the dam with ease, according to reports.

Boost for Turkeys

The native eastern wild turkey, formerly abundant over most of East Texas and especially in the Big Thicket area but which now is on the way out if something is not done to restore it, is getting a big helping hand from the Game Department, officials said today in announcing completion of preliminary work on a project set up in what is known as the Devil's Pocket in Hardin county.

After four months work, an 18-mile fence has been completed on the project, hogs and other livestock are being removed, and 40 eastern turkeys bought from Alabama have been released in the enclosure to bolster up the present turkey population.

It is hoped that when all livestock and other turkey predators have been removed from the area the birds will quickly multiply and restock not only that particular area, but other south-eastern counties as well. The Devil's Pocket area is relatively untouched by man, and is lush with proper food and cover for the birds.

The eastern wild turkey is a real prize for sportsmen. It is considered a much more beautiful bird than the South Texas wild turkey. In coloration it is much richer, its brown is deeper, almost golden and there are no white tips on the wings, as is the case with the South Texas turkey.

I GIVE YOU TEXAS

by BOYCE HOUSE

Thinking back over a quarter of a century of news-gathering

The most exciting adventure maybe was the time that I went along with the police in response to a call of burglars in a house and when we rolled up and got out of the car, the burglar opened fire. I was thin anyway and I jumped behind a telephone pole ahead of the two officers and told them to hunt another pole and I shrank up so that there was three inches of the telephone pole on each side of me.

Or maybe it was the time that there was a similar call and excited folks told us that the burglar was still in the house. There were three ways he could get out. So the officers stationed me—unarmed—near one of the exits, telling me to stand in plain view out under the aw light and the burglar seeing that someone was guarding that way, would make a break for it at one of the other exits and they would nab him. And that is what he tried, and one of the officers captured him. But just suppose he had decided to shoot his way out past that sap who was

out there in the light! However, I didn't think about that until afterward.

Like the time I joined in pursuit of the Santa Claus bandits after they had held up the bank at Cisco. An officer, in taking a riot gun out of a car, was careless and the weapon was discharged and the leaden pellets pattered in the leaves just over by head. It was an hour later that I realized how close a call that was—and I had a chill.

But for sustained, nerve-wracking tension, give me—or, rather don't give me again—a visit to "the port of missing automobiles."

The assignment sounded simple enough. A gang was stealing cars from the city where I lived. The thieves ran the autos across the state line to a small, county-seat town and there they chiseled out the engine numbers, switched parts around and sold the automobiles to purchasers who were not too particular.

The editor told me to run down to this town and get the story. Light-heartedly, I alighted from the train and called on the mayor, who greeted me cordially enough until he learned that I was a newspaperman and what my mission was. He looked around in alarm and said:

"Get out of here before they see me talking to you—it would be as much as my life is worth."

You can rather imagine that subdued me in a hurry.

Still I wanted to get the story. So I called on the county attorney. He refused to discuss matters at all. Then I drifted around

Canadians Man Handy Assault Weapon

Passed by Censor

THE Bren gun is a handy weapon. According to the men of Canada's Highland Light Infantry on active service overseas. They are useful from a universal carrier, readily when set up in a machine gun emplacement, as weapons for assault troops firing from the hip and, finally, as ack-ack protection against low-flying aircraft. Pte. W. A. Smith of Alvington, Ont., with the gun and Corp. W. C. Thurgood of Hespeler, Ont., are shown setting up ack-ack protection for the assault group as it storms an "enemy" stronghold during field

exercises. Volunteer enlistments in Canada in the army, navy and air force are approximately a quarter million, with about 200,000 of these on active service overseas. An observer from the United States recently remarked that the United States will reach the same point on a pro rata population basis when more than two million men are fighting overseas. Output of Bren guns in Canadian munitions plants is nearing 4,500 monthly which, added to production of more than a score other guns of all types, reflects an industrial war effort of considerable magnitude.

the town casual-like, talking about this and that and doing some looking for myself and piecing together the information as best I could.

Finally a couple of grim-lipped men came up and started doing some questioning themselves.

"Aren't you a newspaperman from the city?" one asked.

When I said that was true, he demanded, "What are you doing here?"

"I'm think of buying the paper here," I replied.

This didn't seem to satisfy them but they walked off, casting scowls back over their shoulders at me. Just to make my explanation true, I did buy the paper—or at least bought one copy for a nickel. It was three hours till the train back to the city would arrive—and they were the longest three hours

I ever spent.

P.S.—I did write the story and the ring was busted up.

You ought to try newspaper reporting—never a dull moment.

Allred Will Seek 25-Cent Cotton And Labor Regulation

James V. Allred, driving hard down the campaign trail in the "run-off that wasn't going to be," continued to stress his win-the-war and win-the-peace issues, together with his platform for bolstering home-front economy during the tremendous war effort.

The U.S. Senatorial candidate has declared with forthright emphasis for regulation of labor and outlawry of vicious practices, for "real parity" for agricultural products—including the pegging of cotton at not less than 25 cents for the duration—for a permanent law reducing the rate of interest on government farm and ranch loans to 3 per cent and for extension of the rural electrification program.

Allred pledges that if elected, he will introduce and push to passage a bill prohibiting any enforced initiation fee, permit fee or dues in defense industries. "In the event a defense worker joins a union he shall be charged not more than one dollar initiation fee and one dollar per month dues on war work for the duration of the war," he declared. "I will also support legislation to prohibit strikes, slow down or racketeering of any kind in war production, to prohibit violence or sit-down strikes anywhere, any time; to put teeth into the law prohibiting 'kick-backs.' The people of this country are not going to tolerate any interference with our war effort on the part of labor, business, or any other group. As your United States Senator I will see to it that the people's will in this respect is carried out."

Regarding his agricultural program, Allred declares frankly: "Unless the farmer is guaranteed a sufficient price to take care of his increased costs, to encourage farm labor and provide an incentive, unless the present trend is stopped by prompt and effective action, the struggle can be lost. It is a lamentable and unjust situation when the patriotic farmers of Texas are not able to buy their portion of war bonds because they haven't got the money. I believe that a 25 cent minimum price for cotton would permit farmers now struggling against higher costs of living and labor to participate equally with other groups in the buying of war bonds. A real, not a theoretical parity price for cotton would provide the necessary additional income that must be had to equalize farm work with that of

others engaged in the war effort. "I shall take the message to Washington that anything less than a 25 cent minimum on cotton for the period of the war is unthinkable; that anything less than fair and equitable prices for all farm and ranch commodities is unjust. If anyone in Washington or Texas should say that this is not supporting the policies of the administration, then they must say it."

BIRTH ANNOUNCEMENT
Congratulations to Mr. and Mrs. Paul Pruitt upon the arrival of a son, born on Friday, August 7th, at the Knox County hospital. Both mother and son are reported doing nicely.

Mrs. Jimmie Silman returned home last Thursday night from Lubbock where she had been visiting with her daughters, Misses Polly and Lorene, for two weeks.

Texas Constitutional Amendments

H. J. R. No. 1 A JOINT RESOLUTION

proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray necessary expenses for the submission of this amendment.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:

"Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each regular session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening a statement under oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on all sources showing the fund accounts to be credited during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes.

"From and after January 1, 1945, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House, no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1945, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an appropriation bill exceeds the estimated revenue he shall endorse such findings thereon and return to the House in which same originated. Such information shall be immediately made known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation to within the revenue, either by providing additional revenue or reducing the appropriation.

"For the purpose of financing the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by said fund on September 1, 1943, provided such bonds shall not draw interest in excess of two (2) per cent per annum and shall mature within twenty (20) years from date."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas, at the next general election to be held on the first Tuesday after the first Monday in November, 1942, being November 3, 1942, at which election all voters favoring said proposed amendment shall write or have printed on their ballots, the words:

"For the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

troller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Those opposing said proposed Amendment shall write or have printed on their ballots, the words:

"Against the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have the same published as required by the Constitution and existing laws of the State.

Sec. 4. The sum of Eight Thousand Dollars (\$8,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of said publication and election.

S. J. R. No. 20
A JOINT RESOLUTION

proposing an amendment to the Constitution of the State of Texas by amending Section 33 of Article 16, of the Constitution of Texas so as to permit the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 33 of Article 16, of the Constitution of the State of Texas, be amended so as to read as follows:

"Section 33. The accounting officers of this State shall neither draw nor pay a warrant upon the Treasury in favor of any person, for salary or compensation as agent, officer or appointee, who holds at the same time any other office or position of honor, trust or profit, under this State or the United States, except as prescribed in this Constitution. Provided, that this restriction as to the drawing and paying of warrants upon the Treasury shall not apply to officers of the National Guard of Texas, the National Guard Reserve, the Officers Reserve Corps of the United States, nor to enlisted men of the National Guard, the National Guard Reserve, and the Organized Reserves of the United States, nor to retired officers of the United States Army, Navy, and Marine Corps, and retired warrant officers and retired enlisted men of the United States Army, Navy and Marine Corps, nor to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the third day of November, 1942, at which all ballots shall have printed thereon:

"For the Constitutional Amendment permitting the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

"Against the Constitutional Amendment permitting the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

Each voter shall scratch out one of said clauses on the ballots, leaving the one expressing his vote on the proposed amendment.

Sec. 3. The Governor shall issue the necessary proclamation for said election, and have the same published as required by the Constitution and laws of this State, and the sum of Five Thousand (\$5,000) Dollars, or so much thereof as may be necessary, is hereby appropriated from any funds in the State Treasury, not otherwise appropriated to defray the expenses of printing said proclamation and of holding said election.

What You Buy With WAR BONDS

Barbed wire used by Uncle Sam's fighting forces is vastly different from that used on American farms. Army and Marine barbed wire is much heavier and the bars, about three inches in length, are more vicious than ordinary barbed wire.

The Marine Corps pays fifty cents for each twelve yards, or 36 feet of this specially manufactured barbed wire. The Army and Marine Corps needs thousands upon thousands of feet for defensive warfare. Your purchase of War Bonds and Stamps will insure sufficient quantity for their needs. Invest at least ten percent of your wages in War Bonds every pay day.

Intensive Search for Iron And Steel Scrap Urged by Witherow

New York.—Appealing for "an additional contribution to the winning of the war beyond that we are making now," William P. Witherow president of the National Association of Manufacturers, has called upon the association's eight thousand member manufacturers to implement the War Production Board's search for "every ounce" of scrap iron and steel. Shortage of the vital ingredient needed for the fabrication of armour plate and other war materials has forced some furnaces to shut down, he reported.

Mr. Witherow, who is president of Blaw-Knox Company, a Pittsburgh steel firm, declared when commenting on his message to the N.A.M. membership, that "we can greatly shorten the war if this scrap collection campaign is vigorously pursued by every plant in the country."

The nation-wide search for iron and steel scrap is being conducted by the American Industries Salvage Committee with the cooperation of state, local and national trade and manufacturing organizations.

Industrial salvage is not sufficient to fulfill the country's huge war needs. Scrap collection must come from homes, small farms, retail and department stores, garages and every possible source. In his letter Mr. Witherow gave a challenge not only to the manufacturers but to everyone in the nation when he said:

"Donald Nelson has issued a call to you and me as industrial executives to make an additional contribution to the winning of the war beyond that we are making now. In a series of national advertisements, sponsored and financed by industry, the War Production Board is urging all the American people to get every ounce of scrap into the channels of war production."

Ralph H. Layne, formerly of Munday, finished officers' training and received his commission as

second lieutenant August 5, at Ft. Belvoir, Virginia. He has been transferred to Camp Mabry, Paris, Texas, and is in the Engineering Corps. He will be joined there by Mrs. Layne.

Mrs. Addie Layne and her granddaughters, Frances and Mary Aleta Layne of Amarillo, are visiting in the home of Mrs. Layne's sister, Mrs. A. U. Hathaway and Mr. Hathaway.

Don Ferris, W. E. Cooper and Marion Reeves of Seymour were visitors in town last Tuesday.

Lee Smith of Knox City was a business visitor in the city Tuesday.

Tom Weber of Goree was in town Tuesday attending to business.

Ray and Dray Lowe, students in John Tarleton College, spent the week end with their parents, Mr. and Mrs. E. R. Lowe.

Bad Reynolds took a group of young people to Haskell for a swimming party at the Haskell pool last Monday. Those enjoying the trip were Misses Martha Ann Reynolds and Rosa Lee Pippin, and Don Reynolds, Wayne Rogers,

Glen Ray Morrow, Willis Pippin, and Joe Layne Womble.

Miss Irene Sherrill of Fort Worth is spending her vacation in the home of Mr. and Mrs. Clayton Wren.

Miss Evelyn McGraw spent last Friday and Saturday in Sweetwater attending a district meeting for new employees of the Stamford Production Credit Association. Miss McGraw is employed at the local office.

Mrs. H. A. Pendleton visited relatives and friends in Wichita Falls last Saturday.

Douglas Doshier of Benjamin was a business visitor here last Saturday.

District Clerk Lee Coffman of Benjamin was a business visitor here last Monday.

Mr. and Mrs. Aaron Edgar visited in the home of Mr. and Mrs. Don Ferris in Seymour last Sunday.

H. A. Pendleton was a business visitor in Dallas the latter part of last week.

Goree Student Writes of Army Tests of Importance Of Mathematics In Schools

The following is a letter to Supt. H. D. Arnold of Goree, and is being published for the reasons given after the letter:

Kelly Field, Texas.
Dear Mr. Arnold:
Just a line to let you know that I passed my final examinations at ground school, and I will leave for primary training August 5.

I was surprised that I had remembered so much about algebra and geometry, especially quadratics and logarithms. We studied vectors, too, and my average on the whole was 94.66. I made better grades than some of the fellows with a college education, so I am convinced that Goree high school has a very thorough mathematics department.

I hope to be sent to a place close to home for my primary training, as Victory Field, Vernon. I am glad I attended a good high school.

Sincerely yours,
JOHN MORTON

The above part of the letter from a Goree student who volunteered for service in the U.S. Army Air Corps is published to show present high school students, boys especially, the need for completing mathematics courses in high school and to show that part of a teacher's "pay" comes from the gratitude of students who appreciate what their school has done for them.

H. D. ARNOLD, Supt.,

Defense Guard Thanks Citizens For Donations

Company C 17th Battalion Texas Defense Guard, located at Munday, Texas, wishes to express its appreciation to those who have so kindly contributed to their treasury in order that the work may be carried on.

It has been in existence for more than 18 months and thus far its treasury has been supported almost entirely by its members, but lately a more intensive training schedule is being invoked, which requires more money for supplies and activities, being the reason it was necessary to ask for outside aid.

The Texas Defense Guard is a voluntary organization under the direction of the Adjutant General's Department at Austin. It is made up of those who feel that they would like to do their bit in the war effort.

Company C is the ever-present organization for this area, ready to be of service in any emergency or catastrophe for which they may be called upon by proper authority. It is a source of valuable training to those men who may be called into the armed services of our country.

We can use more members and wish to invite all who can meet the requirements to join up, including those between the ages of 18 and 25 years. JOIN UP NOW AND DO YOUR PART!

Dr. Frank Scott Now Located In New Building

Dr. Frank C. Scott of Haskell this week announces the opening of his modern new 10-room clinic, located in the former residence of Mr. and Mrs. O. N. Harrow of Haskell.

Several changes have been made in the interior of the building to accommodate the clinic, and Dr. Scott has added some of the latest equipment for treating diseases of the eye, ear, nose and throat. The clinic also has the most modern equipment for giving all forms of electrical treatment, has an operating room and two bedrooms for patients in order to take care of all minor surgery cases. Dr. Scott announced, with all major surgery cases to be taken care of at the Haskell county hospital.

Dr. Scott formerly maintained offices in Berry's Pharmacy, but in his new location will be better prepared to serve the people of this section with modern facilities. He invites his patrons and the general public to visit and inspect the new modern clinic.

Training For Defense Being Held for Area

Free training is now available for both men and women wishing to prepare for war industry jobs at good wages, according to Mr. S. H. Southall, manager of the Vernon office of the United States Employment Service, who urges that Munday people wanting to enter War Industry training schools contact him as soon as possible, as there are many openings in the schools which must be filled at once.

The training courses offered in these schools, who are operated

jointly by the state and federal governments in cooperation with the public schools are designed to prepare workers for jobs in aircraft, shipbuilding, munitions and other essential war industries in which there is an extremely heavy demand for workers of certain types. Thousands of graduates from these free schools have already found good-paying jobs in these industries through the United States Employment Service. It is almost impossible to obtain such jobs without training.

Machine Shop, Aircraft Engine Mechanic, Aircraft Sheet Metal (including Riveting), Drafting and Inspection are the courses offered. The training is open to men between the ages of 18 and 65 years, and to women between the ages of 18 and 45. There is an increasingly good market with war plants for

women workers, many thousands of whom will be hired in Texas plants during the next few months. Mr. Southall stressed the fact that the training is entirely free; that the only cost to the trainee is that he must support himself while in school. Even this can be avoided in the case of many younger trainees, who may be assigned to National Youth Administration war work centers where they will be boarded and paid a small wage while training.

The training period runs from three to ten weeks, according to the subject and the rapidly with which each trainee can learn. The schools are operated on a 24-hour basis so that all equipment is in constant use and trainees can attend during the hours of their own choice.

Anyone in or near Munday who is interested in training, Mr. Southall said, should contact him for further information. He may be found at the United States Employment Service offices at 1813 Pease Street, Vernon, Texas.

MARKET YOUR CREAM AND EGGS OFTEN . . . By doing so you help improve the price. Remember the quality governs the price. Eggs are down on account of so many bad ones that the price had to be lowered to allow for them. We must not waste time and tires hauling bad food. Our fighting men have to eat this food we produce. If you are not coming to town and your neighbor is, send your produce by him and if your neighbor isn't coming your bring his.
