## Carriers Start War Bond Goal To "Buy A Bomber"

Texas rural letter carriers at their Fort Worth convention in July agreed to start a two-month campaign on Wednesday, Sept. 1, to sell \$300,000 worth of war bonds. The money thus raised will be used by the War Department to buy a Flying Fortress bombing plane, and a distinctive name for this plane will be selected by the carriers.

As far as is known, the Texas carriers are the only organized body of government workers who have undertaken such a patriotic campaign, and they are expecting the active cooperation of every rural route patron who can buy bonds. It is especially requested that such patrons buy their bonds directly from the carriers who solicit the sales in order to be counted in this drive. If, for any reason, a rural patron should buy a bond at a post office or bank he should ask at the time that his carrier be given credit for the sale if it was due in any way to his efforts.

The state committee in charge of this campaign is composed of W. E. Suddarth of Tahoka, chairman, with Paul Attaway of Big Spring and W. L. Fletcher, Jr. of Hamlin. This committee has completed plans for the drive.

"The sale of this amount of bonds during the two-month period should be easy," the committee said, "if all the carriers in Texas do their part, and it is expected that they will have the full support of all rural route patrons who can purchase bonds."

The carriers particularly request that these patrons buy bonds directly from them rather than from a post office or bank, as it is important that they get credit for every sale they solicit.

This campaign gives an opportunity to every rural route patron to have a direct hand in the sending of some mighty effective messages from Texas rural routes to Tokyo or Berlin.

Rural carriers of Knox county are starting their campaign this week, and it is expected that all carriers of the county will cooperate in the fullest.

## Premium Given For First Bale

A \$50 War Bond went to the grower of the first bale of 1943 cotton to be ginned in Munday. Frank J. Cerveny, who ginned the first bale, was awarded the \$50 bond last Friday as a premium. The award was made by the Munday Chamber of Commerce.

The first bale was ginned here on Monday, August 16, ten days earlier than the first bale of 1942. Mr. Cerveny expressed his sincere appreciation to the Chamber of Commerce for this premium. He stated, however, that he was not expecting a premium and that he hadn't thought of having the first bale to be ginned here when he started to the gin with the cotton.

## Funeral For Mrs. Merle Ladd Is Held Monday

Funeral services for Mrs. Merle Ladd, 50, a former resident of Munday, were held at five o'clock last Monday afternoon from the First Methodist church in Munday. Rev. J. R. Bateman conducted the service, being assisted by Rev. W. H. Albertson.

Mrs. Ladd, who had been in failing health for several weeks, passed away last Sunday afternoon at the home of a sister, Mrs. Walter Baggett of Electra.

Born in Texas, Mrs. Ladd formerly lived at Anson, Electra and at Munday. She had been making her home with her sister in Electra for the past three months.

Surviving are her mother, Mrs. Martha E. Murphy of Munday; a daughter, Mrs. E. H. Bauman of Yoakum, Texas; a grandson, Philip Edward Newman of Yoakum, and two sisters, Mrs. Baggett of Electra and Mrs. J. H. Hogan of Anson.

Burial was in the Johnson cemetery at Munday.

## 3<sup>RD</sup> WAR LOAN DRIVE FOR INVASION

Put a circle around the date—Thursday, September 9th. For that's the day the 3rd War Loan Drive starts.

On that day, you will be asked to go the limit to back our valiant fighting men. You will be asked to do your share in the greatest invasion the world has ever seen. Answer your country's roll call!

Your part is to back this invasion by investing in at least one EXTRA \$100 War

Bond in September. That's in addition to your regular War Bond purchases. Invest more than \$100—a lot more—if you possibly can.

The job is big. Everyone must do his full share if we are to put this drive over the top.

War Bonds are the safest investment in the world. For your own sake, for your Country's sake, put every spare dime and dollar in War Bonds during the 3rd War Loan Drive.

## BACK THE ATTACK—WITH WAR BONDS

### PALACE MARKET TO OPEN NEXT SATURDAY

C. R. Elliott, owner of the Palace Market which has been closed for several months, announced Wednesday that the market will be opened again next Saturday. It will be in the same location, in the Clover Farm Store.

Bill Mabry will serve as manager of the market. The cooler will be filled with home killed meats, and both Mr. Elliott and Mr. Mabry solicit your patronage.

### Bonita Seed Available From 4-H Club Boys

Twelve of the 47 4-H Club members who received six pounds each of the new grain sorghum known as Bonita report that they will have 13,800 lbs. of seed to sell their neighboring farmers.

Bonita is new combination grain sorghum that was developed by the Chillicothe Experiment Station; it has been crossed with kafir and Feterita and then back crossed with Hegari making its percentage 50 percent Hegari, 25 percent kafir and 25 percent Feterita.

Practically all of the club members report that their yields are five to eight bushels more per acre than other types of combine grain sorghums.

This new variety of grain sorghum is equal in feed value to any of the other grain sorghums according to feeding tests at Spur station.

The club members who will have Bonita seed for sale are Tommie Montandon, Knox City; Clarence Searecy, Munday; John Yoyd Lambeth, Goree; Alvin Jungman, Munday; Fermin Varnell, Knox City; Walter Schumacher, Rhineland; H. C. Claborn, Munday; Billie Hendrix, Goree; Kelton Tidwell, Munday; F. A. Johnston, Munday; Jimmie McGaughey, Vera; Curtis Wayne Gollehon, Munday.

### Economy Store Is Opened Here On Last Saturday

The Economy Store, which has been closed for a period of several months, was re-opened here last Saturday under the management of George and Sam Salem.

"We have a big selection of merchandise in the store," Mr. Salem said, "some of which we were very fortunate in securing at this time. We have opened the Economy Store so we may serve you better during the fall months and we will appreciate your patronage."

Misses Eugenia and Lorene Thomas of Wichita Falls visited in the home of Mr. and Mrs. Barton Carl the latter part of last week.

### Hatchery And Feed Store To Be Opened Here Soon

D. H. Davis of Lamesa was here the first of this week, making preparations for the opening of a hatchery and feed store in Munday. This new business enterprise will be opened in the Jones building, next door to the Clover Farm Store.

Mr. Davis, who has been in the hatchery business at Lamesa for 19 years, stated his plans are to open around September 15.

Further announcements regarding the opening will be made at a later date.

### HAVE TONSILLECTOMIES

Jerry and Norman Gaines, small sons of Mr. and Mrs. George Gaines, underwent tonsillectomies at the Knox county hospital last Monday. They are doing nicely, according to latest reports.

### Gen. J. Watt Page Makes Public His Remarks About Drafting of Fathers

General J. Watt Page, State Selective Service Director, Friday made public a digest of his remarks at a headquarters staff conference on the subject of the induction of fathers. He said:

"I am asked many times every day—and I know all of you are—about the drafting of fathers. If I could be given one convincing argument that the 18, 19 and 20 year old boy, unmarried, owes a greater moral obligation to fight for his country than the father of children, then I'd be glad to 'go over to the camp' of those who think fathers should not have to serve in the armed forces.

"This is a young man's war. The older men cannot stand the terrific strain of present-day combat duty. The man in his thirties may stand up to the gaff for two or three or four days, but after that he is done and becomes a liability instead of an asset in the front lines. That does not mean, however, that there are not thousands upon thousands of other jobs in the armed services which can be handled by the older men.

"This drafting-of-fathers controversy, of which so much has been made, is a potent weapon in

## Committees Formed for Third War Loan

### Soil District To Be Staffed By October First

The Wichita Brazos Soil Conservation District which includes the north half of Haskell county and all of Knox county will be staffed October 1st according to R. O. Dunkle, county agent.

The staff members will include Engineer, Agronomist, Soils Analyst, and a farm planning specialist or supervisor. Two priority areas have already been submitted to the supervisors for their approval. One area is near Rhineland and the other is west of Knox City on the E. O. Jamison ranch.

### Determining the Order in Which Areas in the District Will Be Worked

The district supervisors will designate priority areas for educational activities, farm planning, the establishment and maintenance of conservation measures and the routing of equipment.

It will be the policy of the district supervisors to work with groups of farmers and ranchers who operate nearby farms or ranches, rather than with farms or ranches scattered throughout the district. Such is a group of farmers or ranchers shall be known as a priority area. A priority area shall consist of at least five farmers or ranchers or one or more farmers or ranchers owning not less than 2,000 acres of land.

When an individual farmer or rancher applies for assistance on a farm or ranch that is isolated from other applicants, he will be requested to secure applications from enough of his neighbors to meet the standard of the priority area.

Copies of the District Soil Conservation Plan and program will be secured at the county agent's office in Benjamin. This program and plan of work was written by farmers and ranchmen who live in Knox county, who live in every community in Knox county with the exception of only one.

The state and national Soil Conservation Boards have highly commended the farmers and ranchmen of Knox county for the splendid manner of cooperation and broad knowledge of soil conservation problems.

### ATTEND ASSOCIATION MEET IN ROCHESTER

Rev. W. H. Albertson, A. U. Hathaway, Martha Ann Reynolds and Virginia Ruth Albertson represented the Munday Baptist church at the Haskell Baptist Association meeting which was held with the Rochester church last Tuesday. They reported a very enjoyable and inspirational program for the one-day session.

### Gen. J. Watt Page Makes Public His Remarks About Drafting of Fathers

the hands of those who are most interested in slowing up our war effort through creating confusion and unrest among our people. It has even been used to strike a glancing blow on the heads of some of our lawmakers.

"We should analyze carefully the sources from which emanates all of this disturbing propaganda, concerning fathers. The great hue and cry does not come from fathers themselves. From my personal observations I am convinced that the vast, vast majority of the fathers feel it is not only their duty but their privilege to take their place in the armed services in this war to preserve everything which is precious to us. Thousands have already done so. If fathers should not be taken now, then what real right have we to retain in the services those fathers already there? What would the discharge of all fathers now serving mean? It would mean the disruption, in a greater or less degree, of our fighting teams—our fighting units; it would mean prolongation of the war; it would mean that many hundreds of boys who would otherwise come back to their homes will not come back—ever."

"This drafting-of-fathers controversy, of which so much has been made, is a potent weapon in

W. E. Braly, county chairman, announced this week that all committees are being formed in preparation for the Third War Loan Drive which opens throughout the nation next Thursday.

Mr. Braly met with the Knox City committee on Tuesday night, at which time a large working committee was organized and plans were laid to begin the drive on opening day. Other communities are also forming their committees.

Mrs. C. P. Baker of Munday has been appointed Women's Chairman of the War Finance Committee of Knox County, and plans are under way for securing the active cooperation of many Knox county ladies in this drive.

Quotas for each community will be given before September 9, opening date of the drive, Mr. Braly announced. These quotas had not been completed this week, but the county chairman said that each community quota would be slightly more than doubled that of the second war loan drive.

The county quota of \$532,000 does not include that to be raised by subscriptions of banks, as was the case in the second war loan drive.

"The cooperation of every individual in Knox county is needed to put the county over the top in this drive," Mr. Braly said, "and we expect everyone to do their utmost. This seems like a big quota—and it is—but we are brought to realize that our boys are paying a big price when they step on a boat for overseas duty.

"These boys do not know where they are going, and they realize that they may be called upon to make the supreme sacrifice. . . . that their 'quota' may mean the giving of their lives. . . . that they may never return home to those they love.

"With our young men making this sacrifice daily, we cannot afford to do less than 'back the attack with war bonds.' We should feel ashamed to face those who do return if we do less than our best."

### Club Boys Are Culling Flocks

Two hundred and seventeen boys who are 4-H Club members in Knox county are putting to use their knowledge in culling their poultry flocks. Within the last two weeks more culled hens have been placed on the market than in any previous years in Knox county according to reports from produce dealers.

During the month of May the county agent, R. O. Dunkle and the home demonstration agent, Lucile King, conducted ten poultry culling demonstrations, 518 4-H Club members attended these meetings. By using two white Leghorn hens the boys and girls were taught how to cull their home flocks, as a result of their knowledge in culling poultry large amounts of feed has been saved and the unprofitable hen has supplied high quality meat to many an American table.

### Victory Leaders Active In County

The Knox County Agricultural Victory Council have been very active this month spreading the news about the army needing ten million pounds of turkeys by September. This urgent request was sent to each neighborhood leader, and in turn the turkey raisers within their neighborhoods were told of the early marketing program in order to supply our fighting forces with the traditional holiday meat.

The Victory leaders also notified their neighborhood farmers of the early hog marketing program to relieve transportation and slaughter congestion that is bound to occur if hogs of marketable weight are held over until November, December and January.

**ON VISIT HERE**  
 Ray Moore, who recently returned to the states from the Southwest Pacific battle zone, came in on Thursday of last week for a visit with his parents, Mr. and Mrs. John Moore. He is on a 30-day leave and is visiting other relatives and his many friends in this area.

## A WARM MESSAGE FOR COLD HOMES

Recalling the first meeting of the Petroleum Industry War Council, on December 8, 1941, the Petroleum Administrator for War, Harold L. Ickes, recently said of that memorable occasion: "As I looked about the room, I had two dominant impressions—a solemn realization of the enormity of the task ahead and an almost exhilarating sureness that those men around the conference table would see to it that their country would have every barrel of oil that is needed for victory." The men around the table represented the oil industry. They were oil men.

How well they have done their job is attested in the words of the New York Daily Mirror: "Not one gallon of gas or oil has been denied the armed forces, though petroleum products represent two out of every three tons of military supplies sent overseas."

"There will be fuel for our eventual 185,000 fighting planes, for our 18,000,000 tons of merchant shipping, for tens of thousands of trucks and tanks, for our Navy (a battleship burns 1,000,000 gallons of oil on a short cruise!), for our war industry—and, lastly, for the civilian."

"Our fighters will still get the first call—rightly! But the civilian can be sure of one thing: His welfare is in the hands of able, patriotic, practical administrators, who have again demonstrated that America's strength, in war as well as peace, lies in its free system of economic enterprise."

## FAILURE INEXCUSABLE

There has been an unforeseen slowing down in war production. It is threatening military schedules which are based on securing certain kinds and quantities of equipment on specified dates.

Lieutenant General Brehon Somervell warns that "only two-fifths of our program for 1943 was accomplished in the first half of the year." As a result, monthly schedules in all elements of our Army program must be speeded up to attain the procurement goals necessary to provide our growing Army with enough and on time.

"... Our military success," points out the General, "instead of offering a chance to relax, actually quickened the tempo of our need for the materials of war. With every victory the need to turn on the power as never before will become more and more pressing."

"We must pour into this war the entire strength and intelligence and willpower of the United States. We cannot afford to waste our substance or the lives of our men by relaxing along the way."

It is up to every American citizen to heed these words. They were spoken in deadly earnestness. Failure cannot be excused when the lives of men are at stake.

## TO CONTROL INFLATION

In a broad appeal to the American people to curb inflation, the Life Insurance Companies of America are broadcasting a 7-point program through 285 newspapers in the principal centers of population.

This program, backed by 100 life insurance companies, in assuming an active role in the battle to hold down prices, appeals not only to the 67,000,000 life policyholders but to all citizens to put the 45 billion dollars (the gap between America's estimated income of \$125,000,000,000 and the \$80,000,000,000 worth of civilian goods and services that will be available) into safe and constructive channels.

The seven practical ways to curb inflation according to this appeal are: (1) Buy and hold war bonds—to lend our country the money it needs to fight the war to victory; (2) Pay willingly your share of taxes that your country needs; (3) Provide for your own and your family's future by adequate life insurance and savings; (4) Reduce your debts as much as possible and avoid making new ones; (5) Buy only what you need and make what you have last longer; (6) Live faithfully by the rationing rules to conserve goods of which there are shortages; (7) Cooperate with our Government's price and wage stabilization program.

These are simple rules that everyone can understand and act upon. They should be carried out by everyone who has money to spend if we are to control inflation and provide for the future security and prosperity of this country.

Now available to priority holders, and in prospect for all photographers after the war, is the new and ingenious accessory used in conjunction with a rangefinder for quick and accurate focusing in dim light.

## GEORGE CAN'T DO IT

The illusion that government is Santa Claus, if not already dispelled, soon will be. The President is asking for more billions in taxes, and Senator George, chairman of the Senate Finance Committee, has bluntly warned that "any large increase must fall on the middle-income brackets and down to \$2,500 and \$3,000. The truth is that our national income (now at 140 billions) some 91 billions goes to people in the lower brackets—people whose income is \$3,000 or less."

Any public official who inspires the belief that the rich can be made to pay for the war is doing a disservice to his country. This war must be paid for by the whole people. If an attempt is made to grant tax favors to one group at the expense of another, the result can be none other than disastrous. The tax burden is growing so heavy that unless it is distributed equitably, individual opportunity and the incentive to produce will be destroyed. If that happens, a farce will have been made of democratic government—a farce that will collapse under the weight of its own injustice, taking with it the liberties of all of us. When new tax bills are drawn, the old dodge of "Let George do it," won't work. George can't do it.

## TO CURB EXTRAVAGANCE

Several months ago the Special Joint Committee on Reduction of Non-Essential Federal Expenditures, of which Senator Harry F. Byrd is chairman, recommended that more than 3,000,000 federal civilian employees be reduced by at least 300,000. Since then, the Senator from Virginia has expressed the opinion that this reduction should be 500,000 at a minimum.

At the hearings which will start in September, department heads are expected to be called up and asked to justify the sizes of their working forces and to explain what steps, if any, they have taken to reduce personnel.

Commenting on the War Department's announced plans to cut off 105,000 civilian employees, Senator Byrd said this step is "encouraging if it's done."

Another investigation scheduled by the committee this fall will probe into all operations of the RFC and its subsidiary corporations, including the Defense Plant Corporation. Special attention is expected to be directed to expenditures and commitments made by these agencies on behalf of the Office of Economic Warfare.

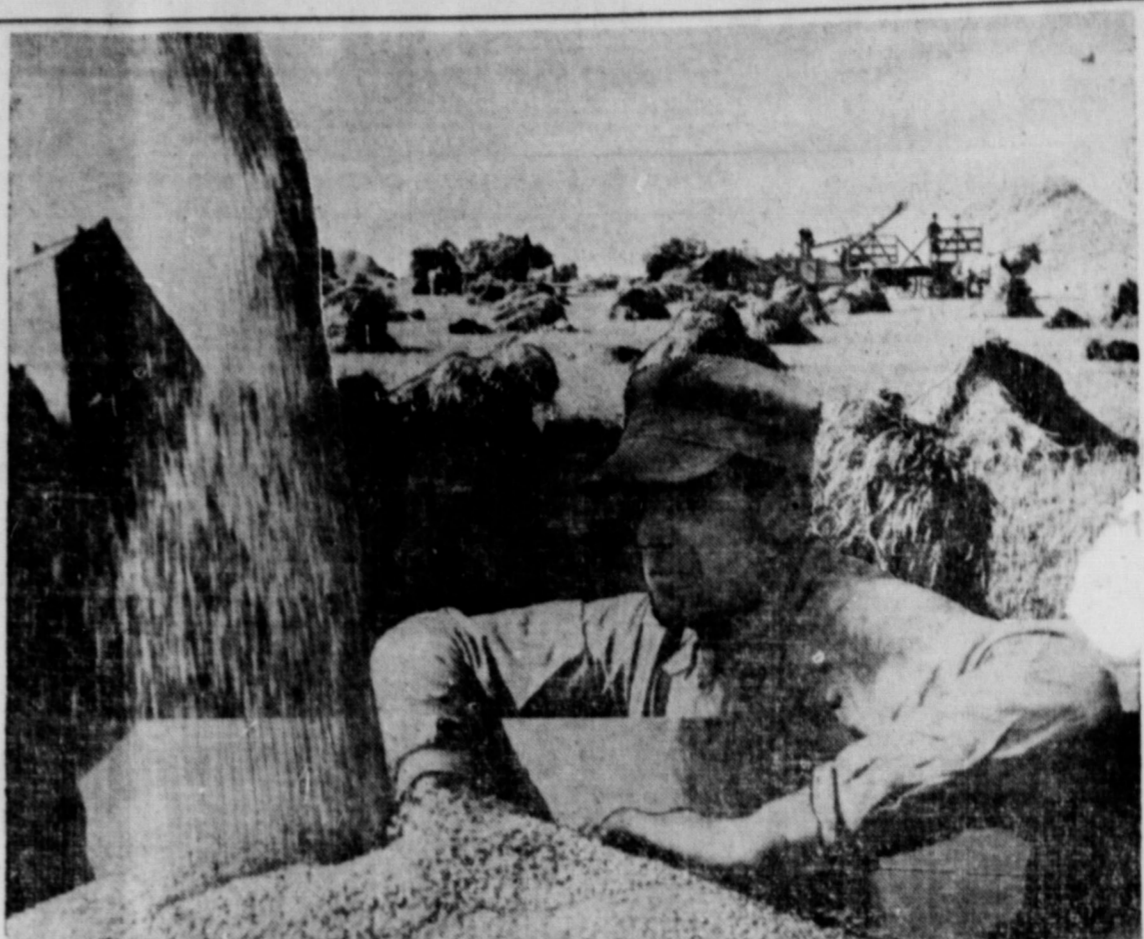

## PROTECTING THE NATIONAL ECONOMY

The House having passed the O'Leary-Manasco Bill for the orderly postwar disposition of the fifty billion to \$100,000,000,000 of surplus materials and commodities the government is expected to have on hand when peace comes, Representative Manasco has now introduced another bill setting up the procedure for orderly disposal of these facilities.

Mr. Manasco's proposal, a companion to the original bill, would create a Surplus Lands and War Plants Board consisting of the Secretaries of War, Navy, and Commerce; the Administrator of the Federal Works Agency; and two members each to represent the real estate interests, manufacturing industries, and the general public. The board would be responsible for the proper disposition of government-owned plants and facilities held for use in the war, and no longer needed for war purposes. It would be charged in the granting of these dispositions, with protecting the national economy, preventing unscrupulous persons from acquiring the properties, and protecting the interests of the taxpayers.

This is the most satisfactory way of transferring back to the public, facilities granted to the government during the war emergency. It is one of the measures that should be urged on homecoming Congressmen at this time.

## Wheat Will Invade Europe When Victory Comes

FOLLOWING the invasion and the liberation of Axis-held countries members of the United Nations are now setting up food supplies to feed Europe's hungry populations. Canada has already entered into an agreement with the Belgian Government in London to deliver 7,000,000 bushels or 200,000 tons of wheat on request when all or part of Belgium is liberated.

Canada has given to Greece 5,476,211 bushels of wheat. As a gift of the Canadian people fifteen thousand tons of wheat go regularly to that country every month. In addition, the Dominion has extended a \$10,000,000 credit to Russia covering purchases of Canadian wheat and flour.

Other countries will draw upon the Dominion's huge surplus which is now close to 800,000,000 bushels as a result of the heaviest crop in Canadian history in 1942—592,700,000 bushels—and another large crop in 1943; but much wheat is needed in wartime and will be required even more urgently in the post-war period.

The gross value of Canadian agricultural production, estimated at more than \$2,000,000,000 in 1942, has reached its highest point since 1919. The war has been the means of showing what Canadian and American farmers can do in the way of record-shattering production when given the "full speed ahead" signal.

## FARMERS URGED TO PROVIDE FARM STORAGE

COLLEGE STATION—A place to store this year's cotton crop was the paramount problem facing many Texas cotton farmers this week as picking season got underway in most parts of the state.

"Cotton is opening up in volume and as production reaches a peak the storage problem will become far more serious than it is now," Geo. Slaughter, chairman, Texas AAA committee, said in asking farmers to plan far enough ahead this year to provide for their own storage facilities.

Citing \$15 per bale losses in South Texas where farmers have been unable to get Government loans because warehouses already are filled with cotton, the AAA official urged farmers in later producing areas to make immediate plans for storing their crop. In cases where farmers are not equipped to store cotton on the farm, he urged their renting or obtaining use of empty buildings to get cotton under cover and take advantage of ninety per cent of parity loans.

The farm-storage phase of the cotton loan program is administered by county AAA committees and buildings in which cotton is to be stored must meet minimum specifications before they can be approved, he said. Principal requirements are that buildings must protect the cotton from rain, snow, flood, ground water, poultry and livestock.

The loan rate for cotton stored on the farm is the same as for cotton stored in warehouses. The average loan rate in Texas is 19.90 cents per pound, which is higher than the open market price.

In addition to the regular loan rate, producers storing cotton on the farm also are entitled to 10 cents per bale per month storage allowance provided the cotton is delivered to Commodity Credit Corporation in satisfaction of the loan. If the cotton is repossessed by the producer, the storage allowance will not be paid.

Texas high school debaters will argue about the League of Nations this year in the University of Texas Interscholastic League debate tournament. Question to be considered is "Resolved, that the United States Should Join in Reconstituting the League of Nations."

**Sayings:**

The slave has but one master; the ambitious man, as many as there are people likely to be useful to him.

It is easier to be wise for others than for one's-self.

A fool always finds a bigger fool to praise him.

The people of Texas really had one slipped over on them when a bill was put through almost doubling the salary of an Austin bureaucrat. Statesmen at Austin, who are so free with criticism of everything that Washington does, seem suddenly to have become stricken with writer's cramp and vocal paralysis when it comes to discussing this outrage right in

their own front yard. Don't be shy, gentlemen; speak up and justify hiking a salary from \$4,600 to \$7,500 a year—if you can justify it. If you can't, don't you think you owe an apology to the taxpayers and that you should tell us what you propose to do about it? A lot of underpaid school teachers, the elderly whose pensions have been reduced and overburdened taxpayers in general are waiting and, gentlemen, the folks are really getting sore.

### Hal Pendleton Gets His Wings

#### "Boomerang Boys" To Assist In Fight For Freedom

Hundreds of youthful American navigation cadets, just back from thrilling graduation flights to their home towns and principal distant cities, pinned on their silver wings last week at commencement exercises held at both Hondo and San Marcos, Texas.

Among the graduates was First Lieut. Hal Pendleton, 22, son of Mr. and Mrs. H. A. Pendleton of Munday, who graduated as a navigator from San Marcos. He held his commission prior to graduation.

The impressive wing-pinning ceremony signified to the new navigators that now, after 18 weeks of purposeful regimen, they were ready to do their part in obliterating the enemy. Most of the officers have already left to join the other two members of the all-out bombing trio—the bombardier and the pilot. Some of the graduates will remain as instructors for cadets just entering training. Sometimes known as "Boomerang Boys" because of their theoretical resemblance of the Australian missile which never fails to return to its originating base when skillfully used, navigators are seasoned veterans of the aerial skyways when graduation day arrives.

Some of the instruction includes the time-proved methods of air navigation—pilotage, dead reckoning, radio and celestial. Navigators learn to rely heavily on the latter method because the stars never deceive, even over enemy-held territory. Much of their time in school is taken up by flight training missions when the equivalent of five transcontinental hops is made, culminating in the graduation flight or the acid test of final examination.

#### IS TRANSFERRED

Mayor and Mrs. F. G. Daniell of Goree have received word that their son, Pvt. Forrest Daniell, Jr., recently of Sheppard Field, has been transferred to North Dakota Agricultural College, Fargo, N. D., where he will undergo a period of special training.

### What You Buy With WAR BONDS

No More Brass

On land or at sea our fighting men do their many chores by the sound of a bugle. All sorts of uncomplimentary epithets are used to designate the bugler, but nobody has yet been able to provide a satisfactory substitute for a bugle although recordings are used at some permanent bases.

Aboard ship the men fall in at the order of "Pipe muster." On land the bugler sounds "Assembly!" But no matter where the bugle is used thousands must be bought out of the money we are investing in War Bonds. Back the attack with an extra \$100 Bond in the 3rd War Loan.

U. S. Treasury Department

Mr. and Mrs. Jim Reeves and son, Perry, spent the week end in Lubbock and Ropesville, where they visited with relatives. Mr. Reeves was also looking after his farm near Lubbock while on this trip.

Harmon Sessions, a student in Texas A. and M. College, spent the week end here with his mother, Mrs. Prudence Sessions, and with other relatives.

Mrs. Prudence Sessions returned home the latter part of last week after spending several days vacationing at Ruidoso, New Mexico.

Mr. and Mrs. C. L. McAfee and family and Mr. and Mrs. Coy Tuggle were visitors at Mineral Wells last Sunday. They returned their son, Marvin, who was home on a week end leave, back to Camp Wolters.

Mr. and Mrs. Barton Carl and Mrs. Dorse Rogers returned home last week from points in Arkansas where they visited relatives during their 10 days vacation.

Rev. and Mrs. W. H. Albertson returned from their vacation the latter part of last week. They visited a daughter at Paint Rock while away.

R. T. Morrow was a business visitor in Knox City last Tuesday.

## Miss La Verne Guess, John A. Mayfield Marry On Sunday

Miss La Verne Guess, daughter of Mr. and Mrs. R. B. Guess, became the bride of Cpl. John Alec Mayfield, son of Mrs. John Mayfield and the late Mr. Mayfield, at 6:30 p. m. Sunday, August 29, at the Mattson Baptist church in Haskell county. Rev. H. R. Whatley, pastor of the Haskell Baptist church, read the marriage ceremony.

The bride, who was given in marriage by her father, wore a white brocade satin gown, fashioned with fitted bodice, sweetheart neck line and long sleeves coming to a point over her hands. Her floor length sheer veil carried the same design as her gown. She carried a white Bible with an arrangement of white carnations.

Miss Jeannie Guess, sister of the bride, sang "Always," to the accompaniment of Miss Dorothy Pinkerton of Snyder. The wedding march was played by Mrs. Arlos Weaver.

The bride's attendants, dressed in colonial gowns in pastel shades of taffeta and net, were Mrs. Chan Hughes of Munday, matron of honor; Miss La Vera Guess, maid of honor; Mrs. Vern Derr, Miss Dorothy Pinkerton, Mrs. Clyde Mayfield, Mrs. Bailey Guess, Mrs. Rebus Guess, Jr., and Miss Jeannie Guess, bridesmaids; Ann Derr and Sue Guess, junior bridesmaids; Cauilla Mayfield, flower girl; Tiffen Mayfield, ring bearer and Bill Bailey Guess, train bearer.

Sgt. Brantley Massie of San Angelo was best man, and ushers were Bailey Guess, Clyde Mayfield, Rebus Guess, Jr., Bob Guess, Arlie Mayfield and Vern Derr.

After the ceremony, a reception was held in the home of the bride's parents. The three-tiered wedding cake was cut by the bride and served with fruit punch by members of the wedding party.

Both Cpl. and Mrs. Mayfield are members of pioneer families of the Mattson community. The bride is a graduate of Mattson high school and attended Abilene Christian college and North Texas State Teachers college.

The groom also graduated from the Mattson high school and attended Texas University and Texas A. and M. college.

Following the reception, the couple left on a short honeymoon trip. For traveling the bride chose a green crepe suit with black velvet trim and black accessories. Her corsage was of white carnations.

The newly weds will make their home at Louisville, Ky., where the groom is in training.

Pvt. Forrest Yancy came in Saturday from Camp Wolters to spend the week end with Mrs. Yancy and friends.

## Rev. O. A. McBrayer, Ida Belle Sherrod Marry Here Sunday

A lattice twined with greenery and flanked on either side by tall vases of pink and white gladioli formed the background for the wedding ceremony of Miss Ida Belle Sherrod of Munday and Rev. O. A. McBrayer of Childress last Sunday afternoon at four o'clock at the First Methodist church in Munday.

The bride was given in marriage by her father, W. E. Sherrod, and the bridegroom's father, Rev. F. M. McBrayer of Childress, read the double ring ceremony.

Miss Lavena Counts was maid of honor, and Miss Jane Huckaby of Abilene was bridesmaid.

Miss Arlene Ragle of Olton played both the processional and recessional wedding marches and accompanied Miss Bette Morris, who sang, "Ab, Sweet Mystery of Life before the ceremony and I Love You Truly during the rites.

Rev. J. V. Patterson of Dallas, a ministerial student in Southern Methodist University, was best man.

Miss Flora Alice Haymes and Patsy Ruth Kirk served as ushers.

The bride was lovely in a gown of white slipper satin, lace yoke and long sleeves pointed at the hands. Her veil of illusion, gathered at a band of gardenias. She wore a strand of pearls, gift of the groom, and carried a white prayer book tipped with gardenias with long ribbon streamers.

The bride is the daughter of Mr. and Mrs. W. E. Sherrod of Munday. She was reared here, is a graduate of Munday high school and now a student in McMurry College, Abilene.

The bridegroom, son of Rev. and Mrs. F. M. McBrayer of Childress, is a ministerial student in McMurry college.

A reception in the bride's home followed the ceremony, and the couple left immediately afterwards for Abilene and were to go from there to North Texas for a brief honeymoon.

## Sgt. Cecil Suggs, Miss Gleda Lake Wed On Wednesday

Marriage rites performed Wednesday evening in the home of Mr. and Mrs. O. P. Cannon of Wichita Falls, uncle and aunt of the groom, united Miss Gleda Lake of Chicago and Sgt. Cecil Suggs of Sheppard Field and Munday. The wedding ceremony was read by Rev. S. R. Goff, pastor of the West Side Baptist church.

For recitation of their vows, the couple was attended by Sgt. and Mrs. Fred Kelly as best man and maid of honor.

The bride wore a tiel blue suit with black accessories, her corsage being of white carnations, pink roses and sweet peas. For "good luck" she wore something old, something new, something borrowed and something blue, and she completed her costume by carrying a white Bible topped with a string ribbon and sweet peas.

Other attendants were Staff Sgt. and Mrs. George Aldridge, Sgt. and Mrs. Jack Tompkins of Sheppard Field and Mr. and Mrs. R. F. Suggs of Munday, parents of the groom; the host and hostess, Mr. and Mrs. O. P. Cannon.

Immediately after the wedding, the bride and groom were honored with a reception in the Cannon home. During this affair, the wedding cake was cut and served with other refreshments from a beautifully appointed table covered with a cloth of Queen Ann's lace.

The reception preceded the departure of the couple on a brief trip to Munday and other points west. They will return to Wichita Falls to make their home, Sgt. Suggs being stationed at Sheppard Field.

# CALL YOUR REPAIRMAN!

Your repairman, if you stop to think, is one of the most essential workers around any industry today. You see, since the manufacture of appliances has stopped, the dealers' shelves are getting mighty empty. And that's where the repairman and you come in! The new ones that would normally be coming off the lines have gone to war. So, it's up to us to make the ones we have on hand last for the duration.

Electric appliances were made to last for many years — and they will if given proper care and servicing. By keeping your refrigerator, range, food mixer, iron, etc. in tiptop working conditions — by keeping them clean, shining, and fit — you can help win the victory on the home front.

And don't forget to call your repairman, when repairs are necessary. He's a busy man — in fact, he is already working overtime, but he'll be glad to help you, because he knows that it's up to you and him to KEEP 'EM WORKING!!

### PRESBYTERIAN CHURCH

Dr. William N. Sholl of Haskell preaches here each Sunday morning at 9:30 a. m.

Our church is located on the Main street of Munday and has an attractive auditorium with added Sunday school facilities. The Auxiliary meets on Mondays and is accomplishing a good work. All Presbyterians living in Munday and surrounding country are urged to attend our services. A very hearty invitation is extended to all visitors, especially those who have no regular church home.

### FIRST BAPTIST CHURCH

We give you a cordial invitation to come to the services next Sunday. School begins next Monday. We wish for the teachers and pupils the best year's work yet.

Whatever your thoughts of Henry Ford may be, you will be interested in knowing that, at 80 years of age, the venerable industrialist said:

"Basic in my religion, such as I have, is a reverence for the old hymns. It goes back to my boyhood when I used to hear those hymns in my home and in Sunday School. My mother was deeply religious and we always had hymn singing and Bible reading in our home.

"In grammar school we always started the day with what we called 'devotions,' consisting of reading a Bible passage and singing a hymn, with a brief prayer at the end.

"This kind of religious emphasis in school is a great thing and I wish it still prevailed in every school room in America. For that way of beginning the day instills unconsciously in every scholar a feeling of reverence and a set of ideals that cannot be lost in later life.

"People don't read the Bible enough nowadays. If you look around this house (the Ford home at Dearborn) you will notice a Bible in every room. I like to be

able to lay my hands on a Bible wherever I sit down to relax. "During the first World War, Woodrow Wilson and I took a pledge to read a chapter of the Bible every day. I have kept my pledge and I understand that he did until his death." The Bible will make its mark on any man's life.

## Weekly Health LETTER

Issued by Dr. Geo. W. Cox, M.D., State Health Officer of Texas

AUSTIN — "The elementary and secondary school Physical Fitness Club program of the Health and Emergency Medical Service, Texas Civilian Defense, organized and sponsored by the University Interscholastic League is recognized throughout the nation as one of the best of all state plans for sponsoring physical fitness activities in the schools," Dr. Geo. W. Cox, state chairman on Health and Emergency Medical Service, recently declared in Austin.

This program is organized on a voluntary basis, and is threefold in its scope. First, it includes dental and health examinations; second, participation in the school's required physical fitness activities, and third, participation in organized games.

Such a program will make a valuable contribution to national fitness in that it will develop in the individual organic power, neuro-muscular skills, and endurance. In the first year over 200 clubs have been organized in Texas public schools with approx-

imately 12,000 boys and girls participating. Nearly 400 boys and girls qualified the first year for the individual physical fitness certificates award.

With the beginning of the 1943-44 school term the University Interscholastic League will again actively promote the physical fitness club program in the schools throughout the state. The aim for the year will be to have one or more clubs in every school and to qualify thousands of boys and girls for the Texas Victory Physical Fitness Certificate.

Billie Fern Thompson returned home the latter part of last week from Abernathy, where she visited with Mr. and Mrs. J. C. Mills and children for four weeks.

Mrs. Etta Webb left Wednesday morning for Guyman, Okla., where she expects to spend some time with her son and family, the Cecil Webbs.

Ardele Spelce was a business visitor in Wichita Falls Saturday. His daughter, Joyce, who had been visiting Mr. and Mrs. John White for several days, accompanied him home.

Mr. and Mrs. Oates Golden, Mrs. Laval Billrey of Denver City, and Mrs. W. A. McKenzie spent the week end in Denton, where they attended the graduation exercises.

### Small Engines to Farmers

Distribution of about 37,000 air and liquid-cooled internal combustion engines of 20-horsepower and under will be controlled by county farm rationing committees. Preference rating certificates will be issued to farmers or operators of farm machinery for hire, based on the need for the engine in essential production of crops, livestock and livestock products, poultry and eggs, and bees. When the farmer receives such a preference rating certificate, he can take it to his local dealer and buy the engine.

### Drops Bombs—Gathers Corn

When the B-24 Liberator bomber, "Lemon Drop," of the U. S. Army Ninth Air Force came back from its mission of bombing Rumanian oil refineries at Ploesti, corn stalks were clinging to its bomb bay doors. The bombardier, Captain Herbert Light, Ames, Iowa, observed: "Why, back in Iowa you'd have to fly 25 feet off the ground to get above the corn tops. No risks involved in that. But when you're heading for a target in the Rumanian oil and corn country, you've got to tear along about six feet off the ground to skim the corn tops."

### Some Boots Are Ration-Free

Certain kinds of rubber boots useful in farming and similar work but no longer being manufactured for general use have been released from rationing by a recent OPA amendment. All olive drab, clay, or khaki colored rubber boots, all ever-the-shoe rubber boots and all

light-weight ankle-fitting rubber boots which depend upon stretch at the ankle for fitting are included in the order. However, quantities will be small because dealers do not have complete stocks on hand.

### To Help You Get Truck Tires

If you own a truck and have tire rationing certificates but cannot locate the proper tires within your county, you may apply to the nearest Motor Transport District Office of the Office of Defense Transportation for assistance, the ODT has reported.

### Price Support for Sweet Potatoes

To encourage farmers to cure and store as much as possible of this year's expected crop of 81 million bushels of sweet potatoes, farmers will be assured a minimum of \$1.50 per bushel for U. S. No. 1 or better grade cured sweet potatoes properly packed in bushel crates, baskets or hampers and offered during January, and \$1.65 per bushel beginning February 1, 1944. Prices of U. S. sweet potatoes containing not less than 75 percent No. 1 quality will be 15 cents per bushel less than the above prices. Farmers desiring information concerning the handling of sweet potatoes are requested to get in touch with their state or county agricultural war boards.

### Farm Help From Latin America

A total of 57,489 workers from Mexico, Jamaica, and the Bahama Islands have come to this country for agricultural employment. Marvin Jones, War Food Administrator, recently praised the ability of these workers and described their efforts as being of utmost importance to the production of food and fiber for war needs. Mexican Nationals have been employed in agriculture in 12 western states. Jamaicans and Bahamians have been employed largely in east coast

### Peace to Repay for Lend-Lease

"The Congress in passing and extending to Lend-Lease Act made it plain that the United States wants no new war debts to jeopardize the coming peace," President Roosevelt declared in his letter transmitting to Congress the eleventh report on Lend-Lease operations for the period ended July 31, 1943. "Victory and a secure peace," the President added, "are the only coin in which we can be repaid."

### "Standing Room Only" on Trains

If you are planning to take a train trip over Labor Day, you probably will have to stand in the aisles, ODT officials say. Passenger trains throughout the U. S. continue to run heavily loaded, with standing in the aisles occurring frequently on some trains, particularly at week-ends.

### Better Rubber For Recaps

Rationing restrictions on the use of grade "C" Camel Back for recapping have been removed, according to OPA. Grade "A" Camel Back, previously available for only the largest truck and bus tires, may now be obtained for recapping tires on all trucks and buses although it is still subject to rationing.

### Tax Reports Due September 15

Many farmers will be among the 15 million Americans who are required to file a declaration of estimated income for 1943 and make a payment on that basis under the "pay-as-you-go" plan which became effective July 1, this year. September 15 is the date for filing declarations, except that farmers if they wish, may wait until December 15, since they receive the bulk of their income in the fall. Generally speaking, all single persons earning more than \$2,700 a year from wages subject to withholding and all married couples earning more than \$3,500 will be required to file declarations. In

addition, individuals or couples with an income of \$100 or more from sources other than wages are required to file, if their total income is such that they must pay an income tax. Individuals who were required to file an income tax return for 1942 and whose wages subject to withholding in

1943 will be less must also file. Hog-Cholera Serum Output High The serum used in combating hog cholera is now being made in record-breaking quantities, according to the Department of Agriculture. Output of the protective serum between July 1, and June 30, 1943, was 25 per cent above last year's high output. The current supply represents large-scale protection against hog cholera, the most formidable swine disease, for the vast number of hogs now being raised in the U. S.

### Water Camel

Thirst is one enemy of armies and navies that may be frustrated by a generous supply of water. Typhus, another dreaded plague is another enemy that must be subdued in Africa, in the jungle islands of the Pacific.

So the "Lister Bag," more often called the "water camel," or just "camel," is used. The "Lister Bag" is a khaki colored canvas bag having a capacity of about 39 gallons. It will require many War Bonds to provide enough "camels" for our fighting forces at home and abroad. Yours too! "Back the attack with War Bonds." U. S. Treasury Department

 "On Wartime America" Food—Or Why Housewives Get Gray"  
 With a rationing program which bids fair to curtail the shirt-tail, it isn't any wonder that the poor housewife (or home Ec. student, if it comes to that) gets gray ten years too soon or lays a good foundation for the same.

This is the time of year for Relatives—I capitalized that for emphasis—to descend in droves—without their ration books. I don't know what one does to people like this unless he takes Dorothy Dix's advice and feeds them nothing but beans three meals a day. Anyway, get rid of them some way so you'll have the time and energy to pull bolls.

## Declaration Of Income Must Be Filed Sept. 15

If you are required to file a declaration of your estimated income and Victory Tax for the year 1943 on or before September 15, it will be wise of you to take advantage of a visit of Deputy Collectors R. A. Choat and Clois L. Greene to Munday, Texas, next Tuesday, September 7th. Deputy Collectors Choat and Greene will consult with taxpayers at the First National Bank (all day) to assist you in preparing your Declaration.

Generally speaking, taxpayers required to file the September 15 Declarations are single persons earning more than \$2700 and married persons earning more than \$3500 from wages or salaries subject to withholding, or those who have incomes of more than \$100 from sources outside of wages and salaries, or persons whose 1943 wages subject to withholding are reasonably expected to be less than their 1942 wages if they were required to file 1942 Income Tax Returns.

Heavy penalties are imposed on persons required to file Declarations who fail to do so or who fail to pay the required amount of Estimated Tax on or before September 15th. Penalties are also provided for substantial under-estimations of Tax due.

When a soldier or a sailor is low in spirits there is nothing that will cheer him up as much as a letter from home, so the War and Navy Departments have devised a method for getting "the word" to its fighting men with the greatest dispatch. This is the microfilm method of transmitting letters, known to all of us as V-mail.

Any news from home is bound to please our soldiers and our sailors but the news they want to have most is the news from our production front and news that we are winning our fight against inflation by our savings and investment in War Bonds. U. S. Treasury Department
