

Carl A. Collins Will Close Work Here On Sunday

Minister Carl A. Collins, who has labored with the local church of Christ most of the time for the last two years, will close his work here Sunday to become minister of the North Oak Avenue Church of Christ in Mineral Wells. Minister Collins will conduct several revivals before beginning the work at Mineral Wells. His first meeting will be at Benjamin, beginning Friday night, July 16th. He will begin his labors with the Mineral Wells church on September 1.

Minister Collins has known most of the membership of the Munday church for more than ten years and he states that some of the best christians that he has known anywhere are in this church. He says his work here has been very pleasant for him and his wife both, and therefore with much reluctance they bring their sojourn to a close that they may take up work in a larger field where perhaps, they can fill a greater need.

The minister extends his thanks and appreciation to The Munday Times for their unflinching kindness in always giving the church plenty of space and full recognition in its columns.

His last Sunday morning sermon subject will be: "The Golden Rule." His last Sunday night sermon subject will be: "Preach the Word."

All who will come are cordially invited to attend these services.

Completes Work

Minister Carl A. Collins, above, completes his work with the local church of Christ with the services next Sunday. After holding several revival meetings, Minister Collins will move to Mineral Wells to serve as minister of a church there.

N. F. L. A. Offices Are Consolidated

Announcement was made last week that the Munday and Seymour offices of the National Farm Loan Association have been consolidated, and the office is now located at Seymour.

The Munday N. F. L. A. operated for a period of several years, with John Ed Jones as local secretary. The consolidation was deemed necessary by the Federal Land Bank of Houston.

With the location of the office in Seymour, L. B. Donehoo of that city was elected as the new secretary by the board of directors. Directors of the local office met with directors of the Seymour office to select a secretary who will serve until the time for choosing new directors for the combined office.

Mr. Donehoo was in the city last Tuesday and announced that he would be in Munday two days each week, on Tuesdays and Wednesdays, to confer with stockholders here. He may be found on these days at the local office of the Stamford Production Credit Association, from 9 a. m. to 4 p. m.

Knox City To Have Food Demonstration

There will be a Food Preservation demonstration given by Lucile King, county home demonstration agent at Knox City on Tuesday, July 13, 1943 at 2:30 p. m. in the Knox City lunch room.

The agent plans to dry fruits and vegetables by means of the dehydrator and sun method. The electrical dehydrator was made from two apples boxes. This dehydrator is not expensive to build and neither is it very expensive to operate.

Demonstrations will also be given on the latest methods of canning. She will demonstrate both the hot and cold pack methods of canning.

REST EASY! YOUR RATION BOOK IS COMING

Restless Ration Book No. 3 applicants were advised by OPA officials not to be concerned if their ration books have not arrived. And please don't write in again. More than five million books are yet to be mailed residents of Texas, Louisiana and Oklahoma from the Dallas mailing center. There is plenty of time, as Book No. 3 will not be put into use until late in August.

BENJAMIN TEACHER LANDS IN ENGLAND

Lieut. J. R. (Pat) Wyatt, former coach and teacher in the Benjamin high school, has landed safely in England. Lieut. Wyatt is an administrative officer in the Army Air Corps. He reports that the English people are very nice to the American soldiers, and that England is the most beautiful country he hopes to see.

Ed Jones of Goree, former commissario of this precinct, was taken to a Wichita Falls hospital for treatment on Wednesday. Mr. Jones is said to be in a very critical condition.

Complete Library Building and Books Given to Southwestern Medical Foundation

DRS. H. F. CARMAN AND E. H. CARY

A medical library, building, grounds, equipment and all go into a gift to the Southwestern Medical Foundation, Dallas, by the Baylor Medical Alumni Library Association. The gift was made through the association's president, Dr. H. F. Carman (right) to Dr. E. H. Cary (left), president of the Foundation, in passing of a warranty deed for the property into the possession of the Foundation. The value of the property is considered above \$80,000, and no strings were attached to the gift, except that all proceeds through rent or sale of the property shall go to the maintenance of a library for the medical school of the Foundation. The medical school opened in Dallas July 1 with an enrollment of practically 300 students.

22 Men Leave To Enter Armed Service

To Be Ensign

Pictured above is Chief Ura Wilson, son of Mrs. Bertie Wilson of Munday, who is serving in the U. S. Navy. Wilson sailed for foreign service on July 1st, and word received by Mrs. Wilson here stated that her son was to have been promoted to ensign upon embarkation.

Wilson enlisted in the navy almost a year ago and has been training at Norfolk and Williamsburg, Virginia. He served four years in the navy prior to his present enlistment, and wears the 4-year service stripes on his uniform.

Mr. and Mrs. J. T. Smith and daughter of Houston visited with relatives and friends here and at Goree over the week end.

Keep Up With Rationing

RATION REMINDER
GASOLINE—"A" book coupons No. 6, good for four gallons each, outside the Eastern gasoline shortage area.
SUGAR—Stamp No. 13 good for 5 lbs. through August 15. Coupons No. 15 and 16 are good through October 31 for 5 lbs. each for home canning purposes. Housewives may apply to their local ration boards if necessary.
COFFEE—Stamp No. 21 (1-lb.) is good through July 21.
MEAT, ETC.—Red stamps P and Q good through July 31. Red stamp R becomes valid July 11 and expires July 31.
PROCESSED FOODS—Blue stamps, K, L, N, expire July 7. Blue stamps N, P, and Q valid from July 1 to August 7, inclusive.

"A" Book Holders Urged To Fill In Renewal Forms

Members of the Knox county gas rationing board are this week urging all holders of "A" ration books to make their applications for renewal as early as possible.

Present "A" books expire July 21, and motorists are urged to have their renewal forms in to the rationing board as early before that date as possible. If all come in at the deadline it will be impossible to get the new rationing books issued in time.

Motorists are warned to follow these instructions when making renewal applications:

Application can be made by either the registered owner of the vehicle or a person entitled to the possession of the vehicle.

After completing the form, mail it to your War Price and Ration Board at Benjamin, Texas.

1. The present tire inspection record for the vehicle for which application is made. This record must show that at least one inspection has been made and approval given.

2. The back cover of the present "A" or "D" ration book, showing the signature and address on the lines provided.

If your application is approved, the board will mail a new ration book and tire inspection record to the name and address shown in the lower left hand box on application.

Mrs. D. H. Henry of Knox City was a business visitor here Wednesday afternoon.

Funeral For Mrs. F. F. Goode Is Held Friday

Mrs. Henryetter Goode, beloved pioneer of Goree, passed away at the family home on Thursday, July 1. Mrs. Goode had been in poor health for some time.

Miss Henryetter Martin was born in Lee county, Texas, on November 22, 1862, and was 80 years, 7 months and 9 days of age. She was married to F. F. Goode on July 1, 1879, and passed away on their wedding anniversary.

After their marriage the couple lived in Bell county for a number of years. They came to Knox county in 1908 and resided at Goree since that time.

Mrs. Goode joined the Baptist church when a young woman and remained faithful to that faith until her death. She was dearly beloved by all who knew her.

Twelve children were born to Mr. and Mrs. Goode, nine of whom survive. They are Mrs. J. H. White of Littlefield, Ben H. Goode of Kim, Colo.; Mrs. Lester Whitlow of Bartlett, Sterling Goode of Wichita Falls, Edward Goode of Abilene, and John, Jim, Charlie and Miss Berniece Goode, all of Goree. She is also survived by 18 grandchildren, 10 great grandchildren, and a brother, Willard Martin of Cuero.

Funeral services were held from the First Baptist Church in Goree at five o'clock last Friday afternoon. Services were conducted by the Rev. Mr. S. E. Stevenson, pastor, and interment was in the Goree cemetery.

Massey Garage Moved Last Week To New Location

Joel W. Massey and Weldon Warren completed the work of moving the Massey Garage last week. The garage, formerly located in the Isbell building, was moved into the Mayes building, and is now located in the rear of the building occupied by Reid's Hardware.

This new location affords much more room in which to carry on general repair work. Mr. Massey states that expert repair work will be done at all times, with the shop specializing in all types of auto and tractor repairing.

Joe and Weldon invite the public to visit them in their new location.

Revival For Goree Church Announced

Announcement was made Wednesday that the summer revival at the Four Square Gospel church in Goree will open on Sunday, August 8th.

The revival will continue through two full weeks, and a very successful revival is expected to be held under the leadership of good evangelistic leaders. The public is asked to keep the date in mind and make plans now to attend as many services of the revival as possible.

Evangelist

Rev. Kenneth Copeland, above, well known pastor evangelist who is serving as pastor of the First Baptist church in Haskell, will be in charge of the revival meeting at the Munday Methodist church. The meeting will open next Sunday, continuing for two weeks.

Violators Of Ceiling Prices To Be Reported

Associate members of the Price Panel Board were named this week, and it was stated that the ceiling price lists of all grocery commodities will be furnished to the grocery merchants next week. Prices must be held within the ceilings as set for the various commodities, it was stated.

Associate members of the board are: Mrs. E. Q. Warren, Knox City; Mrs. G. H. Beavers, Benjamin; Mrs. Orin Coffman, Goree; Mrs. W. R. Moore, Munday, and Mrs. Ozie Turner, Truscott.

All violators of the ceiling price regulations are supposed to be reported to the price panel board of the OPA, it was stated.

Red Cross Needs Hospital Items

Mrs. E. F. Heard of Goree, who is committee chairman of camp and hospital service of the Knox county chapter of American Red Cross, was a delegate to the meeting at Sheppard Field on July 1. This meeting was held at the recreational hospital building and was very interesting. Lectures were delivered by national and area officers, who presented the needs of the hospital and a list of the needs of our soldier boys in the hospitals. This list and other items which everyone can give to help will be made public later, it was stated.

Mrs. Heard will appoint committees from other towns in the county to help in this work.

Mr. and Mrs. C. M. Thompson had as their guests last week end Mr. and Mrs. George Neilson and daughter, Mr. and Mrs. E. A. Ragsdale and daughter, all of Fort Worth, and Corp. and Mrs. E. C. Thompson of Camp Edwards, Mass.

Haskell Pastor To Hold Revival Meeting Here

Methodist Meeting To Begin Here Next Sunday

Rev. Luther Kirk, pastor of the First Methodist church of Munday, announced the first of this week that the summer revival will open at the local church with next Sunday morning's services. The meeting will continue through Sunday, July 25th.

Good preaching and good singing will be in store for all who attend the revival, the pastor said, and the public is cordially invited and urged to attend each and every service.

Services will be held twice daily during the two weeks of this meeting. Rev. Kenneth Copeland, pastor of the First Methodist church in Haskell, will do the preaching.

"Brother Copeland is an outstanding pastor-evangelist," Rev. Kirk said, "and he has won for himself a reputation worthy of mention, as he has labored tirelessly throughout this section of the country. Many souls have been saved under his ministry, and he comes to us to pursue his labors in this worthwhile endeavor."

"Lend your influence and give your services in assisting him and the Lord Jesus in making Munday a better place to live. Morning services will be held at 10:30 a. m. each week day except Saturdays. Evening services will be at 8:45 p. m."

Sunset Added To Centers For Food Canning

The Sunset community has been added to the canning centers of the county and opened their course the first day with eight women present who canned more than one hundred quarts of food. Truscott had the largest number present the first day of their course with seventeen people present who canned 155 quarts of vegetables. Union Grove has run more regularly than any other of the centers and have had an average of eight or ten people a day who canned about 100 cans or jars of food each day. Vera begun their course on Monday of this week with eight present and O'Brien is off to a good start with eight or nine people present each day and have canned large quantities of fruit and vegetables. No report from Rhineland or Benjamin has been received except that they operated two or three days this week. Munday seems to be bringing up the rear with very little interest being shown. Mr. Dowell said unless more interest is shown during the next week or two the local course would be moved to some other community where there is more demand.

The vocational agriculture teachers of Texas have been asked to get four million cans or jars of food canned in these centers as a part of the war effort and it looks now like Knox county would can more than their proportionate part of the total. An instructor schooled in canning is in charge of each center and everything that could possibly be needed to work with is furnished. The service is absolutely free, no fee or toll of any kind is charged or accepted.

People are invited to go to these centers, can their own food in their own jars and take it all home with them.

Munday Hotel Is Being Improved

Mrs. Bertie Wilson, who operates the Munday Hotel, stated Wednesday that the hotel is undergoing considerable improvements which will add to its appearance. Both the inside and outside of the building is being remodeled and improved, and Mrs. Wilson hopes to have this work completed by the end of this week.

Mr. and Mrs. Cody West and children spent the week end in Perryton visiting Mrs. West's brother and wife, Mr. and Mrs. Roy Ratliff. Martha Ann, who had been visiting her uncle and aunt for several weeks, returned home with her parents.

Chas. J. Howeth Completes Course

CAMP SANTA ANA, Calif.—After many weeks of intensive training, Pvt. Charles J. Howeth is now prepared to undertake a responsible part in the training of new soldiers. Pvt. Howeth from Munday, Texas has completed his course in the Cadre school at this Ordnance Training Center.

Pvt. Howeth will be assigned as a painter with the Service Training. He is the son of Mr. and Mrs. N. A. Howeth who reside at Munday, Texas.

BIRTH ANNOUNCEMENT

Mr. and Mrs. A. M. Moore are the proud parents of a young son, who arrived at the Knox county hospital on Friday, July 2. Mother and son are reported to be doing nicely, and they expect to be brought home within the next few days.

GEARED FOR VICTORY

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"

TOMORROW MAY BE TOO LATE

How often the expression is heard today: "Be careful! You can't replace it." That warning has been applied to everything from pins to tractors. Never was the American public so waste conscious. Yet, in one vital respect it is still far too careless. That respect is fire. Millions of dollars worth of property and thousands of lives are lost annually by preventable fires.

It is an ironical fact that the man who cares for his car like an only child, will very often not hesitate to leave that car in a garage alive with fire hazards. And the housewife who guards with similar diligence the welfare of the electric range or refrigerator, will blithely disregard the commonest fire hazards such as frayed wiring, trash in the attic, open fireplaces and carelessly strewn matches.

Fire can wipe out a home and every "irreplaceable" object in it in a matter of minutes. Some of those irreplaceable objects may be human lives. Of the 10,000 persons who were burned to death in the United States in 1941, two-thirds perished in homes.

Fire prevention, like charity, should start at home and spread in widening circles until each person is doing his utmost to prevent destructive fire anywhere in his community. Fire department officials are only too glad to point out potential hazards to the uninformed.

Start now to protect your "irreplaceables" against fire. Tomorrow may be too late.

POSTWAR STATES' RIGHTS

Encouraging in these days of increasing centralization of authority in Washington bureaus, is the tenor of a recent twelve-state conference on post-war problems.

Here, Governor Thomas E. Dewey of New York, together with Governor Herbert O'Connor of Maryland and Governor J. Howard McGrath of Rhode Island, demanded that the powers granted the Federal government in the prosecution of the war be returned to the States when peace comes.

As Governor Dewey pointed out, "powers essential to the freedom of the people" can be endangered if "polluted by the exercise of control over essentially local matters."

Demonstrating the "dangers and difficulties" resulting from the direction of local problems from the central seat of government, Governor Dewey cited Federal handling of the food problem. He said that, although the States had "foreseen the catastrophe for many months," the Federal government "never saw the problem—never acted on it until a few weeks ago—never even reversed its crop restriction program in time."

Other speakers at the meeting, looking squarely at the postwar situation, were of the opinion that free industry will be the chief source of jobs after the war, and that government can help industry in its task by adopting "constructive fiscal and monetary policies and establishing a climate in which free enterprise can flourish."

ANTI-RACKETEERING BILL

In adopting the Hobbs anti-racketeering bill by a vote of 270 to 107, the House of Representatives has shown that neither the American public nor its elected representatives will tolerate extortion and other practices by some factions of organized labor which interfere with the efficiency and success of the war effort.

The bill amends a 1934 anti-racketeering act by providing penalties of not more than 20 years' imprisonment and not more than \$10,000 fine for interference with interstate commerce by robbery or extortion, or interference during the war with the transportation of troops, munitions, war supplies, or mail in interstate and foreign commerce. It must now go to the Senate where it should be passed speedily. Reputable organized labor leaders should welcome the measure for weeding from their ranks those who by their nefarious practices are discrediting labor's efforts in the war. Labor's gains of the prewar era will be protected since passage of an amendment to the measure assures that nothing in the bill repeals, modifies, or affects labor sections of the Clayton Anti-Trust Act, the Norris-LaGuardia Anti-Injunction Act, the Railway Labor Act, or the National Labor Relations Act.

The Hobbs bill is aimed at the restriction of those who retard the war effort and as such, should become national law.

American plane production in April will approach 7,000 WPB Chief Donald Nelson reports.

A LESSON FROM OIL

Oil, so essential to victory, is a bright spot in the war effort. We have plenty of it in the ground and, what is of equal importance, thanks to the oil industry, there is plenty of it above ground.

In commending the oil companies for a job well done, the San Francisco Examiner says: "They have given American aviation a high octane motor fuel of a quality equaled by few nations, and in tremendous quantities possessed by none. They have given American mechanized warfare superior lubricants, adaptable to all extremes of weather, with attendant advantage over the enemy nations. They have eliminated inefficiencies, duplications and waste in transportation and distribution."

The Examiner then observes that the oil industry is a good example of what free enterprise can do when capable government administrative agencies aid rather than hinder production. In the case of oil, the regulatory officials know something about the oil business.

We will eventually learn that our free institutions of production and supply are the source of our great strength—in peace as well as at war—and that we will remain strong only so long as they remain free.

PATRIOTISM TO WHOM?

This country has just witnessed the humiliation of our government by American coal miners and their leaders, in war time.

There is no use trying to overlook the facts—the men walked off the job in defiance of requests of the President of the United States; they refused to go back to work at his request, and only returned to work on orders from the head of their union.

This flagrant disregard of public welfare, and established agencies of government, was but one step removed from open revolution in war time.

And yet the head of the United Mine Workers, according to news reports of May 4, says to the men who struck: "Your record of patriotism can never be challenged."

WAGE INCENTIVES

Proof that wage incentive plans act as an important spur to production has been offered in a study made recently by the Department of Labor. The analysis, covering three industries—machinery manufacturing, cotton textile manufacture, and primary fabrication of non-ferrous industries—revealed medium differences in earnings, represented by increased output, ranging from 12.1 to 18.2 per cent.

The findings which are of significance to other government agencies interested in wages and production, indicate that higher earnings of incentive workers result most directly from more intensive effort by the workers themselves.

Twenty-five trailer makers will construct identical trailers for war workers so that standardization down to the smallest screws and nails will permit interchange of repair parts and make allocation of construction materials easier.

By combining two difficult operations, an automotive company has reduced to 2 or 3 minutes the process for heat-treating and quenching armor plate which formerly required hours.

For emergency lighting in war plants and shipyards, a new unit, weighing 47 pounds, may be set up to switch on a powerful beam of light automatically when normal lighting fails.

A chemical compound which slowly releases chlorine into dishwasher is used in the Army for sterilizing dishes.

CANNING THE VICTORY CROP

With an unprecedented number of Victory gardeners anxiously awaiting canning time, Good Housekeeping magazine herewith demonstrates the pressure canner method of storing up Victory vegetables. The magazine has prepared a new full-color 16 mm. sound motion picture called "Canning The Victory Crop," for free distribution. The new film, with Frank Singiser as commentator, was filmed in the Good Housekeeping kitchens as a contribution to our government's food conservation program and can be secured by a request mailed to 959 Eighth Avenue, New York City.

She wants to win an unpopularity contest!

Elizabeth Jenkins Seeks Title of "Most hated by Axis in 1943!"

THE AXIS has probably never heard of Miss Elizabeth Jenkins—but she's doing her level best to change that!

For example: Elizabeth works in an essential industry thereby releasing, in effect, a fighting man. And out of the salary she gets for her work she puts 22% into War Bonds, through the Payroll Savings Plan. She figures that her investment may help to maintain the three fighting men who are closest to her—her two brothers and her father.

"They're fighting for me, and I'm helping to buy their fighting tools!" says Elizabeth.

Her father commands a brigade of the North Carolina State Guard. He saw action overseas in the last war and his stories have made Elizabeth keenly aware of the importance of her investment in War Bonds. He has explained that no matter how much spirit and fight a soldier has, he needs the best equipment money can buy. He has also pointed out that American soldiers are the best equipped in the world.

Miss Jenkins wants to keep them

that way, because in addition to her father, she has two brothers in the Army.

Lieutenant Tom is an anti-aircraft artilleryman. Captain Jack is in the Air Corps. So Elizabeth is reasonably sure that in one way or another, the Axis will hear from the Jenkins family in the near future!

Are you doing as much for America's future as Elizabeth Jenkins? Every dollar you can lend helps, so . . .

Figure it out for yourself:

Weren't there a few more dollars in your last pay envelope that could have gone into War Bonds—but didn't? Get out your pencil right now, and see if you can't boost the percentage you're putting aside for Uncle Sam—and yourself!

Phillips Petroleum company; at Houston, by Sinclair Refining company; and at Port Neches, by the Neches Butane Products company, whose constituent companies are Gulf, Texas, Pure Oil, Atlantic and Magnolia. The styrene also will be "home grown," Newman said, produced in plants operated by Monsanto Chemical company and Dow Chemical company at Texas City and Velasco, respectively.

Newman looked beyond the immediate problem of producing enough synthetic rubber to keep the United Nations rolling toward victory on the battlefronts and sustaining essential civilian transportation, and saw "no reason why the role of Texas in this war-born industry should not always be an outstanding one."

Not only is the state a tremendous producer of the raw materials basic to the industry, he pointed out, but its potentialities as a market for rubber goods—of which there may be many new types after the war—are unsurpassed. He cited pre war market statistics on sales of auto tires in illustration of this point, and said that Texas' probable leadership in "personalized aviation" after the war would further widen the rubber market here.

As for the general question of the "survival" of America's synthetic rubber industry after the emergency, Newman said it, "seems inevitable that the American people—regardless of price differential between synthetic and natural rubber—will insist on continuing at least stand-by operation of these plants, just as they will make sure of retaining air

bases and battleships." "I feel that those responsible for the nation's defense after the war is won will want to continue to specify synthetic rubber's use in national defense equipment in sufficient amounts to assure continuing operation," he said.

This would assure the nation of adequate production capacity for use in an emergency, he pointed out, as well as afford reasonable protection against high price of natural rubber. He warned that it is only by continuing research and actual volume production that the cost of making synthetic rubber could be made to approach more nearly the production cost of natural rubber.

On the question of general-purpose synthetic rubber's ultimately being able to compete with natural rubber in price, Newman said that estimates of the all-around economic potentialities of synthetic rubber are being constantly readjusted in the light of technical advances. He indicated that progress has "run well ahead of expectations, both as to indicated capacities of given plants and in the adaptation of the material to necessary uses." He predicted the post-war world would be able to absorb a combined natural and synthetic production capacity of two million tons annually, twice as much as in the biggest pre-war years.

The speaker recalled that it was just three years ago this month that his company had introduced at a meeting in New York, the first automobile tires made with synthetic rubber and offered for general sale in this country. The scope of progress made since that time was emphasized by a display in connection with the meeting here, of a large array of war goods in whose manufacture his company had used synthetic rubber in greater or less proportion—including airplane, military and tractor tires, conveyor belts, airplane fuel cells, carburetor diaphragms, endless-band tracks and other essential articles.

A tribute to the adaptability and skill of Texans as war workers was paid by Newman in commenting on the experience of his company in operating for the government one of the country's largest bomb and shell loading plants at Texarkana. The plant recently received the Army-Navy "E" award, which was in large part a tribute, he said, to the residents of that area who "came from the regular peacetime activities of their communities and worked efficiently and faithfully in an industry which was completely strange to them because it had no peacetime counterpart."

Interesting Facts

Each round of ammunition fired from a big gun requires four separate explosives; aerial bombs require three.

Delivery of five merchant ships a day has now become routine, according to the U. S. Maritime Commission.

Grape seeds yield oil for text and leather finishing.

Extract from the osage orange tree is used to tenderize beef.

A new way of treating cotton with synthetic resins produces a fibrous composition material from which clothes can be made without weaving the cotton into cloth.

Texas To Rank As Top Factor In Synthetics

Position As Leader in American-Made Rubber Fitting For State Says Official

DALLAS — Texas, which for years has provided three basic ingredients of manufactured rubber—cotton, carbon black and sulphur—this summer is coming into its own as the biggest single factor in the nation's huge war-born program for producing the main raw material itself—man-made rubber.

How the Lone Star state, whose matchless human and material resources have played key roles from the beginning of the war, would in the next few months assume leadership in "helping the country lick this toughest of all wartime supply problems, was explained to a meeting of Texas business and industrial leaders here today by James J. Newman, vice-president of the B. F. Goodrich company.

Government-financed plants for

the production of a total of 255,000 tons annually—more than a third of the total "GRS" production scheduled under the national program—will be in production in this state, according to present estimates, within the next 90 days, Newman said.

This total capacity, he said, will be made up of the following plants—all of them "polymerization" units in which butadiene and styrene, produced from Texas petroleum and natural gas, are combined to make butadiene-type synthetic rubber:

A 120,000-ton plant—largest of any in the whole national program—at Port Neches, built by B. F. Goodrich and with 60,000 tons of its capacity to be operated by that company and the other 60,000 by Firestone; a 30,000-ton plant at Baytown built by Goodyear to be operated by General Tire and Rubber Company and General Latex and Chemical company; a 45,000-ton plant at Borger built and operated by B. F. Goodrich, and a 60,000-ton unit at Houston, built and operated by Goodyear.

The "made-in-Texas" butadiene for these rubber factories will come from plants at Baytown, operated by Humble Oil & Refining company; at Borger, by

What You Buy With WAR BONDS

Washing machines and other household appliances are not available today. Manufacturers have converted their plants to war work. If you save today, however, by buying War Bonds, this money saved will start these factories rolling and put millions of Americans to work after the War is won.

Join the payroll savings plan at your office or factory. Save a definite amount every payday, ten percent or more of your pay check. Your pay check today buys a payday for tomorrow and gets you \$4 back for every \$3 you invest.

UNITED STATES DEPARTMENT OF AGRICULTURE

AAA NEWS

By MARVIN ALLEN, Administrative Officer
Knox County Agricultural Conservation Association

Machinery Rationing Information

In order to facilitate farmer purchase of miscellaneous farm supplies, the War Production Board has issued Priorities Regulation 19 effective June 7, 1943. This regulation will accelerate the flow of certain farm supplies to dealers by authorizing them to extend a preference rating to their orders for replacement of materials sold to farmers, and provide a simple certification governing sales to farmers.

County Farm Rationing Committees are required to approve certifications to be applied by farmers when the intended purchase of any one item (named in Priorities Regulation No. 19) at any one time, exceeds a retail value of \$25.00 when approval by the County Farm Rationing Committee is requested, the Committee will require the farmer to present convincing reasons why he now needs the quantity of merchandise he wishes to purchase. It should be noted, however, that dealers may sell the items covered by PR-19 to anyone without obtaining a certificate, but the AA-5 priority rating provided by PR-19 cannot be utilized to restock inventories unless the dealer's order from his supplier is matched by farmers' certificates. All dealers know the items listed in PR-19. Applicants should file their application for certificates with the County Farm Machinery Rationing Committee at the AAA office in

Benjamin.

Farm Machinery

The War Production Board has been asked to authorize production of 9,500 additional combines for delivery in time to relieve the farm labor problem in this fall's harvest. The War Production Board has been asked to authorize for 1944, eighty percent of the 1940 production of farm implements and place no limit on the manufacture of parts.

Why We Don't Have Enough Farm Machinery

Did you know that it takes 81-million pounds of stock steel for a 35-thousand ton battleship—that the 3-and-a-half-million pounds of steel which go into one destroyer is enough to make more than two thousand tractors, and the steel that goes into a heavy tank is enough for 200 plows? Mr. Farmer that new tractor you want might be sailing the high seas today or that new plow that you thought you had to have might be now resting after that fierce battle in North Africa. Let's try to make our old equipment run just as long and do just as much work as possible for our fighting men surely need the weapons of war.

Domestic Mechanical Refrigerators

Many communications are being received regarding the availability of domestic mechanical refrigerators for farm use. The most recent information received from the

State War Board on domestic mechanical refrigerators is that the War Production Board in Washington has recently authorized the manufacture of 20,000 refrigerators for sale exclusively to bona-fide farmers and that details of the methods of distribution will be received by the County USDA War Board soon.

Wheat Production

The wheat crop for Texas is estimated at 33,170,000 bushels, based on growing conditions as of May 1. This would be about 25 percent more than the 26,434,000 bushels 1932-41 production for Texas—but 30 percent below last year's crop of 47,438,000 bushels.

1944 Wheat Allotments

The 1944 national wheat goal has been increased over that for 1943 as a result of the International Food Conference. This means that a substantial increase in winter wheat seedings is desired in all wheat countries in Texas as well as in other wheat states.

Information in regard to individual farm allotments will be released at a later date. However, this information is being passed on to the wheat producers of Knox county so that they may plan their farming operations accordingly.

Farm Families To Receive Award

Certificates of enlistment for all out food production will be awarded all Knox county farm families who have enlisted in this year's Food for Freedom Program.

The 11x14 inch certificate, which has been signed by Secretary of Agriculture, Claude R. Wickard, will be presented to farm families in Knox county by the local county USDA War Board in the very near future. It is a simple word of appreciation and encouragement to the fighting units of the food front, the nation's farm families.

Have Economics State President

Mrs. Ercel S. Eppright, authority on foods and director of home economics at Texas State College for Women, Denton, is president of the Texas Home Economics Association. The building shown contains the TSCW foods and clothing laboratories.

Three years in a row, Knox county farm operators and their families have broken all production records. Although, working under severe handicaps, if the weather is generally favorable, Knox county producers will more than achieve that 1943 production goal even though they are much higher than the 1942.

These facts are evident because more than 600 operators have already turned in to the AAA office their measurements and signed their report of performance for this year. These reports indicate that Knox county will meet their war crop goals for 1943. To these

farm operators that have not reported their performance measurements or signed their performance reports are urged to do so just as soon as possible. We have a number of very efficient employees in the AAA office ready to help each farm operator on his measurements any day. We request the cooperation of those operators that have not filed their reports to do so just as soon as possible.

Mr. and Mrs. Clifford Selman and children of Levelland visited with friends here last Sunday. Mr. Selman is a former manager of the local Perry Bros. store.

Mrs. Agnes Mayes and Sgt. and Mrs. James Johnson of Amarillo spent the week end here with Mrs. Mayes' mother, Mrs. W. M. Mayo, her son, Jackie Mayes, and with other relatives and friends.

Mr. and Mrs. Deryl McElreath and children of Dallas spent the week end with Mrs. McElreath's parents, Mr. and Mrs. Ben B. Hunt of Goree. They also visited in the home of Mr. and Mrs. Wade T. Mahan last Sunday.

Miss Zella Ann Lawson of Fort Worth is visiting in the home of Mr. and Mrs. E. H. Mullican this week.

Having Trouble Getting Help?

So are we. Like you, we're faced with the biggest production job in our history. And, like you, we've lost many of the men who used to help us.

Yet that's only part of the story. Every day, on farm and factory, there's something new to test the skill of those running the business. Not only getting help, but—to mention a few others—rising costs, making a fair profit, and setting aside reserves for a rainy day. Essentially, those problems are the same for farm and factory, though they may at times differ in size.

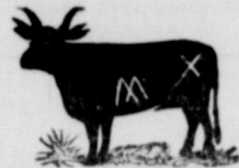

But it is that thing called "management," that peculiarly American ability to think through problems no matter how tough, that is helping to see us through today.

It is this skill in management that farmers and businessmen have most in common, a skill which insures the realization of our determination to produce all that's needed for our country today, and, tomorrow, to make a fair living through greater service to our fellow Americans. General Electric Company, Schenectady, New York.

A message for you...from 1953

(Today, John Jones is just an average American, wrestling with all the doubts and worries and problems that beset every one of us right now. But let's skip ahead 10 years. Let's look at John Jones then—and listen to him . . .)

"SOMETIMES I feel so good it almost scares me.

"This house—I wouldn't swap a shingle off the roof for any other house on earth. This little valley, with the pond down in the hollow at the back, is the spot I like best in all the world.

"And they're mine. I own 'em. Nobody can take 'em away from me.

"I've got a little money coming in, regularly. Not much—but enough. And I tell you, when you can go to bed every night with nothing on your mind except the fun you're going to have tomorrow—that's as near Heaven as a man gets on this earth!

"It wasn't always so.

"Back in '43—that was our second year of war, when we were really getting into it—I needed cash. Taxes were tough, and then Ellen got sick. Like most everybody else, I was buying War Bonds through the Payroll Plan—and I figured on cashing some of them in. But sick as she was, it was Ellen who talked me out of it.

" "Don't do it, John!" she said. "Please don't! For the first time in our lives, we're really saving money. It's wonderful to

know that every single payday we have more money put aside! John, if we can only keep up this saving, think what it can mean! Maybe someday you won't have to work. Maybe we can own a home. And oh, how good it would feel to know that we need never worry about money when we're old!

"Well, even after she got better, I stayed away from the weekly poker game—quit dropping a little cash at the hot spots now and then—gave up some of the things a man feels he has a right to. We made clothes do—cut out fancy foods. We didn't have as much fun for awhile but we paid our taxes and the doctor and—we didn't touch the War Bonds.

"We didn't touch the War Bonds then, or any other time. And I know this: The world wouldn't be such a swell place today if we had!"

YOU'VE DONE YOUR BIT --- NOW DO YOUR BEST!

Goree News Items

Goree people mourn the passing of Mrs. F. F. Goode, pioneer Texan and pioneer citizen of Goree, who died on Thursday, July 1st. A large crowd of sorrowing friends were present for the funeral last Friday, and the many floral offerings attested to the esteem in which Mrs. Goode was held in this county. Mr. and Mrs. Goode were prominent citizens of this county for many years, and both are greatly missed. Mr. Goode died three years ago.

Mrs. C. R. Robinson and little daughter, Charlene, are here for a visit with Mrs. Robinson's parents, Mr. and Mrs. W. O. Barnett.

Mrs. Floyd Coffman of Littlefield and Betty Glo Norris, also of Littlefield were visitors here this week with their parents, Mr. and Mrs. E. W. Norris and Mr. and Mrs. Parks Norris. Peggy Norris returned home with them Tuesday for a visit.

Ed Jones is very sick at this writing. His many friends wish for him a speedy and complete recovery.

Mrs. Will Ratliff was a business visitor in Stamford last Tuesday.

Mr. and Mrs. Deryl C. McElreath and children of Dallas spent the week end here with Mrs. McElreath's parents, Mr. and Mrs. Ben B. Hunt.

The children of Mrs. F. F. Goode who were here for their mother's funeral last Friday from out of town were Mr. and Mrs. Edward Goode of Abilene, Mrs. Lester Whitlow of Bartlett, Texas, and a granddaughter, Mrs. William F. Fulton of Lubbock.

Mr. and Mrs. Charles Edwards are the proud parents of a baby girl who was born on July 6th. The little girl's name is Annie Theonia. Mother and little daughter are reported doing nicely.

Dr. and Mrs. W. M. Taylor were business visitors in Munday one day the latter part of last week.

Mrs. Fannie Mae Weston of Atlanta, Ga., has returned to her home after a two weeks visit with her brother and his wife, Dr. and Mrs. W. M. Taylor. Dr. and Mrs. Taylor drove to Abilene with Mrs. Weston Sunday, where she took the train for her home. Mrs. Weston is secretary of the board of education of the state of Georgia.

J. V. Daniell of Albuquerque, N. M., was a visitor here with his son and family, Mayor and Mrs. F. G. Daniell last week. Mr. Daniell had visited a daughter at Houston. Mr. and Mrs. Daniell went as far as Lubbock with their father and visited relatives there.

Miss Marjorie Arnold left Tuesday morning for Abilene, where she is visiting friends.

Mr. and Mrs. Frank Hill were Fourth of July visitors with their daughter and family, Mr. and Mrs. Jack Coy.

Mr. and Mrs. Victor Edwards of Waco were visitors in the home of Mr. and Mrs. Ira Stalcup last week.

Mrs. R. V. Milleron of Big Spring was a visitor here last week in the home of her sister and family, Mr. and Mrs. Jess Hargrove, and with other relatives.

Mrs. Carl Barger has been very sick for a week but is improved some. Her two sons who are in the service are home to attend her bedside.

J. S. Ponder of Mangum, Okla., is visiting in the home of his cousin and family, Mr. and Mrs. Harper Cooksey. The cousins had not met in forty years.

Mr. and Mrs. J. L. Smith and little daughter, Glenda Carol, of Houston were visitors in the home of Mrs. Smith's mother, Mrs. Les-

Miss Bonnie June Roberts spent the week end in Childers, visiting with her parents.

I, Travis Lee, cashier of the above-named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

Gems Of Thought

PREJUDICE
The prejudices of ignorance are more easily removed than the prejudices of interest; the first are all blindly adopted, the second willfully preferred.—Baneroff.

There is nothing respecting which a man may be so long unconscious, as of the extent and strength of his prejudices.—Jeffrey.

None are too wise to be mistaken, but few are so wisely just as to acknowledge and correct their mistakes, and especially the mistakes of prejudice.—Isaac Barrow.

The public sentiment is helpful or dangerous only in proportion to its right or its wrong concept, and the forward footsteps it impels or the prejudice it instills.—Mary Baker Eddy.

The great obstacle to progress is prejudice.—Bovee.

War Needs Money—YOURS!

This war calls for every ounce of energy, every dime and dollar we can muster for ships—and planes—and guns.

Hit the enemy with a \$25 Bond. Hurt him with a \$50 Bond. Help to blow him sky-high with a \$100 or \$1,000 Bond.

Don't delay—every hour counts. Buy United States Defense Bonds and Stamps TODAY.

Derald G. Gray Completes Course

AMARILLO ARMY AIR FIELD—Pfc. Derald G. Gray, son of Mr. and Mrs. R. D. Gray of Munday, Texas, has completed his course of studies as an aviation mechanic in this school of the Army Air Forces Technical Training Command.

His graduation from this technical school now fits him for airplane maintenance and he will be sent to some air base where he will assist in keeping America's

Flying Fortresses in the air for Allied victory.

In addition to completion of the schedule of academic and practical studies as an aviation mechanic, he has been thoroughly drilled in military tactics and defense and a course of physical training that has conditioned him to meet all requirements of an American aviator.

Mrs. Lon Cottingham of Seymour and Mrs. Thelma Knott of Grandbury were business visitors here last Tuesday.

D.E.M. Division Information

Stoves To Be Rationed

All new heating and cooking stoves designed to burn coal, wood, oil or gas for domestic use (with certain exceptions) will be rationed in mid-August, the OPA has announced. The plan was originally scheduled to go into effect in late June. If you have no cooking stove now and need one, you may apply to your nearest War Production Board office. If your present cooking stove is worn beyond repair and you wish to replace it before the amended ration order becomes effective, go to your local dealer for information.

Program to Get Teachers

A growing shortage of teachers in rural schools has caused the women's advisory committee of the War Manpower Commission to advance a 6-point program for women's groups seeking to avert a critical situation in school systems and lowering of educational standards. The program follows: (1) campaign against restrictive hiring rules, (2) influencing school boards to raise teachers salaries, (3) emphasizing education as an essential activity, (4) urging women who have left the teaching field to return for the emergency; (5) urging high school graduates to enroll in teacher training courses; (6) persuading inexperienced teachers and those returning to the field to enroll in refresher courses.

Strikes Cut Coal Supply

Because of strikes, only 838,000 tons of bituminous coal were added to the nation's stockpiles in May, according to solid fuels administrator, Ickes. "Since we must build up stockpiles in the spring and

summer if we are to have sufficient coal to carry us through the fall and winter, our failure to increase them now to the full extent of our capacity will multiply our difficulties next winter," Administrator Ickes said.

Pick Up Gas Application Forms
Application forms to renew present "A" and "D" gasoline rations are available at places announced by local ration boards. OPA urges car and motorcycle owners to pick up copies of the application and mail them to their ration boards immediately. Present "A" books expire July 21.

Christmas Packages For Soldiers
Christmas packages may be mailed to American soldiers overseas without a request from the soldier, from September 15 to October 15. The packages must be no more than five pounds in weight, fifteen inches in length, and thirty-six inches in length and girth combined. They should be marked "Christmas gift parcel." Only one such package will be accepted for mailing by or on behalf of the person or concern to or for the same addressee during any one week.

Cannot Raise Battery Prices
Complaints have reached OPA from various parts of the country that farm radio batteries which retailed for \$5 to \$7, lately because of scarcity—have been selling for \$10 to \$14 each. Retail prices on batteries are "frozen" under the general maximum price regulation at the March 1942 level of the individual dealer. OPA encourages farmers to report any overcharge.

Many Schools Burn
More than a million dollars worth of schools are destroyed by fire per month. To replace these buildings will require approximately four million dollars worth of critical materials—materials that could have gone into the manufacture of planes, tanks, battleships and guns. WPB has urged all schools and colleges to take fire prevention action.

Clothing Prices Stabilized
Women's, girls' and children's fall dresses, suits, coats, blouses and similar apparel will cost approximately the same as last year, as a result of a revised maximum price regulation for manufacturers issued recently by the OPA.

Civilian Meat Quotas
More pork, lamb, and mutton, and less beef, will be available for civilian consumption during the 3-month period beginning July 1. The War Food Administration has announced. New quotas that commercial slaughterers may deliver for civilian consumption during the 3-month period beginning July 1 are: beef and veal, 65 per cent; pork, 85 per cent; and lamb and mutton, 80 per cent. WFA officials said the changes in percentages are not expected to make any material change in the total quantity of meat available to civilians from commercial slaughtering.

Military Scholarships for Boys
Approximately 25,000 high school boys between 17 and 18 years of age will be enrolled in an army specialized training program and sent to school at selected colleges and universities. The reserve program will be limited to those volunteers who received qualifying scores on the preinduction test administered last April 12, and to those who qualify in similar tests to be given in the future. The next test is scheduled for early November.

AMERICAN HEROES

BY LEFF

Two hours after the ill-fated destroyer Hammann was sunk, her skipper, Comdr. Arnold Ellsworth True, was rescued from the water and found to be supporting two enlisted men. He himself was so exhausted that he did not realize both men were dead. Comdr. True, who was awarded the Navy Cross and the Distinguished Service Medal for heroism, typifies the spirit of our men in arms. They give to the limit of their endurance. Do YOUR part! Buy more War Bonds and Stamps!

U. S. Treasury Department

THE GOLDFISH CLUB

THE roster of exclusive "clubs," whose members are drawn from the ranks of the airforce overseas is growing every day, and now there's a club to accommodate every type of sky fighter whose exploits have earned him a membership.

The latest "club" to be granted a charter is the "Goldfish Club"—and as the name implies, its membership consists of the fellows who've had to swim for their lives. The first member to bring the smart emblem of this quaint society to Canada was Flight Lieutenant Johnny Tett, D.F.C., recently returned after two years service overseas. The club badge portrays a white-winged goldfish on a black background, skipping over two blue waves. It's worn over the right pocket of the battle dress or under the lapel of the regular blues—like a detective's badge.

Membership in this highly exclusive organization is granted airmen who have put in "dinghy hours"—or in other words, had to swim or paddle home from a hop. Johnny Tett is well qualified to wear the significant emblem, after putting in 13 hours with the members of his crew in a dinghy in the chilly North Sea. Forced down, they had to take to their collapsible rubber boat, which was to be their home until they were spotted by a Hudson bomber, picked up by an air sea rescue craft and returned to England.

The idea of granting membership in special clubs to fliers who had lived through thrilling—and embarrassing—exploits started with the famed "Caterpillar Club" for airmen who saved their lives by parachute. The Caterpillar has in

The emblem of the Allied air forces' latest club—"The Goldfish Club" made up of fliers who have been dunked in the sea and taken to their rubber dinghies.

its ranks thousands of members, swelled tremendously in the present war.

Another exclusive club to which several P.C.A.F. men belong is the "Late Arrivals Club", founded in the Western Desert, but now expanded to cover operations everywhere. To this club go airmen who have been shot down and had to "hoof it" home; and their emblem—dubbed the "Order of the Boot"—is a winged boot.

There'll be some tall tales told when and if these three decide to hold a tri-club parley—and we're not betting on any one to take the cake.

employed in May were 45 years of age or older, said Paul V. McNutt, chairman of the War Manpower Commission, and added that the steady rise in employment among older workers indicates that employers are learning to value the experience and "steadiness" of more mature workers.

"Emergency Tires" Now For Sale
Unrepaired tires, branded with an "O" on the sidewall, may be sold to holders of Grade III rationing certificates now. Previously, sale of tires needing repairs was forbidden. These tires, which are unfit for recapping but which still have some mileage in them,

may be sold unrepaired or with temporary repairs such as reliners, boots and patches.

Fewer Drivers Eligible for Used Tires

Beginning July 1, a motorist to be eligible for a used tire must show he used his car for an essential purpose. The applicant must

THE STATE OF TEXAS

TO CECILIA HENDLEY, GREETING:

You are commanded to appear and answer the plaintiff's petition as to or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 23rd day of August, 1943, at or before 10 o'clock A. M. before the Honorable District Court of Knox County, at the Court House in Benjamin, Texas. Said plaintiff's petition was filed on the 5th day of July, 1943. The file number of said suit being No. 4297. The names of the parties in said suit are: Dewey Hendley as Plaintiff, and Cecilia Hendley as Defendant.

The nature of said suit being substantially as follows, to-wit:

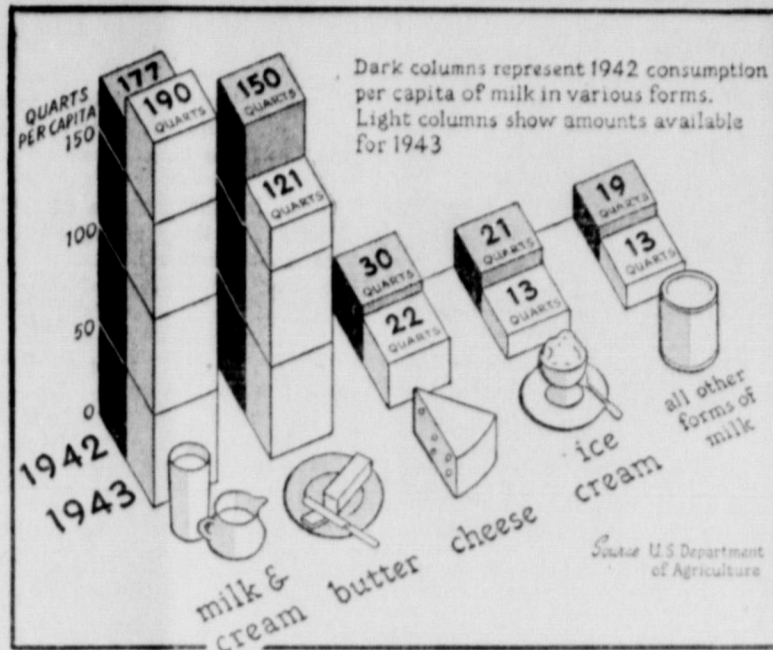

Being a suit for divorce, plaintiff alleging marriage of the plaintiff and defendant, and that on account of cruel treatment he was forced to permanently abandon defendant on or about the 31st day of March 1943, praying for a divorce and for the care, control and custody of Bruce Hodge Hendley and Bobby Dan Hendley, minors and fruits of such marriage, being minors under sixteen years of age, and for general relief.

Issued this 5th day of July, 1943. Given under my hand and seal of said Court, at office in Benjamin, Texas, this 5th day of July A. D., 1943.

(Seal) LEE COFFMAN, Clerk District Court Knox County, Tex.

Mr. and Mrs. Leland Hannah were visitors in Dallas the first of this week, where Mr. Hannah attended market and purchased merchandise for the Elford Drug store here.

DAIRY FOODS HAVE GONE TO WAR

To provide for the nutritional needs of the nation's fighting forces and for lend lease, civilians must get along with less dairy products in 1943 amounting to the equivalent of 39 quarts of milk. Last year the average person consumed 397 quarts of milk as milk or milk products. This was more than in any previous year. For 1943 there are only 358 quarts of milk available per person.

There have also been important shifts in the way in which milk is consumed. Last year the average person consumed the equivalent of 177 quarts of milk as milk and cream. This year there will be 190 quarts per person available in that form. But in every other case the amount of dairy products available has declined. Last year 150 quarts of milk went into the making of the

16 pounds of butter the average American ate. This year we can only have 12.8 pounds of butter coming from 121 quarts of milk. Last year the average person consumed the cheese from 30 quarts of milk, the ice cream from 21 quarts of milk and condensed and dry milk from 19 quarts. This year there are only 22 quarts available for cheese for the average person; 13 quarts for ice cream and 13 quarts for milk in other forms. Even though production is higher than last year all of the balance of the product is being used for the armed forces and for lend lease. Because of the exceptional nutritional and protective qualities of dairy products soldiers are given approximately twice as much of them as are available for the average civilian, points out the National Dairy Council.

I GIVE YOU TEXAS
by BOYCE HOUSE

What America needs is not so much a good 5-cent cigar as it is one raudo newscaster or news commentator who will talk in the American language.

"J-u-n-k-e-r-s" spells "junks" to me and the sooner all those German planes are junk the better off the world will be.

"K-i-s-s" certainly spells "kiss"—then why should "Kiska" spell "Kees-ka"? After all, it's an American island and we've owned it a hundred years. How long do we have to own it before we can pronounce it our way?

The sawdust Caesar of Italy is "Il Deuce" to me because he's just a cheap little two-spot and his name is "Muss-o-lin-i" because he

tried to muscle in but only made a mess of things.

"Nazi" ought to sound as much like "nasty" as possible because they mean about the same.

Some day the people are going to rebel about all this hi-falutin' guff from the lads with the velvet tonsils—and we'll have at least one news commentator who won't "rawther" and "eye-ther" and "neye-ther" us to death.

Though no one has been clamoring for details, here's a self-portrait:

I like crowds; am logical (I hope) but am proud of a few pet prejudices; like poetry and oratory; am impatient until the task before me is performed and am usually prompt in answering letters; incline to take sides—if I know nothing of either scrapper, then I'm for the under-dog; resent an injury to a friend more than to myself; can't stay mad long; and, as the years march on, am becoming a little doubtful of my opinions—not so sure that I know the answers.

Here and there: A store in Houston advertises "Cigaretz." A detachment of soldiers march-

Weekly Health LETTER

Issued by Dr. Geo. W. Cox, M.D., State Health Officer of Texas

AUSTIN — With the current incidence of poliomyelitis in Texas being somewhat over the seven-year median, Dr. Geo. W. Cox, state health officer, is urging the public to cooperate in helping to prevent the spread of this crippling disease.

"Children should not visit homes where poliomyelitis or symptoms of this disease are present. Promptness in diagnosing poliomyelitis is one of the most important factors in its control," Dr. Cox declared.

"Direct contact between persons is the chief factor in the spread of infantile paralysis and since carriers are difficult to determine, it is advisable to reduce to a minimum all human contacts during any outbreaks of this disease." Dr. Cox stressed the fact that a rigid program of sanitation is advisable since it has been suspected that flies and other seasonal insects may convey the virus or germ of poliomyelitis. He added that insect transmission has not been scientifically demonstrated but pointed out that sanitation is always advisable in controlling disease and that filth is likely to prove dangerous.

Early symptoms of infantile paralysis are headache, fever, vomiting, unusual drowsiness, and irritability, followed by stiffness in the neck and back.

Children under five years are most susceptible and all children under twelve years should be watched for suspicious symptoms. Dr. Cox urged that a physician be called immediately if infantile paralysis is suspected. If the disease is definitely diagnosed, local health authorities should be contacted immediately and patients isolated for at least 21 days.

3 Farm Labor Centers Open In Knox County

Fighting the battles on the farm front these days presents some tough problems that are hard to solve.

The three farm labor recruiting stations in Knox county are making some progress. Boys, girls, men and women all over the county are doing all that is possible to help out in this labor shortage and many farmers have registered their labor needs. Hundreds of Knox county farmers are grasping at whatever source of labor supply they can find.

The situation becomes increasingly clear that non-farm youth and adults are urgently needed more and more to work on farms during peak labor periods.

Food is a weapon of war as vital as planes, ships, tanks, guns, and huge army and navy in fighting Axis. To produce this food, farmers of the United States have pledged themselves to greater production. How well they succeed depends to a great extent on manpower and woman power and boy and girl power.

Never has there been a time when food loomed more important to this country, to the United Nations, and to military strategy, or when farmers faced a bigger challenge in growing enough. Last year, in the face of labor and machinery shortages, farmers produced an all-time record supply of food. In spite of this and surplus supplies on hand, we already have rationing of important foods.

FARMERS HAVE ASSISTANCE OF FDA IN MARKETING CROPS

COLLEGE STATION — Assurance that the Texas farmers will have assistance in marketing their production of vital crops was seen in an announcement today by E. L. Upshaw, state marketing supervisor for the USDA War Board.

When a commodity cannot be readily disposed of without assistance, the State USDA War Board in cooperation with the Food Distribution Administration will make every effort to help move the commodity into regular channels at a fair price, Upshaw assured growers and grower groups. Failing in this, the commodity will then be assembled by the County USDA War Boards and purchased by the Food Distribution Administration.

As an example of the way this program will work, Upshaw cited several recent instances in the state in which it has been necessary to assist farmers in moving their crops.

Green beans have been diverted to processors, carrots have been purchased and dehydrated for Lend-Lease shipment and future use, and potatoes have been moved into regular commercial channels. These commodities came off at a time when regular local marketing channels were glutted, and the War Boards cooperating with the Food Distribution Administration had to assist the farmers in finding additional outlets.

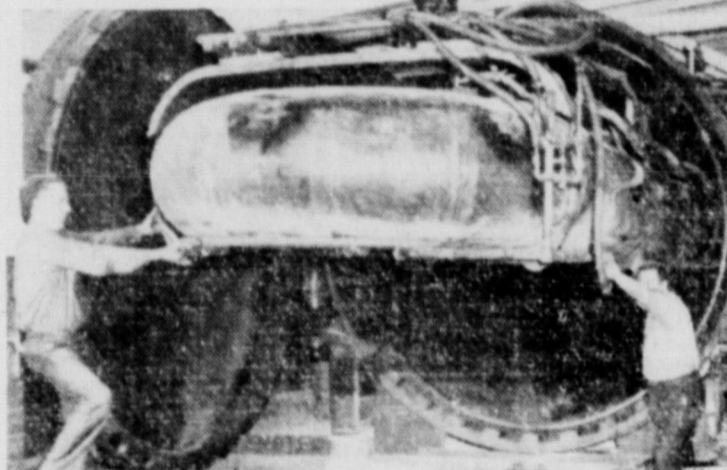

L. J. Cappleman, regional administrator of FDA, has assured the War Board that purchases will be made when and where necessary to assure farmers a fair return for their production. Assurance also was given that food will not be wasted. Some will be diverted into processing channels and the remainder used by state institutions or directed through various outlets available to the FDA.

In outlining this program, Cap-

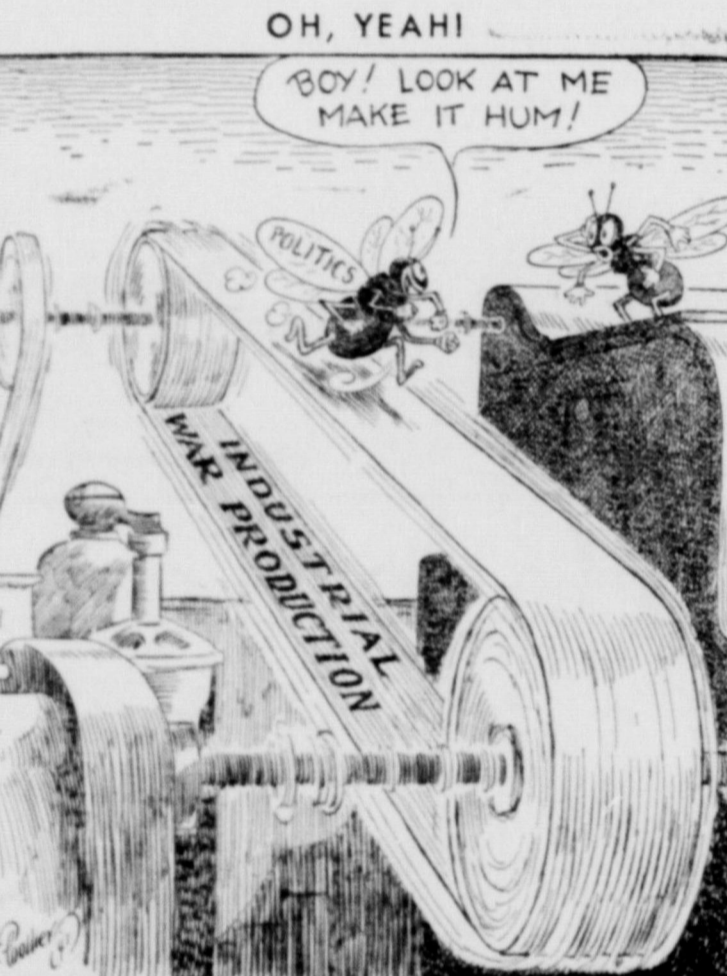

People, Spots In The News

NURSE HONORED—Somewhere in the Pacific—Second Lt. Dorothy P. Shikowski, 23, of Green Lake, Wis., receives air medal from Lt. Gen. Millard F. Harmon at a south Pacific advance base, for risking her life, as an army nurse, trying to save a marine navigator in a plane crash.

NEXT STOP: THE U. S. NAVY—Workers pull an inflatable rubber barge destined for Navy use out of a new 42-foot vulcanizer just put into operation at a B. F. Goodrich company plant to speed output of the barges used in tending seaplanes. New vulcanizer cuts "curing" time from three hours to 30 minutes per barge.

Cappleman emphasized the part to be played by County War Boards. Their responsibility is keeping a close watch on marketing conditions and making advance surveys to determine the necessity for the program. In case it becomes necessary for FDA to make purchases it will also be the responsibility of County War Boards to assemble commodities at central

Training Meet Is Held Recently At Benjamin

An all day Training meeting was held June 28 in the assembly room of the courthouse by Lucile Kinn, county home demonstration agent, for the purpose of training leaders for the canning centers on the most recent methods of food preservation. Both the hot and cold pack methods were demonstrated.

The foods demonstrated at this training meeting were as follows: green beans, shelled black-eyed peas, carrots, corn (whole grain and cream style) and chicken. The agent showed how to cut the chicken up separating the light and dark meat.

Those present for the meeting were as follows: Mr. King, supervisor of Vocational Agriculture of Lubbock; Mr. Dowell, vocational agriculture teacher of Munday; Mr. M. McGaughey, county superintendent; Mr. Hoffman, superintendent Rhineland schools; Mrs. E. F. Banton, principal Union Grove school; Miss Lela Jones, principal of Truscott school; Mrs. Logan, principal of O'Brien school; and the following supervisors of the canning centers: Miss Lennie West, Munday; Mrs. Hoffman, Rhineland; Mrs. C. Allen, Vera; Mrs. Smith, Benjamin; Mrs. Berg, Truscott; Mrs. Ulric Lea, Union Grove, and Mrs. Waldrip, O'Brien.

These canning centers are not a WPA project and have no connection with school lunch room program, but are food conservation course set up under the War Production Training Program and are strictly a part of the war effort.

Every person in the county is invited to take their food and cans to these canning centers and do their own work and take their food home with them.

Activities Of Colored People

Leading the move last week to give away a chicken as a means of raising funds for the colored church in Munday were Effie Lewis, Simon Williams and Elizabeth Napper.

The chicken was awarded to Fred Broach.

Members of the colored church express their appreciation to everyone who cooperated in this effort to raise funds with which to carry on the church activities. A total of \$8 was raised.

Bill Rogers, who recently underwent an appendectomy at a Wichita Falls hospital, was returned to his home here last Sunday night. He is reported to be doing nicely.

NOTICE—We have plenty of choke proof Cotton Dusters. If interested in a duster, place your order at once. J. L. Stodghill.

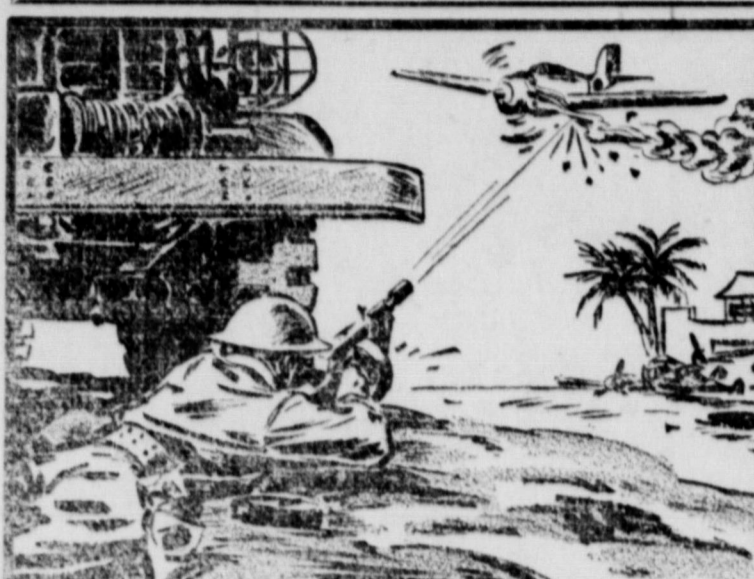

Tommy Edgar of Dallas and Elliott Edgar of Fort Worth visited briefly with Mr. and Mrs. Aaron Edgar last Tuesday afternoon. They were enroute to Wellington to visit their parents, Mr. and Mrs. E. M. Edgar.

AMERICAN HEROES

BY LEFF

The Distinguished Service Cross has been awarded Staff Sgt. Doyle Kimmery of Huntington, Texas, for manning a sub-machine gun and returning the fire of low-flying enemy planes during the Jap attack on Hickam Field. When his ammunition was gone he ran from the cover of his truck to get more, and kept firing until the truck was bombed. He showed bravery beyond the call of duty. Figure out for yourself how much you can invest in War Savings beyond what you are doing now.

HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

Oat harvesting is on now, and farmers are quite busy in their crops.

The Fourth was spent at Seymour Park with the I. N. Mobley family when all were present except the only son in service.

The E. J. Jones family spread lunch at the family home when Philip Jones' family were here who live at Grand Prairie.

Edd E. Jones is on the sick list this week, and his family just received a letter from his son, Paul Jones who is overseas.

Mr. and Mrs. T. C. Lambeth, son and daughter of Nevada, are visiting his father, J. H. Lambeth and Ben Holder and family before going to Port Arthur, Texas.

The H. D. Club met at Mrs. B. R. Holder's Tuesday, July 6th at 3 o'clock p. m. when the county home demonstration agent, Miss Lucile King, gave a demonstration on "machine-lick" to all present.

Miss Elizabeth Mounce visited relatives in Seymour over the week end. All of her seven sister and one brother were there for a family reunion.

H. I. Albertson Now Lieutenant

FORT WASHINGTON, MD. — Howard I. Albertson of Munday, Texas has been commissioned a second lieutenant in the Army of the United States after successfully completing a course of training at the Adjutant General's School here.

His letter of appointment was handed to him by Brigadier General H. C. Holdridge, commandant of the school and Director of Schools Training of the Army Administration Schools, at the graduation exercises of class 20.

Lieutenant Albertson was one of a selected group of enlisted men, drawn from virtually all arms and branches of the services and designated to attend the Officer Candidate School. During the intensive course he received training in the executive and administrative functions of the nation's largest business, the Army of the United States.

Mrs. T. A. McCarty returned to her home in Wichita Falls last Friday after several days visit here with her daughter, Mrs. Sebern Jones, and her family.
