KEEP ON... Backing the Attack! WITH WAR BONDS

VOLUME 39

MUNDAY, KNOX COUNTY, TEXAS, THURSDAY, JANUARY 20, 1944

NUMBER 30

January Call Includes Knox County Fathers

Pre-Induction Exams Given For Group Of 22 Men

Under Selective Service call No. 94 the Knox county local board of Benjamin, was requested to send 67 men to the examining station in Lubbock on January 18, 1944. Also, under the new rules and regulations of Selective Service, which begins on Feb. 1st, this year, registrants from then on will be given pre-induction physical examinations at the examining station, Lubbock, before being ordered to report for induction. Twenty-two men were sent along with the regular call on Jan. 18th for this pre-induction physical examination, in order to be ready for the call in February.

The men left Benjamin at 3 o'clock p. m., immediately following a nice program in the Assembly Room in their honor. The registrants who left are as follows:

(Regular Call)
Ewin A. Egenbacher, Adron Rutledge, Marion J. Josselet, Woodrow W. Robert, Curtis R. Coates, Alpha M. Moore, Robert H. Lain, Homer J. Beard, James T. Nunley, Jessie E. Sorrells, Oscar J. McNulty, Wilburn S. McMurry, Ezell T. Reynolds, J. B. Barnes, Manuel E. Davilla, Jr., Delbert G. Adams, Odus D. Rhodes, Louis Dowd, Derrell Adams, Homer W. Weaver, Marion H. Brumley, Horace W. Finley, Mahlon Boggs, John E. Pace, Harvey N. Funderburk, Thomas O. McMinn, Ivy John Weaver, Fermin R. Dowd, John Lemley, Hollis A. Fisher, Demencio B. Hernandez, Thomas A. Russell, John L. Hobbs, John N. Reynolds, Cecil W. Fitzgerald, Guy Bradley, William Felton Jackson, Earl C. Struck, Joe W. Warren, Walter Sprague, Morris E. Robertson, Jack T. Varnell, James H. Gillespie, James P. Nelson, Charles P. Baker Jr., Hollis C. Blackburn, Marvin M. Howry, James William Fuller, Claude Reynolds, Norman G. Nichols, Charles A. Bradford, T. W. Struck, James B. Welch, Lyde H. Sorrells, Jesus C. Delgado, and Victor F. Thomas.

(Pre-Induction Physical Exam.)
J. C. Langston, A. D. Helms, Carl A. Jungman, William B. Sorrells, Riley B. Harrell, William F. Lytle, William B. Lémley, Don L. Ratliff, Weldon R. Glascock, Edgar B. Littlefield, Hamilton V. Henson, John L. Phillips, James H. Steele, Seburn M. Jones, Joe B. Duke, Henry D. Matthew Jr., Amos D. May, Joseph A. Jungman, Kenneth J. Blaschke, Billie S. Brown, and Truman B. Lowrance.

Stevenson Asks Oversubscription of Bonds For Texas

Governor Coke R. Stevenson, in a proclamation issued last Saturday, urged Texans in the period from January 18 to February 15 to oversubscribe their quotas in the Fourth War Loan Drive.

The Governor said the nation must win a conclusive victory as swiftly as possible in such a way to assure enduring peace and preserve the American way of life, freedom in normal times and financial integrity.

In urging Texans to give their best to the Fourth War Loan Drive, Stevenson pointed out that Texans had oversubscribed quotas in the three previous bond drives.

Munday P.T.A. To Meet On Jan. 26th

The Munday Parent-Teachers' Association will hold its regular meeting on Wednesday of next week. Mark a circle on your calendar around the 26th, and meet your friends at the school building at 5 p. m.

"Come and enjoy an educational and interesting program," is the invitation extended by officers of the local organization.

SCHOOL MONEY IS RECEIVED FROM STATE

An additional payment of \$2.00 per capita in school funds was received from the state last week, Merrick McLaughy, county superintendent, said Wednesday, which goes into the common school funds. This makes a total payment of \$13.50 on the \$25.00 per capita due from the state, he said.

Walter Snody Announces For County Treasurer

W. F. (Walter) Snody authorized The Munday Times last Monday to announce his candidacy for the office of County Treasurer of Knox county, subject to the action of the voters in the democratic primaries.

Mr. Snody has resided in Knox county for many years and he needs no introduction to the voters, as he is well known in every community of the county. He has been engaged in the ginning business at Bera for a number of years and has served officially in many county and community enterprises. At present he is a member of the gas rationing board of Knox county.

"I solicit the vote and influence of the people solely upon my merits and my ability to perform the duties of the office which I seek," Mr. Snody said. "If elected, I promise you my best efforts in performing the duties of this office as efficiently and courteously as possible. I assure you that your vote and influence will be greatly appreciated."

Farmers Urged To Make Repairs On Machinery

Pointing out that repairs on tractors and other farm machinery cannot be made quickly under present conditions, J. L. Brasher, manager of Broach Implement Co., this week urges all farmers to have their tractors and machinery repaired during the "slack season."

"Uncle Sam has been calling for mechanics," he said, "and there are not enough mechanics left to do the jobs during a rush period. However, we can handle the work if it is scattered out over a period of time."

"This is no time to take chances and wait for your repairs until you need the equipment. You can avoid unnecessary breakdowns during the rush by having your machinery properly cared for as early as possible."

Mr. Brasher also pointed out that service on "rush orders" on repair parts are very unsatisfactory, also, so a check of what may be needed for your machinery will avoid lots of delays later on.

New Course In Aeronautics Is Begun Here

Beginning January 19, a two months course in aeronautics is being offered to the Junior and Senior classes. The instructor, Miss Ann Atkinson, is a graduate of a government accredited flying school and is awaiting call to be trained at Avenger Field, Sweetwater, as a member of the Women's Air Force Service.

The course will touch most all of the subjects given in pre-flight aeronautics. The main purpose of the course will be to give students a usable aeronautical vocabulary. It will include discussions and studies on the responsibilities of the pilot, air traffic, parachutes, map reading, studies of the weather and weather maps, the atmosphere and air masses, navigation, airplane mechanics and other pilot problems.

The course will be a usable and a practical one to girls interested in air force services of the WAC's, Marines, WAVES or other branches of the service. It will be of primary value to girls interested in joining the WASP's and to boys who plan to enter the air forces of our armed services.

LEAVES FOR SAN DIEGO

James Henson, who was inducted into the U. S. Marines, left last week for San Diego, Calif., to report for training.

Local Girl Is Favorite At McMurry College

McMURRY COLLEGE, Abilene—Pictured are the class favorites recently elected by popular vote at McMurry College, Abilene, Texas. They are left to right: Mary Gurley, Pampa, freshman; Doro-

thy Shannon, Merkel, junior; Flora Alice Haymes, Munday, sophomore; and Shirley Ruth Jolly, Abilene, senior. They will be given special recognition in the Totem, college yearbook, along with the campus

queen and her attendants. Miss Haymes is the daughter of Mr. and Mrs. Lee Haymes of Munday. She is a member of the Mission Band, Sigma Lambda Kappa, Kappa Phi and the McMurry Chanters.

Medical Meet Is Held Tuesday Officers Re-Elected For New Year

The regular meeting of the Baylor-Knox-Haskell Counties Medical Society was held in Munday last Tuesday night with a good representation of doctors present.

During the business session, all of the officers were re-elected for another year. They are as follows: Dr. D. C. Eiland, Munday, president; Dr. James Cadenhead, Weibert, vice president; Dr. R. L. Newsum, Munday, secretary, and Dr. T. S. Edwards, Knox City, delegate.

Others attending the meeting were Drs. J. W. Foy, Seymour; W. M. Taylor, Goree; T. P. Fritzel, Knox City, and Temple Williams, Haskell.

Knox County Hospital Notes

Patients in Knox County Hospital January 18, 1944

Baby Sullivan, Vera. Mrs. Byrd Thorp, Throckmorton. Elton Robertson, Knox City. Tom Cluck, Munday. Billy Hutchens, Knox City. Mrs. A. S. Lambert, Oakland, California. Donald Cadwell, Munday. Nahwana Lambeth, Goree. Dalton Gore, Vera. Mrs. R. E. Bradley, Knox City. Winsel Norvil, Munday. Mrs. John Lemley, Munday. Mrs. C. B. Whittis, Elbert. Mrs. O. A. Green, Knox City. Mrs. Chas. Wood, Munday. Mrs. J. E. Messenger, Swenson. Mrs. G. B. Petty, Aspermont. Mrs. D. E. Hughes, Munday.

Keep Up With Rationing

RATION REMINDER

MEATS, FATS — Brown stamps R, S, T, and U are good through January 29. Brown stamp V becomes good January 23 and remains good through February 26.

PROCESSED FOODS — Green stamps D, E, and F in book four are good through January 20. Green stamps G, H, and J in book four are good through February 20.

GASOLINE—In 17 east coast states A-8 coupons are good through February 8. In states outside the east coast area A-9 coupons are good through January 21, and A-10 coupons become good January 22 and remain good through March 21.

SUGAR — Stamp No. 30 in book four is good for 5 pounds through March 31.

STOVES—Consumer purchases of rationed stoves must be made with a certificate obtained at local war price and rationing boards.

SHOES—Stamp No. 18 in book one is good for one pair. Stamp No. 1 on the Airplane sheet in book three is good for one pair.

Plans For Calf Show Being Completed

To the People of this Community YOU ARE IMPORTANT

There is no such thing as a "little" investment in the Fourth War Loan. Your \$25 or \$50 or \$100 Extra War Bond may not have great importance in your mind in making up a 5 1/2 billion dollar total for individuals.

But multiply yourself by 130,000,000 and then you see in real perspective how truly great each citizen becomes in massing national strength against the Nazis and the Japs.

Capt. Maurice Witherspoon, Navy chaplain aboard the Carrier Wasp when she sank, tells of a rescued wounded sailor, who, as he regained consciousness, asked: "Did I do my best?"

That's the only question you, too, have to ask yourself when you decide the extent of your personal participation in the Fourth War Loan. There undoubtedly will be large single purchases of War Bonds in this community, but yours—if it is "your best" will deserve equally the red, white and blue shield you are privileged to display in the window of your home.

So "Let's All Back the Attack!" THE EDITOR.

L. C. Floyd Asks Knox Voters For Second Term

Sheriff L. C. (Louis) Floyd this week authorized The Munday Times to announce his candidacy for re-election as sheriff of Knox county, subject to the action of the voters in the Democratic primaries.

In making his announcement, Mr. Floyd, who is serving his first term in this office, stated that he will continue to give his best toward making the county a good law enforcement officer. He believes his record of service during the past year proves his ability to conduct the affairs of this office, and it is upon the basis of his qualifications and record that he asks your consideration in the coming primaries.

"I have tried to serve you well," Mr. Floyd said, "and my pledge to you is that I will not be found negligent in my duties. I invite you all to investigate my record as your sheriff, if you are not already acquainted with it, and I believe you will find it such as to merit a second term."

"If returned to this office, I will give you my best to see that the laws are enforced without fear or favor. Your vote and influence will be deeply appreciated."

HAS OPERATION

Mrs. Dee Mullican was taken to the Knox county hospital last Tuesday, where she submitted to a major operation on Wednesday morning. Latest reports are that she is doing as well as can be expected.

Community Quotas Set In 4th War Loan

Burton Seeks Re-Election As County Treasurer

R. V. (Bob) Burton, county treasurer of Knox county, has authorized The Munday Times to announce his candidacy for re-election subject to the action of Knox county voters in the Democratic primaries.

He appreciates the friendship and support heretofore given him and solicits the support and influence of the voters in the coming primaries on his record in office.

He promises, if re-elected, to give the duties of the office the careful attention as in the past, and he invites the inspection of the treasurer's books and records by the public at any time.

Rotary Club May Be Formed

A meeting of local business men was held Tuesday night in the office of Broach Machinery Co. for the purpose of discussing possibilities of organizing a Rotary Club here. The club would be formed under the sponsorship of Stamford Rotarians.

Several members of the Stamford club were present to tell of activities of Rotarians in that city. Charlie Paxton of Sweetwater, former district governor for this district, was the principal speaker, giving a brief history of Rotary and the many community and civic projects the clubs sponsor.

Following several discussions, the Munday group voted as favoring organizing a club, and ten of those present signed the application for a charter.

A minimum membership of 15 is required before a charter is granted, and it is expected this list will be completed this week.

15 County Men Enter Service

Fifteen registrants from Knox county left Benjamin, Monday at 9:30 a. m. (Jan. 18, 1944) for Reception Center, Ft. Sill, Okla. These men were inducted into the Army. December 26 and were home for their 21 day furloughs. Those enrolled are as follows:

Claude Franklin Green, Bobby Love Hill, Robert T. Jones, Pat Randolph Coursey, Virgil Wayne Dotson, Lloyd Marion Hendrix, Robert Franklin Heath, Alvin Wilburn Norwood, Walter Mat Hertel, Walter Warren Roberts, Charles William Browning, J. M. Turner Jr., Antonio Rubio Gonzalez, Emery Allen Darwin, Guy Robinson.

Truscott Man Dies Monday At Daughter's Home

John Holmes, pioneer resident of Truscott, died on Monday, January 10, at a Santa Fe, New Mexico, hospital. He had been in Santa Fe and vicinity since Thanksgiving, visiting with his children, Mr. and Mrs. Holmes had made their home at Lubbock since last July.

Mr. Holmes had been suffering from coronary thrombosis for almost a week.

Born in Johnson county, Texas, on December 28, 1874, Mr. Holmes was 69 years and 12 days of age. He moved to Knox county with his parents in his early twenties, where he met and married Miss Lola Westbrook, whose parents were pioneers of this county. Mr. Holmes spent most of his life in and around Truscott.

Surviving him are his wife and nine of their ten children, who are: Mrs. I. C. Long, Mrs. J. T. Reese, Mrs. Eli Leflar, Mrs. Warren Engelage, Miss Ruth Holmes, H. H. John W., G. L., and Sgt. Lewis Holmes. Sgt. Holmes is serving in the armed forces in North Africa. Funeral services were held in Santa Fe, with burial in the Santa Fe cemetery.

With the setting of community quotas in the Fourth War Loan Drive, many county citizens are planning a concerted effort to raise the county's quota of \$434,000 as early as possible.

Community committeemen will be contacting practically every citizen of the county, and it will take the cooperation of everyone to put the drive over as it should be done. With a quota of \$209,000 in Series E Bonds, it was pointed out that more individuals should make purchases in this drive than in any of the three other drives.

Committeemen who worked together in determining the community quotas are: W. R. Moore, Munday; Bruce Campbell, Knox City; J. C. Patterson, Benjamin; H. D. Arnold, Goree; E. A. Beck, Vera; J. O. Cure, Gilliland, and C. C. Browning, Truscott.

The quotas and the war bond chairmen for communities are as follows:

Munday, \$152,000, C. R. Elliott; Goree-Hefner, \$50,000, H. D. Arnold; Knox City, \$115,000, Bruce Campbell substituting for Mrs. Kay Frizzell; Benjamin, \$26,000, M. D. McLaughy; Truscott, \$26,000, M. L. Hughton; Rhineland, \$20,000, J. J. Hoffman; Vera, \$26,000, W. M. Ford; Gilliland, \$20,000, E. A. Burgess.

W. E. Braly, county chairman, stated that the Sunset community would either be given a quota or would be divided between Munday and Knox City.

Meeting the county's quota may mean a sacrifice upon the part of every individual, but the sacrifice you make is small, indeed, when compared with that your sons, husbands and sweethearts are making on the battlefronts. We cannot afford to do less than keep them supplied with fighting materials. So, "Let's All Back the Attack" and have a part in bringing about a victorious conclusion of this gigantic struggle—and in making a better post-war world.

Annual Campaign Against Infantile Paralysis Begins

Facing as we do the multiple demands of war, how is it possible for the American people to devote time, energy and money to the fight against infantile paralysis? The answer is, that to do otherwise would be to lose, in a very real sense, one of the freedoms for which we are fighting—Freedom from Fear.

Infantile paralysis is a vicious disease. It strikes without warning, selecting its victims impartially from rich and poor alike. It knows no boundaries, and any child may be the next victim. And because it threatens each of us—we fight it together.

As yet we have not succeeded in relegating infantile paralysis to the "medical concentration camps" which confine diphtheria, typhoid, smallpox and other defeated plagues. But thanks to the American people who contribute during our Annual Campaign period, we are able to pledge, and carry out that pledge, that no infantile paralysis patient shall go without hospital and medical care because of lack of money!

Meanwhile, in laboratories throughout the nation men of science continue their investigations, seeking the cause, prevention and cure of this crippling disease. Some day a single experiment may drive all other news from the front pages of newspapers and empty the thousands of beds that are filled with infantile paralysis victims.

You are helping to bring closer that day to which we all look forward by contributing to the nation's drive against infantile paralysis, Mrs. D. C. Eiland, local chairman, said Tuesday. Watch for our coin containers. They will appear soon in the stores of Munday. Let's all "Pitch in for Polio."

BIRTH ANNOUNCEMENT

Mr. and Mrs. John Robert Moore of Sheffield, Alabama, announce the arrival of a son, who was born on Saturday, January 15. Mother and little son are reported doing nicely. Mrs. Moore is the former Miss Virginia Smith of Munday.

Mrs. Grady Shytle, Jr. left last week for Independence, Kansas, where she is visiting her husband who is serving in the air corps and stationed there.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"

AWAKENING

From farmers to bankers, from workmen to business men, a majority of whom have heretofore been too preoccupied with making money to think about more fundamental matters, the people of the United States are awakening to a great danger. They are beginning to realize that freedom may be lost in this nation.

Evidence of the awakening is pouring in from every side. No one is more impressed with this new stirring of mass intelligence than are editors. Their desks are swamped with statements, opinions and warnings of a kind that in the past were uttered only by a handful of statesmen.

Numerous labor leaders have expressed growing fear of big government, and warn that labor's future depends on the maintenance of individual enterprise. Not far behind in similar expressions are the bankers, whose awakening is typically expressed in the remarks of Lee Wiggins, president of the American Bankers Association, who happens to be a small town banker and is proud of it. He recently declared: "An equitable tax system that will make new business possible will do more to preserve our system of private enterprise than soldiers' bonuses." In his opinion, bankers are always sounding off about private enterprise, but haven't done much about it, and he added: "Meanwhile, the government has moved into private banking to an extent that the public doesn't suspect. The banker is just beginning to discover that this is the road to socializing the banking system."

The farmers are also discovering the danger inherent in an expanding government of men rather than laws. A special House agriculture committee has charged that farm families have been held as vital serfs on government rehabilitation projects. In Michigan, members of the State Farm Bureau have suggested that a plan be worked out whereby farmers can insure their own crops and dispense with government crop insurance. And farmers all over the country are hotly opposed to the freedom-destroying principle of subsidies.

In the front ranks of the New Awakening are the business men. The editor of a group of leading business publications bluntly strikes at provinciality in front offices with the words: "Thinking straight about problems that are beyond our personal and immediate status and our pocketbooks, thinking about problems that involve nation-wide buying power—in other words, the operation of our entire economic system—involves real self discipline. Yet there is no other way to safeguard our freedoms."

And finally, to those who foolishly rail at bureaucracy and plead for favors from government in the same breath, Hatton Summers of Texas, chairman of the House Judiciary Committee, has voiced a reminder that should be quoted from one end of the land to the other: "You people are the government. The government is not in Washington."

"In our system, the State provides the only machinery through which democracy can function. The Federal organization was never intended to do the job. It cannot do it, except as a bureaucracy. The people created the Federal organization to do a relatively small number of things: To be their agent, not their master."

FIRE FROM WITHOUT

Recently a brush fire swept uncontrolled through a vital war plant, destroying a quantity of long staple cotton which is particularly scarce and necessary for war production. This has been cited by fire prevention authorities as an example of the danger of fire hazards surrounding otherwise carefully protected war establishments. The National Board of Fire Underwriters points out that: "A great deal has been said about the inspection and safeguarding of war plants against fire or sabotage and elaborate preparations have been outlined, but all of these precautions seem to stop short right at the plant fence."

According to the Board, many key war factories have been built in areas studded with old buildings that are standing invitations to serious fires. If repairs are not warranted, such buildings should be condemned and removed.

Among the most potent factors in allowing small fires to develop into big ones that threaten adjacent properties, are unprotected vertical openings, such as stairs or elevators. Though these hazards are common in old buildings, that is no excuse for allowing them to endanger war production.

Appropriate authorities in every community should increase frequency of inspections in buildings which expose war plants to the danger of fire, and where there are private dwellings among them, permission should be obtained to inspect the interior of these.

A LETTER FROM HOME

DEAR SON:

I'm sitting up in your room to write this. Do you know it's exactly one year since you went to war? The little American flag is still in the calendar over your desk, where you stuck it a year ago—where it will stay till we can tear off the months and decorate the day you came home!

Well, I wonder whether the year has seemed as long to you as it has to us. You've seen so many places—Biloxi, then Scott Field, Palm Beach, Charleston, Langley, Fort Dix—and now England! None of us missed the significance of the change of address on your last letter—from Antisub to Bombardment Squadron. So—I'm afraid—you're seeing even more of the world right now. (I'm not worrying about you, son, really! I know you'll be all right.)

Outwardly we're much the same here at home. Oh, a few of the stores are closed on Main Street because the men are in service or have taken war jobs. And young Bob Richards is in the South Pacific, so old Mr. Peterson, taking his policeman's duty very seriously, sees the school children across the street.

Elm Street looks just the same, I really believe, as it did when you were born—except the Bentleys have just made over their house into apartments for workers in the airplane factory. All the houses look very well, I think. Suppose it's because we spend more of our spare time at home, what with the gas shortage and all, and the men have time to spruce the place up. Dad says it's a miracle the way we can still get lumber and cinder block and pipe and things, for repairs around the house. How the factories can make all the war materials they do, and still find time to supply so many of the things we need at home, is just a marvel.

Well, it's getting dark and almost time for supper. We're going to have baked potatoes tonight, so I'll pop some apples in the oven too. You know just how the house will smell about half an hour from now!

Keep writing, dear, as often as you can. Your letters mean as much to us as ours do to you.

Dad and Sis send loads of love and, of course, all of mine,

MOM.

WHY WE ARE WINNING

Up to now the full story of the development and production of 100 octane aviation gasoline has been a military secret. But at last some breathtaking statistics are being released. Following are a few of them:

1. One thousand 4-engine bombers using 1,500,000 gallons of 100 octane gasoline on a 6-hour mission.
2. In January, 1942, only 22 refineries were producing 100 octane gasoline or components of 100 octane. There are now more than 100.
3. United States and Caribbean refineries are supplying today 88 per cent of the 100 octane gasoline used by the United Nations.
4. To train one pilot requires consumption of 12,500 gallons of aviation gasoline.
5. One thousand 4-engine bombers, flying to an objective 1,000 miles away, and using 100 octane gasoline, can carry 5,000,000 more pounds of bombs than could be carried if ordinary pre-war aviation gasoline was used.
6. 100 octane gasoline was specifically developed for combat use.
7. 100 octane gasoline was a laboratory curiosity as recently as 1933, at which time its cost would have been \$16 a gallon. The first 100 octane sale, made to the Army in 1934, was at \$2 a gallon. Today 100 octane gasoline is being bought by the government at less than 15 cents a gallon.

These are a few of the achievements of a single industry in wartime America. The cold figures describe better than glowing phrases the value of unrestricted individual initiative; the kind that built the oil industry and now brings victory within our grasp.

CANADA'S WOMEN AT WAR

Members of Canadian women's auxiliary services enlisted in armed forces: (1) Royal Canadian Air Force; (2) Royal Canadian Naval Service; (3) Canadian Women's Army Corps; (4) Nursing Services; (5) Women Doctors.

Of close to 1,200,000 gainfully occupied civilian women in Canada more than 260,000 are engaged directly or indirectly in war industry. Women enlisted in the armed forces number more than 35,909 as follows:

Women's Royal Canadian Naval Service	4,247
Canadian Women's Army Corps	14,000
Royal Canadian Air Force (Women's Division)	15,000
Nursing Services	2,620
Women doctors in the armed services	42

The Women's Royal Canadian Naval Service was established in June, 1942, and aims to have a strength of 5,500 by March, 1944. By October 22, 1943, 4,247 were attested. Their purpose is to take over shore jobs and release sailors to man ships.

During October a new WRCNS barracks was opened at Sydney, Nova Scotia, to house officers and ratings. Sydney is the seventh city in which an organized unit of the W. R. C. N. S. has been established to take over shore duties formerly performed by men.

A recent development is the establishment of a group of W. R. C. N. S. dietetic advisors who will supervise the food of men and women in the Navy. A new cooking school at H. M. C. S. Cornwallis, naval training establishment at Deep Brook, Nova Scotia, has a Wren as chief instructor.

The Canadian Women's Army Corps was established in August, 1941. C. W. A. C. personnel are serving in the United Kingdom, the United States and Newfoundland. There are more than 50 trades. More than 14,000 had enlisted by October, 1943.

Enlistments in the Royal Canadian Air Force (Women's Division)

totalled more than 15,000 in October, 1943—100 times the strength of the division on the same date in 1941, when the first 150 recruits were in training in Toronto. The R. C. A. F. (W. D.) was the first Canadian women's service organized in this war to release men for active duties and was the first to send a contingent overseas. Nurses wearing Canadian war uniforms totalled more than 2,620 by the end of October. These include nursing sisters, dietitians, physiotherapists and home sisters.

There are more than 1,856 in the Royal Canadian Army Medical Corps, 206 in the Royal Canadian Navy nursing service, and 314 in the Royal Canadian Air Force. There are also about 250 Canadian nurses serving with the South African military nursing service. Canadian nursing sisters are serving with their units in the Mediterranean. There are 42 women doctors in the armed services, four in the navy, 24 in the army and 14 in the R. C. A. F.

TEXAS' FARMERS RECEIVE AAA PAYMENTS

COLLEGE STATION—The New Year for thousands of Texas farmers will be brightened by the receipt of AAA payments which they have earned for building soil fertility and increasing food production for the war effort.

B. F. Vance, state AAA administrator, announced today that payments covering 138,804 applications have already been made to over 195,000 producers, and the pay off program is just getting under full headway.

Under the 1943 AAA Agricultural Conservation Program payments totaling \$38,644,000 will be made to Texas' farmers who operated in the program, the administrator said.

Payments for 1943 will include \$16,854,000 for cotton; \$2,622,000 for wheat; \$100,000 for Irish potatoes; \$250,000 for fresh vegetables; and \$14,547,000 for soil-building practices.

Increases in small payments will total about \$4,271,000. Payments of less than \$200 are automatically increased by a designated amount. The smaller the payment, the higher the proportionate increase.

Special dairy feed payments totaling \$480,280 have been made to 34,745 dairy farmers in Texas through December, Vance said. These payments covering production for market in October were made to dairymen to help them meet the increased cost of feed. Similar payments for November and December will be made this month.

Payments have been made on 94,758,400 pounds of milk and 1,094,850 pounds of butterfat sold. Payments have gone to nearly every county in the state. Counties receiving the highest total dairy feed payments include Bexar, Dallas, Harris and Tarrant.

More than \$8,000 worth of gold was produced in Texas during 1942, according to the University of Texas Bureau of Economic Geology. Production amounted to 236 fine ounces, valued at \$8,260. This figure was substantially below production of 1941—306 fine ounces, valued at \$10,710.

EXPERIENCE

However learned or eloquent, man knows nothing truly that he has not learned from experience.—Wieland.

In all instances where our experience of the past has been extensive and uniform, our judgment as to the future amounts to moral certainty.—James Beattie.

Experience is victor, never the vanquished; and out of defeat comes the secret of victory. That tomorrow starts from today and is one day beyond it, robs the future

with hope's rainbow hues.—Mary Baker Eddy.

To most men experience is like the stern lights of a ship, which illumine only the track it has passed.—Coleridge.

No man was ever so completely skilled in the conduct of life, as not to receive new information from age and experience.—Terence.

Nor deem the irrevocable past, As wholly masted, wholly vain, If, rising on its wrecks, at last To something nobler we attain.—Longfellow.

Silver production in Texas slumped during 1942, totaling only 672,781 fine ounces, valued at \$478,422, according to records of the University of Texas Bureau of Economic Geology. In 1941 silver mining yielded 1,096,027 fine ounces, valued at \$779,397.

Junior News

The Juniors haven't had time to turn around the past two weeks. Six weeks test grades were satisfactory but we just wonder about those mid-term exams. It's just too much to have notebooks, book reports, and tests all in one week but maybe we'll live through them. At least we have so far.

Mid-term exams in Speech started yesterday. If all of those speeches are as long as those given yesterday we want to be through giving them until tests are over.

The Juniors have been trying their best to persuade Radene Hutchens to stay with us but have had no success. She is moving to Tahoka the latter part of the week, and will we miss her? Radene has always been one of the most brilliant and active students in our class, and we, the Junior class, wish her success and happiness in her future home.

Senior Report

The Seniors are exasperatingly noisy this week. After six-weeks tests we were in a lethargy, but after recuperating, they sprang to life and are now in full swing for mid-terms. Wish us luck, for after those grades in Chemistry, we'll need it. Who'd have ever thought that there was a Nitrogen-Phosphorus Family with their cute and innocent little children, Arsenic, Antimony, and Bismuth? We'd like to introduce our special enemies to this adorable family.

In bookkeeping, that Walker Practice Set has been causing us some misery. We certainly are getting the practice.

In English, we have been drawing cartoons to illustrate our lyrics and confusing sentences. Some of them are so confusing that we can't even figure them out. For instance—"Looking out my window, a horse attracted my attention." We also thought this sentence was among the most coherent of them all, so we'll pass it on to you: "At the age of fourteen his father died and left five sons." Take a lesson from us and keep your sentences arranged correctly.

We were glad to have three Munday girls as our visitors this week. We hope they will come again soon, but we won't promise to serve them candy, especially in Government Class.

Freshman News

The Freshmen have finished their six-weeks tests. We hope we made good grades on them. We have been reviewing for mid-terms. We are all very busy but we still have time for fun.

For instance, we had a guest, Miss Janell Bartos, who is a Junior at Hardin-Simmons. She is a cousin

in to Betty Jones. We all enjoyed her visit and hope she will come again soon.

We had some absentees last week because of the flu and we are glad to have them back in harness. We seem to have had a mishap in the lab sometime last week. It seems that someone left the faucet to the sink on and we almost had a flood. Of course it befell the Freshmen to clean up the laboratory which wasn't an easy job.

The Freshmen have been illustrating confusing sentences and we have produced some very original and amusing cartoons. In case you doubt our word, drop around and we'll show them to you.

We will be glad when the tests are over and we can breathe easy again. We will feel more like ourselves when we don't have to be so rushed and can take stock of ourselves. We feel like machines that have to do the master's bidding... or else... or else what? Or else fail, that's what.

Sophomore News

These mid-terms! We all are doing our best to try to pass the tests for some of us are very near our doom, so it seems. But I imagine we will recover as soon as exams are over. Last week was six-weeks and we got by them fairly well. You'll have to excuse English as everyone agrees it was harder than the rest.

Some of our class are still out of school with the flu but we hope they are back soon.

We have a new member in our class. She is Arlene Blaschke. We are happy to have her join our class and we hope she will like going to school here.

Senior Life

On the fourth day of February, 1926, the James E. Norwood family welcomed to their home a new-come. It was none other than our own Senior classmate Neoma Faye. She was born in the Hefner community and at the present still resides there. Neoma started her education at Hefner and graduated from there in the seventh grade. She started to Goree the following year as a Freshman and now she is one of our most faithful members of the Senior class.

Neoma at times seems rather timid but just get to know her and you'll change your mind. She seems very interested in her school studies but don't ever think she isn't interested in social affairs; especially those concerning the entertaining of service men.

Favorite are:
 Color—Blue.
 Hobby—Photography.
 Teacher—None.
 Boys—Sailors with blue eyes and blonde hair.
 Subject—Bookkeeping.
 Saying—I'm sorry, Sir! Thank you.

Actor—Ray Milland.
 Actress—Claudette Colbert.
 When asked about her future ambition, Neoma replied: "I prefer a business or aviation course." But knowing her as we do, house-keeping seems to be the thing for her. Wherever she goes or whatever she does, all the luck possible is expressed by the Senior class.

Mr. and Mrs. Ed Jones of Goree were here Monday, visiting with friends and attending to business matters. Ed called at The Times office and had the expiration date on his paper set up another year.

Canadian Farmers Back the Attack

"Up to the spring of 1943, 345,000 able-bodied men had left the farms and gone into industry and the armed forces. With considerable sacrifice and hardship on many farms those left have performed one of the most remarkable feats of production associated with this war."—Hon. J. G. Gardiner, Minister of Agriculture.

Canada's farm production in 1942 was at its highest point on record, and production objectives for 1943 were set at even higher levels.

These larger demands resulted from the increasing needs of the United Kingdom and other United Nations, the Canadian civilian population and for prisoners-of-war parcels.

It is unlikely that all the 1943 production objectives will be achieved, because this year, in addition to shortages of farm manpower and equipment suffered last year, farmers have had to contend with unfavorable weather conditions, particularly in Eastern Canada.

Definite consideration is being given to expansion in production in 1944 in several commodities, including special crops such as oil crops, peas and beans, which are considered well suited for relief-feeding in liberated areas.

Increases in cattle and hog slaughtering are expected this year. The marketing and processing of meat products may exceed all previous records. Canadian meat-packing plants estimate that they will produce 1,577,999,999 pounds of meat products during 1943, nearly 50% of it for war purposes. The requirements of the Canadian armed forces amount to about 102,656,000 pounds of such products for the year.

The gross value of agriculture production reached an all-time high of \$2,978,954,900 in 1942.

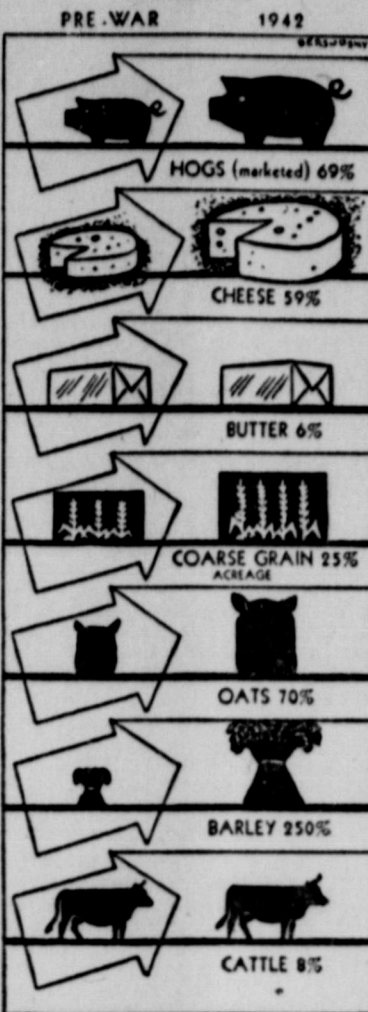

Canada's net exports of pork products to the United Kingdom during four years of this war have been more than three times the total exports in the six years 1914-19, including all the years of World War I.

Shipments of such products to September 15, 1943, were valued at \$406,113,460 and totalled 2,991,168,969 pounds.

Bacon from Canada now provides about 85% of the British bacon ration of four ounces per person per week. Current shipments of about 14,000,000 pounds a week represent about 40% of the total Canadian meat supply.

Butter shipments of more than

CANADIAN FOOD PRODUCTION INCREASES

7,000,000 pounds have been made to the United Kingdom.

From May, 1940, to the end of July, 1942, about 350,000,000 pounds of cheese and about 128,000,000 one-pound tins of evaporated milk were shipped to Britain.

Substantial shipments also have been made to the United Kingdom of fresh, canned and evaporated apples, canned tomatoes, dehydrated fruits and vegetables and fibre flax and tow.

operation for the postwar period.

To Stabilize Ration Buying Power
 Under the new token plan effective February 27, the housewife will be able to buy about the same amount of rationed processed foods and meats-fats as she can now. Point values will be adjusted so the individual's allotment of 60 points for buying meats and fats will buy the same amount as the present allotment of approximately 64 points. Similarly, under the token plan the 50-point allotment for processed foods will buy an amount equal to the present 48-point allotment.

Pre-War Baby Carriages Back
 Pre-war model baby carriages, strollers, walkers, and pushchairs will re-appear on the market in about six weeks, according to WPB. Greater availability of steel makes possible the production of these pre-war models.

Asks Farmers' Help in Woods
 To mobilize farmers on farm woodlands and for work in forest industries, the War Production Board, War Food Administration, and War Manpower Commission have combined forces. Farmers and workers are asked to devote their spare time, particularly during the slack winter-spring period, to work in the woods and wood industries. Production of 14 million cords of domestic pulpwood will be necessary in 1944 to supply the needs of our armed forces overseas and meet essential home front war requirements, according to WPB's paper division. Farmers have nearly 139 million acres of farm woods which annually produce about one-third of all forest products and 38 per cent of the country's pulpwood.

More Food for School Lunches
 America's school children have been assured by the Office of Price Administration of more generous amounts of food for lunchroom and cafeteria meals under a new plan for providing rationed food to schools. The new allotments were worked out by OPA in close cooperation with school lunch and nutrition experts of the Food Distribution Administration. The Government's school lunch program, which went into effect one year ago, is a wartime measure to make sure that school children will have a well-planned and nutritionally appropriate noon meal.

Advice For Soldiers Overseas
 When writing to soldiers overseas, particularly those in the tropics, home folks may help contribute to their health, says the War Department, by reminding those overseas men of the necessity of following the advice of their

medical officers.

Tractor Production Up
 Production of wheeled tractors in December was the largest for any month in two years—in excess of 20,000 as compared with 4,200 in December, '42. However, according to the WPB, the current rate of production must be maintained in order to meet the tractor quota of 209,000 for the 12 months that will end June 30. This will not be easy because many of the parts needed for tractor production are also used in landing craft, now in urgent demand by the armed services.

LOCALS

Mr. and Mrs. Joe Bailey King and Mrs. A. E. Womble visited with relatives in De Leon last Sunday. Mrs. Womble remained there for a longer visit.

Mrs. Erin McGraw and daughter, Evelyn McGraw, spent last Monday in Stamford, where they attended a meeting of the Stamford Production Credit Assn.

Mrs. Doyle Williamson of Haskell and Mrs. B. L. Blacklock visited with relatives in Cisco last Sunday.

Tom Turner of Stamford visited with relatives and friends here the first of this week.

Sgt. and Mrs. Dan Billingsley and little son of Independence, Kans., came in the latter part of last week for a visit with Dan's parents, Mr. and Mrs. M. F. Billingsley. They are also visiting Mrs. Billingsley's parents at Goree.

Mr. and Mrs. F. H. Propps of

Gilliland were business visitors here last Saturday. While here, they also visited in the home of their daughter, Mrs. W. R. Moore.

W. R. Moore spent the first of this week in Ardmore, Okla., and Topeka, Kans., visiting with relatives and attending to business matters.

A. J. V. Johnson, well known local resident, spent several days last week in the Knox county hospital, undergoing medical treatment. Mr. Johnson has returned to his home, and is reported very much improved.

Sam A. Roberts of Haskell visited with friends here a while Saturday.

CARD OF THANKS

To our many, many friends and all of the people of Munday and surrounding communities, we wish to convey our gratitude for the loving kindness, the comforting words, and the gracious hospitalities during the passing of our father, J. E. Edwards.

God has truly planted the seeds of his goodness in the hearts of all of these people. We feel it a great honor and privilege to have these many friends.

God's richest blessings on all of you, is our constant prayer. The Children of J. E. Edwards, Mrs. Nancy Speck Edwards.

Selective Service Changes

Occupational deferments generally will be denied 18 to 22-year-old registrants, other than those in agriculture, fathers and non-fathers alike, unless they are engaged in activities in which deferment is specifically authorized, according to Selective Service. Furthermore, all registrants will be given pre-induction physical examination at least 21 days before being inducted. Therefore, the period of three weeks in the enlisted reserve now

granted by the army and the one-week period granted by the navy will be eliminated. These changes become effective February 1

Social Security for Farmers

Social insurance for farm operators, farm workers, business and professional men, household workers, and employees of governmental and non-profit organizations was recommended by the Social Security Board in its annual report. The Board urged inclusion of these groups in an expanded social security program which would include insurance against costs of medical and hospital care without disturbing the present principle of free choice in selection of physicians or hospitals. The Board recommended that a comprehensive social insurance system should be set up now while earnings are "at record levels" in order to have it in full

BALANCED PERFORMANCE

Bigger jobs call for greater skill—whether it's in balancing jumbo on a small ball or balancing livestock rations with limited supplies of protein concentrates and grains.

Close culling of livestock—feeding to lighter weights in shorter periods—greater use of roughages—these are feed-saving, cost-reducing practices that are essential for maximum wartime production of meat, milk and other products.

To help you "keep your balance", the Cotton Oil Mills which supply efficient, economical protein concentrates have published the "1944 Feeding Practices" bulletin, full of practical up-to-the-minute wartime information. It's FREE FOR THE ASKING. from our Cotton Oil Mill.

West Teaxs Cottonoil Co.

Munday, Texas

PRODUCE MORE IN '44

THIS is what we've been working for all along. This is the year to hit and hurt the enemy. This is the time when everything you do counts double. If we all get together and do all we can, we'll be over this hurdle and well on our way to complete and crushing victory.

No question about the men in uniform—they'll go "all out." But can we count on you to back them all the way? Your quota is where you work—you've got to buy your War Bonds and then buy more, until every last loose cent

you have is fighting. Tough? Of course, it's tough—unless it is a sacrifice you're simply not doing your share!

Make the sacrifice now—buy more than the extra \$100 Bond your country counts on you for—winning the war is worth any sacrifice you make. Besides, you aren't giving, you're lending to America! You'll get back every dollar you invest in War Bonds, with interest. An extra \$100 War Bond now is the minimum for everybody—can't we count on you for more?

This sticker in your window means you have bought 4th War Loan securities.

Let's All BACK THE ATTACK!

Painting Pottery New Project For Truscott Club

Members of the Truscott home demonstration club have found that painting pottery can be a very engrossing project. The club met at the home of Mrs. Bill Owens on January 13 and worked on some interesting pieces.

There was the squat little bean pot painted Easter-egg blue. Can't you just see the simmering Boston baked beans that it will hold? Then there was the salad bowl painted cherry red; it will do a tossed green salad proud. The pitcher painted pale yellow and decorated with cherries on the side will probably hold tinkling lemonade, come August. There was a generous cookie jar that looked like a little churn.

Any of the pottery may be used for ovenware. Even the larger pieces cost only 25 cents when finished.

Come to the meetings of the home demonstration club for the newest and most economical ideas in home making.

January Club Meetings Are Well Attended

The boys and girls 4-H clubs are being well attended says Lucile King, county home demonstration agent. Six clubs were met during January 17, and 18 with an attendance of three hundred sixty members. The club meetings were held at Hefner, Rhineland, Vera, Truscott, Gilliland, and Benjamin. New members were added on the roll from each club. The new members from Hefner were as follows: Geraldine Lambeth, Anna Joyce Gerold and Emma Lois Norwood.

Mr. R. O. Dunkle, county agent, gave a very interesting demonstration to the boys on successful hog feeding and treatment of worms and snipping pigs teeth.

Miss King, gave a very interesting demonstration on saving from waste—one way to provide more satisfactory supplies of food, feed, and fiber, and an instructive demonstration on crocheting fascinators. Practically every girl had thread and needle and started their fascinators.

Mrs. Mozelle Blackard of Harlingen spent several days here last week, visiting her parents, Mr. and Mrs. Mullican, and other relatives.

Miss Juarey Jones, who is attending Hardin-Simmons University in Abilene, visited home folks here over the week end.

Missionary Study Held Monday By Guild Members

Members of the Wesleyan Service Guild met last Monday evening at the Methodist church, with Mrs. Joe Bailey King leading the missionary lesson.

The program opened with two songs by the members, followed by prayer by Mrs. Oscar Spann. Ruth Baker read the scripture lesson, and Mrs. King gave an interesting talk on China.

Members present included Mrs. M. F. Billingsley, Mrs. O. H. Spann, Mrs. Joe Bailey King, and Misses Merle Dingus and Ruth Baker.

Hefner 4-H Club Boys And Girls In Recent Meeting

Members of the Hefner 4-H Clubs held a recent meeting at the Hefner school building, with the president, Martha Marie Walton, in charge. Only two girls were present.

The girls had charge of the meeting. Three boys and three girls told of their duties at home. Good reports were given.

Miss King gave a demonstration on crocheting scarfs for girls to wear on their heads in winter time. Mr. Dunkle gave a demonstration on the care of pigs.

Three new members joined the girls' club on January 17. Seven new members joined the boys' club.

The next meeting will be on January 31. All members are urged to attend.

Two Piece Evening Dress

WITH clever change-abouts, this two-piece dinner dress in rayon bengaline can work miracles in your wardrobe. The metallic striped blouse is effective with street length skirts, and the beautifully draped skirt in a new polka dot bengaline will add the necessary amount of swish to your simplest blouses. For double duty clothes, choose rayon fabrics that have been tested for dry cleanability, fabric strength and other service qualities.

Cpl. and Mrs. Ben A. Wilde and little daughter, Judy, spent a furlough with relatives and friends in this county. They returned to Tampa, Fla., last week, where Cpl. Wilde is in training.

Sheriff L. C. Floyd of Benjamin was here on official business last Saturday.

Mrs. Neal M. Jolley of Glendale, Ariz., visited her aunt, Miss Elizabeth Mounce, the first of this week.

Mrs. A. H. Sams and Miss Lucile King of Benjamin were business visitors here last Saturday.

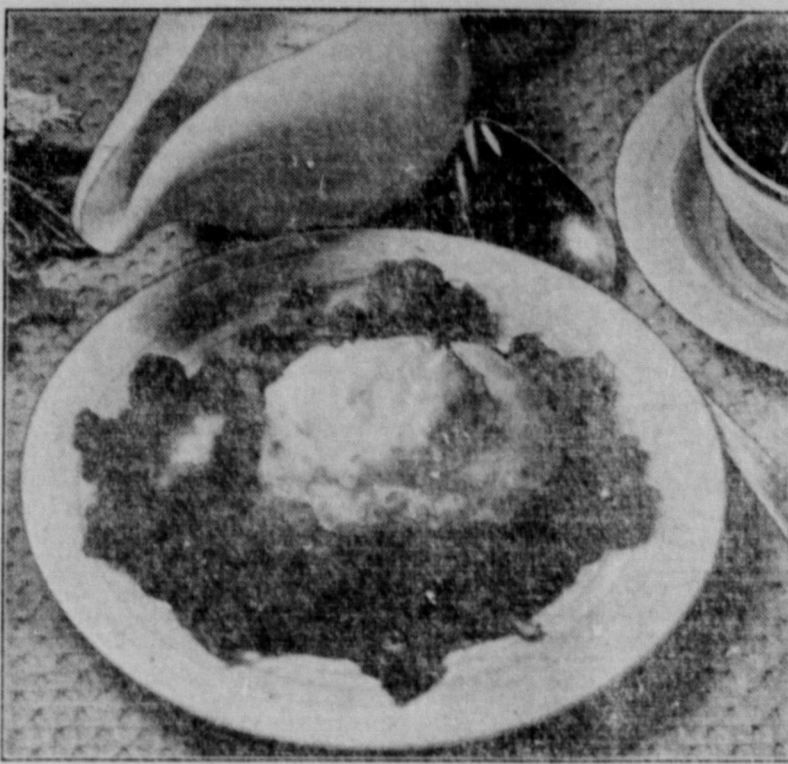

Activities of Colored People

The P. T. A. met on Tuesday evening with the president in charge and other officers and members present.

A total of \$8.60 was realized from the cake which was given away last Saturday night. The P. T. A. extends thanks to everyone who bought tickets from Simon Williams and other members of the P. T. A.

We are very glad to have Mr. and Mrs. H. H. Hendric back in our community.

A Winter Season Shortcake

NO need for passing up that all-time family favorite, the shortcake, just because strawberry season has passed. Readily available in every market are apples and cranberries, which combine to make a delectable shortcake—yes, one as colorful and as good to eat as any of your old summertime varieties.

Serve this spicy seasonable sauce on double-decker biscuit type shortcakes for a new family thrill, and top it with a bit of hard sauce—the brown sugar variety.

Of course, fruit alone doesn't make a shortcake. It's the lightness, flakiness, tenderness of the shortcake biscuits that's real "proof of this pudding." To be sure of the best results, use a good shortening, like the new blended shortening, scientifically prepared and home tested to assure the best in performance. Blended shortening is good in that brown sugar hard sauce, mentioned, too.

Apple and Cranberry Shortcake
To prepare the Sauce: Boil together for 3 minutes 1/2

cup sugar and 1/2 cup water. Add 1 cup diced apple, cook about 5 minutes. Add 1 cup washed cranberries, and a stick of cinnamon. Cook until cranberries pop, about 5 minutes.

Shortcake Biscuits

1/2 cup blended shortening
2 cups sifted flour
3 teaspoons baking powder
1 teaspoon salt
1/2 cup milk
1 tablespoon blended shortening

Make a biscuit dough by cutting the 1/2 cup blended shortening into the sifted flour, baking powder and salt. Add milk, stirring quickly but thoroughly. Turn dough onto a floured board. Knead gently. Roll out about 1/2 inch thick. Cut into eight 3-inch rounds. Brush tops of four rounds with melted shortening and place second round on top. Bake in a hot oven (450° F.) about 15 minutes.

Separate the rounds. Cover the bottom with apple cranberry sauce. Place top round on and cover it generously with the sauce. Top with hard sauce, if desired.

LOCALS

Mrs. Hazel Shelton visited with relatives in Abilene last week end.

Mr. and Mrs. Dick Wardlow left last Sunday for Ft. Dix, N. J., where Mr. Wardlow is stationed. They spent a furlough with relatives and friends in Munday, Mr. and Mrs. Don Wardlow accompanied them as far as Abilene.

Sgt. and Mrs. H. H. Partridge of Ontario, Calif., came in the first of this week to spend a furlough with relatives and friends here.

Arthur Smith Jr. was a business visitor in San Angelo the first of this week.

W. R. Richards of Vera was a business visitor here Monday.

Vester Bowman of Goree route two was visiting here Monday and attending to business matters.

Wake Up, Americans!

Wake up, Americans! Make America's answer roar out over the world. Every citizen must back the United States Army and Navy to victory—back them with work and money.

Do your part: Buy United States Defense Bonds and Stamps at your post office, bank, or savings and loan association. Get Defense Stamps at your retail store or from the carrier boy of this newspaper.

Culling For Egg Production

The 1944 poultry conservation program has been set in motion with 10 community meetings a request from the War Food Administration to cull flocks during January. R. O. Dunkle, county agent, suggest, that all undesirable, weak or runty birds be culled, and only the top layers retained. These points were shown by actual demonstrations to 162 farmers and farm women during community meetings. Most of the culling will be confined to the numerous small flocks over the county. Cull hens are wasters. They consume scarce feed and contribute little to the food program until sold for meat. Removing them will mean extra starting feed for 1944 chicks.

In making replacements, Dunkle believes poultry producers will be wise to buy their chicks early this year. Those hatched early are easier to brood because more uniform temperature can be maintained in the brooder house. Moreover, danger from coccidiosis is greatly reduced on chicks brooded during the cooler months.

Poultrymen this year can profit by avoiding last year's mistake of overcrowding their laying houses. In culling flocks or buying chicks for replacements, it is a safe rule to allow three square feet for each bird in the house. For example, a 20 by 20 foot laying house has 400 square feet of floor space. On the basis of three square feet per bird, it would have a safe capacity for 135 laying hens.

R. O. Dunkle says that if hens are given adequate feeding space and a good feeding program is adopted, a higher average production can be maintained than possibly could be sustained under other conditions.

AIR CORPS SELLS SAWS, PLIERS, ETC.

From housewives to handymen, all Americans have been waiting for the day when war ends and industry can again supply us with the luxuries of peace. For those fortunate citizens with priorities that day—in a small measure—is now.

The Army Air Force has issued a 32-page catalogue of excess and outmoded stock. Available for sale are such mouth-watering items as rubber hose, hammers, wrenches, screws, typewriter ribbons, photo graph albums, saws, pliers, washers, turpentine and, yes, even castor oil.

At The Churches

BENJAMIN METHODIST CHURCH

J. P. Patterson, Pastor
CALENDAR
Preaching Second and Fourth Sundays at 11:30 a. m.
Church School, 10:30 a. m. each Sunday.

For January 23

The pastor's subject will be "The Lord's Supper." This subject will be handled from the background of the ancient feast, which will give the correct interpretation of our holy communion. It is the purpose to give the largest possible light from its original institution by our Lord. Many new meanings will be presented to those that have heard it only in its modern and popular signification. Following the sermon the sacrament will be celebrated, and all of God's children are invited to participate.

Your presence at any of these services will be appreciated.

J. P. Patterson, pastor.

PRESBYTERIAN CHURCH

Dr. William N. Sholl of Haskell preaches here each Sunday morning at 9:30 a. m.

Our church is located on the Main street of Munday and has an attractive auditorium with added Sunday school facilities. The Auxiliary meets on Mondays and is accomplishing a good work.

All Presbyterians living in Munday and surrounding country are urgently invited to attend our services. A very hearty invitation is extended to all visitors, especially those who have no regular church home.

LAUNDRY CUSTOMERS!

We are now able to buy plenty of soap for our laundry, and it will not be necessary for you to bring your own soap in the future.

We appreciate your co-operation in the past, and we will try to give you every laundry service.

MORGAN LAUNDRY

AR-CO TONIC

Is a tonic fortified with Vitamins A & B¹ and is recommended for convalescences recovering from Influenza and Colds which have been sweeping the country. It is very palatable and taken very readily by both children and adults. Twelve ounce bottle for \$1.20.

P. J. Camp was a visitor with his daughter-in-law and grandson, John, of Holliday several days last week.

E. J. Crouch was a visitor with his daughter and family at Mcgargal recently.

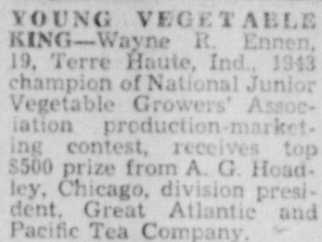

Mr. and Mrs. Andrew Gilbert of Munday were visitors with Mrs. Gilbert's parents, Rev. and Mrs. S. M. Claburn, last Sunday.

Winter weather continues here with a sunny day occasionally. Rain and snow together have put

People, Spots In The News

NIP-NIPPED—This flaming Jap torpedo plane is a victim of accurate anti-aircraft fire from a Pacific fleet carrier which raided the Marshall Islands.

YOUNG VEGETABLE KING—Wayne R. Ennen, 19, Terre Haute, Ind., 1943 champion of National Junior Vegetable Growers' Association production-marketing contest, receives top \$500 prize from A. G. Hoadley, Chicago, division president, Great Atlantic and Pacific Tea Company.

SOME TRAFFIC!—While a dive bomber is checked (foreground), another plane taxis up after landing. The flight deck of the U.S.S. Saratoga represents a neat problem in handling traffic after a raid on the Jap base at Rabaul, New Britain.

I GIVE YOU TEXAS
by BOYCE HOUSE

There's a story of a new justice of the peace who said, at the conclusion of the argument in his first civil case: "The court will take the matter under advisement until next Wednesday—and then will decide in favor of the plaintiff."

Having urged for two years that something be done about soldier voting, I'm glad that Austin is thinking about doing it. Of course, it would have been nice if this matter had been attended to at the regular session a year ago—and there would be no reason now to consider a special session on the subject, at a cost of \$250,000 to the taxpayers.

Speaking to the Texas Sheep and Goat Raisers Association recently, your columnist said:

I know and love your country for I have been to Sonora, Ozona, and Rocksprings; married a Merzon girl; and, as a boy, roamed over the vast open spaces of Southwest Texas in a covered wagon with my invalid father.

"One summer was spent in Del Rio, surrounded by the traditions of Judge Roy Bean; and I've been out in the sandy country, too, where Gib Morgan, the legendary driller, started a well in top of a hill and one night a wind came along and blew the hill away, leaving 600 feet of hole standing right out in the atmosphere!"

"Seriously, yours is a region of

Ninety-six cents out of every dollar goes for War expenditures. The other four cents goes for Government expenses "as usual."
For Freedom's Sake

boundless blue sky, of purple sage, of bracing air and of room enough to produce men who are big in body and heart—honest, courageous, loyal to a friend and direct in speech and action.

"All Texans admire your achievements and are proud of the supremacy of our State in the raising of sheep and goats. Many books have been written about cowboys, about mavericks and doggies; all is coming into recognition at the hands of writers; yours is a story of Texas, however, that still awaits recording—and what a great and romantic story it will be!"

4-H AWARDS SHOW JUNIOR FARMERS' WORTH

Proof that the future of this country's great agricultural industry is in capable young hands, and that American junior farmers know the rewards of individual initiative and enterprise, was displayed at a recent 4-H Club convention.

Among winners of club awards was a Texas boy who started his agricultural career six years ago with one ewe lamb, and whose bank account today shows \$28,739.

From a six and one-half acre plot a 16-year-old girl from Georgia estimated the 6-year value of her gardening projects at \$11,505.

From two acres of garden, two dairy animals, 367 fowl and additional sewing and food enterprises, a Wisconsin girl gained an income of \$1,626 in a seven-year period.

Miss Irene Moore, who is employed in Fort Worth, was here over the week end visiting her mother, Mrs. John Moore.

Mr. and Mrs. C. P. Baker left Wednesday morning for Dallas, where they are attending market and purchasing merchandise for the Baker-Mearly store.

Mr. and Mrs. H. M. Hood, who have resided on route two out of Munday, moved this week to Haskell county to make their home. Mr. Hood called at the Times office and had his paper changed to his new address.

Our boys must keep on fighting—we must keep on buying WAR BONDS until victory is won. Keep on BACKING THE ATTACK.

KEEP ON
Backing the Attack
WITH
WAR BONDS

Growing children need good food, exercise in the fresh air—and lots of sleep, but even the healthiest of youngsters do not escape the common cold germ that brings sniffles and rasping coughs. We recommend for your medicine cabinet—a bottle of

H & H COUGH SYRUP

for relief of coughs due to colds. Children like its pleasant honey-horehound flavor and mothers appreciate its prompt effectiveness.

Senior Report

Mid-term is over! Is everybody happy? Well, no, not all of us seem to be. It seems that a few of us studied the wrong material, or perhaps we didn't study at all. Anyway it's over and we can cheer up and determine to do better in the future.

All the seniors are looking forward to ordering our playbooks. Our only hope is that we are able to find a play as good as the one of last year. We still possess those talented actors and actresses, so be on the watch for our play...

We have finally completed our literature books and have been issued new grammar books. They appear to be quite interesting so perhaps we will find that they aren't too difficult. At any rate we intend to put forth a lot of effort in this subject because it is an important one.

Beginning next week we intend to publish a brief sketch of the life of every Sunset senior, so be on the watch for these because some of them may be pretty interesting.

Sophomore Report

The sophomores are glad mid-term exams are over. I think that most of us did pretty good.

The volleyball girls are going to play O'Brien Tuesday night. We are all hoping that we emerge victorious.

Freshman Report

Mid-term exams have left us with a worried mind. Some one told us we had a right to worry about our grades. In a lot of cases we didn't get much for all that last minute cramming that we did. But in general I suppose we did fair.

We got our new English literature books and they look very interesting. I'm sure that we will find that they are more interesting than our grammar books were. The Home Economics classes

have a new teacher. We were all very sorry to lose Mrs. Howell but we welcome Miss Hook into our midst and we are sure she will be a very capable instructor.

The freshmen recently wrote the biographies of other members of the class and we have decided to publish a few of them. The first one will concern Janice Posey.

Janice Posey

Mr. and Mrs. C. R. Posey were blessed with a bouncing bundle of love on April 19, 1928, to whom was later given the name of Martha Janice.

Janice went to the Knox City school for the first five years of her educational training.

She went to Hutto school when she was in the sixth and seventh grades. Then her family moved to the Sunset community and she enrolled in Sunset and has been attending school here ever since.

Janice is about five feet and six inches tall and has light brown hair and a fair complexion. Her brown eyes and nice personality also add to her attractiveness.

Some of her favorites are:
 Study: Algebra.
 Actor: John Wayne.

Actress: Rita Hayworth.
 Song: "Shoo Shoo Baby."
 Color: Blue.

Pastime: Reading.
 Entertainment: Frank Sinatra.
 Janice thinks it is a little early to make plans for the future, but at the present she intends to become a cadet nurse.

Eighth Grade

"Thank goodness mid-term exams are over!" is the exclamation being heard among all of us now. And we really mean it, because those things had us rather worried. We have been told some of our grades and there is a very noticeable contrast of happy and sad faces among us. The sad-faced ones have resolved to do better and the happy-faced ones intend to try to continue doing as well as they have previously been doing. But the questions remains; will we live up to our resolutions??

We have elected our new class president and we plan to elect our other officers sometime this week. We are very happy to report that Bobby Joe Fitzgerald is our new president.

Seventh Grade

The seventh grade girls are very glad when recess comes because they are learning to play basketball. We find it a very enjoyable game and are learning how to play it very rapidly.

We are all glad that mid-term exams are over. All made pretty good grades which we are proud of.

In arithmetic we are finishing up percentage and intend to indulge in a light study of geometry.

In music we are planning to form a trio consisting of a high and low alto and a soprano.

Sixth Grade

Every one feels relieved now that mid-term exams are over, and we are making some belated New Year's resolutions, namely: that

EMBROIDER YOUR MONOGRAM

YOUR OWN INITIALS... embroidered in bright colored floss, can be used in many new ways this year to personalize your fashion accessories. You can easily stamp them onto any fabric, using hot iron transfer patterns... and for novel effects, you can run the letters of your first name down the front of a blouse, or embroider them like a necklace just below the neckline. Simple script letters like these, designed by Vozart, can also be used for a classic monogram that will add color to the plainest of blouses.

We are going to study harder this next semester than we did the last. Jerry Dickens visited at Goree Sunday.

Tommy Yost visited her cousin at Hefner Sunday.

We are each bringing a new book from home and exchanging with each other. We also have ten new books for our grammar school library which we enjoy very much.

Fourth and Fifth Grades

We have a new pupil in the fourth grade. His name is Donald Miney and he is from O'Brien. We are very glad to welcome you to our class, Donald.

We are all very glad that mid-term exams are over.

Ellen and Helen Colvin have moved to Munday. We are very sorry to have them leave our class. Our Citizenship Club elected new officers for this semester. Gloria Michels was elected president and Gerald Ray Myers as secretary. For reporter we chose Gladys Simmons.

Second and Third Grades

Charles Everett visited his uncle at Hefner Sunday.

Kay Leon made harness out of chains for his dog, Sport.

We are sorry that Mildred's father is sick. We hope he will soon be back well again.

We are sorry David is going back to California.

Faye's uncle and aunt and little cousin visited her Sunday.

Donald is getting to be an ex-

pert with his airgun. The sparrows had better hide out.

We are glad to have a new pupil, Goldie Faye Reeves.

Elaine visited her uncle and aunt at Goree Sunday.

Kay Leon's grandfather came to see him Sunday.

First Grade

Teddy Bradley, whose mother is still seriously ill in the Knox City hospital, has withdrawn and gone to Bernon to stay with an aunt and attend school there until his mother is better. We hope Mrs. Bradley will soon be home again.

Loretta Floyd had a loose tooth which neither her mother nor her daddy could pull but Loretta pulled it herself—for fifteen cents.

Ruth Burton went to Vera to see her Aunt Lorraine Burton's new baby boy, Robert Harold, Jr. on Sunday. Jr.'s daddy is in service.

Ruth was happy to have her sister, Jane Burton, of Tech. spend the week end in their home. Jane returned to Lubbock Tuesday morning.

Grace Evelyn Posey's Aunt Bobbie Johnson has a new baby girl named Jo Frances.

Sulphur production was a \$40,000,000 industry in Texas in 1942, reports the University of Texas Bureau of Economic Geology. That year a total of 2,579,739 long tons of this mineral was produced, valued at \$41,275,824. Production in 1941, however, amounted to 2,842,988 long tons, valued at \$45,487,808.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
 M. D., State Health Officer
 of Texas

AUSTIN — Commenting on the fact that there were approximately 25,000 cases of flu reported in Texas last week, Dr. Geo. W. Cox, state health officer, said today that there is no way to estimate the number of additional cases not attended by a physician, therefore not reported.

Dr. Cox urged every Texan to do his utmost to protect himself and his family from the dangers of influenza and its possible complications and stressed the fact that it is not a disease to be regarded lightly.

"It is a serious mistake to try to fight flu, on your feet. Complete bed rest, lots of liquids, a light diet, and treatment prescribed by a competent physician are the steps most necessary to early recovery," Dr. Cox said.

"Pneumonia is a frequent complication of influenza, and with vitality low from the effects of flu, pneumonia can be an unusually serious menace," Dr. Cox said.

The State Health Officer said that avoiding undue exposure to cold, wet weather, maintaining

good ventilation, obtaining sufficient sleep and eating a nourishing, well-balanced diet will aid in building up physical resistance and may help to ward off influenza. If, in spite of these precautions, fever, boneache, and other flu symptoms appear, the patient should go to bed immediately and consult his family physician.

Mr. and Mrs. Carl Mahan and children of Abilene visited relatives and friends here over the week end.

Rev. Luther Kirk spent Tuesday and Wednesday in Amarillo, where he attended a Methodist bishops' crusade meeting for this area. He reported a very enjoyable and inspirational meeting for the church leaders.

Mrs. E. L. Snelson and Mrs. Leon Cadwell of San Antonio vis-

ited with relatives here the latter part of last week.

Mrs. Travis Gore and Mrs. Carl Green visited Pvt. Gore's parents, Mr. and Mrs. H. H. Gore of Seymour, last Sunday.

Mrs. H. C. Collin of Austin came in last week for a visit with her parents, Mr. and Mrs. Jim Cadwell.

The little daughter of Mr. and Mrs. Merle Lambeth is in the Knox county hospital for medical treatment.

Changes In School Life

School life in the United States has changed greatly since December 7, 1941. Many schools have been taken over by the government. That makes our responsibility even greater, and we want to do our utmost to help the war effort. We must realize how important it is that we, the youth of America, prepare ourselves for a future in which we will take our places as citizens responsible for the welfare of others.

Education is, and should be, our main objective for this year. This year, more than ever, each pupil should put in as much time as possible on his studies for success in any field in the future. The boys "over there" are putting in 24 hours of work every day. Are we going to let them down? Certainly not. We are going to learn for our boys and our country!

Besides preparing ourselves for this future, we must also think of the present. One way each of us can have a part in winning this war is by pitching in and boosting the sale of war bonds and stamps. NOW is the time to show our boys that we are united behind them. Remember, a stamp a day keeps the Japs away. Let's all support the Fourth War Loan Drive!

Moguls Played In Consolation Saturday

Saturday, the Moguls went to Old Glory to a basketball tournament. They first played Leaders who beat them by eight points. This threw the Moguls in the race for consolation. Next the Moguls beat Dickens City by a margin of fifteen points and then Ralls by twenty-five points which threw them in the finals for consolation. The game with Old Glory was tight; but in the last quarter Old Glory got ahead by six points, which they kept the rest of the game.

Next week-end the Moguls go to Paint Creek for a tournament, which they hope to win.

Society News

Ah, at last exams are over! It is an old custom for everyone to have parties to celebrate the occasion, believe me, celebration is in the air. All you can hear now is someone talking about the next parties or begging to have one. There have been no parties since Christmas and that's what everyone looks forward to. Now's the time!

Senior News

The whole Senior class is thoroughly glad to have its exams over with as they are ready for a slight rest. The Bookkeeping students think they deserve a holiday. The test was really long and tiresome for it lasted a little over five hours. Although everyone did not come through with flying colors, they certainly did their best. That means harder work this term for those who did not make the required average last time.

There shall be no more worry over Civics. However, there is something else to take its place—Economics. It promises to be an interesting subject and the class is looking forward to it.

One thing everyone is excited about is a course in aviation. For the Seniors the course will be in-

People, Spots In The News

WOUNDED YANKS GET JAP FLAG—These Yankee soldiers, wounded in the battle for Makin atoll, are inside a U. S. Navy patrol plane enroute to a hospital. The lads examine a Jap flag and a bar of soap captured from the Nips.

"FOR MERITORIOUS CONDUCT"—Sgt. Lewis H. Zerbe of Mohnton, Pa., stands in front of his outfit in Iceland while the Stars and Stripes whip straight out behind him in the icy wind. He is about to receive the award of the Legion of Merit for exceptional meritorious conduct in performance of duty.

ALUMINUM SURPLUS—With production already cut back in some plants, Roy A. Hunt, Aluminum Co. of America president, announced one-time fears of shortage have been answered with ingots and sheets in growing surpluses over military needs. Photo shows "Skin" for bombers progressing through an Alcoa plant.

On the beaches of Italy, in the jungles of the Pacific—planes, tanks, artillery must move—and fast; no waiting to build roads or airfields. That's when our soldiers must unroll these "steel mattresses," as you see them in this photo. Your War Bonds pay for them.
 U. S. Treasury Department

Thursday morning. We are learning to multiply and divide. It is very interesting, too. Our reporter is Charlotte Hannah.

Junior News

The teachers must have had a wonderful mid-term because they gave us a holiday Monday. It was unexpected and the students cheered so loudly you couldn't hear yourself think.

Many of the students received disappointments when they got their papers. But, on the average, the papers were better than expected. Maybe that Opportunity Hall is not such a bad idea after all. Now that mid-term is in the past we settle down in the groove and take school life as it comes. It's going to hit with a bang at final exams time if we don't do better than we did the first term.

Sophomore News

The mid-term exams are over and some of us are beginning to breathe again. We haven't gotten

our report cards yet but most of us know about what will be on them. Mr. Cunningham was good to us Monday and turned us out about 11:00 o'clock.

The Fourth War Loan Drive has started and the Sophomore class is going to do their part. We hope everyone else will do theirs. Buy War Bonds and Stamps!

8 A News

The Eighth Grade has a new student. His name is Troy Calvin and he is from Sunset. We are very glad to have him with us.

We, and some of the other classes, almost fainted when Mr. Owens and Mr. Cunningham gave us a holiday Monday. We were very grateful and hope they do it again.

We are starting a new subject Civics, and are dropping Geography, having finished the book. Miss King is going to teach Civics.

Mr. Owens announced Tuesday any student in the Eighth Grade failing at least four subjects will have to go back to Eight B in Grade school. We hope no one failed four subjects.

Eight B News

Another six weeks gone by and we have our report cards. Some of us were proud of them and some of us were not proud.

In Science we have finished our book. We are bringing different kinds of articles to put in each chapter. We are having a nice time. In Geography we have finished our book and are having Civics now.

Sixth Grade News

We had our last examination Monday. We all think we made good grades. We hope so.

Mrs. Carl has been absent a few days. Mrs. Kane took her place. We are glad she is back again.

Some of our students have been absent because of sickness. We are glad to have them back again.

We have four boys on our basketball team. They are: Billie Eugene West, Omer Yarbrough, Don Haynie, Bobby Joe Lawson.

A few of our boys are on the Jr. football team too. They are: Charles Elmo Morrow, Bobby Joe Lawson, Omer Yarbrough, Don Haynie, Preston Iseng, Joe Bailey Roberts and Junior Howeth.

The sixth grade girls have started a sewing club. We are making things for the 4-H and our homes. The officers are:

President—Marguerite Hammett.
 Secretary—Bobbie Wayne Johnston.
 Vice-President—Burna Dean Suggs.
 Treasurer—Ina Mae Jones.

Mrs. Dan Biggs and little son, Mike, of Seymour visited with friends here a while last Tuesday.

Mrs. W. M. Mayo of Amarillo visited relatives and friends here several days last week.

Tom Cluck, well known county man, entered the Knox county hospital for medical treatment last week. He is reported to be improving.

Miss Maurine Johnson, who is employed in Fort Worth, visited her parents, Mr. and Mrs. Ed Johnson, and other relatives here over the week end.

Navy Begins Enlistment Of Young Men

The Navy, beginning immediately, will enlist qualified young men from 19 to 26, inclusive, in its aviation cadet program under an increased quota for Class SV-5. Heretofore, only 17 and 18 year olds with high school education were eligible for flight training.

Lieut. Comdr. G. W. Cook, Jr., officer-in-charge, of the Dallas office of Naval Officer Procurement, Allen Building, said the expanded quota probably resulted from tightening of deferments for civilians under 22 years by Selective Service.

Comdr. Cook believes a large number of these young men will be interested in applying for training as an aviation cadet and being given the opportunity to earn a commission as an Ensign, U. S. Naval Reserve, or as a U. S. Marine Corps Reserve Second Lieutenant. He asked that they write his office for full details.

High school graduates, physically qualified for flight training, may be considered for the program if they are from 17 to 26 years old. The Navy will require those 19 and older to have at least one year of college training. They will be permitted, if enlisted, to complete their current college term if en-

rolled as a full time student.

These young men will be ordered to duty at one of the Navy's selected flight preparatory schools to begin the 16 to 18 months' training necessary to win the Navy Wings of Gold.

Seventeen and 18 year old boys who will graduate from high school not later than July 1, 1944, will receive eight months' additional education in the Navy V-12 program. Then they, too, will be ordered to flight training.

All applicants must have successfully completed high school. The Navy requires that aviation cadets be unmarried and agree not to marry until completing flight training.

Interested young men should write the office of Naval Officer Procurement nearest them for details or contact the closest Navy Recruiting Office. Procurement offices in this area are located in Dallas, Houston, New Orleans, Oklahoma City, and Memphis.

Sgt. Hugh Curtis Bell returned to Camp Haan, Calif., the first of this week after spending a furlough here with his parents, Mr. and Mrs. J. E. Bell.

The Dallas Morning News

regrets its inability to supply its readers with as many copies as the public demands. However the publishers, in compliance with Government wartime regulations calling for the use of less newsprint, have been forced to "freeze" the volume of circulation within this community.

WHEN MORE PRINT PAPER IS AVAILABLE WE WILL BE HAPPY TO LIST YOUR SUBSCRIPTION.

PLEASE ACCEPT OUR THANKS FOR YOUR VALUED PATRONAGE IN DAYS GONE BY.

The Dallas Morning News

REPAIR NOW!
 for a year that will be TOUGH!

● You know what you're up against. Farm equipment can't be replaced if there's any way to put it in good operating condition. That's a government order! With help so scarce, farming is going to be tough. It's only common sense to put all your machines in the best possible shape.

This is no time to take chances and wait for your repairs until you need the equipment. Our shop is swamped, but we'll get your work out if you give us advance notice. And we'll get it out RIGHT because we have the tools and the experience it takes to service farm equipment.

Look over your equipment, then stop in early and sign up... with your McCormick-Deering dealer...

valuable because so many will be in a branch of service that requires such knowledge.

Senior Life
 On the Christmas Eve of 1925 the Montgomery family was surprised by a lovely present named Hulen Edward, who always somehow lived up to the adjective lovely. However he didn't join the group that now makes up the Seniors immediately. His first six years of school he spent at Rhineland and San Angelo. After starting to Munday he was distinguished by the care he gave the wave in his hair. Hulen has been president of his class, in the Junior play, and PFA reporter. This year he is Sports Reporter and co-captain of the basketball team and he has always been active in all sports.

After graduation Hulen intends to be a part of the Naval Air Corps. However his post war plans include a ranch farm somewhere in Texas with a somebody.

Favorites, he has many but his hobby and pastime are acting crazy, which always provides a laugh.

Sport—Basketball.
 Song—"Racing With the Moon."
 Star—Judy Garland.
 Girl Friend—Everyone.
 Color—Red.
 Teacher—All.

Third Grade News
 We will get our report cards Wednesday. Monday we started on our second semester's work. Myra Jean Moody moved to Seymour. Joy Kay Morton and Bobby Guffey came home and we are so happy to have them.

Our assembly program is for

Rainfall to date this year 1.24 inches; rainfall to this date last year .07 inches.

Mrs. Fred Glover and Mrs. Olin Lowe of Benjamin were business visitors here last Monday.

THE POCKETBOOK OF KNOWLEDGE BY TOPPS

News From The A.A.A. Office

Processors have been ordered to set aside 20 percent of their February production of oilseed meal for directed distribution to areas designated by the War Food Administration.

The set-aside order, second to be issued under Food Production Order No. 9, is designed to make protein meal available for wider distribution. A similar order covering January production was announced early in December. The order pertains to cottonseed, soybeans, (except those furnished southern mills by CCC) linseed and peanut oil meal, cake or pellets.

In announcing the order the WFA requested the voluntary cooperation of oilseed processors in making the quantities of protein meal to be set-aside during February available for distribution during January. Such meal will be credited against the February set-aside.

Oilseed meal set-aside under this order will be distributed by the War Food Administration through the State and County Agricultural Conservation Committees. Processors can sell or deliver set-aside oilseed meal only to holders of a certificate of designated buyer, issued by the State or County Agricultural Conservation Committee.

Cattle Bring Steady Prices

The Munday Livestock Commission Co. reports a big run of cattle and hogs for last Tuesday's sale. All classes of cattle sold about steady with last week's sale.

Canner and cutter cows brought from \$4.50 to \$7; butcher cows, \$7.25 to \$8.50; beef cows, \$8.75 to \$10.25; butcher bulls, \$6.75 to \$8; beef bulls, \$8.50 to \$9.75; rannie calves, \$6.50 to \$7.50; butcher calves, \$8 to \$10.50; fat calves, \$11 to \$12.80.

Some stocker steer calves sold from \$11 to \$12.00.

COMPLETES INSTRUCTION COURSE IN TENNESSEE

Lieut. Bill Billingsley came in the first of this week from Smyrna, Tenn., for a visit with his wife and little son and his parents, Mr. and Mrs. M. F. Billingsley.

Lieut. Billingsley has just completed an instruction school in heavy bombardment at Smyrna, and is being transferred to Blythe, Calif., where he will instruct students in this phase of aerial bombardment. Mrs. Billingsley and little son will accompany him to California.

For the third year, a \$5,000 music fellowship fund has been made available to the University of Texas Radio House by Karl Hoblitzelle, Dallas theater magnate and philanthropist. The fund is used to provide a 16-member orchestra and a 12-member chorus to furnish music for Radio House broadcasts.

Most of your friends away?

If most of your friends are away now—in the service—doing war jobs—don't you feel left behind sometimes?

Why not get in the midst of this war? Join the WAC! You can see new places, make new friends, learn interesting things—while you are doing vital work to speed victory.

The Army needs your help urgently. This is your chance. For full details apply at the nearest U. S. Army Recruiting Station (your local post office will give you the address.) Or write: The Adjutant General, Room 4415, Munitions Building, Washington, D. C.

On The Way

We have coming a new shipment of...

- Studio Couches
- Bedroom Suites
- Occasional Tables
- Dining Room Chairs

Also some 5-burner cook stoves, with built-in ovens.

We have just received a large shipment of John Deere sweeps and buster points; also some John Deere go-devil blades.

MUNDAY HDW. & FURNITURE CO.

PCA Members' Annual Meeting Is Held Monday

Farmers and ranchmen, their wives and neighbors, from eight counties attended the 19th anniversary annual meeting of the Stamford Production Credit Association in Stamford, Texas, near San Angelo, Texas, on Monday, January 17th at the Bunkhouse, Texas Cowboy Reunion grounds with 508 present.

The program centered around a decade of local short-term credit and special recognition was given to all continuous 10-year members.

President J. B. Pumphrey said that the association has "loaned its members more than \$9,000,000.00 in the past 10 years. We think credit fitted to individual needs helped many improve their position through the years and that in those war times financing that helps an operator produce more efficiently is contributing to the war effort."

Secretary-Treasurer J. L. Hill's report to the stockholders showed that the Stamford Association now has 1333 members; that capital stock owned by farmer-ranchmen members amounts to \$151,150; and reserves built up out of earnings to protect their stock total \$66,818. Loans for 1943 totaled \$2,579,329.

The stockholders elected Mr. J. B. Pumphrey of Old Glory to serve as a director of the association for a term of three years.

At the organization board meeting following the annual meeting, the following officers were re-elected to serve in 1944:

J. B. Pumphrey, president, Old Glory; J. F. McCullough, vice-president, Stamford; J. L. Hill, Jr., secretary-treasurer, Stamford; P. L. Summers, assistant secretary-treasurer, Stamford.

Roy Fox of Gilliland was here Tuesday attending the auction sale and looking after business.

Mrs. George H. Pittman

Texas, if the history of infantile paralysis runs true to form, faces a second polio epidemic. This warning is sounded by Mrs. George H. Pittman, Dallas, Texas representative of the National Foundation for Infantile Paralysis, in a communication to the 223 county chapters within the state urging all-out support for the celebration of the President's birthday. The fund driving campaign opened in Texas Jan. 14 and will close Jan. 29. The Foundation is sending many thousands of dollars into the state at this time, she said, and is supplying great quantities of supplies, many technicians and doctors, iron lungs and hot packs. It is establishing six training centers for the instruction of nurses in the application of the Sister Kenny treatment. Funds raised through the celebrations finance this program.

RECEIVES FRACTURE TO RIGHT LIMB

The six-year-old son of Mr. and Mrs. Coy Phillips of Munday received a severe fracture to his upper right limb last Tuesday when he walked into a moving car at the family's farm home.

After receiving medical attention here, the child was taken to a Wichita Falls hospital for treatment. He is reported getting along nicely.

TIME TO SPARE

LIFE OF LEISURE
JOHN BUCHAN, LORD TWEEDS MUIR, AUTHOR OF "THE THIRTY-NINE STEPS" AND NEARLY 60 OTHER BOOKS WAS A BUSINESS MAN, MEMBER OF PARLIAMENT, GOVERNOR GENERAL OF CANADA. HIS BOOKS WERE WRITTEN IN SPARE TIME, SEVERAL AS HE TRAVELED BETWEEN HOME AND LONDON.
