

## Rev. Davidson Is Returned Here For Third Year

Happily meeting his friends and church members this week is Rev. Don R. Davidson, who was returned to Munday for another year by the Northwest Texas Conference, which convened at Pampa last week. Rev. Davidson has completed two years with the Munday Methodist church and is happy upon being returned to this charge.

Upon returning to Munday, Rev. Davidson feels his obligation to the local church and community, and he plans more advancement for the local congregation during the coming year.

Only a few changes in the Stamford district were made by the conference. Appointments to this district are as follows:

Sam H. Young, district superintendent; Aspermont, Alby J. Cockerell; Avoca, S. A. Sifford; Benjamin, J. P. Patterson; Bomarton, W. J. Knoy; Elbert, Allen Forbis; Goree-Union Chapel, Ray Copeland; Haskell-Paint Creek, Jordan Grooms; Jayton, Marvin E. Fisher; Knox City, Vernon E. Henderson; Lueders, Cecil Tunn; Munday, Don Davidson; O'Brien, C. R. Hankins; Peacock, Melvin Mathis; Roaring Springs-Afton, to be supplied; Rochester, to be supplied; Rule, Lloyd Hamilton; Sagerton-Tuxedo, to be supplied; Seymour, E. L. Yeats; Spur station, Raymond Van Zandt; Spur Circuit, to be supplied; Stamford, St. Johns, J. O. Quattlebaum; Throckmorton, R. L. Butler; Vera, Gloy Lyles; Weibert, H. M. Secord; Westover, J. W. Baughman, supply; Woodson, J. M. Cochran, supply; district missionary secretary, Jordan Grooms; district secretary of evangelism, Don D. Davidson; district director of Golden Cross, Lloyd Hamilton; sabbatical leave, W. M. Culwell.

## Moguls Take Spur 13-0 To Continue Win

The Munday Moguls, conceded champions of District 11-A while they yet have the Albany Lions to play, continued their winning streak last Friday night when they took a hard-earned 13-0 victory from the Spur Bulldogs as a non-conference breather.

The game was played at Spur, and a number of fans who have followed the Moguls through their championship journey were there to see them in action again.

Munday's first score came in the second period, as Billy Bouldin flipped a 15-yard pass to Joe Spann to take a 6-0 lead over Spur. This came as a concluding play to a 40-yard sustained drive which followed a poor Spur kick.

The Bulldogs threatened to score in the third period, but the drive bogged down on the Munday 25, as the Moguls put up a stubborn defense as the Moguls put up a stubborn defense.

Munday scored her last tally in the final period on a 70-yard sustained drive, with Don Waheed carrying the ball over the final 5 yards to make the first touchdown of his football career. Don has substituted, in and out, during the entire year and has played wonderful football, but this was his first opportunity to score.

Billy Dyess, stellar Spur quarterback, was hurt and removed from the game shortly before Munday's last touchdown drive ended.

Munday's guard, Cadwell, turned in a good game, and Montgomery and Bouldin were outstanding in the Munday backfield. James Sharp, fullback; Morris Denson, guard, and Center Dean Wright starred for the Bulldogs.

## Voss Infant Is Buried On Friday

David Randall Voss, infant son of Mr. and Mrs. V. C. Voss, passed away at Abilene at 5:15 p. m. Thursday, November 7, having lived only 12 hours after birth.

Besides the parents, the child is survived by his grandparents, Mr. and Mrs. J. T. Voss and Mr. and Mrs. Terry Harrison, all of Munday.

Funeral services were held at the graveside at two o'clock last Friday afternoon, conducted by D. L. Harguess of Weibert. Burial was in the Johnson cemetery, with the Mahan Funeral Home in charge of arrangements.

## Price Control Board For Area Closed Nov. 4

The Price Control Board at Haskell, Texas serving the counties of Haskell, Knox and Throckmorton will close on November 4, 1946, S. N. Reed, Chairman of the local board announced today.

"This step marks the conclusion of almost five years of unprecedented patriotic service by volunteer citizens of Haskell, Knox and Throckmorton counties, who, through their thousands of hours of volunteer work, have prevented inflationary dangers from taking effect and saw that their neighbors had an equal right to their fair share of scarce commodities during the days of rationing," Mr. Reed said.

"Members of Haskell's Price control Board stayed on the job for more than a year after the end of the war. Production has had a chance to catch up with demand. Now that President Truman has announced the program for accelerating the remaining wartime controls, Price Administrator Paul A. Porter has determined that the remaining functions of local boards can be continued by the District OPA Office at Fort Worth."

Mr. Reed gave the following information as to the conducting of OPA business in the future.

1. Trade and consumer inquiries about price control formerly handled by Price Control Boards should be addressed to the OPA District Office in Fort Worth.

2. Certificates of Transfer covering sales of used passenger automobiles may be obtained from principal auto dealers. Dealers should request additional supplies from the OPA Regional Center at Dallas.

3. Sugar rationing has been administered from the District Office since last January. In the future, sugar forms required by the trade and consumers may be obtained from the District Office.

4. Pending compliance actions by the board will be transferred to the District Office.

5. The local board office will be closed for the transaction of public business on November 4. However the paid clerical personnel will continue on duty during the month of November in order to transfer records to the District Office and to perform the many other duties involved in closing the board.

## Home Ec Girls To Sponsor PTA Program Nov. 20

The homemaking girls of Munday high school will sponsor the P. T. A. program to be given at the school gymnasium on November 20 at 4 p. m.

The public is invited to attend this program. The girls will have a guest speaker, Miss Harriet Pruitt of the Lone Star Gas Co. at Wichita Falls, whom many in this area already know. She will give an interesting talk on some phase of nutrition. The homemaking girls will also give a short program.

Your support is asked for this meeting.

## Vera 4-H Club Elects Officers

At a special election meeting November 6th, called by the president, Vera 4-H Club members elected the following officers to serve for 1946-47: President, Jack Peddy; Vice-President, Jimmie McGaughey; Secretary, Paul Laws; Reporter, Marvin Jones, and song leader, Morris Christian.

Mr. J. M. Carpenter met with the club and a discussion covering the program for the year, including the selection of projects, future club demonstrations and special activities, was held. The twenty members present suggested a membership drive, so newly elected President Peddy appointed a membership committee with Jerrel Trainham as chairman to work on their suggestion. Many of the club members have started their projects and report good progress.

### ATTEND WEDDING

Mr. and Mrs. Chan Hughes and little Chan spent last Sunday in Fort Worth, where they attended the wedding of Chan's brother, Alvin Hughes, and Miss Margy Kislir.

## Tax Collector Makes Schedule Of Collections

E. B. Sams, tax assessor and collector, Wednesday announced a schedule for tax collections which will be followed next week. The schedule is as follows:

Truscott, Monday, Nov. 18; Gil-land, Tuesday, Nov. 19; Vera, Wednesday morning, Nov. 20; Rhineland, Wednesday afternoon, Nov. 20; Goree, Nov. 21; Knox City, Nov. 22, and Munday, Nov. 23.

This schedule is arranged so tax payers may pay their current taxes without the necessity of making a trip to Benjamin for this purpose. Mr. Sams has followed such a schedule for the past several years.

## Kaiser Car To Go On Display

America's most talked-about car, the new Kaiser special, was received here Thursday and will go on display Friday morning at the showrooms of Broach Equipment, local dealers.

Fred Broach, Jr., owner of the firm, invites the entire public to come in and see this new car. Only the Kaiser will be on display, as the local dealer has not yet received the Frazer.

"Come in and see why these are America's most talked-about cars," Broach said. "These smart automobiles set a new style trend for the industry—their performance is a joy to experience—their ride brings you motoring pleasure no pre-war car could ever give you."

## American Legion To Meet Tuesday

Officers of Lowry Post No. 44 of American Legion have announced that an important meeting of that organization will be held next Tuesday night at the Legion hall.

Plans for continued work on the new Legion home will be discussed, as well as other important matters. All Legionnaires and ex-service men are urgently requested to be present.

## Fowl Pox Outbreak Shown In County

Several farmers in Knox County report that their flocks of chickens are suffering from attacks of Fowl Pox. This contagious disease, characterized by small eruptions, on the comb and wattles of the birds, spread rapidly. The only practical method of combatting against outbreaks is the use of a fowl pox vaccine distributed by makers of poultry medications.

This vaccine should not be used however, except when it is known that the disease exists, or the flock is exposed to a neighboring diseased flock. Assistance has been given three flock owners this week by the county agent, and it is expected that the disease will be well under control within two weeks.

### HOME FROM OVERSEAS

Utah Groves, son of Mr. and Mrs. D. M. Groves, has returned to the states after several months of service with the occupational forces in Germany. He recently received his discharge at Fort Sam Houston, Texas.

Larry Sims, 11-year-old motion picture "veteran," is the new "Alexander," smart-aleck scion of the Bumsteads, on the Sunday CBS "Blondie" comedy series. When "Blondie" started on CBS more than seven years ago, Larry was too small to read, hence couldn't broadcast in the role which he was then inaugurating in pictures. He has played "Alexander" in 19 films.

DISCOVERER of a new concept of infantile paralysis which has banished crippling and deformity for untold thousands of little sufferers, Sister Kenny heads nationwide Elizabeth Kenny Foundation in implacable fight against the disease.

## Polio Campaign Begins In Texas On November 18

Austin.—The 1946 campaign for the Sister Elizabeth Kenny Infantile Paralysis Foundation Campaign will get underway in Texas on Monday, November 18. This will follow a formal announcing of the campaign by Kate Smith, the national chairman, Saturday, Nov. 16, over a nationwide radio broadcast, from 9:00 to 9:30 p. m. Bing Crosby, chairman of the national executive committee, and Rosalind Russell, chairman of the women's division will also be heard on the opening broadcast.

Chairman for more than 150 counties has been named throughout the state and solicitations will get underway on the opening day of the campaign. However, George C. Francisco, Jr., chairman of the Texas Executive Committee, has sent out a statewide appeal for workers and has asked them to write into State Headquarters at the Driskill Hotel in Austin to volunteer their services. The state quota is \$150,000.

Every county in Texas has been assigned a quota and all donations sent direct to State Headquarters will be credited to the county from which they are received.

Sheriff and Mrs. L. C. Floyd visited with Mr. and Mrs. D. B. Bowden of Abilene last Saturday night, enroute to San Antonio.

Mr. and Mrs. A. P. Yarbrough of Dallas visited with Mr. and Mrs. B. A. Yarbrough over the week end.

Mr. and Mrs. E. B. Littlefield and daughter, Gayle, visited with relatives in Odessa over the week end.

Mr. and Mrs. Garland Hawkins and little daughter of Sweetwater visited with relatives and friends here over the week end. Mrs. Hawkins remained for a longer visit here.

Mr. and Mrs. Dee McStay and son, Johnny, of Vernon spent Thursday of this week with Mr. McStay's mother, Mrs. S. E. McStay.

J. D. Mounce of Seymour spent last Thursday here, visiting with his daughter, Mrs. T. J. Mitchell.

Miss Gwendolyn Groves of Wichita Falls spent the week end with her parents, Mr. and Mrs. D. M. Groves.

Mr. and Mrs. Fred Crenshaw of Benjamin were business visitors here last Saturday.

## Weather Report

Weather report for the period of Nov. 7 to Nov. 13th, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
Nov. 7	38 55	70 81
Nov. 8	40 53	72 75
Nov. 9	59 38	75 54
Nov. 10	38 40	59 53
Nov. 11	29 49	56 66
Nov. 12	44 58	56 72
Nov. 13	48 39	65 71

Rainfall to date this year, 22.91 inches; rainfall to this date last year, 20.78 inches.

## Crop of Sudan Seed Is Short

Farmers of Knox county should store their sudan seed for next year now to avoid searching for seed later on. Texas is estimated to have its smallest crop of Sudan since 1929, and the entire nation's supply is 34 per cent smaller than in 1945.

Harvesting of the seed from sudan killed by the frost, will give a few growers seed to store and sell, but not enough to meet the demand. Some farmers, including J. C. McGee, of Knox City, are now ordering certified seed to produce more certified seed in Knox county for sale next year.

A survey of the county shows that sudan is favored by most farmers and seed growers.

### JACK ORB COFFMAN WRITES FROM JAPAN

After some delay, word has been received from Pvt. Jack Orb Coffman, who has been in Japan since the first of September.

Jack has finished his jump training in the paratroopers. He writes that he is well and is pretty well situated over there.

## 8 New Books Recently Added To Library

Eight new books of interest to the reading public have recently been added to the Munday Public Library. They are as follows:

1. Hiroshima. This is a story of six human beings who lived through the greatest single man-made disaster in history. With what Bruce Bliven called "The simplicity of genius," John Hersey tells what these six—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—were doing at 8:15 a. m. on August 6, 1945, when Hiroshima was destroyed by the first atom bomb ever dropped on a city. Then he follows the course of their lives hour by hour, day by day, building up with sure quiet artistry the already classic piece that Lewis Gannett called "the best reporting to come out of this war."

2. Thunder Out of China. For years Theodore White and Annalee Jacoby have seen and studied the unfolding tragic drama of events across the Pacific. As joint members of Time's Chung-king bureau they have had a special opportunity to observe and report, and their deep enthusiasm for the Chinese people has taken them far outside the ordinary confines of Far Eastern reporting. Here are the roots and reasons for the civil war that has been gnawing China's vitals; here is the record of the United States' unsuccessful attempt to formulate a China policy and bring out of chaos. Here is an intimate and warm appraisal of one of the greatest American generals—

"Uncle Joe" Stilwell—and a much less tender estimate of Ambassador Hurley in action. Here are the campaigns, in jungle and rice-field and mountains, which vitalized Japan's strength. And above all, here is the portrait of 500,000,000 Chinese people, eager for a new world, swamped in their government. (Continued on Page Eight)

## County Agents Of Area Meet In Wichita Falls

Twenty-one county and thirteen Home Demonstration agents were given Outlook Information for 1947 at the District III meeting in Wichita Falls, November 4th and 5th, by Specialists Chester Bates and Florence Low of College Station.

Summed up, the following is a general outlook in agriculture for 1947: Cash receipts from farm marketing and government payments may be five per cent less than in 1946, and there may be a slight increase in production costs. Consumers are likely to be looking more for manufactured goods than farm products. Also foreign demand for farm products is likely to be smaller in 1947.

Specialists indicate that the U. S. carry over of cotton in 1947 will be the lowest since 1929, which should help keep cotton prices up. The cattle prices for 1947 may decline in the summer and fall of 1947 as marketing increases from cattle being fed, particularly if general business activity should decline at that time. The poultry outlook is brighter with prospects for higher prices of eggs next year. An estimated increase in price of 7 per cent is anticipated. Wheat prices may drop some if the currently high exports taper off and a good crop of wheat is made next year.

Supplies of feed will be larger in 1947 and may increase the number of hogs marketed.

The supply of farm equipment will increase very little, but the supply of tires is expected to be adequate.

## Bond Promotion Drive Under Way; Ends Dec. 7th

Knox county citizens are asked to help raise the E Bond quota for Texas of \$35,000,000 between Armistice Day, November 11, and Pearl Harbor Day, December 7, in the new bond promotion program of the Treasury Department, W. E. Braly, county chairman, announced this week.

Texas' quota for the new drive is \$35,000,000, and it is believed that Knox county's quota will be \$35,000, the same as in the last drive.

"Every individual can make an effective contribution to the fight against inflation during this E Bond promotion," said Nathan Adams, Dallas, chairman of the State Advisory Committee.

## Second Harvest Reaped This Year From Love Grass

S. D. Jones, J. C. Saunders and Charles Schumacher, cooperators with the Wichita-Brazos Soil Conservation District are now harvesting their weeping love grass for the second time this year.

Farmers cooperating with the District and with the help of Soil Conservation Service technicians are planting approximately 1800 pounds of Hairy Vetch seed. The seed was made available by the district supervisors.

Lee Smith has planted seven acres and League Ranch has planted four acres of Canadian Wild Rye grass. These plots will be used for seed increase so that more of this fine grass may be planted in the future. This seed was also furnished by the district supervisors. The Soil Conservation Service film, "Rain Drops and Soil Erosion" was shown to approximately 85 farmers and business men during the week. This film shows the effects rain has on bare ground and ground that has different types and degrees of cover.

Jim Reeves spent last Tuesday in Abilene, where he attended a meeting of the Texas Automobile Dealers Association, which was held at the Wooten Hotel.

Mr. and Mrs. W. E. Braly and Len Fore spent the Armistice Day holidays in Happy, Texas, visiting in the home of Mr. and Mrs. T. L. Fore.

Miss Mary Adelaide Barton of Amarillo was a recent visitor in the home of her parents, Mr. and Mrs. C. A. Barton.

## Munday-Albany Game Is Changed To Thursday

## Moguls Taking Last Jump-Off Toward Championship

Announcement was made here Wednesday that the football game between the Munday Moguls and Albany Lions will be played at Albany tonight (Thursday) instead of Friday night. An effort was made to get the game at Munday, but it was decided to go to Albany as scheduled.

The Munday Moguls, now in top position and with the championship in view, will be playing the team holding the cellar position in District 11-A. They're not calling themselves champions, however, all the dope points to an easy Mogul victory.

The game was changed to Thursday because of other important games in the district that are slated for Friday night.

Hamlin and Anson will be playing for the championship of Jones county, as well as second place in the district. The two teams will collide at Hamlin. Both have defeated the Stamford team, a third Jones county team, by two touchdowns.

Anson, on the basis of recent showings, will be favored over the Pied Pipers.

The battle for fourth place in the district will be between Throckmorton and Stamford, with the game being played at Stamford.

A large number of local fans are expected to follow the Moguls to Albany, to see them make the last championship hurdle.

## Survey Made On Condition of State Schools

The Texas State Teachers Association, has just completed a survey among city and county school superintendents to determine the condition in the public schools of Texas. Replies were received from 1,038 superintendents representing 35,874 teaching positions or about 78 per cent of the total in Texas. The turnover in the teacher personnel in the public schools for this year is the greatest in our history. 9,272 teachers or more than 25 per cent were new in their job when school opened this fall.

Of the teachers included in the survey, 5,730 were listed with sub-standard qualifications which represents 1 out of each 6 in the state. Superintendents reporting stated that they had in their school systems 2,157 classes with a student enrollment of 40 or more. The national standard for enrollment is 27 students in high school classes and 30 in elementary classes. This overcrowded condition has resulted from the shortage of teachers and, in many instances, a lack of adequate classrooms.

Today, Texas needs at least 9,000 qualified teachers to relieve our overcrowded classrooms, to add to the curriculum many subjects that have been eliminated during the war years, and to replace sub-standard personnel.

Superintendent Charles M. Rogers of Amarillo, retiring president of the Texas State Teachers Association commented that: "Today if our public schools could employ immediately all of the students in the colleges and universities of Texas that are preparing to be teachers, we would not relieve our great shortage. I am sure that we do not have in our Texas institutions of higher learning 9,000 people today who are preparing to become teachers. We must raise salaries in Texas high enough to encourage those now in college to enter teaching as their chosen profession. I cannot see any other solution to the problem."

### KNOX COUNTY PIONEER IS BACK ON VISIT

Joe Homer of Portland, Oregon, has been here for some three weeks, visiting with his brothers, A. F. and K. G. Homer, and with other relatives.

Mr. Homer resided here in the early days, and this is his first visit back in Knox county since 1906. He marveled at the development of the county since his days here.

What He Does For His Community Lives On and On."

## ARTIFICIAL PRICE INCREASES

The tremendous price rises that have taken place have imposed a serious hardship on millions of people. Additional rises, at least in some lines, are anticipated. These increases are the inevitable result of present-day operating costs.

Now it appears that additional, avoidable and artificial price increases may also occur—because of restraints on the operation of large-scale merchandising organizations which operate with a minimum of profit, and pass maximum savings on to the consumer.

This is the result of the recent Federal court decision holding that the Great Atlantic and Pacific Tea Company, a large national chain, has been operating in restraint of trade and so is guilty of violation of the anti-trust laws. The opinion specifically held that this chain's policy of cutting costs to the consumer to the bone was against the intent of those statutes. If that decision is upheld in the higher courts to which appeal is being made, it is obvious that low-cost merchandising will be outlawed in large part—at the consumer's expense.

No criticism of the judgment of the courts is involved here. It is the judges' duty to hand down decisions based on what the law says, not on what it should say. Remedial action must come from Congress, which is the source of all Federal law.

And certainly, it will be the duty of Congress to change any law which penalizes efficiency, places a premium on waste, and which forces prices to higher levels than would otherwise be necessary.

## "INEFFICIENT, DISINTERESTED DOCTORS"

The Christian Science Monitor recently published a letter from Dr. Adrian H. Scollen, a distinguished physician of Portland, Maine, in opposition to the proposed Wagner-Murray-Dingell compulsory public health bill. In it, he made this telling observation: "Under the proposed government-financed medicine plan, many thousands of bureaucrats are to be added to the needless mass we already have. Most of them will be non-medical men, but in control of medical affairs. These men will not make medical care a bit satisfactory, but will give to America dissatisfied patients and inefficient, disinterested doctors."

That is a severe indictment, but the lessons of history fully justify it. Compulsory, government-dominated medicine is nothing new. It was estab-

## THE MUNDAY TIMES

Published Every Thursday at Munday  
I. W. Roberts, Editor, Owner and Publisher  
Entered at the Postoffice in Munday, Texas, as second class mail matter, under the Act of Congress, March 2, 1879.  
Subscription Rates  
In first zone, per year \$3.00  
In second zone, per year \$3.00  
The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party politics, publishing news fairly, impartially.  
NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

lished long ago in England, Germany and elsewhere. It exists, of course, in the Soviet Union where the state controls everything. And the verdict of experts who have examined its operation in minute detail is that it harms, rather than aids, the cause of better public health. The doctor becomes a bureaucrat, a tool of the government. The right of the patient to choose a doctor he desires is either abrogated or stringently limited. The dead hand of politics is felt everywhere. So, inevitably, the quality of medical practice declines, progress and individual research are discouraged, and the result is the "dissatisfied patients and the inefficient, disinterested doctors" of which Dr. Scollen writes.

## CHICKEN FEED SAVINGS

Only a quarter of a century ago congressmen were distributing free garden seed to their constituents, but the practice was discontinued as wasteful. A billion dollars was still a figure looked upon with awe by our lawmakers. Times have changed since then. Now the taxpayers have more than garden seed to worry about in the way of government spending.

The popular order is to have the Federal government finance everything from kilowatts to fertilizer, and from local community spending to compulsory cradle-to-the-grave security. "No seed" is chicken feed savings too small to figure in the new order.

As the Portland Oregonian put it, "Sometimes we find . . . we are wishing we were back . . . in the comparatively innocent, carefree and simple times when free garden seeds were considered to be an unholy political racket."

## THE RANGE OF NICKEL USES

Although the majority of people think of nickel as a coin through name and everyday usage, less than 3 per cent of the world's output is used in coinage. For example our five-cent pieces known as the "nickel" contains only 25 per cent nickel, the other ingredient being copper. The principal nickel consumer is the steel industry, while the electroplating field and non-ferrous rolling mill products, including Monel and Inconel, are also large users of this metal. Nickel is used primarily as an alloying element and applications of alloys containing nickel range from the gaint forged gate stems at Boulder Dam down to wire drawn to split-hair diameters and tubing finer than a mosquito's stinger.

Said one woman to another, "I'm so sorry—I forgot all about your party last night." Replied the other, "Oh, weren't you there?"

## Veterans' News

Veterans Administration hospitals in the Southwest have been equipped with the newest type of portable, aluminum "lungs" in a move to reduce the threat of poliomyelitis (infantile paralysis).

A modern adaptation of the "iron lung", the lighter respirator can be used in an airplane, automobile or train as well as in a hospital. Dr. Lee D. Cady, VA's medical director in the Southwest said.

Dr. Cady said a patent can sit up, lie down, or even walk about in his room while wearing the new device, which covers only the chest. While in chief use will be for polio victims, the aluminum lung can be used for artificial respiration in several other types of medical emergencies.

Wilfred M. Bailey, 22, one of the 4,000 students attending Southern Methodist University in Dallas under the VA educational program, has put aside his flying gear and Navy Cross to train for the ministry.

The stocky Texan was awarded the Navy decoration for his part in sinking a Jap aircraft carrier during the second battle of the Philippine Sea.

"I suppose," he said, "that becoming a minister always has been my plan. But it didn't completely formulate itself in my mind until I got out there above the Pacific. Seeing my comrades names disappear from the roster, one by one, had something to do with it."

Bailey is serving as assistant pastor in a Dallas Church. He will enter theology school at Southern Methodist next fall after completing preparatory work.

Since VJ day the number of patents in VA hospitals in the Dallas Branch Area has increased 42 per cent, according to Dr. Lee D. Cady, Branch Medical Director. "On September 30 this year we had 7,503 patents in VA hospitals in Texas, Louisiana and Mississippi, compared with 5,296 on VJ Day," Dr. Cady reported.

## Questions and Answers

Q. Is a veteran eligible for readjustment allowance benefit if he settles in Canada or Hawaii?

A. Residence in the United States, its territories or possessions is a definite eligibility requirement for readjustment allowances. Veterans living in Canada are not eligible. Veterans living in Hawaii are eligible if they meet all other eligibility requirements.

Q. I obtained a G. I. loan on which the Government guarantee was \$2,500. Recently I lost my job and would like to know if I'm eligible for unemployment compensation provided in the G. I. Bill?

A. The fact that you obtained a G. I. loan does not affect your eligibility for readjustment allowances. You may receive them if you meet the requirements specified by law.

Q. My son has been pursuing a course of training under the G. I. Bill, but finds that he can't afford to continue and support himself and his family. Can he terminate his course at any time without notifying Veterans Administration?

A. A veteran should not quit his course of education or training without notifying or obtaining the approval of the Veterans Administration regional office handling his claim. This is necessary so that he will be qualified for further training.

## Weekly Health LETTER

Issued by Dr. Geo. W. Cox  
M. D., State Health Officer  
of Texas

Austin.—With the hunting season now open, Dr. Geo. W. Cox, State Health Officer, is urging that all hunters or other persons spending time in wooded areas use all possible precautions against being bitten by ticks which may infect the victim with relapsing fever. He further advises that when a tick is found, it be removed from the body as soon as possible and that care be taken not to crush the ticks in handling them.

"Tick-bite is contracted, Dr. Cox explained, either from the bite of infected ticks or by absorbing the infectious material through breaks or scratches in the skin." According to Dr. Cox, the disease does not spread from person to person by direct contact but only through the bite of an infected tick or body louse. Prompt removal of the insect is of the utmost importance.

Relapsing fever, commonly called tick-bite fever, is characterized by sudden onset, intense headache located in the front part of the head and pains in the back and limbs. The fever last from three to five days before slowly declining. The temperature will then remain normal for about a week when the fever repeats itself. There may be three, four, or even more such relapses, which accounts for the name of the disease.

Dr. Cox said that the wearing of suitable clothing so as to prevent ticks getting next to the skin is of importance in the prevention of this disease. The insects may be removed with the fingers but the use of tweezers is recommended since this helps to prevent leaving the head embedded in the skin. After removing or handling a tick, the hands should be washed carefully with soap and warm water.

Ordinarily, the more cars in traffic, the more accidents we have—but the traffic death rate is up 50 per cent for the first nine months of the year. WHY? The Texas Safety Association wonders if the adage, "There is safety in numbers," applies—or is it lack of highway patrolmen to arrest drunk drivers and speed demons roaring through our small towns.

The Texas Safety Association says an important phase of accident prevention is engineering, which seeks to build into roads and streets proven safety features. Engineering removes the probability

of accidents—and in some cases makes accidents almost impossible. With the aid of Federal funds, the green light for highway construction in Texas is on—but the red light of authority to acquire property for use as a controlled access facility stymies progress. And more pins go up on the death maps of Texas.

Mr. and Mrs. Olen Coats and Mrs. L. A. Allison and baby of Dallas spent the week end here with their parents, Mr. and Mrs. E. H. Nelson, and with other relatives. Mrs. Allison and baby remained for a longer visit.

Mr. and Mrs. J. W. Roberts visited with relatives in Byers and Wichita Falls over the week end.

Mr. and Mrs. Claude Hill and children visited relatives in Fort

Worth and Dallas the first of last week.

Mr. and Mrs. Aaron Edgar visited with relatives near Quanah over the week end.

# FARM NEWS

## Congressional Committee Completes Texas Hearings

B. F. Vance, State director of the Production and Marketing Administration accompanied by a sub-committee of the House Agriculture Committee of Congress, consisting of Congressmen Steve Pace of Georgia, Tom Abernathy of Mississippi, George Grant of Alabama, and Bob Poage of Waco, Texas on a 1,500 mile trip through Texas. Hearings were held at Vernon, Lubbock and Cameron, Texas.

Other groups of farmers were contacted at Wichita Falls, Childress, Haskell, Eastland, Gorman, Walnut Springs, Waco, College Station, and Houston, Texas.

## Parity Prices should be arrived at by including labor cost.

All farmers favored the continuation and expansion of the Soil Conservation Practice Program and many expressed the opinion that in order to meet competition of synthetics, that yields per acre must be increased through the use of fertilizers and minerals and through other conservation practices. It was also believed that cotton must be produced at lower costs.

Farmers in general expressed their interest and approval of the one-variety cotton program and bale sampling to be done at the time the cotton is ginned. Much discussion was given to the subject of research for new uses of cotton and better marketing of cotton.

## NET FINDS HOME MORE DANGEROUS THAN WAR

Fort Worth—T. C. U. students have been wondering at the courage of a veteran who comes to classes in a wheelchair.

The veteran is Austin Crouch, who entered T. C. U. this semester after many months in the hospital. He served both with the 36th and the 32nd divisions.

But he wasn't injured in combat. He fell out of a pecan tree! "I went through the war with only one small leg injury that I scarcely felt," Austin relates. "Then, eight days after I got home I fell out of a pecan tree and broke my back!"

## You Can't Destroy a Nickel

When the Stanton Island, N. Y., end of the "longest ferryboat ride in the world for a nickel" went up in smoke, among the salvage was some red hot nickels. The ferry house located in St. George suddenly went up in flames, which quickly swept through the terminal destroying docks, train platforms, and most everything in sight. The nickel coins in the turnstiles and cahiers cages, however, composed of 75 per cent copper and 25 per cent nickel, were recovered.

Lee Haymes and Mrs. Don Davidson and children went to Pampa last Friday, where they attended the remaining sessions of the Northwest Texas Conference.

## It Takes Good Breeding To Produce Good Chicks

We have always tried to build fine quality into our chicks. It takes good breeding to produce good chicks, and we insist that our customers get good chicks. Therefore, we want to fill our orders from flocks that we cull, blood-test and mate ourselves. We want to know the kind of breeding back of our chicks, and we want our customers to know that they are getting good quality chicks.

By using Red Chain feeds and proper sanitation, you can get the desired results with our chicks.

You may now place your order with us for chicks to be delivered January 1, 1947.

## Insurance Under Social Security Now Permanent

"October 1946 is the first month in which workers under the old age and survivors insurance program may become permanently insured," Gordon James, manager of the Wichita Falls field office of the Social Security Administration, said today.

The program of old age and survivors insurance went into effect on January 1, 1937. The 40th quarter, required by Social Security Act for permanent injury status, has just been reached. Therefore, workers who have earned as much as \$50 of creditable wages in every calendar quarter since January 1, 1937, and who have now earned \$50 since October 1, 1946, have passed that milestone and are permanently insured.

With the passing of each calendar quarter from now on, other workers will be gaining that permanent insured status under the old age and survivors insurance provisions of the Social Security Act, as they too get that fortieth quarter of coverage.

"But remember," said James, "if you should quit work before reaching age 65, or if your wages should be reduced, the amount of your eventual benefits would be decreased accordingly. It is the average of your monthly earnings, figured since January 1, 1937, or since reaching age 21 (which ever is later) and to the time of reaching age 65, that determines your benefits."

During the first nine months of this year 1,336 Texans have met death on the highway, according to the Texas Safety Association. This reflects a 36 per cent increase over that of last year. The Association urges you when you're driving to remember that accident is no respecter of persons—you may be next! Take it easy and drive carefully.

HOME FROM HOSPITAL  
Mrs. Arthur Smith, Jr., and little son, Arthur III, were brought home from the Knox county hospital last Sunday by an ambulance

from the Mahan Funeral Home. Both are reported to be getting along nicely.

## How to Handle a Fortune

Some months ago I reported in the Clarion how Mel Bate's uncle died up north, and left him with a tidy fortune.

Naturally, our town was curious to see how Mel would spend it: Traveling around the world... getting a new house or car... wearing fancy clothes... or dining on cold pheasant and champagne...?

We can now report, Mel hasn't changed a bit! Drop in on him any night, and you'll find him in his shirt sleeves by the fire, chatting

with the Missus, sharing 5 Hallow glass of beer with friends.

From where I sit, Mel has learned the art of handling money—as well as handling people. You don't let cash-in-the-bank push you around any more than you let people push you around. If you like the simple, homey life; companionship and quiet ways; a glass of beer and friendly talk—that's worth a fortune, after all!

Joe Marsh

## If Isabella had ice cubes...

Christopher Columbus would never have discovered America!

Isabella, Queen of Spain, had caskets full of jewels. She had velvet robes and silken gowns and handsome hand-made shoes. But she had no electric refrigerator! So the jewels were pawned. Three little ships set out against the sea. And Columbus happened on America back in 1492.

Fantastic? Not really. In Isabella's day, they tried to keep food from spoiling by spices brought overland at great expense from India. Columbus believed he could reach the Indies by sailing westward on the unknown Atlantic. The rest is in history books.

Poor Isabella, with all her clumsy luxuries, never dreamed of ice cubes—nor any of the miracles of modern electric living!

Though electricity plays such a great part in today's comforts and conveniences—you're scarcely conscious of electric service. That's because it's always on hand—all you want—at little cost.

West Texas Utilities Company

# Use Our "Lay Away" Plan!

## Wm. R. Smith Of Truscott Married In Fort Worth

The marriage of Wm. R. Smith of Truscott to Miss Frances Duke of Fort Worth took place in Fort Worth on October 26, uniting two prominent pioneer families of Knox county.

The bride is the daughter of Mr. and Mrs. W. D. Duke of Benjamin and had been employed in Fort Worth for the past few years.

The bridegroom is the son of Mr. and Mrs. Herbert Smith of Truscott. He has recently been discharged from the U. S. Coast Guard after serving four years, most of the time being spent on the U. S. S. Atlanta in the Pacific area.

The couple is residing in Truscott temporarily.

## Club Party Is Held Thursday In Roberts Home

The home of Mrs. Joe Roberts was the scene of a lovely party given on Thursday afternoon, when the Sunset Home Demonstration Club entertained members of the Munday Home Demonstration Club.

Mrs. R. M. Almanrode, president of the Sunset club, was in charge of a short business session, at which time Mrs. Clyde Taylor gave a report on the year's work of the Munday club. Mrs. Jerry Nix gave the report of the sunset club's work for the year.

The recreation period was directed by Mrs. Layne Womble. Home made Christmas gifts and handwork of all kinds were shown in a very modern display.

The refreshment table in the dining room was laid with a lace cloth. At one extremity of the table was a low floral arrangement of white chrysanthemums, and at the other end was the silver service, at which Mrs. Almanrode presided.

Guests who called from 2 to 4 p. m. were as follows:

Mmes. J. R. King, J. B. King, G. L. Pruitt, J. B. Scott, J. B. Broach, J. O. Patterson, Louis Cartwright, J. N. Floyd, Otis Simpson, Clyde Taylor, Leland Floyd, J. B. Graham, C. R. Lain, J. C. Gollehon, D. C. Swindale, Jr., R. E. Foshee; members included Mmes. Bob Hicks, Charlie McAfee, Layne Womble, Dee Perry, R. C. Partridge, W. E. Pack, Jerry Nix, E. E. Nix, Gill Wyatt and R. M. Almanrode.

## Eighty-Four Club Meets Recently In Atkeison Home

A recent meeting of the Eighty Four Club was held in the home of Mrs. R. D. Atkeison, at which time Mrs. J. C. Borden was co-hostess to the group. The home was beautifully decorated with seasonal flowers.

After several games of eighty-four were enjoyed, the hostesses served a lovely refreshment course to the following members and guests:

Mr. and Mrs. W. E. Braly, Mr. and Mrs. M. H. Reeves, Mr. and Mrs. D. E. Holder, Mr. and Mrs. H. F. Jungman, Mr. and Mrs. Leland Hannah, Mr. and Mrs. Chester Bowden, Mr. and Mrs. J. E. Reeves, Mr. and Mrs. B. L. Blacklock, Mr. and Mrs. J. H. Bardwell, Mr. and Mrs. Oates Golden, Mrs. S. E. McStay and Mrs. Louise Ingram.

## Beta Chi Chapter Meets Saturday At Haskell

Beta Chi chapter of Delta Kappa Gamma society met in the home of Mrs. Luther Burkett in Haskell on Saturday, November 9.

After a short business session, an interesting program on helping our children adjust themselves in the present-day world was directed by Mrs. John Williams. Mrs. Stella Mae Trice gave the portion devoted to preschool and primary child. Mrs. John Williams talked from the standpoint of the elementary child, and Mrs. E. R. Wilson discussed the subject from the high school point of view.

A social hour was enjoyed, during which a lovely salad plate was served by the Haskell and Weinert members. Members from Throckmorton, Stonewall, Haskell and Knox counties attended.

### IS INITIATED

Miss Wynell Lowery of Knox City, student at McMurry College Abilene was recently initiated into Alpha Chi national scholastic society. Alpha Chi requires that a student be in the upper ten per cent of his class.

### CORRECTION

One of the guests who attended the weiner roast at Margaret Womble's home was M. L. Medford, instead of W. L. Womble, as stated last week.

IT PAYS TO ADVERTISE

## POSSUM FLATS... "OPERATION GLADIOLA"

## Wesleyan Service Guild Has Program On Week of Prayer

Members of the Wesleyan Service Guild met at the Methodist church last Monday evening for their "Week of Prayer" program. Mrs. Joe Bailey King was leader of the program, which had "Love" for its theme. Mrs. S. E. McStay was in charge of the meditation period.

Mrs. Travs Lee and Mrs. Gill Wyatt led discussions on mission study. Mrs. M. F. Billingsley furnished special music and Mrs. Oscar Spann sang a special number.

At the close of the program a nice offering was given to home and foreign missions.

## WIDE BOARD MAKES IRONING EASIER

Many housewives are finding that ironing can be made much easier by using a wide, 20 inch board, constructed to fit over the regular ironing board.

Mrs. Florence W. Low, associate specialist in home management of the Texas A. and M. College Extension Service, has introduced the wide ironing board attachment to many homemakers in the state, and they've found that it saves a lot of effort normally spent in shifting articles about on a regular-sized ironing board.

The wide board is not a replacement for the regular board, but it is useful added feature. Mrs. Low says. Most suitable material to be used in constructing the attachment is 7/8 inch plywood, sawed out to extend two inches beyond each end of the regular board. To hold the wide board in place, four wooden strips, placed underneath to fit the edges of the regular board, can be screwed in place. The attachment is easily put on and removed, and the wooden cleats hold it firmly in position, says Mrs. Low.

Most ironing boards now in use are approximately 14 inches wide, with a taper at one end. The advantage of a straight, long board, six inches wider than the average board, is easily seen, Mrs. Low says. Many homemakers have found it especially handy for ironing flat pieces, such as sheets, pillowslips, table linens and hand towels. It also saves a lot of "shifting" when ironing trousers, slacks and shirts.

For quick results, use a Munday Times classified ad.

## HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

The local gin is kept quite busy now. Rev. R. Guthrie filled his appointment at the Friendship church last Sunday.

Harold Jones went to Lubbock to drive his sister, Crystene, here to spend a few days with her parents, Mr. and Mrs. Dibril Jones. Mr. and Mrs. F. T. Jones and daughter, Sandra Ruth, of Lubbock spent the week end in the H. Jones home.

Mr. and Mrs. J. C. Lambeth and children of Las Vegas, Nev., returned home recently after visiting in the home of Mr. and Mrs. J. H. Lambeth and Mr. and Mrs. Ben Holder.

Mr. and Mrs. Philip Jones and children of Grand Prairie have returned home after a visit in the J. H. Lambeth and Marion Jones homes here.

Taylor Cooksey has returned from overseas service. He was in Tokyo, Japan, for several months. Several from here attended the funeral of Mrs. C. M. Matlock in Munday last Thursday afternoon. She once lived at Hefner and had many friends here.

## Activities Of The Colored People

Service was well attended at West Beulah Baptist church Sunday, with the pastor, Rev. D. B. Meadows in charge. Also service was held at Scott Chapel Methodist church Sunday, with Rev. A. L. Taylor in charge. The members are very grateful to have Rev. Taylor back in their conference.

On Monday night, the 18th, Rev. T. L. Young, pastor of Wichita Falls and Dallas, will be preaching at the Church of God in Christ. Everyone is invited to come and hear a great young minister.

On Nov. 11, Mr. and Mrs. Jerry Thomas are the proud parents of a baby boy.

The colored lunch room is thanking the Baptist ladies for the nice green patch of lettuce.

Rev. S. L. Sanders, accompanied by his wife, preached on Sunday night at the Church of God in Christ at Knox City. Rev. Joe Williams, pastor; Rev. C. Robertson, pastor of Stamford and Munday, are conducting an appreciation service this week at the Knox

## City church.

The school is thanking Mrs. Haymes for the nice books, also Mrs. Crockett for bringing them to the school. We will appreciate very much to know the ladies who bring or send books to the school. Please leave your name.

Mr. and Mrs. Joe Jeter and children spent the week end with her sister, Mrs. T. V. Scott.

Many a man thinks he has an open mind, when it's merely vacant.

**CHURCH OF CHRIST**

Bible study, 10 a.m.; preaching and worship, 11 to 12; young people's meeting, 6:45 p.m.; mid-week service, Wednesday, 8 p.m.

Blessed is the man that walketh not in the counsel of the ungodly, nor standeth in the way of sinners, nor sitteth in the seat of the scornful. Psalms, 1:1.

Come, worship with us. You will enjoy serving the Lord with us.

Gorden Clement, minister.

**Maid of Cotton Title At Stake**

MEMPHIS, Tenn.—Six months of glamour as a fashion model and goodwill emissary lie ahead for some fortunate girl who is to become the 1947 Maid of Cotton.

The winner will spend three weeks in a modeling school in New York City next January and then will set out on a five-month tour of the principal cities of the United States, from Coast to Coast.

She will model a cotton wardrobe designed in highest fashion by leading American stylists, and at every stop she will meet federal, state and local dignitaries, to whom she will bear messages of good will from the Cotton Belt.

The 1947 Maid of Cotton will have behind her the traditions set by eight former Maids who have brought the contest to an event which captures the interest of the entire Nation. For the first time since the imposition of wartime travel restrictions, the 1947 Maid will visit the West Coast, where she will get attention from Hollywood and the California fashion apparel colony.

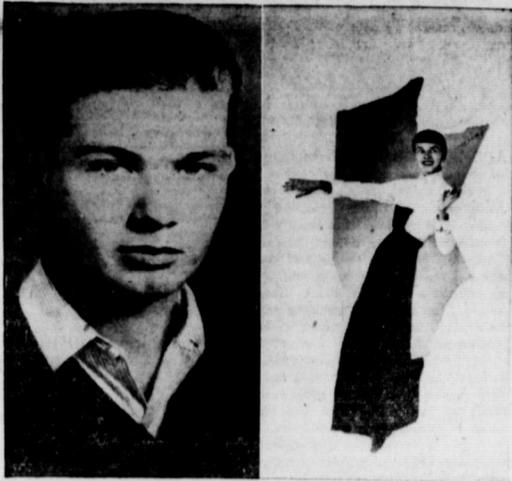

All her expenses on the trip to New York and the five-month will be paid. She will be the guest of honor at dozens of receptions, luncheons, dinners and fashions, spectacles, and she will be the subject of literally thousands of newspaper and magazine stories, photographs and newsreels.

Any girl born in a cotton-producing state, who is between the ages of 18 and 25 and who has never been married, is eligible for the Maid of Cotton Contest.

Entries are already being accepted by the National Cotton Council, Postoffice Box 18, Memphis 1, Tenn. The Council will send entry blanks upon request. Entries will close at midnight, Dec. 20, and the final selection will be made of a Maid and two alternates in Memphis Jan. 13.

Shortly thereafter, the new Maid will leave with a chaperon for New York City for a three-week training period, during which the Maid will receive modeling instructions, pose for fashion photograph, and be fitted with an all-cotton wardrobe.

**Ex-G. I. Wins Fashion Contest**

Former U. S. Army Corporal Paul W. Sherman, above, of Los Angeles, Cal., was awarded \$1,000 and a two-year scholarship to the University of California as winner of the western section of the Junior Bazaar 1946 Design Contest. The scholarship was sponsored by the California Apparel Creators of Los Angeles.

Winning design, shown above at right, is a full skirt in black velvet with a bib which buttons on to a white celanese shirt. It has turned back cuffs with gold buttons and a high turn-down collar, and is suitable for dinner or college dances.

Before entering the U. S. Army, Sherman attended high school in Los Angeles. The contest was open to college, high school and art students between the ages of 17 and 23.

**CATTLE GRUB TREATMENT**

Although heel flies, the parents of the cattle grub, do most of their damage in the spring, the first treatment against grubs should be given in the early fall, say entomologists of the Texas A and M. College Extension Service.

Loss of weight is the greatest damage that heel flies do to beef cattle. They lose weight by running from the pests or by refusing to feed and standing in water to protect themselves from the flies.

The grubs spend seven to eight months tunneling around in an animal's body. From 10 to 15 percent more feed is required to fatten a grubby steer than a healthy animal, and two pounds of choice meat are lost each time a grub-infested steer is slaughtered. Grubs also ruin hides which are valuable for shoe leather and other purposes.

Most farmers and ranchmen produce their own heel flies, because the flies do not fly over a half-mile, the entomologists say. Therefore, a thorough treatment should rid a farm or ranch of the parasites.

In the early fall, when the cattle grubs are mature and ready to fall to the ground, the first treatment

should be given. Rotenone is the most effective insecticide against the cattle grub, and it can be applied either as a dust for small herds, or as a spray for large herds. An effective treatment, say the entomologists, consists of spraying the backs of the cattle with a mixture of seven and a half pounds of five percent rotenone for each 100 gallons of water.

Mrs. J. W. Medley and Mrs. E. I. Hester and children of Haskell visited with relatives here last Sunday.

Mrs. Hoyle A. Sullins and daughter of Vera were business visitors here last Tuesday.

Mr and Mrs. T. C. Merrell were visitors in Dallas several days over the week end.

Claude W. Hill was in Mineral Wells the first of last week, where he attended a director's meeting of the Federal Land Bank.

Mr. and Mrs. Eugene Groce and little daughter, Vicky, left Wednesday on return to their home in Kansas City, Kan., after a ten-day visit here with Mrs. Groce's mother, Mrs. Lucille Stodghill, and with other relatives.

Mrs. M. Carroll of Dallas spent last Thursday here, coming at this time to attend the funeral of Mrs. C. M. Matlock.

Mrs. D. B. Bowden and daughter, Doris, of Abilene visited Mr. and Mrs. R. L. Lain and family several days last week. On their return home, Doris, became ill and was taken to an Abilene hospital for treatment.

Mr. and Mrs. Charlie Mapes and baby of Haskell visited with Mrs. Mapes' parents, Mr. and Mrs. Screws, here last Sunday.

## Balance Urged In Farming For Cotton Belt

(Editor's Note: This is the second of a series of articles on "Better Balance in '47", prepared by the Educational Service of the National Cottonseed Products Association, to give farmers facts to help them plan their 1947 crop and livestock programs.)  
The family should, of course, have meat, milk, fruits and vegetables; but the family is entitled to more than just food and shelter. Therefore, cash income is the first consideration of any balanced farming program. Obviously, unless the farmer can make a living he can't and shouldn't farm. Balanced farming, to be practical and permanent, must be built around cash crops and livestock income that offer the most opportunity on a particular farm.  
Cotton is the most dependable cash crop on most Cotton Belt farms. There are many reasons for this. Cotton is the major crop best adapted to our climate and soils. Most farmers know more about cotton than about any other crop. They have equipment adapted for cotton. Their community has gins, warehouses, oil mills and other facilities that assure markets for their products.  
Cotton also is an important feed crop. Cottonseed meal, cake and pellets, provide essential protein for livestock rations. Cottonseed hulls are valuable roughage because of the need for protein to supplement grains, roughages and pastures, cotton is the connecting link between the Cotton Belt's crops and livestock. It is the most important "balancer" in our balanced farming program.  
Cottonseed meal and other protein concentrates have been critically scarce for several years. Reduced cotton production has been the primary cause of this shortage. More livestock on farms in the Cotton Belt and elsewhere, and better feeding practices have made the shortage worse. Lack of protein concentrates has reduced the efficiency of grains and roughages in rations, and hampered meat and milk production. Too little cotton production on many farms has thrown our crop and livestock program "out of balance"

**Nylon Sails**  
Due to the shortage of cotton sail cloth, sailmakers are now manufacturing nylon sails. Although nylon is more difficult to work with and slightly more expensive, it has between two and three times the tensile strength greater tear strength, and due to its low water and moisture absorption, it dries out far quicker than former sail cloth. Nylon is highly resistant to mildew—a great relief to sailors. In manufacture of nylon, stainless steel equipment containing 8 per cent or more nickel, plays an important part.

**WE Need Furniture!**  
We are very low on good furniture—and we're in a buying mood! Give us a chance to buy your good used furniture. Our prices are tops!  
For Sale: One Favorite and one Swan white enamel range. These stoves can be used on both gas or butane.  
**WE WANT GUNS**  
We are in the market for your American-made guns. Let us see what you have.

Mr. and Mrs. Emmett Branch  
Phone 185

**BOYCE HOUSE**  
"Gives You Texas"

**ADD TO ITEMS** that have changed since I was a boy":  
Prize-fighters don't have the picturesque names they used to have. The negro boxers who fought in the old Phoenix Athletic Club in Memphis, Tenn., had such handles as Joplin Ghost (he was a scientific boxer); Hock Bones and, even more striking—the name, not necessarily the punches—Egg-head Ratty.  
Of a public official who fancied himself as a speaker, a rival said, "He never opens his mouth but what he subtracts from the sum total of human knowledge."  
Then there was the statesman who answered the speech of an opponent with, "The gentlemen is indebted to his memory for his humor and to his imagination for his statistics."  
Even a little "column" like his gives one an opportunity to strike a blow for the people of Texas.

A few years ago, a bill was introduced in the legislature, which would have had the effect of confiscating 3,000,000 acres of land rightfully belonging to the public schools and placing that land in the hands of oil companies. These acres were known as vacancies and their potential mineral wealth gave them a value which might reach \$100,000,000.

School leaders were fighting to protect the birthright of the boys and girls. Through this "column" the facts were told to about a million readers of 200 weeklies. The article was quoted in debate in the legislature and the bill was modified to safeguard the rights of the school children of this State.  
Any time we learn of a good cause, such as that, to which we can lend a little assistance, it will be done.

For quick results, use a Munday Times classified ad.

## PLATINUM ONCE USED FOR COINAGE

Platinum was used for coinage by the Russians over 125 years ago in order to reduce the probability of counterfeiting as the metal was difficult to melt and had a greater weight by volume than any other element. The coins were called in toward the middle of the 19th century due to platinum's rise

in price and the fact that it was too scarce for coinage.

Mrs. J. B. Bowden left last week for Camp Hood, Texas, where she is visiting her son-in-law and daughter, Col. and Mrs. M. L. Joyce, and their new son.

Miss Jimmie Henslee visited with relatives in Oklahoma City over the week end.

## Again You're Invited To . . . Buy Bonds

A new bond promotion program of the Treasury Department is now under way. It opened Armistice Day, Nov. 11 and will run through Pearl Harbor Day, Dec. 7.

This is an E Bond promotion drive, and a move to help curb inflation. You are asked to help Knox county on the state quota of \$35,000,000.

This bank urges those who can to help out in this bond drive.

#### Senior News

This week everyone seems to be very busy, secretly planning for the "Harvest Festival." This year's coronation promises to be the best Sunset has ever had. The Seniors have big plans underway, for winning the queen's race.

If any visitors should happen to open the front door to the school house right after the noon bell rings, they would no doubt, decide that a herd of cattle were stampeding down the hall, but with a little closer observation they would notice that it is only high school, going to the lunch room. Those meals we have been eating in the lunch room have been very enjoyable. All we ask is, keep them coming!

The basket ball boys and volley ball girls are working hard so they can have their first game sometime this week. This adds to the excitement at Sunset.

#### Freshman News

We elected our favorites Friday, they are: favorite girl—Helen Parker; favorite boy—Royce Reddell. They will be pictured in the annual.

We are glad to have Miss Cash back. She reported having a very nice trip.

We had chapel Monday and everyone seems to enjoy it more than going to classes for some reason or other. We sang several Armistice Day songs, and Mr. Leroy gave a talk.

Everyone is dismally looking for

ward to those six weeks exams coming up next week. If you see a freshman with his nose in a book it is only because he has to get in his book report and poetry for English.

#### Sophomore News

We Sophs are patiently awaiting the arrival of the night of our coronation. Everyone is determined to see that everyone else has an enjoyable time. Everyone is invited to come and have a good time.

We were all happy to see Miss Cash back with us this week. She has all the girls envying her and the good times she had. She says she met gods of boys!

The volley ball girls and basket ball boys have really worked hard since they started practicing. If we do not have good teams this year, it isn't because we never worked.

Monday morning as we sophs winked at "Jack Frost," we didn't stop to think we would be writing an essay about him before the day was over. However it seems as if Mrs. Partridge would like to know more about him, so she had us to settle down and write her an essay. We are only hoping we said some nice things about him she liked.

Last week we selected the favorites of our class to go in the annual. Mary Francis Booe and Edward Decker have the honor of being the sophomore favorites. Thursday everyone is to have his picture taken. We are hoping we take some nice ones.

#### Sixth and Seventh Grade News

We enjoy our volleyball period each morning.

Wanda Reeves, who lives in Fort Worth now, is visiting her folks this week.

Barbara Jo Johnston went to Dallas Saturday. She met her brother F. A. there. F. A. is attending school at A. and M.

Jane Spark's sister, Mrs. Roy Feemster, from Abilene is visiting here.

Louise Bales visited her grandparents, Mr. and Mrs. Malone, west of Knox City Sunday.

Emogene Hill's uncle, Mr. Parramore, from Dallas visited here Sunday.

Elaine Nix's uncle and aunt, Mr. and Mrs. Wilson Harber visited in the neighborhood during the week end.

Roy Dykes's aunt, Mrs. Kilgore from Arizona is visiting here.

#### Junior News

The junior class is anxiously awaiting the night of our Harvest Festival. We are hoping that our candidate Mozelle Booe will be her royal highness.

Elizabeth Harlan and Tommy Joe Richardson were elected favorites from the junior class for our annual. Both have extremely red hair.

The First Frost  
 Now you can take out that heavy comfort, those wool socks, and count on carrying your top coat when you expose yourself to the elements.

Winter has set in. Its herald, the first big frost, came in on icy feet Monday night, and left real evidence of his nocturnal visit.

In the country's one breath of frost laden night air announces

mutely the presence of frost. Any sensitive nostril can detect that sharp, pungent scent of frostbitten plant life. It is a sort of smarting stinging smell, of dying chorophyll as if the leaves of cotton woods and feed have been pulverized.

Frost laden beads are scintillating on the slant of the barn roof. Chickens stand around motionless and mute, their sharp eyes blinking away the smarting cold.

Those plants you forgot to put inside reproach you with their purple, lifeless tendrils frosted with the kiss of death.

The hound dog stirs stiffly from his south corner, testing each leg lest it be powerless in its numbness.

And what of frost and man? The icy air of winter breathes into him a new existence, a keener awareness. He eats with gusto, moves quickly of necessity. When he draws near the fire at the close of day, its warmth comforts not only his body, but saturates his soul.

#### First and Second Grade News

We are glad to have Ernest Acosta, from Fort Worth to enter our class.

Glenna Voss is queen of the first grade. Everyone is working hard to make her queen of grammar school, but are not getting along very fast.

Jerry Johnston went to Dallas to visit his brother, F. A. Johnston, who is going to school there. He visited the zoo and saw many animals. Some were small and some were large, but he enjoyed them all just the same.

Betty Jean Hawkins' campaign for second grade queen is progressing.

Eighteen guests came to Leon Voyles' home yesterday on his little sister's birthday.

Larry Walling and Betty Jean Hawkins are both riding around in a sporty new Dodge.

The second grade group, is enjoying its language lessons, and is awaiting the arrival of new workbooks.

#### Third Grade News

We are sorry to hear of the little Voss infant's death. Several of the children in this class missed school Friday in order to go to the funeral.

We have a new pupil, George Acosta, from Fort Worth.

Carlyn Morgan's grandparents Mr. and Mrs. Freeman from Weatherford visited in her home over the weekend.

Sue Voss spent Sunday in Abilene. The third grade has started its rhythm band, and has learned to keep time with sticks.

Mrs. Anders will be kept busy from now on for she has two second grade pupils to teach. They are Bonnie Jane Sharp, and Robert Wheeler.

#### Fourth and Fifth Grade News

Jack Frost came in good fashion Monday morning, but somehow the cold weather seems to make us drowsy. We have several absent.

Jerry Groves' mother from Wichita Falls visited him over the week end. Jimmie Burl's relatives from Weatherford and Knox City

#### BULL NETTLE KILLED BY 2,4-D SOLUTION

West Texas farmers whose pastures heavily infested with bull nettle might take a tip from R. B. Carraway of Rock Church, Hood County.

Carraway is a strong believer in 2,4-D as a control against bull nettle. He recently conducted a 2,4-D field trial on pasture land that was heavily infested with bull nettle. Three weeks later, observing good results, Carraway dug up several of the nettles and found that the roots were "either rotten or soured" to a depth of over 30 inches. Since then he has gone ahead with more extensive 2,4-D treatment and called in his neighbors to watch the progress.

Hood County Agriculture Agent J. Q. Gallaway reports that 2,4-D is making a reputation as a bull nettle killer all over the county. Gallaway has conducted field trials on five, widely separated farms in Hood County. The trials were made under varying weather and growing conditions and on every type of soil on which the nettles thrive. In almost all cases he reports the killing effects of the 2,4-D as "complete."

Mr. and Mrs. Clayton Wren and family, Mr. and Mrs. W. G. Welborn and Mr. and Mrs. Tom Morton visited with relatives in Carlsbad, New Mexico, over the week end.

visited him over the week-end. Roy Lee Voyles' aunt and uncle from Lubbock have visited here for several days.

Mr. and Mrs. Howard Collins spent the week end in Jermyn, Texas, visiting with Mrs. Collins' parents, Mr. and Mrs. W. N. Jones, and other relatives.

Mr. and Mrs. S. T. Basley visited with Mr. and Mrs. Henry Dabney in Rochester last Monday.

Mrs. C. P. Baker and son, Charles, visited with relatives in Floydada over the week end.

Mr. and Mrs. J. C. Shockey visited with relatives in Mineral Wells and Dallas over the week end.

Mrs. Otis Burnett and children of Cleburne spent the week end in the home of Mr. and Mrs. A. L. Smith.

Mr. and Mrs. George Salem and Sam Salem spent the week end in Dallas, visiting with relatives.

Mr. and Mrs. W. V. Tiner spent last Sunday night and Monday in Abilene, visiting with their son-in-law and daughter, Mr. and Mrs. James Dyke.

Mr. and Mrs. Gene W. Harrell were visitors in Wichita Falls, last Monday.

# THANKS!

... and we really mean a great big thanks to all our customers who are so patiently waiting for the tire that OUTWEARS PREWAR TIRES!

When users say how much they like the new B.F. Goodrich Silvertown tire, we swell with pride. But when more and more of our customers say, "Even if it takes a while, we'll wait . . ." we figure they know, as we do, this new tire has something worth waiting for. Somewhere—somebody—has tipped them off.

You'll Be Glad You Waited for the Extra Long Mileage of the New

## B.F. Goodrich Silvertown

Before we sold a single new Silvertown, taxis, state police and special test cars had learned the longer mileage secret of these new passenger car tires. Actual tests proved they outwore prewar tires. Today, users all over the country know this secret, too. They know it gives longer mileage, because it has a wider, flatter tread that puts more rubber on the road . . . more rubber to spread the wear . . . more rubber to stop you quicker.

That's why, if you're looking for today's biggest money's worth in tires . . . you, too, will find it worth your while to wait a little longer for the tire that OUTWEARS PREWAR TIRES.

FIRST IN RUBBER

### 8 New Books—

(Continued from Page One)

ment's bureaucratic weakness, and torn apart by civil war which neither Chiang Kai-shek nor the Communists know how to stop.

3. **Animal Farm** by George Orwell. An amusing allegory full of wit, suitable for child or adult.

4. **The Sudden Guest** by Christopher LaFarge. A fascinating novel about a selfish woman and a strange group of people seeking shelter from a hurricane, by the author of "Each to the Other."

5. **The Snake Pit**, by Mary Jane Ward. A remarkable novel, the action of which takes place in a hospital for the mentally ill.

6. **Arch of Triumph**, by Erick Maria Remarque. By the author of "All's Quiet On the Western Front." A love story exciting and reflective, to be released on the screen soon.

7. **Cass Timberlane**, by Sinclair Lewis. Mr. Lewis' best novel in many years tells the revealing story of the mature Judge Timberlane, who fell in love with and mar-

ried a young woman.

8. **A Book About a Thousand Things**, by George Stimson. A remarkable collection of important trivia, covering just about every subject and provided many hours of interesting reading. Do you want to know why hands on jewelers' clocks are set at 8:18? . . . how the word "hello" originated? . . . what famous king was a leper? The answers are here, and hundreds more.

Mr. and Mrs. P. G. Barton and son, Bill, of Cheyenne, Wyoming, spent the week end visiting in the homes of Mr. and Mrs. S. B. Campsey and Mr. and Mrs. C. A. Barton.

Tommie Sue and Yvonne Horton of Merkel were recent visitors in the home of their uncle and aunt, Mr. and Mrs. Dee Perry.

Hubert Homer of Tucumcari, New Mexico, son of Mr. and Mrs. K. G. Homer of Rhineland, passed through here Sunday enroute to the Dallas markets. He stopped off for a few hours visit with his parents.

### Agricultural Outlook For 1947 Show Drop Coming In Farm Products

Total demand for farm products is due to drop in 1947 and prices received by farmers during the coming year are likely to be below the 1946 average.

This is the situation reported by specialists of the Texas A. and M. College Extension Service who attended the Annual Agricultural Outlook Conference in Washington D. C. recently to get the picture on what to expect in agriculture for 1947. As summed up by the specialists, the following is general outlook for farmers next year:

Although cash receipts from farm marketings and government payments may be five per cent less than in 1946, farmers are still likely to receive more money for their products than they did in 1945, a near-record year. With increased costs and reduced sales, it is possible that the net income of farm operators will be reduced as much as 10 to 15 per cent from 1946. Even with such reduction, the net farm income will still be near the high wartime levels of 1943-45, and about two and a half times the 1935-39 average.

The increased consumer income due for next year is likely to go more for satisfying cumulated demand for many manufactured goods, as these become available, and not for the purchasing of more farm products.

Also, foreign demand for farm products is likely to be somewhat smaller in 1947. Index of prices received by farmers during 1946 is estimated to be about 225, and that figure is slated to drop the early part of 1947. Prices in the latter half of the year may average considerably lower if crops continue large and exports are greatly reduced.

Production expenses are likely to continue the upward trend which has prevailed during the war period. Total farm production costs in 1946 will be about 10 per cent higher than in 1945, and a further increase of as much as five per cent may occur next year. The indicated total for 1947 will be 50 per cent greater than in 1920, the highest year prior to World War II. Increasing prices for nearly all commodities used in production are mainly the reason for the production costs due. One exception is the

lower prices in sight for feed bought for livestock.

In the years immediately ahead, a higher average interest rate for the farm mortgage debt is seen judging from the mortgage debt trends of the past few years. A more significant rise in interest costs during the coming year may occur in connection with non-real estate credit. The various creditors will make loans at about the same rates, but to finance larger purchases farmers will increase their debts with dealers and finance companies whose rate are considerably higher than those of the more usual lenders—banks and production credit associations.

Property tax payments made by farmers in 1947 will be up somewhat from those of 1946. The 1945 levies on farm real estate, payable largely late in 1945 and early 1946, were more than 10 per cent higher than those of 1944. A further rise is expected in 1946.

For 1946 the realized net income of farm operators is estimated above 1945. Net income for 1947 may be from 10 to 15 per cent below 1946.

In the marketing and transportation picture, some shortages in means of processing and distributing farm products are expected to continue. Rail transportation shortages are likely to remain critical throughout the year. Food processing equipment should be improved to some extent next year, but limited plant capacity and equipment is likely to hold down normal progress in some lines of food marketing. Over the long run, important developments are anticipated, such as prepackaging of fresh fruit and vegetables and the growing use of quick-freezing methods of food preservation.

Shortage of motortruck transportation in 1947 will probably be much less critical than the shipping situation.

It is very unlikely that water transportation tonnage will return to pre-war levels. Most types of transportation, especially by rail, probably will cost the user considerably more in 1947 than during the current year. The Interstate Commerce Commission has already permitted a temporary increase of about three and a half

### Fixing Up the Farm by BURTON WILLIAMS

#### It's Time to Check Roofs

OFTEN a tight roof is blamed for water seepage when in reality the cause is loosened mortar in the chimney brickwork or corroded flashings and valleys. Moisture coming in through such openings has a way of running under the roof covering and eventually appearing some distance away.

If inspection shows the flashings and valleys to be at fault they can be painted with lead and oil paints or asphalt roof coatings. Dubious

spots can be cared for by a layer of asbestos roof putty. The chimney brickwork can be repaired in most cases by replacing loosened mortar.

If the roof inspection discloses that new roofing is in order, it is advisable to use a fireproof material such as asbestos cement shingles. They require virtually no maintenance and will outlast the building itself. They will not burn and this eliminates the hazard of wind-borne fires, always a highly important consideration for any rural dweller. Being made of asbestos fibers and portland cement, they have a rigidity that enables them to withstand high velocity winds.

Mr. and Mrs. A. B. Warren and granddaughter, Jo Ann Duke spent the week end in Fort Worth visiting with Mr. and Mrs. Lewis Warren.

per cent in rail rates on agricultural products, and hearings are now being held by ICC on the carriers' request for still further rail rate increases.

Mr. and Mrs. Joe Bailey King attended the Armistice Day celebration in Rule last Monday.

Mr. and Mrs. Jim Grammar were here the first of this week for a visit with relatives. They were enroute to their home in Lamesa after spending some three weeks at various points in Colorado.

Mr. and Mrs. T. W. Harber and family of Dallas spent the week end here with relatives and friends.

Mrs. Don Boyles left Wednesday for Wichita Falls for a few days' visit.

Mrs. A. K. McGaughey and children of Vera were business visitors here last Tuesday.

### Too Late to Classify

FOR SALE—1938 Ford pickup with 1946 motor, new transmission clutch, brakes and lights. Also one 2-wheel stock trailer. James W. Carden, Munday, 19-Stp.

WANTED—Cotton pullers. Will furnish house. P. J. Fetch, 13 miles north of Munday, 11p.

FOR SALE—Sheet iron shed and scrap lumber, also a roll-away bed and mattress. Mrs. W. M. Mayo, 19-1tc.

FOR SALE, CHEAP—Model A Ford pick-up. See Bill Billingsley, at Billingsley Furniture Store, Munday, Texas. 1tp.

## New Stock

We have received a new stock of automatic water heaters, circulating heaters, baby bassinets, baby auto beds, wind-shield defrosters, auto horns, hydraulic jacks, and card tables.

Come in and see the new Stewart-Warner radio-phonograph combination.

## WHITE AUTO STORE

A. B. WARREN, Owner and Operator

## Notice

Seymour Steam Laundry will work Munday every Thursday. Leave telephone calls and bundles at Mahan Funeral Home, telephone 201.

Morris Gilbert,

## UNKLE HANK SEZ

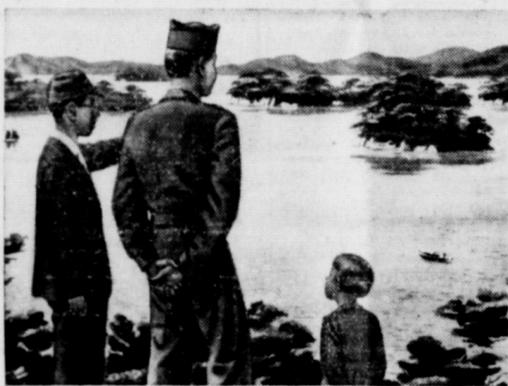

Don't worry about auto parts and supplies... the MUNDAY AUTO PARTS will always keep a complete stock, and our prices will always be LOW, for the quality of the merchandise received. Come to us for genuine Wix Oil Filter Elements.

### The Army Ground Forces offers you A NEW LIFE OUT THERE

Look toward Korea and Japan! A thrilling new job and a new life—with interesting work, sports, entertainment and travel opportunities—can be had for the asking by qualified young men who volunteer for the 1st Cavalry, 11th Airborne, 6th, 7th, 24th or 25th Infantry Divisions.

What an opportunity . . . what a job! Training in one of these crack units will stand you in good stead wherever you go. Study a foreign language. Learn the fascinating details of Military Government—so vital to future peace and prosperity.

Japan's "Isles of Pines" are but a sample of the attractions of an Army career in the Far East. The Army has reopened comfortable hotels, theaters, swimming pools, tennis clubs, golf courses, ball parks. These—familiar haunts of pre-war tourists—and many new developments—provide a broad choice of recreation.

Not everyone can measure up to this job. Only 3-year enlistees who meet prescribed physical and mental standards can enjoy the benefits of such a job. High overseas pay, good food and lodging and a generous retirement plan make your future in the Army Ground Forces too good to miss! See your nearest Army Recruiting Officer for full details.
