Snake Bite Is Fatal To Farmer At Vera

Gordon Shipman Is Buried Wednesday

A tragic death brought sorrow to Knox county last Sunday in the death of Gordon Shipman, well known Knox county farmer, who died as a result of a rattlesnake bite.

Mr. Shipman and a neighbor farmer were walking over an oat field on the Shipman farm when Mr. Shipman was bitten. According to reports, the reptile struck without warning, and it is believed that Mr. Shipman either stepped on the rattler or very near his head. Fangs of the rattler sank into Mr. Shipman's left limb a short way above the ankle.

Shipman was given first aid, then rushed to the Knox county hospital, reaching there about an hour after the accident. He was given serum for the bite and seemed to be responding nicely to treatment. He became violently ill during the night and lived only a short time afterwards.

Mr. Shipman, who was 39 years of age, was reared in the Vera community and was engaged in farming on the League Estate, west of Vera. He is survived by his wife and three children, several brothers and sisters, and a number of other relatives.

Funeral services were held at Vera on Wednesday afternoon, with interment in the Vera cemetery.

Bill Robinson At Brooks Field

Aviation Cadet Wm. E. Robinson, Jr., has requested that his paper be sent him at Brooks Field, Texas. He had been in training at Majors Field. A portion of Robinson's letter follows:

"I have been awfully busy with my studies in connection with my pilot training and have been rushed for time.

"I am now in my advanced phase of training and will graduate sometime the latter part of July. In connection with the flying, I will also be a rated observer, 'The Eyes of the Army,' upon completion of the above. The work is very thorough and interesting, and we should be of much help in winning the war. I use the word 'we' because I am only one of a great number who are now engaged in this training.

"Brooks Field is an old army post, and since it was land-scaped extensively during peace time, it is therefore a very beautiful place. Grass and flowers are around all the buildings, and stately palms line the main streets. It is quite a comparison to the hastily constructed posts that have been erected since Pearl Harbor."

ACCEPTS POSITION AT WICHITA FALLS CLINIC

Mrs. P. B. Baker left last week for Wichita Falls to make her home. She has accepted a position at the Wichita Falls Clinic Hospital, where she is now serving as assistant dietitian.

Mrs. Baker recently resigned as superintendent of the Baylor county hospital at Seymour.

Keep Up With Rationing

RATION REMINDER

GASOLINE—"A" book coupons No. 6, good for four gallons each, outside the Eastern gasoline shortage area.

SUGAR—Coupon No. 13 became valid June 1, and will be good for 5 lbs. through August 15. Coupons No. 15 and 16 are good for 5 lbs. each for home canning purposes. Housewives may apply to their local boards for additional rations if necessary.

COFFEE—Stamp No. 24 (1 lb.) became valid May 31 and is good through June.

SHOES—Stamp No. 17 in War Ration Book One good for one pair through June 15. Stamp No. 18 (1 pair) will become valid June 16.

MEATS, ETC.—Red stamps J, K, L, good through June 30.

PROCESSED FOOD—Blue stamps K, L, M, continue good through July 7.

Range Study Is Made On Tour of Knox Ranches

Five ranchers of Knox county made a range tour last Tuesday with H. M. Bell, chief of the regional range division of the Soil Conservation Service. Other representatives of the soil service were H. B. Boswell, O. H. Bantley of Seymour and B. B. Harris of Stamford. R. O. Dunkle, county agent, also made the tour.

The purpose of the tour was to study the different grasses and range management in order that maximum returns might be obtained.

The ranches visited were the League, Hamilton, Ward and Jamison ranches. At each of these places, Mr. Bell discussed practices that would increase carrying capacity and aid in the soil conservation problem.

Knox Farmers In Drive to Cut Waste of Food

While Farm Security Administration families in Baylor, Knox and Throckmorton counties are working hard to produce more food than ever before, they also are driving to cut waste of food, according to County FSA Supervisor Carlton A. Williams, who has some late figures on food waste in the nation.

"Thirty to 40 percent of the food produced in the United States goes to waste," Mr. Williams reveals. "At least 15 per cent of this is in American homes. A study of garbage collection in 48 representative cities showed that food thrown away averaged two-fifths a pound for each person every day. Over a year this amounts to 235 pounds of food waste per person."

With need for U. S. food greater than ever before, the FSA official emphasizes that we must not only grow all the food we can grow but we must eliminate waste of food. He points out that with half the world going hungry, Americans cannot have a clear conscience until they "lick the platter clean."

"This waste is even greater than shown by what goes into the garbage can," says Mr. Williams. "Also wasted is the labor that went into growing, harvesting and processing the food; the transportation and warehousing facilities that got the food to market; the clerks who packaged, displayed and sold the food, and the housewife who cooked it.

Biggest waste is in bread, accounting for 15 per cent of total food waste.

TENANT PURCHASE FARM LOANS CAN STILL BE APPLIED FOR IN KNOX

Farmers who desire Farm Security loans to buy their own farms were urged to hurry and file their applications by Luther W. Graham, farmer chairman of the county tenant purchase committee for Knox county.

Mr. Graham said that his committee is trying to hasten this work along so that every farmer will be on his newly-owned farm without interfering with his next year's work.

Loans which bear only three percent interest and are repayable over a 40-year period may still be applied for by worthy tenants, sharecroppers, and farm laborers. Preference, however, is given to families with an adequate supply of livestock and equipment.

Farmers to whom these loans are made choose the farm they hope to own and are not restricted to those which are fully improved. The loan may include funds to repair or build the home, barn, and other buildings, according to WBM or War Board regulations.

Applications for these loans should be made to the Farm Security Administration office located on the 2nd floor, County Courthouse, Seymour, Texas or by writing P. O. Box 472, Seymour, Texas for application forms.

America Salutes Food Producers

No inspiring bands and no glamour of uniforms and decorations cheer these unsung heroes of World War II. With patriotic determination dairymen toil long hours under serious handicaps of labor and material shortages to produce food so vital to the winning of the war.

Dairy foods are of front-rank importance in keeping fighters and workers fit, says the National Dairy Council. Food production is the nation's most critical problem. Fighters on the farm are as essential to the war effort as those in munition plants or on the firing line.

Nephew Of Local Citizen Blasts Jap Zeros From Sky

A recent Associated Press dispatch from a U. S. bomber base in India tells how bomber gunners believe the most important men aboard when Jap fighter planes attack huge American planes. The article read (in part) as follows:

"American gunners were at their best recently in a 55-minute air battle that started over Mingladon Airdrome in the heavily-defended Rangoon area. Four U. S. heavy bombers scored hits on two of the airdrome's three runways. Shortly after they headed for home, they were jumped by 14 enemy fighters. Three of the enemy planes were destroyed, four probably destroyed and one damaged. No one on the American planes was wounded. Only one of the bombers was damaged slightly."

Listed among the gunners was Staff Sgt. William Snapka, 26, son of Emil Snapka of Graford, Texas, and a nephew of G. S. Snapka of Munday.

"I saw some of the planes take off a few seconds before we reached the target," Snapka said. "They were on us five minutes later. The next 55 minutes were the busiest I've ever put in. Those Japs made pass after pass at us, one plane right after another. Sometimes they came at us in pairs."

Officers Of Goree Lodge Announced

Officers for the coming Masonic year were elected last week for Goree Lodge No. 1029, A. F. and A. M. They include S. G. Hampton, worshipful master; H. L. Moore, senior warden; E. P. Norris, junior warden; Dr. W. M. Taylor, treasurer, and H. D. Arnold, secretary.

Appointive officers are to be selected within the near future.

DOC RUSSELL DOING VETERINARY WORK

A. B. (Doc) Russell, who terms himself the "cow doctor," was knocking about town Tuesday, in spite of the fact his eyesight is failing. Doc said he was still doctoring cows and horses and was able to do as much as he ever did, in spite of his poor eyesight.

"My only trouble," he said, "is in getting around to do my work. If you need my services I'll be glad to help you if you will come after me. What I can't see to do, I can tell you how to do it."

C. R. Elliott Agent For Real Estate

C. R. Elliott received his Real Estate Dealer's license from the office of the Secretary of State last week, and announces that he will be engaged in the real estate business in connection with his other activities here.

Mr. Elliott invites those having land or cattle for sale to list their property with him, stating that he already has connections with several parties wanting to buy in this area. He believes his knowledge of this section of the country will work as an advantage to both the buyer and seller of real estate.

LIEUT. IN AIR CORPS

Word was received here last week that S. Vidal Colley, former superintendent of the Munday schools, had been commissioned as a lieutenant in the air corps. Mr. Colley's home is in Dallas, and Mrs. Colley is engaged in defense work there. Colley is stationed at Randolph Field.

Miss Rowen Tipton of Lubbock is visiting with Miss Patsy Ruth Kirk this week.

Inspect Texas Rubber

Among the many industrialists expected to visit Texas on American Made Rubber day, June 28, are L. A. McQueen and T. Spencer Shore, vice presidents of The General Tire & Rubber company.

To focus attention of the nation on the part Texas is playing in the production of synthetic rubber, General Tire will open its synthetic plant at Baytown, June 28.

Jesse H. Jones, secretary of commerce, and William M. Jeffers, rubber administrator, have been invited to take part in the ceremonies, by Thornton Hall, president of the Texas Newspaper Publishers' association and chairman of a committee on arrangements.

Shore, who spent a year and a half with the WPB in Washington, will talk at various Texas points on his experiences in the nation's capital.

TIRE INSPECTION

All "A" holders must have second official tire inspections by September 30, 1943. Subsequent inspections for A book holders will be once every six months. "B" book holders must have second official tire inspection by June 30, 1943. "C" book holders must have second official tire inspection by May 31, 1943. Next official tire inspection for "T" book holders must be made within 60 days of last inspection or within 5,000 miles, whichever occurs first.

Knox County War Price and Rationing Board.

Lodge Officers Named On Monday

New officers for Knox Lodge No. 851, A. F. and A. M. were elected for 1943-44 at the regular stated meeting last Monday night, in addition to work in the E. A. and M. M. degrees.

The newly elected officers are: G. B. Hammett, worshipful master; Ray Holcomb, senior warden; Moody Johnson, junior warden; Lee Haymes, treasurer; M. F. Billingsley, secretary, and G. W. Dingus, tiler. The latter three were re-elected.

Newly elected officers will be regularly installed at the stated meeting in July. Appointive officers will be named before the installation date.

Vacation Bible School To Open At Baptist Church

Rev. W. H. Albertson, pastor, announced this week that the Vacation Bible School will open next Wednesday morning at the First Baptist church. The school will begin at 8:30 o'clock.

The school will be taught in four full departments—beginner, primary, junior and intermediate. This school was delayed some two weeks because material for the various departments failed to arrive on time.

"We have a good faculty," Rev. Albertson said, "and we can assure you an interesting and profitable program each day. We urge all children to come."

DRINKING OF KEROSENE PROVES ALMOST FATAL TO BURELSON INFANT

The 15-month-old son of Mr. and Mrs. Willis Burelson narrowly escaped death last Thursday after having drunk kerosene at the family home. The child was unconscious when he arrived at a local physician's office where he was given emergency treatment for several hours.

After being revived, the child was returned to the family home, where he is reported to be improving.

RUPERT WILLIAMS VISITS HIS PARENTS

Rupert Williams, who is training as a pursuit pilot at Eagle Pass, spent the week end here with his wife and with his parents, Mr. and Mrs. P. V. Williams. Rupert is now to have two weeks of target practice on the bay, after which he will receive his commission and pilot's wings.

Corp. Thomas E. Burns and wife of Fort Bliss were here for the week end visiting their parents, Mr. and Mrs. J. M. Burns and Mr. and Mrs. D. B. Bowen. Their son Bobbie Gene returned home with them.

More Rain!

Two rains during the past week have brought additional moisture amounting to 1.65 inches in Munday, bringing the year's total to 8.17 inches. Friday night's rainfall was .80 of an inch, while .85 fell here Sunday night.

The rains were heavier in other portions of the county, and some small crops have been damaged by the heavy rain. Knox City almost experienced a storm Sunday night, when a heavy rain fell. The town was without lights for several hours.

Good rains were also reported at Benjamin, Truscott, Gilliland and other parts of the county.

Outstanding Club Boys Announced

War Bond Quota For June Is Set At \$39,500.00

Frank Scofield, war bond administrator of Texas, informed W. E. Braly of Munday last week that Knox county's Series E War Bond quota is \$39,500.00 for the month of June. A portion of this letter follows:

"Beginning with June 1st, the full responsibility of the War Bond sales in Knox county is vested with you—that is you and your committee are in charge of all sales of Series E, F and G Bonds. Please make a special endeavor to top your Series E June quota by the widest possible margin and also actively promote the sales of Series F and G Bonds in an effort to end this fiscal year, June 30th, with an aggregate of Series E, F and G sales of \$12,000,000,000 for the nation. I would suggest that you and your committee avail yourselves of the full opportunity of having the larger as well as the smaller purchasers invest their money in these securities.

"Estimates place the June national income at 19 per cent above the month of May, and our purpose is to get every dollar beyond what is actually needed for living expenses and enable our citizens to understand why real sacrifice is expected of them. This must be done to help finance and speed the war, to help prevent disastrous inflation and provide a backlog of savings for the reactionary period after the war."

Nelson Completes Pre-Flight Course

ATHENS, Ga.—Naval Aviation Cadet Joe Thomas Nelson, of Munday, has completed the course at the U. S. Navy Pre-Flight School here and been ordered to the Naval Air Station at Olathe, Kansas, for primary flight training.

Cadets at the pre-flight school undergo three months physical conditioning and ground school work in military and academic subjects. At their primary training station they will continue ground school instruction and the physical fitness program and begin intensive flight training.

Nelson, son of Clyde Nelson, Munday, is a former student of the University of Texas, Austin, and N. T. S. T. C., Denton. He completed CAA primary training at Abilene.

Wilson Hunter Is Made Sergeant

Wilson Hunter of Munday, who has been stationed at Frederick Army Air Field, Okla., for the past several months, has been promoted from Corporal to Sergeant, the field's public relations officer has announced.

Sgt. Hunter, entered the service on Feb. 13, 1942, at Munday, Texas, and is a member of the 452nd Base Hq. & AA Squadron at the field, one of the Gulf Coast's newest advanced twin-engine flying schools for bomber pilots.

HAS OPERATION

George Salem, owner of The Fair Store, was taken to the Knox county hospital last Friday morning, where he submitted to an appendectomy that afternoon. Latest reports coming from the hospital are that he is doing nicely.

ON FISHING TRIP

Leland Hannah, Dick Atkeison, M. F. Billingsley and W. H. Atkeison left last Saturday for the San Saba river, in Schleicher county, where they are fishing. They expect to be gone about a week.

JEWELER HERE

Stanley McCarty, who has been in the jewelry business in Pampa, has returned to Munday and is associated with his father, W. W. McCarty in the McCarty Jewelry.

Mr. and Mrs. P. F. Sheedy and family of Big Spring visited in the home of Mr. and Mrs. G. W. Dingus on Monday night and Tuesday of last week.

Group To Be Honored At Sheppard Field

Ten Knox county 4-H Club boys who have rendered outstanding service in producing food equal to the food budget of one or more of our fighting men, have been announced by the State Extension Service and R. O. Dunkle, county agent.

The boys will be interested to know that Colonel Royden Williamson, public relations officer of General Donovan's office of the 8th Corps Service Command, has made arrangements for recognizing the boys by having them come to Sheppard Field at Wichita Falls, June 19th. The boys will be shown airplanes and equipment and extended other courtesies befitting the occasion.

The ten boys who have produced beef or pork equal to the food budget of one or more of our fighting men are as follows:

Charles Hickman, and Jerry Westbrook, Truscott; Pat Hill, Munday; Stanley Glover, Benjamin; Carrol Fred Glover, Benjamin; Hardy Richards, Vera; Hope Bratcher, Vera; Leo Koenig, Hefner; Billy Richards, Vera; Glenn Dunkle, Benjamin.

Brother-In-Law Of Mrs. Benge Dies In Paris

Veteran Railroad Man Buried Thursday

A veteran railroad man came to the end of the division Tuesday night at 11:20 o'clock with the passing of Michael Selvin Rowen at his home in Paris. Mr. Rowen was a brother-in-law of Mrs. T. G. Benge of Munday.

Mr. Rowen has been in failing health for several years, but was taken to his bed in January, and for the past three weeks he had been critically ill. He was born at Murrayville, Ill., on December 3, 1861, and was 81 years of age. He was married to Miss Lila Stewart at Eastland, July 15, 1886, his wife preceding him in death, February 8, 1932.

Mr. Rowen went to Honey Grove about 50 years ago, and was agent for the Gulf, Colorado and Santa Fe Railroad Co. for a long period of years. He was promoted to division freight agent and moved to Paris in 1915. He was due to retire at the age of 65, but his company retained his valuable services until about six years ago, when he retired.

He was a member of the Episcopal church, serving as a warden, and was active in civic and other community activities.

Besides his sister-in-law, Mrs. Benge, he is survived by a son, Stewart S. Rowen of Ada, Okla., a sister in Illinois, and several nieces, including Mrs. G. K. Fladger of Honey Grove. Mrs. Benge, Mrs. Louise Ingram and Mrs. S. E. McStay attended the funeral services which were held in Paris last Thursday.

Weather Report

Weather report for the period of June 3rd to June 9th, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
June 3rd	74	65 100 93
June 4th	73	66 94 93
June 5th	64	65 80 83
June 6th	62	65 91 77
June 7th	62	64 88 85
June 8th	67	67 91 82
June 9th	72	65 92 87

Rainfall to date this year 8.17 inches; rainfall to this date last year 11.37 inches.

COMPLAINT FORMS

The Office of Price Administration announces that they have received a supply of Consumers Complaint Forms. If your grocer is charging you more than ceiling price, it is your duty to fill out this form and send it to the Office of Price Administration. Your signature is not required on these forms.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"

SOMEWHERE A BOY HAS RENDEZVOUS WITH DEATH

Somewhere a Canadian boy has a rendezvous with death tonight.

Whether on a carrier's deck in the Pacific, amid the burning sands of North Africa, or in the tropical forests of New Guinea—whether swift and perilous, or terrible and slow his going—he is giving to his fellow men the greatest gift a man can give.

The years unlive—the warmth and the laughter and the tears, and—most precious gift of all—his sons that might have been. All these he is giving.

No effort of ours, now, can stay the speeding bullet that has his number on it. What to him, now, are the bonds we buy, or the guns we build?

With nothing that is bought or sold, with nothing that is made of human hands, can we share his sacrifice.

What gift can we give to match his—what sacrifice can we make? The answer will come from that still small voice within our own hearts.

For no one can tell us how many bonds to buy, how hard to work on the guns and planes and tanks we build, to keep his gallant effort from having been in vain. Yes, we must each decide the measure of our own obligation—the gasoline we do not use, the pints of blood we donate, the food we do without, and all the other appeals we answer—to make the precious gift he made worthwhile.

Not for the boy who is dying tonight, but because he is dying, we can make our sacrifices to the cause of freedom.—Reprinted from General Electric Monogram, internal company publication.)

BOMBS VS. FIRE DESTRUCTION

According to polls of public opinion on fire insurance, a majority of people think that reimbursement in case of fire is the sole service rendered by fire insurance companies. Actually, hundreds of capital stock fire insurance companies work constantly to prevent fire, and pass the savings on to the public in the form of lower insurance rates.

In the last thirty years they have helped reduce both the rate of fire losses and the average cost of fire insurance, by more than 40 per cent.

What do these percentages mean in terms of lives and property? Enemy bombs and shells destroyed a total of \$400,000,000 worth of property in England during the first two years of war.

An army of fire prevention experts maintained by capital stock fire insurance companies saved an equal amount of American property from fire during the same period. In other words if the rate of fire loss that obtained thirty years ago still existed, our "normal" losses would be a couple of hundred million dollars greater each year than they actually are. And each year this army saves thousands of lives from fire. In peace and war this army helps discover and correct fire hazards, and sees that materials and equipment that go into our homes are as safe as men can make them. It helps authorities track down arsonists and saboteurs. It recommends safeguards for vital war industries and materials. It maps better ways of protecting homes and businesses against loss by fire.

Thus on one hand, the capital stock fire insurance companies insure against financial loss from fire. On the other hand, they seek to prevent fire tragedies before they occur. The full value of the latter service cannot be measured in dollars and cents.

LIVING UP TO TRADITION

The medical profession hasn't done a lot of talking about the "sacrifices" its members are making. And yet doctors, perhaps more than any other group next to the service men, are making real sacrifices in this war.

Thousands of them have voluntarily given up their practices. They live in the foxholes with the soldiers. They fight and die with the navy and the marines. They perform miracles amid blood and suffering. Gone is the business for which they spent so many years in preparation, often on a financial shoe string.

The doctors left at home are making sacrifices too. Men who should be enjoying the leisurely aftermath of useful careers are back in harness working at a killing pace. They are on duty 24 hours a day—and they don't yell for time-and-a-half when Mrs. Jones is having a baby at 3 a. m.

The doctors are carrying out the tradition of American medicine in every emergency. Their example might well be followed by workers in other fields.

THE MUNDAY TIMES

Published Every Thursday at Munday

J. W. Roberts, Editor, Owner and Publisher
Aaron Edger, News Editor

Entered at the Postoffice in Munday, Texas, as second class mail matter, under the Act of Congress, March 2, 1879.

Subscription Rates: In first zone, per year \$1.00; In second zone, per year \$2.00

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party politics, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

WILDCAT REGULATION DANGEROUS

Human nature makes people do strange things.

Take for instance the lady who erected two 50-foot poles on top of her house because she lived next to an airport and didn't like to have planes come near her house. She even left the poles unlighted 15 feet above the obstruction lights at the boundary of the airport. An airline was required in the interests of safety to pass up the city with air mail, passengers and cargo until the situation was cured.

In one of our leading cities, a man built a 348-foot stack one mile from the airport. The city has tried for several years to have the stack lowered or, at least, marked with a red light, but so far without success.

With such examples to draw from, it is no wonder the Interstate and Foreign Commerce Committee of the House of Representatives favorably reported the Lea-Bailey Bill to amend the Civil Aeronautics Act and establish some additional common-sense Federal controls to aid civilian airlines. Among other things, the Bill would give the Federal Administration of Civil Aviation the power to formulate a nationwide program of airport zoning to assure protection of the approaches to airports from unreasonable obstructions. The Administrator would be required to cooperate with states and municipalities.

The greatest hazards to air travel are largely due to lack of uniform regulations, and to conflicting laws throughout the country. With civilian aviation destined to expand rapidly, present conditions must be improved at the earliest possible date.

OUTSTANDING ACHIEVEMENT

Americans have good cause to be proud of their industry. In two years a tremendous job of conversion has been accomplished and a powerful war machine has been built up.

Only recently the President revealed that the aircraft industry plans to exceed this year's enormous aircraft production schedule by more than 55 per cent next year; and that our current production rate is greater than that of all the other nations of the world combined. According to War Production Chief Nelson, the 1943 munitions goals will be fully achieved, and in some instances, exceeded by a comfortable margin.

Speaking before the Senate Military Affairs Subcommittee, Malcolm Muir, Chairman of the War Committee of the National Association of Manufacturers said: "I only wish the public could know more of this wonderful production record—

"Of how many bombs we have stored to drop on German, Italian, and Japanese soil....

"Of how many extra shells we have stored for our heavier guns....

"Of how as disclosed by the Under Secretary of the Navy, 40,000,000 20-mm. anti-aircraft shells, or more than 1,000 for every minute of the day, were loaded for the Navy during February."

When historians come to view the war to date, along with the defense of Britain, the resistance of the Russians, and the amazing performance of our own fighting forces they will no doubt cite the production achievements of American enterprise as one of the outstanding events of the conflict.

KEEP THEM ROLLING

Credit is due largely to the oil industry for keeping pleasure cars on the road. It spearheaded a campaign which collected nearly half a million tons of scrap rubber. A million men and women of the oil business, together with the industry's trucks and 400,000 filling stations, did the job.

Said Petroleum Administrator Ickes: "The results are now history.... My thought at this time, however, is that I earnestly hope that, because it is history, the campaign will not be forgotten. I hope that the American public may realize, and appreciate, the fact that the recaps which they are getting were made possible because of that

In June Victory Gardeners Can Have Roses Too

One of the 1943 flower arrangements compactly designed by Horace Head, Artist of the Florists' Telegraph Delivery Association which is gay without pretention. Roses, several varieties of chrysanthemums and bougainvillea are accented by richly colored croton leaves.

PRACTICAL gardeners busy with vegetable production this year should also remember that June is the month of roses as well as green peas—of spinach and delphinium, too.

Suggestions for the cultivation of flowers as well as the care of Victory gardens are contained in the June issue of House Beautiful.

"In your proper pride at the first mess of home grown peas, don't forget those other June flowers, not vegetables, were your greatest pride and joy," says House Beautiful. "Go right out in the Rose garden today and pay your respects to the best bloom of the lot.

A LIEUTENANT'S MIRACULOUS ESCAPE FROM DEATH

Dear Sis:

In writing this letter to you, I don't know where to start first. So many things have happened since last I wrote. Well, to begin with, I have escaped death at the hand of an enemy in a way so amazing I am still in a daze. You remember I told you when I knew I was going over, I was going over armed with the Bible.... That Bible is the reason I am still here and able to write this letter to all America.

Here is the story: Buddy and I were sent out on duty with our equipment in the work I told you before was our job. We had just received information. The most important for weeks. When we had collected, were discovered by the enemy. I gave my buddy the information we had, told him to beat it with it, prepared myself to face them.

It was the first time I'd been faced

with the necessity of pointing my gun at a man and blasting the life from his miserable body. I thought fast; then I said, "Lord, it's your responsibility now." My buddy had not obeyed my order. He had no such scruples. As I reached for my carbine, a shot from one of them struck me in the breast and blasted me down. Thinking I was dead, my pal jumped for me, grabbed my carbine as well as his own, stood astride my body, blasting away with both guns. He was blasted, too, his knees with three bullet wounds, but when he finished, there was not a one of them left.

He was amazed when I rolled over and tried to get up. The force of that bullet had only stunned me. Dazedly, I wondered why. I pulled that little Bible out of my pocket and in utter muteness looked at the ugly hole in the cover. It had ripped through Genesis, Exodus, Leviticus, Numbers, on through Pentateuch, on through the other books, Samuel Kings, Chronicles, and kept going. Where do you

think it stopped? In the middle of Psalm 91, pointing like a finger at this verse: "A thousand shall fall at thy side, and ten thousand at thy right hand, but it shall not come nigh thee. Only with thine eyes shalt thou behold and see the reward of the wicked." Sis, when I read that verse I raised me three feet off the ground. I did not know there was such a verse in the Bible. I'd been reading mostly in the New Testament. I read the rest of that chapter—the first part was ripped apart. In utter humility I said, "Thank you, precious God," and felt like a little boy that had escaped the mouth of an enemy of prey.

When I got my buddy back to the post, he said, "Lute (he calls me Lute), I've had enough. This convinces me. Come on—I want to get right with God, starting right now." He wouldn't let them tend his wounds. He said, "Nothing matters now but this." He stayed on his knees sixteen hours with 3 wounds. His body became so numb he couldn't move it. But he would not give up. When the Lord finally came in, he moved! That soldier went crazy for God. He jumped over chairs (I mean boxes). He jumped over bunks. He even ran outside and shouted to the whole camp.

Since I've given my heart to God and talk with the boys hold meetings and pray with them, God has given me 25 souls. Twenty-five of my buddies have prayed through and come out for God. God even gave me my General. It took a long time. He was so dignified. But God told me to go after him. I stuck on his trail until he was grounded and came through. The Spirit of God hovered over that tent with a sort of glimmering golden haze. I tell you, Sis, prayer is going to win this war. Not guns alone. Fervent, agonizing prayer I know is. God is bringing them in one by one. The whole company will be a company of praying men. God has promised them to me. Given me assurance. Think of it, 120 praying men and one General in one regiment! When that happens this unit will be unconquerable. Pray, Sis. Pray as you never prayed before. Tell everyone to pray. Tell all America to go to its knees.

Before each decisive victory anywhere over here, sometimes for hours, sometimes for days, there

has been a feeling of people praying far away. The feeling is so strong, you hear. One of the men, the most stubborn of them, said in the stillness of the night, "God! Did you hear anything? Sounded like people praying from some distant place. Must be hearing things in this dead place."

So, pray, everyone. It will have to come from afar. No one prays in this land of utter desolation. God has turned his face away from the horror and destruction man has brought on himself.

Again, I plead, tell America to pray! This war will not end until nations and people have paid in blood and tears for thrusting God out of their hearts, out of their nations, out of their lands. And tell them for God's sake to send Bibles, and more Bibles, and more Bibles! A Bible will give him the confidence that God is with him. I'd like to have this letter broadcast from every radio station in America. Try to get it on the air, in the papers, in anything that is printed. Make copies of it. Send it from coast to coast. Tell them the Army wants prayers and Bibles.

And you complacent, bridge-playing, fox-trotting, cocktail drinking mothers, why didn't you teach your sons about God instead of handing him a cigarette, a cocktail glass and a dance program! Get on your knees and ask God to forgive your sins. Then pray for the Army—pray, pray, pray! And you great, dignified preachers! Why didn't you teach your people to pray? To follow God instead of standing before them in your silken robes and reading them a ritual. Only atonement for sin can stop the shelling, the killing, the murdering. Even the shells, that come whizzing through the air scream only one word—"Atonement!"

I could go on, but I am so tired, so weary. But in all so happy to see them coming to God one by one. So tell them to pray, atone for sin, keep praying. And when you send things to your boys, send Bibles. They want Bibles.

Your loving brother,
Lieutenant

LOCALS

Dr. James N. Walker of Dallas spent the first of this week here, visiting his wife's parents, Mr. and Mrs. G. R. Eiland, and other relatives. He was accompanied home Wednesday by Mrs. Walker and children, who have been visiting here for several days.

Mr. and Mrs. J. A. Wiggins went to Springtown last Sunday, where they attended the funeral of a relative.

Derrell Gray, who is in training at the Amarillo Army Air Field, visited his parents, Mr. and Mrs. R. D. Gray, the first of this week.

Mr. and Mrs. Levoy Burton of Haskell visited with relatives and friends here last Sunday.

Mrs. Bernard Stodghill and children of Wink, Texas, and Mrs. Joe Rogers of Fort Worth visited in the home of Mr. and Mrs. U. S. Rogers and with other relatives and friends here over the week end.

Mrs. Clyde Burnett of Benjamin was here Saturday, visiting with friends and attending to business matters.

Farm Operators Will Check Own Performance This Year

Due to the need for conserving travel and man power and to insure that each operator in Knox county will receive proper credit for acreage planted to various crops and credit for production practices carried out in 1943, the responsibility of reporting performance this year is being placed on the farm operator. Therefore, all farm operators in the county are being requested to report the performance on their farms.

In a recent agricultural meeting with the AAA County and Community Committeemen it was decided that more and better service could be rendered to each farm operator, should the operator make proper measurements of the acreage planted to cotton and also determine the extent of each production (soil-building) practice carried out and to report such determinations to the AAA office, rather than to request operators to report performance to their committeemen at scheduled community meetings.

Each operator will receive an official notice as to what date he should report to the AAA office his measurements and production practices carried out. Under the supervision of the county committee, community committeemen and association employees will assist each operator in the preparation of this performance report. Due to the fact that there are more than 1200 farm operators in Knox county to whom this service must be rendered, we request the cooperation of each producer in reporting his measurements to the AAA office on the date given in the notice that they will receive.

We also urge each operator to make correct and adequate measurements on the acreage planted to cotton only, since a recent revision in the regulations permits the acreage on all war crops (grain sorghum, peanuts, and soybeans) in Knox county to be estimated, we urge each operator to carefully check his measurements and make his estimations on war crops and the extent of each production practices carried out as accurately as possible, since operators report of performance will be subject to spot check by employees of both the county and state AAA office.

Each operator will receive full instructions on how to properly report performance on his individual farm one week in advance to the time that he is requested to report them to the AAA office, since the regulations require that a report of performance be properly filed and signed by the operator before a cotton marketing card can be issued, we request the cooperation of each producer in filing his report on the date requested so that the marketing of his cotton will not be delayed.

Threshing Sudan and Sweet Sorghums

We have recently been advised that sudan and sweet sorghum produced in 1940 and 1941 on non-depleting acreage or in 1942 on conservation acreage may be threshed in 1943 without causing a reduction in payments to which a producer might otherwise be entitled under any agricultural conservation program.

More About Rationing—Emergency Supply Program

The Office of Civilian Requirements, WPB, has worked out an emergency supply program whereby farmers will be able to obtain about 50 "hard to get" items needed in the food program. The emergency program will be put into operation at once and meshed into a long-range program within 60 to 90 days. The object of the long-range program is to continue the flow of essential items to farm use. In other words, the immediate or emergency program will prime the pump... the long-range program will maintain the flow.

The Army, Navy and Lend-Lease and other government agencies have agreed to relinquish a part of current production assigned to them to make possible diversion of small quantities of materials for farm supplies.

Farmers will be able to buy reasonable amounts of needed items directly from their dealers

without complicated forms. Since a store may not have the item or items in stock, farmers should place their order now to allow his merchant time in which to replenish his stock of such items.

Manufacturers of such items on the list will be directed by WPB to ship a fixed percentage of his current production to wholesalers, retailers and others who serve primarily the farm trade. The fixed percentage will vary with each item.

The items to be made available under the program are: Adjustable wrenches, forks, auger bits, bale ties, barbed wire, brass valves (one inch and under), chains, chain repair links, clevises, dehorning saws, drills, (bit stock, blacksmith and straight shank carbon), farm machinery oilers, fence and poultry netting staples, fence pliers, field and garden hoes, flashlight batteries, fractional horsepower motors, general purpose wrench sets, grain scoops, grease guns, hames, hand tire pumps, harness hardware, horse collars, lariet rope, low pressure tire gauges, machine punches, metal belt fasteners, multiple batteries (for fence

controls, ignition, etc.), nails, neck yokes, pipe fittings (1 1/4 inch and under), pipe wrenches, plow bolts, poultry netting, radio batteries, wood handled screw drivers, round pointed shovels, (No. 2 irrigating) round pointed shovels (No. 2 regular), slip joint pliers, square pointed shovels (No. 2), standard cold chisels, steel wire hog rings, steel pipe (1 1/4 inch and smaller), stockmen's knives, telephone batteries, tractor tire chains, whiffletrees and singletrees and wood tackle blocks.

Mrs. Carl Green and daughter, Avanel, visited with relatives in Olney last week end.

Ceiling Placed On Farm Trucks And Machinery

Farmers who are in the market for used farm machinery and second-hand trucks were cautioned today by J. W. Melton, chairman of the Knox County War Price and Rationing Board, that they should not pay more than the legal OPA price ceiling.

All used farm equipment sold by dealers is covered by ceiling prices. Certain types of used farm equipment are covered when sold by farmers, other individuals or auctioneers.

All used trucks are covered by price ceilings, whether sold by dealers or individuals. Any person who does not know the ceiling price on a truck or on a used farm machine may write to his OPA District Office for this information. If he does not know the location of the OPA office, he may get this information from the local War Price and Rationing Board or local War Board.

In the case of sales by farmers, auctioneers or any other persons except dealers, ceiling prices now apply to five critical farm machines. These are tractors (except the crawler type), combines, corn pickers, corn binders, and hay balers (motor or tractor operated).

When one of these machines is sold less than a year from the time it was sold as a new machine, its ceiling price is 85 percent of its base price; in every other case its ceiling price is 70 percent of the base price.

The "base price" is the last published F. O. B. factory price. If information on the price is not available locally, the farmer may write to the District OPA office or to the manufacturer of the equipment or to his agent.

If the base price of a tractor was \$1,000, it may not be sold for more than \$800 if it is less than a year old or for more than \$700 if it is more than a year old.

OPA officials emphasized, however, that these are maximum prices and that much used equipment naturally would bring much lower prices.

OPA also issued a warning to auctioneers that they, as well as owners, would be held responsible for violations of price ceilings. It was pointed out that it is a violation to sell non-controlled items in connection or combination with controlled items.

In other words, OPA warned some non-controlled item, such as a cow or bale of hay cannot be made part of a sale in order to evade price control over a used truck or farm machine.

In addition to the five types of farm machinery under price control when sold by individuals, equipment designed for mounting or direct connection to the machinery in question is under price control if sold as a unit.

Dealers selling used farm equipment are allowed certain mark-ups but for the five critical farm machines listed above the sale price may not exceed 85 percent of the base price if the machine was sold new less than a year ago and 70 percent in any other case. If the equipment is reconditioned and guaranteed, the dealer may not charge more than 95 percent of the base price. The guarantee in these cases must be in writing.

IT PAYS TO ADVERTISE

HOME CANNERS CERTIFIED

COLLEGE STATION — Forty-one Texas canners have been certified by the state USDA war board for processing vegetables under the 1943 Food for Freedom program.

B. F. Vance, chairman of the board, announced this week that of the total canners certified, 21 have contracted for tomatoes, eight for beans, 11 for beans and tomatoes, and one for beans, peas and tomatoes.

Previously, only 13 canners had been certified by the board, Vance said.

Under the contract program, canners agree with vegetable growers to pay for this year's pack at a price equal to or in excess of the base rates which have been established by the USDA.

Canners which have signed contracts for processing tomatoes and beans include Taormina Corporation, Donna; Quality Products, Inc., LaFeria; St. Clair Foods Co., McAllen; Texas Food Products, Mission; Rio Sun Company, McAllen; and L. H. Moore Canning Company, McAllen.

Others are Whitson Food Products, Inc., Sulphur Springs; Mission Food Products Company, Mission; Cass Canning Company, Atlanta; and Apte Brothers and

Meyer Canning Company, Edinburg.

The only canner which has contracted for peas, beans and tomatoes is the Lee Dingee Company, Rusk.

A total of 46 canners participated under the 1942 processing program, which operated similarly to this year's program.

Mrs. Thomas Ballard and daughter, Miss Velma Ballard, and Miss Mary Beth Payne, all of Haskell, and Miss Lois Ann McPherson of Vernon are guests of Mrs. Grady Roberts this week.

County Agent R. O. Dunkle of Benjamin and H. P. Boswell of Seymour were business visitors here last Tuesday.

You Don't Have to Stand in Line...

To Buy ELECTRIC POWER

THAT'S TRUE, even though the electric light and power industry in America was called on to produce, in 1942, the greatest amount of electric power in history—189 billion kilowatt-hours!

And at the same time the average cost per kilowatt-hour to the consumer was lower than ever before!

Not only were all the demands of war plants, military camps, naval stations, and arsenals met—but there remained 27 billion kilowatt-hours of electrical energy to take care of the needs of shops and stores, 30 billion for homes, 13 billion for public transportation, street lighting, and other uses.

These are some of the accomplishments of the electric light and power industry and of the electrical manufacturers who build the equipment used to generate, distribute, and utilize electricity—working together with the teamwork so typically American.

How We Helped

POWER GENERATION: More than one half of all the electric power generated by electric light and power companies in the U. S. is produced by generators manufactured by General Electric.

And such has been the improvement in the efficiencies of turbine-driven generators that if the electric power used in 1942 had been produced with the machines of 1924, it would have required more than a million extra cars of coal and one hundred and forty thousand men just to mine and haul this extra coal.

POWER DISTRIBUTION: To have ample power available wherever new war plants have sprung up requires large and highly efficient transforming and switching equipment and the solution of highly intricate engineering problems. General Electric has had a hand, and a head, in the development and manufacture of much of this equipment.

POWER UTILIZATION: Building machines, lamps, and appliances that put electricity to work more efficiently in factories and homes is one of our most important jobs. The United States has more of these electrical helpers than any other nation. In 1942, the average home used twice as much electricity as in 1930, and in those 12 years the average price per kilowatt-hour decreased 40%.

This is only a small part of the story of America's electrical industry. When the full story becomes history with the passing of the years, it will reveal a group of men who, with a determination which now seems providential, kept on—co-operatively developing new and better equipment, increasing generating capacity, lowering costs, expanding service, planning always to be ready for the demands of the future. It will be a story of remarkable vision and courage—for it all had to be planned, and the work started, years ahead of the need.

The next time you meet a man from your electric service company, be he the local manager, or meter reader, or spurred lineman carrying out his assignment in rain, sleet, or heavy winds, give him a word of encouragement—for he is the man who is making it unnecessary for you to stand in line for electric power. General Electric Co., Schenectady, N. Y.

Wesleyan Service Guild Has Social And Business Meet

Members of the Wesleyan Service Guild met with Mrs. Oscar Spann last Monday night in the regular monthly business and social meeting.

An enjoyable devotional program was given, with most of the members taking part in the discussions. During the business meeting it was decided to meet only once a month during July and August.

Refreshments of a frosted drink and cookies were served to Mrs. R. L. Kirk, Mrs. M. F. Billingsley, Mrs. O. H. Spann, Mrs. Joe Bailey King, Miss Ruth Baker and Miss Merle Dingus.

The regular Bible study period will be held at next Monday night's meeting, and all members are urged to be present.

Ellen F. Mauldin And R. V. Johnson Wed In San Antonio

Miss Ellen Frances Mauldin, daughter of Mr. and Mrs. D. T. Mauldin of San Antonio, became the bride of Rufus Virgil Johnson, son of Mr. and Mrs. N. J. Johnson of Poteet, on Saturday evening, May 22. The double ring ceremony was held at the Woodlawn Methodist church in San Antonio, with Rev. Eugene Slather officiating.

Miss Janelle Stodghill played the wedding music and accompanied Misses Sara Gene Mauldin and Helen Franklin, who sang "I Love You Truly."

Given in marriage by her father, the bride was lovely in an imported white lace gown over taffeta; fashioned with long basque and bouffant skirt. Her fingertip veil of illusion was shirred over a Mary, Queen of Scots, coronet. She carried a bouquet of shasta daisies. Roy Hunsinger of Alice was best man.

Miss Belva Mauldin was maid of honor. She was dressed in buttercup yellow marquisette with a picture hat of yellow maline. She carried a bouquet of shasta daisies. Roy Hunsinger of Alice was best man.

A reception followed in the home of the bride's parents at 939 Ridgewood Cts. The house was decorated with Shasta daisies, gladioli and fern. The table was covered with a Quaker lace cloth over yellow stain. Mrs. H. H. Honeycutt, the bride's sister, cut the cake, and Miss Janelle Stodghill poured punch. Assisting in serving were Misses Jo Nelle Cartwright, Sara Mauldin and Mrs. A. J. West of Dallas, Mrs. J. A. Cartwright and Mrs. Marguerite Bell.

Mrs. Johnson was born and reared in Munday and after graduating from high school here, she studied in McMurry College, Abilene, until entering the school of nursing at John Hopkins Hospital, Galveston, where she received her diploma. She has been a nurse in a San Antonio hospital lately.

Gems Of Thought

TRUTH
Truth is the summit of being; justice is the application of it to affairs.—Emerson.

The language of truth is unadorned and is always simple.—Marcellinus.

All truth is from inspiration and revelation,—from spirit, not flesh.—Mary Baker Eddy.

Half the misery in the world comes of want of courage to speak and to hear the truth plainly, and in a spirit of love.—H. B. Stowe.

Sincerity and pure truth, in what age aever, find their opportunity and advantage.—Montaigne.

Be glad no question, shirk from no conclusion, but follow truth wherever it may lead.—Henry George.

SULPHO . . .

YOU NEED SULPHO IF YOU HAVE POULTRY

SULPHO is a liquid sulphur solution containing valuable ingredients which you will find helpful in aiding you to control parasites on poultry such as lice, mites, fleas and blue bugs. Put it in their drinking water. Uses from 15 to 25 drops of SULPHO to each gallon of drinking water or wet mash to aid in ridding fowl of blood-sucking parasites. To aid in ridding fowl of feather lice mites and etc., dip and spray is most effective. Use one oz. of Sulpho to each gallon of water, add two ozs. of flake soap, stir well then dip fowl in the solution or spray around henhouse and roosts. You can depend on Sulpho. Sulpho also acts as an appetizer and general conditioner when given in drinking water or feed of chicks, poultry and adult fowl. It is a gentle intestinal astringent, clearing the tract of germs causing worms, and helps them resist disease, builds chickens into strong, sturdy, egg producing fowls.

T. J. Turner of Stamford, former resident of Munday, visited with old friends here last Tuesday.

Betty Crocker KITCHEN CLINIC

AUNT ELLA SHOWS HER NIECE A TRICK OR TWO ABOUT CAKES

"I'd love to make a cake for Dad's birthday," young Doris Bradley told her Aunt Ella.

"But I suppose you haven't any sugar!" Aunt Ella, who was making an early morning call, snapped at her niece. She thought she scented a hint for a sugar donation.

"Oh, I have some brown sugar," Doris replied quickly. "I'm sure there's enough for a brown sugar cake. That's Dad's favorite. But it takes so long to make a cake—the creaming and beating the eggs and all the dishes to wash afterwards. And I have such a lot to do today."

"My land," commented Aunt Ella. "Don't tell me that with your modern notions you haven't heard about the new way of making cakes without any creaming or egg beating—and using only one mixing bowl! I'll come over this afternoon and show you how to make a brown sugar cake this new way."

But Doris hesitated. "I never thought it was safe to make a cake any way but the way the recipe says," she demurred.

"You're right here," conceded Aunt Ella. "The folder that came with my last box of cake flour says to use the old method with the old recipes—and the new recipes with this new method. But I'm sure I saw a brown sugar cake with the new recipes on that folder."

Important To Have Ingredients At Room Temperature

Doris was interested. She followed Aunt Ella's instructions about getting out shortening, milk and eggs and letting them stay in the kitchen until early afternoon—when Aunt Ella would return with her recipe and they'd make the cake. It was very important, Aunt Ella said, that the ingredients be at room temperature in this new method.

At the appointed time she returned with her box of cake flour and the recipe for brown sugar cake. She told Doris to follow the directions exactly. And certainly they did sound strange. But Doris respected Aunt Ella's judgment when it came to cakes, even though the batter did look rather thin. The cake was mixed in no time at all and in the oven.

Father Was Delighted

They put the cake together with a luscious fluffy honey icing, and it looked lovely! When Dad finally cut it—Doris had to admit she'd never before made a cake with such an even, nice texture. Dad said it was positively the best birthday cake he'd ever had.

BROWN SUGAR CAKE (new method)

- 2 1/2 cups sifted cake flour
- 3 tsp. double-action baking powder — or 3 3/4 tsp. phosphate baking powder — or 4 tsp. tartrate-type baking powder
- 1 tsp. salt
- 1 1/4 cups brown sugar (packed in cup)
- 1/2 cup high-grade vegetable shortening (part butter for flavor)
- 1 cup skimmed milk
- 1 tsp. vanilla
- 2 large Grade A eggs

Aunt Ella had made Doris turn on the oven—so it would be at exactly the right temperature for baking the cake — 350°, moderate oven—as soon as the cake was mixed. She'd made her get her two 8-inch layer cake pans greased and floured before she began the mixing. The cake flour was sifted before it was measured. Then the directions said to—

Measure sifted flour, baking powder and salt into sifter, and sift together into mixing bowl. Measure brown sugar and add. Measure shortening and milk. Measure vanilla into milk.

Add Soft But Not Melted Shortening

Add soft shortening and the milk to the dry ingredients. Mix with electric mixer on slow to medium speed (or beat with a spoon) for 2 minutes by the clock. (Doris beat her cake with a spoon.) During mixing, scrape batter from sides and bottom of bowl frequently.

Add eggs (unbeaten). Continue mixing for 2 more minutes by the clock. Scrape batter from sides and bottom of bowl frequently. (The total mixing time is 4 minutes.)

Four into prepared pans. Bake in a moderate oven (350°) for 35 to 40 minutes for 8-inch layers or 25 to 30 minutes for 9-inch layers. Remove from oven, let layers stand in pans for a moment; then turn onto wire cooling rack.

Sgt. Chas. Harrell, Miss Nancy Trowe, Wed In Wyoming

At a ceremony distinctive in beautiful simplicity, Miss Nancy Marie Trowe of Casper, Wyoming, became the bride of Sgt. Charles Troy Harrell of Munday on Saturday morning, May 29, at 11 o'clock at Casper.

The marriage, witnessed by members of the immediate family and a few close friends, was performed by H. Allison McHenry, pastor of the First Baptist church of Casper. The wedding was held at the T. L. Sandison home on South Willow St.

The bride was given in marriage by her father, H. R. Trowe, and was attended by her sister, Mrs. T. L. Sandison, who acted as matron of honor. Hubert L. Jensen, first lieutenant in the Air Corps, was best man.

The bride was attractively attired in a suit of summer brown with blue trim, and wore matching accessories. Her corsage was of rosebuds, Stephanotis, and her only jewelry was a diamond pin belonging to her mother and worn by her three sisters upon the occasion of their marriages. The maid of honor wore a soft toned suit of green wool, with natural accessories, her corsage being of gardenias.

Following the ceremony, the bride cut her cake at a taper lighted table, beautifully appointed, and enhanced with bowls of rosebuds and sweetpeas.

Mrs. Harrell is the daughter of Mr. and Mrs. Herman R. Trowe, well known family of Casper. She attended the Casper schools and graduated from Indiana State University at Terre Haute, Ind., later taking special work at the University of Wisconsin at Madison. Since that time she has been a member of the teaching staff of the Casper schools.

Sgt. Harrell is the only son of Mr. and Mrs. C. H. Harrell, long time residents of Knox county. Prior to enlistment, he was associated with his father in farming in the Sunset community.

Sgt. and Mrs. Harrell left Casper soon after the wedding and have been visiting Sgt. Harrell's parents here. Upon their return to Casper, they will be at home at 1026 W. 14th street.

Mrs. West Marr and daughter of Jacksboro visited in the home of Mr. and Mrs. G. R. Eiland last Saturday.

Worship Hour—song service 9:00 P. M.
Sermon 9:15 P. M.
Benediction 10:00 P. M.

Sunday morning sermon subject: "The Lost Christ."
Sunday evening sermon subject: "Salvation by Grace."
The Bible is our waybill from earth to glory.
Study your Bible or be left out of heaven.

You are invited to study that book with us next Sunday and every Sunday. You are always welcome.

PRESBYTERIAN CHURCH

Dr. William N. Sholl of Haskell preaches here each Sunday morning at 9:30 a. m.
Our church is located on the Main street of Munday and has an attractive auditorium with

added Sunday school facilities. The Auxiliary meets on Mondays and is accomplishing a good work. All Presbyterians living in Munday and surrounding country are urged to attend our services. A very hearty invitation is extended to all visitors, especially those who have no regular church home.

FIRST BAPTIST CHURCH

We are planning to begin our Vacation Bible School next Wednesday morning (June 16th) at 8:30. We will have the full four departments: Beginner, Primary, Junior and Intermediate. We have a good faculty, and can assure you an interesting and profitable program each day. We urge all children who will to come.

Next Sunday is Father's Day. The sermon subject is, "A Challenging Question to Youth."

Get the current issue of The American Magazine and read two articles: Your Prayers Are Answered, by Chaplain Wm. C. Taggart; and, Wild Children, by J. Edgar Hoover.

You are always welcome to any, or all of our services.
W. H. Albertson.

REID'S HARDWARE

MUNDAY, TEXAS

"By pushing a button, She's good as a MAN!"

She: And what do you mean, Reddy Kilowatt—"Good as a man"?

Reddy: No offense, lady! Just this: 5 feet 1 from your 4A slippers to your spun-gold hair. You love flower-hats, veils, smooth orchestras—and, maybe, being kissed by a boy now in North Africa. *But, man, oh man, how you can handle that big and heavy press!*

She: What's strange about that?

Reddy: How can 110 pounds of beauty boss 147,000 pounds of steel? Is it magic?

She: Oh, no, dummy! It's simple. Electricity does the heavy work. Push a button... or flick a switch... or pull a lever. I learned to do that at home... long before the war. Electricity makes it possible for women to do men's work!

Reddy: Then the secret of our great war production is electric power plus woman-power!

She: Certainly. Women are able to work beside men, or replace them, on America's roaring produc-

tion lines because they learned to use electric service in the home. Call it *magic* if you like. But to me it's just good old common horse-sense!

West Texas Utilities is helping make America power-full... helping provide this country with the world's greatest supply of electric power... power that enables women to do a man's work just as it has eliminated household drudgery and hard labor from the average West Texas home.

And more and more women are helping us give you the same good, dependable service you got before the war... and at the same low cost and without rationing.

Sixty-seven per cent more women were on our payroll June 1 than in 1940. The continued efficiency and dependability of Electric Service is in no small measure a tribute to woman-power.

LAST CALL on sweeps, our stock is running low, check yours and buy what you need. Broach Implement Co. 49-tfc.

I GIVE YOU TEXAS
by BOYCE HOUSE

Boyhood memories: I've never especially cared for magnolias. It goes back to my boyhood home. There was a magnolia tree in the yard. Overnight, that tree could—and would—shed hundreds of leaves. It was my task to rake them up. Then, next morning, there would be as many leaves as ever littering up the lawn. I visited the place after an absence of thirty years and the old tree was still there—and so were the leaves in the yard.

Did you used to read those nicker thrillers—Wild West, Buffalo Bill, Diamond Dick and Nick Carter?

Movies are all right—but a magic lantern show was a real treat in the good old days.

And did you ever "play show" in the barn? We had a real professional troupe because we actually charged money, and not pins, for admission. When we presented "Jesse James," you had to pay two cents to get in.

My first school principal had a crooked index finger. He must have broken it and then it failed

Paul Pendleton Is Made Sergeant

SHEPARD FIELD—Paul B. Pendleton, son of Mr. and Mrs. H. A. Pendleton of Munday, was recently promoted to the grade of sergeant.

Paul is assigned to the 306th training group at Sheppard Field, site of a large Army Air Forces aircraft mechanics' school and base training center. Prior to his entering the Army, he was assistant cashier at the First National Bank in Munday.

A shortage of trained chemical laboratory technicians has caused the University of Texas to offer a speed-up course in quantitative analysis and laboratory technique during July. The course will be offered under U. S. government sponsorship.

to knit back properly. Anyway, it was permanently bent. The shape of the finger made it a very simple matter for the educator to yank a boy out of his seat by the collar.

Almost eight years ago, your columnist had the pleasure of interviewing H. P. Drought of San Antonio, just beginning his work as state administrator of the Works Progress Administration, and I was impressed by his courtesy and ability. The other day, the work came to an end after he had directed the expenditure of a third of a billion dollars, employing a total of 600,000 persons—a truly gigantic undertaking. Construction of strategic highways and many airports fitted into our war needs; 80,000 adult Texans were taught to read and write, to name just a few of the activities. Mr. Drought sums it up, "The successful efforts of WPA workers to find work for themselves, when private industry made jobs available, justifies completely this nation's faith in them."

She: Did anyone ever tell you how wonderful you are?
Gob: I don't believe they ever did.
She: Then where did you ever get the idea?—(from Comanche Chief.)

LOCALS

Mrs. Jack Idol of Benjamin was a business visitor here last Saturday.

Miss Helen Phillips of Abilene and Miss Docia Grantham of San Antonio visited in the home of Mr. and Mrs. Press Phillips for several days this week.

Miss Jessie Merle DeLoach left last week for her home in Heber Springs, Ark. where she will spend the summer. She is a teacher in the local schools.

Tom Morton of Camp McCoy, Wis., spent the first of this week here with his wife and with Mrs. Morton's parents, Mr. and Mrs. Clayton Wren.

Mr. and Mrs. S. R. Morton of Seymour visited in the home of Mr. and Mrs. Clayton Wren last Sunday.

Mrs. Henry Thompson was taken to the Knox county hospital last Monday afternoon for medical treatment.

More Money Into Bonds

The average American family "should and must" be investing 25 percent of its income in war bonds by the end of 1943, Secretary of the Treasury Henry Morgenthau, Jr., said recently in announcing a new "streamlined" bond campaign. "Of the 45 billion dollars still necessary to complete our war financing needs for 1943," Morgenthau said, "at least 18 billion dollars, or almost 25 percent of the national income for the remainder of the year should come from purchases of bonds by individuals. From those workers earning \$1,000 to \$5,000 net, who will have seven-eighths of all the current available individual savings, 25 cents of each dollar is not too much to expect. In fact, they should and must invest more if our goal is to be met."

May Still Reduce Points

Retailers may lower the point values of rationed meats and fats which are in danger of spoiling until July 31, OPA has decided. These emergency reductions must be accompanied by a cut of at least 25 percent in the established ceiling price of the item. If the point value is lowered more than 25 percent, the price must be reduced proportionately, but never more than 50 percent below the ceiling.

Now To Get Farm Supplies

According to a new WPB priority regulation, a dealer must furnish farm supplies if the farmer signs a certificate stating: "I certify to the War Production Board that I am a farmer and that the supplies covered by this order are needed now and will be used for the operation of a farm." A total of 140 items are affected by this order. Such certification will enable the farmer to buy up to \$25 worth of any of the items on the list, and more if the certificate is approved by his local county farm rationing committee.

OPA Prosecutes Violators

In the four months ended April 30, the courts handed down decisions in 1,495 civil and criminal cases involving 1,676 defendants accused of violating the price and rationing regulations, according to OPA. Of the total, 1,437 cases involving 1,613 defendants were decided in favor of OPA. Only 58 cases involving 63 defendants, or less than 4 percent of the total, were dismissed.

Flags For Flag Day

New flags for Flag Day, June 14 are still available, but there will not be enough to meet the demand, says the War Production Board. Manufacturers are still permitted to use four types of cotton fabric and two types of rayon in

THE POCKETBOOK of KNOWLEDGE

making flags for civilians. Silk, commonly used for high-quality flags before the war, has not been available for some time. Wool may be used only for flags for the armed services. Metal flag accessories for civilian use are out.

Go Fishing Without Gas

It's okay with Mr. Ickes if the country's ardent fishermen continue their sport but he says, "We still think it's a good idea for them to fish when they can and where they can without extra gasoline." Gasoline for fishing trips won't be available, no matter how productive of food the sport may be.

Milk Added to Ration List

Evaporated and condensed milk are now on the list of rationed foods with a value of one point will be made available to consumers for such purchases. The rationing is intended to conserve limited supplies for infant feeding, special diets, and for persons unable to obtain adequate supplies of fresh milk.

No More Wheat For Feed

Sales of wheat for feed have been discontinued by the Commodity Credit Corporation. However, farmers may still obtain some feed wheat through dealers and county AAA committees to whom shipments have already been made. Additional orders will not be ac-

cepted by the Corporation unless the state U. S. Department of Agriculture War Board determined that the wheat is needed to feed livestock during June.

Lumber Production Good

Lumber production in the United States for the first quarter of 1943 is estimated at 7,141,109,000 board feet. This is close to the first quarter goal needed to meet military and essential civilian requirements of 32 billion board feet for 1943.

Adjust AAA Crop Payments

Farmers who fail to plant 90 percent of their war crop goals will not suffer the regular agricultural conservation deductions if the weather has interfered with their crop plans. The War Food Administration has relaxed the provisions in all areas where hay and pasture goals have been established. The action is designed to offset the effect of recent unfavorable weather conditions.

Shoe Prices Regulated

Shoes, chiefly women's models which are made with such shoe materials as plastic felt, wool, combinations of wool and cotton cord and friction belting and some other fabric and synthetic substances, are now under ceiling prices. Fabrics used for the uppers include linen, gabardine, faille, "imitation leather," and other types of cloth. Prices set by OPA for manufacturers of these shoes range from around \$1.25 to about \$4.00 a pair.

Report Shows Traffic Drop

Throughout the nation, 479 automatic counters on rural roads in 38 states recorded traffic in April as 56 percent of pre-war normal. Motor-fuel tax collections in 28 states in April totaled \$38,209,000 and were three-fourths of pre-war normal, according to reports from state motor vehicle administrators.

Texas Plants Get Army-Navy Award

Two Texas industrial plants have been granted the Army-Navy Production Award for outstanding performance on war work. Under Secretary of War Robert P. Patterson and Under Secretary of the Navy James V. Forrestal, announced they are the American Well & Prospecting Company, Corsicana, and the Lufkin Foundry & Machine Company, Lufkin.

Scrap Report Released

More than 450,000 pounds of copper and brass scrap were moved to processors for remelting from Southwestern yards during the three-week period between May 1 and May 22, according to figures released by Gen. John A. Hulen, WPB regional salvage manager. Dealers' copper scrap inventories on May 22 were shown as 3,633,905 pounds compared to 3,099,000 pounds on February 28 this year.

Before You Begin... Know Each Step

OVEN CANNING

All fruits and tomatoes, and tomato mixtures containing at least 50 per cent tomatoes, may be processed by the oven method. However, Lone Star's Home Economics Director, Albertine Berry, does not recommend this method unless the heat of the oven can be accurately controlled and maintained, because a constant, even temperature is most important. In oven canning, follow these steps:

1. Be sure that the oven heat can be accurately controlled.
2. Preheat and maintain oven temperature at 250 degrees, making sure that temperature does not build up during the processing time.
3. Use only tempered jars and check them to see that none are cracked or nicked around the rim.
4. Count processing time from the time oven door is closed. In filling jar, have at least one-half inch headroom at top.
5. In removing from the oven, be careful that cold air does not strike the hot jars. Place them on several thicknesses of towel out of drafts until they have cooled to prevent breakage.
6. Complete seal immediately upon removing jars from oven if necessary.

LONE STAR GAS COMPANY

CANNING FOOD

By LUCILE KING,
County Home Demonstration Agt.

With prospects for food to can being rather good at present, our next big problem that we are concerned about is containers and equipment to use in canning the food. Information as follows is given to try to answer some of your questions.

Tin cans—WPB order does not limit the number of cans to be available for home processed foods not to be sold. There will be restrictions on containers which are to be used for foods to be sold. All reports indicate that tin cans will be of inferior quality, and because of demand, there will be a scarcity. It will be even more important that care of cans in processing and in storage be practiced.

Glass Jars—

A.—No restrictions are on manufacture of jars.

B.—Closures and rings for jars. Three billion new closures are being made.

1. There will be 2 1-2 billion two-piece self-sealing type, flat metal disk with rubber compound flowed into rim instead of separate rubber ring. The screw bands may be fewer in number because they can be used several times.

2. There will be 634 million three-piece units consisting of glass cap, small rubber ring, and

steel screw band.
3. Only 144 million metal lids like the well known zinc lid will be made.

4. A total of 79 million glass lids, lightning jars with wire clamps and shoulder rubber rings will be made.

5. Plenty rubber rings are available for those jars already on hand.

6. Commercial pack jars in which mayonnaise, pickles, jam, coffee and the like are sold may use same size lids as standard jars. However, some are slightly smaller, 63 mm (about 2 1-2 inches in diameter). Many small metal discs are being made to fit these jars. If desired, the original cap of the jar (with liner removed) may be used to hold the disk in place for the sealing instead of a new screw band. These jars may be used for canning foods which do not require processing in a pressure cooker.

Pressure Cookers Available

150,000 pressure cookers will be manufactured in 1943. An estimated eight or ten thousand of this number will be available in Texas in 1943. These will be rationed through the County USDA War Board.

Sealers

There has been no information concerning the making of sealers received in this office.

Cooker and Sealer Repairs

(Information from J. P. Dowell, McKinney, Texas)

A. Replacement parts of cookers: Mr. Dowell reports that his shop has been servicing many cookers and sealers that are being sent to them, but it will take eight or ten days, or maybe longer, because of the large number being sent and the shortage of labor. They maintain at present a complete stock of replacement parts for: Master Automatic Sealers, Burpee Sealers, Automatic Cookers, Capitol Cookers, All American Cookers, most parts of National and Burpee Cookers.

B. Gauges: to get gauges repaired the order must be accompanied by a priority ration higher than any of us have, so repairs are out for the duration. Mr. Dowell reports his stock of gauges to be exhausted but may secure some later.

C. Thermometers—To secure a maximum thermometer for checking pressure cookers one must submit a priority ration of A-10 or better. If you have broken your thermometer, you may get a new thermometer tube by returning the case to Dowell's with your order.

D. Cooker Repairs — (Quoted from a letter of Mr. Dowell's)—

"Referring to cooker repairs, the leakage at the petcock can often be overcome by removing petcock and filling the cover threads with joint compounds such as the plumbers use. If the threads are stripped it is necessary to tap and thread the opening to a large size, that is 1-4 inch pipe size and install a 1-8 in. by 1-4 in. bushing in which the petcock can be installed and make into a steam tight joint. In removing petcocks, safety valves or gauges it should be remembered that aluminum is a comparatively soft metal and great care should be taken not to damage the threads in the cooker cover. Our factory people are very efficient mechanists and give every careful attention to the maintaining of the kettles and covers. The necessary forcing off of sticky covers often scars the lid to result in a leaky cover. We can quite often regrind a corroded cover or kettle into a steam tight joint, but it is practically impossible to remove scoured places. A lubricant such as cooking oil or of the cover will often help sticky lard applied to the inside flange covers, but we know of any spacers cannot, to our experience, be

"Cracked kettles or cracked covers remedy satisfactorily repaired. Our usual

Look! Listen! Live

A driver with alcohol in his system doesn't have much system about the way he does things.

In the grade crossing accident illustrated here, three young men had alcohol in their systems and the three men and their systems, including the alcohol, were in a car, one of them as the driver.

At 3:20 a.m. the driver steered headon into a freight train at a grade crossing. The impact derailed an oil car and threw it into the path of a speeding passenger train coming from the opposite direction. The passenger engine was derailed, and jack-knifed the baggage car, turning over a coach and derailing five additional cars. Forty persons were injured, the three young men were killed and traffic on the mainline—a vital war goods artery—was tied up for several hours.

Alcohol and gasoline don't mix—nor does a car mix well with a speeding train. But 94 per cent of the grade crossing accidents are due to cars running into the side of trains, and three-fourths of these occur at night.

The National Safety Council is conducting a special campaign to

stop these accidents which every day delay 38 trains a total of 22 hours—a serious drain on the nation's war transportation effort. Driver carelessness is the cause of almost all grade crossing accidents,

according to the Council. To help win the war—to save yourself and others needless suffering—the Council asks you to be sure the track is clear before you start across.

method of adjusting such difficulties under normal operations, is to accept the return of the old cooker on the purchase price of a new one."

Sgt. Preston Ingram, who is stationed at Orlando, Fla., came in the latter part of last week for a visit with his mother, Mrs. Louise B. Ingram, and with other relatives and friends. Preston is on furlough and will be here until around June 15.

G. A. White spent last Monday in Wichita Falls, attending the bedside of his mother who is seriously ill. Mr. White reported his mother somewhat improved.

Mrs. Sidney Lee of Plainview came in the first of this week for a visit with relatives and friends here. She will accompany her husband on his return to Savannah, Ga.

A. V. Kemletz of Fort Stockton came in Tuesday for a visit with Mrs. Kemletz and with her mother Mrs. Louise Ingram.

Andy Hutcherson, who is stationed at Fort Lewis, Washington, came in Tuesday for a visit with Mrs. Hutcherson and with other relatives.

Mrs. Gilbert Green and little daughter left last Saturday for Virginia to join their husband and father, Gilbert F. Green, who is stationed at Norfolk.

Miss Loma Rae Clarke of Dallas is spending part of her vacation in the home of her sister and family, Mr. and Mrs. Grady Phillips.

HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

We had a nice rain here the first of this week.

Mr. and Mrs. Howard Barnett and children spent Sunday in Benjamin with Mr. Barnett's parents, Mr. and Mrs. W. A. Barnett.

Miss Vivian Steward spent the week end with her friend, Miss Sarah Smith of Goree and with an aunt, Mrs. Cammon Roberts.

Mr. and Mrs. Marion Jones and Ross, Bettie and Joyce visited Uncle Robert Rogers in Fort Worth, Philip Jones and family in Grand Prairie last week, while enroute to attend the wedding of Robert Worley of Seymour and Miss Freida Caubles of Hillsboro. The wedding was held in Dallas.

Mrs. W. O. Bartos and daughter, Janell, of Bomarton visited relatives in Dallas the last of last week.

The families of T. H. Jones, D. R. Jones and Dibriel Jones have been with their brother, Willie, at Crowell hospital for several days. Miss Chrystene Jones of Lubbock is nursing her uncle there.

Joe Koenig has been a patient in the hospital at Knox City for the past few days.

Mr. and Mrs. Hugh T. Boggs and daughter of Lovington, New Mexico, have returned home after a visit here with Mr. Boggs' mother, Mrs. Lee Boggs.

Everett Gaither of San Francisco, Calif., is visiting in the Lee Boggs home and with relatives at Monday this week.

Mrs. Roy Jones is spending a few days this week with friends in

War Committees Recently Merged

W. E. Braly recently received the following telegram from Henry Morgenthau, Jr., announcing the merger of the Victory Fund Committee and the War Savings Staff:

"W. E. Braly, First National Bank

"After full consideration and acting upon the advice of leaders and workers throughout the country I have announced the merger of the Victory Fund Committee and the War Savings Staff into a single organization to be called

Goree. Mr. and Mrs. Jerry Williams and children of the Brushy community spent last Sunday in the John G. Martin home.

Mrs. J. C. Martin's daughter, Evelyn McClusky, and her two children have returned to their home in Houston after a visit here.

Mrs. F. E. Jetton continues ill, although some better. We wish for her a speedy recovery.

Mrs. Luther Jackson is recovering from a recent operation.

the War Finance Committee. It will operate under state chairmen and on a state basis.

"It is my earnest hope that the active members of both the merged groups will accept an active part in the new state war finance committees. I am now helping put this new arrangement in effect in several states, and on the basis of this experience we expect to perfect reorganizations in the remaining states. I can tell you now that we believe the functions of the new War Finance Committee fall normally into three divisions: First, working with the customers of banking and other financial institutions; second, payroll savings; third, general community promotions. Of the three, the first will produce a great part of the money and its success will depend upon the cooperative efforts of the group which previously made up the Victory Fund Committee.

"In the new organization we shall need the assistance of all the loyal and devoted workers who have been responsible for the unprecedented results of the Second War Loan Drive. It is my sincere hope that all committee members will continue to play an active part in this work which they are so ably fitted to do and which is essential to winning the war.

"I want to express my deepest thanks for what you have done and

say that I am counting on your continued help.

Henry Morgenthau, Jr."

War Needs Money—YOURS!

This war calls for every ounce of energy, every dime and dollar we can muster for ships—and planes—and guns.

Hit the enemy with a \$25 Bond. Hurt him with a \$50 Bond. Help to blow him sky-high with a \$100 or \$1,000 Bond.

Don't delay—every hour counts. Buy United States Defense Bonds and Stamps TODAY.

WAR BOND QUIZ

Q. May I have a Bond reissued so as to include the name of a coowner?

A. Yes; if the Bond is registered in your name alone, and if an excess holding does not result. The reissued Bond will bear the same issue date as the original Bond.

Q. May a creditor obtain information as to a debtor's ownership of War Savings Bonds?

A. The Treasury gives no information about the holdings of any person in War Savings except to that person or to such persons as have clearly established a legal right to the information.

Q. What will the Government do with money I pay for my Bond?

A. Your money will be put to work at once to help the Nation's war program.

Q. When will I make my income-tax report on the increase in the value of a War Savings Bond?

A. You may do either. You may report the increase in value of a War Savings Bond on your income tax report each year that you hold the Bond, or you may wait until you redeem the Bond and then include the increase (the amount received over and above the price you paid for the Bond) as income for that taxable year.

Remember—the longer you keep War Bonds, up to 10 years, the more valuable they become.

Citations To Be Awarded To F. S. A. Farmers

Farmers are making such big payments on Farm Security Administration farm ownership loans that E. Lee Ozbirn, director of the region comprising Oklahoma and the eastern two-thirds of Texas, has just announced in Dallas plans for awarding many of them special citations. One hundred and ninety-three of these farmers have repaid \$1,000 or more this year, winning coveted membership in the "1000 Club."

"Many of the more than 3,400 Texas and Oklahoma farmers, who have purchased farms with money borrowed from FSA under provisions of the Bankhead-Jones Tenant Purchase Act, are two years ahead on repayment schedules and some are as much as eight and nine years ahead," the director said. "Many others fall only a few dollars short of paying \$1,000 this year."

Of the 193 farmers in the \$1,000 payment group, 98 are in Texas and 95 in Oklahoma. Haskell county, Texas, leads the region with 15 such farmers and Kiowa county leads in Oklahoma with 12.

The Farm Ownership division, only one phase of the FSA program, has loaned 2,273 Texas and 1,896 Oklahoma farmers and sharecroppers some \$24,000,000 in the past five years for purchasing, enlarging or developing their farms, loans in the region so far this fiscal year number 465, and FSA officials say funds allocated to Texas still are available for tenant purchase and farm enlargement. Money still is available in Oklahoma for farm enlargement loans and many families have taken options on farms with the expectancy of purchasing them with an FSA loan if Congress approves a new appropriation.

Loans run 40 years, bear three (3) per cent interest, range from \$2,500 to \$12,000 with an average of \$6,500.

First step in obtaining FSA tenant purchase, farm enlargement and farm development money is by making application with the FSA supervisor in the respective county. A local committee of "Dirt farmers" reviews the application, and, upon judging the applicant dependable and industrious, notifies him to take an option on the land he wishes to buy.

Size of farms average 180 acres, though they vary according to location and the type of farming enterprise adapted to the soil and climate. Size and value of the farm is based on family requirements for a decent living and sufficient additional income to make orderly debt retirement. Price paid for land is limited to the average value of farms of 30 acres and over within that county according to the 1940 census.

"Repayments may be made on the variable payment plan, which allows repayments at a rate based on annual income after deductions

Look! Listen! Live!

In the grade crossing accident illustrated here, one out of five had it—a reckless, uncontrollable desire not only to beat a train across a crossing, but to drive around four other waiting cars in order to attempt it.

This description of an actual case is but one small sample of the driver-carelessness that results in an average of 1575 deaths and 4700 injuries through crossing accidents each year.

Four automobiles were standing on a crossing in compliance with the warning of flashing light signals and bell indicating the approach of a train. A fifth car drove around these standing cars and attempted to cross the track, but struck the locomotive.

The National Safety Council is conducting a special campaign to stop these accidents which every day delay 38 trains a total of 22 hours—a serious blow to the nation's war transportation effort.

Driver carelessness is the cause of almost all grade crossing accidents according to the Council. To help win the war—to save yourself and others needless suffering—the Council asks you to be sure the track is clear before you start across.

Accidents according to the Council. To help win the war—to save yourself and others needless suffering—the Council asks you to be sure the track is clear before you start across.

Save Vegetable Seed

By LUCILE KING
County Home Demonstration Agt.

Seed may be saved from vegetables harvested during June for planting this fall or next spring. Lucile King, home demonstration agent, says that plants from which seed are saved should be unusually healthy and vigorous. . . . And the seed selected only from choices well matured fruits. Such plants may be specially marked by staking off or tying with string or piece of cloth and allowed to remain until fully matured for seed.

All vegetables do not yield seed, but tomatoes, beans, peas, cantaloupes and watermelons can be saved by the average home gardener. If there is a special type of squash, cucumber, cantaloupe or tomato which you think is outstanding, try and save the seed. Be careful not to mix varieties. For example, only the type of squash seed which has the same blooming period should be planted.

In saving beans, both bush and pole varieties, allow the seed to mature thoroughly on the plant. Then pull up the entire plant in the early morning and place in the shade to dry. This will prevent the pods splitting. English peas may be left on plants until thoroughly matured, then picked when the pods turn brown and placed in storage. For tomato seed, place the jelly-like material containing the seed in a wire screener and wash it until only the seed remains. Another method is to scrape the seed on a piece of paper and place in the sun to dry.

Vegetable seed may be placed in paper containers, but it is important that all seed must be thoroughly dry. Generally, high temperature and humidity shorten the time vegetable seed can be kept.

Joe Carroll Hopkins of Stamford visited in the home of Mr. and Mrs. Lee Haynes over the week end.

O. A. McRayer of Childress, ministerial student in McMurry College, Abilene, visited with friends here over the week end.

Miss Maxie Dingus returned to Fort Worth last Saturday after a week's visit here with her parents, Mr. and Mrs. G. W. Dingus.

Lee Haynes spent the latter part of last week in Dallas, where he attended the postmaster's convention.

plants or No. 3 cans; 30 minutes for quart glass jars. Use plain tin cans.

AAA Penalty Lifted In Many Texas Counties

COLLEGE STATION—Texas farmers were given additional encouragement to plan for maximum production when the \$15 per acre penalty for failure to meet 90 percent of their warcrop goal was lifted this week.

The penalty no longer will apply in the majority of Texas counties, but it will remain in effect in 19 Panhandle counties where hay and pasture goals have been established. B. F. Vance, administrative officer of the AAA, explained.

In these counties, he continued, the \$15 per acre deduction will apply only to those farms on which the county AAA committee decide that abnormal weather conditions have not interfered with achieving the farm's warcrop goal.

Counties included are Dallam, Deaf Smith, Hansford, Hartley, Moore, Oldham, Sherman, Carson and Carter. Others in the same area are: Gray, Hemphill, Hutchinson, Lipscomb, Ochiltree, Parmer, Potter, Randall, Roberts and Wheeler.

Announced by the War Food Administration, lifting of the penalty is designed to help off-set recent unfavorable weather conditions throughout the nation. Elimination of the deduction provision gives farmers opportunity to make such adjustments as are necessary to plant the needed crops adapted to their changed conditions and still qualify for such payments as are available.

"Since incentive payments have been withdrawn from several warcrops, many Texas farmers felt that the penalty also should be withdrawn," Vance declared. He said that in his opinion farmers still would meet the warcrop goal they had pledged on individual

parts in West Texas. Some parts for nearly all machines, tractors, cars, etc. Broach Implement Co.

farm plan sheets. Principal warcrops on which the \$15 deduction formerly applied are grain sorghums, soybeans for beans, peanuts for all purpose, flax, Irish potatoes, sweet potatoes, and dry edible beans.

Mrs. E. M. Roberts and children of Amarillo are here for a visit with Mrs. Roberts' father, W. H. Atkelson, and with other relatives and friends.

Sgt. Paul B. Pendleton of Shepard Field visited relatives and friends here over the week end.

Pvt. John Drey, who is stationed in San Diego, Calif., came in Tuesday for a visit with E. R. Lowe and family and with other relatives and friends.

Cpl. W. H. Jones of Fort Lewis, Washington, and Mrs. Jones of Fort Worth spent several days here last week with Mrs. Jones' parents, Mr. and Mrs. Otis Simpson. Mrs. Jones accompanied her husband back to Washington.

Mrs. J. B. Bowden and daughter, Carolyn, returned home last Friday from Tennessee and Mississippi, where they visited with relatives for about two weeks.

Cpl. and Mrs. Mann McCarty returned to Camp Gruber, Okla., last Monday after several days visit with relatives and friends here.

Mr. and Mrs. Claude Reid of O'Brien were visitors here last Monday and Tuesday.

"Pinkie" Smith, who is in training at Gatesville, visited friends here last Sunday.

CARD OF THANKS

It is with sincere hearts that we attempt to say "Thank You" to all our friends who have helped us since the loss of our home by fire last Wednesday night. We deeply appreciate every act of kindness and word of sympathy and encouragement, and we assure you that we shall always cherish your friendships and loyalty.
The Carl Booe Family.

Bombings Don't Effect Weather

SCHENECTADY, N. Y.—Do shells from cannon or heavy bombings on the battlefronts cause heavy rainstorms over here? No! says L. A. Hawkins, question-and-answer authority of the General Electric Science Forum.

Recently Mr. Hawkins, executive engineer of the G-E Research Laboratory, has received letters asking if "bad weather is caused by the cannonading and other heavy explosions of war."

"Terrific as the forces let loose in a heavy barrage or bombing raid may seem to us," he answered, "they are utterly puny and ineffective compared with the forces which control the weather. It has been well said that 'we shall be able to control the weather only when we are able to stop a mass of air of 100,000,000,000 tons from going on its own way.'"

Perhaps the idea that battles caused rains originated with the fact an army usually gets into position during good weather while the roads are good, so that by the time a battle begins a rain period would be due, Mr. Hawkins pointed out.

And people who believe a rainstorm can be made during a dry spell by firing cannon into the clouds may as well forget that theory, too, he said.

Miss Mozelle Tuggle of Fort Worth visited with home folks here over the week end.

Miss Dorothy Boone of Abilene visited relatives and friends here over the week end.

Misses Trudy Jane Coffman and Mary Jo Arnold of Goree visited in the home of Mr. and Mrs. M. L. Barnard over the week end.

Mrs. C. E. Jackson of Austin, Mr. and Mrs. W. F. Hoffman of Paducah, and Sgt. and Mrs. Charles Harrell of Casper, Wyoming, spent the week end in the home of Mr. and Mrs. C. H. Harrell.

Attention, Farmers

We have at this time a supply of Calcium Arsenate, a mixture of Sulphur and Calcium Arsenate, and Pure Sulphur.

We are unable at this time to tell in what quantities these products can be secured, and we advise the farmers to get their needs while the supply is available.

We believe farmers should begin to get their poisons early.
