MUNDAY, KNOX COUNTY, TEXAS, THURSDAY, SEPTEMBER 30, 1943

NUMBER 14

THIRD WAR LOAN DRIVE CLOSES SATURDAY

Haskell Indians To Play Maguls Here Friday Night

The Munday Moguls officially open their conference play next Friday night when they meet the Haskell Indians in the first of two games to be played on the local gridiron during the 1943 season.

Following their defeat at the hands of Seymour last Friday night, the Moguls have been going through strenuous workouts this week under the guidance of Coach Hoss Bledsoe in an effort to iron out the rough places in the team. Although this year's edition of gridmen consists mostly of light and inexperienced men, they are a fighting bunch of Moguls, and they are expected to put up a good battle against the Indians next Friday night.

The Indians are rated higher than the local team this season, because of more experienced players, but none will put up a harder fight than will the Moguls.

The game is called for 8:15 o'clock, and a large crowd of local fans are expected to be on hand to back the Moguls.

Local Kit Bag Goes To Soldier In Australia

Miss Margaret Birkenfeld of Rhineland received a letter this week, informing her that a kit bag which contained her name had been received by a soldier who is somewhere in Australia.

The letter, which had been passed by the censor, is as follows:

Sept. 6, 1943

"Hello:
"I'm Lt. Vaughn T. Smith, and I'm dropping you this letter to tell you it was I who received a ditty bag, as we call them, with your name and address in it.

"I really don't know what to say except I am somewhere in Australia, and I would sure like to see the good old U. S. A.

"This may seem funny due to the fact I've been in the army six years, three of which were in foreign service. I'm 28 years old and from Pennsylvania. So if you will write to a lonesome soldier, I will be glad to exchange snap shots and tall stories.

Sincerely,
Vaughn T. Smith, 2nd Lt. C. E. 0-1109674, 465th A. T. C. APO 4710, c postmaster, San Francisco, Calif."

AT LOWRY FIELD

Word was received here last week that Jerry Kahe had been transferred from Amarillo to Lowry Field, Denver, Colo., for further training. He writes that he is enjoying the beautiful scenery at that place.

PEEK IN THE FUTURE FOR FARMERS

RACINE, WIS.—One man can operate this small, self-propelled "Clipper" combine, which cuts and threshes a grain crop at the same time. Developed by Massey-Harris Co., here it heads directly into the standing grain instead of being pulled by a separate tractor, and is an example of how farm machinery manufacturers, looking ahead to the post war market, are emphasizing new equipment for family-sized farms.

Willard Reeves Is Appointed To Naval School

The appointment of the first Munday boy to a U. S. military training school was announced last week by Hon. Ed Gossett, U. S. congressman from this district.

This high honor went to Willard Reeves, son of Mr. and Mrs. J. E. Reeves, who has been appointed to the U. S. Naval Academy.

Willard and his parents received notice from Mr. Gossett that he had been appointed as second alternate to the academy. Willard called his father Monday from San Diego, Calif., where he is in naval training, and stated he would accept the appointment.

He has been recommended for immediate transfer to the academy's preparatory school at Bainbridge, Maryland, where he will receive a year's schooling before entering the academy.

Mr. Gossett explained that this appointment was made because of Willard's splendid character and the excellent scholastic record he made in high school at Texas Tech.

Over 20 Recruits Show Enthusiasm In Junior Band

Over 20 boys and girls from the grade school and high school have joined the junior band of the Munday public schools, according to Mr. Owens, bandmaster.

Although the formal registration period has ended, additional beginners who desire to join, may do so in the next two weeks.

The following members make up the band to the present time and are meeting band rehearsal every day at 3:15: R. L. Kirk, trombone, Garon Tidwell, trombone, Dorell Sessions, trombone, Edward Smith, trombone, Florine Mitchell, cornet, James Smith, cornet, Roy Boulden, cornet, Bobby Lawson, cornet, Louise Gresham, cornet, Erian Stevens, cornet, Maurice Patterson, alto horn, Billy Jay Lane, alto horn, Laura Bess Moylette, clarinet, La Rue Johnston, clarinet, Wanna Johnston, clarinet, John McClaran, clarinet, Jessie Smith, Sousaphone, Hattie Ann Phillips, flute, Joe Lane Womble, baritone and Peggy Dee Clough, snare drum.

For better balance the organization could still use more clarinets, cornets, baritones, alto horns, trombones, drums, and saxophones.

Mr. Owens states that he has four new clarinets for sale and can get any kind of horn that a person might want. See Mr. Owens and get your child started on an instrument.

Interest In Revival Grows

Revival services at the Presbyterian church are being conducted by the pastor, Rev. W. N. Sholl, assisted by Rev. John C. Ramsay, of Spur. Services began last Sunday evening, and interest is increasing.

Not only are many of the Presbyterians attending, but a number of visitors from other churches and the community have been present at the services.

Evangelist Ramsay is a man of wide experience in the ministry and is bringing heart searching messages each evening. He is gripping the minds and hearts of his listeners.

Wednesday night was family night for the meeting, and a number of 100 per cent families were present, as well as a good representative from other families.

Rev. Ramsay spoke at the high school Wednesday morning, where some 200 students listened to his message with rapt attention.

Thursday night has been set aside as young people's night, and a fine congregation is expected. Evangelist Ramsay also brings the gospel in song each evening, thus adding effectiveness to his pulpit ministrations. Hearty singing is enjoyed by the choir and congregation, which adds inspiration to the meetings.

Services will continue through Sunday night, with meetings each evening at 8:30 p. m. and on Sunday morning at 9:30 a. m. A hearty and general invitation is extended to the public to attend these services.

Cooker Clinic Well Attended

The Pressure Cooker Clinic held by Lucile King, county home demonstration agent, on September 21 was so well attended that it was carried over to the second day.

The women seemed very anxious to get their pressure cookers tested to get ready for chicken and beef canning this fall.

Those attending were as follows: Mrs. N. E. Sweet, Mrs. H. Finley, Mrs. R. H. Howell, Mrs. W. J. Swain, Mrs. F. B. McGuire, Mrs. Troy Lindsey, Mrs. Brazell, Mrs. J. C. Borden, Mrs. W. A. Baker, Mrs. Louis Cartwright, Mrs. W. Baker, Mrs. Jno. B. Renau, Mrs. S. A. Bowden, Mrs. M. F. Billingsley, Mrs. W. R. Moore, Mrs. J. B. Bowden and Mrs. C. N. Smith.

Others sent cookers by these that attended. Out of the number tested only two were condemned.

Joe Lynn Kethley Is Made Captain

Word has been received here that Lieut. Joe Lynn Kethley has been promoted to captain. Capt. Kethley has been in the Pacific war theatre for the past six months.

Capt. Kethley wrote his mother that the last time he recalled being a captain was in 1935-36—when he was captain of the Munday Moguls. He said he still felt like a kid, even though he was a captain, at the age of 24.

Capt. Kethley is the son of Mrs. Ruby Kethley of Abilene, who has another son, Lieut. Jerold D. Kethley, who is a prisoner of war in Germany. He was on his 17th mission when he went down in enemy territory. Mrs. Kethley states there had been no further news as to where Jerry is interned.

REPORTS TO DUTY

First Lieut. J. C. Nelson of Munday reported for duty at the San Antonio Aviation Cadet Center recently as a member of the Medical Administrative Corps. Nelson is the son of Mrs. J. R. Nelson of Munday.

Insurance Company Boosts Bond Quota

Knox county received credit for \$3,000 in war bonds this week through the purchase of the Rural Life Insurance Company, with home office in Dallas. This amount in bonds was purchased locally, with the credit going to Knox county's quota.

R. M. Almonrode is local representative for this firm, and he stated it was his company's policy to help to meet the quotas in the county where the company operates.

BOOSTS WAR BOND SALES IN COUNTY

Two out-of-county firms made purchases to boost the Knox county bond quota this week. W. E. Braly, county chairman has announced.

The Slavonic Benevolent Order, an insurance firm of Fayetteville, Texas, made a purchase of \$5,000 to the credit of Knox county.

Purchases in the amount of \$12,500 were received from the W. T. Waggoner Estate, Mr. Braly said.

HAS OPERATION

M. Boggs, co-owner of the Home Furniture Co. here, submitted to a major operation at the Stamford hospital last Saturday. Latest reports are to the effect that he is doing nicely.

Keep Up With Rationing

RATION REMINDER

GASOLINE—In 17 states of eastern shortage area A-6 coupons are now good. In states outside the eastern shortage area A-8 coupons are now good.

SUGAR—Stamp No. 14, good for 5 lbs., is valid through October. Stamps Nos. 15 and 16 are good through October 31 for 5 lbs. each for home canning purposes.

STOVES—Consumer purchases of rationed stoves must be made with a certificate obtained at local war price and rationing boards.

FUEL OIL—Period 5 coupons in old rations are good through September 30. Period 1 coupons in new rations are good through December.

SHOES—Stamp No. 18 good for 1 pair. Validity has been extended indefinitely.

MEATS, FATS—Red stamps X, Y and Z good through October 2. Brown stamps A and B good through October 2. Brown stamp C good through October 30. Brown stamp D becomes good October 3 and remains good through October 30.

PROCESSED FOODS—Blue stamps U, V and W expire Oct. 20.

Funeral For W. O. Sargent Is Held Wednesday

W. O. Sargent, pioneer resident of this section, passed away at 4 a. m. Monday at the home of a daughter, Mrs. E. E. Lowe of Goree. Mr. Sargent had been a resident of this county for many years, where he was engaged in farming. Due to his advanced age, he retired several years ago.

Born near Atlanta, Ga., on August 22, 1867, William Osborn Sargent was 76 years, 1 month and 5 days of age. He was a beloved Christian man who reared a large family.

He is survived by a son, Rev. Chas. W. Sargent of Munday, and nine daughters, who are: Mrs. R. A. Lowe of Grady, N. M.; Mrs. A. D. Irick and Mrs. E. E. Lowe, Goree; Mrs. Lon Smith, Bovina, Texas; Mrs. H. T. Williams, Clovis, N. M.; Mrs. Claude Griffin, Rottan, Ariz.; Mrs. P. C. Edwards and Mrs. Noble Bowman, both of Clovis, N. M. He is also survived by 33 grandchildren, 8 great grandchildren, four sisters and four brothers.

Funeral services were held from the Union Chapel Methodist church at four o'clock Wednesday afternoon, conducted by Rev. Jack Thompson of Texhoma, Okla., who was assisted by Rev. Luther Kirk and Rev. J. R. Bateman of Munday, and Rev. A. Mitchell, pastor at Union Chapel.

Interment was in the Routhen City cemetery, with the Mahan Funeral Home in charge.

Palbearers were Sargent Lowe, Berthel Williams, Doyle Lowe, Billie Williams, Curtis Culpepper and Howard Shubert. In charge of the floral offerings were Ouida Shubert, Bernice Adams, Doris Moore, Altha Culpepper, Elma Lowe, Jeanette Bowman and Dela Mae Williams.

Record Books For Farmers Available At Local Store

J. L. Brasher, manager of the Broach Machinery Co., announced Tuesday that a limited number of valuable farm record books are now available to farmers of this area who list an estimate of their repair requirements with the local firm for another year.

These books are so constructed that complete records of all farm operations may be kept, and these will prove of inestimable value in making out income tax returns.

One of these books will be furnished free to each farmer who lists with the local firm his farm machinery so an estimate of repairs needed for another year can be made. This estimate is necessary so the local firm will be able to have the parts next year when you need them.

J. M. Cash, well known Truscott resident, was a business visitor here Tuesday.

County Is Far Short Of Quota

Local Pledges Put Munday Over On \$163,000

With only two more days remaining in the Third War Loan drive, reports coming from the various communities indicate that Knox county is far short of her quota.

If our county fails to raise her quota, we as individual citizens will be simply letting our boys down who are sacrificing everything on the battle fronts. We may think we've sacrificed to buy war bonds, but figures recently released on our war casualties show

U. S. Casualties to Date 105,205

Announced casualties of the United States Armed Forces from the outbreak of the war to date (whose next of kin have been notified) total 105,205, according to war and navy department reports. This total includes: dead, 20,104; wounded, 28,226; missing, 32,905; prisoners of war, 23,970.

that 105,205 of our boys have made a far greater sacrifice.

It would be shameful for us to send the message to these 105,205 Americans—if it were possible to send it—if we said to them "We've failed in our quota."

Reports up to Saturday night showed Knox county had only sold \$240,000 in bonds, less than 50 per cent of her quota. Sales the first of this week have brought the total up to better than 60 per cent, but that's a long way short of the \$532,400 assigned to this county.

Community committees have been meeting this week for the "over the top" drive—for the big push to meet our quota. Indications are that some communities will meet their amounts, while others are still behind.

At a meeting in Munday on Thursday morning, represented by practically every business here, individual and other pledges placed Munday over the top. Munday was \$43,000 short when this meeting was called, and pledges were taken to go over that amount.

This is every individual's concern. If you haven't dug down deep for this bond drive, you have failed in your duty. Let's back the attack during these remaining two days—let's send the message to our loved ones in South Africa, in England, in Italy, Sicily, in the Pacific—on every fighting front in the world—that we're backing them to victory.

Supervisors Of Soil District To Be Elected

Landowners and their wives are to be reminded of the election of supervisors of their respective soil conservation districts, Tuesday night, October 5th at the following places: all landowners south of the Brazos river will meet at Munday grammar school, Clay Grove presiding; all landowners between the Brazos and South Fork of the Wichita will meet at Benjamin, Jack Idol, presiding; and all landowners north of the South Fork of the Wichita and north Knox county line will meet at Truscott school, C. C. Browning presiding.

This is an important election and the present supervisors hope that all landowners will make a special effort to attend. Soil conservation work has already started within the district, with headquarters at Knox City.

Masonic Lodge To Meet On Monday

The regular meeting of Knox Lodge No. 851, A. F. and A. M., will be held next Monday night.

Officers announced that there will likely be work in both the Entered Apprentice and Fellow Craft degrees, and a good representation of the membership is urged for this work. Visiting Masons will receive a hearty welcome.

THE GOOSE THAT LAYS THE GOLDEN EGGS

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"

KEEPING IN STEP

Aviation is unlike other industries. It must at all times be managed and developed with the knowledge that air power governs the destinies of nations. Many people think that American air power sprang from nowhere almost overnight. In reality, it had its beginning years ago when far-sighted pioneers and military authorities joined in recognizing that all our civil aviation resources could be made into a multi-purpose instrument of military power.

According to Congressman Richard F. Harness of Arizona: "... Many of the leaders in the civilian industry have very deliberately encouraged steps in the course of the industry's development which have proved of incalculable importance in this war. The civilian pilot training program is an outstanding example of a civilian-inspired and civilian-executed activity without which our military force today would be far less than its present strength. And in the development of the air transport industry there have been extremely vital steps taken in peacetime under civilian leadership—many of them still secret—which have been life-saving at critical moments in the last eighteen months."

The aviation industry, and the airlines in particular, are fully conscious of their responsibilities. The latter are endeavoring to awaken Congress to the fact that government also bears a great responsibility in determining the future of American aviation. They consider the pending amendments to the Civil Aeronautics Act, as embodied in the Lea-Bailey Bill, essential to the stability and growth of private aviation and of direct concern to those interested in the future military strength of the nation.

In commenting recently on that bill, Representative Harness declared: "The legislation being considered seeks to give concrete application to the lessons we have learned in the last five or six years, and to confirm and elaborate our civil aviation program for the national defense as we have seen it successfully demonstrated since Pearl Harbor."

It is the obligation of Congress, with due regard for state and local rights involved, to keep Federal regulation in step with aviation requirements.

REALISTIC POSTWAR PROGRAM

Americans must not set back and wait for the end of the war to come and then flounder around for solutions to the problems they will have to face, or worse still, be forced into accepting tailor-made solutions of theories.

Fortunately, Americans aren't. From Albert Lea, the Minnesota farm community of 12,000, there comes a concrete program for a "full-employment" peacetime economy. In what is probably one of the first community postwar planning studies in the United States, a survey probed into every facet of the town's economic potential to discover the jobs that will have to be found if there is to be a job for every man who wants one when the uniforms come off.

Through interviews with all local employers, data were obtained on the probable number of jobs that will exist after the war. Studies also were made on markets, farm income, business conditions, and projected public works in the community. Potential postwar customers in the city and nearby farming community, were queried to learn what they wanted to buy in the first two postwar years.

Here is a community of citizens, genuinely concerned with the postwar picture, who do not lean back dolefully and wait for utter confusion, or indulge in the wishful thinking that envisages the brave new world of wonderful inventions to begin the moment hostilities cease.

Of course we cannot plan against all the eventualities that will occur after the war. But we can take stock now. And each community in the country should be "taking notes" of this kind to refer to when the crucial time comes.

REPORT ON RESTRAINTS

It is encouraging to note that increasing recognition is being given to some of the dangers of the postwar situation that are developing.

Senator George, chairman of the Committee on Postwar Planning has announced that he has authorized the Bookings Institution to analyze and report on the restraints that have been placed on business and their probable effect on the shift back to civilian economy when the war ends.

Fifty fighting planes can use up 300,000 rounds of small-arms ammunition in one minute. This is as much as 10,000 men in Napoleon's army would have used in a day's battle.

THE PROOF OF THE PUDDING

General Norman T. Kirk, head of the Army's huge (90,000 officers, 450,000 enlisted men) Medical Corps, in a recent statement said that the United States Army is hale and healthier than any Army has ever been in any war. And that is something for every mother's son of us to remember in this country.

How can it be that a nation which has built one of the world's largest armies in a scant two years, can have such a record? The answer is self evident. First, under a form of government that has encouraged individual initiative and unlimited opportunity, American medicine has been leading the world in preventing and curing disease. Second, under such a system, citizens of the United States, including the boys who went into the Army, have an outstanding health record. Third, a large percentage of the practicing physicians who helped bring the health record of the United States to its present high standard, were absorbed into the Medical Corps.

For our own sake, remember this when you hear political proposals to socialize the American medical system in line with European countries which have no record to compare with private medicine in the United States and its armed forces.

DECREES DON'T PRODUCE COWS

For sometime past the American people have been reading that they can expect butter and milk rationing. They are therefore partially prepared for such drastic steps. The civilian butter reserve is at the vanishing point, which means that our milk supply is below needed amounts.

Farm labor costs, dairy feed, seed and everything the dairy farmer uses, have shown either normal or abnormal rises. No matter how fine our economic planners spin their theories, all of them combined cannot produce a milk cow in less than three years, by law, executive decree, or otherwise. There is just one way to get more milk, and that is to allow the farmer who produces it a fair and reasonable profit based on the cost of production and the labor involved. Until that is done, the milk, butter and cheese supply will grow shorter and there is no use in kidding the American people about the issue.

FOR TAX SIMPLIFICATION

Is there anyone today who does not feel the impact of the complicated tax system? Can there be anyone who does not feel that the need for simplification?

Let these people take heart, for from Senator Walter F. George, Chairman of the Joint Congressional Committee on Internal Revenue Taxation, whose duty it is to investigate measures and methods for the simplification of taxes, comes this statement:

"If a statute is supplemented by complicated regulations or technical interpretations, little is accomplished by a simple law.

"However, I believe that the first step towards simplification which should be undertaken by the committee is to make the income tax law more simple and understandable. . . .

"I believe that emphasis should first be directed towards the income tax rather than the excess-profits tax, as I hope the excess-profits tax can be repealed immediately after the termination of the war, in order to encourage new ventures and stimulate private enterprise."

This is a very definite step in the right direction, and more frequently, it comes from a man thoroughly conversant with the nation's tax picture. Less preoccupation with the excess-profits laws which are draining industry's postwar reserves, and more attention to the tax quandary of the large majority of the nation would make this phase of the war program far easier to take.

Canadian Axes Help Bomb the Axis

CANADIAN woodsmen are working long hours to cut down forests of Sitka spruce, the result of which is having such a telling effect on the bombing of Germany.

Now that it has been proved in actual combat that plywood can replace steel in the building of such speedy and deadly aircraft as the Mosquito, and now that Canada is turning out such warplanes, the demand for aircraft quality Sitka spruce has greatly increased, not only for her own use, but for that of the United States and other United Nations.

Sitka spruce is found only on the Pacific Coast. Trees of a size suitable for aircraft production, ranging from six to fourteen feet in diameter, take several hundred years to grow, and are not plentiful. To conserve the supply, the logs are

policed through the mills, so that no piece of aero lumber may be lost. In addition, inspectors are employed in aircraft factories to guard against wastage during processing. The photographs show lumbermen running the logs down a British Columbia river, a giant Sitka before being felled and the finished product, one of the many Mosquitoes which are now stinging Germany.

United War Chest Deserves Support Of Texas People

HOUSTON — The United War Chest of Texas through its county campaigns is deserving of the fullest support of the people of Texas, Major General Richard Donovan of the 8th Service Command said in a letter of commendation today to George A. Butler, president and campaign chairman of the State War Chest.

Major General Donovan said: "The United War Chest of Texas, charged through its county organizations with the fund-raising service of 17 national war appeals, will serve as an instrument of unequalled value to the soldiers in my command and to the soldiers in many parts of the world, since it has the responsibility for raising money for USO and for War Prisoners Aid."

The United War Chest of Texas has set a goal of approximately \$5,000,000 to be distributed among 254 county campaigns beginning in October. The USO and War Prisoners Aid, the two agencies in

which the Army is vitally interested, will receive a total of nearly one-half of the funds raised in Texas, Mr. Butler announced.

Speaking specifically of these two agencies and the value they will be to our men in uniform Major General Donovan said:

"Time and again I have observed the USO's effective contribution to morale, that definite quality without which a man in uniform is not a soldier. The work which the United Service Organizations are doing both within the United States and its outlying possessions is to be commended. And none can doubt what the friendly hand of War Prisoners Aid can mean to American prisoners of war behind barbed wire in Germany and Japan.

"This undertaking of the United War Chest of Texas is deserving of the fullest support of the people in Texas, and I think it is only just that you and your county campaign committees know that the Eighth Service Command is strong in its support of the participating agencies directly affecting the soldier."

IT PAYS TO ADVERTISE

FARMERS BACK THE ATTACK

COLLEGE STATION — "The record of the American farmer on the home front will match that of his sons on the battlefield—and that is the greatest compliment I can pay," Marvin Jones, War Food Administrator said.

The American farmer was on the offensive before the war started. He had produced more food in 1938 than in any previous year in our history. In 1939, he produced even more, and still more in 1940. At the time of Pearl Harbor in 1941, the 1940 record had been broken.

Jones pointed out that the American farmer was already in action at his battle station when Pearl Harbor was attacked. The nation's warehouses were filled with the largest reserve supplies of food in our history.

When war was declared, the farmer did even better. In 1942, in the face of farm labor and machinery shortages, he beat the record of 1941 by a full ten percent. "And this year, the American farmer's answer to the increasing difficulties was to plant ten million more acres than last

year, to milk more cows, to raise more pigs and to feed more cattle than ever before, in his determination to 'Back the Attack,'" Administrator Jones said.

"The September crop report indicates near record yields on the largest acreage in ten years, and including meat production, the largest food production of any year in our history—breaking all previous records once more, for the sixth consecutive year.

"Nor is that all. Our program for next year calls for still greater food production. We expect to get that production on a voluntary basis. We will tell the farmer what is needed, help him get the labor and machinery needed, and give him prices that will see him through—then depend on him to do the rest. I know that he will do his part and 'Back the Attack.'"

DRAFT DODGER

Another poem from a soldier boy with request to publish same.

I'm writing this short letter,
And every word is true;
Don't look away, Draft Dodger,
For it is addressed to you.

You feel at ease and in no danger,
Back in the old home town;
You cooked up your pitiful story,
So the draft board turned you down.

You never think of the real men
Who leave there day by day;
You just think of the girl friends
Whom you get while they're away.

You sit at home and read the paper
And jump and yell, "We'll win!"
Just where do you get that we stuff?
The war will be won by men.

Just what do you think Draft Dodger,
That this free nation would do,
If all the men were slackers
And afraid to fight like you?

Well, I guess that's all, Mr. Dodger,
For I suppose your face is red;
America's no place for your kind,
And I mean every word I said.

So in closing this letter, Dodger,
Just remember what I say—
Keep away from my girl, you bum,
For I'm coming back some day.

PUT KITCHEN FATS TO WORK

With fats and oils rationed, America's housewives have a valuable source of cooking fats in meat drippings, fat trimmings from uncooked meat, cured pork rinds, and fat skimmings from soups and stews. They can be saved and used for baking, frying, and seasoning.

Use of these fats is vital to the government's fat conservation program. If all cannot be used in the kitchen, the surplus and waste fat should be sold to a retail meat dealer as fats are a valuable source of glycerin used to manufacture ammunition. One pound furnishes enough glycerin to fire four 37-millimeter anti-aircraft shells.

Kitchen fat can be valuable in the war effort. Save it! Use it!

TYPICAL RECIPES USING SALVAGED KITCHEN FATS

<p>PIE CRUST</p> <p>2 cups flour 1/2 cup drippings or rendered fat Sift flour, measure, add salt and sift again. Cut in cold fat until particles are about size of peas. Add cold water, little at a time, mixing quickly and evenly through flour with a fork until dough just holds in a ball. Use as little water as possible. Chill before rolling. This makes enough pastry for a two-crust 9-inch pie. Roll the dough to about one-eighth inch in thickness.</p>	<p>BAKING POWDER BISCUITS</p> <p>3 cups flour 4 1/2 teaspoons baking powder 1 teaspoon salt Mix and sift dry ingredients. Cut in cold fat. Add the milk all at one time. Stir with a fork until the dough clings in a ball. Turn on a lightly floured surface and knead gently for one-half minute. Pat or roll one-half inch thick and cut with a small biscuit cutter, dipped in flour. Place on baking sheet and bake in a hot oven (450° F.) for 12 to 15 minutes.</p>
<p>JIFFY CAKE</p> <p>4 tablespoons rendered fat or drippings 1 cup sugar 1 egg 1/2 cup milk Put all ingredients in a bowl and beat well with a rotary beater. Batter should be light and smooth. Pour into deep layer pan and cover evenly with the following mixture: 1/2 cup grated sweet chocolate or coconut and 1/2 cup finely chopped nuts. Bake in a slow oven (350° F.) for 35 to 40 minutes.</p>	<p>CRACKLING CORN BREAD</p> <p>2 cups corn meal 1/2 cup sifted flour 3 teaspoons baking powder 1 egg, beaten 2 cups milk 1 cup cracklings Chop cracklings (the crisp brown pieces left after fat is rendered) or put through food grinder. Sift together dry ingredients, add milk to which beaten egg has been added, and mix well. Stir in cracklings. Pour mixture into greased pan and bake in hot oven (425° F.) 30 to 40 minutes, or until well browned.</p>
<p>GINGER COOKIES</p> <p>5 cups flour 1 tablespoon soda 1 tablespoon ginger 1 cup rendered fat or drippings 2 cups brown sugar 2 eggs 1 teaspoon vinegar 1/2 cup dark molasses Sift flour once, measure and sift again with soda, salt and ginger. Cream fat, add sugar and continue creaming. Add beaten eggs, vinegar and molasses. Add dry ingredients and mix. Roll in balls the size of a walnut. Place on a cookie sheet and bake in a moderately hot oven (400° F.) for twelve to fifteen minutes. Yield, 3 dozen.</p>

Troop Movement Job Equals World Trips For Every Person In Knox County

Taking all of Knox county's 10,000 people around the world in sleeping cars more than 64 times would be a tremendous undertaking, yet that is actually about the size of the troop movement job reported today by the Pullman Company.

Since Pearl Harbor, Pullman has carried about 14,000,000 troops a distance of more than 15 billion passenger miles in its sleeping cars, the company reports. These figures are said to cover mass military movements alone, and do not include the heavy travel of furloughed men and others.

Many of the boys from Knox county, like servicemen from all parts of the country, are getting their first Pullman rides, according to George A. Kelly, vice president of the company. Now most of them are making six or seven trips by Pullman, as the intense training program of the armed services necessitates that many moves or more prior to embarkation for points abroad, he said. In addition, the Army and Navy believe in all the comfort possible for the members of the armed forces, he declared, and about two thirds of all military movements by rail are by Pullman sleeper.

Pullman is now carrying more than 800,000 troops every month in mass movements, it is revealed by Mr. Kelly, who pointed out that in addition to this heavy and steadily increasing military passenger burden, civilian travel itself is also at a record-breaking level. He believes that Pullman's pas-

enger-mile volume for 1943 may exceed the 1942 all-time high of 19 billion by 30 or more per cent.

"The military and civilian passenger burden of Pullman and the railroads today is so heavy," Kelly said, "that there is unfortunately little margin left for some of the conveniences travelers enjoyed in peacetime. Service today is wartime service, and by their understanding and tolerance of this fact, travelers can help us greatly in the performance of our vital job."

Charles Baker left last Friday to resume his studies in Texas A. and M. College after spending about a week here with his parents, Mr. and Mrs. C. P. Baker.

Mr. and Mrs. Sappy Bowley and children came in last Saturday from Fort Worth. Mr. Bowley has accepted a position at the Spann Tailor Shop.

Mrs. Sam Roberts and Mrs. Grady Roberts of Haskell visited here briefly last Monday. They were enroute to Haskell after a week end visit with relatives in Wichita Falls and other points.

D. Lawless has returned from Abilene where he visited his daughter, Mrs. C. F. Williamson. She has been released from the Hendricks Memorial hospital. She will be remembered by her Munday friends as Miss Addie D. Lawless.

IN HIS MAJESTY'S SERVICE

THERE was seldom an hour during the months he was a steward at H.M.C.S. King's College in Halifax that Petty Officer Woodfield didn't think about pigeons.

Today Woodfield is a petty officer in the R.C.N.'s communications branch. On the West Coast he has a newly constructed pigeon loft overlooking the sea.

A little over a year ago Woodfield wrote a letter to his commanding officer. It was about pigeons and how they could serve the Navy.

In his letter Woodfield had said some things which might have aroused not only surprise—but doubt! For instance, he said he didn't think the navy would have to invest any money in pigeons.

"What I meant to convey was," Woodfield says, "that if I knew my pigeon fanciers—and I was sure I did—I would be able to obtain the finest types of birds without spending a nickel." He had an implicit faith that fanciers would donate their finest birds to the Naval Service.

"And they did," he declares. "I recruited birds from fanciers in Victoria, Vancouver, Edmonton, Regina and Winnipeg. I told them I wanted young pigeons. I asked them to breed pigeons for me and to send them to me while they were young. That's what I wanted—young pigeons, fine, young thoroughbred pigeons. I asked them to regard it as a piece of their war effort."

"Flying over water is against a pigeon's nature," Woodfield explains. "They are a land bird. I know of one bird taken to sea for training flight who took off from a signalman's hand, circled the ship and tried to land again on the signalman's hand. When the bird discovered he could not land, he went up high and headed for home. There are many problems, including fog and storm and gale. We've got to get and train birds to fly over open water through the fog and storm."

Woodfield trains his birds one, two and five miles out "in the line of flight" until they reach the patrol area from which they will work. The petty officer explains that pigeons fly by instinct and by sight.

"Our main idea is to breed and train enough birds to stock all the ships out here," Woodfield says. "And we'll need plenty of the right kind of birds properly trained. In fact, we are still open to any fine

Petty Officer W. H. Woodfield, R.C.N., is shown with one of his trained pigeons. A peacetime fancier, he is now successfully training pigeons to fly through fog, snow and rain, from ships at sea—bringing important messages to shore bases. (At top) An R.C.N. sailor releases two pigeons from a ship at sea. The one at right is a little slow in getting his landing gear up, but his training has been adequate and he will soon be winging his way shoreward.

young birds which fanciers across the country would like to ship to us at H.M.C. Dockyard, Esquimalt.

"We've got to be careful with what we have until we've bred and trained a sufficient number of birds to do the job thoroughly. We've flown them over 60 miles of open sea and they've made it in two hours—flying by instinct, mind you.

We had a couple fly over 70 miles of sea through a heavy snow storm. They made it in four hours, battling a strong wind all the way."

The day is not far distant, Woodfield predicts, when pigeons will be used for emergency messages by all ships of the R.C.N. They will fly incredible distances when they have matured and have been well trained.

year increase seed would enable growers to obtain it at only a small amount above oil mill prices.

Improved Cotton Seed Program To Be Continued

COLLEGE STATION—The cottonseed improvement program, adopted first for the 1943 season, will be continued in Texas through the 1944 cotton year. According to information to the A. and M. College Extension Service from L. J. Cappelman of Dallas, regional di-

rector for the Food Distribution Administration, plans are under way for putting the program into effect. Its objective is to encourage production of single variety cotton, sought especially for military textiles.

The program, which will be administered by the Food Distribution Administration, will assist growers in one variety communities to obtain pure planting seed through which the quality of cotton would be further improved, acreage yield increased and production standardized through elimination of several inferior varieties now being planted.

The directing body of the program is a state board composed of representatives of the Extension Service, Texas Agricultural Experiment Station, FDA, and Bureau of Plant Industry, Soils and Agricultural Engineering. The job immediately ahead for the state board is the appointment of a technical committee to work with grower-member committees in designating varieties for the seven zones into which Texas is divided.

Under the 1944 program, which will be very similar to that of 1943, payments on seed deliveries will be made to grower members of designated one-variety cotton improvement associations who agree to plant seed of the variety approved for their respective zones. These payments range from \$45 a ton for foundation breeder seed to \$23 a ton for first-year increased seed, and will be made through state crop improvement associations. Texas' 110 local cotton improvement associations have received \$85,000 under the plan this year.

According to War Food Administration officials the \$23 for first-

THE EXPIRATION DATE ON YOUR PAPER!

Due to restrictions on production of newsprint, we are forced to cut down on the numbers of papers being printed whenever possible.

It is not our desire to stop the Munday Times now going to our regular subscribers, so you are urged to renew your paper ahead of the expiration date in order to keep it coming to you. Should your name be removed from our mailing list, it might not be possible to place it back on in the future.

If the date 10-1-43 appears opposite your name, your paper will expire on October 1, 1943. Your cooperation in renewing before that date will be appreciated.

Mr. and Mrs. Andy Eiland left last Sunday for Dallas after spending several days here with Andy's mother, Mrs. Dave Eiland and with other relatives.

Mr. and Mrs. R. T. Morrow and little son, Dickie, spent the week end in Dallas, visiting with relatives and attending to business matters.

Miss Elizabeth Johnson and Mrs. H. P. Bowen and daughters, Jerry and Judy, all of Dallas visited in the home of Mrs. Rose Jones over the week end.

We Have A Supply of 6-Row Cotton Dusters

These cotton dusters are now available, but the chances are they won't be when you need them for your 1944 crop.

It's a good idea to buy yours now—while they are available—and be prepared for cotton insects when they strike.

Just received a half-carload of Pennzoil, in all weights, in quart containers. The safest way to use motor oil is in sealed containers.

We have a limited supply of low, iron wheeled farm wagons on the floor.

Club Members Of Benjamin Form Recreation Center

A recreational center was set up in the Benjamin Community for members of the boys and girls 4-H Club by Lucile King, county home demonstration agent, and R. O. Dunkle, county agent.

The first meeting was held Friday evening September 24 at the Benjamin school house with 75 in attendance. In order to attend this recreational center one must be a 4-H Club member and be a working member.

The entertainment for the evening was opened by singing a number of songs led by R. O. Dunkle, county agent, accompanied by Miss Edith Poole at the piano. After the singing the program was turned over to the directors of games.

A number of games were played with everyone taking part. All reported a very enjoyable evening.

Those directing the games are as follows:

Mrs. J. B. Moorhouse, sponsor of girls; Mrs. W. C. Taylor, sponsor of girls; Margaret Bell, president of girls 4-H Club; Glen Dunkle, president of boys 4-H Club; Bonita Snallum, secretary of girls 4-H Club; Stanley Glover, secretary of boys 4-H Club; Lucile King, county home demonstration agent; R. O. Dunkle, county agent. Special guests were Mr. and Mrs. Boyd, Mr. and Mrs. Reynolds, Mrs. R. O. Dunkle, Mrs. McGaughey and Miss Margaret Cash, faculty members, and Mr. Jack Idol, sponsor of boys, and Mr. and Mrs. Davis.

The agents plan to set up a recreational center in each community where there is a boys and girls 4-H Club in the near future.

Jeanette Partridge, student in Hardin-Simmons University, Abilene, spent the week end here visiting her parents, Mr. and Mrs. R. C. Partridge of the Sunset community.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox M. D., State Health Officer of Texas

AUSTIN — Scarlet fever, now considerably above the normal incidence in Texas, is one of the more disabling and dangerous diseases usually associated with childhood, although actually it is confined to no age limit, according to Dr. Geo. W. Cox, State Health Officer.

"Scarlet fever is an acute infectious disease, the onset of which is sudden. First symptoms include sore throat, vomiting, fever, and headache. These are followed by the red rash which gives this disease its name," Dr. Cox stated.

"Scarlet fever is an acute infectious disease. Three to five days after exposure to the disease the first symptoms, fever, sore throat, and headache, appear and a day or two later the rash appears. Complications may cause prolonged disability or death. Children suffering with scarlet fever may have sinusitis and middle-ear infections which can lead to mastoiditis. As the germs spread through the child's system, the joints, kidneys, and heart may become involved, causing life-long invalidism.

"A child with any kind of a sore throat should be seen by the family physician promptly. If scarlet fever is present, the treatment recommended will do much to alleviate discomfort and reduce the possibility of complications," Dr. Cox asserted.

The child with scarlet fever or scarlatina, a common name for mild scarlet fever, really is a sick child, Dr. Cox declared. In fact, he is likely to be far more ill than he appears to be. To be safe, the child under fifteen years of age should remain in bed during the acute stage of the disease.

Shower On Friday Honors Margaret Jean Hardin

Honoring Miss Margaret Jean Hardin, daughter of Mrs. Nell Hardin of Munday and bride-elect of Clinton C. Allen of Borger, Mmes. B. L. Blacklock, R. B. Bowden, M. H. Reeves, Lee Haymes, J. E. Reeves, C. R. Parker, T. I. Phillips and Miss Helen Albertson were hostesses for a lovely shower on Friday, Sept. 24, from 4 to 6 p. m. in the home of Mrs. Blacklock.

The reception rooms were lovely, with all decorations being in the chosen colors of green and white. On the buffet was a bowl of rain lilies, and a large container of white asters and fern centered the table which was spread with a madeira linen cover.

In the receiving line were Mrs. Blacklock, Mrs. Hardin and the bride-elect. Mrs. Doyle Williamson greeted the guests at the door, and Mrs. M. H. Reeves directed them to the service table where Mmes. J. E. Reeves, R. B. Bowden, Miss Helen Albertson and Miss Evelyn Reeves served punch, cookies, sandwiches and mints.

Favors were of white scented with garden bells and a fringed lace paper crown.

Mrs. C. R. Parker and Mrs. T. I. Phillips displayed the many lovely gifts, and Miss Helen Haymes secured signatures for the bride's book. Mrs. Grady Shytle, Jr., gave piano selections during the afternoon.

Approximately 65 guests called during the afternoon.

Wesleyan Service Guild Meets At Church Monday

Members of the Wesleyan Service Guild met at the Methodist church last Sunday night, at which time an interesting program was held.

Mrs. Layne Womble had charge of the devotional, with the following parts being given:

Missionary Medical College for Women, Mrs. Aaron Edgar; General Carr and the Education of Chas. Soong, Mrs. Joe Bailey King; The Life of Sarah Estelle Haskins, Ruth Baker.

Members present included Mmes. Luther Kink, M. F. Billingsley, C. P. Baker, Layne Womble, Joe Bailey King, Aaron Edgar, Oscar Spann and Miss Ruth Baker.

Mrs. John Bates and children of Goree visited with Mrs. Bates' parents, Mr. and Mrs. J. C. Rice, the first of this week.

Mr. and Mrs. Oran Driver of Benjamin were here Monday, visiting with friends and attending to business matters.

Mitchell Family Reunion Is Held Near Benjamin

Mr. and Mrs. I. N. Mitchell, who reside seven miles east of Benjamin, have had all their children visiting them during the past week.

The eldest son, Horace, his wife and two children, Donald Wayne and Glenda Lee, now live at Orange, Texas, where Horace is a welder in the ship yards.

The youngest son, Lt. Nathan I. Mitchell, was home on leave. He had been attending officers candidate school for the past three months at Fort Monmouth, New Jersey. He has just received his commission and was granted a 10-day leave. He will receive further training in his work as an officer in the signal corps at the same place.

Juanita and her husband, Mr. Edwin Oliver, live on a farm five miles west of Knox City; therefore, they manage to visit her parents more often than some of the other children.

Viola and her husband, Mr. Leonard Kunkel, have been living with her parents for the past two months. Leonard has been helping Mr. Mitchell gather his crops.

Christine and her two boys, Lynn and Kynn, came last week end, then her husband, O. L. Patterson, Jr., came this week end to stay overnight and take his family back home with them. They live at Johnson City, where Mr. Patterson is county agent.

Movelda and her two-month-old daughter, Nathalie, are living with Mr. and Mrs. Mitchell. Her husband, Robert Mayes, is in the Army, and was the only son-in-law who was unable to attend the reunion. He is stationed at Atlanta, Ga.

Besides their children, Mr. and Mrs. Mitchell also had visiting them for one day, Mrs. Mitchell's parents, Mr. and Mrs. Z. S. Adams; a brother, Mr. and Mrs. W. L. Adams, and a sister, Mrs. B. F. Barrick, all of Baylor county.

Mr. Mitchell states that he has decided to give up big scale farming on account of his health. He and Mrs. Mitchell have bought a 28-acre farm three miles south of New Castle. The place has a 10-acre peach orchard, a grape vineyard and a berry patch, besides a little cultivated land. It is just across the road from the old Fort Belnap in Young county. They plan to move there as soon as their cotton is gathered.

Awards For Canning Offered Youngsters In Farming Contest

Texas girl and boy farmers participating in the scholarship program of the National Junior Vegetable Growers Association are eligible to compete for four awards totaling \$100 to be given for outstanding achievement in vegetable canning. It was announced today by Professor Grant B. Snyder, of Massachusetts State College, Amherst, Mass., advisory chairman of the association.

"These awards of \$25 each from a fund provided for the association by the Great Atlantic & Pacific Tea Company should be of particular interest to the much greater number of farm girls working in the program this year," Snyder said, "as almost all of them are canning a part of their harvest."

Boy members as well as girls are being encouraged to create the "extra stockpile of home-canned food" recommended by the Secretary of Agriculture so as to release more of the commercially-canned produce for war needs.

Prizes will be based upon quantity and quality and quality of vegetables canned this year, and are in addition to the regular scholarship awards of the farm production and marketing program.

Mrs. Ruby Kethley of Abilene visited her sister, Mrs. P. V. Williams, and other relatives here the first of this week.

Major and Mrs. Chas. H. Giddings spent the week end with Mrs. Giddings' mother, Mrs. C. K. Mosby of Wichita Falls. They returned here Wednesday to spend a few more days with Mr. and Mrs. C. H. Giddings.

THE CHALLENGE

Los Angeles Examiner U. S. Treasury Department

Mr. and Mrs. Jack Anderson of San Diego, Calif., are visiting this week in the home of Mrs. Anderson's parents, Mr. and Mrs. Jess Burnison.

Mr. and Mrs. W. O. Mayes of Odessa are spending their vacation with their son-in-law and daughter, Mr. and Mrs. Joe B. Roberts.

Goree Girl Is Leader On College Campus

DENTON—Recently elected to serve as rush captain of her college sorority, Miss Chloe Staleup of Goree, a student at North Texas State Teachers College, takes a leading role in social activities on the Denton campus.

Miss Staleup, the daughter of Mr. and Mrs. Ira Staleup, is a member of the Phoreff sorority, one of four girls' social organizations at NTSTC. An elementary education major, she also is a member of the Junior Current Literature Club and the Elementary Council.

Mrs. Byron House and Mrs. Wade House of Benjamin were business visitors here last Monday.

Mr. and Mrs. Lloyd Stephens of Knox City were business visitors here last Tuesday.

Mrs. Ernie Mae Lee of Wichita Falls is visiting with her mother, Mrs. A. F. Huskinson, and other relatives here this week.

Mr. and Mrs. C. M. Thompson spent the week end in Fort Worth, visiting with their children.

Mr. and Mrs. D. H. Davis were business visitors in Lamesa several days last week.

Sgt. and Mrs. Paul Pendleton of Wichita Falls visited with relatives and friends here over the week end.

Mrs. A. D. McDonald and son, James Lyndal, of Tahoka came in last Monday for several days visit with Mrs. McDonald's parents, Mr. and Mrs. J. J. Keel, and with other relatives.

Mrs. E. M. Roberts and children returned to their home in Amarillo last Sunday after several days' visit with Mrs. Roberts' father, W. H. Atkinson, and with other relatives.

Dr. D. C. Eiland was a business visitor in Dallas the first of this week.

COTTON QUIZ

WHAT WAS THE VALUE OF AMERICA'S FIRST EXPORT OF COTTON?

JUST \$002!
IN 1728, SEVEN BAGS OF 'COTTON WOOL' WERE SHIPPED FROM CHARLESTON, S.C. ... VALUED AT \$16. EACH

"I have seen them come down from the ships ..."

"... they are puzzled ... and homesick ..."

"... the gap ... when they did not come back ..."

"I have seen the supplies come in ..."

"... the destruction steel and fire can do ..."

JOHN STEINBECK

CABLES FROM LONDON

"I HAVE SEEN the soldiers come down from the ships and stand in long lines on the docks, their 'B' bags on their backs and their rifles slung over their shoulders."

"I have seen the supplies come in by the hundred shiploads, locomotives and tanks and trucks—acres of boxed food and great mounds of hams, shiploads of bombs stacked in from deck to hatch and all materials that we need at home—steel for bridges and buildings, food for our own people, material enough to make all America well fed and well housed and well clothed."

"I have seen the men climb into the Fortress in the early morning and fly away waving with elaborate nonchalance and I have seen the gap in the mess when they did not come back and the empty bunks, the blankets thrown aside as they threw them, and the framed photographs on the steel lockers."

"The men have gone up the gangway again to go into action and they jump from landing barges to a beach, strewn with the bodies of their own people, and they claw their way like animals into a hostile coast."

"I have seen the hospitals with the mauled men, the legless and blind, the fingerless hands and the burned faces—all the destruction that steel and fire can do to a man's body and mind. In God's name, what is it for except to get this horrible thing over with as quickly and as thoroughly as possible? And if this is true, it should not be a matter of 'Who will lend his money?' but 'Who dares not to?'"

Rev. and Mrs. S. M. Claburn Honored At Open House
Open house was held on Sunday afternoon, Sept. 26, in the home of Mr. and Mrs. S. M. Claburn to honor this pioneer couple for the long service they have rendered in this county and in other parts of the state.

Invitations were extended to friends and neighbors of earlier days when this couple resided at Alvord, and to friends and neighbors of Knox county, where they have resided for 25 years.

The dining table was covered with a hand made lace cloth. English ivy encircled the punch bowl, with golden cosmos entwined in the wreath, carrying out the season's colors. Mrs. Buel Claburn presided at the table, where 70 guests registered. After registering, the guests were served punch and cake by the following hostesses:

Mmes. W. R. Couch, J. W. Fowler, Doris Ruth Stevenson and Naomi Hampton.

This was an enjoyable occasion, as old friends came together to recount earlier days and happy times. Many beautiful gifts were received and displayed, expressing appreciation for this couple's usefulness wherever they have lived.

Registering were the following:

Knox City: Mr. and Mrs. John Jones, Mr. and Mrs. R. C. Partridge, Mr. and Mrs. Clayton Wren and Mr. and Mrs. Oda Claburn.

Munday: Mr. and Mrs. Everett Beecher, Mr. and Mrs. Virgil Yost and children, Mrs. Ida Bryan and children, Mr. and Mrs. A. J. Gilbert, Andrew J. Gilbert, and Mr. and Mrs. Earl Claburn.

Seymour: Mr. and Mrs. A. H. Golden and Mrs. Emmett Golden. Oil City, La.: Mrs. Courcy.

Goree Mrs. George Webber, Mr. and Mrs. W. O. Lewis, Mr. and Mrs. W. R. Caldwell, Rev. and Mrs. S. E. Stevenson, Mrs. Jim Goode, Mrs. J. W. Baughman, Mr. and Mrs. S. G. Hampton and Naomi and Jackie, Mr. and Mrs. J. F. Draper, B. R. Boyles, Mrs. W. F. McCauley, Mr. and Mrs. J. B. Justice, Mr. and Mrs. Buel Claburn and Patty and Sandra; Mr. and Mrs. H. D. Arnold, Doris Ruth Stevenson, Naomi Hampton, Dr. and Mrs. W. M. Taylor, Mrs. W. R. Couch, Mr. and Mrs. J. W. Fowler, Mr. and Mrs. I. J. Troy, Mr. and Mrs. J. W. Laningham, Mrs. W. L. Stewart and Mozelle Vandiver.

Ed Vandiver was seriously injured last Friday at noon at Munday when he fell from a house he was building, breaking his back in two places. He was rushed to the Knox county hospital, where he is receiving treatment. His condition remains serious.

Sammie Sue, little daughter of Mr. and Mrs. Reuben Bates, who is in a Dallas hospital, continues to be very ill. She is a victim of infantile paralysis and is being given the Sister Kenny treatment. Hope is still being held for her recovery.

Mrs. J. C. Parks of Rotan was a visitor here with her sisters and families, Mr. and Mrs. Hamp Jones and Mr. and Mrs. Dibrel Jones.

Mrs. George Knight and daughter, Mrs. Robert Rankin, of Seymour were visitors with Mrs. S. F. Farmer last Monday. Mrs. Farmer spent the week end in the Knight home, and they accompanied her home.

J. H. Gass of Tahoka is here for a visit with his daughter and family, Mr. and Mrs. Rado Hutchins, and his son and family, Mr. and Mrs. Marshal Gass.

Mrs. Walter Price has returned from Breckenridge and other points where she visited her children and grandchildren.

Bobby and Jerry Ratliff left Saturday to enter the clinic at Wichita Falls for tonsillectomies.

Mr. and Mrs. Cal Moorman and son and wife, Mr. and Mrs. Elzo Moorman, were visitors last Sunday at Jacksboro, in the home of Mr. and Mrs. Harvey Brown and

YOUR MONEY OR HIS LIFE!

Los Angeles Examiner U. S. Treasury Department

with other relatives. The occasion was the brother's birthday and many relatives were present for the birthday dinner.

Mrs. Robert Huckabee of Knoxville, Tenn., and Pearl Camp of Washington, D. C., were visitors with their father, P. J. Camp, last week. Mrs. Huckabee will be at Seymour for some time before joining her husband, who is stationed at Knoxville.

Word has been received from Oliver Rister that he is stationed in Mississippi and that he has been promoted to sergeant. He expects to be called to foreign service soon.

Mrs. E. B. Crites left last week for Fort Worth to visit her son and family, Mr. and Mrs. Barney Crites.

Mrs. J. C. Martin has her daughter, Mrs. Jack McCluskey of Houston, and two granddaughters, visiting her this week. Mrs. Martin met her daughter at Seymour.

Cotton gathering is in full swing now, with all of the gins running steady. Cotton is better than most everyone expected after so much dry weather.

BIRTH ANNOUNCEMENT

T. Sgt. and Mrs. E. C. Thompson are the proud parents of a baby girl who was born on September 17th. The daughter had been named Linda Beth. Mother and daughter are reported doing fine.

Uncle Dick Allen of New Castle is visiting in the home of Mr. and Mrs. Sebern Jones this week. Mr. Allen is Mrs. Jones' grandfather.

Mrs. W. M. Mayo and grandson, Jackie Mayes, of Amarillo visited relatives and friends here the latter part of last week.

Mr. and Mrs. Dan Biggs and little son, Michael, of Seymour were visitors here last Thursday.

Mr. and Mrs. Tom Wood of Abilene visited in the home of Dr. and Mrs. D. C. Eiland over the week end.

IT PAYS TO ADVERTISE

URGES GUAYULE EXPANSION NOW

William O'Neil

Declaring that the production of real rubber is even more vital today as a supplement to the synthetic rubber program than it was at the beginning of the war, William O'Neil, president of The General Tire & Rubber company, is urging immediate expansion, is organizing rubber project.

O'Neil has asked the rubber administrator and members of congress to act in setting up a guayule program which will provide a larger source of natural rubber.

He pointed out that with the great synthetic production, natural rubber is needed in the manufacture of heavy duty truck tires for use both by the military and essential civilian transportation companies.

Experiments with guayule culture since the Forest Service took over the project provided in legislation sponsored by O'Neil have shown that the period from seed to harvest need not be more than two years and probably can be one.

Under the two year plan each acre produces from 600 to 850 pounds of rubber. Under the one year plan, guayule seed is drilled in like wheat early in the year, and is ready for harvest in the fall of the same year, producing from 400 to 600 pounds per acre. In each instance irrigation is necessary, but the one year method eliminates the necessity for nurseries and for transplanting, thus lowering the cost of rubber from this source.

O'Neil has suggested that much of the program be transferred to Mexico where there is an abundance of labor and of irrigable land.

Medicine and engineering experts are combining their knowledge in the laboratories of the University of Texas medical branch in a study of diseases incident to war industries. Involved in this investigation will be studies of dusts and gases existing in industrial plants. Dr. Chauncey D. Leake, medical school dean, has explained.

A Want Ad In The Times Pays

Activities of Colored People

Services were held at the West Beulah Baptist church from Wednesday night through Sunday, Rev. J. W. Wade of Haskell doing the preaching each night. The services were a great success.

A baptizing was held Sunday afternoon, Mrs. Fannie Johnson, chairman. Gifts were given the pastor and Rev. J. W. Wade from the church membership, showing their appreciation for the wonderful services. The Church of God in Christ also took part in the meetings. The amount raised was \$10.02.

A party was given last Friday night at Delbert Beal's cafe in honor of Jack Brooks, who left Sunday morning for camp.

Roy Scott is up and going about after undergoing a light operation at Wichita Falls several days ago. M. H. Hendric spent last Friday here on business.

The engineering laboratories of the University of Texas rank eleventh in the nation in number and variety of engineering research projects, and first in Texas, a survey authorized by the Engineering College Research Association shows.

Auction Sale Has Busy Day

The Munday Livestock Commission Co. reports a good run of cattle and hogs for last Tuesday's sale. All classes of cattle sold from 25 cents to 50 cents higher than last week.

Canner and cutter cows sold from \$4 to \$7.25; butcher cows, \$7.50 to \$9; beef cows, \$9 to \$11.25; butcher bulls, \$7.25 to \$8.75; beef bulls, \$9 to \$10; butcher yearlings, \$9 to \$11; fat yearlings, \$11 to \$12.75; rannie calves, \$7 to \$8; butcher calves, \$8.50 to \$10.50; fat calves, \$11 to \$12.75.

Raymond Ratliff was a business visitor in Fort Worth the first of this week.

P. V. Williams left Tuesday for Harlingen for a few days visit with his son, Lieut. Rupert Williams.

Mrs. Erin McGraw visited with relatives in Vernon over the week end.

Mrs. Tom Price and daughter, Bobbie, visited with relatives in Waco several days last week.

C. A. Hull of Knox City was a business visitor here last Monday.

Takes Part In Student's Bond Drive Of Texas

AUSTIN — Sparking a phenomenally successful student bond drive at the University of Texas, which this week raised \$213,629, was a "flying squadron" of 75 coeds.

The 75 were representative of all campus living places for women—dormitories, sororities, co-operatives and boarding houses—and each was responsible for participation of her house in the bond buying.

Starting with the slogan, \$36,000 for Texas' 36th in honor of the 36th division, the student bond sellers went far beyond their original goal. Largest single purchaser was the university itself, which pledged \$200,000 from its permanent fund. Individual student purchases of bond and stamps made up the remainder.

Members of the "flying squadron" will continue their work as a permanent war activities committee. One day each week is to be devoted to a special bond-selling campaign throughout the remainder of the school year.

One of the 75 committee members is Miss Dixie Atkinson, daughter of Mr. and Mrs. R. D. Atkinson of Munday.

Mrs. C. B. Jones of Mineral Wells is visiting in the home of Mr. and Mrs. Sebern Jones this week.

Miss Bertha Sweatt visited Miss Pumer Sherrill in Lubbock several days last week.

M. L. Brian of Truscott was a business visitor here last Tuesday.

Sheriff L. C. Floyd of Benjamin was here Wednesday morning, on official business.

Mrs. Evans of Wichita Falls returned to her home last Friday after several days visit with Mrs. N. E. Sweatt and daughters.

Cut Expected In Shoe Ration

The new shoe stamp, No. 1 on the "Airplane" sheet in War Ration Book Three, which becomes valid November 1, probably will have to last six months, OPA has announced. At the same time OPA said that stamp 18, originally scheduled to expire October 31, is extended indefinitely and will overlap the next stamp. OPA's present plan is to eliminate dates on shoe stamps and to make new stamps valid as soon as supplies warrant. This enables a person to save shoe stamps until shoes are needed.

May Requisition Idle Trucks

Idle trucks may be requisitioned by district ODT offices or Agricultural County War Boards to transport vital agricultural products where such transport service is vitally needed. Requisitioning will be necessary only where owners of idle trucks are unwilling to allow the use of their vehicles in this service.

Market Turkeys Now

Farmers are urged to market turkeys as soon as possible so that the American Armed Forces overseas can have typical Thanksgiving and Christmas dinners. In a joint statement, Maj. Gen. E. B. Gregory, Quartermaster General and Marvin Jones, War Food Administrator, appealed to farmers to "go over your turkey flocks carefully now with a view to offering as many as possible for sale to the government. Send them to your processor as early as possible. If you don't know where to market them, contact your nearest war board office or Quartermaster Market Center."

To Issue Ration Book Four

War Ration Book Four, which will last approximately two years, will be issued to more than 120 million persons through school-

Safeguard Government Checks

Despite repeated warnings, records of the Bureau of Naval Personnel show a steady increase in the number of allotment and family allowance checks stolen or lost after delivery. To prevent loss, the following suggestions have been offered: (1) be sure your name is on your mail box or door; (2) watch for your check and deposit it promptly in a regular place; (3) if you move, notify your postmaster and either the Allotment Division or the Family Allowance Division of the Bureau of Supplies and Accounts, Navy Department, Cleveland, Ohio.

Cut Football Travel

All school, college and other football teams have been asked by the Office of Defense Transportation to confine the sale and distribution of tickets to the residents of the local area of the cities in which the games are to be played. By so restricting sales, ODT pointed out, football games can be held without increasing the already heavy load on intercity buses and trains.

Give Soldier's Serial Number

The public is asked to use a soldier's army serial number in every case where inquiries are made to official agencies concerning either officer or enlisted personnel. Much time and material is wasted if the number is not given, according to the War Department.

One Corporal Gets Five Japs

An army corporal, who failed to get the order to withdraw, recently killed five of an attacking eight-man Japanese patrol, then found to his astonishment that he had been left alone far in advance of his marine companions. Corporal Henderson, whose home is in Cannonville, Utah, explained, "I figured they were still with me, so when the Japs came in sight I opened up with my tommy." After he had killed five of the Japs, the other three ran. It was then Corporal Henderson discovered he was alone. He spent the night in the jungle and walked in for chow the next morning.

Army Spends Million For Recreation

The army is spending more than a million dollars a month for recreation and athletic equipment for its fighting men at home and overseas, the War Department reports. Equipment is provided for the favorite outdoor sports of the fighting men, particularly baseball and football. Those preferring less active recreation have chess, checkers, backgammon, and bingo. Included among the purchases are musical instruments.

Counties to Get WFA Awards

Counties in which farmers have achieved exceptional production will be awarded an agricultural achievement award by the War Food Administration. They will be cited for achievement in one or more of the following: production record and extent by which the county exceeded 1943 goals; overcoming severe handicaps; extent of shifts to vital war crops; improvement in farm production efficiency; fuller use of land and labor resources. One award may be made in each state with others in proportion to the state's ration of the total U. S. farm population. Probably most of the awards will be made in November. A similar award will be made to seasonal food processors with outstanding production records.

Certain Seeds Under Price Control

Buyer prices on processed and unprocessed seeds of alfalfa (northern, central, and southern) red clover, alsike clover, sweet clover, and timothy have been restored to approximate levels paid last spring. At the same time, OPA has assured producer-farmers somewhat higher returns than last season, reflecting parity prices or better on sales of these seeds to them.

I GIVE YOU TEXAS by BOYCE HOUSE

A good story is told by Charles Dean, former prosecuting attorney of the Plainview district. In the "good old days" of long ago, it was the custom of some defense attorneys, after a case had gone to the jury, for one of them to climb up over the attic rafters and try to hear what the jurors were saying. In one important case, the defendant's attorneys drew straws and the loser made his way to the "observation post." He came back, brushed off the cobwebs and, when asked what it looked like the jury was going to do, he replied: "I haven't the least idea. The only thing I heard was when one juror asked, 'How do you spell penitentiary?'"

One of the smart alecks of the East, who writes a column of misinformation on the war and politics, sneered a while back at Texas because our State leads the nation in the number of volunteers. He said that the standard of living is so low down here that the Army pay looks like a fortune. His statement is, of course, a slander on our patriotic soldiers and sailors who are offering their lives for their country—including such ingrates as the scurrilous Eastern commentator. But he keeps on writing for the big city paper so the owner and the editor must approve of such slime, too, or else they would have fired him.

The door of every true American should be closed against him and he ought to be forced to eat the offal from the swill barrels in the back alleys along with his four-foot brothers.

Speaking of checkers (which we were, some weeks ago) I once knew a man who had a crooked joint on the second finger of his left hand. If he was about to have to move a checker out into an unprotected position, he would shove it forward with his forefinger and at the same time, would drag another checker along with that warped finger, his hand concealing this extra maneuver. His friends were "on" to him and he didn't try this with them but a stranger playing him would look puzzled and say, "I could have sworn that

checker was going to be out there by itself."

Referring to the Tennessee city, P. T. Barnum—prince of showmen—remarked, "There are more fools with half dollars in Memphis than any other place in the world. And it was Barnum who said, "The American people like to be humbugged."

A similar remark, but much more optimistic, was Lincoln's: "You can fool some of the people all of the time, and all of the people some of the time but you can't fool all of the people all of the time."

LOCALS

Mrs. M. H. Brumley of San Diego, Calif., came in the latter part of last week for a visit with her parents, Mr. and Mrs. J. A. Reid, and with other relatives.

Miss Addie Bean of Greenville, former teacher in the local schools, visited in the home of Mrs. Rosa Jones over the week end.

Mr. and Mrs. J. O. Bowden spent the latter part of last week in Abilene, attending the bedside of their son, Orrin Joe, who is seriously ill in an Abilene hospital. Mrs. Bowden remained in Abilene to be near her son.

D. C. Fritz of Abilene was here Monday, visiting with friends and attending to business matters.

George Salem was a business visitor in Dallas the first of this week.

Miss Patsy Ruth Kirk, who is attending McMurry College in Abilene, visited her parents, Rev. and Mrs. Luther Kirk, over the week end.

Barton Carl and J. C. Campbell were business visitors in Dallas the first of this week.

Miss Juarcy Jones, a student in Hardin-Simmons University in Abilene, visited her mother, Mrs. Rosa Jones, over the week end.

SHOW 1,000 PLASTIC ITEMS FOR WAR, HOME, AT SHOW

NEW YORK, N. Y. (IPS)—Real war-babies, plastic products now number well over 1,000 items as was shown here at an exhibit of the uses of plastics on the battle-fronts and in the home.

A bugle, uniform buttons, dishes, knives, forks, a machine-gun turret, and instrument panels for bombing planes are among the military items made of plastic. Also on display at the exhibit, held at the Architectural League of New York, are the plastic nose of a B-25 bombing plane, a fifty-eight gallon gas tank of plastic which can be dropped from a plane when empty, plastic helmets, rain-coats, and plastic fuses for 65-milimeter guns.

For home use, there are displays of a kitchen and a bathroom containing many plastic furnishings, a radio, and tableware. For dresses, there are plastic hats, shoes, and zippers.

ATTENTION Tractor Owners

It is our desire to have what you need, in the way of repair parts, when you need it.

These parts have to be made up before we can get them. We are required to make our estimate of 1944 needs, months ahead of time. You could help us a great deal, in making up this want list, by listing with us immediately, all of your machinery, that might require parts during 1943-44 season.

The first 250 men who come in and list their machinery with us will receive a Farm Record Book, that will be of great value through the year.

 Band News Mr. Owens

CLASS REPORTERS

Senior Reporter Lillian Cerveny
 Junior Reporter Latreae Johnson
 Sophomore Reporter Lyndol Smith
 Freshman Reporter Jimmy Massey
 Eighth Grade Reporter Donald Waheed

Freshman News

As a whole the Freshman Class was glad to see school start. They enjoy Monday high school now and will probably enjoy it more as school continues.

There are thirty-two in the class. This is a rather large number so the class was divided into two sections.

There are many activities into which the Freshmen can enter such as band, chorus, pep squad, football or baseball. Nearly everyone in the class is in one or more of these activities.

The class officers elected for the Freshman Class are:

President—Kelton Tidwell.
 Vice President—Lloyd Haynie.
 Secretary—Carolyn Hannah.
 Treasurer—Kenneth Baker.
 Reporter—Jimmie Massey.
 Sponsor—Mr. Dowell.
 As yet the room mothers have not been elected.

Sophomore News

The Sophomores started off the year with an enrollment of thirty-six. We were glad to have three new pupils, Ray Ford and Laverne Bilderback from Gorse and Jozelle Proffitt from Seymour.

The following class officers were elected:

President—Raymond Mitchell.
 Vice President—Joseph Borden.
 Secretary-treasurer—Jone Spann.
 Reporter—Lyndol Smith.
 Mrs. Bowden was elected as class sponsor. The room mothers chosen were Mrs. Oscar Spann, Mrs. J. C. Borden, Mrs. M. Boggs, Mrs. A. L. Smith, and Mrs. W. T. Mitchell.

The Sophomores led in the bond sales last week with one hundred forty-two dollars fifty cents. We are very sorry that Emmagene Lovell is in the hospital but she is recovering nicely and will soon be back in school.

Senior News

At the first of school the Seniors elected their class officers and sponsors for the coming year. Stephen Harrison was elected as president, Martha Hannig, vice president, Jo Ann Rummel, secretary-treasurer, Lillian Cerveny, reporter. The sponsors are Miss King and Mr. Owens.

Everyone of the class was heartily glad when school started. As Seniors they do want to make the best of their last year as a class. After graduation many will probably go into service.

Quite a few of the Seniors had trouble working their subjects in with the schedule. However, most of them are now satisfied. Civics is something new to the class but everyone seems to like the subject.

The Senior Class is happy to have Jesalyn Brasher from Abilene and Irene Morgan from Lambert, Mississippi. They hope these two girls will enjoy going to Munday High school as much as they do.

Last Tuesday a class meeting was called and the room mothers were elected. They are Mrs. Barton, Mrs. Cartwright, Mrs. Gafford, Mrs. Jones, Mrs. Reeves and Mrs. Rammel.

Senior Life

The Harrison family was blessed with a bundle from heaven on the bright day of January 19, 1927. This bundle happens to be Stephen, our class president. Having been born at Anson, Stephen moved to the Hood community at the age of two years. When he was in third grade the Harrison family moved to Munday and has been here since then.

Stephen loves to sit on the back seat during classes and make a funny remark when the class gets dull. When questioned about his I. Q. he says he is dumb as ever. He has plenty of school spirit and does study sometimes. After graduation Stephen plans to go to the Texas University at Austin. His life ambition is to be a hobo.

Favorites of Stephen's:
 Color—blue.
 Subject—All.
 Pastime—Sports.
 Song—Anything that's tender.
 Actors—Bud Abbott and Lou Costello (Imagine them in a skirt and a peek-a-boo bang).

Last Friday night the Munday Moguls met the Seymour Panthers in a rip-roaring football game which ended with the score of 35 to 0 in Seymour's favor. Although the boys were defeated thoroughly enjoyed the game. There were quite a few black eyes, sore legs, and puffed noses among the players they say it was worth what they endured.

The Moguls playing in this game were: Buddy Gafford, Dick Owens, John Spann, Joe Spann, Charles Roden, Aubrey Roden, Stephen Harrison, O. H. Spann, Jr., Charles Massie, Glen Lowrance, Loyd Haney, Wallace Pippin, James Cadwell, Herbert Stodghill and Hulon Montgomery.

This coming Friday night, Oct. 1, the Munday Moguls will meet the Haskell Indians on the Mogul's own field. Everyone is invited to see the game. Admission will be twenty-five cents for grammar school students, thirty cents for high school students, and fifty five cents for adults.

Munday Students to Take Music Aptitude Test

For the first time in the history of the high school band the opportunity exists to try out boys and girls on instruments of low cost. This coupled with the fact that a new band is being organized gives every beginner an excellent opportunity to get started on his musical education. It is planned to give free group instruction to all boys and girls on band instruments.

To furnish the best data on the possible success of a boy or girl, music tests will be given to all school children from the 5th through the ninth grades Monday, October 4. Parents whose children did exceptionally well will be so advised by Mr. H. A. Owens, bandmaster.

People, Spots In The News

FOWL PLAY?—Well, not exactly. Jane Pilcher, worker on Jeep line at Willys-Overland Motors, uses Donald Duck to demonstrate waterproof box developed by company for shipping Jeep parts overseas. Package (under duck) has been dipped in hot wax to prevent salt-water moisture from rusting speedometers and other Jeep replacements en route to fighting forces.

BEATS GAS SHORTAGE—The first truck to use wood as fuel in the eastern section of the country is operated by Herman Reese of New York City. Small pieces of wood (left) take the place of gasoline vapor.

BRAVE FAREWELL—Sgt. Charles Crim, a glider pilot stationed at Lubbock, Texas, visits his wife, Dorothy, who has been confined in an iron lung for two years with infantile paralysis in a Toledo hospital. He far enough up, she smiles a brave farewell.

Junior News

It has taken us a little extra time to get our paper problems worked out but now that we have we're sure to have a good high school paper with all our students doing their best.

The usual routine was followed in electing our sponsors and class officers. Mrs. Dowell is the sponsor and we know she will make the best possible. Zack Gray is president, Helen Haynes is vice president, Janie Haynie is secretary, Evelyn Moore is treasurer, and Latreae Johnson is reporter.

The assembly program is to be the headche of the Junior Class Friday. It is a short skit presented by Latreae Johnson, Zack Gray, Mildred Smith, Bernice Douglas, Rosemary Claus, and Patsy Ruth Mitchell. It is a comedy and takes

but a short time to present but its good for plenty of laughs.

Society News

School is getting well under way now and everyone seems to be enjoying it very much.

We also have several new students with us and are very glad to have them. They are S. A. Horton from Poteet, Texas, who is a freshman, Irene Morgan of Lambert, Mississippi, a senior, Herbert Stodghill, Munday, who has been visiting in California, a junior and Jesalyn Brasher, Abilene, Texas who is also a senior.

Last Wednesday night several students attended a social in the home of Sue Barton. Various games were played and refreshments were served. The Pep Squad and Homemak-

ing Girls are planning a rummage sale, Saturday. The Pep Squad's share of the proceeds will go to help finance the football banquet, and the Homemaking girls share will go to help purchase equipment for the homemaking building.

Eighth Grade News

Well, school days have rolled around again and we have begun studying.

We have been transferred to high school because of the increased enrollment of our class. Although it is much different from our old routine, we like it very much.

Our class has elected the following class officers:

President—Billy Bouldin.
 Vice Pres.—Florene Mitchell.
 Secretary and treasurer—Joy Guffyn.

Reporter—Donald Waheed.
 Mrs. Kirk was elected class sponsor and we will like her very much.

The Munday High School Band has been practicing rather diligently ever since school started. It is rather small this year but is making good progress with what few members it has. Mr. Owens ordered some new music which is very appropriate for football games and the like.

The band has been doing a little marching this past week getting ready for the football game with Haskell. The band is going to do a few stunts at the half of the game.

Mr. Owens states that there are lots of vacancies in the band and could use most any kind of instrument to balance the organization.

Lignite coal companies more than 19 per cent of the nation's reserve of mineral fuel, and Texas ranks third in the nation in lignite deposits. Carl J. Eckhardt, University of Texas professor of engineering, has found.

MORE TERRACES FOR TEXAS

COLLEGE STATION—Because farmers need to use every practice that has been proved to conserve soil fertility and increase farm production, B. F. Vance, state AAA administrative officer, is asking county AAA forces to cooperate with county agents, soil conservation service technicians, and local vocational teachers, in organizing terracing programs in all of the hill counties of the state.

Under the 1943 AAA farm program farmers can earn 80 cents per 100 linear feet of standard terrace established. Last year Texas farmers built 109,927,000 feet of approved terraces to conserve soil and moisture and earned \$824,407 in payments for carrying out this practice Mr. Vance said. The goal for 1943 is 150,000,000 feet.

Soil conservationists say the correct construction of terraces with proper outlets is one of the first and most important steps to take to prevent erosion and to conserve soil and moisture on cultivated rolling lands.

Terraces serve to collect and retard the flow of water off the land. The grade of the terrace causes

the water to move more slowly, giving it more time to soak into the soil.

The State AAA Committee can make terracing available to farmers of any county as conservation assistance upon proper application to the county AAA committee for this service, Mr. Vance said.

In counties where terracing has been approved as conservation service, local farmers can get terrace lines run and terraces constructed and have the cost deducted from the soil-building payments they earn, Mr. Vance stated.

VISITS GRANDPARENTS

Edward L. Barnett, who is serving in the U. S. Navy and stationed at Santa Cruz, Calif., spent the first of this week here with his grandparents, Mr. and Mrs. J. E. Cure. This was his first visit home since being inducted into the services a year ago this month.

Mrs. George Keene visited with relatives in Lockney and Plainview over the week end.

Miss Juanita Reid of San Angelo visited her parents, Mr. and Mrs. J. A. Reid, and other relatives here over the week end.

Moguls Drop Initial Game To Seymour

Panthers Romp Over Locals To Score 35 to 0

Clearly showing the lack of experienced material, the Munday Moguls dropped their initial game of the season to the Seymour Panthers last Friday night. The game was played at Seymour.

The Panthers received the opening kickoff far down the field, and on the first scrimmage Hatter sprinted 80 yards for a touchdown, a moment later adding the extra point. This seemed to take pep from the inexperienced Moguls, who fumbled a little later, after which Panther Hatter carried to the four yard line. From this point Sims added another marker, and Hatter the extra point.

Again in the second period, the Panthers took the ball after a fumble on the Mogul 35-yard line. After three first downs, Hatter went the remaining 8 yards to cross the goal line, then Sims added the extra point.

Early in the third period, a fumble again gave the Panthers the ball on the Mogul 18-yard mark, and Hatter quickly erased that distance for a score. Sims obliged with the extra point. Hatter scored the final Panther touchdown in the fourth period, and Britain carried the ball over for the conversion. The Panthers had 13 first downs to Munday's five. Seymour (35) Pos. Airline Plans Transport Network Link American Cities After The War

(IPS)—No grass is growing under the feet of our airlines, which, while busy carrying heavy passenger loads bent on war business, are making plans along with the rest of industry for the post-war world.

One firm has evolved a striking new concept of air service. The result of intensive study, the plan will not only bring about one of the nation's most integrated air transport networks, but will establish the basis for thousands of new jobs for returning service men.

Dozens of cities in many states will be offered coordinated air service with direct service between such points as Detroit and New York; Cleveland and New York; Chicago and New York; Pittsburgh and New York; Washington and Chicago; Detroit and Boston; Pittsburgh and New Orleans via Birmingham, Ala.; etc., etc.

Links Over 100 Cities The key to the comprehensiveness of the program lies in the vast number of cities between

these points. For within this framework, the airline plans to establish direct mainline service to nearly 100 other cities, some of which are along the route presently served by the company and many of which have never previously been given the benefits of air service.

No city in the future will be isolated, thanks to this integration. Nor will cities be merely "jumping off" points, since they will have direct trunk line links with every sector of the United States. "The new routes...are sky-tracks in a design for postwar employment for thousands of American airmen," said the president of the line. "they are a pattern for tomorrow in air service for the nation's cities."

Cotton Ginnings

The census report from the Department of Commerce, bureau of the census at Washington, shows cotton ginnings in Knox county ahead of those for last year.

The report shows that 2,153 bales were ginned in the county prior to September 16, as compared with 1,414 bales for the same period last year. The report was submitted to The Times by T. W. Ruffell of Vera, special agent for the department.

CARD OF THANKS

We wish to express our appreciation to all those who were so thoughtful of us during the illness and death of our beloved husband and father.

We especially thank those who sent the beautiful flowers and the many good things to eat.

Mrs. C. N. Dunlap and Children.
Mrs. L. M. Palmer, who has been with her husband, Lieut. Palmer, in Geneva, Neb., spent the week end with friends in Munday. She is visiting relatives and friends in Texas while her husband is attending a special school.

LIFE'S Little TROUBLES

-CAN'T SLEEP-

No need to lie in bed—toss—worry and fret because CONSTIPATION or GAS PRESSURE won't let you sleep. Be sensible—get up—take a dash of

ADLER-I-KA as directed, to relieve the pressure of large intestines on nerves and organs of the digestive tract. Adler-I-Ka assists old food wastes and gas through a comfortable bowel movement so that bowels return to normal size and the discomforts of pressure stop. Before you know it, you are asleep. Morning finds you feeling clean—refreshed and ready for a good day's work or fun. Get Adler-I-Ka from your druggist today.

Goree Will Have Qualifying Tests For V-12 Program

The second Qualifying Test for the Army Specialized Training Program and the Navy College Program V-12, which will be given throughout the country on Tuesday, November 9, will be administered at the Goree high school, Mr. H. D. Arnold announced today. A pamphlet of general information which contains an admission-identification form may be obtained at Goree school. This form properly filled out will admit to the test students between the ages of 17 and 21 inclusive who are recent high school graduates or who will be graduated by March 1, 1944. Intent to take test should be made known immediately to Supt. H. D. Arnold in order that the necessary test supplies may be ordered.

These tests will also be given at the Munday high school on Tuesday, November 9, it was announced Monday by H. A. Owens, high school principal. Those who intend to take the test locally are requested to notify Mr. Owens immediately.

Recent graduate of any high school may take the test at Goree and at Munday.

The same examination will be taken by both Army and Navy candidates. The examination is designed to test the aptitude and general knowledge required for the program of college training and all qualified students are urged to take the test. At the time of the test each candidate will be given a choice of service preference, but taking the test does not obligate the candidate to enlist in the service.

The Army Specialized Training Program and the Navy College Program enable students to continue academic training at government expense following induction into the armed services. Successful completion of the prescribed courses may, following further officer training, lead to a commission in the Army or the Navy.

Those selected for the Army will after further screening and basic

military training, be sent to college. Students chosen for the Navy Program, after selection by the Office of Naval Officer Procurement, will be detailed directly to college. Students who attend college under either of the programs will be under military discipline on active duty in uniform with pay. All expenses, including tuition, food, housing, books, and uniforms will be paid by the Army or the Navy.

Mrs. Tug Nesbitt and little son returned to their home in Dallas last Thursday after several days visit here with Mrs. Nesbitt's parents, Mr. and Mrs. Emmett Branch and with other relatives.
