

TO VOTE ON HOSPITAL BONDS SATURDAY

Kracker Krumb's Odd Bits Salvaged At Random

"Now, it's time for the news—but first—have you ever tried any of that Gladiola flour, or Melba cigars, or something?"

Nearly all your radio news-casts start off just about that way. Well, we want to talk to you about something—but first:

Have you helped us on that note lately? Many have, and some haven't. What category are you in?

If the date after your name on this paper reads 11-1-48, then you haven't—and you need to. If it reads further back than that, you sure need to!

Fact is that pretty soon we're going to revise our mailing list, and your subscription needs to be plumb up to snuff when we do.

The note continues to come due each month, and your subscription will help a big heap. Your renewal will insure your getting the paper all during 1949—your delay won't.

And now the news...

We have a pretty good county hospital, in fact, the best one we've ever had. But it's just like we are, and you are—it's in debt.

It also needs some new things to make it a better hospital, where more efficient work is done, where better care is given patients.

When the bond issue for the new wing was voted, those in charge figured things pretty close. They figured it too close, in fact.

But the job could have been done with \$50,000 at the time the bonds were voted. But things happened, then, and happened fast.

Costs of materials and equipment started an upward spiral, and it seemed there wasn't any stopping place. The new wing was started, and it had to be finished.

So the new wing was finished, and some equipment was added, but our Commissioners' Court found out that they had spent \$63,000 on the hospital and had only \$50,000 to pay out.

This left a deficit. You know what a deficit is? You start out to drive your car ten miles, but go only five miles and run out of gasoline, then you have a deficit. Just not enough to get you there.

So our commissioners wound up with a deficit, and they didn't get as far as they needed to go!

The deficit is the difference between \$63,000 and \$50,000—which is \$13,000. It's a debt against the hospital for things that it had to have in the new wing so this portion could be used.

So they stopped there with this deficit, but with a need for \$12,000 more. We still have the deficit and the need.

So next Saturday you'll get to vote on a \$25,000 bond issue to take care of this deficit and this need.

That makes \$75,000 in all for hospital—the amount which of folks agree should have been ordered when the first election was held. And where will this money go?

First off, the debt will be paid. Then the old antiquated sterilizing equipment will be replaced with new equipment.

You wouldn't want your doctor working on you with instruments that are not sterilized. And they tell us the present sterilizing equipment is 25 years old. (Continued on Last Page)

Children's Pictures Taken Free And Published In The Munday Times

Photographic Studies Of Youngsters To Be Published

"The best investment is in children," says Wm. J. Cameron. "You had better take a good look at them as they pass you on the street, for they are the ones who are going to make a new world for you, and you can catch some glimmer of the dawn in their fresh young faces."

That is a bit of philosophy in which the publishers of this newspaper firmly believe. And because we think our readers should "catch some glimmer of the dawn," we intend to help them do it. That is, of course, with the cooperation of the mothers and fathers of the children of this and surrounding communities.

Nationally Known Studio To Take Pictures

The only way we can give all our readers a good look at these future "world builders" is by publishing pictures of them in a feature series titled "Citizens of Tomorrow."

To assure the latest and best reproduction picture—they must all be of a uniform size and quality—we have made arrangements with the Woltz Studios, nationally known children's photographers, to take these special pictures for us.

Expert children's photographers for the studios, with all the necessary equipment for this specialized work, will be here Wednesday and Thursday, Feb. 2 and 3. The special studio will be set up at The Terry Hotel and will be open from 10 a. m. to 6 p. m. daily.

There Will Be No Charge To Parents

There is no charge to the parents. There are absolutely no strings to this invitation. There is no age limit. It is bonafide in every sense of the word. Parents do not have to be subscribers, nor even readers of this newspaper to take advantage of this feature. Neither are they obligated to purchase pictures after they are taken. Those who want some additional prints may obtain a limited number by arrangement with the studio representative when they select the pose they want printed in the paper. It is entirely up to them!

The More Pictures The Better

The Munday Times simply wants pictures of all the youngsters and the more the better. So Mothers and Fathers of the community in which this paper circulates should remember the day and date, February 2 and 3, at the Terry Hotel and not fail to bring their children to the photographer.

You will be mighty glad, afterwards, if you did, and very, very sorry if you fail to allow your children to participate in this event. The kiddies will have much fun and both Mother and Dad—and the youngsters, too—will be very proud to see their pictures in print later. Many will clip them out and preserve them until Junior grows up.

Reburial For Pfc. Frank E. Morgan To Be In Mississippi

Mr. and Mrs. E. L. Morgan of Munday received word last week that the body of their son, Pfc. Frank E. Morgan, is being returned to the United States for reburial.

Reburial services will be held in Mississippi upon arrival of the body, which time has not been definitely determined.

Pfc. Morgan was killed in action on Okinawa on June 17, 1945. He was born in Mississippi on January 7, 1923, and was 22 years, 5 months and 10 days of age at the time of his death. He served in the U. S. Marines.

Surviving are his parents, a sister, Mrs. Joel Morrow of Munday, and his grandparents, Mr. and Mrs. E. L. Murphy of Clarksdale, Miss., and K. Morgan of Pittsburgh, Mississippi.

New Machinery And Auto Agency To Open Here Soon

H. E. Sharp, formerly of Knox City, is moving into the Mayes building, formerly occupied by the Mahan Funeral Home, and plans to hold the formal opening of his machinery and auto agency soon.

This new firm has the agency for the Massey-Harris line of tractors and machinery and the Kaiser-Frazer automobiles.

Mr. Sharp is a native of West Texas, having been reared in Childress county. He asks the public to watch for the date of his formal opening and to visit this new business establishment.

Former Resident Dies Near Orange

Word has been received here of the death of Lee Briggs, 80, who passed away on January 4, near Orange, Texas, at the home of a son, John Briggs. He was buried at Chisholm's Chapel cemetery in Rockwall county.

Mr. Briggs was one of the pioneer residents of Munday, having lived here from the time the town was organized until about 15 years ago. He operated a store in West Munday, before the present townsite was established, and also served as city secretary of Munday during the early days.

Miss Kay Homer Visits Parents

Miss Kay Homer of Chicago, Ill., visited in the home of her parents, Mr. and Mrs. Louis Homer of Rhineland, recently.

Miss Homer went to Chicago in 1946 to take a position with the Boulevard Model Studio, after having spent some time in Los Angeles and Hollywood, freelance modeling. She is now part owner and director of the studio and is considered one of Chicago's youngest executive directors.

Miss Homer was met in Fort Worth by her sister, Miss Bernadine Homer, and Ralph Lewis of San Antonio, who was also a guest in the Homer home.

Join the MARCH OF DIMES

Table for the March of Dimes campaign for January 14-31, 1949, showing a grid for daily contributions.

TO THE LADY IN THE WINDOW

We went into Harrell's. There on the wrapping counter was a very beautiful "get well quick" card—one of those you send to sick friends.

Curiosity got the better of us. We opened the folder to read its contents, wondering just who remembered who in time of illness.

On the inside was written in pencil: "To the lady in the window."

The lady in the window is a dummy, who represents a patient being treated for polio. Not being endowed with any of the five human senses, she can't appreciate the card.

But your contributions to the "March of Dimes" will be appreciated by those who are waging the fight against polio. Munday needs some \$600 to put her over the top in her quota.

TRAVELER Corinne Neal Cook of Mesquite, editor and publisher of the Texas Mesquiter, is one of the few women who has circled the globe as an accredited war correspondent. But still fewer are those who can claim experiences such as hers. She flew the Air-Lift into Berlin; got behind the Iron Curtain into Czechoslovakia; was in an air raid in Cairo; and had numerous other exciting experiences about which she has been telling audiences since her return to the Lone Star State.

Mahan Funeral Home Moves Into New Location

It wasn't far to move—just one door to the east—but it was a pretty good job at that. Moving operations are just about completed, and the Mahan Funeral Home now occupies the Mayes building, formerly occupied by The Hub Store.

They went to a whole batch of trouble building partitions and things to get the building just like they wanted it. They have a larger display room for caskets, an office for the burial association, a private office so they can close the door and talk in private, a reception room, slumber room, and all the things that go to make the setup complete.

It's really nice in appearance, too, and the boys are proud of it. Next time you go in to pay burial association dues, just look around and see if they don't have a right to be proud.

Sample Copies

Those of you who are not regular subscribers to the Munday Times are receiving a "Sample Copy" this week.

These are being mailed for a two-fold purpose (1) because of the interest in the bond election for the needed repairs and equipment for our Knox County Hospital, and (2) with the hope that you will enjoy this copy of the Times and will see your way clear to become a regular subscriber.

The Times tries to print news of interest to the county, and news from all parts of the county when available. The subscription price is \$2.00 per year.

Cover Crops On Bush Burnett Farms Pay Big Dividends

The Bush Burnett farms report that cover crops last year paid off. Rye and vetch planted on sandy land kept the land from blowing for the first time in several years. This enabled planting to be done in the spring without danger of blowing out. This fall the cotton that was planted on this area produced more than usual. They also report that it was the first time in years that replanting two or three times did not have to be done.

This fall the Bush Burnett farms planted two or three times the usual amount of cover crops and plan to keep it up. The organic matter in our sandy soils and mixed soils has reached a very low stage and is fast reaching the danger point. Cover cropping is one way to restore the life of the soil by adding the organic matter back.

The Wichita-Brazos Soil Conservation District Supervisors and the Soil Conservation Service technicians strongly believe that some sort of cover crops are necessary and vital to the future of a permanent agriculture.

MRS. WILLIAMS TO PRESENT PUPILS IN RECITAL ON TUESDAY

Mrs. Al C. Williams announced this week that she will present her elementary school piano pupils in a recital, Tuesday night, January 25th, at 7:30, in the school auditorium.

Everyone is invited to come and hear these pupils.

What Socialized Medicine Would Mean

There's been much talk about socialized medicine in the United States, with efforts being made in our nation's congress to get such a law passed. We doubt if such a law will ever be passed, simply because the free peoples of America do not want it.

They want to be able to choose their doctor. They want a doctor in whom they have faith and confidence at a time when proper medical care is a matter of life or death. We could not do this under socialized medicine.

They want to go to the hospital of their choice. Or if they have no choice, the one which the doctor of their choice recommends. The doctor who knows you and knows your case history also knows where you can get the medical and hospital care you need. You could not do this under socialized medicine.

Mrs. Reneau Passes Away Here Monday

Mrs. John B. Reneau, Sr., beloved pioneer of the Munday area, passed away at the family home in Munday shortly after five o'clock last Monday afternoon.

Mrs. Reneau had been in poor health for several years, and had been confined to her home for several months. She was thought considerably better until last Friday when she took a turn for the worst.

Born in Arkansas on January 7, 1879, Mrs. Reneau was 70 years and 10 days of age. She and Mr. Reneau, who is a veteran of the Spanish American War, had resided here for many years.

Mrs. Reneau was a member of the Primitive Baptist church.

Surviving her are her husband, John B. Reneau, Sr.; a son, Dr. John B. Reneau, Jr., Munday; three grandchildren; three brothers and four sisters, who are: Ross Johnson, Walters, Oklahoma; Tom Johnson, Brownwood; Henry Johnson, Amarillo; Mrs. Nora Smith, San Jose, New Mexico; Mrs. Benny Heyser, Los Angeles, California; Mrs. Elmer Dickerson and Mrs. Clay Grove, both of Munday.

Funeral services were conducted from the family residence in Munday at three o'clock last Tuesday afternoon, with Rev. Reneau Swindell in charge. Burial was in Johnson cemetery by the Mahan Funeral Home.

Palbearers were Phillip Johnson, Doris Dickerson, Moody Johnson, Ed Johnson, Edwin Johnson and Duaine Johnson.

Pomerian Dog Lost By Travelers On Stop In Munday

Tuck Whitworth, local chief of police, has received a letter from a family in San Diego, California, seeking his help in finding a small dog which was lost in Munday. A portion of the letter follows:

About the first of November, as we got gasoline at a filling station in your town, we lost a little black dog, and I'm writing to see if you have any trace of him.

He is a small black Pomerian, has a white mark on his chest. His two front feet are white. Answers to "Tiny".

He is the pet of three small children, and they have missed him so, I thought I'd better sit down and write you. I would pay a small reward to whoever found him.

I would appreciate it very much if you could find out some information for me, as he was a special pet.

Convention Of Farmers Union To Be In Amarillo

The Texas Farmers Union Convention will be held at the Amarillo Hotel, Amarillo on January 25 and 26, it was announced this week.

At this time, members and duly elected delegates will adopt a program for 1949. All members and anyone else who is interested in family type farming and protecting the farmers' interests are invited to attend this meeting.

James G. Patton, national president who has been appointed by the Truman administration as chairman of the agricultural committee, will be present and will deliver the principal address on Tuesday afternoon, January 25.

Officers and directors for the ensuing year will also be elected during the meeting.

BIRTH ANNOUNCEMENT

A son was born to Mr. and Mrs. Allen Loving last Sunday, January 16th, at the Knox County Hospital. The little son has been named Ricky Lee and weighed seven pounds and ten ounces. Both mother and little son are doing nicely.

\$25,000 Issue To Be Decided By Knox Voters

New Equipment Badly Needed In Hospital

Next Saturday the question of whether or not bonds will be issued for the purpose of paying off indebtedness and equipping the Knox County Hospital will be decided by the voters of Knox county. The election will be held in all voting boxes of the county.

The Commissioners' Court is asking for \$25,000.00 in bonds for the purpose of paying off a debt incurred in equipping the new hospital wing last year, in the amount of \$13,000, and the remaining \$12,000 will be used for adding more equipment, such as a new operating table, new operating room light, cooling systems, and repairs to the old building.

The new wing was built by the commissioners, instead of by contract, last year at a saving of about \$25,000 under the lowest offered bid by contractors.

Rising costs from the time the bonds were first issued until the construction finally got under way made it impossible to keep the cost of the building and equipment within the architect's estimate of \$50,000, which was the amount of the first bond issue, it was stated.

In order to equip the new wing, the county went ahead and purchased the equipment, which incurred a debt of around \$13,000 because the original bond issue was just too small.

The new bond issue is for the purpose of paying off this debt, which is mainly for equipment, and the remaining \$12,000 will be used to improve the operating room and delivery room, replace present antiquated sterilizing equipment now 25 years old and to do badly needed repairs. (Continued on Last Page)

Knox County Hospital Notes

Patients In Hospital Today, January 19, 1949

- Patients in hospital today: Mrs. Joe Davis, O'Brien; Mrs. Lee Haymes, Munday; Carl Bradley, Knox City; Mrs. Catherine Sumpter, Knox City; O. L. Knight, Jr., Knox City; Mrs. L. A. Christensen, Floydada; G. C. Corwell, Munday; Mrs. J. W. Hickson, Knox City; Mrs. Harvey Freeman, Knox City; Ed L. Merriman, Throckmorton; B. Karr, Rochester; G. V. Ferguson, Knox City; W. A. Baker, Munday; Mrs. Lee Rhodes, Dallas; Mrs. Roy Smith, Knox City; Mrs. W. T. Faubion, Knox City; Mrs. J. L. Gunnels, Dickens; Ab Hutchens, Rochester; Mrs. Peter Herring, Munday; Mrs. Hugh Webb, Knox City; Mrs. B. O. Walker, Rochester; Mrs. J. A. Lisle, Rochester; Alada Caram, Truscott.

Patients Dismissed Since Wednesday, January 12, 1949

- Patients dismissed since Wednesday, January 12, 1949: Miss Willie Browning, Aspermont; K. C. Homer, Munday; P. F. Fincannon, Munday; G. L. Jackson, Benjamin; Mrs. M. M. Robertson, Munday; Mrs. O. A. Green, Knox City; Joe Brothers, Knox City; W. A. Smith, Munday; M. G. Hannaford, Munday; Elsie Hale, Benjamin; Mrs. Allen Loving, Munday; Mrs. C. L. Shipman, Vera; Mrs. C. H. Spitzer, Sagerton; Jay Driver, Benjamin; G. C. Pierce, Dickens.

BIRTHS:

- Births: Mr. and Mrs. C. H. Spitzer, Sagerton, a Daughter; Mr. and Mrs. Ira Hargrove, Goree, a Daughter; Mr. and Mrs. Allen Loving, Munday, a Son; Mr. and Mrs. A. E. Sanders, Rochester, a Son.

LOCAL NEEDS FOR 1949

We're pulling for these needs in 1949. What will the year bring?

1. A modern street sweeper. Our paving cost us money, let's protect it!
2. Paving of road through Rhineland, and definite progress on Throckmorton road.
3. Completion of our drainage system. It's gonna rain one of these days.
4. An adequate waterworks system. This is a must for the continued growth of Munday.
5. Building of more housing projects. There continues to be a housing shortage.
6. Recreational facilities for our youth of today—our citizens of tomorrow.

YOUR GAIN

Reports from around the country on retail trade indicate that the volume of holiday business was not as large as had been expected. That was not the case in every section, but it was generally true. The buying public is showing a definite determination to shop carefully, and to make every dollar do full duty. Some economists expect that this trend may continue to become more marked.

Whether that happens or not, it is indicative of one of the problems that all retailers must face, from the largest chain system down to the smallest independent. What keeps it going is mass sales—precisely as mass production does the job for the manufacturing industry. All but a very few cents out of each dollar spent in the average store goes right out again—for stock, payrolls, taxes, rent, and so on.

This fact also illustrates why retailing has devoted more and more thought and effort to fighting inflation. The worst thing that could happen is for prices to soar to the point where an ever increasing number of people would have to reduce their purchasing to the bare essentials of living. That would be the surest way to bring on a depression, with unemployment and all the other economic maladies. So—voluntarily—thousands of retailers have gradually sliced their profit margin to the lowest point that is consistent with safety and solvency. That is good business from their standpoint—and, on the consumers' side it has done much to protect living standards. But retailers cannot control production costs.

EDISON DAY

Next February 11th, the birthday of Thomas Alva Edison will be observed on a nation-wide scale, as it has in past years. The emphasis is to be placed upon community recognition of the inventor's great contribution to human betterment, and all manner of civic and service organizations will play a leading part.

The achievements of Edison are too well known to need repeating. Foremost among them were his successful experiments in the science of electricity, which provided the ground-work on which the whole vast industry was built, and which have revolutionized the living and working habits of the American people. Edison Day thus becomes a tribute to one of the greatest public benefactors the world has ever known.

But there is more to it than this. Edison Day must also be seen as a celebration of the greatest force for progress that exists—the freedom of the individual to explore, to create, to fail and to succeed, all without coercion or domination by government. Can anyone believe that the electric industry, which is Edison's monument, would have reached its present stage of growth and public service had government controlled it from the beginning? Government imitates, but it never creates. Government takes no chances that it can avoid.

Edison was in the great tradition of this country. It is a tradition that those who are seeking to socialize and regiment our energies and resources would destroy.

Angels are always pictured as women, because it doesn't embarrass a woman to flit around with nothing on but a pair of wings.

Imagination was given to man to compensate him for what he is not, and a sense of humor was provided to console him for what he is.

"Those who believe that any labor legislation substituted for the Taft-Hartley Act must serve and protect the interests of the public still have very strong representation in Congress. In the new Senate there will be 55 members who favored the 1947 legislation; in the House there are 226 Representatives who voted for the measure or were regarded as favoring it."—The New York Times.

Washington News Letter

By Congressman Ed Gossett

WASHINGTON, D. C., Jan. 15, 1949—This week the President sent his budget message to the Congress. He is requesting that more than \$41 Billion be appropriated for the current fiscal year, and that taxes be increased by \$4 Billion. Forty-one Billion Dollars exceeds by several billions any other peace time budget in the history of our nation. There have many years in our nation's history, including some in the early 30's, in which the total national income did not amount to \$41 Billion. The President's suggestion that Income Taxes be increased, especially on incomes from \$6,000 up, is causing much comment. It raises the old question of who makes the money and who should pay most taxes. A scientific study of national income and its distribution reveals that people earning \$5,000 per year or over get only 10-12% of our total wages and salaries, while the group earning less than \$5,000 receives 89-91%. When the group earning \$5,000 and over finishes paying taxes, their proportion of wages and salaries shrinks to 5-5-10%. The people who earn under \$5,000 also receive 69-4-10% of the income from stock dividends and interest, while the people earning \$5,000 and over get 30-6-10% of the income from stock dividends and interest. The group earning under \$5,000 also receives 83-1-10% of all income from rents, while the people earning \$5,000 and more get 16-9-10% from all incomes from rents. Now what of the group that earns \$25,000 a year or more—those sometime referred to as "Economic Royalists" or "Gluttons of Privilege"? In 1917, after taxes, they received 6-7-10% of the national income. In 1932, under President Hoover, their income shrank to 3-4-10% of the national income; in 1938 their share of the national income was 3%. In 1941 it was 2-5-10%, while in 1944 their share of the national income shrank to 1-3-10%. Thus, if we took all of the income of every person earning \$25,000 per year or more, we could not raise more than one-half the current budget.

It is hard to imagine how much money is \$41 Billion. Less than one billion minutes have ticked off since the Birth of Christ. Thus, had one started tossing \$41 into a pot each and every minute since the Birth of

From where I sit ... by Joe Marsh

Who's A Foreigner?

While I'm waiting for a haircut the other day, Slim Hartman lets slip with a crack about those "foreigners" who live by the depot.

"Now wait a minute, Slim," snaps Doc Sherman. "Don't forget we're all 'foreigners' more or less. Some of our families have simply been here longer than others. But even if they came over on the Mayflower, they were foreigners to the Indians."

Slim gets a little red and you could see that Doc had him. "And the reason they came here," he goes

on, "was to find freedom to do and think as they wanted to so long as they didn't tramp on the rights of the other fellow."

From where I sit, America became the great land it is today through our being tolerant of different people and different tastes—whether it's a taste for square dancing or waltzing, radio or movies, goat's milk or a temperate glass of sparkling beer.

Joe Marsh

SMU To Present Celebrated Star

Jane Cowell, one of the leading actresses of the American stage, will visit Southern Methodist University in Dallas in January. She will be guest star of the SMU Arden Players' production of the Maxwell Anderson drama, "Elizabeth, The Queen," January 27, 28 and 29 at McFarlin Auditorium. Miss Cowell will appear under auspices of the American National Theatre and Academy as part of its project to encourage development of the drama in American colleges.

Christ the pile would not yet amount to our current budget.

A substantial part of our current budget goes for foreign relief and rehabilitation, and to pay for the cold war in which we are now engaged—a cold war designed to restrain the growth and spread of Communism throughout the world. Among items we are now purchasing for shipment abroad is mules for Greece. Two-thousand are to be purchased during January and February of this year. By the end of 1948 we had already purchased 7,100 mules for Greek Aid, and such purchases continue.

Sunset P. T. A. Meets Saturday At Sunset School

The Sunset Parent Teachers Association met Saturday, January 16, at eight p. m., in the high school study hall in its regular meeting.

There were twenty two present with two new members.

Mrs. Brownie Tackett gave a very interesting talk on "Home Making, Citizenship and Responsibility of Parents and Teachers."

They also wish to thank Mrs. Shannon and Mrs. Morgan for the clever "South Bound Train" and "Skip", their pupils presented.

Mrs. T. J. Partridge asked that the P.T.A. help sponsor a show on "Cancer" to be shown at the school auditorium and being presented by the home demonstration club sometime in February.

The next meeting will be February 5th at the Sunset school building.

Shirley Scott Is Honored At Bridal Shower Saturday

Miss Shirley Scott of Munday was honored with a bridal shower last Saturday evening from 7 to 9 o'clock at the Munday Study Club house.

Miss Scott is the bride-elect of Mr. Gene Burgeson of Lueders.

Guests were greeted at the door by Miss Tiney Montandon, who in turn presented the honor-

ee, Miss Scott; Mrs. Allie Ware and Mrs. Willie Nelson, aunts of the honoree and Mrs. Paul Stanley of Stamford, cousin of the honoree.

Miss Mary Pearl Massey secured the names of the guests in the brides book. She also furnished recorded music for the evening.

Refreshments of cake and coffee were served with plate favors of white napkins with the inscription of "Gene and Shirley, Jan. 16, 1949", in gold letters.

Hostesses were Miss Tiney Montandon, Miss Mary Pearl Massey, Miss Jeanette Young, Mrs. Jo Strickland, Mrs. Elevelyn Elliott, Mrs. Estelle Rayburn and Mrs. Florence Yarbrough.

Gilliland Club Meets Jan. 5th With Miss Groves

The Gilliland Home Demonstration Club started the New Year off in the home of Miss Damie Groves, Wednesday, January 5th.

Lengthy business session was held after which Miss Eugenia Butler, county agent, gave a very interesting demonstration on hand work on pillow cases and on leather goods.

A very delightful plate was served by the hostess to Mmes. Grady Duncan, Earl Burgess, Richard Winstead, Jim Cash, Jim Welch, George Solomon, O. R. Miller, L. D. Welch, John Kinnibrough, Omar Cure, Emil Navratil, Hewitt Simmons, John Thompson, Charlie Groves, Homer Martin, Wiley Cook, Alton Cook and

Miss Butler, county agent; one new member, Lavita Lou Mas-singill and one visitor, Mrs. C. M. Groves.

Everyone is urged to attend the next meeting on January 19th at the home of Mrs. A. J. Whatley.

Gene A. Burgeson, Miss Shirley Scott Wed January 16th

Miss Shirley Ruth Scott of Munday and Mr. Gene Allen Burgeson of Lueders were united in marriage last Sunday afternoon, January 16th, at 2 o'clock when they exchanged wedding vows before friends and relatives in The Bethel Lutheran Church at Avoca.

Dr. Haterius, pastor of The Bethel Lutheran Church in

Avoca, officiated in the double ring ceremony.

The bride was lovely in a black and gray suit with gray accessories and wore a white carnation corsage. As something borrowed and blue, she carried a blue handkerchief belonging to Ma Eiland, a friend of the bride. She also wore a penny in her shoe for the good luck charm.

Miss Mary Pearl Massey of Munday served as maid of honor. She wore a navy blue dress with pink accessories and wore a corsage of pink carnations.

Acting as best man was Mr. Howard Wayne Burgeson of Lueders, brother of the bridegroom.

Immediately following the ceremony, a reception was held in the home of the bridegrooms parents in Lueders.

The bride is the daughter of Mr. M. B. Scott of Tucson, Ariz.

She attended the Munday high school and graduated with the class of 1945 as salutatorian of her class. For the past three and one-half years, Mrs. Burgeson has been employed by the Southwestern Associated Telephone Company in Munday.

The groom is the son of Mr. and Mrs. H. V. Burgeson of Lueders and attended the Lueders high school from which he graduated in 1945.

After a short wedding trip to Abilene, the newly-weds will be at home in Lubbock after January 18th where Mr. Burgeson

will continue his work with the Leuders Limestone Company.

Goree Bible Study Class Meets With Mrs. Clarence Powell

The Goree Bible Study class held their regular meeting January 17 in the home of Mrs. Clarence W. Powell. The meeting was opened by a prayer by Mrs. Billy Hutchens, after which the group sang "Jesus Is All The World To Me".

Mrs. Coffman read the poem, "Today". The study of the "Four Gospels" was completed, and the study of Paul's life will follow. The next meeting will be in the

home of Mrs. Billy Hutchens on February 7. A refreshment plate was served to the following members:

Mmes. James Carver, Les Jameson, Barton Carl, Walter Coffman, Billy Hutchens, and the hostess, and one guest, Mrs. Clyde Taylor.

Mrs. Bryan McCallum returned to her home in Mertens last Sunday after spending a week here with her daughter and son-in-law, Mr. and Mrs. Charles McCauley.

Mrs. H. E. Thompson of Seymour and Miss Billie Dickerson of Wichita Falls visited with their parents, Mr and Mrs. Elmer Dickerson, over the week end.

Bunged-Up Fenders And Doors Our Specialty!

Get a fender bent up traveling the icy streets? Have a door all bunged up? Need window glass, or a new windshield?

Then bring your car to our body shop. We'll fix it up, even to a complete new paint job. Estimates gladly given on any type of work.

Howard Payne Shannon Is Playing With Providence, R. I. Pro. Team

Howard Payne Shannon, son of Mr. and Mrs. J. S. Shannon, is now playing professional basketball with the Providence, R. I., team, where he is known as "Howie, the slender dark-haired Texan from Kansas State College".

by Ken Loeffler, coach of the Providence Steam Rollers, and Shannon shows promise of being the "rookie of the year" among the Basketball Association of America.

This season, Shannon has scored 297 points in 22 games. For there he was discovered

Uncle Sam Says

Here's one big, safe resolution for 1949: "Resolved, I will take advantage of the opportunity presented by my government to buy U. S. Savings Bonds regularly; the finest, safest and most convenient investment in the world." If you stop to think of it there's no better time than right now to start building a comfortable cushion for later years. Upon maturity, U. S. Savings Bonds will return to you four dollars for every three dollars you put into them. They can be bought regularly under two convenient purchasing plans, the Payroll Savings Plan where you are employed or the Bond-a-Month Plan at your bank.

U. S. Treasury Department

has scored more baskets, 114, and owns the best scoring average, 13.5 a game, of any other rookie. In a recent clipping sent Mr. and Mrs. Shannon, the sports writer had this to say:

A 6-foot, 3-inch, 170 pounder, Shannon is fast for a big fellow and difficult to guard. Like many players, he has a variety of shots, but his one-handed jump shot is his best offensive weapon. He was the leading scorer for Kansas State last year, when he and his mates finished fourth in the NCAA tourney in Madison Square Garden.

The former Jayhawker is Loeffler's personal discovery. The Roller boss scouted Howie for St. Louis last season, but at that

You're Cordially Welcome To These Church Services

CHURCH OF CHRIST WHY ATTEND CHURCH?

Certainly one should attend church because it is his duty, but the highest motive prompting one to go to church should be: he counts it a blessing to be at the house of the Lord and mingle with the Lord's people. To have it said of Christians, "They go to church not because they ought to, but because they want to go," is the greatest compliment that can be paid anyone. "It was glad when they said unto me, Let us go unto the house of Jehovah." (Ps. 122:1.) Again: "For a day in thy courts is better than a thousand. I had rather be a door-keeper in the house of my God, than to dwell in the tents of wickedness." (Ps. 84:10.)

CHURCH OF GOD

Everyone is cordially invited to attend services at the Church of God. Young people's endeavor, Thursday at 8 p. m.; regular services Saturday evening, 8 p. m.; Sunday school at 10 p. m.; sermon at 11. Evangelistic service Sunday evening at 8 o'clock. H. E. Weatherby, pastor.

time Shannon was thought to have another year of college competition. However, last spring he and six football players were ruled to have used up their eligibility by officers of the Big Seven Conference. Transferring from another school cost them a season of play.

Loeffler happened to be traveling through the Midwest at the time doing publicity and advance work for the New York Yankees baseball club. He tracked Shannon down in Manhattan, Kans., and invited Howie and his pretty wife, Pat, out to dinner.

Minneapolis and St. Louis also were seeking Shannon's services, but Loeffler beat the quicker path to Howie's door and it was across the table of one of Manhattan's leading restaurants that he talked Shannon into joining the Rollers. Just to make everything legal, Ken prevailed on a nearby patron of the establishment to witness the signing of the contract.

Before the current season started, the Roller mentor predicted a great future for Shannon and thus far the youngster has done everything asked of him and then some. Although natives of Munday, Texas, the Shannons now make their home in Manhattan, Kans., during the off-season. Howie is employed there and also completing his education at his alma mater. He and Pat have known each other since early childhood and were married in October of 1947 after Howie was discharged from the Army Air Force.

His career in professional basketball seems assured. He has a good pair of hands and his long, lean frame should carry him to the top.

One of his most ardent rooters is his pretty wife, Pat, who sits directly behind the Roller bench with several other wives during the games.

Let's Build The Lord's House Now

First Methodist Church

Bat Masterson, one of the most famous peace officers of the old Southwestern days, has been credited with having killed as many as 27 men. As a matter of fact, however, according to his old friend, Wyatt Earp, another great peace officer, Bat killed only four men.

This does not take into account, however, any Indians he might have killed in the Battle of Adobe

Walls in the Texas Panhandle for Masterson, then little more than a boy, was one of the small force of frontiersmen who beat back the attack of hundreds of redskins, commanded by the celebrated chief, Quanah Parker.

The first man that Bat Masterson killed in a pistol duel was in Sweetwater, Texas, when he was 18 years old. He was serving as a civilian scout with the army and was dancing with a dance-hall girl one night when a man who was inflamed with jealousy entered and drew his pistol. The girl caught sight of him first and threw her arms around Bat to try to protect him. The man fired however and killed her, the bullet passing through her body and wounding Masterson, who shot her slayer through the heart.

In another pistol battle, this one in Dodge City, Kansas, Mast-

Knox Prairie Philosopher Says It's Some Other Group's Turn To Lower Prices And To Avoid Bust

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek may be mis-interpreting things in his letter this week, but we're publishing it for what it's worth. Dear editor:

The weather predictions have been so inaccurate lately I been wondering if they're predicting in weather by public opinion polls instead of regular forecasts and was outside looking at the thermometer to find out for myself how cold it was when a newspaper whipped around the corner and hit me in the face and since I had to pull it off to see my way back in the house I carried it on in and sat down by the fire and read where a Republican Senator has informed farmers they've got to cut their prices or face a economic bust.

According to the paper, Senator Aiken of Vermont told farm leaders "They must accept lower prices for wheat, corn, cotton and livestock in the immediate future or face a depression." He said housewives and consumers are sore about \$1-a-pound meat

erson killed two men in avenging the death of his brother, Ed.

Ed was acting as marshal and some cowboys created a disturbance in a saloon. Ed and Bat were approaching to quiet the disturbance and one of the cowboys mortally wounded Ed. Bat killed the slayer and when a friend of this man rushed out with a pistol, Bat shot him twice, inflicting mortal wounds.

When another of the Masterson brothers was having trouble, Bat went back to Dodge City and there was some shooting and when the smoke lifted, Bat's fourth man was accounted for.

Incidentally, Masterson later became a sports writer in New York City and died while at his desk, writing. Oddly enough, the man who had figured in some of the most exciting events of the turbulent Southwest, had just finished writing a humorous bit of philosophy:

"There are many in this old world of ours who hold that things break about even for all of us. I have observed, for example, that we all get about the same amount of ice. The rich get it in the summer-time and the poor get it in the winter."

When Your Back Hurts -
 And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with stinging and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

DOAN'S PILLS

and butter and other high-priced groceries.

Of course now I ain't no Senator, but I have thought and thought and I can't see no advantage in a farmer goin busted just to keep the rest of the country prosperous, and I can't see no profound thought in me cuttin my income to avoid a depression. I guess I'm backward, but all the depression I ever experienced personally came on exactly at the same time my income started droppin. I may not be able to see the picture from a Washington Senator's standpoint, but as long as my income held up times was good but invariably when it dropped times got bad, and this happened so often over the years I began to suspect there must be a connection between the two.

I'll admit groceries is high, but have you bought a tractor lately or a trace chain or a pair of work pants or had a busted water pipe fixed? I may have missed them issues, but I ain't seen a newspaper article yet with a statement from some Senator where tractor manufacturers has got to lower their prices or face a depression, on account of farmers gettin tired of \$1500 tractors costin \$2400.

In the mean time, I will appreciate you gettin in touch with that Vermont Senator and seein if he can't pick out some other group to lower their prices to head off a depression this time instead of farmers. Every other time, farmers lowered their prices and instead of headin off a depression it just brought one on. Ain't there some other group to try this experiment out on this time?

Yours faithfully,
 J. A.

Mr. and Mrs. Edgar Beecher and girls of Shallowater visited relatives here over the week end. Mrs. E. Beecher returned with them from Lubbock where she had been visiting for several weeks.

Miss Joy Guffey And Gaylon Hord Marry Recently

Miss Anita Joy Guffey of Munday and Mr. Gaylon Lee Hord of Goree were united in marriage recently in the parsonage of the First Baptist Church in Seymour. The Rev. Balch, pastor, officiated in the single ring ceremony as the couple stood in a room decorated with tall baskets of yellow gladiolus and white carnations.

The bride wore a beautiful dress of orchid-pink crepe with navy blue accessories. She completed her costume with a white carnation corsage.

Miss Burniece Stubbiefield of Munday, the brides only attendant, was attired in a black taffeta dress with black accessories. Her corsage was of red rose buds.

Best man was Mr. Glen Myers of Munday.

The bride attended the Munday high school, graduated in 1948 and for two months, was employed by the telephone company in Munday. She is the daughter of Mr. and Mrs. Leo Guffey of Amarillo.

The groom is the son of Mr. and Mrs. A. L. Hord of Goree and attended the Goree schools, completing his studies in 1944. He has been engaged in farming from that time.

The couple have made their home in Munday after returning from a wedding trip to Ft. Worth and Amarillo.

Guests to attend the wedding were Mr. and Mrs. Lee Ward of Lubbock, Mr. and Mrs. Randall Walling, Munday; Mr. and Mrs. C. J. Reese, Jr., Knox City; and Mart Hardin of Lubbock.

WINTER IN RAYON

THIS stunning two-tone ski suit cuts a pretty figure on snowy hills and makes even your tumblers look glamorous! The fabric—gabardine made from Avisco rayon, wool and cotton yarns—tailors beautifully, a "must" for crisp outdoor sports clothes!

M. L. Wiggins And Mrs. Clara Bouldin Marry On Saturday

In a simple ceremony in the parsonage of the First Methodist Church in Munday, Mrs. Clara Bouldin of Munday became the bride of Mr. Moulton L. Wiggins of Munday on Saturday evening, January 15th, at 7 o'clock. The double ring ceremony was performed by the Rev. Wm. G. Barr, pastor.

The bride wore a beige gabardine suit with beige accessories. The only attendants were Mr. and Mrs. J. Weldon Smith of Munday.

Mrs. Wiggins is the daughter of Mrs. Etta Webb of Munday. For the past several years, she has been employed by the First National Bank in Munday.

After returning from a short wedding trip, the couple will make their home in Munday where Mr. Wiggins will continue his work with the First National Bank.

Mr. and Mrs. Carl Mahan and children of Abilene visited relatives and friends here the latter part of last week.

Mrs. Russell Doran of Odessa spent several days here last week, visiting her parents, Mr. and Mrs. Walter Bevers and other relatives.

Billie Lou Spelce, Clyde O. Pierce, Jr. Engagement Told

Mr. and Mrs. W. A. Spelce of Munday, formerly of Wichita Falls are making the announcement of the engagement and approaching marriage of their daughter, Miss Billie Lou Spelce of Wichita Falls to Mr. Clyde O. Pierce, Jr. of Dallas, son of Mr. and Mrs. Clyde O. Pierce, Sr.

The wedding vows will be exchanged at the First Baptist Church in Wichita Falls on February 12th at six-forty-five in the evening. The couple will be married by Dr. James H. Landie, pastor of this church.

A reception afterward will be held at the Marchman Hotel in the Green Room.

Mrs. Edgar L. Savage, Jr. of Fort Worth, sister of the bride-elect will be matron of honor. Other bridal attendants will be Miss Hazel Hayley of Wichita Falls and Miss Eleanor Lea Pierce of Dallas, sister of the groom. Little Misses Suzanne and Dianne Savage, twin nieces of the best man, will be flower girls.

Best man will be Edgar L. Savage, Jr. Groomsmen will be Mr. William Earl Pierce and Mr.

Billy Perkins, both of Dallas. Mr. Savage will sing "Because" accompanied by Mr. Herbert P. Goldsmith, organist of the First Baptist Church. He will also offer the traditional wedding music.

A rehearsal dinner will be held for the wedding party on February 11th at 7:00 at the Marchman Hotel Green Room.

Miss Spelce formerly of Munday attended and graduated from Munday schools in 1944. She was employed in Abilene before moving to Wichita Falls where she was employed for the past two years as bookkeeper and stenographer for Ideal Loan Service Co. Miss Spelce attended T.S.C.W. and Hardin College. She was a charter member of the Hardin Indian Band and a member of Acapella Choir and Home Economics Club and many other activities of Hardin College.

Mr. Pierce graduated from McKinney high school in 1942. He then joined the air forces and was stationed in Canada as a radio technician. He was discharged in 1946. He attended the Radio School in Dallas. For some time was employed by Southern Pacific Railway in Houston and San Antonio before returning to Dallas where he is now employed by the Texas Highway Department as a Driver's License Exam-

iner. The couple will make their home in Dallas.

Benjamin Club Meets January 14 With Mrs. Kingery

The Benjamin Home Demonstration Club met in the home of Mrs. R. E. Kingery on January 14, 1949, with eight present.

Roll call was answered by the following members: Mrs. Earl Sams, Lee Snailum, Jim Melton, Carl Patterson, Ada Rodgers, Ed Earl Brown, R. E. Kingery and Miss Eugenia Butler, the home demonstration agent.

Opening exercise was a song—"Follow The Glean."

Miss Butler gave a very interesting demonstration on trimming pillow cases with rick-rack. Also gave instructions on ordering leather and tools for making billfolds.

Delicious refreshments were served to those present.

C. R. Elliott attended a meeting of P.C.A. directors and field men in Stamford last Friday.

J. K. Jackson and Don L. Ratliff were business visitors in Ft. Worth last Monday.

CARD OF THANKS

With hearts full of gratitude, we attempt to express our sincere thanks and appreciation to everyone who were so kind and thoughtful to us in our recent bereavement.

We deeply appreciate every deed and thought and comforting words, and especially well prepared food and beautiful floral offerings. We pray God's richest blessings on you all.

The John B. Reneau family.

Toni Rea and Mike, children of Mrs. Wanda Kistenmacher of Wichita Falls, are visiting in the home of their grandparents, Mr. and Mrs. Alpine Nunley this week.

County Supt. M. D. McLaughy of Benjamin was here Tuesday, visiting with friends and attending to business matters.

PROUD AS PUNCH

YOU'D be proud, too, in a brand new party dress of a flat rayon crepe print like this one! The fabric, made from Avisco rayon yarns, is ideal for youngsters' clothes because it can be washed and ironed in no time at all.

New Chevrolet Goes On Display Here Saturday

Chevrolet's 1949 passenger cars, completely restyled and possessing more mechanical improvements than any model with in recent years, go on display at the showrooms of Niel Brown Chevrolet Company.

The automobile is the product of three years of engineering research and design development. Begun immediately after V-J Day, experimental work has included 1,068,000 miles of test driving over the roads of the General Motors Proving Ground and arid highways of the southwest.

The local showing will be held simultaneously with displays in other cities and is expected to draw one of the biggest crowds in the history of events of its kind.

"From inquiries at our offices and dealer showrooms, we know that literally millions are waiting to see the car", said T. H. Keating, general sales manager. "Chevrolet's solid reputation for value and reports of impressive new features have kindled a nationwide interest.

"We do not believe the public will be disappointed. While the car carries numerous comfort and convenience advances, it

maintains our tradition of rugged, reliable transportation at the lowest possible cost."

Texas Farms Being Operated By Machinery

Texas farmers are making long strides toward complete mechanization of crop production, according to H. P. Smith, agricultural engineer of the Texas Agricultural Experiment Station.

Smith has just completed analyzing information on power used on Texas farms in crop production furnished him by county agricultural agents.

No horses or mules are now used in crop production in about 40 Texas counties. With the exception of some hand-hoeing and hand-harvesting of cotton, crop production in these counties is completely mechanized, Smith said.

Thirty counties use less than 25 horses or mules, while in another 35 counties less than 100 horses or mules are used in crop production, Smith said.

Tractor power is used almost exclusively in the production of all crops in a block of 77 North West Texas counties. It was reported that a few farmers in these counties still keep a team or two for odd jobs about the

farm or for hauling feed.

There are about 47 million acres in these 77 counties. The total devoted to crop production amounts to about 14 1/2 million acres.

Smith found that East Texas farmers still use a good deal of animal power. This is likely due to the farms being smaller units than in West Texas. East Texas farmers were reported to use horses and mules ranging in number from a few hundred per county to more than 6,000, Smith said.

7-STEP COTTON PROGRAM

New, it's about time for Texas cotton growers to decide how their cropping pattern will shape up for 1949.

For many cotton men, the 1949 season is already set. Others, however, are asking the question, "What should I do with cotton in 1949?" says C. H. Bates, extension farm management specialist of Texas A&M College.

Texas cotton farmers have taken to the 7-Step Cotton Program in a big way—and have come out on top in many ways by following the improved practices set up in this cotton program, says Bates. Many growers have built up their profits through more efficient production, ginning and marketing that is encouraged in the educational efforts of all agencies.

Back to this question many Texas cotton farmers are asking—"What should I do with cotton

in 1949?" That is a matter for the farmer himself to decide, says Bates. But a few guiding facts may help to reach a decision. Here are some points to keep in mind:

(1) The carry-over stocks of cotton next August are expected to be about three million bales greater than on last August 1. (2) The total cotton used in this country is expected to drop a little during the coming months. However, the foreign shipments are to increase under the European Aid Program.

(3) Price prospects through the government loans are a little more favorable than for feed grain crops due to storage difficulties with grains.

(4) Finally, the prospective demand for livestock and livestock products is relatively stronger than for crops.

Bates concludes that this year should be one of fair opportunity for cotton growers if good production and marketing practices are followed. It looks as if cotton "has the edge" on cash grains if it's a toss-up between these two crops.

Certainly where livestock production is handled along with cotton, the output of meat, milk and eggs should not be decreased next year. It's good, common sense, says Bates, to keep up the production schedule on the basis of long-run profits.

During the coming year, farmers must keep up the production system which will maintain the soil and provide permanent gains for better living.

Notice to Taxpayers

Poll Tax Deadline

JANUARY 31, 1949

The deadline for paying poll taxes and for paying 1948 taxes, without penalty, is January 31st, 1949.

Taxpayers wishing to pay poll taxes by mail may do so by sending \$1.75 for each poll tax, and giving the following information:

Name; age; voting box; birthplace; number of years in State and number of years in Knox County; and, occupation.

Letters From The People

ROSS BATES TELLS OF COUNTY'S EARLY DAYS

Knox County was organized in May, 1886. The law required that the petition should be signed by 175 residents of the county. It is not probable that there were that many people in the county. Tradition says that some of those who signed the petition for the new county were saddle horses.

In June, 1886, the late W. H. (Bill) Benedict who died in Knox City in 1947 aged 96 and his brother Ab Benedict, were on their way to the Concho River in Southwest Texas. They came to where the town of Memphis is at present. There was no town there at that time and the Denver railroad had not reached that far. At this place they met Lee Newsom, father of Dr. Newsom of Munday. The Benedicts were from Arkansas and Newsom's home was in Kansas. Conversation developed that Lee Newsom's brother, Cape Newsom, lived in Arkansas and that he was a neighbor of the Benedicts.

Lee Newsom and the Benedicts traveled together until they reached Benjamin. They found the county organized and learned that they could file on school land. They crossed the river and found some green grass and filed on school land. The Benedicts filed on the section that John Cure lives on at present. The Benedicts went back to Arkansas and Newsom returned to Kansas.

My father came to the county in October, 1886, and bought some improvements that Wm. Gulick had on the section of land that Harper Cooksey lives on at present. My father brought his family to the county December 17, 1886.

The next spring, 1887, the Newsoms and the Benedicts came in from Kansas and Arkansas and moved on the land that they had filed on the previous June. Tom Anderson came with the Newsoms.

Bill Benedict and Ab had been working a store and postoffice in Arkansas and were accustomed to a good deal of reading matter and soon after they arrived, probably in 1887 or 1888, they built a small building and put in a stock of groceries. They applied

for a postoffice and sent in a list of names for the postoffice department to choose from. Their request for a postoffice was granted but their suggested names were turned down.

They submitted a new list. There was only one postoffice in the county at the time, "Benjamin". Capt. R. D. Goree was the postmaster of Benjamin. It occurred to the resident's that Goree would be a good name for the new postoffice and they included the name in their second list of suggested names. The postal department accepted the name and Goree became the second postoffice in the county and the only postoffice south of the river.

The Benedicts operated the store until about 1891 when they sold it to J. W. McLendon, whose wife was a sister of Ed Burch, the third sheriff of Knox county.

In 1894, McLendon moved the store and postoffice to the southeast corner of the section that Tom Anderson had filed on and owned for many years. I believe Charley Mayes owns that quarter section now. I went to the postoffice and the store and McLendon's dwellings were gone. I followed the wagon tracks to the southwest four or five miles and found the postoffice and the new place.

McLendon operated the store and the postoffice at the new site until 1904, when he sold out to E. B. Wilson. When the railroad came through in 1906, E. M. Coffman and N. W. Coffman furnished the land and surveyed a new townsite and E. B. Wilson moved his store and postoffice to the new town and it took the name of Goree.

In writing this I do not claim to be writing his story but instead am writing things that I remember and that other people have told me. I was only six years old when my father brought me to the county in December, 1886.

HEADQUARTERS FOR MASSEY-HARRIS

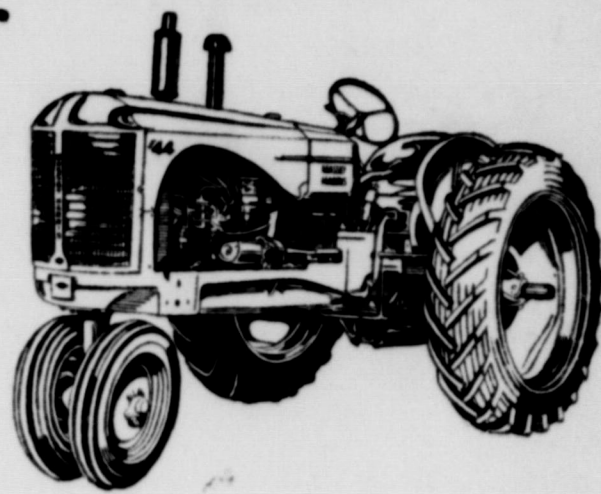

TRACTORS · COMBINES · IMPLEMENTS

COMPLETE, MODERN SALES AND SERVICE FACILITIES

No matter what your particular power requirements are, there's a Massey-Harris model to fit your farm. Massey-Harris Power-plus Tractors are available in 5 sizes—light 2-plow "20," full 2-plow "30," 3-plow "44" and "44.6," 4-5 Plow "55." For your harvesting, see the Massey-Harris Self-Propelled Combines, available in 7, 12, and 14 foot sizes.

Our service facilities and complete repair stocks are your protection against delays in the field. Call on us now for service work and genuine M-H parts.

Remember, Massey-Harris ownership is a mark of good farm management!

SHARP MOTOR & EQUIPMENT CO.

MUNDAY, TEXAS

To Our Friends and Patients In The Munday and Goree Precincts:

We wish to take this means of urging your support for the Hospital Bond Issue, to be voted on Saturday, January 22.

We have thoroughly investigated the proposed expenditure. We believe the Commissioners Court has done an excellent job in spending the \$63,000.00 in building and equipping the new wing, \$13,000.00 of which has not been paid.

We also feel the additional \$12,000.00 which the court is asking is badly needed.

We believe that the present hospital management is such that our patients are getting better nursing care and better general care than at any previous time in the history of our hospital.

We, therefore, feel that we can conscientiously urge you to support this issue with your influence and votes.

Signed:

Dr. R. L. Newsom

Dr. D. C. Eiland

(This ad sponsored and paid for by Dr. Newsom and Dr. Eiland)

FARM NEWS

from the County Agricultural Conservation Committee

Combined Conservation Practices Often Needed

Farmers intending to cooperate in the 1949 Agricultural Conservation (A A A) Program and who are planning conservation practices for their farms should take into consideration the usual need for combining several practices.

This advice from Emmett Partridge, Chairman of the Knox County Agricultural Conservation Committee, was prompted by the fact that sometimes farmers think of conservation practices as independent of each other when in most cases practices are more effective in combination.

The real purpose of providing assistance for applying lime and phosphate is the increase in growth of plants that provide protection to the soil—plants that hold the soil and help to make it more productive.

Terraces, unless supported by grassed waterways, the right crops, and proper handling of the soil, may be a menace rather than a protection. They may concentrate the excess moisture and increase the damage rather than spread the water and dispose of it without damage to the soil.

Mr. Partridge advises farmers of Knox County to consider the conservation problems on their farms and then plan the combination of practices which will meet the problems. Not all the problems can be met in one year, as the most serious ones should be considered first.

He emphasized that it may be more economical and more effective to keep land productive than to restore land after it has been damaged. "Conservation is protection as well as cure."

He urged that plans be made now for conservation under the 1949 ACProgram, with emphasis on a combination of practices to meet the most serious problems. Stressing farm-responsibility, he urges: "Where assistance is provided to help us carry out conservation practices, we as farmers have a responsibility to get all the conservation we can

Fertile Land Produces Crops With More Protein

Farmers long have known that the right fertilizers increase crop yields and new science has revealed that crops grown on land high in fertility are not only larger but are of better quality than those grown on poor land. One of the most important feeds that we grow in crops is protein. In general it is the legumes which are high in protein. Anything that will increase the amount of protein grown on an acre of land is important to the livestock industry.

There are a great variety of protein but all of them are made up of amine acids. The chemists say that proteins are made of amine acids in much the same way that a house is made of building blocks.

Experiments at the University of Missouri show that lespedeza and alfalfa grown on land high in fertility not only make larger crops but they make hay that is richer in protein.

These experiments show that in general the amount of amine acids produced by lespedeza and alfalfa varies according to the fertility of the land on which these crops are grown. Soils with high fertility produce crops with a higher percentage of amine acids than those with low fertility.

"And this is another reason for the importance of the Agricultural Conservation Program," said Bennett P. Haman, Secretary of the Knox County Agricultural Conservation Committee. "In the Agricultural Conservation Program soils are not only held in place but they are built up and these experiments indicate that the foods and feeds produced on these improved lands are better."

1949 Wheat

It looks as if another big wheat crop is in the making. Estimates of the winter wheat plantings by the USDA total 61,370,000 acres, 5 percent above the all-time high mark set last year and

A demonstration of the power inherent in the new Burlington Lines diesel-electric freight locomotives recently placed in operation between Texas and Colorado is shown in the above action picture of a diesel freight train.

one-fourth greater than the 10-year average. The acreage of winter wheat seeded in Texas for 1949 is estimated at 7,630,000 acres. If realized this will be the largest acreage on record for the State, being just slightly greater than the previous record of 7,587,000 acres seeded in 1947. It would be a 13 percent increase over the 1948 acreage of 6,752,000 acres, and about 55 percent greater than the 10-year average of 4,907,000 acres. Yields from winter wheat acreage, however, are expected to be lower because of dry weather conditions in the winter wheat belt.

Based on condition of the crop on December 1, the yield for the nation is expected to be 3 percent below the 1948 yield. Texas 1949 production is estimated at 64,855,000 bushels or about 15 percent over 1948 production of 56,290,000 bushels.

These are early estimates and weather conditions could change the outlook in either direction.

Legal Notice

NOTICE TO BANKING CORPORATIONS:

NOTICE IS HEREBY GIVEN, that the Commissioner's Court of Knox County, will receive bids from any Banking Corporation, Association, or Individual Banker, in Knox County, Texas, for the depositing of Public Funds, belonging to said County, and funds in the hands of the County and District Clerks Trust funds, up to and including ten o'clock A. M. February 14th, 1949. The Bank, Association, or indi-

vidual Banker, will be required to enter into bond, as required by law, before qualifying as County Depository, and the Commissioners Court reserves the right to reject any and all bids.

Given under my hand and seal of said Court, this 18th day of January A. D. 1949.

Value No. 1 in its weight class!

For proof, read the "Value Comparison" at the right.

More power is yours for brilliant performance . . . with more payload capacity, too! Superior ease of handling is yours with advanced steering, and front-end design.

More load protection and driver comfort are yours with longer, bigger-capacity springs . . . and generous-sized cabs.

And more safety for loads, and for your truck investment, are yours with the safest vision ever designed into a truck cab . . . and with the finest of all brakes.

These are just a few of the many advanced features that are yours with Dodge "Job-Rated" trucks. There are many more!

So come in . . . and let us give you all the reasons why this truck represents Value No. 1 for hauling jobs in this weight class!

BOY! . . . Old Mother Nature certainly gave men a terrific beating. The ice storm broke stout wires as though they were strings and snapped sturdy poles as easily as match sticks. We had built strongly, but the excessive weight of ice was too much for even the best constructed lines.

Emergency crews of linemen hopped onto the job, and electric service was restored as rapidly as humanly possible.

Those linemen are great fellows. They don't like these storms any more than you do—but when needed, they pitch in and work day and night to get your service going again.

They, and all the rest of us at your service company, are sorry for interruptions of your electric service. We appreciate your patience and friendly understanding of our difficulties during the storm. Thanks and Thanks again.

factor is present before any symptoms appear, and strict isolation of all patients is the surest means of controlling the spread of this disease.

Mumps is transmitted by direct contact with an infected person or articles freshly contaminated by the secretions of the mouth of nose of persons having the disease. It takes from 12 to 26 days for mumps to manifest itself after the infection occurs. The disease can be easily transmitted, but one attack usually establishes permanent immunity and second attacks very rarely occur.

The most easily recognizable characteristic symptom of mumps is a painful swelling of the salivary glands. Sometimes there is an involvement of other portions of the body, causing disturbances in the digestive, nervous, circulatory, and genitourinary systems. The disease is usually accompanied by a temperature rise which more often

than not is mild.

"Patients suffering from this disease should be isolated from other members of the family immediately upon the suspicion that mumps exists, and the family physician should be called in promptly," Dr. Cox said. "In the meantime, complete rest in bed is indicated. The doctor's orders should be followed strictly. Violating his instructions can lead to serious injury, which may permanently affect the patient's health."

 SEYMOUR, TEXAS

Veterans holding National Service Life Insurance policies are urged by the Veterans Administration to review their GI insurance for possible changes of beneficiaries.

Thousands of veteran policy holders have not changed their beneficiaries, although their family status has changed, VA said. Changes may be made at any time, and as often as necessary, simply by notifying VA's Insurance Service in the Branch Office, 114 Commerce Street, Dallas, Texas.

A veteran has the right to designate any person, company, corporation or other legal entity as his beneficiary.

Veterans enrolled in schools and colleges under the GI Bill must comply with the regularly prescribed standards and practices of the educational institutions during their period of enrollment, VA reports.

Student-veterans must abide by all the rules and regulations of the institutions where they are enrolled. They must maintain satisfactory academic marks. Wilful misconduct or unsatisfactory progress are grounds for withdrawal of subsistence and tuition payments.

The number of applications for veterans' GI loans dropped to 24,602 during November, 1948—the smallest monthly total since January, 1948, VA reports.

November applications were about one percent under the total received by the VA during October.

More than a million and a half veterans were treated during fiscal year 1948 under the "Home Town" medical program, according to VA.

Questions and Answers
 Q. I am a World War I veteran and have been suffering from a stomach ailment for some time. May I go to a private hospital in my home town and have Veterans Administration pay the bill?
 A. You may provided only if your stomach ailment is service-connected and you receive prior approval from VA to do so.

Q. My child was born five months after the death of my husband, a World War II veteran. Is the child considered a full beneficiary insofar as death pension or compensation are concerned?
 A. The posthumous child of a veteran is entitled to allowance of death pension or compensation at the same rate as a child born during the lifetime of such veteran.

Q. May benefits be paid for a veteran's child not residing with the widow?
 A. Yes. Payments may be made to the person who has custody of the child.

Q. I am going to college under the GI Bill. Will I have to refund the tuition if I leave before

OUR UNIONS have been accused of "Communism" many times in recent years. Sometimes the charge has not stood up under close examination. At other times, labor organizations have faced the music and set about the job of cleaning out dangerous, un-American elements. A recent decision of the CIO rank and file to clean house is an example of the latter. Philip Murray and others helping in this unsavory task surely merit our full support.

Most of us little know what masters the Communists are at clever union workers. If they can find a union whose leadership is untrained, or members uninterested, they know how to take over. The Communists want to use labor unions as outlets for their propaganda. They want new recruits. Naturally, they want to have access to union funds. From union treasuries can come paychecks for faithful, advance-agents of Communism!

Workers MOREOVER, a union of Strife base for operations is just what the agents of Communism want most. This gives them a chance to see what they can do to insure failure for the enterprise system. With the reins of union leadership in their hands, it is no trouble at all to make excessive demands upon employers, to stir up unjustified strikes and slowdowns. Industrial espionage for Russia is easy then, and in case of war, sabotage can be undertaken.

These are some of the reasons why we must get behind Phil Murray and the CIO in their effort to oust fifth columnists from their unions. More than that, we

must become acquainted with the ways of the Communist. You know, American Communists have boasted that a dozen non-Communists stand ready to do the work and the bidding of each party member. This means that well-intentioned persons may find themselves doing things just the way the Communists want them done.

Which WE MUST be alert Team? for the Communist attitude, as well as for the Communist himself. In every community, good citizens, we must watch for the fellows that want to sow discord and plant the seeds of strife. If there's honest disagreement, or differences of opinion, we are free to discuss these over the conference table. When we're unwilling to do that, we may be boosting the stock of the Communists in our own America.

Here's what I mean by the Communist attitude. A certain California union organizer said he operated in this manner: No negotiations during a dispute until the management is made to look bad to the public, in every way. This labor official frankly stated he would not begin negotiations until the point is reached where management appeared in the eyes of the public to be selfish, greedy, crooked.

Then, said the organizer, when labor was shown to be helpless and in need of protection, he was ready for conferences. Like this labor man, there are those who sometimes fail to see which team they're on. The pity is that so many lend themselves to the purposes of those who would destroy America and all that labor stands for.

Have you heard Dr. Benson and the radio drama, "Land of the Free"? Check your local station for time.

the end of the school year?

A. If you drop out of college before the end of the period for which tuition has to be paid by Veterans Administration, you will have to pay VA for the time you did not attend school or you lose eligibility for the training time covered by the payments.

Mr. and Mrs. Bud Collins of San Burnadina, Calif., came in the latter part of last week to spend several days with Mr. and Mrs. W. A. Baker and Mrs. Irene Meers and other relatives and friends.

Houston McCarty of Nara Vista, New Mexico, was here this week attending to business matters.

Better Service Costs You Less...
and here's Why!

WHEN you bring your car in to us for service, it is worked on by highly-skilled mechanics. They have been trained in factory methods. They have specially designed tools. Their work is fast, accurate, dependable. By eliminating "guesswork," they save you time and money.

It's the same with the parts we use. They're factory-engineered and inspected (MoPar) parts. That's why we say—and can prove—that our better service costs you less. When you bring your car to us, you not only safeguard your car. You protect your pocketbook, too.

MoPar is the trade name for factory-engineered and inspected parts and accessories for all Chrysler Corporation cars. You'll find the men who know your car best—plus genuine MoPar parts—at the Sign of Better Service.

Amateur Radio Operators Keep Messages Flowing During The Ice Storm; Other Communications Fail

Munday was always in communication with the rest of West Texas during the ice storm last week, thanks to those men who are amateur radio operators. "Hams" they're called—we've never known why, because to us their efforts last week were nothing short of heroic as they toiled day and night to send emergency messages to various parts of the state.

For about 18 hours a day, four days last week, these amateur operators kept Munday in touch with the outside world. Messages went out to relatives of sick people, to law enforcement officers, to work crews of West Texas Utilities Co., to others.

The work was done in the apartment of Dr. R. L. Newsom, who operates Station W5KOW. Dr. Newsom relayed some of the messages but not nearly all of them. His office duties were not neglected.

Coming to his aid were Dude Coffman, W5FQT, and Cliff Moorman, W5FLJ, both of Goree, who kept up traffic and helped relay commercial and personal messages during the freeze-out. They operated as long as needed, but the longest period was for 18 of the 24 hours in the day.

Dr. Newsom's station was the most powerful in this immediate vicinity; therefore, it handled lots of messages. Between 50 to 75 messages were relayed during the period, most of which were "logged" in the radio log.

Mrs. Walter Bevers was very ill, and the family needed to get

in touch with relatives. The call went out from WOKOW to Odessa, where other amateurs were operating. The message got to Mrs. Russell Doran, daughter of the Bevers, and Mr. and Mrs. Doran made it over the icy roads to Munday.

John Andres of Rhineland was also ill, and they could not reach a son in Cameron, Texas. Station W5KOW relayed the message to Abilene. Telephone lines were still up between Abilene and Cameron, so the message was sent on by telephone. The son came to his father's bedside.

C. B. Johnson, radio amateur of Seymour, was also operating, but his station was weaker than the one at Munday. Messages were sent here, then relayed to law enforcement officers at Amarillo to hold a prisoner for Seymour officers.

Messages were also dispatched to West Texas Utilities Company offices for crews and materials to repair broken electric lines.

The amateurs operated for four days, and during the last afternoon (Friday), Dude Coffman handled over 20 messages.

Many Munday people are now glad that Dr. Newsom selected amateur radio as a hobby. These men may be "hams" in radio lingo, but they were friends in need to those who needed to get messages through. And next time a "Ham" breaks in on our radio program, we won't feel quite so free to give him a good bawling out, even though we know he won't hear us.

Kraker Krums—

(Continued from Page One)

and just a shade unsafe to use.

Then some repairs need to be done to the old hospital building—that portion that has been there for a number of years.

And the operating room needs to be air conditioned, and the new wing needs some type of cooling system.

All the things our commissioners and hospital board want to do are things that need to be done. They needed to be done last year, when the new wing was completed.

So don't forget to vote Saturday. We're not telling you how to vote, just asking you to vote, then come on by and renew your subscription.

But as one fellow said recently: "If you're ever a patient in the hospital, or have some of your folks over there as patients, you'll sure be wanting to vote for these needed improvements."

pairs to the old building.

The Commissioners' Court and Hospital Board feel that this additional \$25,000 will put the entire hospital plant in first class condition, and that Knox county will enjoy hospital facilities that are second to none anywhere.

Mrs. James Rayburn of Seymour was a visitor in Munday last Monday.

Make Sure YOU can STEER sure enough

BEAR SAFETY SERVICE

Look what you get in this new kind of range!

Maytag Dutch Oven Gas Range

cooks automatically or by conventional methods, and brings you the never-equalled excellence of famed Dutch Oven cooking.

As a conventional range, it's years ahead. Cooks faster—saves gas—with its new heat-focusing Spiral Flame burners. And you'll like the new ease of cleaning, with entire top and burner bowls stamped from one piece of gleaming porcelain!

For Dutch Oven Cooking, set the dial and forget it. A whole meal cooks without attention... automatically. Gas shuts off at the specified time, and cooking continues on retained heat. Super-insulation keeps the heat in... and keeps the kitchen cool.
