

Funeral For Mrs. Bradberry Held Thursday

Funeral services for Mrs. J. R. Bradberry, who passed away at 4:30 a. m. Wednesday, January 29, at her home in Knox City, were held from the First Baptist church in Knox City at 3 p. m. Thursday of last week. Rev. Nathan E. McGuire, pastor, was in charge of the services, being assisted by Rev. Vernon Henderson, pastor of the Knox City Methodist church, and Rev. C. C. Beaty, pastor of the O'Brien Baptist church.

Mrs. Bradberry had been in ill health for a number of years. She was born in Mississippi in 1873 and was 73 years of age. In 1895 she was married to J. R. Bradberry in Bell county. Mr. and Mrs. Bradberry were among the first settlers in Knox City, moving to this county in 1906. She was a member of the Baptist church since 1915.

Surviving her are her husband, one son, Milton Bradberry; three daughters, Mrs. Curtis Coates, Mrs. Cecil Coates and Mrs. Jess Hitchcock; two grandsons, Milton Gene Bradberry and Bobby Lynn Bradberry; five granddaughters, Lora Beth Bradberry, Carol Ann Hitchcock, Lois Jean Coates, Mary Janice Coates and Belinda Coates, all of Knox City; two brothers, Joe Couch of Vernon, and Henry Couch of Houston, Miss., and one sister, Mrs. Vada Ernest of Paducah.

Pallbearers were Joe Reeder, John Dutton, Claude Reed, Ernest Teaff, E. R. Carpenter, W. E. Clonts, Henry Thompson and W. F. Whitten. Flower bearers were Mrs. C. A. Hall, J. R. Wooley, J. W. Hamm, Gladys Waldrip, W. M. Rowan, Clarence Goodson, Herman Engenbacher, C. H. Moss, M. F. Whitten, N. E. McGuire and Bill Whitten.

Former Knox Citizen Dies In Abilene Feb. 1

John S. Lea, a pioneer of Knox and Haskell counties, passed away at his home in Abilene Saturday, February 1, after a short illness.

Mr. Lea was born in Senatobia, Mississippi in 1869 and moved to Texas, settling on Knox Prairie in 1889. He married Mae Daniels and moved to the old Daniels place in the Mitchell community where they lived until they moved to Abilene about fifteen years ago.

Mr. Lea is survived by his wife, one daughter, Mrs. Wilson Smith of Abilene and three sons, J. Solon of Lubbock, Texas; Ingle of Leveland, Texas and Paul of California. There are two brothers and four sisters who survive him. They are N. B. Lea of Clovis, New Mexico; Hulet Lea of Tulla, Texas; Mrs. W. I. Stewart of Knox City, Texas; Mrs. S. L. Porter of Dickens, Texas; Mrs. W. M. Webb of Dimmitt, Texas and Mrs. A. S. Herndon of Little Rock, Arkansas.

Funeral services were conducted at 2:00 o'clock Monday afternoon, February 3, by Elder J. L. Collins, pastor of the Primitive Baptist Church of Abilene.

Winters Are Warmer Now!

Schenectady—Winters really are warmer now than in Grandfather's day.

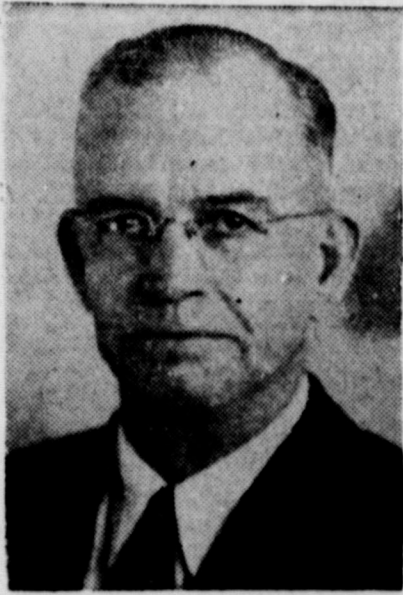

Since 1850, earth temperatures everywhere have been rising—more emphatically since about 1920. Dr. Clarence A. Mills of the University of Cincinnati's laboratory for experimental medicine declared in a General Electric Science Forum address here.

Earth temperatures rise regularly by 2000-year cycles, Dr. Mills pointed out in the WGY and WGFM broadcast.

Raymond Stilwells Visit Here Recently

Lieut. and Mrs. Raymond P. Stilwell visited in the home of Mrs. Stilwell's parents, Mr. and Mrs. W. S. Yates of Goree, recently. They continued their trip to South Texas, where they visited friends in Palaco, Victoria and Houston. Lieut. Stilwell has just returned from foreign service with the air forces in Germany. He and Mrs. Stilwell have now returned to Tulsa, Okla., where they are making their home for the present.

Named Judge

The Governor's Office recently announced the appointment of Luther Gribble, Judge of the 100th Judicial District, as Presiding Judge of the 9th Administrative Judicial District which includes Knox county.

Judge Gribble resides at Wellington, Texas. The 100th Judicial District, in which he holds the elective office of District Judge, is comprised of Childress, Hall, Collingsworth and Donley Counties.

A native resident of Collingsworth County, he first associated with the law firm of Coker and Gribble in Wellington. Prior public service includes a professorship and coaching position at Clarendon Junior College and the offices of County Attorney and County Judge of Collingsworth County.

Judge Gribble is a graduate of Clarendon Junior College and Southwestern University at Georgetown. He received his law license in 1918, and has been active in the legal profession since that time.

County Depository Will Be Selected

Notice has been given by Wm. Griffith, county judge of Knox County, that the Commissioners Court will select a depository for the county's funds at the court's February meeting, next Monday.

The designation will be for a period of two years, and the successful bidder will carry the deposits of county funds and trust funds.

All applications must be accompanied by certified check for not less than one-half of one per cent of the county's revenue for last year, it was stated, as a guarantee of good faith on the part of the bidder.

FIREMEN PLAN FOR CLASSES IN FIRST AID

Members of the Munday Volunteer Fire Department are making plans for sponsoring a course in first aid, to be held in Munday in the near future. Classes will likely be held on Monday and Thursday nights.

At present the members are working on securing an instructor who holds a first aid instructor's certificate to conduct the course. Classes will be started next week if arrangements can be completed, and the course will be open to all who wish to attend.

Mr. and Mrs. Alton Tuggle of Fort Worth and Mrs. Gaston Shipman of San Antonio were here several days last week to attend the bedside of their father, Ben Tuggle, who underwent medical treatment at the Knox county hospital.

Learning Engraving

Jewelry engraving, a closed trade for the past 15 years, was added to the Veterans Administration's on-the-job training list recently when a Los Angeles shop agreed to accept four trainees. Glenn Chapplear, 20th Air Force veteran, here gives the finishing touches to a serving tray.

Last Rites For Miss Bichsel Are Held Monday

Caroline Monica Bichsel, a resident of the Rhineland community for a number of years, passed away at 11:45 o'clock Friday night, January 31, at her home in Rhineland.

Miss Bichsel was born in Missouri on July 8, 1891 and, was 55 years, 6 months and 23 days of age. She had been a resident of Knox county since early childhood.

Surviving are her father, Joe Bichsel of White Deer; five brothers, John Bichsel, Amarillo; Joe Bichsel, Nabareth; Tony Bichsel, Rhineland; Leo Bichsel, White Deer and Englebert Bichsel, Panhandle; two sisters, Mrs. Anna Wilde, Rhineland and Sister Ann Claudia, O. S. B., Hot Springs, Ark.

Funeral services were held from the St. Joseph's Catholic church at Rhineland at 9:15 o'clock Monday morning conducted by Father Thomas Buerger, O. S. B., pastor. Burial was in the St. Joseph's cemetery with the Mahan Funeral Home in charge of arrangements.

Pallbearers were Leo Kuehler, Aloys Kuehler, Albert Wilde, Peter Albus, Luke Birkenfeld and Vincent Albus.

Auction Sale Has Large Run

The Munday Livestock Commission Co. reports another good run of cattle for last Tuesday's sale. All classes of cattle sold from 50 cents to \$1.00 higher. Prices paid at the auction are as follows:

Canner and cutter cows, \$7 to \$9.50; butcher cows, \$10 to \$11.50; fat cows, \$12 to \$14.50; butcher bulls, \$10 to \$12; fat bulls, \$12.50 to \$14; rannic calves, \$9 to \$11; butcher calves, \$11.50 to \$15; fat calves, \$15.50 to \$20; butcher yearlings, \$11 to \$15.50; fat yearlings, \$16 to \$20.75.

Top hogs sold at \$24.25; sows from \$19.25 to \$19.75; light butcher hogs, \$21 to \$23.50, and stocker hogs, \$17 to \$21.

Tate To Head Social Security Board In Area

Appointment of Erton F. Tate to succeed J. Gordon James as manager of the Wichita Falls field office of the Social Security Administration was announced today by James B. Marley, regional director of the Administration for Texas, Louisiana, and New Mexico.

James, who came to the Wichita Falls office when it opened in August 1937, and who returned here last April after two year's service in the Navy, goes to San Antonio as manager of that office.

A native of Water Valley, Texas, the new manager of the Wichita Falls field office received his B. A. and M. A. degree from Texas Technological College at Lubbock. Mr. Tate was first employed by the Social Security Board (now Administration) at Lubbock in January 1940, and comes to Wichita Falls from the post of field assistant in the Tyler, Texas, area.

The Wichita Falls field office, located in the Federal Building, serves the counties of Archer, Baylor, Clay, Foard, Hardeman, Knox, Montague, Throckmorton, Wichita, Wilbarger, and Young. The office administrators the program of old age and survivors insurance and has three principal functions:

The handling of all types of benefits claims. Issuance of new and duplicate social security account numbers. Assistance to wage and salary earners in commerce and industry, and to their employers, in making sure that accurate social security wage records are kept for each worker.

SINGING AT BRUSHY

An old-time singing will be held at the Brushy church on Friday night, February 7, it was announced last Tuesday. Everyone is cordially invited to attend.

VISIT IN DALLAS

Mr. and Mrs. Clay Grove spent the week end in Dallas, where they visited with two brothers and a sister of Mr. Grove. One brother, Bob Grove, was there from Jackson, Tenn.

Joe Edd Parris of Granfield, Okla., spent the first of this week with his uncle, Frank Nance, and family.

TEXANS HEAD SCOTTISH RITE HOSPITAL

Eight prominent Texans—all High Masons—will direct the policies of the Scottish Rite Hospital for Crippled Children in Dallas for the ensuing year. The new officers shown above were unanimously elected at the annual meeting of the Board of Trustees recently. Reading from left to right (top row) they are: Nathan Adams, chairman of the board; Judge Hiram F. Lively, vice-chairman; W. A. Browning, president; E. B. Germany, 1st vice-president; (bottom row) John L. DeGrazier, 2nd vice-president; Judge Towne Young, 3rd vice-president; George R. Jordan, treasurer, and Asher Mintz, secretary. Dr. Brandon Carrell was re-elected chief surgeon and Miss A. L. Little, superintendent. The Scottish Rite Hospital is nearing the end of a successful state-wide drive for funds with which to operate the hospital for crippled children. A major portion of the funds received have come from the "general Texas territory," according to reports.

Cage Tournament Slated For Munday Friday, Saturday

Munday's first invitation basketball tournament will be held at the local school gymnasium Friday night through Saturday night of this week. Eight teams have been invited to participate in the tournament.

The play will open at eight o'clock Friday night, the first game featuring Weinert and Bomarton. Munday's team will play Sunset, beginning at nine o'clock Friday night.

Saturday's games will begin at 10:30 a. m. and will run on through Saturday night.

Teams expected to play in the tourney are Knox City, Seymour, Weinert, Bomarton, Munday A, Sunset, Munday B, and Benjamin.

BIRTH ANNOUNCEMENT

A seven and one-half pound boy who has been named Larry Gene was born to Mr. and Mrs. Gene Thompson on Tuesday, January 28, at the Haskell hospital. Mother and little son are reported to be doing nicely.

Mrs. Winnie Mae McCarty left last Monday for Imperial and Denair, Calif., for several days' visit with her brother and sister-in-law, Mr. and Mrs. Frank Nance, Jr., and with other relatives.

Misses Laura Bess Moylette and Rebecca Odum of Oscar, Okla., who are students in the Academy of Mary Immaculate, visited with Dr. Fidelia Foylette over the week end.

Mr. and Mrs. E. Y. Johnson, Mr. and Mrs. E. Beecher and Mrs. Ida Bryan and daughters spent last Sunday in Lubbock, visiting with Mr. and Mrs. Loy V. Dutton and family and with other relatives.

Officers Secure Evidence In Raid Monday Night

Sheriff Homer T. Melton and D. E. Whitworth, local chief of police, made a raid on a local residence last Monday night and were successful in securing enough evidence to convict a local man of possession of whiskey for sale.

Sheriff Melton's boyhood experience in baseball possible resulted in his obtaining most of the evidence, which was six pints of whiskey. Melton made a successful catch of four pints of the "hooch" in a paper sack which the man's wife threw at the sink. According to reports, both the man and his wife were breaking the "evidence" into the sink when the officers entered the residence.

The man was assessed \$126.10 in county court, on first offense.

MARRIED MEN'S CLASS TO SELECT TEACHER

All young married men, up to 40 years of age, are requested to attend Sunday school at the Baptist church and be present at the young married men's class Sunday morning at ten o'clock.

M. H. Reeves will teach the lesson, and the class will also select a new teacher to take the place of D. C. Swindle, who has resigned.

BIRTH ANNOUNCEMENT

Mr. and Mrs. George Tweed of San Francisco, Calif., are the proud parents of a baby daughter, who has been named Carol and who was born at the Knox county hospital on Monday, January 27. Mother and baby are doing nicely. Mrs. Tweed is the former Gail Reynolds, daughter of Mr. and Mrs. W. E. Reynolds of Munday.

Mrs. Nell Hardin visited with relatives in Silverton over the week end.

VETS DEFEAT HOUSING SHORTAGE

California's housing shortage proves no problem to two enterprising veterans. Ex-Wave Mary Motlow and her husband John, also a veteran, are shown making repairs to their sailboat home at the Berkeley Yacht Harbor. Motlow is a student at Berkeley's University of California.

Red Cross Now Giving Service In Hospitals

When the American Red Cross opens its 1947 drive for funds on March 1, 1947, it will be asking for contributions with which to carry on many worth-while services.

With many wartime services discontinued, the Red Cross will continue to carry on disaster relief and many other of the organizations usual services.

Quotas have been drastically cut with the end of wartime service, and it was pointed out that Knox county will surely reach her quota, as she has done in all drives of the past.

Outstanding services now being rendered by your American Red Cross are services in army and navy hospitals, services to the able-bodied of the army and navy, services in veterans hospitals, claims and services for veterans, home service for the armed forces and veterans, services in insular and foreign locations and domestic disaster and relief.

The continuation or suspension of these activities depend entirely on your contributions to this cause in the forthcoming drive.

John F. Torres, Farmer, Is Found Dead In Bed

John Franklin Torres, who farmed near Truscott, was found dead in his bed last Monday morning. He had been in poor health, and supposedly died in his sleep.

It was estimated that he died at about 1:30 a. m. Monday.

A native Texan, Torres was born in Hill county on August 2, 1879, and was 67 years of age. He had been farming in Knox County for the past six years.

He is survived by his wife, Mrs. Viola Torres, and six children, who are: Claude Torres, Dallas; Mrs. Jessie Haskew, Albuquerque, N. M.; Nolan Torres, Fort Worth; Mrs. Sybil Nix, Grand Junction, Calif.; Marshall Torres, Paducah, and Kathleen Torres, Hopeville, Ga. Other survivors include seven grandchildren, a brother, P. T. Torres of California, and a sister, Roxie Torres of Louisiana.

Funeral services were held from the Church of Christ in Truscott at 3:30 p. m. Wednesday, conducted by Minister Garner of Quanah. Burial was in the Truscott cemetery, with the Mahan Funeral Home in charge of arrangements.

Paul Stengel Is Officer For New Bottling Firm

A Dallas branch plant will be established by the Tex-A-Cola Bottling Company, new soft drink bottling firm, with main factory scheduled to be built in Austin. Three of the company's executives are residents of Dallas: Dale R. Bonner, executive vice president; R. L. Vandaveer, consulting chemist; and Paul P. Stengel, secretary and treasurer.—Dallas C. of C. magazine.

According to a letter which accompanied the above article, Mr. Stengel, who is a former Knox resident, is the originator of the Tex-A-Cola Company.

GRAHAM IS APPOINTED KNOX CITY POSTMASTER

Announcement was made this week that Jeff Graham, employee of the Knox City post office for some time, has been appointed postmaster at Knox City, to succeed B. C. Anderson.

Anderson, who served in this capacity for several years, has transferred to one of the rural routes out of Knox City.

MRS. A. B. TINER DIES AT SAN ANTONIO, TEXAS

Mrs. A. B. Tiner of Nixon, Texas, sister-in-law of W. V. Tiner of Munday, passed away at a San Antonio hospital last Tuesday, following an illness of several months. Funeral services were held in San Antonio on Wednesday.

Mr. and Mrs. Tiner, accompanied by Mr. and Mrs. James Dyke of Abilene, attended the funeral services, with the Tiners returning to their place of business here Thursday morning.

Investigation Held In Death Of Local Mexican

Pablo Rives, Mexican who is employed on the Reed farm, north of Munday, is being held in the Knox county jail under \$5,000 bond as the result of the death of another Mexican, Lucio Mora, last Saturday night. Rives is being held for action of the grand jury in the death, which seems to have occurred under mysterious circumstances.

Mora was found dead in a ditch just north of the farm home of Mrs. J. A. Hendrix.

Hearing a truck go into the ditch Elmer Hendrix came to Munday and notified Sheriff Homer T. Melton and D. E. Whitworth, local chief of police, who went to the Hendrix place and found Mora dead, in the ditch beside the road.

Rives was arrested by the officers, but was unable to give a detailed account of what had happened. Both men were said to have been intoxicated.

Examination showed that Mora had received a blow on the head, but the examining physician said a crushed chest was the cause of his death. From all accounts, it was apparent that Mora had been run over by the truck.

Funeral services for Mora, who was 48 years of age, were held last Monday afternoon at 3:30 o'clock from St. Joseph's church at Rhineland, with Father Thomas Buerger, O. S. B., officiating. Burial was in the Mexican cemetery by the Mahan Funeral Home.

Collector To Help In Making Income Returns

The preparation of individual income tax returns for the year, 1946, usually presents some problems to the average citizen, with which assistance is desired.

For this reason, Deputy Collector L. O. Gentry will be at the First National Bank in Munday on February 25, from 8:30 a. m. to 5:00 p. m. to render assistance with income tax problems to any who desire it. This will be the only visit that can be made to Munday before March 15, the deadline for filing returns, it was stated.

The deputy collector's advice and assistance is extended purely as a courtesy and without cost to those wanting his aid.

Johnnie Foytik Dies Wednesday

Johnnie M. Foytik, 16, son of Mr. and Mrs. Ed Foytik of Wichita Falls, former residents of Munday, died Wednesday morning at Wichita Falls following an illness of several months.

Johnnie was a student in Zundel-owit junior high school when he became ill. He was one of the school's outstanding students scholastically and in sports. In 1944 he lettered on the football squad, and in 1945 was the squad's captain.

During the football season one of the Zundy games was dedicated to him, and on the same day he was showered with remembrances from his school friends.

Besides his parents he is survived by a sister, Lena Rose Marie Foytik, Wichita Falls, and a brother, Benjamin Foytik, Electra.

Funeral services were held at Sacred Heart Church in Wichita Falls at 10:30 a. m. Thursday, and a second service was scheduled for 2 p. m. at Seymour, where he is being buried.

MONTGOMERY BROTHERS ACCEPT POSITION AT REEVES MOTOR CO.

Hulen and Idell Montgomery, sons of Mr. and Mrs. H. M. Montgomery, have accepted positions at the Reeves Motor Co., it was announced this week.

Hulen is employed in the front office, doing office work and sales contacts, while Idell is associated with mechanics in the service department. Both these boys invite the public to let them serve you.

Keith Burnison left Wednesday of last week for Austin, where he is a mid-term enrollee in the University of Texas. He is the son of Mr. and Mrs. Vernal Burnison.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On."

THOMAS A. EDISON

It is a good thing to remember that the wonderful electric development which the United States has enjoyed, and where electricity is in more universal use than any place in the world, was brought about by the courage and initiative of individuals.

In recognition of one man who did more to provide electric service for the world than any other, the Thomas A. Edison Centennial will be celebrated throughout the country February 11, by electric power companies, professional societies, electric leagues, and other business, civic, and educational organizations.

It is no exaggeration to say that Thomas Edison made possible more appliances to lighten work and provide amusement than any other individual. After Edison conceived an invention, industry pioneered the way in making its use practical and economical for the average citizen. It would be impossible to estimate the benefits flowing to mankind as a result of Edison's imagination. The ramifications of the use of electricity after his perfection of the incandescent lamp in 1879 are too varied to enumerate.

The Edison Centennial is a fitting tribute to the man who made electric service for the world possible. By the same token, it reflects credit on the individuals and companies who provide electric service at a cost within the reach of every pocketbook. The record of Edison's achievements is a testimonial of what the United States stands for—opportunity—no limit on the exercise of talent and initiative.

When you turn an electric switch on February 11, play your phonograph, see a motion picture, or enjoy any one of the countless uses of electricity, pause a moment and think of Thomas Edison, a typical American who made these things possible.

OPPORTUNITY FOR 1947

By this time, most of our New Year's resolutions have been broken and forgotten in the traditional manner. But there is one resolution that should be constantly reaffirmed, and that is to do something positive about our monstrous fire loss, which reached record totals in destruction of life and property last year.

There can be no evading of the fact that most fires are the results of human carelessness alone—the statistics prove that. In order, the four primary causes of fire are matches and smoking materials, defective electric wiring and appliances, defective heating and cooking stoves, and carelessness with open lights and inflammable liquids. Every one of those causes comes straight back to the careless, ignorant and inattentive individual.

In the larger field of community fire prevention, it is clear that we have lagged woefully behind the march of progress in framing and revising building codes. The recent hotel fires offer galling proof of that. Many communities permit the term "fire-proof" to be applied to public buildings which are definitely fire traps. And, apparently, few communities insist that areaways and elevator shafts, along which fire can travel with the fury of a typhoon, be closed by approved types of fire doors. That failure alone caused many deaths in 1946.

The coming year will tell the story. Will it be another chronicle of widespread death and destruction as in 1946 or will it be a tale of achievement in fighting one of mankind's most persistent enemies?

LIFE IN THE SLAVE STATE

Those who believe that super-government may have its virtues would do well to memorize this paragraph from W. L. White recently published "Report on the Poles": "In the slave state a man is told where and how to live and work, when and for whom to vote, when to cheer and when to boo, and when to scream loudly that his land is the fittest and most democratic on all the globe."

The "slave states" did not disappear with the defeat of Germany Italy and Japan. They survived throughout the world, and some of them are powerful nations. They talk of "security"—which simply means a license to push other people around. They prate of their own brand of "democracy"—which in all essentials is no different from nazism. They shout for the rights of workers—and they treat the worker as a tool, to be used and discarded as the whims and exigencies of the moment may determine.

Super-state inevitably become slave states. All-powerful government inevitably turns into oppressive government. If the American people have learned nothing else, modern history should have taught them that grim fact. The threat to liberty from within is greater, more ominous, than the threat from without.

AN ASSET TO THE TOWN

We take the American merchandising system for granted—as we do most of the institutions that serve this country. And so we tend to lose sight of the fact that no other nation has a system of distribution remotely compared to it.

In normal times, we expect the merchant to offer an extremely wide selection of goods of known quality at reasonable prices—and that is precisely what he does. In abnormal times, we expect him to redouble his efforts to give us what we want in the face of shortages, and to equitably distribute scarce items among his customers—and he does that too. At all times, we expect him to take an aggressive interest in the affairs of the community—and that expectation is fully realized.

This is true of all kinds of merchants—the independent, the manager for a chain, the dealer in low-priced goods, the dealer in luxury items, and the rest. They compete vigorously among each other for our trade—and they hold in common the same general principles of service to the public and to the community in which they live and work.

People who travel abroad return with a new understanding of the superiority of the typical American retail store. It is one of our most dependable and stable community assets.

The Texas Public Schools

(Article IV)

Editor's Note: This is one of a series of articles pertaining to the Texas Public Schools which have been prepared by the Texas State Teachers Association:

A minimum beginning salary for degree teachers of \$2,000 per year in Texas that will be requested by the Texas State Teachers Association of the 50th Legislature is not out of line with what is being done in other states and with the ability of Texas to pay.

On November 5, the citizens of California, state that already ranks second among the states of the country in school support, voted almost 3 to 1 to raise the minimum teacher's salary from \$1800 to \$2400. The proposal was in the form of a constitutional amendment. Beginning with the school year September 1, 1947, no California teacher, rural or city, will receive less than \$2400 per year.

Michigan voters, on November 5, approved a constitutional amendment allocating \$30,000,000 additional revenue from state sales taxes to local school districts.

Oregon voters approved an initiative measure which provides for a basic state school fund sufficient to produce \$50 per capita for each person in the state between the ages of 4 and 20.

Utah voters approved a constitutional amendment which will provide an estimated \$4,000,000 increase in state aid schools. This will make it possible for the state of Utah to pay not to exceed 75 per cent of what the entire school program cost. Utah now pays 45 per cent of the total school costs.

The state of Arkansas, next to the lowest in the family of states in the amount spent on a per capita basis for school support, is launching a program to increase the salaries of teachers in 1947 by \$300 each.

Washington state has on its legislative program a proposal to increase the minimum salary from \$2200 to \$2400.

The state of New York ranks first in per capita expenditure among the states of the country. Yet, they propose at their forthcoming session of the legislature an emergency appropriation sufficient to give each New York teacher outside of New York City not less than \$2400 effective this year with comparable legislation to meet the needs of the teachers of New York City.

Hundreds of school boards throughout the country have already, during the course of the school year, provided substantial salary increases for teachers. Texas is no exception in this instance. Records of the Texas State Teachers Association show that 278 independent districts have granted salary increases from local sources for the current school year, but 3,000 school districts in Texas coming under the provisions of equalization or rural aid are prohibited by law from increasing teachers' salaries from local funds. The maximum salary of some 16,000 teachers in these schools with a Master's degree and 10 years of experience is only \$1458.

Denver, Colorado recently raised the minimum salary from \$1200 to \$2280 for teachers without experience. The maximum for teachers with a Master's degree was raised from \$3080 to \$3850.

The comparison of salaries of teachers in Texas with the average earnings per full time employee in private industry and other professional activities discloses some interesting facts. The average salary of classroom teachers in Texas in 1945-46 was \$1593. The average earnings per full time employee in private industry in 1945 was \$2242. The average annual salary of civilian federal employees scientific services of the federal civil service is \$2645 for the college graduate without experience. Salary studies have shown that the median professional employee in the federal service is classified in Grade 3 with a basic salary of \$4150. By 1945, per capita income in the various states of the country had increased 113 per cent while the teacher's average salary had increased 31 per cent.

Interesting facts. The average salary of classroom teachers in Texas in 1945-46 was \$1593. The average earnings per full time employee in private industry in 1945 was \$2242. By 1945, per capita income in the various states of the country had increased 113 per cent while the teacher's average salary had increased 31 per cent.

Cash Products From Waste Is Research Goal For South

New York—A three-way drive to turn the South's waste materials into valuable commercial products is being pressed this year by the U. S. Department of Agriculture in cooperation with leading industries and universities.

Such familiar and hitherto worthless by-products as corn cobs, grain stalks and husks, cottonseed hulls, buckwheat blossoms and chicken feathers are already finding wide usage in important industries, and the department's Southern laboratory at New Orleans will devote 1947 to exploring the commercial applications of many others including peanut shells, sweet potatoes and cotton fibers.

Potentialities of the far-reaching program are found, it was pointed out, in the uses now being made of corn cobs by such companies as SKF Industries, Inc which reports use of approximately 48,000 pounds of ground cobs annually to burnish and clean ball and roller bearings.

Hardly a leaf is being returned by researchers.

The University of Pennsylvania Medical School is experimenting with the lowly buckwheat plant, traditional griddle cake ingredient, to extract rutin needed for high-blood pressure victims. Other experts hope to develop a strong synthetic fibre from the 175,000,000 pounds of chicken feathers thrown away annually.

In southern Florida a \$17,000,000 factory has been erected for large-scale production of starch from sweet potatoes, and such construction board manufacturers as Colotex Corp., Chicago, and Maizwood Insulating Co., Dubuque, are buying up straw, stalks and husks as raw materials. Peanuts and cottonseed hulls are providing synthetic motor fuel at the rate of 90 gallons to the ton.

To increase yield of penicillin, chemists and scientists are feeding the drug-producing mold a \$234,000 yearly diet of 6,000,000 pounds of sugar obtained from milk. Three Agriculture department research stations are producing hides, from wild sumac leaves, ing tannic acid, essential for cur-whirl off-shaped lemons, once discarded.

Beware Coughs from common colds That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Washington News Letter

By Congressman Ed Gossett

Washington, D. C., Feb. 1— "Should We Further Restrict Immigration" will be the subject of a radio debate on the American Forum of the Air program on Tuesday, February 11, 1947. It will be broadcast over the Mutual Network from Washington 9:30 to 10:15 p. m., Eastern Standard Time-8:30 to 9:15 Central Standard Time. On the affirmative, will be myself and Omar B. Ketchum, National Legislative Representative, Veterans of Foreign Wars. On the negative will be Congressman Emanuel Celler of New York, and Earl Harison, former Commissioner of Immigration, now dean of the Law School, University of Pennsylvania.

This has been somewhat of a "Sam Rayburn week" in Washington. As speaker of the House of Representatives Mr. Rayburn was furnished an automobile and chauffeur. When demoted to Minority Leader in this Congress, Mr. Rayburn lost the use of said automobile. Congressman Frank Boykin of Alabama thereupon raised money among the Democratic congressmen to present Mr. Rayburn with a new car. This car was given to him on Thursday in front of the Capitol.

On Friday night the Texas State Society had a dinner at the Statler Hotel honoring Sam Rayburn. Among others, this dinner was attended by six Cabinet members and two members of the Supreme Court, Chief Justice Fred Vinson of Kentucky delivered the main address honoring Mr. Rayburn.

The House of Representatives this week passed a bill continuing war time excise taxes, which include 20 per cent on railroad tickets, theatre tickets, cosmetics, long distance telephone calls, jewelry, and furs, and \$9.00 per gallon tax on whiskey. Incidentally, recent figures show that in 1945 the United States spent \$7,800,000,000 for alcoholic drinks, and \$3,000,000,000 for tobacco, while giving only \$1,035,000,000 for religious purposes. This is a sad commentary on our individual and collective morality.

The United States government is getting ready to do something about the foot and mouth disease which is now threatening us from below the Rio Grande. This is the most dreaded disease known to livestock. It is highly infectious, spreads rapidly, and is extremely difficult to combat and eradicate. Today it is prevalent only 20 miles from our border in old Mexico. The threat of its spread into Texas and other border states is so serious that the subject was discussed at the President's Cabinet meeting last week, and I understand the pressing need for cooperation with Mexico in combating it is one of

From where I sit... by Joe Marsh

Lem's Dogs vs Thad's Chickens

Running a newspaper, you get to know a lot about human nature. Thad Phipps was in the other day, all burned up. Wanted me to run an item on how Lem Martin's dog had raided his chickens again, and ought to be put away by law. I told him: "Lem was in on Saturday. Said you shouldn't be allowed to keep those chickens so close to his house—and in a residential zone, at that."

Thad shuts up right pronto then. And that very evening I see him making his peace with Lem

the Atom

1947 - YEAR OF DECISION

Here's the question that makes all other questions unimportant: What kind of stewardship will man exercise over atomic energy?

Only goodwill and a sense of responsibility for the well-being of the world can guarantee the choice that will benefit, not exterminate, humanity,—that will revolutionize the patterns of power and transportation and con-

tribute to health and healing.

Since control is a matter of spirit and motive, alarmed scientists have called upon religion. The churches have responded. Methodist laymen, for example, as a part of their crusade for Christ, are launching a year of Christian stewardship, in which the control of nuclear energy is one of the emphases.

Savings In Operating Costs Is Claim Of New Firestone Tractor Tire

The new Firestone Champion Ground Grip tractor tire, which by record-breaking performances in pulling power and cleaning tests assures farmers of shorter working hours and lower operating costs, has just been put on sale here by Blacklock Home and Auto Supply.

Unique in its patented curved, triple-braced traction bars and flaring shoulder blocks and spaces, the new tire in tests on all types of soil and surfaces cleans up to 100 per cent more effectively, del-

ivers as much as 62 per cent more power at the drawbar, and gives up to 91 per cent longer life than tires having straight, open center traction bars. The shearing action of the curved traction bars in thrusting of mud and litter is a constant force as the tire rolls.

Farmers also will find that the new Firestone tire is completely versatile. While the extra-deep, wedge-shaped traction bars provide a firm "center bite" on soft ground on paved roads the wide, continuous tread design gives smooth, comfortable riding. Since a greater tread area is in contact with the ground, stability is increased and wear is minimized.

"This tire has fully justified the years of research and development which our engineers have devoted to it," Harvey S. Firestone, Jr., president of The Firestone Tire and Rubber Company, said in introducing the new tire. "It will enable the farmer to do more work in less time at lower cost."

The Champion Ground Grip tire stands as another contribution

The new, record-breaking Firestone Champion Ground Grip tractor tire, engineered and built for maximum efficiency and service on all surfaces, ranging from concrete to soft mud. The patented curved, Triple-Braced traction bars and a heightened tread design make the tire unequalled in traction, cleaning and long life.

made to power farming by the Firestone Company in the last 15 years. In 1931, Harvey S. Firestone, founder of the Company, "put the farm on rubber" when he introduced the first practical pneumatic farm tractor tire.

Study Club Has Youth Conservation Program Friday

Mrs. G. R. Eiland was hostess to the Munday Study Club last Friday afternoon when the members met at the club house. An enjoyable program on "Youth Conservation" was arranged by Mrs. Wade Mahan and was given by Mrs. M. H. Reeves and Mrs. Paul Pruitt. A short business session followed by program, with the new president, Mrs. Fred Broach, Jr., in charge.

Sunset H. D. Club Meets Thursday In Floyd Home

The Sunset Home Demonstration Club met on Thursday in the home of Mrs. Weldon Floyd. The president called the meeting to order, and roll call was answered by giving "My Family Budget."

A demonstration was given by Mrs. Almanrode, Mrs. Pack and Mrs. Jerry Nix, using canned fruit. Mrs. Wyatt gave a demonstration on how to make hooked rugs.

Refreshments were served by the hostess to the following members:

Mrs. Dee Perry, McAfee, Bob Hicks, W. E. Pack, Gill Wyatt, R. M. Almanrode, Roe Myers, T. J. Partridge, R. C. Partridge, Jerry Nix and J. S. Shannon.

The next meeting will be in the home of Mrs. Roe Myers on February 6, in which the club will have an auction sale of pies.

Methodist WSCS Has Business And Social Meeting

Mrs. S. E. McStay, assisted by Mrs. M. F. Billingsley, entertained the Methodist Women's Society of Christian Service in her home last Monday afternoon, at which time a business and social meeting was held.

The house was called to order by the president, Mrs. McStay, with Mrs. Don Davidson leading the opening prayer. Mrs. J. C. Borden was elected delegate to the annual conference, with Mrs. J. C. Rice as alternate.

After discussing several items of business, a very interesting program on China was planned and led by Mrs. G. S. Wyatt. Refreshments were served to the following members and visitors:

Miss Shelly Lee and Mmes. P. V. Williams, Worth Gafford, Don Davidson, G. S. Wyatt, D. E. Holder, H. A. Pendleton, J. D. Crockett, R. L. Ratliff, J. C. Rice, E. B. Bowden, S. E. McStay, M. F. Billingsley and Mrs. Phillips.

Goree W. S. C. S. Meets In Home Of Mrs. E. F. Heard

The Women's Society of Christian Service of Goree held its first meeting recently in the home of the president, Mrs. E. F. Heard.

After an inspirational program and business meeting, a lovely plate of refreshments was served to the following members:

Mmes. John Coffman, W. E. Robinson, Clyde Warren, Georgia Maples, Orb Coffman, Walter Mooney, and the hostess.

Mrs. Roy Jones of Wichita Falls visited relatives and friends here and at Goree over the week end.

Miss Martha Ann West, who is attending Hardin-Simmons University in Abilene, spent the week end with her parents, Mr. and Mrs. C. T. West.

Raymond Pribyla, Tillie Kuehler Are Wed At Rhineland

In a double ring ceremony performed January 28 in St. Joseph's church in Rhineland, Miss Tillie Kuehler, daughter of Mr. and Mrs. Tony Kuehler, became the bride of Raymond A. Pribyla, son of Mr. and Mrs. Raymond M. Pribyal of Bomarton. The Rev. Thomas Buegler, O. S. B., officiated and was the celebrant of the nuptial mass which followed. Acolytes were Larry Kuehler, Jerry Decker and Gene Sokora.

The altar was banked with peach gladioli and fern. Mrs. Francis Albus, organist, played the wedding march, and the choir rendered a mass in honor of St. Mechtilid and an "Ave Marcia."

The bride wore a gown of white with a fitted bodice of satin, a yoke of net studded with pearls and a skirt of net. Her fingertip veil of illusion fell from a beaded tiara. Her bouquet was of white carnations, fern and satin streamers. She wore a double strand of pearls, gift of the groom and carried a white prayer book and a crystal rosary.

Mrs. Henry Franklin, sister of the bride was maid of honor. She wore a dress of blue taffeta and a hat of blue net. Her corsage was of rose-pink carnations.

Henry Franklin acted as best man.

After mass, breakfast was served to the bridal party. In the afternoon a reception was held at the home of the bride. Out-of-town guests included the following:

Mr. and Mrs. Raymond M. Pribyla and son, George; Mr. and Mrs. Jerome Macha and family, Mrs. Frank Pribyal and family, all of Bomarton; Mr. and Mrs. H. A. Macha and family, Mr. and Mrs. Victor Macha and daughter, Lubbock; Mr. and Mrs. J. A. Decker and family, Mr. and Mrs. A. J. Sokora and family, Mr. and Mrs. Louis Kuehler and family, Mr. and Mrs. A. A. Homer and family and Reinard Kuehler, Pep; Mr. and Mrs. Henry Franklin, Fort Sumner, N. M.

A dance was given in the evening in the Rhineland community hall, the Dixie Playboys of Abilene furnishing the music.

The bride was reared at Rhineland and attended the Rhineland schools.

Mr. Pribyla attended school at Bomarton and business college in Wichita Falls. He served in the air forces for five and a half years and was released from active duty in January, 1946.

The couple will make their home in Seagraves, where Mr. Pribyla is engaged in farming.

The couple were married on the 39th wedding anniversary of the bride's parents.

Recent Bride Is Named Honoree At Lovely Shower

Mrs. Raymond A. Pribyla, who before her marriage was Miss Tillie Kuehler, was honored with a shower in the Rhineland community hall on January 23 at 3:30 p. m. Hostesses were Mrs. Tony Kuesler, Mrs. Henry Franklin, Mrs. J. A. Decker, Mrs. A. J. Sokora, Mrs. A. A. Dueterhaus and Mrs. A. A. Homer.

Miss Doralene Kuehler, sister of the bride, presided at the bride's book, which was presented to the bride.

For refreshments, cake, jello and coffee were served. Napkins carrying the inscription "Ray and Tillie, Jan. 28, 1947" decorated the

SCHOOL DRESS

SHE'll like going to school in this printed spun-rayon dress with the new ruffled yoke and full skirt. Mother will like it too because the label tells her it's a serviceable frock. It says that this rayon dress has passed the crown tests for resistance to shrinkage and color fading. If you would like more shopping hints to help you in choosing rayons, send a stamped, self-addressed envelope to the Women's Department of this newspaper for the useful free leaflet, "How to Buy Rayon."

A lovely assortment of gifts were presented the honoree. Those attending were as follows:

Mmes. Raymond M. Pribyla, Tony Kuehler, J. A. Decker, A. J. Sokora, A. A. Dueterhaus, A. A. Homer, Henry Franklin, Francis Albus, Louis Kuehler, Matt Krietz, Agnes Blake, G. J. Zeissel, Henry Herring, W. A. Jungman, S. E. Williamson, Leo Kuehler, J. W. Zeissel, Lorenz Friske, Herman Friske, Frank Cerveny, C. J. My, how she's grown!

This is the snow-suit that fitted Sally so well only two years ago. It was a little snug last winter, but still wearable. Now it's outgrown. Sally needs a new outfit—fast!

A lot of businesses are in the same spot as Sally. Their facilities are outgrown too. During the tight war years, they nursed old equipment along, patiently waiting for new materials and machines. And all the time they, too, kept on growing. But a lot of things they've been needing still aren't available.

That's why so many businesses—our own included—are like Sally, straining at the seams, waiting for the new materials we need.

This is a friendly apology to those folks who've asked to be added to the service lines. Though we haven't gotten around to you, we haven't forgotten you. We appreciate your patience, and want you to know that—as soon as the needed materials become available—we'll be happy to bring cheap, dependable electric service on to you, too.

Farm Placement Service Causes Hardship To Vets, Says McKinley

The present farm placement service, as now operated by the U. S. Department of Agriculture through

the extension service and county agents in Texas, is causing considerable unnecessary hardships to job-seeking veterans in small communities, Robt. M. McKinley, member of the Texas Unemployment Compensation Commission, declared today.

McKinley said that the present system sets up absurd barriers between unemployed veterans and agricultural jobs they would be qualified to fill. As a direct result, veteran unemployment in Texas is now largely the problem of small agricultural communities even though they have local employment offices staffed to serve workers and employers, whether agricultural or non-agricultural. The Employment Service, although created by Texas and federal law to benefit all unemployed and all employers seeking workers, is powerless to aid the agricultural worker because of an artificial dividing line.

The Texas Commissioner recently returned from a series of conferences in Washington held by the Legislative Committee of Employment Security Agencies. At these conferences plans were adopted by which every state will urge Congress to return the farm placement service to the Employment Service where the agencies believe it can be efficiently handled.

In most of the smaller communities of Texas veteran employment is still the largest problem, McKinley went on to explain. These veterans formerly worked on farms. Although they may be reporting to the local Employment Service officers seeking work and although farmers in those areas may need workers, we can not get veterans jobs on farms.

Under the present system, the veteran must seek out the county agent and apply to him for farm work, return to the employment office to file a second application for work, and then file a claim for readjustment allowances. From then on he may draw his \$20 a week payments because the Employment Service can not refer him to an agricultural job and there is no system of control by which the Unemployment Compensation Com-

mission may be advised should the veteran refuse suitable agricultural work.

McKinley pointed out that the present county agent system creates a number of absurd artificial barriers. For instance, the Employment Service can refer an individual to a job in a cotton gin, but cannot place him on a job to plow the field surrounding the gin. The Employment Service can get a job for a worker at a packing shed, but at the end of the packing season cannot refer him to a job with a fruit or vegetable grower just across the road.

Commissioner McKinley went on to say that for a smaller community to have a balanced economy it was necessary that there be a normal, seasonal flow of workers between in-town, especially rural, industries and farms surrounding the town. The artificial barrier of the TUCC's not being able to handle farm placements in many instances often shuts off half the local labor market. This cause excessive payments of unemployment insurance which may affect local employers' taxes as well as payments of G. I. readjustment allowances to individuals from whom the Employment Service division of the TUCC could find agricultural jobs if allowed to do so.

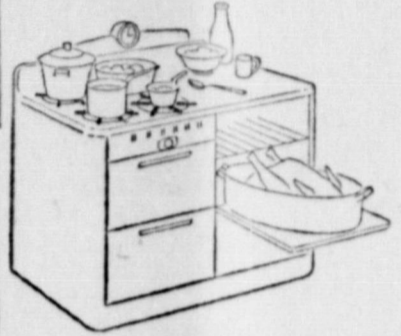

This artificially divided program is costing taxpayers thousands of unnecessary dollars each year, McKinley concluded.

Approximately 3,000 of the 7-240 Veterans Administration hospital beds on the unavailable list at the end of November could not be used because of lack of personnel.

FIXING UP the HOME
By Diane Greeter

Holiday Dinners

THE turkey is but a part of the holiday dinner. On this festive occasion we usually have several side dishes and an elaborate dessert. Confusion and clutter is bound to result as the cook tries to time each dish of the meal so that

it can be brought to the table piping hot. This means that the gravy, mashed potatoes and several other things are being finished on the top burners of the stove at the same time.

The clean, quick heat of a gas range is really appreciated when the cook has one eye on the clock. The visible flame is easy to control. Every top burner is busy.

In the oven the huge bird is already done and is getting a little more luscious brown color. It has been cooked the proper time under regulated heat and is bound to be just right.

All this, the convenience of a modern fuel that can also be used for automatic water heating, house heating and refrigeration, is available even if you live far out in the country or on the fringes of the suburbs. Modern liquefied petroleum gas — LP-Gas — more commonly known as "bottled" gas and "tank" gas, does the job for you when you live off the city gas mains.

Activities Of The Colored People

On Friday night, February 7, services will be held at the Church of God in Christ by the pastor, Elder C. Roberson will bring the message.

Rev. Brook, pastor at Albany and Breckenridge, preached in the joint meeting Monday night. The president, Elder Joe Williams, was present and was accompanied by his church congregation from Knox City.

Elder Morris, pastor of Anson, made the altar call, Elder Roberson at the piano, and Elder S. L. Sanders played the guitar.

Everyone is invited to attend the service Sunday at West Beulah Baptist church, Pastor Men-

FOOT AND MOUTH DISEASE WARNING

College Station.—In livestock areas, especially in the southwest, a sharp lookout should be kept for signs of foot and mouth disease, according to a recent report from the U. S. Department of Agriculture to the Texas A. and M. College Extension Service.

Outbreaks of the animal disease have been reported in Mexico, and U. S. and Mexican officials are conducting a survey in the area to map out control measures. At present, no known infection exists near the United States border, the USDA report stated, but there is "danger of its sudden appearance in Texas and parts of the Southwest" if it spreads to the border.

Livestock areas are cautioned to continue with extreme watchfulness and report to proper authorities anything that looks suspicious, the report continued. No fence exists on the border to stop strays and wild animals with the disease from coming into the United States.

One previous outbreak of the disease occurred in a remote mountain area of Mexico in 1926, but prompt action on slaughter and quarantines held the threat in check.

Mrs. G. R. Eiland left last Monday for Fort Worth for several days' visit with her son-in-law and daughter, Dr. and Mrs. James N. Walker and family.

dows will preach his departing message.

The school appreciates the nice books from Mrs. Bowden and Mrs. Mayo.

Mrs. Ben Hill and two little daughters spent the week end with her parents, Mr. and Mrs. Marcellus Johnson. Mrs. Hill was accompanied to Abilene Saturday night by her husband, where they recently moved.

Plenty of that good California Acala planting seed. Buy your planting seed early while you can get the best.

Farmers Union Cooperative Gin

Munday, Texas

OPPORTUNITY KNOCKS in '47

Opportunity knocks for the cotton grower to cash in on cotton in a big way in 1947. The acute shortage of cotton goods, livestock feed, vegetable oils and fats can be remedied only by greater production. This means a vast market for cotton and cottonseed products. It means strong prices for a long time to come. Farmers will do well to plan a substantial part of their farm program around cotton for high returns.

Veterans' News

All former members of the armed forces who had active service between October 8, 1940, and September 2, 1945, are eligible to apply for National Service Life Insurance, the Veterans Administration reports.

The only exception is when a person was specifically ordered to active duty for 30 days or less in the case of a few Reserve Officers, VA said.

A large majority of service men and women took out NSLI policies during their military service, but there were many who did not avail themselves of the government insurance and who are still eligible for the benefit, VA said.

There is some land in Alaska available to veterans for home-availability or purchase, the Veterans Administration has been informed.

Some areas are suitable for farming, but the chances on such farms are limited by lack of markets and transportation facilities, VA said.

Veterans interested in climate, farming conditions and markets in Alaska will find their best source for such information in the Director, Agricultural Extension Service and Experiment Station, College, Alaska.

Veterans in Texas, Louisiana and Mississippi filed more than 444,000 applications for government guaranteed loans on farms, homes and business during 1946, the Veterans Administration revealed.

The total of loans closed, 35,729, represented \$188,186,199 of credit expended by veterans in the Dallas Branch Area. All but 1,333 applications had been processed by December 31, 1946.

Three hospitals in the Dallas Branch Area of the Veterans Administration have been designated for the hospitalization of eligible veterans requiring neurosurgery.

They are the Veterans Administration hospitals at Dallas, Texas, and New Orleans, Louisiana, and the U. S. Naval Hospital in Houston, Texas.

Questions and Answers

Q. May I claim my husband as a dependent in my income tax report, even though he is receiving compensation for disability incurred while in the service during World War II?

A. A veteran's compensation or pension is not subject to Federal income tax. Therefore, if you are the family breadwinner you may claim exemption for him.

Q. May I transfer part of my eligibility for education and training to my wife who is also a veteran but who does not have sufficient entitlement to complete her college course?

A. No. A wife, even though she is a veteran, cannot use any part of her husband's entitlement under the Servicemen's Readjustment Act (G. I. Bill).

Q. Can a veteran of World War II secure insurance that will give him an income in case of total disability?

A. Yes. Total disability income benefits authorized by recent legislation can be added to any plan of National Service Life Insurance upon application, with proof of good health and payment of an

extra premium.

Q. For how long can I carry the World War II National Service Life Insurance that I bought while in service?

A. National Service Life Insurance is issued originally upon the 5-year level premium term plan, which was extended three years for all policies issued before Jan. 1, 1946. However, veterans have the privilege of conversion after one year from date of issue to permanent plans. The law provides that all level premium term policies shall terminate at the expiration of the term period unless exchanged for permanent policies on or before the expiration date.

If term insurance has been converted, it remains in effect as long as the premiums are paid.

At The Churches

METHODIST CHURCH

Well, I guess the sermon I preached last time was too long. At any rate when I got to the last of the Minor Prophets in my outline I said, "Now where shall I place Hosea?" One of my weary parishioners arose and kindly said to those near him, "He can have my place; I'm going home." We'll try to take care of that from now on. Our program for the week includes:

Sunday:
10:00 a. m. Church School. Some of our classes are crowded while others need your presence. You are welcome and wanted.

11:00 a. m. Morning Worship
The service that is so needed in your Spiritual Welfare. Come not because you feel obligated but because you want God.

5:45 p. m. M. Y. F. A small informal gathering to help us follow the Christ.

6:30 p. m. Preaching Service.
Warm, friendly services with time to visit and talk over our experiences.

Monday:
The Women's Society of Christian Service will meet at three in the Church for our unusual Bible Study. Mrs. M. F. Billingsley has directed this study and interest and attendance is unusual.

Tuesday:
The Wesleyan Service Guild meets at seven p. m. in the parsonage home for the first meeting in their Study of India. Mrs. Oscar Spann will direct this study. You will enjoy this meeting.

FIRST BAPTIST CHURCH

As has been previously announced, the churches of the Haskell Baptist association are beginning simultaneous meeting campaigns the first Sunday in March. Some definite announcements will be made Sunday concerning this campaign.

All services Sunday at the regular hours. The inspiration will be held Sunday night in the parsonage. We urge you to come to the services. The second sermon on Jonah Sunday morning.

W. H. Albertson.

With 99,055 veterans in Veterans Administration hospitals on Dec. 4 the hospitalized veteran population continues to show a rising trend.

For quick results, use a Munday Times classified ad.

CHURCH OF CHRIST

"Let me be weighed in an even balance, that God may know mine integrity."

These words of Job form the basis of the sermon for the morning worship this coming Lord's day. The text of the evening lesson, "But one thing I do, forgetting the things which are behind, and stretching forward to the things which are before, I press on toward the goal unto the prize of the high calling of God in Christ Jesus."

You are urged to attend the services of the Church of Christ at all times. Bible study, 10 a. m.; morning worship hour, 10:45; young people's meeting 6:30 p. m.; evening worship hour 7:00.

Every member is urged to be present for services this Lord's day and remain for important meeting of all members immediately afterward. Visitors are welcome at all regular services of the church. May the Lord guide your feet to His assembly.

Robert Gordon Clement, minister

What in the world has happened to rhabarb? I just happen to remember that I can't remember when I've seen any, it's been so long.

And gooseberries? Don't tell me that the poor, starving Yugoslavians just must have American rhabarb and gooseberries!

A man was making a political speech when someone hissed. The speaker said, "There are just three things that hiss; a goose, a snake and a fool. Come forward and be identified."

Randy Moore, former big league baseball star, is at the head of a big industry at Omaha, Texas—a nursery. He has 500 acres in peaches and some of the trees are over 25 years old. He says a peach tree will live forever if proper care is taken so that the new limbs will grow.

Moore goes in for terracing, fertilizer and chemicals to combat insects and plants disease. Last season, as an experiment, he planted a valley in leapedeza and produced 8,000 bales of hay.

He is fond of fishing and has a lake on the place and is building a clubhouse and boathouse.

The new Governor and the new Lieutenant Governor ran on almost identical platforms:
Redistricting;
A square deal for veterans;
Improved farm-to-market roads;
Full payment of pensions;
First-class University for negroes;
Increased pay to teachers;
And no new or increased taxes.

Total books in Veterans Administration general and medical libraries rose to nearly three quarters of a million volumes on November 1.

Mr. and Mrs. F. J. Jones and Mrs. G. R. Webster of Crowell visited in the home of Mr. and Mrs. Carl Howry last Sunday.

CARD OF THANKS

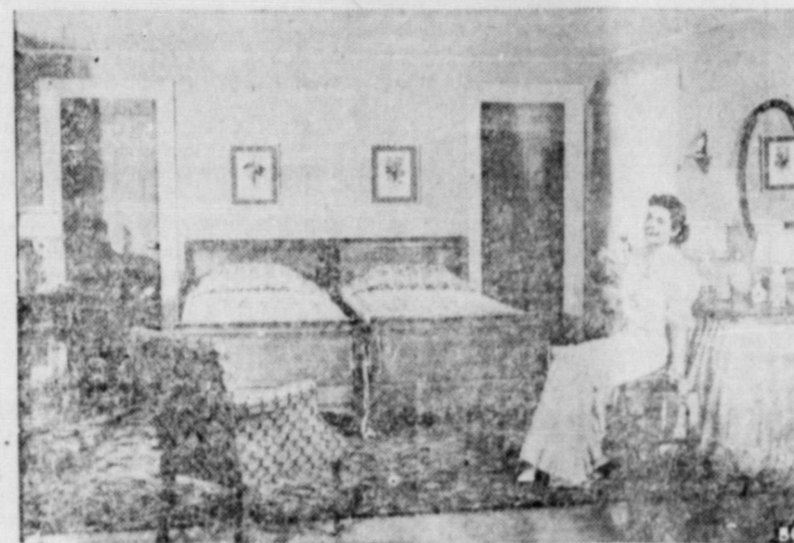

We take this means of thanking each and every one for your kindness and sympathy during the death of our loved one.

We wish to especially thank those for their donations, the food and the beautiful flowers. May God bless you all, is our prayer.
Mrs. Henry Grimes and family.

Paint Modernizes Old Bedroom

BEFORE: This bedroom is dark, gloomy and definitely old-fashioned. Gaudy wallpaper "dates" the room and fails to provide a proper setting for the attractive furnishings.

AFTER: Same room with same furnishings is now brighter, far more attractive. Modernization was accomplished by painting walls in a light shade of Kem-Tone, a resin and oil paint which can be applied right over wallpaper. One gallon of this wall finish mixed with tap water will revamp an entire room in one afternoon.

Blackeyed Peas Bring In The Cash

College Station—Blackeyed peas have developed into big cash crop in West Texas.

In Dawson and surrounding counties, the 1946 crop of green field peas brought farmers an average of \$110 per ton in the hull reports Dawson County Agricultural Agent T. A. Barfield. The blackeyed pea acreage in Dawson County alone last year was between 20,000 and 25,000 acres, Barfield says. Yields were reported to range from 400 to 2000 pounds per acre.

Commenting on the value of the peas as a cash crop, the county agent states, "Our minimum price at Lamesa was \$80 per ton, and competitive buying boosted the top price paid to \$130 per ton. I judge that the average price paid at Lamesa in 1946 was \$100 or \$110 per ton." The green peas have helped Dawson County farmers to restore some "much needed nitrogen" into the soil, Barfield says, as well as bring in cash during the last two dry years that the county has had.

Large acreages were also planted to the peas in Lubbock, Lynn, Terry, Bailey and Hale counties,

says Barfield, and "some fabulous yields" were reported on land under irrigation.

"Buyers seem to like the superior quality of the West Texas blackeyed peas," the county agent continues, "and they tell me that the peas have fuller pods, which make them yield more cans of peas per ton."

He adds that many Dawson county farmers will be planting blackeyed peas as long as there is a market for them.

Mrs. B. L. Vaughn of Abilene visited with friends and relatives here and at Goree the first of this week.

Mrs. Dave Eiland and Mrs. G. R. Eiland returned home on Wednesday of last week after several days' visit at Lamesa, Fort Worth, Dallas and other points.

Mr. and Mrs. Frank Bolander of Portland, Oregon, spent the week end with relatives and friends here over the week end.

Farm Incomes Show Increase During 1946

Austin—For Texas farmers 1946 was a year of prosperity from the standpoint of farm cash income which totaled \$1,246,883,000 for an increase of 9 per cent over 1945 according to The University of Texas Bureau of Business Research. In dollars and cents this set a new record and smashed all previous yearly intakes.

December income reached \$92,346,000 to dip 32 per cent from November but was 13 per cent above income in December 1945.

The Bureau's seasonally adjusted index for December rose to 260.8 compared with November's index of 252.7. This means that December farm cash income was 160.8 per cent above the pre-war level when the 1935-39 monthly index stood at 100.

All crop reporting districts shared in the increases for the year except in Eastern Texas (District 5) where a yearly decline of 5 per cent was recorded. Greatest increase was in the Trans-Pecos area (District 6) where a 39 per cent gain was recorded. The Northern Prairies (District 4) showed a 15 per cent increase and all other gains hovered around the 10 per cent mark.

December farm cash income was down from November's total in every district except the Lower Rio Grande Valley (District 10-A) where the fruit and vegetable season pushed the income 12 per cent higher. Decreases in all other districts ranged from 6 per cent to 55 per cent.

Compared with December 1945, farm cash income increased on an average of 13 per cent with gains in every district except the Lower Rio Grande Valley, where a late-starting fruit and vegetable season brought income down 34 per cent for the year.

QUICK RELIEF FROM Symptoms of Distress Arising from STOMACH ULCERS DUE TO EXCESS ACID

Mr. Dairyman:

Are you interested in feeding your herd better and at a lower cost? Since feed accounts for about half the cost of milk production the profit you make largely depends on what and how your herd is fed.

A well fed, well managed herd of well bred dairy cows will yield the most milk per cow at the smallest cost. High average year-round milk production depends on year-round feeding. Maintaining high average production per cow requires the feeding of an economical, well balanced mixture that furnishes the necessary protein, carbohydrates and minerals needed to balance all the roughage the cows will eat. Most of the roughages furnished cows in the South are low in protein. Where cows receive all the low protein roughage, such as grass hay, silage or cottonseed hulls, they will eat, they should be fed a mixture high in protein (20 to 22 per cent protein) in order to supply the protein needed. Protein is the most important nutrient that stimulates milk production. Nothing else can take its place. Cottonseed meal, soybean meal or peanut meal are excellent sources of protein.

For valuable information on economical feed mixtures and management of dairy cattle, ask for a copy of "1947 Feeding Practices." This bulletin contains up-to-date money making dairy information.

See us for your cottonseed meal and hulls or soybean meal supply. Use more of these rich-in-protein, milk making feeds to make more money in 1947.

THERE'S A GREAT DAY COMING HERE

There's EXTRA SAFETY in the Tire that OUTWEARS PREWAR TIRES

While many postwar products are still in the dream stage, one is not . . . the new postwar B.F. Goodrich Silvertown that OUTWEARS PREWAR TIRES.

It's been produced . . . and what is more . . . in the past twelve months it's been delivered to car owners in greater quantities than any tire in B.F. Goodrich history.

Of course, many car owners have heard about the thousands of extra miles of service from the broader, flatter tread that covers more road area and gives greater protection against skidding. They know about the 35% stronger cord body that gives better resistance to road shocks and bruising. It's no wonder the factory's out-

standing production has been taxed keeping up with this extra demand.

But this is one product you can take out of your dream book . . . it's here. If you'll be needing new tires soon . . . check with us today for the tire that's worth much more but costs no more—the B.F. Goodrich Silvertown that OUTWEARS PREWAR TIRES.

HYBRID CORN OUTYIELDS NATIVE VARIETIES

College Station.—Corn hybrids are destined to take the place of the native open pollinated varieties of corn in Texas, says E. A. Miller, agronomist of the Texas A. and M. College Extension Service.

Miller believes that the open pollinated varieties are on the way out because Texas farmers can get much greater yields from hybrid varieties.

Although corn hybrids adapted to Texas have been available for only a few years, about 800,000 acres—one fifth of the state's corn acreage—was planted to hybrids in 1946, Miller says. He believes that as soon as more seed is available and farmers realize the value of corn hybrids, acreage will be expanded on a much larger scale.

In field tests conducted during 1946 at 17 different Texas A. and M. College Agricultural Experi-

ment substations corn hybrids showed an average yield increase of 33 per cent over open pollinated varieties. These tests were made in nearly all sections of the state. Such increases from hybrids can be had by farmers at an extra seed cost of only 75 cents to \$1, Miller says, and will mean more dollars in the corn growers' pockets.

The Experiment Station tests showed that hybrids have certain regions in which they are well adapted, Miller says. The Texas yellow hybrid No. 12 is well adapted in the more humid sections of East Texas, especially on fertile soil, including river bottoms. Eight and 18 have made good records in the central and western corn-growing areas, and the new yellow hy-

Mrs. Lee Rice and Mr. and Mrs. Ivan Prosser of Lubbock visited in the homes of Mr. and Mrs. W. Warren and Mr. and Mrs. Hoyt Gray over the week end.

brid No. 20 has a wide adaptation and is suitable for the drier as well as the more humid sections. The white hybrid No. 9W, also widely adapted, is the only hybrid that can be recommended for the Gulf Coastal Prairie, Miller says.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin—An automobile collision can kill a human being just as certainly as cancer, and a traffic accident can cripple just as badly as poliomyelitis, and for this reason Dr. Geo. W. Cox, State Health Officer, urges Texans to protect their health and lives by using the utmost care on highways.

"It is the duty of the State Health Department to do everything in its power to foster good health and prevent as many needless deaths as possible," Dr. Cox declared, and because so many Texans each year are killed, permanently crippled, or disabled for long periods of time through preventable traffic accidents, I earnestly urge every driver in the State to do his conscientious best to help reduce the number of these tragic and often fatal smash-ups."

Dr. Cox said that it is a driver's responsibility to know that his lights, tires and brakes are in good condition; that he pay proper attention to traffic signals and road signs; that he give due regard to other drivers and pedestrians; that he use great caution at unmarked intersections, "and above all," he urged, "use common sense and follow a live-and-let-live policy when in your car, whether driving to the corner grocery, or going from coast to coast."

USO Camp Shows troupes increased the number of their performances in Veterans Administration hospitals and homes from less than 500 in June to more than 700 in November.

Foods on the market in abundance during February will be fresh citrus and apples, canned citrus juices, canned grapefruit segments, dried peaches, potatoes, onions, celery, eggs, heavy tom turkeys and peanut butter.

Fixing Up the Farm by BURTON WILLIAMS

Protect Your Machinery

WHERE is that expensive tractor of yours this winter? Not out in the open or in some leaky shed, surely. Machinery is too costly and too badly needed to be left at the mercy of wind, ice and snow.

A machine shed adequate to take care of all equipment is a good investment. Protected machinery lasts longer and gives better service. There are fewer breakdowns and costly delays.

A machinery shed, like the one sketched above, will fill many needs. The basic plan can be adapted to individual requirements. One end is enclosed for a garage or workshop. Where weather is particularly severe, the open side can be enclosed with sliding doors. No need to buy expensive doors—sturdy ones can be constructed from wood framing and the large rigid asbestos cement boards.

A machine shed of this kind can be built at modest cost by covering the side framing with large sheets of asbestos cement board and applying a roof of asbestos shingles. This type of construction is highly weather-resistant and requires no periodic painting.
