

## Legion Plans For District Convention

### Many Delegates Are Expected From the 13th District

Lowry Post No. 44 of the American Legion is making elaborate plans for entertaining Legionnaires of the 13th District at the district convention to be held in Munday on May 4 and 5.

C. F. Johnson of Burkburnett, district commander, is expecting between 700 and 800 delegates here for the two-day meeting. At this time, delegates to the national convention will be elected and other important business transacted.

The tentative program calls for a big street dance on Saturday night, May 4; a service officer's school from 9:30 to 11 o'clock Sunday morning at the school auditorium, after which delegates will attend the eleven o'clock church services here.

Sunday, a barbecue is planned at the City Park, and at 2 p. m. Sunday the business session will be held at the school auditorium.

This is an outstanding event for Munday, as the 13th district of American Legion is composed of 22 counties and 26 Legion Posts, with a membership of over 5,000.

Two posts at Wichita Falls has some 1,200 members, and the district also includes the towns of Decatur, Denton, Bridgeport, Bowie, Graham, Olney, Vernon, Burkburnett, Electra, Chillicothe, Quannah, Crowell, Knox City, Seymour, Jacksboro, Goree, Bryson, Throckmorton, Archer City, Henrietta Iowa Park, and others.

Local committees are busy on final plans, and the outstanding problem is that of housing the many delegates who will be here overnight.

## New Speaker System Added To Roxy Theatre

P. V. Williams, owner of the Roxy Theater, has announced the installation of a new Altec Lansing's loudspeaker system at the local theater.

This new system, known as "The Voice of the Theater," is the same that is being used in Hollywood motion picture studios. Installation was completed Wednesday night.

"We invite you to thrill to the new exciting experience in sound," Mr. Williams said. "We can now bring you living, breathing stars; music in all its vibrant shades and colors, sound effects reproduced with blood-tingling realism. Every show at this theater will be an exact reproduction of the performance as it was recorded in Hollywood."

## City's Census Not Completed

Compilation of the Census of Munday had not been completed Thursday morning, according to J. Weldon Smith, president of the Junior Chamber of Commerce.

Round figures show, however, that an increase will be shown when final tabulation is made. These figures, available at the present time, indicates the city's population will be between 1,600 and 1,800.

Workers expect to complete their enumeration within the next few days.

## Goree To Have Clean-up Week

By proclamation of Mayor Lea Jameson of Goree, the week of April 29 to May 4 has been set aside as clean-up week in Goree. A thorough clean-up of the town is expected during this week.

Citizens are asked to place all rubbish in a place where it can be picked up by truck.

"We urge each and every individual citizen of Goree to earnestly cooperate in this worthy cause for a healthier and a more beautiful city," Mayor Jameson said.

## Calves Being Made Ready For '47 Calf Show

The Knox County 4-H Club boys who are feeding baby beef calves for exhibition purposes next year, were visited last Friday, April 19th to assist them in de-horning and vaccinating their calves and making them ready for the long feeding period that lies ahead.

Snow Crenshaw, of the League Ranch, Bryson Laird, Buddy Crenshaw, Glen Dunkle, Fred Lewis Crenshaw and the County Agent, R. O. Dunkle made the trip and assisted the boys in any way possible in getting their calves on feed and advising with them as to some of the better feeding methods. To date seventeen calves are being fed by eleven 4-H Club members, and all the calves are getting off to a good start. The League and McFadden Ranch of Benjamin, the Masterson Estate of Truscott, and the Morton Ranch of Quannah furnished the calves this year for these eleven 4-H Club members.

The ration now in common use is a mixture of 3 parts oats, 1 part sweet feed and 1 part yellow corn with plenty of good roughage, such as cane hay, suian, Johnson grass and alfalfa, and in addition a mineral mixture of 1 part bone meal, 1 part lime stone flour and 1 part salt. This mineral is placed in the box separate from the feed and the calf is allowed free choice at all times.

Indications are that the next year's Calf Show, which will be held at Knox City, will be equal or better in quality than any group of calves that have ever been shown in the county.

The 4-H Club boys now feeding calves are Donald Joe Jackson (2), Donald Nox (1), Randell Walling (1), Billy Cammack (2), Carrol Fred Glover (1), J. G. Pults (2), Donald Pults (2), Bryson Laird (2), Buddy Crenshaw (1), and Fred Lewis Crenshaw (2).

## Shaver Enters Race For County Commissioner

Politics in Knox City's local county precinct was given a shot in the arm Wednesday when Ed Shaver, well-known resident of his precinct for the past 31 years, announced his candidacy for the office of County Commissioner, Precinct No. 1, subject to the action of the Democratic primary in July.

While presently serving as a city commissioner for Knox City, this is Mr. Shaver's first announcement for an elective county office. He has been president of the local school board in past years, and active in all community and civic affairs.

In making his announcement, Mr. Shaver said he did so only after careful consideration of the responsibilities and duties connected with the office he seeks.

"I firmly believe that I can make the people of this precinct a good commissioner, with the best interest of the precinct and the county always at heart. Having lived here most of my life and reared my family here, I am well acquainted with what constitutes the office I am running for. I believe I have the experience and business ability to properly and impartially perform these duties," Mr. Shaver said.

At one time in the ginning business at Knox City, Mr. Shaver presently operates farming interest.

He said he would make an active campaign and attempt to see all precinct voters before the July primary.

### ENTERS HOSPITAL

W. A. Baker, well known pioneer resident of Munday, entered the Knox County Hospital the first of last week for medical treatment. According to latest reports Mr. Baker is improving rapidly.

Mrs. Carl Kilcrease and two sons of Amarillo are visiting with relatives here this week.

## Colorado Invites Vacationists

After four years of war, Colorado expects her mountains and forests to teem with vacationists this summer. The above scene, selected from Colorado's many wonderful vacation spots, illustrates that there is plenty of room for vacationing in the vast Rocky Mountain playground.

## Junior Chamber of Commerce To Sponsor Pig Show Here On May 4th

The Junior Chamber of Commerce at Munday, Texas, will sponsor a hog show on Saturday, May 4, as a part of the Hog Improvement Program that is being carried on here. The Future Farmers will show their Duroc and Hampshire Hog Projects on the public square in Munday from 10 a. m. until 4 p. m. Saturday, May 4. They will show two registered boars and thirteen registered sows and litters, all well bred hogs with some of the best blood lines in Texas, represented by such names as Broadmaster, Ace High, Top Row, Superba, Tech's Chief, Wavemaster, Good News, Backers Special, and Steam Roller Renown appearing frequently in the pedigrees.

Appointment of J. J. Crim, Jr. as industrial engineer serving Lone Star Gas Company's Seymour district of distribution, which includes Munday, has been announced by M. L. Bird of Abilene, division superintendent. Mr. Crim will be available for consultation on the use of gas in commercial and industrial plants and will counsel with builders on installation of gas air conditioning and large heating units, Mr. Bird said.

Mr. Crim's territory will include Benjamin, Gilliland, Goree, Knox City, Munday, O'Brien, Red Springs, Rhineland Rochester, Seymour, Truscott, Vera, and Weinert and towns in Lone Star's Wichita Falls, Electra and Vernon districts. His headquarters will be in Wichita Falls.

Mr. Crim joined Lone Star Gas Company's industrial engineering department in Abilene in September, 1941, shortly after receiving a B. S. degree in geology from Southern Methodist University. He enlisted in the Navy in 1942 and saw action as a lieutenant in command of ships that transported troops and supplies to the Solomon Islands, Enogi, Iwo Jima and Okinawa.

He resumed work with Lone Star last November and was stationed at Abilene until April 16 when his new assignment was effective. Mrs. Crim is the former Miss Ruth Evelyn Foote of Abilene.

### GOES TO HOSPITAL

C. E. Hobert, well known local resident, was taken to the Knox County hospital for medical treatment last Thursday. According to latest reports, he is showing some improvement.

## Crim Named Gas Engineer For This Area

Appointment of J. J. Crim, Jr. as industrial engineer serving Lone Star Gas Company's Seymour district of distribution, which includes Munday, has been announced by M. L. Bird of Abilene, division superintendent. Mr. Crim will be available for consultation on the use of gas in commercial and industrial plants and will counsel with builders on installation of gas air conditioning and large heating units, Mr. Bird said.

## George Moffett To Seek Re-election To Senate Post

Authorization was made Thursday morning to place the name of George Moffett of Chillicothe, veteran Texas legislator, in our political announcements column for re-election to the Texas Senate from this district.

Moffett, who has become known as "Cotton" Moffett because of his work in the Texas Legislature for the achievement of the state's cotton program, has done his district a valuable service in the Senate.

His formal statement will be published later in the campaign.

Mr. and Mrs. A. D. Hord of Truscott were business visitors here last Monday.

## City's Park Will Soon Be Re-opened For The Public

### Faye Ryder Is High Scorer In State Contest

Faye Ryder, Gilliland 4-H Club member, Knox County, scores high in state contest for scholarship award by judges from College Station.

The outstanding feature of Faye Ryder 4-H Club work was her activity in paper hanging, kitchen improvements, sewing and carpentry. Faye and her twin sister, Edith, shingled the house, built new screen frames for all the windows and did an average of 10 hours field work per day for a period of 70 days last summer.

The Judges Lorene Stevens, 4-H Club specialist, Alice Wheatley, Assistant 4-H Club Specialist, and Mrs. Eloise T. Johnson, Specialist in Family Life Education, were considerably surprised with the skill and proficiency which Faye had shown in her ability to do outside work. She also is a good mechanic when it comes to working on the tractor and the family car. She knows the function of every part, and can pretty well locate and repair any kind of tractor trouble.

Miss Ruth Thompson, District Home Agent and Mrs. O. L. Patterson, representative of the Knox County Home Demonstration Club, were also visitors to the Faye Ryder home, and assisted the judges in displaying and exhibiting different phases of Faye's 4-H Club activities.

The judges also stated that it was very unusual to find a 4-H club girl with so many abilities and talent and for this reason it is expected that Faye will score very high in the State Scholarship Contest.

### DICKERSON OPENS ELECTRIC REPAIR SHOP

Doris Dickerson has completed construction of his building, adjoining the Panhandle Service Station, and announced Wednesday that he has opened an electric repair shop. Dickerson will repair all types of electric items, and specialized in the repair of generators, magnetos and starters. A nice stock of repair parts are on hand, and Dickerson invites the citizens to call on him when in need of electrical repair work.

### BACK FROM OKINAWA

Calvin Call, who served several months in the Pacific area, landed at Seattle, Wash., on Thursday of last week. He called his parents, Mr. and Mrs. C. A. Call, that he would be home in about ten days. Call's last post of duty was on Okinawa.

### HOME FROM HOSPITAL

Tom Phillips, who has been undergoing treatment in the Wichita Falls clinic hospital for a broken limb, returned to his home last Monday. An ambulance from the Mahan Funeral Home, went after him.

## Munday To Assume Better Appearance After This Week, As Clean-up Ends

Clean-up week is officially under way, and members of the sponsoring organization, the Munday Junior Chamber of Commerce are anxious that every individual citizen do his part in making the clean-up drive a success.

Munday can take on a much better appearance if everyone will do this. Unightly places, breeding places for mosquitoes and flies, will disappear, and the city's trucks will be kept busy for several days hauling off trash that has accumulated in alleys and vacant lots over a period of years.

This is a job for everyone, it was pointed out, and your cooperation is urgently requested.

City trucks will begin a schedule of pick-ups the latter part of this week. They will follow a given schedule, working in certain sections of the city until the work is completed before taking on another section.

Citizens are urged to have tin

### State Candidate

Captain Price Daniel of Liberty, Texas, aggressive young speaker of the Texas House of Representatives in 1943, will be a candidate for Attorney General in the coming Democratic primary, according to Fagan Dickson, former assistant attorney general under Gerald Mann and Grover Sellers, who made the announcement this week following a series of conferences in Austin.

Friends of Captain Daniel in all sections of the State are combining their signatures to file his name on the ballot prior to his release from the Army on May 1st, Dickson said.

### Cub Scout Meeting Slated For Friday

An interesting and important meeting of the Cub Scouts of Munday will be held on Friday night, beginning at 7:30 o'clock, Mrs. D. C. Eiland, den mother, has announced.

An interesting program on "Heroes in Stories" will be given at this time. A cordial invitation is extended to everyone interested in Cub Scout work. Visitors are always welcome to the meetings.

### Farmers Union Gin Names Directors

At a meeting last Saturday afternoon, all old directors of the Farmers Union Gin of Munday were re-elected. This speaks well for the service being rendered by these directors.

The five who were re-elected for another year are: C. N. Smith, R. C. Partridge, Moody Johnson, F. A. Warren, and Wallace Reid.

### PINEAPPLE SOON TO BECOME AVAILABLE

The marketing chairman of the Knox County Council announces that anyone wishing to purchase pineapple through the council should contact your club president or marketing chairman.

The pineapple will cost 40 cents for each five pounds. Your order must be at Benjamin not later than May 3.

### To Be Maintained As Recreation Center

A move to re-open the Munday Municipal Park as a recreational center for all of Munday's citizens was made on Thursday, April 18, at a called meeting of the city council. Present at the meeting were Mayor W. R. Moore, and Aldermen Alex Jones, Travis Lee, and Don L. Radliff.

The motion to re-open the park was made by Travis Lee and seconded by Alex Jones. It was also voted that the city spent not to exceed \$350.00 to put the golf course in playable condition, and in return the golf club will pay in to the city \$60.00 per month. This monthly payment, which is raised by a fee charge for golf members, will entitle them to all privileges of the park and club house.

A motion was made by Travis Lee and seconded by Don L. Radliff, and carried, that the city hire J. A. Driggers as caretaker of the park at a salary of \$65.00 per month and furnish him with house, water and lights.

It is the purpose of the council to clean up the picnic grounds, play grounds, and tennis courts and to place additional playground equipment there for use of those enjoying the park.

Members of the council hope that the entire citizenship will use this recreational center, as it is being maintained for the entire town. No person will be restricted, and it will furnish much pleasure for young and old alike if they will avail themselves of the park's facilities.

"There are absolutely no restrictions whatever," council members said, "except that a nominal fee will be set by the park board for exclusive use of the club house, and green fees will be charged non-club members who use the golf course."

Reservations for use of the club house will be made as far in advance as possible, so no conflicts will exist. Any citizen, or group of citizens, may have use of the club house by paying the nominal fee, unless reservations have been made by others for the date requested.

It will be the policy of the park board that all facilities of the picnic grounds and use of other park equipment be enjoyed by the entire citizenship, as no one will be denied any of the park facilities.

## New DeSoto Car Goes On Display

Valentine Cook manager of the Munday Auto Co., announced Tuesday that the new DeSoto car will be on display at the local firm next Saturday. The Munday Auto Co. is located in the E. H. Bauman building.

Mr. Cook invites the public to come in and see this beautiful new car, note the added features and improvements in the new model. This is the first showing of the DeSoto in this immediate vicinity.

## Auction Sale Has Good Cattle Run

The Munday Livestock Commission Co. reports a good run of cattle and hogs for last Tuesday's auction sale. All classes of cattle sold fully steady.

Canner and cutter cows from \$6.25 to \$88.50; butcher cows, \$9 to \$11; fat cows, \$11.50 to \$13; butcher bulls, \$9.50 to \$11; fat bulls, \$10.50 to \$12.75; rannie calves, \$8.50 to \$10; butcher calves, \$10.50 to \$13.50; fat calves, \$14 to \$16.75; butcher yearlings, \$11 to \$13.75; fat yearlings, \$14 to \$19.90. Several cows and calves sold by the pair at prices ranging from \$80.00 to \$135.00.

### RECEIVES DISCHARGE

Grady Scott Tomlinson, S. C. 2/e in the Navy, recently received his discharge from the Naval separation center at Norman, Okla. Tomlinson spent 29 months in the Pacific area, his last permanent duty station being at New Orleans, La. He remained in the Navy Reserve V-6 for four years.

CLEAN UP YOUR PROPERTY!

# EDITORIAL PAGE

"What a Man Does For Himself Dies With Him—  
What He Does For His Community Lives On and On."

## THIS IS CLEAN-UP WEEK

Clean-up week is now officially under way. What have you done about cleaning up your property? Munday's unsightly places, which are cluttered up with tin cans, trash and refuse of all sorts, can be made to disappear with the full cooperation of all citizens during this clean-up week. Then these places can be kept clean after they are once cleaned up, and with but little effort.

The city's trucks are soon expected to start a schedule of picking up all trash, cans, etc., that have been collected in the alleys and available places. Get yours all in one barrel, or pile, and have it ready for them.

A thorough clean up now will eliminate many breeding places for flies and mosquitoes this summer, and will make for a healthier and happier community.

Let's make this a clean town once more. Get rid of all those unsightly places and health hazards on your premises. The Sponsoring organization, the Munday Junior Chamber of Commerce, is making this appeal to every individual in both the residential and business districts. Cooperate with them, and you'll see how the town can take on a cleaner appearance almost as if by magic!

## SPRING TIME IS PREVENTION TIME

Recent presentation by the National Board of Fire Underwriters of the Gold Medal Awards, offered annually for outstanding public service in fire prevention, to a Chicago radio station and the Burlington, Iowa, Hawk-Eye Gazette, serves to stress the growing need of fire prevention. Fire losses are near an all-time high, reaching more than \$455,000,000 in 1945.

At this time of year fire prevention goes hand in hand with "spring cleaning." Spring is clean up time. And there is no better place to start than in your own home. From basement to attic the refuse has been gathering during all the long winter months. Closets too in many homes are stuffed with junk—inflammable junk. Now is the time, in the first warmth of the new season, to spend a few hours putting things in order. It takes but little time, and a small bonfire in the back yard may save a larger one in the deadly confines of closet or cellar at a later date.

Another point that should not be overlooked in these days of soaring prices, is the adequacy of fire insurance policies. Checking policies should be part of the spring clean-up. A policy based on values of ten years ago will be found to be sadly outdated. The insurance industry is doing everything possible to awaken policyholders to the danger. In fact, one representative of the industry says, "It is the duty of everyone in the insurance business to try and see that every policyholder has facts that will enable him to form a sound judgment on the adequacy or inadequacy of his protection."

So remember—spring is here and so is inflation. Clean up your premises and investigate your insurance protection.

## BELL BOTTOM TROUSERS

The ditty, "Bell Bottom Trousers," may soon have the nostalgic note of "A Bicycle Built for Two" if efforts to change the sailor uniform are successful. Critics of the old uniform point out that modern ship facilities take much of the wind out of the argument for the practicability of the traditional uniform left over from the days of wood and sail. Some of the older men in for the emergency feel that while the "monkey suit" may have a certain jaunty note to the youngsters, it does not lend dignity to age.

On the other hand, there is no getting away from the fact that a man-of-war's man with his present outfit can cruise for a year with no more than a scrubbing brush, a whisk broom and a little shoe polish, and look as neat and smart on his first liberty as he ever did. The three creases in the collar, like the reverse seam creases in the "bell bottoms," are always there after being stowed in a seabag with seamen-like skill.

For years the male civilian has been adopting more and more the bluejacket's neckline in business, after knowing its comfort in sportswear.

Many an old Navy hand feels that when "the fleet's in" and a tide of battlejackets instead of bluejackets, overseas caps instead of jaunty flat hats, begins to roll down the street, "something about a sailor" will be gone.

The chick brooder should be cleaned up and adjusted several days before the chicks are to arrive.

## THE MUNDAY TIMES

Published Every Thursday at Munday

J. W. Roberts . . . . . Editor, Owner and Publisher  
Aaron Edgar . . . . . News Editor

## LAY YOUR COURSE, AMERICA!

Like spring thunderheads the evidence towers blackly, formidably, over the country, plainly spelling out a fact that can no longer be ignored: Inflation cannot be controlled by decree. The issue of whether to sacrifice a continually larger measure of representative government in the hope of putting the lid on inflation, is rapidly becoming academic. We have both inflation and dangerously autocratic government. The only real question is how to get rid of the frustrated decree system before it becomes a "way of life."

Total war brought about unavoidable public debt increases. This debt is beginning to bear down upon the home front in rising prices and depreciating money, with all of the accompanying evils. The people should begin to think clearly on these problems—their freedom hangs in the balance. As disillusionment spreads, they will have a tendency to look for somebody to blame. The danger is that they will blame our form of government itself, because so many irresponsible public officials have been making foolish promises. It is a short step from blaming government, to changing government, and if we change our government in this country it can be changed in but one direction—away from "by the people and for the people." Unless the American people think clearly during this critical period, they may let inflation sow seeds of bitterness that will sweep away the great American experiment in human freedom which has given this nation so rich a life for over a century and a half.

We should realize now as never before that America had a war to win. Wars are won by "Blood and treasure." We gave our blood and we are now giving our treasure—it is being exacted from us through inflation. Inasmuch as modern wars are total wars, the materials price may prove to be high. And yet we have no reason to kick, much less expect our government to float the nation painlessly over the abyss. In the days ahead we must weigh our values carefully. We must draw a mental line. One side we must put our money, our material possessions—on the other we must put the things of the spirit, our form of government, the sanctity of the individual, principles for which this country stands, and for which human beings have struggled through the centuries to attain. This spiritual side of the "ledger" must be held inviolate. It is our capital, inherited from the ages. It is our only means of building a new and better world.

## COSTLY LOAFING

The magazine Newsweek of April 8 published the following brief item:

"In February, the Labor Department reported strikes lost the nation 21,500,000 man-days of work. At \$1 an hour, the level of average hourly wages the department found in its last survey, February strikes cost the workers \$172,000,000. In February, 1929, strikes took only 156,000 man-days. At 56.6 cents an hour, the 1929 yearly average, they cost \$706,368. In February, 1939, strikes took 553,000 man-days. At the 1939 yearly average of 63.3 cents an hour, they cost \$2,800,392."

## LOCAL GOVERNMENT OUR SAFEGUARD AND OUR RESPONSIBILITY

We may well ponder the prophetic warning voiced by Thomas Jefferson, long ago, when he said: "When all government, domestic and foreign, in little or great things, shall be drawn to Washington as the center of all power, it will render powerless the checks provided of one government on another. And will become as vernal and oppressive as the government from which we separated."

## CLEAN UP YOUR PROPERTY!

## I GIVE YOU TEXAS by BOYCE HOUSE

The only sea voyage I ever took was to Catalina Island, off the coast of Los Angeles. True, the distance was only 25 miles but the ship's deck developed quite an angle at times and walking wasn't easy.

The craggy island rises high from the sea, presenting a sight familiar to movie-goers for it has furnished the background of many a saga of the ocean—shipwrecks, marooning of sailors and hunts for pirate treasure; and it has been the locale for many an idyl of a South Sea Isle.

On the way, you see flying-fish.

There are many beautiful homes including the one that belonged to novelist Zane Gray—escorted on the precipitous slopes, which are clad in shaggy, green bushes. Then there is a drive over the island and from the crest you look down upon what seems a toy village, and creamy waves, incredibly little, break against a miniature shore.

But none of these constituted the most memorable feature of Catalina Island, which by the way, is owned by William Wrigley, the chewing gum magnate, and he spent millions of dollars in the original purchase and in its beautification.

Nor was the most vivid experience the ride in the glass-bottomed boat, though you saw many marvelous ferns and flowers growing in the water and fish of many kinds glided at your very feet and stared at you with their big eyes. And, as the climax, the diver went overboard and you beheld him far below, on the bed of the sea, and after what seemed a minute, he started back to the surface with a jig shell in his hand.

No, the most remarkable thing about the island, and it was literally "about" the island, was the water that lapped its shores, water not blue but actually purple—so rich in hue that it looked as though it had been dyed; but of course, that could not be for it stretched far out to meet at last the baby-blue of the arching sky, which was dimpled with clouds. You'd like Catalina Island.

Mr. and Mrs. C. R. Elliott were business visitors in Wichita Falls last Friday.

## Political Announcements

The Munday Times is authorized to announce the following candidates for office in Knox county, subject to the action of the Democratic Primaries:

**For County Superintendent of Public Instruction:**  
MERICK MCGAUGHEY (Re-election)  
JACK W. QUALLS

JOE REEDER, JR.  
THOS. F. GLOVER (Re-election, Second Term)

**For County Treasurer:**  
WALTER SNODY (Re-election)

**For Commissioner of Precinct No. Three:**  
G. E. RYDER

**For Sheriff of Knox County:**  
L. C. (LOUIS) FLOYD (Re-election)  
HOMER T. MELTON  
E. J. CUDE

**For Commissioner of Precinct Two:**  
L. A. (LOUIS) PARKER (Re-election)

**For Tax Assessor and Collector:**  
EARL B. SAMS (Re-election)  
M. A. (Buddy) BUMPAS, JR.

**For Commissioner, Precinct Four:**  
GEORGE NIX (Re-election)

**For County Clerk of Knox Co.**  
M. T. CHAMBERLAIN (Re-election)

**For District Clerk:**  
N. S. KILGORE (Re-election)

**For County Judge:**  
J. C. PATTERSON (Re-election)  
Wm. GRIFFITH

**For Representative, 114th District of Texas:**  
CLAUDE CALLAWAY (Re-election)

## "CURES" FOR COLDS 60 YEARS OLD

SCHENECTADY. — Fantastic remedies suggested for the common cold 60 years ago were described here by Dr. Louis C. Jones of the State College for Teachers, Albany, N. Y., in a G-E Science Forum address over WGY.

"The Albany Times in 1886 suggested that, in the realm of preventive medicine, the best thing to do to ward off a cold was to take a hot bath in whiskey and rock salt twice a year," Dr. Jones said. "I suppose the rock salt is there so you won't drown."

"There are some less expensive remedies for colds that I am also glad to pass on to you," the speaker, who is editor of the New York Folklore Quarterly, pointed out. "For example, it was 'discovered' down in Calcon, N. Y., that if you take the skin of the leaf lard from the left side of a pig, put it on your chest and keep it there, you'll be over your cold in no time.

"If that, by any chance, doesn't work and you are still able to get around despite your hacking cough, you might try crawling through a double-rooted briar moving from west to east," according to old legends.

Mr. and Mrs. E. W. Harrell were business visitors in Dallas the latter part of last week.

Mr. and Mrs. Victor Zagarola of Wichita Falls; Doyle Jones and

## When You . . .

See me don't think of Insurance  
But when you think of life Insurance, see me!

Mr. and Mrs. Sam Hampton attended the victory banquet at the Hilton Hotel in Lubbock last week, honoring West Texas postal employees.

R. L. Kennedy of Artesia, N. M., son of Mr. and Mrs. J. W. Kennedy, continues very ill at this writing.

Miss Alice Thornton of Lubbock is here for a visit with her parents, Mr. and Mrs. Van Thornton.

E. J. Jones has returned from a visit to Littlefield, where he visited his daughter and husband, Mr. and Mrs. Kenneth Hauk, and another daughter and family, Mr. and Mrs. L. L. Hendrix, and Mr. and Mrs. F. L. Jones all of Lubbock, and other relatives in that area.

Mrs. R. L. Cook, who has been a patient in the Haskell Hospital, is at home now, but continues to be very sick.

Mrs. Weldon Warren and children of Munday were visitors Thursday with Mrs. Warren's parents, Mr. and Mrs. J. C. Morton.

Mr. and Mrs. Lee Bomar and Mr. and Mrs. Wayne Crawford, all of Silverton, were here last week to celebrate the birthday of their mother, Mrs. J. C. Morton.

Mrs. Gene Heard of Houston is visiting her husband's parents, Mr. and Mrs. W. S. Heard.

Jolene Hendrix of Lubbock spent the Easter holidays with her uncle and aunt, Mr. and Mrs. Sam Hampton, and with other relatives and friends.

Mrs. Floyd Coffman of Littlefield spent several days here last week with her parents, Mr. and Mrs. E. W. Norris.

Mrs. Neva Kennedy and sons, Dewey and Walter Coffman, spent the Easter holidays with Mrs. Kennedy's father, W. W. Coffman, and other relatives.

Mrs. Leon Fowler and children,

Dorothy Nell and Leon Patrick, of Jassa were visitors here with Mr. and Mrs. J. W. Fowler. The family went from here to Dallas for a visit with relatives, returning home last Wednesday.

Edwin Coffman, who is a student at Texas Tech, Lubbock, spent the Easter holidays with his grandparents, Mr. and Mrs. E. W. Norris and W. W. Coffman.

E. N. Miller, who underwent surgery at the clinic hospital in Wichita Falls, is at home now and is improving some.

Mr. and Mrs. Felton Jones and daughter of Lubbock were week end visitors with Mr. and Mrs. Jones' parents, Mr. and Mrs. E. J. Jones and Mr. and Mrs. Hamp Jones.

Mr. and Mrs. Charles Lane and children of Lubbock have returned to their home after visiting Mrs. Lane's parents, Mr. and Mrs. Ed Lane of Munday.

The barbecue given by the American Legion last Tuesday evening was well attended, and a fine supper was served to the guests.

### VETERANS MAY GET FARM ADVICE LOCALLY

COLLEGE STATION. — Veterans who wish to catch up on wartime farming developments or to obtain assistance on their first entry into some farming activity will find local representatives of the U. S. D. A. and cooperating state agencies ready to help them, according to J. L. Matthews, assistant in agricultural planning for the A. and M. College Extension Service.

First stop for the farm-bound veteran should be the county agricultural agent. His job is to help all farmers and he has been designated to work with returning veterans. The county agent, whose office generally in the court house,

### J. Gordon James New Manager For Social Security

J. Gordon James, former manager in the Waco field office, has been appointed manager of the Social Security Board field office in Wichita Falls, it was announced today by James B. Marley, Regional Director, at San Antonio. Mr. James succeeds the late Roscoe L. Surles, who had been manager of the office since 1938.

The new manager has served in the field division of the Social Security Board for over nine years. He was educated at Texas Technological College, Lubbock, Tex., and formerly lived in Seymour and Wichita Falls. Mr. James, who has a wife and two children has just recently been discharged from the Navy in which he served two years.

The service area of the Wichita Falls office includes Archer, Baylor, Clay, Foard, Hardeman, Knox, Montague, Throckmorton, Wichita, Wilbarger and Young.

The Army Map Service has produced a stack of maps 300 times the height of the Washington monument. These will be used in a huge new program to provide essential information on the world's topography.

## Fixing Up the Farm by BURTON WILLIAMS

### Rats and Fire

RATS and fire have at least two things in common. Each costs the farmer millions upon millions of dollars annually and each needs food to survive and spread his destruction. A pair of rats in a cage without food will starve to death. A burning match dropped on an incombustible surface, will go out. Turn the match into a hay mow and the results are somewhat different.

Of course, we don't do such things purposely. But if rats can gnaw their way into your grain bins or enter through openings left by wear and poor construction, you probably would only confuse them by opening the doors. And if your buildings are not protected from fire, flames starting in one could

easily spread and consume all of the others. Many farmsteads are leveled each year by fire.

The rat and fire menaces can be eliminated to a large extent by use of modern building materials which are rat-proof and fireproof. Among such materials are asbestos cement products. These include the large building board, used for interior lining and outside cover on all types of farm structures, and asbestos shingles and siding. Asbestos cement products are made of two incombustible minerals. They cannot burn and rats will not gnaw them.

### ON FISHING TRIP

Mahlon Boggs, Coy Phillips and Otis Simpson left last Monday for the Llano River, near Junction, and on to the Texas Coast, where they are fishing this week.

## Group Enjoys Picnic Sunday At City Park

A group of relatives and friends met Easter Sunday, April 21 at the city park for a picnic and get-together. All enjoyed the day and the good dinner which was spread under the trees.

Those taking part in the Easter egg hunt and picnic were as follows:

Mr. and Mrs. Marion Strickland and family Dale, Doris, Iris, and Mary Evelyn; Mr. and Mrs. Allen Hargrove and daughter, Elaine, all of Rochester; Mr. and Mrs. Ralph Weeks, Mr. and Mrs. Raymond Hargrove and children, Ralph and Virginia Raye; Mrs. Emma Hill, Mr. and Mrs. Claude W. Hill and family, Pat, Maxine, Emogene, Claude Lowery and Howard, all of Munday and Miss Nadine Butler of Sunset.

Miss Jean Reeves, who is attending T. S. C. W. in Denton, visited her parents, Mr. and Mrs. J. E. Reeves, during the Easter holidays.

Harmon Sessions, who is attending school in Wichita Falls spent the week end with his mother, Mrs. Prudence Sessions, and other relatives.

First meteorological observations made by the U. S. Army between 1819 and 1860 became the basis for scientific weather forecasting, began by the Department of Agriculture in 1891.

### Washington News Letter

By Congressman Ed Gossett

Washington, D. C., April 19.—The president this week signed the so-called Petrillo Bill. This law was long overdue. To some extent it clips the wings of James Caesar Petrillo head and czar of the American Musicians Union. It will prevent Petrillo from exacting royalty on each phonograph record used in broadcasting. It will keep him from forcing theaters, radio stations, and entertainers from paying union musicians even when they do not use them. It will stop a lot of racketeering which Petrillo has carried on for years.

The House this week passed a bill extending OPA for nine months. This bill will be severely criticized by columnist, radio commentators, and others. Two extreme schools of thought prevail concerning OPA. One group says we cannot get along without OPA control of everything. Another group contends that we cannot survive under OPA operations. Perhaps a middle ground would be more clearly correct. The House

### "Pyorrhea" May Follow Neglect

Did you ever see an attractive person with irritated "GUMS"? Druggists refund money if first bottle of "LETO'S" fails to help. TINNER DRUG

Telephone 126  
First Nat'l Bank Bldg. Munday

bill in general does three things. First, it provides that price controls shall be released when supply equals demand. Second, it provides for the gradual termination of subsidies. Third, it allows producers reasonable profit.

During the last several years we have spent \$6.5 Billions in food subsidies. Among subsidies requested by OPA for the next fiscal year are \$515 Million for dairy products; \$260 Million for flour; \$715 Million for meat, for example, will be paid to packers and processors to hold down prices. These subsidies simply require the next generation to pay for today's grocery bill. They are added on to a national debt of almost \$300 Billion during a time when it is said we have too much money in the country.

Another view of OPA operations which honest men and good citizens must face is the black market. When most of a commodity moves in the black market, the legitimate operator the one who observes regulations, is penalized and injured.

Again, none of us can expect the farmer, the manufacturer, the worker, or anyone else to produce at a loss. We must have voluminous production if we are to prosper. We can more easily share in an economy of abundance than of scarcity.

In today's mail I received an article from the Southern States Industrial Council. Among other things it states, "We need statesmen in this country with courage enough to tell the people the truth. We need statesmen in our government who will stand up for what is best for the next generation rather than what is expedient for the next election." Most of us will agree wholeheartedly with that statement. We have a great many men in government who live up to this principle. Those who have concern for the present and the future know we cannot prosper long in a completely regimented society. One should want his neighbor as well as himself to prosper. If a man, through hard work, thrift, and managerial ability, accumulates money or property, power to him, so long as he operates honestly. One can certainly be happier and have better opportunity in a pros-

### More Oatmeal And Less Bread Conserves Wheat

Use a little more oatmeal and a little less bread is an easy way for us to help save wheat for foreign shipment, says Edith Lawrence, specialist in food preparation of the A. and M. College Extension Service. If every man, woman and school child in this country will replace two slices of bread with a serving of oatmeal each week, it will mean 135,000 tons of wheat for the hungry in four months time.

Oatmeal runs above whole wheat in some respects as a highly nourishing grain food, says Miss Lawrence. It contains calcium and iron and also the B vitamin, thiamine. A one-half cup serving gives you protein for tissue building and repair and about 60 calories for bodily energy.

If oatmeal is eaten with milk, in cookies and containing egg, or in a meat loaf, the protein in the oatmeal supplements the protein of the milk, egg, or meat. Even a little protein from an animal source teamed with the oatmeal grain forms a highly nourishing combination says the specialist.

Still another delicious use of oatmeal is in rolled oats muffins, Miss Lawrence says.

Miss Eva Ruth Thompson of Wichita Falls visited in the home of Mr. and Mrs. Luther Thompson last week end.

perous community than in an impoverished one. Of course we will always have dogs in the manger who will feel that shackles on his neighbors is in some way beneficial to himself.

Some weeks ago I made complaint on the House floor about extensive construction of commercial buildings in the City of Washington. Numerous theaters are under construction. I learned when home in March that fourteen theaters were then under construction in Dallas. I am glad to see that Housing Expediter Wilson Wyatt is now trying to prevent this sort of building in order that scarce material may be used in the building of homes.

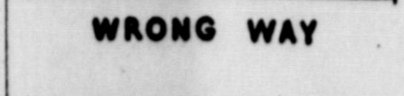

The House yesterday took a ten day Easter recess. Most members have left for home. I shall follow suit as soon as our children recover from the measles and mumps now plaguing our household.

Veterinarian  
Phone 169 Munday, Texas

### Fixing Up the Farm by BURTON WILLIAMS

**Better Concrete Patches**  
YOU can do a permanent job of patching a concrete floor if you follow a few simple rules. It isn't simply a matter of cleaning out the old material and filling the hole with new concrete. It is necessary to insure a bond between the new and the old.

Remove enough of the old concrete so the bottom of the hole is as wide as the top and uniformly deep. This will hold the patch in place. Dampen the old concrete to prevent water in the new mix from being absorbed, but be sure no surplus water is left in the hole.

Mix one part cement and three parts sand. Portland cement ready mixed with sand is available. Add only enough water to make a stiff mix which will require light tamping to get it into place. Smooth the mix with a wood float as soon as it is poured. When the concrete begins to harden, finish the surface lightly with a steel trowel.

There is some shrinkage in drying. If a patch is not more than two inches deep no allowance need be made for shrinkage. On deeper patches smooth the surface so that it is slightly above the level of the floor.

### Guinn Graduates At Airplane School

KEESLER FIELD, MISS.—Wilkie S. Guinn, son of Mr. and Mrs. L. C. Guinn, Box 7, Munday, Texas, and husband of Mrs. Marjorie Guinn, 1009 Pennsylvania Ave. Fort Worth, Texas, this week was graduated from one of the world's greatest educational programs—one of the AAF Training Command's airplane mechanics training courses at Keesler Field.

The training he received in the mechanics school covered basic airplane and engine mechanic operations. The technical course extended over a period of approximately 42 days and included instructions in aircraft electrical systems, engine operations, fuel and oil systems, propellers, structures, instruments and basic inspection. This qualifies him for additional specialized training in the maintenance of heavy bombers, cargo planes, jet and motor aircraft.

### Answers Given To Veterans Problems

Q. How does the Veterans Administration determine the amount of pensions to be paid a disabled veteran?

A. The Veterans Administration has rating boards that review the veteran's medical records. These boards decide how much he is disabled and award him a pension based on the percentage of his disability. The awards range from \$11.50 to \$115.00 per month.

Q. When a veteran applies for a loan to buy a home does he have to pay the appraisal fee on the property?

A. Yes. However, the veteran may arrange with the lender for payment of this fee out of the loan.

Q. Can a veteran go to a college or school as long as he wants to?

A. Veterans are entitled to one year of schooling, plus one month of schooling for each month of active service in the armed services up to a maximum of 4 years.

Q. If a veteran becomes disabled while taking on-the-job training, is this considered the same as a service-connected disability?

A. Yes.

Q. Are all veterans entitled to free private dental care?

A. No. Only veterans with service-connected conditions are entitled to this service.

Q. Can a veteran convert his

National Service Life Insurance policy into a 20-year or 30-year endowment policy?

A. No. He can convert his term insurance only to ordinary life 20-payment life or 30-payment life policies.

Q. Is the widower of a woman veteran entitled to pension at her death, and are the children entitled to any pension?

A. A widower is not entitled to pension under the present law, but surviving children may be.

## What is your GUESS? on our profits...

SOMETIMES, although an idea is wrong, it does no harm. Like the idea that a square jaw is the sign of will power. That winters aren't as severe as they used to be, or that red hair denotes quick temper.

But there are other wrong ideas, which are definitely harmful to public confidence in and understanding of industry. One such idea is the current "guessing" about profits made by large business organizations.

Many people are apt to grossly exaggerate the money made by business. So Opinion Research Corporation (an independent organization) made a survey to learn just what the public thinks about profits. Compare these guesses and yours with the International Harvester profit figures given below.

Public guess on war profits... 30.0%  
I H four war year average profit... 4.9%

In this survey, the average of the guesses by the public of the wartime profits made by industry was... thirty per cent (30%).

But in the four war years of 1942, 1943, 1944, and 1945, the profits of International Harvester Company averaged only... 4.9% on sales. Less than one sixth of what the general public "guessed" for all industry.

For this period, the year by year per cent of profits on sales was: 1942—7.34, 1943—5.59, 1944—3.95, 1945—3.93.

Public guess on peace profits 18.0%  
I H four pre-war year average profit... 7.17%

In the four peace years of 1938, 1939, 1940, and 1941, the profits of International Harvester Company averaged... 7.17%. This is well under half of what the public "guessed" for all industry.

Majority think fair profit in normal times is... 10%

I H ten-year average is less than 7%

The survey indicates the public knows that in our economy profits are indispensable. And the majority regard 10% as a fair

Wages and materials consume nearly all of every dollar Harvester takes in from sales. A Government board has recommended and the Company has agreed to pay a general wage increase of 18 cents per hour for Harvester factory employees. The Government has also allowed price increases on raw materials which we purchase in large quantities. Steel has had an average increase of 8.2%.

So our situation today is that what we BUY costs us 1946 prices. We will be paying average hourly wages 56% above 1941. For what we SELL, we get only 1942 prices. This condition cannot long be met out of our present low rate of profit.

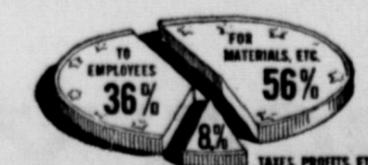

There has been no general increase in our prices since they were frozen by the Government early in 1942.

It is plain that price relief will be needed to meet the increased wage and material costs which we must carry.

We regret this necessity. We prefer to lower prices, when possible, rather than raise them and we know our customers prefer to have us do that. We had hoped to be able to "hold the line," at least.

But we do not see how we can avoid operating at a loss if our prices continue to remain at their present frozen levels. We will NOT "cut corners" on any of our products, because QUALITY IS THE FOUNDATION OF OUR BUSINESS.

Our customers can be certain that we will seek no more than a moderate profit, both because of our policies and because we have approximately 300 competitors fighting us vigorously for your business. Our request for price relief will be no more than is necessary to insure continued service to our customers, continued work for our employees, and a reasonable return for our stockholders.

materials up to that time. But recent developments have forced a change in our plans.

## Kemgas Delinted

Recleaned, Graded and Treated With Ceresan At The Munday Kemgas Plant

This method is recommended by the Texas Experiment Station and the USDA for controlling the germs of cotton diseases on seeds and insect pests in seeds; saving chopping expense; reducing losses from root rot; improving and hastening germination and increasing yields.

**Kemgas Delinted Seed Are Planted With Corn Plates At The Rate Of 5 To 7 Pounds Of Seed Per Acre.**

Tractors plant more acres per day as there are few steps to refill with seed and no fuzz and trash to choke planters, cause skippy rows, and delay planting operations while the boxes are being cleaned.

Kemgas delinted seed come up quicker and grow off faster enabling cultivation a week earlier.

## Rev. Buegler's Mother Dies At Ft. Smith, Ark.

Subiaco.—Mrs. Magdaline Buegler, mother of Rev. Thomas Buegler, former pastor of St. Joseph's Church in Paris, Ark., and grandmother of Frater Luke Buegler and Frater Novice Martin Buegler, seminarians at New Subiaco Abbey, and of Richard Buegler, junior in the academy, was buried from St. Boniface church in Fort Smith Monday morning, following requiem high mass at 9:30 o'clock. She had died of heart ailment and complications at the age of 82 in a Fort Smith hospital on Friday, April 12.

Celebrant of the requiem Mass was her son, Father Thomas. Assistants were the Rev. Eugene Knoff, Subiaco, deacon, and the Rev. Mark Berger, subdeacon. The Rt. Rev. Paul M. Nahlen, abbot of Subiaco, preached the funeral sermon, and the Rt. Rev. Msgr.

Joseph Gallagher, of Christ the King church, Fort Smith, was present in the sanctuary. Master of ceremonies was the Rev. James Foley of Fort Smith.

Mrs. Buegler was Magdaline Gisler, born May 1, 1863, at Altdorf, Switzerland. She came to Charleston, Ark., in 1881, and the following year married Joseph Buegler, who died in 1897. The family lived at Ratcliff till 1890, when they moved to Fort Smith.

The deceased was the mother of three sons and three daughters. The oldest daughter became Sister Celestine at the Benedictine convent in Shoal Creek, and died in 1908. Father Thomas, the youngest son, studied at Subiaco College and Academy, and was ordained May 28, 1922. He is now pastor of St. Joseph Church in Rhineland, Texas, in the vicinity of Wichita Falls. Other children are Joseph and Martin Buegler of Fort Smith, Mrs. John Bauer of Ratcliff, and Miss Gertrude Buegler, superintendent of nurses at the Colonial Hospital in Fort Smith, Charles Gisler, Fort Smith, and Stephen Gisler, Cucamongo, Calif., are surviving brothers. Eighteen grandchildren and eight

### Fall Building Outlook Good

Despite the current housing situation, there are some reasons to be optimistic regarding the possibilities of construction by fall, in the opinion of Miles F. Colean, nationally-known expert on housing.

Production of building materials and equipment has been improving steadily, and the slow process of supplying wholesalers, jobbers and dealers with sufficient stocks for doing business is well under way, he believes.

"When our materials production gets up to or ahead of monthly demand, two major difficulties will be eased," Colean states in an article in the April issue of House Beautiful magazine. "The large contingency allowances that builders must now include in their estimates (because they cannot tell when or at what price they will receive their supplies) will be reduced."

"And with ample supplies, material prices may somewhat recede from present ceilings. Moreover, black market operations—probably a bigger factor in the current price situation than many will admit—should end. Prices will still be high by comparison with 1940, but they will be less out of line with the prices of other things than they are now."

All in all, persons who have planned on building a home this year should in no way be dismayed, according to Colean, who suggests that if they are sure of the location in which they want to build, they should go ahead and purchase the lot and have plans prepared so they will be able to get a fast start when it is practicable. He believes it is still possible to contemplate the fall building season with a good deal of optimism.

### MAXIMUM PRODUCTION OF PEANUTS URGED

**COLLEGE STATION.**—In view of the present food situation special efforts should be made to increase peanut yields per acre, according to E. A. Miller, agronomist for the A. and M. College Extension Service. Peanuts rank high in food value and there is a big need for full production.

Several things are necessary for maximum production:

At least 25 or 30 pounds of shelled seed or 45 to 60 pounds of unshelled seed should be planted per acre. A good stand is necessary for good production and it does not pay to economize on seed.

The shelled seed should be chemically treated to insure good germination. The treatment protects the seed against molds and fungi in the soil. At the Stephenville Experiment Sub-Station, shelled seed treated with three ounces of two per cent cerasan gave a three year average stand of 73.8 per cent as compared with 22.9 per cent stand from untreated seed. Arasan and spergon also increased germination considerably and may be used at the same rate as two per cent cerasan, but cerasan gave the most outstanding results. Five per cent cerasan should not be used as it has seriously injured the seed in previous experiments.

At the Stephenville station 200 pounds of 4-12-4 produced the highest average yield of nuts and hay and gave the highest net profit over cost of fertilizer—\$13.88

### Fixing Up the Farm by BURTON WILLIAMS

**Plugging Bossy's Guns**  
A DOMINEERING cow and a vicious set of horns is a nuisance in an otherwise docile herd of good dairy animals. Her aggressiveness is disturbing enough, but the danger of injury to other cows is always present.

Horns on domestic animals are useless, except for ornamental value in the show and sales rings. Since the great majority of farmers raise cows for production, dehorning is becoming a more common practice. Many farmers perform this operation on calves when they are one to two weeks old. During this period the "horn buttons" can be destroyed easily and without injury to animals if ordinary precautions are taken.

For those who like attractive horns, a simple device is illustrated above which often takes the "fight" out of bossy by removing much of the effectiveness of her weapons. It's like plugging a gun barrel. The value of the device is psychological as well as practical. The rubber hose should be long enough and the hole big enough so the guard can extend at least half way down each horn.

**"I'll be durned"**—says Bob Burns, as he and his songstress, Shirley Ross, discover that 10 pounds of flour cost 83 cents due to inflation back in 1919-20. "Folks down Van Buren way wouldn't last long with those prices and without the OPA," says Bob, whose show is heard Thursday evening via NBC.

per acre The next best results were obtained from 180 pounds of 20 per cent superphosphate—\$12.32 increased profit per acre.

Mrs. L. W. Hobert and Mrs. Aaron Edgar were business visitors in Haskell last Thursday afternoon.

Misses Helen and Flora Alice Haymes and Louise Speigelmier, all of McMurry College, Abilene, spent the Easter holidays in the home of Mr. and Mrs. Lee Haymes.

Mr. and Mrs. Alvin Hollar and Mr. and Mrs. E. C. Browning were visitors in Fort Worth the latter part of last week.

Miss Jeanne Davis, who is attending A. C. C. in Abilene, visited her mother, Mrs. Jo Mae Davis, and other relatives here during the Easter holidays.

Miss Jane Burton of Dayton, Ohio is visiting in the home of her parents, Mr. and Mrs. Cecil Burton and with other relatives and friends.

Mr. and Mrs. Doyle Thomas and son of Benjamin were business visitors here last Monday.

Mr. and Mrs. Weldon Smith and daughter, Linda Kay, visited with relatives in Springtown over the week end.

## BUILD AROUND COTTON

"The only diversification that will benefit the South in the long run is one in which a balanced farm program is built around cotton, the one cash crop eminently adapted to southern soil and climate and in the growing of which the farmer's experience best fits him."

The COTTON DECADE, Houston

On most Cotton Belt Farms, the farm program will be better balanced and on a sounder economic basis when built around COTTON. For Cotton, the South's No. 1 cash, food and fiber crop, also furnishes essential Cottonseed Meal, Cake and Hulls to feed the Nation's farm and ranch livestock. Build your sound, balanced farm and livestock program around COTTON, the crop with a future.

### Low Grade, Short Staple Cotton Is Farmer Problem

Although cotton raisers have improved the grade and staple length of their fiber a lot in past years, surplus low-grade, short staple cotton continues to be a problem, according to F. E. Lichte, cotton gin specialist of the A. and M. College Extension Service.

To find new outlets for this lower-grade, short staple fiber, the USDA now pays manufacturers holding approved applications, when they use lint cotton in making certain products.

Take automobile batts, for ex-

ample. Automobile batts are filling materials for seat cushions, backs and doors. Makers of this batting formerly used only materials cheaper than cotton. Now, if they hold approved applications, they can get 4 cents a pound on the cotton they use. That brings down the cost of cotton more in line with the cost of other materials. . . and batt manufacturers can afford it.

Paper made from cotton is strong, durable and can withstand frequent handling. Approved paper manufacturers get up to 4 cents a pound for the cotton they use. In the past almost no lint cotton went into paper, but so far this year, the manufacturers have made applications to use up to about 70

### Summer Classic

FINE detail distinguishes this classic dress in crown tested rayon. Notice the clever use of scalloped tucks on the blouse and pockets. Pastel colored clothes need frequent freshening, so be sure to find out the method of care recommended for each garment you buy. Informative labels attached to many rayons will give you this information. Look for labels on rayons when you shop.

thousand bales of lint cotton. "Insulation is a third field where lint cotton has made an appearance under the guidance of the USDA," says Mr. Lichte. "And it's making a success there, too."

Research workers constantly are looking for other uses for the surplus lower-grade fiber. "But cotton farmers also can help," says the specialist. "If they will raise more of the medium length staple, high grade cotton, the supplies of the less desirable types will become smaller."

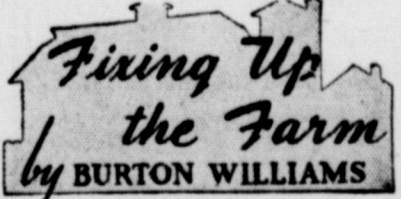

### Activities of Colored People

Mrs. Susie Alexander and Mother Lambous, missionary, spent the week end here and attended services here Sunday. They had attended the convocation in Dallas, Texas, and were enroute to San Angelo, along with Rev. and Mrs. W. A. Alexander, who had likewise been to the Dallas meeting.

Mr. and Mrs. John Wellington of Wichita Falls, spent Sunday in the home of Mr. and Mrs. Roy Scott, and with other friends.

The four Johnson brothers of Dallas were here Sunday to visit their sister, Mrs. Zeffa Lee Johnson, also Mrs. Estella Moore of Dallas was here to visit her mother, Mrs. Mary.

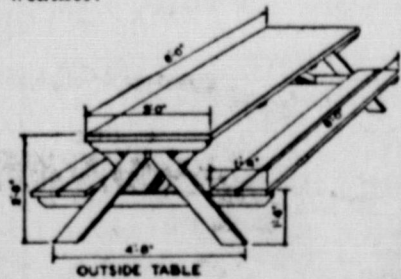

Dunbar school is giving away a cake to some lunch Monday night, April 29. Tickets will be sold used to purchase a stove for the lunch room.

Sturdy Outside Table

OUTSIDE tables have a good many practical farm uses—on porches, on lawns and in and around service buildings. But they lose their value if the tops splinter and warp and the legs become shaky.

To give long and efficient service, such tables must be made of good material, strongly braced, and with tops that are smooth and hard and highly resistant to wear and weather.

The table in the illustration is of general design. It can be modified to fit any particular condition, but if changes are made, the strength and wearing factors should be preserved.

The legs and center span are made of 2 x 6-inch lumber. The top is made of a single piece of asbestos cement board laid over 1 x 6-inch matched lumber, with a 15-pound asphalt felt pad between them. A wood binding strip is nailed around all four sides of the top. The asbestos cement board provides a top which will resist wear and all kinds of weather. Its rock-like surface is smooth and easy to keep clean.

### Contest Winners Are Announced

One hundred dollars will be given to Edward Davis, senior student in the San Angelo High School, by the Texas, New Mexico, Oklahoma Coaches, Inc. The one hundred dollar prize will be awarded for entering the best essay in a contest recently conducted by the West Texas U. S. Army Recruiting District Lubbock, Texas. The winning essay, entitled "What A Regular Army Enlistment Has to Offer Me" reads as follows:

"There are two things I want before I start out to raise a family and earn a living. I want a good education and I want to learn a trade. The United States Army offers me these things if I will enlist for three years. I can earn my trade in the Army and when I have finished my enlistment I have my college education paid for.

If you stop and think for a moment, that amounts to quite a sum of money. A private's pay for three years is eighteen hundred dollars, tuition for four years of college is about hundred dollars, subsistence allowance for four years for college is three thousand, one hundred and twenty

dollars. All of this adds to six thousand, nine hundred and twenty dollars. There is no job I know where I could accumulate that much money in three years in addition to earning a living.

"But what of the other things? Money is not everything that the Army offers me. It offers me a chance to broaden my outlook on life and become more tolerant in my thinking. I would be living with all kinds of people for three years and that would be an education in itself. It would give me a chance to travel over the world and to see other people as they are. I would then know them from first-hand experiences and they would no longer be unreal or be seen only through the minds of writers and reporters.

Some people might say that those three years would delay my education. My answer to that is in three years I will be more mature. I will be sure of myself in choosing my life's work. I will realize my capabilities more fully.

### RECEIVES DISCHARGE

Marvin Melvin Howry of route one, Goree, seaman 1/c, in the Navy, recently received his discharge at the Naval Separation Center at Norman Okla. Howry spent 22 months overseas, serving in the Caribbean and at Panama.

### JEANNE DAVIS ON ACC HONOR ROLL

Margaret Jeanne Davis, 1945 graduate of Munday high school, and the daughter of Mrs. Jo Mae Davis, Munday, had her name placed on the honor roll for the first nine weeks at Abilene Christian College, Abilene, Texas, as a result of her making a

grade of "Superior" in 1 subject. Miss Davis is a freshman in Abilene Christian College and in majoring in elementary education.

Mrs. J. C. Harpham and daughter, Mable Claire, and Miss Oma Norville are in Brownwood this week, visiting and attending to business matters.

### DDT 50 Per Cent

PENSALCO is a livestock spray that contains D D T 50 per cent. It is for control of horn and stable flies, lice and mosquitoes on cattle, sheep, hogs, horses and other livestock. Also used as surface residual spray for barns, hog pens and milk houses.

Comes in 2 pound packages, enough to make several gallons of spray, for \$1.85.

One used John Deere wheat-land type tractor.

One used 16-1 John Deere grain drill.

One used 4-disc Minneapolis-Moline breaking plow.

We buy, sell or trade any kind of farm equipment.

## Food Problem In European Nations Continues Acute

Vigorous measures being taken by the people of war-torn countries to produce food for themselves were described recently in a report issued by the USDA office of Foreign Agricultural Relations. In Europe, says the report, the farmers are straining every energy to grow more food this year than they were able to grow last year, when yields were pitifully small. Besides farmers, city people, too, are working, in some cases co-operatively with the farmers. Everyone who is able to acquire the use of little plots of ground outside of cities and towns, will grow gardens this year as they did last.

At prevailing inflation prices, many workers in offices or other non-farm capacities normally do not receive nearly enough salary to buy food, even if it were available. The only way for such workers to secure food for their families is to get out of their places of business and into the country to help produce it.

Because of the shortage of draft power and equipment, it has become the practice in many areas for farmers to pool or share horses, oxen, and even a hoe and a plow. European farmers also will face the obstacles of lack of transportation facilities, scarcity of fertilizer, and insufficiency of feed grains for livestock and poultry.

In India, there can be little food-production activity until the seasonal rains begin in June. Then everyone able to do so will strive to stave off threatened famine by helping to grow grain and other foods.

Following the precedent of generations, far Eastern people now are cultivating every available patch of land.

## Weekly Health LETTER

Issued by Dr. Geo. W. Cox, M. D., State Health Officer of Texas

Austin, Texas. Dr. Geo. W. Cox, State Health Officer, today issued a warning against the danger of malaria following the heavy rainfall in Texas, which usually occurs during the spring and early summer months.

"Malaria will remain a major public health problem as long as breeding places are accessible to the female Anopheles mosquito," Dr. Cox said. "Every householder should make sure that there are no tin cans, broken bottles, or other types of rubbish on his premises that will hold water and offer breeding places to this enemy of good health."

Dr. Cox pointed out that in our practice of mosquito control, we are sometimes like the man who locked the stable door after the horse was already stolen; we are content to wait until all our premises are swarming with mosquitoes before we bring ourselves into active warfare against these recognized agents of malaria transmission.

Dr. Cox further stressed the importance of conserving the public health and preventing the spread of disease in our present crowded conditions, and he also emphasized the fact that malaria is one of the more debilitating diseases, often causing its victim to lose weeks or even months from his regular employment or from school attendance.

Said Dr. Cox: "The best cure for malaria is prevention. Make sure your premises are free from any stagnant waters, in which may breed the female Anopheles mosquito that transmits the disease."

Dick Harrell, who is attending medical school in Galveston, spent the week end with his parents, Mr. and Mrs. E. W. Harrell.

Miss Betty Golden, who is attending T. S. C. W. in Denton, and Miss Juanita Golden of Dallas spent the Easter holidays with their parents, Mr. and Mrs. Oates Golden.

Mr. and Mrs. George Salem visited with relatives in Lubbock last Sunday.

Mrs. W. H. Huskinson and son, Billy, of Wichita Falls and Mrs. T. L. Stall and two daughters of Midland visited with relatives and friends here over the week end.

Mr. and Mrs. Winston Blacklock and daughter, Carolyn Lee, were business visitors in Dallas the first of this week.

Dick Owens, who is attending

Texas University at Austin, visited his grandfather, R. B. Davy, and other relatives here over the week end.

Mr. and Mrs. Grady Roberts of Wichita Falls made a brief visit here Sunday. They were enroute to Haskell for a visit with relatives.

Mr. and Mrs. Travis Lee and children visited relatives in Wichita Falls over the week end.

## SUNDAY SCHOOL REVIVAL

The First Baptist Church of Goree will begin a Sunday school revival Sunday evening, April 28, continuing through Thursday night. The meeting is to be informational and inspirational.

Everyone is invited to attend. Services will begin at 7:30 each evening.

S. E. Stevenson, pastor.

## PRESBYTERIAN CHURCH SERVICES ANNOUNCED

Announcement was made Wednesday that the regular Sunday school hour at the Presbyterian church has been changed to ten o'clock Sunday morning, and church services will be held at eleven o'clock next Sunday.

Rev. Pagan, pastor of the Siles Valley Presbyterian Church will preach at that hour. The public is cordially invited to the services.

## INTERMEDIATE DAY

Intermediate Day will be observed in the Sunday school of the First Baptist Church of Munday next Sunday morning. Everyone is urged to attend this service.

Leaders especially urge everyone of the Intermediate group to be present, as they will be recognized as a Sunday school group.

Mrs. A. V. Kemnitz and Mrs. A. A. Smith, Jr., were business visitors in Abilene last Monday.

## An Allegory

By GEORGE S. BENSON  
President of Harding College  
Searcy, Arkansas

IN THE MIDST of a forest there was a shrewd mouse-trap manufacturer who turned out a dependable item. Son Joe worked long hours making steel springs by hand. Mother kept the books and wrote the letters. Dad did the assembly work and finishing. There were no sales problems. Customers already had beaten a path to his door—and formed a waiting line.

But there was beeping in the line. Deliveries were slow and service was bad. Finally one day, in a stack of third-class mail, Mom found an advertisement for spring-winding machines. It was very timely because Joe's workbench was the bottle neck. Nobody else could make springs and he was always rushed to keep up with Dad. So Dad bought Joe a spring-winding machine.

Prosperity TURNING out a better trap than ever, and a lot more per day, business was fine. Prosperity came. Dad was flush, declared Saturday afternoons off and raised pay all the way around. About the time the general good feeling was at its height, Joe married a cute little communistic viewpoint. Then it was that the rodent extermination industry started to undergo complete reorganization.

The little c.v. convinced Joe that he ought to have a half interest in the business, and there wasn't much Dad could do about it. After the 50-50 partnership was formed, the c.v. started tell-

ing Mom off right regularly, making quips about faked accounts, and gifts from buyers, to shock the F.T.C. Mom had to keep books with the c.v. looking over her shoulder, eating an apple.

Prosperity FINALLY the junior Destroyed partner made bold to demand a spot on the payroll for the c.v., at Mom's pay, with authority to watch Mom and keep her honest. That was the day the spring-winding machine broke down. Repairing it seemed quite useless to Dad, what with a shop full of headaches, padded payrolls, no profits, and all departments working at cross purposes. He'd just quit!

After Dad and Mom left, labor costs increased and Joe missed a few payments on his new spring-winding machine but the little c.v. devised a solution: Raise wages again and boost the price of traps. This brought an unpleasant reaction from the customers and the waiting line melted down to a third of its average length. Joe sensed trouble and ran after the customers but didn't catch many.

Early one morning a man came in a truck and took the spring-winding machine away, leaving the whole crew wondering where to look for a job. They say the machine was offered to Dad, cheap, but he was not interested. By this time, old crafty Dad was busy with research on an odorless electronic, destined, in due time, to put mouse-traps off the market entirely.

General Bradley said. Last phase of decentralization will be that of National Service Life Insurance. General Bradley said this was due to the necessity of training personnel in New York, and that insurance problems would be handled in the field exclusively by December.

General Bradley and his party of inspectors left Dallas Tuesday by plane after conferring with Branch Office department heads and regional and hospital managers. He will make similar visits to Branch Offices in Denver, San Francisco and Seattle before returning to Washington.

Ardelle Spelee spent the week end in Wichita Falls, visiting with his wife and children.

Mr. and Mrs. D. E. Holder, Jr., visited with relatives in Denton over the week end.

## LOCALS

Mr. and Mrs. Walter Skiles and family and Ina Mae Jones visited with Mr. Skiles' mother, Mrs. Lillie Skiles, in Stamford over the week end. On Sunday they attended the homecoming services at the New Hope Baptist Church near Stamford.

Bill Dingus of Freeport, Texas, spent the week end here with his parents, Mr. and Mrs. G. W. Dingus, and other relatives.

Mr. and Mrs. Jack Anderson of Lubbock visited with Mrs. Anderson's parents, Mr. and Mrs. Jess Burnison, and other relatives here over the week end.

Mr. and Mrs. John Phillips came in last week from San Diego, Calif., for a visit with relatives and friends here. Mr. Phillips has just been discharged from the service. They plan to return to Calif., to make their home.

David Allen of New Castle spent several days here last week, visiting with his granddaughter, Mrs. Sebern Jones, and her children.

Doyle Strickland of Rochester spent several days visiting in the home of Ralph Hargrove of this city.

Mr. and Mrs. C. F. Glass and little son, Jimmy, of Dallas returned to their home last Tuesday after a visit here with Mrs. Glass's sister, Mrs. M. A. Bumpas, and other relatives.

Mrs. T. C. Lowery spent the week end in Fort Worth, visiting with her son and family, Mr. and Mrs. Phil Lowery.

GEN. OMAR N. BRADLEY, Administrator of Veterans Affairs

## Bradley Makes Inspection Trip Into Texas

DALLAS. — Encouraging progress in processing Texas, Louisiana and Mississippi veterans' disability claims and providing adequate hospitalization was reported Tuesday by General Omar N. Bradley, Administrator of Veterans Affairs, who came here on a trip of inspection.

The four-star general, making his second visit to the Southwest since his appointment by President Truman, said the claims pattern in this area is the same as elsewhere. The VA is able to handle all disability claims on a current basis except where it cannot get medical records. The Army, he announced, has promised speedier help in this respect.

A shortage of space for administration purposes and lack of sufficient doctors are still plaguing the administration, General Bradley announced. He said the taking over of the Ashburn and McClosky Hospitals at McKinney and Temple, Texas, and LaGarde Hospital at New Orleans would alleviate the shortage of beds for veteran patients.

"However," he went on, "our biggest trouble still is staffing these institutions. The situation is improving and we are getting some fine doctors."

The VA Administration said that last December the Veterans Administration was down to 2,100 physicians and surgeons and that 700 of these were on loan from the army. The administration was faced with the loss of 700 of these on points. Only 200 have left, he said, and recruitment has built up the number of doctors to 2,912.

In hospitals near cities, where ample recreation facilities are afforded, the VA is having no trouble in getting nurses. It is experiencing some difficulty in hospitals outside city areas.

The whole decentralization program of the administration, achieved by setting up 13 strategically located branch offices, is bringing closer supervision and enabling the organization to render better service by getting closer to the man,

## Bryson Laird Gives Report On Demonstration

Two hundred and eighty-three Knox County 4-H Club boys in ten communities heard Bryson Laird of the Benjamin 4-H Club give a demonstration on the results of a pig feeding experiment that was conducted by the Benjamin 4-H Club, according to R. O. Dunkle, County Agent.

Two Duroc Jersey pigs, litter mates, were used for the feeding test to determine the value of Vitamin A and mineral in a pig feeding ration. Pig No. 1 received alfalfa leaf meal and a mineral consisting of 2 parts lime stone flour, 2 parts bone meal and 1 part salt. Pig No. 2 received the same ration, but did not receive any alfalfa leaf meal or mineral. In this 90-day feeding test the pig that received the alfalfa leaf meal and the mineral produced 29 pounds more weight than did the pig not receiving the mineral and alfalfa leaf meal.

Bryson Laird illustrated the feeding experiment by the use of miniature pens and self feeders and porcelain pigs, and showed samples of feed used for each pig. Bryson also showed methods of how the pigs were weighed at the beginning and at the end of the feeding period by the use of a miniature pair of cotton scales.

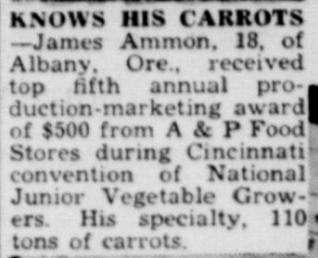

Bryson Laird summarized the results of this feeding experiment by telling the 283 Club members that 19 pounds of alfalfa leaf meal and 7 pounds of mineral will produce 29 pounds additional weight and that pigs receiving mineral and alfalfa leaf meal in dry lots will return \$5.26 more profit per pig than pigs not receiving the mineral and alfalfa leaf meal.

Bryson Laird will give this demonstration to members of the County Agricultural Council on April 25th, and to the Knox City Lions' Club on May 2nd.

**SHIPBOARD "CHEESECAKE"**—The traditional shipboard arrival "cheese-cake" picture is posed by a trio of tough fighting men in kilts. They get the nod of approval from Pvt. Margaret Sadler of St. Strathmore, Alberta, Canada. Men are members of Canadian Highland Regiment. All landed in New York from overseas.

**KNOWS HIS CARROTS**—James Ammon, 18, of Albany, Ore., received top fifth annual production-marketing award of \$500 from A & P Food Stores during Cincinnati convention of National Junior Vegetable Growers. His specialty, 110 tons of carrots.

**TIME MARCHES ON—IN REVERSE**—Eleanor Cahill of New York, who collects calendars, shows us that 1901 calendar is the same as 1946.

## National Leaders Point To Food As Challenge To Peace Of World

The acuteness of the job of feeding hungry millions in Europe and the necessity of producing food in the United States, as well as cutting down our own consumption, is reviewed briefly in the following statements of national leaders: "Food production is the challenge of peace."—Paul C. Stark, director, National Garden Program, USDA.

"There is no material factor in the world today that will contribute as much to maintaining the peace as will food."—Gen. Dwight D. Eisenhower.

"Hungry people make poor disciples of Democracy."—President Truman.

"The food situation today is the most serious the world has ever faced."—Chester C. Davis, chairman, Famine Emergency Committee.

"National security may depend on our ability in production of food."—Gen. Lewis B. Hershey, director, Selective Service System.

"Every pound of food eaten fresh from the garden, or preserved for use next winter, will release an equivalent amount of food to be shipped to the starving millions aboard."—President Truman.

"The food supplies we will be able to ship to starving people aboard will do little more than supply the small margin between life and death, the margin between minimum health protection and slow starvation."—Secretary of Agriculture Clinton P. Anderson.

"We cannot hope for real peace so long as millions live in constant fear of starvation."—Frank Boardman, National Research Council.

"Growing a home garden improves chances of an enduring peace."—Clinton P. Anderson, Secretary of Agriculture.

Keep bread fresh. If it becomes hard use it as toast, in puddings, or as croquettes.

World sugar production in 1945 was 18 per cent below pre-war figures.

**I GIVE YOU TEXAS**  
by **BOYCE HOUSE**

For years, I have broken out into a sweat when the dentist began drilling on my teeth—but recently, he drilled and I smiled sweetly. The ravages of time had made a bridge necessary and he was drilling on the bridge while holding it in his hand.

I can understand the sentiment of the cowboy who had a tooth pulled and said he wanted to keep it in a glass and look at it and say, "Now ache, darn yuh!"

Traveling over Texas: Bluebonnets seem earlier than usual this year; saw my first ones just north of Ennis on April 2. . . Little lambs along the hillsides in Coleman and Runnels countries. . . Just out of Athens, besides the highway, a big dogwood tree, with thousands of blossoms; and near Rusk a thicket against a hill with so many dogwoods in bloom that the trees looked as though they were sprinkled with

snow. . . Approaching Jacksonville, plumes of smoke hovering over a valley at twilight; they came from burning sawdust piles and were held low by the damp air; fresh sawdust burning has a fragrance of its own.

South of Alto, the Neches was in semi-flood and a house on stilts was surrounded by water. Seated on the porch was an old negro, unconcernedly reading a newspaper. . . Judge Hal Leaverton who was mayor in Breckenridge and then county judge of Gregg County is now living in Carthage. . . Timpson was probably the smallest town in the United States (about

1,500 inhabitants) with a daily paper; the daily was discontinued, however, a year ago after 43 years. . . A sign in Stephenville, "If you are too busy to go to church, you are too busy."

## Control Of Horn Fly Experiments Made By League

On Tuesday of this week the League Ranch of Benjamin started a Horn fly control experiment by treating 100 head of pure bred cattle with D.D.T. powder. The purpose of this treatment is to control the horn fly which according to previous experimental tests will greatly relieve the cattle from the annoyance of the fly throughout the fly season. It has been found by the Spur Experiment Station that the dusting of cattle at 15 to 20 day intervals will give complete fly control under pasture conditions. The recent studies show that using 1 pound of 50% water dispersible D.D.T. powders and 9 pounds of sulphur and dusting this mixture on the backs of cattle gives equally as good results as spray applications. About 1 oz. of this mixture was dusted on the backs of the cattle as they passed through the chute. This experimental test, being conducted by the League Ranch, will be watched with much interest by the cattlemen of Knox County, and a comparison with a similar herd of untreated cattle will be watched closely.

It is being planned to treat these mother cows at 20 day intervals throughout the fly season, and the results obtained are similar to those conducted by the Spur Experiment Station, the gains in weight of both cows and calves will be around 15 pounds per cow and 15 pounds per calf, for each 60-day period. This test will run through the month of October.

In April 1,200 women and children are going to Europe in the first mass movement of families to American soldiers stationed overseas.

**Fixing Up the Farm**  
by **BURTON WILLIAMS**

**Applying Asbestos Sidings**  
Asbestos cement siding shingles have proved so effective in protecting farm dwellings and service buildings that interest in their use has grown rapidly in recent years.

This modern building material can be applied easily and quickly over old sidings or new sheathing by anyone who is familiar with the application of ordinary siding material or will follow the simple instructions furnished with the material. In the case of old sidewalls, it is necessary to nail down loose boards and to remove batten strips to provide a relatively smooth and sound surface for the sidings.

To insure maximum weather-tightness, the sidewalls generally are covered with asphalt saturated felt before the asbestos shingles are applied. A waterproof backer strip, as shown in the illustration, is furnished with the asbestos sidings and used under the shingles at each vertical joint to keep out water and moisture.

Asbestos sidings should always be applied in dry weather. Use nails long enough to penetrate well into sound wood, but not so long that they will project through the sheathing. Before sidings are put in place, asbestos caulking putty should be applied to the sheathing or old surface where they are to butt against the wood trim, masonry or other material.

## Benjamin 4-H Club Meets On April 16

The Benjamin 4-H Club met April 16, 1946. The meeting was held at the home of Carrol Fred Glover. Songs were sung as an opening exercise. The club motto, pledge, and prayer were repeated. The minutes of the last meeting were read and approved.

The meeting was then turned to Mr. Dunkle who gave an interesting talk on pig feeding. Bryson Laird made a talk on a pig demonstration completed in Benjamin, April first.

The goal of one million home gardens in Texas for 1946 is the same as during the war years.

Young men now 18 joining U. S. Regular Army may retire at age 38 on half pay for the rest of their lives.

Look at the 24 articles above for two minutes. Then take pencil and paper and write down as many as you can remember. (15 is good, 20 terrific, 24 incredible.)

Now, can you remember one other thing these assorted articles have in common? . . . Every one is made with electricity—or run by Electricity—or both.

It's hard to name any manufactured article that isn't partly the product of electricity. It is basic to all industry. It provides the power that makes America the most productive nation on earth.

Testing your memory again, do you know how much the cost of home electric service has come down through the years? You may not have noticed because you kept buying more electric appliances and using more electricity. But actually, the average American family gets twice as much electricity for its money as it did 20 years ago!

Low-priced electric service—friendly and dependable—is made possible by the sound business management of America's self-supporting, tax-paying electric light and power companies.

## Let's Clean Up the Town!

This is clean-up week. We ask your co-operation in making Munday a cleaner, healthier place to live. Everyone can co-operate by making a thorough clean-up about his premises.

### Here's What You Should Do:

Go over every inch of your premises—the back yard, the alleys, the rear of business houses, and make it all clean and attractive.

Place your tin cans, trash and refuse in containers that can be emptied into trucks, if possible.

Burn all trash and everything that is burnable. Don't have the trucks haul away things that can be burned.

Check your premises again—see that everything is clean.

#### CLEAN-UP PROCLAMATION

Whereas, it has come to the attention of the City Officials that there is large amounts of trash and refuse in various parts of the City of Munday, in both the residence and business section of the City, and

Whereas, such trash, and refuse will cause the breeding of flies and other vermin, which will endanger the health of the Citizens of said City:

Now therefore, I, W. R. Moore, Mayor of the City of Munday, Texas, in order to preserve the health of such City, and make it more attractive, do hereby set apart and declare the week beginning on Monday, April 22, 1946, as clean-up week, and enjoin upon all the Citizens to give all the aid in making such cleanup during such time.

Given under my hand officialy this the 18th day of April 1946.

W. R. MOORE,  
Mayor City of Munday.

### Trash Will Be Hauled Away!

The city's trucks will haul away all trash and refuse that has not been burned.

A schedule of pick-ups will be used, so this hauling can be done with a minimum time and effort.

Pick-ups will start the latter part of this week. Have your trash available. Don't get impatient, but if your trash is not hauled away within a reasonable time, call the City Hall. The trucks might have missed you.

## Farmers Urged To Cut Grain In Livestock Feed

With dire need for more grain for human food aboard, animal husbandmen for the A. and M. College Extension Service, urge farmers to cut down on feeding grain to livestock.

They point out that hogs marketed recently have averaged about 20 pounds heavier than a year ago and heavier than any other year of record. A bigger share of the cattle are coming to market highly finished. Milk cows are being fed grain and concentrates at records or near record rates. Hens are laying more eggs per hen than ever before. And the average weight of turkeys and broilers has run heavier than usual. This is all clear evidence of heavy feeding.

During the war, the prices of livestock compared to the prices for feed enabled farmers to produce a lot of livestock and livestock products for special war needs. Now, however, grain is needed for human food. Compared to demand, feed supplies are short.

USDA officials are asking farmers to:

• Feed less grain to hogs and beef cattle.

• Cull poultry flocks closely.

• Raise fewer chickens and turkeys this year.

• Maintain milk production without wasting feed.

• Avoid "overfinishing" meat animals.

• Market grain supplies promptly.

• Use potatoes, oatmeal, and buckwheat cakes instead of bread to help avoid a world famine.

## Gas Firm Begins Pension Plan For Employees June 1

A pension plan providing retirement income and additional insurance for employees of Lone Star Gas Company and Lone Star Producing Company will be effective June 1, officials announce.

Approximately 3,100 employees in the 300 Texas and Oklahoma cities and towns in which Lone Star operates will be eligible to participate, including returning service men whose benefits cover time spent in the service.

Normal retirement age will be 65. Annual cost to the company is estimated at \$485,000. Lone Star will pay for all past service benefits and its contributions for future benefits will exceed three dollars for each dollar contributed by an employee.

Certain employees will be entitled to benefits if they sever connections with the company prior to age 65 due to cause other than death, sickness or physical or mental disability.

A booklet is to be issued to employees explaining the plan and application blanks will be provided. Participation will be voluntary.

The pension set-up has been termed by insurance representatives as most complete and it is being used as a pattern for similar plans. It is one step in the company's plan for strengthening its peace-time service throughout its system.

## LOCALS

Sam Salem was a business visitor in Dallas the first of this week.

M. L. Wiggins visited with relatives in Peaster and Weatherford last Sunday.

Mrs. W. B. Payne spent the week end in San Angelo visiting with her husband.

Mr. and Mrs. Earl Hollar visited with relatives in Dumont last Sunday.

Mrs. Lois Owens and son, Elbert, of Borger visited with friends here last Saturday.

Ector Thornton of Stanton visited with relatives here a while last Saturday.

Mr. and Mrs. Charles Cosby and son of Olney were visitors here last Saturday.

Mr. and Mrs. Don L. Ratliff and Mr. and Mrs. Howard Collins were business visitors in Wichita Falls last Tuesday.

Miss Juanita Reid of San Angelo and Harvey Reid of Dallas spent the week end here with their parents. Mr. and Mrs. J. A. Reid, and with other relatives.

Mrs. Willard Bauman and two sons left last week to join their husband and father at Tulsa, Okla. Willard is employed by the Gulf Oil Corporation there.

## City Completes Arrangements For Dumping Grounds

Arrangements for dumping grounds have been completed by the City of Munday, and all trash, cans, refuse, etc., that is collected during clean up week will be hauled off by the city's trucks.

The City Council, at a recent meeting, voted to pay John C. Spann \$120.00 per year for dumping privileges on his farm southeast of town.

The city will also fence this ground, and all dumping is expected to be confined to the fenced-in area.

### LANDS IN STATES

Mr. and Mrs. Joe Kuehler of Rheinland received a telegram Wednesday from their son, Albert Kuehler, who has been serving in the Pacific. He stated he had landed in San Francisco April 24th and would be home soon.

### How To Remove Lipstick Stains from Rayons

OOOH! A brand-new spun rayon dress, and look what's happened! It won't be so much of a calamity if you take care of the stain right away...

Here's an easy way to remove lipstick from rayons: If the rayon fabric is non-washable, use a standard cleaning fluid to remove the grease. When dry, sponge with lukewarm, soapy water. Finally, sponge with clear water. If the rayon fabric was labelled washable, remove grease with cleaning fluid, then simply wash the garment in soap and water.

For price control—Jack Carson, star of his own CBS Wednesday night show, and his program "girl friend" Viola Vonn, illustrate the dangers of inflation. One egg selling for \$1.50 in Manila shocks our radio cut-ups and they cast their ballot for OPA's price control. P. S. "I didn't lay the egg," says Jack.

# 10 Reasons

## Why An O. K. Rubber Welded Recap Is The Best Recap Money Can Buy!

1. Controlled Heat. Our recapper is an electrically operated, thermostatically controlled heat, which insures no over or under cured recaps.
  2. Mechanical Pressure. No air bags which conform to the easiest lines of resistance. This insures you a truly perfect circle recap. Also instead of using 150 to 200 pounds of pressure (which is all that can be used in an air bag) we use approximately 4,000 pounds of pressure per square inch. This insures you of a denser, deeper, longer wearing tread which will truly give you new tire mileage.
  3. No burnt-up sidewalls. The sidewall of your tire is free from all heat or pressure, as our recapper only applies heat and pressure to the raw material, or the tread.
  4. Grade A Recapping Material. At all times we use only Grade A Camelback, the finest camelback available.
  5. Service. We loan you tires while we recap yours and can offer you two-day service. No waiting a week for your tires.
  6. We save you freight charges to out-of-town recappers.
  7. We save you up to 50 percent of your tire expenses.
  8. Skilled Workmanship. Every O. K. Rubber Welder is required to attend an O. K. Rubber Welder's school and prove his ability as a tire repairer and recapper before he can obtain his license to operate an O. K. rubber welding shop. This assures you that your tires are in skilled hands when you invest your money in an O. K. job.
  9. Insured Recaps. We guarantee our recaps to give complete satisfaction.
  10. Our customers are the adjustors. If one of our recaps give our customers trouble, all he has to do is bring it to us, and we will adjust it on the spot. We guarantee satisfaction. There's no sending your tire off to some disinterested person to adjust. We accept full responsibility for our recaps as to wearing and staying on, true running qualities.
- Remember: If your carcass is good, but your tread is slick, let our O. K. Recapper do the trick!
