

Army Asks For Shotguns To Be Used In Camps

An appeal for 12-gauge shotguns has been made to Lowry Post No. 44 of American Legion by G. E. Mason of the ordnance department at St. Louis, Mo. The types required are hammerless double barrels, pumps and automatics.

Most of these guns are to be used in training soldiers and sailors in wing shooting. Some of them will be used for guarding purposes, and each gun so used will release a rifle for combat use.

The guns will be paid for at prices of up to \$30 for the double barrels and \$12.50 for the pumps and automatics.

Anyone who will sell his gun to the government should get in touch with his local dealer or with a member of the local post of American Legion.

Arrival Of Son Makes Headlines

Headlining the Midland paper Saturday was an announcement of the arrival of a son to Mr. and Mrs. Ray Howard. Mrs. Howard is the former Mildred Barnett, daughter of Mrs. Ben Guinn of Munday. Mr. Howard is now employed by the Carpenter Paper Co. of Fort Worth.

The story follows:
With a shout of joy, or perhaps with a shout of announcement, Zachery Terence Howard, 8-pound son of Mildred and Ray Howard, made his debut promptly at 3:29 a. m. Friday, March 5, at the Western Clinic Hospital in Midland, with Dr. Kurt Lekisch attending. The boy and his mother are resting well at the hospital. Soon they will be at home at 607 W. Ohio.

Zack (his mother will call him Terry) is a beautiful and healthy youngster with hair, and eyes, and feet, and arms, and lungs just like most little fellows his age, only more so.

Terry (his pop will call him Zack) came as no surprise to the Howards, but you can bet your boots that they are mighty glad to have him get here.

As we said before, he has hair . . . and eyes . . . and . . . he is just about the cutest thing in diapers!

Rupert Williams In Advanced Flying In Kansas School

A new class of aviation cadets, eager for the second phase of their instruction have arrived at the A. A. F. Basic Civil School in Garden City, Kansas.

Among the group was Rupert V. Williams, son of Mr. and Mrs. P. V. Williams, who completed his elementary flight training at Cimarron Field, Okla. Rupert, who has been in training for several months, is a former A. and M. College student, where he attained the rank of lieutenant in the R. O. T. C.

These potential pilots will take nine weeks of intensive air and ground schooling at Garden City, after which they will be assigned to advanced schools for the final phase of their training. The coveted silver wings of the United States Air Forces will be awarded them upon their graduation of the advanced courses.

Magnolia Station Is Opened At Goree

Announcement was made Tuesday that "Cotton" Fitzgerald, well known in this area, has opened the Magnolia Service Station in Goree and is now serving motorists with Magnolia products as well as handling a few automobile accessories.

Cotton invites the patronage of all his friends and former customers of the station, assuring them of the best possible service at all times. He stated he will also do washing and greasing, and prompt and efficient service will be given all who drive into his station.

GOES TO MIDLAND

Miss Bessie Sue Munday, teacher in the local schools since last September, has gone to Midland to make her home. She resigned her position here to accept a position in the county library at Midland.

Service Men To Be Honored At Local Church

A candle lighting service will be held at the Methodist church in Munday next Sunday evening, honoring members of this church who have entered the armed forces.

Members of each Methodist home having boys in the service are cordially invited to this service. Rev. Luther Kirrk said, and expressed the hope that a member of each family represented in the armed forces will be present to light a candle for the one in the service.

The service will begin at 7:15 o'clock, and a candle will be lighted for each one in the service from a Methodist home in Munday. A cordial invitation is extended to everyone in this area who wish to attend the service.

Slab Cottonseed Cake to Be Received By Local Oil Mill

T. G. Bengie, manager of the Munday Cottonseed Co., announced Tuesday that he is receiving a shipment of 100 tons of slab cottonseed cake from Torreon, Mexico, which will arrive at the local mill in the near future.

This cake will be processed at the local mill and sold to local farmers and stockmen to supplement the proteins for livestock feeding.

"This will aid local farmers and stockmen in feeding problems," Mr. Bengie stated, "and will supplement present proteins for this purpose. All who need this cake are asked to get in touch with the local mill."

O.K. Rubber Welders In New Location

James W. McMorris, owner of the O. K. Rubber Welders, moved his shop into its new location the first of this week. The shop is now located in the rear of the Mayes building, formerly known as the Guinn Blacksmith Shop.

Work of moving, arranging and wiring up the equipment was completed last Monday, and the shop is now on its regular schedule of tire repair work and tire recapping.

"We have all the room we need now," James said, "and we will be in a better position to turn out your tire work more promptly and efficiently. We invite you to call on us in our new location."

"We've been busy with tire recapping since the ban on this type of work was lifted several weeks ago, but we pledge to get to your work just as rapidly as possible."

Large Crowd Attends Auction Sale Tuesday

Record crowds attended the auction sale here last Tuesday, following a light crowd a week earlier because of cold weather, and the Munday Livestock Commission Company reports a big sale that almost reached some of their record livestock sales.

All classes of cattle sold steady with last week, while better cattle sold 25 cents higher than a week ago. Top hogs sold from \$14.25 to \$14.50.

Canner and cutter cows sold from \$6.50 to \$8.50; butcher cows, \$9 to \$10.75; fat cows, \$11 to \$13.30; butcher bulls, \$9.50 to \$11; beef bulls, \$12 to \$12.75; butcher yearlings, \$10.50 to \$12; fat yearlings, \$12.50 to \$14; rannie calves, \$9.25 to \$10; butcher calves, 10.50 to \$12.50; fat calves, \$13 to \$16. Good stocker calves sold from \$14.25 to \$14.50.

ACCEPTS POSITION IN MUNDAY SCHOOLS

Miss Gail Reynolds, who has been teaching in the Rotan schools, has secured a release there and has accepted a position in the Munday schools. Miss Reynolds, who is well known here, is the daughter of Mr. and Mrs. W. E. Reynolds. She is teaching in the elementary grades.

Mr. and Mrs. J. W. Barrington of Throckmorton were business visitors here last Monday.

Schools Open Drive To Buy 10,000 Jeeps

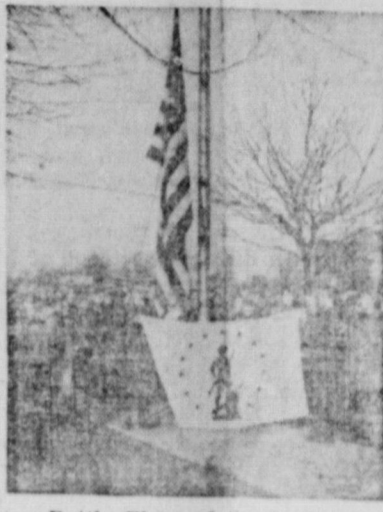

THE little jeep which is serving so nobly from Guadalcanal to Africa has become the symbol of the gigantic efforts of millions of American school children in their War Savings program.

Thousands of public, private and parochial schools soon will be displaying a certificate of honor from Secretary of the Treasury Henry Morgenthau, Jr., signifying that they have paid for at least one jeep by buying \$850 in War Stamps and Bonds.

Countless others will be flying the Schools At War banner awarded to schools with 99 percent pupil participation in War Savings.

Ten thousand jeeps and a hundred bombers! This is the new goal of America's schools as 30,000,000 children continue their Schools At War program under the auspices of the Treasury Department and the U. S. Office of Education.

Results so far in the program reported by Dr. Homer W. Anderson, Associate Field Director in charge

Battle Flags of the Schools

of the education section of the War Savings Staff, are: More than 7,000,000 elementary and high school students from 20,000 schools have prepared special Schools At War scrapbooks for state and local exhibits.

War Stamp and War Bond purchases may reach a grand total of \$300,000,000 for the school year.

4-H Club Boys Have Ten Calves In Wichita Show

New Booths Are Installed Here At Eiland Drug Store

The addition this week of new booths at Eiland's Drug Store gives the firm just twice as much booth space for serving its customers.

The new booths arrived Monday and were installed in the local store on Tuesday. They are of the same type and design as those already in the store, and they have been arranged with other fixtures into an attractive arrangement.

The comfort of customers while being served is the primary purpose of these additional fixtures.

Mailing List To Be Revised

On Saturday, March 20, the mailing list of the Munday Times will be revised, and all subscribers who are not in good standing will be removed from the mailing list.

This means that all who are not paid up for another year will receive only one more copy of the Munday Times, that issue being Thursday, March 18.

This action is being taken, not because we do not want you to get the paper, but because of W.P.B.'s order that we cut down our consumption of paper. It is not our purpose to "cut you off" without warning. We want to hold all subscribers who want their home paper.

This must be adhered to just the same as other government rationing, so we urge you to renew your subscription within the next ten days.

583 Boys And Girls Active In 4-H Club Work

Projects Are Listed In Club Activities

As a result of the Food for Victory drive made the latter part of February by County Agent R. O. Dunkle and County Home Demonstration Agent Lucile King, there has been enrolled 204 boys and 379 girls as 4-H Club members thus making a total of 583 4-H Club boys and girls in Knox county.

The 4-H Club boys and girls have chosen the following as their projects:

46 milk cows from which additional milk will be secured; 5035 laying hens from which increased egg production will be increased; 130 brood sows and litters; 120 pigs fed for market; 41 beef calves fed for market; 168 gardens; 240 acres of feed crops for livestock feed; 72 acres of cotton.

Besides the things listed above, 79 girls pledged themselves to raise chickens for the war effort, 8 girls pledged themselves to help their mothers with the canning of fruits and vegetables, and 10 pledged themselves to take better care of their clothing.

"Since we have the boys and girls behind the food production goal we feel sure that Knox county will not have any trouble meeting their food goal," the county agents said.

FORMER RESIDENT IS VISITOR HERE

Hugh Wallace, who is with the federal reserve bank at Little Rock, Ark., visited with friends here a while last week. Mr. Wallace is the son of Rev. Ed R. Wallace of Shamrock, former Methodist pastor here. Rev. Wallace built the first Methodist church in Munday and served as pastor for four years. He is known over all the Northwest Texas Conference as one of the early pioneer Methodist preachers.

Misses Charlene and Emogene Nelson of Benjamin visited in the home of their parents, Mr. and Mrs. E. H. Nelson, over the week end.

A MESSAGE FROM EDDIE RICKENBACKER

EASTERN AIR LINES INCORPORATED
BANKERS BUILDING - 10 ROCKEFELLER PLAZA NEW YORK
As I have had the privilege of seeing and talking to our boys in the combat zones in the old world and throughout the Pacific, I am convinced that if our people on the home front know what these boys are going through in the hell-holes of the world for us, they would not worry about taxes and war bonds.
The least we can do is to accept the privilege of paying taxes and buying more and more war bonds to finance and win this war in the shortest possible time, thereby saving the lives of thousands upon thousands of the cream of our young manhood and additional billions of dollars for the cost of it.
Eddie Rickenbacker
U. S. Treasury Dept.

Truscott Girl Has "B" Average In College Studies

(Special to Munday Times)

DENTON, Texas. — Rewarded for maintaining a B average in all her work at Texas State College for Women, Miss Mary Beth Chowning of Truscott is entitled to class exemption privileges this semester. Students with this high scholastic average are required to make application in the Registrar's office for approval before they are excused from compulsory class attendance.

Miss Chowning, who is majoring in accounting at the college, is among the 189 students of the total 1851 enrolled to receive this privilege. She is the daughter of Mr. and Mrs. H. C. Chowning and is a sophomore student.

NOW AT STAMFORD

Ted Longino, son of Rev. and Mrs. A. H. Longino of Crowell, who has been in air corps training in Tennessee, has recently been transferred to Stamford for further training. Ted lacks only a few hours being ready for his solo flight.

23 Registrants Are Classified

The Knox County Selective Service Board was in session on Tuesday, March 9, at which time 23 registrants of the county were reclassified. They were announced by John Wilson, clerk of the board as follows:

Class P: Alvey Anderson Reynolds.

Class 1-A: Michael Robert Birkfield, Daniel August Loran, William Cassilian Escobar, Jr., Foy Lee Yost, and Carl Roddy Griffith.

Class 1-C: Wayne O. Cure, Robert Emmett Hughes, John Raymon Lane, Claude Nichols Harrison and John Atterbury, Jr.

Class 2-B Cont.: Malcolm I. Shipman and Roy Louis Esbank.

Class 2-C: Charlie Jordan.

Class 3-A: Porter Blankenship.

Class 3-B: Edward Burris Teaff, John Alfred Kilgore and Joseph Thelmer Corley.

Class 3-C: Waylen Curtis Apple.

Class 4-F: Emmett Pond.

Class 4-H: Ivan Been Gresham, William Burnice Ray and Louis Theodore Blake.

Red Cross Expects To Double Quota

Splendid Response Is Given Workers On Victory Drive

When America calls, Americans respond! This fact was emphasized during the past week by the splendid response given to the local workers who are conducting the annual Red Cross roll call and war fund drive.

So enthusiastic has been this response that local workers have already announced Munday's goal of \$630 to be surpassed. They express the belief that the local unit will double the amount set in the quota.

Very pleasing indeed was the re-

sponse made Tuesday when the Red Cross drive was announced at the livestock auction sale, and much credit goes to Mrs. R. L. Ratliff and others at the sales barn for putting this over so splendidly. Within a few minutes contributions had amounted to \$227.95.

This worthy cause is meeting with enthusiastic response over all of the county. Workers at Rhinecland reported over \$200 was secured within a short time, and other communities of the county are reporting good progress on the drive.

Mrs. H. A. Johnston, chairman of the local unit, announced that a total of \$200 had been deposited in the drive up to Wednesday morning, which is credited to the local quota. With contributions still coming in, she is confident that citizens of the Munday area will double the local quota.

Admonitions which have been coming over the radio and through the press to "double the amount you gave last year" are being adhered to locally in a splendid manner.

Citizens realize this is one means, by which relief and comfort can be given our men on the battlefronts and in enemy concentration camps. Such response as given here testifies to the loyalty and patriotism of Knox county citizens.

Munday PTA To Name Officers

Members of the Munday Parent Teachers Association will meet on Wednesday, March 17. The following program has been announced:

Director, Mrs. J. O. Bowden; poems, Mrs. Jack Bogard; panel discussion, Little Red School-house vs. Modern School, Mrs. Luther Kirk, Leland Hannah, Betty Golden and Jimmie Silman.

Officers will be elected for the coming year, and all members and others interested are urged to attend this meeting.

DORSE E. COLLINS COMPLETES COURSE

Pvt. Dorse E. Collins, son of Mrs. Ora Collins of Munday, has graduated from an intensive course in aviation mechanics at Sheppard Field. Dorse, whose training consisted of maintenance of bombers and fighter aircraft, is now eligible to become crew chief on a bomber and to win a rating as corporal or sergeant.

ANTONE JUNGMAN IS VERY MUCH ALIVE

Mrs. Antone Jungman received a letter this week from her husband, who is in the thick of the New Guinea fighting. The letter was dated February 18, 1943, and Antone said he was alive and well and was eating and sleeping regularly. He has been active in some of the major battles in which General MacArthur's troops have been engaged.

BIRTH ANNOUNCEMENT

Mr. and Mrs. R. E. White of Goree are the proud parents of a baby girl, Carolyn Joanne, who arrived on Wednesday, March 3. Mother and little daughter are reported doing nicely.

What You Buy With WAR BONDS

While we have not heard so much about them, our air-borne command is inferior to none. We have thousands of these especially trained troops and the glider is a necessary factor in their successful operation.

Weather Report

Weather report for the period of March 2 to March 10th, 1943, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
Mar. 4	30	41
Mar. 5	30	27
Mar. 6	13	42
Mar. 7	15	33
Mar. 8	21	28
Mar. 9	42	33
Mar. 10	38	46

Rainfall to date this year .10 in. Rainfall to this date last year .83.

Staff Sgt. Vernon Melton spent a few days of his 18-day furlough in the home of his brother, D. A. Melton, and family. On his return to Robins Field, Ga., Vernon learned that he had been promoted to staff sergeant while on his furlough.

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"

AMERICANS LIKE THE TRUTH

Labor today is the most powerful single group in the nation. It can make or break the war effort. Labor leaders, by demanding their pound of flesh during the emergency, can bring disastrous inflation which would wipe out a half century of labor gains, together with the savings and standards of living of every man, woman and child in the country.

It is any wonder that Captain Eddie Rickenbacker has asked labor to make sacrifices along with the rest of us, forego extravagant overtime demands, help to protect the working rights of men returning from war, cease disruptive jurisdictional strife and make-work tactics; are these things too much to ask of labor at a time when the country is fighting for its very life? They most certainly are not.

The public agrees heart and soul with every word that Rickenbacker has uttered. Those who attempt to discredit him as a labor hater, will hurt labor, because the words he has spoken were born when he was very near to death. Men near death think and speak the truth. And Americans like to hear the truth, no matter how unpleasant.

FREE CHOICE MEANS PROGRESS

A basic principle of democracy is free choice. Significantly, extremists who urge adoption of broad compulsory health programs give scant attention to that basic principle.

Free choice guides every act in our daily lives. We can go to the church we choose, we can buy groceries from whom we please, we can choose the car in which we ride, we can say what we choose, we can choose the schools we wish to attend.

Whenever we abandon the principle of free choice, we hurt no one but ourselves. And that goes for medical service. Free choice of a doctor automatically encourages medical competence. The most qualified are the most patronized. As a result, every doctor is spurred on to achieve the reputation of being a good doctor. This incentive, or whatever you wish to call it, is the background of every doctor's training. It embodies more than mere financial success. Pride of accomplishment, the heart-warming feeling that people come to him because they believe in him, these are part of the incentive inspired by free choice which governs the career of the average doctor. The same inspiration has been responsible for the miraculous scientific discoveries that have come from research laboratories of American medicine.

If we abandon the principle of free choice in the field of medicine, medical service will decline.

SHIPBUILDING MIRACLE

America's "truly miraculous" shipbuilding program will be regarded by posterity "as America's supreme contribution to the winning of the war," according to Sir Clive Baillieu, head of the British Raw Materials Mission.

Commenting on the fact that U. S. had produced 746 ships of 8,080,800 tons in 1942, in his address before the State Trucking Association, Sir Clive added: "When you consider that only 54 ships were built in U. S. in 1940; that 90 per cent of the men and women now employed in American shipyards had no previous experience in that line; that a tremendous naval program was under way at the same time, it is no exaggeration of language to describe this achievement as a miracle!"

MORE THAN "FLASHES OF GENIUS"

The Supreme Court recently held that a new device "must reveal the flash of creative genius" to be patentable.

Inventors, manufacturers, and lawyers alike contend that this is a false standard of invention, the National Association of Manufacturers points out in a publication, "Industry's View on Patents and Postwar America."

Should such an interpretation be applied as the common standard, every patent now in existence as well as those yet to be granted is threatened. Genius is there, it is true, but some of our most valued new products such as vitamin B, synthetic rubber, radio, and television are the result of years of painstaking research rather than the "flash of genius" visualized by the high court.

It seems probable that this Supreme Court ruling has been misconstrued in the lower courts, and that innumerable patents will be done to science and useful arts which the Patent System was intended to protect.

A new gun fires with compressed air contained in a cylinder on the underside. There is no powder, no flash, no noise, and no recoil.

THE MUNDAY TIMES

Published Every Thursday at Munday

J. W. Roberts Editor, Owner and Publisher
Aaron Edgar News Editor

SUBSCRIPTION RATES

In first zone, per year \$1.50
In second zone, per year \$2.00

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

TO CURB UNION RACKETEERING

During his recent lecture under the sponsorship of the Columbia University Institute of Arts and Science, William H. Davis, chairman of the War Labor Board, recommended legislation to curb racketeering and to make public the financial records of recognized trade-unions.

Specifically, Mr. Davis suggested that all unions certified by the government as collective-bargaining agents be required to embody in constitutions provisions for the democratic election of union officers. Together with a limitation on the terms of union officials to two years, this, Mr. Davis told his audience, would go far to prevent control by racketeers.

He recommended also that the financial records of unions certified as bargaining agencies be thrown open to public inspection like the records of corporations. The "small struggling unions" not recognized for bargaining Mr. Davis said should be exempt from such a regulation.

Why union racketeering has been permitted has been a mystery to most of us for a long time. Possibly something can be done about it now that the WPB head has agreed that the need for its correction is so urgent.

TAX EVADERS

It would seem like little argument should be needed today to cause Congress to tax publicly-owned business enterprises.

Former justification or tax exemption of such properties was that it would be silly for government to tax itself.

That argument was sound in the case of property-owned government for purely governmental functions—in other words, a battleship, a state capitol building, a city hall, or the like. Such properties are truly for all the people.

But tax exemption for government-owned business enterprises such as electric light and power plants, does not hold water. Such properties do not serve all the people. They serve customers in a limited territory, and because of tax exemption, such privileged customers do not pay the taxes for electric service they enjoy, similar to the taxes paid for the support of government by the customers of privately-owned electric companies.

Power development is not a legitimate governmental function that serves all the people equally in a manner that would entitle it to tax exemption.

When Congress is seeking every cent that can be wrung from the tax-payer, it is high time it throw the tax net around the publicly-owned power plants. The consumers of such service should pay taxes equal to those charged against private electric service.

TO MRS. AMERICA

Each day, throughout the nation, Mrs. America goes about the job of keeping her home at top efficiency and her family well fed, well clothed, and in good health.

No glamour job has Mrs. America, but a vital one. She is a wartime working girl and her uniform is the familiar apron. She is working all three shifts, putting in sixteen hours a day seven days a week, and her only time-and-a-half is the satisfaction she gets out of a job well done for her family, her home, and her country.

One of these reasons why Mrs. America goes about her daily task with confidence is because she knows that behind her is the finest producing organization in the world, one that will provide not only the necessities of war but the abundance of a new peace, in the making of which she is playing such an important part.

Gems Of Thought

REDEEMING TIME

What is meant by redeeming time? It is to fill the hours full of the rightest freight, to fill them with the life of thought, feeling, action, as they pass.—Clarke.

Very few people are good economists of their fortune, and still fewer of their time.—Chesterfield.

No man can be provident of his time who is not prudent in the choice of his company.—Jeremy Taylor.

If one would be successful in the future, let him make the most of the present.—Mary Baker Eddy.

Look upon each day as the whole of life, not merely a section; and enjoy and improve the present without wishing through haste to rush on to another.—Ruskin.

To worry about tomorrow is to fail to devote to the tasks of today, and so to spoil both days.—William Dewitt Hyde.

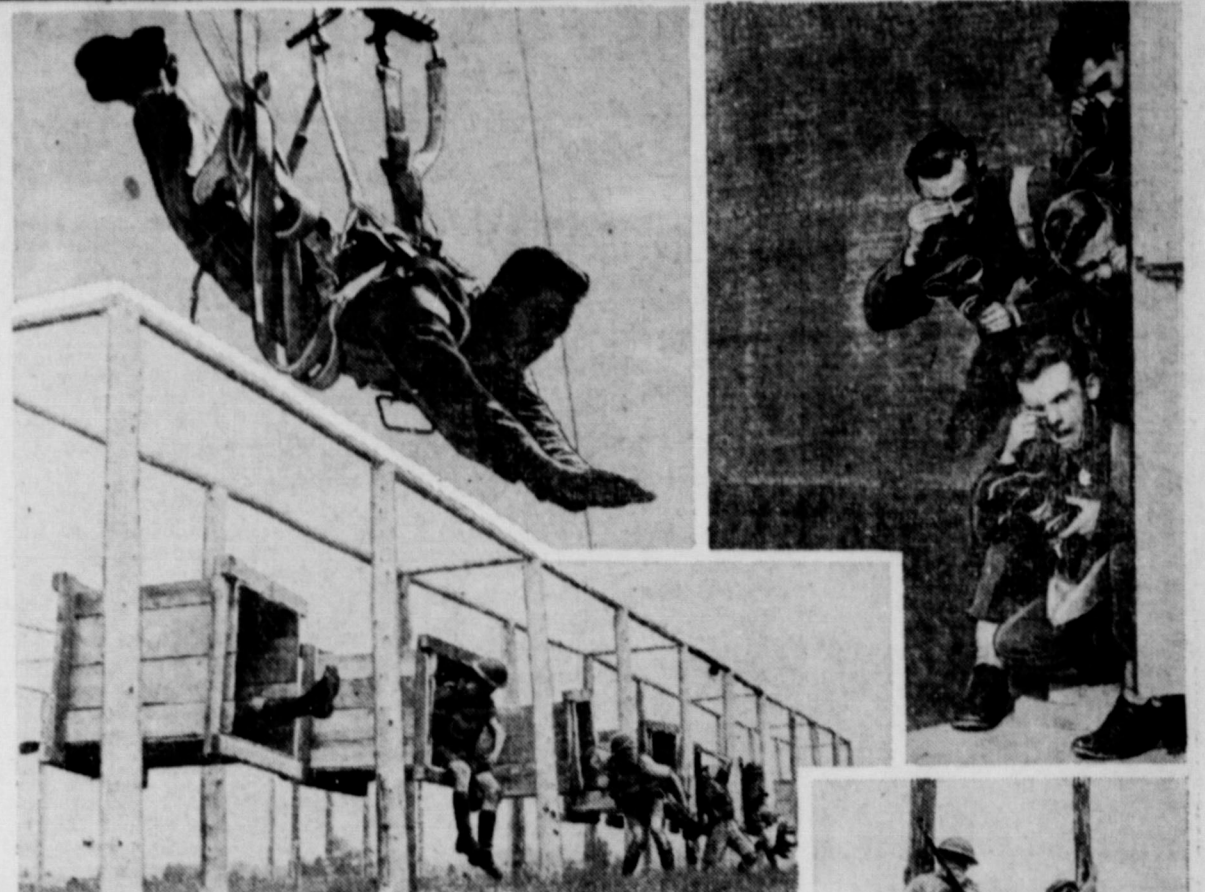

Maintenance Of Motor Vehicles Is Essential

Need for a greatly intensified maintenance program for commercial motor vehicles has prompted a request for maintenance advisory committees from the automotive industry to work with Office of Defense Transportation district staffs, Richard E. Wood, Lubbock District Manager, ODT division of motor transport, announced.

Men asked to serve on the organization committee which will select a permanent committee of eight for this district, are: Hurley Carpenter, Texas, New Mexico-Oklahoma Coaches; Floyd Massey, Massey Motor Co.; E. K. Hufstader, Jr., E. K. Hufstader & Sons; J. S. Quicksall, Quicksall-Pryor Co.; Glen C. Howard, Diamond T. Truck Co.; J. H. Moore, Moore Motor Co.; R. L. Mason, Texas Technological College; and T. A. Rogers, Lubbock Machine Co.

Permanent committee members will represent private and for-hire carries, truck factory branches, truck and automobile dealers, garage and parts jobsbers. They will help safeguard the continued operation of existing automotive equipment by assisting in securing information on maintenance facilities, replacement parts and maintenance personnel shortages. They will also help spread information to the industry on all government regulations which effect vehicle and tire maintenance and will push the preventive maintenance

Canada Training Army Of Scrappers

CANADA'S tough, hard-hitting Army undergoes vigorous training in every form of warfare as it prepares for the day when it will open up a new front against the Axis in the heart of Western Europe.

Twenty-seven months after Canada declared war on Germany, 27.8% of the eligible male population of Canada, a total of 681,598, young Canadians had volunteered for service anywhere.

Canadian Soldiers have taken part in raids on the European Coast. Apart from the Dieppe engagement, a Canadian raid on Spitzbergen was the largest raid of this nature.

Canadian Soldiers are serving, or have served, in Newfoundland, Iceland, the West Indies and Bermuda. Canadian engineering units have

built roads in Britain and have worked on the fortifications of Gibraltar.

All Canadian Army Training is closely co-ordinated with that of Britain and the United States. Training in Canada is integrated with training in Britain, and there is an extensive two-way exchange of officers between the Canadian Army in Britain and the Canadian Army in Canada.

Training of Troops is being brought to completion so far as practical in Canada so that when they are sent abroad they will be prepared for actual combat.

The Canadian Army which has stood guard over the British Isles since 1940 is said to be the most highly mechanized and hardest-

hitting fighting force of its size in the world.

NEW FARM MACHINERY RATION INFORMATION

COLLEGE STATION.—Certificates from county farm machinery rationing committees will be necessary for purchase of one-row, horse-drawn riding cultivators, B. F. Vance, chairman, Texas USDA War Board, announced this week.

County quotas now are being established and this type of machinery will be handled similarly to other quota items.

Texas farmers also were advised that the Department of Agriculture no longer will control distribution by manufacturers of garden planters and of two-row or larger horse-drawn riding cultivators.

Purchase certificates, needed to buy rationed farm machinery and equipment, are issued by county farm rationing committees on approximately 75 types of farm machinery.

To preserve vitamin C content, use a sharp knife instead of a grater to cut fruits and vegetables for salads, University of Texas home economics advise. The more the foods are bruised or exposed to the air, the greater the loss of vitamin C.

program of the U. S. Truck Conservation Corps among vehicle owners, drivers and mechanics.

Present shortages and the possibility of more severe future shortages of essential parts, maintenance materials, tools and equipment make preventive maintenance measures a "must" throughout the automotive field, Mr. Wood said. The need for a comprehensive maintenance program is further emphasized by the growing shortage of mechanics and drivers. Mr. Holman Hendrix of the ODT staff has been designated maintenance specialist to work with the advisory committee.

A West Coast paper manufacturer is introducing an anti-spillage diphenyl-treated wrapper which does for oranges, lemons and grapefruit what other treated wrappers have done toward preserving apples and other deciduous fruits. The wrapper reduces mold and decay and tends to keep fruit in better condition.

A locomotive company, as a health service to its employees, has initiated a free vaccination service which in three days vaccinated 15,100 employees.

O.E.M. Division of Information

As the rationing of processed fruits and vegetables begins to hit full stride and plans for control of the meat supply takes form, the average housewife now has a fairly good picture of the food outlook as it affects her household and what she will do about it.

She already has made the pleasant discovery that the OPA rationing order, covering chiefly canned fruits and vegetables, leaves a long and appetizing list of staple foods in the non-rationed class and that these items alone are of a sufficiently varied nature to provide a healthful, nourishing diet.

This means that under present regulations food purchases which require stamps from Ration Book Two can be held to a minimum without allowing the family diet to suffer. It means also that housewives will pay closer attention to the foods for which no ration stamps are required.

Such an optimistic view is shared by Secretary of Agriculture Wickard and others in close touch with the food situation. Secretary Wickard asserts that there is going to be enough food for essential diets in this country, provided we manage our food supplies wisely. With the beginning of rationing, he said, we enter a new phase of wartime living.

"We can enter it with the assurance that by careful management we shall have all that we need to eat, even if we have to for-

go some of the food that we would like to eat," Mr. Wickard declared.

Careful management calls for full use of food available for civilian consumption, equal distribution of this supply, avoidance of waste, and cultivation of all garden space. Our 1943 Victory Crop Corps will bolster food production from two directions—the Gardens and our volunteer U. S. small-scale private and community garden and the large-scale staple crops from the farms.

What ever changes occur in our dietary habits, they cannot be compared with British food experience since the beginning of the war. Britons have had to fall back on a diet that is nourishing but monotonous, supported chiefly by home-raised fresh vegetables. Their war gardens—both private and community ones—and the Volunteer Women's Land Army are as vital to the United Kingdom as its military defenses. In fact, they are classed as a vital part of the total defense of the British Isles.

In this agricultural region, most of the farm folk and some city dwellers have had gardening experience, but thousands of our people will plant their first row of beans this spring. They will want to read all they can on gardening and get hints from more experienced gardeners.

If the Victory gardener expects to get bountiful crops containing health-protecting vitamins and minerals, he'll have to be sure that the soil in his plot is adapted to cultivation and that it gets plenty of sunshine. Gardening in distant spots which involve use of the family car should be avoided, for saving rubber is just as important as growing food. Rationing of rubber and gasoline has cut the national average 5400 miles annually for passenger cars, but a further reduction may be necessary. In the areas where rationing began last December 1, a 36 per cent decline in rural traffic contrasts with 47 per cent in December.

While city folks with garden plots have the opportunity of growing their own vegetables, they are not as fortunate as their rural friends from the standpoint of fresh or cured meats. The new ceiling prices on pork cuts are slightly higher than prevailing prices in some localities, but the regulation which becomes effective April 1 will assure a more

even supply for everyone. Texas and Oklahoma are in Zone Four and Louisiana is in Zone Six under the pork price control regulation. In Texas, maximum prices for the five most popular types of pork will be as follows:

Commodity	Tex.-Okla.
Grade A sliced bacon	47
Skinned, smoked ham, center slices	61
Skinned, smoked whole ham	41
Center cut pork chops (Fresh or frozen pork loins)	42
Salt pork (Dry salt bellies, fresh, cured or frozen)	25

Moffett Leads In Research For Uses Of Cotton

Continued research for new uses of cotton and cottonseed is being strongly urged by Senators George Moffett of Chillicothe, and Marshall Formby of McAdoo and Plainview, both of whom successfully sponsored similar legislation two years ago.

Moffett is Chairman of the Agricultural Committee in the State Senate, and Formby is a member of the committee.

Considerable research has been done in the laboratories in the State A. & M. College, Texas Tech at Lubbock, and the University of Texas, during the past year, and considerable headway has been made in finding new uses for cotton and cottonseed.

As a result of this research, it may soon be possible to feed hogs and poultry unlimited amounts of cotton seed meal, something which has not been thought safe in the past.

At Texas Tech encouraging progress has been made in the direction of discovering uses for the cotton fiber in connection with the manufacture of synthetic leather, insulating materials, wallpaper, etc. Also experiments are being made in making plastic building materials out of cotton burs.

At the university of Texas a process of chemically treating the cotton fiber has been developed whereby the strength of the cotton yarn is increased by approximately 40 per cent, thereby making West Texas short staple cotton equivalent in spinning strength to Mississippi Delta cotton.

Moffett and Formby are requesting the present Legislature to continue appropriation for this deserving research work. Both pointed out that if these experiments had been in progress for the past twenty years, there would be no surplus of cotton lint on the market today.

Mrs. Roy Jones of Goree was a business visitor here last Friday.

People, Spots In The News

LITTLE BILL, lead plane of an American Army air force bomber wing in Tunisia, is ready for raid on Axis airfield in North Africa. Bomb symbols on fuselage indicate number of raids; swastikas, planes shot down.

DYNAMITE, sleek, black panther, looks meek and friendly as he poses for his picture with pretty Ariel Heath, movie starlet.

DIGGING PLANES—Low-grade U.S. bauxite ores (above) are expected to provide millions of pounds of extra aluminum as result of new process perfected by Aluminum Co. of America, helping maintain plane production till solution of wartime shipping problems restores adequate imports of high-grade ores.

4-H Club Boys Producing For Fighting Men

COLLEGE STATION.—Hale County 4-H Club boys have set themselves the goal of producing the equivalent of the food required by the 1,300 fighting men from the county in the armed forces during the 1942-43 season. In addition, they are going to produce "as much more as possible."

According to K. J. Edwards, district agent for Extension District 2, the production program of these boys involves feeding out 158 white-faced calves, 640 feeder lambs, and between 450 and 500 Poland China, Duroc and Chester White hogs. When the feeding program is finished next May or June, the young livestock men

will have their annual show at Plainview. After being judged and classed, the stock will be shipped to Kansas City and sold on the regular market.

The calves, averaging 560 pounds, were bought in August and September by County Agricultural Agent C. B. Martin and placed with 30 boys in groups of five. The lambs were bought in October and put out to 23 boys in groups of 5, 10, 25, and 50. They expect to send them to market at 95 to 100 pounds.

Beyond the primary objective of producing needed food, the purpose of the program is to train the boys in the practice of commercial feeding, as well as to demonstrate to adult farmers the advantage of marketing their grain through livestock. According to Edwards, the program has been in progress for seven years and has led the way to increased livestock feeding in the territory. The program is financed by ag-

gricultural training agencies and banks. Some of the boys obtained their capital through feeding demonstrations in past years. The boys are encouraged to grow feed in order to assure an abundant supply during their feeding operations. In many cases, Edwards says, increasing feeding by adult farmers is the direct result of observing what the club boys are doing in this field.

TAKEN TO HOSPITAL

Walt Mayo, well known resident of this county who farms near Goree, was taken to a Wichita Falls hospital for treatment one day last week. Mr. Mayo expects to undergo an operation for a kidney ailment this week.

George and Sam Salem visited with relatives and friends in Lubbock over the week end.

Dr. D. C. Eiland is spending this week in New Orleans, La.,

which he is attending a series of lectures on important medical problems. Mrs. D. C. Eiland and son David, and Mrs. Dave Eiland took him to Fort Worth Saturday and he made the remainder of the trip by train.

Mrs. Herbert Sams of Benjamin was a business visitor here one day last week.

Miss Virginia Smith, who is teaching at Olney, spent the week end with her mother, Mrs. J. R. Smith, and other relatives.

P. V. Williams was a business visitor in Dallas the first of this week.

AT FIRST SIGN OF A
COLD
USE **666**
666 TABLETS, SALVE, NOSE DROPS

Keep It Looking Young and Acting Young

Take Care of Gas Equipment to make it serve you longer

GOOD GAS RANGES are built to last a long time, anyway... come war, come peace. So make yours flourish, with smart care. It's the nation's economy, as well as your own.

1. Do not put wet dishes directly on the enamel. (This enamel is glass.) Protect top with asbestos mats.
2. Wipe off spilled foods at once, with dry cloth. Later when range is cold, clean with damp cloth.
3. To clean top burners of aluminum or enamel, use mild soapsuds; rinse and dry. (Do not boil in soda solution.)
4. To clean broiler grill, let cool before washing with soapsuds; use fine steel wool. (Remove grill and pan from the range, as soon as food is taken off.) Whenever possible, use only a moderate heat for broiling, and you will find the broiler easier to clean. (Many foods broil well with a moderate heat.)
5. The oven-lining will last longer, if you roast meats at low temperatures (250° to 325°). It makes better-tasting meat besides, and also cuts down grease-splatter on oven-walls.
6. To clean up spill-overs on oven-floor, let cool, and then use a fine steel wool.
7. Don't load the oven-door with heavy roasts, as you put them in or take them out. It might warp the door.

Do Your Duty Buy War Bonds!

Here's a patriotic duty everyone of us can participate in — buy U. S. War Bonds and Stamps. War costs run into millions — \$220,000 for a big bomber; \$70,000 for a fast fighter; \$20,000 for a light tank. And it takes millions of dollars more to keep on producing these tanks and ships and guns for Victory. But we can and we will, if you lend your support.

Remember! In ten years, Uncle Sam repays you \$25.00 for the \$18.75 you lend him today.

WAR BOND QUIZ

- Q. Does an album filled with Stamps automatically become a Bond that will mature in 10 years?
- A. No. It must be exchanged for a Bond, and it will bear no interest until it is so exchanged.
- Q. Can payment of a War Savings Bond be made to the receiver or trustee in bankruptcy of the estate of a registered owner?
- A. Yes, when bankruptcy or insolvency has been adjudicated and request for payment has been duly executed.
- Q. Can I authorize my employer to set aside portions of my salary each pay day until enough is accumulated to buy a War Savings Bond?

- By Gil Crockett.
- A. Yes, if your employer has installed a Pay-Roll Savings Plan. More than 24 million wage and salary earners are saving their money this way.
- Q. Can I invest a lump sum in War Bonds and receive from the investment a return in the nature of an annuity?
- A. No. The purchase of each War Savings Bond is a separate transaction. Each Bond is dated as of the first of the month in which payment for it is received by an authorized issuing agent, and matures exactly 10 years from that date.

Remember—the longer you keep War Bonds, up to 10 years, the more valuable they become.

Methodist WSCS In Joint Meeting On Last Monday

The senior circle and the Shelly Lee circle of Methodist Women's Society of Christian Service held a joint meeting last Monday in the home of Mrs. W. R. Moore.

Mrs. Moore, as mission study superintendent, had charge of the interesting program which was the first lesson in the mission study course. Others on the program were Mrs. A. G. Zummel, Mrs. Lowe, and Mrs. D. E. Holder.

Around 20 members were present to enjoy this very interesting meeting.

WASHBURN NEWS

Mrs. C. N. SMITH, Correspondent

Joan Ruml of Munday visited Elizabeth Ann Smith over the week end.

Mr. and Mrs. R. B. Jacob have moved to Midland, Texas, to make their future home.

Mrs. Curt Bradley and Mrs. Roscoe Cranwell and little daughter are visiting in Fort Worth this week.

Mr. and Mrs. J. B. Graham of Weirnt visited relatives in this community last week end.

Mr. and Mrs. Ezel Reynolds of Munday visited in the home of Mr. and Mrs. L. A. Searcey last Sunday evening.

Mr. and Mrs. Cleo Pierce and children of O'Donnell visited in the Yates home over the week end.

Mrs. Pete Young of Bomarton visited relatives in this community over the week end.

Mr. and Mrs. Claud Hill of the Sunset community visited relatives here last Sunday.

Mr. and Mrs. Lewis Wallace and children of the Hood community visited their parents, Mr. and Mrs. Dan Wallace, last Sunday.

Corp. Pete Young, who is stationed in Virginia, visited relatives here the first of this week.

Mrs. John Bowden of Munday visited in the home of Mr. and Mrs. Otis Simpson last Monday.

Andrew Gilbert, Jr., who is in the army, is home on a furlough for a visit here with his parents, Mr. and Mrs. A. J. Gilbert.

Kelton Kemp, who has been in the army, has been released. Mr. and Mrs. Kemp will make their home in this community, on the Cartwright place.

Mr. and Mrs. Lane Wombie visited Mrs. Wombie's parents, Mr. and Mrs. C. H. Harrell of the Sunset community, one day last week.

World Day Of Prayer To Be Held At Local Church

In preparation for the observance of the World Day of Prayer, many groups and individuals are uniting in prayer in communities over the world. World Day of Prayer will be observed on Friday, March 12.

Observance for Munday will be held at the Methodist church on Friday afternoon, as the call to prayer goes out to all people. You are invited to join in a fellowship of prayer the world around on this date.

A cordial and urgent invitation is extended to everyone to be present and join in this observance.

Birthday Dinner Given At Oliver Home In Goree

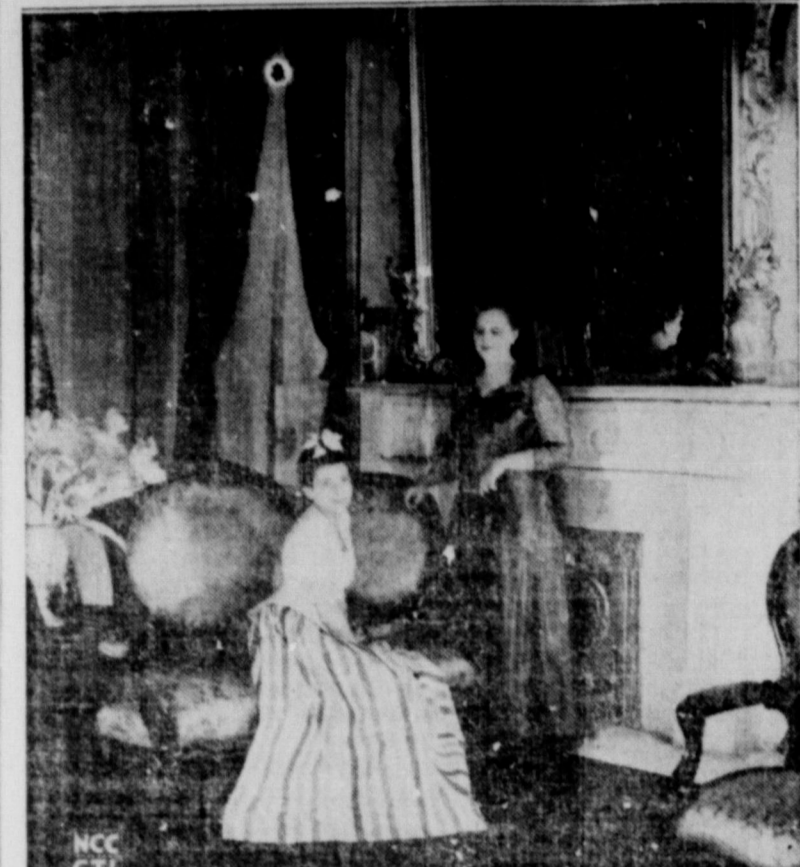

Mr. and Mrs. George Oliver of Goree entertained with a birthday dinner at their home last Sunday, at which time Mr. Oliver observed his 77th birthday.

Those present for the occasion included Mr. and Mrs. Cecil Oliver and family, Mrs. R. B. Coulson and family of Wichita Falls, Ralph Schultz of Sheppard Field, Mr. and Mrs. J. T. Murdock and family, Mrs. Jim Jackson, Mr. and Mrs. Ray Jackson of Hefner.

All reported an enjoyable time and extended Mr. Oliver best wishes for many more happy occasions.

There are more ways of killing a cat than chocking it on butter, and University of Texas drama students "sold" their recent show, "Forty-Three-cs Revue" to an Austin movie house for a four-day run. Proceeds will be used to provide transportation for the show to tour Texas army camps.

First Lady Selects Cotton

Mrs. Paul B. Johnson, "First Lady" of the State of Mississippi, selects cotton for her 16-year-old daughter, Peggy, and for herself. Pictured here in the charming century-old mansion at Jackson, Mrs. Johnson wears a violet cotton chintilly lace dinner dress, while Peggy's costume is a "rambling junior" party dress of permanent-glazed chintz. The quilted jacket can be worn with other costumes. This photograph is the first of a series of portrait studies of the "first ladies" of the cotton-producing states to be released nationally by the cotton industry.

New Deal Club Meets On Munday With Mrs. Jones

Members of the New Deal Bridge Club were entertained last Monday night in the home of Mrs. Sebern Jones. After the usual games of bridge, a guest, Mrs. A. G. Rummel, was declared winner of high score.

A delicious refreshment plate was served to the following members and guests:

Mmes. Jimmy Harpham, Dorse Rogers, Carl Jungman, Wade Mahan, Helen von Bauman, Ike Huskison, Fred Broach, Jr., A. G. Rummel and the hostess.

Capt. P. G. Fetsch left for Mitchell Field, N. Y., last Sunday after visiting relatives here. He was accompanied to Muenster, Texas, by his parents, Mr. and Mrs. F. J. Fetsch, and his sister, Marie, where they visited in the home of Mr. and Mrs. Joe Flusche.

Knox County Hospital Notes

Patients in Knox County Hospital:

Mrs. Mary Hayes, Munday.
Miss Anna Lou Warren, Knox City.
Mrs. J. W. Smith, Knox City.
Emmett Partridge, Munday.
Mrs. Bill Mitchell, Munday.
Mrs. J. B. Moorehouse, Benjamin.
W. J. Mayo, Benjamin.
Mrs. J. I. Hughes, Munday.
Mrs. Eddie Gibbons, Vera.
Mrs. Hubert Partridge and baby daughter, Munday.
Eugene Michels, Munday.
Mrs. J. O. Spear, Snyder.
Mrs. Monty Penman, and daughter, Rochester.
Mrs. Tommie Grace Smith, Rule.
Miss Gertrude Laird, Benjamin.
Patients dismissed since March 2, 1943:
Mrs. Alton Fitzgerald and baby daughter, Knox City.
Mrs. H. C. Corley, Knox City.
Mrs. Paul Jones, O'Brien.
Mrs. R. H. Butler, and baby son, Spur, Texas.
Clarence Murl Wood, Vera.
Mrs. R. L. Love, Rochester.
Mrs. O. F. Johnson, Knox City.
Mrs. R. E. White and baby daughter, Munday.
Mrs. Tolbert Beason and baby son, O'Brien.

Week-Day Services

Ladies' Bible Class, Monday Afternoon, 3:00.
Prayer meeting and Bible Study, Wednesday night, 8:30.

The theme for the sermon next Lord's Day morning will be: "Walking in Truth."
Sunday night at 8:30 the sermon subject will be: "The Doctrine of Christ." The attendance at all Lord's Day services is very gratifying and we give thanks to God for the fine interest. The Bible is our only creed and we invite you to study it with us next Sunday.

AT THE METHODIST CHURCH

Luther Kirk

WE STILL HAVE A CHANCE

In a letter addressed to his Sunday-school teacher, a college youth serving with the armed forces pointed out a fact of extreme importance to the church. "The man coming out of the service with a sound mental and moral perspective," says this discriminating young man, "will do so in many cases because such a perspective was firmly established in his thinking before he entered the service. Anything you can do, then, to give him such a mind—something in which he can believe profoundly—is a step toward saving just as certainly as sulfonamide may be the means of saving his body if he is wounded."

We commend this wise word to parents and church-school workers. The chief business of the church in this fateful day is to provide our youth with the inner conviction which nothing can shake, and upon which our lives must rest solidly.

Mother, Daddy, we can get the co-operation of the church-school teacher. If we can get our co-operation we can get the children's. We urge you and yours to be present each Sunday morning for this helpful service.

Candle Lighting Service

Sunday evening March 14 at

7:15 there is to be a candle lighting service honoring the boys in the armed services who have gone out from homes of this church. We hope that a member from each family represented in the armed forces will be present to light a candle for the member of your family in the service of his country.

A cordial invitation is extended to all who care to attend.

Mr. and Mrs. Garland Langford of Glendale, Calif., came in last week for several days visit with relatives and friends in this county.

Mr. and Mrs. Marvin Allen of Benjamin were visitors in the city last Saturday.

Mr. and Mrs. Lee Snailman.

CEREALES AS MEAT EXTENDERS

Did you know that cereal products may become the backbone of our civilian diet? When I say cereal products I mean all products made from grain. This includes wheat flour and bread. Of the eight basic food groups recommended by the Food and Nutrition Board of the National Research Council, cereals are at present the most plentiful. We'll be eating more and more of them because they'll have to help compensate for foods that are scarce and restricted.

Now please do not get the idea that this means an endless succession of bowls of breakfast food three times a day—with only bread (with perhaps a very little butter on it) and a few fruits and vegetables to relieve the monotony. You can serve your cereals in a wide variety of different and appetizing combinations with other foods.

Helping With The Meat Shortage

Right now these cereal foods are helping with the meat shortage by acting as extenders. Ground meat mixed with rolled dried wheat flakes (prepared ready-to-eat breakfast cereal), a little milk and seasonings, and broiled, makes a truly delicious steak. You don't recognize the wheat flakes. You just know it tastes mighty good. It's the nutty wheat flake flavor that blends so agreeably with the meat. And you've stretched a pound of meat to make six generous servings. Here is the recipe:

Betty Crocker
KITCHEN CLINIC
Prepared for
Your Newspaper by Betty Crocker Home Service Department

EMERGENCY STEAK

1 lb. fresh hamburger or ground round steak
1/2 cup milk
1 cup wheat flakes (ready-to-eat breakfast cereal)

1 tsp. salt
1/4 tsp. pepper
Finely chopped onion (if desired)

Mix together well. Place on pie pan. Pat into shape of a T-Bone steak, about 1" thick. Broil 8-15 min. with regulator at 500° F. (very hot). After meat is brown on one side, turn. Brown other side, and finish cooking. 6 servings.

Flour And Biscuit Extenders

Enriched white flour and biscuit mixes can be used for meat pies or meat turnovers. Dry or soft bread crumbs can be used for meat loaves, or for croquettes to stretch our meat allotment. Here is a deliciously different meat pie with tender golden brown biscuit rings over the top. Grated carrots and finely chopped parsley add a new touch when they are blended into the biscuit dough for MONDAY MEAT PIE.

MONDAY MEAT PIE

1/2 cup diced celery
1/2 cup diced onion
1/2 cup chopped green pepper
2 cups cut-up left-over roast
1 cup cubed cooked potatoes
1 cup cut-up cooked carrots (sliced lengthwise)
1 cup cooked peas (No. 1 can), if desired

2 cups well seasoned gravy (any left-over gravy plus thin white sauce)
Biscuit dough (use half of recipe on biscuit mix package)
1/4 cup grated raw carrot and 1 tbsp. finely minced parsley added to the biscuit dough

Brown celery, onion, and green pepper in hot fat; add meat, potatoes, carrots and peas (if desired). Add gravy, and season to taste. Place in 8" baking dish, and bake 15 minutes in moderately hot oven. (375° F.).

Meanwhile, pat or roll out biscuit dough to fit baking dish. Slit dough in 2 or 3 places, and place on top of hot cooked filling at the end of the 15 minutes. Turn heat to hot oven (450° F.) and continue baking about 15 minutes. 6 servings.

BENJAMIN MUSTANG

Editor-in-Chief	Bonnie Parker
Assistant Editor	Bobbie Floyd
Sponsor	Mrs. Browder
Sports Reporter	Bill Spikes
Senior Reporter	Elda Purl Laird
Junior Reporter	Elaine Galloway
Sophomore Reporter	Frances Smith
Freshman Reporter	Elma Jean Cornett

JUNIOR

The Juniors have been working on their play for the past two weeks. However, we are not putting the play on until our sponsor, Miss Cash, recovers from an illness.

Don't forget our Junior play, "Murdered Alive!" We can assure you that your evening will not be dull if you attend our play. It is full of breath taking moments, screams from all of the east and moments in the dark with a dangerous murderer.

SOPHOMORE

The Sophomore class went horse-back riding to "Hermit's Hill" some time ago. The picnic and ride was enjoyed by every one present. Some of the girls were unable to attend.

We got our report cards this week. Most of us were pleased with the grades.

This week we have on parade, one of the sophomores. He was a member of the football and basketball teams. He is often referred to as "Parker or Tarzan." Some of his favorites are:

Football—sport.
Der Furber's Face—song.
Band—"Spike Jones and His City Slickers."
Subject—History.
Teacher—Mrs. Casey.
Actor—Robert Taylor.
Actress—Lana Turner.
Dish—Steak.

Yes, you know by now whom we are speaking of. Nolan Parker has been one of our classmates most of his school years. We wish him success in the future. He plans to go to A. & M. college

after he finishes.

FRESHMEN

Joan Galloway was born April 19, 1929. She entered school at Benjamin at the age of six and has not had the desire to go any where else.

Teacher—She hasn't found out as yet!

Subject—Math.
Color—Blue.
Sport—Basketball.

Joan is proud to announce the birth of a new baby colt. He has been christened "Mark Galloway." Joan is very fond of her horse and the new colt.

EIGHTH GRADE

This week the spotlight shines on Bobby Frank Hudson. Bobby was born May 29, 1930 at Benjamin, Texas.

Favorite are:
Song—Play Violin Play.
Hobby—Collecting pictures of flowers.

Teacher—Mrs. Dunkle.
We are just through with our exams and they were hard!
There were some very good grades made. Mabel Bell and La Rue Tolson have the highest averages.

HOME ECONOMICS CLUB

Our Home Economics Club met last Wednesday morning. We had been hoping to have a party for a long time, but Wednesday morning we really settled the matter and planned a party. We plan to have it some time this week. No date is set for sure.

GYM CLASS

The gym class, under the direction of Mrs. Laine, is about to get

accustomed to playing baseball again. We don't ever get a chance to get the least bit stiff, because on unpleasant days we meet in the gym and take calisthenics. Most of the girls enjoy them especially those that are a few pounds overweight. In fact, we have some prospects of a few physical education teachers.

HOME ECONOMICS REPORT

We, the boys and girls of the Benjamin home making class are doing our best to help with the war effort. We have canned some food for our lunch room, so that it may continue the rest of our school term. We are going to can more if it is needed.

Since food has been rationed and we get less cans of food, the home making class has made a menu for our community so that more food may be saved and we will get different things to eat.

At the present our class is studying foods. We, the people of the United States are trying to eat the best food for the body, so that they may keep strong and healthy. Doctors and nurses will be needed in more serious things.

We bought and covered a divan for our living room. Also we have added to the improvements of the entire department. We are planning to sand paper and refinish our tables. Some of us have planted a garden for our home project.

SADE

Bonnie do you like soldiers or are you just being patriotic? (Or is that for the public?)

Jean what is this I hear about you being a flirt? I thought people went to court for other reasons!

Joan how do you grease the griddle to make pan cakes?

Charlene what about Mr. Five by Five?

Ruth are you not getting paid for working in the office or do you get paid for going to court?

Claude why do you get nervous when you hear "Little Willie's Truck?"

When you are lonesome and have no one to write to there is a certain little freshman girl who would be glad to write to you! (Just let the "Fish" girls know about you and they will be glad to tell you who.)

Miss Cash where did you get that brass ring?

Mrs. Lane why do you take exercises? (The volley ball girls would really like to know!)

Mr. and Mrs. C. R. Jeffries of Dallas visited with Mr. and Mrs. J. C. Harpham last Wednesday. Mr. Jeffries is an official with the Eugene B. Smith and Company, Dallas cotton firm.

Pvt. Harry C. Boose and wife of San Diego, Calif., came in the first of this week for a few days visit with relatives and friends. They plan to return to San Diego early next week.

Mr. and Mrs. Howell Burton and daughter, Nina Sue, and Mrs. De-France Burton of Hamilton spent Sunday here visiting the Messrs. Burton's father, W. T. Burton, and other relatives.

Synthetic rubber is being used in 38 automotive parts.

Hard Luck For Hitler

Welders in Canadian war plants wear "jinx masks" as they cook up something devilish for the Axis. Designs painted on the welders' masks are like those of African head hunters out for the kill.

CANADA is producing war materials at the annual rate of \$2,500,000,000. Munitions Minister C. D. Howe has announced. Orders placed by the Department of Munitions and Supply now are well in excess of \$6,000,000,000 and the total is rising rapidly as Canada's industrial machinery nears its planned maximum production. Value of war products actually delivered totals nearly \$3,000,000,000, and, in addition, about \$1,000,000,000 has been expended on plants, machinery and defense projects.

In addition to these amounts spent by the Department of Munitions and Supply there have been

war shipments of metals, food-stuffs, timber and other supplies to the United Nations valued at an estimated \$1,500,000,000.

Canadian war supplies are being used on every battlefield. They have been allocated as follows:

30% Canadian forces at home and abroad.

50% United Kingdom or British combat areas and Russia.

20% The United States, China, Australia and the Pacific theatres of war.

Canadian munitions have been in every battle since Dunkirk and they have played no inconsiderable part in the United Nations' victories in North Africa and Russia.

Mrs. E. B. Donoho and son, Elwyn, and Mrs. G. W. Donoho and son, Harvey, of El Cajon, Calif., are visiting in the home of their parents, Mr. and Mrs. W. A. Harris, who reside near Goree.

J. L. Ford was a business visitor in Benjamin last Monday.

Even the preachers were armed in the early days of Texas. A recent gift to the University of Texas Memorial Museum is the bowie knife carried by Rev. Robert F. Bunking while he was serving as chaplain in Terry's Texas Rangers during the Civil War.

4,000 Amos 'n' Andy Scripts

Amos 'n' Andy have just passed another fabulous milestone by playing their 4,000th radio show. They write their scripts on thin onionskin paper and have bound them in 24 volumes. The stacked books are almost as tall as the comedians!

QUALIFIED MEN UP TO 50

MAY BECOME NAVAL OFFICERS

Commissions in the Naval Reserve are still being granted to qualified men up to fifty years of age. A college degree, two years of college, with sufficient business or professional experience, or outstanding success in your chosen field may qualify you.

Sophomore Reporter	Leta Johnson
Freshman Reporter	Oleta Norman
Sponsor	Miss J. Merel DeLoach

FIRST GRADE

The first grade has organized a "Jeep" club. Its membership is composed of those who buy defense stamps or bonds each week.

Charles Ratliff led his group in the buying of defense stamps last week.

Shirley Orsak and Gladene Yeager have the whooping cough. We miss them very much.

Color has been added to our room by making Dutch windmills and tulips. We plan to make kites this week.

THIRD GRADE NEWS

Doyle Purifoy moved to Anson last week. We miss Doyle very much. Jimmy Lyle Bill was ill Monday and Tuesday with sore throat.

We made a border of tulips Monday. Our phlox are blooming. Mrs. Jones repotted our ferns.

We are learning to write sentences with quotation marks. We have learned the difference in Arabic and Roman numerals. We are proud of another new reading book we got Tuesday.

SEVENTH GRADE NEWS

We, the seventh grade, enjoyed listening to Mrs. Bogard, tell about the teachers party, which was Friday night.

A few girls of the seventh grade put their money together and bought the dark-room set which we have been developing. There will be no more developing at school. Mrs. Bogard sighed with relief when she heard this.

8B NEWS

The 8B students received the material for their play Tuesday. It is a comedy. They are sure everyone will enjoy it.

In science they are studying how the earth began.

The school voted last week to buy a jeep for the army. It cost nine hundred dollars above what the pupils usually buy. But everyone seems willing to help out.

SECOND GRADE NEWS

Since the school has decided to buy a "jeep" our room is certainly going to do its part by buying

Defense Stamps and Bonds. Only last week we bought \$21.90 in Stamps.

The interest has grown more particularly since it was "Little Jeep" we named the Sycamore tree, bought and planted by our room on Arbor Day.

In art we are making tulips cut from bright colored construction paper, and when completed they will be placed on our work table to form cricle tulip beds.

Miss Jeanette Campbell spent the week end in Fort Worth, visiting with her sister, Mrs. Duane Johnson, and her brother, Grayford Campbell.

Mrs. Sebern Jones and Mrs. D. C. Eiland were business visitors in Wichita Falls last Wednesday.

DON'T "CALL A DOCTOR"—

Call On Him...

YOUR Doctor is carrying a DOUBLE burden these days. He's not only taking care of his own patients, but those of associates who are now serving in the armed forces. His time is precious—help him conserve it. Instead of asking a physician to visit your home, call on him at his office, during regular office hours. Above all, be considerate in the matter of night calls. And, of course, bring his prescriptions to this pharmacy for prompt, accurate compounding.

I will handle the well known Magnolia Gasolines, Mobiloils, and other Magnolia products. . . also a few accessories.

Expert washing and greasing will be done here. Bring us your car for servicing!

"COTTON FITZGERALD" Goree, Texas

I GIVE YOU TEXAS by BOYCE HOUSE

I Give You Texas

During last Summer's heated race for the United States Senate, two oldtimers were talking in Gatesville.

"They don't have campaigns as hot as they used to," said one.

"No," the other agreed. "Now, the Hogg-Clarke campaign—that was a real hum-dinger."

"Yes," his friend chimed in. "The things that the Clarke people used to tell on Hogg!"

"That's right but those things were true; but the lies that the Hogg people would tell on Clarke."

"They weren't lies, either," broke in the other. "They were the truth."

And they began waving their canes at each other and friends had to separate them—all because of a race for office 50 years ago. Don't you think the legislature

What You Buy With WAR BONDS

Many of the women of the Women's Auxiliary Army Corps are already overseas serving in various capacities to help win the war.

A uniform for a WAAC, complete, costs approximately \$170.00. The quartermaster's department must provide thousands of them.

ought to do something about there being so many legal holidays in war-time? Banks, for example, besides being closed on Sundays and also on Saturday afternoons, are required by law to observe a flock of other days.

If you can't cash a check and put through a business deal on a Tuesday just because it happens to be Lincoln's birthday, then your making a living is interfered with—and that slows down your ability to pay taxes and buy war bonds.

Washington's birthday this year came on Monday, so from 1 o'clock Saturday afternoon until 9 o'clock Tuesday morning, there was no banking service. Cafes, drug stores and other business establishments had to stack up with enough money to make change and cash the salary checks of customers for almost half a week.

State departments also close down on all these holidays and employes recently enjoyed a vacation of two and a half days—in the middle of a war.

The legislature could streamline our list of holidays and provide, when we are at war, that only Sundays, Christmas, New Year's, Fourth of July, Thanksgiving, Armistice Day and Texas Independence Day shall be official holidays. The boys at the front don't take off on Memorial Day. The war plants run on Labor Day. Old Sam Houston wouldn't want business and State government to stop for a whole day to celebrate the Battle of San Jacinto and the winning of liberty if the holiday meant slowing down our war effort and endangering the very liberty which we won.

The work of the banks just stacks up and they have that much more to do when they re-open after one of these numerous holidays that we could omit during this emergency. The banks would rather work.

As for the State departments, this proposal might interfere with a few golf games and that would indeed be a great sacrifice—but, after all, this is war.

Repartee:

Oscar Wilde, brilliant dramatist and poet, was a wit but he was not above appropriating the clever remarks of others. One day, Whistler (famous for the immortal painting of his mother) made a witty observation. Wilde exclaimed, "I wish I had said that."

Whistler retorted, "You will, Oscar, you will." "Nar" Reed, Speaker of the National House of Representatives nearly half a century ago, was presiding when a Congressman declaimed, "In the words of Henry Clay, I would rather be right than President." Reed broke in, "The gentleman need not worry; he will never be either."

Look! Listen! Live!

They were in a hurry—but they never got there.

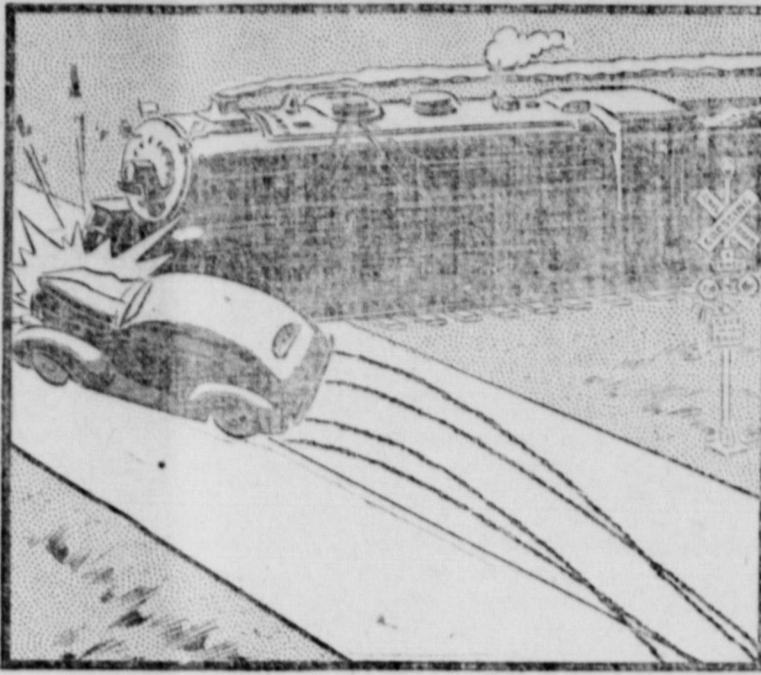

Tire marks on the highway showed that the car skidded about 100 feet through the night.

The car carried a man, his son and his daughter to their deaths. In disregard of warning signals, the car was driven onto a grade crossing and into the path of a freight train. The pilot and piping on the engine were damaged, requiring replacement and causing a delay of one hour.

This deadly accident, illustrated here, is typical of what happens too frequently when a car is driven at too great a speed for existing circumstances. Apparently the driver saw the crossing, saw the signals—but not in time, and skidded onto the tracks.

The National Safety Council is conducting a special campaign to stop these accidents, which every day delay 38 trains a total of 22 hours—a big blow to the nation's wartime transportation effort.

Driver carelessness is the cause of almost all these grade crossing

accidents, according to the Council. To help win the war—to save yourself and others needless suf-

fering—the Council asks you to be sure the track is clear before you start across.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox, M.D., State Health Officer of Texas

AUSTIN, Texas.—Reporting on health conditions over the State of Texas, Dr. Geo. W. Cox, State Health Officer said today that epidemic dysentery, meningitis, and typhus fever have shown a sharp increase for the first two months of 1943. Reported cases of epidemic dysentery and diarrhea total eleven times the number shown for the corresponding period in a seven-year average.

Considerable increase has been reported in the incidence in pneumonia, whooping cough, and malaria, while poliomyelitis has been slightly more prevalent since last fall, but has shown a very satisfactory decrease in recent weeks.

Dr. Cox asked the cooperation of all parents in immunizing children against diphtheria, whooping cough, typhoid fever, and smallpox. These diseases are preventable by the use of safe and effective immunization methods.

Mrs. J. B. Barnicoat of Glendale, Calif., came in last week for a few days visit with relatives and friends in this county.

Mrs. Douglas Doshier of Benjamin and Miss Cash, home economics teacher in the Benjamin schools, were business visitors here last Friday night.

Mr. and Mrs. T. A. Brown and Mr. and Mrs. G. W. Brown, who farm near Knox City, visited in the home of Mr. and Mrs. Chester Bowden, and with other relatives here last Tuesday.

Travis Jones of Hobbs, New Mexico, spent the week end here, visiting with friends and attending to business matters.

Farmers Of U. S. To Need 600,000 New Tractors

SCHENECTADY, N. Y.—Declaring that the 1,900,000 tractors American farmers now have are worn out or nearly so, Robert H. Reed of Philadelphia, editor of the magazine Country Gentleman, said in a General Electric Farm Forum address here that "more than 600,000 new tractors will be needed in 1943 and 1944 to replace the worn-out ones, to make up lost workstock and to offset labor shortages."

"These new tractors would save farmers approximately 300 million man-hours of work," Mr. Reed continued. He pointed out the gigantic production of job of the farmers is an astronomical total of 23.3 billion man-hours of labor for this year, but that there will be a shortage of 2 to 2.1-2 billion man-hours because of labor shortage.

"With implements and equipment, excluding tractors, farmers now have about 3 billion 700 million dollars worth—again astronomical figures—but they need an additional 900 million dollars worth to bring them up to par in work capacity," added Mr. Reed, who was brought up on a 240-acre alfalfa farm in western Kansas. "All in all, this total complement

of machinery and equipment would cost the farmers a great sum, but the important thing is that it would save them more than 2 billion man-hours of labor—almost bridging the gap left by departed workers."

Mr. Reed asserted one per cent of the nation's steel production would give farmers all the tools they vitally need. "A half of one per cent has been allotted," he explained. "One per cent of our wartime steel production would arm our farmers to the teeth for the battle of food—a very low insurance against a farm-production failure that might jeopardize the war and the peace."

Tractors in Britain

Mr. Reed also cited the fact that at the start of the war Great Britain had 30 per cent more tractors per 1000 acres of crop land than the United States, and she still has 39 per cent more today, despite a 75 per cent increase in crop land.

Regarding the amount of equipment on American farms, Mr. Reed stated:

"The real rural truth is that in comparison to the size of the farmers' current job, they have a fourth less machinery than they

had during the first World War. "Many have the impression that farmers are getting enough new machinery to provide needed replacements. The fact is that today farmers are getting only one half the needed replacements, to say nothing of needs for other purposes."

"It is getting late, but not too late, if we as a nation face the realities. We cannot gamble with our food supply; we must win this battle of food," Mr. Reed warned.

Grady Thornton of Amarillo spent the week end here, visiting with relatives and friends and attending to business matters.

Miss Quintna Wiggins, who is teaching in the Falls schools, spent the week end here with her parents, Mr. and Mrs. J. A. Wiggins.

Ben Bowden, a student in Hardin-Simmons University, Abilene, visited his parents, Mr. and Mrs. J. O. Bowden, over the week end.

Miss Julia Williams and Miss Earline Driggers of Weinert were business visitors here last Saturday.

Tax Assessor-Collector E. B. Sams of Benjamin was here Tuesday, on official business.

War-Time Warning To Combine Owners

Do not run the risk of costly delays during harvest by waiting for some simple repair part. We are planning to give you the best service possible but need your cooperation.

It is important that you inspect your machine at once, although harvest is several months away. This has never before been so important. Acute transportation problems and heavy production of war goods in factories have created this emergency.

Check your chains, belts, sprockets, cylinder bars, sickle, bearings, etc., etc.

Our War-Time Warning Is: "Check your combine now!" "Order parts now!"

Call on us if we can be of service. Genuine GLEANER Parts.

We carry the largest stock of parts in West Texas. Have some parts for any make car or tractor.

Mr. O. K. Says... WE'VE MOVED!

We moved again this week end, this time into the rear of the J. L. Mayes building which was occupied by the Guinn-Blacksmith Shop when this shop was in operation.

We have all the room we need now, and will be able to turn out your tire work more rapidly and with greater ease than in our former crowded conditions. We invite you to visit us in our new location.

Our additional tire recapping equipment is expected in the near future, and when this arrives we will be able to operate two recapping molds, giving you much faster service.

To you who need tires recapped, we invite you to come to our shop and make a date to get your work done. This will enable us to turn out your work when you expect it and will save you lots of time and worry.

Goree News Items

Goree News—
Mr. and Mrs. Frank Hill were visitors in Henrietta last week with their daughter and family, Mr. and Mrs. Jack Coy.

Mr. and Mrs. W. R. Caldwell of Bomarton have moved to Goree, and their son and family, Mr. and Mrs. Herman Caldwell, have moved to the Caldwell farm south of Goree to make their home.

Mr. and Mrs. George McMeen and son of Dalhart and Mrs. S. M. True of Plainview were visitors in the home of their mother, Mrs. R. D. Stalcup, and other relatives last week.

Mrs. G. W. Kennedy has been on the sick list but is improved at this writing.

Mrs. D. C. Mills of Hefner is visiting her daughter and husband, Sgt. and Mrs. Wayne Cunnup in Camp Barkeley. Sgt. Cunnup has recently returned from foreign service and has entered officers training school.

Mrs. J. J. Lawson left last Thursday for Littlefield where she will visit her daughter and family, Mr. and Mrs. C. B. Bingham.

Mr. and Mrs. Orh Coffman attended the lecture in Wichita Falls which was recently given by H. R. Nickerbacker, noted news commentator and reporter. Mr. and Mrs. H. A. Pendleton, Mrs. Paul Pendleton and Mrs. Louise Ingram, all of Munday, also attended the lecture, going with Mr. and Mrs. Coffman.

Mr. and Mrs. J. A. Harlan of Littlefield were visitors with Mrs. Harland's parents, Mr. and Mrs. Bud Coffman, and other relatives here during the past week. Their daughter, Geraldine, who has been visiting her grandparents here, returned home last week.

Charles Johnson of Fort Bliss was a visitor here during the past week with his wife and parents, also with relatives at other points.

Henry Coffman, who was seriously burned while he and a party were at Lake Kemp last week, was carried to the Seymour hospital for treatment. Mr. Coffman has improved enough to be brought home and is able to be about some.

Mrs. Ocho Hull, the former Marie Swain, was a visitor here with her parents, Mr. and Mrs. Bill Swain, Ocho, who has been stationed at Riverside, Calif., has been transferred to Palacios, Texas.

Mr. and Mrs. Ford have received word that their son, Jack, has been called into service and is stationed at Fort George G. Mead, Maryland.

Mr. and Mrs. Roy McMahon were business visitors in Goree the past week.

Mr. and Mrs. Mack Tynes and daughter, Reba, were visitors in Fort Worth the past week. They were accompanied by Mrs. H. E. McMahon and Mrs. H. W. Moore, who visited their relatives in that city.

Pvt. Kindred Newton of Louisiana, who is stationed at Sheppard Field, visited his cousin and wife, Mr. and Mrs. Homan McMahon, the past week.

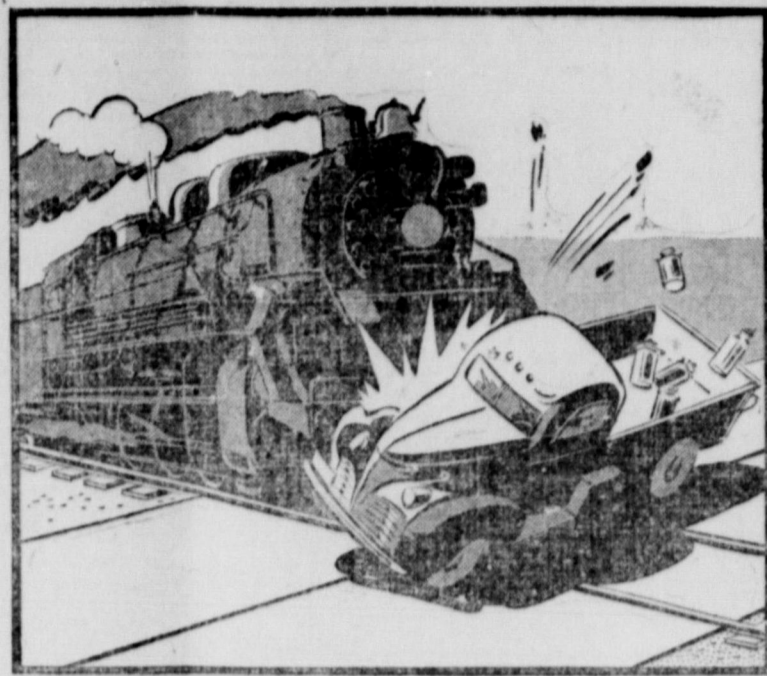

Mrs. Nealie Moore left last week for Amarillo for a two weeks visit with her husband, who is stationed there.

Mrs. W. L. Thornton returned last week from Amarillo, where she visited her son and wife, Mr. and Mrs. Grady Thornton. Grady returned home with his mother for a few days visit.

Mrs. Nealie Moore and Mrs. Homan McMahon were business visitors in Wichita Falls one day last week.

Miss Nancy Martin of Amarillo

Look! Listen! Live!

according to the Council. To help win the war and to save yourself and others needless suffering, the Council asks you to be sure the track is clear before you start to cross.

For five years the grade crossing involved in the accident shown here had been on the driver's route. He drove over it every day at almost exactly the same hour and minute. He never met a train there before, and that old monster familiarly bred contempt for possible accident hazards.

But we're in a war and far more trains are running than in peacetime. It's "train time" at crossings much more frequently. Just before he lost his life, this driver drove onto the crossing in the path of a freight train. The accident occurred in daylight and the view of the truck driver was unobstructed. The train was delayed two hours.

The National Safety Council is conducting a special campaign to stop these accidents, which every day delay 38 trains a total of 22 hours—a damaging blow to the nation's war transportation efforts. Driver-carelessness is the cause of almost all grade crossing accidents,

Rationing At A Glance

Ration Books
War Ration Book No. 1—Used for sugar, coffee, and shoes.
War Ration Book No. 2—Blue stamps now being used for rationed processed foods.

Mileage Ration Books—Books A, B and C used for passenger car gasoline; E and F books for non-highway uses; D for motorcycles; T for trucks and commercial vehicles.

Rationed Food Commodities
SUGAR—Stamp No. 11 in Book No. 1 good for 3 pounds until midnight March 15, 1943.

COFFEE—Stamp No. 25 in Book No. 1 (for those 15 or older on the day the book was issued) is good for one pound until midnight March 21.

SHOES—Stamp No. 17 in Book No. 1 good for one pair of shoes through June 15.

MEAT—Voluntary share-the-meat program sets limit at 2 1-2 pounds per person per week. Meat will be rationed under the "point system" sometime after Book No. 2 is distributed.

Processed Foods—Blue A, B and C stamps (48 points) in War Ration Book Two good for purchase of rationed processed foods until midnight, March 31.

Mileage Rationing
Gasoline—Value of each coupon in A, B, and C books is 4 gallons. Second 8 coupons in A book are good until midnight March 21, 1943. Those who think they are eligible for supplemental rations should see their local ration board.

Tire Inspection—All "A" book holders must have first official tire inspections by March 31, 1943. Subsequent inspections for A book holders will be once every six months. "B" book holders must have second official tire inspection by June 30, 1943. "C" book holders must have second official tire inspection by May 31, 1943. Second official tire inspection for "T" book holders must be made 60 days from Feb. 28.

LOCALS

Mr. and Mrs. W. W. McCarty spent the latter part of last week in Pampa, visiting with their son, Stanley McCarty, who is in the jewelry business there.

Mrs. R. L. Stubblefield of Fort Worth came in Monday for a few days visit with her parents, Mr. and Mrs. J. M. Voyles.

Vernon Routon of Stamford was a business visitor in the city last Thursday.

Arnold Langford returned home one day last week from the Knox City hospital, where he had been for treatment for several days.

Chas. Moorehouse of Benjamin was a business visitor in the city Friday.

Mr. and Mrs. John Gaines returned to Munday to make their home some two weeks ago. They had been in California for several months.

Sgt. and Mrs. Doyle Hughes came in last week from Camp Bowie for a visit with Doyle's parents, Mr. and Mrs. J. I. Hughes, and with other relatives. Doyle is on furlough and will report the latter part of this week to Camp Hood, Texa, for further training.

G. R. Hammett and Lee Haymes attended a Masonic meeting in Knox City last Monday night.

doing a splendid job," added Hall, "in combatting the threat of grass fires. However, they need our individual assistance in preventing unnecessary fires. Many departments are supervising the burning of grass on vacant property in order to eliminate as many hazards as possible.

"The spring winds will add to the seriousness of grass hazards. For the next few weeks we need to be extremely careful in preventing grass fires, and in keeping fires that are started from getting beyond control."

Mr. and Mrs. Grady Roberts were business visitors in Byers, Texas, the latter part of last week. While away they also visited relatives in Vernon.

Deston Green of Seymour was a business visitor here one day last week.

Mrs. Ben Guinn left this week for Midland, where she is visiting her son-in-law and daughter, Mr. and Mrs. Ray Howard, and with her grandson, Zachery Terence.

Mrs. Grady Shyles, Jr., visited in the home of her sister, Mrs. Travis Martin of Seymour, several days last week.

Mr. and Mrs. A. A. Smith, Jr., were business visitors in Wichita Falls last Friday.

Rev. J. D. Phillips, editor of "Truth," a religious paper published at Wichita Falls, was here Saturday, visiting Mr. and Mrs. L. C. Guinn and family. While here he paid the Times office a pleasant call.

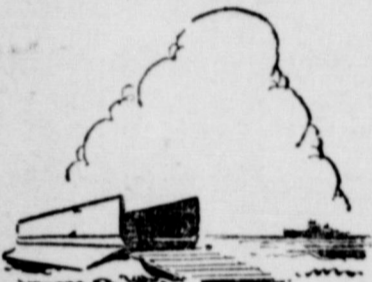

Mrs. Helen von Bauman, who has been residing in New York for some time, came in the latter part of last week for a visit with her mother, Mrs. J. R. Smith, and with other relatives and friends.

Miss Juarcy Jones, who is attending Hardin-Simmons University in Abilene, spent the week end with home folks here.

Mr. and Mrs. Barton Carl of Goree visited with friends here last Saturday night.

What You Buy With WAR BONDS

Down in the Solomons and on the African coasts the **Crocodile Boat** or tank lighter played the most important role in landing our invasion armies. These self-propelled, light . . . fast boats haul tanks, artillery and other equipment from the big ships off-shore to the beach heads.

We need more and more of them, for they are essential to the successful operation of the war. They are made in several sizes from small fifty-footers, costing about \$2,400 to the big 300-tonners costing around \$37,000. Your purchase of War Bonds every payday will help pay for them.

U. S. Treasury Department

Ideal Security Life Insurance Co. Has Phenominal Growth

W. H. LITTLEFIELD

In Anson there is a business that all Anson and Jones county should be proud of. That is Ideal Security Life Insurance Company.

Mr. Littlefield, Secretary-Treasurer has especial reason to be proud this week, for his company's mortuary fund, from which death claims are paid, has now passed the fifty-four thousand dollar mark, a fact which testifies to the sound business policy under which

From Jones County Observer, Anson, Texas, December 4, 1942.

This information is given my friends that you may know the condition of our company. I do not feel that you can buy better insurance than we give. I know they have handled it carefully. This makes what business I write safe. When I take your application, I feel that I am giving you more safe protection for your money.

I take this method of thanking my friends for the substantial business given me. And to those who have been the cause of me writing their friends. This confidence in me and my company is appreciated.

Our policy of "PAYING DEATH CLAIMS QUICKER" is always

the Ideal Security Life Insurance Company operates.

Before Mr. Littlefield got into the life insurance business, he was operating burial insurance companies in Jones and Haskell counties. This experience he credits with being responsible for his present success in the life insurance business.

Mr. Littlefield believes one can mix sentiment and sympathy with the life insurance business if careful in picking his insurance risks. His policy has been from the start to accept only good physical and moral risks.

This policy, he believes has enabled his company to build up one of the strongest reserves of any company of its kind in West Texas. "I have never believed," said Mr. Littlefield, "that it was fair to a good risk to take in poor risks. This always leads to a dissatisfied membership and a weak insurance policy."

The Ideal Security Life Insurance Company has worked out several conveniences for its members which Mr. Littlefield believes has had no small part in bringing about the company's success. One of these is the policy of paying death claims quickly. The company accepts "collect" telephone calls announcing the death of policy holders.

realized when your policy is with Ideal Security Life.

Compare our more liberal war clause for families of service men.

I do not hear of honest criticism or any just dissatisfaction. I know that I am rendering you a service you will appreciate when I take your application.

If you are not with us, a postal card to me at Box 661, Haskell, will help me to see you quickly and explain our rates and policies.

WE DO NOT MISLEAD OR DISAPPOINT YOU.

Our convenient collectors, save you postage and trouble, which is a continuous saving to you.

Very Sincerely,
SAM W. HOLLAND.

Another convenience is the arrangement made with local banks over the company's territory for members paying their monthly premiums at their home banks, from which death claims in that particular territory are paid.

One of the chief factors for his company's success according to Mr. Littlefield, is his consistent advertising in weekly newspapers over the territory in which the company operates. Practically every editor of these weekly newspapers are policy-holders in the company and have no hesitancy in advertising the soundness of the company to their many readers.

Undertakers, Mr. Littlefield pointed out, know the prompt payment policy of the company and are always willing to accept Ideal Security Company expenses without question.

The company does not boast of the large amount paid out in death claims, as is the custom of some companies, as the company has been most fortunate in having one of the lowest death rate per thousand policy holders of any like company—perhaps holding a state record of having paid the smallest percentage of mortuary funds in death claims of any company of its kind.

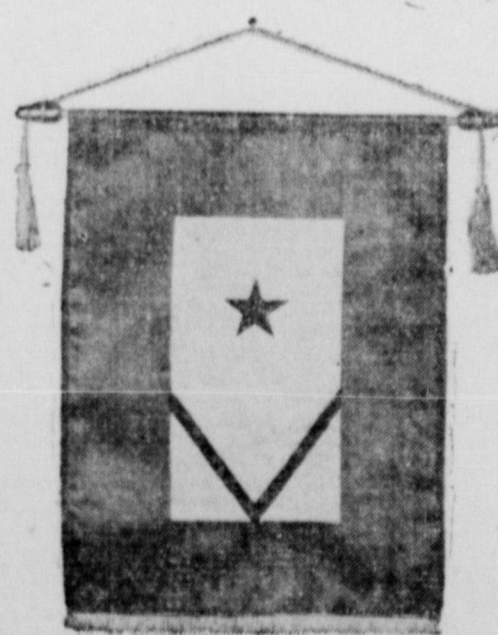

S. W. HOLLAND

Have You a Man in the Service of Our Country?

It's All In A Day's Work, Jimmie Jackson Writes His Mother At Goree

The following is a letter which Jimmie Jackson, who is a seaman second class in the U. S. Navy and stationed at Oahu, Hawaii, wrote recently to his mother, Mrs. Lessie Jackson of Goree:

Dear Mum:
I received your letter today, sure was glad to get it, and in it you asked me to write a letter describing this land and the life of a sailor. Well, I will try, but you will have to over look my mistakes, as I am in a hurry as usual.

Well here I go: To start it I will begin in the early morn at say, 6:30, which is Navy language or 5:30. At that time we have reveille and believe me it isn't like what you see in the movies. Instead of the silvery tone of a bugle to wake us up we hear a "Coxswain" beller, "Hit the Deck Before I Hit You." Not only that but he bangs on your "SAC" (that's a bunk) with a duster handle and he isn't any too careful where he hits, so never sleep with your head towards the isle, or it is apt to get a slight "TAP." Well when you get awake you struggle into your pants after feeling around in the dark, (and I mean dark because this all takes place during the black out), after this you wash your face and head for the chow hall, where you stand in line which seems to be a mile long, and never moves. While standing in line, maybe you make a crack to a "Marine" about "Sea Going Bellhop" and he takes a swing at you but your shipmates run interference and you escape what was rightfully yours. When you get inside you pick up your tray and "Joe" cup (which is your coffee cup) and walk by and the mess cook throws the beans and spuds at you, then you go to your table and eat what your palate can stand, then you throw the rest in a G. I. can, and your dirty tray a mess cook.

You then go to the barracks and lay in your sac until 0715 when the lights come on. (Boy, you people don't realize the luxury of keeping the lights on as long as you want to). Then you polish and shine your shoes and wait until a coxswain or worse a Boswan yells fall in for muster. You then fall in at attention and answer to your name.
Then at 0730 you turn to, if you are a compartment cleaner, you sweep and swab down, if you are in general detail you go to a job which will be assigned to you, and believe me there are plenty of jobs to go around. At 11:30 you knock off and eat chow again, and at 1300 you again turn to and work until 1500 at which time you drill until 1600 when you knock off again.

At eighteen hundred there is a show in the chow hall which is held until the recreation hall is finished. If you go about thirty minutes early you can get a seat and after you get a seat you get as far up front as you are allowed so you can hear what is going on. When you get out the blackout is really in effect so stumble back to the barracks, where you write letters in the blackout room (that is if you can find room between the poker players), or you take a nice cool shower and go to your bunk thinking on listening to a guy's radio (which is about six bunks away, but plays it so loud you can't help hearing it) until he turns it off.

Finally he turns it off and just as you get almost asleep the Air Raid alarm goes off so you grab your gas mask and run to the Administration building and grab a rifle and ammunition and crawl into a fox hole and wait wondering whether it is the real thing or not, you think it is but hope

it isn't. You aren't exactly afraid but still you have that funny feeling in your insides. When it seems like you have lain there for hours the all clear sounds and you turn your rifle in and go back to your bunk and lay down and go to sleep thinking and dreaming of the time when you will come sailing home. Soon a deep restful sleep comes over you and everything is forgotten.

It's a fine, healthful, adventure-some life, and I love it but I will be glad to come back to the good old Texas Panhandle. Although this place is more beautiful, it still isn't home.

Well, I hear the bugler blowing taps, so I better close and go to sleep for reveille comes early.

Love to all,
Jimmy.

P. S.—Here's a poem I picked up:

SAILOR'S LAMENT
We're somewhere on Oahu,
Where the sun is like a curse.
And ever day is followed
By another slightly worse.

When you get up in the morning
With the pain about your feet
And come back in the evening
Suffocating with the heat.

We're somewhere on Oahu,
Where a girl is never seen
Where the skies are always cloudy
And the grass is always green.

Where the mosquitoes' nightly
howling
Robs a man of blessed sleep,
Where there isn't any whiskey,
And the beer is weak and cheap.

Oh, we've read the advertisements
Of the beach at Wakiki,
Seen the pictures of the Hula
Under the Banyan tree.

But since we've seen Oahu
And it's hula skirts of grass
You can take the whole darn
island
And give it back to Kamehameha.

HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)
This community is making its Red Cross drive, and everyone is expected to do his part in meeting the community's quota.

The women's home demonstration club will meet at the home of Mrs. R. L. Lambeth on March 16 at 3 p. m. All members are urged to be present.
Miss Edith Atkinson of Dallas spent the week end here with her parents, Mr. and Mrs. L. L. Atkinson.
Donald Joe, son of Mr. and Mrs. Buster Jackson of Vera, has returned home after visiting Grandmother Jackson and Mrs. J. T. Murdock and family of Hefner.

We regret to report that Mrs. D. B. Jones is still on the sick list this week.

Prof. A. W. Akins filled the pulpit at the Goree Baptist church last Sunday, in the absence of the pastor, Rev. S. E. Stevenson.

Services will be held at the Friendship Baptist church next week end by the pastor, J. L. Gray.

Mrs. Roy Jones was home Monday. Her husband, who is in the Wichita Falls clinic hospital, is reported to be improving.

Miss Joline Hendrix spent Saturday and Sunday in Goree with her cousin, Naomi Hampton, and helped to celebrate her birthday on March 6th.

Mrs. Dee Mullean left Tuesday for Harlingen, Texas, for two weeks visit with Mr. and Mrs. T. C. Blackard.

Typewriters Are Needed For The War Effort

It took an appeal from the Regional Office of the War Production Board at Dallas to Charles Maisel, State Commander of the American Legion to get action on a War Job which has been attacked from various approaches without sufficient results.

"Your typewriter is as important as ammunition," said the W. P. B.'s urgent S. O. S. "The Navy needs fifty five on every battleship, the Army one for every bomber and the combined forces one for every 127 men. The only stockpile is in civilian hands and the Armed Forces need their share."

"Civilian owners must be convinced," said Mr. Maisel, that the Armed Services need every typewriter they can get. Business offices must be shown how they can spare some of them. And stenographers can pool their work and share typewriters in the office to help supply the Army and Navy." General Richard Donovan, commanding officer, Eighth Service Command, stressed the importance of typewriters at War recently in an address at Dallas.

General Donovan urged prompt civilian cooperation because the Army alone needs 297,512 now. Manufacturers are not building typewriters now. They are making machine guns and shells and bomb parts and cannot supply these important writing tools. So the United States government wants to buy every typewriter which was made since January first, 1935 and is asking that schools release up to 25 per cent and businesses up to 25 percent of the total machines owned.

"No fighter on Guadalcanal, with a pile of shells, would stop to quibble or harangue with the gunner whose magazine was empty. He would pass the ammunition," was Mr. Maisel's closing admonition. "The boys must have the equipment to fight with."

The Government wants to buy these necessary machines through legally appointed and authorized buying agents. Every typewriter manufacturer, the agencies and almost every independent typewriter dealer is an authorized buying agent. The WPB, representatives state that anyone desiring to release typewriters to help WIN THE WAR should get in touch with the local typewriter dealers and with the American Legion post commanders and adjutants. They are all supporting this program one hundred per cent.

Newest development to increase the range of aircraft is an auxiliary gasoline tank, detachable in flight by pulling a trigger, and made entirely of plastic bonded, molded plywood.

Mr. and Mrs. B. H. Jones of Weinert were business visitors in town Tuesday.

Food sent to our allies is processed according to their special needs; for instance, Russia is now receiving tins of evinaya tushonka a pre-cooked, highly spiced pork product popular with the Red

CARD OF THANKS
We wish to take this means of expressing our gratitude and appreciation for the many acts of kindness and the sympathy offered in our hour of sorrow.

Especially do we thank Rev. Albertson and Rev. Kirk for their comforting words, Miss Charlene Nelson and other singers, and members of the Home Guard.

Mr. and Mrs. Robert Alexander and family,
Mr. and Mrs. Bill Lemley and family,
Mr. and Mrs. John Lemley and family.

Do not anticipate the happiness of tomorrow but discover it in today. —Ella Wheeler Wilcox.
