(By Aaron Edgar)

The entire nation and many peoples of the world mourn with President Truman in the death of his 94-year-old mother, Mrs. Martha Truman.

In this great loss, our President is just another American boy who has lost his mother. Her influences which have guided him through a successful career will continue to hover around him and bless his life.

The word "Mother" is a sacred word to people of all walks of life. In it are bound the tender memories of childhood, of an unselfish person who sacrificed many of her wants and needs that her child might have the best she could afford.

The word of Mother's passing possibly hasn't reached many people under similar circumstances. The President was high in the heavens in his personal airplane, rushing to his mother's bedside when the heart-breaking news was transmitted to him.

But those circumstances didn't lessen the shock, didn't hold back those tender memories of boyhood and the many happy days he had spent with his mother. He possibly forgot those surroundings and circumstances, memories of Mother crowded them out of his busy mind.

He wasn't president of the greatest nation in the world then, but just another American boy, living again the happy days of childhood and youth and thinking of how much his mother had contributed to his life.

Those of us whose Mothers are still with us may thank God for it; those who have lost mothers through death can mourn with our President with more sympathetic understanding.

Another great president Abraham Lincoln—once said: "All that I am and all that I hope to be I owe to my angel Mother." These words, borrowed from the Great Lincoln, can be spoken with just as much sincerity by most Americans, including President Truman, whose beloved Mother had seen him travel the road to success, from farm boy to President of the United States.

Those in the high places; those in the lowly ones; the rich, the poor; people of many races, colors and creeds can mourn with Harry Truman. Mother is gone. "She will not have to suffer any more," and in these words our president gave voice to an expression often repeated by many of us when we knew that Mother had passed into the Great Beyond.

That July shower last Friday was great, wasn't it? Although limited in scope, it proved to us that it can rain in July, and the 1.06 inches we received in town has made things look a lot better.

Out east of town, they said they got about twice as much rain as we did, while to the west it was practically nil. Anyway, there's always the hope that a good general rain will come in time to assure a bumper crop.

And a bumper one it will be, if the rain comes, and everything goes off as well as now. We've never seen prettier and cleaner crops than we now have in Knox county.

If our cotton and maize, and corn, and bonita, and hegarl, and watermelons, etc., should turn out as well as our wheat did, it would really be one for Ripley. It don't happen like that every year in West Texas.

It's about time we started another howl for a clean-up drive. Our barrel of cans, bottles, etc., has been running over for some time now.

You remember, every time we've wanted a clean-up this year, we got our cans hauled off. So how about a clean-up drive?

We don't see why a summer clean-up wouldn't be just as effective as a spring clean-up, any.

3,163 Attend P. C. A. Meeting At Stamford

An attendance record was established by members of the Stamford Production Credit Association at their annual meeting, held at the Cowboy Reunion grounds in Stamford, July 25, 1947. A total of 3,163 people attended.

A program, featuring J. W. Dalton, amateur magician from Paducah, Texas, was presented for the entertainment of the crowd during the morning hour. At noon the members and their guests were served an old fashioned chuck wagon dinner.

The business session of the meeting was called to order at one o'clock by J. F. McCulloch, vice-president of the Association.

Director J. Spurgeon Reeves of the Board of Directors, summing up the activities of the directors and officers for the past year.

J. L. Hill, Jr., Secretary-Treasurer gave a brief report on the program of the association. J. B. Pumphrey, Old Glory was re-elected director for a term of 3 years.

L. Roy Prescott, Treasurer of the Production Credit Corporation of Houston, addressed the meeting along the lines of cooperative credit, using as his subject, "There is a Great Day Coming."

In the matched calf roping contest between Sammy Baugh of Aspermont and Fred Albright of Knox City, Fred Albright won with a total time of 154 sec. for 8 calves. Sammy Baugh's time 155.1-5 seconds.

At the organizational Board meeting held following the annual meeting C. C. Burson was elected president of the Board, J. F. McCulloch Vice-President, J. L. Hill, Jr., Secretary-Treasurer, Paul L. Summers Assistant Sec.-Treas., and J. Ryland Gleaton assistant treasurer.

An attractive array of attendance gifts was awarded to the members and their wives holding the lucky tickets.

Navy Opens Rates For Re-enlistments

It was announced this week by the Navy Recruiting Office in Wichita Falls that, effective immediately and up to and including October 31, 1947, all ex-servicemen of the USN, USNR, and USN-I who were discharged on or after August 15, 1945, may re-enlist with a rating higher than seaman first class, provided they were discharged with a higher rating.

For example: Chief petty officers, chief petty officers (acting appointment) and first class petty officers may re-enlist as second class petty officers. Second and third class petty officers may re-enlist as third class petty officers. All non-rated men will re-enlist at the same rating held at the time of discharge.

A navy recruiter will be in Munday at the post office at 12 noon each Wednesday, it was stated.

Mr. and Mrs. G. W. Hawkins and daughter, Jan, of Sweetwater and J. F. Hawkins of Roscoe spent Tuesday here, visiting in the home of Mrs. J. B. Bowden and attending to business matters.

A driver who was not breaking any law, and two passengers with him, burned to death in this inferno when a reckless overtaking motorist tried to pass their car where the way was too narrow. His engine rammed into the gasoline tank, setting it afire, and the car was knocked off the road, and over and into a field, where it quickly turned into a molten furnace. The lawbreaker himself was not injured—such is the irony of highway accidents. National Conservation Bureau safety specialists report that improper passing ranked fifth as a cause of motor vehicle deaths last year; most often it was combined with excessive speed which accounted for at least 8,000 fatalities.

Fire Damages Bridge On Brazos North Of Goree

Fire of undetermined origin destroyed a portion of the Brazos river bridge north of Goree, on the Goree-Vera road, last Monday night.

George Nix, commissioner, said Tuesday that about 80 feet of the bridge was practically destroyed, and a portion of this was new material which had been installed Monday. Workmen cleaned up the premises Monday at quitting time, and they are at a loss to know how the fire started.

Work of replacing the damaged span was begun Tuesday morning.

Weinert Boy Enjoys Visit To Nation's Capitol

Billy (Little Dick) Therwhanger of Weinert is in Washington, D. C., visiting his sisters, Misses Marvella and Margaret Therwhanger.

Billy writes that he attended Congress one day with Mr. Zingerman of New York City and our own Hon. George Mahan. He visited Mt. Vernon, George Washington's birthplace, Arlington Cemetery, General Lee's mansion, and saw lots of ball games including one between the Detroit Tigers and Washington Senators, and a crowd of over 16,000 fans.

Miss Carcelle will return home with him for a visit with her parents, Mr. and Mrs. Dick Therwhanger of near Weinert.

Ted Kelley Goes To Randall County On September 1st

Ted T. Kelley has accepted a position as co-ordinator of the Randall County Vocational School at Canyon, and will assume his duties there on September 1, 1947.

For the past 10 months, Mr. Kelley has been vocational agriculture teacher in Knox County Vocational School, which has its offices at Munday.

Knox Cotton Gets Poison For Flea Hoppers

Farmers of Knox county have been busy during the past few weeks, applying poison to their cotton to prevent ravages of the flea hoppers and other cotton insects.

Local agencies handling the poison report that a large amount of poison has been sold during the poisoning operations. No great amount of damage has been done, although flea hoppers have been reported in a good many fields.

Farmers report cotton growing rapidly now, with prospects for a good crop as bright as they have ever been at this time of year.

City Ordinance Requires Dogs To Be Vaccinated

A city ordinance which was passed recently by the City Council and is being published for the last time in this week's issue of the Times, requires that all dogs within the city of Munday be vaccinated for rabies and registered at the office of the city secretary.

An annual tax of \$1.50 is being levied on all dogs, said tax to become due and payable on September 1, 1947. A tag on which is stamped the registration number of the dog is then issued, and tag is to be attached to a collar securely fastened around the dog's neck.

Dogs can not be registered until they have been vaccinated against rabies and furnished a certificate by a licensed veterinarian to such effect.

Officers of Munday are authorized to kill any dogs not bearing registered tags.

Last Rites For S. L. Poyner Are Held Friday

Elder S. L. Poyner, pastor of the Primitive Baptist churches at Munday and Rule, passed away at his home in Munday at 7:40 p. m. Wednesday, July 23. Mr. Poyner had been in poor health for several years and seriously ill for a period of several weeks.

Born at Cottage Grove, Tenn., on September 13, 1886, he was 60 years, 10 months, and 10 days of age in addition to serving as pastor, Mr. Poyner was engaged in farming until his retirement.

Surviving him are his wife, Mrs. Gertrude Poyner of Munday; three daughters, Mrs. Joe West and Verdene Poyner of Munday, and Mrs. Ray Evans of Paducah; two brothers, H. H. Poyner of Oklahoma City and Leslie Poyner of Durant, Okla., and four grandchildren.

Funeral services were held from the Primitive Baptist church in Munday at 3:30 o'clock Friday afternoon, being conducted by Elder E. C. Morris of Dallas. Burial was in the Johnson cemetery by the Mahan Funeral Home.

pallbearers were A. E. Richards and Harvey Bass of Aspermont, Alton Richards, Rule; John Davidson, Haskell; Chester Speece, Mountain View, Okla., and Zed Wadzick, Rule.

Uncle Sam Says

How would you like a fat raise? Dream stuff, you say? It isn't. It's a cold-cash, brass backs reality—if you want it to be. How do you get about it? Very simple. Just sign up for the Payroll Savings Plan where you work or the Bond-a-Month Plan where you bank. For every \$3 you put away now, you get \$4 in ten years. Take part of your pay each week in U. S. Savings Bonds. That's all. That's a fat gain in any man's arithmetic. And if ten years seems like a long time to look ahead, just give a thought to the smart Americans who bought bonds ten years ago, and hung on to them. Act now. Ten years will be gone before you know it!

J. F. McCulloch Is Speaker At Rotary Club

J. F. (Jim) McCulloch of Stamford, governor of the 127th district of Rotary International, paid his official visit to the Munday Rotary Club at its regular meeting last Monday. Prior to the dinner, Mr. McCulloch met with the directors in a brief meeting and went over some of the problems confronting the club.

McCulloch spoke to the membership following the dinner, complimenting the club and its accomplishments. He then told briefly of some of the interesting characters he met at the recent Rotary International meeting, people from India, Egypt, Italy, England and other places of the world. His speech was enjoyed by all members present.

President Resigns

Harvey Lee, president of the club, called a meeting of directors to follow the membership meeting and tendered his resignation as club president. Multiple duties, Lee said, prevented him from continuing leadership of the club.

In accepting his resignation, the board of directors elevated J. C. Harpham from vice president to president of the club. Wade T. Mahan was named vice-president.

Boy Scouts Take Week-End Outing At Seymour Park

The Munday troop of Boy Scouts, accompanied by their scoutmaster, W. W. Massey, spent last week end on a camping and outing trip to Seymour park.

Many tests were passed by the Scouts, including tests on swimming, tracking, fire building, etc. Returning to Munday late Sunday afternoon, the 15 boys who made the trip reported a swell time.

Auction Sale Has Active Day

The Munday Livestock Commission Co. reports a good run of cattle for the sale last Tuesday. All classes of butcher cattle sold on an active market and at higher prices than a week earlier.

Canner and cutter cows sold from \$8 to \$11.50 per hundred; butcher cows, \$12 to \$13.75; fat cows, \$14 to \$17.50; butcher bulls, \$12 to \$13.50; fat bulls, \$14 to \$16; rannie calves, \$10 to \$12.50; butcher calves, \$13 to \$17.50; fat calves, \$18 to \$23.50; butcher yearlings, \$12 to \$18; fat yearlings, \$18.50 to \$23.50.

Some stocker heifers sold from \$17 to \$18.50, and stocker steers from \$19 to \$21.

At present prices of cotton and cottonseed, no grower can not afford to lose the one bale out of seven which insects normally steal.

Local Ladies Leave Monday On Conducted Tour

Mrs. T. G. Bengel and Mrs. W. P. Farrington left last Monday on a conducted tour which will carry them to many interesting points in the United States and Alaska.

This is one of Fred Haskett's conducted tours to Alaska, and the local ladies joined the tour train at Wichita Falls Monday afternoon. During the month's tour, they will visit such points as Salt Lake City, Utah, the Yellowstone National Park, Seattle Washington, Victoria and Vancouver.

At Seattle they will take a boat to Alaska and will spend eleven days in that territory, visiting ports and points of interest, returning to Seattle on August 15.

Upon their return, they will be Mr. Haskett's guests at a dinner at the foot of beautiful Mount Ranier. There are thirty people in the party making this month's tour.

Interest Grows In Revival At Baptist Church

Dr. Joe W. Burton of Nashville, Tenn., arrived here Wednesday and preached his first sermon in the local Baptist revival Wednesday night. Car trouble prevented Dr. Burton's arriving earlier.

"Dr. Burton preached one of the greatest sermons Wednesday night I've ever heard," Rev. Albertson, pastor, said, "and we are assured of more soul-stirring sermons during the remainder of the meeting. We cordially invite you to attend the services, and we earnestly solicit your prayers and co-operation during the revival."

Interest in the revival is increasing with every service. Crowds are growing larger with every service, and a great meeting is expected during the next ten days.

Rev. Albertson did the preaching until Dr. Burton arrived Wednesday.

Dr. Burton has announced a special service for men's next Sunday afternoon at three-thirty o'clock. The evangelist will have a sermon of special interest to all men of the community.

Arthur Nelson, who is conducting the choral singing, is rendering some very enjoyable numbers on his vibra-harp at the services, and is doing an excellent job with the choir. Mr. Nelson is also an inspirational soloist, and you will enjoy his numbers.

Morning services are held at 10 o'clock each morning except Saturdays. Night services are at eight o'clock. Morning services are held in the air-conditioned building, while night services are held in the open. Pre-services for young people and juniors are held at seven o'clock each evening.

All people of this area, regardless of church affiliation, are cordially invited to attend each and every service.

Encampment For Club Boys Slated August 7-8-9

A group of Knox County 4-H boys will participate in the District 3 4-H Encampment to be held at Camp Perkins Reservation near Wichita Falls on August 7, 8, and 9. Boys from twenty counties of northwest central Texas, selected on a merit basis, assembled at the camp to join in the planned activities. These activities will this year include swimming in a constant flow, spring-fed pool, competition in softball, competition in horseshoes and washers, and participation in marksmanship with the cal. 22 rifle. Selected boys will leave on the afternoon of the seventh to arrive at Camp around 2:30 p. m.

The Knox County Camp, scheduled to be held last week, had to be postponed because of a report from the Seymour Park at the last minute that it would be too wet to sleep out. Plans have been made to have the camp on August 14 and 15.

Floyd Patton spent last week in the veterans' hospital at McKinney for a check up on a spinal injury he received while serving in the U. S. Air Force.

THE PRESIDENT'S MOTHER

The little towns and backwoods country communities of America are full of old ladies like Martha Truman. They come from pioneer stock and they were brought up in Christian homes where family prayers were as much a part of the household activities as eating and sleeping.

They never heard a child psychologist, "progressive" education or Sigmund Freud but they managed somehow to bring up their children to be decent, lawabiding and God-fearing—and if there is any important job on earth than that, we hadn't heard of it.

Mrs. Truman's boy Harry happens to be President of the United States; the most important job in the world; but to his 94-year-old mother he was still just a boy.

"Harry, you behave yourself!" she was accustomed to admonish him, at the moment of parting, for all the world like mothers of boys down through the centuries.

Harry Truman's devotion to and respect for his mother is one of his most endearing traits. In a time when too many children show an indecent haste to shove their parents off on somebody else, or let them eke out a threadbare and lonely existence on a public pension, Harry Truman's concern for his mother's happiness and welfare, his willingness to risk his neck time after time to be at her bedside, have been an inspiration and an example to us all.

Undoubtedly Harry Truman got most of his courage from his mother. The little old lady had plenty of the stuff. She had character and determination and grit. These attributes are not necessarily inborn, but rather they are the products of environment and training.

The people of this country mourn with President Truman the loss of his truest friend, his most sincere critic, and his most unselfish admirer and supporter. He was lucky, luck man to have had her in his corner when he tackled the toughest job in the world, at the toughest moment in human history.—Abilene Reporter-News.

Gordon K. Creighton of the National Retail Dry Goods Association recently observed that one of the jobs of retailers is to emphasize the merits of the American free enterprise system to the people.

Stores represent the closest contact millions of people have with American business. Last year, the nation spent \$127,000,000,000 for goods and services—and \$96,000,000,000 of this amount was spent in stores of one kind or another. We turn to the retailer for our needs as naturally as we turn to a faucet for water.

Furthermore, American retailing in all its branches is a perfect example of the competitive system at work. This is true of chains, independents and all other types of merchandise outlets. Every kind of merchant is seeking new ways to attract trade—and to offer lower prices, better qualities, larger stocks and improved services.

TEARS ILLUMINED WITH GLORY

Martha Truman's pride and belief in her son, Harry, and his affection for and devotion to her have warmed the hearts of all Americans and people everywhere.

The eminence of the son and the age of the mother have brought nationwide and even worldwide attention to their tender, true, wholesome and inspiring relationship but this eminence was not needed to create it. We can be certain that it sprang with the material instinct and grew through the long years while Martha Truman worked and struggled as a farmer's wife and the son worked along fortune's uncertain course.

Martha Truman was not surprised when success and fame came to her son and he was elevated to the highest office in the land. She knew all along that he was worthy and that if honors came to him they were merited. And she was glad only that others recognized what she knew. And Harry Truman's deep affection for his mother was a constant spur to honor and achievement.

And now at last all things in this life have been fulfilled for Martha Truman and the cord is broken. Of course there are tears at Grandview, Missouri but they are illuminated by a glory that sheds a light wherever the story of Martha Truman and her son is known.

And an inspiring thought is that unnumbered host of mothers with the glorious attributes of Martha Truman are left to inspire and bless their sons.—Wichita Daily Times.

MARTHA TRUMAN

In a man's life of tragedies and blessings, nothing is finer than a mother's love. It is a never severed. His health can fail, his possessions be lost, his friends forsake. But mother awaits with a loving heart.

Harry Truman must be thinking back many years today. Back to a happy Missouri boyhood when he first remembered a mother who cared and was always home with sympathetic affection. This is the memory we all have of the mother who bore us, the kindly smile, the bandage she placed on the wound, the admonition to make our works good and follow the right path.

It is a magnificent relationship, mother and son, particularly when the son reciprocates the love. Too often a boy, growing into manhood, becomes negligent. His letters and visits become less numerous, his attention less of the real affection she deserves.

It will be to the everlasting credit of Harry Truman that he never forgot his mother, now dead at 94. No affair of state could prevent his return to Grandview. She was a fine mother; he is a good son. In this poignant personal hour every man can sympathize. For Harry Truman President of the United States, is a boy who has lost his mother.—Dallas Morning News.

Effect Of Underinflation On Mileage Life Of Tires

*Recommended Air Pressures vary according to the size of the tire and weight of car. 25 lbs. is used for illustrative purposes. For greatest comfort, safety and mileage, the inflation pressures recommended by automobile manufacturers should be used by car owners.

Underinflated tires are responsible for more wasted tread rubber than is any other single cause. To assist motorists in conservation of rubber during increased summer driving, tire development engineers of The Firestone Tire and Rubber Company have compiled the above data to show that maximum wear can only be assured when tires are kept properly inflated at all times. If a tire with 30 pounds of recommended pressure is run at 27 pounds pressure (10 per cent underinflation), almost one-fourth of normal tread mileage is sacrificed. A flat tire that is 9 pounds underinflated wastes one-half of the tread rubber.

Kidneys Must Work Well-
For You To Feel Well
24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system sags when kidneys fail to function properly.
Burning, stinging or too frequent urination sometimes warns that something is wrong. You may suffer nagging back- aches, headaches, dizziness, rheumatic pains, getting up at night, swelling.
Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

From where I sit... by Joe Marsh
Jane Cupper's "Daring" Bathing Suit
The Cuppers showed me some tin-types of their nineteen-ten vacation—picnicking on the beach with beer and pretzels, in bathing suits that made them look like they were dressed in street-wear.
Dee was smothered in a long-sleeved pull-over with knee length shorts, and looking embarrassed—as if he thought Jane's costume of a heavy blouse, two copious skirts, and long black stockings was a little daring.
We laughed a lot at those costumes... but come to think of it,
as Dee says, we'll probably look just as funny twenty years from now. In what we call our "Modern" clothes. Only thing that won't change in the picture is that mellow, wholesome glass of beer.
From where I sit, tolerance that lets us wear sensible, decent clothes—to give us sun and air and freedom—will keep that wholesome glass of beer a part of the American tradition.

Everybody Welcome

Daily Vacation Bible School held at 2:00 p. m. each afternoon. All children are welcome.

More than 17,000 government checks to Texas veterans were returned in the period January, through May because of faulty addresses, the Veterans Administration reported this week.

Although this was only one percent of the 1,739,733 issued in Texas during that time, VA emphasized the hardships caused many veterans and the additional work load resulting from the returns.

Principal cause of the returns was veterans moving and failing to give the VA a notice of change of address. In all such cases, VA must verify correct addresses before the checks can be remailed.

Most negligent in notifying VA of changes of address were World War II veterans taking on-the-job training or going to school. More than 60 per cent of the returns were subsistence payments.

As a result of the study, VA has made some administrative changes which it is expected will help eliminate some of the returns.

But the principal factor in eliminating returned checks still is the veteran, himself, VA said. Veterans must keep paying offices advised of their correct and current address to receive prompt and efficient service.

Veterans Administration services for amputees, the blind and other physically-handicapped veterans will be brought closer to their home towns through prosthetic appliance units in each of VA's 13 branch offices and 66 regional offices.

A. If you have other than an honorable discharge, you may request Veterans Administration to review the circumstances under which it was issued. If it is found that your discharge was issued under conditions other than dishonorable, you will be eligible for benefits under the Servicemen's Readjustment Act (G. I. Bill).

Q. I am an American Indian and a World War II veteran. Am I eligible for a G. I. Loan?

A. Yes, but it must be on property you own or plan to own outside the reservation. You cannot secure a G. I. loan to build a home on tribal land.

Q. Will Veterans Administration accept collect telephone calls made by physicians who wish to ascertain whether they will be paid for emergency treatments given veterans?

A. Yes.

Q. I am a World War I veteran and I was married in June, 1945. Is my wife entitled to receive a pension when I die?

A. A widow of a World War I veteran is entitled to receive a pension if she was married to the veteran before Dec. 14, 1944, or for 10 years or more. Consequently, your wife would not be eligible for pension if you died less than 10 years after your marriage.

Good Farm Equipment Helps Save Crops

RACINE, WIS.—Record rains throughout the middle west threaten a shortage of fresh vegetables, plus loss of hundreds of thousands of dollars in other crops to farmers two to five weeks behind in planting. W. H. Ebling, Wisconsin agricultural statistician, C. J. Brown of Michigan, Leslie Carl of Iowa and Lloyd Cutler of Indiana, report crops from 5 to 75 per cent late in planting. Ebling added a cheerful note, however, saying in view of the bad weather and delays, that Wisconsin fields look surprisingly good. He attributed it to good farm equipment, which enabled farmers to get a lot accomplished in the rare instances of good weather.

in the 79 offices and that all will be in operation within the next 30 days.

The service is designed to simplify the purchase of prosthetic devices for veterans and to eliminate much red tape in present procedures.

Trained VA employees in each office will give disabled veterans the latest authentic information on new inventions and other developments in artificial arms and legs, hearing aids, aids for the blind, cosmetic hands and ears, plastic eyes, and other devices to assist the physically handicapped.

Disabled veterans also will receive technical advice and counsel in their choice of artificial limbs and other aids. The units will maintain close liaison with manufacturers of prosthetic appliances to insure that eligible veterans receive the best aids on the market.

A Statement To Our Customers About Resale

PRICES of PRODUCTS

Built by International Harvester Company

Here at Harvester we are concerned over the fact that a growing number of our products are appearing on the resale market at greatly inflated prices.

As manufacturers, we try to produce at the lowest possible cost. We cannot set the prices at which our products—tractors, motor trucks, farm implements, refrigeration, and industrial power equipment—are sold. We can and do suggest list prices which the great majority of our dealers adopt as their retail prices.

\$20,000,000 Price Reduction

Our basic price policy was publicly stated in March, 1947, when we announced price reductions at the rate of approximately \$20,000,000 per year on our products. At that time, Fowler McCormick, Chairman of the Board, said: "ANY PRICE IS TOO HIGH IF IT CAN BE REDUCED."

Practically all of our dealers cooperated with this policy and passed on the savings to their customers.

The objective of the price reductions was to make it possible for customers to buy our products, which they need so badly, at lower prices. Naturally, this purpose is defeated when our products are sold by anybody at inflated prices.

IH Production at All-Time Peak
 Inflated prices are caused by

the difference between supply and demand. To increase supply, we now have the greatest number of employees in history on our payrolls—almost 90,000 in the United States, as against about 60,000 prewar. Large new plants are getting into production in Louisville, Evansville, and Melrose Park. A fourth will soon be in operation in Memphis. The men and women now employed are turning out the greatest quantities of IH products of all kinds that we have ever made. These are also the finest products we have ever made, and recognition of that fact is an important contributing factor to the demand for them.

Distribution to Dealers

But even record-breaking production is not sufficient to give your dealer—and other IH dealers—enough products to meet today's demand. We have tried to make the fairest possible geographical allocation of our products so that every dealer would get a fair share, and we know that dealers, in most cases, have tried earnestly to make the fairest possible distribution to their customers.

But we also know that many of our products—far too many—are being resold at inflated prices. The public criticism and resentment of these resales are of real concern to us, as we know they must be to our dealers, because such reactions en-

danger the good will of both the dealer and the Company in our community.

Distribution to Customers

Experience shows that many IH new products are being resold by users who decide they can continue to make out with their old equipment after they have had an inflated offer for their new equipment. To eliminate this, many dealers are taking measures to be sure that equipment purchased is for their customers' own use and is not to be resold.

Nearly all IH dealers, we believe, are now using the basis of PRESENT NEED as their primary guide for the sale of scarce products. The customer whose need is real and urgent is not likely to resell.

What Price Should You Pay?

While it may take a little more time to get delivery, we urge our customers to consider all of the factors mentioned here, before paying more than the list price for any IH product. Any IH dealer or branch can furnish the suggested list price for any IH product.

We know that the overwhelming majority of IH dealers are as much opposed to inflated prices as we are. In the public interest, we have already asked their cooperation—and are now asking the cooperation of customers—in correcting this situation.

HELP BUILD AMERICA'S AIR POWER

on AIR FORCE DAY, AUGUST 1ST

No one today questions the fact that the whole future of the United States may rest in the very clouds over your head. And the new, reorganized Air Forces give thousands of eligible young men an opportunity to take an active part in building America's air power . . . on the ground as well as in the sky.

You may, for example, enlist in the Air Forces for three years. If you have a specialty which will qualify you, you may also be able to enlist in a grade at higher pay.

If you have had Air Forces experience, you may join the Air Reserve and continue your military aviation training outside of business hours.

Or, you may join the Air National Guard and perhaps become eligible for advanced technical training at special Air National Guard schools.

On Air Force Day, make a point of finding out everything about your Air Forces—especially the new Aviation Career Plan described below. Full details can be obtained at your U. S. Army Recruiting Station.

NOW—THE WORLD'S GREATEST OPPORTUNITY FOR A CAREER IN AVIATION

Today the Army Air Forces offer high school graduates an unprecedented opportunity to get the finest aviation schooling on earth—and select your school or course before you enlist.

The AAF Career Plan is unlike anything ever offered before. It permits selected high school graduates to apply and qualify for AAF specialized courses of their own choice. Simply go to your U. S. Army Recruiting Station, advise the Recruiting Officer the kind of aviation training you want and he will provide you with an application blank and a complete list of available courses.

When you are selected to attend the course of your choice, you enlist in the Army Air Forces for 3, 4 or 5 years. After your basic training period you are guaranteed the education you have selected to make you a specialist in the type of work you want.

Get a list of all the schools and courses open to you under the AAF Aviation Career Plan at your U. S. Army Recruiting Station.

Stevens Hosts To Eighty-Four Party Thursday Night

Mr. and Mrs. J. B. Stevens entertained with a picnic supper and eighty-four party last Thursday evening. The picnic supper was spread on the beautiful lawn of West Texas Cotton Oil Company property. Fried chicken, pies, salads, etc., were furnished by the guests, each couple bringing a covered dish.

Due to the high wind which came up while the group was eating, the tables were moved into the office building for games of eighty-four.

Enjoying this hospitality were the following:
Mr. and Mrs. Jim Reeves, Mr. and Mrs. J. D. Crockett, Mr. and Mrs. W. E. Braly, Mr. and Mrs. C. P. Elliott, Mr. and Mrs. Arthur Mitchell, Mr. and Mrs. W. R. Mac Haymes And Carrie Neal Russell Marry July 24th

A wedding of interest to many local people was that of Mac Haymes, son of Mr. and Mrs. Lee Haymes of Munday, and Miss Carrie Neal Russell, daughter of Mr. and Mrs. Tom Russell of Vera.

The ceremony uniting this popular young couple was held in the home of the bride's parents at Vera at 6 p. m. Thursday, July 24, with Rev. Don Davidson, pastor of the Munday Methodist church officiating. For the ceremony they stood before an improvised altar which was beautifully decorated in lovely arrangements of flowers.

Mrs. Haymes is a graduate of Seymour high school and attended North Texas State Teachers College in Denton. She has been teaching in the Knox City public schools for the past few years.

Mr. Haymes was reared in Munday and is a graduate of the Munday school. He spent four years in the U. S. Coast Guard, and upon his discharge he became interested in and operated the Goodyear store in Knox City until it was sold on July 15.

The couple left after ceremony for a short wedding trip to Fort Worth, Arlington and other points. Mr. Haymes plans to enter school this fall, continuing his education under the G. I. Bill.

Mrs. Bill Randles, sister of the bride, was bridesmaid, while Lamoine Blacklock of Munday served as best man. Candles were lighted by Mrs. Lamoine Blacklock and Mr. Randles.

Engagement Of Miss Jeanne Davis Is Announced

Mrs. Jo Mae Davis of Munday has announced the engagement and approaching marriage of her daughter, Miss Jeanne Davis, to Mr. Bill Brown, son of Mr. and Mrs. Mack Brown 2118 North 6th Street, Abilene.

The wedding will be an event of August 26, at the Church of Christ in Munday.

Miss Davis is a graduate of Munday High School and has been attending Abilene Christian College, Abilene, for the past two years.

Mrs. Ruth Searcey and Wayne and Marilyn have returned from a three weeks' vacation trip to Carlsbad Caverns and points in Colorado. On their return they visited relatives in Dallas. They accompanied Mr. and Mrs. A. C. Womble of Dallas on the trip.

Mr. and Mrs. O. N. Smith of Shawnee, Okla., spent the week end with Mr. Smith's parents, Mr. and Mrs. C. N. Smith, and other relatives.

ELEGANT ATTIRE

There's elegance in this beige chambray coat dress to meet the demands of any afternoon or evening event. The dress skirt is cut with a front flare for added smartness. Outfits like this one cater to the increasing demand among women for street-wear cottons, the National Cotton Council reports.

Martin Reunion Held At Goree

A reunion and home coming of the A. L. Martin family was observed last week at the family home in Goree. Among those present were the following:

Mrs. Elmore Harman and daughter, Mrs. Elmore Mitchell and little daughters, Sherry and Carol, Duncan, Okla.; Mrs. Grace Perkinson, Little Rock, Ark.; Mrs. C. O. Layne and daughters, Frances and Mary Aleta, Pecos; Mrs. Ralph Martin, Abilene, and Ray Martin and family of Goree.

Ike Huskinson of Wichita Falls visited relatives and friends here over the week end.

Miss Flora Alice Haymes visited with friends in Big Springs over the week end.

Driver of the car in the ditch failed to yield the right-of-way, even to an ambulance. He ran through a plainly visible stop sign, directly into the path of the ambulance, and was knocked across the road. Driver was killed, and a passenger was injured. Emergency vehicles always have the right-of-way—but at other times, too, it pays to be courteous at intersections. Failure to grant right-of-way ranked second as a cause of motor vehicle deaths in 1946. National Conservation Bureau advises: when in doubt, always yield the right-of-way.

Open House Held In Justice Home

On Thursday evening, Mr. and Mrs. J. B. Justice held open house in their attractive new six-room home in Goree.

Hostesses for the delightful affair were Meses. Caldwell, Glasgow, Arnold, Price, Vaughn, Mayo, Lunningham and Blankenship.

Approximately sixty guests registered for this happy occasion, and Mr. and Mrs. Justice received many lovely and useful gifts, attesting to the love and esteem which the community hold for this fine couple.

Miss Mattie Sue Howell of Lubbock, youth director of the Northwest Texas Conference, spent last Sunday and Sunday night with her uncle and aunt, Mr. and Mrs. T. C. Merrill. She was enroute to Buffalo Gap for a meeting of Methodist young people.

PROPER BOLL WEEVIL CONTROL MEASURES can save farmers of the Cotton Belt up to \$100,000,000 this season, the National Cotton Council states. Regular checks on infestation, and application of calcium arsenate poisons when needed, are recommended procedure for meeting the boll weevil threat. County agricultural agents, vocational agriculture instructors and state entomologists can provide detailed information on controls for this locality.

Visited Oklahoma City recently to make a speech, first time I've ever spoken in Oklahoma. Upon arriving, I saw billows of black smoke—a big fire was in progress in the center of the business district.

Next morning, I was awakened by a heavy clap of thunder. The Oklahoma City weatherman had predicted "No Rain", so all the weather did was present an electric storm, whip up a 59-mile an hour wind that flattened some temporary buildings and pour down three inches of rain in a couple of hours. In fact, the weatherman missed so badly, I thought I was back in Texas.

The visitor was made to feel like a "visiting fireman" for Fire Chief McAlpine took me for a tour of the city. Half a mile before you get to the Capitol, there is a row of oil wells on State-owned land. The derrick of the last one is a hundred yards or so from the Capitol but the hole was so curved by directional drilling that the bottom is under the Capitol.

In front of that structure is an immense flight of steps. You climb it and then, before you can break into a smile of triumph there is an even more immense flight of steps in front of you. You climb that—and discover that you are on the third floor of the building! The Capitol is a very impressive

HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

It was stated through an error last week that the meeting at Friendship Baptist church would begin August 15. The meeting will begin August 22 and close August 31. The services will be conducted by Rev. Harvey W. Graham of Harlingen, Texas.

Miss Gloria Murdock returned a few days ago from Denton county, where she visited a college girl friend.

Messrs. Hamp Jones, Dibriel Jones and D. B. Jones were called to Crowell this week, when their oldest brother, B. Jones, was very sick. Another brother, Will Jones, also lives at Crowell.

Several from here attended the Baptist meeting that is in progress at Goree.

Elder R. Guthrie and wife have been attending the Baptist meeting at Goree.

L. L. Hendrix of Lubbock was a visitor here the first of this week.

A Want Ad In The Times Pays

Activities Of The Colored People

Service will be held at the Church of God in Christ, with Pastor C. Robinson doing the preaching. Everyone is invited.

Rev. and Mrs. S. L. Sanders attended the service last week end at Knox City. Rv. J. W. Williams is pastor.

M. W. Wilson returned several days ago from Wolfe City, where he attended his mother's funeral. His niece from Wolfe City spent several days here.

Mr. and Mrs. Buddie Garrett of Abilene spent Sunday in the home of Mr. and Mrs. Roy Scott.

Mrs. Aline Johnson spent the week end in Farmersville and met lots of old friends and had an enjoyable time in the home of Mrs. Roy Phillips and Mrs. C. Carlie, Mrs. Hall, and visited lots of friends.

IT PAYS TO ADVERTISE

Mrs. Walter Patton has returned home from a visit with her 25-year old mother, Mrs. W. P. Phillips of Fort Worth, and with her daughter, Mrs. Norine Arnold of Arlington.

Mrs. G. R. Eiland and Mrs. D. E. Holder spent several days in Dalhart over the week end, visiting in the home of Mr. and Mrs. C. H. Giddings, former residents of Munday.

BOYCE HOUSE
"Gives You Texas"

While in a South Texas town recently, I was told that an argument arose at a ladies' bridge club as to whether when after one cuts the cards they are dealt, the one making the cut should put the two stacks back together. So (according to the story) they decided to write to a famous bridge expert. He replied that, while there was no actual rule, it was courtesy for the one cutting the cards to put the two stacks together.

With that, the ladies though the matter closed. But not quite, for at the end of the month here came a bill for \$30 from the expert. The club members consulted an attorney in their town to learn whether they had to pay the \$30 and he advised them that they did as the man they had consulted was an expert in the field of bridge rules and that such advice was the way he earned his living. So they paid him the \$30.

Then at the end of that month came a bill to the club for \$10 from the lawyer!

Which reminds me of Mr. Goldberg. His friend, an attorney, said, "you look worried."

"Yes," he explained, "I have a chance to get over a big deal but there is an obstacle." He proceeded to describe the situation, whereupon the lawyer told him how the difficulty could be surmounted.

Goldberg made the deal, with a profit of several thousand dollars. Soon after, he received a bill from the attorney for \$500 for professional advice. The bill was paid.

A week or so later, the businessman was walking along when he met the lawyer and said, "It's a fine day, isn't it?" Then before the attorney could reply, Mr. Goldberg hastened to add, "Remember: I'm telling you, not asking you!"

KRAUSE discs are self-sharpening

Hardfaced, self-sharpening disc blades are now available for your present Krause One-Way. A hard facing alloy, which resists wear, is scientifically applied to the inside edge of the blade. The new Krause self-sharpening disc gives you clean cutting the entire season.

Abrasive action of the soil on the alloy hardfaced cutting edge keeps the blade sharp. Outlasts three to five ordinary blades. For easier plowing with fewer repairs use Krause self-sharpening disc blades and the new Krause Timken disc bearings. More plowing with less power. See your Krause dealer or write direct.

BOLL WEEVILS WILL STEAL 75,000 new automobiles—or their cotton cash equivalent—from Cotton Belt farmers this season unless the farmer uses every possible control measure to combat the pest. Recommendations that farmers in this area consult their county agent, vocational agriculture instructor, or state entomologist for controls most effective locally, the National Cotton Council says that failure to fight the weevil properly will reduce the value of the cotton crop more than \$100,000,000.

Dunkle Thinks Vetch Adapted To Knox County

Noticing a recent article in the Monday Times about hairy vetch in Wilbarger county, R. O. Dunkle of Graham, former county agent of Knox county, sent us an article of vetch in Young county, where he is serving as county agent. "I think this crop would be

good in Knox county," he said. The article follows:

A most unique demonstration in progressive agriculture in Young county was brought to light when J. B. Fore, Jr., of lower Tonk Valley, 10 miles south of Graham, harvested 30 acres of hairy vetch. The vetch was seeded in October, 1946, after 200 pounds of 20 percent super phosphate per acre has been applied.

J. B. harvested 8,040 pounds of clean vetch seed from the 30 acres, and he is enthusiastic as to the possibilities of this winter legume and the use of super phosphate in a soil building program for his farm in Young county. A portion of the acreage planted in vetch was put into cultivation by the Tonkawa Indians before their removal from this area approximately 90 years ago, and has been in continuous cultivation since that time. The land is Brazos river sandy soil, and for many years yields of any crops were below cost of production.

This year when planted in vetch, the gross returns from the 30 acres was \$1,698.60, \$1,608 of which was from vetch.

Fore, who says little and does much, has convinced himself of the benefits that he received to such an extent that he plans to plant 200 acres in vetch this fall. He expects to grow feed in 1948 on the 30 acres from which the vetch was produced in 1947. In addition to the above proceeds, J. B. grazed 25 head of cattle on the 30 acres without supplement feed for a period of 120 days. This, he thinks, will enable him to materially increase his livestock enterprise along with his other farming operations. These figures may be verified by anyone who is sufficiently interested to see Mr. J. B. Fore, Jr.

J. B., a veteran of World War II, returned to the farm upon his release from the service. In cooperation with the P. M. A., the Extension Service and other agencies, he began immediately to put into use better farm practices with the above results indicated.

Frozen Lockers Make Fried Chicken A Winter Treat

Fried chicken can be a year round food for the family table if some of them are saved for the freezer locker, Gwendolyn Jones, food preservation specialist for the A. and M. Extension Service, suggests.

She says the young birds are best for fried chicken and getting them ready for freezing is the same as for eating. But, it is easy to pick the chicken if it's dipped into a semi-scalding water for half a minute. This means the water should be about 128 degrees.

Suggestions on freezing include cutting up the chicken into pieces exactly as you would cut them for frying. The next step is to cool the pieces and pack into moisture, vapor-proof containers or wrapping paper. Put the amount needed for each meal into a package. Make the package as air-tight as possible.

Freeze quickly, and store at zero degrees or lower. If the home freezer is used, the chicken may be killed in the afternoon and frozen that night. If a commercial freezer locker is used, the chicken may

Who Owns Business?

By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

"WHO OWNS American corporations?" That was the lead sentence of an Associated Press story released the other day. Point of this story was that the people own business. Stockholders of five big companies in representative fields added together number 1,684,868, or enough people to make the fourth largest city of the United States. That is correct, the people do own our corporations. It is right for people to own our business.

I have often contended that in America you have the people owning the wealth and resources of a nation in much more direct and complete manner than you could ever have under any of the socialistic dream Utopias. This is the straight answer to the Communist dodge that the people are the state, to which must be added the fact that in totalitarian countries the state owns the people. In America the people, in a very real way, own the wealth and resources of the nation.

"Vested" IF YOU WERE TO combine the populations of Nevada, Wyoming, and Delaware, according to the Associated Press story, you would still not have as many people as own the American Telephone and Telegraph Company. A city composed of the 700,000 A T & T stockholders would be the tenth largest in the country. Moreover, it is significant that this corporation's stockholders far outrank in number its 500,000 workers.

This is generally true of American corporations, and when you add the stockholders to the employees, you strengthen your picture of America as a place where the masses have "vested" interests in the wealth of the nation. The stockholders of the richest

railroad in the land, the Pennsylvania, outnumber the employees almost four to three. They live in every state of the union, and on the average own 60 shares, representing an individual investment of about \$1,200.

Economic WE THINK of General Motors, biggest automobile manufacturer, as having a lot of employees. Yet, except for a brief period at the peak of armament work during the war, General Motors' stockholders have outnumbered employees for 17 years. More than a third of General Motors' individual stockholders have holdings of 10 shares or fewer. No single person owns more than 1.5 per cent of all General Motors stock.

While it is remembered that sometimes large blocks of stock will be owned by other companies, it must be kept in mind that these companies in turn have many stockholders. Notable also is the fact that many educational, charitable, and religious institutions, as well as non-profit associations and foundations, are on the rolls of "big" business. No one knows just how many persons may be dependent upon the successful operations of our corporations. In the truest sense, all of us are, either directly or indirectly.

Most of the nation's wealth has its source in the enterprise of a carefully conducted business. I cannot imagine why any free American would wish to trade what we have in this country for any part of the vague economic systems that have produced only failure. Not only have these other systems failed to produce real blessings for their people, in the form of higher living standards, but they have brought slavery instead of economic freedom.

Rural Carriers To Be Honored At State Fair Oct. 5

The rural letter carrier—the man who moves through ice and snow in winter and the sweltering heat of summer to deliver mail to even the most isolated sections—will be honored this year by the State Fair of Texas.

W. H. Hitzelberger, executive vice president and general manager of the State Fair, announced that Oct. 5 had been set aside on the Fair's calendar as Rural Letter Carrier's Day.

"It is a privilege to honor this group," Mr. Hitzelberger said, "for their unflinching faithful service to the citizens of Texas."

Arrangements for the day are being made with Aran T. Gray of Florence, Tex., president of the Texas Rural Letter Carriers' Association, and Bun Raley of Valley Mills, Tex., editor of the organization's official organ, "The Texas Carrier." A special program is to be planned.

Miss Dixie Atkinson, who has been employed in Lubbock, came in last week for a visit with her parents, Mr. and Mrs. R. D. Atkinson.

Texas Cattle Being Tested For Bangs Disease

All Texas cattle that are tested for Bang's disease and found infected must be branded on the left jaw with the letter "B" and reported to the Texas Livestock Sanitary Commission, to conform with House Bill 525, recently made law by the State Legislature.

Dr. E. A. Grist, veterinarian of the Texas A. and M. College Extension Service, explains that it is now the duty of the veterinarians who do Bang's testing to place the brand on cows that react positively to the disease. A penalty will be fixed upon any person who refuses to allow the branding, or who sells or disposes of cattle for milk purposes when he knows them to be infected.

The branding of Bang's-infected cows will enable better control of the disease, says Doctor Grist, since control measures must be planned on the basis of individual

herd problems. In the fiscal year, September 1944 to August 1945, 133,891 head of cattle were tested for Bang's disease in Texas, with 9,435 showing up infected. Many of those reacting cattle probably found their way into other herds, says Doctor Grist. The requirements of the branding law will help hold down the spread of the disease.

Mr. and Mrs. H. A. Pendleton visited with relatives in Farmersville over the week end.

The driver of this car disregarded a plainly marked warning sign and crossed the tracks directly into the path of a passenger train. His machine was swept up like a leaf and raked over the tracks. The driver and two occupants were killed. Signs, lights and bells are placed at crossings for the protection of motorists. Yet 2,000 were killed last year, and 70,000 injured, because they did not trouble to stop, look both ways, and listen for the warning whistle.

Improvement To Farm Transportation Problems Seen In Farm-Market Roads

Austin—Reviewing the activities of the Texas Highway Department now entering its 30th year as the state's road building agency, Commission Chairman John S. Redditt reported paved mileage on the state system had more than quadrupled since it was first accurately measured in 1929.

The endless struggle to build new roads as fast as traffic demand increased has shoved the 19-29 paved mileage of 6,061 up to 25,734 miles on July 1, with more being added every day.

"This still isn't enough," Redditt declared. "The blight of congestion and hazards to safety on many sections of these paved roads render them inadequate to handle the heavy traffic using them."

He expressed confidence that the Commission's recent expanded policy for building farm-to-market roads on a cooperative basis with counties, together with the current federal aid program, would result in substantial improvements to the state's farm transportation problem.

The total investment in the state road network stood at \$934,197, \$11.55 on July 1, Redditt announced. This includes all expenditures made under the supervision of the Texas Highway Department since it was created thirty years ago.

"It has been a good investment," he said. "I doubt if any other similar expenditures of public funds has done so much good for as many people."

The Chairman paid tribute to the thousands of employees who had built the organization into one of the top road building agencies of the nation.

Of the 7,663 employees on the payroll today, 2,278 have been with us for ten years or more, while 100 have served the department 25 years or more. Only one has completed 30 years of service, but two others are approaching the 30 year mark.

"This organization has made it possible for Texas to maintain its place at the top among the states of the nation in carrying out a vast postwar construction program. Today work is progressing on contracts in excess of \$77,000,000, a volume that has never before been reached in the Department's history."

Knox Prairie Philosopher Wants A Law Passed Controlling Changes In Length of Women's Skirts

Editor's Note: The Knox Prairie Philosopher on his Johnson Grass farm on Miller Creek is treading on dangerous ground, but it's his worry not ours.

Dear editor:

Last night I was readin in a catalog, sort of idly turnin the pages notice what new labor-savin devices had been invented in case a man decided to do some actual farmin occasionally, when I accidentally got over in the women's section and my worst fears has been confirmed.

For some time now I been notice in the newspapers which drift by out here on Miller Creek or that I borrow out of my neighbor's mail box that women's skirts is gettin longer, but I hadn't paid no attention to it much, being busy thinkin about the United Nations, until I seen it in a genuine style authority like the catalog.

Now here's the situation, it just don't make a particle of difference to me what women wear or what they don't wear, it's the fluctuations that make a man boil over. Knee-length, ankle-length, calf-length, draggin the ground, it don't make any difference, but when the style authorities start switchin in the length, especially when they go from short to long, which is just their way of takin advantage of women and makin all last year's dresses out of style, then it hits a man's pocket book and something ought to be done about it. Imagine what it would be like if the length

of a man's trousers went up or down at the whim of some wax-mustached bird in Paris or New York.

I will appreciate you writin Congressman Ed Gossett and explain to him what it costs the average man to have a catalog come out sayin women's dresses is a foot longer this year than they was last. As I understand it, Congress has already took notice of fluctuation in other lines, for example the price of cotton can't fluctuate more than five dollars a bale in one day, and what I'd like to see is a law sayin the length of a women's skirts can't fluctuate more than two inches, or the length of a hem, in any one year.

Personally, I ain't never understood why cotton can be worth five dollars less today than it was yesterday, as there blamed sure was not no fluctuations in the amount of work it took to produce it, and I have often suspected somebody was fluctuatn the market himself, but when it comes to fluctuatn the styles, I know blamed well somebody is doin it for a selfish purpose and I hope you and Congress can get this law passed.

Yours faithfully, J. A.

Many Accidents In Kitchen Require Hospital Care

One of every five home accidents . . . those that cause injuries serious enough for hospital care, happens in the kitchen, Eugenia Butler, Knox County Home Demonstration Agent, reports that these figures come from the National Safety Council.

Especially during canning season . . . the kitchen is the busiest room in the home, and the most dangerous. The accidents aren't just because the equipment is poor. Carelessness more often causes those burns.

Simple things to do to prevent so many burns are: Lift the lid of the pan so that the steam doesn't

come towards you; turn handles on the pots and pans so they don't hang over the edge of the stove to be knocked off; use pot holders that are thick and dry, and jar "tongs" when lifting jars or cans from the cooker.

Safety advisers agree that the kitchen is not the safest place for children to play, unless they can have a far corner away from the stove.

The week of July 20-26 has been set aside as National Farm Safety Week, and has been so proclaimed in Texas by Governor Jester. During this appropriate time, let us all give more consideration to doing our individual part in extending National Safety Week throughout the rest of the year.

Uncashed Checks To Veterans To Be Cancelled Aug. 1st

Uncashed readjustment allowance checks, outstanding six months or more, will be cancelled August 1. W. C. Albright, Manager of the Texas Unemployment Commission today warned veterans in the Munday area. Veterans' checks for both unemployment and self-employment will be affected by this new order.

The Commission administers Title V of the G. I. Bill of Rights. Title V provides financial aid to unemployed and self-employed veterans.

Mr. Albright has just received notice from the State Office of the Commission in Austin that checks six months old or older will no longer be valid after the first of August. He suggested that all veterans having such checks in their possession immediately cash them.

He said there were no existing records showing how many checks were outstanding in particular localities but that throughout the State more than 2,000 warrants, unless cashed this month, would be affected by the Veterans Administration order.

The Commission is trying to give the veterans a break by giving them advance notice of the August

action. It is imperative, Albright explained, that veterans hold six-month-old checks cash them immediately.

Browning Practices Better Farming And Soil Conservation

C. C. Browning, located in conservation group No. 13, has added 2 1/2 miles more terrace lines to his conservation plan in accordance with the district program. Mr. Browning, a member of the Wichita Brazos Soil Conservation District Board of supervisors, realizes the importance of a coordinated conservation plan. In this realization, Mr. Browning has followed through with the practice of stubble mulching, seeding of clover and hairy vetch, contour cultivation and a system of terracing. A firm believer in hairy vetch, he plans to plant a considerable acreage this fall if seed are available.

Technicians of the Soil Conservation Service have also recently assisted several other cooperators in running terrace lines. Mr. M. L. Hughton, located in group No. 29 near Truscott, has run approximately 8 miles of lines. Norman D. Fitzgerald, whose land is located in group No. 4 near Benjamin is a new cooperator and to begin his plan, 10 miles of terrace lines have been run. He plans to follow through with a complete conservation program. C. A. Bullion, a cooperator in group No. 13, has added 1 mile of terrace lines to his plan. About 3/4 miles of lines for a diversion have been run for James T. Randolph, a cooperator in group No. 25. The purpose of this diversion is to turn outside water so that it will not damage the farm.

Mr. and Mrs. K. G. Homer and Mr. and Mrs. Philip Homer visited with relatives in Groom, Texas, the latter part of last week.

Farm-Wife An Ace In Emergency

Hours after the sun has set, Mrs. Clarence Burkhart, Perrysburg, Ohio, drives her husband's civilian Jeep while towing a rotary hoe on their 225-acre farm here. Like other mid-west farmers, the Burkharts are working night and day to make a crop after being delayed for weeks by 71 days of rain since March 1.

AN ORDINANCE REGULATING THE KEEPING OF DOGS IN THE CITY OF MUNDAY; PROVIDING FOR A LICENSE AND TAX; PROVIDING FOR THE DISPOSAL OF ALL DOGS FOUND RUNNING AT LARGE NOT LICENSED AND VACCINATED; MAKING IT UNLAWFUL TO USE TAGS OR LICENSE ON ANY DOG NOT SPECIFICALLY ISSUED FOR; AND PROVIDING A PENALTY FOR THE VIOLATION OF THIS ORDINANCE.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF MUNDAY, TEXAS,

Section 1. Providing for Dog Tax and Vaccination: That there is hereby levied and assessed upon each dog, male or female, kept or owned within the City of Munday, Texas, and annual tax of \$1.50, which tax is to become due and payable on September 1, 1947, and each year thereafter on or before September 1.

Section 2. The Tax Collector of the City of Munday shall collect or have collected under his supervision all dog taxes, and shall account for such taxes to said City of Munday, as all other monies collected for said City.

Section 3. Upon the payment of said tax, the Tax Collector or his duly authorized agent or deputy shall furnish the owner or keeper of said dog or dogs with a tag on which is stamped the number of registration with the year for which tax is paid, which tag the owner or keeper shall attach to a collar securely fastened around the neck of said dog. In no event shall the Tax Collector or his duly authorized agent or deputy issue a license tag to any owner or keeper of a dog, male or female, unless and until such owner or keeper shall furnish a vaccination certificate issued by a licensed Veterinarian stating that such dog or dogs have been vaccinated against rabies by him.

Section 4. All dogs within the City of Munday, Texas, are hereby required to be vaccinated against rabies by some licensed veterinarian on or before September 1, 1947, and each year thereafter and it is further provided herein that every Veterinarian who vaccinates any dog, either male or female, within the City of Munday, Texas, shall collect his fee for the same from the owner of the dog and shall issue a certificate of vaccination to such owner, stating the name of the owner, a brief description of the dog, the date of vaccination and the fee collected by him for same.

Whenever any person has complied with the provisions of the preceding sections and said dog tax is lost or otherwise destroyed, it shall be the duty of said owner or keeper of said dog to procure another tag from the Tax Collector of the City of Munday by paying the cost thereof that may have accrued therein.

Section 5. It shall be the duty of the Chief of Police or any other Police Officer of the City of Munday, when any dog is found running at large without any dog tag as herein above provided to dispose of said dog in some way. The Chief of Police or any Police Officer of the City of Munday shall have the right to shoot or kill any rabid dog or dogs and any dog or dogs in the streets which shall manifest a disposition to bite and also any dog or dogs caught running at large not having a collar and license tag attached thereto, and the license tag issued for such dog.

Section 6. That any person who shall wilfully take from any dog a collar or license tag shall be deemed guilty of a misdemeanor and upon conviction shall be fined in any sum not to exceed ten dollars.

Section 7. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be fined in any sum not exceeding one hundred dollars.

Passed and approved this the 17 day of July, 1947.

Attest:
W. R. Moore, Mayor.
Harvey Lee, City Secretary.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin—If your work is such that it causes excessive perspiration add a pinch of ordinary table salt to each drink of water you take, to prevent heat cramps. This is advised by Dr. Geo. W. Cox, State Health Officer, to prevent a possible increase in the number of heat victims as the Texas thermometer hits 95 degrees and above.

Laborers, mechanics, farmers, and white collar workers whose work causes them to sweat profusely, are in danger of having their body salt content become deficient with resulting heat cramps or heat fag. Salt is a prominent constituent of sweat; the body may lose as high as 40 or 50 grams of salt during hot days.

In industry, a method of preventing heat cramps is to take a tablet of pure salt or a mixture of salt and dextrose with each drink

of water. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

Heat cramps is characterized by pains (cramps) in the abdominal region, headache, and in severe cases, by nausea and vomiting. The body temperature remains about normal, likewise the pulse rate. Body salts losses occur without the knowledge of the individual until there is a deficiency; then the abdominal muscles begin to cramp.

Salt deficiency may be prevented by taking salt in various ways. Where prepared tablets are not

available, table salt may be added to each drink of water. Milk is a source of salt and will help to make up for the deficiency caused by sweating.

It is a wise precaution to keep the body supplied with salt, and thus avoid much possible suffering and loss of time from heat cramps.

Mr. and Mrs. E. C. Zeckser of Topeka, Kans., and Mr. and Mrs. Bill Brown of Dwight, Kans., are here for a visit with Mrs. Zeckser's and Mrs. Brown's parents, Mr. and Mrs. G. H. Bealy, and with other relatives and friends.

FARM EQUIPMENT

22
New Advantages
for
FASTER FARMING

We are proud to announce our appointment, effective July 1, 1947, as authorized dealer for the new Ford Tractor and Dearborn Implements.

The new Ford Tractor combines twenty-two important improvements with the former advantages of Ford-built tractors. Come in and get all the interesting details. Also, for parts and service on any Ford-built tractor, be sure to call on us.

Designed by expert implement engineers and tested by practical farmers, Dearborn Implements are especially made to work with the Ford Tractor—either the new or the former model. And implements used with the former model will operate equally well with the new Ford Tractor. Let us tell you about them.

Hazards On Farms Take Lives Of Many Rural People

College Station—One out of every ten farmers in the United States will be disabled by injuries during 1947, unless they give safety on the farm more attention.

That prediction is made by the National Safety Council, which has announced the week beginning July 20 as National Farm Safety Week.

Every day of 1947, 52 people will die as a result of accidents, the council also predicts on a basis of past year's figures. Two farm residents will be killed accidentally and 205 injured during the noon

hour every day, unless better safety precautions are taken.

The safety council urges farm families to look for the hazards that endanger lives at home, at work and on the highway; to eliminate as many of these hazards as possible; and to remember that carelessness on the part of any family member can mean unhappiness and even death to the entire family.

By calling attention to farm safety, the council hopes to see a big reduction in such figures as these: four farm buildings destroyed by fire every hour; 4,500 farm workers killed and 300,000 injured in 1946; 186 workers injured by some type of farm machinery, 193 hurt by falls, 104 injured by livestock,

and 92 crippled from cuts, falling trees, burns and other smaller accidents.

New Chevrolets Introduced Here

The M and M Chevrolet Co., newly established dealership in Munday, held its premiere showing of the new 1947 Chevrolets last Saturday.

Included in the showing was the new 1947 Chevrolet Fleetline aerodynamic and a new 1947 advanced design two-ton, two-speed Chevrolet truck. Many area citizens dropped by the agency to see these new cars.

The new cars were also featured in a brief parade through the business district of Munday.

Both the car and the new design truck were enthusiastically received by local people.

100,000 MILES, STILL ROLLING

This sturdy veteran from a group of tires tested for performance with a fleet of heavy gasoline trucks has given 100,000 miles of service, its cotton cord carcass outlasting three recappings. Made under identical conditions with the same amounts and types of rubber, but using different fibers in the cords, the tires showed different degrees of stamina. Rayon cord tires lasted for an average of 25,985 miles, cotton cord tires for averages of 46,399, 50,673 and 50,975 miles. Admiring the tire in the picture is Sam Lazenby of Hughes, Ark., himself an oil company distributor.

Scouters Plan Long Program In Area Scouting

Meeting at the Boy Scout encampment grounds on Perkins Reservation near Wichita Falls, about fifty Scouters last Tuesday evening discussed plans for the long-range Scout program for the Northwest Texas Council.

Following an electable dinner served in the dining room, R. B. Anderson of Vernon, president of the executive board, read a detailed report of recommendations made by the planning committee. The included a "must" for the area of two more paid and trained field executives to help carry scouting to the boys of the 13-county area. He also discussed plans for publishing a booklet, giving a brief, yet concise and detailed outline of how scouting will help the boy of today become the citizen of tomorrow. Chief aim of the booklet would be to interest men in scout leadership and boys in the scout movement.

It was also proposed to re-group the districts of the area so that scouting will be more easily carried on in each county. Also discussed were the most effective methods and procedures for getting the Scout program to the boy.

Perry Davis of Wichita Falls, finance chairman, discussed the area's adopted budget for 1947-48, which amounts to \$41,194.75 for the area program. This does not include the cost of two more executives recommended by the planning board.

The annual Scout round-up in Vernon in September was also discussed, and in this it was brought out that the Scouting movement depends on four factors for its success; Men, Methods, Membership, and Money; therefore, the round-up is called the 4-M round-up.

The Long Range planning commission has set up an interesting program that would insure the growth and development of the movement. Much interest is being shown in a movement that would interest more adults, as well as more boys, in the Boy Scout program.

The commission is composed of L. H. Cullum of Wichita Falls, chairman; Allan Krohn, Electra; W. L. Golightly, Vernon; Chauncey Weiler, Iowa Park; Moulton L. Wiggins, Munday; Eugene Berry, Wichita Falls; J. V. Brookshear, Burkburnett; Charles Dameron, Childress; Harry Olson, Henrietta; Joe Anderson, Quanah; Rex Keys, Paducah; Richard Ferguson, Crowell; Calvin Whitaker, Throckmorton; Luther Wakefield, Archer City; Paul Boedecker, Bowie, and Rev. C. E. Gleason, Childress.

Uncle Sam Says

Did you ever see a United States Savings Bond? Don't answer "no" too quickly because that's what millions of wise Americans are doing daily. By buying bonds regularly through the Payroll Savings Plan where they work or the Bond-a-Month Plan where they bank, they are preserving income for future nourishment. Savings Bonds grow in nutrition value to you and your family through the passage of time. In 10 years they will produce \$4 in goodness for every \$3 you store away today. Yes sir, the best thing you can do now is the canning of income in the form of Savings Bonds.
