Odd Bits Salvaged
At Random

(By Aaron Edgar)

Our town is being "engineered" this week, it plans on the city council as explained to us by the mayor, are worked out.

If they're worked out, this engineering is already in progress as you read this. If not it's a near future project, so we'll go ahead with the explanation as given us by Mayor Moore last Friday.

The whole idea is to get something started about the city's paving project, with the view of actual paving getting under way, come spring.

First off, we're having engineers, and engineers, and engineers here, with notebooks, and apparatuses, and branchblades, and what-nots.

Engineers from the Texas highway department are making a study of our situation and problems—and it looks like our Rhineland pavement will likely enter town right down the street which the Times office faces.

Anyway, the highway engineers are making a study of this, as well as a study of our drainage situation. Maybe our surplus water—which we haven't had any lately—will be allowed to go under the highway south of town in a couple of spots, with other outlets being provided.

That's one purpose of our town being engineered this week.

Next, we're having some engineers from the Burlington railroad to be guests in our town. These boys are making surveys and calculations along the railway right-of-way, with the view of helping us solve our drainage problem.

Maybe our surplus water will be allowed to go under the railroad in a couple places or so.

Then there's a bill or two out east or southeast of town that's going to receive some study. The idea is to ditch a ditch through this hill, some ten or twelve feet deep, or however deep it will take.

The idea is, if and when the water is allowed under the highway and under the railroad, it will be directed into the ditch and on out into Miller Creek, or Lake Creek, or whatever creek it is. Dad burn it, ask some member of your city council!

Maybe J. A. wants it down Miller Creek, so those papers will come floating down more regularly and give him more reading material.

Which reminds us, J. A. didn't like his old picture, and we don't blame him. So he sent us another—same man, same pose, but a different finish. We've changed to his more recent likeness this week.

And then, some more engineers are making some studies of our paving and drainage situation, and they'll combine ideas with the highway and railway engineers and determine what's the best thing to do and how to do it.

Maybe your mind's asking the question Dr. Joe Davis asked way back yonder when he was mayor: "Which end of town you're gonna jack up?" Well, just wait until the engineers get through engineering, and maybe we'll know what we can do and what we can't.

Then the idea is to let the contractor for the city's paving project. When are we gonna pave? Next spring, maybe.

When the contract is let, Mr. Contractor, whoever he is, has a lot of work to do. His organization will begin getting property owners on the dotted line, and get things signed up along the streets that are to be paved, so he will know where to start and how to start when the starting time come.

When everything's fixed, the contractor can begin to get his labor organized, his materials on the scene, his machinery scheduled, and all these things that go

Golf Tourney Is Slated Sunday At Crowell

Announcement was made last week that the Spring Lake Country Club at Crowell will sponsor a one-day golf tournament on Sunday, August 10. Match play will begin at 8 a. m.

All flights will have suitable prizes for winners, runners-up and consolation. Players will qualify on their own courses and must mail their qualifying scores with \$3.00 entrance fee to Irving Fisch, chairman, Crowell Texas, to reach him not later than Saturday, August 9.

A free lunch will be served, and a Calcutta pool will be run off.

The last tournament held on the Crowell course was in 1941, when over 100 golfers participated and O. B. Smith of Memphis won the championship with sub par golf.

Crowell's Spring Lake Country Club has a snappy 9-hole par 35, sand green course, which is in top shape, having just been overhauled with plenty hazards. A new bath house and swimming pool have just been completed.

Goree School Make Plans To Open Sept. 8

At a recent meeting of the Board of Trustees of the Goree Independent School District, Monday, September 8, was set as the opening date of the Goree schools.

The faculty is complete with the exception of one teacher in the grades. The same bus drivers that served last term will be in charge of the buses this year.

The new lunch room is receiving a fresh coat of paint, and will be ready for serving meals on the opening day of school.

The six-man football team, Mr. James C. Carver, coach, is ready to start the season.

The grade school is being re-located, with two additional rooms made ready to take care of the increased enrollment expected this year.

Mahan Funeral Home In New Location

The Mahan Funeral Home and Burial Association on Wednesday completed the job of moving into the C. L. Mayes building, on the north side of the square.

Mr. Mahan announced this week that he believes the larger quarters will give the organization an opportunity to give a more efficient service to those in need of their services.

Offices of the Mahan Burial Association will be maintained in the new quarters, and the personnel of the organization extend an invitation to the public to visit them in their new location.

ON VACATION TRIP

Mr. and Mrs. Glen Merchant of Haskell, Mr. and Mrs. Roy Harrell, also of Haskell, and Mr. and Mrs. Mahlon Boggs and family left Thursday on a vacation trip to points in Colorado and the Yellowstone National Park.

Mr. and Mrs. Frank Steel and family of Phoenix, Ariz., have returned home after a visit of ten days here with Mr. and Mrs. Walter Sherrod, and with other relatives.

Shucks, A Kid Can't Have Fun With His New Motor Scooter Without Having Driver's License, Too!

It looked like things were all set for some of the youngsters. Those new motor scooters were coming out, and the kids had just about talked Dad into the notion of buying this means of getting about.

But here comes a statement from the department of public safety that just about bursts the bubble for many Texas kids, and some Knox county kids.

"Operators of motor scooters must have driver's licenses, and many children are illegally operating these vehicles," the department warned.

Chief A. F. Temple of the driver's license division at Austin said

Funeral For E. G. Decker Is Held Sunday

Emil Gerald Decker, former residence of Knox county, passed away at his home in Sundown, Texas, on Thursday, July 31, following a short illness. He succumbed to a heart ailment.

Mr. Decker was born at Menard, Texas, on August 25, 1906, and was 39 years, 11 months and 6 days of age. He was employed in construction work, and had resided at Sundown for about four years.

Surviving him are his wife, Mrs. Faye Decker of Sundown, and five children, who are: Emogine Vincent, Seymour; Mildred Ruth Williams, Tahoka; Thomas Fred Decker, Emil G. Decker, Jr., and Elmer Calvin Decker, all of Sundown.

He is also survived by six brothers and four sisters, who are: Henry, Fred, Alfred and John Decker, all of Rhineland; Jerome Decker, Pep; Leo Decker, California; Miss Lewis Raatz, Austin; Emma Decker, San Antonio; Mrs. Frank Herring, Rhineland, and Mrs. Tom Ferrier, Kansas, City.

Funeral services were held from St. Joseph's church at Rhineland at five o'clock last Sunday afternoon, conducted by Father Fabian Diersing, O. S. B., pastor. Burial was in the St. Joseph's cemetery, with the Mahan Funeral Home in charge of local arrangements.

Nephews who served as pallbearers are: Weldon Herring, Clarence Herring, Raymond, George, Elwood and Raymond Decker.

Munday People Hurt In Crash

Mrs. Peggy Killian, 25, of Munday, was reported the most severely injured of three persons hurt in a traffic accident 4.7 miles west of Holliday on U. S. Highway, Patrolmen John Croft and E. C. Green, reported.

Mrs. Killian suffered a shoulder injury and several cuts on her neck and shoulders. She and her husband were riding in the back seat of a sedan which struck a culvert. The injured woman's husband, Olen Killian, 31, suffered a slight cut on his nose.

Clifford Killian, 21, driver of the automobile, received cuts on his head and shoulders, none serious, and Bobby Taggle, 19, also of Munday and a passenger in the car, was released without medical attention.

A passing truck brought the victims to Wichita Falls Clinic hospital for treatment.—Wichita Falls Record News.

TO ST. LOUIS MARKET

Mr. and Mrs. C. P. Baker left last Sunday for Dallas and St. Louis, Mo., where they are attending the dry goods markets this week and purchasing merchandise for the Baker-McCarthy store.

Miss Ollie Bateman left last Saturday for Waco after a visit here with her parents, Rev. and Mrs. J. R. Bateman. She will be employed at the Waco Orphans Home until her school opens in September.

Mrs. G. R. Eiland and Mrs. D. E. Holder have returned home from a visit with Mr. and Mrs. C. H. Giddings at Dalhart, relatives at Lamesa, and a trip through the Carlsbad Caverns.

Farmers and other members of the cotton industry across the nation are being called on to support the National Cotton Council's worldwide program to increase the consumption of American cotton and cottonseed products. Cotton producers throughout the Belt are asked to aid in building a "bridge of dimes" across the dangerous chasm of cotton's competition by contributing ten cents on each bale ginned. The funds are used to support the Cotton Council's program of cotton research, production efficiency, sales promotion, and foreign trade.

Revival Workers Furnish Program At Rotary Club

Arthur Nelson of Dallas and Dr. Joe Burton of Nashville, Tenn., furnished the program for the Rotary Club last Monday when members met at the Hotel Coffee Shop.

Mr. Nelson, who is in charge of the choral singing in the Baptist revival, sang two numbers and furnished accompaniment on his vibra-harp, and also gave one vibra-harp number.

Dr. Nelson, evangelist in the revival, made a very inspirational talk to the members, stressing the importance of sincere and prayerful Christian living in today's work that is so torn apart by fear and distrust. Another guest was Rev. W. H. Albertson, who extended everyone a cordial invitation to attend the remaining services of the revival.

Two new members of the club J. B. Stevens and George Dayton, were present for the first time and were welcomed into the club.

Auction Sale Has Good Run Of Cattle Tuesday

The Munday Livestock Commission Co. reports another good run of cattle for last Thursday's sale, and the stock sold on an active market. Fat calves and yearlings sold 25 cents to 50 cents per hundred higher than a week earlier. Prices paid are as follows:

Canner and cutter cows, \$8.50 to \$11.50; butcher cows, \$12 to \$14; fat cows, \$14.50 to \$18; butcher bulls, \$11.50 to \$14; fat bulls, \$14.50 to \$16; rannic calves, \$9.50 to \$12; butcher calves, \$12.50 to \$17; fat calves, \$18 to \$22.75; butcher yearlings, \$12.50 to \$18.50; fat yearlings, \$19 to \$24.

Some mixed cows and calves sold by the pair at prices ranging from \$110 to \$138. A few good cows and calves sold by the pair at \$150 to \$180.

Check Forger Hits Waterloo In Local Police

When he crossed trails with Chief of Police Tuck Whitworth, a 19-year-old youth giving his name as Madison Lee Reynolds, and who is charged with passing forged checks, came near the end of his trail of crime.

The youth is alleged to have passed two checks in Munday and two in Seymour that were forged on J. W. Elliott of Munday.

Whitworth soon picked up his trail and traced him to Throckmorton sheriff, and the youth was arrested Tuesday night in Throckmorton. He passed about \$100 worth of forged checks, according to reports.

He was returned to Munday, where he made a statement to District Attorney Joe Reeder, Jr., and waived examining trial before Justice of the Peace John Rice, who set his bond at \$750.00. He is awaiting action of the grand jury on the forgery charges.

LEAVE FOR TENNESSEE

Mr. and Mrs. P. V. Williams and Rupert and Charlotte, accompanied by Mrs. Ruby Kethley of Abilene, left last Tuesday for points in Tennessee to spend their vacation visiting with relatives.

Jimmy Hale of Wichita Falls, area Boy Scouts field executive, spent the first of this week in Munday, working with the local Boy Scouts and scout leaders.

Mr. and Mrs. R. L. Kunkle, R. H. Kunkle, and Mary Ella and Tommy Kral, all of Megargel visited with Mr. and Mrs. J. T. Mitchell last Sunday afternoon.

Mr. and Mrs. Alan Hannah and children of Plainview spent the week end with Mr. Hannah's mother, Mrs. Rosie Edwards, and with other relatives.

W. H. Simmons of Truscott was here Monday, visiting with friends and attending to business matters.

Visiting Pastor Pays Tribute To W. H. Albertson, Our "No. 1 Citizen"

(By Joe W. Burton)

If a vote should be taken to name the first citizen of Munday, W. H. Albertson would get my ballot.

Let me tell you why. (Really, it's not necessary as a matter of convincing anyone in Munday of this good man, but I want to do it just to give public expression of appreciation to one whose life here for nearly twenty years has blessed my friends and neighbors.)

I remember the day nineteen years ago when I first struck hands with W. H. Albertson. He had just arrived here to assume the pastorate which now has extended to nearly a score of years.

Cotton Insects Being Poisoned In This Area

Knox County farmers for the past two weeks have been participating in a vigorous campaign to halt the damage being done by the flea hopper of cotton insects now beginning to take a heavy toll on the probable yield of cotton this fall. The flea hopper is far ahead of all the other insects at this time in receiving poison. One distributor of dusting sulphur for this pest reports that his organization has placed 467,500 pounds of sulphur in the hands of farmers and is receiving more calls daily. Insect counts by county agent in the various parts of the county indicates that in most areas the infestation rate in falling due to the hot weather and extensive poisoning. Intensity ranges from eight to twenty-five per cent in cost instances. Poisoning with dusting sulphur in recommended when the infestation gets over 10 per cent. One field was found to have fifty per cent infestation and should be dusted with a 5 per cent DDT and 75 per cent sulphur mixture.

Minor infestations encountered in the county include spots of red spiders aphids, a few bollworms and weevils. With the exception of red spider, infestation is not yet heavy enough for poisoning but a constant check should be maintained for early control.

Baptist Revival To Close Sunday

The Baptist revival meeting, one of the most successful ever held in Munday in recent years, will close with the evening services next Sunday, Rev. W. H. Albertson pastor, announced Wednesday.

In commenting on the revival, Rev. Albertson said: "We have had good crowds, with increasing numbers at almost every service; the singing and work with the choir and the special numbers have been very fine, and Dr. Burton has been doing some of the best preaching I've ever heard."

Only a few more services remain during this meeting, and the public is urged to hear Dr. Burton a home-town boy who has returned to lead people to God, in the remaining messages. He has been doing a great job, and his sermons are backed with great sincerity.

Services are held twice daily: at 10 a. m. and 8 p. m. Evening services are held out in the open.

Goree Methodist Church To Begin Revival Friday

A revival meeting will begin at the Methodist church in Goree on Friday night, August 8, it was announced this week by Rev. C. R. Copeland, pastor.

Rev. Hugh H. Harrison, pastor of the Barnett Memorial Methodist church in McAlester, Okla., will do the preaching. He comes to the Goree church highly recommended as a pastor and evangelist and an outstanding preacher of the East Oklahoma conference. The pastor will direct the singing, and his father, Rev. J. W. Copeland, will assist in the revival.

The public is extended a cordial invitation to attend all the services.

Local School To Open Sept. 8th

The Munday Public Schools will begin the 1947-48 school term on Monday, September 8, according to an announcement made Tuesday by Rev. W. C. Cox, superintendent.

Mr. Cox stated that the teachers will meet Monday morning, September 8, for teacher assignments and working out the class schedules.

Registration of students will be held on September 9 and 10, and regular class periods will begin on September 11.

The school faculty has been completed with the exception of and instructor in the commercial department, and Cox stated he hopes to be able to publish the complete list of teachers in next week's issue of the Times.

Scouts Hold Court of Honor At Knox City

A Court of Honor for Knox county Boy Scouts was held last Tuesday night at eight o'clock at the First Baptist church in Knox City.

Scouters, Scoutmasters and leaders were also present and started the task of mapping out an active program for the Boy Scouts of the county for another year. This program will be approved by the area council in the near future.

A number of scouts passed merit badge tests and received advancement in their work.

Local Scout leaders are high in their praise of the leadership given locally by Walter Massey, scoutmaster. They stated that Mr. Massey is devoting much time to this work, and he will have a troop within a short time that is second to none in this area.

Local boys who passed second class tests at Knox City are: Gerald Morrow, M. J. Fields, Boyd Baker and Kenneth Stubblefield. Joe Milton Stevens passed his first class test.

Crop Insurance Being Offered In Limited Areas

Under legislation recently passed by the Congress, insurance on 1948 wheat, cotton, corn, flax, and tobacco crops will be offered in a limited number of counties and on an experimental basis. The counties selected for such program will be those in which the crop is of major agricultural importance, in which there is substantial interest in and a desire for a sound crop insurance program, and in which facilities are available for proper administration.

Insurance on 1948 wheat crops will be offered in a number of Texas counties. Since closing dates come early, state and county people will have to move fast.

On July 15, Dave Davidson, Assistant Administrator for Production, and G. F. Geissler, Manager, FCIC, entered into an agreement setting forth the duties and responsibilities of county and state committees to complete 1947 crop insurance programs. Under this agreement, county and state employees will perform the same jobs as in previous years, such as collection and transmittal of premiums (both old and 1947), cooperate with FCIC adjusters, maintain FCIC files, debt registers, etc.

County associations will be reimbursed for these services by FCIC on the basis of the number of full premium collections.

Seventy-five cents will be paid for each full collection of an old premium made prior to January 31, 1947. The county will receive credit for a premium collection, regardless of the source.

An initial twenty-five cents will be paid on 1947 collections soon. An interim payment will be made on January 31, 1948 and final settlement will be made on April 30, 1948.

Miss Vaughn, home economics teacher in the Henrietta schools, was a guest in the home of Rev. and Mrs. Don Davidson over the week end.

MORE FOR THE MONEY

The retail situation seems to be stabilizing to a considerable extent, and merchandising experts are getting a clearer idea of what the consumer is demanding.

First of all, there is a definite accent on better quality. The public is weary of the shoddy goods and the substitutes which had to be sold during the war because other goods were unobtainable. Buyers for the large chains and department stores have examined manufacturers' lines with the most meticulous care and have refused to stock standard items. This is of benefit to the small merchant as well, in that it forces producers to offer improved lines.

There is consumer resistance to increasing prices. As an example, many stores have reported that expensive women's wear is moving slowly than in the past. At the same time, the bulk of the consuming public seems to have realized, even though reluctantly, that there is no way to achieve the impossible ideal of 1941 prices coupled with 1947 wages, taxes and other costs. It is only human to want higher pay and lower prices at the same time, but it just doesn't make economic sense.

Retailers of all kinds and in all the basic fields have done an excellent job in serving the consumer under difficult and often unpredictable conditions. They have attacked the price problem with all the weapons they possess, and have been responsible for limiting increases as much as possible. They have improved and broadened their services. The American consumer, despite the deplorable dollar, gets more for his money than any other buyer on earth.

FIRE PREVENTION PAID DIVIDENDS

What careful planning against the possibility of fire can accomplish was dramatically demonstrated in Los Angeles harbor in late June when a tanker which had just taken aboard nearly 3,000,000 gallons of fuel blew up at the dock.

Billowing flames instantly spread to near-by shore installations. The intense heat blistered paint on several huge oil tanks on a 30-acre tank farm belonging to the Shell Oil Company. Had the tanks blown up, devastation would have been wreaked throughout the entire heavily-populated Los Angeles-Long Beach harbor area.

However, the tanks were equipped with water-sprouts on top, and these prevented further explosion. Thus, one precaution was responsible for saving lives and tremendous property damage.

This is the way scientific fire prevention stands between the community and catastrophe. The kind of planning which led to the installation of protective devices on oil storage tanks can be applied to every home and every business. In most instances, adequate precautions are simple, and require little time or money. The man who fails to plan against fire is inviting disaster.

RELIGION AND MEDICINE COOPERATE

Socialized medicine would have a retarding effect on the freedom of religion. It took centuries for the people to gain freedom of worship such as is enjoyed in this country. It took a new world and a divorce from the old to make this freedom a reality. Religion has a definite part in healing the sick. Should medicine be placed under state authority, religious effort would find itself face to face with its old enemy, the state.

Rev. Robert Rasche wrote in "A Road to Recovery" that, "There is a part of every recovery from illness or injury which is mental or spiritual in nature. Physicians recognize this element in the healing process. They often note that the patient's progress is in part due to his good mental attitude or confident expectation or his will to live. A mind and heart directed toward recovery and health give priceless assistance to the doctor. Other things being equal, the patient whose thoughts and attitudes are courageous and confident, is by that very fact, helping to hasten his own recovery of health." This is where religion enters the picture.

Private medicine cooperates with all religious faiths. The two must work together in the science of healing. They cannot be stereotyped by government—history has proven that. Under voluntary prepaid health plans such as are now available, a patient can spend his energy on getting well and not be irritated by government regimentation that would be an escapable part of any socialized medicine system.

WHY PRICES STAY HIGH

According to the official indexes, the cost of living reached its postwar peak last March. Since then, there has been a slight decline. The widespread price breaks which some forecast for this summer have definitely not materialized.

We should have learned by this time that the price is enormously complex, and there is no pat and easy solution to it. Such well meant schemes as the Newburyport plan failed for the reason that they were economically unsound. The average merchant's profit is so small that ten per cent across-the-board cut, if maintained, would ruin him. The stores which followed the Newburyport idea could not replace their stocks at wholesale prices which would make the lower retail prices possible. They were forced to re-price their goods at levels which reflect today's costs.

The point of this is that it is ridiculous to assume that price control can be effectively exerted at the retail end. Prices are high because the productivity of labor per man is low—because many kinds of goods are still in short supply—because industry's operating costs have gone up all along the line—and because many government policies feed inflation. Prices will remain high so long as this is true.

Kidneys Must Work Well

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system lapses when kidneys fail to function properly. Burning, itchy or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

Knox Prairie Philosopher Says The U. S. Government Backs Him Up To His Philosophy Of Work

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek apparently is twisting the facts to suit his purpose, as his letter this week reveals. It's not the first time. Dear editor:

Every now and then I have been referred to as lazy, not only by my wife but by folks in town who ain't sharp enough to distinguish between brain work and physical work and think if a man ain't bent over a plow goin up one row and down another he's bound to be loafin, and consequently I am pleased to report what the United States government has found out after several years study, which I already knew and could have saved the government money on if they'd asked me in the first place, not that savin money is any governmental goal.

But accordin to a article I read in a copy of the Wichita paper which I found out here on Miller Creek after somebody left it on a gravel bar where they'd used it to stand on while they was dryin after goin in swimmin, the Bureau of Labor Statistics in Washington

has made a long study of how much work people turn out and has discovered a man can produce more work per hour in 40 hours in a week than in 48 hours or 58.

Now I ain't sayin everybody ought to start workin only 40 hours a week, and it personally don't make any difference to me how much anybody else works, but I am happy to be able to report that me and the experts is seein eye to eye on this matter and as far as I'm concerned there ain't no use stoppin at only 40 hours. Reduce it to 30 hours, or 20, or 10, or take off altogether, which is what I do frequently.

As I see it, it ain't how many hours you put in, it's what you turn out or wind up with, and frankly I been cured ever since 1941 when I worked the entire year and would wind up owin the bank twice as much as my crop sold for. Ever since then I have devoted more time to thinkin and less to plowin, and while it may be true I ain't got nothin in the bank, the bank ain't got nothin in me, neither. If you're gonna wind up at the end of the year broke anyway, my theory is why not take it comfortably and in the shade?

However, understand I ain't advocatin this plan for everybody. Just you and me and the legislature and a few others.
Yours faithfully,
J. A.

Butane Tanks

To be safe during winter months, you are urged to get larger butane tanks and store your winter gas before cold weather. Get tanks large enough to store your entire winter supply.

The heavy demand on refineries producing butane gas makes it impossible for them to produce enough during winter months. Heavy consumption in winter makes a heavy burden on them, and on your distributor.

Come in—let's talk over the advantages of adequate storage tanks.

Tell your fortune?

"Such a lucky lady—with a pretty house, nice husband and children—lots and lots of servants!"

"You're wrong about the servants. I live in a 6-room house, and balance a budget!"

"But, Madam, you have servants to help you in every room! And you pay them very little, indeed. You have a servant to assist with your laundry. Another to help cook your meals. A third to protect your food. A fourth to clean. More to heat and light your home, and entertain you when you're bored. You have electrical servants, Madam—the most willing and dependable servants in the world!"

"Of course, I have electricity, but I never thought—"

"This army of domestic help costs you less than a bottle of milk a day! So you see electric service is not only high in efficiency, it's low in cost! Twenty years ago the average family got only half as much electric service for the money as it gets today. And think how many more jobs electricity does around the house in 1947! Yes, Madam, yours is a very good fortune, indeed!"

Church Wedding Friday Unites Miss Flora Alice Haymes, John M. Nobles

Miss Flora Alice Haymes, daughter of Mr. and Mrs. Lee Haymes of Munday, became the bride of John M. Nobles, son of Mr. and Mrs. S. R. Nobles of Big Spring, in a lovely church wedding on Friday, August 1, at high noon at the first Methodist church in Munday.

Dr. J. O. Haymes of Lubbock, uncle of the bride, performed the marriage rites, and the church was beautifully decorated in fern and white gladiolus.

Given in marriage by her father, the bride was a lovely picture, dressed in street length white linen dress with embroidered linen blouse and tunic. She wore a white linen halo hat and carried a corsage of white gladiolus on a white Bible, which was the Kappa Phi sorority Bible which many brides who are graduates of McMurry College have used.

Serving her sister as bride's maid was Miss Helen Haymes, who wore a peach linen dress with matching headress. Miss Patsy Kirk of Big Spring, wearing a pastel blue linen dress and matching headress, was maid of honor.

John Bill Gary of Big Spring was best man, and Bobby Haymes, attendant. Willard Reeves and Bobby Haymes served as ushers.

Miss Louise Spiegelmire of Fort Worth furnished the wedding music, and accompanied Miss Myra Bigony of Abilene, who sang "O Promise Me" and "Because".

The bride was reared in Munday and is a 1942 graduate of Munday high school. In 1946 she received her B. S. degree from McMurry College, Abilene, and taught in the Big Spring schools last year.

Mr. Nobles was reared in Big Spring and is a graduate of the school there. He spent three years in the service during World War II, most of which time was spent in the European theatre.

Out-of-town guests at the wedding included Dr. and Mrs. J. O. Haymes, Mrs. Otis Hardin and daughter, Bethel, and Mr. and Mrs. Rex Hardin, Lubbock; Mr. and Mrs. C. D. Hopkins and son, Joe Carroll, Artesia, N. M.; Mrs. A. W. Wyatt, Midland; Mrs. Morton and daughter, Peggy, Irving; Mr. and Mrs. S. R. Nobles and Betty Alice and Bobby, John Bill Gary, Carolyn Gary, Cecil Purifoy and Miss Patsy Kirk, Big Spring; Miss Melba M. Lorraine; Miss Louise Spiegelmire, Fort Worth; Hugh Longino, Donald Jolly, Eugene Patsy and Myra Bigony, all of Abilene.

Following a short wedding trip, the newlyweds will make their home in Big Spring. Mrs. Nobles will continue her teaching in the Big Spring schools.

Dr. and Mrs. Jimmy Harber are here for a visit with their parents, Mr. and Mrs. J. T. Harber and Mr. and Mrs. J. S. Shannon. Dr. Harber has been in the U. S. Army and has just returned from overseas duty.

Dist. Atty. Joe Reeder, Jr., of Benjamin was a visitor here last Sunday.

11:00 a. m. Morning Worship—your opportunity to worship God and thus be cleaned and commissioned for another week of Christian living.

No evening services this day. Attend some service as a visitor.

In your devotions this week remember to pray for the persons in progress and in preparation for those to come. Remember to pray for God to condition the hearts and minds of those whose decisions now will mean life or death for so many in the next ten years. Remember to pray for those who are indifferent and have no time to pray for themselves. Remember to pray for your own life to prove to the world that the presence of the Galilean in any life makes a world of difference. Does it?

A preacher wrote to a wealthy and influential business man requesting a subscription to a worthy charity and soon received a curt refusal which ended by saying: "As far as I can see, this Christian business is just one continuous give, give."

After a brief interval the preacher answered: "I wish to thank you for the best definition of the Christian life that I have heard yet."

It costs to be a Christian. It pays to be a Christian.

REVIVAL MEETING

There will be a Revival meeting at the first Methodist Church in Goree, beginning on Friday night August 8th at 8:15. Rev. Hugh H. Harrison, Pastor of the Barnett Memorial Methodist Church, McAlester Oklahoma will do the preaching. Reverend Harrison comes to the local Church highly recommended, he is considered of being one of the outstanding preachers in the East Oklahoma Conference. We invite the public to attend these Services, and hear this wonderful Man of God. The singing will be under the direction of the pastor, Rev. J. W. Copeland, father of the pastor will assist in this Revival.

the home, or a prayer offered, would accomplish more than a sermon from the pulpit. He excelled in what we call "being a pastor".

Again, we rejoiced at his superlative success in bringing sinners to Christ. There are people in his church now whom the rest of us had long since given up—not because they were unusually wicked but simply indifferent until we thought they were hopeless. But there came a man who by his persistence and patience and unremitting personal efforts brought them to the Savior.

Brother Albertson has opposed sin. He has been fearless, and at the same time friendly, in his fight on evil. He has loved sinners—loved them as few men I have ever known—but he has warned them of the certain consequence of their sins.

His help to the needy has been unending.

Just a few days ago a Negro in town needed, or wanted three dollars. It is not at all surprising that he went to Brother Albertson's house. When told that the preacher was not at home, he replied, "Ah knows whar to find him."

Yes, everyone in Munday knows where to find W. H. Albertson—standing for the right, opposing the wrong, lending a hand of help, calling men to a closer walk with God.

I declare to you, my friends of the years, in all of the land I do know a man anywhere to whom I owe the debt of gratitude that I do to W. H. Albertson. And it is out of that sense of debt that I write here of my appreciation. I love him for what he has done for me and you.

A man like W. H. Albertson is a saving influence in a community. He gives to it character, stability, civility, law and order. He builds a spirit of integrity which supports business. He trains in the highest type of educational attainments. He guides young lives into successful living.

A man like W. H. Albertson—a good man and true—does us good and not evil all of his days. My prayer is that those days of usefulness here in Munday may be prolonged into the unfolding years as God gives him strength for continuing service.

Somehow, as I come to this last paragraph, I feel that I am not writing for myself alone, but for a host of grateful friends, and neighbors—a community in expression of appreciation for true Christian character and service. We salute thee, noble comrade, faithful preacher, consistent Christian! With simple words but out of hearts of genuine love we say: Thank you for all you have done for us!

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin—Despite the fact that modern medicine can do much to help the diabetic live out a normal life span, nevertheless diabetics took a toll of several hundred lives in Texas during the past year, according to Dr. Geo. W. Cox, State Health Officer.

"While deaths from the communicable diseases such as typhoid fever, malaria, diphtheria, and small pox are annually decreasing in this country, diabetes is still taking a tragic number of human lives each year, especially in the middle aged group," Dr. Cox said.

"Until recent years diabetes was not noted as a major health problem, but it became accepted as such in direct ratio to the development of medical laboratory procedures, which made the disease more easily diagnosed."

Dr. Cox said that diabetes is generally recognized as a class disease. It seems to attack the white collar class of indoor men and women much more frequently than it does outdoor person whose work is more vigorous and calls for more exercise. Whatever the actual cause of the disease may be, vocational and economic condi-

21 Women Of County Attend Encampment

The annual Knox-Haskell County Home Demonstration Encampment was held July 31, August 1, 1947, at the Baptist Encampment Grounds at Lueders, Texas. The program for the encampment was planned and carried out by Haskell County Home Demonstration Clubs, who were hostesses this year.

Knox County had 21 women present, representing Sunset, Munday, Benjamin and Union Grove Clubs. There were 99 women present from Haskell County, making a total of 119. This is the largest attendance in several years.

The Knox County representatives met by the post office in Stamford at 3:30 p. m., and arrived for registration and cabin assignment at 4:30 p. m. After settling into cabins, there was time for a swim before supper at 6:15. The night program included group singing and games, stunts and skits by each club, and vesper services in the assembly hall. Knox County was especially proud of the fact that first prize went to Union Grove for their skit, "The Husband of a Home Demonstration Agent", produced by members of the club.

On August 1st, breakfast was followed by a group assembly for songs and announcements, and the women were divided into two groups to attend craft classes. The two classes, glass-etching and photointing, changed at halftime and those who wanted to went swimming. The craft classes were quite successful, and members came away feeling that they had learned something that was not only useful, but fun to do as well.

After an early lunch free time was allowed for packing and rest period.

At 1:30 the final assembly was held. Two wardrobes from the National Cotton Council, of clothes made from feed sacks were modeled by the women and children, and some Haskell County 4-H Club girls. Following this, a business meeting was held. Each Club and Council made a report on its activities this past year. Officers elected for the next encampment to be held at Munday were:

Mrs. W. E. Marr, Knox City, president.
Mrs. J. C. McGee, Union Grove, vice-president.
Mrs. Lee Snallum, Benjamin, secretary-treasurer

All who attended agreed that the Haskell County women really put on a nice encampment, and it inspired us to show them a good time next year.

Conditions apparently are factors, since it seems a fact that those persons whose occupations call for normal labor and simple living are not frequently affected.

Dr. Cox stated that simple, wholesome diets, sufficient exercise and sleep are factors in the prevention of diabetes, and an annual physical examination, especially in middle aged persons, is important so that if the disease is present, competent treatment can be instituted while the disease is in its early stage.

Veterans' News

Military personnel being separated from the armed forces may use their terminal leave orders as a basis for obtaining a temporary six-months certificate of eligibility for education or training under the G-I Bill, the Veterans Administration has announced.

Under the new plan, if the applicant's orders reflect at least eight days of terminal leave, it will not be necessary for VA to check his service records to determine eligibility before authorizing matriculation in an educational institution or training establishment. However, these applicants are not eligible for subsistence allowances until they have been discharged formally, VA said.

The temporary certificates of eligibility will be replaced by the regular forms after the veteran's exact period of entitlement has

been determined. About two out of every three of the 1,825,000 veterans recently enrolled in educational institutions under the G-I Bill are taking courses leading to definite job objectives, VA reports.

VA arrived at this conclusion from a sampling of the records of veterans who were enrolled in schools, colleges, universities and other institutions on May 1.

Engineering ranked first with 229,000 students, and crafts and trades was second with 208,300 students. Third in popularity were commercial courses with 154,000 students. Business administration was fourth with 146,400 students.

Those courses which VA considers as not generally falling within a definite job objective classification include liberal arts, physical and natural science, elementary school courses, & others.

Liberal arts courses accounted for the largest number of enrollments—329,500—in the latter group.

Veterans enrolled in other courses included: agriculture, 69,518; art, 42,900; education, 56,615; flight training, 81,494; law, 33,233; medicine, 59,316; theology, 8,979; journalism, 10,514; music, 22,338; natural science, 45,977; social studies, 35,124.

QUESTIONS & ANSWERS
Q. I am an honorably discharged World War II veteran and would like to know where I can secure specific information concerning readjustment allowances while I am unemployed.

A. You should inquire at the public employment office or at the office of the unemployment compensation agency in the state or territory in which you reside.

Q. Are there any penalties in case the veteran accepts readjustment allowances to which he is not entitled?

A. Any veteran who knowingly accepts an allowance to which he is not entitled shall be ineligible to receive further readjustment allowances. Furthermore, anyone who receives money, check or allowance under the readjustment allowances provisions of the law, to which he is not entitled and with intent to defraud the U. S. shall be punished by fine of not more than \$1,000 or one year in prison or both.

Q. What interest rates are lenders permitted to charge on G-I business loans?

A. In most cases, 4 per cent is the maximum. However, the interest rate may be slightly higher for certain types of insured business loans.

Q. In order to get a business loan under the G. I. Bill, will I have to operate the business myself?

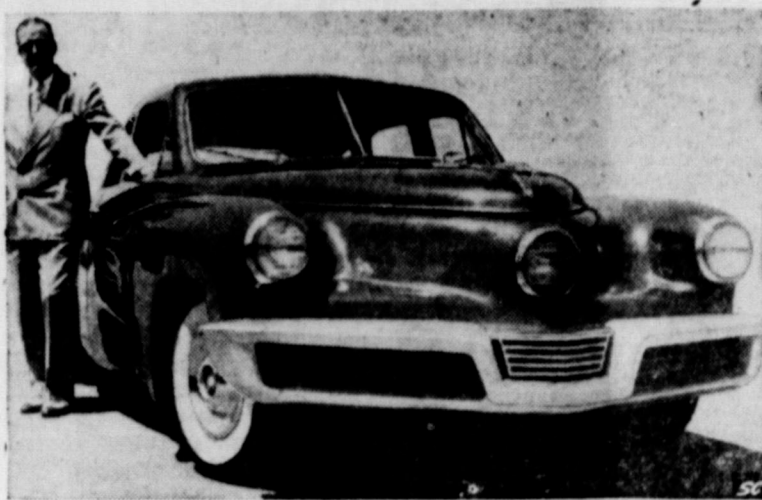

A. Yes, the veteran must devote his personal practice or supervision to the enterprise, or to the practice of a profession, on a full or part time basis.

Tucker '48 Newest Entry in Auto Field

CHICAGO—Preston T. Tucker, six-foot president of Tucker Corporation, stands beside the most modern automobile yet produced, the new Tucker '48, which is only 60 inches from ground to top. With a powerful 150-horsepower engine mounted directly between the rear wheels, the Tucker '48 combines many engineering advances which Tucker says are not found in any other automobile on the market today. Since the new Tucker '48 was shown to dealers and distributors, thousands of persons have sought to place orders for early delivery of the car. Quantity production is expected later this year.

the property hereinafter described, Defendants, Greeting:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. The paper shortage in this country is highly serious. One reason is that everybody wants to be a columnist and then gather the "creats" of his column and put it in a book.

The latest of these Johnny-Come-Latelys in the field of what might laughingly be called literature is Billy Rose, who has been very successful as a producer of shows, and of course that qualifies him as a writer, just as making a billion dollars by manufacturing automobiles makes a man an authority on any subject he wants to talk about.

And metropolitan papers, dazzled by a "name", are using Billy's output in a big way. His column, in case you have been so fortunate as not to read one, consists of

two. Each party to this suit shall take notice of and plead and answer to all claims and pleadings now on file or thereafter filed in said cause by all parties therein. Plaintiffs, intervenors and defendants that are taxing units also seek the establishment and foreclosure of the lien securing payment of such taxes as provided by law, as is more fully shown by Plaintiff's petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs. Issued this 16 day of July, 1947. Given under my hand and seal of said court, at office in Benjamin, Texas, this 16 day of July A. D., 1947.

a marvelous display of egotism—even for a columnist—and of a parade of all the trite fictional situations that have been worn out to shreds by students taking a short story writing course by correspondence.

Mr. Rose says he writes the column himself—but maybe he produces his column the same way he produces his shows. Back in 1936 and 1937, when the "Broadway Barnum" put on the Fort Worth Casa Manana, DuBois designed the costumes, Johnston painted the scenes, Suesse composed the music, a Hollywood dance director put on the dances, Winkler provided the lighting effects and John Murray Anderson put it all together as directed. With these slight exceptions, it was 100 per cent Billy's work.

Billy got his start by writing songs. Everyone knows how lofty the ethics of Ten Pan Alley are. They borrow from Bach, they mooch from Mozart and they bum from Beethoven.

Rose admits he was some "researchers" and "leg-men" for his column. In other words, by his own admission, the column he calls his is not really his, in to, except in the sense that something you buy and pay for is yours.

But watch some book club make the so-called Billy Rose Book its selection for the month.

B.F. Goodrich Tires Now at LESS than PREWAR PRICES!

Looking for a postwar tire that really outwears prewar tires? Then cast your eyes on the new B. F. Goodrich Silvertown that's been proved and approved in millions more miles of service than any other postwar tire.

Of course, there are reasons these

tires travel farther. (1) A wider, flatter, buskier tread puts more rubber on the road; greater contact that means less wear at any one point, longer mileage and more sure-footedness. (2) More and stronger cords take more strain from road shock and resist blowouts better.

OUTWEAR PREWAR TIRES!

But the best news is today's low price—lower, in fact, than prewar with a Big Trade-in Allowance for the unused mileage in your present tires.

Every B. F. Goodrich Tire Carries This LIFETIME GUARANTEE

"Every tire or tube of our manufacture bearing our name and serial number is guaranteed to be free from defects in workmanship and material without limit as to time or mileage."

Appropriation For Conservation Gets Congress Approval

The 80th Congress approved the Department of Agriculture appropriation bill for the 1948 fiscal year on July 26. The bill appropriates \$265,635,000 (including \$5,500,000 for state and National offices, and \$19,000,000 for county offices) for the Agricultural Conservation Program year beginning July 1, 1947. Also included was an item for \$2,500,000 for peanut

marketing quotas on the 1948 crop.

The Congress authorized an Agricultural Program for the 1948 crop year on the basis of \$150,000,000, including administrative funds. Assistance to individual farmers and ranchers is limited to \$500 (the limit has been \$100.00 for about 7 years).

Texas' share of 1947 program funds (not including increases in small payments) will be reduced from \$19,788,000 to about \$17,500,000 as a result of the failure of the Congress to appropriate \$300,000,000 that was authorized by the 79th Congress. The smaller appropriation means that little, if any, additional program money will be available to counties that have exhausted current allocations.

Cypert Family In Reunion August 3-4 At Lake Creek

Another reunion of the Cypert family was held Sunday and Monday, August 3 and 4, at Lake Creek, where it has been held annually for the past four years. Two other years the reunion was held in the Parker Denton pasture. This makes six years in which the reunion has been held.

A basket dinner was served the first day, and a barbecue dinner with all the trimmings was enjoyed the second day.

A business meeting was held Monday afternoon, in which officers were elected and plans were made for another year. A total of 116 registered for the two-day affair.

Present were: Mr. and Mrs. Paul E. Denton and daughter, Mr. and Mrs. Burlon Denton and son Mr. and Mrs. Dale Denton, Mrs. Vera Denton, Bryon Denton and Mr. and Mrs. L. L. Chevrolet Ups Prices On Certain Types Of Autos

Detroit—Increased prices on Chevrolet station wagons and convertibles were announced today by Nicholas Dreystadt, general manager, Chevrolet Motor Division.

The price of the station wagon is advanced approximately \$100 and the convertible about \$75. Prices of all other Chevrolet models remain the same.

Dreystadt pointed out that station wagons and convertibles incorporate a relatively high percentage of parts supplied by outside sources, the cost of which has increased sharply in recent months. This plus the fact that both models are produced in low volume make these price adjustments necessary, said.

FIXING UP the HOME

By Diane Greeter

Now You Can Move to the Country. LP-GAS, which most readers know as "bottled" or "tank" gas, is making it possible for many families to move out of cities and into the new suburban areas where they can have more space, traffic-free streets for their children to play in and lots of fresh air, untainted with the smoke and dirt of a big city.

They can have all this and yet retain the conveniences and advantages of modern living by "taking the city utilities with them." A good well and an automatic electric water pump will provide running water if water mains have not been out in. A septic system, properly installed, will replace the sewer

system. And gas for cooking, water heating, refrigeration and space heating can be drawn from your own gas system, right on the property.

This gas is butane and propane, a product of the petroleum wells. Both gases are known technically as liquefied petroleum gas, but the industry has shortened the term to LP-Gas. Rich in heat values, reasonable in price, clean, and delivered often by local service companies, LP-Gas provides the finest of kitchen fuels anywhere you might want it.

The appliances used with this gas are the same as those manufactured for use with city gas.
