Odd Bits Salvaged
At Random

(By Aaron Edgar)

"Doctor, we can't admit her—we can't take her in!"

"I've brought her over here," the doctor said, "and I'm bringing her in! Get a place ready for her."

"But, Doctor, every room is full. We don't have a place for her."

"H—," replied the doctor, "find a place for her. She's got to have hospital care."

That conversation took place some years ago between a doctor who is connected with the hospital and the hospital superintendent. The patient was an aged Mexican woman who had come to Knox county with her family to help gather the county's cotton crop.

Her ailment was such that caused ulcers to break out over her body, which was almost a solid sore. True, she wasn't a prominent citizen—but she had a heart, and a soul, a mind, and a body that was paining her almost unto death.

A place was found for her—at the stubborn insistence of the doctor who was interested in his patient. Her place was a bed in the basement of the hospital building.

But she got medical care and hospital care. Next morning when he visited her, he was greeted with a warm smile of appreciation. Some of the pain had left her body; some light had returned to her eyes. She was improving.

Within a week or so, she left the hospital; possible never to be completely well, but she was at least alive and able to get about again.

We don't know whether the doctor ever received any money for his services, or whether the hospital was paid—but possibly a human being's life was saved.

She returned to her native Mexico, but she never forgot her doctor who helped her back to health. Letters, written in broken English, came to him regularly—and sometimes a little gift of appreciation.

She came back to Knox county every fall for several years; she passed away some five years later. When she returned, she always came to see her good doctor. About all the English she knew was "thank you," and she used those words in unlimited quantities.

That's one instance we received some knowledge of personally. A patient might have been refused admission to the hospital but for the interest her doctor had in her.

A vote for the hospital bonds next Saturday will help to alleviate such difficulties as this. There's no question but that more rooms and more equipment are needed in our county hospital.

As has been explained, the additional hospital bonds won't increase taxes over and above what you're already paying—just prolong the debt over a longer period. But you have your own ideas—think them out right—then vote Saturday!

The Mississippi river came through town again Saturday morning—and she was plenty sloppy. She's come through several times in the past two or three weeks. Even had old Doss Holder setting out fishing lines at the curb in front of his store.

City officials are making a pretty thorough study of the drainage problem. When the river comes down, they go here and yonder and investigate as to where a ditch would give more drainage and relieve the situation some.

They're about ready to start some ditches, and they have the possibility of getting a county grader to help out with the ditch work.

Another thing they'll need some help with, and that's the irate citizens who don't want a ditch along their property.

It all goes back to the old saying: It's selfish for so few to jeopardize so many.

Knox County Hospital Notes

Patients in the Knox county Hospital Tuesday May 20, 1947
Mrs. Elmo Stephens, O'Brien.
C. J. Reese, Knox City.
Mrs. T. G. Carney, O'Brien.
Art Sams, Benjamin.
E. M. Stanfield.
Mrs. J. L. Walling, Munday.
Baby Walling, Munday.
J. F. Hughes, Munday.
Mrs. Bobby Burnett, Knox City.
Baby Burnett, Knox City.
Boyce Gene Lusk, Knox City.
Mrs. T. A. Russ, Old Glory.
Mrs. H. L. McFadden, Rule.
Kenneth Henson, Knox City.
J. B. Hendrix, Knox City.
Mrs. L. L. Houston, Knox City.
Lynn Davidson, Rochester.
Roy Heater, Knox City.
Mrs. Paul Fitzgerald, Knox City.
Baby Fitzgerald, Knox City.
W. R. Couch, Goree.

Births: Since Tuesday May 13th.
Mr. and Mrs. J. L. Walling, Munday, a son.

Mr. and Mrs. Bobby Burnett, Knox City, a daughter.
Mr. and Mrs. W. A. Mitchell, Rochester, a son.

Patients Dismissed since Tuesday, May 13th

Mrs. Eula Parker, Rochester.
Jackie Moore, Munday.
Mrs. Edwin Myers, Knox City.
J. C. Golden, Benjamin.
Mrs. W. A. Mitchell, Rochester.
Baby Mitchell, Rochester.
James Kolb, Aspermont.
Fred Lain, Knox City.
Gary Offutt, Munday.
Roland Offutt, Munday.
Shareline Fitzgerald, Munday.
Mrs. H. R. Beauchamp, Rochester.
Hortense Smith, Rochester.
Evelyn Green, Munday.
Mrs. Bill Waggoner, Knox City.
Mrs. W. R. Womack, Crowell.
Mrs. W. D. Lindsey, Gilliland.
Baby Lindsey, Gilliland.
Mrs. Ara Collins, Munday.
Mrs. O. J. Hill, Ft. Worth.

Hail Damages Crops Of Wheat Near Rhineland

Disastrous hail came last Friday night and played havoc with wheat crops on several farms in the Rhineland community. The hail, which had been spotted in areas of West Texas, had missed most of Knox County until this time. Several farmers whose crops were in the heaviest of the hailstorm reported from 80 to 90 per cent, while other in the edge of the hail strip reported damage of from 40 to 50 per cent. Wheat in that section was the best than in many years.

The hailstorm was around a mile in width, taking about the same course as the Brazos river, and extending for several miles in length.

Some of the farmers reporting heavy damage are: Johnnie Michels, Eugene Michels, Johnnie Zeissel, H. F. Jungman, John Brown and others.

A small cyclone hit the Gilliland section, in the northern part of Knox county, on Thursday night of last week, destroying one or more farm homes and causing damage to others.

Poultry Culling Slated Next Week

Announcement was made Tuesday that M. L. Sharpe, demonstrating the Eamesway method of poultry culling, will be in the county and will cull flocks for poultrymen on Thursday and Friday, May 29 and 30.

Mr. Sharpe is well known to many poultrymen, and many have designated they want him to do their culling. Poultrymen are asked to get in touch with Red Morrow at the Banner Produce for culling dates.

KNOX CITY STUDENT NAMED PRESIDENT OF CAMPUS ORGANIZATION

Denton—Leona Havran of Knox City, student at North Texas State College, has been elected vice-president of the Future Teachers of America organization on the campus.

A sophomore student majoring in speech, she is the daughter of A. Havran, route one, Knox City. She is a member of the Quintilian club, House President's club and the Gammadons.

MAID HILMA SEES HOLLYWOOD

Left—Pretty Hilma Jane Seay of Memphis, Tenn., 1947 Maid of Cotton, greets Joyce Reynolds, Warner star (right), at the studios during her recent visit to Hollywood. Right—The cotton industry's Maid wears a smart new cotton in all white percale. The costume illustrates the new trend to hooded garments.

235 Masons At Area Meeting In Seymour Monday

Texas' Grand Master Speaks To Group

Around 235 Masons of this area attended the 91st Masonic District meeting held in Seymour last Monday evening, gathering to hear the Rev. R. Bruce Brannon of Commerce, Grand Master of the Grand Lodge of Texas, A. F. & A. M., as he made his official visit to this district.

Members of the Seymour Lodge were hosts to the group, serving a delicious barbecue dinner at the Seymour park at 7:15 p. m. The Masons then assembled at the high school gymnasium for the business meeting and program.

Rev. Brannon, wearing the purple of the Texas fraternity, was presented to the group, and made a very forceful and inspirational address, emphasizing the work of the Masonic Lodge and the value of the Holy Bible, "the Great Light" of the fraternity. This Grand Master is on a tour of this section of Texas, and was scheduled to go to Lubbock and on into the Texas Panhandle.

Officers Elected
Mr. Collier of Vera, president of the 91st district association, presided during the business session, in which new officers for the ensuing year were elected. Officers are as follows:

Carl Quisenberry of Seymour, president; G. B. Hammett of Munday, vice president; E. T. Goss of Seymour, secretary and treasurer. Knox City was selected for the next meeting, which will be held on the third Tuesday in July.

All of the ten lodges in the district were represented at this meeting, and visitors were present from Olney, Archer City, Lubbock, Breckenridge, Stamford, and other points.

Steam Test On Pressure Cookers Will Save Trouble

Running a test on the steam gauge of the pressure cooker now will save many a housewife trouble during the canning season.

Correct operation of the pressure gauge is all-important in home canning, says Miss Gwendolyn Jones, food preservation specialist of the Texas A. and M. College Extension Service. Proper processing of low acid vegetables and meats depends on whether the gauge is "off," warns Miss Jones, food may be under processed and lost by spoilage, or it may be overcooked, which results in loss of food value and flavor.

The food preservation specialist urges homemakers to watch for an announcement from their local county home demonstration agent about pressure cooker clinics which are being held over the state. At these meetings, the homemaker may take her cooker in and have it inspected and tested.

Sister of Local Woman Passes Away At DeLeon, Texas

Mrs. J. A. Lightfoot, 51, of DeLeon, Texas, sister of Mrs. A. E. Womble of Munday, passed away last Sunday at a Gorman hospital. She had been receiving hospitalization for a little over a week.

Mrs. Lightfoot had been a resident of DeLeon for a number of years. Mrs. Womble was called to her bedside Friday.

Funeral services were held from the Methodist church in DeLeon on Tuesday morning. Attending the funeral were Mrs. Womble, Mr. and Mrs. Joe Bailey King and Mr. and Mrs. E. L. Womble and children.

Catches Fish In Front Of His Home

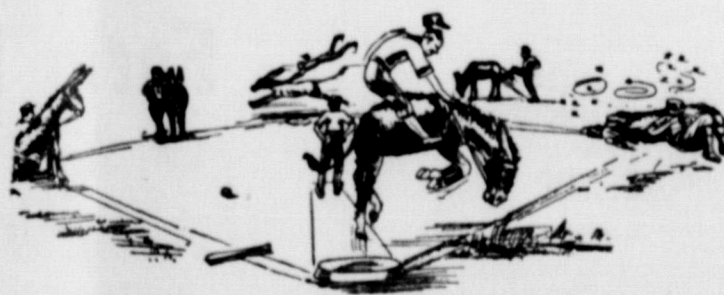

The fishing's good—right on the streets of Munday!

G. C. Conwell was in town Monday morning, carrying a 3-gallon water bucket. He reached into the bucket and produced a catfish about eight inches in length. It was caught in the ditch, right in front of his Munday home.

A member of the Conwell family noticed the fish going upstream. He snatched his shoes, waded in and came out with his catch.

Another citizen claimed he saw a small catfish swimming down the curb one morning last week! It is believed they are coming from the little hole on the railroad right-of-way, just east of town.

Donkey Baseball Game Here May 27

We'll Bet On The Donkeys To Win!

We're betting on the donkeys to win 'cause we don't think there's a Jaycee or a Country Boy who's as stubborn as any one of that set of donkeys!

But you'll see next Tuesday night—at 8:30 p. m.—when the Munday Jaycees and the Country Boys stage a ball game, mounted on donkeys.

We've seen boys try to play baseball with donkeys, and it ain't no picnic, Geronimo!

But the Jaycees and the Country Boys have got to be shown, and they'll show you, too, if you'll come out to the Munday softball field next Tuesday night.

The Jaycees would probably be riding a fence rail, if one was available, to get into practice this week. They want to take the Country Boys to a cleaning, but they're gonna have the donkeys to reckon with, too.

One of the Patterson boys—we think it's Wayne—is getting up a

New Butcher Now Serving Customers At Holder Market

Announcement was made this week that Eugene Richardson, formerly of Abilene, has taken charge of the market at Holder's Grocery. He is anxious to serve customers of the store.

Mr. Richardson is an experienced butcher, having been employed with the Safeway Stores for the past twelve years. He invites the public to visit the Holder Market for quality meats of all kinds.

In announcing the employment of Mr. Richardson, D. E. Holder, Sr., also stated that his son, D. E. Jr., is in complete charge of the grocery store. He stated that he believes these two young men can give the type of service the store's customers are entitled to get. Your continued patronage is cordially invited.

D. E. Holder, Sr., plans to take it easy, in the interest of his health. He stated he will be around a portion of the time, but his health is such that he won't be able to "hit the ball" as he has in the past. But the store is ready to give you every service possible, he stated.

J. L. WALLING ARE PARENTS OF A SON

A son was born to Mr. and Mrs. J. L. Walling on Tuesday, May 20, at the Knox County hospital. The young fellow has been named Kenneth Lynn, and mother and son are reported to be doing nicely.

Mrs. Walling is the former Joyce Milford and was reared in the Sunset community.

The Largest Check They Ever Got!

When the fire alarm sounds, it isn't a reward the local firemen think about as they rush to their positions about the fire truck, it's the possibility of saving someone's property.

And their thoughts were along that line when they were called out recently to fight the fire at the Rexall Drug Store. A number of them entered the building, with fire nozzle open, only to be forced out soon because of the dense smoke, got a breath of fresh air, and entered again.

They did a good job, and to show his appreciation, A. L. Smith presented the fire department with a \$200.00 check last week. It was the largest check local firemen had ever received for fighting a fire.

Rifle Club Is Formed By Knox 4-H Club Boys

Johnnie McGaughey, president of the Knox county 4-H Rifle Club, announced this week that final arrangements have been made to affiliate with the Junior division of the National Rifle Association.

Johnnie announced that the Benjamin Chamber of Commerce contributed the necessary dues through its representatives, Herbert Sams, for paid membership with the association in 1947.

The club, with headquarters at Benjamin, is working jointly with the Boy Scout Troop of that city, has sent in its application for membership.

Summer plans include rifle practice and attendance at the District Camp to be held in Wichita Falls. Rifle practice has been followed for years at the District Encampment for 4-H boys.

If Knox county's application for affiliation is accepted its representatives will be eligible to participate in District matches and if declared winners, eligible to participate in the 4-H Round-up contests at College Station.

Members of the club will be carefully supervised by a competent instructor while on the firing line. Safety in the use of the gun as well as accurate shooting will be primary points stressed during practice.

Crash Victim's Funeral Rites Are Held At Haskell

Funeral services for Floyd B. Tidwell, 42, of Hobbs, N. M., and formerly of Haskell, were held at Haskell at three o'clock Wednesday afternoon at the First Baptist church. Rev. W. H. Albertson of Munday conducted the services.

Mr. Tidwell was killed in the collision of two automobiles near Hobbs on May 18. Three other persons lost their lives in the accident.

He had relatives living near Munday. Survivors include the widow, Anna May Tidwell; two daughters, Patsy and Mary Joyce, two sons, David and Don; two sisters, Mrs. Zettie Bamie of Denton and Mrs. Edna May Burson of Shamrock; and seven brothers, Carl of Beulah, Ernest of Haskell, Raymond Ala., Roy of Amarillo, Lindsey of Borger, and Clearance of Rule.

Dr. H. D. Landes, Optometrist, Will Be Here Saturday

Dr. H. D. Landes, optometrist of Wichita Falls, will make his first visit to Munday next Saturday for the purpose of examining eyes and fitting glasses of local people who desire this service. Dr. Landes is bringing this service to Munday at the request of a number of local people.

His office will be in the Richmond Jewelry Store, and he invites all people who want their eyes examined to visit him next Saturday. Glasses will be recommended and fitted only when examination reveals they are needed.

Dr. Landes is connected with Faith Optical Company of Wichita Falls.

May 19-24 has been proclaimed National Cotton Week.

Record Wheat Crop Expected In Knox County

Continued showers with occasional hail storms are causing anxiety among the wheat growers of Knox county this week, as the rainfall for May reached the eight inch mark. Estimations for the county crop, however, still rested around the eleven million bushel crop for the 64,000 acres now standing in the county. This represents a 10 per cent increase over last years sowed acreage.

Most veteran farmers claim the present crop the best in years.

Many new varieties of wheat are being tried this year. Among these is the Comanche wheat, which has proved itself at the Experiment Stations in Denton, Iowa Park, Chillicothe and Spur. It has yielded as much or more than Tenmarq at these stations and was more resistant to smut and leaf rust and has a higher test weight, besides being from four to six days earlier. Another promising variety is Westar. Outstanding characteristics of Westar include high yield, a high test weight, good milling and baking characteristics, and high resistance to leaf rust.

Some what older wheat is Wichita wheat, very similar to Early Black Hull. It is equal or superior to black-hull in yield at the Experiment Stations. Although it is usually one day later in maturity than black-hull. However, over a five year period the experiment stations advise that Comanche will yield more than Early Black-hull or Wichita.

Most Knox county farmers are still planting Early Black-hull, which represents about 85 per cent of this years crop.

Harvest is expected to start between June 1st and June 5th. Railroad men have advised that most of the early wheat district, in which Knox county is included, can be supplied with sufficient cars for movement. However, as the harvest advances north the situation may become critical.

J. B. Kidd, Farm Labor Advisor, advises that many combines from the north will be available for the harvest. He expects to secure about seventy combines to start from Knox county.

Last Rites For Mrs. Havran Are Held Thursday

Mrs. Trezea Havran, well known citizen of this area, passed away at the family home 7 miles southwest of Munday, at five o'clock Tuesday morning, May 20.

Born in Czechoslovakia on September 29, 1873, Mrs. Havran was 73 years, 7 months and 21 days of age. She had been a resident of this area since 1907, where her husband was engaged in farming until his death in 1943. She was a member of the Catholic faith.

Surviving her are five sons, who are: Adolph Havran, Knox City; Frank Havran, Cortez, Colo.; W. J. Havran, Knox City; Albert Havran, Olney, and Lewis Havran, Brownfield. She is also survived by seven grandchildren and one great grandchild.

Funeral services were held from the St. Mary's Church in Bomarton at three o'clock Thursday afternoon, May 22, conducted by Father Mosler. Burial was in the Bomarton cemetery, with the Mahan Funeral Home in charge of arrangements.

Bible School To Begin Monday At Goree Church

The First Baptist church of Goree is sponsoring a Vacation Bible School, which will begin on Monday, May 26, and continue through Friday, May 30.

Children 4 through 16 years of age, and those of all beliefs, are urged to attend. Classes will begin at 8 a. m. and close at 11:30. Bible study, handicraft and recreation will be included in the school. A graduation program will be held at 8 p. m. Friday, May 30.

Visitors in the F. E. Jetton home last week were Mrs. Ed Jones of Goree, Mrs. Roy Jones and her sister, Rose, of Wichita Falls, Mrs. J. E. Cure of Goree and Mrs. Maude Cure of Hale Center.

THERE'S LOTS OF WORK TO BE DONE

The water that has coursed through town almost every day for the past two weeks proves, even to the ordinary layman, that there's lots of work to be done to give the town of Munday proper drainage.

Our city officials, who have been studying the situation for months, and some of them for years, know full well the work that is before them. They know, too, that this work will be hampered by many of our citizens who will be reticent to cooperate.

Now a system of ditches are being planned to try to give our streets more drainage, and those who are to do the work fear the wrath of citizens who don't want a deep and wide ditch beside their property. Our officials are trying to work out the problem so the town will have the most drainage as possible and benefit the most people. They ask citizens to cooperate, and in some instances accept some damage, so most of our people will benefit. It's the only way the problem can be solved.

But when the question of drainage comes up, we always think of a former mayor of Munday, who served back before our time.

According to the story, some engineers and experts had come into town. They contacted the mayor and said: "We're going to drain your town." Our mayor studied them a moment, and then asked: which end are you going to jack up?"

LIVES SAVED

Adequate precautions, good construction, and fire safety rules are saving lives in hotel fires, according to the National Board of Fire Headquarters.

In Terre Haute, Indiana, for instance, fire broke out in a 10-story hotel. Fire Department officials said that the action of guests in not opening doors and running into corridors prevented what might have been a disaster.

In the Hotel Lincoln in New York, a mattress burst into flames from a cigarette. A heavy door prevented the spread of fire and smoke—proving that proper construction is one of the best defenses against conflagrations.

It is estimated that an inspection of hotels inaugurated on a statewide basis by Arkansas insurance men last summer saved 18 lives when a Hot Springs hotel burned. The inspection led to the clearing of a fire escape down which guests fled to safety.

Efficient work by the service personnel of a St. Louis hotel prevented panic from breaking out among 800 guests when fire started in a porter's room on the first floor and raced up a shaft to the 16th.

Fire prevention measures, including newly-installed protection of an elevator shaft, is credited with averting disaster in a recent Grand Rapids hotel blaze.

There are signs that the war against fire is bearing some fine fruit. We must keep up and intensify the work.

OUR FIREBOYS ARE DILIGENT

Work of the Munday Volunteer Fire Department in extinguishing the fire at the Rexall Drug Store with a minimum of damage proves that members of our department are efficient and diligent workers.

The task of entering the doorway of a burning building that's filled with smoke is no small one. Our firemen entered this building time after time, then had to come out for air as they were about to become suffocated with smoke.

The fact that the flames did not spread beyond the small space of its origination proves that our firemen's work was efficient, however slow they seemed to be getting along to the casual observer.

That local fire also proved that our firemen are still in need of equipment, other than a new fire truck which has been ordered for months. They need gas masks that will enable them to combat a fire in the dense smoke.

And the "casual observer" mentioned above sometimes prove a handicap to our firemen by crowding too close to the scene and preventing efficient operations. Let's give them every consideration and every cooperation when they're called to save our property from destruction by fire.

HOW MANY OIL COMPANIES?

One question in a recent public opinion poll asked how many companies there are within the oil industry. The average answer was 28. And only 13 per cent of the people queried answered 100 or more.

Actually there are something like a thousand producing oil companies—to say nothing of the additional thousands of companies which are engaged in refining oil, marketing oil, or contributing in some other way to the processing and distribution of oil products. Oil is one of the most aggressively competitive of industries—and is about as far from being a monopoly as the imagination can conceive.

An advertisement run by the Ethyl Corporation gives interesting evidence as to the oil picture. Ethyl is a trademark product, and presumably could be distributed in a more or less monopolistic manner if its manufacturers so desired. However, according to the latest count, 240 oil refineries in the United States use Ethyl in their gasoline. And these gasolines, all of which are aggressively competing with each other for public favor, are sold by tens of thousands of retail distributors—all of whom have a right to display the Ethyl shield on their pumps.

This for example is how improvements are made available to those who desire them—in a competitive economy where every man is entitled to do as much business as his abilities and the quality of his product permit.

Small boy answers to an anatomy test: "Your legs is what if you ain't got two pretty good ones you can't get to first base, and neither can your sister."

A bill has passed the House almost unanimously to appropriate \$1,500,000 to create a new four-year technological college. Whose idea is this? Had you heard anything about it? Texas Tech at Lubbock is a great school; so is Texas College of Arts and Industries at Kingsville. Why not send tech students to one of these highly successful colleges?

Just a few weeks ago, this columnist visited A. and I. and it is a fine school but is greatly in need of buildings for the excellent technological equipment it has—electric, aviation, oil and gas equipment.

A Want Ad in The Times Pays

From where I sit... by Joe Marsh

When Ed's Crops Failed

Three years ago Ed Smith's luck went bad. His crops failed, and it wasn't long before Ed's home and furnishings were up for auction.

Half the town turned out, and Ed must have thought his neighbors were a bunch of hungry vultures—buying up all his precious possessions for a song.

When it was over, and the auctioneer had left, Sam Abernathy turns to the crowd and says: "All right, folks, let's take time out for a glass of beer, and then put this stuff back where it belongs!"

Two hours later, Ed was in possession of his home and furnishings; and the folks who'd paid for them were sitting around Ed's fire enjoying a neighborly glass of beer—to show their friendship and their confidence in Ed.

Today, Ed's back on his feet—another constructive member of the community. And from where I sit, we've all been well repaid—a good investment in a good man.

Washington News Letter

By Congressman Ed Gossett

Washington, D. C., May 17—Two notable events occurred in Washington this week which have been most pleasing to many of us. One was the President's signing the Portal to Portal bill, i. e., the bill which outlaws 98 per cent of the portal to portal suits now pending; the other was the action of the Supreme Court in upholding the so-called Southern governors case for freight rate equality. The first bill introduced by me upon coming to Congress was one seeking to remove freight rate discrimination against the South and West. During each session of Congress, I have joined others in introducing such legislation. In many speeches and articles I have condemned this economic handicap imposed on the people of Texas and others outside the official zone of the North-east.

We have been ridiculed by the so-called freight rate experts and by the railroad lobby generally. Two years ago the Interstate hearings, handed down a decision holding that the alleged discrimination did exist, and that there was no justification for such freight rates. The faces of the railroad lobbyists and their "experts" became exceedingly red. Among other things, the railroads have always contended that it costs more to move freight in the Southwest than in the Northeast. Non-partisan studies have shown the exact reverse to be true. Now that the federal courts, including the highest court in the land, have upheld our contention and have upheld the Interstate Commerce Commission in this matter, it appears that at long last we are going to secure some equality in transportation charges.

Record Sheet Holder

KEEPING careful records of production and breeding dates is one of the best helps to a farmer in grading up his flocks and herds. It enables him to find and eliminate the culls more quickly than if he trusts solely to his powers of observation.

The best time to make the entries is as soon as the results are noted. If the record sheets are in the same building, with a good writing

surface available, the matter of making the entries promptly will not be overlooked.

Illustrated above is a handy record sheet holder that folds up against the wall when not in use. It can be made with a few small pieces of wood, three hinges, a wing fastener and some nails. As the larger drawing above shows, the device is small and compact but still offers a good writing surface. Another advantage is that it keeps the paper clean. The smaller drawing shows the record sheet holder folded up and out of the way.

Under the law passed by Congress last year, all persons lobbying in Washington are required to register with the Congress and file quarterly reports. Reports filed in Congress this week show that organized labor maintains the largest lobby, with 75 paid workers on the rolls. Incidentally, the next largest lobby is the so-called DP (displaced persons) lobby. Millions of dollars are now being spent by numerous organizations and individuals on propaganda to break down our immigration walls. This DP lobby wants us to bring into

Legal Notice

NOTICE OF INTENTION TO ISSUE INTEREST BEARING TIME WARRANTS

Notice is hereby given that the Commissioner's Court of Knox County, Texas, intends on the 26th day of May, 1947 at a Special Session thereof, to pass an order authorizing the issuance of Knox County Road and Bridge Time warrants, in an amount not exceeding \$8,000.00 bearing interest at the rate of Four (4) per cent per annum, and maturing serially as follows: \$2,000.00 in each of the years 1948, 1949, 1950 and 1951, which warrants are to be issued against the Road and Bridge Fund, providing for the delivery of said warrants to the holders or assignees of claims from whom such Bridge material is purchased.

Said warrants are to be issued in accordance with the provisions of Chapter 163, Acts of the Regular Session of the Forty Second Legislature.

This action is given by authority of the Commissioner's Court of Knox County, Texas.

County Judge, Knox County, Texas.
Wm. Griffith

44-2tc

this country hundreds of thousands of refugees from DP camps of Europe. This is one of the most dangerous and vicious programs ever instigated in this country. It is supported by many humanitarian organizations that do not know what they are doing. We maintain 299 DP camps in our occupied zone of Europe. Of the 800,000 persons we are feeding in these camps, only 200,000 were displaced persons when the war ended. While there are many good people in these camps, there are also vast herds of bums, and criminals, and political conspirators of all hues. Instead of lowering the immigration barriers, this is the time to raise them. The immigrants who will come from these DP camps are not the kind that built America, but are the kind who will destroy it.

One constructive thing on which this Congress is now working, is the creation of a National Scientific Foundation. It is contemplated that such a foundation would not only carry on military research but also medical research. We spent two billion dollars to develop the atomic bomb. The same money and brains that split the atom ought to be able to find cures for cancer and many other pernicious diseases that destroy life, happiness, and efficiency.

Extension Recruits Insect Reporters

College Station—An Army of "insect reporters" is being recruited by the Texas A. and M. College Extension Service to fight cotton pests this year.

In every cotton-growing county in the state, county Extension agents are lining up volunteer reporters who will make weekly reports on infestations of boll weevils, boll worms, flea hoppers, plant lice and leafworms—Texas cotton's five biggest insect pests.

The weekly surveys, which will be turned in to the county agricultural agents, who will tabulate results and make recommendations for insect control when and where it is needed. Each county agricultural agent will submit his weekly survey to Extension entomologists at Texas A. and M. College, where the Extension Service's state report will be compiled.

and the Texas A. and M. College Agricultural Experiment Station also prepare weekly insect reports. These two reports, along with that of the Extension Service, are combined by the Experiment Station to form a weekly, state-wide survey on the cotton insect situation, to aid growers in fighting the pests.

Insects hit cotton in near record numbers last year, and entomologists are predicting another big infestation this season.

HOWARD COBBS ARE PARENTS OF TWINS

Friends here received messages last week announcing the birth of twins, a boy and a girl, to Mr. and Mrs. Howard Cobb of Amarillo. The twins were born on May 1, and have been named Howard Lynn and Linda Kay.

Everybody connected are doing fine, except Howard put two street address numbers on his message, and friends don't know which is

right! Mr. and Mrs. Cobb are former teachers in the Munday Public schools.

Mr. and Mrs. Gene W. Harrell and daughter, Natalie, and Mr. and Mrs. E. W. Harrell enjoyed an outing at Possum Kingdom lake last Sunday.

Mr. and Mrs. H. F. Jungman were business visitors in Dallas the first of this week.

Former Resident Marries May 10th In Dallas Rites

Dr. N. L. Davidson of this city, and Mrs. Bessie Mae Huthins were united in marriage Saturday afternoon at five o'clock at the Taylor Methodist church in Dallas, with the pastor, Rev. Homer Vanderpool, performing the ceremony.

Many friends of the bride witnessed the ceremony in the church in which she had been a member the past twenty-five years.

The couple arrived in Raymondville Wednesday afternoon, and they will live in the Dr. Davidson home on Van Eaton avenue—Wallacy County News.

Dr. Davidson is a former resident of Munday, having practiced dentistry here several years ago.

B. M. Willoughby, Noraline Moylette Engagement Told

Dr. Fidelia Moylette of Munday announces the engagement and approaching marriage of her daughter, Noraline Moylette, to Mr. B. M. Willoughby of Walters, Okla.

Miss Moylette is a graduate of the Academy of Mary Immaculate in Wichita Falls and has been working for Dr. F. F. Brown since last July.

Mr. Willoughby served three years in the Navy, and is now attending Hardin College in Wichita Falls.

The wedding is to take place June 19 in Wichita Falls, with Rev. Fr. Harnett of Sacred Heart Church, performing the double-ring ceremony.

JETTON CHILDREN ARE HOME MOTHER'S DAY

Sunday, May 11, Mother's Day, was celebrated in the home of Mr. and Mrs. F. E. Jetton. Dinner was served to the following children and grandchildren:

Mr. and Mrs. Floyd Jetton and son, Rodger Dean, of Agle; Mr. and Mrs. Dave Jetton and children, Donna Sue, Beiva Ann and Jimmie Joe, ad Mr. and Mrs. Edwin Lee Jetton and son, Jerry Edwin, all of Munday; Mr. and Mrs. V. G. Lambeth and family, Douglas, Linda Joyce and Donald Lynn; Mr. and Mrs. S. B. Jetton and baby, Lenell, and Mr. and Mrs. F. E. Jetton and Myrtle, all of Goree.

FIRST—Every year for 22 consecutive years—Goodyear Tires, Reeves Motor Co.

Womble-Hensley Wedding Of May 10 Is Announced

Miss Margaret Jean Womble and Mr. Jack B. Hensley were married on Saturday, May 10, in Hobbs New Mexico.

The bride is the daughter of Mr. and Mrs. Layne L. Womble of Munday. The bridegroom is the son of Mr. and Mrs. John C. Hensley of Cheney, Kans.

For the quiet single-ring ceremony, the bride wore a blue and white silk crepe dress with navy blue accessories. Her flowers of white carnations were worn in her hair.

Mrs. Hensley is a graduate of Munday high school. She has been employed in Fort Worth and Dallas. While in Dallas she completed a course in interior decorating. Prior to her marriage she was employed at the Munday office of the Southwestern Associated Telephone Co.

Mr. Hensley is a graduate of Davenport, Okla., high school. He was with the 1332 combat engineers during the war, spending 27 months overseas. He received his discharge January 20, 1947. At the present time he is employed with the R. R. Drilling Company of Abilene.

The newlyweds are making their home in Seymour.

LOCALS

Clayton Bridge of Dickens visited with relatives and friends a while Tuesday. He was accompanied home by his father, W. J. Bridge, who had been visiting in the home of Mr. and Mrs. Aaron Edgar for several weeks.

Mr. and Mrs. Walter Moore visited with relatives in Abilene last Sunday.

Mr. and Mrs. Oscar Spann were visitors in Dallas and Denton the first of this week.

Mr. and Mrs. Bob Billingsley were guests of relatives in Throckmorton last Sunday.

Mrs. J. B. Graham was a business visitor in Haskell one day last week.

Bruce Campbell of Knox City was a business visitor here last Monday.

The number of frozen food locker plants in the country has grown from around 1,300 in 1938 to more than 8,000 in 1946.

PACKABLE RAYON

VACATION clothes should be attractive and practical, too, like this two piece dress in chartreuse with black dots. The fabric is made of Avisco one-denier spun-rayon yarn. It's easy to pack, easy to care for, and cool to wear. Note the new cape-like shoulders and the pleated ruffles.

Sunset H. D. Club Meets Thursday With Mrs. Voss

The Sunset Home Demonstration Club met on Thursday afternoon in the home of Mrs. Joe Voss. The president called the house to order and was in charge of the business session. Some stencil work and tea towels were placed on display for the meeting.

The next meeting will be in the home of Mrs. Bob Hicks, at which time an all-day meeting is planned. Every member is invited to be present and bring a covered dish for lunch.

The new agent, Miss Butler, will be present during the afternoon. Two new members, Mrs. E. G. Parkhill, Jr., and Mrs. Clyde Voss were welcomed into the club, and one visitor, Miss Betty Jean Jones, was present.

During the social hour, sandwiches, angel food cake and punch were served to the following members: Mmes. Marion Jones, R. M. Almanrode, E. G. Parkhill, Jr., C. L. McAfee, W. C. Pack, Yost, Clyde Voss, Jerry Nix, J. S. Shannon, Gil Wyatt, Bob Hicks, T. J. Partidge, Joe Voss, and Miss Betty Jean Jones.

Editors To Speak At Commencement Of McMurry College

Abilene—Two editors will deliver the baccalaureate and commencement addresses at McMurry college next week, according to McMurry officials.

The Rev. Edwin A. Hunter, editor of the Southwestern Advocate, Dallas will preach the baccalaureate sermon Sunday May 26 at the First Methodist Church in Abilene, and Raymond H. Nichols editor of the Vernon Record, is scheduled to deliver the commencement address the following Tuesday.

Mr. Hunter is well known throughout Texas as a Methodist minister, lecturer, and author. The subject of his baccalaureate sermon will be "The One Big Question."

Mr. Nichols is chairman of the national board of adult education of the Methodist Church.

Both speakers will be granted honorary doctorates at the commencement ceremonies.

Mr. and Mrs. Lamoine Blacklock and Mr. and Mrs. Dan Billingsley attended the golf tournament in Fort Worth last Sunday.

Mrs. C. P. Baker spent the first of this week in Dallas, attending the markets and buying merchandise for the Baker-McCarty store.

Mrs. Audrey Lindsey and children of Wichita Falls were guests in the home of Mr. and Mrs. Walter Skiles last Sunday afternoon.

Mrs. Bert Welsh of Haskell visited with relatives and friends here the first of this week.

Study Is Made On Landscaping Of Country Homes

Problems and Techniques relating to the Landscaping of Rural homes in this area were studied at a meeting of the County Home Demonstration Agents, of District III, on May 16 and 17 at Quanah, Texas.

Miss Sadie Hatfield, Extension Service Landscape Specialist, from A and M. College, conducted the training program assisted by Mrs. Myrtle D. Negy, District III agent. Among the thirteen agents present was Eugenia Butler, Home Demonstration Agent of Knox county.

Mrs. Hazel Harrison, Hardeman county Home Demonstration Agent had arranged for the group to get actual experience by working with local yard demonstrators in Quanah. This gave the agents the opportunity to observe many plant diseases common in our region, and have experience in diagnosing and treating them. Other techniques practiced were pruning shrubs and trees, making cutting beds, and under Miss Hatfield's guidance, the agents assisted in working out the landscape plan for the grounds around a house under reconstruction.

Miss Hatfield made many suggestions for this area where lack of moisture is ordinarily a handicap.

Mrs. Joe B. Norton of Falls spent the week end here with her husband and with her parents, Mr. and Mrs. Frank Herring.

For quick results, use a Munday Times classified ad.

Kracker Krumbs -

(Continued from Page One)

Our city officials want you to view the situation as it will benefit the majority. It will take some thought, some cooperation, some sacrificing, to ever work out a drainage system.

It'll take some give and take. Some of us will have to give up a portion of our lawn grass that we've allowed to grow on out into the edge of the street—then we'll likely have to take a ditch alongside our property. That's what we mean by "give and take."

But if they can do quite a lot of ditching and get an outlet for

35, 40 or 50 per cent of our surplus water—and everybody stay in a good humor—wouldn't that be fine?!

STEVENSON PREACHED COMMENCEMENT SERMON FOR WEINERT CLASS

Rev. S. E. Stevenson of Goree preached the commencement sermon for the seniors of Weinert High School last Sunday morning. Others from Goree who attended this service are: Mr. and Mrs. O. W. Lewis, Katherine Rodgers and Doris Ruth Stevenson.

Notice Fishermen; Some Pointers On Freezing Fish

Since most of the talk that we have heard lately has been about water and people who are going fishing, or have just gotten back, we think the Extension Service must have had Knox County in mind when they sent the following article on frozen fish:

CATCH AND FREEZE

Summer time to a lot of us means going fishing. And with a little luck, going fishing means meat on the table. Since everything from soup to fish is being frozen for storage nowadays... we thought perhaps these pointers on freezing fish would be interesting to you home-makers.

They come from Miss Gwendolyn Jones, food preservation specialist of Texas A. and M. College Extension Service. She says that fish is frozen much the same way as meats. An important point is chilling the fish as soon as possible after catching... and they really need freezing the same day they are caught. A smart trick is to pack them in ice until the freezing job can be done.

Here's how. Scale the fish—and of course remove the head and entrails, and wash well. The large fish can be cut into pieces ready for cooking. On the small, which you'll probably want to freeze whole you can merely trim the fins and tail.

To package the fish, wrap tightly in cellophane paper, seal in cellophane bags or heavily waxed cartons. Packing is an important job, because the fish may give off flavor to other foods if not packed right.

Sometimes, the lean fish are dipped in a salt solution for a minute—one half cup of salt to a gallon of water is a good mixture. But this treatment isn't necessary if the fish have been kept cold and are cleaned and frozen soon after they come out of the lake. And never use salt on fat or oily fish.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Glen Billrey of Lubbock are announcing the arrival of a baby daughter, who was born at a Lubbock hospital on Friday, May 16. Mother and daughter are doing nicely, according to reports.

LOVELY COTTON

Pretty Eleanor Parker of Warner Bros. pictures gets set for summer comfort and freshness in a new shirtmaker cotton. The fasten-down-the-front dress is done in bright yellow, blue and fuchsia stripes.

Mr. and Mrs. H. H. Cowan and Miss Merle Dingus were visitors in Freeport, Texas, over the week end. They went at this time to attend the wedding of their brother, Bill Dingus.

TIRE HEADQUARTERS — For this section, Goodyear Tires are first! Reeves Motor Co.

Activities Of The Colored People

A revival is being held at Goree by Rev. S. L. Sanders, and Tuesday night one was added to the church for Monday, the Church of God in Christ.

Rev. and Mrs. Sanders are asking the cooperation on this said church in Munday. They were accompanied Tuesday night by Mrs. R. S. Nappers, Mrs. Corni Moore and Mrs. A. Johnson.

Mrs. A. Williams, teacher, left last Friday night, after the school program, for West, Texas, to visit her sister.

Mrs. M. E. Wellington left for her home in Wichita Falls.

There will be a plated luncheon Saturday evening from 6 to 8:30 p. m., also a cake cutting, in the home of Mrs. Aline Johnson, sponsored by members of the Church of God in Christ. Monies will be used to purchase a piano.

Mr. and Mrs. Bob Curtis Brooks are the proud parents of a baby girl.

National Cottonseed Assn. Passes Resolution Of Respect, T. G. Benge

Mrs. T. G. Benge received a letter recently, telling her that the National Cottonseed Products Association, in its annual meeting May 2-6 at Boca Raton, Florida, passed a resolution honoring T. G. Benge. A copy of this resolution follows:

Thomas Green Benge

We are called upon to record the passing of a very dear friend, Tom, as he was familiarly called by his numerous friends in the Cotton Seed Crushing Industry as well as by others, was born at Wolf City, Texas, on February 27, 1873. While just a lad of a boy, he secured a position in the Lint Room of the Wolf City Cotton Oil Company, and from that beginning, with honesty, hard work and consistent application, became manager of the mill. Later he was manager of mills at Tishomingo, Oklahoma; Camden, Arkansas; Celina, Texas, and finally at Munday, Texas, where he remained for about twenty-five years, the last eighteen being with the West Texas Cotton Oil Company, being honorably retired by them under their general retirement plan on February 28, 1946.

Mr. Benge passed away at the Wichita Falls Clinic Hospital on August 25th, 1946, being just past seventy-three years of age at his passing. He was a member of the Episcopal Church, a member of the Masonic Lodge, a 32nd degree Mason, and he was also a member of the Rotary Club. During his entire career he was always intensely interested in the activities of the Texas Cotton Seed Crushers Association, and the development of the industry. He attended the meetings of the Association regularly and was at Mineral Wells in June of 1946. His ever present smile and his sense of humor was always an inspiration to his friends. His interest in the proceedings of the Association was not lessened in the least by his retirement from active management.

He was always interested in all of the worthwhile activities of his home town.

In act and deed Tom Benge was in reality a Gentleman of the Old School.

Therefore he it resolved by the National Cottonseed Products Association in convention assembled, express our sincere regrets at the passing of our brother, Thomas Benge, and that in his passing the Cotton Oil industry has lost one of its most loyal and faithful members. Be it resolved that our sympathy be extended to his beloved wife, Mrs. Benge, as well as to the other members of his family, and

that copies of these resolutions be sent to them and made a part of the proceedings of this convention.

Respectfully Submitted,

H. W. Lynn, Chairman
F. N. Foxhall
T. P. Hornback

Mrs. Joe Garrett of Abilene was a guest of her uncle and aunt, Mr. and Mrs. E. A. Hollar, and other relatives here over the week end.

Miss Mary Jean Stevenson, a student nurse in the Baylor University School of Nursing, Dallas, came in Thursday to attend the funeral services of her grandmother, Mrs. R. M. Stevenson of Munday.

ALMANRODE RETURNS FROM HIS MOTHER'S BEDSIDE

R. M. Almanrode returned home last Sunday from Livingston, Tennessee, where he spent the past three weeks, attending the bedside of his mother. He reported his mother, who is 81 years of age, in a very grave condition.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin—If every case of suspected communicable disease could be promptly visited either by the family physician or the local health officer, thousands of susceptible persons would be protected from disabling illness, according to the State Health Officer.

To quote Dr. Geo. W. Cox, "The old fashioned theory that it is a good thing for children to have a number of the catching diseases and get them over with, has long since been known to be a serious and sometimes fatal error. The longer a child can keep from having these diseases, the better it is for him. Every child should be completely protected by vaccination or inoculation against any such diseases where an immunity can be produced."

Prompt diagnosis, isolation, good medical and nursing care give the patient the best chance for a satisfactory recovery without the serious complications that sometimes accompany even the mild forms of communicable diseases. Dr. Cox emphasized that obeying the public health laws regarding isolation and quarantine of communicable diseases protects not only the patient, but helps prevent others from contracting the illness.

"The State Health Department," Dr. Cox said, "is doing everything in its power to protect the health of the people of Texas. The cooperation of every individual in protecting his own health, and that of his community, will do more than anything else to help check the spread of communicable diseases."

Dick Owens, who is attending the University of Texas at Austin, spent the week end here with his grandfather, R. B. Davy and with other relatives.

Mr. and Mrs. M. L. Barnard visited with relatives and friends in Lubbock last Sunday.

FIXING UP the HOME
By Diane Greeter
Housecleaning Hints

THE DAYS OF housecleaning are here and it's time for a little preparatory work—small operations that will make general housecleaning easier and more effective. You've probably noticed that cleaning wears spots right through the enamel on the kitchen wall. The bare plaster or wood often shows through in the area over the sink and the stove. And you know that, after another one coat paint job, it will be the same next year. A week or two before the paint job is to be done, apply a light coat of paint over these unsightly surfaces. Three or four such coats of paint of the color you've decided upon will reward you a year or so later with an

unblemished and gleaming wall. Another method of protecting the painted or enameled surface of the kitchen or bathroom is to give the wall a coat of starch—make the starch solution somewhat heavier than for stiffening linens—immediately after the paint has dried. Then, when the walls need washing you will find that the soiled starch surface will wash off easily, leaving the paint or enamel as good as new. The dirt sticks to the easily-removed starch instead of the hard-to-clean paint. Your walls will stay bright and new looking for years without fresh paint.

LUMBER PRODUCTION IN SOUTHERN PINE MILLS

Austin—Lumber production in Southern pine mills reversed February and March upward trends to record a 3 per cent March-to-April slump, according to Southern Pine Association figures furnished The University of Texas Bureau of Business Research.

Average weekly production per unit rose to 221,625 board feet to better April 1946 production by 13 per cent. The Bureau's production index stood at 77.1 in April compared to 79.2 in March. (Base 1934-39 equal 100.)

Average weekly shipments per unit rose 2 per cent during the month to stand 6 per cent above the April 1946 level. Average unfilled orders per unit at the end of the month slid 8 per cent below March's unfilled orders and dipped 16 per cent below April 1946.

Munday Band Is Invited To Band School

The Munday High School band received through its director, Merle Jenkins, an invitation to send a group of musicians to the McMurry College Summer Vacation Band School scheduled to begin June 16.

The first half of the school will be spent on the McMurry campus, where an extensive school of instrumental music will be conducted; the final two weeks are to be spent in the Sacramento Mountains of New Mexico, according to information received by the local band director.

Instruction in woodwind and percussion will be under the direction of James B. Nevins, while Gerthall Gilligan, another outstanding bandman of this area, will teach classes in brass.

The school will give students of high school and college levels an opportunity to improve their playing while enjoying two thrilling weeks high in the Sacramento Mountains where the whole school will be carried on at the Methodist Assembly Grounds, stated Raymond T. Bynum, director of band and professor of instrumental music at McMurry.

Cost of the four weeks, which will include tuition, room and board both in Abilene and New Mexico, class lessons and group instruction on individual instruments, required music for the summer band, and transportation to and from New Mexico, will be \$80, according to Bynum.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Philip Zeissel of Eastland are announcing the arrival of a son, who was born at a Wichita Falls hospital on Saturday, May 17. Paternal grandparents are Mr. and Mrs. George Zeissel of Munday.

Mr. and Mrs. George Zeissel were visitors in Wichita Falls last Monday.

Exes Invited To T.S.C.W. Campus For Homecoming Event

Denton—Texas State College for Women will throw open its doors Saturday, May 31, to welcome the hundreds of former students and graduates planning to return to the campus for their second postwar homecoming.

A full program of activities for the day has been planned by the Homecoming Committee and the Ex-Student Association.

The day will begin with an Ex-Students breakfast in one of the campus dining rooms. Following registration, a business meeting will be held in the Science Auditorium, with Mrs. Herbert C. Hale, Dallas, president, in charge. The afternoon will be free for sight-seeing on the campus and for visiting classmates, friends and teachers.

The banquet will feature Miss Beatrice Fields, Tulane University, as guest speaker. A musical program will be given and the new state officers will be introduced. A special table will be arranged for daughters of T.S.C.W. Exes attending the banquet with their mothers.

Honor classes for the homecoming are those of 1907, 1917, 1927, 1937, 1947, and 1957, which is celebrating its twenty-fifth anniversary. Members of the 1947 class will be special guests of the ex-students for the days activities.

Bud Collins of Floydada visited in the home of Mr. and Mrs. W. A. Baker and with other relatives here over the week end.

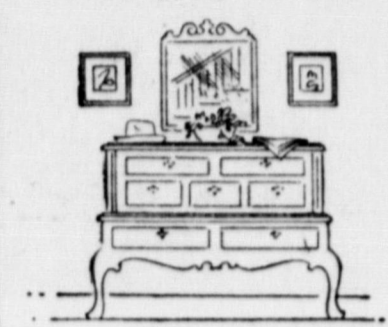

Mrs. Jim Grammer and children of Lamesa visited Mrs. Grammer's mother, Mrs. G. R. Eiland, several days last week. Mrs. Eiland accompanied them home last Monday for visit in Lamesa.

Mrs. P. V. Williams, Mrs. Georgia Maples of Goree, and Mrs. Letha Tompkins attended a funeral in Haskell last Sunday afternoon.

Spinning tests have shown Texas cotton, variety for variety, to be as high in quality as fiber from any state in the cotton belt.

FIXING UP the HOME By Diane Grazier

How to Cheer Up Hallway
MANY of us who live in homes that were built some years ago find ourselves troubled by a spacious hall or a stairway landing that we don't quite know what to do with. We are aware, of course, that all that space ought to be usable but the means just never occurs to us. I've been giving that problem

some thought and have arrived at a solution after seeing some of the new model cedar hope chests that are becoming increasingly available. All you will need is a cedar chest in a console model, a wall mirror, and a vase of flowers to bring new interest to the hitherto neglected "in-between" space in your home.

In addition to its charm, a cedar chest provides a surprising amount of storage space for treasured linens, woollens, furs, and fabrics of all kinds. As you doubtless know, the U. S. Department of Agriculture has explained that the aroma of red cedar heartwood, which we find so delightful, is deadly to moths, paralyzing the larvae so that they are completely unable to nibble at delicate fabrics. And, because they are airtight, the cedar hope chests of today are an effective safeguard against dust, too, assuring you that your fine linens will be as fresh for a dinner party as they were when you tucked them away.

State Fair To Devote Two Days To The Children

Two days of fun and education have been set aside on the State Fair of Texas calendar for the school children of the state, according to an announcement received here today from W. H. Hitzelberger, Executive Vice President and General Manager of the State Fair.

Grammer School Day has been set for October 10, followed by High School Day on October 17. Many schools over the state, especially those within a 100-mile radius of Dallas, declare annual holidays so that their students may attend the State Fair.

In announcing the two special dates early this year, Mr. Hitzelberger said he wanted to allow superintendents and principals ample time to plan for the event and mail requests for free student tickets at the earliest possible moment.

"Because there is so little time after school reconvenes in the fall,

we would like to get estimates now on the number of students and teachers from every school superintendent or principal," Mr. Hitzelberger explained. Estimates should be mailed to Mr. Charles Kaigler, Director of Special Events for the State Fair, Dallas.

Special programs and reduced prices on the State Fair's gigan-

tic half-mile Midway amusement centers are planned for both days.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Bobby Burnett of Knox City are announcing the arrival of a daughter, who was born on Monday, May 19, at the Knox county hospital. Mother and baby daughter are reported to be doing nicely.

Mr. and Mrs. Don L. Ratliff and Mr. and Mrs. Howard Collins were visitors in Fort Worth last Sunday.

Mrs. Frank Tate of Haskell was here Monday, visiting with relatives and attending to business matters.

Mrs. Agnes Rosser Cray of Min-

eral Wells is visiting with Mrs. Dave Eiland, Mrs. R. P. Rosser, and other relatives here this week.

Mr. and Mrs. J. K. Jackson visited with relatives in DeKalb, Texas, over the week end.

James C. Branch and Frank McCauley of Knox City were business visitors here last Friday.

Legal Notice

SENATE JOINT RESOLUTION NO. 4

proposing an amendment to Article VII of the Constitution of the State of Texas by the addition of two new sections to be known as Sections 17 and 18 providing a special fund for the payment of Confederate pensions and providing a method of payment for the construction and equipment of buildings and other permanent improvements at state institutions of higher learning; providing for a five-cent reduction in the maximum allowable state tax on property; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article 7 of the Constitution of the State of Texas be amended by adding thereto Sections 17 and 18 which shall read as follows:

"Section 17. In lieu of the state ad valorem tax on property of Seven (7c) Cents on the One Hundred (\$100.00) Dollars valuation heretofore permitted to be levied by Section 51 of Article 3, as amended, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Two (2c) Cents on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the payment of pensions for services in the Confederate army and navy, frontier organizations, and the militia of the State of Texas, and for the widows of such soldiers serving in said armies, navies, organizations or militia; provided that the Legislature may reduce the tax rate hereinabove levied.

"Also, there is hereby levied, in addition to all other taxes permitted by the constitution of Texas, a state ad valorem tax on property of Five (5c) Cents on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings, or other permanent improvements at the designated institutions of higher learning; and the governing board of each of such institutions of higher learning is fully authorized to pledge all or any part of said funds allotted to such institution as hereinafter provided, to secure bonds or notes issued for the pur-

pose of acquiring, constructing and initially equipping such buildings or other permanent improvements at said respective institutions. Such bonds or notes shall be issued in such amounts as may be determined by the governing boards of said respective institutions, shall bear interest not to exceed three (3%) per cent per annum and shall mature serially or otherwise not to exceed ten (10) years from the first (1st) day of January of each year in which such funds are allocated or re-allocated to said respective institutions; provided, the power to issue bonds or notes hereunder is expressly limited to a period of thirty (30) years from the date of the adoption of this amendment; and provided further, that the Five (5c) Cent tax hereby levied shall expire finally upon payment of all bonds hereby authorized; provided further, that the state tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty (30c) Cents on the One Hundred (\$100) Dollars valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved shall be incontestable; and all approved bonds shall be registered in the office of the Comptroller of Public Accounts of the State of Texas. Said bonds shall be sold only through competitive bids and shall never be sold for less than their par value and accrued interest.

"Funds raised from said Five (5c) Cents tax levy for the ten (10) year period beginning January 1, 1948, are hereby allocated to the following institutions of higher learning, and in the following proportions, to wit:

Institution	Per cent of Total
John Tarleton Agricultural College	5.72107
North Texas Agricultural College	6.17028

Prairie View Agricultural and Mechanical College of Texas	5.34416

"Not later than June 1st of the beginning year of each succeeding ten (10) year period, the Comptroller of Public Accounts of the State of Texas, based on the average long session full-time student enrollment for the preceding five (5) year period of time, shall re-allocate, to the above designated institutions of higher learning then in existence, all funds to be derived from said Five (5c) Cent ad valorem tax for said ten (10) year period; and all such designated institutions of higher learning which participate in the allocation or re-allocation of such funds shall not thereafter receive any other state funds for the acquiring or construction of buildings or other permanent improvements for which said Five (5c) Cents ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the loss so incurred may be made by the Legislature out of other state funds. This amendment shall be self-enacting. The State Comptroller of Public Accounts shall draw all necessary and proper warrants upon the State Treasury in order to carry out the purpose of this amendment; and the State Treasurer shall pay warrants so issued out of the special fund hereby created for said purpose."

"Section 18. For the purpose of constructing, equipping or acquiring buildings or other permanent improvements, the Board of Directors of the Agricultural and Mechanical College of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of Five Million (\$5,000,000.00) Dollars, and the Board of Regents of The University of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of Ten Million (\$10,000,000.00) Dollars. Any bonds or notes issued hereunder shall be payable solely out of the income from the Permanent University Fund. Bonds or notes so issued shall mature serially or otherwise not more than

twenty (20) years from their respective dates, and in no event later than twenty-five (25) years after the date of the adoption of this amendment. This amendment shall be self-enacting.

"Said Boards are severally authorized to pledge the whole or any part of the respective interests of the Agricultural and Mechanical College of Texas and of The University of Texas in the income from the Permanent University Fund, as such interests are now apportioned by Chapter 42 of the Acts of the Regular Session of the 42nd Legislature of the State of Texas, for the purpose of securing the payment of the principal and interest of such bonds or notes. The Permanent University Fund may be invested in such bonds or notes.

"All bonds or notes issued pursuant hereto shall be approved by the Attorney General of Texas and when so approved shall be incontestable."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at a special election to be held throughout the state on the fourth Saturday in August, A. D. 1947, at which election all ballots shall have printed thereon:

"For the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents for Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning, in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas."

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the constitution and laws of this state.

Scarf Blouse

THIS lovely over blouse will give character to your dark suit. It's made from a scarf, and the large widely-spaced floral pattern is quite the latest in prints. Made from Avisco one-denier spun rayon yarn, the fabric is cool to wear and easy to wash. This fabric should be washed in soft, lukewarm water with plenty of suds. Iron when almost dry with a hot iron.

Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five (5c) Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas."

Sec. 4. The sum of Ten Thousand (\$10,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any

funds in the treasury of the state, not otherwise appropriated, to pay the expenses of such publication and election.

Present prices of cotton and cottonseed are good and markets will be ample to take care of increased production, according to the U.S. Department of Agriculture.

FIRE DAMAGE SALE!

Statement From The Management:

While the recent fire was of a damaging nature, it was confined wholly to our prescription department, and all of this merchandise was destroyed and hauled to the Brazos River. There are hundreds of items that are only slightly damaged, and we have assembled all of this in our appliance department, where it is being placed on sale at 50 to 75 per cent off of regular price.

All sales will be final and will carry no guarantee of any nature from our company.

All sales will be made for cash only, as our extra sales force will be limited and will not have time to itemize and charge any of these sales.

Veterans' News

Texas and Louisiana are among the 42 states with which the Veterans Administration now has contracts providing for state approval and supervision of establishments that provide on-the-job training for veterans.

The responsibility for approving and supervising job-training in industrial and other establishments rests with state approval agencies under the Servicemen's Readjustment Act (GI Bill).

Recently, Congress authorized VA to reimburse the status for their services and VA thus far ob-

ligated approximately \$5,500,000 for the current fiscal year ending next June 30 for this purpose.

Under the contracts, the states approve applications of establishments for on-the-job training after determining that the establishment meets certain basic training requirements.

These include: (1) The training must be adequate to qualify the veteran for the job he is training for; (2) there must be reasonable certainty that the job for which the veteran is training will be available to him at the end of the training period; (3) progression in the job must be based upon skills learned rather than factors such as length of service and normal turnover; (4) adequate records of progress by the veteran must be kept.

World War II veterans with 90 days of active service and a discharge other than dishonorable are eligible to apply for education and training under the GI Bill. Those with less than 90 days of service are eligible if they were discharged for a service connected disability.

Applications from disabled World War II veterans in Texas, Louisiana and Mississippi for rehabilitation are coming into the Veterans Administration at the rate of more than 3,000 a month, VA reported this week.

Many of these cases are severely disabled men who are just now being discharged from military hospitals, VA said, indicating that the real job of restoring war injured to employability is only beginning.

VA is already supervising the education or training of more than 21,000 disabled veterans in the three states. More than 200,000 non-disabled veterans are training or going to school in the Dallas Branch Area.

Congress has directed that VA complete the rehabilitation of disabled veterans within four years of training but allows extension

Map Hunt for Oldest Chevrolet Truck

A search by the Chevrolet Motor Division and Chevrolet dealers to locate the oldest Chevrolet truck still in active service in the United States started May 10 and concludes June 15, with the owner of the oldest vehicle receiving a new truck from the Advance-Design line of trucks which Chevrolet will soon put on the market. Photo shows J. W. Burke (right), manager, commercial and truck department, and T. C. Mallon, assistant manager, examining posters used by Chevrolet dealers in the search. Trucks must be driven to Chevrolet dealerships for official registration.

of this time in exceptional cases.

A further indication that the rehabilitation program for disabled World War II veterans is in its infancy is the fact that only 53 of the more than 14,000 disabled veterans training in Texas have progressed to the point where VA considers them completely rehabilitated.

Questions and Answers

Q. Will the government pay for a correspondence course at the same time it is paying my tuition in a night school?

A. The government will pay for the correspondence course only if you are unable to obtain such instruction at the school you are attending. In addition, such course must be in line with your general educational objective.

Q. I am a World War II veteran and would like to know if I can get a guaranteed loan to pay off a debt that is past due?

A. Yes. It can be arranged under certain conditions. Your lender will be able to advise you concerning them.

Q. What must a veteran, who has lost his original discharge, do about getting a replacement?

A. He must apply for a certificate in lieu of the discharge paper from the branch of the service from which he was discharged.

Q. Will a certified true copy or a photostatic copy serve in place of the original discharge paper in getting a guaranteed loan?

A. No.

Q. What loans can be insured by Veterans Administration?

A. Any loan eligible for guaranty is eligible for insurance when made by a supervised lender.

Ray Moore To Play Backfield With Buffaloes

Canyon—Ray Moore of Munday will take part in the final intrasquad tilt of the spring training for the West Texas State Buffaloes at Canyon, Friday night, May 23. He will enter the line-up at a backfield position.

The game will climax a day of athletic activities at the Canyon college.

At 4:30 o'clock Friday afternoon, there will be an interpretation-of-the-new-rules session for all Panhandle coaches and officials. In charge of the session will be: Stina Cain, Jess Cearley, Corky Cornelius and Haskell Folsom.

Following this, at 7 o'clock, all members of the West Texas Activity Club and special guests will be entertained at a buffet supper at Buffalo Courts, native-rock home of the Maroon and White athletes.

Coach Frank Kimbrough will extend the welcome at the supper to be followed by a talk given by Gene Howe, publisher of the Amarillo Globe-News.

Coach Gus Miller, director of USE OUR—Budget plan for buying new Goodyears—the tire that is first! Reeves Motor Co.

athletics, will give a discussion of further athletic plans for West Texas State.

At 8:40, fans will see a preview of the 1948 Thundering herd at Buffalo Field. Officials of the grid clash will be: Jess Cearley and Haskell Folsom, referees; Stina Cain and Corky Cornelius, umpires; Cecil Smith, Charley Duval and Bill Teal, head linesmen; and Bill Ferem, Hatcher Brown and Lee McLaury, field judges.

All new rules will be employed in the game which will end training for the Buffaloes until September 1. No admission will be charged.

The famed Buffalo Band will present pre-game and half-time performances.

HOME FROM VACATION

Rev. and Mrs. W. H. Albertson and daughter, Virginia Ruth, returned home last week from St. Louis, Mo., and other points where they spent a vacation of about three weeks. While in St. Louis, they attended the sessions of the Southern Baptist Convention. They reported a very enjoyable trip.

Miss Joan Fore of Happy is a guest of her uncle and aunt, Mr. and Mrs. W. E. Braly, this week.

Mrs. M. B. Ireland of Kansas City, Mo., spent several days here this week, visiting with her parents, Mr. and Mrs. G. W. Dingus, and with other relatives and friends.

Relatives Visit In Moore Home

Mrs. John Moore had all of her children home for a visit last Sunday, this being the first time they had all been together in some time. Those out-of-town who were home are as follows:

Mr. and Mrs. Johnnie McAleese of Hunting Park, Calif.; Mr. and Mrs. John Wesley Moore of Dallas, Mr. and Mrs. Ray Moore of Canyon, Mr. and Mrs. Troy Moore of Goree, and Mr. and Mrs. Boyd Moore and daughter, Linda Kay, also of Goree.

BUSINESS FAILURES

Austin—Dun and Bradstreet figures reported to The University of Texas Bureau of Business Research recorded 5 business failures in Texas during April compared to 5 in March. There were no failures reported in either March or April of 1946.

Dr. and Mrs. A. A. Smith were business visitors in Dallas the first of this week.

N. A. Chastain spent the week end in Spur, visiting with his family and attending to business matters.

Mr. and Mrs. Jack Suggs and daughters of Wichita Falls spent the week end with relatives here and at Goree.

Mr. and Mrs. R. E. White of Iowa Park were in town Saturday, visiting with friends.

Mrs. Jack Freeman of Goree visited in the home of a sister in Abilene last week.

All the knowledge and experience gained by successful cotton growers have been combined in the Seven Step Cotton Program, sponsored by the Texas A. and M. College Extension Service in cooperation with other interested agencies and groups.

When English peas are grown under warm weather conditions, they need an application of dusting sulphur once a week to prevent powdery mildew.

Cotton, in its fight for markets, has one big advantage; no other fiber, with the single exception of foreign cotton, can substitute for American cotton in all its markets or in all its uses.

Weather Report

Weather report for the period of May 15th through 21, inclusive is recorded and compiled by H. I. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature
