VOLUME 38

MUNDAY, KNOX COUNTY, TEXAS, THURSDAY, JUNE 17, 1943

NUMBER 51

## Cotton Insects Being Found In Some Counties

### Get Poison Early

War on flea hoppers, leaf worms, boll weevils and other insects which may endanger the 1943 cotton crop will begin Thursday morning at the A. W. Ramming farm, north of Cashion School, with a dusting demonstration in charge of Paul Gregg, entomologist for Texas A&M College extension service, according to County Farm Agent G. R. McNeil.

The cotton crop at Ramming's farm just now is putting on squares, McNeil said. A thorough net-check will be made to determine whether flea hoppers in damaging numbers are present. If they are, the field will be dusted with sulphur.

Reports already have been received of leaf worms, the earliest such infestation in the history of this area, according to D. W. Wiley, cotton buyer and agricultural leader here. H. M. Davis and Godfrey Schammer of the Stanfield community northeast of Wichita Falls, and Henry Cash of Charlie, said leaf worms have appeared. For this pest, calcium arsenate is used. Should boll weevils appear later, that dusting also will be done with calcium arsenate.

McNeil said that all interested persons are invited to attend the check and demonstration Thursday at the Ramming farm.—Wichita Falls Record-News.

Reports coming from Texas A. and M. College are to the effect that cotton insects are earlier this year than ever before, and they are working into this section of the state.

A supply of three types of poison is now available at the West Texas Cotton Co. at Munday, and T. G. Bengel, manager, urges farmers to secure their poisons early. There is no assurance that the supply will be available this year when the demand becomes heaviest.

## Over Half Inch Rain Received

Wheat harvest and other farm operations in Knox county were halted Thursday by the rain which fell on Wednesday night. H. P. Hill, weather observer, reported .44 of an inch up to seven o'clock Thursday morning at Munday.

Rain started falling again at about eight o'clock Thursday and continued through most of the morning, bringing the total this week to well over a half inch.

Wednesday night's precipitation brought the year's total to 8.76 inches, as compared with 11.79 for the same period in 1942.

## Texas Gas Rations Will Remain Same

Announcement came Tuesday from Petroleum Administrator Ickes of Washington that there will be no further reduction in civilian gasoline consumption in Texas.

Ickes, during testimony before a group of 58 midwestern members of Congress on plans for extending the pleasure driving ban into district 2, was asked about Texas specifically by Rep. Luther Johnson of Corsicana.

## "Postmark—U. S. A." At Roxy Is Tops In Thrilling Entertainment

New NAM Film Valuable Contribution to Wartime Morale

"Postmark—U. S. A." has come to town. You can see this remarkable picture, which is the story of a letter from home received by a young American aviator "somewhere out there" at the Roxy Theatre on June 22 to 24.

With all of the vividness of real life replete with comedy, heart-ache, drama, and homely philosophy, this letter brings to the boy at the front the news from home. It unfolds on the screen, as it does in his mind, with all the warmth of pleasant memories of those familiar scenes in the kind of living room all Americans have known and loved, with his mother, his father, and his sister around

## What To Write To Service Men

The Office of War Information offers these pointers for home-folks writing to soldiers, sailors, and marines—based on suggestions gathered in a survey among servicemen at home and overseas, in cooperation with the Special Service Division of the Army Service Forces:

TELL HIM:

1. How the family is doing everything possible to help win the war.
2. How anxious the family is for the boy's return.
3. How well and busy the family is. Give details.
4. How the family is getting along financially.
5. What's doing in the community: news about girls (single) he knows, doings of friends, who's marrying whom, exploits of the home team and other sports events, social doings, effects of the war on the home town. Reminisce a little about past events and places the boy used to visit. Enclose clippings from the hometown paper.

DON'T TELL HIM:

1. Your troubles: He has troubles of his own.
2. Your complaints. He can't do anything about them.
3. About things you are deprived of. He can't supply them.
4. Doleful predictions about the future. He's fighting for that future—now.
5. Unnecessary details about financial troubles. If there are things he should know about family finances, and he is in a position to do something about the situation, tell him. But don't string it out.

## THREE IN FAMILY HAVE TONSILLECTOMIES

Mr. and Mrs. Jim Decker carried their three children to the Knox county hospital last Friday morning, where all three underwent tonsillectomies. All are reported to be doing nicely.

## RUBBER GOVERNORS

C. R. Stevenson John W. Bricker

Two rubber state governors are scheduled to get together June 28, when American Made rubber day is celebrated in Texas. The day has been proclaimed by Governor Coke R. Stevenson and all Texas will join in celebrating the important part Texas is playing in the vital rubber program.

Because most of the rubber is now produced in Ohio the arrangements committee, headed by Thornton Hall of San Antonio, president of the Texas Newspaper Publishers' association and Deskins Wells, manager of the Texas Press association, has invited Governor John W. Bricker to take part in the ceremonies.

Four of the government-owned plants are being erected in Texas, and more synthetic rubber will be produced in this state than in any other. Occasion of the June 28 celebration is the opening of the Baytown plant to be operated by The General Tire & Rubber company in association with the General Latex and Chemical company, of Cambridge, Mass.

A nation-wide broadcast on the night of June 28 will tell the nation of Texas' part in the solution of the rubber problem.

## TEXAS BREEDER BUYS TOP PRICE PUREBRED BULL

WICHITA FALLS, TEXAS—Dr. Charles R. Hartsook, shown at the left in the above photo, purchased the top bull, Prince Peter, shown below, for \$5,000 at the recent dispersal sale of the purebred Shorthorn herd of the late George B. Longan, Kansas City publisher, at Merryvale farm at Grandview, Mo. With Dr. Hartsook is Russell Kelce, of Grandview, who acquired and dispersed the Longan herd. The sale, at which 70 Shorthorns brought an average price of \$1,044, set a new high average in recent history of the breed. One of the features of the sale, which attracted buyers from 22 states and Canada, was the disposition of 20 sons and daughters of the imported bull, Calrossie Prince Peter, 1940 Perth, Scotland, champion. (Upper photo by Kansas City Star).

## Birkenfeld Child Buried Wednesday

Phyllis Geraldine Birkenfeld, infant daughter of Mr. and Mrs. Luke Birkenfeld of Rhineland, died at 12:15 a. m. Tuesday at the Knox county hospital, following a short illness.

The child was born on July 7, 1941, and was one year, 11 months and 8 days of age. Surviving are her parents, Mr. and Mrs. Luke Birkenfeld; her grandparents, Mr. and Mrs. Herman Gammill of Rochester and Mrs. Katherine Birkenfeld of Rhineland.

Funeral services were held from St. Joseph's church in Rhineland at nine o'clock Wednesday morning, and interment was in Rhineland cemetery by the Mahan Funeral Home.

Palbearers were Francis Birkenfeld, Walter Schumacher, Allen Decker and Raymond Redder.

## HOME ON FURLOUGH

Mac Haymes, who is in the U. S. Coast Guard and stationed at San Francisco, Calif., came in last Thursday on a two weeks furlough and is visiting his parents, Mr. and Mrs. Lee Haymes, and other relatives. Mac has been in the service a little over a year, and this is his first visit home.

Mrs. Herman Jungman and Mrs. Carl Jungman and daughter, Ida Jo, were business visitors in Abilene last Monday.

## Times Ad Sells Garden Hoe To A Virginia Citizen

The story of how an ad in the Munday Times which listed cotton chopping hoes for sale was instrumental in selling a garden hoe to a resident of Virginia was told here last week.

Among the items listed in this ad were hoes. The Times was sent to the Virginia resident, who is growing a Victory Garden, and who was unable to purchase a hoe in her home city. Quickly after receiving the paper, her relatives received a request that a hoe be sent to her.

The ad was one run recently by Reid's Hardware, and the purchaser of the hoe is Mrs. W. W. Pusey of Arlington, Virginia, the former Mary Hope Smith of Munday.

## HOME FROM HOSPITAL

George Salem, who recently underwent an appendectomy at the Knox county hospital, was brought home last Sunday morning. He is reported to be recovering nicely at his home here.

## Bill Billingsley In Operational Training At Hendricks Field, Fla.

A Munday bomber pilot who recently received his wings and commission as a second lieutenant is now doing operational training at a Florida air base.

He is Lieut. Bill Billingsley, son of Mr. and Mrs. M. F. Billingsley, and a 1935 graduate of Munday high school. Before entering the service, Bill was assistant manager of the Parksburg Rug and Reel Co., and employed at Houston. He entered the regular army, reporting to Camp Bowie, Texas, and was in training in Florida when he transferred to the air corps.

Leaving the army for flight training, Bill entered the air corps in September, 1942, and went to the classification center at Nashville, Tenn.

He took his preflight training at Maxwell Field, Alabama where he completed a 9-week course in three weeks.

Billingsley took his primary training at Americus, Georgia, and his basic training at Greenville, Miss. Here he received a coveted safety flying award.

He received his advanced training at Blytheville, Arkansas, where he graduated and received his wings and lieutenant's commission on May 29, 1943. He is

LIEUT. BILL BILLINGSLEY

now pilot of a twin-engine bomber aircraft and is doing operational training at Hendricks Field, Sebring, Fla.

Mrs. Billingsley and little son, Gary, plan to leave Munday next Friday to join Lieut. Billingsley. They will fly from Fort Worth to Florida.

## Juneteenth To Be Celebrated

Next Saturday is "Juneteenth," and a big celebration is being planned for the colored population of Munday and surrounding area. Permission has been granted local colored folks to hold the celebration, which will begin on Friday night and close at twelve o'clock Saturday night.

A platform is being erected at the Gus Johnson cafe, in the east part of town, and a "jitterbug" contest will be held with prizes going to the first and second place winners.

Sponsors of the celebration say there will be dancing, plenty of hot barbecue, ice water, cold lemonade and soft drinks, with lots of entertainment for those who join in the celebration.

## Pete Barnes Now Tractor Mechanic At Munday Hdw.

Pete Barnes, who has been employed in defense work at Fort Worth for some time, has returned to Munday and is now in charge of the John Deere tractor repair shop at the Munday Hardware and Furniture Co.

Mr. Barnes is an experienced tractor mechanic, and tractor owners in this area will welcome the news of his return to Munday. He promises the quickest service possible to all John Deere tractor owners who bring their tractors in for repairs.

The local firm also carries a line of parts for these tractors so they can be serviced with the least possible delay.

## Haskell Man Heads Masons For Next Year

### District Association Meets On Tuesday

R. J. Paxton of Haskell, well known over the district, was elected president of the 91st Masonic District Association last Tuesday night at the regular quarterly meeting held in Haskell. The meeting concluded the third year for the association.

Mr. Paxton succeeds Aaron Edgar, retiring president. School Supt. H. D. Arnold of Goree was elected vice president to succeed Monty Penman of Rochester, who is now serving in the armed forces. E. T. Goss of Seymour was re-elected the association's secretary.

Haskell and Rule lodges were joint hosts for this meeting. Rochester and Woodson lodges were selected as hosts for the next meeting, which will be held on Tuesday, September 21.

After a Master Mason's lodge was opened by Haskell officials, the following program was rendered:

Welcome address, E. B. Harris of Rule; response by S. N. Reed of Knox City lodge; introduction of speaker, Dennis P. Ratliff of Haskell; address, Rev. H. R. Whately, pastor of First Baptist church, Haskell. Rev. Whately delivered a forceful address on the Masonic manual as applied to the Bible and the christian way of life.

A delicious feed was served prior to the regular business session of the association.

In spite of the busy times, around 50 Masons were in attendance, representing seven of the ten lodges in the district. Lodges represented were Ft. Griffin at Throckmorton, Seymour, Orient at Knox City, Goree, Munday, Haskell and Rule. Masons were also present holding membership in the Stamford, Rotan and Kermit lodges.

Representing Knox Lodge No. 851 at Munday were Lee Haymes, G. B. Hammett, Wade Mahan, Aaron Edgar, Sied Waheed, E. E. Edwards and Joe B. Roberts.

## FRANK TRAMMELL GETS PAINFUL HAND BURN

Frank Trammell, who is employed on the Omer Reid farm, received a painful burn to his right hand last Tuesday. The hand had a former injury and was bandaged. While washing tractor bearings in gasoline, Frank unthoughtedly struck a match to light a cigarette, setting fire to the bandages.

Frank said he did everything but the right thing. After trying to tear the bandages loose, he then rushed to a water tank and extinguished the flames by sticking his hand in the water, but not before his fingers and the back of his hand were badly burned.

## Federal Auto Stamps On Sale At Post Office

### Must Be Displayed On Cars July 1st

Lee Haymes, postmaster of Munday, announced that the new 1943-44 federal motor vehicle stamps are now on sale at the local post office, and a number of motorists are already securing their stamps. They went on sale here June 10th.

Notice has been issued that these stamps must be displayed on motor vehicles by July 1st, the deadline date, and the date on which the old stamps expire.

Of a different color the stamps are easily distinguished from prior issues. Mr. Haymes cautioned motorists to keep a record of the black numbers on the face of the stamps, so it won't be necessary to purchase another one in case the original stamp becomes lost or stolen. The owner need only make affidavit to the fact his stamp has become lost or stolen, furnishing the number on the stamp.

## 57 Registrants Are Classified By Local Board

Fifty-seven registrants were re-classified by the Knox county Selective Service Board last Tuesday, at which time 29 of them were placed in Class 1-A and subject to call. The registrants and their classifications follow:

Class P: Cary B. West, William E. Jones, Marcos Villa, Curmet C. Byrd, Sam E. Carpenter, Robert L. Tuggle, John H. Valez, Antonio R. Gonzales, Charlie E. Plowman, E. H. Coats, Jr., Clyde G. Wallace and James M. Davis.

Class 1-A: Aaron W. Akins, John G. Lewis, Charlie H. Keck, Carl H. Dawson, Burnice E. Akins, Reuben E. White, James W. Melton, Jr., Melvin E. Jennings, Jerry B. Moorhouse, Forrest D. Yancey, Dennis M. Ford, Alvin Y. Isham, Edward W. Clark, Carl S. Norwood, William D. Lindsey, George H. Beatty, Alton S. Ward, Roy L. Mills, William L. Feemster, and Frank W. McAuley.

Class 1-C: Sherrill V. Colley, Mack T. Thomas and Jessie Thomas.

Class 2-B: Earnest W. Duke, Robert M. Billingsley, Melvin K. Heath, Robert L. Whitaker, Meredith A. Bumpas, Jr.

Class 2-C: John C. Hart, Ray J. Jackson, Calvin C. Christian, Tom P. Stubbs and Francis L. Jennings.

Class 3-A: Wilkie S. Guinn.

Class 3-C: Malcolm I. Shipman, Clarence T. Cypert, Jack W. Hickman and James R. Glascock.

Class 4-F: William L. McWilliams, A. T. Draper, Robert C. Brooks, Censar Leckridge, Richard L. Webber, and Albert Williams. Deceased: Gordon D. Shipman.

## City To Enforce Traffic Ordinances

Notice is served the public this week that the City of Munday intends to strictly enforce several traffic ordinances which have gone unobserved by motorists recently. These ordinances are in regard to double parking and center parking, both of which are prohibited in Munday, and observance of the traffic signal light. Failure to observe these ordinances endangers the lives of others, and city officials ask everyone to observe them strictly.

Penalties of fines will be assessed against those who do not observe these ordinances, city officials warned.

## 66 Enrolled In Vacation School

Rev. W. H. Albertson, pastor, announced that 66 children were enrolled in the Vacation Bible School at the Baptist church on opening day Wednesday. The school got off to a good start, and interesting classes are being held.

Good leaders are in charge of all classes, which are being held for children of four full departments—beginners, primary, junior and intermediate.

## Keep Up With Rationing

**RATION REMINDER**

**GASOLINE**—"A" book coupons No. 6, good for four gallons each, outside the Eastern gasoline shortage area.

**SUGAR**—Stamp No. 13 good for 5 lbs. through August 15. Coupons No. 15 and 16 are good through October 31 for 5 lbs. each for home canning purposes. Housewives may apply to their local ration boards if necessary.

**COFFEE**—Stamp No. 24 (1-lb.) is good through June 30.

**SHOES**—Stamp 18 (1 pair) became valid June 16.

**MEATS, ETC.**—Red Stamps J, K, L, M good through June 30. N becomes valid June 20.

**PROCESSED FOOD**—Blue stamps K, L, M, continue good through July 7.

"What a Man Does For Himself Dies With Him—  
What He Does For His Community Lives On and On"

## OVERWHELMING PRODUCTION

In his first speech since he was named Director of the newly formed Office of War Mobilization, James F. Byrnes, presented some conclusive figures on overwhelming war production.

"The 100,000th plane manufactured since we began our war production program came off the assembly line today," he said.

"In the month of May this year we produced three times as many pieces of artillery for ground troops as we did in all nineteen months of the last war."

"We are building merchant ships four times as fast as they are being sunk."

"America has turned out 2,225,000 machine guns since it began to rearm."

"In 1943's first five months 100 fighting ships were finished—almost as many as were finished in the entire year of 1942."

"Our production of high explosive powder has been six times greater than during the last war."

"We have shipped to lend-lease countries almost twice as many motor vehicles as we produced for ourselves alone in the last war. If all these vehicles were parked bumper to bumper they would reach twice across North Africa."

Mr. Byrnes went on to describe the remarkable achievements of America's new inventions such as radar, the locator which is giving us fighting superiority over the Axis, the new destroyer escort which is hunting down enemy subs, and other ingenious new developments.

This tribute is paid to the same American industry which the Axis powers thought capable only of producing refrigerators, washing machines, and other essentially peacetime products.

Little did our enemies realize that while free American enterprise was engaged in manufacturing the everyday conveniences which gave to the American people the highest living standard in the world, it was at the same time building up the skill and the know-how that are being so efficiently applied in the present emergency.

## KNOW-HOW AND TAXES

All over the country, in hundreds of war production plants, managers, engineers, designers, mechanics, assemblers, and others are demonstrating the industrial know-how that has so long played a vital part of our industrial growth and progress in both peace and war.

From plant after plant came reports of savings—savings in the use of critical materials, in time required for production, in overall manufacturing costs—savings in design, fabrication, assembly, and in shipping space.

One automotive company alone was able to save the government \$169,178,141 on last year's production. This amount is equivalent to giving the government—cost free—1,000 medium tanks, 200 torpedo boats, 2,000 anti-aircraft cannons and 450 intercepter planes.

In hundreds of other cases exceptional savings in time, money, and material have been made through the application of mass production technique and the development of entirely new manufacturing processes or in the application of entirely new principles or products.

For instance, the 45-calibre submachine gun which before the emergency cost the government \$225 has been replaced by an equally effective weapon which costs only \$21. And in another case the 50-calibre aircraft gun which used to cost \$1,000 can now be produced for \$400 and in the redesign 52 pounds of steel and 2 pounds of bronze are saved.

## STALINGRAD

This city stands no longer clean and proud  
As in the days before that panzer thrust  
Plunged suddenly to leave disputed dust  
Protesting towards the heavens bold and loud.  
Each shambled brick bears tribute to the crowd  
Of stubborn sons and daughters' humble trust  
In Providence and through this hallowed rust  
Hope's torch illuminates a silver cloud.

It has been said that Russia in re-birth  
Abandoned God full many years ago,  
Yet Stalingrad, knee deep in blood-soaked earth  
Watched patiently for evidence of snow.  
If Russia had no God before this stand  
Then God returned to grasp their falling hand.  
—Pvt. John Minnich Wilson  
U. S. Marine Corps.

An improved method of sealing the ends of glass tubes will now protect them from breakage.

## THE MUNDAY TIMES

Published Every Thursday at Munday

J. W. Roberts, Editor, Owner and Publisher  
Arthur Edgar, News Editor

Entered at the Postoffice in Munday, Texas, as second class mail matter, under the Act of Congress, March 2, 1879.

Subscription Rates: In first zone, per year \$1.50; In second zone, per year \$2.00

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party politics, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

## DESTRUCTION BY DECREE

With public attention fixed on headline war news, the people often lose sight of domestic issues. For example, the Securities and Exchange Commission, acting under the "death sentence" "construction" of the Public Utility Act of 1935, has ordered the dissolution of the Electric Power and Light Company. There are 24,000 private citizens who own a total of \$514,000,000 of the company's securities. Presumably they are to surrender their investment and accept "something" in lieu thereof, whether they wish to or not.

The death sentence "construction" can mean injustice and death to millions of dollars of savings. It can result in the virtual confiscation of property of stockholders in a utility industry. No blue sky promoter ever threatened the savings of American citizens any more seriously than do punitive laws and over-zealous regulators.

The time has arrived when the evil effects of the Utility Act of 1935 should be thoroughly examined by Congress, as well as practices of the Securities and Exchange Commission, with a view to correcting defects in the law and procedures of the Commission.

After all, both the Utility Act and the Commission were created to protect not destroy industry and investments owned by the people.

## REDUCING PRODUCTION

In stressing the need for a government policy that "will result in maximum food production," John D. Miller, president emeritus of the National Council of Farm Cooperatives, says "price ceiling experiments tracing back to the Roman Empire have a record of uninterrupted failure as a method of preventing inflation or keeping down the cost of living."

"An effective ceiling on any commodity will in time restrict production. A planned economy spells the doom of our system of free enterprise. Rising commodity prices are not the cause, but the result of inflation."

"Inflation should be attacked on two fronts: First, by adopting policies that will result in the greatest possible food production, thus increasing supplies; and, second, by siphoning off buying power through taxation, thus reducing demand."

Mr. Miller described subsidies as higher food prices with the money being paid by the citizens to the government as taxes, and then distributed to the farmers by government. "Farmers resent being placed in a position where they cannot support themselves, but must accept government hand-outs. Food prices can be so regulated that farmers will receive a living price, and with consumers paying as low a price as is consistent with production cost, transportation, processing and marketing. This was done during World War I and food production rose to the maximum. But now we have price ceilings which have always resulted in decreased food production."

## THE FIDDLER'S BILL

Anti-inflation palliatives are doomed to failure unless quickly followed by effective measures to control the cause of inflation. The cause of inflation is directly traceable in a large measure to Federal financing policies. A long as tax favoritism and wage favoritism toward great masses of voters prevail, and as long as those so favored fail to invest a large share of their record wages in war bonds, no power on earth can stop inflation.

"One little wisecrack about 'globaloney' is worth more in the news than a fight for principle."—Garet Garrett.

Nuts and bolts used in steam turbines and on other heavy duty jobs can be made 40 per cent stronger by means of a new tapered design.

## Canada's Mothers Do Big Job

EACH day the great war industries of Canada are enrolling more women to take the place of men called away from their machines for active duty in the armed services. Already nearly 250,000 Canadian women are working in war factories. Immense release of woman-power has been possible by the creation of day nurseries by Dominion and Provincial authorities.

Children are well cared for while mothers work at war machines. Organized group games are important in the program planned for the tiny tots sheltered daily at the nurseries. Trained attendants care for every need of these youngsters.

Organized group games are important in the program planned for the tiny tots sheltered daily by the Dominion-Provincial Nurseries. Trained attendants care for every need of these youngsters whose mothers are employed in Canada's many war industries.

Canadian women reporting for work at a munitions plant. Many of them are mothers, who have shortly before left their children in a local nursery for the day while they are working.

Balanced meals at regular hours, rest periods and supervised recreation are among the childhood essentials supplied to these youngsters of Canadian women war workers.

Knowing their children are well cared for, Canadian women can put their best efforts into their war jobs with a free mind.

Starting mainly as inspectors, Canadian women have invaded every field of operation, except those where sheer strength is the prime requisite. They are making intricate radio and electrical devices, shell fuses, parachutes, and uniforms; they operate lathes and milling machines; they work in

many sections of shell filling, explosive and chemical plants. In the vital aircraft production field their numbers have grown from a handful at the outbreak of the war to a total larger than the pre-war total of all employees. And while it is customary to

associate female workers in aircraft plants with the sewing of fabric in airplane wings and fuselages, it is less well known that they now tackle the make-up of electrical wiring, riveting, welding and fitting of sub-assembly work on metal planes.

## Gems Of Thought

RIGHTNESS

Would you be exempt from unreason; do nothing you know or even suspect is wrong.—Rules of Life.

Let a man try faithfully, manfully to be right, he will daily grow more and more right. It is at the bottom of the condition on which all men have to cultivate themselves.—Carlyle.

There is no right without a parallel duty, no liberty without the supremacy of the law, no high destiny without earnest perseverance, no greatness without self-denial.—Lieber.

Wrong may be a man's highest idea of right until his grasp of

Don't spend your pay in competition with your neighbors for scarce civilian goods. Save, America, and you will save America from black markets and runaway inflation. Buy more Bonds every payday. How many bonds? Figure it out yourself.

## Land Banks To Be Reorganized

HOUSTON—Federal Land Bank activities in Texas will be decentralized—strengthening both the local national farm loan associations and the Federal Land Bank of Houston, according to plans announced here by President Sterling C. Evans of the Land Bank.

Under new plans the 76 impaired associations (out of the total of 294 in the state) can be rehabilitated, all associations put in strong financial position, and nearly \$2,000,000 worth of member-stock in previously insolvent associations can be restored to par value.

"The Land Bank will be in position to pay \$450,000 in cash to redeem withheld stock of 3,400 farmers who have paid their loans in full through insolvent associations," Mr. Evans said. "It can also restore to par value \$1,500,000 worth of stock held by 16,600 member-borrowers through such associations."

The reorganization program and consolidation among some associations will decentralize part of the Land Bank functions by putting more duties and responsibilities on

## What You Buy With WAR BONDS

Washing machines and other household appliances are not available today. Manufacturers have converted their plants to war work. If you save today, however, by buying War Bonds, this money saved will start these factories rolling and put millions of Americans to work after the war is won.

Join the payroll Savings plan at your office or factory. Save a definite amount every payday, ten percent or more of your pay check. Your pay check today buys a payday for tomorrow and gets you \$4 back for every \$3 you invest.

Under sponsorship of the University of Texas Interscholastic League, summer institutes in physical training leadership will be held in cooperation with the Army Air Forces and the Navy at several points in Texas. These institutes train physical education teachers and students in leadership problems and in direction of group activities.

the local associations. Losses suffered during the early 1930's in some areas brought insolvency to the associations affected, although the system as a whole in Texas has made a remarkable record, Mr. Evans said. "This new plan is expected to provide more efficient operations, a better farm loan service close to the farmers, and to make possible savings in Land Bank operations estimated at \$195,000 annually."

The Land Bank, started during the first World War, is now in its 27th year. The Federal Land Bank of Houston is one of the strongest of the land banks," Mr. Evans said, "with all Government capital retired and with its \$10,170,000 capital stock owned by Texas NFAs. The bank has been able to perform its services, cover losses and build up an earned surplus and legal reserve total of more than \$32,600,000. This has been done on a margin of one per cent between the interest rate on Farm Loan bonds sold to the investing public and the rate charged borrowers."

"The Land Bank System pioneer in long-term, low-rate farm mortgage loans is realizing its goal in that more than a third of all borrowers have paid their land debts in full. New records in debt retirement ahead of maturity are being made this year. This vindicates the banks' courageous policy of basing loans on normal agricultural production value during the depression and thereby saving many thousands of farms and ranches."

The Federal Land Bank of Houston today has more than \$203,000,000 in Land Bank and Land Bank Commissioner loans on its books.

Dorse Collins, who is stationed at Sheppard Field, Wichita Falls, spent the week end here with his mother, Mrs. Ora Collins, and with other relatives.

Mr. and Mrs. Arthur Lawson and children, Bobby and Sue, returned home last week from Fort Worth and Dallas, where they visited relatives and friends for several days.

Miss Patsy Ruth Mitchell of Spur, Texas, spent the week end here with her parents, Mr. and Mrs. A. H. Mitchell.

Mrs. Sied Waheed and children returned home last week from Lubbock, where they had been visiting Mrs. Waheed's parents, Mr. and Mrs. C. S. Ameen, for several weeks.

Mr. and Mrs. J. S. Wells of Weinert were visitors here last Sunday afternoon.

J. M. Diggs, postmaster at Haskell, was a business visitor here last Monday.

Mrs. Martha Warren, well known Munday resident, was taken to the Knox county hospital for medical treatment the first of this week. She is reported to be very ill.

Clyde Burnett, ranchman of Benjamin was a business visitor in town last Saturday.

## Look! Listen! Live!

Tongues of the victims of the grade crossing accident shown here were wagging faster than the wig-wag warning signal as the car approached the grade crossing—wagging so fast the three occupants of the car didn't see the crossing watchman either, holding his STOP sign high.

Two of the talkers were killed when the train hit them, including the driver, the car was badly damaged and the train delayed one hour.

The surviving occupant of the car said all three had been conversing, diverting the driver's mind from concentration on what always should be a full-time job for a driver—driving his car.

The National Safety Council is conducting a special campaign to stop these accidents, which every day delay 38 trains a total of 22 hours—a blow at transportation facilities which the nation cannot afford, least of all in wartime.

UNITED STATES DEPARTMENT OF AGRICULTURE

**AAA NEWS**

By MARVIN ALLEN, Administrative Officer  
Knox County Agricultural Conservation Association

**Performance Work Started In County**

The tremendous job of checking performance on each farm in Knox county was started last week and indications are at this time that producers like very much the idea of checking their own performance and making necessary measurements of their own crops. Much interest is being shown by farm operators in this method of checking performance since they feel that they do have a definite responsibility of reporting performance on their individual farms and a definite part in the "Food For Freedom" program and also a definite part in the National AAA program.

May we continue to request the co-operation of each operator in reporting accurate measurements of his cotton and as accurate an estimation as possible on all war crops and the extent of each production practice carried out during 1943. Each operator will receive an official notice as to the date he should report his measurements to his community committeeman at the AAA office.

The AAA program has, since its beginning, been administered by farmers elected by the farmers and we must all admit that a good job of administration has been done and is being done by those farmer elected committeemen. Now for the first time farm operators will be requested to report performance on their own farm, thus making the AAA a 100 per cent farmer administered program.

Performance work in the county office will be under the supervision of the community commit-

teemen. However, performance work in the county office will take only a short time for each community thus leaving committeemen with plenty of free time with which to help their neighbors with their soil-building practices and may I state here that all committeemen know the practices approved by the AAA for use in this county so please feel free to call on them for the purpose of discussing with them your soil-building problems.

No piece of equipment is more important in winning the war than a productive soil. The soil means to the farmer what guns and ammunition mean to the soldier. Its productivity must be maintained or increased as a means of producing to the maximum. In order to do this, it is necessary for farmers to make effective use of each conservation or soil-building practice where it will serve best, just as the good soldier uses each piece of fighting equipment—rifle, bayonet, hand grenade—where it will serve best. Many farmers who have been forced to reduce their acreage of crops because of a shortage of labor will be able to produce as much as usual, because of their wise use of conservation or soil-building practices.

**Check-up Now**

Conservation practices always have been important—but they're especially important in wartime, when we're faced with extreme shortages of labor and machinery. If you are unable to increase yields through conservation, that means you're producing more with less machinery and labor. If yields are increased by 25 percent, then you are making 40 acres of crop land do the work 50 acres did formerly.

Check with the AAA office on your production practice allowance

NOW and invest that money in your soil. Check up with your neighbors and get them to do the same thing.

**Production Goals**

Knox county farmers and ranchmen, according to Farm Plan Sheets, have pledged all Food For Freedom goals. These goals look mighty good on paper, but that's not enough. Pledging is only the first step. Production is what's going to count. Each producer meeting the goal he's pledged on the Farm Plan sheet will do the job...nothing else will.

**3 1-2 MILLION EXTRA FARM WORKERS NEEDED**

SCHENECTADY, N. Y.—About 3,500,000 crop corps workers will be needed this year to help American farmers "to produce the greatest crops in history," Earl J. Cooper of Chicago, livestock representative of the Country Gentleman magazine, declared in a General Electric Farm Forum address here.

Mr. Cooper said that "the goals for 1943 have been increased to a great degree, and it is figured that at least 25 per cent of our food this year must go for our own fighting forces and for Lend-Lease." He asserted each of our fighting men consumes 5 1-2 pounds of food a day.

"It takes the food from 155 acres to feed the workers who build one bomber and requires 55 acres for the men who build one medium tank," he continued. "Workers who build a 35,000-ton battleship consume the food products of 42,000 acres.

"Now add to these figures the millions of us who are engaged in the regular duties of life, and we have a picture of what our farmers must accomplish this year."

Many thousands of boys from the cities and small towns have agreed to help the farmers this summer, according to Mr. Cooper. "This year more than one million organized Boy Scouts will join the United States Crop Corps as volunteers," he said.

"In many sections of the country, twilight armies consisting of businessmen will join the crop corps in the evenings."

**MILK GOES TO WAR**

MAKE YOUR FARM GOALS!

do some soaps float?"

The navy man's problem: "Is there any way which will make hair grow fast?" he asked. "The other day I had my hair cut by one of the fellows. He made a mess of it, and in the end I had to have it all cut off. It is one mess; I can't stand inspection like this, or I'll get restricted from liberty. Please let me know as soon as possible if there is any tonic, oils, or anything else I could use to get my hair back quickly. I am now bald."

A medical authority volunteered advice that "massaging and hot packs might increase the rate of growth, but certainly not enough to be of any help in this instance." He finally suggested a solution: a wig.

Any Excuse You Can Find For Not Upping Your Bond Buying Will Please Hitler

**FSA Payments At High Peak of Fiscal Year**

More money will be repaid to the Farm Security Administration this fiscal year than loaned, Ted Watson, assistant regional director for Oklahoma and the eastern two-thirds of Texas, announced in Dallas this week. With collections still to come in for another month of this fiscal year and loans stopped, collections already show over \$17,000,000 has been collected to date as against \$17,527,552 loaned farmers in these two states.

"By June 30 the FSA in the nation as a whole will have collected \$130,000,000 on rehabilitation loans this year, a third more than the total amount of such loans made for the year," Carlton A. Williams, FSA supervisor in Baylor, Knox and Throckmorton counties said.

"A magnificent record also is being made by the 23,000 former tenants now purchasing their farms with FSA loans. Already their repayments are fifty percent ahead of schedule," the FSA supervisor said.

A breakdown by states shows 21,498 food production loans made in Texas, for a total of \$8,519,592. Collections already are \$7,378,884. In Oklahoma 13,744 loans were made, totaling \$6,237,497. Collections thus far are \$7,387,540.

Farm ownership loans for the year to 365 in Texas total \$1,588,889, with \$917,606 so far repaid. In Oklahoma, \$1,181,574 has been loaned to 232 farmers for buying their farms, with collections thus far \$704,168. Repayments are 157 percent of what is owned on the installment schedule for principal and interest.

According to Mr. Watson, 11,000 Texas and Oklahoma farmers have sought FSA loans since this year's funds were exhausted early in March. Six thousand of these were in Texas and 5,000 in Oklahoma, 75 percent being in the eastern-most part of the two states.

"All money loaned to these 11,000 applicants would have gone into food and feed production on family-sized farms," Mr. Watson declared. "Most of it would have gone for the purchase of livestock and poultry so badly needed to meet the nation's wartime requirements." The 33,170 FSA families in Texas and the 26,695 in Oklahoma report they will increase food production ranging from 25

percent for chickens to 78 percent for pork, Mr. Williams, FSA supervisor, said.

**Haircut By Pal Causes Trouble**

SCHENECTADY, N. Y.—If you are a sailor, don't let your pal cut your hair—you may end up wearing a toupee.

A worried seaman, second class, the other day sent by special delivery a request to the General Electric Science Forum, which has in the past received hundreds of letters asking for answers to scientific questions, such as "What makes the sky blue?" and "Why

**What You Buy With WAR BONDS**

Down in the Solomons and on the African coasts the Crocodile Boat or tank lighter played a most important role in landing our invasion armies. These self-propelled, light... fast boats haul tanks, artillery and other equipment from the big ships off-shore to the beach heads.

We need more and more of them, for they are essential to the successful operation of the war. They are made in several sizes from small fifty-footers, costing about \$2,400 to the big 500-tonners costing around \$37,000. Your purchase of War Bonds every payday will help pay for them. U. S. ## Bridge Party Is Given Tuesday In Moore Home

Mrs. Howard W. Harrell entertained with a lovely bridge party last Tuesday evening in the home of her parents, Mr. and Mrs. W. R. Moore. The entertaining rooms were beautifully decorated for the occasion.

Mrs. Grady Roberts held high score at the close of the games, with second high going to Mrs. Paul Pendleton. The hostess served a refreshment plate of sherbert and cake to the following:

Mmes. Dorse Rogers, J. C. Harpham, Wade Mahan, E. M. Roberts of Amarillo, Fred Broach, Jr., Paul Pendleton, James A. Rayburn, Carl Jungman, W. R. Moore, Jr., of Knox City, Ray Holcomb, Hal Pendleton of San Marcos, H. A. Pendleton, Jr., of Harris, Tenn., Grady Roberts, Travis Lee, Miss Thelma Atkewison, and the hostess.

## Get-Together Held By Schoolmates In Ingram Home

An informal get together of a group of young people, most of whom were students together in Munday high school, was held one night last week in the home of Mrs. Louise Ingram.

Entertainment consisted chiefly of visiting with each other, and discussions and reminiscences of high school days, and a review of opinions of the war situation. As the evening drew to a close, refreshments were served to the following:

Cpl. and Mrs. Sidney Lee of Savannah, Ga.; Mrs. Grady Shytles, Mr. and Mrs. Barton Carl, Mr. and Mrs. Fred Broach, Jr., Mr. and Mrs. Arthur Smith, Jr., Mr. and Mrs. A. V. Kemletz of Fort Stockton, and Sgt. Preston Ingram of Orlando, Fla.

## Birthday Party Given In Honor Of Lee Ann Green

Mrs. Robert Green entertained on Saturday, June 5, with a birthday party honoring her eldest daughter, Lee Ann, on her third birthday.

The little guests were seated at the dining room table, and the birthday cake and ice cream were served. Each little guest received a handkerchief as a favor.

Children present for the party were Ida Jo Jungman, Gale Littlefield, Melissa Ann Lee, Mary Margaret Harrell, Tommy Ratliff, Judy Green and the honoree.

## Mrs. Lee Coffman Home From Hospital

Mrs. Lee Coffman, well known Benjamin resident, was returned to her home in Benjamin several days ago from a Fort Worth hospital, and is reported to be doing nicely. She underwent a major operation at the hospital, and remained there for a period of five weeks.

Mrs. Coffman is the Red Cross home service chairman for her community, and most of the work for Benjamin has been done by Mrs. W. E. Braly of Munday during her absence. Mrs. Coffman expects to be able to resume her duties in the near future.

The many friends of Mrs. Coffman over the county will be glad to learn that she is home and is continuing to improve.

Mr. and Mrs. W. H. Hart left Wednesday for Lampasas, where they are visiting with Mr. Hart's mother, Mrs. S. A. Hart, for several days.

## Decorative Charm in Floral Taffeta

WAKE up in a garden of roses. . . It's the sentimental charm of this rayon taffeta ensemble that makes for that all-important "bedroom beauty" everyone is talking about. Smart idea for practical purposes, too, especially if the label tells you that the fabric has been tested for serviceability and color fastness!

## HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

Harvesting of grain is getting in full swing here now. Farmers are reporting a fairly good rain crop.

W. P. McNeill of Bellevue is here having some work done about his gin and getting it ready for next fall.

Mr. and Mrs. Carl Eazle Jones of Artesia, New Mexico, are visiting Mrs. Lee Boggs and other relatives here.

Mr. and Mrs. J. King went to Camp Berkeley, Abilene, last week to see their son, who is stationed there.

A. S. Haskin and daughters of

Seymour were dinner guests in the Amos Thurman home the first of this week.

Delmar Haskin and family spent the week end with Brady Bingham and family in Lamb county.

L. L. Hendrix was on the plains the first of this week, attending to business matters.

Garland, son of Mr. and Mrs. Lloyd Jackson of San Diego, Calif., is spending the summer here with his grandmother, Mrs. Leslie Jackson.

Rev. J. L. Gray of Rochester preached at the Baptist church here during the week end. The Methodist pastor will preach at the Methodist church here next Sunday.

## Cooker Clinics Held In County

Cooker clinics have been held throughout Knox county the past two weeks for the purpose of testing pressure cooker gauges by Lucile King, county home demonstration agent and leaders from most all communities trained at a previous training school for this purpose.

Cooker clinics have been held in the following places with leaders as follows:

Vera, Mrs. Wesley Trainham, Mrs. R. E. Hughes, leaders; Hefner, Mrs. J. E. Cure, Mrs. C. B. Warren, leaders; Union Grove, Mrs. Bob Jones, Mrs. W. L. Pack, Mrs. E. F. Branton, Mrs. Ulric Lea, leaders;

Benjamin, Mrs. Leroy Melton, Lucile King, leaders; Knox City, Mrs. Ulric Lea; Rhineland, Mrs. John N. Albus, Mrs. Geo. Petrus, Lucile King, leaders.

Munday, Miss Anna Mae King; Sunset, Mrs. R. M. Almonrode, Mrs. Bob Hicks, Mrs. W. H. Freeman, leaders; Gilliland, Mrs. Marion Rider, Lucile King, leaders; Truscott, Mrs. Ozzie Turner, Lucile King, leaders.

There were approximately 150 pressure gauges tested at these clinics. As a result of these clinics many cookers have been brought out of their storage places that have not been used in three or four years and repaired. Many new gauges, safety valves, springs, petcocks and lugs have been replaced.

## GETS PROMOTION

Mr. and Mrs. C. R. Hendrix received a telegram Tuesday from their son, Clyde, telling them of his graduation Monday from the gunner's school in Florida. He received his gunner's wings, and was promoted to sergeant. He was leaving Florida on Tuesday for a new post.

## At The Churches

Sunday morning sermon subject: "Discipleship."

Sunday evening sermon subject: "The Kingdom; Where and When."

It was very gratifying to see the large number of new faces in the congregation last Lord's Day. The congregation, as it always is, was most appreciative of their presence. It is hoped that they will all return and you are invited to further increase the attendance by your presence next Lord's Day.

### PRESBYTERIAN CHURCH

Dr. William N. Sholl of Haskell preaches here each Sunday morning at 9:30 a. m.

Our church is located on the Main street of Munday and has an attractive auditorium with added Sunday school facilities. The Auxiliary meets on Mondays and is accomplishing a good work. All Presbyterians living in Munday and surrounding country are urged to attend our services. A very hearty invitation is extended to all visitors, especially those who have no regular church home.

### FUNDAMENTALIST BAPTIST CHURCH, GOREE

There will be Sunday school at

ten o'clock and preaching at eleven; also evening service by Bro. C. H. Mullins of Fort Worth, Texas.

Everyone who does not attend services in some other church is invited to come to our church. Especially do we urge all members of our church to be present.

Bible study each Tuesday at four o'clock. Everyone is invited to come and study the 4th chapter of Hebrews. Prayer service will be especially for our soldier boys.

Pvt. John Drey Lowe returned to his station at San Diego, Calif., this week after several days visit with Mr. and Mrs. E. R. Lowe, and with other relatives.

## Interesting Facts

The folding of surgical dressings, long a tedious hand operation, may now be done in one-third the time, by a new folding device.

A new heat-resistant, flame-proof blanket has been made available for use in war industries, by air raid wardens and for first aid stations.

An automotive company is currently producing flight instruments ten times in excess of originally set schedules.

Industry has developed a substitute for mica, which is a natural product of India and vital to the electrical industry, for use in tank and airplane radio equipment.

New optical equipment enables student flyers learning to fly "blind" to see clearly at all times, the instruments on their panel boards.

Newest aircraft safety device is the ingenious "impact switch" which automatically discharges several pounds of liquid carbon dioxide into the engine compartment if a combat plane crashes.

# Goree News Items

Mr. and Mrs. Norman Roberts and children, Norma Jean and David, left June 1 for Childress, where they will make their future home. Mr. Roberts is with the highway department there. Mr. and Mrs. Roberts have been residents of Goree for many years and will be greatly missed. Both were active in business and social circles, and the best wishes of all Goree people go with this fine family to their new location. Their daughter, Miss Bonnie June, is at Munday where she is employed by the West Texas Utilities Co.

Mr. and Mrs. Carl Barger visited in Midland last week in the home of their daughter and family, Mr. and Mrs. R. C. Frazier. They went at this time to meet their son, Corp. Jack Barger of Pyote. Jack is with the air corps there.

Mr. and Mrs. Van Voden of Seymour and daughter, Evelyn of Fort Worth, were Sunday visitors in the home of Mr. and Mrs. Carl Barger.

Barbara Jean Barger left last Thursday for Houston, where she is visiting her sister and family, Mr. and Mrs. Bill Williams.

Mr. Duane Morris and son, Edwin of Sanger are here for a visit with Mrs. Morris' parents, Mr. and Mrs. J. L. Brown.

Joe Bob and John, sons of Mr. and Mrs. Jack Moore, left last week for a visit with their uncle and aunt, Mr. and Mrs. Bryan Lawson of Rule.

Mrs. H. E. McMahon has returned from Amarillo, where she visited her brother and wife, Mr. and Mrs. Grady Thornton.

Pfc. and Mrs. K. Newton of Sheppard Field were visitors here last week in the home of the former's uncle and aunt, Mr. and Mrs. Homan McMahon.

Mr. and Mrs. Harper Cooksey

had as their guests over the week end their granddaughters, Betty Jo Jones of Utica, Okla., and Annie Mae Jones of Wichita Falls; and a great grandson, Wayne Bailey of Levelland and a grandson, Sgt. Neal Cooksey of Fort Sill, Okla.

Mrs. Cecil Temple has been a visitor here the past week with relatives. She came from Ft. Monmouth, N. J., where she was living with her husband before he sailed for overseas duty. Mrs. Temple went from here to Jernyn, where she is visiting with her parents.

Sarah Reeves left Tuesday for Fort Worth, where she has accepted a position in defense work. Miss Reeves visited her uncle and aunt, Mr. and Mrs. Carmon Roberts.

B. J. Peek returned to Littlefield last Wednesday after a visit with relatives here.

Mrs. George Knight of Seymour was a visitor with Mr. and Mrs. S. F. Farmer and other relatives here last Tuesday.

Mr. and Mrs. S. F. Farmer came in Tuesday from San Diego, Calif. Mrs. Farmer had been visiting her family, who are employed in defense work there. Mr. Farmer has come for a 10-day visit and will return to his work in San Diego.

Sgt. Arnold Koenig left for his post of duty last week after a visit with his parents, Mr. and Mrs. J. C. Koenig. Arnold is stationed at Denver, Colo., and is with the medical corps.

Mrs. Marie Denham and baby, Glenda Floyd, returned to their home at Merkel after visiting Mr. and Mrs. Everett Barger.

Mrs. James Cunningham of Abilene was a visitor here with her parents, Mr. and Mrs. Will Ratliff, last week.

Charles Arnold is spending some

# AMERICAN HEROES

BY LEFF

Hyman Epstein knew that after wounding a man the Japs around Sannanda was withholding their fire, using the injured soldier for bait until unarmed medical aides like himself came into range. Yet again and again he crept out under sniper fire to rescue wounded comrades until at last the Japs got him. "That kid was the best," his commander said of determined little Hyman Epstein. Are you buying War Bonds as determinedly?

time with his parents, Supt. and Mrs. H. D. Arnold. Charles has been a student in Texas Tech, and has received a call to report at Oklahoma City. He is with the naval reserves.

Forrest Daniell, Jr., left Sunday for Fort Worth, where he met his classmates then on to Mineral Wells where he will receive his call to service.

Mrs. Iby Canfield of San Francisco, Calif., left last week for a visit with her brother and family, Mr. and Mrs. Joe Tidwell.

Lieut. John Morton came in recently for a visit with his wife and little son and with his parents, Mr. and Mrs. J. C. Morton. John had been in the hospital, where he underwent surgery some time ago.

Mrs. Yvonne Hall of Los Angeles, Calif., is here for a visit with Mrs. Mabel Hall and Mrs. J. T. Patton. Yvonne is stationed somewhere in Africa and writes that he is well.

Mrs. J. A. Wiggins was a business visitor in Stamford last Monday.

Miss Florene Pippin visited in the home of Mr. and Mrs. W. E. Robinson of Goree over the week end.

Mrs. Fred Broach, Sr., and son, Bobbie, left last Tuesday for Cameron, where they are visiting Mrs. Broach's sister, Mrs. R. D. Brown.

Miss Fannie Isbell returned home last Thursday from San Angelo, where she had been visiting in the home of Mr. and Mrs. Guy Rutherford.

Mrs. Jimmie Frazier of Baytown is here this week for a visit with her parents, Mr. and Mrs. J. J. Keel, and with other relatives.

Mr. and Mrs. Joe Bailey King and Mrs. A. E. Womble left last Tuesday for Le Leon for several days visit with Mrs. Womble's mother, Mrs. J. H. Strube, and with other relatives.

Mr. and Mrs. W. D. West and son, Billie, and Mrs. Oral Patterson of Benjamin, Miss Frances Reagan of Vera and Lennie West of Munday were all in Wichita Falls on business last Saturday.

Clem Wilde, who is stationed at Richmond, Virginia, came in the first of this week on a furlough and is visiting his parents, Mr. and Mrs. Joe Wilde of Rhineland, and other relatives in the county.

# Coke Stevenson On Northern Trip

Coke R. Stevenson, governor of Texas, left Austin last Tuesday on a northern tour which includes a prospective White House visit and a conference with Selective Service Director Lewis B. Hershey for discussions on a uniform policy of drafting farm and ranch workers.

The main purpose of the governor's trip north was to witness the launching Saturday of the U. S. S. Houston, a cruiser, at Newport News, Va.

Cpl. and Mrs. Sidney Lee left last Monday for Savannah, Ga., where Sidney is stationed. They spent some two weeks here with Sidney's parents, Mr. and Mrs. O. W. Lee, and with other relatives and friends.

idea as to my ability.

However, I used to mystify acquaintances by informing them that I had such delicate powers of perception that I could tell, when a domino was face down, which end had the most spots on it, provided it was not a double. I would spin the domino and explain that the end with the most spots would wobble a little differently; though, of course, since they didn't have such marvelous eyesight, they couldn't see the difference. They would scoff—but I picked the right end every time.

The dominoes had an eagle design on the back and the eagle faced the way that the most spots were.

Folks:

Met Jim Robertson, county assessor and collector of Wichita Falls recently. He campaigned by handing out corn-cob pipes—and has kept it up. Letters addressed to him as "Corn-cob" Robertson are promptly delivered. He has given away over 70,000 pipes—always has a few in his pockets. He's serving his fifth term in office.

George McEntire of the U ranch near Sterling City says of our mutual friend, Shine Phillips (author of "Big Sprng"): "I have always felt sorry for Shine—at heart a cowboy but he was unable to be one on account of his size. As you know, cowboys come in only two sizes: six feet, two and named 'Slim' and five feet four and dubbed 'Shorty'. (Shine is betwixt and between these sizes.)

I GIVE YOU TEXAS by BOYCE HOUSE

I am not bound to win but I am bound to be true. I am not bound to succeed but I am bound to live up to what light I have. I must stand with anybody that stands right, stand with him while he is right and part with him when he goes wrong.—Abraham Lincoln.

Your columnist never has been very proficient at games—but I like to play dominoes, anyhow. My favorite opponent used to be a hotel proprietor in a West Texas town (when I lived out there.) He was a good player and on the rather rare occasions that I would plunk down a rock and score 15 or 20, he would drily remark: "Blind hog found an acorn."

That will give you the general

# MRS. SIED WAHEED BREAKS FOOT IN HOME ACCIDENT

Mrs. Sied Waheed received a painful injury last Tuesday morning in an accident in her home. While working about the home, Mrs. Waheed slipped on the back steps, breaking her left foot near the instep.

Her physician advises that it will be necessary for her to remain in bed for several weeks.

# HOME FROM SCHOOL

Dick Harrell, who has been taking pre-medical work in Texas Tech, came in the first of this week for a visit with his parents, Mr. and Mrs. E. W. Harrell. Dick has withdrawn from school and expects to enter the service soon.

Leland Hannah visited relatives in Sand Springs, Okla., the first of this week. He was accompanied home by Mrs. Hannah and daughters, Charlotte and Carolyn, who have been visiting their daughter and sister, Mrs. Troy Denham, there.

Mr. and Mrs. Sied Waheed and family visited with relatives and friends in Hamlin last Sunday.

# LOCALS

Dr. and Mrs. W. M. Taylor of Goree were business visitors here last Tuesday.

Mr. and Mrs. W. C. Cunningham and little son, Walter Lee, were visitors in Goree last Sunday afternoon.

Mrs. Frank Trammell and children and Mrs. F. C. Woodall are spending this week in Tioga, Texas, visiting with relatives.

Sam Salem spent the first of this week in San Antonio where he attended market and purchased fall and winter merchandise for the Fair Store.

Wayne Blacklock, who is attending summer school at Texas Tech, spent the week end here with his parents, Mr. and Mrs. B. L. Blacklock.

Mrs. Paul Poe and daughter, Mary Jeanette, of Cisco and Mrs. Doyle Williamson of Stamford visited with their sister, Mrs. B. L. Blacklock, several days last week.

# WANT ADS

COTS—For combine and thresher crews. Reid's Hardware. 1tc.

LAST CALL on sweeps, our stock is running low, check yours and buy what you need. Broach Implement Co. 49-tfe.

# Avoid a Fine

Observe Traffic Ordinances!

Recently there has been considerable negligence upon the part of motorists in observing traffic ordinances in Munday.

Notice is hereby served that the city's ordinances in regard to double parking, center parking and failure to observe the traffic light will be enforced. You will avoid embarrassment, and a fine, by strictly observing these traffic rules.

# City of Munday

THESE HORSES HAVE JOINED THE CAVALRY!

The merry-go-round has gone to war!

Like the plants that made refrigerators, stoves, furniture, and many other familiar household items, a plant that made merry-go-rounds is now turning out vital equipment for our fighting forces.

It was the biggest job ever performed by American industry to change over from washing machines to guns, from automobiles to planes and tanks. A job that demanded more machinery, more equipment, more men—and more electric power!

That's part of the story why America clicks, of our amazing ability to get things done. Let's feel proud of our achievement... proud that we have more electric power here in America than all the rest of the world combined, and we are using it.

Yes, we have built up in this country more kilowatt-hour output than all the Axis dominated countries combined.

The electric power line is another line the Axis cannot hold.

Lines have been extended to new factories and military training camps ahead of schedule.

It was not an accident that America was power-full.

Electric companies, under business management like the West Texas Utilities, had planned ahead. Knowing their business, schooled in emergencies, they saw to it that Uncle Sam had plenty of electric power—wherever and whenever needed!

It's on tap for all civilian needs too—no shortages, no rationing, no increase in cost.

It's an outstanding wartime example of what free men can do. Free enterprise works!

We're fighting this war to hold this freedom. Government bureaucracies should place full emphasis on winning the war and desist from their political endeavors to permanently change our system of government.

West Texas Utilities Company

## On The Home Front

O. E. M. Division of Information

### Lower Meat Prices

Effective June 21, meat prices at retail will be lowered from 3 cents to 7 cents a pound by order of the OPA. New prices for cured and processed pork will go into effect July 5. Reductions in price are smaller on cheaper cuts and larger on the more expensive. As in the case of the rollback of prices on butter, the lowering of meat prices will not directly affect the farm producer. Subsidies, which began June 7, will be paid to anyone who slaughters 4,000 lbs. of meat or more per month.

### Write to Men in Iceland

"American soldiers in Iceland are not getting nearly enough mail from home," said Chaplain Peter E. Cullom, who recently returned to the U. S. after two years of duty with Icelandic garrisons. "In spite of the fact that the Army delivers the mail with promptness and regularity to every Army post in Iceland, folks at home are not taking full advantage of this service," Chaplain Cullom said.

### More Farm Machinery

A total of 300,000 tons of carbon steel, with other material in proportion, has been allocated to the farm machinery program for the quarter beginning July 1. An additional 200,000 tons of steel have also been approved for each of the

three quarters from October 1, 1943, to July 1, 1944. During the third quarter of this year, special emphasis will be given to the manufacturer of harvesting machinery for this year's crop. The whole farm machinery program has been stepped up.

### Ice Box Prices

Retail price ceilings on new ice boxes have been established by OPA by models and states. Present prices will be lowered in many cases. Three sets of retail ceilings have been provided: (1) sales by ice companies and their stores, prices ranging from \$26.75 to \$75.50 delivered; (2) mail order sales—\$18.95 to \$59.95; (3) all other sales at retail—\$30.75 to \$88.75.

### Coffee By Mail

Coffee drinkers who order their blends by mail may now "pay" for the purchase by enclosing detached ration stamps with the order rather than the entire ration book, OPA has announced. Formerly, consumers were required to forward their war ration book to the retailer or wholesaler for removal of stamps.

### Inspection Requirements Changed

Tire inspections for commercial motor vehicles now may be made every 5,000 miles or every six months, whichever occurs first, ODT has announced. Previously, commercial vehicles had to have tire inspections every 5,000 miles or every 60 days, whichever occurred first.

### Data On Prisoners

American soldiers officially reported as prisoners of war in enemy countries to date total 17,083, the War Department has announced. Of these, 11,307 are held by Japan; 3,312 by Germany and 2,464 by Italy. However, these reports are incomplete. Information in the hands of the War Department indicates that the basic diet of an American soldier in German prison camps is largely potatoes, cabbage, fish and an indefinite amount of meat.

### To Substitute Tires

Farmers needing farm implement or front wheel tractor tires will be permitted to purchase suitable substitutes when they are unable to find a dealer with tires designed expressly for their purpose, the OPA has announced. Dealers may also sell passenger car owners tires and tubes of a slightly different size than is called for by the rationing certificate.

### Leather For Civilians

Manufacture of many civilian leather products, which was prohibited after June 1, can be continued through 1943 out of manufacturers' inventories, under a recent WPB amendment. Among products affected are dress gloves and mittens, brief cases, new upholstery, radio cases, pocketbooks, handbags, cigar and cigarette cases, key cases, tobacco pouches, watch straps and dog furnishings.

### Electricity to Farms

Rural electrification loans to 26 systems in 18 states have been made to a total of \$1,790,000 for immediate extension of service to more than 1,000 farms qualifying under present WPB regulations permitting connections to farms producing livestock, dairy and poultry products. The following allocations have been made in Texas: South Plains Electric Co-

One of our every two families have at least two workers. Figure it out yourself how much beyond 10 percent of your family income you can put into War Bonds every payday.

## People, Spots In The News

**SUCCESS!**—Eight smiling U. S. airmen are shown at American air base in China, where all were awarded Distinguished Flying Cross and Chinese Order of the Clouds for their parts in Doolittle's bombing of Japan.

**OUT AT SECOND**—Dodger's Galan caught stealing by Cincinnati's Frey in game at Brooklyn. Home team won, 3-0.

**HONORED**—Mrs. Henry C. Nosalik receives Purple Heart and Distinguished Flying Cross, from Col. C. T. Mower of Kellogg Field, posthumously, for flyer-husband killed in action just before the sponsored third submarine patrol vessel launched in less than month by Pullman-Standard Car Manufacturing Co., at Chicago. Capt. W. R. Dowd, U. S. N., Supervisor of Shipbuilding, watches.

operative, Inc., Lubbock, \$10,000; Deep East Texas Electric Cooperative, Inc., San Augustine, \$85,000; Erath County Electric Cooperative Association, Stephenville, \$10,000; and Cap Rock Electric Cooperative Inc., Stanton, \$10,000.

### Gas Coupons Changed

A new "T" gasoline coupon, which replaces the present "T" coupon, will become valid for use on July 1. The old type of "T" coupon will be invalid on and after July 1, except in the north-eastern shortage area where it will be used through July 25. OPA expects the change in design to help take up "slack" mileage and remove potential sources of black market gasoline.

### Materials For Underwear

Materials for knit underwear for men, women and children will be made available by an action of WPB. Manufacturers have been assured of supplies of cotton yarn, thread, fabrics and other materials to meet essential civilian requirements.

### New Pipeline Approved

A 383-mile, 16-inch pipeline from Sundown, Texas to Drumright, Oklahoma, having an initial capacity of 54,000 barrels of crude oil daily, has been approved by the War Production Board upon the recommendation of the Petroleum Administrator for War. Construction is expected to begin early in

October, 1943, and should be in operation sometime in March, 1944, the administrator added, providing that materials and workmen are available on schedule. The pipeline will serve to provide middle western refineries with additional supplies of West Texas crude oil, thus helping to relieve the national oil shortage.

### Workers Stay on Job

Labor and management in the Southwest have given overwhelming support to the national wartime no-strike, no-lockout policy, a report by the Eighth Regional War Labor Board reveals. The region, including Texas, Oklahoma and Louisiana, has far surpassed the recent national record of only three one-hundredths of one per cent of man-hours lost through work stoppages. In the seven months the Regional WLB office has been in operation, only four strikes have been recorded, the report showed.

Andy Eiland of Galveston came in last week for several days visit with his mother, Mrs. Dave Eiland, and with other relatives and friends. He left on Wednesday on his return to Galveston. He was accompanied as far as Throckmorton by Mr. and Mrs. Raphael Scott of Texas City, former residents of Munday.

## LOCALS

Mrs. H. D. Warren of Fort Worth came in the latter part of last week for several days visit with relatives and friends here and to attend the bedside of her mother-in-law, Mrs. Martha Warren.

Bill Shipman of Vera was a business visitor here last Saturday. He was accompanied by his son who is in the service in California and who is home on furlough.

Lennie Kuhler, who is in the service and stationed in California, came in last week for a visit with relatives and friends here. He is on 15-day furlough. Lennie is a former employee of the West Texas Cotton Oil Co.

Mr. and Mrs. A. V. Kemletz left last Monday on return to their home in Fort Stockton after several days visit here with Mrs. Kemletz' mother, Mrs. Louise Ingram, and with other relatives.

Mr. and Mrs. M. F. Billingsley and Mrs. Bill Billingsley and little son spent the week end in Odessa, visiting with Bob Billingsley, who was in the army hospital there for medical treatment.

Mrs. Glenna Dkay and Miss Gladys White, both of Walters, Okla., spent last Thursday night in the home of Mr. and Mrs. W. V. Tiner. Mrs. James Dyke accompanied them home Friday for a few weeks visit.

Miss Dorothy Clements of Brownwood came in last week for several days visit with her brother-in-law and sister, Mr. and Mrs. J. C. Harpham.

### CARD OF THANKS

We deeply appreciate your kindness and sympathy during the death and burial of our husband, father, son, and brother. Although there can be no consolation for the grief that we share, may God's richest blessings be yours for your sympathetic understanding.

Mrs. Jewel Tankersley & Janice, Mr. and Mrs. E. H. Tankersley, Mr. and Mrs. Jack Tankersley, Mr. and Mrs. E. H. Tankersley, Jr., Mr. and Mrs. Lynn Tankersley, Mr. and Mrs. Milton Rowan.

outbreaks of botulism, usually with high mortality, has been reported from eating home canned foods in this country, although for 18 years only one case—from mushroom sauce—has been reported from commercially canned foods which are processed under the higher temperatures obtained by steam pressure.

In spite of these facts it is not surprising that one or even dozens of housewives might process non-acid foods in a boiling water bath for as short a time as 80 minutes and suffer no harmful results. Miss King pointed out from Chandler's report.

The chance for accident are too great, the biologist says, to be worth the risk of a large number of people undertaking to can non-acid vegetables or meats by the boiling water bath method. Outbreaks of botulism will almost certainly occur.

## Legion Schools Being Taught On Rehabilitation

The first objective of the American Legion is to take care of its disabled comrades. We now realize that our responsibility to our disabled comrades along the lines of rehabilitation is greater than ever before in the history of the American Legion, stated Mr. Tom Weber, local Post Service Officer.

A series of rehabilitation school of instructions are now being conducted at each district convention of the American Legion throughout the state, in order to enlighten Post Service Officers and other members of the American Legion on the new veterans' regulations pertaining to World War II veterans and their dependents. The Department Rehabilitation Committee of the American Legion and the Veterans' State Service Office are supervising the rehabilitation school of instructions being conducted in different sections of the state, Mr. Weber stated.

The National Rehabilitation Committee of the American Legion is now working with the Veterans' Administration on a new proposed rating schedule, which will be beneficial to the new group of veterans and their dependents. The aim of the American Legion is to see that the returning disabled comrades are properly rehabilitated so they may assume their normal sphere in life as possible, and to find their proper place in society, stated Mr. Weber.

Cpl. Chaney Hobert, who sailed recently for points somewhere in the Pacific, writes his parents, Mr. and Mrs. L. W. Hobert, he has landed safely at his destination and is well.

Pvt. Alonzo Cartwright of Camp Wolters is visiting his parents, Mr. and Mrs. Louis Cartwright this week.

## Look! Listen! Live!

Twenty-four school children killed and 15 injured.

That was the toll taken not long ago by failure of the driver of a school bus to comply with safety requirements and assure himself that the way was clear before attempting to cross a railroad grade crossing. The accident is illustrated here.

The windshield and front side windows of the bus were equipped with frost shields or clear-vision windows. The crossing was in

open country, with nothing to obstruct the driver's view of the approaching train.

He came to a stop about 25 feet from the track, then started over the crossing when the train was in plain view—only two or three hundred feet away.

The National Safety Council is conducting a special campaign to stop these accidents which every day delay 58 trains a total of 22 hours—a damaging blow to the nation's war transportation effort.

## More Than Half of War Production Goes To Thousands of Small Plants

NAM Study Shows Contracts With Small Subcontractors in All Forty-eight States

NEW YORK, N. Y. (IPS)—In a poll of the 252 companies listed officially as holding virtually all of the war supply and equipment contracts, the National Association of Manufacturers found that more than 51 cents of every dollar of prime contracts placed with these companies have been passed along to subcontractors.

The 252 companies (actually 251 because one listed as a parent company was an operating subsidiary) were asked two questions in the survey:

1. "What is the approximate dollar volume of your total war contracts for the calendar year 1942?"
2. "What is the approximate dollar volume of that portion of these total war contracts... filled outside your own plant organization?"

Of the firms polled, 190 replied with the requested figures suitable for inclusion in the survey. They reported contracts for war materials and supplies during 1942 with an aggregate value of \$26,064,394. Of this amount they reported \$13,459,759,070 distributed

to other companies. This is 51.4 per cent of the total war business of the 190 companies for 1942.

Only 3.9 Per Cent Profit

These companies also reported that they did business with approximately 140,424 subcontractors, vendors, and suppliers in all the 48 states.

The aggregate of "undistributed" business resulting from 1942 contracts was \$12,732,305,324. Comparing these figures with the percentages evolved in a recent study by the National City Bank, the NAM survey disclosed that of the \$12,732,305,324 residue from 1942 war business the 190 companies paid out 67.7 per cent, or approximately \$8619,770,704 for wages and salaries. Approximately 24.2 per cent of the total, or \$3,081,217,888 was taken for taxes. This left 8.1 per cent of the res-

idual would mean about 3.9 per cent of profit on the total distributed and undistributed \$26,192,064,394 of war business.

Specific Examples

The study shows that the trend is toward further distribution of war business to smaller manufacturers. While military secrecy forbids disclosure of company names, the following reports are typical of many received by the NAM:

One company manufacturing equipment for the armed forces had total subcontracts in 1941 valued at less than \$19,000,000 for 369 subcontractors; in 1942 it let subcontracts valued at more than \$100,000,000 to 1,534 subcontractors.

One tank contractor in the Midwest has subcontracted 89 per cent of its contract for tanks.

One aircraft company has 5,000 sources of supply.

One automotive company has 34,000 subcontractors, vendors, and suppliers.

One large motor manufacturing concern which purchases 49 per cent of its total engine contracts expects that in the next few months it will subcontract 65 to 70 per cent of its total contract. This means that practically all of the prospective expanded produc-

tion schedules will be farmed out to other plants.

Many companies reported excellent results from dealing with newly found subcontractors as in the case of the American Locomotive Company, which in newspaper advertisements paid tribute to the record-smashing production of the M-7, the tank killer which turned the tide at El Alamein.

Mr. and Mrs. J. D. McStay and son of Vernon, and Mrs. Coleman Moorehouse and daughter, Gloria of Santa Rosa, N. M., were guests of the former's parents Mr. and Mrs. S. E. McStay, over the week end. Mrs. A. H. Sams of Benjamin was also a guest in the McStay home at the same time.

Mrs. John H. Vens of Amarillo is visiting Mr. and Mrs. Fred Ritter and Mr. and Mrs. Albert Andre; also her mother, Mrs. Anna Simonich, all of Rhineland. Mrs. Vens and Mmes. Ritter and Andre are sisters. After a week's visit with each of the above families, Mrs. Vens will spend a week with another sister, Mrs. Henry Benmann of Abilene before returning to her home in Amarillo.

Mrs. Carrie Jeffords of Seymour was a guest of her daughter, Mrs. Chalmers Hobert, this past week end.

## Canning By Hot Water Bath

By LUCILLE KING, County Home Demonstration Agt.

Canning non-acid vegetables by the hot water bath or oven method is a dangerous practice which gives a loose rope to the development of a poison more deadly than

rattlesnake venom, Asa C. Chandler, professor of biology at Rice Institute points out.

The poison which develops through canning non-acid vegetables (all except tomatoes and kraut) is so powerful that a teaspoonful is enough to kill 40,000 guinea pigs. By comparison rattlesnake venom is only mildly poisonous.

Miss Lucille King, Knox county home demonstration agent, brings this notice to housewives throughout the county who are busy preparing their victory gardens to supplement next winter's rationed supplies.

The poison to which Professor Chandler refers is known as botulism, which causes one of the most deadly diseases of man and animals and produces spores which are sometimes extremely resistant to heat.

The bacteria which cause botulism grow in non-acid foods when strictly protected from air, as is the case in canned vegetables. The spores which survive heating eventually germinate, although they remain dormant for weeks or even months. There is one case on record where such spores germinated after 22 months. After germination, they multiply and produce one of the most powerful poisons known to exist, a poison which becomes mixed with food.

A Re-Capping Job Will Protect

## Your Tires

Have your tires recapped before your tire carcass is damaged, thereby making it impossible to make the new tread hold to the carcass satisfactorily.

Re-capping makes the tire run cooler and protects the valuable materials in the carcass. It will save lots of tire trouble this summer, and insure you lots of extra miles in those old tires.

Our tire re-capping service is up-to-date, and we use the well known electric method of re-capping that will stand the test... and backed by our guarantee.

We also repair tractor tires. Bring them to us and we'll get them out as quickly as possible.

### Cpl. Forman Nix Gets Air Medal

Corporal Forman Nix, whose home is on Route Number 1, Munday, Texas, was presented The Air Medal June 8th, in a colorful military ceremony in Miami, Florida, by Colonel Harry A. Halverson, commanding officer of the 26th Antisubmarine Wing, for outstanding achievement in over 200 hours of combat flying under many adverse conditions.

Corporal Nix, who is a member of the 26th Antisubmarine Wing was awarded the medal on general orders of the Antisubmarine Command signed by Brigadier General Westside T. Larson, commanding. The citation for the medal read, in part, that Corporal Forman Nix displayed outstanding initiative, resourcefulness, and a high degree of skill under many trying conditions. "Possibility of encountering enemy ships of fighter type or anti-aircraft fire added to the hazards of these missions," it stated.

The citation said that the outstanding service of Corporal Nix "reflects the highest credit on the military forces of the United States."

The mission of the Antisubmarine Command, of which the above winner of the Air Medal is a part, includes locating and destroying hostile submarines, assisting the Navy in the protection of friendly shipping, and aiding in the protection of U. S. sea frontiers against enemy attack.

The Antisubmarine Command operates on a worldwide scale, squadrons under its command taking over the task of blasting enemy U-Boats operating at sea, and extending co-operation to the British Royal Air Force and joins the Navy in patrolling vast areas of water.

Air patrols for merchant convoys have increased their safe conduct and have forced German U-Boats far out into the Atlantic away from British and American coasts.

Antisubmarine planes have flown approximately one third of a million hours in patrol and escort operations. Flying on submarine patrol is entirely different from ordinary bombardment flying. To bomb submarines, aircraft must fly at extremely low levels. Normally planes are not confronted with fighter opposition, but occasionally are fired upon by anti-aircraft guns of the U-Boats. The tough job about submarine fighting is the routine flying day after day in all kinds of weather over wide stretches of cold, treacherous water.

Crews face plenty of danger, especially in time of engine failure. Bombers are not built for landing on water, of course, and when they do, they sink in less than a minute, oftentimes. Improvements are being made, however, not only to increase the buoyancy of the aircraft, but to provide increasingly effective life saving equipment, according to authorities.

Control rooms in New York, Miami, and Overseas, staffed by both the U. S. Army and Navy, and by Allied officers, direct all patrols in the U-Boat sinking program, including flights in the American coastal area by pilots of Civilian Air Patrol. The Antisubmarine fliers in co-operation with the Navy and the British are making an all-out effort to knock the submarine menace from the path of Allied merchantmen trans-

porting supplies and ammunition to all combat theaters. Flights of American bombers over American waters are made by combat crews ready for action at a moment's notice.

Patricia Ann Homer has undergone an appendectomy at the Wichita Falls Clinic Hospital. Reports are that she is doing nicely. She will return home next week.

Mr. and Mrs. Julius Kuhler are the proud parents of a baby girl, born June 8th at the Haskell county hospital. Both mother and daughter are getting along nicely.

John Thomas Rutherford of San Angelo is visiting his aunts, Misses Maud and Fannie Isbell, and his grandparents, Mr. and Mrs. C. L. Mayes, this week.

Mrs. Roy Jones of Goree was here last Friday, visiting with friends and attending to business matters.

### Weather Report

Weather report for the period of June 10th to June 16th inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
1943 1942	1943 1942	1943 1942
June 10	67 61	92 87
June 11	67 65	92 95
June 12	72 71	92 106
June 13	67 69	87 91
June 14	69 56	93 73
June 15	74 59	95 90
June 16	70 68	95 90

Rainfall to date this year 8.76 inches; rainfall to this date last year 11.79 inches.

### Cecil Cooper Is Instructor At Barksdale Field

The following letter from Lieut. Cecil Cooper to his parents, Mr. and Mrs. J. F. Cooper, followed a telegram informing them that he had been chosen as a bombardier-navigator instructor at Barksdale Field, La.:

Dear Folks:

I sent you a telegram this morning telling you I have been made bombardier-navigator instructor. I am very thrilled and happy over it!

There are a lot of officers in my flight, and all of us were called in during the last three days for an interview with the big boys. Since there was only one new instructor to be picked out of my flight, I did not think much about

LIEUT. CECIL COOPER

it; however, I wanted it very much. Since so many of the fellows had been here much longer than I, I figured they had a better pull and would get the job.

The first thing this morning I was called up to the main office, and Col. Rein told me I had been chosen for the job. It made me so happy I almost hollered too loud. He said my past record as a soldier, and my bombing record—also my age—was the reason I was chosen.

He said it was possible I might be stationed here permanently. Then it might be possible that I would be sent over later on as an instructor in foreign service. Anyway, it is a good deal, because I know I will have better breaks anywhere I am by being an instructor.

I will have to teach classes and check all the fellows coming in and going out to see if they know their bombing and navigation like they should.

I certainly am thrilled and I am really going to do my best to do a good job.

Oh, yes, the railway express got my luggage mixed up, and they brought my barracks bag out here

and sent my foot-locker to Haskell. So I called them and they sent the Haskell office a telegram telling them to send my foot-locker back. It will probably be back in a day or two, now.

By the way, I certainly am gaining weight, now. We have exercised every evening except Sunday, and it sure gives me a good appetite.

Give my regards to all, and I hope everyone is feeling fine, and the crops are doing good.

Love,  
Cecil.

Mrs. Lewis Williams of Benjamin was a business visitor here last Tuesday.

Buck Propps of Knox City was a business visitor in town last Wednesday.

Mrs. Erna Mae Lee of Wichita Falls is here this week for a visit with her mother Mrs. A. F. Huskinson, and with other relatives.

Guests in the home of Mr. and Mrs. C. P. Baker last Tuesday were Mr. and Mrs. Harris Moore and son and daughter and Leslie Bruner, all of Fort Worth; Rev. Hervey Ross, Presbyterian missionary to Old Mexico; Miss Lucy Ross of Plainview, Mrs. A. P. Barker of Lockney, and Mrs. G. V. Smith, Mrs. E. C. Henry and Mrs. R. C. Henry, all of Floydada.

Mrs. Clyde Gibson and Johnnie of Wichita Falls are guests in the home of Supt. and Mrs. W. C. Cunningham this week.

Mrs. Mary Milford and daughters visited with Mr. and Mrs. Clarence C. Thompson in Knox City over the week end.

Miss Carol Ann Sanders of Haskell is a guest this week of her grandparents, Mr. and Mrs. H. A. Pendleton, and other relatives.

Mr. and Mrs. Jim Reeves and family were visitors in Fort Worth and Dallas the first of this week.

WE CARRY the largest stock of parts in West Texas. Some parts for nearly all machines, tractors, cars, etc. Broach Implement Co.

Mrs. H. A. Pendleton, Jr., of Harris, Tenn., and Mrs. Hal Pendleton of San Marcos are here this week, visiting with Mr. and Mrs. H. A. Pendleton, and with other relatives.

Mr. and Mrs. Arthur Lawson and children spent last Sunday in Seymour, visiting in the home of Mr. and Mrs. Deaton Greene.

Miss Dorothy Hardin was a business visitor in Stamford last Sunday.

Mrs. Frank Glover and Mrs. Wade House of Benjamin were business visitors here last Monday.

Lee Patterson, who is stationed at Camp Swift, Texas, came in last week on a furlough and is visiting his parents, Mr. and Mrs. L. B. Patterson, and other relatives.

Miss Pauline Gage returned to her home in Dumont last week after several days visit with relatives and friends here. Miss Myrtle Munday accompanied her home and is spending this week in Dumont.
