NUMBER 52

4-H Club Boys Visit Sheppard Field Saturday

Eight Knox County 4-H Club boys visited the huge technical school at Sheppard Field Saturday as a partial reward for raising and producing enough food in the last 12 months to feed a soldier for a year.

One of the most interesting features at Sheppard Field was the repair of the P-25 and P-26 bombers that had been shot up considerably in the recent North African campaign. Lt. Oaks who escorted the boys about the field explained that many of the bombers that had been shipped to Sheppard Field for repair had as many as 1000 bullet holes in the fuselage, wings, and tail, some of the bullet holes were directly in line with the gunner and pilot and it seems almost a miracle that the boys were able to return to their bases alive.

During the noon hour the Club members from the whole district were allowed to eat in one of the mess halls, all the boys pronounced the meal extra good, and bountiful.

Mr. Jack Idol, manager of the League Ranch, and R. O. Dunkle, county agent of Knox county, accompanied the boys on the trip. The eight club member making the trip from Knox county were Leo Koenig, of Goree, Stanley Glover, and Glenn Dunkle, of Benjamin, Charles Heckman and Jerry Westbrock, of Truscott, Billy Richards, of Vera, and Pat Hill, of Munday.

58 Registrants Are Classified By Local Board

Fifty-eight Knox county registrants were reclassified by the Selective Service Board at the regular meeting last Tuesday, and 15 of the number were placed in Class 1-A. The classification list follows:

Class P: Loyd M. Hendrix and Mark A. Koenig.

Class 1-A: Richard W. Black, J. J. Denton, Jr., Alvis R. Watson, Joseph W. Watson, Jack C. Brooks, Guy Bradley, Grady B. Spivey, Clim W. Webber, George M. McKinney, J. R. Henson, Vernon P. Scott, M. J. Johnson, Everton B. Hoesa, Albert J. Smajstrla and James M. Davis.

Class 2-B: Melvin E. Morgan.

Class 3-A (H): Robert M. Sherman, Aubrey L. Smith, Raymond Parvin, Abe M. White, Terry L. Harrison, Jodie H. Parks, Roy L. Dodson, Charles C. Dunn and Leo B. Little.

Class 3-A: J. B. Barnes and J. G. Reagan.

Class 2-C: James W. Cash.

Class 3-C: Theodore D. Willis, Travis Pannell, Leonard Westerman, and William H. Simmons.

Class 3-C (H): Johnson C. Moorehouse, Eugene F. Payne, William H. Lankford, John W. Trainham, Alois A. Duesterhaus, Charlie H. Lane, William F. Caddell, Martin C. Kuehler, Horace Spell, Hal R. Hicks and Frank X. Knapp.

Class 4-A: Lester D. Hickman, Pedro Palacio, Manuel D. Samora, Louis D. Greene, Charlie L. Griffin, Albin T. Iseng, Dover E. Williamson, Manuel Davila, Everett L. Tidwell, Ray Baty, and Samuel Burch.

Class 4-F (H): John P. Martinez.

Class 4-F: Hubert A. Owens.

Clifford Cluck Back In States From Guadalcanal Duty

Mr. and Mrs. Tom Cluck received a wire from their son, Clifford Cluck the first of this week, stating that he had arrived in San Francisco, Calif., and he expects to visit his parents here within the near future.

Clifford is a veteran of the Pacific battle area. He spent five months on Guadalcanal, going through the tough jungle warfare without receiving an injury. He was later transferred to New Zealand, and it is believed he has been transferred to the states because of a stomach ailment.

Mr. and Mrs. Cluck stated their son would likely be transferred to a Texas camp within the next few weeks, after which he expects to receive a furlough to visit his parents.

Rev. C. H. Mullins New Pastor Of Goree Church

The Fundamentalist Baptist church at Goree has called Rev. C. H. Mullins as their pastor. Rev. Mullins preached at the morning and evening services last Sunday, and at the evening service he accepted the call of the church and will come to Goree to make his home in the near future.

Bro. Mullins is the preacher who held the revival in Goree park recently, and is a man filled with the spirit.

All who enjoy hearing the old fashioned, old time gospel which our grandparents enjoyed will want to hear him.

The following is an announcement of the church services: "We have Sunday school each Sunday at 10 a. m., and preaching services at 11 a. m., also evening services. We have Bible study and prayer meeting each Tuesday afternoon at 4 p. m. at the church. We are studying the book of Hebrews. We extend a warm invitation to each and everyone to come and worship with us at these services."

Young People At Leuders Methodist Camp Last Week

A large group of young people represented the Munday Methodist church at the Methodist Intermediate Camp which was held at Leuders last week. The encampment this year was for both the Stamford and Sweetwater districts and the largest attendance in the history of the encampment was enjoyed. This is the first time two districts have met jointly at the encampment.

A splendid program of religious, devotional and recreational activities was held during the five days of the encampment. It was stated that the Munday church had the largest representation of any in the two districts.

Attending from here were Rev. and Mrs. Luther Kirk, Miss Merle Dings, Mary Tom Kirk, Jane Spann, Yvonne Morris, Florene Mitchell, Charlotte Williams, Jean Ratliff, Jean Rummell, Mary Jo Steele, McKelvey Jones, Joseph Borden, D. G. Chamberlain, R. L. Kirk, Jr., George Kirk, Richard Allison, Joe Spann, Robert Allison, Joe Frank Bowley and Lyndal Smith.

Closing Program Of Bible School To Be Held Sunday

Closing program of Daily Vacation Bible school will be held at the Baptist church next Sunday at the morning service. All parents and the public in general are invited to attend this service and see what the children have learned in the school.

Rev. W. H. Albertson stated that a very successful school has been held, with good enrollment and good attendance each day.

Up Your Savings

JAPS EXECUTE DOOLITTLE MEN

WE'LL PAY YOU BACK TOJO

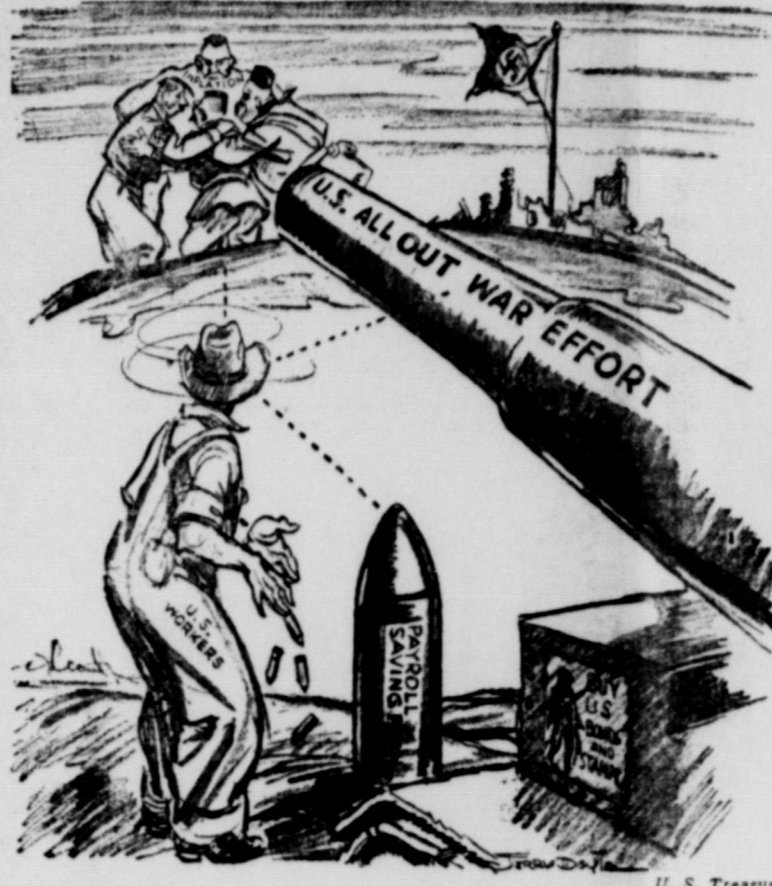

If it takes our last dime!

BUY MORE WAR BONDS

There will be American justice for the savages of Tokio but our trial and punishment of Tojo and his criminals will cost blood, sweat, toil and tears and money. You can supply the money by upping your war bond buying through the payroll savings plan. Figure it out yourself and see where the money is coming from. How much does it cost you and your family to live each month? How much money is coming in from all members of your family? Put the extra money into war bonds, every penny of it. Let 10 per cent be only the starting point for figuring your allotment.

U. S. Treasury Department

FIGURE IT OUT YOURSELF

Farm Shop Will Be Opened Here One Day A Week

In addition to helping the Future Farmers with their projects, opening seven food conservation courses or canning centers and one shop center, surveying, measuring land, doing some veterinary work, culling, blood testing, and vaccinating chickens, and various other duties similar to those of the county agent, Mr. Dowell, vocational agriculture teacher in Munday announces that he will keep the farm shop at the agriculture department at the school house open one day a week, or as the demand justifies, where people may come and do their repair work.

The school maintains a shop pretty well equipped for metal work, auto mechanics, and wood work and no charge of any kind is made for the use of the shop.

The public, especially farmers, are invited to come to the agriculture department in the old school building on Wednesday each week or to contact Mr. Dowell about their need. People are going to have to do more and more of their own repair work as time goes on and now is a good time to begin. Unlike other teachers the vocational teacher is on duty twelve months of the year and the school authorities invite the people of the community and adjoining communities to come to him for agriculture helps.

Ratliff Moves O. K. Tire Shop To New Location

Don L. Ratliff, owner of the O. K. Rubber Welders, moved his tire shop to the building formerly occupied by the Smitty's Auto Supply the first of this week.

Everything has been conveniently arranged in the new location, and Don L. believes this new arrangement will enable them to turn out work more quickly than before. The building will also offer a cooler place to work during hot weather.

Mr. Ratliff invites the public to visit the shop in its new location.

Keep Up With Rationing

RATION REMINDER

GASOLINE—"A" book coupons No. 6, good for four gallons each, outside the Eastern gasoline shortage area.

SUGAR—Stamp No. 13 good for 5 lbs. through August 15. Coupons No. 15 and 16 are good through October 31 for 5 lbs. each for home canning purposes. Housewives may apply to their local ration boards if necessary.

COFFEE—Stamp No. 24 (1-lb.) is good through June 30.

SHOES—Stamp 18 (1 pair) becomes valid June 16.

MEATS, ETC.—Red Stamps J, K, L, M good through June 30. N becomes valid June 20.

PROCESSED FOOD—Blue stamps K, L, M, continue good through July 7.

Meetings Held For Club People

Eighty-one 4-H Club members attended the ten demonstration meetings that were held through out the county last week by Miss Lucile King and R. O. Dunkle, Extension Agents for Knox county.

Miss King gave a bean canning demonstration to the whole group at each of the meetings. The latest information on canning by the cold pack method was demonstrated when Miss King went through each step of the process in the canning procedure; four pint jars of beans were canned at each meeting.

R. O. Dunkle gave the boys and girls a demonstration in land measurement by the use of the Gunter's Chain, at each meeting the boys and girls measured the school grounds and had actual experience in land measurement. After learning the technique of the Gunter's Chain, each club member could easily figure the acreage in most any plot of land. Many of the club members will help their dad's in determining their cotton acreage this year under the AAA program.

Demonstration Of New Combine To Be Held Here Monday

J. L. Stodghill, who operates the Ford Tractor Agency here, has announced a demonstration of the Ford-Ferguson combine, which will be held next Monday. Place for the demonstration had not been selected Thursday, but information can be secured Monday at the local agency.

This demonstration is being sponsored by Mr. Stodghill and the Bull-Stewart Equipment Co. The sponsors believe many people in the county will be interested in seeing this power take-off combine in operation.

Stanley McCarty Is New Jeweler Here

Stanley McCarty, who was in the jewelry business in Pampa for some time, is now associated with his father, W. W. McCarty, in the McCarty Jewelry here.

This gives the local jewelry two expert watch makers and repairmen on duty, and Mr. McCarty states that the local store is now able to give much quicker service on watch repairing than ever before.

The McCartys have just returned from Dallas, where they purchased merchandise for the local store. They said that they have at present a good line of watches, in Elgins, Gruens and Bulovas.

VEGETABLES WANTED FOR SCHOOL LUNCH ROOM

People who have any kind of vegetables that they are willing to give to the school to be canned for the lunch room are requested to notify Mr. Dowell, Mr. Cunningham, Miss West or Mrs. Wellington as soon as possible. They will have someone call at your place gather the stuff and take it to the school where it will be canned for the lunch room.

BACK TO SERVICE

Everett Gaither, formerly a Munday boy, returned to a San Francisco port recently for immediate shipment back in the Merchant Marines, after a two weeks visit with his wife and son of Goree and with relatives at Munday. Everett is the son of J. W. Gaither of Munday.

Goree Revival Begins July 15

The Church of Christ at Goree will open its summer revival meeting on Thursday night, July 15, it was announced last week.

Bro. Clarence C. Gobel of Tempe, Ariz., will do the preaching. He is a man of deep religious faith and comes highly recommended as a gospel preacher and evangelist. Large crowds are expected to hear him during this meeting.

Bro. Shackelford of Goree will be in charge of the song services for the meeting.

"Everyone is invited to attend, and a lot of good is expected to come as a result of this revival," the church members stated.

Knox County Hospital Notes

Patients in Hospital June 22

G. W. Carter, O'Brien.
A. C. Nichols, Vera.
Mrs. Henry Thompson, Munday.
Mrs. Martha Warren, Munday.
Roy Woodward, O'Brien.
Bessie Aleene Hester, Knox City.
Ben Simpson, Rule.
Freddy Crenshaw, Benjamin.
Mrs. Joe Ed Parsons, and baby Haskell.
Mrs. G. Hicks, Rochester.
Sharon Lisenbee, Overton.
Ernest Kennebrough, Vera.
Earl Callen, Knox City.
Mrs. John Harris, Goree.
Mrs. R. V. Ward, Knox City.

Births

Mr. and Mrs. Joe Ed Parsons, Haskell, a daughter.

Deaths

A. F. McCarty, Rule.
Mrs. Cecil Gonzales, Munday.

Patients Dismissed Since Tuesday, June 15th

Jake Parrot, Throckmorton.
Jackie Robinson, Knox City.
Frances Louise Bales, Knox City.
Joyce Ann Collins, Knox City.
Frank Havran, Munday.
Billy Butler, Munday.
Mrs. Weldon Warren, Munday.
Mrs. Elwood Hackney, Knox City.
Albert Fox, O'Brien.
Mrs. Guy Gambrell, Westover.
Mrs. J. B. Blackburn, Seymour.
Mrs. T. J. Richards, Paducah.
Iva Joy Lemley, Munday.
Sue Yost, Munday.

Mrs. West Home From California Visit

Mrs. I. L. West has returned to her home after a 6-weeks visit in California. While there she visited in the home of her son, B. M. West and family, of Long Beach, and with her daughter, Mrs. Elzie Jackson and family of San Diego. She also attended a reunion at the home of her sister, Mrs. W. F. Turner of Long Beach, at which time she was joined by two other sisters, Mrs. John Hawkins of Coalinga, Calif., and Mrs. L. D. Stockton of Oklahoma City, Okla. This was the first time the group had all been together in 54 years. Mrs. West also visited a nephew, Millard Loftis, while away.

Mrs. Johnson's Home Is Destroyed By Fire

Fire of undetermined origin destroyed the home of Mrs. Edwin K. Johnson in the south part of town last Tuesday morning at about nine o'clock. Mrs. Johnson had just recently moved into town from her farm home.

The home was practically destroyed by the time the local fire department reached the scene, and the house and practically all of the furnishings were a total loss.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Wilburn Loflin are the proud parents of a baby girl, Lola Dee, who was born on Tuesday night, June 22. The child weighed eight pounds and six ounces. Both mother and daughter are reported doing nicely.

Centers To Open For Conservation Of Food For War

Five Food Conservation centers will begin operation in Knox county next week. The Federal Government will pay all expenses of the course including an instructor or person in charge of each center, utilities, and part of the equipment. Local school authorities will furnish building space, while the commissioners court, school, Home Demonstration clubs and other organizations will furnish retorts and cookers.

The centers will be open one or two days a week all summer for people to do their own work and can their own food such as vegetables, fruit and meat. Centers will be opened also at O'Brien and Bomarton in the near future. All seven of the centers will be under the supervision of G. S. Dowell, vocational agriculture teacher at Munday. Shop centers where the government furnished the tools and people do their own repair work are also available. Four such courses were operated in Knox county during the spring and are still available on demand.

Miss Linnie West will be in charge of the center for white people at Munday. Mrs. Smith, at Benjamin, Mrs. Berg, at Truscott, Mrs. Hoffman at Rhineland, Mrs. Bowden at Bomarton, and Mrs. Biddle at O'Brien. Mrs. Wellington (colored) will be in charge of the Munday center for colored people. People are urged to contact one of these women or Mr. Dowell in regard to their needs. Every can of food put up at one of these centers means another can for the allied war cause. Some of the schools are furnishing labor to do canning at these centers for the school lunch rooms. People who take advantage of the opportunity will find everything they need to work with from retorts, pressure cookers and cooling vats to paring knives, dish towels, scowering powder, and brooms to work with. All they need do is bring vegetables, fruit, meats, etc., can it and take it home. One family has already announced their intentions of canning fifty young chickens, another intends to can a calf, and many will can vegetables and fruit.

Mrs. H. Jungman Is Painfully Burned In Home Accident

Mrs. Herman Jungman was painfully burned in an accident which occurred at her home Wednesday afternoon. She was cleaning some clothes with gasoline, when the fluid caught fire, badly burning her hands and arms.

Eddie Johnson was reading water meters nearby and heard Mrs. Jungman scream. He rushed to the home, but Mrs. Jungman had extinguished the flames on her body when he arrived. Eddie turned in the fire alarm, but had the flames under control when firemen reached the scene. The fire did slight damage to the Jungman home, and the clothes which were being cleaned were destroyed.

Mrs. Jungman's burns were treated by a local physician, and she is reported to be resting nicely.

Transportation Fund For Schools Arrives

County Supt. Merick McGaughey announced last week that the county schools have received the second half of transportation money due from the state for the school year, 1942-43.

The First National Bank of Munday received a warrant for \$2,870.00 as the balance due Knox county on a total of \$10,606.00. Two other payments were received in October and December, amounting to \$2,868.00 each.

POTATOES PRODUCE TENFOLD IN MUNDAY

E. Beecher, well known Munday resident, had Irish potatoes for sale last week. These were a part of his 1943 crop which grew here in Munday, and Mr. Beecher said it's just to show that Knox county is trying to produce her part in the food for victory program.

Beecher reaped 1-4 pounds of potatoes from one vine, and the others produced equally as well. From 100 pounds of seed potatoes, he expected to harvest fully 1000 pounds.

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"

A NATIONAL RESPONSIBILITY

The Lea-Bailey Bill now before Congress is a subject of debate because it involves the basic principle of Federal control versus local control, in this instance of the commercial airlines. During these days when a battle against bureaucracy is being waged to save representative government, expansion of Federal control is looked upon with skepticism. However, there are situations which require Federal jurisdiction, when states' rights are properly safeguarded. Regulation of the commercial airlines is an example. Among other things, the Lea-Bailey Bill would standardize air traffic rules and safety regulations, such as Federal supervision applies to shipping on our navigable waters.

Typical of the sentiment in favor of the bill is the comment of Representative Lyle H. Buren of Oklahoma: "In most fields of activity both states and nations have an appropriate role to play in their respective spheres. I, for one, believe that in recent years there has been a tendency dangerously to overlook the constructive role which can and should be played by the states respecting many of the great problems of our democracy. But our long history has demonstrated, sometimes after costly and ill-advised experimentation, that there are some fields in which the nation must carry out full responsibility."

The Lea-Bailey Bill apparently recognizes the principle of states' rights and leaves room for state activities in the development and control of aviation. Sound integrated regulation of the airlines appears essential to their progress and public safety, but it must be accomplished with due regard to existing property rights of others.

A DEAD ERA

In reply to the claims of the food industry that dollars and cents ceilings are in many cases forcing merchants to sell goods below cost and in general threaten the stability of the industry, OPA has pointed out that the stores made ample profits in 1942. Such a reply merely lends weight to the contention of retailers because it does not apply in any respect to current merchandising realities.

During most of 1942, retailers in all lines operated in a free competitive market. Today they are operating in a controlled market where prices are set by decree. Profits of one day alternate with losses the next, depending on orders issued in Washington. The merchant is helpless. The most that he can do is ask for adjustment of prices that will permit him to remain in business. Food retailers have done just that. Tomorrow the clothing distributors may be in the same boat. To correct an intolerable price situation the OPA will have to do much more than talk about profits of a dead era.

ANOTHER SNEAK ATTACK

The well planned closing of the nation's coal mines while United Mine Workers' demands were in process of negotiation, is on a par with the Japanese sneak attack on Pearl Harbor.

Words cannot express the contempt of the American people for individuals who are parties to such treachery, and who refuse to work while our soldiers die.

Let us hope that Congress will at last assert its authority and enact legislation providing controls for organized mutiny which endangers public safety for personal gain.

If the enemy had bombed our coal mines, the work stoppage would not have been as complete as when the United Mine Workers deserted their posts. Therefore their action is the equivalent of an enemy attack on this nation.

STRENGTHEN ISLAND TERRITORIES

How many persons know that the island of Puerto Rico, a guardian for the Panama Canal and our eastern seacoast, is a territory of the United States, represented in Congress by Hon. Bolivar Pagan, resident commissioner for Puerto Rico? Our far flung outposts should loom larger in the minds of all of us since our experience on Attu.

Commissioner Pagan has spoken before our House of Representatives urging a study of the political, economic and social conditions in Puerto Rico. He says it would be helpful to Congress and to the Puerto Rican and continental American people.

This is no time to neglect our territories or to countenance political policies therein contrary to the best interests of our republic. Instead, every endeavor should be made to develop such territories and help them become states in our Union.

WILL PRICE FIXERS LEARN?

Will we next see a disastrous oil shortage because our economic planners again try to go counter to the laws of nature?

Oil men state that we are using up our known oil supplies much more rapidly than we are discovering new ones. Wildcating for oil must precede refined oil products. To promote wildcating, ceiling prices on crude oil must cover increased cost of labor, supplies and taxes, and allow a profit, or no new wells will be found to offset those being exhausted.

The same policy is for government to encourage the exploration and development of our oil resources. We face disaster from any other course.

"THE INITIATIVE IS OURS"

During his recent baccalaureate address at the Valley Forge Military Academy, Major General Lucius D. Clay disclosed that American war production for the Army during May exceeded \$1,600,000,000 and is increasing at the rate of \$1,000,000,000 a month.

Comparing present production with that of the first World War, General Clay said that machine-gun output trebled the 1918 peak and that small-arms output was 8 times higher. Seventy-five-mm. gun production was twelvefold greater than during World War I, and artillery ammunition seven times above the peak. He added that the increases were accomplished without sacrificing quality.

"We receive constant reports from every battle theatre with respect to the quality of our weapons," General Clay declared, "and changes are made as rapidly as the need is indicated and as production will permit. The resourcefulness and flexibility of American production are such that these changes can be made more rapidly here than anywhere else in the world."

"We are ready for the offensive action necessary to win the ultimate decision—the initiative is ours," he said.

NEW EMERGENCY BUREAU

Latest in the long list of government agencies is the new Committee for Congested Production Areas, headed by Corrington C. Gill.

The agency, ushered in without fanfare, is given wide discretion and authority, particularly to assure "the more effective handling of governmental problems."

There has been no publicity concerning the new bureau, no statement concerning its program, activities, or objectives. And, as many Congressmen have pointed out, it can be expanded into one of the most formidable Federal emergency bodies. Its director can decide what are governmental problems and which are the congested industrial areas. It is said that in the "congested areas" the Committee will concentrate on problems such as transportation, food supply, schools, health, recreation, and fuel.

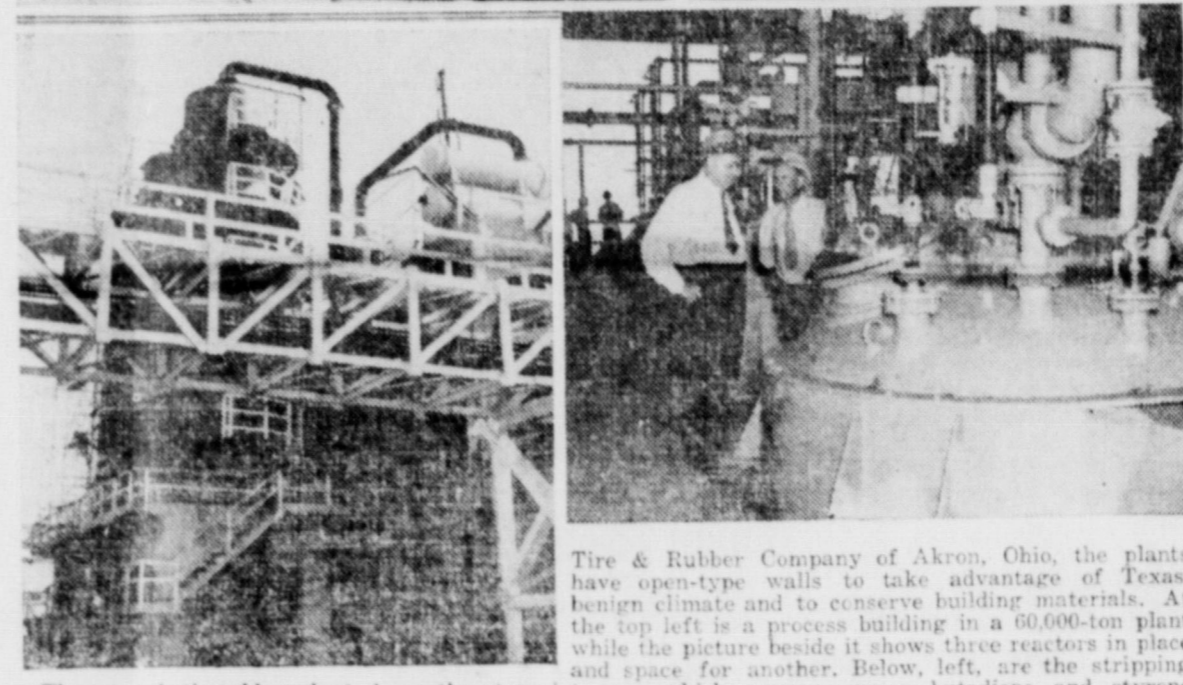

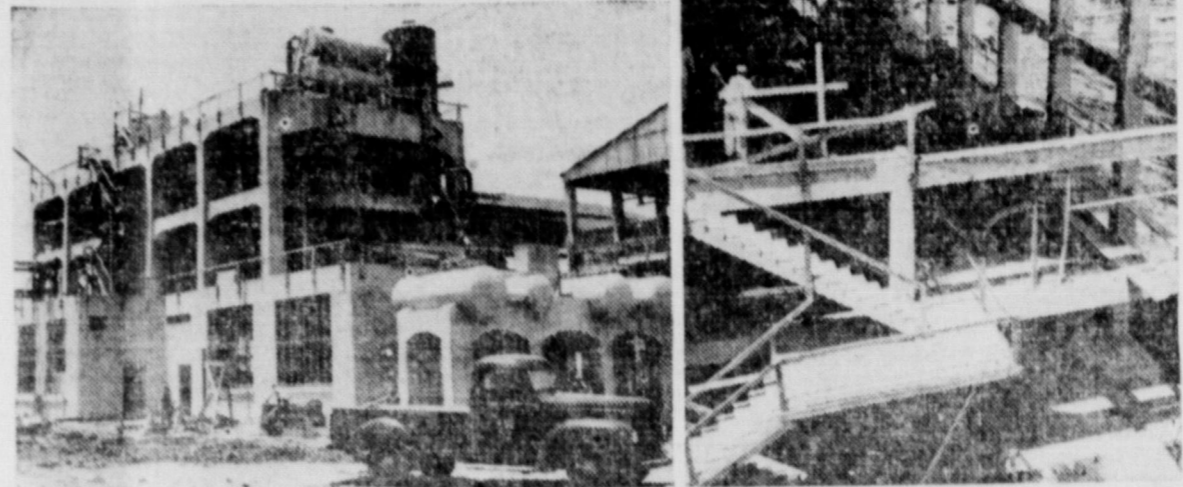

But what it will do about these problems as well as many others, and how it will affect the nation's manufacturers is not known by Congress.

As it would seem that this new agency, as well as many others now under Congressional investigation, needs airing the Smith Committee in the House is planning to look into its purposes and objectives.

"There must be no special privilege in America and the sooner all groups recognize the obligation of government to all the people and stop concentrating exclusively on their own selfish wants, the earlier a new era of good feeling will usher in an abundance and a prosperity in which vast social gains will be automatic instead of synthetic. We must not have an ersatz progress for America. It must be the real thing."—Emil Schram.

TEXAS SYNTHETIC RUBBER PLANTS NEAR COMPLETION

First Construction Photographs In State's Newest Industry

These synthetic rubber plants in southeastern Texas, nearing completion and scheduled to start production this summer, are the first in Texas' newest industry. Built by the Goodyear Tire & Rubber Company of Akron, Ohio, the plants have open-type walls to take advantage of Texas' benign climate and to conserve building materials. At the top left is a process building in a 60,000-ton plant while the picture beside it shows three reactors in place and space for another. Below, left, are the stripping towers which remove excess butadiene and styrene from the latex while beside it, is a picture of Glenn A. Barber (white shirt), project manager for one of the plants, examining a reactor with an employee.

Gems Of Thought

BLESSINGS

To an honest mind, the best prerequisites of a place are the advantages it gives for doing good.—Addison.

If we find the job where we can be of use, we are hitched to the star of the world and move with it.—Richard Cabot.

Beautiful is the activity which works for good, and beautiful the stillness which waits for good; blessed the self-sacrifice of one.

and blessed the self-forgetfulness of the other.—Collyer.

What has not unselfed love achieved for the race? All that ever was accomplished, and more than history has yet recorded—Mary Baker Eddy.

Times of general calamity and confusion have ever been productive of the greatest minds. The purest ore is produced from the hottest furnace, and the brightest thunderbolt from the darkest storm.—Colton.

Blessings are upon the head of the just.—Proverbs 10:6.

Mr. and Mrs. Floyd Jetton of Fort Worth were guests of the former's parents, Mr. and Mrs. F. E. Jetton, the past week.

Mr. and Mrs. G. K. Fladger and daughter, Marion Alice, of Honey Grove, were guests of Mr. and Mrs. T. G. Bengue over the week end. Mr. Fladger is publisher of the Honey Grove Signal-Citizen. Mrs. Fladger and Mrs. Bengue are sisters.

Mrs. Mattie Jetton of San Antonio, Mrs. Bertha Williams of Dallas, and Mrs. M. K. Brown of Fort Worth are guests of their sister, Mrs. F. E. Jetton this week.

Miss Patsy Ruth Kirk visited with relatives in Princeton several days last week.

H. D. Warren of Fort Worth spent the week end here attending the bedside of his mother, Mrs. Martha Warren.

Canada Develops Training Table For Her Air Men

THE ROYAL CANADIAN AIR FORCE has raised cooking to a new plane and what was once considered an art reserved for mothers and chefs has become a highly developed science.

The revolution in mass-feeding was achieved recently when the Royal Canadian Air Force adapted the modern science of nutrition to the development of a fighting and flying force, and recognized the importance of diet and eating habits to its efficiency. To accomplish this, the Royal Canadian Air Force has made marked changes in military feeding methods. Medical men were invited to recommend a basic ration, then dietitians were put in charge of airforce kitchens across Canada as messing officers.

This was the first time in the annals of modern warfare that women had looked after the cooking arrangements for a fighting force. The job of preparing varied diets within the basic ration was handed over to them, and a test kitchen was created to assist them in evolving the tastiest and most nutritious recipes. Nutrition laboratories were set up to test the meals served at the different stations.

Dietitians were drawn from restaurants, hotels and hospitals to supervise the feeding problems of the Royal Canadian Air Force. They plan the menus and instruct the cooks in the best methods of preparing and conserving food.

A survey of the food habits at representative Air Force stations showed 33 percent of the personnel didn't drink all the grapefruit juice in their ration. Others didn't drink enough milk or eat cheese, yet these were the very foods that were needed as a source of calcium and many of the vitamins essential for sound teeth and bone structure.

A color movie, called "Training Table" was created by the Royal Canadian Air Force medical branch to educate personnel in proper eating habits. The film explains how proteins repair the body as mechanics repair damaged aircraft, and how pilots who finish a flight in bright weather with tired and watery eyes often suffer from a lack of riboflavin.

That's no dessert spoon being wielded by the young lady—and it's no quart size pot she's cooking in. This young lady has learned how to prepare food in large quantities for Canada's air force, working with equipment like this. Quantity recipes are carefully developed and tested in the kitchens at the R.C.A.F. School of Cookery.

To prepare and serve the best and most nutritious food possible is the aim of R.C.A.F. dietitians, and to assist them in their work, laboratories are established throughout Canada. Here (above left) a member of the R.C.A.F. Women's Division is working in one of the nutrition laboratories.

Science has come to the aid of cooks in R.C.A.F. kitchens and through laboratory tests, proper cooking methods are determined. (Above right) A member of the Women's Division is seen working in the laboratory testing raw vegetables to determine the vitamin count. Analyses like these have determined, for instance, that cabbage can lose as much as 90% of its Vitamin C if cooked too long and in too much water.

The aim of the Royal Canadian Air Force is to provide the best in food. "That men may fly" and through scientific methods and intensive training they have rapidly reached their objective. Today the Air Force can rightfully claim to be one of the best fed services.

Legal Notice

Citation By Publication of Final Account THE STATE OF TEXAS

To the Sheriff or any Constable of Knox County Greeting: Hollis B. Douglas, of the Estate of Mary Munday, deceased, having filed in our County Court his Final Account of the condition of the Estate of said Mary Munday, deceased, numbered 573 on the Probate Docket of Knox County, together with an application to be discharged from said Administration.

YOU ARE HEREBY COMMANDED, That by publication of this writ not less than ten days, before the return day hereof in a Newspaper printed in the County of Knox, you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same if they see proper so to do, on Monday, the 5th day of July, 1943, at the Court House of said County, in Benjamin, Texas, when said Account and Application will be acted upon by said Court.

Given under my hand and seal of said Court, at my office in the City of Benjamin, this 21st day of June A. D. 1943.

M. T. CHAMBERLAIN, Clerk County Court, Knox County, A TRUE COPY, I CERTIFY: L. C. FLOYD, Sheriff Knox County.

Miss Leona Keel left on Wednesday for Baytown, Texas, where she is spending her vacation visiting with her sister, Mrs. Jimmie Frazier.

J. B. Jones of Benjamin and Mrs. Lee Myers of Dallas are visiting in the home of Mr. and Mrs. Jess Burnison this week.

UNITED STATES DEPARTMENT OF AGRICULTURE

AAA NEWS

By MARVIN ALLEN, Administrative Officer
Knox County Agricultural Conservation Association

This Year's Method of Checking Performance Proves Successful
Judging from the amount of Performance work completed in Knox county last week—proves that the operators have accepted the responsibility of reporting performance on their individual farms. Also judging from the spot check reports which are being made by employees of this office, indicate that producers are also making some very accurate measurements on their cotton acreage and some very close estimates on their acreage planted to grain sorghum and war crops, and the extent of production practices carried out.

Official notices to report measurements to the Community Committeemen at the AAA office are being mailed to as many individual operators each day as we figure we can possibly take care of, therefore, may we request the continued cooperation of all producers in reporting their measurements to the AAA office on the date requested. The response of Knox county producers to our request to report their 1943 performance

promptly and accurately is indeed gratifying. In fact, cooperation of the entire citizenship of Knox county with the AAA program is splendid and is indeed appreciated by the personnel of the AAA office and the administrators of the AAA program in Knox county.

AAA Program

The contention of some critics that the AAA program is a program of scarcity is exploded in the face of facts. The AAA program has never been one of scarcity and it never will be. It is a program of adjustment, a proper balance between production and demand.

It is a popular belief that during the decade from 1923-32, when crop surpluses piled high and prices were ruinously low, that American farmers had reached their peak of production. This is not the case.

On the contrary, total agricultural production under the AAA program during the past 10 years has averaged 5.6 percent above production during the preceding 10 years. More startling, however, is the production from 1937-42, when the present farm program came into existence.

It is a significant comparison because it was in 1936, after the Supreme Court nullified some provisions of the AAA act, that the

Figure It Out Yourself. How can you effectively join in saving all the little children of the world from human slavery, death and injury from the Nazis and Japanese? Put more and more of your pay into war bonds every payday. Your savings will go to war in the form of war equipment and other munitions. How much more should you put into war bonds? The only ones who can answer that are—you and your family. It's up to you to decide just how much more you'll do to win the war.

If you were fighting in the Solomons or in Africa or forcing a landing in Europe you'd like to feel that the folks at home were back of you—all the way—you'd be proud of your family and your friends if you knew they were buying war bonds not at 10 per cent or 15 per cent, but with every cent beyond that which they need for necessities.

U. S. Treasury Department

present farm program, which stresses soil conservation, came into being. During the six years (1937-42), total agricultural pro-

duction has averaged 12.6 percent greater than during the 10 years (1923-32), when there was no farm program.

Increases in food production have been larger than increases in total agricultural production. During 1942, production of food was 28 percent larger than in any year prior to the AAA program, and it was 42 percent larger than in the World War I year of 1918.

As a matter of fact, American people during the past two years, ate better than ever before. They consumed 8 percent more food per person during 1941 and 1942 than they did during the boom years of 1928 and 1929.

The fact that some food commodities are being rationed does not mean farmers have not produced. The records prove they have. People have more money to spend on food than they have had in many years; therefore, consumer demand has quickly exceeded the amounts available for civilians.

The demand of our armed forces and our Allies also has increased. For these reasons, American civilians will not be able to eat as much of certain kinds of foods this year as they would like, but they will eat as well as they did from 1935 to 1939.

We now are drafting plans for the 1944 farm program. Further adjustments will be made to fit wartime needs... adjustments from less essential to more essential crops. It also must be a program under which farmers will be given opportunity to carry out more conservation practices, which keep the soil in good repair to meet production needs of the present and the future.

Medical Center Opens in Dallas

DR. DONALD SLAUGHTER

Registration of summer classes of the Southwestern Medical Foundation, starting Monday, will continue through two weeks up to the opening of the new medical school in Dallas, July 1. According to Dr. Donald Slaughter, dean of the medical school, most classes are full. A \$1,500,000 fund-raising campaign is now in process to build and equip a \$25,000,000 project and is to render service to more than 14,000-000 people in the Southwest.

GOOD NEIGHBOR POLICY FOR FOOD

COLLEGE STATION—It's a custom in rural communities when a home is destroyed by fire or flood for neighbors to come to the assistance of the family, regardless of whether the folks are well-liked in the community. This same type of assistance must be given to starved and impoverished nations at the end of the war, whether they are on "our side" or lined up with the Axis, believes Jennie Camp, specialist in home production planning for the A. and M. College Extension Service.

In a recent talk to several hundred home demonstration club women Miss Camp pictured the near-starvation existence of people in Axis-held territories. In April, 1942, the Society of Friends reported that the French rations allowed by the Germans totaled 1116 calories per day. About 1250 calories per day are required for a man to exist over a protracted period, and 2500 to 3000 are required for a man to live at normal activity, she explains.

"Establishing an enlightened world policy with reference to food will mean that we will plan and produce the food needed for a good diet for every body in the world," Miss Camp says. "If the United States is to overcome its dietary deficiencies, we will have to produce and consume 10 to 20 per cent more milk, 10 to 25 per cent more butter, 25 to 70 per cent more citrus and tomatoes, 100 per cent more green and yellow vegetables than were produced and consumed in the late 1930's."

She urged the club women to keep informed and help their neighbors keep informed on the food situation and the need for increased production, to abide patriotically by the rationing programs, to continue their efforts toward maximum production and save all they produce, to support sound legislation affecting food, and to promote educational activities on the intelligent use of food.

L. B. and Wayne Patterson, who are in the U. S. Coast Guard and stationed in Florida, came in last week on a furlough and are visiting their parents, Mr. and Mrs. L. B. Patterson, and other relatives and friends.

Mr. and Mrs. W. W. McCarty and Stanley McCarty spent the first of this week in Dallas, where they purchased new merchandise for the McCarty Jewelry here.

Mrs. Tom Wood left Monday for Abilene for several days visit with relatives.

LABOR-SAVING HINTS FOR FARMERS

SCHENECTADY, N. Y.—Hints of how the farm labor shortage problem may be attacked "by using the labor you have as efficiently as possible" were given by J. E. Carrigan, dean of the College of Agriculture at the University of Vermont, Burlington, in a General Electric Farm Forum address here.

Here are some suggestions Dean Carrigan has for farmers:

Watch your neighbors. Each one of your neighbors is probably doing something more efficiently than you.

Plan ahead, figuring how to get things done before necessity compels them to be done.

Have important things to do, ready and waiting for the next rainy day.

Keep needed machinery and equipment in repair.

Borrow and lend out to neighbors.

Exchange not only tools and machinery, but exchange work also.

Use tractors and other power equipment on a constant basis.

Use make-shift machinery, such as "doodle bug" tractors, made from old cars.

Arrange barns and use labor-

saving devices to cut the time of doing chores and other work.

Miss Toby Baird left last Sunday for her home in Tuscola, Miss Baird, teacher in the local schools last year, had been working at the Baker-McCarty store since the closing of school.

Mr. and Mrs. J. C. Nelson of Dallas spent the week end here with Mr. Nelson's parents, Mr. and Mrs. J. R. Nelson and with other relatives.

Harmon Sessions, who is attending summer school at Texas A. and M. College, spent the week end here with his mother, Mrs. Prudence Sessions, and with other relatives.

Mrs. J. C. Ledbetter and son, Bennie, of Fort Worth visited relatives and friends here over the week end. Bennie remained for a longer visit with his grandmother, Mrs. W. S. Ledbetter.

Mrs. J. W. Barrington and children of Throckmorton were visitors here last Saturday.

Bernice Henderson, Sgt. Ozment Are Wed At Olton

A marriage of interest to their many friends was that of Miss Bernice Henderson, daughter of Mr. and Mrs. J. W. Henderson of Lubbock, to Staff Sgt. Willie O. Ozment, son of Mrs. Ruby Ozment of Olton, on Monday, June 14, at 7:30 p. m.

The single ring ceremony was read by Rev. C. C. Griffith, minister of the Olton Baptist church, in his home. Only attendants were close friends and relatives.

The bride wore an air force blue linen suit with British tan and white accessories, and a corsage of blue forget-me-nots. She is a graduate of Olton high school, and was employed at Mark Halsey's drug store prior to her marriage.

Sgt. Ozment is also a graduate of Olton high school, and enlisted in the air forces a year ago, serving as radio technician. He was formerly stationed at Biggs Field, El Paso, and is on an 8-day furlough before being transferred to Topeka, Kans.

The many friends of the couple at Munday, Olton and Lubbock wish them a happy and prosperous married life.

Knox City Girl In Special Work At TSCW, Denton

DENTON — Operating a home successfully on a reduced income will be a simple matter to a group of students enrolled in a Clothing Renovation and Repair course in the Home Economics department of the Texas State College for Women. A member of this course is Miss DeAlva Hammons of Knox City, daughter of Mr. and Mrs. G. W. Hammons.

War-time budgets and war-time restrictions on quantity and quality of materials are the primary concerns of students in the class, who are taught to be economical, ingenious and artistic with old garments and materials on hand.

Miss Hammons is completing her first project in the course. She is remodeling a circular skirt of a gingham dress by streamlining it into a becoming, up-to-date frock by making a six-gore skirt. She is also taking a course in Home Decorating and one in Home Management.

In addition to clothing renovation, students in the class are learning darning, patching, mending, and other kinds of repair processes.

FURLOUGH BRIDE

FOR an informal furlough wedding, you'll want a simple dress, but one that you can treasure always because it's beautifully made. This one is a soft rayon crepe suit dress with wide lace insertions around the bodice and sleeves. Wise brides, today, are buying their trousseaus for wearing qualities as well as for eye appeal. Your best guide is to look for labels that show that fabrics have passed tests that predict their performance in use.

Two County Men Awarded Medals In Rifle Shooting

The medal of marksman in rifle shooting is now being worn by Pvt. John V. Thornton, Jr., of Goree, and Pvt. Garland Screws of Knox City because of their accuracy on the range at the West Coast Training Center at Santa Anita, Calif.

Ordinance soldiers are classified as noncombatants, but the nature of modern warfare demands that every man know to defend himself against attack. Although these men have as their main jobs the servicing of the line with the weapons, ammunition, and the vehicles of war, they will now be able to fight the enemy wherever he will be met.

In compiling the score that enables the Knox county boys to wear medals of marksmen, they fired for record from four positions, standing, sitting, kneeling and prone. Half of their record shooting was done at slow fire, and half at rapid fire.

Pvt. Thornton is the son of Mr. and Mrs. Van Thornton of Goree, and attended Goree high school. In civilian life he was employed by his father on the farm.

Pvt. Screws is the son of Mr. and Mrs. J. A. Screws of route one, Knox City. He attended the Sunset high school and was also engaged in farming in civilian life.

TO PASTOR'S SCHOOL

Rev. R. L. Kirk, Methodist pastor, is in Dallas this week where he is attending the Methodist pastor's school being held at Southern Methodist University. Mrs. Kirk and children are visiting relatives in Princeton.

County Agent R. O. Dunkle of Benjamin was a business visitor here last Friday.

Pvt. Alonzo Cartwright of Camp Wolters, spent Father's Day with his parents, Mr. and Mrs. Louis Cartwright. Alonzo is with the Air Corps.

Mrs. D. R. Sullivan and Mr. and Mrs. J. E. Jernigan of Vera were business visitors here Wednesday.

Tommy Ratliff Honored Saturday On His Birthday

Saturday, Juneteenth, was a very busy day for Tommy Ratliff, son of Mr. and Mrs. Don L. Ratliff, who celebrated his fourth birthday. His mother honored him with a birthday party given at the family home.

Tommy and his little guests were very busy all afternoon, playing entertaining games. Cake and punch were served to the following:

Gayle Littlefield, Lee Ann Green, Melica Ann Lee, Ida Jo Jungman, Sammie Sue Bates, Dian and Carolyn Hobert, Carmon Lee Haynes of Huntington Park, Calif.; Jo Ann Duke, Tommy West, Wayne and Waymond Smith, Gary Deaton Greene, Charles Ratliff, Gean Roland Haynie and the honoree, Tommy Ratliff.

LOCALS

Mrs. L. C. Floyd and daughter, Bobby, returned the latter part of last week after a visit with Mr. and Mrs. D. V. Hutehesson and daughters and Mr. and Mrs. H. D. Hedizer and daughters of San Antonio, and Houston, Texas.

Mrs. C. S. Ameen and children of Lubbock came in last week for several weeks visit with Mrs. Ameen's daughter, Mrs. Sied Wood, and her family.

Mr. and Mrs. Tom Haney and family of Wichita Falls visited with Tom's parents, Mr. and Mrs. G. W. Haney, and with friends here last Sunday.

Miss Mildred Stengel spent the week end in Fort Worth visiting with her sisters, Misses Ethel and Bertha Stengel.

Among real estate transactions reported this week was the sale of the Stodghill estate in Munday. J. L. Stodghill purchased the building where his Ford tractor agency is located, and O. V. Milstead has purchased the Stodghill residence in the south part of town.

County Judge and Mrs. J. C. Patterson of Benjamin were here Tuesday, visiting with friends and attending to business matters.

Miss Eva Ruth Thompson of Wichita Falls spent last week end with her parents, Mr. and Mrs. T. L. Thompson.

Betty Crocker KITCHEN CLINIC

Prepared for Your Newspaper by Betty Crocker Home Service Department

GOOD NEWS ABOUT CAKES!

Has it ever occurred to you that with all the wonderful modern stream-lined methods that have been evolved for making our cooking and housework easier, we still have been mixing cakes in much the same way women mixed them in the days of Queen Elizabeth or Martha Washington?

A New Quick Way At Last!

Well here is good news from the cake-making front. There's a brand new Four-Minute Method for mixing cakes that requires only a mixing bowl—a spoon (or electric beater) and your cake pans! No extra bowl for beating the eggs—no long monotonous creaming of the shortening and sugar. Best of all this new method will give you the lightest, fluffiest, finest, most delicious-tasting cakes you could ever dream of making. For many months my staff and I have been perfecting this new method. And hundreds of women have also made these cakes in their homes.

Must Use New Recipes With New Method

But remember—you cannot use your old cake recipes with this new method! You must use the new recipes that go with it. You see the formula has had to be changed—so the proportions of ingredients are different from what you've had in your cakes before. Literally hundreds of cakes have been made by this new method to develop perfect formulas that will give the very best possible results.

Here is one of these new Four-Minute Method Cake recipes. But first I want you to look over these general hints for all cake baking. They are vitally important to the success of this new method.

GENERAL HINTS FOR ALL CAKE BAKING

1. Set out all ingredients before mixing (1 to 2 hours before, or shorter time in hot weather) so they will be at room temperature. Shortening and butter should not be soft, not melted.
2. Turn on oven so it will be at the right baking temperature when the cake is ready to put in the oven.
3. Prepare pans according to recipes.
4. Sift cake flour before measuring.

GOLDEN LAYER CAKE

- | | |
|---------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|
| 2 1/2 cups SIFTED cake flour | 1/2 cup shortening (high grade vegetable shortening, using part butter for flavor) |
| 2 tsp. double action baking powder — or 3 1/4 tsp. phosphate baking powder — or 4 tsp. tartrate baking powder | 1 cup milk |
| 1 tsp. salt | 1 tsp. vanilla |
| 1 1/2 cups sugar | 2 large Grade A eggs |

See General Hints before starting to mix. Grease and flour two 9-inch round layer cake pans.

Measure sifted flour, baking powder, salt and sugar into sifter, and sift together into mixing bowl. Measure shortening and milk. Measure vanilla into milk. Add soft shortening and 2/3 of the milk to dry ingredients. Mix with electric mixer on slow to medium speed (or beat with a spoon for 2 minutes by the clock). During mixing scrape batter from sides and bottom of bowl frequently. (If mixing by hand you can let the batter stand while you rest a moment, but be sure the total mixing time is as specified.)

Add remaining milk and the eggs (unbeaten). Continue mixing 2 more minutes by the clock. Scrape batter from bottom and sides of bowl frequently. The total mixing time is 4 minutes. The batter will be thin enough to pour easily.

Pour into prepared pans. Bake in a moderate oven, 350°, for about 30 minutes. Remove from oven, let layers stand in pan a moment; then turn onto wire cake-cooling rack. As soon as layers are thoroughly cool, frost as desired.

CHARLIE VOSS GROWS CROP OF SOY BEANS

Charlie Voss was in town one day last week, exhibiting a well loaded vine of soy beans which grew at his place in Munday. Mr. Voss stated he ordered the seed after seeing the advertised "just

to try them out." From the looks of the crop on the vine he was showing last week, the experiment is proving successful.

Mrs. J. W. Roberts returned home on Thursday of last week after visiting relatives in Haskell for several days.

At The Churches

Worship Hour—song service 9:00 P. M.
Sermon 9:15 P. M.
Benediction 10:00 P. M.

Minister Collins will have as his sermon text next Sunday morning: "Who Is On the Lord's Side." Ex. 32:26.

Sunday night at nine o'clock his sermon theme will be: "The Only Road to Happiness."

The church is enjoying the best work and development that it has had for years and many members say that it is the best that they have ever had. Every Lord's Day brings new faces into the congregation and it would be good for you and pleasing to the Lord if you would be among the number next Sunday. Come and bring your friends. They are all welcome.

PRESBYTERIAN CHURCH

Dr. William N. Sholl of Haskell preaches here each Sunday morning at 9:30 a. m.

Our church is located on the Main street of Munday and has an attractive auditorium with added Sunday school facilities. The Auxiliary meets on Mondays and is accomplishing a good work. All Presbyterians living in Munday and surrounding country are urgently invited to attend our services. A very hearty invitation is extended to all visitors, especially those who have no regular church home.

GOREE FUNDAMENTALIST BAPTIST CHURCH

C. H. Mullins has accepted the call as pastor of our church and will move to Goree in the near future.

There will be preaching next Sunday, both morning and evening. Those not attending services in other churches will receive a hearty welcome if they worship with us.

Bible study and prayer service each Tuesday at four o'clock. This is for everyone in our community. Six were there last Tuesday, and we expect more at our next meeting.

Mrs. Carl Tyree of Amarillo is here this week for a visit with her parents, Mr. and Mrs. J. R. Nelson, and with other relatives.

Mrs. Boyd Moore and baby, Linda Kay, left by train Wednesday morning for Lincoln, Neb. to visit their husband and father who is stationed there in service.

Then he yells -
'BOMBS AWAY!'

What boy wouldn't like to just sit in a flying fortress! And to fly it... well, this pilot ranks with Superman!

One look at the instrument panel and you feel the same way. It's hard to believe that ordinary mortals could ever master the maze of dials, buttons, levers and switches required to fly and fight a 30-ton bomber.

But a lot of West Texas boys are doing it with deadly efficiency. (Ask Adolf, Benito or Tojo.) And they don't learn their jobs just by reading a book. It takes intensive training and practical experience to produce the bomber teams who risk their lives together.

The electric business is like that. You can't make kilowatt-hours with theories. You've got to learn how—the hard way.

That's the way most of the men and women with us

got their start. It's the American way. Do a better job—and you get better jobs to do.

It's the system of free enterprise. It's simple—but it works.

It works so well that America's big peacetime industries became great war machines overnight.

It works so well that America's electric companies, under business management, were able to supply war plants with far more electric power than any nation has ever known before in addition to normal peacetime needs.

They're doing the job without rationing—and without increased cost to you!

It works so well that we're winning the war in spite of socialistic bureaucracies. But to hasten the day of victory, the bureaucrats must concentrate on the war and desist from their plans to permanently change our system of government by which America stands to lose its freedom at home.

Mr. and Mrs. A. M. Moore and Mr. and Mrs. Paul Tankersley and sons, Ronald and Donald, visited their daughter and sister in Fort Worth over the week end.

Mrs. Ray Howard and little son, Terry Zack, of Midland are visiting Mrs. Howard's mother, Mrs. Ben Guinn, and other relatives here this week.

James W. McMorris and his little nephew of Stanton, Texas, were here Tuesday and Wednesday, visiting with friends and attending to business matters.

Mr. and Mrs. Earl Sams of Benjamin were business visitors here on Wednesday.

Mrs. Della Hambrick spent the week end in Fort Worth and Dallas, visiting with relatives and attending to business matters.

Mrs. Wade Mouse and Mrs. Byron House of Benjamin were business visitors here last Monday.

Lieut. Neil Swilling of Camp Swift, Texas, spent the week end here, visiting with her aunt, Miss Elizabeth Mounce. Lieut. Swilling expects to leave as a nurse in foreign service within the near future.

Mrs. Troy Warren spent the week end in Dallas, where she met her husband, who is in the service at Orlando, Fla. They came on to Monday for a visit with their parents, Mr. and Mrs. Sam Warren, and Mr. and Mrs. U. S. Rogers. Mr. Warren is on a furlough.

Mr. and Mrs. Joe McGraw, Jr., and little daughter, who have been residing in Wichita Falls, came in last Monday for a visit with relatives and friends. Joe will leave next Tuesday for induction into the service.

Employees of the local office of West Texas Utilities Co. who attended the annual company picnic at Quanah last Friday night were Miss Bonnie Jane Roberts, Mr. and Mrs. Forrest Yancy and W. E. Reynolds and children, Martha Ann and Don. The Monday group presented a stunt at the picnic.

Mr. and Mrs. A. H. Mitchell spent the week end in Abilene and Baird, visiting with relatives.

Miss Dorothy Campbell of Abilene visited her parents, Mr. and Mrs. J. C. Campbell and other relatives here over the week end.

Mrs. Jimmie Frazier returned to her home in Baytown on Wednesday after several days visit here with her parents, Mr. and Mrs. J. J. Keel and other relatives.

Mrs. Douglas Doshier, Mrs. Marvin Allen and Miss Grace Bisbee, all of Benjamin, were business visitors here last Friday.

Mr. and Mrs. Joe Duke and daughter, Joan, and Mr. and Mrs. A. B. Warren, all of Oakland, Calif., came in the latter part of last week to attend the bedside of Mr. Warren's mother, Mrs. Martha Warren. They are also visiting relatives and friends here.

Documents Of Sam Houston Are Being Printed

AUSTIN — Printed for the first time are some 150 or 200 documents signed by the famous Texas hero, Sam Houston, in an eight-volume work edited by two University of Texas historians.

The eighth and last volume of this series, which is entitled The Writings of Sam Houston, has been completed and sent to the press by the editors, Dr. E. C. Barker, professor of history, and Dr. Amelia W. Williams, editorial assistant.

The entire work embraces some 4,500 pages of manuscripts and documents covering Houston's entire career from a young U. S. Army lieutenant serving with Andrew Jackson to his last fight as governor of Texas to prevent this state's secession from the Union and entry into the Civil war on the side of the Confederacy.

placently the more than 30,000 deaths annually due to home accident. These deaths, chargeable to remediable carelessness, can and should be reduced."

Dr. Cox declared that such a needless and profitless loss of life should be deplored at any time, but to permit such a condition to persist in 1943, in view of our national crisis, is a neglect that cannot be condoned, and one which can seriously cripple our war effort.

Miss Mary Jo Burroughs of Abilene visited in the home of Mr. and Mrs. J. O. Bowden several days last week.

Mrs. C. D. Hopkins and Mrs. C. R. Haymes of Stamford are visiting in the home of Mr. and Mrs. Lee Haymes this week.

Nat Williams, superintendent of the Ballinger schools, visited in the home of Mr. and Mrs. A. H. Mitchell last Friday.

Lieut. J. C. Rice of Camp Shelby, Miss., spent a few days here last week visiting with his parents, Mr. and Mrs. John Rice.

Weather Report

Weather report for the period of June 17th to June 23rd inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
1943 1942		
June 17	66 74	90 100
June 18	65 74	90 98
June 19	67 74	92 97
June 20	70 74	94 96
June 21	73 75	96 93
June 22	76 65	97 90
June 23	69 66	97 98

Rainfall to date this year 9.09 inches; rainfall to this date last year 11.84.

Mrs. Lon Cottingham of Seymour was here Monday, visiting with friends and attending to business matters.

Any Excuse You Can Find For Not Upping Your Bond Buying Will Please Hitler

Port Neches Chief

Wallace J. Piggott is plant manager of the B. F. Goodrich phase of operations of the 120,000-ton government synthetic rubber plant at Port Neches, Texas, and superintended the entire construction job on that plant, largest of any in the whole national program. A native of Cleveland, O., and a graduate of the University of Michigan, he has been with the pioneer Akron rubber concern for 10 years.

Jimmie Lee Haney, who is in the navy and stationed at San Diego, Calif., visited his grandparents, Mr. and Mrs. G. W. Haney, and other relatives and friends here the latter part of last week. Jimmie was on furlough to visit his parents, Mr. and Mrs. Tom Haney of Wichita Falls.

Mr. and Mrs. Wallace Moorehouse of Seymour were in town last Thursday, visiting with friends and attending to business matters.

Mrs. John Bates and children of Goree were visitors in the home of Mr. and Mrs. John Rice last week, while Lieut. J. C. Rice was home on leave of absence.

Philip F. Honer, who is in the air forces and stationed at the Amarillo Army Air Field, came in last week for several days visit with relatives and friends at Rhineland.

Mrs. Billie Cooper of San Benito visited with friend here over the week end. She is making her home in Abilene for the summer.

Mrs. Jess Barnison and daughter, Mrs. M. L. Hipple, visited with relatives and friends in Benjamin last Sunday.

Weekly Health LETTER

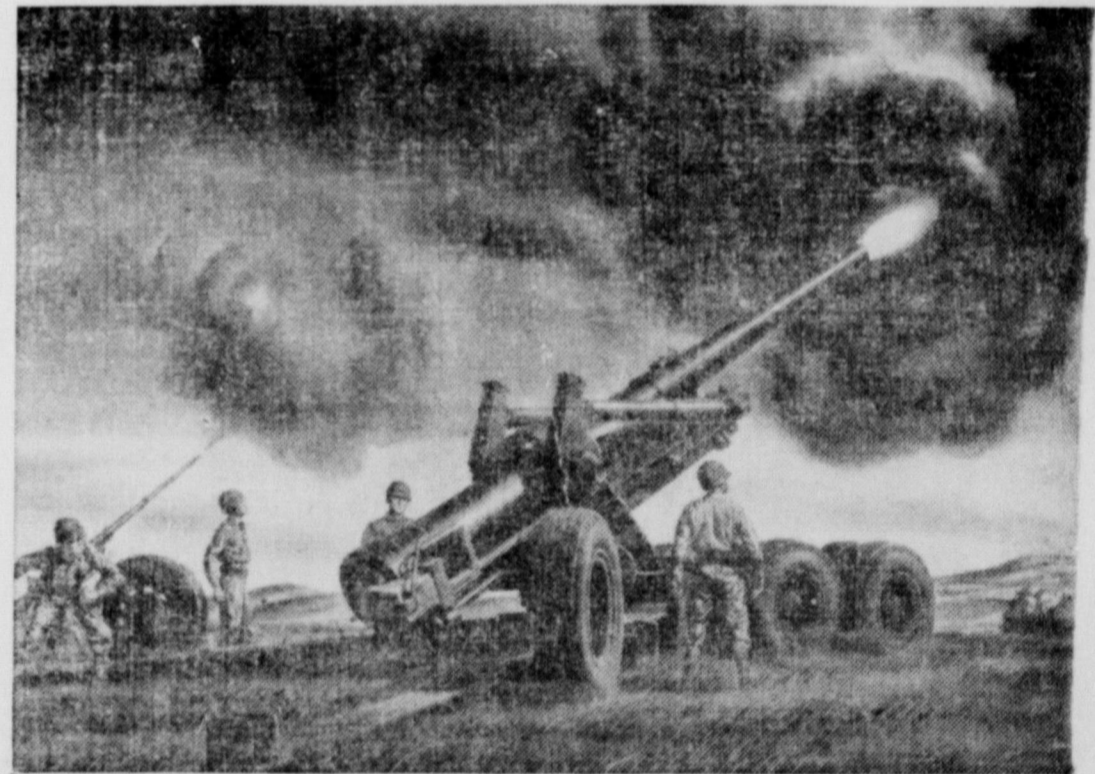

Issued by Dr. Geo. W. Cox, M.D., State Health Officer of Texas

AUSTIN — The general opinion prevails in America that home is about the safest place there is. However, the facts prove that, far from being the safest, it is often quite the opposite.

In commenting on the urgent need for the protection of life and limb in the American home, Dr. Geo. W. Cox, state health officer, today declared that accidents in the home are the cause of more deaths than diphtheria, scarlet fever, whooping cough, and measles combined; of more than appendicitis; of nearly as many as diabetes; of over two-thirds as many as automobile accidents; and of over a third as many deaths as tuberculosis.

"Slippery floor surfaces, lack of handrails on cellar steps, absence of protective gates at the top of stairs in homes where there are small children, toys left on stairs, unanchored small rugs on polished floors, poisons in medicine cabinets accessible to children, and the careless storage of sharp tools and firearms are some of the more prominent hazards resulting in home accidents Dr. Cox said.

"However," he added, "in the last analysis, the problem boils down to one of reasonable individual caution. We cannot view com-

THIS IS PART OF YOUR PAY CHECK

That gun's making things pretty hot for the Axis

It came from the pay check and pay envelopes of people like you. It was bought with the money you lent your Government in regular installments from your pay.

But hold on now—Maybe it's not your gun! Maybe you aren't setting aside at least 10 percent of your salary for War Bonds!

There are still some people who aren't; not many, but maybe you're one of them. If you are one, we're sure it's not for want of patriotism, but because

you haven't gotten around to it.

Tell your boss today you want to help win the war by joining the Pay-Roll Savings Plan. Tell him you want to save at least 10 percent of every pay check by putting it into War Bonds. You can't make a better investment. You'll be buying the weapons that insure a future of freedom, peace, and plenty . . . and you'll be getting back \$4 for every \$3 you save.

On The Home Front

O.E.M. Division of Information

Don't Travel Unnecessarily

To relieve crowded train and buses, the public is asked not to make unnecessary trips. ODT has defined trips for the following purposes as non-essential: (1) To other cities to visit friends; (2) Home for the week-end; (3) Sight-seeing; (4) To the theatre, races, or other place of amusement; (5) Any social travel or travel for pleasure; (6) Travel merely for the sake of going somewhere.

V-Mail Pictures For Dads

Photographs of children under one year of age of soldiers serving overseas or children born after the father has departed for overseas may be sent V-Mail under certain conditions, the War Department has announced. The regulation form must not be altered in any manner and the photograph is limited in size to not more than one-third of the correspondence space on the V-Mail form. The photograph must appear on the upper left portion of the correspondence space. It may include the mother or some other person holding the child.

Victory Tax Collections

The Victory Tax, which to date has been withheld from wages and salaries, above exemptions, at the rate of 5 percent, will be included in the 20 percent withholding plan provided for in the current tax payment act, on or after July 1. Total victory tax collections as of June 5 were \$682,282, \$23.20.

Sticker For Ration-Free Shoes

Shoe dealers must put an official OPA sticker on shoes that are to be sold ration-free because of damage by fire, water, steam, or other accidental cause, the OPA has announced. The purpose of the sticker is to protect the customer against black market in shoes.

Frozen Foods Priced

Consumer ceiling prices for frozen snap beans, corn, peas, and spinach of the 1943 pack will be about the same as current maximum prices for the 1942 pack, but prices for frozen strawberries and asparagus will be increased, OPA

said recently. For asparagus, the increase will be about one cent a pound, and, for strawberries, between three and four cents a pound.

Gas and Tires For Farm Machines
To assist grain farmers in harvesting 1943 crops, the War Food Administration has made arrangements with ODT and OPA to assure owners of custom-operated machinery sufficient gasoline and tires to run their equipment, especially itinerant combine operators who will soon be working in the wheat harvest.

Tools For Farmers

Wrenches, pliers, screwdrivers and other mechanics' hand service tools should be more generally available to farmers and home mechanics as a result of an amendment of Order E-6 by WPB. The amended order, which is designed to bring a better distribution of these tools among consumers, sets aside from 20 to 25 percent of the monthly production of specified tools for commercial distributors.

Barbed Wire Available

Approximately 20,000 tons of barbed wire with extra long bars, made for military purposes, will be used to meet a shortage of barbed wire on farms, according to WPB. The action is part of the Office of Civilian Requirements' program to make needed supplies available to farmers. The wire shortage was aggravated by the recent midwestern floods which washed out many miles of fence.

Used Car Gas Ration

The purchaser of a used car may qualify for a gasoline ration to operate it, even though he is unable to get a tire inspection record from the previous owner, if he can satisfy the local board that (1) No tire inspection record ever was issued for the vehicle, or, (2) The buyer had been unable to get the record from the previous owner after diligent attempt.

Increase In Farm Machinery

A new farm machinery and equipment order (WPB L-257) sets up quotas based on the actual needs of farmers for machinery and equipment as determined by the War Food Administration. The order, which becomes effective July 1, permits uncompleted quotas under L-170 to be produced in addition to quotas hereby established.

Training For Farm Work

More than half of the men and women taking the rural war pro-

duction course offered by the War Manpower Commission are interested principally in the operation of farm machinery, food processing, and egg production. These three courses account for 62.4 percent of the total number of persons in training. The courses run anywhere from two to ten weeks,

two to three hours per week.

Stocking Prices Changed

Maximum prices on stockings that contain yarn composed of silk twisted with rayon or cotton yarns have been fixed by OPA to allow for varying costs based on the gauge of the hose. Retail prices range from 79 cents for the coarse gauges (39 and lower) to \$1.25 for the finer gauges (51 and higher).

States Pool Road Machinery

Thirty-five states, including Texas and Oklahoma, are now operating under the WPB program to pool government-owned road machinery. Under the plan, requirements for critical materials are greatly reduced by making available any surplus or idle equipment to any section of a state which urgently needs it.

Ceiling Placed On Alfalfa

Alfalfa hay has been brought under price control by OPA in the states of Arizona, Nevada, Utah, Idaho and New Mexico, and in El Paso and Hudspeth counties in Texas. The maximum price is \$30 a ton, loose on the farm, ready to load, with certain exceptions. This action should cause a reduction in price to the farmer.

REA Program Extended

The Department of Agriculture has announced new allocations of Rural Electrification loan funds to 16 states and Alaska. In the Southwest, allotments were made to: Indian Electric Cooperative, Inc., Cleveland, Okla., \$562,000; McCulloch County Electric Cooperative, Inc., Brady, Texas, \$15,000; Panola-Harrison Electric cooperative, Inc., Kirbyville, Texas, \$185,000.

Shorn Wool Order Changed

Shorn wool now may be sold direct to mills by producers and pools of producers instead of to the Commodity Credit Corporation as originally required, L. J. Cappelman, regional director of the Food Distribution Administration, announced. The amendment to FDO 50 exempts from all requirements shorn wool produced in 19 Atlantic coast and cotton belt states, including Arkansas and Louisiana.

"A" Book Renewals Start Soon

Application forms for renewal of basic "A" gasoline rations are being distributed this week, the OPA region office announced. The forms will be available at gasoline stations and other convenient locations to be announced by local War Price and Rationing Boards. After completing the portion of the form set off by heavy borders, the applicant is to mail it to his local board, along with his current tire inspection record and the back cover of his present "A" book. Renewal books will be mailed to car owners before July 21, the date on which current "A" coupons expire.

Bob Crowley, a student in the U. S. Naval Academy, Annapolis, Maryland, visited with relatives and friends here Friday.

GOOD CHEER FOR SOLDIER PATIENTS

COLLEGE STATION—Home demonstration club women in 19 central and west Texas counties have been helping meet the recreational needs of service men in their vicinity. These 4,000 club women pooled their efforts through local county home demonstration councils to assist men who are patients at the Camp Bowie Army base hospital near Brownwood.

In this program they successfully have followed the recommendation of their state organization, the Texas Home Demonstration Association, says Maurice Hearn, district agent for the A. and M. College Extension Service, who supervises home demonstration work in District 7. All gifts were sent to the American Red Cross for distribution.

From club women, the recreation center of the Camp Bowie hospital has received eight card tables, two divans, four end tables, three smoking stands, two magazine racks, a floor lamp, three serving trays, 13 pairs of book-ends, flower vases, 25 waste baskets, and 413 ash trays. To provide reading matter, the women furnished 118 books, plus two Bibles, and gave subscriptions to 15 magazines.

Supplies contributed for use during parties and other entertainments included 682 water glasses, 305 cup towels, 153 candy and bon bon dishes, and a variety of other utensils. Other recreational gifts were 50 decks of playing cards, a radio, 135 phonograph records, and 136 games including checkers, dominoes, jigsaw puzzles, chess, Chinese checkers, bingo, and croquet.

For the comfort of the patients, the women provided 58 lap robes, 77 pillows, 87 pillow cases, and 816 individual gifts, varying from sewing kits to hair tonic.

Mr. and Mrs. L. A. Allison of Austin came in last week for several days visit with Mrs. Allison's parents, Mr. and Mrs. Bud Nelson. Mrs. Allison is the former Floy Nelson.

Mrs. Aaron Edgar returned home last Sunday from McLean, where she had been visiting her parents, Mr. and Mrs. W. J. Bridge. She also visited relatives in Wellington, Memphis and Quanah while away.

Misses Joan Rummell and Jimmie Henslee spent last Sunday in Seymour, visiting with Jimmie's sister, Mrs. W. B. Hayley.

Mrs. T. A. McCarty of San Antonio is here this week for several days visit with her daughter and family, Mr. and Mrs. Sebern

Jones. C. B. and Sebern Jones visited with relatives in Mineral Wells last Sunday.

Mrs. W. M. Mayo and Mrs. Wade Mahan were business visitors in Abilene one day last week.

Victory First Is Slogan For July Fourth

AUSTIN — Put victory first on the Fourth!

The Texas Safety Association made that appeal to patriotic Texans today in launching a statewide campaign against fourth of July accidents that waste manpower, material and time vital to victory.

Thirty-eight statewide organizations are joining with the Association in the greatest mass attack on holiday accidents ever made in this state.

Public officials, safety leaders and citizens throughout the state are being asked to enlist in this holiday campaign in a united effort to prevent accidents which last year took a toll of 87 lives in July alone.

Wartime travel restrictions and the fact that many of the state's war plants will be working full blast through the holiday period may reduce the normal Fourth of July traffic volume. The Association pointed out, however, that many workers will have a long week end holiday and that traffic hazards still prevail, even on short drives.

The association made these specific holiday safety suggestions:

1. Stay close to home. Don't drive unless you absolutely have to.

2. Don't take any trips unless you have to, even on a public conveyance. Crowds on trains and buses increase travel hazards.

"This year," said R. B. Rooper, president of the association, "we are not only celebrating our independence, but are fighting to preserve it. Let us not jeopardize our independence by causing accidents which impede our fight to maintain it."

"The prevention of accidents is more than ever the patriotic duty of every citizen, for accidents slow production of war materials. We who are still at home can at least make sure that we do nothing to make it harder for our fighting men. If accidents keep weapons and supplies from them, then accidents must stop.

"Remember—accidents help the Axis. Let's avoid them and put victory first on the Fourth!"

Sgt. Preston Ingram returned last week to his base at Orlando, Fla., after spending a 100-day furlough here with his mother, Mrs. Louise Ingram, and with other relatives and friends.

Mr. and Mrs. C. A. Eiland of Lamesa spent the week end here visiting relatives and friends.

Mrs. W. M. Huskinson and son, Billie, of Canyon visited Mrs. Huskinson's father, W. H. Atkinson, and other relatives here over the week end. Mrs. Huskinson is attending summer school at Canyon.

Miss Gail Reynolds was a business visitor in Abilene on Tuesday of last week.

Mr. and Mrs. Henry Mason of Wichita Falls and Sgt. Paul Pendleton of Sheppard Field visited with relatives and friends here over the week end.

Misses Anna Mae King, Doris King and Patsy Ruth Kirk visited with Martha Hannig last Sunday. Doris King, who is attending college in Arkansas, is on a short vacation here with her sister before they return to Arkansas for the summer months.

Mrs. O. F. Greer of Seymour visited relatives and friends here last Sunday. She spent the night in the home of Mrs. W. E. Hammock.

Miss Betty Golden, who is attending summer school at S. M. U., Dallas, spent the week end here with her parents, Mr. and Mrs. Oates Golden.

Federal Farm Labor Program Is Getting Under Way In Knox County

The federal farm labor program is getting under way in Knox county. According to R. O. Dankle, county agent, some of the major objectives are to keep a nucleus of experienced, skilled farmers and workers on the farm and to encourage the return to agriculture of persons with farm experience.

The Extension Service, which is to mobilize farm labor within the states, is setting up county, community and neighborhood units of victory council members to assist in the farm labor program. The purpose so far as the Extension Service is concerned is to have each county solve its own labor problem through the enlistment of persons living in towns.

Available farm laborers are asked to contact their victory council leaders and indicate their

availability for farm labor.

Farmers wanting laborers or persons wanting to work on farms can register at the county agent's office as well as with their victory leaders.

Some of the agricultural victory leaders within the different communities are as follows:

Sunset: H. J. Partridge and Mrs. W. C. Lawrence.

Hefner: C. B. Warren and Mrs. John Cure.

Knox City: L. W. Graham and Mrs. Bruce Campbell.

Vera: Ernest Beck and Mrs. Vertie Sullins.

Truscott: Hubert Cowning and Mrs. Herbert Gillispie.

Goree: W. W. Coffman and Mrs. Lucile Robinson.

Munday: C. R. Elliott and Miss

Anna Mae King.

Rhineland: Mike Bruckner and Mrs. John Albus.

Benjamin: Jack Idol and Mrs. E. B. Sams.

Gilliland: Mrs. George Solomon and J. O. Cure.

In this time of national emergency, the government is insisting that all unemployed laborers register within the next week at the office of C. R. Elliott, Munday.

I GIVE YOU TEXAS by BOYCE HOUSE

When little Willie came home from his first day at school, his mother asked, "What did you learn?" He answered, "Nothing." She inquired, "Well, what did you do, then?" He replied, "Nothing; a woman wanted to know how to spell 'dog' and I told her. That's all."

One of the innumerable changes that Hitler has forced upon Texas is the foregoing of San Antonio's Battle of Flowers. In the happy, before-the-war days, that was really an event to look forward to. The crowds were as much a part of the festival as the procession itself. Thousands massed along the line of march, many of them standing for the two hours or so that the parade was in progress—in fact, most of them were on hand an hour or more before the event was scheduled to begin. A few had folding chairs and some sat on the edge of the sidewalk; others were in windows; still others would set a table in the entrance-way of a store and place chairs on top of the table so as to see over the heads of the throng. Vendors of foods and drinks and souvenirs were in their glory.

The last Battle of Flowers that your columnist saw—it was the last one that has been held—was a more brilliant spectacle than the more widely acclaimed Tournament of Roses in Pasadena. True, the California spectacle had Edgar Bergen and Charlie McCarthy, as well as Leo Carrillo, resplendently attired and on a white horse—but San Antonio's cavalcade had many more beautiful girls, and in more

gorgeous costumes.

"The Bar and the War" will be the subject of George M. Morris, president of the American Bar Association, when he addresses the convention of the State Bar of Texas in Houston July 1 and 2. A war work clinic will be another feature, announces President Claude E. Carter of Harlingen.

In our mother's day, the most popular songs were sad ones. Can you remember when the telephone had just begun to come into use and there was a song about a little girl who said, "Hello, Central, give me heaven for my mother's there; you will find her with the angels on the golden stair?"

And fully as pathetic was the song about the man holding a baby on a train. The infant's crying annoyed a passenger, who demanded to know why the tot wasn't taken to its mother. The man replied, "She's in the baggage coach ahead."

Lieut. and Mrs. Willard Bauman and two sons of Pyote, Texas, came in last week for several days visit with Mrs. Bauman's father, M. G. Cox, and with other relatives and friends. Willard had been in the base hospital for a minor operation, and is here on sick leave.

Mrs. Sebern Jones and daughter, Carolyn, returned home last Sunday from San Antonio, where they visited Mrs. Jones' mother, Mrs. T. A. McCarty, and other relatives for several weeks.

Lieut. Morrison Harber of Camp Howze, Texas, spent a few days here last week with his parents, Mr. and Mrs. J. T. Harber of the Sunset community. He was enroute to Aberdeen, Mass., where he will attend school for several weeks.

Dr. E. M. Roberts of Amarillo spent the week with relatives and friends here. He was accompanied home Sunday by Mrs. Roberts and children, who had been visiting with Mrs. Roberts' father, W. H. Atkinson, and other relatives here for about three weeks.

Frank Havran, who has been ill for some time, was taken to the Knox county hospital for medical treatment the latter part of last week.

Ben Bowden, who is attending Hardin-Simmons University in Abilene, visited his parents, Mr. and Mrs. J. O. Bowden, over the week end.

Mrs. W. M. Taylor of Goree and her sister, Mrs. Fannie Mae Watson of Atlanta, Ga., were business visitors in town last Monday.

Four Students Of County Now In TSCW, Denton

DENTON — Four Knox county students are studying at the Texas State College for Women summer session, the first term of which ends July 14. Registration for the 1943-44 regular session begins Sept. 20. The college, with a conspicious teaching staff, will offer courses in 60 groups of courses this fall. This summer the students have a choice of approximately 250 courses of an accelerated program.

Two sophomore students are enrolled, and two seniors. The sophomores are Miss Edith Simmons of Munday, daughter of Mr. and Mrs. M. H. Simmons. She is studying Home Economics Education. Miss Doris Elaine Clonts of Knox City, daughter of Mr. and Mrs. W. E. Clonts, is a sophomore studying Home Economics Education also.

The two seniors are Miss Debra Hammons of Knox City, daughter of Mr. and Mrs. G. W. Hammons, and Miss Jo Ann McKenzie of Munday, daughter of Mrs. W. A. McKenzie. The former is studying Home Economics and the latter is taking a business course.

Dr. L. H. Hubbard, president, has pointed out that while the war has modified the points of emphasis in many of the practical courses, the college has not lost sight of its responsibility to educate Texas women for normal, wholesome living and for participation in solving post-war problems.

The largest state-supported women's college in the world, TSCW has a physical plant valued at approximately \$5,000,000.

Former Truscott Boy Gets Award of Marksman's Medal

CAMP SANTA ANA, Calif. — The medal of Marksman in rifle shooting is now being worn by Pvt. Robert M. Browder, formerly of Olden, Texas because of his accuracy on the range at the West Coast Ordnance Training Center.

Ordnance soldiers are classified as noncombatants, but the nature of modern warfare demands that every man know to defend himself against attack. And even though Pvt. Browder has as his main job the servicing of the line with the weapons ammunition, and the vehicles of war, he will now be able to fight the enemy wherever he will be met.

In compiling the score that enables him to wear the medal of Marksman, Pvt. Browder fired for record from four positions, standing, sitting, kneeling, and prone. Half of Pvt. Browder's record shooting was done at slow fire, half at rapid fire.

Pvt. Browder was employed in civilian life by the Williams Brothers Corp., Breckenridge. He attended school at Truscott high school and Olden high. He is the son of Mr. R. E. Browder, living at Box 24, Olden, Texas.

RECEIVED MEDAL IN RIFLE SHOOTING

Pvt. Billy J. Bnaswell, formerly of Gilliland, has received the medal of marksman in rifle shooting at Camp Santa Anita, Calif. To qualify for the medal, Billy fired for record from the usual four positions—standing, sitting, kneeling and prone.

Pvt. Bnaswell is the son of Mrs. Jessie Reed of Gilliland, and a former student of Gilliland high school.

First Lady of the Lone Star State Is Fifth To Be Featured in Cotton's Portrait Series

Mrs. Stevenson's Picture Appears In Mademoiselle

Joins Other First Ladies In Praising Cotton's Serviceability

Memphis, Tenn.—The First Lady of the first state of cotton will be featured in the July presentation of the cotton industry's "Governor's Lady" portrait series.

She is Mrs. Coke Stevenson Jr., and her state is Texas. Her portrait, the fifth to be published in the series being sponsored by the National Cotton Council and Cotton-Textile Institute, will appear in the July issue of Mademoiselle. With Mrs. Stevenson will be shown her two lovely daughters, Scottie Gayle and Linda Fay. All three, of course, will be wearing cottons to show women all over America the lovely-looking, long-lasting garments that can be made of this favorite family fabric.

Made at Mansion The portrait, taken in front of the stately Governor's Mansion at Austin, was made by Wynn Richards of New York, one of the nation's leading photographers, who has been commissioned to do the portraits of the First Ladies of all the cotton-producing states. For the picture, Mrs. Stevenson selected a smartly tailored dress of white pique, with matching hat. She dressed her daughters in delightful big and little sister costumes of striped chambray, with eyelet ruffle pinafores.

Wearing cotton is nothing new for either Mrs. Stevenson or her daughters. "Cotton is my choice because it is cool as well as cooling," Mrs. Stevenson said. "I like its freshness and durability. In fact, my daughters wear nothing else because it's so easy to keep clean."

Mrs. Stevenson, a native of Cleburne, Texas, is a Texan from start to finish. Consequently, she appreciates the value of cotton to her state. She attended the University of Texas where she met and married Coke Stevenson Jr.,

First Lady Of Texas

Photo by Wynn Richards

Mrs. Coke Stevenson Jr., First Lady of the State of Texas, poses with her daughters, Scottie Gayle, standing, and Linda Fay, in front of the stately Governor's Mansion at Austin. An ardent supporter of cotton, Mrs. Stevenson is wearing a tailored dress of white pique. The little girls are wearing big and little sister dresses of striped chambray, with eyelet ruffle pinafores. This portrait will be published by the cotton industry in the July issue of Mademoiselle as the fifth presentation of the industry's "First Lady" series.

son of the Governor of Texas. Mr. and Mrs. Stevenson Jr. made their home at Junction, where the Governor's family had settled almost a century ago, until the death of Governor Stevenson's wife last year. The young Mrs. Stevenson then moved to the 80-year-old mansion at Austin to serve as official hostess for the Governor. The portrait series, presenting for the first time a typical picture of the cotton-country as well as the story of cotton's serviceability on the home-front, already has featured the First Ladies of Mississippi, Louisiana, Tennessee and Oklahoma. Next month, Mrs. Ellis Arnull of Georgia will be pictured, followed in succeeding months by Mrs. Olin D. Johnston of South Carolina, Mrs. Spessard L. Holland of Florida, and Mrs. J. M. Broughton of North Carolina.

Aviation Offers Multitude of Postwar Opportunities, Hollingshead Declares

Fighting Men Abroad Hear of Many "Incubator" Products and Services That Will Be Needed

BOSTON, Mass. (IPS)—American airmen, ground crews, and technical men will find their places in the postwar world of industry when the products and processes now in the "incubator stage" in the aviation industry will be the source of countless employment opportunities, declared R. M. Hollingshead, Jr., vice president of R. M. Hollingshead & Co.

Speaking on one of a weekly series of broadcasts beamed to American armed forces overseas and arranged by the National Association of Manufacturers in cooperation with the National Broadcasting Co., Mr. Hollingshead said: "The education derived in the theatres of war by our men in the armed forces will be of invaluable assistance to industry in revamping its manufacturing programs to postwar needs. With the possibilities of military, cargo, and private aviation indicated today, it is not unreasonable to look for an airplane market of thousands of units per year."

Industry is planning now for the transition from war to peacetime production, he told the fighting men, and there is ahead of us an expansion and development of products "aimed to give you the more abundant life you are now fighting to secure."

The war has driven the fields of research and engineering to "fever pitch," he said, because of necessity and the race against time. "We are carrying on a great deal of chemical research and we realize that peacetime aviation will present new problems and new fields of endeavor which will provide unlimited opportunity for increased employment in private industry."

"It follows, therefore, that all industry has a stake in what happens to aviation when the war ends and it will continue to be a major market for light metals,

plastics, plywoods, a customer for thousands of metal treating and machine shops... a huge user of plant facilities and supplies and a big buyer of other commodities.

"In the interim, we will expend every effort of our great production schedule to deliver the material of war to our fighting men and to prepare for the bright future of this country that we are all working so diligently to preserve."

Canning By Oven Method Requires Exact Heating

To prevent jars from cracking in oven canning, it is imperative to have correct and accurate temperature, according to Miss Albertine Berry, home economics director for Lone Star Gas Company. Miss Berry points out that the oven method should be used only for canning fruits, tomatoes and tomato mixtures.

While home canned foods have been consumed for generations, she explained, it is necessary to boil all non-acid canned foods ten minutes before tasting to destroy toxins that might be present, even though the food is to be used cold. "Cracking of jars in the oven," Miss Berry said, "may be caused by too much heat, or by the hot jars touching one another, or by screwing lids too tight. Jars manufactured for canning withstand temperature slightly above 250 degrees, and higher temperature will cause breakage."

In oven canning, Miss Berry suggests:

Don't try oven canning unless you are positive the oven on your range will maintain a constant temperature of 250 degrees; don't use a cracked jar or one nicked around the rim; don't guess at processing time; don't allow cold air to strike hot jars; don't begin canning until you thoroughly understand the method and know each step; don't crowd oven with

Activities Of Colored People

Munday's colored people extend their thanks to Mayor C. R. Elliott for granting them the privilege of holding their June 19th celebration, and to everyone who cooperated with them in making the celebration a success. The celebration went off in grand style, and those in charge reported that everything was peaceful over the week end.

An entertainment was held at the home of Allene Johnson last Tuesday night, honoring Don L. Napper, colored soldier, who was home on furlough. A large group were present for this occasion. Napper left on a Tuesday night bus on return to his training camp at Dodge City, Kans.

Elmore Hendrix and her husband of Wichita Falls visited with Allene and Gus Johnson and with other friends here over the week end.

IT PAYS TO ADVERTISE

too many jars; don't fill jars too full.

All jar tops using a separate rubber ring should be left loose until after processing, then tightened immediately. Jar tops of the self-sealing type, that is with sealing composition on the metal disc held on the jar with a metal screwband, should be screwed down firmly but not tightly, before processing again because this tightening might break the seal.

It is recommended that only fruits, tomatoes and mixtures containing at least fifty per cent tomatoes be processed in either the boiling water bath or the oven, with the oven method used only when the oven heat can be maintained at 250 degrees. The pressure cooker method is recommended for all non-acid vegetables and meats.

WE CARRY the largest stock of parts in West Texas. Some parts for nearly all machines, tractors, cars, etc. Broach Implement Co.

WASHBURN NEWS

Mrs. C. N. SMITH, Correspondent

Mr. and Mrs. Tip Womble and Mrs. V. C. Snyder and daughter, Carolyn and Patricia Ann, and Miss Olive Dobbs of Dallas visited relatives here last week end.

R. B. Jacobs of Midland visited relatives here recently.

Pvt. John Broach of Camp Walters, Mineral Wells, visited his parents, Mr. and Mrs. Mann Broach, last week end.

Joyce Spelce of Munday visited Mildred Smith last Sunday.

Miss Maggie Searcey of Munday visited homefolks last Sunday.

Mrs. D. C. Wardlaw of Blithe, Calif., is visiting her daughters, Mrs. A. L. Smith and Mrs. J. A. Hill.

Mr. and Mrs. Joe Ford of San Diego, Calif., are visiting his parents, Mr. and Mrs. Buster Ford at this writing.

Frances Smith of Stamford, Texas, visited her parents, Mr. and Mrs. C. N. Smith, last Sunday.

Mrs. Mann Broach had as her guest her mother from Knox City this week.

Davis Lee Paramore of Dallas is visiting relatives here this week. Joyce Breuster of Munday visited Norma Lee Smith last week end.

Claud Hill of Sunset was in the community on business last Wednesday.

Mrs. Levi Cowzar and Mrs. Henry Griffin of Goree were business visitors here Saturday.

Mrs. Howard Collins spent last Monday in Seymour, visiting with her sister, Mrs. Tucker.

Payroll Savings Buys Comfort For Your Fighting Relatives

Not all of your payroll savings and other War Bond purchases are used for tanks, planes and gunpowder. A part of your investment goes for the comfort of your father, brother, son or friend. Put your war bond buying through your payroll savings plan on a family basis to do the most effective job in providing for the care and safety of your men in the armed forces. Figure it out for yourself how much beyond 10 per cent of the aggregate income of your family you can put into war bonds above the cost of the necessities of life. Remember a single \$18.75 war bond will buy for a fighting soldier on the front: Two cotton undershirts at 44 cents; two pairs of cotton shorts at 76 cents; two pairs of cotton socks at \$4.21; a cotton khaki shirt at \$4.64; pair twill trousers at

\$4.16; one web waist belt at 23 cents; two cotton neckties at 44 cents; 2 khaki caps at \$1.26 and one twill jacket at \$2.16. Total \$18.74. An \$18.75 war bond should make a marine comfortable for the night with a 23-pound mattress at \$4.20; two blankets at \$13.54; a pillow at 56 cents and two pillow cases at 30 cents. Total \$18.60. Or he could be provided with a rubber poncho at \$4.77; a helmet with its lining and other items of its assembly at \$5.62; a rifle cartridge belt at \$2.15; a marine corps pack consisting of haversack, knapsack and suspenders at \$5.10; canteen and its cover at \$1.05. Total \$18.69. Those of you who worry about the comfort of your boy in service can help insure his comfort by buying war bonds. And 10 years from now you'll take back \$25 for every \$18.75 you put in. U. S. Treasury Department

You Get A Real Tread With The High Speed . . .

Deep grooves of the tread given with the new High Speed assures you greater traction, and longer life in your re-caps. This new tread will give you extra miles on your recapped tire.

Our all-steam recapper also seals the tread to the tire shoulders, so the recap will not work loose and come off. You can't ask for a better looking tire than one that comes out of our all-steam recapper.

All Work Is Fully Guaranteed!
