

Kracker Krumb's

Odd Bits Salvaged
At Random

(By Aaron Edgar)

Them kind remarks wuz deeply appreciated!

The newspapers whose destinies and policies we've helped to guide during our twenty years of association with the newspaper trade have been liberal in giving space to the churches of the town.

About the only requirement we've ever made of pastors was that they get their church announcements in by a certain time, the deadline usually being set for Tuesday in order to keep these announcements from becoming mingled with the last minute rush of news and articles.

But when they didn't meet the deadline, we went ahead and tried our best to get their messages somewhere in the columns of print.

We've contributed them space in the paper, as much as they desired to use under the headings of their churches, and we have not knowingly turned down an article which a pastor or church leader has submitted for publication.

We have held out of print, at times, articles contributed by persons who failed to sign their names to them, articles that were quotations of scripture or scripture references that bore no particular message from the writer and was contributed the name of no particular church.

But we've tried to make pastors feel free to use the columns of our paper, without charge, to get messages of services and of church activities over to the people.

Then, come revival time, we've had a desire to have a news story each week of the revival and its progress. Sometimes we've received splendid cooperation from the pastors and visiting revival workers. Sometimes we haven't.

They sometimes got busy and forgot to make any kind of report to the editor by which he could work out a story of the meeting, and maybe we'd have to concoct a story from our meagre store of knowledge.

Sometimes we've received thanks for the space contributed to the cause; sometimes we have not. Sometimes we've been caused to wonder if our liberality toward the churches, no matter what denomination, was appreciated.

We've heard pastors praise evangelists to the skies for their preaching and evangelistic work; then the congregation would pay him handsomely for his two weeks' stay in our midst.

We've heard words of praise for the singer—and his check would just about equal that of the evangelist.

We've heard the pianist receive her praise, and in lots of instances her efforts would be entirely voluntary.

And then would come the ushers those who helped move the piano and benches out for the open air services, those who gathered up the song books and took them inside after each night's service, etc.

Then would come a blanket word of thanks to everyone who contributed in any way to the success of the revival—and we'd suppose, and hope, our publication was included in this.

But it was not thus with Dr. Joe W. Burton, who Sunday night closed a revival at the Munday Baptist church.

Dr. Burton made some very complimentary remarks about The Times one evening last week. Unfortunately, we weren't present to drink in those remarks, but next day Dr. Joe was among the first to tell us he talked about us.

He'd contributed an article concerning Pastor Albertson last (Continued on page Five)

A Whirlwind Didn't Do It!

Local Merchants Take Clean-Up Notion!

The dust was flying Tuesday, but a whirlwind wasn't causing it!

Someone remarked that our town was dirty—as if they hadn't been making such remarks for days and months past. But it kinda got our people to realize it.

So the dust was flying—and were the house brooms, street brooms, shovels and scoops.

Local merchants for almost two blocks along the south side of our main street, Earnest Street it's called, took a notion to clean the accumulation of dirt and trash away from the curb.

It started with the block from the bank west. Then later the work extended along the block from Baker-McCarty's to The Fair Store. On around the corner the work went, taking in the Post office block—and indications are that it will extend over most of the pavement.

The movement is catching, and we may have clean streets after all. It's rumored that the city is dickering for a street sweeper, too. Wouldn't that be wonderful?!

Blacklock's Grocery Moves To New Location

Ben Blacklock and his associates Wednesday started the job of moving merchandise of the Blacklock Grocery into the new building, which has just been completed and is located just south of his old location.

The building is one of the most attractive in the town, and affords the grocery larger quarters, thus enabling them to be of greater service. Attractively finished, the store had added "islands" for displaying merchandise and quite a bit of new equipment.

The move is being completed this week, so the formal opening in the new quarters will be held Saturday.

The addition of complete market facilities, including a cold storage room, meat counter and other fixtures, gives the store an added service. Mr. Doyle Proctor, formerly of Quanah, has moved his family to Munday, and he will be in charge of the market. Proctor comes highly recommended as a market man, and Mr. Blacklock invites the public to come in and make his acquaintance.

Lamoine Blacklock will be associated with his father in management of the store, while E. L. Morgan, who has been employed there for some time, will be in the sales and stock room.

The management and all the store's personnel cordially invite you to visit the new store during its formal opening this week end.

MRS. H. W. STOGNER PASSES AT CLARENDON

Relatives here received word Thursday of the death of Mrs. H. W. Stogner, who passed away at Clarendon on Wednesday night.

The Stogners are former residents of Munday, where Mr. Stogner was manager of the local ice plant. The family moved to Clarendon a number of years ago. Mrs. Stogner is a sister-in-law of Mrs. W. E. Hammack of Munday.

Funeral arrangements were incomplete Thursday, but it was stated they would likely be held in Clarendon on Friday.

You'll Get Chilled At Atkeisons; New Refrigerated Air Unit Working

It's chilly weather every day at Atkeisons, and you'll get chilled if you go in there just to loaf around. However, if you're busy shopping, and not loafing, it's exceptionally nice and comfortable—until you come outside again and the hot air slaps you in the face.

The reason for all this is that Atkeison's Food Store has installed a new Chrysler Airtemp "packaged" air conditioner. There are two units, one on the east side and the other on the west

Mrs. W. Cousins Former Citizen, Dies Sunday

Word was received here Monday of the death of Mrs. Walter Cousins, former resident of Knox county, who passed away Sunday morning at the home of her daughter, Miss Margaret Cousins of New York City.

Mrs. Cousins' death came suddenly. She arrived in New York on Saturday for a visit with her daughter. Her home was in Dallas.

Mr. and Mrs. Cousins lived in Munday in the pioneer days, and Mr. Cousins operated the town's first drug store. He passed away several years ago.

Besides her daughter, Mrs. Cousins is survived by a son, Walter Cousins, Jr., of Dallas, who is owner and editor of the Southern Pharmaceutical Journal, which his father edited for a long time.

The body was returned to Dallas where burial services were held on Wednesday.

4-H Club Boys Enjoy District Encampment

Seven 4-H representatives of Knox County attended the District 4-H Encampment held at Camp Perkins Reservation on August 7, 8, and 9th.

The boys enjoyed recreational activities as well as educational programs during the three days at the camp. Most popular of the recreational activities was swimming in the spring fed pool at the camp. But, soft ball, volley ball, and the pitching of horseshoes as well as .22 target practice were welcome activities. Merle Tackitt of Sunset, brought back 3rd place honors for Knox County in the 100 yard dash, competing with 150 boys.

The educational part of the program included talks by District Agent, Scofield, Home Specialist, Eloise Johnson, and the showing of special movies.

The boys attending were Jerrel Barnett, Benjamin; Stanton Brown, Benjamin; Alton Lee Patterson, Vera; Merle Tackitt, Sunset; Coy Phillips, Jr., Munday; Fred Lewis Crenshaw, Rhineland; and Joe Bailey Roberts, Jr., Munday. All reported a grand time.

REGIONAL SUPERVISOR VISITS VETS SCHOOL

Fred H. Brownlee of Amarillo, regional T. and I. supervisor of the state Board of Vocational Education, was here Wednesday and Thursday of this week, checking the Knox County Vocational School for Veterans.

Mr. Brownlee worked with J. A. Jolly, coordinator, in checking the needs of the Knox county school to bring its various departments up to state standards. He visits the schools of this area regularly to help them secure equipment needed to keep them up to state requirements.

ON VACATION TRIP

Mr. and Mrs. A. C. Boggs and children, accompanied by Mr. and Mrs. A. C. Boggs, Sr., of Haskell, left Monday on a vacation trip to points in Montana and Arkansas. They will be gone about a week.

Mr. and Mrs. H. F. Jungman left Thursday morning for a vacation trip to Chicago, Ill., and other points. They expect to be gone about two weeks.

LET'S MAKE THIS DREAM COME TRUE

Are You Interested In Our "City Of The Dead"? More Funds Needed

Capt. Ralph Layne Going To Hawaii

Capt. Ralph H. Layne, son of Mrs. Addie Layne of Munday, has been transferred to the 30th Topographical Engineers Battalion at Fort Shafter, territory of Hawaii, having completed an 8-weeks course at the army map service, Washington, D. C.

Capt. Layne has been with the police and prison department at Ft. Belvoir, Va., for the past year. The family left Washington July 25, and after visiting relatives at Paris and Dallas they arrived in Munday August 2. After spending last week with relatives here, they left for a short visit at Eastland and Pecos.

Capt. Layne will report to Camp Stoneman, Calif., for transportation to Hawaii. Mrs. Layne and three daughters will follow as soon as possible.

Mr. and Mrs. H. H. Cowan and daughter, Nancy, and Miss Merle Dingus spent the week end in Guymon, Okla., visiting in the home of Mr. and Mrs. Clyde Longbotham.

Mr. and Mrs. R. D. Atkeison and daughter, Dixie, left last Sunday on a vacation trip which takes them to the Yellowstone National Park, and points in Washington and Oregon. They expect to be gone about two weeks.

Mr. and Mrs. Elmer Dickerson and daughter, Billy Jo, spent the week end with relatives in Lubbock.

In Revival

Rev. W. D. Green of Houston, above, former pastor of the Knox City Baptist church, is the evangelist who will bring the messages in the revival meeting opening Friday at the Gillespie Baptist church. The meeting will continue through August 24.

Joe Rucker of Fort Worth, who is conducting a music school at the church, will conduct the singing for this revival.

A cordial invitation is extended to everyone to attend all the services.

New Officers Are Installed By Goree Legion

In a meeting held last Tuesday night, the American Legion Post No. 549 of Goree installed part of the newly elected officers. Although only 14 members were present, a good meeting progressed with a report on the 29th annual convention that was held in Fort Worth recently being given by Wade Courcy.

Tom Weber, newly elected commander, expressed the hope that more veterans in the Goree area will take part in the Legion's activities. He also expressed the belief that with the support of the veterans the Legion can accomplish a great deal toward the betterment of the community and the veterans themselves.

A feed each month, in cooperation with the Legion auxiliary, was discussed. It is planned to have special entertainment at the feeds.

All veterans are urged to meet next Tuesday night, August 19, at 8 p. m. in the memorial building at Goree.

Sunset School Opens Sept. 8th

It has been decided that the Sunset rural school will start on September 8 and run stright through for its regular school term, according to an announcement made this week by R. I. McLeroy, superintendent.

Heretofore the school has opened about the second week in August and run for some six weeks, then closing for several weeks for the cotton harvest.

Mr. McLeroy stated that the school lacks two teachers having a complete faculty. Efforts are being made to secure a homemaking teacher and a third grade teacher.

The lunch room will operate again this year, opening on the first day of school, or shortly thereafter.

Terrell Taylor Is Named Manager Of Banner Ice Co.

Announcement was made this week that Terrell Taylor has been named as manager of the local plant of Banner Ice Co., succeeding J. T. Barnett, who has moved his family to Hico.

Mr. Taylor has resided in Knox county for a number of years, having been engaged in farming most of the time. He is known to a large number of local residents.

He invites the patronage of everyone in this trade area, and assures the people that Banner Ice Company is always ready to serve the needs of this community as promptly as possible.

Farmers Fight Infestation Of The Boll Worm

The cotton boll worm has hit the heaviest than in many years, according to reports of the county agent and agencies selling poison for cotton insects.

Infestations has spread to a large portion of this area, and farmers are busy fighting the ravages of this insect. Some infestations of other insects is also reported.

Highest sales of poison recently has been that of 10 per cent D. D. T. for the boll worm. Poison sales in Munday this year mounted to over a million pounds on Tuesday of this week, including all types of insect poison used in this area.

A large percent of the cotton fields have received poison, and the Burke Dusting Service of Floydada has been busy this week dusting the fields for the boll worm by means of an airplane, which is proving to be a most effective and speedy way of poisoning.

Farmers are doing all in their power to control the boll worm in order to save their cotton crops.

Boll worm infestation is heaviest at this time, according to reports, although there have been flea hoppers and a few red spiders on Knox county cotton.

Robt. L. Bruce Dies Suddenly Last Monday

Searchers Find Body On Tractor Early Tuesday Morning

The body of R. L. Bruce, who died of a heart attack at about two o'clock Monday afternoon while returning to the field on his tractor, was found by local officers and volunteer searchers at about two-thirty Tuesday morning.

Mr. Bruce was found slumped in the tractor seat. He apparently died suddenly, and the tractor ran wild for a time, finally striking a post, when the motor died. Because of the heavy growth at the point where the tractor stopped, the body was not found until after several hours of searching.

No one was alarmed until Mr. Bruce failed to return home at night, as he had planned to be busy in the field all afternoon. When he was not found readily, others were called in and the search continued until a member of the searching party spotted the tractor in the heavy growth.

An inquest followed, and Justice of the Peace John Rice said death was due to natural causes.

Robert Lee Bruce was born at Groesbeck, Texas, on September 5, 1886, and was 60 years, 11 months and six days of age. He had been residing in this section for 15 years, and was farming the C. R. Elliott land four miles southeast of Munday.

Surviving him are his wife, Mrs. Trudie Bruce of Munday, and four sons, who are: Elmer and Ivan Bruce of Munday, and Marvin and Howard Bruce of Banning, Calif.

Funeral services were held from the Church of Christ in Munday at 10:30 o'clock Wednesday morning, being conducted by D. L. Hargus, minister of the Church of Christ at Weinert. Burial was in the Johnson cemetery, with the Mahan Funeral Home in charge of arrangements.

Fallbearers were J. C. Elliott, Fay Killian, Roscoe Trammell, Lloyd Jacobs, Sargent Lowe and W. A. Scroggins.

J. A. Smith, Father Of A. L. Smith Dies At Paris, Texas

James A. Smith, 84, of Cooper, Texas, father of Aubrey L. Smith of Munday, passed away last Friday afternoon at a Paris, Texas, hospital, where he had been undergoing treatment for several weeks. Mr. Smith had been a resident of that section for many years.

Mr. and Mrs. A. L. Smith left here last Tuesday to attend his bedside and remained for the funeral services which were held at Cooper last Sunday afternoon.

The deceased is survived by the following children: Mrs. Earl Hendrix, Sherman; Mrs. Lois Boren, Amarillo; Mrs. W. T. Alley, Cooper; Mrs. Ora Hendrix, Commerce; R. H. and J. C. Smith, Cooper, and A. L. Smith, Munday.

Goree Methodist Revival Drawing Larger Crowds

The Revival Meeting at the Goree Methodist church is now in progress, both morning and evening services are being well attended, and God is blessing in a wonderful way.

Reverend Harrison pastor of the Barnett Memorial Methodist church, McAlester, Oklahoma, is doing the preaching, our souls are being stirred as never before with the wonderful messages that he has been bringing from night to night. We urge you to attend the remaining services of this revival. We are looking forward to a great time Sunday, our goal for Sunday School is one hundred and fifty, we urge you to help us reach that goal. We have a class for every age, and a competent teacher for every class.

Sunday morning following the eleven o'clock service there will be dinner on the ground, come and bring a basket lunch.

C. R. Copeland, pastor.

Mr. and Mrs. Frank Greer of California visited with friends here one day last week. They were enroute to Morton for a visit with relatives.

WHERE CONGRESS FAILED

Perhaps the most signal failure of the last Congress was the budget it approved. The reductions made were far short of the forecasts, and the promise that every non-essential item would be pared, was not kept.

Few complain of the high appropriations made for the military services, the foreign aid program, and other unavoidable expenses. But the tax-burdened public has every right to call Congress to account for heavy spending for purposes which which could and should be a function of private enterprise. A notable example of that is the government power projects. Early in the session, a House committee made heavy cuts in items in the President's proposed budget dealing with socialized power. But those projected economies were short-lived. One by one, most of them were restored in whole or in part, as local pressure groups clamored for more money, and Senators and Representatives sang a different tune in the hop of keeping the folks back home happy.

What this means is that hundreds of millions of tax dollars will now be spent on work of a strictly commercial nature which would otherwise be financed by private, investments dollars. It means, further, that the electric industry will be discouraged from expanding as it normally would—and so discouraged from building facilities which would create new taxable assets for all units of government. And, lastly, it means that an alien concept of nationalization of industry has taken another step forward in our country.

Sooner or later, the nation must come to grips with this issue. We can't indefinitely talk about the merits of free enterprise—and at the same time promote socialism and the super-state.

CROP AND LIVESTOCK ROUND UP

Increased planting of hybrid corn in Cotton States is helping to improve the relatively low corn yields per acre. The need for higher yields is indicated by the fact that the cost of producing a bushel of corn in Southwestern States averages about 60 cents per bushel higher than in the Corn Belt States, although the Corn Belt has higher costs per acre.

Early lambs were one of the best-paying farm enterprises in Arkansas this year, and M. W. Muldrow, Extension Animal Husbandman, advises the planting of small grain in August or September to provide grazing for 1948 lambs.

Plowing under cotton stalks as soon as possible after picking is

two-way insurance for next year's crop. It improves soil condition and fertility, and reduces insects. Wider use of fertilizers in liquid form seems likely from recent developments. Some advantages of liquid fertilizers include: more uniform applications, quicker results, less danger of burning and the use of highly concentrated fertilizers at any desired rates.

Supplemental feeding of cottonseed meal to offset reduced grazing from pastures during August and September is usually profitable to dairymen and other livestock producers.

Dehydrated sweet potato meal compared favorably with corn meal in dairy rations in Georgia tests, and the butter from cows fed sweet potato meal had a richer color and was higher in vitamin A content.

Louisiana Experiment Station

studies show that the increase in the calf crop, alone, will usually pay the cost of improving pastures, to say nothing of weight gains or milk increases.

Mr. and Mrs. A. B. Wren and children of Weslaco were guests in the home of Mr. and Mrs. Clayton Wren several days last week.

Mr. and Mrs. Leroy Roberts of Wayside, Texas, visited with Mr. Roberts' sister, Mrs. Dee Mullican, over the week end.

Miss Helen Haymes visited with friends in Lorraine and Big Spring last Sunday.

Eleven and one half million people were working on farms in the United States on July 1. Farm wages average \$114 per month, without board.

When I was a little, boy I visited Hot Springs, Ark., with my parents and my most vivid recollection was a visit to Happy Hollor. As the name suggests, it was a wooded spot at the foot of mountains and there were burros that a boy could ride. In Happy Hollor, we chanced to meet a lady and her little son from our home town; he was my chum. He and I took a ride on burros and had our picture taken together.

Not long after that, Stewart and his mother asked my mother for the picture, and of course the request was granted.

Recently while in Hot Springs I asked, not very hopefully, if Happy Hollor was still there—and was surprised when told that after more than 40 years, it still was. So Col. Tom Boles, superintendent of Hot Springs National Park, drove by there—and the memories came thronging back. The spot was little changed except there were ponies now and a surrey for hire, "with the fringe on top."

Col. Boles for years was in charge of Carleshad Cavern and there he met many Texans, so he says he is always especially glad to meet folks from this state. In every crowd that went through the cavern, there were always more from Texas than any other state and so when he called the roll of states, giving the number of visitors from each one, he would skip Texas on purpose and call it last.

The colonel took us—my wife her mother and me—for a day that climb the two big mountains light drive up the winding roads over looking Hot Springs—a scenic experience. We also took the same drive but at night with Carl Crow, business man, and as you looked down on the lofty towers of the Arlington far below and the innumerable lights of many colors, blinking and twinkling like stars, and then looked up at the real stars while the wind whispered through the pines and their aromatic odor drifted to your nostrils, that's something to remember!

Mr. and Mrs. A. V. Kemletz of Abilene spent the week end with Mrs. Kemletz' mother, Mrs. Louise B. Ingram, and brother, Preston Ingram.

Leon Tuggle of Fort Worth visited relatives and friends here over the week end.

Mrs. J. M. Roberson of Vera visited her niece, Mrs. Dee Mullican, over the week end.

Proper Care Of Grasses Will Give Maximum Grazing

If proper season of grazing is used in pasture management much can be done to improve the grass cover and to have grass for livestock during the dry summer months. It has been noticed that where concentrated grazing was used in the winter and early spring months to control weeds & annual grasses and to utilize certain perennial grasses which can best be utilized at that time, to defer during the growing season of summer grasses to improve their stand on the ground, a much better turf resulted.

Tobacco grass is best utilized during early spring and cattle should not be made to utilize it after it makes a seed head because it is not as palatable at that season, and other good grasses will be harmed by too close grazing. Two inches of buffalo grass should remain on the ground at all times to protect the soil from erosion.

Technicians of the Soil Conservation Service assisting the Wichita Brazos Soil Conservation District are siding rancher and farmer cooperators in range surveys to determine amount of grass cover, kinds of grasses and when it would be best to utilize them. A complete display of native and introduced grasses is available in the Soil Conservation Office for

farmers and ranchers who wish to learn to distinguish the good grasses from the poor.

Mr. and Mrs. E. O. Tuggle and daughter of Fort Worth visited in the Ben Tuggle home and with Mrs. Tuggle's sister, Mrs. Dee Mullican, over the week end.

Mr. and Mrs. Lee Haymes and Joey Davis spent the week end in Plainview and Lubbock, visiting relatives. At Lubbock they attended the annual reunion of Knox county old settlers, held at McKenzie Park on Sunday.

Mrs. Emma Connolly of Haskell spent the week end here with her sister, Mrs. C. H. Mullican.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

Knox Prairie Philosopher Comes Out With The "J. A. Plan" As Means Of World-Wide Peace And Harmony

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek is off on international topics again, as his letter this week reveals. It's the heat.

Dear editor,
If you get a letter from me this week it's only out of force of habit as the weather lately has been too hot to even think and has been too hot to work for six weeks ahead of that. In fact, while I understand hot weather is hard on insects and good on cotton, there are times when I put my wellbeing ahead of crops and am perfectly willing to live in the same world with insects provided we're both comfortable.

J. A.

But while I was out here on the creek bank coolin' off Monday afternoon I picked up a copy of the Abilene paper which blew in with a dust storm this morning and read where Winston Churchill made a speech in England the other day and said he was willing to forget differences of opinion and be broad-minded and join up with the labor government over there in asking the United States for another loan, as the one they

got last spring is already used up, and it struck me that Mr. Churchill has hit the note for cooperation on a world-wide basis.

Nations can squabble and fuss over complicated proposals like United Nations veto power, the Greek situation, the Palestine problem, the conflict of Russia and the United States, the Marshall Plan, the Molotov Plan, and so forth, but there is one idea I have noticed everybody can agree on, don't make no difference whether its England or Russia or Denmark or Spain or Australia or Argentina or the rest of the countries which neither you nor me can name all of them, and that is that they is all willing to borrow money from the United States.

You can take a international conference with everybody clawin' at each other's throat and shoutin' and yammerin' over who's tryin' to knife who, with the situation lookin' hopeless and World War Three on the verge of bustin' loose, and let somebody suggest floatin a loan from the United States and Molotov will throw his arms around Churchill and Stalin will smile at Atlee and France will turn on a record playin' in the Star Spangled Banner and the vote will carry by a hundred percent unanimous majority.

In fact, the idea is so effective I am suggestin as the "J. A." Plan for world-wide peace and harmony, which I will appreciate you copyrightin for me, and I will personally guarantee it will maintain world-wide harmony as long as the United States can hold out.

Yours faithfully,
J. A.

Mr. and Mrs. George Salem and daughters, Alva and Nadine, returned home last week from a vacation trip to Cleveland, Ohio; points in Canada, and to Washington, D. C.

Mrs. Lucile Stodghill left last week for a visit with relatives in Silverton and Amarillo.

Mrs. L. E. Loving and son, Dean, of Seymour visited with Mrs. Billy Mitchell and Allen Loving last Saturday.

Rancher Does Unbelievable In Grazing Stock

Old time ranchmen of Archer County are saying that native West Texas range grasses do almost "unbelievable things" in grazing when given a chance.

The ranchmen are giving their grasses that chance by clearing mesquite growth off the range, and giving forage grasses room to grow, reports C. W. Wilhoit, Archer County agricultural agent. Wilhoit says that Wayne B. Ray, stockman in the county, has a certain track of land that would carry 40 head of cows 10 to 20 years ago, if the cattle were given extra feed three months out of the year. Seven years ago the mesquite was grubbed of the pasture, and for the past three years 100 to 120 stocker cattle have been sold off the same land.

Ray tells the county agent that, this increase has come about with out the extra feed bill and that his cows have been in even better flesh than when they were getting extra feed on the mesquite pasture.

Mr. and Mrs. Carl Kilcrease and children of Childress spent the week end with relatives and friends here.

Be Safe-Get Larger.... Butane Tanks

To be safe during winter months, you are urged to get larger butane tanks and store your winter gas before cold weather. Get tanks large enough to store your entire winter supply.

The heavy demand on refineries producing butane gas makes it impossible for them to produce enough during winter months. Heavy consumption in winter makes a heavy burden on them, and on your distributor.

Come in—let's talk over the advantages of adequate storage tanks.

Mrs. R. V. Hood Celebrates 80th Birthday Sunday

Mrs. R. V. Hood of Munday celebrated her 80th birthday last Sunday, when all of her children were together for the occasion. This was the first time the entire group had been together in 40 years, it was stated.

All enjoyed visiting together during the day; kodak pictures were taken, and other activities were enjoyed. Those present are as follows:

Mrs. R. V. Hood, Jim Hood and son, Lamar Hood; Mr. and Mrs. Clarence Hood and children, Carol Ann, Darlene and Joyce; Mr. and Mrs. Roscoe Hood and two grandchildren, Mr. and Mrs. Pascal Hood, Susie Smith and son, Horace Smith and family, Horace Hood, Doyl Hood and wife and son, Mr. and Mrs. Wesley Hood and Jo Ann, Mr. and Mrs. Leonard Hood, W. P. Hood and children, Carletta and Karen; Mr. and Mrs. Ed Walker and children,

Genevieve, Rambo and Louise Walker; Mr. and Mrs. Arthur Beats and two children; Mr. and Mrs. Homer Hood and children, Bobbie Jo and Bennie; Mr. and Mrs. J. T. Brown and two sons, Mr. and Mrs. Raymond Brown and children, Evelyn, Robert Roth and Ellen; Mr. and Mrs. I. B. Lewallen and children, Mary Lou, John Edward, Dora Mae and Bettie Jo; Mr. and Mrs. Huie Dennis and children, Kenneth and Carol; Mr. and Mrs. Chuck Schroeder and daughter, Charla Jean; Mr. and Mrs. Joe Gray and children, Joe David and Cheryl Jean.

Smith Family Reunion Held At Seymour Sunday

The Smith family reunion was held at Seymour on Sunday, August 10. Those present for the enjoyable affair are as follows:

Mrs. Annah Smith, Munday; Mrs. Lizzie Quicksall, Dale, Texas; Mr. and Mrs. Evert Castleberry and sons, Bobby and Lar-

COOL CHECK

THIS charming yellow dress is "different" because of its unusual shirred bodice and short doling-man-type sleeves. There's style news, too, in the fine one-denier fabric made of Avisco rayon. It's cool, serviceable, and washable.

ry, San Antonio; Mrs. Ozell Hanna and daughter, Red Rock; Mr. and Mrs. J. W. Quicksall, Austin; Mr. and Mrs. P. H. Routon, Mr. and Mrs. Vernon Routon and children, Jimmie and Gennett; Mrs. Buck Clous, Mrs. T. M. Cloud, Mr. and Mrs. Earl Howery and Beth and Tom, Mr. and Mrs. J. C. Watson, Mr. and Mrs. Tommie Cloud, all of Goree;

Mr. and Mrs. J. N. Fields, Fort Worth; Mr. and Mrs. H. L. Fields and daughter, Ann, Fort Worth; Mrs. Fate Chamberlin, Mr. and Mrs. Vance Wadlington and daughter, Mona Ruth, Mr. and Mrs. Lloy Wadlington and daughter, Linda Pearl, all of Stephenville; Mr. and Mrs. Charles Wadlington, Abilene; Mr. and Mrs. G. A. White and daughter, Ineta, Graham; Mrs. Leo Cunningham and Mr. and Mrs. George White, Jr., Goree; Mr. and Mrs. Houston Smith, Wichita Falls; Mr. and Mrs. Herman Smith and daughter, Janice, Odessa.

Visitors included Mrs. Belrose and Mr. and Mrs. Walter Hicks of Goree.

A Want Ad in The Times Pays

County H. D. Clubs Meet On Friday At Court House

Representatives of three Home Demonstration Clubs met Friday, August 8, 1947, in the assembly room at the court house for Home Demonstration Club Council. Present were Mrs. R. M. Almanrode and Mrs. W. E. Pack, Sunset, Mrs. O. S. Turner and Mrs. W. O. Solomon, Truscott, and Mrs. Carl Patterson, Benjamin, and the agent, Eugenia Butler. Visiting was Miss Barbara Almanrode. An informal discussion meeting was held.

Mrs. Wesley Trainham, Vera, reported on the book "So You Were Elected," which had been suggested as a good book to add to the council library.

Mrs. Almanrode will contact Miss Elizabeth Elliot, Foard County, for the earliest T. H. D. A. reading lists, and copies will be re-distributed among the club representatives at the next meeting.

The agent reported that the following frozen fruits can be ordered through the local marketing chairman, if members are interested:

Apricots, 18c per pound; Peaches, 18c per pound; Cherries 25c per pound.

These fruits come in 10 pound unbroken lots—fresh, frozen and partially sweetened.

The Council marketing chairman, Mrs. Lee Snallum, will handle the orders. These fruits will be available from the Munday Locker Plant, and arrangements can be made for delivery to clubs having orders of 20 lots or more.

Unless members are notified otherwise, regular council meeting next month will be September 5, 1947. It is hoped that all clubs will make a special effort to have a good representation. Reports on the encampment will be given at that time.

CLARKE SENTER WEDDING SET AUGUST 31

Announcement has been made of the approaching marriage of Miss Loma Rae Clarke, daughter of Mr. and Mrs. Tom Clarke, to Earl Senter. The wedding will be on August 31 in Dallas.

Miss Clarke formerly lived in the Sunset community.

Mrs. C. M. Davis and children of Sweetwater visited with Mrs. Davis' parents, Mr. and Mrs. Walter Harris, over the week end.

LOCALS

Mrs. Celo Patterson and daughter, Jimmie, of Memphis, Tenn. spent several days here last week, visiting with Mrs. J. B. Bowden and other relatives. Mrs. Patterson is a sister of Mrs. Bowden.

Mrs. Lizzie Quicksall of Dale, Texas, is here for a visit with her mother, Mrs. A. J. Smith.

Mr. and Mrs. Luke Birkenfeld and children, Edwin Paul and Sharon Kay, have returned from several days' visit in Dallas and Fort Worth. They were accompanied on the trip by Mrs. H. D. Gamell of Rochester.

Mr. and Mrs. Nick Hoepfner and son, Nicky, visited in the home of Mrs. Hoepfner's parents over the week end. They were accompanied by Mrs. L. D. Jones and daughter, Betty.

ON THE BEACH

This eye-stopper in Hope Skillman satin-striped cotton is ready for a romp, too—the ideal combination for beach wear. The three-piece beach suit has fitted little boy shorts, bra, and its own long-sleeved bony jacket. One large patch pocket on the back of the jacket adds a novelty touch.

Mr. and Mrs. J. J. Keel and daughter, Leona, left last Tuesday for Baytown for several days' visit in the home of Mr. and Mrs. Jimmie Frazier.

Mr. and Mrs. Marvin Peek and son of Paint Rock were guests of Mrs. Peek's parents, Rev. and Mrs. W. H. Albertson, over the week end.

Mrs. R. L. Ratliff and children, Jean and Charles, were visitors in Dallas several days last week.

Mr. and Mrs. Marvin Warren of Plainview, Mr. and Mrs. Troy Warren of Wink and Mr. and Mrs. Weldon Warren and children, Dickie and Johnnie, of Goree visited their parents, Mr. and Mrs. S. J. Warren several days last week.

Mr. and Mrs. Joe Duke and daughter, Jo Ann, and Mr. and Mrs. B. A. Yarbrough returned home Tuesday from several days' visit in Ruidosa, N. M.

Amateur wiring or overloading of electrical equipment is a big cause of disastrous fires on Texas farms.

The cotton insect has started getting the one bale out of every seven that he usually gets in Texas. Insect control is necessary if Texas farmers get that extra bale to the gin.

Marketing Program Revives Interest In Lowly Peanut

Peanut trading continued light this week with prices on shelled goods unchanged, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Buyers began to show more interest in new crop peanuts, especially for future delivery, since the announcement of the 1947 peanut marketing program.

Oil mills had about finished crushing peanuts for the season, and very little farmers' stock peanuts changed hands. Peanut meal prices averaged slightly lower, with 43 percent protein meal selling at \$76 to \$80 per ton at the mill.

Under the new government program, southwest farmers' stock Spanish peanuts get support at .01 per ton for base grade 70 percent sound mature kernels. Runner type draw \$185 for base grade 65 percent. For peanuts above or below base grade, \$2.90 per ton is added to or subtracted from the base price on Spanish, and \$2.50 on runners.

Other features of the support program are similar to last year's except that dealers who wish to participate must agree to pay regular scheduled prices to farmers.

Many southwest peanut areas need rain. North Texas and Oklahoma continued hot and dry this week and some fields began to wilt. Good rains would materially improve crop prospects. Fairly good rains in South Texas have helped the growing crop.

FIXING UP the HOME By Diane Greiter

Don't Let Feet Get Tired

RESILIENCY in the floors over which we walk all day, and especially in those sections on which we stand for long hours at a time, is something greatly to be desired. As all of us know, house work can be very fatiguing when it has to be done while standing on a hard, unyielding surface.

Basement and kitchen floors, because of the moisture conditions which prevail, usually are made of materials which have less "give" than floors in other rooms. They can't be carpeted, either. I've found it to be a good idea to keep a panel or two of insulating board on hand

in these hard-floored rooms. Then, when I have ironing or some other standing job to do, I use it to stand on. The insulating board is soft and resilient, and it acts as a cushion.

You can get insulating board from your lumber dealer. It comes in four-foot widths and the man of the house can easily saw it into convenient sizes. It's the material that is so widely used nowadays in building interior walls and ceilings. Insulating board, incidentally, can also be used as a padding under rugs and carpets. Its resilience makes it ideal for this use, too, since it's an insulating material, it will help to keep heat from escaping through the floor.

Uncle Bud Rogers Observes His 86th Birthday Sunday

U. S. (Uncle Bud) Rogers, pioneer resident of Munday, observed his eighty-sixth birthday last Sunday, when all of his children and their families gathered at the Rogers home in Munday.

The family enjoyed a delicious dinner at noon, and the entire day was spent in visiting. This is the first time all of the family had been together in some time. Present were the following:

Mr. and Mrs. Gordon Sweatt of Silvertown, Mr. and Mrs. Levey Burton of Fort Worth, Mr. and Mrs. Bernard Stodghill and family and Mr. and Mrs. Troy Warren, Wink; Mr. and Mrs. Joe Rogers and two children, Fort Worth; Mr. and Mrs. Dorse Rogers and son, Bill, Goree; Mrs. Alice Wray, Kermit.

Mr. and Mrs. Wade T. Mahan were business visitors in Wichita Falls last Friday.

Mr. and Mrs. M. L. Joyce and son, Joe, of Cisco spent the week end here with Mrs. Joyce's mother Mrs. J. B. Bowden. They are planning to move to Albany soon.

Uncle Sam Says

How many things can you buy which guarantee you these services for 10 years - \$1 for every \$3 just for holding on to the property for 10 years; money back for emergencies; and if it is lost or stolen nobody else has the right to cash it. Every time you buy a United States Savings Bond you get these benefits. And that's not all. The Treasury Department registers the bond in your name, the co-owner or beneficiary you designate. Keep a personal record of the serial numbers of your bonds, because it will make much easier the replacement of any Bond you may lose. Every U. S. Savings Bond represents service not only with a smile, but with profit.

U. S. Treasury Department

Service

As authorized sales and service representatives of the Chevrolet Motor Division, General Motors Corporation, in this territory, our job is to render the automobile and truck operators of Munday and vicinity courteous, expert and efficient service at all times.

This is in keeping with the long established policy of Chevrolet, and your patronage will be appreciated. Come in to see us. You will be most welcome.

Be wise! Keep your present car in good running condition, as you may have to depend on it much longer than you now anticipate.

742 MILLION BIRDS
There are now over 742,047,000 chickens on farms in the United States, according to a report released by the U. S. Department of Agriculture's Bureau of Agricultural Economics.

The estimate, based on reports from rural mail carriers, crop and stock reporters and hatcheries, shows chicken population to be about the same as a year ago, but three percent less than the 1936-45 average.

Texas is listed as having 42,459,000 chickens, more than any other state except Iowa, with 54,169,000.

Mr. and Mrs. Bob Jarvis have returned home after spending the past six weeks in Roy, New Mexico.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin—School days will soon be here again. Thousands of Texas boys and girls and teachers will be returning to the schools. Each child entering school should be as free as possible of any physical defects which can be corrected. The earlier these are corrected the better chance the child has for academic progress and for good social and emotional development, says Dr. Geo. W. Cox, State Health Officer.

August is the time for a complete medical and dental check-up. Eyes, ears, nose, throat, and teeth should be carefully examined by the family doctor and dentist, and all remediable defects corrected. If such defects are neglected, they may result in serious damage to growth and development.

Dental corrections often take time, but a person is repaid many times over for good dental care. Healthy teeth lend attractiveness to the personal appearance, enabling thorough chewing of food, and promote general good health.

In schoolrooms, children expose each other to many communicable diseases, especially the common cold and diseases such as measles, scarlet fever, whooping cough, and diphtheria. Protect the child from diphtheria and whooping, as well as smallpox, by safe and dependable immunization.

Parents, see that your child has complete protective treatment against preventable diseases; a clean healthy throat and mouth; the best possible vision and hearing; adequate diet, sleep and rest to build up resistance against disease. It will pay good dividends, and your child will be Ready For School.

Mrs. W. T. Scott of Abilene spent several days last week with her son-in-law and daughter, Mr. and Mrs. Leland Thurman.

Mr. and Mrs. Gene W. Harrell and daughter, Natalie, visited with relatives in Oklahoma City over the week end. Mrs. Harrell and Natalie went on to Webb City, Mo., for a visit with relatives and will return home the latter part of this week.

Mr. and Mrs. Bob Jarvis have returned home after spending the past six weeks in Roy, New Mexico.

Mr. and Mrs. Aaron Blanton and family of Lamesa visited relatives and friends here over the week end.

Mrs. A. E. Womble left last week for DeLeon, where she is visiting with relatives and friends.

Mrs. Jack Hensley of Delhart is here for a visit with her parents, Mr. and Mrs. L. L. Womble, and with other relatives.

E. T. Goss and Lon Blackburn of Seymour were visitors here last Friday night.

Like To Cut Down On Production Costs?

Do It With Quality Red Chain Feed!

Good feed costs less because it takes less good feed to get the results you want. Good feed gets better results because it contains a greater variety of necessary feed ingredients. Good feed gets better results because it carries a finer balance of proteins, carbohydrates, mineral and vitamins and because it contains all the known ingredients required for better feeding practices. You get this in Red Chain feed.

We are starting our fall hatch Saturday. If you want fall chicks, place your order with us. We can use a few more hatching eggs—heavies only.

Munday Sanitary Hatchery
Carl George, mgr.

Veterans News

Army Engineers have been given the "green light" on construction of new Veterans Administration hospitals at Shreveport, La., and Big Spring, Texas, VA announced this week.

It is expected that the engineers will advertise for bids on the hospitals within sixty days.

Meanwhile, by order of General Omar Bradley, VA's new hospital construction program was being considerably revised because of the mounting costs of building.

In order to build the hospitals with the money originally appropriated by Congress, it will be necessary to eliminate all features not essential to good medical treatment for veterans, Bradley said.

It is expected that major modifications in plans for hospitals at Bonham and Dallas, Texas, New

Orleans, Louisiana, and Mound Bayou and Tupelo, Mississippi, will be made.

Plans for hospitals at Houston and El Paso, Texas, will not be affected by the order.

Desirable but essential features such as theatres, office space and doctors and nurses quarters are being eliminated from plans to cut the cost of the new hospital construction program.

A record enrollment of nearly 100,000 World War II veterans in Southwestern colleges and universities this fall is anticipated by the Veterans Administration and educators.

VA officials expect about a 15 per cent increase in the number of veterans attending college under the GI Bill as compared to last spring's enrollment of 85,000 in the higher institutions of learning in Texas, Louisiana and Mississippi.

Veterans entering school for the first time should obtain their certificates of eligibility immediately from the proper VA regional office. Others who plan to change schools or courses of study this fall must obtain prior approval from VA.

Veterans enrolled in school prior to this fall and not planning to change courses or transfer to another school may continue their education without contacting the Veterans Administration.

Questions and Answers
Q. I am a World War II veteran and work part time. I in-

tend to apply for readjustment allowance and would like to know how the amount I received is computed.

A. As a partially employed veteran you can receive the maximum number of allowances to which the length of your service in the armed forces entitles you, but each weekly allowance would be reduced by the wages you receive so that readjustment allowances and wages combined will not exceed \$23 a week. Each weekly allowance thus received, regardless of the amount of payment, would reduce by one the number of remaining payments available.

Q. I was released from the army with a bad conduct discharge and would like to know if I am entitled to any of the benefits under the GI Bill?

A. You should contact your nearest Veterans Administration office for a decision as to whether you were discharged under conditions other than dishonorable since that is the determining factor for entitlement to benefits.

Q. Will the amount of compensation I receive for a service incurred disability be reduced in event I find employment?

A. No. Earnings from such work do not effect the amount of compensation received.

Q. Is there any limit to the amount I can borrow under the GI Bill?

A. You can borrow any amount that the lender is willing to lend you, but VA will guarantee only 50 percent of the amount up to \$4,000 on a real estate loan and up to \$2,000 on a business loan.

Pointers Given On The Planting Of Fruit Trees

College Station—Letters of inquiry from Texas fruit growers have prompted Extension horticulturists at Texas A. & M. College to offer a few pointers on selecting a site for planting a new orchard this fall, winter or early spring.

Big point to remember, says the horticulturists, is getting the soil in good shape early enough that late summer and fall rains can put the finishing touches on the ground so that it will be ready when planting time comes around.

Drainage and soil type are two things to watch in selecting that orchard location now. Since fruit trees don't like "wet feet," both top and subsoil must have good drainage. Land with a slight slope to the northeast is good, since a slope protects the trees from prevailing winds and still offers thorough drainage.

Growers have found that good orchard soil has these qualities: moderately rich (over-rich soil may cause to fast a vegetative growth); high in organic matter; a pH, or acidity rating, of 6.5 to 7; completely free of such trouble makers as nematodes, cotton root rot, oak root rot, crown gall or Bermuda grass. Most fruit trees produce on many different soil types if drainage and ailing is good. However, the horticulturists like to see orchards on 12 to 18-inch deep sandy or sandy loam soil, with well-drained sandy clay

My Appreciation And Christian Good Wishes To My Good Friends In Munday

(By Joe W. Burton)

The friendly co-operation of the people of Munday in the recent days of revival at the Baptist church was such a real inspiration to me, personally, that I want to give this public expression of my appreciation.

First of all, of course, I am grateful to the noble pastor, Rev. W. H. Albertson, and to his good church. Every one in that great congregation participated wholeheartedly in the services.

Especially were we fortunate both in the quality and the spirit of the music led by Arthur Nelson with his vibra-harp. Praise to God in song, issuing from hearts filled with His love, brought blessings to us all at each service.

To the men of Munday—men of business, and of the professions, and from the farms—I am grateful for a spirit which marked them sincerely seeking to honor God in the marts of trade.

Such a purpose to do business, not for personal profit primarily, but in service to humanity and to God's glory I trust may be increasingly manifest in the work-a-day of life in my home town.

Mr. Edgar opened the columns of The Munday Times to our re-

vival effort in gracious gesture of sincere interest. We felt that he was a partner with us in the two weeks meeting. For that I am grateful, and I am sure that the entire community is glad to witness this evidence of social and spiritual conscience on the part of a good newspaper.

To one and all—pastor, deacons, singers, friends, comrades all—I say, thank you and God bless you. Yours for a cleaner, better, Godlier town.

Joe W. Burton

MIRACLE Flue-Vented Wall Heater

. . . perfect answer to heating problems for homes and tourist cottages already built!

Safe-Aire Miracle Flue-Vented Wall Heaters—entirely new, self-contained heating units—fit snugly into any outside wall. The exclusive, built-in SAFE-FLUE eliminates the usual flue or chimney pipe used with other modern Flue-Vented gas heating equipment. In addition, the built-in SAFE-FLUE eliminates annoying wall sweating and stuffy air. Gently circulated, healthful heat is controlled at floor level where warmth is felt first. Ease of installation and wonderful performance of Safe-Aire make it today's Miracle Wall Heater. If construction details of your building will not permit installation of flues required by other types of Flue Vented equipment, select SAFE-AIRE for prompt, convenient installation before the beginning of winter. Ask to see the Miracle Wall Heater today.

SAFE-AIRE'S SAFE-FLUE

. . . as seen from the outside after installation is completed. When painted to match outside wall it is barely noticeable. Safe-Aire may be installed in garages, offices, lodges—upstairs or downstairs.

New System Of Records Adopted By Club Boys

Knox county 4-H calf feeders this month adopted a new system of keeping records on their calves. Through a new system recommended by the U. S. D. A., approximate weights of calves may be ascertained by measuring the circumference of the heart girth, immediately behind the forelegs. To keep those informed who are interested in 4-H boys and their work, monthly reports of the calves' weights and gains will be published. Weights as of August 1 of the various calves are as follows:

Merle Tackitt calf, 723; Billy Cammack, three calves, 352, 662 and 533; Max Bradley, two calves, 753 and 723; H. C. Chafin, 598; Standley D. Glover, 710; Randall Walling, 533; Dennis Walling, 611; Donald Ray Pulst, two calves, 1083 and 783; J. G. Pults, three calves, 1117, 845 and 637; Fred Lewis Crenshaw, 753; Bud Crenshaw, two calves, 571 and 449; Tom Bush Craft, 624; Donald Joe Jackson, 473; Dale Jackson, 437; Tommy Shaw, 571; George Ray Baty, 393; Charles Williams, 484, and Gerald Myers, 665. The boys are now preparing to

finish their calves by feeding concentrates containing more of the heavy grains, such as corn and wheat. They are teaching the calves to stand and lead properly, since they want to be prepared for the first showing which will occur within the next two months, when Knox county has its annual tour of calf projects, attended by 4-H feeders, their parents and those interested in the feeding projects.

Auction Sale Has Large Run

The Munday Livestock Commission Co. reports a good run of cattle and hogs for last Tuesday's sale.

Canner and cutter cows sold from \$8.50 to \$11 per hundred; butcher cows, \$12 to \$14; fat cows \$14.50 to \$18; butcher bulls, \$11.50 to \$14; fat bulls, \$14.50 to \$15.60; butcher calves, \$12.50 to \$17.50; fat calves, \$18 to \$23; butcher yearlings, \$12 to \$18.50; fat yearlings, \$19 to \$23.

Cows and calves sold by the fair from \$100 to \$170.

Wes-Tex Fair At Abilene To Open Sept. 15

Abilene—The 23rd annual West Texas Fair and Sheriff's Posse Rodeo will be held at the West Texas Fair Grounds, September 15-20, with rodeo performances each evening at 8:00 p. m. and afternoon performances at 2:00 p. m. on Monday, Wednesday and Saturday.

The 1947 Fair will be officially opened at 10:00 a. m., September 15, with a colorful parade, led by the Hardin-Simmons world famed Cowboy Band. One of the feature attractions of the parade will be the giant animal balloons, which were featured in New York. More than thirty beautiful floats have already been entered, and several college and high school bands will be on hand to add music and color in the event. Mounted rodeo performers, quarterhorses and flashing palominos will be in the parade.

Cutting horse contests, quarterhorse races and specialty acts will be held on Tuesday, Thursday and Friday afternoons.

Bill Hames shows will be on the midway with the latest rides and shows to entertain both young and old.

The exhibition buildings have been remodeled and enlarged to take care of the hundreds of exhibits which will be on display during the six days. These will include manufacturers, retailers, community agriculture exhibits, automobiles, farm machinery, road machinery and others.

Auto Industry Urges Repeal Of Motorist Taxes

Washington—The Federal automotive excise tax was described as "a hidden tax which feeds to the extent of greediness upon the economic life blood of people of small means" by A. E. Barit, president of Hudson Motor Car Co., Detroit, in testimony before the House Ways and Means Committee. The Committee currently is considering changes in the Federal excise tax system.

Speaking as chairman of the Taxation Committee of the Automotive Manufacturers Association, Mr. Barit pointed out to the Committee that about three-fifths of the \$796 million annual Federal Motorist tax is paid by people earning less than \$3,000 a year.

"This burden of taxation," he declared, "is placed upon people who have little or no option in the matter, since in the majority of cases the automobile is operated because it has become a necessity in their daily lives."

The manufacturers also oppose the Federal excise taxes on cars, trucks, parts, accessories, tires, tubes, and gasoline and oil, he testified, for the reasons that:

They are discriminatory, being levied on a necessity while other necessities are not taxed;

They are unfair, since the bulk of the burden falls upon the 12.5 million people who live in 2,314 towns and villages which do not have buses or street cars and on the 19 million who live on farms and depend almost entirely upon automotive transportation;

They are multiple taxation, since they are imposed in addition to \$1,700,000,000 in state and local taxes on motorists; and,

They threaten employment in the automotive industries, by adding substantially to the costs of buying and operating cars and trucks.

"While the automobile industry is still enjoying a strong demand for its products, we have been cautioned that a change may be imminent . . . and these excise taxes are so large that they would beyond question seriously affect sales in a competitive period," he explained.

The motor industry is responsible for approximately one of every seven paid jobs in the United States, providing employment for 8.2 million persons in the production, sale, and use of cars and trucks, and, he added, it is likewise responsible for a large proportion of employment in the steel, rubber, glass, leather, lead, tin and cotton, and other supplying industries.

Because reduction in sales or use of automobile and trucks caused by unfair taxation would affect employment in a major part of the nation's economy, Mr. Barit urged the legislators that "it would be

better to err on the side of too early a tax change rather than too late."

"If Congress waits until the need for eliminating the Federal excise taxes upon the motorist is clearly affecting business to the point of restricting employment, then it will be too late to maintain our present momentum in production and sales," he concluded.

Use Times Want Ads
