

## New Legion Officers To Be Installed Here

### Important Meeting To Be Held Tuesday

Kirby Fitzgerald, newly elected commander of Lowry American Legion Post No. 44, announced this week that an important meeting of Legionnaires will be held on Tuesday night, September 24, at the Legion Hall.

Newly elected officers will be installed at this time. They are as follows:

Kirby Fitzgerald, post commander; Don L. Ratliff, vice commander; Lenoard J. Kuehler, adjutant; R. F. Horan, sergeant-at-arms; E. B. Littlefield, finance officer; Buddy Bumpas, historian; and Lee Haymes, chaplain.

A good supper will be served at 8 o'clock, to be followed by installation of officers and a business session. It is urged that all Legionnaires and ex-servicemen be present at this meeting. Business of importance will be taken up at this time.

Fitzgerald also reminded Legionnaires that it is time for paying the 1947 dues, and he asks every member to pay his dues and get a member so that Lowry Post will become one of the strongest in this section by way of membership.

Several projects are being lined up to be sponsored by the American Legion Post, and next year promises to be one of the most active and interesting ones in the history of the local organization.

## '45 Cotton Crop Will Be Pooled

All cotton still under the 1945-Crop Loan on October 1, 1946, will be pooled for producers' account by the Commodity Credit Corporation.

According to F. C. Elliott, cotton work specialist of the Texas A. and M. College Extension Service, Texas farmers who have 1945-crop cotton under loan now should give serious consideration to marketing the cotton before it is placed in pools. The average 1945 loan rate for 15/16-inch middling cotton, gross weight, was 21.09 cents per pound. Since the price now has climbed considerably, producers should be able to dispose of this cotton at prices that will them a substantial profit.

The 1945-crop loan cotton which is not redeemed before October 1 will, as provided in the loan agreements, go into pools. Not until all the cotton in the pools is liquidated will the producer receive any payment. Net proceeds, if any, will then be distributed among the producers whose cotton was placed in the pools in proportion to their interest. From the proceeds of the pool cotton will be deducted all advances an accrued costs—including storage, insurance and handling charges. No payment will be made to producers at the time their cotton is placed in pools and after October 1, farmers will not be entitled to order the sale of cotton now under loan.

## Reneaus Attend Sister's Funeral

Mr. and Mrs. John B. Reneau returned home last Friday from Texline, Texas, where they attended the funeral of Mr. Reneau's sister, Mrs. D. C. Claborn.

Mr. and Mrs. Claborn are former residents of Knox County, having moved away in 1916. Mr. Claborn was well known here as "Doc" Claborn.

Mrs. Claborn was 76 years of age at the time of her death.

## FIGURES BOLSTER DRIVE FOR ONE-VARIETY COTTON

Memphis, Tenn.—The National Cotton Council of America pointed here today to Department of Agriculture figures as evidence of the value of one-variety cotton growing in a community.

Forty per cent of last year's cotton acreage was organized for one-variety production, and that acreage produced 45 per cent of the American cotton crop. One-variety cotton planting affords more economical ginning, milling and grading, produces better cotton goods, and commands a better competitive position in relation to foreign cotton, according to the Tennessee Extension Service, promoting one-variety cotton in this state.

## Moguls Win From Rule Cats 26-0 Friday

An unusually large crowd was present last Friday night to see the Munday Moguls in their first action of the season as they downed the Rule Bobcats, 26-0, on the local field.

Chalking up two counters in the first quarter, the Moguls had the game "sewed up" from then on, and many of the second string men saw action during the remainder of the play.

The Moguls chalked up another counter in the third quarter, when Haynie intercepted a Rule pass and headed across the goal line. The last counter was by means of a long end run by John Brown. Out of the four touchdowns, Johnnie Spann's toe converted only two of the extra points.

Starting lineups were as follows:

Munday—Joe Spann, left end; R. L. Trammel, left tackle; James Cadwell, left guard; Harold Green, center; Kelton Tidwell, right guard; Joe Yarbrough, right tackle; Lloyd Haynie, right end; John Brown, right half; John Spann, fullback; Bill Bouldin, quarter; and Delbert Montgomery, left half.

Rule: Don Mitchell, right end; Dalton Boiles, right tackle; Haris Allison, right guard; Sam Turner, center; G. R. Dicky, left guard; Grady Allen, left tackle; Doyle Whitmore, left end; Cecil Lewis, quarter; Jack Jeter, right half; Leonard Whitley, left half; and Doyle Cannon, fullback.

## Variety of Grass Showing Promise For This Area

Two comparatively new varieties of grasses are showing much promise in this section. Mr. S. W. Hutchens, cooperater in the Wichita-Brazos Soil Conservation District, planted six acres of weeping love grass and four acres of blue panic grass on his farm east of Rochester. He was assisted by Soil Conservation technicians in planting these grasses and is carrying out a coordinated Soil Conservation program on his farm.

The weeping love grass was planted in April, 1946 and made heads. Upon examination of the heads, Mr. Hutchens discovered that the hot winds had caused the seed to blast and decided to cut the grass for hay. This patch made 60 bales of fine quality hay, and the grass has promise of making a fall crop of seed.

The four acres of blue panic was planted at the same time the weeping love grass was planted, but this grass made a light seed crop and was harvested.

Mr. Hutchens reports that this crop makes nearly twice the foliage that sudan grass makes, and since it comes out from the roots each year, it should prove to be a good grass for pasture and crop rotation. Both grasses can be easily killed by plowing.

## Pay Compliment To Local Football Boys

Mr. and Mrs. Sam Luster, who operate the Terry Coffee Shop, paid a high compliment to members of the Munday football team after the boys went to their place for a steak supper following Friday night's game.

"The boys weren't noisy or unruly at any time," they said, "and showed perfect manners and seemed to thoroughly enjoy themselves. We've served football boys on other occasions who were rowdy and in a celebrating mood. The Munday boys were very considerate of the waitresses and other customers, and conducted themselves in a manner that did not disturb anyone."

"We think this is very commendable in them, and is a credit to the school and to the boys' parents."

## ACCEPTS POSITION AS COURT REPORTER

Glendon K. Matthews, who recently graduated from the Gregg Shorthand Reporting College in Chicago, left last week for Charleston, West Virginia, where he has accepted a position as court reporter.

He is the son of Mr. and Mrs. H. D. Matthews of this county, and was employed at the local Production Credit Association office before entering the service.

## Outlaw Rodeo Soon To Open

Brahma Bull flies from Prison Rodeo chute as rider hopes for a three-point landing on solo flight. The outlaw riders say these rodeo bulls are much rougher than the "harness bull" variety—and who should know better than they!

This is one of the many thrilling scenes which will take place in the 15th Annual Texas Prison Rodeo, which opens at Prison Stadium in Huntsville on Sunday, October 6, and continues each Sunday during the month.

## James C. Branch Now Publisher of Knox City Paper

Mr. and Mrs. James C. Branch took over publication of the Knox County Herald in Knox City last week, and Mrs. Branch will work with him on the publication.

Mr. Branch, well known in this county as Jimmie, received his newspaper training at Knox City, working on the Herald for a number of years. He served in the Army during the war, and upon being discharged he returned to his position on the newspaper at Ranger, Texas.

Mrs. Branch is the former Irene McAuley, daughter of Mr. and Mrs. Frank McAuley of Knox City. Jimmie secured a lease on the Herald, which has been published by Mr. and Mrs. C. H. Moss for several years, and last week's paper was the first issue under his management.

Mr. and Mrs. Moss will continue to make their home in Knox City, and will devote their time to job printing and the publishing of a monthly periodical.

## LEAVE FOR SCHOOL

La Verne Albus, daughter of Mr. and Mrs. P. W. Albus, and Veronica Decker, daughter of Mr. and Mrs. F. L. Decker, left on Wednesday of last week for Sioux City, Iowa, where they have enrolled in Briar Cliff College.

## BIRTH ANNOUNCEMENT

Mr. and Mrs. Robert Ford are the proud parents of a baby daughter who was born on Thursday, September 12, at the Knox County Hospital. Mrs. Ford and little daughter were brought home Saturday in an ambulance from the Mahan Funeral Home and are reported to be doing nicely.

## Frankie Sends 'Em

CHICAGO, ILL.—That loud commotion you heard was just Frank Sinatra trying to beat the radio set shortage on a personal appearance tour here. Office girls of Stewart-Warner Corporation were really "sent" when Frankie phoned to find out where he could buy a self-charging portable set, after being unable to locate one on his shopping tour.

Leo Famburn, radio advertising manager, hustled one of the new three-way AC-DC battery sets to Sinatra's hotel. Frankie got it without obligation—and expects to use it for traveling, on movie sets and at home.

## Rotary Club Gets Gong and Gavel From Stamford Rotarians

Members of the Munday Rotary Club held their weekly meeting at one o'clock Monday at the Terry Coffee Shop.

Eight members from the Stamford Rotary Club visited the local club at this time. Members included Bernard Bryant, past district governor, who made a very interesting talk.

Bill Bramer of the Stamford Club presented Munday Rotarians with an engraved gong and gavel, to be used by the president in calling the club to order. The Stamford Club sponsored the Munday Rotary Club when it was first organized.

Munday Rotarians boasted another 100 per cent attendance at Monday's meeting. Munday was the only club in the district with 100 per cent attendance during July.

## Knox 4-H Boys Enter National Record Contest

Six Knox County 4-H Club boys are entering the state and national 4-H Club record book contest, according to P. J. Penick, assistant county agent.

The boys and record of work are as follows: Donald Nix, six-year club boy, who has raised cotton every year at a profit of \$1,185.

Merle Tackitt, who has raised mink, cotton and sheep during five years in club work. He realized \$272 profit from these demonstrations.

Dorman Followwill has raised cotton and grain sorghums during his six years of club work. He made \$1,124 from the projects.

Randall Walling, another six-year man raised cotton five years and beef one year, making a total of \$1,000.

Carroll Fred Glover, a five-year calf grower, made \$750 on his demonstrations.

Fred Lewis Crenshaw has realized \$300 from his three years of calf feeding.

## FORMER MUNDAY BOY IS FATHER OF DAUGHTER

Mrs. Dave Eiland has received an announcement of the birth of a daughter, Pamela Lee, to Mr. and Mrs. Jack Sandford of Chicago, Ill. The child weighed 8 pounds and 11 ounces.

Mr. Sandford is a former Munday resident, and stayed with Mrs. Eiland when she operated the Munday Hotel here.

## A GRANDSON FOR THE "DOC" RUSSELLS

"Doc" Russell relieved word this week that a new grandson has arrived and shows promise of being a real man.

The child is the son of Mr. and Mrs. Cecil Hale of Graham, and was born on Monday, September 16. Mother and little son are reported doing nicely.

## All 11-A Teams To See Action Friday Night

### Munday Moguls Go to Seymour For Game

Coach Clyde Latham's Moguls, after showing power in defeating the Rule team, 26-0, last Friday night, will get a more severe test at Seymour on Friday night of this week. The Seymour Panthers, last year's conference rivals, are no longer in the 11-A circuit, but the rivalry between the two teams should make this non-conference game one of the most interesting in this area.

All seven schools of the district will be in action Friday night, with conference favorites meeting rugged tests.

Anson, defending champions, and winner over Rotan in the season opener last week, goes to Merkel to battle the Badgers. This game is figured as one of the standouts in the area this week end.

Stamford's Bulldogs, always regarded as a title bidder, open their campaign at Synder against the Tigers.

Throckmorton, who took a 19-14 win over Rochester last week, goes to Abilene Friday for a night game against the Abilene Eaglets.

Haskell, who lost to Spur 7-6 last Friday, entertains Rule, and Albany goes to Baird. Albany won a 6-0 decision over Moran last Friday night.

## Postal Employees In Monthly Meeting Here On Monday

Members of the Brazos Valley Postal Employees Association held their regular meeting here last Monday night, in the assembly room of the Production Credit Association.

S. G. Hampton of Goree, president of the association, was in charge, and B. C. Anderson, postmaster of Knox City, led the discussion on postal laws and regulations and on problems of post offices in this particular area. This was a lively discussion, with practically all members taking part.

Twelve members were present, representing a number of post offices in the area comprising the association.

## Goree Girls Are Off To College

Six Goree girls, graduates of Goree high school, left this week to begin their college studies at Abilene, Denton and Wichita Falls. They are as follows:

Misses Mary Jo Arnold and Johnnie Williams, who entered I. S. C. W. at Denton; Gloria Murdock, who entered N. T. S. T. C., Denton; Martha Ann West, student in H. S. U., Abilene; Naomi Jean Miller, freshman at McMurry College, Abilene, and Truda Jane Coffman, who entered Draughon's Business College, Wichita Falls.

## New County Agent Spends Two Days On Work In County

Maxwell Carpenter, who becomes county agent of Knox County on October 1, spent Wednesday and Thursday of this week in Knox County, getting acquainted with the work here. Mr. Carpenter visited several of the 4-H club members who are feeding calves and was favorably impressed with the fine calves that are on feed this year.

Mr. and Mrs. Carpenter plan to move to Benjamin in the near future, prior to assuming his duties here on October 1.

## MRS. STILLWATER VISITS HER PARENTS AT GOREE

Mrs. R. P. Stillwater is here for a visit with her parents, Mr. and Mrs. W. S. Yates of Goree. She has just returned from a visit in Springfield, Mass., with her husband, Lieut. Raymond P. Stillwater, who left Saturday for Frankfurt, Germany.

While there, Lieut. and Mrs. Stillwater visited many interesting points in the New England states and in New York City.

Mrs. Stillwater plans to remain here until she can join her husband on foreign soil.

## Citizens Vote Bonds For Paving Project

### Haskell Host To Masons For District Meet

Haskell and Rule lodges were hosts to the 91st District Masonic Association, when Masons gathered in Haskell last Tuesday evening for the regular business meeting and program.

A delicious barbecue dinner was served in the school recreational building, after which the general assembly was held in the school auditorium.

Mr. Collier of Vera, association president, was in charge of the meeting. The address of welcome was given by Supt. S. H. Vaughter of Haskell, while E. T. Goss of Seymour made the response.

Dennis P. Ratliff of Haskell introduced the principal speaker, Dr. Floyd McGaughey, Presbyterian minister of Dallas, who made an inspiring address on the practical side of Masonry. The speaker cited several great Masonic institutions, such as the Masonic Home in Fort Worth, the cripple children's hospital in Dallas, and the aged Mason's home at Arlington, to show that Masonry is doing its part toward caring for the health, physical and spiritual needs of people of Texas.

Answering to roll call by lodges were 110 Masons representing all lodges of the district, with voters from several other lodges present. About twenty members attended from Munday.

## Entertainment For Evening Costly To Lambeth Family

An evening's entertainment, in which they enjoyed a local picture show, proved to be very costly to the Oris Lambeth family last Thursday evening.

Parking their car on Munday's main street, the family went to the Roxy Theatre and enjoyed the show. Coming out of the theatre, they discovered their car missing. Next morning the car was found in the southeast part of town, near the elevators. The car had been jacked up, and all four tires and wheels removed.

As yet, the stolen parts have not been recovered, and the thieves are still at large, according to reports.

## Cotton Mills Get Increased Supply

Austin.—The consumption of both cotton and linters at Texas mills during July was considerably above the levels of June, 1946, and July 1945, the University of Texas Bureau of Business Research reports.

July cotton consumption of 17,567 running bales represented a 6.1 per cent gain over June, whereas the consumption of linters (2,502 bales) jumped 32.4 per cent from the previous month's figure. Compared with July 1945, cotton consumption was up 9.4 per cent this July, and consumption of linters was up 43.6 per cent.

## COTTON QUIZ

HOW MUCH COTTON DOES THE BOLL WEEVIL GET?

ANS.—EACH YEAR THE BOLL WEEVIL CLAIMS ONE BALE OUT OF EVERY SEVEN! . . . RESULTING IN CROP LOSSES TOTALING HUNDREDS OF MILLIONS OF DOLLARS!

## Bond Issue Carries By Vote Of Over Two To One

Munday citizens went to the polls last Tuesday and signified, by a vote of almost 3 to 1, that they wanted additional paving in Munday to get "the town out of the mud."

The vote was 146 for the bonds to \$50,000 in bonds for the purpose of carrying out the city's proposed paving and drainage program.

The vote was 146 for the bonds to 61 against the bonds, according to an official tabulation.

This was considered a rather light vote, in the fact of interest that seemed prevalent during the past two weeks.

The City Council will proceed with necessary steps toward issuing the bonds and working with the architect toward the beginning of the paving program. It is now the City's purpose to begin immediately with the program, however, council members having stated that work will begin "when materials and labor can be secured at a price consistent with good business."

The bond election was a move to carry forward efforts of the city council which were begun some 18 months, or more, ago under the term of C. R. Elliott, as major. Plans for the paving and drainage were begun then, when a government grant was secured to make the preliminary surveys.

## Auction Sale Reports Good Run, Prices

The Munday Livestock Commission Co. reports a good run of cattle for last Tuesday's sale, with all classes of cattle selling from 50 cents to \$1.00 per hundred higher than a week earlier.

Canner and cutter cows sold from \$6 to \$8.50; butcher cows, \$9 to \$10.50; fat cows, \$11 to \$12.50; beef bulls, \$8.50 to \$10; beef yearlings, \$10 to \$12.50; fat yearlings, \$14 to \$17.80; rannie calves, \$8 to \$9.50; butcher calves, \$10 to \$13.50; fat calves, \$14 to \$17.50.

Several bunches of plain cows and calves sold by the head at prices ranging from \$75.00 to \$100.00 per pair. Some good white faced cows and calves sold by the pair at \$110.00 to \$127.50.

Several bunches of stocker calves sold by the head at prices ranging from \$38.00 to \$54.00.

## Seymour Electric Company Head Dies

Walter N. Hart, 58, district manager for the Texas Electric Service company in Seymour and a long time resident of that city, died at his home there Wednesday morning at about 12:30 o'clock.

Funeral arrangements had not been completed Wednesday, but services will be conducted from the Seymour Presbyterian Church with Rev. C. C. Elrod, pastor, officiating, assisted by other ministers of the city.

Hart is survived by his wife, several children, two sisters and two brothers.

## Cottonseed Goes Into The Markets

Austin.—Cottonseed received at mills in Texas during July 1946 was more than 40 times as much as the June 1946 figure, the bureau of Business Research at the University of Texas reports. This figure was 25 per cent more than the corresponding figure for July 1945.

Stocks at the end of July 1946 were 392.5 per cent above the June 1946 figure; however they were 31.9 per cent less than in July, 1945.

## HAS OPERATION

Mrs. W. E. Braly was taken to the Knox County hospital on Wednesday, where she submitted to an appendectomy at five o'clock Wednesday afternoon. Reports coming from the hospital are that she is resting nicely.

## TEST TUBES FOR THE FARM

Little heralded among the maze of bills which became law during the last week of the 79th Congress was one which represented a great victory for the farmer and the public generally—the Bankhead-Flannagan agricultural research bill.

Making possible the appropriation of research funds which at the end of five years will reach an annual total of 61 million dollars, the new agricultural research measure lays the groundwork for large-scale economic and scientific research on farm products.

Through the activities of the Department of Agriculture, the state experiment stations, state departments of agriculture, and public and private laboratories which will be called into the program, American farmers will be provided with less costly production methods, better marketing practices, and new outlets for the multitude of products grown on the nation's farms.

At the outset, probably a large share of the utilization of product research funds will be devoted to cotton lint and seed. Thorough justification for such action is found in the fact that cotton's markets are challenged more severely than those of any other agricultural product.

Nevertheless, every farmer in the country will be favorably affected by the expanded research program from the very outset. Every farm product will be studied to determine its needs. Farmers will constitute a majority of the board which assists the Secretary of Agriculture in determining the overall policy of the research program.

But these new test tubes for the farm do not stand to benefit the farmer alone. The entire public will benefit in better and less costly consumer goods. The expansion of agriculture's markets will bring with it a decline in the need for subsidies which heretofore have been necessary to a decent farm living standard. Practical economics, science and agriculture form an unbeatable combination.

In heeding the counsel of the Department of Agriculture, the National Cotton Council, the American Farm Bureau Federation, the National Grange, the land grant colleges and other agricultural organizations, and making the Bankhead-Flannagan Bill law, the 79th Congress has taken a step which may be recorded in history as one of its most useful acts.

## UP TO YOU

Commenting on our disgraceful fire loss, The Topeka Capital observes: "Prevention must originate with individuals. Fire departments and other agencies cannot enforce safety regulations when the public is too indolent or careless to assume the chief responsibility."

The vast majority of fires originate in homes and small places of business. They are the result of the most common and most easily eliminated hazards—defective heating equipment, improper storage of inflammables such as paint, and gasoline, accumulations of trash in closets and cellars, frayed light cords, etc. Almost all of them could be prevented if the individual property owner had effected simple repairs which require little time or money.

The importance of fire prevention to the homeowner, as a purely practical matter, was never greater than now. A recent survey shows that small houses now sell for an average of 65 per cent more than in 1940 and medium-sized houses for 57 per cent more. In other words, it will cost you more than half again as much to rebuild as it did before the war if fire destroys your home. And shortages of materials make rebuilding next to impossible, regardless of cost.

Fire loss is at record levels now. The active, aggressive cooperation of all is necessary to check it.

## INDIVIDUAL INITIATIVE PAVES THE WAY

A recent issue of *Colliers'* tells of the medical care system established in an extremely remote section of Kentucky. There are virtually no roads, and nurses travel almost entirely by horseback. Often weather conditions are extremely bad. Supplies must be carried on backs and in saddlebags. But the people of the section, all of whom are poor, receive fine medical attention and the health records prove it. Hospital facilities are available in towns when needed. Part of the cost is paid by individual subscriptions. Part is paid by patients. The basic fee is only a dollar a year, and people who are too poor to pay even this can make it up in work or produce.

Throughout the nation, ideas such as this have come into being. In every case they began when an individual saw a need—and acted. They aren't hampered by the red tape which would inevitably result if a government bureau had charge of the work. And they get the job done.

well, the problem of medical care has been solved. The problem of medical care has been solved. Health problems. Grandiose, incredibly costly schemes individuals buy what amounts to insurance on a monthly basis. If illness comes, all attention required is furnished—and a doctor of the patient's own choice takes charge of the case. Again, there is no regimentation, no politics in medicine.

This is the sound, American way to meet the for socialized medicine would take the incentive away from the doctor. They would stultify the practice of medicine with the dead hand of the bureaucrat. And in the long run, the national health would suffer.

## FIRE IS A MENACE

If the news was flashed over the nation that one of our principal cities was destroyed by fire, with a loss of 10,000 lives, everyone would be running for an extra edition of their newspaper to read of the disaster. And yet such death and destruction happens every year in the amount of property and the number of lives lost by fire, and most persons think nothing of it—in fact, they help create the holocaust by their carelessness.

This tremendous loss the nation suffers annually could be cut to a minimum if the public would eliminate the fire hazards which are entirely within their control.

Human beings must have fire for heat and power, but it is not necessary to be careless with this two-edged sword which destroys or creates. Fire is a hazard at best and it is advisable to treat it with respect.

Son: "How did you and Mom first get acquainted?"  
Dad: "None of your business—but it sure cured me of whistling."

## Ex Libris... By William Sharp

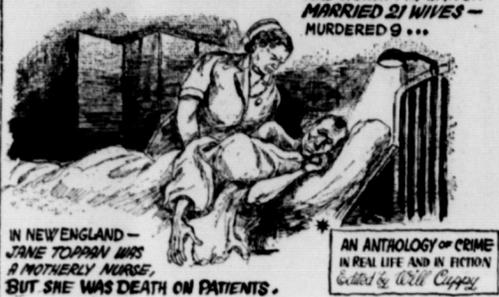

### "MURDER WITHOUT TEARS"

IN INDIANA, 200-Lb. Belle Guinness advertised for husbands—THEN SHE KILLED THEM!

IN LOS ANGELES—MILD-SPOKEN MR. WATSON MARRIED 21 WIVES—MURDERED 9...

IN NEW ENGLAND—JANE TOPPAN WAS A MOTHERLY NURSE, BUT SHE WAS DEATH ON PATIENTS.

AN ANTHOLOGY OF CRIME IN REAL LIFE AND IN FICTION Edited by Will Cuffey

While perhaps people (if they think of me at all) think of me as a writer of humor, as a matter-of-fact, my first two books were of a serious nature—and not particularly successful, from a sales standpoint.

The first was "Where You in Ranger?", an account of the great oil rush of 1918-20, which began with the McCloskey gusher and transformed Ranger, Eastland, Cisco and Breckenridge from villages into cities almost overnight. Ten years spent in Eastland County in editing newspapers gave opportunity for gathering the material

that went into this book, which sold about 3,600 copies, which is not bad for a "first book," but not particularly good, either. Incidentally, "Were You in Ranger?" is out-of-print and dealers ask \$6 a copy (the original price was \$1.50.)

Next book was "Oil Boom", an account of six Southwestern oil rushes—Spindletop, Ranger, Desdemona, Burkburnett, Smackover (Arkansas) and Mexia. Two of the chapters appeared in the Saturday Evening Post, before the book came out. "Oil Boom" received a fair amount of attention from some of the national critics and received an award or two—but sold fewer copies than "Were You in Ranger?"

For a long time, just as a hobby, I had been gathering Texas jokes and, just for the fun of it, sat down and dashed off 500 of them. Half a dozen publishing houses in the North and East turned the manuscript down. Finally, Joe Naylor of San Antonio brought it out—and the two most surprised men in Texas were the publisher and the author when folks began buying it. About 115,000 copies have been sold.

Then came "Tall Talk from Texas" (70,000 copies) and "Texas—Proud and Loud" (35,000 copies). Really, the humor books were just a sort of sideline or byproduct—and they happened to catch the fancy of the public. My next book? It will be out soon; it's called "Cowtown Columnist"—and there is not a joke in it!

And will someone please explain why, a year and a half after the war, we still have a sugar shortage? Is John L. Lewis to blame for that, too?

## LOCALS

Dr. D. C. Eiland and son, David, left Saturday for a week's visit at Colorado Springs, Colo. Mrs. Eiland and Mrs. Dave Eiland took them to Wichita Falls, and they they made the remainder of the trip by train.

Ben Bowden left last Monday for Dallas where he entered the Southwestern Medical School for another term.

Mr. and Mrs. Oscar Spann went to Denton last Sunday to take their daughter, Janie, who has enrolled as a freshman in Texas State Col-

lege for Women. Mr. and Mrs. Spann also visited in Dallas and Fort Worth while away.

Harry Cowan, who is attending N. T. A. C. at Arlington, visited his parents, Mr. and Mrs. H. H. Cowan, the latter part of last week.

Miss Frances Smith left Monday for Abilene, where she enrolled in McMurry College for another term.

Mr. and Mrs. Jack Anderson of Lubbock have returned home after spending a vacation in Munday and points in Mexico. Both are seniors in Texas Technological College.

Miss Merle Dingus was a business visitor in Wichita Falls last Thursday.

County Agent R. O. Dunkle of Benjamin was a business visitor here last Monday.

## Repair Work

# FARM NEWS

(This is the fifteenth of twenty-two articles that will appear in this newspaper on the need for soil conservation, the amount of soil conservation being carried out, crop insurance, commodity loans, marketing quotas, and other programs of interest to farmers.)

## Crop Insurance

Federal crop insurance was revived by Congress in December, 1944 after a lapse of about a year. County and community AAA committees handled all county administration of the program with the exception of loss adjustments.

Congress authorized insurance beginning with the 1945 crops of cotton, wheat, and flax. The 1945 spring wheat crop was insured but not winter wheat, since the legislation was passed after the winter crop was seeded. Also provided were 3-year trial programs which could be conducted for other crops in not more than 20 representative counties for each crop. Experimental programs in 1945 were for corn and tobacco.

Three additional crops may be selected each year on a trial basis. Consideration is being given to adding programs for citrus fruits, potatoes and peanuts in 1946.

The time for gathering actuarial data setting rates and yields and organizing a sales program for 1945 was short. In some of the cotton-producing counties, the deadline for cotton-insurance applications was in February. Flax and spring wheat closing dates were about 6 weeks later.

Despite this late start, 164,444 applications, covering 199,300 farms, were written on 1945 crops. This does not include the number in counties where applications did not cover the specified minimum to be eligible for crop insurance—50 farms or one-third of the farms in the county, whichever was smaller.

Here is the 1945 sales record for each year:

Crop	Insurance	
	Applications	Farms covered
Cotton	95,756	113,183
Spring wheat	14,390	23,394
Flax	31,131	38,072
Corn	10,603	12,363
Tobacco	12,564	12,288
Total	164,444	199,300
Total losses and indemnity pay-

## People, Spots In The News

**WADING CUSTOMERS** enjoy pun of storekeeper at York Beach, Me., when torrential rain drenched New England coastal cities.

**ALUMINUM ARROW**—Frances Rafferty, star of Hal Roach Cinecolor comedy, "Curley," shows form as archer using new aluminum alloy arrow increasingly popular with archers. Custom-made of alloy tubing developed by Alcoa, arrow is said to be superior to wood because it is impervious to weather, to be constant in flight and design, and to last indefinitely.

**WHAT A PICKLE** Johnny Panepinto of Pueblo, Colo., finds himself in as these 500 bushels of pickles are trucked off to market. They came from his dad's farm.

high collars. They'll be worn on the campus with everything from slacks to evening dresses and hence are extremely practical.

### AND THOSE RAINCOATS

There'll be no need for drab looks when rain falls. The campuses will be alive with color in wet weather with gay cotton raincoats. Something new this year is a two-piece rain garment—a three-quarter coat and a wraparound rain skirt. Cotton raincoats which may be washed without destroying their water-repellent quality are also in the shops.

Three and four-piece cotton dormitory ensembles are sure to intrigue the co-ed this fall with long jackets and slippers to match the pajamas. Quilted and corduroy robes make pretty and practical wear for lounging and study time.

### WILD BIDDING SETS RECORD BALE PRICE

New Orleans—In a scene of wild bidding, the first 1946 bale of Louisiana cotton sold here for \$8.99 a pound, more than four times as much as a bale of cotton has ever brought before in American history.

The sensational bidding in the Cotton Exchange began at 50 cents and soared up to the fantastic selling figure finally offered by Thomas Jordan, who paid \$4,495 for the bale! The cotton, graded strict middling, was grown by Ivey Babileau, tenant farmer of St. Landry Parish, who got 40 cents a pound, a barrel of flour and free ginning of it. The cotton buyer who shipped the bale to the Cotton Exchange here, Garland Dejean of Opelousas, specified that all of the final price over 45 cents a pound be given to the Red Cross, which got \$4,270.

### School Days Mean Danger Days Ahead

Carelessness, the predominating cause of accidents, is teaming up with the mass movement of school-going youngsters to reap a red harvest that would make a cemetery of little graves, side by side, more than a mile long—a parade of the injured the same length. According to the Texas Safety Association, accidents of all kinds made human wastage of 883 school-age children last year.

Miss Harriet Clark of Jacksonville, Fla., visited in the home of Mr. and Mrs. C. P. Baker over the week end.

## Smart New Cottons Matriculate For All Of The College Year

New York City—Cotton will be a September-through June fabric on college campuses all over the nation, stylist and designers asserted here.

Those summer cottons will still be smart wearing apparel in the first month of school, but all sorts of "winter" cottons are being prepped for the months to follow. Cotton is definitely in the curriculum, and will be seen from classroom to prom all year long.

Rich pile fabrics, fine colors and slick-chick styles are being shown in cotton in college style shops everywhere. Warm but light weight chambray, twills, gabardines and poplins are high on the

list for sportswear.

### CORDUROY POPULAR

Date dresses and suits in bright red and green corduroy, as well as pedal pushers, slacks, jumpers and sports jackets, will be seen crossing the quadrangles. Latest colors, too, are deep wine and royal blue in this washable, durable material.

More formal are the suits and dresses of braid-trimmed velveteen, featuring peplums, slim skirts and tiny waists. This luxurious fabric, already popular for wedding gowns, will provide glamorous velveteen evening dresses for college dances.

There's another cotton pile fabric winning success among the college crowd—plush, with a very wide wale. In addition to the standard colors, it comes now in celar brown, grey, lime and beige. Short coats of velveteen and plush are smart this season, flaring wide at the back and with big sleeves and

signals and reckless driving. The program had as its slogan, "Check Your Driving—Check Your Car—Check Accidents." Emphasis was deliberately placed on driving and stressed the necessity for keeping cars in top mechanical condition.

### Take a Cab Driver's word for it!

**"BETTER MILEAGE . . . SAFER, TOO!"**  
"I like these new B.F. Goodrich Silvertowns," says Mr. Joseph W. Thomas, Louisville, Ky., Yellow Cab driver, "and I know the boss does, too. He likes them because they're giving better mileage and stand up better in rough, tough, day-in-and-out taxi service. But for me, I like that wide, flat tread. It seems to cover more road . . . gives me better control. I feel safer."

## You, too, need the Extra Safety of the tire that OUTWEARS PREWAR TIRES

Before the new B.F. Goodrich passenger car tire was offered for public sale, it had passed over 17 million miles of the roughest, toughest type of testing . . . in service on taxi fleets (as Mr. Thomas describes above) . . . on police cars, and on the B.F. Goodrich tire test fleet, even at high speeds.

B.F. Goodrich perfected a stronger tire body by using stronger cords and more of them . . .

extra strength that means better resistance to bruising and damage from accidents. Supplies of this new tire are still limited. However, we'll do our best to keep your car rolling until we can get new tires for you.

## Sunset H. D. Club Meets Sept. 5th With Mrs. Perry

Mrs. Dee Perry and Mrs. Buddy Bumpas were co-hostesses to the Sunset Home Demonstration Club in the home of Mrs. Perry on September 5.

The house was called to order by the president, and minutes were read and approved. Mrs. Pack gave a report on the encampment and the meeting at Amarillo.

Mrs. Almanrode gave a demonstration on table service.

Refreshments were served to W. E. Pack, Bob Jarvis, R. M. Almanrode, Jerry Nix, Layne Womble, Margaret Womble and the hostesses.

## Luncheon Club Meets Thursday In Williams Home

Mrs. P. V. Williams was hostess to members of the No. 8 Luncheon Club in her home last Thursday.

The entertaining rooms were beautifully decorated with zinnias and fall flowers. Following the luncheon, several games of eighty-four were played.

Guests were Mrs. Lowder of Camden, Ark., and Mrs. W. P. Farrington. Members present were Mmes. S. E. McStay, D. E. Holder, H. F. Jungman, J. D. Crockett, A. H. Mitchell, Georgia Maples, and the hostess.

## Henry E. Franklin Miss Ellen Kuehler Wed At Rhineland

In an impressive double ring ceremony performed in St. Joseph's Church at Rhineland on Tuesday, September 10, Miss Ellen Kuehler became the bride of Mr. Henry E. Franklin of Fort Sumner, New Mexico.

The bride is the daughter of Mr. and Mrs. Anton Kuehler of Rhineland. The groom is the son of Mr. and Mrs. L. C. Franklin, also of Rhineland.

Rev. Thomas Buerger, O. S. B., officiated. Acolytes assisting the pastor were Larry Kuehler, Jerry Decker and Gene Sokora.

For the exchange of wedding vows, the bridal couple stood before a beautifully decorated altar of natural flowers and lighted candles.

The professional and recessional wedding march was played by Mrs. Francis Albus, organist, who also provided music for the ser-

## SEPTEMBER CHOICE

Selection of the cotton industry for the September Design-of-the-Month is this velveteen suit designed by the famous stylist, Morgan Fauth. The suit, as pictured above, appears in the September issue of Harper's Bazaar.

VICES. A mass in honor of St. Barbara and Ave Marie was rendered by the choir.

The bride was lovely in a form-fitting gown of white crocheted satin and net, with bracelet-length sleeves. With this she wore a strand of pearls. Her veil of bridal illusion and pleated lace fell from a pearl seeded tress. The bride completed her costume with a lovely bouquet of white caryophyllums and satin streamers. She carried a beautiful white prayer book, a gift of her mother.

The bride was attended by Miss Tillie Kuehler, sister of the bride, as maid of honor. She was attired in a gown of blue satin and net. She wore a halo hat in colors harmonizing with her gown, and her corsage was of peach gladioli.

The groom was attended by Mr. Raymond A. Pribyla of Bomarton. A group of relatives and friends attended the afternoon reception at the home of the bride. The refreshment table in the dining room was covered with a beautiful lace table cloth. In the center stood the three-tiered wedding cake, topped with a miniature bride and groom.

In the evening, the couple was honored with a dance in the Rhineland community hall. Music was furnished by the Dixie Playboys of Abilene.

Both young people attended the Rhineland schools.

The groom recently received his discharge from the Navy, after serving a period of 40 months in the Pacific theater. He served on a destroyer, and is the holder of 13 battle stars. He is employed at the Valley Motor Co. in Ft. Sumner, N. M., where the young couple will make their home.

## Elmo Cure Has Expanded Courses In School Work

Elmo Cure, son of Mr. and Mrs. J. E. Cure, has new student interest in score as a result of new courses and addition of much vocational and industrial equipment in the Sweetwater schools. Cure is coordinator of cooperative training courses in the high school and distributive education supervisor.

Cure stated the program is being expanded to include the parallel of diversified occupations, a course in distributive education. While the diversified occupations program is designed to assist the pupil in obtaining work training in skills and trades, the distributive education classes give the same type of training in sales and office positions.

Pupils following the program attend school during the morning hours and obtain practical work experience during the afternoon hours.

Willard Reeves, son of Mr. and Mrs. J. E. Reeves, left several days ago for Louisville, Kentucky, where he entered the Southern Baptist Theological Seminary. He is studying in preparation to entering the missionary field.

Mr. and Mrs. J. K. Jackson and Mrs. E. B. Littlefield were business visitors in Abilene one day last week.

Mr. and Mrs. Clayton Wren visited with relatives in Fort Worth last Sunday.

Mr. and Mrs. Carl Jungman and daughter, Ida Jo, of Vernon visited with relatives and friends here last Sunday.

## Recent Bride Named Honoree At Sept. 8 Party

Mrs. Henry Franklin, who before her marriage was Miss Ellen Kuehler, was named honor guest at a lovely party and shower given on Sunday, September 8, by Mrs. Albert Fetsch, Mrs. A. A. Duesenberous and Miss Tillie Kuehler. The affair took place at the Rhineland community hall.

Miss Marcelline Sokora presided at the bride's book, which was presented to the honoree.

Cake, ice cream and cokes were served to the guests. Napkins carrying the inscription "Ellen and Henry, Sept. 10, 1946" decorated the refreshment plates.

A lovely assortment of gifts were presented the honoree. Those attending were:

Mmes. Leonard Kuehler, Pete Albus, Leo Kuehler, Joe Redder, A. B. Wilde, Joe Wilde, Agnes Blake, C. J. Smajstrin, G. J. Zeissel, Fred Redder, C. J. Albus, A. M. Moore, Jr., John N. ## Plunkett Shows To Play Here Under Auspices Fire Dept.

Plunkett's variety tent show, with 10 Plunketts out of the family giving the performance its name, will set up in Munday on the block just east of West Texas Utilities Co., for a three-day run starting this coming Monday, September 23, under the auspices of the Munday Volunteer Fire Department. A new tent, flame-proof, will house the show.

On the bill are Jerry Plunkett, songstress; Kennedy Swain and Jimmy Van, described as two of the funniest men in the stage show business; Captain Fuzz Plukett and his three trained seals; as well as a troupe of performing dogs and monkeys. Corky and Gloria Plunkett are featured in a flying adagio dance.

The coupon at the bottom of their ad in this issue will admit one lady free with a paid admission opening night.

Mr. and Mrs. W. G. Welborn visited with relatives in Fort Worth last Sunday.

Dick Owens left last Sunday morning for Austin, where he has enrolled in Texas University for another year.

Alonzo Cartwright, son of Mr. and Mrs. Louis Cartwright, left last week for College Station, where he enrolled in Texas A. & M. College for the school year.

Mr. and Mrs. J. L. B. Brey and son of Sundown were visitors with Mr. and Mrs. Oates Golden and other relatives here over the week end. Mrs. W. A. McKenzie, who has been visiting in Sundown, returned to Munday with them.

Angie Decker, Georgeen and Bernadette Claus, Dorothy Hertel and Josephine Cerveny.

## "Doggone, Mrs. Spaniel, you've got a fortune there!"

"Wonder how much, friend Foxhound?"  
"I'd say a hundred bucks apiece, charming lady!"  
"Flatterer! Why, when my grandpa was a pup, he brought only \$25. That was 20 years ago, of course, but he became a Champion!"  
"My good woman, don't you realize how much prices have gone up since then? Look at hamburger, for instance..."  
"Oh, Mister, how I'd love to look at hamburger!"

"Stop it—please! My point is that the price of nearly everything has gone way up in the last 20 years. Except electricity. And us dogs don't use electricity. That's unfair. I'm going to raise a howl about it!"  
"But we do use electricity in lots of ways. It cooks our food and warms our baths and whisks our spare hairs off the furniture."  
"H-m—guess you're right, gorgeous gal... And it'll please you to know that the average family gets twice as much electricity for its money today as it did 20 years ago!"  
"Twenty years ago—when Grandpa was a pup—and hamburger was... how much did you say hamburger was?"  
"I'll have to scratch up the exact figure for you. But now I must run along and pick up a scent. Electricity and I—forgive me—do a great deal of work for a cent. Yip, yip! Good day, Mrs. Spaniel."

Though this story's all fun, its facts are all true. Many things are scarce and expensive these days, but electricity is plentiful and cheap. One reason it's so cheap is because of your wider use—but another big reason is because America's business-managed electric companies constantly seek and find new ways to keep it so.

discussed at the meeting," Fuller said. J. A. Jolly, Coordinator of the Knox County Vocational School, together with the County Board of Directors are scheduled to attend the meeting.

B. C. Davis, Director Veterans Education, will represent the Texas State Board for Vocational Education.

N. B. Read, ass't Chief Education Training Services and Q. S. Mathews, Chief Agriculture Training, of the Dallas VA Branch office, Eldon F. Fuller, and VA training officers assigned to the Vocational schools with the Lubbock Veterans administration region will be in attendance.

For eight years now the Texas Safety Association has been asking motorists not to kill themselves. That works with some people, but others apparently attach little value to their continued existence on this earth. To those drivers the Association now is offering a more cold-blooded idea—if you don't value your life, think of your car! If you wreck the one you have now, you may not get another for a long time. Don't be careless today—and careless tomorrow!

## HERE'S HOW THEY PICK IT

Vanguard of completely mechanized cotton farming, the four giant machines pictured above are typical of the more than 100 mechanical pickers which will aid in harvesting the crop in various sections of the Cotton Belt this fall. The National Cotton Council reports that one of the pickers can harvest more cotton in a few minutes than a hand picker would remove from the field in an entire day. Expanded use of machine pickers will be a big factor in lowering the cost of cotton production.

## Glamorous Kitchens To Spotlight Gas Exhibit At Fair

A premiere showing of what is heralded as the Glamorous New Freedom Gas Kitchen will spotlight the greatest display of gas appliances ever shown at the State Fair of Texas opening in Dallas, October 5.

Marvelous appliances for home comfort and convenience will be shown in sparkling array in Lone Star Gas Company's stately building, officials of the company announced. These are the gas cook stoves, heaters, refrigerators and air-conditioners the industry has been planning during long years of war. Now they are here and the dreams conjured from the planner's drawing boards will appear in 14 great display rooms of the unique building. The structure is identified by a huge tower topped by a simulated blue gas flame done in neon lights.

Four kitchens, each cabinet in design and color, will be displayed. One of the kitchens will show the gas appliances in actual operation and Lone Star experts will be available for consultation on menu planning and meal preparation, and kitchen planning and designing. All the kitchens will be complete in every detail, from top of the steel cabinets down to the linoleum on the floor.

The kitchens have been designed by Servel, Inc., manufacturers of the gas refrigerator. They are offered as complete kitchen installations or in separate work units.

A cabinet cowl provides automatic circulation of air for removal of greasy vapors, moisture and cooking odors. Other appointments include a food conditioning cabinet over the refrigerator for crisping cereals and crackers, condiment bays at convenient eye-level for frequently used items, and additional steel cabinets for storage of cups, dishes and other small containers.

The most magical of all new gas wonders will be the all-year gas

## LOCALS

Miss Martha Ann Reynolds left last week for Wichita Falls, where she is attending a nurse's training school.

Mrs. Ben Forman and children of Hobbs, New Mexico, visited Mrs. Foreman's mother, Mrs. Emily Carden, over the week end.

Martha Ann West, daughter of Mr. and Mrs. Cody West, left Tuesday for Abilene, where she enrolled in Hardin-Simmons University for the school year.

Raymond Carden, who left recently for school at Alpine, could not find room at Sul Ross, and returned home Saturday night. He has accepted a position with an electric motor company in Hobbs, New Mexico.

air-conditioner that selects heating, cooling or independent air circulation by the flip of a switch. These air-conditioning units will be on display for inspection and in actual operation to bring comfortable temperature for visitors who will have easy access to lounging chairs, free ice water and clean rest rooms in the modernized building.

A large number of general gas appliances will also be on display and trained personnel will demonstrate and explain their operation. The equipment will include the 19-47 Servel gas refrigerator featuring silent operation and a deep freeze unit for meats and other perishables; gas ranges with heat controls and other time labor saving devices; automatic storage type water heaters, vented gas circulating heaters, floor furnaces, central heating plants that automatically distribute warm air throughout a house; unit heaters that provide heat for commercial establishments; gas equipment for industry and newest restaurant cooking equipment. Information will be available on the value of sweating and providing healthful, veted heating in eliminating wall living conditions.

Gordon Gaines, son of Mr. and Mrs. J. R. Gaines and grandson of "Uncle Bob" Gaines, left this week for Lubbock, where he has enrolled in Texas Tech for the school year.

Mr. and Mrs. A. B. Warren, Mr. and Mrs. Joe Duke and daughter, Jo Ann, spent last Sunday in Haskell, visiting in the home of Mr. and Mrs. Ed Hester.

Misses Louise Speigelmier and Helen Haymes left last Monday for Abilene, to enter McMurry College for another year. Lee Haymes took them to Abilene.

Mr. and Mrs. Joe Steinbach of San Antonio and Mrs. Frank Kirt of Seguin, Texas, visited in the home of Mr. and Mrs. George Steinbach over the week end.

Sheriff and Mrs. L. C. Floyd and Mr. and Mrs. Douglas Meinzer have returned home after several days in San Antonio, where they visited with Mr. and Mrs. D. V. Hutcheson and family.

Mr. and Mrs. J. D. McStay and son, Johnnie, of Vernon, spent Wednesday and Thursday of this week in the home of Mr. McStay's mother, Mrs. S. E. McStay.

Miss Mary Alice Beck left the first of this week for Denton, where she enrolled in the Texas State College for Women.

A. H. Mitchell, local manager of West Texas Utilities Co., went to a Wichita Falls hospital on Wednesday, where he is receiving medical treatment.

For quick results, use a Munday Times classified ad.

According to the Texas Safety Association, 219 persons have been killed by drinking drivers the first six months of this year; 66 per cent of the drivers had no driver's license. If you drink, it's your own business. But if you drink and then drive an automobile then it's everybody's business, says the Association. You may not care about your own life, but a lot of people care about theirs.

## Take it Easy

You can afford the luxury of Automatic Central Gas Heat

CLOSET-TYPE AUTOMATIC GAS FURNACE  
For the cottage where space is limited this closet-type furnace is ideal for installation in small space. It provides clean, warm air throughout the house. It is completely automatic. It is quiet, efficient and costs little to operate. It is vented to a flue.

How would you like to sit back and enjoy life during winter without a single heating worry? You can! Simply include heating as part of house in your remodeling or building plans.  
Closet type central furnaces are being specified here in Southwest by new home builders. They like this furnace because it provides fresh, cleaned, warmed air automatically. They like it because it can be installed in small space. They like it because it costs little to operate. And they like it because it is vented to a flue.  
You, too, will like it. And you can afford it when it is included as part of house cost. Remember, a house is no more modern than its heating system.

## Sheppard Field To Hold Surplus Vehicles Sale

Sheppard Field at Wichita Falls is one of the six sites at which sales of surplus used motor vehicles will be conducted by the Fort Worth regional office of War Assets Administration in the week beginning Monday, September 23. The sale at Sheppard Field is set for Thursday, September 26 from 9 a. m. to 5 p. m. and will offer exclusively to veterans of World War II a total of 39 vehicles recently declared surplus to the needs of the Army.

Included in the offering are listed passenger sedans, jeeps, weapon carriers, carryalls, ambulances, scooters, truck tractors, a bus and various makes and models of trucks.

All veterans holding certificates for any of the motor vehicles in the sale are eligible to buy and will be waited on in strict accordance with the oldest dated certificates being served first.

Sales scheduled at other military installations by WAA for the same week include: Sept. 23, Big Spring AAF; Sept. 24, Amarillo AAF; Sept. 24, Abilene AAF; Sept. 24 Goodfellow Field at San Angelo; Sept. 26 and 27, a two day sale at Camp Hood.

## Veterans' News

### VETERANS NEWS

Officials in the Dallas Branch Office of the Veterans Administration are making strenuous efforts to help every disabled veteran seeking education to get into the crowded schools of the Southwest this fall.

All schools in Texas, Louisiana and Mississippi have been contacted within recent days and urged by VA to give preference to disabled ex-soldiers when classes are enrolled late in September.

General Bradley, Veterans Administrator, has taken a personal interest in helping disabled veterans to finish their schooling and has directed that every resource to this end be used.

A list of schools in the Southwest which have indicated they are able to give preference to disabled veterans is now being compiled by VA.

Nearly 10,000 disabled veterans of Texas, Louisiana and Mississippi were in training or enrolled in schools at the beginning of August. This is more than seven times the total number—1,252—enrolled a year ago.

VA's loan guarantee officers had some words of advice this week for veterans who want to start small businesses on a GI loan. One experienced loan officer summed it up this way—

"If you are thinking about going into business for yourself, Mr. Veteran, walk—don't run—to your lending agency for that GI loan. And before that—think things out carefully.

"There are many indications that this is an especially good time to start a small business, and it is understandable that many veterans should want to start right now.

"The GI Bill made it relatively easy for them to get capital. But it takes more than capital to make a success of a small business. It takes experience, good judgement, and a lot of hard work.

"There is always an element of risk. A large percentage of small business fail within a year. In most cases, that is due to lack of experience and preparation on the part of the new owners.

"Veterans should get the advice of trusted and experienced business men before such a venture. They may give you valuable advice.

"Bear in mind that this loan benefit is available to veterans for ten years from the official end of the war. And that date hasn't been set as yet."

### Questions and Answers

Q. What amount of guaranty may be issued on behalf of any one eligible veteran?

A. Up to \$4,000 on real estate or up to \$2,000 on personal property or business loans, and not more than 50 per cent of any loan may be guaranteed.

Q. If part of the guaranty has been used, how is the remaining guaranty computed?

A. To compute the used guaranty, subtract the amount of realty guaranty available, or half that amount is the sum of personal property or business loan guaranty available.

Q. Are there any circumstances under which the guaranty may exceed 50 per cent of the loan?

A. Yes. Where a Federal Agency has made or is to make a guaranteed or insured loan for any of the eligible purpose, and the veteran needs a fully guaranteed second loan. This second loan may be fully guaranteed if—

(a) the amount involved is not in excess of the veteran's available guarantee, and

(b) the loan is not in excess of 20 per cent of the purchase price or cost.

Q. May several veterans use the guaranty to acquire property jointly?

A. Yes, but the total amount guaranteed may not exceed 50 per cent of the loan or the total en-

titlemen for guaranty of the veterans, whichever is lesser. No loan may be guaranteed to exceed 50 per cent except a loan secondary to one made, guaranteed or insured by a Federal Agency.

Q. May a lender require security, in addition to the property being purchased, if the lender is not satisfied with the loan without additional security?

A. Yes. This is a matter between the veteran and the lender. The VA does not object to its being given if the veteran is willing to give it.

Q. Is the guaranty or insurance privilege of a veteran restored to its original amount when the indebtedness is repaid?

A. No.

Mr. and Mrs. A. L. Smith went to Waco last Monday to take their son, Lyndol, who enrolled as a freshman in Baylor University to the school team.

Mr. and Mrs. Varnie Moore of Abilene visited with Mrs. Moore's father and sister, J. C. Campbell and Miss Dolores Campbell, over the week end.

Dr. and Mrs. Elmo Anderson of Borger spent the week end with Mrs. Anderson's parents, Mr. and Mrs. J. R. Burnison.

**First and Second Grade News**  
 Irene Burkett has a new baby brother, David Edward.  
 Jerry Johnson went to his cousin's birthday party at O'Brien Saturday.

Stella and Helen Acosta saw many pretty things to buy in Abilene Monday.

Phillip McAfee went to church at Knox City last night. Phillip's daddy has gone fishing, and he wants Mr. McAfee to bring him a big fish. Not a mermaid, however.

Carrol Clabourne went to see her grandmother, and she baked a mud pie while there.

Glenna Voss bought a new blue sweater, and it is too small for her.

Laverne West went to her grandmother's over the week end.

Willy Burkett's mother is well now.

Leon spent last week end at Lubbock, Muleshoe, and Littlefield.

Essie LeFevre visited her cousin

in Rule.  
 Jackie Hugh's sister came home.  
 Betty Jean Hawkins went to see her aunt at Weiner this week.

**Fourth and Fifth Grade News**  
 Roy Lee Voyles spent a week visiting in Lubbock.  
 Jimmie Earl Morgan's cousins visited him. Jimmie missed school Monday because he was ill.

Shirley Orsak's aunt from La Grange, Texas, is moving here. She reports her cousin will attend school at Sunset.

Jessie Acosta went to Abilene Monday. He accompanied his parents there to take his sister who is attending Hardin Simmons University.

Jose Leija reports his cousin married last week.

Wayne Butler's grandmother from Oklahoma is coming to visit them.

**Sixth and Seventh Grade News**  
 We have a new pupil this week in the seventh grade. He is Bobby McCord and hails from Valley View, Texas. Welcome to our class, Bobby.  
 Barbara Jo is sporting a new dress this week that is very becoming.

Goldie went with her parents to Carlsbad Caverns in New Mexico last week. Her description of the wonderful caves has made us determined to visit them some day.

**Eighth Grade News**  
 We are glad to have a new pupil, Bobby McCord from Longview.  
 Charles went fishing Friday and caught eight fish.

Madge Hardin's sister from Borger, Mrs. Clyde Followwill, visited her last week end.  
 Andrellita Gonzales attended her cousin's wedding Saturday.

**Freshman News**  
 The Freshman class has been doing some very successful experiments in general science.  
 We are glad to have Mr. McCord

## Gin Your Cotton In Goree...

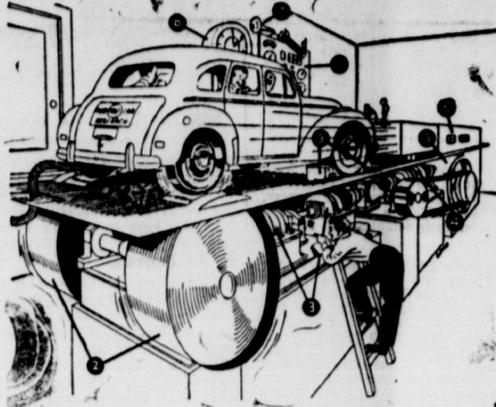

Both gins in Goree have been thoroughly repaired and are ready to operate. The concrete gin is now in operation and the other one will be ready to go as soon as the volume of cotton is sufficient to justify its operation.

We appreciate your business in the past and invite you to try us again this year. We will give you the best price possible for your cotton and seed. The first year following a war, farm prices usually hit their peak and this may be no exception. Gin with us where you can sell your cotton on grade cards or actual sample, and where you will always receive top price for your cotton.

The Pendleton Gin buildings have been dismantled and the material was used to construct the La Paloma courts for housing cotton pickers. We have living quarters for 150 hands as it consists of five large buildings with a total of forty five rooms. We have several large crews here now, ready to pick. If you need cotton pickers, come to see us and we may be able to help you.

**THE GOREE GINS**  
 GOREE, TEXAS

## Off To Nowhere — At 70 Miles Per Hour

**PITTSBURGH, PA.** — This fantastic looking device resulted when scientists built a highway inside a laboratory. A motorist's dream, it artificially creates all basic driving conditions, but eliminates annoyances like traffic, chickens, slippery pavements and red lights. Better motor fuels are expected from the faster, more accurate testing of gasoline, possible with this Gulf research development.  
 Sketched from life, a test crew here accelerates to 70 m.p.h., the driver not bothering to watch the road. Mileage and test data are recorded on huge instrument board (1) outside car. Rear wheels rotate heavy drums (2) which gear into flywheels (3) electrically manipulated to simulate various vehicle and passenger loads. A combination electrical motor and absorbing unit (4) creates artificial uphill and downhill grades by speeding or retarding drums. A fan (5) delivers air at velocity proportionate to speed against car, and air conditioner (6) supplies artificial temperatures. Siren (7) warns of mechanical failure. Scale (8) indicates torque; chocks (9) hold front car wheels motionless.

for our new algebra teacher.  
 In Home Ec we are learning some interesting things about color combinations.

Our essays for this week returned to us with some heartening grades and comment.

**Sophomore News**  
 We had one radiant faced sophomore among us this week. Lorene Hale's smile lighted up the darkest corners in our room. What her smile lacked in luster was made up by the shine of that new gold wrist watch on her left arm.

Only Audrey Atchley continued taking her beauty nap in World History this week. We other girls have changed our complexion care to Babo and are squeezing by without that nap, just to please Miss Cash and Julius Caesar.

**Junior News**  
 Today marks the end of the fifth week of school here at Sunset. Classes have progressed nicely with the exception of a few in which sleepers had to be nudged. These students' theme song is Give Me Five Minutes More.

We were glad to welcome Mr. J. W. McCord into our school this week. He will teach Algebra, Geometry, civics, and coach basketball.

We girls have begun to enjoy our typing labs. Educating our fingers is a little more difficult than some of us had anticipated.

In order to perfect our essay writing technique we are endeavoring to learn to become philosophers. So far strained effort is the only means by which we can do

to be our basketball coach.  
 Miss Cash is our new Home Ec. teacher, from Wichita Falls. She has her B. S. degree which she received from T. S. C. W. Her major is home economics. She is teaching world history and general science, also.

Mrs. Alma Address is our new grammar school teacher. She received her B. A. degree when she graduated from Santa Barbara College in California and her B. S. degree when she graduated from Weatherford State Teachers College in Oklahoma. She received a life's degree for teaching from both places. She has several majors but is interested in elementary education.

## Weekly Health LETTER

Issued by Dr. Geo. W. Cox  
 M. D., State Health Officer  
 of Texas

Austin.—The State Department of Health has just issued a warning in regard to scarlet fever, as the number of cases usually increases during the fall months. The majority of deaths from this disease occur from October through February.

Scarlet fever is a very contagious and serious disease. Grown people may contract it, but children under 15 years are especially apt to have it, if exposed. It is especially dangerous for children under 5 years, and Dr. Geo. W. Cox, State Health Officer, warns to "not let your children take any chances with scarlet fever. Call the doctor as soon as the first symptoms appear."

If your child has contracted scarlet fever, the first signs you may notice are that he seems tired, restless and out of sorts. Usually, there is a sore throat, chills, vomiting, or convulsions and fever. His skin is dry and hot. His tongue is furred, and, under this white covering, it is red and swollen. In ordinary cases, these early signs are followed in a day or two by a rash. Little flat red points, close together, appear first on the neck and chest and soon the rash, very red in color, spreads over most of the body.

The doctor is required by law to report the case to the local health officer. Do your part by following carefully the quarantine instructions which the health officer will give you, since a severe or fatal case of scarlet fever may develop from contact with some one who has only a slight attack. Children who have had scarlet fever, or who have been exposed, must not return to school until permission is given by the health officer and physician.

Local Harvest Festivals are being planned throughout the nation now to encourage an increase in home food production and preservation.

As a result of the National School Lunch Act, more children over the nation should soon be getting better lunches.

## LOCALS

Sam Salem visited with his wife and children in Dallas several days last week.

Mr. and Mrs. Walter Skiles and family spent last Sunday in Stamford, visiting with relatives.

Miss Ella Mae Sherrill returned to her home in Fort Worth last Sunday after six weeks' visit in the home of Mr. and Mrs. Clayton Wren.

Mrs. Olive Keene spent the week end in Plainview, visiting with her sister, Mrs. Nancy Ross, and with other relatives.

Dick Harrell, who has been spending the summer with his parents, Mr. and Mrs. E. W. Harrell, left Friday for Galveston, where he

is attending the Texas School of Medicine. He went by bus by way of Austin, where he visited for a few days before going on to Galveston.

Mr. and Mrs. S. R. Morton of Seymour visited with their son and daughter-in-law, Mr. and Mrs. Tom Morton, last Sunday.

C. R. Elliott was a business visitor in San Angelo area last Friday.

Mr. and Mrs. James A. Rayburn were here last Friday night, visiting with friends and attending the local football game.

Miss Quintna Wiggins of Wichita Falls visited with relatives and friends here over the week end.

Mrs. Aristel Thompson of Austin is spending a few days in Munday with her parents, Mr and Mrs. J. R. Burnison.

## Make Reservations For Sunday Dinner

See us, or call us, anytime before noon Sundays and we'll be glad to reserve tables for you and your party.

We serve delicious chicken and steak dinners on Sundays.

Bring your friends and enjoy a Sunday dinner at the . . . .

### Amendment For Better Texas Roads Receives Support

Charles E. Simons, executive vice-president of the Texas Good Roads Association, expressed gratification today in the State Democratic Convention's resolution recommending adoption of the Good Roads Constitutional Amendment by the people in the November 5 General Election.

"This is a great step forward," Simons said, "and it is extremely gratifying that the convention adopted the resolution unanimously."

The Good Roads Amendment provides that motor vehicle registration fees and gasoline taxes, other than the one-fourth of the gas tax allocated to the Available School Fund, shall be used for the construction, maintenance and policing of public roadways and for the purchase of necessary right-of-way.

"The development of a system of runny highways and farm-to-market roads is essential to the economic welfare of the state and is vital to the enrichment of the lives of our rural people," the Convention resolution pointed out.

Continuing, the resolution stated, "This proposed Constitutional Amendment has the endorsement of those public agencies responsible for the development of our road system."

Threats of diverting road money to non-highway purposes into past caused confusion and uncertainty among road planners, who felt a hesitancy to begin long-range projects without the assurance that funds would be available

when necessary. Realizing the existing situation, the convention's resolution declared, "Stability of road finances is necessary to permit road administrators to plan effectively a long-range program of rural road construction, which stability can be guaranteed only through constitutional means."

Present U. S. Department of Agriculture estimates on the national wheat crop is 1,132 million bushels, with a 101 million bushel carryover from last year.

#### IT PAYS TO ADVERTISE

### COTTON QUIZ

WHY DO FASHIONABLE WOMEN WEAR "LONG" COTTON SHORTS ON THE BEACHES IN BERMUDA?

ANS—IT'S AGAINST THE LAW THERE, TO WEAR SHORTS WHICH COME HIGHER THAN TWO INCHES ABOVE THE KNEE, HENCE THERE'S A WIDE DEMAND FOR "FEEL FREE" AND OTHER "LONG" SHORTS.

### Saddles

By GEORGE S. BENSON  
President of Harding College  
Searcy, Arkansas

CASPER, Wyo., boasts a saddle maker who has been at the business for 40 years in that city. Not long ago I visited his shop as a prospective customer, the Harding College stable being in need of saddles. He was no better able to supply us than shops nearer home but he gave me some facts I had not learned while shopping for saddles in other cities.

A good saddle is built on a wooden frame called a tree, much as a shoe is built on a wooden last, except that the tree is built into the saddle and becomes a permanent part of it. Saddle trees are made by men of a highly specialized craft. Trees have to be shaped right, no bulkier and no heavier than strength and design require. Men able to do such things with wood are scarce.

Building DURING the war gliders Uncle Sam needed skillful saddle-tree men in the construction of gliders. "The government employed most of them at about \$160 a week," the saddler declared. Good saddles, not being made any more, might have skyrocketed in price but the Office of Price Administration fixed a ceiling to stop it. Stocks of new saddles soon were bought up by users.

Now the glider business is slack. Wonders have been done with gliders and they are not being forgotten, but fewer are being built. Unemployed saddle-tree men would like to start building saddle trees again—there's quite

a demand. Living costs have built up, however, and they think they ought to have \$120 a week. That's \$6,000 a year and 25% under their defense plant scale of pay.

A fair SADDLE manufacturer, Figure it's the one in Casper, want trees because—no trees, no saddles. They would be willing to pay tree builders \$120 a week if saddles might be sold at prices they would easily bring. I guess there are thousands of customers besides me who are ready to pay more for a saddle than it would have cost in the months immediately before the war.

"If today I engaged a good tree builder," said the Wyoming saddler, "paid him \$120 a week in return for his most competent work, and then sold the total product at ceiling prices, it would pay about three-fourths of the wages of the man who made the trees." Obviously it is out of balance. Craftsmen, manufacturers, dealers and users are all waiting for ceilings to lift.

The saddle business is small and many small business men are smothering for sales that are tied up by O.P.A. Plants, employing less than 1,000 men, provide jobs for 78% of industrial workers. Carried too far, this price policy can bring panic and poverty. Liquidating some war-year bureaus would help balance the national budget and help clear the way for new and much needed production.

### Corn Is Still U. S. Top Crop

SOLENECTADY.—Of the four plants that are strictly American, corn dominates our agriculture, according to Jared van Wageningen, Jr., 75-year-old farmer, philosopher and writer of Lawyersville, N. Y. He spoke here over WGY on the General Electric Farm Paper of the Air Program.

"In the United States for every bushel of wheat we grow, we have three bushels of corn; and for every dollar that wheat brings, corn brings two dollars," Mr. van Wageningen pointed out. "Corn makes up 80 per cent of all the grain that goes into the production of meat. Most of the wheat is sold into the world markets, but 80 per cent of the corn crop never leaves the farm where it is grown."

Naming the four plants that America contributed to our farm economy, Mr. van Wageningen said:

"One of these is the tomato, which only within the past 100 years has come into wide general use. Another was the potato which on being taken to Europe promptly overran most of that continent and attended a more important place there than it has ever had with us. The third new introduction was tobacco. The last of the group, the plant which in importance far outranks all the others combined, is imperial corn."

More than 10,000 safety leaders from all over the nation will attend the first post-war National Safety Congress and Expositions October 7-11 in Chicago, according to the National Safety Council.

For quick results, use a Monday Times classified ad.

Mrs. L. M. Aaron and Mr. and Mrs. C. Webb and daughter, Donna, of Fort Worth; Mrs. Bill Raney and daughter, Beth of Waco, and Mrs. Pearl Boyer of Hereford were guests in the J. F. Lowrance home last week. Mrs. Aaron and Mrs. Boyer are sisters of Mrs. Lowrance's mother, Mrs. Rawlins, who makes her home with her. Mrs. Rawlins accompanied Mrs. Boyer home for a visit.

Miss Jean Reeves left last Sunday for Denton, where she has entered Texas State College for

Women for the school year. Her parents, Mr. and Mrs. J. E. Reeves, took her to Denton.

Mr. and Mrs. B. L. Blacklock went to Austin last Sunday to take their son, Wayne, who enrolled in Texas University for the school year.

Miss Barbara Jane Almanrode left Monday for Abilene, where she enrolled in McMurry College as a freshman. Her parents, Mr. and Mrs. R. M. Almanrode, took her to Abilene.

## Good Stock Of Aluminum and Enamelware

### Project For Horn Fly Control Proves Success

The horn fly control demonstration that is being conducted on the League Ranch with the use of DDT and Sulphur, has proven very successful since it began April 23 at the beginning of the fly season. One hundred and thirty-five head of registered cows and calves were dusted for the seventh time, Wednesday, September 11, 1946, according to Assistant County Agent, R. J. Penick.

Since it had been 29 days since the last dusting, and there have been several showers lately, the flies on the cattle were estimated to number in hundreds. However 15 minutes after the cattle were dusted, they were free of flies. Best results are obtained when the treatment is given every 21 days, for that seems to be the maximum effective time limit on DDT. The method used in this demonstration is put the cattle in a crowding pen and dust them with a mixture of 1 pound 50% wettable DDT and 9 pounds wettable sulphur. This is applied from a fruit jar with a perforated lid.

Jack Idol, manager of the League Ranch, plans to dust all cattle on the ranch that are handled during this fall fly season. Since they are particularly bad during this season, all cattle that are treated will just do better and go into the winter in better condition than if they had not been treated.

Mr. E. C. St. Clair, Agricultural teacher in Veterans School, and a group of his men were present at the demonstration. The names of those men are as follows:

Wilfred Bellinghassen, William T. Boggs, George F. Decker, Clifford C. Cluck, Philip F. Homer, Earnest C. Orsak, Jr., Robert M.

Schumacher, Arnold A. Wilde, Walter J. Herring, Alphonse M. Kuehler, Robert C. Albus, Ernests A. Beck, Jr., Claudell F. Bratcher, Finis W. Bratcher, S. A. Hayes, Milton L. Massingill, A. E. McGreger, E. O. Welch, Jr., James Welch and Ervin E. Nichols.

### Activities Of Colored People

The P. T. A. will hold its regular meeting Thursday night. Mrs. T. V. Scott is president. Burton Thomas is a very active member of this organization.

We have about completed the inside painting of our school building, of which we are very proud. Steps are being made for the opening of our lunch room in the near future.

Mrs. Roseta Sanders left Wednesday morning for Wichita Falls to attend a district meeting of the Church of God in Christ. Mrs. Sanders is one of the state workers of Sunday school.
