

Last Rites For Rufus Browder Held Friday

Rufus Browder of Benjamin passed away on Thursday, July 11, at the age of 97 years, 6 months and 19 days.

Funeral services were held from the First Christian Church at Benjamin at 6 p. m., Friday, July 12, conducted by Bro. Spreen of Seymour, Charles Coombs of Stamford and Rev. Treet of Rochester.

Mr. Coombs, a member of the family, paid a most touching and beautiful tribute, for "Uncle Rufus," as he was affectionately known, was a lover of his fellowmen and had a strong conviction for right and justice to all.

Rufus Browder was born December 22, 1848, on a tobacco plantation near Madisonville, Ky., in the days of slavery. He was a lover of the colored people, a boy who loved the great outdoors and lived close to nature. At the age of 12, he and his father and family felt the call for the west and cattle. Where the city of Dallas now stands, they had the first general merchandise store of that place, just about on the present site of the Jefferson hotel near Browder Springs, and Browder street bears his name.

At the age of 14, he was converted and joined the church in one of the brush arbor meetings of those days. Later his father came on to Ellis County for better stock range.

At the age of 21, Mr. Browder came to Decatur and bought a stock acreage north of that place. On April 19, 1859, he was married to Elizabeth Perrin of Decatur on her 18th birthday. They celebrated their 50th anniversary several years prior to her death.

After living at Decatur for 8 or 10 years, Mr. and Mrs. Browder came to Seymour in an early day. They then went west for better stock range, to where the town of Benjamin now stands. With a brother-in-law, H. G. Bedford, known as Uncle Hilary, and ten others, he organized the County of Knox and laid off the town of Benjamin. All of the 12 lived in tents, 12 in a row, until lumber could be procured for building, for that was hauled from a great distance.

Mr. and Mrs. Browder lived in Benjamin until two years prior to Mrs. Browder's death, which they spent in the John Albright home in Mineral Wells, where his wife died in 1928. Mr. Browder spent his last years in Rochester, in the home of his eldest daughter.

Richmond Jewelry Moves This Week To New Location

A. E. Richmond completed the job of moving the Richmond Jewelry into its new location on Monday of this week. The jewelry store is now located in the building formerly occupied by the K & K Cleaners. The building was purchased by Richmond several months ago.

The building has undergone a complete remodeling job, with a new tile front being added, and repainting and other work done to the interior. New showcases have been installed, and these give lots more room for displaying merchandise.

Mr. Richmond invites the public to visit his store in its new location.

School Transfers Due By August 1st

Now is the time for making school transfers from one school district to another, Merick McGaughey, county superintendent, stated Tuesday. All transfers must be in the county superintendent's office by August 1st.

The county school board will meet soon after August 1st to pass on applications for transfer.

School districts expecting transfers to count on their pupil-teacher loans should see that they are completed in time, McGaughey said.

MRS. R. C. WARE DIES AT AMARILLO HOME

Friends here received word Monday that Mrs. R. C. Ware of Amarillo passed away at her home there at about three o'clock Monday morning, following an illness of several weeks.

Mrs. Ware was a sister of Mrs. W. P. Farrington of Munday and Mrs. Hal Fairman of Christoval. Funeral services here held in Amarillo on Tuesday.

Authors Bill

In another part of this issue is a statement from Senator George (Cotton) Moffett of Chillicothe, above, explaining the authorship of the bill providing for free voting by G. I.'s, and ex-servicemen now in civilian clothes.

This statement was issued, according to Moffett, so that people would know the facts about the bill, since others have claimed authorship of the G. I. free voting bill.

Reece Brothers Are Improving

The condition of Bobby and Charles Reece, sons of Mr. and Mrs. C. J. Reece of Knox City, who has been in a critical condition for almost two weeks after being injured in a plane crash on Saturday, July 6, was reported somewhat improved Wednesday.

Both boys have been unconscious since the accident, suffering from broken limbs, cuts and bruises and brain concussions.

Bobby seemed to be "losing ground" Sunday and was taken to a Dallas hospital Sunday night when it was thought an operation would be necessary. Since arriving in Dallas, his condition has improved and the operation will not be performed, according to reports.

Charles had not regained consciousness Wednesday, but it was stated that his condition was definitely better. He is in the Knox County Hospital.

The boys were injured when the plane piloted by Charles crashed on the L. B. Patterson farm at about 7:30 p. m. Saturday, July 6.

HOME FROM PACIFIC

Mr. and Mrs. H. L. Bellinghausen received word from their son, Cpl. Urban J. Bellinghausen, last Monday night that he had arrived at San Diego, Calif., and that he would be home the first of next week.

Cpl. Bellinghausen has been serving in the U. S. Marine Corps for the past two years. He served with the 2nd Marine Division in the Pacific Theater for 21 months, his last station being in Japan.

Dr. and Mrs. D. C. Eiland and son, David, were visitors in Dallas the first of this week.

COBWEBS FOR PROTECTION

R. J. Penick To Train In County As Assistant To County Agent

County Agent, R. O. Dunkle, has just received notice from the Extension Service and from the veterans administration that Mr. R. J. Penick will be placed in Knox County as Assistant County Agent in Training, effective July 22nd.

This training position carries along with it a definite training routine in County Agricultural Agent work.

Mr. Penick's training period will extend over a period of approximately eight months, including the time that he has spent in a refresher course at A. and M. College. Mr. Penick is a graduate of A. & M. College, has his B. S. degree in agriculture, and has a back ground in farm experience needed to qualify for County Agricultural Agent work. Mr. Penick is also a veteran of World War II, with approximately three years of overseas duty.

Mr. Penick's activities while in Knox County will be that of assisting in 4-H club work and its many activities as well as some of the experimental work that is being carried on in livestock and crop production.

SOFTBALL TOURNAMENT SLATED AUGUST 1-10 AT WICHITA FALLS

Wichita Falls will be host to the District 9 Softball Tournament, beginning August 1 and continuing through the 10th.

All teams in this district, which includes fourteen counties, Archer, Clay, Jack, Young, Throckmorton, Baylor, Knox, Foard, Hardeman, Wilbarger, Haskell, Childress, Montague and Wichita, are invited to enter. There is no limit on the number of teams which may enter from each county.

The winner and runner-up will be eligible to compete in the state tournament in Houston. The winner and runner-up at the state meet are eligible for the regional meet in Fort Worth.

Any team desiring to enter the district tournament must fill out the entry blank and mail to Don Greer, district 9 commissioner, Y. M. C. A. 802 City National Bank Building, Wichita Falls.

The type of play will be a double elimination tournament which means each team must lose two games before being dropped from the tourney.

MUNDAY LIBRARY IS OPEN ON TWO DAYS

The Munday Public Library is open two afternoons each week, on Wednesdays and Saturdays, from one until four o'clock.

There is a nice selection of books for children and a good selection of the latest fiction, including the new novel, "Britannia News" by Margery Sharp.

You are urged to take advantage of your library.

Masons Hold District Meet In Seymour

Seymour Lodge was host to the 91st District Masonic Association last Tuesday evening at a regular meeting of the association. J. J. Collier of Vera is the new president of the organization.

Visitors gathered at Seymour Park at 6:30 p. m., at which time a delicious barbecue dinner was served by the host lodge. Following the feed, a Master Masons lodge was opened in the high school gymnasium, where the third degree in Masonry was conferred upon a candidate by a team headed by W. Marcus Weathered of Coleman, past master of the Grand Lodge of Texas. Weathered also made a brief talk to the assembly.

Approximately 100 Masons, representing a number of the lodges of the 91st district, were present.

Attending from Munday were: Moody Johnson, R. L. Gaines, Sied Waheed, Wallace Reid, George Gar, Don Wardlaw, and Bob Guffey.

Dodge Dealer Urges Protection Of Your Old Car

Because of the long wait motorists will have to undergo before getting a new car, J. E. Reeves, local Dodge dealer, urges you to keep your car in top condition.

"Of course we want to put you in a new Dodge as quickly as we can," he said, "but we simply can't do that to your own best advantage if you run down the condition of your present car. Your present car is old, and yet you need all the driving safety and comfort you can get. You'll definitely profit or lose by the condition of your present car when you finally turn it in."

"Out of our experience and knowledge of conditions, we ask you to get our double protection. Bring your car in and let us give it the necessary inspection and expert care. We have all of the facilities to place your present car in good driving condition. Our new "Bear" tires and car saving service will give you protection while driving. "Your new Dodge will be a rich reward for waiting, and with keeping your car in good condition, you will gain in every way."

LAY SPEAKER TO SPEAK HERE SUNDAY

Jim McCulloch, district lay leader of the Stamford Methodist district, will speak in the local Methodist Church on Sunday, July 21, at the eleven o'clock service.

Mr. McCulloch is well known in this district because of his outstanding work in the Methodist Church. The local pastor and church leaders hope he will have a good hearing for the Sunday morning service.

HOME ON LEAVE

Capt. George Martin, who is with the O'Reilly General Hospital in Springfield, Mo., came in Saturday to spend a short leave with his wife and children and with other relatives.

Here Saturday

Dr. Homer P. Rainey, one of the leading candidates for Governor of Texas, will spend 20 minutes in Munday next Saturday afternoon, meeting with friends in this section.

Dr. Rainey will be here from 3:15 to 3:35 p. m. No speech is scheduled for his visit to Munday.

Tri-County Golf Tourney To Open August 4

Plans are now being made which should make the Tri-County Golf Tournament, to be held here August 4 to 11, inclusive, one of the outstanding sand green tournaments ever held in this section.

The course is being "slicked up" from a 15 to 20 and will be in the best condition ever for a tournament. The refreshment committee is planning a real treat for some 150 to 200 guests who are expected here Tuesday evening, August 6.

Prizes valued at \$500.00 will be awarded winning players in the various flights. This feature alone makes the tourney in the class of many large city tournaments. Only members of the Haskell, Seymour and Munday clubs in good standing on July 15 will be eligible to play.

Among the favorites to win tourney honors will be Buddy Wheeler, Seymour; Panny Farmer and Dr. Jack Williams, Knox City; Sam Conner, Haskell, and Winston Blacklock, Munday.

The entry fee of \$4.00 entitles the entrant to pre-tournament practice rounds, as well as a full week of tourney play.

Qualifying rounds will start on Sunday, August 4, and continue through Tuesday, August 6. A big barbecue will immediately follow the driving contest on Tuesday evening.

Matched play in the 16-player flights will begin Wednesday and continue through Thursday and Friday, with the finals being played on Sunday, August 11. With this arrangement, it will not be necessary for any matches to be played on Saturday.

The April traffic death toll reached 2,650—a 47 per cent increase over April of last year, and 1 per cent more than the same month in 1941, America's most deadly traffic year.

Club Camp For County and Area Is Postponed

In announcing the postponement of the 4-H Club encampment, which was slated at Seymour park this week end, County Agent R. O. Dunkle mailed the following letter to club members and sponsors:

"Because of the recent polio scare from Baylor County, the fathers and mothers of 4-H members in Baylor County do not believe it advisable to hold our annual club encampment. The recent rains has brought about an increase of mesquitos and flies, which are carriers of the disease.

"I have talked to several of the sponsors in Knox County concerning the advisability of holding our camp, and they think it very unwise to do so, since we might be running a risk of some Knox County boy or girl contracting the disease.

"According to newspapers, two cases have developed in Baylor County, which is of great concern to all families in Baylor and adjoining counties.

"I regret very much having to call off our annual camp, and hope that we may arrange to have it at a later date, when the weather is cooler and the polio disease subsides."

Rotary Club Meetings For August 4 Resumed

Following a period of several weeks in which no meetings were held, the Munday Rotary Club resumed its meetings last Monday.

The meetings are being held at one o'clock each Monday afternoon, at the Terry Coffee Shop.

A reorganization meeting was held on Thursday night of last week, at which time the district governor and Jim Brasher of Abilene met with the group. Officers who were elected in the year 1946, continuing in their respective offices, except that Jim Reeves was elected secretary-treasurer to succeed Hubert A. Owens, who has moved away.

Eleven enthusiastic members were present at last Monday's meeting.

Phosphate Brings Increased Yield Of Vetch and Peas

Mr. Paul Russell, cooperater in the West Rochester Conservation group, had a good increase in yield of Austrian Winter peas and Hairy Vetch by the application of approximately 200 lbs. of 20% superphosphate to the acre.

Mr. Russell said that the phosphated peas and vetch made nearly twice the growth over that which did not receive the phosphate. He also noticed that on a check on rye, that phosphate did not increase the growth or production of the rye.

Mr. Russell believes that it is best to apply the phosphate to a lemon crop, such as peas, vetch, and clovers, and let the legumes make the nitrogen in order to have a cheap fertilizer that will then increase production.

The application of phosphate was made on sandy land and the peas and vetch were planted for a cover crop.

Mr. Russell plans to increase the acreage of peas and vetch and apply phosphate on as much as it is possible.

Mr. Russell is relieving assistance from the Wichita-Brazos Soil Conservation District and the Soil Conservation Service technicians in carrying out a coordinated soil conservation program.

GEORGE HAMMACKS ARE PARENTS OF A BOY

Mr. and Mrs. George Hammack have welcomed into their home a son, William Kay (already he's Bill), who was born at 9:25 Monday night, July 15, at the Haskell Hospital. He weighed eight pounds.

Mother and little son are reported doing nicely, and George acted like his recovery would be rapid and complete as he was passing out the cigars Tuesday.

Ed Bateman of the Bateman Ranch in King County was a business visitor here Wednesday.

Leaders In Revival Meeting

Pictured above are Bill Faircloth, singer of Houston, and Rev. Roy Shahan of San Angelo, evangelist, who will be leaders in the summer revival to open Sunday, July 28, at the First Baptist Church. Faircloth was leader of the song services in last year's revival here, and is coming back by request of the local congregation. He is a well known evangelist singer who adds zest to the revival through the song services.

Rev. Shahan is a well known evangelist of his denomination. Services will be held twice daily, at 10:00 a. m. and 8:00 p. m. during the revival, which will continue through Sunday, August 11.

HUGHES AT CONTROLS—Howard Hughes, world-famed Texas aviator, industrialist and movie producer is shown at the controls of the Hughes-designed Army long-range, high-speed photographic plane XP-11, which crashed at Beverly Hills, Calif., on its first test flight. Hope was held out for Hughes' recovery from critical injuries sustained in the accident.

Miss Peggy Bumpas of Dallas spent last week here with her parents, Mr. and Mrs. M. A. Bumpas, and with other relatives.

Mr. and Mrs. D. B. Weaver and children of Siminary Hill and Mr. and Mrs. Grady Weaver and daughter of Wellington visited relatives and friends here over the week end.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On."

POLITICS HINDERS FARM ELECTRIFICATION

According to a feature article in the New York Times, the private electric companies of the United States have set up a budget of \$300,000,000 to be spent during the next three years for the construction of electric lines in rural areas. This money when expended will create assessable property on the tax rolls of the communities involved.

The private companies have sought to cooperate with the REA Administrator to complete electrification of the nation's 6,000,000 farms, but have been rebuffed. What sound excuse is there for such an attitude which delays farm electrification?

More and more one is led to the conclusion that the national program for government ownership of the electric industry is not so much concerned with getting electric power to the people as it is with driving private companies out of business and establishing a socialized electric system in their stead. Where private companies plan to put up \$300,000,000 for farm electrification, the REA has been trying to get a Federal grant of \$585,000,000 in tax funds to loan to tax-subsidized electric cooperatives during the next three years. A large part of this money would be used to duplicate or prevent private electric companies from rendering services in the territories involved.

What hope is there for tax reduction or encouragement of private enterprise when a powerful government bureau takes such a non-cooperative attitude toward the endeavors of private citizens and taxpayers and fosters unfair competition? Only the people can correct such a situation in their expressed sentiment for or against it.

A wealthy man, intent on matrimony, told his friend one day that he was 60 years old, and asked: "Would it be better if I told a young lady whom I'd like to marry that I'm only 50?" Said the friend: "Your chances would be better if you told her you were 75."

THE MUNDAY TIMES

OIL FROM MUD

A few years from now atomic-age techniques may make possible the conversion of sea-bottom mud into petroleum. This startling statement came from the American Chemical Society. It just goes to show how foolish it is to make grave predictions about American oil resources. Much of the oil that is being used today could not have been drawn from the earth a generation ago, when petroleum farming was predicted in twenty-five years. But the scientists and the petroleum industry have always succeeded in pushing the procrastinators out on a limb and sawing it off with technology. Eventually the prophets of exhaustion may give up.

Scientists are developing the theory that crude oil is formed by the radioactive transformation of organic substances. They are duplicating in the laboratory the radioactive process that may explain how nature, over a period of ten million years, accomplishes the conversion of protoplasm, proteins, fats, and other materials, into oil.

The moral seems to be to make the fullest use of the resources available to us today, and tomorrow will take care of itself—if we let the scientists and industry alone.

STAIN REMOVAL IN COTTONS

For grass and green vegetable stains, use javelle water on white cottons and alcohol on colored clothes.

A prepared ink remover is best on white cottons. But ink should be removed from colored cottons with alcohol then lemon juice. However, Mrs. Barnes cautions that a piece should be tested before this treatment is applied.

Rust can be removed from both white and colored cottons with oxalic acid or lemon juice. Paint stains in both white and cotton goods can be removed with turpentine or carbon tetrachloride.

Carbon tetrachloride will remove lipstick in both white and colored cottons, but cold cream should be worked into colored material before application.

For treatment of mildew in white cottons, use hot suds, rinse, and alternate javelle water and oxalic acid. For colored things, use soap and water.

Mr. and Mrs. Frank Brown of Levelland spent the week end here, visiting in the home of Mr. and Mrs. B. L. Blacklock.

Mr. and Mrs. Otis McClain and daughter, Donna Gayle, of Plainview spent the week end in the home of Mr. and Mrs. Lee Haymes. Mrs. McClain and Mrs. Haymes are sisters.

Bob Arnold of Floydada, Carson Jones of West Virginia, Dick Harrell and Willard Reeves spent several days last week on a fishing trip to Possum Kingdom Lake.

Mr. and Mrs. Moody Johnson and children visited with relatives in Chattanooga, Okla., over the week end.

Beauford Jester: His Record as a Citizen

Corsicana.—An upstanding man, of great stature in public and private life, has emerged as the leading candidate in Texas' current hotly-contested governor's race and brought to the lips of thousands of Texans the question: "What manner of man is Beauford Jester?"

The question is easy to answer because Jester's life has been an open book ever since his father, George T. Jester, lieutenant governor under Charles A. Culberson, jounced him on his knee as a small boy.

"What manner of man is Beauford Jester?" He's a man whose Navarro County neighbors voted for him 6,830 to 687 in 1942 when he made his first political race for the unexpired term as Railroad Commissioner.

These neighbors were the nucleus of his first campaign in 1942 when he defeated nine opponents. And they say that today he cannot go into a town along his campaign route that he does not meet some friend whom he knew either in the oil fields, in the University of Texas, or in the Army.

They say he knows more people in Texas than any man who has only been in politics a scant four years.

He's a man whom no aspirant cared to challenge when he ran again in 1944—the first time in 20 years a Railroad Commission candidate had been unopposed.

He's still a member of the Commission and it's not unusual for him to drop important campaign appearances at a second's notice to transact the Commission's business.

He's a man who saw combat service as an infantry captain in the first world war and was turned down because of a physical condition for World War II, for which he volunteered.

He served as a member and chairman of the University of Texas as board of regents and played a big part in elevating the school to greater national recognition.

He practiced law in Corsicana, earning a reputation for fairness and integrity, grit and fight. He served the Navarro County Bar Association as president for 16 years and was named a director of the state bar of Texas.

Jester is proud of the white-face Herefords on his Navarro County

NEXT FIRST FAMILY OF TEXAS? Here is the charming family of Beauford Jester, of Corsicana, admitted by many the leading candidate for Governor of Texas. Standing are Barbara, University of Texas student; Mr. Jester; and Joan, student in Corsicana High School. Seated, Mr. Jester's mother, Mrs. Geo. T. Jester, widow of Lieut. Gov. Geo. T. Jester, who served four years under Gov. Chas. A. Culberson; Beauford, Jr., and Mrs. Beauford Jester.

ter, his family includes Beauford, Jr., 7, Joan, 16, and Barbara, 20.

Jester is blue-eyed, grey-templed, with a brave sweep of curly hair that shelters a fine, clear mind. Friends call him the most fundamental Texan who ever ran for governor.

He has friends ranging from Eddie, famous Capitol shine boy, to John Roles, movie star who went to the University with him.

"As one who knows the business of acting," says Roles, "I can tell you Beauford Jester knows nothing about it. He has the bearing of a star—but he could never be anybody but Beauford Jester—true to himself and the people he loves."

Robert W. Calvert of Hillsboro, state Democratic leader, called for Jester's election early in his campaign, characterizing him as a man who could lead Texas into a golden era of industrial progress.

B. A. Stufflebome of Grand Prairie, nationally known agriculturalist and cotton breeder, said, "Beauford Jester knows as much about the problems of agriculture as anybody in the South."

But the thing Jester—and his mother—treasures most out of all the tributes ever paid him is a letter written to his father and mother by the late Dr. George W. Truett noted Dallas pastor, dated June 3, 1919, from Germany.

"I am happy to assure you," Dr. Truett wrote, "that Captain Jester is winning golden opinions from all his associates, because of his unselfish and nobly capable services."

"What a joy he must be to his parents!"

This is Beauford Jester—statesman, lawyer, farmer, soldier, father, businessman and sportsman.

Legal Notice

THE STATE OF TEXAS
To: Lillie B. Staggs, and the unknown heirs of Lillie B. Staggs, Greeting:
You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 5th day of August, A. D. 1946, at or before

10 o'clock A. M., before the Honorable District Court of Knox County, at the Court House in Benjamin, Texas. Said plaintiff's petition was filed on the 19th day of June, 1946. For District Clerk: MRS. OPAL HARRISON N. S. KILGORE (Re-election)

For Associate Justice, Court of Civil Appeals, 11th Dist.: E. J. MILLER

Farmers Should Welcome Beavers

SCHENECTADY.—Every farmer should welcome beavers, Mrs. Dorothy B. Richards of Little Falls, N. Y., declared a General Electric Farm Paper of the Air address here at WGY. She has raised beavers and observed their habits for several years.

Beavers "will build you a pond if you have a stream with brush growing along its banks," Mrs. Richards told her farm audience. "Their ponds conserve water, prevent floods, catch the valuable top soil washed down from the land, and provide a habitat for fish, muskrats, ducks, and other interesting forms of wildlife. Of course, they might kill a few trees by flooding, but their food consists mostly of what is called 'brush'—poplar, willow, and dogwood."

Mrs. Richards said she "can't think of a single bad quality" beavers possess. "They are patient, kind, and gentle with their own kind and with the smaller, weaker wild creatures that are attracted to their ponds, she explained. "Beavers have many human traits, and are self-conscious, have a sense of humor, and plan their activities six months to a year in advance," Mrs. Richards said.

Mr. and Mrs. Moody Johnson and children visited with relatives in Chattanooga, Okla., over the week end.

BOYCE HOUSE

Gives You Texas

Here is a bit of verse by an anonymous writer:

"When I was at the party," said Betty (aged just four), "A little girl fell off her chair, right down upon the floor; And all the other little girls began to laugh but me—

I didn't laugh a single bit," said Betty, seriously.

"Why not?" her mother asked her, full of delight to find That Betty—bless her heart—had been so sweetly kind.

"Why didn't you laugh, darling, or don't you like to tell?"

"I didn't laugh," said Betty, "cause it was me that fell!"

"A Printer's Prayer" makes use of terms that are connected with the work and equipment of a news paper composing room:

To the Great Printer who prints in all colors of the rainbow and whose type faces are stars and clouds, autumn leaves and sunbeams, snowflakes and flowers, this is my prayer:

That I may set up my life to the measures of a man; that I may have courage, win or lose, to follow the rules of the game; that I may point my life toward the things that count; that I may lock up within my heart idle tales, gossip and words that hurt; that I may make ready for the opportunities to serve that come my way; that I may register in my memory the splendor of sunsets, the glow of friendships, the thrill of great music, and the mental lift of inspiring thoughts; that I may press forward in the spirit of adventure toward the new horizons of

Ex Libris... By William Sharp

HE ESCAPED TO FIGHT AGAIN! *

achievement; that I may also consummate worthy accomplishments; that the impressions that I make on the white pages of time may courage, cheer and inspire all those who cross my path; that I may bind together in my own life all

those positive qualities that make for happy, creative, triumphant living; and finally, O Master of Printers, help me avoid the disgrace of making pi of my life and guide me safely around the yawning mouth of the hell box."

Extension districts 5 and 11 with 15 each.

Lorene Stevens and Alice Wheatley, 4-H Club specialists, said the number of individual girls entering the contests would not be known until fall. The girls are competing for a number of awards including trips to the National 4-H Club Congress, saving bonds, cash scholarships, and medals.

Winners in the dress revue contest will be determined during the Texas 4-H Round-up to be held at Texas A. and M. College, College Station, August 27-30.

Lone Star Canning Bulletin Boost To Food Preservation

Cooperating with the Department of Agriculture's appeal for National Home Food Preservation Week July 15-22, Lone Star Gas Company's current recipe bulletin stresses modern methods of canning fruits, vegetables and meats to assure Americans a better diet and help the famine stricken of the world. Copies of the bulletin "Cooking With Gas" are available without charge through the company's business offices or requests may be mailed to Lone Star's home economics department in Dallas at 301 S. Harwood Street.

National food preservation week will focus attention on necessity of home preservation of food supplies for winter when food is badly needed throughout the world; it will emphasize need for food preservation throughout summer and fall.

The bulletin points out that canning is one of the best means of food conservation and describes the pressure cooker, boiling water bath and open kettle methods of canning vegetables, fruits, meats, poultry, fish, pickles, and relishes. Recipes for sugar substitutes and those requiring minimum sugar are given.

The pressure cooker method is the nearest approach to commercial canning and will handle any kind of food, the bulletin says, and the water bath method is "recommended for canning fruits tomatoes and tomato mixtures." The open kettle method "may be used for

preserving and pickling."

One section of the bulletin is devoted to containers, lids and sterilizing. Other points stressed are pre-cooking or blanching of fruits and vegetables, and how to detect food spoilage. It warns, "don't throw away food value! In pre-cooking vegetables and fruits, use the cooking liquid to fill the jars. Valuable minerals and vitamins leak out into the water, and will be lost forever if the water is discarded."

Mrs. James N. Walker and children returned to their home in Dallas last Saturday after a visit of several days with Mrs. Walker's mother, Mrs. G. R. Elland, and other relatives.

Mr. and Mrs. Elmer Dickerson and daughter, Billie Jo, spent the week end in Carrollton, Texas, where they attended the golden wedding anniversary celebration of Mr. Dickerson's brother.

Interest Keen In Contests For 4-H Club Girls

COLLEGE STATION. — Although 1946 marks only the second year that Texas 4-H Club girls have participated in national contests, in nearly two-thirds of the Texas counties with home demonstration work are competing for national honors this year.

In all, 124 county entries have been received by 4-H Club specialists of the Texas A. and M. College Extension Service. Forty-four counties have entrants in three contests, including the Girl's Records Contests, forty-three have entered two, and the remaining counties are competing in only one contest.

The Girl's Record Contest drew the most entries—94, while the Dress Revue is second in popularity with 70 counties submitting contestants. Next in popularity is the gardens contest with 32 counties. Other entries include: Food preparation 14 counties; clothing achievement and canning achievement, 16 each; farm safety, 10; Dairy foods, home ground beautification, and poultry, 3 each; better electric methods, frozen foods, and leadership, one each.

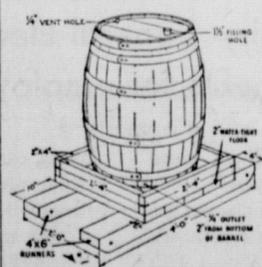

Where participating counties were concerned, District 2 led the state with 16, closely followed by

Sanitary Hog Fountain

RESEARCH at state universities has indicated that gains by hogs on summer pasture is in direct proportion to the amount of fresh water available for consumption.

Water under pressure will simplify the supply problem. With water under pressure, a barrel of water such as the one shown will furnish all of the water needed for an average number of hogs.

A tight barrel in good condition is placed on a water-tight platform and surrounded by a 4-inch ledge. The box thus formed is large enough to permit the barrel to fit inside snugly. Bore a hole in the side of the barrel 1 inch below the top of the ledge to maintain a water level at that height.

If water is available under pressure, it can be piped directly into the barrel. An automatic level float at the end of the water pipe will control the level of water in the barrel and will insure a supply at all times.

WHY!!

YOU CAN'T GET CASE MACHINERY

You are badly in need of farm machinery. Also, you are being called upon to produce more food than ever before. An explanation is due you, and it is only fair that you know the reason.

Would you want your hired man to tell you which field should and much-needed Replacement Parts.

Would you want your hired man to tell you which field should be planted to corn or oats, or which one of your employees should do the plowing and which should do the milking, or arbitrarily determine that they had done a day's work when they had cultivated a certain number of acres? We doubt it!

You think that such a situation could never come about; but the Case Company has been asked by Union leaders to yield to certain demands which are equally unreasonable.

Production employees in the Racine, Wisconsin, and Rockford, Illinois, plants of the Company have been on strike since December 26, 1945. Employees in the Rock Island, Illinois, and Burlington, Iowa, plants—who went on strike at the same time—voluntarily returned to work within a few days after the strike was called and are now on the job 100%, turning out more production than ever before.

In those communities the right to work is protected by law, and order maintained. This, in itself, is conclusive evidence that working conditions at the Case Company are not as objectionable as the Union officials claim. Further evidence is the fact that more than 16000 Case employees at the Racine plants alone have been with the Company for more than ten years.

Unfortunately, it is the farmer who is the innocent victim of the situation. Throughout the war the farmer had to work long hours under the most difficult conditions. Now, called upon to do even more than during the war, he is deprived of necessary equipment because of demands of Union agents.

In the months lost at Racine and Rockford, farmers have lost the benefit of a scheduled production of thousands of farm machinery units, even taking into consideration the fact that strikes in other industries and shortages of materials would have drastically decreased output of farm machinery.

Let us consider in detail the demands of the Union and state the position of the Case Company in each respect. The following gives you the reasons why the Company cannot agree to the demands of Union leaders.

1. A Closed or All-Union Shop.

This means that the Company could not discharge any employee without Union approval, nor retain any employee not in good standing with the Union.

We believe that no employee, no farmer, NO ONE, should be forced to join a Union or other organization in order to work. The Union seeks power to dictate when and under what terms a person may work.

2. Payment of Union Representatives for Time Spent on Union Business.

If this were granted, these costs would be added to the expense of manufacturing our products. When employees are working for the Union, it is only fair that they be paid by the Union.

3. The Check-Off System—requiring the Company to collect dues and assessments for the Union.

This means that the employees must help finance the Union whether or not he wants to be a member, or is in accord with its principles. If the union organization is acting in the interests of the employee, it should be able to collect its dues the same as any other organization, and it should not be necessary to use compulsion.

4. Job Preference for Union Officials.

Union officials are further demanding that they be given special privileges over other employees, regardless of whether their experience, skill or length of service justifies such discrimination. Were this practice followed, it would tend to reduce the quality of the product.

5. A 30 Per Cent Wage Increase.

Case's policy is to pay the prevailing wage scale in the communities in which it operates for all comparable jobs in its plants. At the time the strike was called, wages in the Racine plants averaged \$1.16 an hour, and adjustments had been offered which would have increased the take-home pay.

These demands mean that the Union is attempting to take over control of production from Management without assuming any responsibility for the continued and effective operation of the Company. This would interfere with the control of quality and increase the cost of farm machinery.

The Management of the Case Company does not believe that it is in the interests of its farmer-customers to yield to these demands which spell Union domination of the manufacture of its products. We believe that we are better qualified than the C. I. O. to manage this business and manufacture farm machinery.

As this is written the Case Company is threatened by the Secretary of Labor with seizure of its business and plants. This is part of the program of the Labor Department to compel the Case Company to yield to the demands of the Union leaders.

If the President of the United States can take over this Company which makes farm equipment to till the soil and harvest crops, then it is quite apparent that the land on which it is used can also be seized. No farm or farm equipment store will be safe from similar seizure.

Thos. H. Glover Makes Statement To The Voters

To the voters of the 50th judicial district:

Since I have not had the opportunity to see each of you personally and solicit your support for re-election to a second term as District Attorney for the 50th judicial district, I wish to take this method of presenting to you certain facts pertaining to my record as an American citizen and as your District Attorney.

During the more than eleven years that I served as Official Court Reporter for this District, I had an opportunity to hear and observe some of the best lawyers in Texas in the trial of cases. I studied law during my spare time and in 1936 I passed the State Bar Examination and was licensed to practice law by the Supreme Court of Texas. I am not a graduate of any university or law school. All applicants for admission to the State Bar of Texas must take the same examination, whether they be graduates of a law school or not. I did not enter the active practice of law until I was elected as your District Attorney two years ago. Since that time I have engaged in the trial of criminal cases with some of the best and most experienced lawyers in West Texas and the manner in which I was able to represent the State in these cases has been most gratifying to me and to my friends and to all those who are familiar with the facts and believe in law enforcement. Had it not been for the training, knowledge and experience gained through those years in the courtroom, I could not, and should not, have been elected as your District Attorney, and neither could I have represented you and the State of Texas in a satisfactory manner against more seasoned and experienced lawyers.

I am not an ex-service man. I offered my services to the Government in 1942 and was not accepted. I have two sons, one of whom spent 32 months in the army and 20 months in the European Theater. The other served two years in the Navy, and I have the greatest respect and admiration for every man who wore the uniform of his country. But the fathers and mothers, the wives and brothers and sisters who had to stay at home and who saw their loved ones march off to war, and whose thoughts and prayers were with them every hour of the day, are also entitled to some consideration for the sacrifices and contribution they made toward winning the war.

It has always been the established custom of the Democratic Party to return a man to office for a second term, and usually without opposition, when he has made an honest effort to carry out the duties of his office. So far as I

know, there has not been one word of criticism or complaint of the manner in which I have administered the District Attorney's office. I have done my best to make you a good District Attorney and by virtue of the experience gained during the past two years, I am now in a position to make you a still better officer. I feel not only that I am due some credit and consideration for the conscientious effort I have made to serve you first term, but have a further obligation to perform and an inspiration to continue as your District Attorney. Since my boys and yours fought to help win the war and preserve our American way of life, I should like to help win the peace by a fair and impartial enforcement of the criminal laws of our State.

Whether I see you or not, I want you to take this as a personal message to each of you, and I earnestly and sincerely ask that you give my candidacy your fair, unbiased and impartial consideration.

Thos. F. Glover

Moffett Author Of Free Voting Bill For G. Is.

The Munday Times has received the following statement from Senator George Moffett, who is a candidate for re-election to the State Senate from this district:

"It has come to my attention that one of the candidates for Lieut. Governor, who comes from Houston, has repeatedly published statements in this part of Texas, that he was the author of the bill providing for free soldier voting. I think the facts should be explained. This member, of the House of Representatives from Houston, introduced and passed through the House, a bill which would have provided for a free vote for those in uniform. His proposal did not include ex-servicemen and women who had been discharged. I introduced a bill (constitutional amendment) in the Senate, which passed through both branches of the Legislature and was adopted by the people at an election on August 25, 1945. This bill extended the free voting privileges not only to the members of the armed services while they were still in uniform, but also to those honorably discharged, for a period of eighteen months after their discharges, and that is the reason that ex-servicemen and women can vote in this year's election, without a poll tax.

"I sincerely thank the people of this district for having elected me

to represent them in the past. I have been the author of more bills and constitutional amendments, that have actually passed and become the law, than any other member of the Legislative. I expect to continue to use my efforts for the best interests of the people of this district, and the state of Texas.

For the year 1945, \$35,000,000 in addition to wages was spent by General Electric in extra benefits for employees

It isn't a new thing for General Electric to put more than money into pay envelopes for its employees.

"Job dividends"—these extras that G-E employees get in addition to wages—have a sound business reason. To be successful, a company must be efficient. A man with fewer worries can produce more efficiently, which makes further benefits possible.

Profit-sharing plans, relief and loan plans began over 10 years ago at General Electric. Life insurance for em-

ployees, cash for suggestions began over 20 years ago. Pension plans were started 33 years ago. And vacations with pay began 53 years ago.

Every employee has a stake in the future of General Electric. For out of its success—and only out of success—can come further advances in living standards. That is the aim of General Electric, not alone for its employees, but for the public, who gain by new and better products, continuously improved.

Fixing Up the Farm by BURTON WILLIAMS

Farm Shop Pays Its Way

A WELL equipped farm shop is the best answer for keeping farm machinery in operating condition. It is essential to keep buildings, your home and other equipment in good repair. The shop need not be expensive or elaborate, but it should be orderly and systematic. Location of the shop will largely depend upon the layout of other buildings within the farmstead arrangement. The shop should be convenient for servicing machinery after it is brought in from the fields.

Layout for Garage-Shop

If you have electricity available on the farm, the shop should be wired. Good lights will offer encouragement to do work on dark and rainy days when outside work can't be done.

A warm shop in the winter is another desirable feature. It can be obtained by lining the interior with asbestos cement board and including a stove in the shop's equipment. Asbestos cement siding will add lasting qualities to the exterior surface of the shop building.

SEYMOUR, TEXAS

For Governor

Dr. Rainey will be in Munday on Saturday, July 20th from 3:15 to 3:35 P. M. to meet people on the street and visit—no speech scheduled.

What Homer Rainey Stands For In His Crusade To Unshackle Texas:

- EDUCATION:**
1. \$35,000,000 a year increased appropriations for public schools, so that we can have:
 - (a) Minimum starting salary for bachelor's degree teachers of \$1800 a year with regular increases so that a teacher with 10 years of satisfactory experience will receive at least \$3000 a year.
 - (b) More money for country schools through increased funds for transportation aid, tuition payments, current operating expenses, and building repairs.
 - (c) Equalization aid for every school that needs it regardless of size.
 2. Sufficient state appropriations to provide the best system of junior colleges in America.
 3. Help for State Colleges to furnish sufficient housing for veterans and their wives, and to provide sufficient classroom space and enough teachers to handle increased enrollment.
 4. Separate schools for Negroes and Whites and impartial provision for both, including a first-class Negro university governed by an all-Negro Board of Regents.
- WELFARE:**
1. Increase welfare appropriations to constitutional maximum of \$35,000,000. When matched with Federal money, this will give us \$12,500,000 a year more for old-age assistance, aid to the blind, and aid to dependent children.
 2. Repeal of the \$35,000,000 ceiling on welfare appropriations.
 3. A general welfare program for all helpless citizens, regardless of age.
- HEALTH:**
1. Expenditure of \$1 per year per person for a public health program to maintain local health units, and to provide for preventative medicine programs, the training of more doctors and nurses, and the operation of mobile medical and dental clinics for rural areas.
 2. Expenditure of \$5,000,000 a year to help local communities build hospitals so that we can have hospitals everywhere they are needed.
- AGRICULTURE:**
1. Encouragement and aid to all soil conservation agencies.
 2. Encouragement of farm co-ops.
 3. Building of the greatest system of farm-to-market roads in America N. O. W.
- MONOPOLY:**
1. Wrest political control from monopolistic interests by removing their supporters from positions of responsibility in the state government.
 2. Inform the people of the facts about their government.
 3. Enact stronger anti-trust legislation.
 4. Tax the privilege of monopolistic enterprise.
 5. Encourage the formation of cooperatives.
- OTHER:**
1. Passage of a law making it a crime to transport black market lumber and building materials within Texas.
 2. Strengthening and enforcement of Texas anti-trust laws.
 3. More adequate appropriations and increased personnel for state law enforcement agencies, such as the Department of Public Safety and the Liquor Control Board.
 4. Careful exercise of the Governor's pardoning power to insure that hardened and vicious criminals will not be released to prey upon the public.
 5. Promotion of the industrialization of Texas so that we can have home-owned industries processing home-grown products, with the profits from such industries staying in Texas.
 6. Repeal of the poll tax as a prerequisite for voting.
 7. 18-year-old vote.
 8. Increase salaries for state employees.
- WHERE ARE WE GOING TO GET THE MONEY?**
- "We have in Texas the greatest storehouse of resources in the world. Yet we are still a poor state. That means that the people of Texas are not keeping in Texas for their own benefit a fair share of these resources in the form of tax revenues. I propose that we wake up. I propose that we get from these resources and others enough revenue to give us a decent school system, a first-class health program, a fine system of farm-to-market roads, and an adequate welfare program."
- "Let's unshackle Texas by freeing it from powerful economic interests and their political agents—the Texas Regulars. To do this job I need your help—your letters, your work along with your friends, your financial assistance. Together we cannot fail!"
- Vote For HOMER P. RAINEY For Governor!**

AAA FARM NEWS

(This is the sixth of twenty-two articles that will appear in this newspaper on the need of soil conservation being carried out, crop insurance, commodity loans, marketing quotas and other programs of interest to farmers.)

North Central Region
The ten states in the North Central Region supply more than half of all the food offered for sale from United States farms.

Therefore, now well we eat depends largely on the care given the land in this food-basket area.

Limestone.—Since the early days of the agricultural conservation program, North Central Region farmers have recognized the need for restoring food-producing elements to soils depleted by years of intensive cropping and erosion. The program has emphasized the spreading of limestone as the initial step to correct a calcium deficiency in the soil. This deficiency retards the growth of Nature's own protective land covers legumes and grasses.

Since 1936 the tonnage of limestone spread on farms participating in the AAA program in this region has jumped from about 2 million tons to about 14 million tons. The increase would have been even greater if the war had not limited the manufacture and distribution of the material.

The actual limestone needs of the soil in this region, based on an 8-year limiting program, have been estimated at 33 million tons annually, or more than twice the tonnage spread under the 1944 program.

Fertilizer.—After farmers saw that better pasture and higher crop yield resulted from the use of limestone, emphasis was also placed on other conservation practices. The application of fertilizer was pushed to stimulate more vigorous growth and better quality in legumes and grasses. This proved so successful that, like those for limestone, the demands for fertilizers under the program are running ahead of supplies. Application of superphosphate by cooperators increased from about 4,000 tons of 20 per cent superphos-

phate in 1936 to 704,000 tons under the 1944 program.

The more widespread use of lime and fertilizer has resulted in greatly increased production and better quality hay and grasses for the livestock of this major meat and dairy area. The bigger tonnage of legumes not only helped meet feed requirements but permitted more legumes to be plowed under.

Contouring.—AAA encouragement of contour farming in the Corn Belt States has lessened the erosion hazards which have been accelerated by the tremendous wartime expansion in corn and soybeans. Planting and cultivation of row crops on the contour checks erosion and holds the fertility. In the North Central Region the acreage of crops planted on the contour under the program practically doubled in 1 year, increasing from 2,268,000 acres in 1943 to 4,462,000 acres in 1944.

Dam building.—The long-time water and soil conservation aims of the program also are being realized by the construction of dams on farms and ranches and by tree planting for forest purposes, gully control, and windbreaks. Since 1937, farmers have moved more than 100 million cubic yards of dirt under the program to build dams for livestock watering and erosion control. In 1944 alone, 31,859 dams were constructed on farms and ranches in this region.

Results have been far-reaching. First, many additional thousands of acres of good grazing land have been made available for meat production. Second, the dams, together with other water-control practices in the program, provide an extremely effective means of flood control in the watersheds of the Mississippi and Missouri Rivers. Water-control practices encouraged by the program attack the source of the Nation's flood-control troubles by preventing excessive runoff of rains.

Miss Aiva Frazier of Hollywood, Calif., spent the week end here with Mr. and Mrs. W. E. Reynolds and family. She went from here to Denton for a visit.

Sam Salem spent the first of this week in Dallas, visiting with Mrs. Salem and children and attending the markets to purchase merchandise for The Fair Store.

Mr. and Mrs. Wayne Warren and children were visitors in Lubbock the first of this week.

Mrs. Olive Keene spent last week in Plainview and Floydada, visiting with her sisters.

Linda Kay Smith, daughter of Mr. and Mrs. Weldon Smith, is visiting her grandmother in Springtown this week.

Mr. and Mrs. Wade Mahan visited with friends in Wichita Falls last Sunday and Monday.

CANDIDATE FOR Lieut. Governor OF TEXAS

A native Texan, 12 years in State Legislature, where he fought for a liberal old-age assistance, better rural schools, farm-to-market roads. Sponsored bill giving soldiers right to vote without paying poll taxes. When you promote him, he will keep up the fight!

Fixing Up the Farm by BURTON WILLIAMS

Rat-Proofing Granaries

WITH world food stocks at a critically low level, and livestock feed in abundance a dream of former days, every precaution should be taken to preserve the grain from this year's crop.

Rats cause many thousands of dollars damage every year on the average farm. Proper precautions against these rodents means extra profit for the farmer.

Asbestos cement board is rat-proof. It is easily installed on the interior surface of all grain bins. A movable type of granary such as the one shown is a valuable addition to the farmstead equipment for storing the overflow of grain that the regular bins will not hold. It also is useful for storing feed for livestock on pasture.

Such a granary is easily moved with the average farm tractor. Using asbestos cement board on the exterior surfaces and asbestos shingles on the roof will add lasting qualities to the structure.

GET THE NEW B.F. GOODRICH SILVERTOWN AND KNOW YOU'RE SAFE!

The new B.F. Goodrich Silvertown has been tested by experts! By experts like Col. A. R. Killiam (shown here), Superintendent of Indiana State Police, who helped put the tire through miles of carefully recorded road tests. Millions of miles of tests proved the super-safe construction of the new B.F. Goodrich tire.

Come in and see us today for the tire that OUTWEARS PREWAR TIRES!

You can get earlier delivery if you see us NOW!

"Outwears Prewar Tires!" Those magic words have made the new B.F. Goodrich Silvertown tire the most wanted tire on the market — because those words state an honest fact conclusively proven by millions of miles of carefully recorded tests and millions more miles of consumer driving!

What does the new B.F. Goodrich tire have? It has B.F. Goodrich's own "road level" tread to give you more rubber to share the wear... more tread to stop on... more traction to hug the curves. It has tougher cords and more of 'em to give it a far stronger body.

Even at high speeds, the new Silvertown OUTWEARS PREWAR TIRES.

Food Shortage Gives Impetus To Farm Safety

Approximately 20,000 communities throughout the nation are planning special observances of the third annual National Farm Safety Week July 21-27. The National Safety Council and the U. S. Department of Agriculture annually sponsor the week to call attention to year-around accident prevention on farms.

Special impetus is being given the observance this year by the critical world food situation which calls for greater production than ever before in the history of the nation.

"All farm people know that accidents may cause delay and loss in production, yet last year an average of 44 farm people died of accidents each day," Ned H. Dearborn, president of the National

Safety Council, said.

In a proclamation calling attention to the special occasion, President Truman has asked farmers to remove a hazard a day until farms are made as safe as possible.

Among national agricultural organizations cooperating in the endeavor are the National Grange, the National Fire Protection Association, 4-H Clubs, the Farm Equipment Institute, the American Farm Bureau Federation, Farm Cooperatives, Farmers' Union and others.

Many organizations are planning program meetings devoted to safety subjects during the week.

RECEIVES DISCHARGE

Mr. and Mrs. Jeff Dean Bowden of Corpus Christi came in last week for several weeks' visit with Mr. Bowden's parents, Mr. and Mrs. J. O. Bowden. Jeff Dean, who has been serving in the Navy, has received his discharge.

IT PAYS TO ADVERTISE

Certificate of Competency Given Water Works Supt.

A certificate of competency was granted recently to E. Y. Johnson, local water works superintendent. The certificate was issued by the Texas State Department of Health, and specified that Johnson was competent as a "Grade C Well" operator and assures the public that the local water system is in the hands of a competent operator.

This certificate was awarded as a result of the waterworks school held in Stamford last year, which was attended by both Mr. Johnson and Harvey Lee, city secretary.

TO YOUTH CAMP

Jackie Mayes and Kenneth Stubblefield left last Monday for Ceta Canyon, where they are attending the Methodist Youth Camp this week. They joined others in this area at Knox City, and made the trip from there by bus.

TWO STARVING Czechoslovakians, too weak to walk without the aid of canes, look toward America for help—immediate help—to save them from death. You have a chance to aid them and millions like them in famine-stricken countries. Give money or food in tin cans to the Emergency Food Collection. Give that they may live.

S. H. VAUGHTER AND FAMILY MOVING HERE TO MAKE HOME

Mr. and Mrs. S. H. Vaughter and family completed moving to Munday from Rochester this week, and are now located in the residence formerly occupied by Mr. and Mrs. George Salem.

Mr. Vaughter succeeds W. C. Cunningham as superintendent of the Munday Public Schools, beginning his duties on July 1. He served as superintendent of the Rochester schools for a number of years.

BIG PEACH CROP

COLLEGE STATION. — The Texas peach crop is estimated at 2,613,000 bushels despite June hail in some areas which cut down the yield.

The estimated yield in the early peach producing areas is 39 million bushels and the U. S. crop is expected to total 81,065,000 bushels, only one percent under the all-time high set in 1945.

B. F. Vance, state director of the USDA Production Marketing Administration, said steady movement of fresh peaches from trees to kitchens was necessary if the big crop is to be put to best use.

He urged housewives to take full advantage of supplies now on the market and to can, dry and quick-freeze them for use later. Commercially canned fruits will not meet consumer demand for the coming year, he said.

Potatoes, tomatoes, and onions are also plentiful on the market at the present time.

Mr. and Mrs. Troy Warren of Wink, Texas visited with Troy's parents, Mr. and Mrs. S. J. Warren and with Mrs. Warren's parents, Mr. and Mrs. U. R. Rogers and other relatives here over the week end.

Olin Culberson

For Second Term As Railroad Commissioner

DEMOCRATIC STATE PRIMARY JULY 27

We regard him as a distinguished Texan, and a worthy citizen, on the basis of his record for his first term as Railroad Commissioner—during which he served as chairman of the Commission. His work accomplished includes:

- Establishing the "open door" policy for his important state office.
- Abolishing "favoritism" before the Railroad Commission.
- Brought about regular meetings of a full-membership commission to pass on all orders.
- Established rule requiring ten days notice before hearings on all matters coming before the Railroad Commission.
- Vigorously opposed piping Texas natural gas to other states.
- Fought for and helped secure reduced freight rates in Texas and the Southwest.

LET'S KEEP A MAN WHO CAN DO THIS KIND OF JOB FOR US!

New Chemicals Soon Available To All Housewives

Farm folks everywhere are familiar with fertilizers and insecticides. Now there's another new family of chemicals which will become just as necessary and just as familiar on the average farm and ranch. These are the hormone chemicals. . . the "growth regulators." In all there are about a hundred of them. . . but maybe you're most familiar with 2,4-D, the new weed killer.

For example, one of these chemicals is used to promote the rooting of cuttings, and at the same time serve as a fungicide. Nurserymen and horticulturists have used this successfully for a good and home gardeners and flower growers likely will be trying it soon.

The U. S. Department of Agriculture now is working on a method to use hormones to increase the setting of fruit. Already they have found that use of hormones increases the fruit on tomatoes. . . and the tomatoes get bigger and grow faster. In much the same way, spraying apple trees with hormones helps keep fruit from dropping off the trees, explains M. K. Thorton, Jr., agricultural chemist for the Texas A. and M. Extension Service.

Eventually, scientists hope that we can use these new "growth regulators" to hasten the ripening of some fruits and to keep potatoes from sprouting.

Meanwhile, research folks are still busy finding out what 2,4-D will or will not do. It'll kill weeds in your lawn such as dandelions and plantain but it will also kill clovers. So far it's not proved of much value in killing Johnson grass or quackgrass. And scientists still haven't made recommendation for its use on binweed, thistles, and some other noxious farm weeds.

So the safe thing to do is to consult your county Extension Service agents who keep up with the latest developments in these fields. They can give you the benefit of

research findings and growers' experience as well.

GRACIOUS LIVING FOR FARM WIFE

SCHENECTADY.—To live graciously the farm woman must make time in her life for others, Mrs. Don Wherry of Mechanicsville, Iowa, associate editor of Wallace's Farmer and Iowa Hoestead, declared in a General Electric Farm Forum address here over WGY.

She said that the farm woman must show hospitality to friends and neighbors, and look after the little problems of farm children.

"The kindness and hospitality that go into gracious living are qualities of the heart," Mrs. Wherry pointed out. "But it's the mechanics back of it all that constantly increase our opportunities for gracious living."

The "time makers" that help to make gracious living, she said, are water systems, sewage disposal, electric light and power, easy-to-prepare groceries, linoleum floor coverings, laundry equipment, bathrooms with plenty of hot water, home freezing units, and such little things as waxed paper and stainless steel cooking utensils. "Every one of them can release time for her (the farm woman) to live more graciously," Mrs. Wherry asserted.

Train your mind to mind the train, advises the National Safety Council in reporting that grade crossing accidents killed 2,074 people last year.

The accidental death rate to children under 5 years of age has dropped 27 per cent in the last 23 years, reports the National Safety Council.

Home accidents took the greatest farm toll last year with 6,500 deaths as compared to 6,000 in 1944, reports the National Safety Council.

New York is the only state touching both the Great Lakes and the Atlantic Ocean.

Munday Boy Is Married Sunday At Brooke Hospital

In order that a patient at Brooke General Hospital, Brooke Army Medical Center, could witness his brother's marriage ceremony, the wedding of Hazel Huddleston of Baird, Texas, and Jim Jack Thompson of Route one, Aledo, Texas, was brought to the day room of Ward Six of the hospital.

The marriage was solemnized at 2:30 Sunday by Major Robert B. Mayfield, Brooke Army Medical Center chaplain.

Logan Thompson of route one, Aledo, former member of the merchant marine and for whose benefit the wedding was held in the hospital, gave the bride away. Best man was the bridegroom's brother-in-law, Charles Scroggs of Aledo, and matron of honor was Mrs. Scroggs. The maid of honor was Miss Francis Hudson, 5000 Mansfield Highway, Fort Worth, a friend of the family.

The bridegroom is the son of Mrs. Ida Thompson of Munday, Texas. He formerly served with the First Cavalry Division in the Pacific.

The bride wore a two piece suit with a corsage of white lilies on her shoulder.

The day-room, in which the ceremony was held, was beautifully decorated with vases of white lilies. Guests included patients and nurses on the ward.

LEAVE FOR TENNESSEE

Mr. and Mrs. P. V. Williams and daughter, Charlotte, and Mr. and Mrs. Rupert Williams left last Tuesday for Tennessee, where they will spend about two weeks visiting with Mr. Williams' parents, Mr. and Mrs. J. A. Williams, and other relatives. They were joined in Dallas by Jack Williams and family, who made the trip with them.

TO THE DEMOCRATS OF KNOX COUNTY:

Democratic voters of this county signed a petition to place the name of T. W. Templeton on the primary ballot as a candidate for County Attorney. Through an oversight the signers failed to acknowledge it before a notary public and so his name was not put on the ballot.

Now we think in all fairness we should have a chance to vote for him and we are asking all Democrats who want him as our County Attorney to join us in a write-in campaign in the primary.

As soon as you get your ballot run a line through the name printed on the ballot and write or print the name of T. W. Templeton underneath—Like this

County Attorney:
T. W. Templeton

Public Support For Safer Texas Is Urgent Need

Austin.—In the face of an already 45 per cent increase in traffic fatalities over last year, the Texas Safety Association today accepted a charge by Governor Coke Stevenson to mobilize public support for a safer Texas.

Announcement of its designation by the governor was made by A. F. Allen, president of the association, upon receipt of a letter from Stevenson.

"Since my inaugural address as Governor, I have stressed the importance of highway safety as essential to modern, progressive government," Stevenson said. "There is no more tragic waste of human lives, no more unnecessary background to human suffering, no more needless source of economic loss than traffic accidents.

"The current critical traffic accident situation is a positive challenge for public action to every Texas citizen. Unless vigorous and concerted application of proven methods of traffic control is made, Texas faces the greatest accident toll in its history.

"To that end, I call upon the Texas Safety Association to coordinate the practical recommendations of the President's Highway Safety Conference and to mobilize public support for a safer Texas.

"Your worthy organization has rendered invaluable service to the people of Texas through its program of traffic, industrial, school and home safety. I know that its leadership in the present emergency

will be no less effective."

President Truman's Highway Safety Conference held in Washington this May was attended by twenty members and officials of the Texas Safety Association. Recommendations of the national conference parallel in large measure those of the Texas Emergency Traffic Conference and the Texas Safety Conference according to said Allen.

"The principal elements of this uniform traffic control program embrace positive and practical measures that experience has shown are necessary to curtail street and highway accidents," Allen.

"This basic guide for traffic safety in Texas contains blueprints for uniform traffic laws and ordinances, adequate traffic enforcement personnel, driver training courses in our schools, and modern techniques in enforcement and engineering.

Allen said the association accepted the governor's charge "in the belief that a balanced and adequate traffic control program of state and local government, fully supported by the people both through organizations and as individuals, can bring down and hold down the highway casualty list."

Exploration Made Of Texas Streams

Austin.—A study of West Texas streams and ancient stream deposits is being made this summer by the Texas Memorial Museum on the University of Texas campus, in conjunction with the University Bureau of Economic Geology.

Glen L. Evans, geologist who is assistant director of the museum, is in charge of the mapping and exploration. Working with him are Grason Meade, professor of geology at the Texas Tech, and A. H. Witte, of Austin. Lubbock is their base for the studies.

In addition to reconstruction of geologic history of Texas, the geologists are collecting fossils that will be suitable for exhibit in the museum.

Misses Alca and Nadine Salem who are attending Southern Methodist University in Dallas, spent the week end with their parents, Mr. and Mrs. George Salem.

CARD OF THANKS

It is with grateful hearts that we attempt to express our thanks to every one who were so kind and thoughtful to us in the illness and death of our beloved wife and mother, Mrs. J. R. Pollock.

We greatly appreciate every deed of kindness every comforting word, every floral tribute and the nice dinners that were served.

Our prayer is that God will bless you all and give you such loyal friends in your hour of sorrow.

J. R. Pollock and family. 1p.

Attention, Fellow Citizens!

Let's Elect Wm. Griffith

County Judge of Knox County

He was vigorous enough to make an intensive campaign of the entire County. Don't you think he would be industrious enough to sit in a cool office and administer the affairs of the county.

His experience as County Commissioner has familiarized him with the duties of the office of County Judge.

BILL GRIFFITH is experienced, capable, industrious, friendly and honest, a clean Christian Gentleman, who will conduct the affairs of the office to the best interest of all of Knox County.

Let's Give Him A Chance Folks

Vote for Wm. GRIFFITH—for county Judge!

"This ad was written by, paid for and published by Friends of Wm. GRIFFITH."

Veterans' News

Q. Can a member of the Women's armed services obtain medical aid from the Veterans Administration in pregnancy cases?

A. Veterans Administration has ruled that pregnancy is not a disease or a disability but a natural phenomenon or process and therefore is not a responsibility of the government. However, if there are pathological complications, the ex-service-women can receive medical aid.

Q. Can a merchant seaman who is disabled in World War II receive vocational rehabilitation?

A. Not from the Veterans Administration, for the reason that he is not a veteran. He may secure it from the Federal-State rehabilitation program under the Federal Security Administration.

Q. For what purposes may a vet-

eran get a guaranteed loan?

A. To buy, build, repair, alter or improve a home; buy a farm, livestock, equipment or supplies or to acquire working capital; construct a farmhouse or other buildings on a farm; repair, alter or improve a farmhouse or outbuildings; improve farm land or equipment; conduct farming operations; purchase stock in a cooperative association where the purchase of such stock is required by Federal Law in connection with obtaining a farm loan; buy a business; buy a building or land for business purposes; buy business supplies and inventory; buy machinery, tools and equipment for operating a business; construct, repair or improve a business building or personal property; obtain working capital for a business or profession.

Q. Can a veteran get a guaranteed loan to pay off a debt that is past due?

A. Yes, under certain conditions. Full information may be secured from the lender or from the local VA loan guarantee officer.

Q. What interest rate is charged?

A. The interest rate on a guar-

anteed loan cannot exceed 4 per cent. The interest rate on a non-real estate loan which is to be insured for the lender instead of guaranteed may be as much as 5.70 per cent.

Q. What loans can be insured by VA?

A. Any loan eligible for guaranty when made by a supervised lender.

Veterans planning to enter school this fall should make their arrangements immediately, Veterans Administration authorities warned this week.

A record enrollment is anticipated, VA said. Prospective students were advised to contact schools they expect to attend and to obtain certificates of eligibility from the nearest VA office.

A new physical medicine program for paraplegics (spinal cord cases) and amputees has been started by the VA hospital at Dallas, Texas. Promising results already have been obtained.

Dr. John J. Szama, director of the program, said new physiotherapy techniques and exercises developed by VA specialists are of benefit in the rehabilitation of these handicapped veterans.

Veterans who left Army or VA hospitals without the benefit of this new rehabilitation program can re-enter VA hospitals for the instruction, Dr. Szama said.

VA personal counselors will soon serve veterans throughout the country. These experts are now taking a series of special university courses on counseling.

Very soon they will be available in VA regional offices to help veterans baffled by blind alleys in their education or on-the-job training.

The Va's master contract with 80 Texas county vocational schools to provide—initially—training for some 8,000 veterans became effective this month, William T. Murphy, VA's director of education and rehabilitation in the southwest, announced.

The contract calls for three types of training to be provided veteran-enrollees: agricultural, in-

For Modern Mermaids

THIS two-piece bathing suit is dusty pink spun rayon, printed and piped with black. It sports flirtatious ruffles at one side of the full skirt. Make sure your rayon beach finery is labeled with results of sun and salt water tests so that you won't be a bedraggled mermaid after a dip in the ocean. If you

dustrial and business. By fall, Murphy said, the number of schools operating under the contract may increase to 100, with a total enrollment of 15,000.

Similar contracts for agricultural vocational schools are operating in Louisiana and Mississippi.

Robert G. Hosea is improving nicely from a minor operation performed recently at the Knox County Hospital.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

With a sharp increase in the number of persons being bitten by rabid animals in East Texas, and similar occurrences reported in other sections of the state, Dr. Geo. W. Cox, State Health Officer, recently warned all Texans to be on the alert for symptoms of this disease when around domestic or wild animals.

The 2,166 animal heads received for examination by the State Health Department during the past year have shown 687 positives, including incidence among cats, dogs, horses, rabbits, rats, squirrels, skunks, guinea pigs, coyotes, gophers, raccoons, hogs, sheep, and prairie dogs.

Rabies is transmitted to man through a bite or having a cut exposed to the saliva of a rabid animal. Bites through clothing are not as dangerous as bites on

exposed surfaces, because the saliva is wiped off as the tooth passes through the cloth.

If a person is bitten, the offending animals should be penned, if possible, for a period of ten days observation. If the animals is normal at the end of that time, the case can be dismissed. If it is necessary to kill the animal, this should be done in such a manner that the brain is not destroyed, otherwise, an examination to determine whether or not the animal had rabies will be impossible. If the head is sent to the State Health Department, care should be used in properly icing it to prevent decomposition.

Mr. and Mrs. George W. Tweed of San Francisco, Calif., came in last week for several weeks' visit here with Mrs. Tweed's parents, Mr. and Mrs. W. E. Reynolds.

Mrs. Roy Lee Jones and children and W. V. (Bill) Jones and daugh-

ter, Dorothy, of McCamey were recent visitors in the home of Mr. and Mrs. James Norwood of Goree and with Mr. and Mrs. E. H. Jones of Weinert.

Mr. and Mrs. Elmer Norwood and daughters and James Norwood spent the week end visiting in the home of Mr. and Mrs. Eugene Sanderson and sons of Bridgeport.

Mr. and Mrs. Pete Beecher spent the week end in Lubbock, visiting with relatives.

Mrs. W. M. Mayo and Miss Delores Campbell were business visitors in Abilene last Friday.

Mr. and Mrs. R. O. Dunkle of Benjamin were business visitors here last Monday.

Mr. and Mrs. Carl Green and daughter, Mrs. Travis Cure, visited relatives in Olney and Weatherford last week.

Sunset H. D. Club Meets Wednesday In Shannon Home

The Sunset Home Demonstration Club met on Wednesday, July 3, at 2:30 p. m., in the home of Mrs. J. S. Shannon. The house was called to order by the president, and minutes were read and approved and old and new business discussed.

Mrs. W. E. Pack was nominated as a delegate to the council. A lady from each club will be nominated, and out of these three will be elected as delegates to the district meeting in Amarillo.

During the social hour, plans were made for the stunt for the encampment. A sing-song was led by Mrs. Almanrode.

Refreshments were served to Meses. Bob Hicks, Jerry Nix, Layne Womble, R. M. Almanrode, Gill Wyatt, C. H. Harrell, Troy Harrell, Miss Ruth Harrell and the hostesses, Mrs. Shannon.

The next meeting will be July 18 in the home of Mrs. Bob Hicks. Each member is urged to be present, as the stunt for the encampment will be rehearsed at this time.

Miss Lillian Earnest and Mrs. George Knight of Seymour and Mrs. Joella Robison of Lovington, N. M., visited Mrs. H. G. Williams of Goree last Saturday morning. This was the first time Mrs. Williams and Mrs. Robison had been together in twenty years.

Gwendolyn Groves of Wichita Falls is spending her vacation with her parents, Mr. and Mrs. D. M. Groves, and other relatives here.

T/Sgt. and Mrs. J. P. Groves of Randolph Field, Texas, were here the first of this week, visiting with Sgt. Groves' parents, Mr. and Mrs. D. M. Groves.

Bridge Party Is Enjoyed Thursday In Jungman Home

Mrs. H. F. Jungman and Mrs. Carl Jungman were hostesses at a lovely bridge party last Thursday evening at the home of Mrs. H. F. Jungman.

At the close of the games, a delicious refreshment plate was served to the following:

Mmes. Dorse Rogers, Aaron Edgar, J. C. Harpham, Fred Broach, Jr., Wade Mahan, Jack Mayes, Miss Thelma Atkinson and the hostesses.

Moore Reunion Held At Goree On Last Sunday

Seventy-seven relatives and friends attended the annual reunion of Mr. and Mrs. W. L. Moore and family on Sunday, July 14, in the home of a daughter, Mrs. J. J. Perdue of Goree.

All of the children, five sons and five daughters were present. They are: Roy, Jack, Johnny, Billie, all of Goree; and Nealie Moore of McCamey, Mrs. Jodie Perdue, Mrs. Buster Chamberlain, Mrs. Buel Claiburn, Miss Essie Mae Moore, all of Goree, and Mrs. Ira Loving of Seymour. Twenty-one grandchildren and eight great grandchildren were also present.

Others present from out-of-town were: James Alvin Floyd, Abilene; Jimmie Hawkins, Sugarland; Mr. and Mrs. J. C. Segler, Dundee; Mr. and Mrs. Allen Loving and Weldon Loving, Munday; Mr. and Mrs. M. T. Chamberlain, Munday; Mr. and Mrs. Roy Perdue and family, Bomarton, and Mr. and Mrs. Willie Floyd and daughter, Sharron, of Abilene. Floyd has just received his discharge.

It isn't the right of way that counts—it's the right way, says the National Safety Council.

Hot Weather Suit

A two-piece suit in bright "Sun Red" rayon shantung is shown above as pictured in the June issue of Harper's Bazaar. It has a very short, rather loose jacket with a Peter Pan collar, and sleeves with turned back cuffs. It has four gold coin buttons down the front and two on the sleeves. The skirt is four-gored.

Stillwell-Yates Marriage Rites Performed July 7

On Sunday, July 7, at 2:30 p. m., Miss Frances Yates, daughter of Mr. and Mrs. W. S. Yates of Goree, became the bride of Lieut. Raymond P. Stillwell, son of Mr. and Mrs. R. B. Stillwater of Tulsa, Okla.

The beautiful double ring ceremony was performed by Rev. Phinis A. Lewis at the Assembly of God Church in Wichita Falls.

The bride was accompanied by her roommate, Miss Jeanne Parks of Wichita Falls, and accompanying the groom was Don Hudson of Tulsa, Okla. Ushers were Joe Norton of Wichita Falls and Lieut. Orin Nutting of Sheppard Field.

The bride, given in marriage by her father, wore a street length dress of aqua blue with a lovely corsage of American roses. Miss Parks wore a street length dress of baby pink and a corsage of white gardenias.

The altar was beautifully decorated with white gladiolas and fern, and lighted candles crowned each basket.

Miss Sunshine Allard was accompanied by Mrs. Phinis A. Lewis on the piano when she sang "Oh Promise Me" and "I Love You Truly." The wedding march was played by Mrs. Lewis.

Immediately following the ceremony, friends and relatives attended a reception given at 1808 Fillingmore, where the lovely wedding cake was cut and served with punch.

Mrs. Stillwater is a graduate of Goree High School. She later attended Droughon's Business College in Wichita Falls, and upon completing her studies there she held a position as stenographer with Briggs & Co until two weeks prior to her marriage.

Lieut. Stillwater is a graduate of

"Porch" Party Is Held Wednesday In Kemletz Home

Mrs. A. V. Kemletz and Mrs. A. Smith, Jr., entertained a group of friends with a bridge party on Wednesday night of last week. The group gathered at the home of Mrs. Kemletz and enjoyed the games on the front porch.

High score at the games was held by Mrs. Dorse Rogers.

The hostesses served a delicious refreshment course to the following:

Mmes. Elmo Anderson, Fred Broach, Jr., Jack Mayes, Wade Mahan, J. C. Harpham, Dorse Rogers, James Dyke, Miss Thelma Atkinson, and the hostesses.

RECEIVES DISCHARGE

Clarence M. Thompson, Jr., seaman first class in the Navy, received his discharge on July 11 at Shoemaker, Calif., and is here for a visit with his parents, Mr. and Mrs. C. M. Thompson, Sr. He entered the service on August 10, 1944.

Central high school in Tulsa, Okla. Upon graduation, he attended Oklahoma A. and M. College until entering the Army Air Forces in 1943.

Lieut. and Mrs. Stillwell flew to Tulsa, Okla., where they spent a lovely honeymoon. They have returned to Wichita Falls, where they plan to make their home.

Changes Should Be Reported To Security Board

Brides, divorcees and other workers, who have been employed in stores, offices, factories and similar industrial or commercial work, should advise the Social Security Board of any changes in their names if they are to continue to work in such occupations, Gordon James, Manager of the Social Security Board field office at Wichita Falls, stated today.

"The reporting of such changes and corrections is necessary in order that the Social Security Board may keep their records under one account number," James said. "It is also important because it means full benefit when the worker retires, or in case of death of the wage earner, accurate monthly benefits to his or her eligible survivors."

A form OAAH-7003—"Employee's Request for Change in Records"—can be obtained by writing or calling at the field office in Wichita Falls.

Mr. and Mrs. Gene Shackelford are spending the week with Mrs. Shackelford's parents, Mr. and Mrs. J. A. Hill and family.

Mr. and Mrs. M. Boggs and family spent the first of this week on a fishing trip on the Llano River, near Junction.

Veterans Urged To Use Care In Converting Their G. I. Insurance

Veterans contemplating conversion of their GI insurance to the 20-payment plan should be sure they can pay the relatively high premiums in the future, the Veterans Administration warned today.

The 20-payment is the most costly and, so far, the most popular of the permanent insurance plans offered veterans by the government, Paul G. Miller, Insurance Officer of the Dallas Regional VA Office, said. Since all NSLI policies issued prior to January 1, 1946, do not have to be converted until eight years from date of issue, veterans should not be hasty in converting to any permanent plan, he added. The greatest number of lapses has been among those choosing the 20-payment plan, Mr. Miller said. Too often, he explained, veterans over-estimated their earnings and were unable to keep up the premiums.

"The veterans should first be reasonably certain about his economic status before he converts to any permanent type of insurance," Mr. Miller pointed out.

"When he believes he is in a position to convert, he should exercise a good deal of judgment and take sufficient time to analyze his insurance needs."

"He then should select the type of insurance that will best adapt itself to his individual requirements, considering both protection for his family and ability to pay the premiums."
 As of May 31, nearly 500,000 veterans had converted their GI

insurance to permanent plans. Of this number, 165,000 chose 20-pay life; 33,000 30-pay life; and 32,000 ordinary life.

In addition, there were some 60,000 conversions that had not been tabulated.

Legislation now is pending in Congress that would permit conversion of NSLI term insurance to additional types of permanent insurance, Mr. Miller said.

Most veterans, wisely enough, Mr. Miller believes, are continuing to pay premiums on their insurance, waiting for a more favorable moment to change it to a per-

Freight Shipments Decline In May

Austin.—Freight shipments in Texas in May were 30 per cent less than those in May, 1945, the University of Texas Bureau of Business Research reports.

Shipments for the southwestern district, totaling 241,730 carloads, declined 8 per cent under April loadings of 261,786.

Grain and grain products carload shipments were 36 per cent less in May over May, 1945, but showed a slight increase of 3 per cent over April.

Forest products, and coal shipments were smaller in May as compared with May of last year.

Miss Florene Decker of Fort Worth spent last week with her parents, Mr. and Mrs. Henry Decker and other relatives and friends.

Electricity Works for Peanuts!

And if you aren't up on today's expressive slang, "peanuts" means a very small amount of money. Like your electric bill. It really is "peanuts," isn't it—compared to most other items in your family budget?

While the cost of most things climbed through the years—the price of electric service kept right on going down. Even in wartime, when practically all prices popped up, electricity actually became a few "peanuts" cheaper.

As a matter of fact, the average American family gets twice as much electricity for its money today as it did 15 years ago!

All of this goes to prove an important point. Sound business management—and experienced employees—together have given the American people dependable, low-priced electric service—the best and most in the world! You'll enjoy that service even more in the electric years ahead.

West Texas Utilities Company

Firestone Firestone

Look This List Over For Your Needs:

Leather upholstery material:
 (Antique white, red and tan.)

Battery radios, light fixtures, electric wire, fluorescent bed lamps, table lamps, flood lights, A-B pack radio batteries, crescent wrenches, vices, box-end wrenches, new fuel pumps, Engine-tire pumps.

Toys Tors Toys

Start buying your toys now! The way it looks, toys will probably be much higher by Christmas. A small deposit will put any item on our lay-away plan.

We have a few Horsman Dolls left. Come in and look around.

DDT, Sulphur Used To Fight Cotton Fleas

A DDT-sulphur mixture is more effective against adult cotton flea hoppers and for the control of heavy infestations than sulphur alone, says R. O. Dankle, County Agent. This was indicated in results of recent experiments at the Texas Agricultural Experiment Station. However, sulphur alone will give economical control of light to medium infestations. The DDT-sulphur mixture, which is more expensive is recommended only for heavy infestations where it is necessary to reduce the insect population below the damaging point as quickly as possible.

DDT has proven toxic to adult hoppers as well as immature forms. Tests have shown that a mixture of five per cent DDT mixed with either sulphur or an inert diluent gave good control of hoppers. However, the DDT, when mixed with an inert diluent, also was effective in reducing the population of beneficial insects, thus causing aphids to become damaging. So caution should be exercised in applying DDT early in the season, in order not to build up injurious infestations of aphids.

For economical control of the hopper, it is essential to examine cotton to ascertain the numbers of insects present. Applications of from 12 to 15 pounds of sulphur per acre are sufficient to control light or medium infestations, while a five per cent DDT-mixture is recommended for heavy infestations.

The first application of sulphur should be applied when from 15 to 25 hoppers are found on 100 cotton terminals. If the infestation rapidly increases due to the adults migrating in, or if it reaches high numbers, before being discovered, the DDT-sulphur mixture should be used to stop the damage as quickly as possible.

America's wheat goal in 1946 is 68,875,000 acres. But if America's farm accident toll is as great this year as it was in 1941, enough time will be lost from farm accidents to produce three-fourths of that wheat crop, reports the National Safety Council.

TEXANS BOOST COTTON INSULATION

(Above) Initiating a statewide program to introduce the new flameproof cotton insulation to rural Texans, officials of the Texas Extension Service, the Department of Agriculture, and the National Cotton Council met recently at College Station, Texas. Examining samples of cotton insulation and the demonstration kits to be used by field workers are (left to right) J. D. Prewitt, vice director and state agent, Texas A. & M. College Extension Service; Ed Lipscomb, sales promotion director of the National Cotton Council, Memphis; Maurine Hearn, vice director for women, and state home demonstration agent, College Station; John L. McCollum, southwest area cotton branch manager, USDA Production and Marketing Administration, Dallas; Alfred Pendleton, USDA Extension cotton gin specialist, Dallas; and Dr. Ide P. Trotter, state director of Extension, College Station.

(Below) Intense interest in the new cotton insulation, which is superior to other insulation materials in insulating value, weight, and resistance to packing, is shown by (left to right) Mrs. Dora R. Barnes, clothing specialist; Miss Maurine Hearn, state home demonstration agent; Mrs. Bernice Claytor, home improvement specialist; and Miss Bess Edwards, district home demonstration agent. All are members of the Texas Extension Service at College Station.

Doubling your speed, according to the National Safety Council, means: (1) Twice the thinking distance before you start to stop; (2) Four times the breaking distance before you stop; (3) Four times the force of collision if you can't stop!

Farm resident deaths from accidents increased 8 per cent in 1945

as compared with the 1944, the National Safety Council reports. How many homes are there in your community? Last year of every 1,100 homes, one was visited by death due to home accidents, reports the National Safety Council.

IT PAYS TO ADVERTISE

Why Argue?

By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

EVER since V-J Day, which most Americans look upon as the end of World War II, we have all recognized a high clamor of communitarianism, a great many well-meaning people have tried to oppose it on the street corners, to no avail. It is like arguing with a headline in yesterday's newspaper. To be really effective, our opposition must go much deeper.

There are not many things that I like less or fear more than concentration of political power, government by men rather than by law, and official favoritism for individuals and cliques; and I'm not alone. I am convinced that an overwhelming majority of Americans feel the same way. Consequently I hope these few remarks may improve the measure of protection for us all.

Futile WORDY arguments never contribute much to the world's progress or to any people's store of knowledge. In fact, taking a stand in opposition to another man's harangue serves without fail to dignify the harangue and call attention to it. Debating a false philosophy always helps it and, unless opposition is well handled, there's danger of it's giving more help than hindrance.

Promotions, good and evil, ride on the wings of news; and news is necessary. Publishers, columnists and radio commentators, who chronicle real happenings day by day, perform an essential public service. Don't blame them. When

news is poisoned, the job is done by those who make news, not those who tell it. Let us know the truth because the truth will make us free.

Made JOURNALISTS tell me News that news articles deserve prominence in proportion to the number of people interested. Thus persons in positions of power make news because a lot of people are interested in what these men say and do. If rulings they decree or opinions they express seem so realistic, there's nothing honorable for news men to do but tell the people. It's their country.

Radical propaganda undoubtedly does this nation damage. I believe a big majority of Americans are wholesome people, love their country and understand what makes it the world's best place to live and most influential power. Just the same, poisoned news gains converts. And so long as men in power wish to gain more power, the campaign for collectivism will go on.

At its source is the best place to quiet the voice of socialist promotion. Appointed "rulers" who banker to boss the schools, control hospitals, limit production and eternally fix prices belong where their every word and deed does not make news; out of power. Stop the flow of public revenue into their hands. This will start solving immediately the problem of collectivist propaganda.

Ex-Servicemen Of Region Get Loans For Farm Operation

Farm Security Administration financing of veterans in Region VIII (Texas, Oklahoma, and New Mexico) reached new levels during the first five months of 1946, when 3,051 loans were made to ex-servicemen for the purchase of farm operating equipment or family-type farms, E. Lee Ozbirn, Regional Director, said today.

The loans constitute almost two-thirds of the total number the agency has approved for veterans during the past two years. "We expect this record lending to continue," Mr. Ozbirn said.

the Bankhead-Jones Farm Tenant Act from earmarked funds set up by Congress for this purpose. The rest have loans to buy farm machinery, livestock and other operating needs. In all, veterans have received \$9,720,481 in loans in Region VIII.

Veterans have had to overcome handicaps before obtaining loans, especially in the farm purchase program.

"Real estate prices in most areas have risen far above pre-war levels," Mr. Ozbirn said. "Veterans are having a hard time finding farms for sale at a price that the productivity of the land will justify. Moreover in some sections veterans are having difficulty finding productive farms available for rent."

Mr. John C. Rice, FSA Supervisor, will be in Benjamin on the

morning of the 2nd and 4th Thursday of each month, in the County Courthouse, and will be glad to talk with veterans needing loans to buy farm machinery, livestock, and other operating needs. He will also be able to give you any information regarding the purchase of farm through FSA.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Lewis Finannon are the proud parents of an eight-pound boy who was born on Saturday, July 13. Mother and little son are reported doing nicely.

Mr. and Mrs. Carl Green and daughter, Mrs. Travis Cure, visited Mr. and Mrs. Gilbert Green in Wichita Falls and also with relatives in Ryan, Okla., and Grady, Okla., while on their vacation.

It's Coming

We have a shipment of furniture coming that is due this week. This will greatly increase our stock. Just received a new assortment of gift items, and have stocked a selection of large and small mirrors.

Come here for 5 and 10-gallon water kegs, 2-gallon water sacks, cotton chopping hoes and files, fruit jars and No. 2 cans.

NEW DODGE

While You're Waiting we give you ...

Double Protection

*Your Safety and Comfort—*Your Present Car Investment

TO all OUR FRIENDS and CUSTOMERS —this is the most urgent and sincere advice we can give you today.

"Keep Your Present Car in Top Condition" Of course we want to put you in a new Dodge as quickly as we can. But we simply can't do that to your own best advantage if you run down the condition of your present car.

Why? Because the wait may be long—your present car is old and yet you need all the driving safety and comfort you can

get. Also, because you definitely 'profit' or 'lose' by the "condition" of your present car when you finally turn it in.

So, out of our experience and knowledge of today's conditions we again say to you—
Get Our Double Protection—Today

Bring in your car. Let us give it the necessary inspection and expert care. Then you'll have peace of mind—and you'll be money ahead.

Your New Dodge will be a rich reward for waiting. With Double Protection now—while you're waiting—you gain in every way.
