

## W. P. Hurd Out For Commissioner Of Precinct Two

W. P. Hurd, well known resident of the Vera community, last week authorized The Munday Times to announce his candidacy for the office of Commissioner of Precinct Two in Knox county.

Mr. Hurd needs no introduction to the voters of his precinct. He has resided in the precinct 56 years, where he has been engaged in farming. This is his first time to seek office, and he believes that his knowledge of the needs of his precinct through years of residence therein fully qualifies him to make a good commissioner.

"I earnestly solicit the vote and influence of every voter in Precinct Two," Mr. Hurd said. "I will try to see as many voters as possible between now and the July primary, but I believe that in times like these one should not make an extensive campaign."

"If elected to this office, I will try to prove my gratefulness and sincerity by giving you my best in service at all times, always working for the best interest of my precinct, and of Knox county."

## Knox County Hospital Notes

Patients in Knox County Hospital Tuesday, May 2, 1944:

Alice Cybert, Munday.  
Mrs. T. F. Greenwood, Rochester.  
Aubrey E. Russ, Odessa.  
Elton Robertson, Knox City.  
Mrs. Frank Glover, Benjamin.  
Mrs. C. F. Paul, Knox City.  
Mrs. Ulric Lea, Knox City.  
Virgil Greer, Crowell.  
Winsel Norvill, Munday.  
Mrs. J. L. Klutts, Knox City.  
Mrs. B. E. Keeth, Aspermont.  
Baby Lea, Knox City.  
Marcellus Johnson, Munday.

Patients Dismissed Since Tuesday, April 25, 1944:

Mrs. P. C. Jones, O'Brien.  
R. J. Walling, Munday.  
Mrs. Ira Hester, and baby son, O'Brien.  
Mrs. C. E. Cartwright and baby son, Rule.  
Miss Katie Sweatt, Munday.  
Mrs. W. N. Collins, and baby daughter, Knox City.  
Elizabeth Sharp, Rochester.  
Billy Wayne Lain, Munday.  
Mrs. Rosie Lee Dearmon, and baby son, Munday.  
Alfus Burleson, Munday.  
Mrs. Noble Welch, Benjamin.

### Births

Mr. and Mrs. W. N. Collins, Knox City, a daughter.  
Mr. and Mrs. Dearmon, Munday, a son.

## Ted Longino Is Now At Pueblo, Colo.

PUEBLO, COLO.—Lt. Ted E. Longino, resident of Munday for several years is now stationed at Pueblo Army Air Base. He is a pilot in the tow target section. Lieut. Longino attended McMurry College, Abilene, Texas, three years, and has been in the service two years.

Lt. Longino is the son of Rev. and Mrs. H. A. Longino of McLean, former residents of Munday where Rev. Longino served as pastor of the Methodist church. Ted was employed at the Baker-McCarty store here when he entered the service.

Mr. and Mrs. W. A. Jungman and Mrs. Joe Blaschke visited their sons, Joe Jungman and Kenneth Blaschke, who are stationed at Camp Hood, Texas, over the week end.

## Munday Boy Has Part In Capture Of German Troops at Anzio Beachhead

A recent Associated Press dispatch from the Anzio beachhead in Italy, tells of the part a Munday boy is playing on that battlefield. He is Capt. Paul Stanley, whose mother recently moved here from Abilene, and who is a grandson of J. B. Scott of Munday.

Capt. Martin F. Herz of New York City was delivering the first battlefield voicecast to the enemy ever attempted in the Italian campaign, and his voice would go out over loudspeakers, between punctuations of screaming shells, with the ultimatum, "Surrender or Die!"

Capt. Stanley, according to the dispatch, posted some of his doughboys at the entrance of a mine-

### POSTAGE RATES ON AIR MAIL LETTERS

Employees of the local post office are again calling attention to local patrons of the change in air mail rates.

The new rates are six cents per half-ounce to men in the service overseas, and local authorities pointed out that air mail letters outside the United States cannot be sent "postage due." If there is any doubt about the amount of postage, have letters weighed before mailing them.

The new airmail rate in the United States is 8 cents per ounce.

## WAR BONDS in Action

Signal Corps Photo  
U. S. Task force men at Rendova have learned to "come and get it" under any and all conditions. They have learned about concentrated rations, dehydrated vegetables, and they dream of steaks—but they fight on.  
They buy War Bonds, do you? Buy more and hold 'em!  
U. S. Treasury Department

## Goree Cemetery Association To Be Organized

Monday night, May 1st, a meeting was held in the Goree high school gymnasium to discuss the organization of the Goree Cemetery Association. The purpose of this meeting was to discuss the purchase of a mower to improve the appearance of the cemetery.

J. W. Lanningham was appointed chairman, and the following committees were appointed:

Purchasing committee: H. D. Arnold and Homer Moore; Finance Committee: Mrs. W. O. Barnett, Mrs. Jim Goode and Mrs. Jack Moore.

Fourteen representatives were present and suggestion for pledges was made. Eighty dollars was raised.

Anyone wishing to make a pledge will please refer to any member of the finance committee. Plans for the purchase of the mower are now under way; and as soon as word is received, another meeting will be called.

### IS TRANSFERRED

T-Cpl. Randall T. Stogner has been visiting his parents, Mr. and Mrs. T. A. Stogner of Knox City. He is stationed at Camp Tackett, Calif., near San Diego, but reported back to duty at Fort Reno, Okla.

## Cathedral Mountain Near Alpine

Admiring the setting of Zane Grey's Lone Star Ranger are Miss Marion Blanton, of Alice, Texas, junior student at Sul Ross College, Alpine, and Air Cadet James B. Christensen of Salt Lake City. Cathedral Mountain in the background has long been a landmark for the pioneers of the Big Bend country. For years it has been a favorite picnic spot for summer students at Sul Ross. Now, with an advanced flying school located between Alpine and Marfa, it has taken on new significance. It is the chief aerial landmark of the cadet and his instructor. The peak is 15 miles from the field as well as from Alpine and rises two thousand feet above the surrounding country to an altitude of seven thousand. The cedar log fence is a part of the old corral of Haley's or Brown's ranch. (Photo by Glenn Burgess, Alpine.)

## Local Fishermen On Annual Trip To San Saba River

Out where the San Saba river heads, in Schleicher county, lives a well known ranchman, Tom Tolbot, who for 20 years or more has seen Munday people come to his fishing place along about May 1st.

The boys generally spend about a week there, fishing and camping out, and spinning yarns with this ranchman who has become a very close friend to them during all these years. Some of them were on hand to greet Tom last Monday at the opening of the fishing season, but the number was fewer than in many years. Several found labor shortages and pressing affairs at home keeping them away from their favorite fishing spot.

Those who left Sunday on the annual fishing trip are W. H. Atkinson, M. F. Billingsley, Henry Atkinson of Haskell, J. L. Stodghill, and Jess Gardley, colored cook. They were joined there by D. T. Mauldin and his son-in-law.

Dick Atkinson, Leland Hannah, John C. Spann and others of the boys usually making the trek are anxiously awaiting the fishermen's return to get their favorite fish stories.

Dick Atkinson and Leland Hannah "couldn't" take it. They left Wednesday afternoon for the San Saba to get in a couple of days fishing before returning to their business duties for Saturday's business.

Miss Maryon Buskinson visited with relatives in Wichita Falls last Sunday.

## Keep Up With Rationing

### RATION REMINDER

MEATS, FATS—Red stamp A8 through Q8, good indefinitely.  
PROCESSED FOODS—Blue stamps A8 through Q8, good indefinitely.

GASOLINE—In 17 East Coast states, A-9 coupon, good through May 8. A-10 coupon becomes good May 9 and remains good through August 8. In states outside the East Coast area, A-11 coupon, good through June 21.

INCOME TAX—Declaration of estimated 1944 tax and first quarterly payments are due by April 15.

SUGAR—Sugar stamp 30 and 31, each good for five pounds indefinitely. Sugar stamp 40, good for five pounds of canning sugar through February, next year.

FUEL OIL—Periods 4 and 5 coupons, good through August 31.

SHOES—Airplane stamps 1 and 2 good indefinitely.

TIRE INSPECTION—Regular inspections not required after April 30.

## Beneficial Rains Fall Over Knox County

### Hefner School Is First To Close

Hefner became the first Knox county school to close its 1943-44 term, when classes were closed down for the term last week.

County Supt. Merick McGaughey announced that closing exercises were held last Thursday night, at which time eight members of the eighth grade class received their grammar school diplomas.

### Junior-Senior Banquet Is Held Friday Night

Last Friday night the Junior-Senior banquet was held in the Grammar school auditorium. The room was beautifully decorated and arranged to represent the Rainbow Club. On the east and west walls were huge rainbows. Large baskets of amaryllis and iris decorated the rostrum and a beautiful bowl of carnations lent for the occasion by Grandmother Huskinson graced the piano.

The guests entered the banquet room through an archway in the rainbow latticed south wall and were shown to their table by the head waiters, Lyndol Smith and Raymond Mitchell. The quartet tables were laid with rainbow tinted linens monogrammed Junior-Senior banquet. In the center of each table was a crystal bowl of mints in rainbow colors.

The program was presented as a floor show with Toby Lane as master of ceremonies.

Music for the evening was furnished by Otis Green and his orchestra from Knox City with Oleta Norman as vocalist. McCelvey Jones gave the toast to the Seniors and Bobby Haynes gave the response. The surprise hit of the evening was an exhibition dance presented by Jo Ann Rummel and Hulon Montgomery and finished off in quite the professional manner. Mr. Cunningham put everyone in good humor with his jokes and lavish compliments.

The dinner served by nine sophomore girls in white dresses and rainbow tinted aprons. The food, of course, was delicious, but everyone was so busy having a good time that food was a very insignificant item.

After the banquet was over the kids finished out the evening in various ways, each according to his own individual style.

### Coming as a great relief to farmers and Victory gardeners was the good rain which visited Knox county over the week end.

Munday received its first precipitation early Saturday morning, when 1.05 inches fell. Again on Monday the weatherman favored us with better than a half inch. Total moisture for the period was 1.64 inches, according to H. P. Hill, local weather observer.

The rainfall was lighter in some portions of the county, according to reports, with Knox City and Benjamin reporting lighter falls than at Munday.

The moisture brought relief to wheat farmers who had seen their wheat suffer from the high winds and dry weather for the past few weeks. Coming at the critical stage when wheat is making grain, this moisture is expected to practically insure a good wheat crop if conditions continue favorable.

### Annual Singing Convention To Be Held At O'Brien

E. H. Tankersley Jr., president of the Haskell County Singing Convention, announced this week that the annual singing convention will be held on Sunday, May 7, at O'Brien.

A large number of out-of-county visitors and singers are expected, and a good program of songs will be in store for all who attend. Everyone is urged to come and bring a well filled basket; enjoy the singing and the fellowship during the noon-day meal.

## Demonstration On Home Canning To Be Held Here

Giving recipes and instructions on food preservation to offset possible home-front shortages due to the war's crucial year, Miss Carra Lee Gist, Lone Star Gas Company home economist, will conduct a canning demonstration on Friday, May 19, at three p. m. at the high school, according to District Manager S. A. Mitchell. Lone Star's entirely new and complete canning booklet is just off the press and those attending the demonstration will be among the first to receive free copies, Mr. Mitchell said. The booklet contains 56 pages of canning instructions, recipes, charts and illustrations.

The canning course is open to the public, no fees will be charged, and advance registration is not required.

Miss Gist, by actual demonstration, will show the pressure cooker, open kettle and water bath methods of canning. She will can fruits and vegetables and explain the correct methods of putting up meats, preserves, jellies, jams, butters, pickles, relishes and juices. The pressure cooker method will be stressed as the most desirable for meats and non-acid vegetables, because it is the "nearest approach to the method of commercial canners." She will use recipes calling for minimum sugar and those eliminating different types of jars and how to apply them.

"Our government wants us to fill pantry shelves with home-canned goods," Miss Gist said. "During this crucial year of the war, we must make every ounce of food count for victory. It has been estimated that two out of every ten acres of food produced are wasted somewhere down the line from harvesting to eating in the home. This is a tragic waste of vital war materials which can be minimized by canning and preserving as much fresh and perishable food as possible."

This event is being sponsored by the Munday Parent Teachers Association.

### R. E. Foshee Sells Service Station To Walter Rodgers

R. E. Foshee, who operated the Foshee Service Station, has sold his business to Walter Rodgers, who recently returned here from Fort Worth. Mr. Foshee had been in business in Munday for the past five years, and he expressed his appreciation to Knox county people for their patronage.

Mr. Rodgers solicits the continued patronage of all customers of this firm, and stated that he will endeavor to render an up-to-date service.

Mr. and Mrs. Foshee and family are making their home on their farm near Munday.

### IN MEETING HERE

Rev. and Mrs. S. H. Young of Stamford were visitors here last Sunday evening. Rev. Young, district superintendent of Methodist churches of the Stamford district, preached at the evening service at the local church and held the second quarterly conference at the close of the evening service.

## Area Farmers Study Control Of Mesquite

### Make Trip To Spur For Eradication Picture

Forty seven Knox and Haskell county farmers and ranchmen made a tour to Spur Experiment Station Friday, April 28th, according to R. O. Dunkle, county agent, to study mesquite eradication by the use of the power saw, the application of Sodium Arsenate poison as a spray, and by using a paint brush in applying the poison to the stump.

Roundtable discussion was held in the laboratory prior to making field trip. Mr. Dickson, superintendent of the station, led an interesting discussion of their past several years in poisoning mesquite. Several kinds of poisons have been used and rates of kill have been recorded for each month of the year. Contrary to the opinion of many farmers the rate of kill is about the same for each month when the stumps of the mesquite are painted with the poison, Mr. Dickson explained. The stump painting method is best if done properly.

When sodium arsenate was used as a spray on the sucker growths after the tops were cut off the application was much more effective when the day is cloudy or short time after a rain where evaporation of the poison from the leaf surface is at a very slow rate.

A visit was also made to the northwest part of the field where two ten acre blocks of land had been planted continuously in cotton for nineteen years. One block was terraced and the other block of land unterraced. The terraced piece of land during the nineteen years has produced \$105.00 more cotton during the nineteen year period. Mr. Dickson explained that the \$105.00 would buy the land twice.

Farmers and ranchmen from Knox county visiting the station were W. T. Ward, W. R. Moore, B. B. Campbell, Pitzer Baker, G. R. Eliand, J. B. Hendrix, Charlie Dowling, Homer T. Melton, Doyl Thomas, B. Hendrix, Fred Broach, Jr., Togo Moorhouse, M. D. Hardwick, W. C. Taylor and R. O. Dunkle.

## Ed Gossett To Speak On Radio Friday Night

Announcement was made Tuesday that Ed Gossett, member of Congress from the 13th district of Texas, will make a radio speech on Friday night, May 15, at 9:45, Texas time.

Mr. Gossett will speak on the subject, "Treaty Making and Winning the Peace."

Coming at this time, this is a very timely subject, and many citizens of the district will want to hear this speech and get the congressman's views on the subject.

## Precinct Conventions Slated Saturday

Precinct democratic chairman of Knox county have announced that precinct conventions will be held at each voting box in the county next Saturday. All democrats interested in the political activities of their precincts are urged to attend the respective meetings.

At these conventions delegates will be elected to the county democratic convention which will be held on the following Tuesday.

## Patsy Ruth Kirk Is Representative Of Student Council

ABILENE—Patsy Kirk, daughter of the Rev. and Mrs. Luther Kirk, has been elected sophomore class representative to the student council of religious activities at McMurry College, it was announced this week.

Miss Kirk has been very active in campus organizations this year being a member of the Chanters, Volunteer Mission Band, Student Council of Religious Activities, W. A. A. and was recently made a member of Kappa Phi, girls social club.

### "VASSAR CLASS OF 1966—THANKS TO GRANDMOTHER'S WAR BOND!"

# EDITORIAL PAGE

"What a Man Does For Himself Dies With Him—  
What He Does For His Community Lives On and On"

## "WE" MADE IT WORK

The cost of living has been virtually stabilized for nearly a year, according to the U. S. Bureau of Labor Statistics. Thus the danger of an uncontrolled price rise disrupting production in a crucial phase of the war, is apparently eliminated.

Credit for this all important, though possibly temporary victory over inflation should not go entirely to government stabilization agencies. For example, how would the people have learned to live under a maze of regulations issued thousands of miles from their homes if local newspapers and other sources of information had not voluntarily burned the midnight oil to enlighten them?

Retail merchants, too, are responsible for the success of price fixing and rationing. They have sought by every means at their command to impress upon customers the importance of supporting the government in its program to maintain stability. They have often been a step ahead of the government by instituting voluntary controls over distribution of scarce articles. And it is not surprising to find that chain stores have played a leading role in helping the retail distribution industry enforce cost-of-living regulations. Efficiency and maximum service at minimum cost are the key to their existence. Uncontrolled inflation is anathema to the operating methods of the chains. As a result, they have become the consumers' strong ally in the fight against inflation.

The best guarantee that the present victory over inflation may not be temporary, lies in the fact that it came from the combined efforts of the people and private industry.

## FIND THE BUTTON IN YOUR CELLAR

Button, button, who's got the button, might well be the theme of every inspector, whether fire, health, building or plumbing. The button in these cases is the peril or the hazard which must be found and proper corrective means applied.

Knowledge of fire causes, and especially of those conditions which permit a small fire to become serious, is very essential to good fire prevention. Without such knowledge inspections become mere routines, and a waste of good effort.

A simple report that a cellar contained rubbish or a store was selling cotton batting in the basement area, means little, but if this rubbish is beneath the stairs or the cotton batting is open on a table at the foot of the main stairway, any experienced fireman can easily visualize the inferno he must go through to reach the fire.

A study of fires, made by the fire prevention bureau of a fire department, indicated that a large percentage of serious fires, both from life and property standpoint, were those which originated in basements and cellars. An important fact brought out by the study was the inaccessibility of fires in cellars, and the need of additional entrances affording means of fighting a fire from other than an interior stairway.

Basements will remain a serious fire menace unless every precautionary measure is taken to eliminate hazards, provide proper exits, and see that water supplies are available in case of fire. In such fire prevention activity every home owner and every building owner, in conjunction with the local fire department, can render invaluable service and help prevent the loss of countless lives and millions of dollars worth of property.

## COAL MINING UP TO DATE

Most people think of coal mining as a pick and shovel operation. As a matter of fact, modern methods and devices have revolutionized coal mining. Air conditioning, mechanical loading and hauling, and the safety of battery stored electricity for power head a list of many beneficial changes.

In a modern bituminous coal mine, raw coal becomes a factory product, tailor made to meet today's numerous, strict customer requirements.

After the coal is blasted and loaded it goes by train up a slope to a rotary dump which automatically empties the cars. It then goes to the "tipple" or processing plant which is really a modern coal factory where coal is sorted, blended, and laundered. Impurities are disposed of and the clean, washed coal is oil treated to eliminate dust. Various sizes are blended to make possible delivery of any required mixture to home or industry.

From its fifty-million-year resting place to the railroad car, coal is hardly touched by hand in the modern bituminous mine. Machinery has done most of the work and taken the ancient, back-breaking toll out of mining. This is how American mines, with fewer men, have produced record-breaking quantities of coal to meet every war need.

## THE MUNDAY TIMES

Published Every Thursday at Munday

J. W. Roberts . . . . . Editor, Owner and Publisher  
Aaron Edgar . . . . . News Editor

Entered at the Postoffice in Munday, Texas, as second class mail matter, under the Act of Congress, March 2, 1879.

**SUBSCRIPTION RATES**

In first zone, per year . . . . . \$1.50

In second zone, per year . . . . . \$2.00

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party politics, publishing news fairly, impartially, and without prejudice.

**NOTICE TO THE PUBLIC:** Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

Maybe the one-track mind wouldn't be so bad if it didn't get off the track so often.

## MENACE TO UNIONS RECOGNIZED

When the United Mine Workers struck last year, not a few people thought that one of their objectives was eventual government ownership and nationalization of the coal mines. Either that was not their desire, or their experience with wartime government control of the mines has caused a change of heart, if one is to go by the comment in the United Mine Workers' Journal of January 15, which says:

"The period of governmental operation of the coal mines through which we are now passing, should be a lesson to American coal miners, as well as all American workmen, that the best interest of the American worker does not lie in government operation of industry. It has been demonstrated over and over again in every country in the world where government operation has superseded private enterprise, or through outright ownership or complete supervision, that governmental methods invariably constitute an onslaught against established shop practices and the breaking down of customs established by long years of collective bargaining."

It is fortunate for labor and our country that editors of the labor press are at last voicing the danger to liberty that faces not only the union worker, but every American citizen in every encroachment of government into the field of business activity.

## NO SURPRISE

The Solids Fuel Administration has again broadcast that bituminous coal production this year will fall 20,000,000 tons short of the 830,000,000 tons needed to keep war production at peak levels. No one should longer be surprised by such predictions from a government agency. While they are always followed by plans to ration the scarcity, the public seldom hears of plans, if any, to increase production and eliminate shortages.

In the case of coal, the mine operators have pointed out repeatedly that there need be no shortage of coal, providing strikes and further government interference with coal mining do not create one. Twenty million tons of coal sounds big, but in proportion to the capacity of the coal industry it is little more than a drop in the bucket. The mine operators have said it could be made up in a short time. However, many people wonder whether they will be permitted to make it up.

Apparently a chronic shortage of coal is being held over the nation as an excuse to keep the mines in a perpetual state of socialization, just as the bureaucratic cry of shortage has become the opening gun in the battle to socialize other industries.

## AIR TRAVEL SAFE

The commercial airlines, despite the new tremendous burden of war transportation, are still doing the same meticulous job of observing mechanical and human safety rules.

Compared with other types of accidents, the air record is almost superlative. In 1943, for instance, while the commercial airlines were building up a record of millions of miles traveled at a cost of injury or death to perhaps a couple of dozen passengers, some 33,000 persons met death within the supposed safety of their homes. They fell off stepladders, tumbled down stairs, and did the innumerable foolish things which caused death within the home. Another 23,000 met death in traffic accidents.

The air safety record is largely the achievement of the commercial air industry itself, and in view of the relatively brief period of its existence, its achievements border on the extraordinary.

It isn't the safety of air travel but the seat priorities which worry the airlines. The safety is there. The priorities are not within their control.

## CANADA WINS IN HER RACE FOR RUBBER

LIKE the United States, Canada has won in her race to manufacture synthetic rubber to meet wartime needs. A plant belonging to the people of Canada has been erected, and from oil, coal, salt, and water, this plant is capable of turning out sufficient synthetic rubber to meet all wartime requirements. Built by a Crown company, Polymer Corporation Limited, on the site of an old Indian reservation one mile from Sarnia, Ontario, at a cost of about \$48,000,000, the plant is now in production with an estimated annual output of 34,000 long tons of buna-S and 4,000 long tons of butyl rubber.

Despite the severity of the winter and spring of 1943, worst in the history of Sarnia, the 5,000 or more construction men and engineers, working to transform an experimental dream into a new, industrial miracle, clipped three and a half months from the tight deadline set for them in 1942 by anxious Government officials who feared a rubber famine.

The first tree on the 185-acre property was felled on June 10, 1942, but it was August 10, 1942, before the first sod was turned. Thirteen months and 19 days later, on September 29, 1943, by using styrene made at the plant itself and butadiene imported from the United States, commercial production of buna-S rubber was begun at half-capacity. Less than 12 weeks later, at the end of December, 1943, the second half

of the buna-S rubber plant was in operation. Just before the end of December, 1943, the butyl rubber plant was taken over by the operators, and by February, 1944, the whole vast project was virtually completed and in full-scale operation.

Top left, is shown three of thirteen spheres, 51 feet in diameter, which hold 12,000 barrels of hydrocarbons used in the making of synthetic rubber. Top right shows the weighing of bales of the finished product for shipment and below stock piles of tires for military trucks.

## Gems Of Thought

### TRUST

It is better to suffer wrong than to do it, and happier to be sometimes cheated than not to trust.—Samuel Johnson.

To be trusted is a greater compliment than to be loved.—George MacDonald.

Trust Truth, not error; and Truth will give you all that belongs to the rights of freedom.—Mary Baker Eddy.

We do not trust God, but tempt Him, when our expectations slacken our exertions.—M. Henry.

An undivided heart, which worships God alone, and trusts Him as it should, is raised above all anxiety for earthly wants.—Geikie.

The stars come nightly to the sky,  
The tidal wave comes to the sea,  
Nor time, nor space, nor deep, nor high,  
Can keep my own away from me.—John Burroughs.

THE WORLD'S Safest INVESTMENT  
**WAR BONDS**

## Agricultural And Livestock Contest Making Progress In West Texas Area

The West Texas inter-county Agricultural & Livestock contest is making marked progress in its first month of activities, said announcement today by the West Texas Chamber of Commerce, which is sponsoring the two-year production and improvement plan.

The contest was officially inaugurated in March, following a referendum vote by WTCC affiliates to put it on. Objectives are to contribute to the war effort in stimulating increased production on West Texas farms and ranches of food and feed crops, and to carry the plan into the post war in more fully developing the area's natural resources from the soil, together with soil and water conservation and utilization.

As of April 1, 43 area chambers of commerce, or agencies functioning as such, had progressed sufficiently in their contest participation to have earned certificates of award, and these were in the mail to them this week end. The certificate, a fine piece of embossing and printing, recites that the West Texas Chamber of Commerce, "speaking for the people of West Texas and with their congratulations, is privileged to bestow this Certificate of Award on the name of Chamber of Commerce, as a pioneering leader in the Inter-County Production and Improvement contest." It bears the signatures of WTCC President M. C. Ulmer and Manager D. A. Bauden.

Receiving the award token are chambers of Abilene, Albany, Anson, Amarillo, Ballinger, Big Spring, Brady, Breckenridge, Chil-

dress, Clarendon, Coleman, Colorado City, Del Rio, Electra, Floydada, Hamlin, Haskell, Henrietta, Hereford, Iowa Park, Lamesa, Levelland, Lubbock, Memphis, Midland, Moran, Pampa, Plainview, Quanah, Roby, Rotan, San Angelo, Santa Anna, Seymour, Snyder, Spur, Stamford, Sweetwater, Tahoka, Vernon, Weatherford, Wichita Falls, Winters.

### County Planning Boards

In all counties represented by these chambers agricultural planning boards have been fully organized, or are now completing their rosters of members. The chambers of commerce are the organizing agencies. Recently completed boards as reported to the WTCC, with personnel, are those of Jones,

## Tractor Riding "Grandma" Praises War Bond League

Mrs. K. C. Henkle of Kenton, Ohio, does more than her share of war work. She and her husband run two farms at maximum production and with almost no outside help. In addition, Mrs. Henkle is chairman in her township for War Bond sales, for the Red Cross and for the combined scrap paper and grease salvage campaign. She is also a writer and has composed poems for War Bond and Red Cross programs over Stations WMRN, Marion, and WLW, Cincinnati.

Mrs. Henkle, who has an Army son, a Navy son, and an Army son-in-law, enthusiastically endorses Mrs. George C. Marshall's appeal to grandmothers to buy Bonds for

Mrs. K. C. Henkle

their grandchildren. She herself takes turns buying Bonds for her five grandchildren ranging in age from 4 months to 11 years. "Those Bonds," she says, "will help educate the children and set them up in businesses and farms ten happy years from now."

The Grandmothers League was founded by General Marshall's wife and has been widely accepted as a worthy and unselfish Bond-buying drive.

Midland, Dickens, Val Verde, Dawson, Scurry, Shackelford, Clay, Taylor, Mitchell, Gray, Howard, Fisher, Donley, Potter, Haskell, Coleman, Childress, Hardeman and Wilbarger. Boards are nearing completion in Coke, Wichita, Tom Green and Runnels counties.

In the contest Rules and Regulations, county planning boards were asked, as their first job in the two-year plan, to make a survey under Section 2, the production phase, and lay out a crop plan for 1944 and following years. To date, surveys have been completed and reported by boards of Jones, Mitchell, Taylor, Howard, Clay, Scurry, Dickens, Dawson, Fisher and Wilbarger counties.

Directing the contest are two WTCC commissions: the Postwar Planning, C. W. Meadows, Sr., of San Angelo chairman, and the Agriculture & Livestock headed by Winfield Holbrook of Plainview.

## Fixing Up the Farm

Let Wheels Save Work  
IN THE fast moving pace of things today it seems that everything is on wheels. Many people are even living in houses built on wheels.

The farmer can save himself a lot of hard work by putting wheels on various chores. For instance, why lug silage in a tub when you can make one trip with a cart, easier and quicker? Backaches from shoveling the silage can be eliminated too—build the cart so it can be rolled under the chute to be filled. And instead of making separate trips to cows with grain and supplement, just mix the feed in the cart and do the whole job in one round trip. Many a mile of walking each year can be eliminated in this simple way.

Almost every farm has some spare wheels around that have been taken off worn out equipment. Using these and a little lumber and asbestos cement board, an excellent cart can be built which will give many years of service.

The body is built of rough, scrap lumber; then lined with asbestos board to provide a smooth, tight inner surface which will prevent leakage and can be cleaned easily, while also having the advantage of being impervious to rot and rodents.

GEORGE MOFFETT  
ED GOSSETT  
(Re-Election)

For Commissioner, Precinct Two:

W. P. HURD

## A Lot for a Penny

The decision of a lifetime... this wide-eyed little girl wants something that will last a long time, taste good, and still cost only one penny. From toddling days, through the years of maturity, human reactions change very little. Millions of the adult population also have their "noses to the window"—making mental note of the electrical conveniences they will buy when the end of the war comes. They, too, will look for durability, enjoyment, and a lot for every penny! The new improvements will have to wait—but when it comes to electricity, those three good qualities have not gone off to war and they are not rationed.

West Texas Utilities Company

# Society

## Methodist W. S. C. S. Meets Monday In Joe Roberts Home

Mrs. Joe B. Roberts and Mrs. G. M. Roden were joint hostesses to the Women's Society of Christian Service last Monday afternoon in the Roberts home, southwest of town.

This was a monthly social and business meeting. After dispensing with the business, members studied the 9th chapter of John, with each one preent entering the discussion. At the close of the business and study, the social hour was enjoyed.

Members present included Mrs. E. H. Lowe, G. W. Dingus, M. F. Billingsley, Luther Kirk, J. W. Roberts, W. A. Baker, J. A. Caughran, Chester Borden, Eula Roberts, Lee Haymes, and the hostesses.

Mrs. Fred Jackson and Mrs. Ila Bohannon of Benjamin were business visitors here last Monday.

## Mrs. G. W. Thompson Shower Honoree On Last Thursday

The home of Mr. and Mrs. E. N. Miller of Goree was the scene of a gift party honoring Mrs. G. W. Thompson, who was Miss Louise Rice before her marriage. Assisting hostesses for the occasion were members of the home making class of Goree high school, of which Mrs. Thompson is teacher.

The home was decorated with gay spring flowers throughout the rooms. The table was covered with a lace cloth, centered with a cut glass bowl of pansies, enwreathed with honeysuckle.

A variety of cakes were served with punch to the guests, with the class members assisting.

Mr. Miller received the guests as they arrived, and Miss Naomi Jean Miller presided at the bride's book.

Invited guests were Meses. Sam Hampton, L. L. Hendrix, O. G. Hendson, Ora Stalcup, H. L. Moore, H. D. Arnold, J. W. Griffin, E. N. Miller, S. E. Stevenson, W. E. Robinson, and Misses Cleo Hailey, Ruth Robinson, Margie Blankenship, Naomi Hampton, Gloria Murdock, Arlene Blasecke, Wanda Sanders, Naomi Jean Miller, Nelda Loving, Martha Ann West, Ioline Hendrix, Trudy Jane Coffman, Bernice Shahan and Verna Lee Rawlins.

Those sending gifts included Meses. Essie M. Moore, W. A. Moore, J. T. Murdock, Opal Johnson, W. M. Taylor, and Georgia Maples.

## Munday Study Club Has Last Meeting Of Year Friday

Members of the Munday Study Club held their last meeting of the year on Friday, April 28, from 3 to 5 p. m., at the club house. The president, Mrs. J. A. Wiggins, presided.

Mmes. Chan Hughes, delegate, and J. C. Harpham, alternate, gave most interesting discussions and reports from the Federation meeting which they attended recently in Fort Worth.

New officers for the coming year were introduced, and the meeting was concluded with a business session.

## ATTEND CANTATA AT HASKELL M. E. CHURCH

Rev. and Mrs. Luther Kirk and family, Mr. and Mrs. Lee Haymes and daughter, Helen; Miss Merle Dingus, Janie Sue Haynie, Mavoreen Thompson, Willard Reeves and O. H. Spann, Jr., attended a cantata at the Haskell Methodist church last Sunday evening. The cantata was given by McMurry Chanters of McMurry College, Abilene.

Mr. and Mrs. William Christian of Waco visited in the home of Mr. and Mrs. J. C. Rice over the week end.

## Left-over Chicken Baked in a Roll

Chicken Roll (with apple rings)

There's nothing like the chicken that's served on the farm. There are great heaping platefuls of it, brown, juicy, and tender. Much of this appetizing appearance and flavor can be attributed to the cooking; and while roasted chicken used to be the most popular method, broiled chicken is fast becoming its rival. Many farm homes have stoves with broilers, thanks to "bottled" or "tank" gas which gives modern gas service to suburban, small city and farm areas.

Leftover chicken often reappears in tasty dishes which are substantial and satisfying, and best of all, require no meat points. Our suggestion for today is Chicken Roll.

### Chicken Roll

- 2 cups ground leftover chicken
  - 1 small onion, ground
  - 1 teasp. salt
  - 1/4 teasp. pepper
  - 1 teasp. bottled horse-radish
  - 1/4 cup chicken gravy
  - 2 cups baking powder biscuit dough, top milk
- Combine chicken, onion, salt, pepper, horse-radish and gravy. Roll out baking powder biscuit dough, using two cups as a basis, into a rectangle about 9" x 12". Spread chicken mixture on dough and roll up, jelly-roll fashion, pinching edges together. Place on greased baking sheet, brush with top milk and bake at 450 degrees for 25 minutes or until done. Serve sliced with a cream sauce garnished with finely chopped chives. Serves 6.

### ATTEND FUNERAL OF RELATIVES IN ADA, OKLA.

Rev. Luther Kirk and daughter, Mary Tom, accompanied by Rev. Kirk's parents, Mr. and Mrs. W. P. Kirk of Littlefield, were called to Ada, Okla., last Tuesday on account of the death of Rev. Kirk's aunt.

Mrs. J. R. Kirk. They remained for the funeral services which were held Wednesday.

Miss Mary Lois Beaty and Sgt. Chas. I. Zexter of Abilene visited with Miss Beaty's parents, Mr. and Mrs. G. H. Beaty, and other relatives here over the week end.

## Goree Teacher And Lt. Thompson Are Married In Waco

Miss Louise Rice, daughter of Rev. and Mrs. John Rice, of this city, whose father has been a member of the Methodist Home board of directors for the past 10 years, and Second Lt. George W. Thompson, Jr., son of Major and Mrs. G. W. Thompson, Sr., of Gambrills, Md., were united in marriage Saturday night, April 15, in a ceremony performed by the bride's father in Harrell Memorial chapel at the Home, in Waco.

The bride's only attendant was Miss Kathleen Horn of Smithville. John S. Rice, Jr., the bride's brother, was best man to the groom.

The bride wore a black lace dress with rose background, and black patent accessories. Trimming on her hat was rose, carrying out the color in her dress. She carried white gloves and wore a corsage of pink rosebuds. For the traditional something blue, she wore a blue turquoise ring, a gift from the groom; for something borrowed she wore an heirloom cameo bracelet which came from Australia and belonged to the groom's mother. As something old, she carried a hand-made handkerchief which belonged to the groom's great-grandmother. The pearls, which were a gift of the groom, she wore as "something new."

Mrs. Thompson graduated from Artesia high school, Artesia, New Mexico, received her bachelor of science degree from Texas Wesleyan College, Fort Worth, where she was chosen as one of the students to be included in "Who's Who Among University and College Students." For the past year she has been teaching school in Goree.

Lieutenant Thompson is a graduate of Pottsville high school, Pennsylvania, was attending Bucknell University in Lewisburg, Pa., when he entered the service. His father is a major in the signal corps, now stationed in England. The lieutenant received his wings

and commission in the Army Air Forces at Blackland Army Air Field Saturday morning, after having completed basic and primary training at Strother, Kan., and Vernon, respectively. Mrs. Thompson met Lieutenant Thompson in Vernon while she was visiting a college friend there.

### Reception Is Held

Following the wedding, Mr. and Mrs. Hubert Johnson honored the bride and groom with a reception in the Lois Perkins home. Miss Elnore Moore served at the bride's book and senior girls at the home of which Johnson is superintendent, assisted at the punch bowl.

After a short wedding trip, Mrs. Thompson will return to finish the present term at the school where she is teaching, then will join her husband at his new station.

Reverend and Mrs. Rice and their daughter, Ruth, met the bride in Abilene, Friday, and they arrived in Waco late Friday afternoon as did Mrs. G. W. Thompson, Sr., mother of the groom, who came by

train from Baltimore, Md. Out-of-town guests at the wedding included: Edwin Bancroft and Jack Turner, of Houston, who are in the navy medical school there with the bride's brother; Miss Faye Wigley of Birmingham, Ala., and Mr. and Mrs. Tom Elrod, of Odessa.—Odessa paper.

### VISITS IN KANSAS

Mrs. C. H. Giddings left Wednesday for Herrington, Kans., where she is visiting with Mr. Giddings' brother and wife, Mr. and Mrs. H. F. Giddings. She was accompanied by her niece, who visited here over the week end enroute from New Orleans, La., to her home at Herrington.

### RECOVERING FROM TYPHUS

George Steinbach is reported slowly recovering from typhus fever, which had him confined to his bed for two weeks. He hopes soon to be seeing his friends as usual.

## ACIDOX-GERMOZONE Treatment For COCCIDIOSIS

Both Acidox and Germozone are easy to use and can be used in any kind of a drinking fountain. Just add one tablespoonful of Acidox to each gallon of drinking water every other day. On days when Acidox is not used, add one tablespoonful of Germozone to each gallon of drinking water. Continue this treatment for two weeks. This gives the birds seven days of treatment with each medicine.

# At The Churches

**PRESBYTERIAN CHURCH**  
Dr. William N. Shell of Haskell preaches here each Sunday morning at 9:30 a. m.

Our church is located on the Main street of Munday and has an attractive auditorium with added Sunday school facilities. The Auxiliary meets on Mondays and is accomplishing a good work.

**FOUR SQUARE CHURCH**  
You are cordially invited to the Four Square Church of Munday, Texas, located at the east end of Main street, first building on the right across railroad track. Our revival is now under way, the Davenport evangelists being the speakers.

Friday night beginning at 8:15 o'clock, Rev. Mrs. Davenport is bringing a special service, the subject being "My Conversion from Mormonism." Everybody is welcome.

Regular services Saturday night at 8:15; Sunday school, 10:30 Sunday; Sunday night service, 8:15, and Thursday night at 8:15.

**FIRST BAPTIST CHURCH**  
We are making plans for our annual Vacation Bible school. Plans and time are both incomplete, but we are hoping to begin sometime early in June. Further announcements will be made later, when the arrangements are complete.

We would like to urge you to be in the services next Sunday.  
W. H. Albertson.

Fifty-five million dollars worth of Texas farm products were sold by the farmers during February, or 9 per cent more than in February, 1943, the University of Texas Bureau of Business Research reports.

**BENJAMIN METHODIST CHURCH**  
J. P. Patterson, Pastor  
CALENDAR

Preaching Second and Fourth Sundays at 11:00 a. m.  
Church school 10:00 a. m. each Sunday.

## HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

Mrs. R. L. Lambeth and Mrs. Elisha J. Jones attended the district meeting of 17 counties at Haskell last week, representing the Hefner women's home demonstration club, Baylor county called for the meeting at Seymour in April, 1943.

We've had an abundance of rain here since the sandstorms of the past few weeks. The sand piled up in some places like old times of years ago.

Hefner school closed a successful session on April 28, with the graduation of 9 grammar school students. A school play was given on Thursday night, April 27, by the pupils. It was attended by a large crowd.

Clyde and Lloyd Hendrix were called to Lubbock recently, where they spent a few days attending the bedside of their sister, Mrs. Mac Haymes, who underwent a major operation at a Lubbock hospital. The operation was successful, and Mrs. Haymes is reported doing nicely.

Krick Steward, who is in the navy and has been serving in the Pacific area, was here for a few days visit with old friends.

Oris Lambeth left for induction

# AMERICAN HEROES

BY LEFF

Two New York boys, one from the lower East Side, one from the Bronx, have been awarded the Soldier's Medal for saving eight crew members of a burning bomber at Port Moresby, Papua. Disregarding the dangers of exploding bombs, ammunition, and gasoline, Cpl. Anthony J. Lobritto, Manhattan, and Pfc. Irving Leishaber, the Bronx, rushed to the crashed bomber. It's up to us to buy War Bonds and hold them.

into the army a few days ago.

E. E. Trimble of Post and Gay Trimble of San Diego, Calif., were here visiting relatives and friends over the week end.

Terrill Boggs has returned from Lovington, New Mex., to visit his brother, Hugh Boggs.

## Small Profit Seen In Eggs At Present Price

There's still a small profit in producing eggs at present prices, says E. O. Dunkle, county agent. Efficient operation is the key to profit. He believes that a small flock of high producing hens will bring a higher return to a poultryman than a larger flock of irregular layers. This is a direct attack upon the feed problem. A high layer eats no more of the current, expensive feed than one which does not earn her keep.

"The two best things I can recommend now," R. O. Dunkle says "are to inspect the flock daily and cull out non-layers, and replace them with chicks from hens which have been bred for high egg production."

Many hens are not in production now. Generally, they are identified by bright yellow shanks and yellow beaks, and some are showing signs of sickness, he explains. Others are crippled or paralyzed, while a large number have grey eyes which is a form of leucosis, or range paralysis. All such birds are feed wasters and a source of disease infection for the other birds of the flock. Much feed, time, labor and money can be saved if these specimens are removed now.

Nearly all birds so affected are not laying and probably have a re-

productive disorder or an internal form of range paralysis. Birds which have noticeably lost weight are affected by the same disease.

Keeping poultry houses clean and comfortable is another safeguard against disease and consequent loss of production. Wormy flocks should be given some remedy to reduce the round worms, and most birds need delousing with sodium fluoride or nicotine sulphate. Young birds to be kept for laying should be separated from cockerels between the ages of six to 12 weeks and vaccinated for fowl pox.

## LOCALS

Mr. and Mrs. J. W. Trainham of Vera were here Monday, visiting with friends and attending to business matters.

Mrs. T. A. McCarty of San Antonio is here for a visit with her daughter, Mrs. Sebern Jones, and other relatives.

Jerry Kane, who is in the air force and stationed at Fort Myers, Fla., came in last week to spend a day's furlough with his wife and little daughter and with Mrs. Kane's parents, Mr. and Mrs. P. V. Williams. This is Jerry's first furlough since entering the service some 14 months ago.

Ben Guinn left last Friday for Shreveport, La., where he is visiting his daughter, Mrs. W. J. Hutcherson.

Mrs. Ben Guinn returned to a Wichita Falls hospital Wednesday morning, where she is undergoing treatment for the next ten days.

The one who fails is often laughed at by the fellow who didn't have nerve enough to try.

# Dailey Bros. Circus To Show In Seymour

Dailey Bros. Three Ring Circus, Will Be the Only Big Circus Coming To This Section

This vicinity will feel the lure of the circus when Dailey Bros. Three Ring Circus exhibits in City Park, Seymour, Saturday, May 6.

This will be the first time in many years that a railroad circus has visited this section and since the Dailey Circus is an old favorite and credited with always presenting a high class performance both afternoon and night performances will doubtless be well attended.

Instead of starting the afternoon show at 2 o'clock the afternoon performance will start promptly at three o'clock, the night show at 8 o'clock.

During the two hour performance of the Dailey Circus, the circus fans will be amazed by many absolutely new novelties and sensations. A base ball game by the herd of elephants directed by the world's youngest trainer, little Norma Davenport, 13 years of age; the huge elephant maintaining its balance on a mammoth barrel as it rolls it across the 40 foot ring will be a thriller; the aerial ballet by the group of pretty trapeze artists will be a pleasing number; the display of Palomino Horses in intricate drills and marches directed by their trainer Hazel King. All these thrillers will be amazing.

Plenty of clean comedy by a company of clever clowns, lively music by the circus concert band and a concert by the largest steam calliope in the world will be a fitting finale to a two hour program of circus acts offered by Dailey Bros. Circus.

## Weather Report

Weather report for the period of April 27th to May 3rd, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature		LOW		HIGH	
	1944	1943	1944	1943	1944	1943
April 27	46	65	70	87		
April 28	47	59	77	86		
April 29	52	58	73	90		
April 30	58	58	79	89		
May 1st	59	59	71	90		
May 2nd	55	58	84	96		
May 3rd	45	56	79	93		

Rainfall this week 1.64 inches; rainfall this year 7.52 inches; rainfall to this date last year 4.07 inches; rainfall since Nov. 1, 1943, 11.75 inches.

## IT PAYS TO ADVERTISE

Take Your Pick.

Many varieties of cotton thread, proved superior suture material in recently concluded experiments, can be used in closing wounds and incisions. Pretty Josie Ervin of Chaffee, Missouri, senior student in the Red Cross Nurses Reserve, holds in her left hand samples similar to the more commonly used ordinary sewing or quilting thread. In her right hand she exhibits an ampoule of cotton suture material as it is prepared by surgical supply companies. Other samples, including ordinary black thread which has been used successfully where different colors were advisable, are displayed on the table. This photo was taken in an operating room of the Baptist Memorial Hospital at Memphis, where Miss Ervin graduates this month.

I GIVE YOU TEXAS by BOYCE HOUSE

Old joke contest:  
A heavy drinker in prohibition days was warned by a friend that, if he persisted in drinking bad booze he was liable to go blind, but he replied, "Oh, well, I've seen everything, anyhow."

There are various explanations as to why the creator of Huckelberry Finn and Tom Sawyer adopted the pen name of Mark Twain but that was a familiar term in gauging the depth of a steamboat's course and the famous author was a Mississippi river pilot. His actual name, of course, was Samuel L. Clemens.

It is related that a book agent rang his door bell one day and said, "Mr. Clemens, I would like to sell you the complete works of Mark Twain."

Without a word, the author led the visitor into his library, pointed to the shelves containing all the editions of Twain's works, then opened the first volume of a set and pointed to a picture of himself and to the words under the picture—"Mark Twain (Samuel L. Clemens.)"

History does not record what, if

anything, the book agent said.

May 28 marks the 21st birthday of the Santa Rita well on the University of Texas lands. As a result of that well in the wilderness, the University has received \$45,000,000 in oil revenue and the shacks have long since disappeared from the campus, replaced by the tower and other magnificent buildings, thus transforming that institution into the realization of the dream of the founders of Texas, "a university of the first class." Tens of thousands of students already have benefitted, as will countless others through all succeeding generations.

West Texas was considered a "graveyard" for oil hopes. Then the Santa Rita well blew in, not only producing miraculous benefits for the University but saving a railroad, opening up a vast region to oil development, building thriving towns and paying millions of dollars in taxes.

This is one more of the vast contributions that the Texas oil industry, under a system of free enterprise, has made to the welfare of our State.

## SCHOOL MONEY IS RECEIVED LAST WEEK

County Supt. Merick McGaughey announced Monday that another payment of \$1 per capita in school money was received by the county schools last week.

This makes a total of \$21 of the \$25 apportionment on each scholastic which is due from the state. The money has been apportioned to the various schools of the county.

Miss Louise Brown spent the week end in Abilene, visiting with relatives.

**Fundamentals of Charm**  
 There are certain simple outward things which are essential to charm. These almost anyone can have. They are, for example: good carriage; poise and grace of figure; a cultivated voice; ease in mingling with people; tact in dealing with people; cheerfulness, graciousness, interest, sympathy.

Good health is one of the prime requisites of a charming personality. No woman can be charming who is low in vitality, depressed in body and mind. But no woman (or man, for that matter!) is likely to be moody or given to fits of depression who is filled with radiant good health.

Then there is the charm of physical appeal which depends so much on personal grooming. Cleanliness is one of the most important factors in charm, yet it is a point most writers on the subject overlook—perhaps because it is so obvious. Ask almost anyone, man or woman, what is the most essential factor in personal attractiveness—and more likely than not you will be told that it is freshness. That means looking well tubbed and well-brushed—never in need of a manicure or shampoo. It means wearing crisp, clean clothes—and being sweet of breath, clean of skin. "It means," says one writer, "looking like the kind of girl who you know at first glance would never carry a dirty powder puff."

Highly polished nails, nails that are too much colored or too much varnished, are not considered the best of taste. It goes without saying, of course, that man's nails should never be polished, but they should be well-shaped and immaculate.

While good health, beautiful carriage, poise, good cheer, and an air of absolute freshness are the fundamentals of personal charm—one wants also to stand out as an

individual, to be a person others enjoy knowing and a personality others find pleasant to remember. To achieve this one must, first of all, be oneself.

Senior News

The Seniors never were so enthralled as last Friday night at the lovely Junior-Senior banquet. Everyone had such a wonderful time and so much fun that they were just radiant. Juniors, you and your sponsors did a splendid job. The invitations came last Friday to add to everyone's enjoyment. The majority of the class received their invitations Monday and everyone was busy exchanging cards. They all wrote little notes on the backs of them which will bring back pleasant memories in the years to come.

Most of the Seniors are ready for the trip and will leave Thursday at noon for Medicine Park, Okla. They are all expecting a grand time and are just hoping it doesn't rain like everything.

Senior Life

One of the flowers of the class was born December 21, 1926 at Arapuz, Brazil, South America. This lovely flower is known to us as Lola Clem Jones and came to the United States in 1927. The remaining years she has lived around Munday and started to school here during her third year. In high school she has been reporter and secretary treasurer of her class, member of the band for four years, and taken part in Chorus and the Homemaking Club.

Lola is a quiet, lovable person and is well liked by everyone. She has much school spirit and has taken an active part in everything. About the only favorites she has are the color—pink and she loves to drive as a pastime. (And of course, there is Bobby.)

After graduating she plans to enter college but hasn't made up her mind as to where. She plans to major in Home Economics and we all know she will make a wonderful success.

Senior Life

Robert H. Haynes was born June 26, 1926 at Munday and has lived here all his life. To his classmates he is known as Bobby or better still "Buckshot." Bobby has taken part in football, baseball, basketball, Victory Corp, and Senior play. Bobby has a very pleasing personality and is successful in most of the things he wishes to do—ask Clem?? He is in the Navy and will report for active duty the 22nd of this month. After the war he plans to come back to Munday but there is where his planning has stopped. However, he has the best wishes of his classmates in whatever he plans to do.

Bob's favorites are:  
 Color: Blue.  
 Pastime: Anything.  
 Sport: Football.  
 Song: "Take It Easy."  
 Star: Spencer Tracy.

## Ex Libris... By William Sharp

THE STORY OF A GREAT AMERICAN \*

AT HARVARD, YOUNG HOLMES WAS A FRIEND AND DISCIPLE OF RALPH WALDO EMERSON.

BURING HIS THIRTY YEARS ON THE U.S. SUPREME COURT BENCH, HOLMES WAS KNOWN AS "THE GREAT DISSENTER"

CAPT. HOLMES SAVED LINCOLN'S LIFE BY ORDERING HIM OFF THE BARRIERS AT FORT STEVENS IN THE MIDDLE OF ENEMY FIRE.

\* YANKEE FROM OLYMPUS JUSTICE HOLMES AND HIS FAMILY BY CATHERINE DRINKER BOWEN BOOK-OF-THE-MONTH CLUB SELECTION

At The Banquet

Who'd have thought that sophomore boys and girls could make such swanky waiters and waitresses? The girls, all decked out in their pastel aprons were efficiency personified. And the boys—Lyndol and Raymond—judging by behavior and appearance, might have come straight from the Ritz or the Waldorf Astoria.

If you ask us, Oleta's singing had some class too. Why she could find a place as vocalist with any body's band if there had happened to be a scout hanging around.

And what did you think of the Rummell-Montgomery dance team? Personally, I thought it was pretty smooth. How come we haven't known all along that a first class floor show could be recruited right here in Munday high? Of course, the Otis Green orchestra from Knox City added a lot of class to the entertainment. What those boys can do with a piece of music is something.

Junior News

The great event we've lived for all year has come and gone. We have never before had such fun preparing for one thing than we had while fixing for our banquet. The last few days we worked day and night—we were actually tireless for once. Mrs. Dowell attributed it to the fact that we were getting to cut all our classes. We don't think the banquet could have been improved in any way—in other words, it was just super. Toby did his part very well, even though he did accidentally swallow a sliver of ice. The lovely singer and handsome orchestra leader had eyes only for each other. But that's the way it should be—two people in love can certainly give out with the heavenly music.

Mrs. Owens takes Mrs. Dowell's place in teaching every day after lunch. We miss Mrs. Dowell, but it is nice to have a change once in a while. Mrs. Owens is truly a good substitute; we enjoy having her.

Has anyone else noticed the great change around school? The football boys have started sprucing up much more than usual since the football sweaters arrived. Maybe the colors had something to do with it. The sweaters came in on a rainy day and certainly brightened things up. It was either that or the extravagant compliment Mr. Cunningham paid them at the banquet. They're probably just realizing that their handsome features can be complimented if they'll just take the chance of dressing up. (By the way—the girls have also improved. Haven't you noticed all the dainty little frocks and the beautiful

spring flowers?) Students, we're appreciated! Let's keep it up!

Freshman News

The freshman class is planning to have a weiner roast next Friday, May 5th. We plan to leave around 3 o'clock, and get back by 10 o'clock. There has been lots of discussion about where we will go, but our destination is yet unknown. Everyone hopes to have a good time.

School is nearing the end of another term which means failure for some but success for more. Those who succeed will go ahead and make good both in school and life in the years to come. Those who fail will be given another chance to right their wrongs. Excuse me, fellow students, for looking on the darker side of school life, but don't you think that we should look at that side often enough to help us be one of those persons who succeed?

are glad and some sad because Tuesday we found out whether we were going to graduate or not. The valedictorian this year is Florence Mitchell, who has an average of 93. Donald Waheed has an average of 92 which makes him the salutatorian.

Every afternoon at 3:15 we go over to Grammar school to practice our class song, and very soon now we will start practicing our graduation exercises. Most of the pupils in our class passed, though a few are still uncertain.

Sixth News

We have elected new officers. They are:

President—Sarah Reed.  
 Vice President—Charles Morrow.  
 Secretary—Burna D. Suggs.  
 Monday the pupils of the sixth grade gave Mrs. Carl a fruit shower. She enjoyed it very much.

A few of our pupils were absent because of the rain but most of them are back again.

Fifth Grade News

Our boys and girls are excited over Boy Scouts and Brownies organizations. We plan to attend.

Our mailbox has caused a big interest in letter-writing. We have deliveries twice a day.

Just three more weeks—we all have spring fever and can hardly wait. We had several absences May 1st.—fishermen.

Third Grade News

We are very sorry that Jo Ann Harrell's dog has been found dead under their house. She leaves a family of five puppies and Jo Ann to grieve over her death.

Since it is spring we have plenty of flowers. David Elland went fishing Monday. He reports rainy weather and no fish.

We are learning the months of the year in Spanish.

8 B News

The eighth grade are very anxious for Tuesday to come because they are going to start practicing on the graduation song and also find out whether or not they pass.

Mr. and Mrs. G. R. Elland met Dr. and Mrs. James N. Walker of Dallas in Olney last Sunday, and their little grandson, David Neal Walker, accompanied his parents home after three weeks visit here with his grandparents.

Mr. and Mrs. D. R. Sullivan and baby son of Vera were visitors here last Saturday.

Mr. and Mrs. Barton Carl visited with relatives in Baird last Sunday.

### ALUMINUM IS NOW "UNCRITICAL": NEW ROLES SEEN

With production of more than 2,100,000,000 pounds a year exceeding armament demands, aluminum is no longer a "critical" metal and the WPB has eased its restrictions, giving industry an inventive field day.

Visualizing a start on civilian products, industrial engineers and scientists are already at work and have hit upon such bits of knowledge as the fact that aluminum doesn't have to be silver colored but can assume all the colors of the rainbow when coated by an electrolytic process.

As for plastics, they aren't worrying the aluminum people who take them right in their stride and announce the plastics which in conjunction with aluminum will often do a better job than either can do alone.

Tom Wood of San Antonio spent several days here last week, visiting with Dr. and Mrs. D. C. Elland.

Mr. and Mrs. Deaton Moorhouse of Seymour were business visitors here last Friday.

Mrs. Tom Martin spent last week end in Fort Worth, visiting with her daughter, Gene Martin, who is employed there.

J. C. Campbell and daughter, Miss Dolores, visited their daughter and sister, Miss Dorothy Campbell, in Abilene last Sunday.

Mr. and Mrs. O. K. Davis of Laredo, Texas, spent the week end here, visiting in the home of Mr. and Mrs. Chester Bowden, and with other relatives.

Miss Maxie Dingus of Fort Worth visited with her parents, Mr. and Mrs. G. W. Dingus, over the week end.

Mr. and Mrs. Arthur Smith Jr., who have been with Mr. and Mrs. Hal Fairman at Knickerbocker, Texas, for several weeks, returned home last week. Arthur expects to enter the service in the near future.

## TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

### Some Vegetables Now Point-Free

Tomatoes, corn, asparagus, beets, leafy greens, spinach, blackeye peas, and garbanzo beans have been added to the point-free list of processed foods through June 30, the Office of Price Administration has announced. Points have been reduced on spaghetti sauce; soups, grape and tomato jams and preserves; apple, grape, mint and plum jellies; bakers' jellies and fruit butters. Points have been increased on cranberries and cranberry sauce; tomato juice in large containers; canned or bottled dry varieties of beans (excluding soy, blackeye and garbanzos); tomato catsup and chili sauce; raspberry and strawberry jams and preserves. Reductions were made to move out last year's stocks before new supplies are available in great volume.

### Butter Point Value Reduced

The ration point value of creamery butter has been reduced from 16 to 12 red points a pound, the OPA has announced. Margarine has been lowered from six to 2 points per pound. The new values are effective through June 3, 1944. This reduction was made possible by seasonally increased production.

### Lumber Industry Needs Men

More than 60,000 men are needed for lumbering and pulpwood jobs before next fall if 1944 requirements are to be met, according to a statement from the War Manpower Commission. Efforts will be made to switch farm labor to the woods as the harvest season closes and to recruit other seasonal workers. Lumber stocks are at an all-time low and the estimated 1944 minimum requirements of 35,500,000 board feet must be met almost entirely from the 1944 output.

### Barn-Barnyard Equipment Quotas

Through the Barn and Barnyard Equipment Industry Advisory Committee, WPB has been advised that despite some shortages in the available supply, 1944 production quotas of barn and barnyard equipment will be realized.

### To Reduce Hog Prices

Ceiling prices on hogs weighing more than 240 pounds live weight will be reduced 75 cents per hundred.

### An inexpensive, practical way to PREVENT TRAGEDY

to your family financially is to invest in Southwestern Life Insurance today!

## Why Farmers Should Buy War Bonds

by Richard L. Adams  
Professor of Farm Management  
University of California

WITH net farm income now about three times that of 1938-1940, farmers and ranchers are in an outstandingly fine financial position to buy War Bonds to an extent far beyond the total good as it is—already reached.

In the first place, it's the patriotic thing to do. There's no real sacrifice in using money to "back the attack." What is a loan of one's cash compared to the sacrifices of the boys who are taking on more than a man-sized job?

Secondly, it's the wise thing to do. If history repeats itself—and I for one firmly believe it will—these present-day high net incomes can, after the war is over, go into a "tailspin" to levels far below what is deemed normal. Over the past one hundred years agricultural earnings have been at so-called normal levels for three to four years for each year of high returns. And note that these returns are net—that sum remaining after farming expenses have been paid. Thus allowance is made for higher costs—of labor, of supplies, of equipment, of taxes.

Without doubt present earnings of most farmers are the highest in the history of United States agriculture.

Today's high returns to agriculture make good reading. But with the increased earnings there is bound to be a marked rise in prices for farm properties, in speculative buying of farms, and (again if history repeats itself) in a marked increase in the real estate mortgage debt, followed by mounting foreclosures if and when payments of interest and installments on principal cannot be met.

of the following types—bucket-and-day stoves, dome-type water heaters, and service water and tank heaters. . . There was no net change in the average cost of living essentials between February 15 and March 15 because lower food prices balanced higher costs of spring clothing, household equipment, and services. . . Pot type oil burners may now be purchased by consumers without a preference rating, WPB says, but in the case of new installations, authorization for delivery of fuel oil must be obtained from PAW before purchase can be made. . . According to WFA, of an estimated 4,000,000 extra farm workers needed this year, it is expected that about 1,200,000 will be boys and girls under 18 years of age and about 800,000 will be women.

### LOCALS

Uncle Dink Allen of New Castle visited his daughter, Mrs. Sebern Jones the first of this week.

Bert Edwards of Phoenix, Ariz., came in Saturday for a visit with his sister, Mrs. G. R. Eiland, and Mr. Eiland.

Mr. and Mrs. Jerry Kane and little daughter spent the first of this week in Waco, visiting with Jerry's parents, Mr. and Mrs. J. K. Kane.

Joe Duke left last Friday for San Diego, Calif., to resume his training in the U. S. Marines after spending a furlough here with his wife and little daughter and with other relatives.

Mrs. Aaron Edgar returned home Sunday from Quannah, where she attended the bedside of her father, W. J. Bridge, for several days. Her father was reported improved and was released from the Quannah hospital on Tuesday of this week.

Each worker who is 65 or over and has been working in covered employment should get in touch with the nearest office of the Social Security Board as soon as he quits his job. If he is qualified for benefits, the Board will assist him in filing a claim.

Similarly when a worker dies, the widow or other close relatives should immediately contact the Social Security Board field office where complete assistance will be given in filing a claim for survivors' benefits. Contacts may be made by personal visit, by letter or by telephone.

Several retired workers who have delayed filing their claims have informed the Board that friends had told them they were not eligible. The best thing to do is to go to the Social Security Board office and secure correct information.

Many workers of retirement age tell us that they did not realize that they may continue to earn credits toward benefits after reaching age 65, or that they may work in covered employment, even after benefits start, without sacrificing their retirement insurance rights. The true facts are that a worker may qualify for retirement benefits at any age above 65. He merely gives up his benefit for those months in which he earns as much as \$15 in covered employment.

## Buy Pure Ice From Your . . . Home Plant!

Banner Ice is always pure, made from pure rain water into crystal clear ice—and right here at your home plant.

We are now ready to serve your ice needs in any quantity. Let us place you on our regular delivery schedule, or supply you from the dock at our plant.

Your Ice Business Always Appreciated

We have a few new model ice refrigerators in stock. See them!

## Weekly Health LETTER

Issued by Dr. Geo. W. Cox  
M. D., State Health Officer  
of Texas

AUSTIN — Seasonal advice to vacationists concerning the proper precautions to be used in water sports was released from the State Health Department today by Dr. Geo. W. Cox, State Health Officer.

It was pointed out that, in view of the wartime travel restrictions, vacation pleasures are apt to be limited to excursions and picnics at nearby lakes and ponds of unknown depth, and rivers and streams of unfamiliar currents.

The usual lifeguard supervision associated with bathing beaches and commercial swimming pools is, of course, not available in such places. "Swimming and water sports are beneficial to good health provided one's physical condition justifies this type of exercise," Dr. Cox asserted. "Nevertheless, they possess dangerous possibilities if the rules of safety, through carelessness or thoughtlessness, are disregarded."

The State Health Officer outlined the following simple rules for bathing and swimming in safety: at least one hour should elapse after a meal before entering the water; upon the first indication of fatigue, come ashore, call it a day, and don't re-enter the water; if chilled, leave the water immediately; do not enter the water when overheated; learn to float—this is important; never attempt to rock a boat in a spirit of fun; never swim in water that may be polluted. Swimming close to or even a few miles below sewage outlets is inviting the possibility of acquiring disease.

"Excursions, picnics, and swimming parties contribute much to a healthy, happy, normal life, which is especially desirable at this particular time when the whole nation is tense and under a strain," Dr. Cox said. "It is by no means advisable to eliminate these pleasures from our summer program, but it is important that they prove beneficial and not disastrous."

Pvt. and Mrs. L. B. Lee and little daughter, Nancy, of Camp Fannin, Texas, came in the latter part of last week to spend a furlough with relatives here and at Wichita Falls.

## Copper Is Mined West Of Knox City

KNOX CITY—Copper is being mined in a section to the west of Knox City by the Great Western, a mining company.

Officials of the company recently visited the mine and reported much progress was being made.

A representative of the U. S. Bureau of Mines, Robert C. Redfield, recently visited the mine and said that he was gratified at the progress being made by the company and said that the company had its operations ahead of a rigid schedule.

Mrs. Jennings Barton visited relatives in Amarillo over the week end.

J. L. Hill, Jr., of the Stamford Production Credit office in Stam-

ford, was here last Monday in conference with C. R. Elliott on matters pertaining to the local office.

Mrs. Manuel Medley of Santa Rosa, New Mexico, visited in the home of Mr. and Mrs. A. B. Warren and with other relatives here over the week end.

Mr. and Mrs. Robert Barrington of Throckmorton visited with friends here last Saturday.

Cecil Shipman of Vera was here Saturday, visiting with friends and attending to business matters.

### Fight Insects For Protection Of Bean Crop

In Victory gardens the bean tribe is a real rival of the tomato for all round value, and the crop is well worth protecting, says R. O. Dunkle.

The worst and most widespread enemy of the beans—snap beans, wax beans and limas—last season was the bean beetle. This is emphasized in the requests to the county agent's office and the Department of Agriculture for copies of the Victory Gardener's Handbook on Insects and Diseases.

Get ready for the bean beetle, the county agent advises. Wherever it gave trouble last year, it is likely to repeat—and that covers most of the garden area.

The three main controls are: First choice, dusting with rotenone dust; and, second, with cryolite, if rotenone is lacking. In a small garden considerable control may result from crushing egg masses between a thumb on top of the leaf and a forefinger underneath.

The sign of trouble-to-come is the appearance of orange colored egg masses on the lower surfaces of bean leaves. Look over the plants every few days after they are three or four inches tall, and either crush or dust. In dusting, shoot under the leaves to hit the eggs.

The WFA is encouraging wide distribution of the limited supply

### Auction Sale Has Light Day

The Munday Livestock Commission Co. reports a light run of cattle for last Tuesday's sale, due to muddy roads. All classes of cattle sold fully 25 to 75 cents per hundred higher than last week.

Canner and cutter cows sold from \$5.50 to \$7.50; butcher cows \$8 to \$9.50; fat cows, \$9.50 to \$11.50; butcher bulls, \$8.50 to \$9.50; beef bulls, \$10 to \$11; butcher yearlings, \$9 to \$12; fat yearlings, \$12.50 to \$15.50; rannier calves, \$7.50 to \$8.50; butcher calves, \$9 to \$12, and fat calves, \$12.50 to \$14.50.

Mrs. Joe Bailey King spent the first of this week in Dallas, where she attended market and purchased merchandise for the Baker-McCarty store. While in Dallas, she also visited her sister, Mrs. R. W. Hightower.

of rotenone dust for use primarily on the bean crop, where it will do the most good for individual gardeners and for the general food supply. To be prepared, have a small supply on hand soon after beans are planted. If rotenone is unobtainable, substitute cryolite. Use either dust at the first sign of orange colored egg masses. Use it conservatively. Early use is true conservation—both of dust and of beans. An ounce used promptly may do the work of a pound applied late.

### IN PORTRAIT SERIES

Photo by Wynn Richards

Mrs. Bourke E. Hickenlooper, wife of the Governor of Iowa, and her daughter, Jane, will be presented nationally in the cotton industry's portrait series when the above picture is published in the May issue of Vogue. Here in the Governor's Mansion at Des Moines, Mrs. Hickenlooper wears a two-piece dinner suit of white pique in bluebird print, and Jane wears a dress of matching material. Both dresses were designed by Maurice P. Suter, noted New York fashion authority.

### Helping Early Growth Vital To Victory Gardens

A gardener's responsibility doesn't end with preparing the soil and planting the seeds. If this work is to be rewarded with good yields he must give Nature a hand in nursing the tender plants, says Lucile King, county home demonstration agent. He should fight weeds which rob vegetables of plant food, moisture and sunlight, with frequent shallow cultivations, and prune, water and replant when necessary. Tomatoes should be watered every other day for the next 10 days. A pint to a quart around each plant will counteract retarded growth caused by high winds and dry soil. Cucumbers and English peas also respond to moisture. If the bottom leaves of the pea plants are yellow they need plenty of water to maintain production through the next few weeks. At the same time, watch for signs of mil-

dew—a powdery appearance of the leaves, which later look rusty and dying. Control it by dusting once weekly with sulphur.

Miss King suggests thinning squash and cucumbers by cutting off the smaller plants at the ground line with a sharp knife after they have begun to make vine. One plant every three feet is suitable spacing. She urges a second planting of green bush beans before the end of April and advises gardeners that it also is time for planting a second crop of lettuce. Mustard greens is another vegetable which should be planted again. Mixing some radish seed with the Tendergreen mustard saves space and hedges against too many radishes.

Warmer soil in most parts of the state points to okra planting time. And if green pepper plants aren't to be had sow the seed in the open garden. Sprinkling the soil after seeding and keeping it thoroughly moist for five or six days will get the plants up quickly.

### "Petunia" Meets Untimely Death; Mistress Grieves

Petunia is dead! Three hearts were deeply grieved Monday morning when the untimely death of Petunia was discovered at the Riley B. Harrell home.

Petunia had been residing at the Harrell home a long time—in fact, long enough for each member of the family to become closely attached to her. Riley B. and Mrs. Harrell were deeply grieved as the result of Petunia's passing, but Jo Ann, Petunia's mistress and constant companion, was absolutely heart broken—and justly so—because it will be so hard to find another pal to take her place.

Petunia, the registered black Cocker Spaniel was a gift to Jo Ann by Dr. T. P. Frizzell of Knox City and was one of her most prized possessions.

Another sad feature about Petunia's departure was the five little puppies, less than a week old, she left behind.

According to Riley B.'s version of the tragedy, Petunia was undoubtedly poisoned by some malicious person or persons for no good reason. Such a shameful, malicious perpetrator should be punished. You have the sympathy of all your neighbors and friends, Jo Ann.

Miss Theresa Jungman spent several weeks visiting with friends at Sundown, Dallas and Alvarado, Texas.

Miss Irene Moore and her roommate, Miss Joyce Rengan, of Fort Worth visited the former's mother, Mrs. John Moore, over the week end.

### activities of Colored People

Pvt. James Edward of Fort Sill, Okla., spent the week end at home with his wife and mother, Mrs. Elvora Hendric. They had Pvt. and Mrs. Buster Calvert and Mr. and Mrs. Earnest Williams for dinner Saturday evening.

Good services were held all day Sunday at West Beulah Baptist church.

Marcellus Johnson is reported doing nicely after an operation last week at the Knox county hospital.

Pvt. Jack Brook is here visiting his wife and baby. Mrs. Bearrice

Brooks is here from Fort Worth. Cap Owens is spending two weeks in Stamford with his son, Eddie Owens, 11 years of age, who has had a serious operation.

Mrs. E. H. Nelson and daughter, Miss Imogene, returned home last Friday from points in California, where they had been visiting with relatives for several weeks.
