Odd Bits Salvaged
 At Random

(By Aaron Edgar)

Dear Subscriber: It ain't note-
 paying patronage your're giving
 us this month, and those notes are
 still coming due.

In April, when we made our first
 appeal to you, you came dang near
 paying off that note. We had to
 go ahead and dig up that \$3.33,
 out that's about all. Thanks a heap!

The point we're trying to make
 is this: If the dates up there to
 the right of your name on this
 paper don't read right, let's get
 them fixed up. We mailed out cards
 to most everyone whose subscrip-
 tion had expired, or was about to
 expire, in April and promised to
 take off all delinquent subscrib-
 ers soon.

Well, sir, about Saturday, July 5,
 is the date we're going to make
 good that promise. We want you
 to get the Munday Times but we
 want you to want it enough to
 keep it paid in advance—like Unc-
 cle Sam wants us to have it.

"It won't get any better until
 about 1950." That's what a sales-
 man told us about the newspaper
 shortage last week. He summed
 the situation up like this:

"You've probably added 500
 subscribers to your list since 1941,
 and you're printing more pages
 than you did then, so you're using
 a lot more newsprint. Well, every-
 body else is doing the same, and
 take your situation extended all
 over the United States, and you
 see what the mills are up against.
 They just can't produce enough
 paper."

So it's only fair that we stop
 your paper if you haven't paid for
 it, so we can keep sending it to
 those who want it enough to keep
 their subscription paid in advance.

And speaking of newsprint. We
 received a shipment last Friday.
 The invoice calls for us to write
 a check for \$392.70 for this ship-
 ment.

As a matter of comparison: we
 were getting rid of an accumula-
 tion of old invoices the day before
 this shipment came in. We ran a
 check across an invoice of 1941, and
 it to compare with the above in-
 voice. In 1941 we got twice as much
 paper, and the cost was \$321.30.

That shows how things have
 gone up in our particular field. And
 you can readily see, too, that the
 meagre four-bits advance in subscrip-
 tion rates was justified. For the
 benefit of any "doubting
 Thomas," we can produce invoices
 to prove the above figures.

And that just about sums up
 that situation. But, gee whizz! Now,
 let's get your subscription straight-
 ened out before July 5th. We're
 fixing to try to cope with that
 newspaper shortage even more
 zealously than in the past. We
 don't aim to run out, if we can
 help it.

Then if you're one of the good
 people who are paid in advance,
 you'll get the Munday Times as
 long as we have the paper to print
 it on; otherwise, you won't.

So save \$2.00, or \$2.50 as the
 case may be, from your July 4th
 celebration fund and come in and
 get your subscription all fixed up
 in good shape. Then we'll be happy,
 and we'll try to give you the kind
 of paper that'll make you feel like
 you're getting your money's worth.
 Period. End of report.

Farming ain't all gravy, by any
 means.

Last week we gave a good report
 on the wheat crop situation, the
 weather cooperating, etc., and of-
 fered the suggestion that we'd
 be farmers if we were assured of
 such good circumstances every
 year.

We have no such assurances, as
 many farmers can verify. Disaster

Controversy On Gilliland Road Settled Friday

Bids On Project To Be Received As Advertised

H. T. Cunningham, local high-
 way engineer, announced on Mon-
 day that the controversy over the
 right-of-way on the Gilliland road
 project was settled the later part
 of last week, and that the Texas
 Highway Department will go ahead
 and receive bids on the project as
 advertised.

The notice calls for sealed propo-
 sals for constructing 10.270 mil-
 es of grading, drainage structures,
 flexible base and single asphalt
 surface treatment on the road
 south from Gilliland to connect
 with the Benjamin-Seymour high-
 way.

Bids will be received by the high-
 way department in Austin until
 2 p. m. Tuesday, June 24, and then
 publicly opened and read.

Light Grasshopper Infestation Reported In Brock Community

Farmers in the community of
 Brock have reported infestations
 of grasshoppers in their cotton
 fields this past week. Although
 not as yet severe, they have begun
 to eat the cotton from the ends of
 the row. Most of the hoppers are
 jumbos, the largest type of grass-
 hoppers, which is fairly easily con-
 trolled, since it cannot fly about
 like the light yellow grasshopper,
 which can migrate from field to
 field.

In order to control these hoppers
 before they get started in numbers
 the county poison mixing station
 was opened and bait distributed
 to Bud Moon, Oswald Warren, Fin-
 us Walker and Mr. McIlroy, all of
 Brock. Bait will be mixed again
 at cost. Costing the farmer twenty
 five cents per one hundred pound
 for materials, plus the cost of
 mixing.

D. V. Gilbert will again be in
 charge of the station. Anyone wish-
 ing poison may contact Gilbert
 or the county Agent.

Dr. and Mrs. O. D. Ghould of
 Stamford, Mr. and Mrs. Gene Leon-
 ard and family of California, and
 Miss Vida Elliott, missionary to
 India who is home on leave, were
 guests in a home of Mr. and Mrs.
 J. F. Waldron last Sunday.

Man Living Out On Miller Creek Surprised To Discover Munday Still Has Newspaper; Writes Letter On It

Editor's note: A man living out
 on Miller Creek who signs himself
 "J. A." and says he is referred to
 as the Knox Prairie Philosopher
 has written us the following letter
 and has offered to write others. We
 will let our readers be the judge
 of whether we ought to give this
 fellow space every week. The let-
 ter follows, in his own language,
 insults and all.

Dear editor:
 I was sitting our here on the
 bank of Miller Creek the other
 afternoon wonderin if my cork
 was gin under from a fish or a
 snag as there ain't no use exertin
 yourself unnecessarily in these
 days of man power shortage and
 lashin your line out on the bank
 and makin a fool of yourself if
 there ain't nethin on ya.hook
 when I seen a copy of the Munday
 Times floating down the stream
 and since I was gonna chug my
 position anyway and it drifted over
 near where I was sittin I leanded
 over and picked it up and sur-
 prised to find it was a recent issue,
 as I am frank to say I didn't know
 Munday still had a newspaper as I
 had been depedin exclusively on
 the W. Lee O'Daniel News until it
 stopped and don't consider myself
 no more ignorant than the Senator
 himself.

Put since I have discovered The
 Times is still in existance I figured
 you might be interested in a oc-
 casional letter from me if we can
 agree on a satisfactory price, which
 won't necessarily be high as a
 thinkin man can find lots to write
 about without no trouble if he is
 confronted with a choice of writin

Mrs. Brooking Of Lamesa Dies; Buried At Vera

Mrs. Sarah A. Brooking of Lam-
 esa, grandmother of Merick Mc-
 Gaughey of Benjamin and mother
 of Mrs. J. N. McGaughey of Vera,
 passed away in Lamesa shortly
 before midnight Tuesday, June 10.

Born in Brinkley, Ark., on April
 11, 1850, Mrs. Brooking was 97
 years, 2 months and 29 days of
 age. She had been a resident of
 Knox county for around 15 years.

Surviving her are two sons and
 two daughters, who are: C. R.
 Brooking of Aztec, N. M.; W. J.
 Brooking of Oregon, Mrs. L. O.
 McNew of Lamesa, and Mrs. J. N.
 McGaughey of Vera. She is also
 survived by 24 grandchildren, 49
 great grandchildren and seven
 great great grandchildren.

Funeral services were held from
 the First Methodist church in Vera
 at 3:30 last Thursday afternoon,
 being conducted by Rev. Cloy Ly-
 les, pastor. Burial was in the Vera
 cemetery, with the Mahan Funeral
 Home in charge of arrangements.

Grandsons who served as pall-
 bearers are: Merick McGaughey,
 Arthur McGaughey, R. N. Smith,
 Burton McNew, James McGaughey,
 and George McNew.

Thurman Named Manager of Lone Star Gas Here

Appointment of L. E. Thurman
 as manager in the Munday sub-dis-
 trict, consisting of Munday, Goree,
 Weinert and Rhineland, has
 been announced by S. A. Mitchell
 of Seymour, district manager. Mr.
 Thurman will be available to do
 all types of gas appliance work
 for better gas service. His office
 will be in connection with the
 Strickland Radio Shop.

Mr. Thurman replaces M. W.
 Reeves, who has been sent to Has-
 kell as sub-district manager there.

Mr. Thurman started with the
 Lone Star Gas Co. in March, 1945,
 as a service man in Seymour. With-
 in a year he was promoted to util-
 ity man, at which position he served
 until being transferred to Munday.

He was born in 1921 in Goree,
 Knox county, Texas.

Rev. Don Davidson left early
 Wednesday morning for Mulenshoe
 to begin harvest of the wheat crop
 on his farm there.

or going up one row and down an-
 other wearin himself and his mule
 out like some of my neighbors
 fightin Johnson grass as though
 the stuff could finally be whipped.

Speakin of Johnson grass, I noticed
 Gov. Beauford Jester says there
 is thousands of acres of land
 overrun with Johnson grass in Tex-
 as due to strikes which held up
 production of farm equipment, and
 while I ain't in favor of no strikes
 as my wife has been waitin for a
 new churn for four year now and
 I can't buy a radio tube right when
 the Republicans is in control and
 a man ought to be on guard. I
 would like to suggest to Gov. Jester
 that while maybe he can con-
 vince his wife the strikes is to
 blame for the Johnson grass on his
 farm. I ain't had no such luck. My
 wife just bluntly tells me I ain't
 use the equipment I already got
 don't make no difference if I had
 ten thousand dollars worth of equip-
 ment.

I'm in favor of Gov. Jester's el-
 to no advantage and mentions a
 lot of other things which I am too
 much of a gentleman to repeat, ad-
 din that I have Johnson grass
 imatin Johnson grass, but if I do
 it I'm afraid he ain't takin no
 practical view of the matter. We're
 liable to have Johnson grass as
 long as a man had rather prop his
 feet on the porch than get corns
 on following his mule or on other
 areas drivin his tractor and as far
 as I'm concerned that's gonna be
 forever.

Yours faithfully,
 J. A.

FAST-MOVING MECHANICAL HOE

Because he always thought there was an easier way to chop cotton
 than by hand with a hoe, Riley Dabbs, Monroe County, Miss., farmer
 and sawmill operator, began work four years ago on this mechanical
 cotton chopper. Getting its first test on Cotton Belt farms this season,
 the chopper reputedly can thin 30 acres of young cotton at a cost of \$7
 for the day's operations.

Almanrode Home Destroyed By Fire

The farm home of Mr. and Mrs.
 R. M. Almanrode was destroyed
 by fire last Saturday afternoon.
 The home and all its contents were
 completely destroyed, and Mr. Al-
 manrode was able to get his wife's
 mother, Mr. Horton, out of the
 building only minutes before it
 caved in.

Mr. Almanrode was working in
 the garden when he discovered the
 blaze, and said the entire east wing
 was blazing. He had been through
 the house about fifteen minutes
 earlier, and discovered no evidence
 of fire. The family is at loss to
 determine the origin of the blaze.

The home was partially covered
 by insurance, Mr. Almanrode stat-
 ed, but many treasured articles
 were lost in the fire, and can never
 be replaced.

Specialty Act Added To Texas Cowboy Reunion

The Texas Cowboy Reunion, held
 on July 2, 3, 4, has billed a special-
 ty act which is expected to at-
 tract wide attention this year.

A sheep dog act, of trained Border
 collies under the direction of
 Mr. Dewey Jontz of Des Moines,
 Iowa, will be shown in the south
 for the first time. The act resem-
 bles the field trials of the Bird dog
 fraternity and is a favorite sport in
 Scotland. The shepherd, working
 with trained Border collies and two
 groups of sheep, puts the dogs
 through several gaits, hurdles, and
 chutes. As concluding feature either
 ducks or bantam roosters are sub-
 stituted for the sheep and are
 herded by the trained dogs.

Mr. Jontz is superintendent of the
 Sheep Division of the Iowa
 State Fair each year. He will be
 accompanied to Stamford by his
 wife and nine year old son.

RETURN FROM VISIT

Mr. and Mrs. J. C. Kuhler and
 daughters, Rose Marie and Ade-
 laide, returned home last Friday
 from a visit with relatives at
 Groom and Conway, Texas. While
 there they attended the wedding
 of Madelin Kuhler. They were ac-
 companied on the trip by Mrs. K.
 W. Homer and daughter, Patricia
 Ann. Rose Marie served as one of
 the attendants at the wedding.

Fireboys Hear Chaplain Speak

Rev. Don Davidson, chaplain of
 the Munday Volunteer Fire Depart-
 ment, made an interesting address
 to the local fireboys last Monday
 night at their regular meeting.

The speaker reviewed the good
 work and courage displayed by the
 volunteer firemen, and said that
 they didn't get the thanks and cred-
 it due them in many instances, not
 because the people are not appreci-
 ative of their efforts but because
 of their failure to express their
 thanks.

Rev. Davidson mentioned other
 fires which individuals and fire-
 men alike must combat in daily
 life, such as the fires of hate,
 fires of greed, fires of passion, etc.
 His speech was deeply appreciated
 by all firemen present.

Stamford District Methodist Workers In Meeting Here

Tuesday, June 17, eighty workers
 from as far east as Woodson and
 as far west as Roaring Springs
 met at the local Methodist church
 to represent the thirty churches of
 the Stamford district in a pro-
 gram to outline connectal work
 of the year.

The meeting was presided over
 by Rev. J. H. Crawford, recently
 appointed superintendent of the
 Stamford district. He was former-
 ly pastor of the Methodist church
 at Phillips, Texas.

Appearing on the program of
 the morning were: Rev. J. E. Har-
 rell, pastor at Haskell, who brought
 the devotional; Rev. Don David-
 son of Munday, district secretary
 of evangelism; Rev. L. L. Hill of
 Spur, district missionary secretary;
 Mrs. Paige Golihar of Spur, dis-
 trict president of the W. S. C. S.;
 Mrs. W. H. Plattman of Haskell,
 district promotional W. S. C. S. secretary; Miss Frances English,
 district director of youth work;
 O. W. Tooley of Haskell, district
 lay leader; Rev. E. L. Yeats of
 Seymour, and Dr. Harold G. Cook,
 president of McMurry College.

District stewards were also pre-
 sent and held a business sessions
 to outline their work for the year.
 The group had lunch in the
 church basement, served by a com-
 mittee from the local Women's
 Society of Christian service.

There are many pastors who are
 new in the district, and this an-
 nual affair afforded an unusual
 amount of renewing acquaintances
 and making new friends. Local
 workers report unusual interest
 and faith in the progress made over
 the district in the work outlined
 for the coming year.

Munday's Club Golf Tourney Starts Sunday

Players To Qualify During This Week

Matched play in the Munday
 Municipal Country Club's annual
 club golf tournament will get un-
 der way next Sunday, according
 to an announcement made this
 week by Ray Holcomb, president
 of the club.

Quite a bit of interest is being
 shown in the tournament by club
 members, and the course is expect-
 ed to be in good condition for the
 matched play.

Qualifying rounds began last
 Sunday, and players will be qual-
 ifying all of this week. Qualifying
 scores must be turned in this week,
 it was stated.

Matched play will be continued
 throughout all of next week, with
 final matches being played on Sun-
 day, June 29.

Boys Selected To Get Chickens For Projects

Dick Atkinson, chairman of the
 Munday Chamber of Commerce
 Poultry Committee, announced the
 names of the boys selected to re-
 ceive the prize chickens to be giv-
 en away by that organization in
 their improvement project.

The boys selected to receive
 these chickens announced by Mr.
 Atkinson are as follows:

James Skiles, Omer Yarbrough,
 Donald Hill, Jimmie Burt Morgan,
 Kenneth Hendrix, Homer Low-
 rance, Ray Melburn Johnston and
 Bryson Laird.

These boys will feed these chick-
 ens, prepare them for showing and
 show three of them at a county
 show to be held this fall. The three
 chickens shown will be given to
 the Munday Chamber of Commerce,
 and will be sold at auction to keep
 the program in operation. This auc-
 tion will offer an opportunity to
 White Leghorn breeders to secure
 roosters for their flocks and im-
 prove the quality of their produc-
 ing hens; since these chickens are
 from poultry trapped to pro-
 duce from 270 to over 300 eggs.

Hail Damages Crops Thursday

Between 1,500 and 3,000 acres
 of Knox county's young cotton and
 feed crops were destroyed by a
 disastrous hail which hit several
 communities late Thursday of last
 week.

The hail strip began east of
 Weinert, traveled westward to
 wipe out crops in the Throp com-
 munity, then swung northeast to
 hit the Rhineland and Hefner com-
 munities.

A number of farmers reported
 their crops completely wiped out,
 fruit crops

THE NEW NAVAL RESERVE

The New Naval Reserve provides an opportunity to eligible men to perform a distinct and essential service to their country—and to become proficient in skills which are of value to them in civilian pursuits.

The record of the Naval Reserve is known to everyone. It has performed magnificently in time of crisis. In the last war it provided a trained nucleus upon which our great fighting fleets were built. Its basic purpose is the defense of the United States.

Reserve instruction involves spare time courses not only in the military sciences, but in a long list of technical subjects and trades. Recreational activities are regularly scheduled by Reserve units. And Reserve groups on the coasts of the nation and the Great Lakes are assigned Navy ships for short training cruises in local waters.

Membership in the New Naval Reserve is open to citizens between the ages of 17 and 39. War veterans will be given the grades they held when on active service. The Reserve offers its members a splendid chance to serve both the nation and themselves.

RETAIL PRICES

A large grocery recently made a simple and sensible statement on food prices at retail. It observed that substantial reductions are impossible until costs to the retailer are cut. And it pointed out that if it's system were to operate without profit whatsoever this "would amount to a saving of less than four cents a day on the entire food bill of the average American family."

What is true of food is true of almost all other commodities. In general, retail profits and operating expense are as low as conditions permit. Competition, the most inexorable of all forces, is taking care of the operator whose profits are excessive. That is why such schemes as the Newburyport ten-per cent across the board price cuts died suddenly. Once goods were sold, stores were unable to replenish them at prices which would make continuance of the cuts possible. They had to return to retail prices which would allow some profit.

The cure for inflation is not easy. It has many phases—increased worker productivity, better and cheaper methods of production on farm and in factory; an honest effort by all workers and producers to do the best and most efficient job possible; and finally, sound and conservative government fiscal policy is essential to control of inflation. All of us, from the President of the country down to the day laborer, will have to do his part if prices are to be controlled and eventually reduced.

The secret of the atomic bomb is the American Magiont Line. It gives us security in imagination. To that extent it is a great danger.—Albert Einstein.

"A YEAR-ROUND PUBLIC RESPONSIBILITY"

In May, the President's Conference on Fire Prevention adopted an Action Program which should be put into effect in every state without delay. One of its essential proposals is that all governors appoint statewide fire safety committees and that each state hold a fire prevention conference to establish a practical line of action tailored to its own particular needs.

The action Program is all-inclusive. It contains recommendations, framed by the leading fire prevention experts of the nation, on such vital matters as law enforcement, building construction, fire-fighting services, public education and research. But it will be of no avail if states and communities fail to put it into effect. It offers the nation an opportunity—and it is up to the people to accept it.

No one can doubt that the magnitude of our fire loss constitutes a real national emergency. More than 10,000 lives and \$651,000,000 worth of property were destroyed last year. The total unless checked, will be higher this year. Month after month, the figures have been rising.

In opening the Conference, President Truman said: "Fire Prevention is a year-round public responsibility. I believe the highest state and municipal officials must assume greater responsibility for leadership in this field." The time to act is now.

TWO CONCEPTS OF MEDICAL CARE

The American people must choose between two diametrically opposed systems of providing medical care. That was the gist of a recent address by Dr. Harrison H. Shoulders, president of the American Medical Association.

One system, Dr. Shoulders said, "would vest in some agency of the Federal government the power to tax, the power to spend, the power to regulate, the power arbitrarily to determine need . . . and finally the power by regulation to direct . . . That proposition has its origin in a totalitarian philosophy of economics and can lead but to tyranny."

The other system, he then said, "is the application of the principal of insurance through voluntary prepayment medical service plans to the financing of medical care. This will solve the major difficulties in the financing of medical care. The sound and wide application or use of insurance will spread the most in two directions—over a large group of people and over a long time. This proposition has its origin in the philosophy of freedom. It is purely voluntary. It will make medical care easily available to people of all income level . . . It will preserve the freedom of the individual."

There might be some argument for government dominated medicine of prepaid, voluntary, medical care plans had failed. But they have grown with remarkable rapidity in late years. The extent of the services offered has steadily been enlarged. The cost is very low and the worker's entire family can be covered. They offer a sound solution to whatever general medical care problems the country faces.

Can't Break His Good Habits!

Bert Childers was saying, it's funny how so many of our wartime habits stick with us.

Bert likes plenty of butter on his bread, but even now he can't get over spreading it like it was scarce as hen's teeth. And as a war-worshiper, Bert used to stick to a temperate glass of beer on time off; and he still holds fast to beer and moderation.

Same way with Bert's wife. She not only has no trouble saving used fats, and waste paper. She's learned from wartime necessity to

save every single thing that might possibly be used again.

From where I sit, it's mighty good that so many of these common-sense habits like thrift and moderation have stayed with us. Because they belong in America—along with tolerance, and mutual respect for one another's rights. They're habits that have helped to make this country strong and neighborly and free.

Washington News Letter

By Congressman Ed Gossett

Washington, D. C., June 14—This has been an unusually busy week with me. Subcommittee No. 1, of the Judiciary Committee of the House, held hearings this week on H. J. R. 9, of which I am the author, proposing to abolish the electoral college system of selecting Presidents and substituting a direct vote in terms of electoral votes. In other words, a number of us are advocating that the electoral college and electors be completely eliminated, and in voting for President one vote directly for the candidate. However, we would retain the electoral vote of the states, the state control over elections, and provide that the electoral vote be divided in exact ratio as the popular vote. In other words, if the Republican candidate gets one-third of the popular vote in Texas, he will get one-third of our 23 electoral votes. If the Democrat candidate gets one-third of the popular vote in Pennsylvania he will

get one-third of Pennsylvania's 35 electoral votes. I submitted a long statement to the committee seeking to prove six propositions as follows:

1. First, existing provisions as to the choosing of electors, the manner in which their votes are cast and counted, and the deciding of elections in the Congress is an open invitation to fraud and chicanery and unless changed will some day result in disaster.
2. Second, the electoral college confines and largely restricts national campaigns to a half dozen pivotal states.
3. Third, the electoral college greatly restricts the field of Presidential possibilities.
4. Fourth, the electoral college permits and invites irresponsible control and domination by small organized minority groups, within the large pivotal states. It aggravates and accentuates the building up and solidification within these states of religious, economic, and racial blocs.
5. Fifth, the electoral college deprives great masses of our best citizens of the educational benefits of national campaigns and lessens their concern in national affairs.
6. Sixth, the electoral college

places unconscionable burdens and temptations upon a President elected by it.

The Subcommittee on Immigration of the House Judiciary Committee has been busy this week holding hearings on the Stratton Bill which seeks to admit to this country 400,000 refugees now in Displaced Persons camps in Europe. It is proposed to admit these folks over and above the some 500,000 who come here annually under existing laws. I am bitterly opposed to this bill and will make a speech against it on the floor of the House this week.

During these hearings I made a remark about the millions in New York City who do not even speak the English language, referring to that metropolis as in fact a foreign community. New York newspapers have been panning me since. The editor of the radical newspaper PM sent a wire inviting me to see New York at their expense and adding, "the record shows that in the city of New York only 4.5 per cent of our people can be classified as illiterate as compared with 6.8 per cent who are illiterate in your own State of Texas. In New York State as a whole the illiteracy rate is 3.7 per cent as compared with 13.5 per cent in your birthplace, Louisiana. In all sincerity we hope you will accept our invitation so that you can talk to the people here and learn something firsthand about our city and state. We believe it will broaden your outlook and enable you better to represent the entire country to the end that all of our people will have an opportunity to overcome the handicaps of illiteracy and ignorance. Sincerely, John P. Lewis, Editor Newspaper PM."

To this wire I made the following reply: "Relative your wire, illiteracy and language have little to do with character. Sorry I have no time for social service in New York. Appreciate your invitation."

This paper published both wires with the comment, "Gossett Refuses to Learn." They have put me on their mailing list for this socialistic daily, alleging that I will be greatly enlightened by receiving their publication.

On the House floor this week the bitterest debate has been engendered by the so-called Mundt Bill which proposes to set up a so-called "Voice of America" bureau in the State Department, to distribute American literature and carry on American radio programs abroad. The bill also provides for

an interchange of students, scientists, and so on between nations. The object of the bill is to teach other nations about us, and in turn to learn about them. The objectives are good but many doubt that such objectives will be carried out through such an agency. While many of us earnestly want the "voice of Hollywood" and of some and respected around the world.

Girl Scouting helps girls become good citizens—at home, in their communities and country and in the world. It is the basic aim of the movement, now in its thirty-fifth year.

we are somewhat afraid that this particular "voice" will be more the "voicic of Hollywood" and of some pingish intellectuals than the real voice of the American people.

Safety Program And First Aid Is Heard By Ladies

Much is being said about safety, and much more should be done about it.

Last month the Home Demonstration clubs in Knox county had a program centered around "First Aid." This is one vital phase of safety, and it is important that each of us know how to administer First Aid, but first in line of importance is accident prevention.

The burden of accident prevention rests squarely on your own shoulders—no one can do your part for you. Because of the increasing numbers of serious and fatal accidents occurring in rural areas, a list of precautions have been brought to attention:

1. From a point 10 feet from the entrance of your driveway onto the highway, is there clear vision for 700 feet in each direction?

2. Do you observe the following when coming on to the highway:

1. Make a full stop—about 10 feet from the edge of the pavement?

2. Look both ways: right and left?

3. Turn into proper lane. Do not swing beyond center lane when turning right.

3. When leaving the highway, do you:

1. Signal your intention of turning 100 feet before making turn?

2. Slow down gradually before turn so that the situation is completely under control?

3. Stay in proper lane, turn "square corners" avoid swing out to the left when turning right and vice versa.

4. Do you know the meaning of highway signs and obey them to the letter?

5. Do you teach your children to always walk on the left side of the road facing on-coming traffic and never to take chances on beating a car across the road?

If you can answer "yes" to all of these, then you are making a valuable contribution toward making our highways a safer place to travel—but, if you cannot, you are endangering the lives of yourself, your children, and your neighbors. Do your part in preventing rural accidents.

Miss Betty Golden And Charles P. Baker, Jr., Wed Sunday In Denton

The Little Chapel in the Woods, Denton, was the scene of the lovely wedding last Sunday afternoon at five o'clock which united Miss Betty Jean Golden, daughter of Mr. and Mrs. Oates Golden of Munday, and Charles Pitzer Baker, Jr. son of Mr. and Mrs. C. P. Baker, also of Munday. Rev. Luther Kirk, former pastor of the Munday Methodist church and now superintendent of the Perryton district, officiated.

Given in marriage by her father, the bride wore an ivory slipper-satin gown, fashioned with a sweetheart neckline and a peplum embroidered in seed pearls. Her finger-tip veil of French illusion fell from a tiara of seed pearls. The bride's bouquet was a white orchid surrounded by gardenias and lilies of the valley. She wore a single strand of pearls.

Miss Juanita Golden attended her sister as maid of honor. She wore a gown of ice blue faille which she completed by carrying a bouquet of red roses. Bridesmaids were Johnnie Douglas of Shamrock, Marjorie Bradford of Waco, Mrs. Eugene Miller of Dallas and Leavelle Dunaway of Dallas, all of whom wore costumes of pink faille and carried bouquets of fuschia gladioli.

Barry Barker of Lockney attended his cousin as best man, and Groomsman were Kenneth Baker, brother of the groom, and Joseph Borden of Munday. Ushers were Ben Bowden of Munday and Bill Golden, cousin of the bride, of Seymour.

Mrs. Baker was reared in Munday and is a graduate of the Munday high school. She also attended Southern Methodist University in Dallas and is a 1947 graduate of Texas State College for Women, where she received her B. A. and B. S. degrees.

The bridegroom, also a graduate of Munday high school, attended Texas A. and M. College before entering the U. S. Army where he served as an infantry sergeant at Ft. McClellan, Ala., Camp Blanding, Fla., and Camp Robinson, Ark. He is now employed at the Baker-McCarty store.

A reception at the Virginia Carroll Lodge followed the ceremony, the lace covered refreshment table being centered with the bride's bouquet on a mirror-reflector. Refreshments were served by Meses, Luvelle Bilbrey and George Granger, aunts of the bride, and Mrs. A. P. Barker of Lockney secured signatures for the bride's book.

Following a wedding trip to Colorado, the couple will establish residence in Munday about July 1.

Around 125 guests attended the wedding, including the following from Munday:

Mr. and Mrs. Oates Golden, the bride's parents; Mr. and Mrs. C. P. Baker, the bridegroom's parents;

MRS. CHARLES P. BAKER, JR.

Mrs. W. R. Moore, Mrs. A. H. Mitchell, Mr. and Mrs. H. A. Pendleton, Mrs. Frances Baker, Mr. and Mrs. Winston Blacklock and daughter, Carolyn; Mr. and Mrs. Jerry Kane and daughter, Jerilyn; Mr. and Mrs. D. E. Holder, Jr., Mr. and Mrs. J. C. Borden, Mr. and Mrs. R. D. Atkison, Mr. and Mrs. Howard Collins, Mr. and Mrs. Don L. Ratliff and Mr. and Mrs. Travis Lee and children.

Mr. and Mrs. J. L. Stodghill, Mr. and Mrs. Eugene Groce, Mr. and Mrs. Roddy Griffith and Dorse Collins spent the week end at Possum Kingdom lake.

IT'S SACK-RILEGE

It's sack-rilege that so many cotton sacks are going to waste when they can be transformed into such beautiful articles of wear and household utility. The dress worn by Miss Lena Lela Ann Howard of near Memphis, Tenn., and the covering for the telephone stool on which she sits, were both created from ordinary cotton bags.

J. C. Harpham was business visitor in Haskell Tuesday afternoon.

Munday Boy And Crosbyton Girl To Marry Soon

The betrothal of their daughter, Beatrice, of Mr. Glenn K. Matthews, son of Mr. and Mrs. H. D. Matthews of Munday, Texas, has been made known by Mr. and Mrs. H. D. Pollitt of Crosbyton. A late June wedding is being planned.

Miss Pollitt, an employee of the public service commission, was graduated from Charleston high school and Charleston School of Commerce.

Her fiancé attended North Texas State Teachers college and is a graduate of the Gregg college in Chicago. He was stationed at the Third Army headquarters in the ETO, and is associated with Mr. Charles V. Price, court reporter.

Mrs. J. T. Offutt and sons and Mrs. L. D. Offutt and children spent Thursday of last week in Wichita Falls, visiting with relatives. Their grandmother, Mrs. Callie Smith, accompanied them home for a visit.

Relatives Here For Funeral Of Mr. Groves Saturday

Out-of-town friends and relatives here for the funeral of Dan Groves last Saturday were as follows:

Mrs. Connie Jones, Mrs. Zella Fry, Misses Bessie Love, Georgia Higginbotham, Edith Wilson, Laverne Peterson, Naomi Keylou, June Rickard, Hildegarde Kasper, Sue VanWinkle Threadgill, Mr. and Mrs. Elton Groves, all of Wichita Falls; Mrs. Stella Lindsay, Jal, N. M.; Mr. and Mrs. Martin Warren, Dallas; Mr. and Mrs. Eldert Kilgore, Sidney; Mr. and Mrs. John Weathersoy and Bob Groves, Rule; Mr. and Mrs. Iva Kitchens, Mr. Otis Brown and Mrs. Oliver Floyd, all of Mulohoe; Mrs. Forrest Haddox and daughter, Gertrude, Comanche; Mrs. Wendell Pines, Lubbock, and Mr. and Mrs. Ernest Clifton, Haskell.

Mrs. G. R. Eiland and Mrs. James N. Walker and children left Wednesday for Lamesa for several days visit with relatives.

Shower Is Given June 7 To Honor Mrs. Trainham

A lovely bridal shower was given on Saturday, June 7, in the home of Mrs. H. D. Arnold of Goree to honor Mrs. T. J. Trainham, the former Trady Jane Coffman.

Hostesses for the occasion were Mrs. Arnold, Mrs. S. G. Hampton, Mrs. Dalton Jones and Miss Naomi Hampton.

The entertaining rooms were beautifully decorated for the shower with a lovely arrangement of seasonal flowers.

Mrs. Billie Mitchell served tea to the guests, and Miss Naomi Hampton presided at the bride's book. The bride's gifts were in display throughout the entertaining rooms.

Around 50 guests called during the evening, and many sent gifts who were unable to attend.

Picnic And Shower Given To Honor Gordon Clement

Members of the Church of Christ sponsored a picnic and shower on Tuesday, June 10, to honor Gordon Clement, ministerial student at Abilene Christian College who serves Munday church as pastor for several months.

The approaching marriage of Mr. Clement to Miss Ann Widen was announced at the picnic. The marriage will take place in August.

Mr. and Mrs. Noel Ellis of Abilene accompanied Mr. Clement here for the picnic.

struck them even before they read what we had to say about the wheat—if they read it at all.

About six p. m. Thursday, she hit and the hail peppered down so fast that it wiped many cotton and feed fields out clean. It is estimated that between 1,500 and 3,000 acres went out like "Lottie's eye" during that brief storm.

And it's going to soon be too late to plant cotton, if farmers can get the seed. By the time their fields are dried up in places, June 20 will be staring them in the face before they can get everything replanted. And that date is considered the deadline for planting cotton in Knox County.

We had those experiences, too, when we farmed as a boy. They made us decide we'd never be a farmer—maybe a tramp, but never a farmer. Sometimes we think we just barely missed being a tramp.

So guess we'll stick to printing a newspaper—if we can get the paper to print it on.

Mr. and Mrs. O. O. Putman and Mrs. Jack Cunningham were visitors in Fort Worth over the week end.

Activities Of The Colored People

Service is being held each night at the Church of God in Christ. On Tuesday night, Rev. W. A. Alexander, former pastor, preached and was accompanied by his wife.

Bro. M. H. Hendric was called to the bedside of his daughter last week and spent several days there. He has returned from Midland and left her doing fine.

Miss A. Williams, teacher of this city's school, was in Munday on business last Friday and was accompanied by her mother and little sister of San Angelo. Also Prof. V. O. Robinson, brother-in-law, and her sister who teach in West Texas, and Mrs. Amos of Wichita Falls who is the maker of Amos beauty products. They were guests in the home of Mrs. Aline Johnson and visited other friends of the city.

Dean Odems, who has been on the sick list for quite a while, left for Gatesville last week for treatments.

Mrs. H. B. Stubblefield and children visited with Mr. Stubblefield in Spar last Sunday.

Otis Bowen of Muleshoe, Texas, attended the funeral of Dan Groves here last Saturday.

White Sidewalls Rolling Again

This vision of luxury and beauty, after five years of war-time privation, again is rolling onto the American scene. Vivacious and sport-loving Heidi, a Conover model, shows off the tread pattern of a Firestone Imperial premium tire, the first white sidewall tire using nylon cord to be produced in the rubber industry. The nylon cord assures greater safety by increasing resistance of the tire to bruises and high temperatures generated by fast driving. The nine ribs with 4,644 sharp-edged non-skid angles provide one of the widest treads and flattest contours yet developed for passenger car tires. In appearance, in economy, and in safety, the new Imperial is the peer of all post-war tires. 6-47-1

BOYCE HOUSE Gives You Texas

Many years ago when Tom C. McRae was running for governor of Arkansas, one of his opponents was assailing him. McRae's only comeback was, "A wise hunter does not waste ammunition on a dead duck." McRae was elected and made a great chief executive.

In these days when so many best sellers are filled with filth, I am so old-fashioned to count it a real tribute when someone says, "None of the things in your books have to be fumigated."

And a speaker can be humorous without being vulgar.

Touring Texas: At Guthrie, a big rock house enthroned on a hill is visible for miles. The castle-like mansion is the main ranch house of the 6666.

On west is Red Springs. I didn't see the springs but in nearly every yard were red flowers that looked like tulips.

It is a scenic drive. To one side is broken country which is the divide of the Wichita River. Then there is picturesque Blanco Canyon.

And in Plainview is a "honey house," a store where nothing but honey is sold. And a little ways north of the town is a row of trees half a mile long, beside the highway. One house is surrounded by trees taller than it is and the house is two stories high. I can remember when it was said that trees would not grow on the Plains. Now, they have big nurseries up there.

Between Abilene and Coleman during May there were several miles of hills and valleys clad in solid sheets of light yellow flowers.

Hollywood has its Brown Derby—Bangs has its Sombro, a little cafe built in the shape of Mexican hat.

And approaching Brownwood on the highway from the west your car drops down on the city almost as though you were coming in on an airplane.

Mrs. Alice Wray, who has been teaching in the Wink public schools is here to spend the summer with her parents Mr. and Mrs. U. S. Rogers.

ENLISTS IN NAVY

Harold P. Green, son of Mr. and Mrs. Carl Green, has enlisted in the U. S. Navy and is now in training at San Diego, California.

From high in East Texas to the lower Rio Grande Valley, St. Augustine grass makes good lawns on any soil type from sand and sandy loams to loams and blackland clays.

Mr. and Mrs. Bob Jarvis spent several days last week visiting in Amarillo. They accompanied their niece, Fredia Ann Hobb, home after spending two weeks in the Jarvis home.

Mr. and Mrs. A. A. Brazell and daughter, Gloria Ruth, are visiting in the home of Mr. and Mrs. S. O. Riley and Mr. and Mrs. Gus Brown. Mrs. Brazell is a sister of Mrs. Riley and Mrs. Brown.

The Rural Electrification Administration has approved a loan of \$250,000 to an electric cooperative organization at Stamford, Texas. The loan will be used for system improvement and for 205 miles of lines to serve 403 rural customers.

The world's 1946-47 cotton production is estimated at 21,500,000 bales.

CARD OF THANKS

With grateful hearts, we attempt to express our sincere thanks to everyone who were so kind and thoughtful to us during the illness and at the death of our beloved father and husband, D. M. Groves.

Your every thought, every deed, and every floral offering were deeply appreciated, and we pray God's richest blessings on you all.

Texas Editors Eat Turkey Steaks

AMARILLO, TEXAS, June 19. —Texas Editors in annual convention in this Panhandle City lunched here today on turkey steaks, a new taste treat, which is in the process of development in order to make turkey a year round instead of a seasonal delicacy. The editors, members of the Texas Press Association and the Texas Newspaper Publishers Association were guests at a luncheon at the Amarillo hotel. Arrangements for the turkey steak luncheon were made by Ralph E. James, president of the National Turkey Federation, and C. S. Pryor, manager of the Amarillo Hotel. Shown above is Mrs. Oswald Wolf of the Alvin East Produce Co., of Austin, who prepared the steaks. Turkey steaks are boneless and there is no waste. The steak was developed by Texas A. & M. College, the Luling Foundation, and officers of the National and Texas turkey federations.

Mr. and Mrs. Kermit Olsen of Lubbock spent a few hours here Sunday with Mrs. Olsen's mother, Mrs. D. B. Weaver. They were enroute to Parker's Prairie, Minn., to visit with Mr. Olsen's parents.

RELATIVES ARE HERE FOR FATHER'S DAY

Weekly Health LETTER
Issued by Dr. Geo. W. Cox
M. D., State Health Officer of Texas

Austin—A pamphlet entitled "Minimum Swimming Pool Standards" is being distributed by the State Health Department throughout the State to operators of swimming pools or other interested parties according to Dr. Geo. W. Cox, State Health Officer.

The standards set up were prepared for the protection of public health and include recommendations of the Joint Committee on Lathing Places of the Conference of State Sanitary Engineers and the American Public Health Association. These standards provide for proper sanitation practices at all types of pools from the "fill and draw type" to the modern "recirculating type."

Some of the specifications for standard sanitation are that the bacterial quality of the water should be equal to that of safe drinking water; frequency of changing or recirculating water should be such that maximum safety will be provided as well as proper economy; the water should be sufficiently disinfected to kill all disease bacteria and standards for cleanliness and algae control be enforced.

Dr. Cox advises that the State Department of Health offers many services to the pool manager or operator. These services include:

CLOSED SHOP OUTLAWED IN 16 STATES

Houston, Texas.—The shaded states in the above map have either adopted or submitted constitutional amendments or enacted statutes prohibiting the closed shop. Sixteen, or one-third of all the states, have taken such action. They are Arizona, Arkansas, Florida, Georgia, Iowa, Maine, Nebraska, Nevada, New Mexico, North Carolina, North Dakota, Ohio, South Dakota, Tennessee, Texas and Virginia. The Taft-Hartley Bill recently passed by Congress contained a provision outlawing the closed shop.

The Right to Work, regardless of union or non-union affiliation, as a principle of government, originated in this fast growing industrial city. Vance Muse, Secretary-Treasurer of the Christian American, Inc., with national headquarters here, directed the campaign that resulted in its adoption as an amendment to the Constitution of Arkansas and enlisted the support of the Attorney General of Florida in its enactment there. Five hundred labor papers of the nation recently voted Mr. Muse to be "Public Enemy No. 1" of the movement to organize the unorganized; he has been investigated by two State Legislatures and castigated by several others and a bill has been introduced in the Texas Legislature to revoke the charter of the Christian American which was granted in November 1936. The Chairman of the Communist Party in Texas recently filed suit against Mr. Muse for \$15,000.00, claiming that her reputation was damaged when Muse printed her picture along with 37 members of the Texas House of Representatives who voted against the Right to Work measure. The suit was withdrawn when Muse's attorney, Bernard A. Golding, announced he was ready to go to trial. Ultimate objective of the Christian American group is an Amendment to the Constitution of the United States guaranteeing every person the right to work regardless of union status. A recent nation-wide survey shows that Texas has the most complete and effective set of labor regulatory measures of any state in the Union. . . . Directory of State Lawmakers.

to work as a leader during the coming term.

Miss Nellie Jones, president of the Goree 4-H Club, and Eugenia Butler, Home Demonstration Agent, represented Knox county. We were sorry that it was impossible for representatives of each club to attend.

Girls arrived in camp on May 26, registered, settled into their cabins with their sponsors, found old friends, and explored the grounds. After supper, all met in the assembly hall to learn camp rules and regulations, and sing and play games. By the time for Vespers by Hardeman county girls, many of the new faces were beginning to look familiar.

Meals were served by staff on the grounds, leaving more free time for participation on program activities.

The evening programs included songs, games and stunts by the various counties, and after fruit for refreshments, closed with a vesper service each night.

On Tuesday and Wednesday, each girl had an opportunity to take part in the Rifle program, supervised by Mr. R. E. Callendar, Wild Life Conservation Specialist from Texas A. and M. College, and Mr. Garret of the Remington Company. They were given instructions on shooting postures and safety practices. Scores were tabulated and the 5 girls with highest scores were recognized. Mr. Callendar also talked to the group about wild life of Texas and what the girls can do to help protect it, and showed an exhibit of stuffed wild life.

Other activities carried out on these days included soft-ball tournaments, volley ball and other active games, and swimming, under the Supervision of Eugenia Butler, Knox county Home Demonstration Agent, Bobby Neil Smith, life-guard, was on duty at these periods.

Each girl made two handicraft articles, a braided key ring and a

copper bracelet with the design etched on by acid.

Thursday morning was devoted to trying to keep warm inspite of the norther, and to finish up bracelets. Then came all the last minute activities packing up, getting addresses of new friends, checking out, and good-byes.

It all added up to having a lot

of fun, learning new things, and our only regret it that more Knox county girls could not share it.

Now that summer is under way and things are settling down some, will the presidents of all girls 4 H clubs interested in meeting during the summer, please drop a card to Eugenia Butler, Co. H. D. A., Benjamin, Texas.

Mrs. H. A. Pendleton, Mrs. Cecil Barton and Mrs. Frances Baker were business visitors in Wichita Falls last Friday.

Mr. and Mrs. H. A. Pendleton and Mrs. Frances Baker attended the wedding of Charles Baker and Miss Betty Golden in Denton last Sunday.

Fixing Up the Farm
by BURTON WILLIAMS

Roadside Stand

DIRECT-TO-THE-CONSUMER merchandising can be profitable to the farmer located on a well traveled highway. Tempting displays of fresh fruit, vegetables, honey and other products have a reasonable appeal to many motorists.

A roadside stand can be a profitable enterprise throughout the summer, or it can be operated only on weekends. In either case, it is

best to have a stand to display the products and protect them and the attendant from the weather. Fruit and vegetables wilted by the sun won't boom sales.

A serviceable structure can be made easily by nailing asbestos cement board to a good wooden framework. The one pictured above displays the products on tiered benches. The extended roof and apron offer added protection.

Asbestos board is an ideal material for roadside stands because it cannot be harmed by weather and does not require painting. With a few sheets of the board, some framing lumber and a little spare time almost anyone can construct an attractive stand.

Career Woman!

MEET the greatest career woman of all! She doesn't manage a business, write novels, paint portraits, or sing over the radio. But her job's big and it's important—she runs a home!

What a job that is! In a year she washes more than 6 tons of dishes, cooks more than 1,000 meals, wades through mountains of laundry, trundles her vacuum cleaner across acres and acres of rug!

The more Mom depends on electric service, the less work is in her household. And how little electric service costs! A penny's worth a day will rescue Mom from the drudgery of dishwashing. A few more pennies will cook her meals. Electricity will help her wash and iron for less weekly than the cost of a bar of soap.

And when Mom balances her budget, she's bound to note that electricity is one of its smallest items. Actually, the average family now gets twice as much electricity for its money as it did about 20 years ago. This bargain comes to Mom—and to you, too—through the practical experience of your friends and neighbors in this company, under sound local business management.

CUTE IN COTTON

Cute in cotton is the word for pretty Paulette Goddard, Paramount star, who wears one of her 1947 cotton favorites. The low cut square neckline and the short, pushed-up sleeves add interest to the design which is done in soft blue cotton crash.

Widows and near relations of World War II veterans living in 57 foreign countries and seven United States territories and possessions are receiving monthly National Service Life Insurance payments totaling nearly \$700,000, VA reported this week.

Although veterans today may select any person, firm, or legal entity as a beneficiary, nearly all of the 7,093 living beneficiaries abroad were receiving payments on policies which mature more than nine months ago—when the selection was limited to wives and near relatives.

More than half the beneficiaries—or 4,067—reside in the Philippine Islands. They receive \$561,000 a month. Another 856 live in Puerto Rico, 472 in Hawaii and 458 in Canada.

England has more beneficiaries than any other nation in the Eastern hemisphere, or 146. Ireland is a close second with 134.

Other beneficiaries, in each case numbering less than a hundred, live in Belgium, Czechoslovakia, Denmark, Finland, France, Greece, Italy, Netherlands, Norway, Po-

land, Portugal, Scotland, Spain, Sweden, Switzerland, Yugoslavia, Algeria, Egypt, French Morocco, South Africa, Arabia, China, Palestine Syria, Turkey, Australia, New Zealand, Argentina, Brazil, Chile, Colombia, Peru, Costa Rica, Cuba, Dominican Republic, El Salvador, Honduras, Mexico, Panama, Newfoundland, Nova Scotia, Prince Edward Islands, Alaska, Samoa, Canal Zone, Guam and the Virgin Islands.

Veterans must secure authorization from the Veterans Administration before going to a local dentist for dental treatment at government expense, VA officials have warned.

Unless prior authorization has been granted, VA can not pay for this treatment.

To secure authorization for outpatient dental treatment, veterans must establish their dental deficits as service-connected. This necessitates the filing of a claim.

VA pointed out that most dental conditions are assumed to be service-connected if application for treatment is made within one year after discharge. In many of these cases, VA can authorize outpatient treatment prior to adjudication and rating of the claim.

Where applications are filed later than a year after discharge, the claim must be adjudicated and rated as service-connected before any dental treatment can be authorized by VA Regional Offices.

Where VA dental clinics are not feasibly available, treatment by private dentists on a free basis may be authorized by VA in Texas, Louisiana and Mississippi.

Eight out of every ten students studying abroad under the GI Bill are enrolled in educational institutions in five countries, according to the Veterans Administration.

The five countries are Canada, Mexico, Switzerland, France and

England.

Question and Answers

Q. What income provision is attached to the pension that I will get as the widow of a soldier who died in a German prison camp?

A. As the widow of a soldier who died in line of duty, you are pensionable under the law regardless of income.

Q. I divorced my wife on grounds of desertion and would like to know if she can claim part of my pension?

A. The divorce discontinues the marital relationship and your wife could not successfully claim a portion of your pension unless she successfully contests the divorce.

Q. How much is allowed for a child whose father is taking a G. I. college course? We are divorced and he claims that he is receiving only \$65 a month.

A. A veteran going to school under the Servicemen's Readjustment Act (G. I. Bill), if single and without dependents, may receive an allowance of \$65 monthly; if he has a dependent or dependents, he may receive \$90 a month. If the child is dependent on your former husband, he would be entitled to the higher rate.

Q. How long after discharge from armed services is readjustment allowance available to a veteran?

A. Readjustment allowances are available to an eligible veteran at any time after his discharge or release until two years after the date of his discharge or release or until after the official termination of the war, whichever is later.

The "AVEN" Crop Duster
 Will Help You
 Mr. Cotton Farmer

Fight the flea Hopper and other cotton insects. The "Aven" Crop Duster will help you grow more cotton per acre.

Modern farmers do not need to be convinced of the need for insect control. The cost of an "Aven" crop duster is quickly repaid by increased yield. The "Aven" New Style Crop Duster is a practical, easy to operate machine that will give long, trouble free performance. Has new type improved steel nozzle rail instead of the wooden rail as pictured. This duster meets a need long felt and is an outstanding engineering success—it has been proven over a period of years by farmers throughout the United States. Let us give you more detailed information about the "Aven" Duster. Can be furnished in 6 or 8 row and with Broadcast attachment.

Use Of Cotton In Six Markets To See Gains

Memphis, Tenn.—Overall consumption of cotton in six household domestic end use markets will increase 37,419 bales by 1950 over 1939 requirements, the National Cotton Council predicted today, in spite of growing competition from synthetic fibers and paper.

Curtain fabrics; bed ticking; pillow cases; rug, carpets and mats; window shades; and tablecloths and napkins were included in the end use survey by Council research experts, who predicted cotton's greatest gains for the six markets would be in bed ticking.

The six markets consumed 406,130 bales of cotton in 1939, the Council said, and will require 443,540 bales of cotton in 1950. Curtain fabrics will be the most important of the six from the standpoint of cotton consumption, it was predicted, requiring an estimated 115,610 bales of cotton.

The curtain fabrics market will drop from 18th to 22nd place in importance to cotton, however, because of increased consumption in other domestic end use markets.

Bedding Market Jumps
Consumption of cotton in the manufacture of bed ticking will increase by 23,359 bale equivalents, the Council estimated, elevating this market from 29th to 24th place in importance to the cotton industry.

Cotton will continue to dominate the bed ticking, pillow case and curtain fabrics markets as the textile industry expands to meet increased national requirements.

Cotton's position in all six markets can be bettered through improvements in various qualities, the Council said, coupled with aggressive sales promotion by cotton interests.

Improved methods of merchandising cotton fabrics also would strengthen cotton's competitive position, it was pointed out, especially in the curtain fabrics and the window shade markets.

Basic Assumptions
The Cotton Council's forecast for 1950 is based upon the assumption that conditions of moderate prosperity will prevail at that time. It assumes that the price of cotton will be 25 cents per pound, and that the prices of competing materials will not have changed materially from their levels in early January, 1946.

No allowance is made for the possible effect of new scientific discoveries or of drastic merchandising innovation. Council studies of the influence of changes in the price of cotton showed that consumption of cotton would be affected materially by costs.

Cotton price increases to 40 cents per pound would improve the competitive position of other fibers, particularly in the table cloths and napkins, curtain fabrics

Weekly Health LETTER

Issued by Dr. Geo. W. Cox M. D., State Health Officer of Texas

Austin—A statement released today by Dr. Geo. W. Cox, State Health Officer, indicates that the incidence of whooping cough in Texas is at present almost three times as high as the seven year median.

"Prevention and control of whooping cough, especially among infants and small children, may be accomplished through use of approved vaccine and convalescent serum," Dr. Cox asserted, "and it is important that such measures be taken to protect them. Neglecting to do so, and allowing the young child to suffer an attack of this disease, may seriously impair his future health."

"The infectious agent of whooping cough, is transmitted by droplets expelled in coughing, sneezing, or speaking," Dr. Cox said. "The discharges from the nose and throat are dangerous to susceptible persons; the need for early recognition and careful isolation of whooping cough is obvious."

The first sign of this disease is usually a dry cough, which persists day and night and tend to become increasingly severe. The disease is fully developed when vomiting of food and whooping accompany the paroxysm of cough. Dr. Cox stressed the fact that children who have whooping cough should not attend school and should be isolated so that they will not

Soil Supervisors In Monthly Meet Friday Afternoon

The Wichita Brazos Soil Conservation District Supervisors met Friday afternoon, June 13, for their monthly business session. All members were present including Jack Idol, Benjamin; H. D. Gammill, Rochester; Clay F. Grove, Munday; C. C. Browning, Truscott and H. W. Smith, Weinert. Mr. Fred P. Mika, District Conservationist with the Soil Conservation Service met with the supervisors.

A sample stalk of Madrid Sweet Clover was brought in from August

Rueffer farm and was discussed by the supervisors. This new strain of clover shows possibilities in the district. It is draught resistant and is a very good hay, and soil improving crop. Soil Conservation Service technicians at Knox City assisted Mr. Rueffer in the planting operation of this clover.

Three applications for conservation assistance were approved for the following: Guy McFarlin, Goree; J. F. Dunnam, Knox City; and John W. Goode, Goree.

Conservation plans were approved for nine farms, totaling 9,286 acres. Owners of these farms are Russell Boyd, Roy Smith and Earl Watson all of Knox City, Mrs. M.

A. Bush, Waco, whose farm is operated by L. P. Jones of Knox City, Carl E. Wheeler, L. B. White, T. A. Holcomb and D. H. Persons, all of Rochester, and C. G. Burnson of Rule.
