

## Kracker KrumbS

Odd Bits Salvaged  
At Random

Would you give a dollar and a dime per month to know that your hospital bill would be paid?

Of course, you would likely pay it anyway—most of us would some way—but to be able to go to a hospital and come out with a receipted bill, without your name attached to a big check, would be something else.

But that's what's being offered people of Knox county during the remainder of this week and all of next week.

Would you give six-bits a month to know that your doctor's services wouldn't cost you anything in case you had to have surgery?

That's what's being offered you along with a paid-up hospital bill.

And after next week, these likely won't be offered in Knox county again on such a liberal basis.

It's the Blue Cross and Blue Shield membership drive we're talking about. It's being offered, and extended, to every person in Knox county in some form or other.

Blue Cross takes care of your hospital bill. Blue Shield takes care of your doctor bill in case of surgery, while at the same time, they're taking care of your pocketbook.

Hospitals are expensive houses, but they are good places to go in case you are sure enough sick.

It's not the "going to" the hospital that costs. It's the coming out—the time when you're presented with the bill and there needs to be a settling up.

That's when Blue Cross steps in and tells you: "You are a member of our family. Glad you're able to go home. Just don't worry about anything—we're taking care of the expenses."

And Blue Shield will say: "That hole in your side your doctor made during your appendectomy didn't even make a dent in your pocketbook. We're taking care of that."

And that won't just happen here in our Knox county hospital. Your Blue Cross and Blue Shield policy will be good at any member hospital—and there are a whole batch of them in Texas and other places.

Most of us are gonna get sure enough sick some time or other. Not a pleasant thought, but it happens to lots of people every day.

And when you're sick enough, your doctor wants you in a hospital. Not because he's in cahoots with hospitals, either.

Your doctor's interested in you, personally, and he knows that he can take better care of you in a hospital—where he has trained nurses to help care for you, and where he can look at your chart and tell pretty nearly how many times you breathed since he saw you last.

And your doctor'd be plumb happy to know he could give you the best in professional care without tapping your pocketbook way down deep.

So we think it is plumb nice of Blue Cross to accept the invitation to come back to Knox county and bring it Blue Shield to offer hospital and medical-surgical service to all residents of Knox county.

It's nice they're telling you about it in a page ad in this week's paper—but that's not the only reason we're glad they're coming back. We're glad because through Blue Cross and Blue Shield the person of just kinda moderate means—and that's us—can have top medical-surgical and hospital care just the same as those of means.

Blue Cross is telling you how  
(Continued on Last Page)

## Leaders In Baptist Revival

REV. HURON A. POLNAC

ROWLAND GREGORY

## Baptist Church To Open Revival Next Sunday

The annual revival meeting of the First Baptist Church of Munday will open on Sunday morning, July 31, it was announced Tuesday by Rev. Huron A. Polnac, pastor.

Services will be held twice daily, at 10 a. m. and at 8 p. m. Since the new Baptist church is under construction, revival services will be held at the Munday school auditorium.

Rev. Polnac will do the preaching for the revival campaign. Song services will be under the direction of Rowland Gregory of Abilene, who is a young man of outstanding ability. Much interest is expected to be shown in this part of the services.

Miss Shirley Yost of Munday will serve as pianist during the revival.

A cordial invitation is extended to the public to attend each and every service of the meeting.

## Boys Town Director Warns Citizens Of Magazine Solicitors

The Times received a letter last week from Rev. Nicholas H. Wegner of Father Flanagan's Boys Town, Nebraska, warning citizens to beware of magazine solicitors identifying themselves as having connection with Boys Town.

"Any magazine solicitor who represents himself as a Boys Town citizen, a former Boys Town citizen, or claims to represent Boys Town in any way whatsoever, is using the good name of Boys Town to promote his own personal ends," Wegner said. "We have no authorized representatives selling book or magazine subscriptions."

"Please urge all your readers that if any magazine solicitors call upon them using the name of Boys Town in any way, they should contact their local police department so proper investigation may be made and this unauthorized practice may be stopped."

## LEAVE FOR TENNESSEE

Mr. and Mrs. P. V. Williams and daughter, Charlotte, and Mr. and Mrs. Rupert Williams, left on Wednesday of last week for Tennessee, where they are visiting Mr. Williams' father, J. A. Williams, and other relatives for several weeks.

Mr. and Mrs. H. F. Jungman left Wednesday for several days visit in Mineral Wells.

## Blue Cross, Blue Shield Enrollment Dates In Communities Are Announced

The following are enrollment dates for Blue Cross and Blue Shield in communities of Knox County as announced by community workers:

- Munday, Mrs. D. C. Eiland, chairman, July 27 through August 6.
- Truscott, Mrs. Nell Brown, chairman, two days, July 28 and August 4.
- Gilliland, Mrs. O. B. Miller, chairman, two days, July 28 and August 4.
- Vera, Mrs. Thurman Allen, chairman, one day only, August 5.
- Rhneland, Mrs. Loretta Albus, chairman, one day only, August 4.
- Benjamin, Mrs. Homer T. Melton, chairman, two days, July 27 and August 3.
- Goree, Mrs. Melvin Cooksey, chairman, two days, July 29 and August 5.
- Knox City, Mrs. C. C. Hoge, chairman, July 27 through August 6.

## Got Directions Mixed; Then Landed In Local Bastille

It's plumb disappointing to start for Fort Worth, then land in the Munday hoosegow! So two boys from Jacksboro learned Sunday.

The boys, 12 and 13, were running away from home. They left Jacksboro Saturday night for Fort Worth, but they headed west instead of east. They landed in Munday.

Local police, observing their actions as suspicious, picked them up and learned the details by questioning them.

The boys were given a night's lodging in the local jail. Monday a sister came after them and returned them to their home in Jacksboro.

## Munday Wins First Game Of T. A. S. A. Event

In an extra inning pitcher's battle which featured A. L. Bassing against left-handed Hershel Adams, the Munday softball team won their initial game 2-1 over Electra last Monday night in the Jaycee sponsored TASA district nine softball tournament in Wichita Falls.

Adams of Electra was touched for two hits in the initial time by the locals and another in the fourth frame, but didn't give up a run until the fifth inning.

Bully Ratliff led off the fifth for the locals with a two-base hit behind the shortstop. I. Montgomery laid down a sacrifice, moving Bully to third and was safe himself when the second baseman couldn't hang to the first baseman's throw. Fred Atkins fanned for the first out, but Bob Raynes smacked a high drive to center, with Ratliff scoring easily after the putout.

Electra tied the score in the sixth inning, but Munday copped the decision in the eighth inning after one batter had been retired. Ben Kuehler got a double into short left field and scored when J. B. King rifled a single to left.

The locals suffered a 9-2 defeat at the hands of the Seymour all stars Wednesday night in the second round of the tourney. Since this is a double elimination tourney, the locals will continue to play through Saturday night unless handed another defeat.

Betty Jean Jones has been visiting in the home of Mrs. Moll Morrison at Quitaque, Mrs. Morrison and Roy and Joy accompanied her home for a visit.

## Goree Revival To Open Sunday

Beginning on Friday, July 29, the Baptist church of Goree will conduct a revival meeting which will continue through Sunday, August 7.

Rev. John Osteen, evangelist, will do the preaching. Rev. Osteen was with the Goree church last year, and he was invited for a return engagement. He is an excellent evangelist, a capable preacher, a consecrated man, and an enthusiastic worker.

Rev. Max Copeland, Baylor University ministerial student, will have charge of the singing. Max also was with the church in last year's revival.

"The prophet of God said long ago: 'It is time to seek the Lord.' It is true today as then. We need to seek the Lord. The hope of the world is in revival."

## Joe Michalik Is Buried Here On Wednesday

Funeral services for Joe Michalik, 73, of St. Louis, Mo., were held from the St. Joseph's Catholic church in Rhineland at nine o'clock Wednesday, July 27, conducted by Rev. Fabian Dierling, O. S. B., pastor.

Burial was in the St. Joseph's cemetery, with the Mahan Funeral Home in charge of local arrangements.

Mr. Michalik passed away in St. Louis on Saturday, July 23. He was born July 14, 1876, and was 73 years and nine days of age. He had resided in St. Louis since 1935, except for two years of residence in Knox county.

Surviving him are four sons, Frank of St. Louis, Joe, Jr., of Cuba, Mo., Bill and John Michalik, both of St. Louis; three daughters, Josephine Dominjo of Fenton, Mo.; Margaret Antonio and Marie Michalik, both of St. Louis; a brother, John Michalik of Rhineland, and six grandchildren.

## Knox County Hospital Notes

**Medical Patients**  
Mrs. Tom Everett, Knox City  
Mrs. E. B. Littlefield, Munday  
W. M. Headrick, Benjamin  
Mrs. J. B. Hendrix, Knox City  
Mrs. M. M. Robertson, Weintert

**Stork News**  
Mr. and Mrs. A. N. Alexander, Knox City, a son.  
Mr. and Mrs. B. R. Benton, O'Brien  
Mr. and Mrs. Lloyd Tankersley, O'Brien, a son.  
Mr. and Mrs. A. C. Sprabarry, Munday, a daughter.

**Surgical Patients**  
Claude Reed, Stanford  
Mrs. Paul Brogden, Goree  
Mrs. Leroy Melton, Benjamin  
Mrs. A. T. Jones, Woodson  
Mrs. Leon Bivens, Benjamin

Mr. and Mrs. George Petrus and family of Harrold visited relatives and friends here the first of this week.

Mr. and Mrs. C. N. Smith visited with relatives in DeLeon over the week end.

Mr. and Mrs. T. J. Mitchell spent last week end in Terrell, Okla. visiting with relatives.

Mr. and Mrs. Ardell Splice and Kenneth visited with friends in Wichita Falls last Sunday afternoon.

The week of July 24-30 is National Farm Safety Week.

## Blue Cross-Shield Begins County-Wide Enrollment

WALTER F. EHRHORN

KENNETH O. ANDERSON

Cecil L. Streadwick, Blue Cross-Blue Shield regional director, from Wichita Falls, is in charge of the current enrollment of Knox county. Here to assist Mr. Streadwick and the local Advisory Chairmen in the drive are Kenneth O. Anderson, director of the San Angelo area, Walter F. Ehrhorn, director of the Lubbock area, and George Walters, Midland area director.

"Blue Cross was a good idea in 1929, but is 287 times better this year. Hospital care is a big problem for the people of the United States; it takes a big organization to solve that problem. Blue Cross-Blue Shield protection has been brought to Knox County to make it possible for resident to solve that problem, Mr. Streadwick explained.

33 million members—and 3,500,000 of them patients during 1948, at \$244,000,000 paid for hospital care—that is last year's story for Blue Cross.

This big plan started in the biggest state—Texas.

## About Blue Cross History

Blue Cross is a non-profit organization sponsored by the hospital and the medical profession. The original prepayment plan was born December 20, 1929 in the school rooms of Dallas, in cooperation with Baylor University Hospital, and was known as the Baylor Plan. In June, 1939 the first state-wide movement began and was known as Group Hospital Service, Inc. of Texas. By August there were 1,078 members; by January, 1940, 27,362; by July, 1940, 64,205; by July, 1941, 95,444. In 1942, the Plan gained approval of the American Hospital Association as the Blue Cross Plan of Texas and has progressed in size and in scope of benefits ever since.

**About Blue Cross Members**  
From 70,410 members in 1942, membership in the Texas Plan has grown to 412,789 in 1948. One out of every five people in this country is a Blue Cross member—and the Plan is still growing.

**About Blue Cross Services**  
First-year payment for members' hospital care (Baylor Plan) was \$9,638.71. This year's payment was \$3,000,000 plus. There were 348 cases in the full year, 1939. There were more than 4000 cases each month this year. Hospital care is needed by 1 out every 4 families each year; by one out of every 8 people, and someone enters a hospital every one-and-a-fraction seconds.

The number of people hospitalized in 1947 increased to 18 million, admitted to 6,173 hospitals. The per-day cost increased from \$9.39 to \$11.09. But the average stay dropped from 9.1 to 8, because more people are entering the hospital sooner.

**About Blue Shield Services**  
Blue Shield, which paid for 54 cases the first year (1945) will pay for 90 times that many cases this year. 1945—\$2,467.50, 1946—\$78,335.25, 1947—\$228,130.40. A total of 3/4 million dollars has been paid to date for members' medical-surgical care.

From July 27 to August 6, all county residents are urged to investigate Blue Cross-Blue Shield protection against hospital and surgical costs. Local headquarters for the enrollment are located at the Production Credit Office.

## Hopper Poison Mixing Station To Close August 1

The mixing station for grass-hopper poison, located at Benjamin, will be closed as of August 1st according to Kenneth O. Lewis, county agricultural agent.

Materials from this station can not be received by farmers after this date, he said.

Mr. and Mrs. Orman Moore and daughter of Wichita Falls visited relatives and friends here last week end.

Gordon Gaines returned to Lubbock several days ago where he is attending Texas Tech for the remainder of the summer months.

## 'Doodlebug' Loses Money; May Cease Operations

### Father Of Local Man Dies Sunday; Stamford Burial

Charles Reese Wilson, 59, Jones county resident for 41 years, passed away at 12:30 p. m. Sunday at the Stamford sanitarium, following a lengthy illness.

Funeral services were held in Stamford at 4 p. m. Monday, with burial in the Highland cemetery.

Mr. Wilson was born in Cook county on February 23, 1890, and came to Jones county in 1908. He married Sallie Binnicer in 1912, who died in 1927. In 1939, he married Cordie Gowens, who died in 1945, and in 1946 he married Rose Austin, who survives.

Also surviving are five children by his first marriage: Mrs. Frank Vasek, Mrs. Nila Mae Derrick, Belva Lucille Wilson and Mrs. Morris Bean, all of Jones county, and Clinton Wilson of Munday; five step children, six grandchildren, five step-grandchildren and a sister, Mrs. Henry Copeland of Bakersfield, Calif.

## Chest X-Ray Service Is Now In Operation

Munday Truck and Tractor Company is a popular place for citizens of this area, as they're going there to take the free chest X-Ray service offered by the State Health Department and sponsored in Knox county by the Women's Home Demonstration Clubs.

The service started Wednesday, and during the day a total of 475 persons took advantage of this service.

Proving so successful in other counties that the service is invited back again next year, it is likely the same will be done for Knox county.

The X-Ray service will be available in Munday through Saturday of this week, then on Tuesday, Wednesday and Thursday, August 2, 3, and 4, it will be in Knox City.

## Old Folks Engage In Ball Game Here Next Thursday

Step right up, folks, and see the old folks in a smash-up ball game here on Thursday night, August 4.

The old folks of Munday will play the old folks of Knox City on the local field. The game is sponsored by the American Legion, and proceeds will go to the junior ball club.

Such stars as Jimmy Harp-ham, Tom Harlan, Parks Norris, Oates Golden, Cecil Barton and a number of boys from the "good old days" will be featured. It will be fun, we'll bet!

Be careful. Obey state and local traffic rules.

### LOCAL NEEDS FOR 1949

We're pulling for these needs in 1949. What will the year bring?  
1. A modern street sweeper. Our paving cost us money, let's protect it!  
2. Paving of road through Rhineland, and definite progress on Throckmorton road.  
3. Completion of our drainage system. It's gonna rain one of these days.  
4. An adequate waterworks system. This is a must for the continued growth of Munday.  
5. Building of more housing projects. There continues to be a housing shortage.  
6. Recreational facilities for our youth of today—our citizens of tomorrow.

### AID TO RECOVERY

Fire insurance is a mainstay of the economy. In thousands upon thousands of cases, it has meant the difference between solvency and ruin. A recent issue of Forbes Magazine tells a typical story of how fire insurance serves the nation. Two years ago a New Jersey furniture company had a \$1,000,000 fire which almost totally destroyed the plant. For a time there was doubt if the 100-year-old company could survive the blow. However, some time before the firm had been sold a Use and Occupancy insurance policy. This coverage guaranteed that a high percentage of the profits normally earned by the company would keep coming in, and in addition, it paid the salaries of key personnel. With this income to count on the company moved to temporary quarters and started to rebuild. It sent its salesmen out and used newspaper and radio ads to let people know it was still in business and was going to stay there. This year, a concern which appeared to be doomed in 1947, will gross around \$3,000,000, and give employment to a small army of people. It is literally true that there is no risk too great or too small for fire insurance to cover. It will take care of a loss of a few dollars. And, at the other extreme, it will handle in stride a great disaster, such as the Texas City explosion. A fire insurance policy isn't exciting reading—but it represents an essential protection which has done much to make the development of the nation possible.

### THE BUYER'S MARKET

We hear much these days of the return of the "buyer's market." The most apparent effects of it are found in more aggressive selling effort by both manufacturers and retailers, and in lower prices in many lines. We are told with accuracy. The old cross-roads emporium of a generation ago marked the nearest approach to monopoly in merchandising. It was a long trip to the next town, and local consumers had to be satisfied

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party politics, publishing news fairly, impartially, and objectively. **NOTICE TO THE PUBLIC:** Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

with what goods they were offered and the prices charged. Then the automobile and good roads gave us greater mobility. We could and did shop about if we were dissatisfied. More and more stores came into being. The early chain system pioneered a new and almost revolutionary idea—the idea being to lower the profit made on each sale, and to earn an adequate total profit by increasing the volume of business and speeding up the turnover of stock. The independent stores, faced with chain competition, followed the trend. They brought new and successful ideas of their own into play.

Today the typical American community is a true reflection of the competitive system. Along Main Street are stores of every kind. Each is out to attract more customers—with better advertising, wider stocks, reasonable prices, improved service, more enticing styles, or some other inducement. This is what the "buyer's market" means.

### A HOLE IN THE GROUND

The Wyoming Eagle of Cheyenne tells an interesting little story of how industrial progress is made in this country—and the risks that attend it.

In July, 1947, an oil well was started in that state. At present, the hole is down nearly four miles, and it has cost more than \$1,000,000. No oil has been located. Furthermore, even if the drillers do strike oil, they don't know if it will rise far enough in the casing to be captured or if a pump can be manufactured to raise it.

Consequently, one of two things will eventually happen. Recoverable oil will be reached and in time those who took the risk will get their money back and earn a profit. Or, instead, the project will be abandoned, and its backers will have the deepest man-made hole on earth, at a cost of a large fortune which can never be retrieved.

As the Eagle says, "All in all it seems pretty much of a gamble—but men are like that. There's nothing so intriguing as the unknown, and the endless quest for knowledge and adventure causes hardy souls to risk their lives and fortunes." That statement pretty much sums up the whole history of the oil industry. Untold sums of money have gone into the ground and have produced nothing.

But, regardless of failures, more wells are drilled because people want oil, and men are willing to take risks to try to fill that need and make a profit.

This is what the economists speak of as incentive. It exists in its true state solely under free enterprise. Only the hope of reward for success can make men take the chance of failure.

## Caution Must Be Taken In Use Of New 2,4-D

Reports continue to come in from different sections of the state that show proper precautions are not being followed in the use of 2,4-D.

Orchards have been defoliated, tomato and other crops have been and are being hurt, and cotton is being damaged in almost every section of the state says M. K. Thornton, extension agricultural chemist of Texas A. & M. College. The users of 2,4-D must remember, he adds it will not only kill the weeds that are objectionable but may also damage desirable plants around the house and farm.

Here are some precautions that should be followed by every user of 2,4-D, as worked out by a committee of Texas A. & M. College research and extension workers for your protection. They say don't use 2,4-D dusts under any conditions. They drift easily and far. Either forms of 2,4-D are not recommended because they give off fumes readily. Small liquid spray particles may drift in air currents and delayed drift effects may occur following changes in direction of the wind. For ground sprayers, use nozzles producing coarse spray particles and use pressures below 40 lbs. per square inch. Do not apply 2,4-D with ground equipment in wind velocity greater than 5 miles per hour when susceptible crops are within 1/2 mile downwind or 1-8 mile upwind.

No 2,4-D says the committee, should be released from an airplane at altitudes higher than 10 feet above ground when wind velocities are greater than 5 miles per hour and susceptible crops are within one mile downwind from the application area. In winds of 6 to 10 mile per hour

The Strongest tire has the Strongest GUARANTEE

"Compre" GUARANTEES YOU FROM LOSS DUE TO TIRE FAILURE

ASSURED MILEAGE - Insured Service

velocity, it should not be released if susceptible crops are within 2 miles downwind and 1-8 mile upwind.

In communities having inter-mixed small fields of susceptible and nonsusceptible crops, it is difficult to meet the above conditions and in such areas airplanes should probably not be used for applying 2,4-D.

Thornton advises using separate equipment for 2,4-D. It is practically impossible, he says, to clean 2,4-D from a sprayer that may be used for applying fungicides or insecticides. Don't store 2,4-D in a building where seeds, fertilizer, fungicides or insecticides are stored or handled because of the danger of contamination.

Employ only qualified airplane operators who have properly functioning equipment and who will apply the spray when the conditions set forth above can be met, he says.

Among the most susceptible plants are: cotton, tomatoes, okra; vine crops such as cucumbers, sweet potatoes; legumes such as blackeye peas, peanuts, snapbeans; fruit trees, grapes, pecan trees and many ornamentals.

BACK OF ATKEISON'S

Almost any grass that is palatable and nutritious to cattle will make good silage if it is properly handled. In most sections of the state at the present time, there is an abundance of good grass. It should be saved and a silo filled with good silage is mightily good insurance for next winter's feeding operations.

Sanitation is the number one item in any successful fly control program. Insecticidal treatment is of little value unless a thorough clean-up job is done. There is no substitute for cleanliness.

They are; left to right, top row: Paula, 10 years, daughter of Mr. and Mrs. George Conwell, Goree; Keith, 5 yrs., son of Mr. and Mrs. Homer Lambeth Goree; Ellen, daughter of Mr. and Mrs. Jack Franklin, Munday. Bottom row: Carl R., Jr., son of Mr. and Mrs. Roddy Griffith, Munday; Marie, daughter of Mr. and Mrs. Earl McNeill, Munday; Eddie, 5 years, son of Mr. and Mrs. Lloyd King Goree.

**FARM PROGRAM NEWS**  
from the County Agricultural Conservation Committee

**Wheat Agreement to  
Take Effect**

As of July 9, the International Wheat Agreement had been ratified by actions responsible for 99.6% of the guaranteed exports and \$4.5 per cent of the guaranteed imports. Eighteen of the 42 nations signing the Agreement had not yet ratified. Provisions regarding guaranteed sales of wheat under the Agreement become effective on August 1. The Agreement seeks to assure supplies of wheat to importing countries and markets for wheat to exporting countries and markets for wheat to exporting countries at equitable and stable prices. U. S. sales under the Agreement total 168 million bushels of wheat for each of the 4 years covered.

At the first session of the International Wheat Council, held recently in Washington, it was agreed that signatory nations may have until October 31, 1949, to ratify the Agreement. After that, nations may still be admitted, in cluding those that did not sign, by a two-thirds vote of the exporters and importers voting separately.

London was voted the permanent seat of the Wheat Council. F. Sheed Anderson, leader of the United Kingdom delegation and Under Secretary of the Ministry of Food for the United Kingdom, was elected chairman of both the Council and the Executive Committee for the crop year 1949-50. Edwin McCarthy, who has represented Australia and is Secretary of the Department of Commerce and Agriculture of the Australian Government, was made Vice-Chairman.

The United States was elected a member of the Executive Committee for the 1949-50 crop year and of the Advisory Committee on Price Equivalents.

The next meeting of the Council will be convened in London in early November.

**Surplus Cropland**  
The country cannot afford to

allow good productive farmland to go to waste, declares B. F. Nance, Chairman of the Texas State PMA Committee, stressing the need for conserving the land taken out of tilled crops.

He points out that to use good productive land to further increase surpluses is waste both of the land and of the money necessary to grow the unneeded crops. Such land either should produce crops which are needed or set aside and conserved for future use.

The Agricultural Conservation Program provides financial assistance to farmers for putting such land into conserving uses, the chairman explains. This assistance averages about 50 per cent of the "out-of-pocket" cost of carrying out approved conservation practices.

Recommended practices for such land include the establishment of permanent pasture, rotation pasture, hay meadows, cover crops, green manure, and planting of trees. A check up at the County Agricultural Conservation Association office will indicate which of these are approved for a particular county and the financial assistance available.

"With the nation's population increasing at the rate of about

**Insect Damage  
May Be Heavy  
In '49 Cotton**

Cotton farmers this season face the prospect of much higher cotton pest damage than they incurred during the 1948-49 crop year, the National Cotton Council reminds producers in opening its current campaign to reduce insect damage.

Last year's damage was the lowest since 1924 but cotton enemies such as the boll weevil, bollworm, pink bollworm, cotton aphid, red spider and flea hopper reduced the total yield 6.6 per cent. Lint and seed valued at an estimated \$202,264,000 thus were destroyed, the Cotton Council reported.

In Georgia, insects claimed an estimated 15 per cent of the cotton crop last year. Production was lowered 12 per cent in Oklahoma; 9 per cent in South Carolina; 8 per cent in Alabama and Florida; 7 per cent in North Carolina and Texas; and 5 per cent in Arkansas. All other states had less than 5 per cent destruction.

The mild winter experienced in many cotton-producing states in 1948-49 favored the survival of cotton insects, the Council explains, and adds that pests may take a heavy toll in several areas this season unless effective control measures are taken by farmers.

A booklet summarizing state cotton insect control recommendations for 1949 already has been distributed by the Council to county agents, vocational agriculture instructors, insecticide manufacturers and other interested individuals. Cotton farmers are urged to consult their local extension and vocational agricultural workers or state experiment station entomologists for assistance on insect control problems.

Doctors and nutritionists say the yellow fat of beef is a better source of Vitamin A than the more popular white fat. The yellow color of beef fat is due to carotene in feed that grazing animals eat. Tests have shown that the fat of grass-fed cattle may have 20 times more Vitamin A than cattle fattened on a grain ration low in carotene.

2 million a year, all available land will be needed in the future," says the chairman.

"To waste the land either in producing currently marketable surpluses or to allow the land to deteriorate from erosion and neglect is to undermine the security of future generations."

One hundred and fifty of Texas' 254 counties have no public library and 3 1/2 million Texans are not getting adequate library service.

### Bob Baskin Dam Would Benefit 25 Cities In Surrounding Area

KNOX CITY—Steps toward the development of a reservoir in Haskell County and establishment of a water district which would include 25 cities and communities within a 50-mile radius of here were taken at a meeting of the Bob Baskin Dam Association here Thursday.

The reservoir would serve as a municipal water supply for several cities and as an area flood-control project.

Organization of the water district was authorized at the meeting with Bruce Campbell of Knox City, E. C. Humphrey, Stamford and W. R. Moore of Munday appointed to the organization committee.

The proposed reservoir would be at the junction of the Salt Fork and the Double Mountain fork of the Brazos River, four miles northwest of Rule, in Haskell County and would have a storage capacity of 300,000 acre-feet of water.

Preliminary engineering work has been done at the proposed site and it was reported that an adequate water shed is available

to make the reservoir feasible. State and United States representatives have been asked to promote the project under the federal reclamation program under terms of the report made by the Hoover Commission on flood control and municipal water supplies in this area.

The city council of Haskell was authorized to petition the state to permit establishment of the reservoir. Mayor Courtney Hunt said he will ask the council to assume the obligation at a regular meeting of the group scheduled for next Tuesday night.

It was explained that a political division of the state government must petition for the permit and approval will be subject to an act of the legislature.

The West Texas Chamber of Commerce will bear the cost of obtaining the permit, according to General Manager D. A. Branden who attended the meeting.

Word on development of a reservoir in this area started 22 years ago under the direction of Bob Baskin of Seymour, for whom the association is named. The Baskin Dam Association was formed in 1918.

Named to the executive committee of the association at Thursday's meeting were John Couch, Haskell, chairman; Ralph Duncan, Haskell; S. N. Reed, O'Brien; Dr. M. H. Brannen, Spur; Bruce Campbell, Roy Arledge, Stamford; E. C. Humphrey, A. C. Pierson, Haskell; Porter Campbell, Rule; Clyde Westfall, Stamford; Reeder Smith, Rochester; Henry Arledge, Seymour and W. R. Moore.

Visitors in the home of Mr. and Mrs. Jim Phillips last Sunday were Mrs. Albert Johnson and children, Mr. and Mrs. Henry Henson and children, Mr. and Mrs. Dale Phillips and children, all of Munday; Mr. and Mrs. J. C. Beeton, Mrs. J. W. Savage and son, Sammy Lee, Bud Phillips, Billy Grant and Nothan Todora, all of Dallas; Ms. B. L. Matthews, Sulphur Springs; and Mrs. Neoma H. Savage of Stamford.

### Moffett Gives Explanation Of Vets Land Bill

At the time this is written a good, slow rain would do a lot more good than anything the Legislature did. The Legislature will not meet again until next January. Let us hope it rains before then.

I am asked many questions about the veterans' land buying program. There are some points about it that need clearing up. Until 35 or 40 years ago the State of Texas and also the Federal Government owned considerable unoccupied land which was suitable for farming. But even at the close of World War I, thirty years ago, practically all of the land worth settling on was gone; and only a very few veterans of World War I ever got any government-owned land and most of them let it go back as it was not worth living on for the time required to secure title.

While World War II was still going on, some members of the Texas Legislature thought of the idea of issuing bonds to raise money for the state to lend to veterans so they could buy small farms at a suitable time after the war closed. The state constitution forbids that the legislature issue bonds upon the faith and credit of the state unless the people vote for the issuance of said bonds. The people did vote in the fall of 1946 to permit the legislature to sell bonds in an amount not to exceed \$25,000,000 and to provide by law for the lending of this money at such time, and under such conditions as seemed wise and proper. Twenty-five million dollars is a lot of money. There was much argument in the legislature as to just how much money should be raised by selling bonds in order to put this land buying program into effect. Some thought it should

be at least a hundred million dollar lending program; some thought only ten million. Anyway, the people finally voted for a twenty-five million lending program, subject to whatever restrictions the legislature later saw fit to make in order to take care of both the interest of the veterans and the state. On account of the high price of land, the legislature did not do anything about the land buying program in '47 and '48. Then we met in '49 it was thought best to start it operation, as normal conditions seem to be coming back.

A bill was drawn up and introduced. On its way through the legislature a member who had seen service overseas, but had not himself been wounded, offered an amendment, which was adopted and which provided that those veterans who were wounded in action should have a 90 days preference in making application for loans. There are 90 days preference in making application for loans. There are considerably more than twenty thousand veterans of World War II in Texas, who were wounded in action. If half or two-thirds of these apply their loans will take up just about all of the twenty-five million dollars which the state is authorized to lend. The people may vote at a later date for the issuance of more bonds; but, as of now, the twenty-five million dollars is the limit. This point is not generally understood, but should be. If you want to make application I suggest that you write to Mr. Alvis Vandygriff, c-o of General Land Office, Austin, Texas, and ask for blanks. Any program that helps promote home ownership seems to me to have merit.

Mrs. J. W. Henderson of Olton visited her mother, Mrs. W. F. Hutcheson and other relatives and friends a few days last week. She returned home Sunday.

Miss Mary Couch of Haskell was a Munday visitor last Tuesday.

### Baptist W. M. S. Meets Monday In R. B. Bowden Home

Both circles of the Baptist Missionary Society met in the home of Mrs. Buel Bowden on Monday afternoon for a Royal Service program, business and social meeting.

A prayer, led by Mrs. Huron A. Poinac, opened the program. Miss Lucy Stogner gave the devotional and Mrs. Andy Hutchenson directed a very interesting program. She was assisted by Mrs. B. L. Blacklock and Mrs. M. H. Reeves. The topic for discussion was, "Christ, the Answer to Oriental Religion". A Chinese song was sung by the junior G. A. girls.

Refreshments were served to twenty members and six junior girls as guests.

### Legal Notice

#### SHERIFF'S SALE THE STATE OF TEXAS County of Knox

Whereas, on the 22nd day of June, A. D., 1949, in a certain cause numbered 4713 on the docket of the district court of said county wherein The State of Texas, County of Knox, The City of Goree, a Municipal Corporation, and The Goree Independent School District, as plaintiffs, and Mrs. Cressie Phillips, a widow, and the unknown heirs of Mrs. Cressie Phillips, deceased, and all persons claiming under, by or through them, or either of them, as defendants, the said plaintiffs recovered and were awarded judgment in the amount of One Hundred Seventy and 86/100 Dollars for taxes, and legal amount of penalties, costs and interests computed thereon, together with the foreclosure of their delinquent tax liens upon the property herein after described as the property of the defendants, because of non-payment of the taxes due thereon;

And whereas, on the 25th day of July, A. D., 1949, by virtue of the said judgment and the mandates thereof, the Clerk of the District Court of said County did cause to be issued on Order of Sale, commanding me as Sheriff of said County to seize, levy upon and sell in the manner and form as required by law the hereinafter described property as the property of the above defendants, to satisfy the said judgment.

Wherefore, by virtue of the said Judgment and said Order of Sale, and the mandates thereof, I did on the 26th day of July, A. D. 1949, seize upon and levy upon as the property of the above defendants, the following described real property, situated in the county of Knox and State of Texas, to-wit:

1st Tract: Being out of and a part of Section No. 83, Block 45, of the H. & T. C. R. R. Co. lands, and described as follows: BEGINNING at the point west of the center of Magnolia Street in the town of Goree, Texas, said point being 345.72 feet West of the Goree Townsite Companies land, and at the Northwest corner of a 3/4 acre tract of land sold to F. H. Davis, out of the above described section, same being the South-West corner of a 1 1/2 acre tract of land

sold to Lee West out of said section; THENCE North on the west boundary line of said Lee West tract 189 feet to stake for the Northeast corner of this tract; THENCE West 172.86 feet, a stake for the Northwest corner of this tract; THENCE South 189 feet a stake for the S. W. Corner of this tract; THENCE East 172.86 feet to the place of beginning, save and except that portion taken for highway purposes for what was then known as Highway 30.

And I will, on the first Tuesday in the month of September, A. D., 1949, the same being the 6th day of said month, proceed to sell all the right, title and interest of the defendants in and to said property, at the Court House door of said County, in the city of Benjamin, between the legal hours provided for by law, to the highest bidder for cash as completely as I can convey; subject, however, to the rights of the defendants, to redeem same in the time and manner provided for by law, and subject to the further rights of the defendants to have said property divided and sold in less divisions than the whole. And in event there are no bidders, said property will, at said sale, be bid off to the State of Texas or either of the other taxing units.

Dated at Benjamin, Texas, this 26th day of July, A. D., 1949.  
H. T. MELTON,  
Sheriff, Knox County, Texas.  
52-3tc.

Mr. and Mrs. Brogan, who have recently returned from Germany are visiting Mrs. Brogan's parents, Mr. and Mrs. Sweatt. Mrs. Brogan is the former Katie Bell Sweatt.

Mr. and Mrs. V. H. Smith and children of San Angelo spent several days last week and the week end here visiting in the home of Mr. and Mrs. S. G. Smith and family.

### Weekly Health LETTER

Issued by Dr. Geo. W. Cox  
M. D., State Health Officer  
of Texas

AUSTIN—There is no more emphatic proof of the power of ignorance and carelessness to spread disease than is shown by the continued ravages of tuberculosis, which is responsible for more deaths between the ages of fifteen and forty-five than any other disease.

Despite the knowledge of its cause, spread, and curative procedures, tuberculosis continues to be a grave public health problem, and today it holds fifth place among the killing diseases in this State. This fact exists even though the majority of tuberculosis patients could have their condition arrested, if it were recognized early and proper treatment applied.

These facts are disclosed by Dr. Geo. W. Cox, State Health Officer, who says, "treatment of the early recognized case is essential to recovery. It is of equal importance, from the public health viewpoint, that the spread of this devastating infection be prevented. A more widespread appreciation of this fact would result in the saving of thousands of lives."

The State Health Officer added: "When a diagnosis of active tuberculosis has been made, examination of all other members of the family should follow as a matter of course. Tuberculosis runs in families, not because of any special susceptibility, but because it is communicable and easily transmitted from one member of the family to others."

To reduce the number of death caused by tuberculosis Dr. Cox urges periodic examinations of all adults, including chest X-rays; frequent check-ups by physicians where active cases and their contacts are known; isolation or hospitalization of active tuberculosis cases and a more intelligent application of hygienic living principles.

Mr. and Mrs. Earl Tayntor of Wichita Falls spent the week end here with Mrs. Tayntor's parents, Mr. and Mrs. M. L. Raynes, and other relatives.

Mr. and Mrs. E. L. Goolsby and daughter, Newanna, spent several days last week visiting in Corpus Christi and other points in East Texas.

Mr. and Mrs. Tom Martin of Vernon visited with Mr. and Mrs. Doris Collins and other relatives and friends here over the week end.

Mart Hardin of Texas Tech in Lubbock spent last week end with home folks.

### MARKET CULLS WISELY

Heavy culling of poultry flocks during the summer months calls for extra effort in marketing if farmers are to get the best prices for their hens, says C. M. Evans, chief, Southwest poultry branch, Production and Marketing Administration, USDA.

To keep their flocks on a profitable basis, most farmers are now selling their broody hens early molters and marginal layers, Evans said. Altogether these culled birds in any farm flock of average size make up one or more coops to sell.

Here are some hot weather tips that Evans offers for those

who may be marketing cull hens soon: Give the hens plenty of clean, fresh water while holding just before marketing. Be sure coops are clean and not overcrowded. Provide plenty of ventilation and shade at all times. Separate hens according to quality and let each lot sell on its own merits, and never use sacks or bags or tie chickens together for the trip to market.

If these precautions are followed concludes Evans, the marketing of the culls will be easier and shrinkage and other losses will be less.

### For The Ladies: A Diet That Really Works

We went out visiting the other night and the ladies were talking about weight-reducing diets. One of them had a special "15-day Hollywood diet" guaranteed to slim her down fifteen pounds' worth. Another was living on bananas and skim milk!

I might have known the missus would get the bug, too, and sure enough the other day she asks me, "Joe, what kind of a diet do you think I ought to go on?"

"Mother," I says, "the only diet I would ever recommend to anyone is simply moderation. I wouldn't

trust any of those get-thin-quick diets. Simply cut down on desserts, bread, butter, sweets and fats—but when you do, even do your cutting down moderately."

From where I sit, moderation is the watchword. Moderation with food, with smoking or with the enjoyment of a friendly glass of temperate beer or ale. Actually, moderation adds to the enjoyment of just about anything.

The Farmall House Chrysler-Plymouth

**Washington  
News Letter**

By Congressman Ed Gossett

WASHINGTON, D. C., July 26—This week the House passed the Rural Telephone Bill, of which Congressman W. R. Poage, of Waco, Texas, was the author. In general, this bill is patterned after the Rural Electrification Act, and will be administered by REA. Congressmen Wilson of Dallas and Reagan of Midland voted against the bill—all other Texas Congressmen voted for it. Most of us supported this legislation because rural people have fewer telephones and poorer telephone service today than they had over 30 years ago. Furthermore, we believe that in the final analysis this telephone program will pay for itself and that it will not unfairly injure any existing telephone systems.

My Subcommittee on Immigration and Naturalization has had dozens of private bills before it seeking to legalize the admission of former American citizens of Italian descent who lost their American citizenship because they voted in the 1948 Italian elections. Our present law provides that any person who votes in a foreign election thereby forfeits his American citizenship. On Thursday of this week, our Committee listened to testimony of Dr. Gian Vincenzo Soro, First Secretary of the Italian Embassy in charge of legal matters, who explained to us the situation in Italy which caused some 4,000 American citizens of American extraction to vote in Italy's elections and thereby forfeit their American citizenship. In the first place, the Italians have a law that persons who do not vote shall have their names posted in the City Hall on a sort of blacklist. Furthermore, their police records which all must have in seeking employment will show that the individual, if he didn't vote, is guilty of bad conduct in such matter of non-voting. In addition to this compulsion, in the 1948 elections the American people were appealing to Italians through every possible avenue to vote to help defeat the communist ticket. Even several American congressmen of Italian extraction made speeches which were broadcast in Italy appealing to all persons to vote anti-communist. Every American of Italian extraction received letters from his kin and his friends in this country urging him to go and vote anti-communist. Therefore, it seems that these some 4,000 American Italians should be forgiven for having acceded to the pressure both in Italy and America to vote.

It is interesting to note that our law on forfeiting citizenship for voting in foreign elections was passed in 1940. It was passed because in 1935, thousands of German-Americans went from this country back to the Saar to vote in the Alsace-Lorraine plebiscite. They went to help carry the Alsace-Lorraine plebiscite for the Germans. Yesterday, a most interesting conference was held in my office. At my request Mr. Willard Thorp, Assistant Secretary of State for Economic Affairs, and Mr. Oscar B. Ryder, Chairman of the United States Tariff Commission, each with their expert advisers, met with members of the Texas delegation in the Congress to discuss the problem of oil imports. Texans in particular are distressed because oil production in Texas has been cut back some 700,000 barrels since last January. This has resulted in a loss of some 30 million dollars in revenue for Texas, and is resulting in unemployment and in financial embarrassment to many independent oil producers. We are now importing more oil than at any time in our history. Imports run around 6,000,000 barrels per day. For the first time in history, our imports of petroleum and petroleum products exceed our exports of petroleum, and petroleum products by a considerable percentage. Furthermore, the problem threatens to get worse. Of course, one question is how much of our trouble in Texas is due to imported oil. We think a considerable part if it may be due to such imports, and we are urging the State Department and the Department of Commerce to give us protection from too much foreign competition. Incidentally, practically all of this importation of oil is being done by major oil companies. At first, it would appear to be primarily a problem of the American government dealing with American oil companies. However, the picture is complicated because of our Reciprocal Trade Agreements with foreign governments, and because said foreign governments are getting a substantial income from monies paid them by Americans and American oil producers.

The Government officials above mentioned promised us on yesterday that they would carefully re-examine the problem to determine what, if any, administrative relief they could give us. We have insisted that if administrative protection is not given, we would do our best to work out some legislation to protect the domestic industry from serious injury because of foreign competition is not given we would do our best to work out some legislation to protect the domestic industry from serious injury because of foreign competition.

Miss Monita Hicks is visiting friends and relatives in Fort Worth and Dallas this week.

Mr. and Mrs. Doug Busby and son of Abilene visited relatives and friends here last week end.

**Drivers License  
Law Is Relaxed  
Garrison Says**

AUSTIN — Colonel Homer Garrison, Jr., Director of the Texas Department of Public Safety, announced a temporary relaxation in the policy of renewing expired drivers licenses, pointing out that the action is being taken because of inadequate field and office personnel to handle the procedure in the normal manner. Colonel Garrison stated that the temporary measure, which becomes effective immediately will preclude excuses on the part of motorists for not having obtained a renewal of their licenses.

This should come as good news to a half million Texas motorists since the records indicate that there are 3 1/2 million drivers in the State and only 2 1/2 million current licenses are on file. Estimates show that of the one million drivers who do not hold presently valid drivers licenses about half have had one at some time but have failed to renew them. The other half million have either moved from the State, ceased driving or died since the records were compiled or have never possessed a license to drive.

Under the new program, Colonel Garrison outlines the following steps for obtaining a renewal of expired Texas drivers licenses. First: if you have a license that was issued since January 1, 1944, you may secure a renewal of same by mail from the Department of Public Safety, without examination. Second: if you have a license that was issued prior to January 1, 1944, you may renew same by presenting the old license to a Drivers License Examiner in your locality and executing an original application. License in the latter case will also be issued without examination.

Formerly, those applicants for renewal who had allowed their licenses to expire were required to stand re-examination. Now, under the temporary set-up, you may reinstate your permit to drive without taking the test, regardless of how long it has expired, provided it is not now suspended or revoked.

Mr. and Mrs. Niel Brown and son, Jimmy, left last Thursday for several days visit in Galveston, New Orleans, La., and other points.

Mr. and Mrs. Wallace Reid and son, Jimmy, visited with relatives in Greenville last Sunday. Mrs. Reid and Jimmy remained for a longer visit.

## Miss Frances Smith And Willard Reeves United In Church Wedding

The First Methodist Church in Munday was a beautiful scene last Saturday evening, July 23, when it was decorated with large white baskets of peach gladiolus blue tapered candelabras and peach gladiolus entwined with greenery on the chancel rail and the arch. At this time, Miss Frances Elizabeth Smith, of Munday, became the bride of Mr. Glenn Willard Reeves, also of Munday. The double ring ceremony took place at seven o'clock with the Rev. Huron A. Polnac, pastor of the First Baptist Church, of Munday, officiating.

The bride, given in marriage by her father, was lovely in a white marquisette gown over white taffeta designed with a high neckline and a fitted bodice. Her arm mitts were of the same material and the fingertip veil which fell over her shoulders, was attached to a headpiece of seed pearls. She carried a white Bible topped with two orchids. The bride also wore the traditional "something old, something new, something borrowed, and something blue". The something new was her gown, old were her slippers, borrowed, was the white Bible belonging to her sister, Miss Gloria Smith, and something blue was a garter.

Miss Gloria Smith of Munday attended her sister as maid of honor. She wore a peach organdy gown over satin with a fitted bodice and matching arm mitts. Her headdress was of white net and sequins. She carried a colonial bouquet of orchid gladiolus. Bridesmaid was Miss Sammie Smith of Munday, also sister of the bride. She was attired in a blue organdy gown over satin with matching arm mitts. Her gown was designed the same as the maid of honor and wore the same kind of headdress. Her colonial bouquet was made up of peach gladiolus. Little Miss Doris Mae Smith of San Angelo, cousin of the bride, was flower girl. She wore a gown of white marquisette over taffeta and carried red rose petals in a white satin covered basket. Lenis Ray Polnac served as ring bearer.

J. E. Reeves, Sr., of Munday, father of the bridegroom, was best man. Groomsman was J. E. Reeves, Jr., of Lubbock, brother of the bridegroom. Perry Reeves, brother of the bridegroom, and Dick Harrell of Munday were ushers.

Just before the wedding march was played, Miss Mazie Matthews of Bangs, played softly while the ushers lighted the candles. Accompanied by Miss Matthews on the piano, Mrs. Joe David Williams of Ozona, sister of the bridegroom, sang, "I Love Thee", "Because", and "The Lord's Prayer".

Immediately following the ceremony, a reception was held in the home of Mr. and Mrs. J. E. Reeves, Sr. The couple was assisted in the receiving line by the wedding party, parents of the bride, Mr. and Mrs. S. G. Smith and parents of the bridegroom, Mr. and Mrs. J. E. Reeves, Sr.

The bride's table was laid with a lace cloth. The crystal punch bowl was encircled by white daisies and the bride's bouquet also lay on the table. Peach colored gladiolus completed the decorations for the reception rooms.

After the bride and groom cut the first piece of the three-tiered cake which was topped by a miniature bride and groom, Mrs. Travis Martin and children of the bridegroom, served the guests. Mrs. J. E. Reeves, Jr., of Lubbock, sister-in-law of the bridegroom, poured punch. Miss Carolyn Hannah of Munday, cousin of the bridegroom, secured the names for the bride's book. Others in the house party included Mrs. D. E. Whitworth, Mrs. Alvin Reid, Mrs. Huron A. Polnac, and Miss Jerry Polster of Munday and Mrs. V. H. Smith of San Angelo.

For her traveling frock, the bride chose a white peque suit with white accessories. She wore a shoulder corsage of orchids.

The bride is the daughter of Mr. and Mrs. S. G. Smith of Munday. She is a 1945 graduate of the Seymour high school. She attended McMurry College in Abilene and attended Howard Payne College in Brownwood from which she graduated with a Bachelor of Science degree in 1949.

The bridegroom is the son of Mr. and Mrs. J. E. Reeves, Sr. of Munday. He attended the Munday schools graduating with the class of 1942. He attended Texas Technological College in Lubbock one year before entering the United States Navy. While in the navy, he attended a naval academy school in Maryland and after receiving his discharge, he attended and grad-

uated from Georgia Tech in Atlanta, Georgia, then entered the Baptist Theological Seminary in Louisville, Kentucky from which he graduated in 1949.

Guests were present from Munday, Seymour, San Angelo, Lubbock, Ozona, and Goree. Out-of-town guests include Mr. and Mrs. Travis Martin and children of Seymour, Mr. and Mrs. V. H. Smith and children, San Angelo; Mr. and Mrs. J. E. Reeves, Jr., Lubbock, Mr. and Mrs. Joe David Williams of Ozona and lowstone Nationalcmf mfwyfw Mrs. S. E. Stevenson of Goree.

## Family Reunion Held Sunday At L. E. Hunter Home

The home of Mr. and Mrs. L. E. Hunter of Goree was the scene of a family reunion last Sunday, when relatives of the late Mrs. Jenner Hunter gathered for their annual family reunion.

The reunion is held each year with some member of the family. Forty-eight were present Sunday, and all enjoyed a bountiful noon-day meal and several hours spent at visiting and reminiscing. Among those present were the following:

Mr. and Mrs. Woodrow Vernon and Kenneth and Linda, Mattie Choate, Ft. Worth; Arah Phillips, Big Spring; Mrs. Rowena Phillips Amarillo; Anna Smith, Big Spring; Rev. and Mrs. E. H. Phillips and Phil Sylvester; Georgia Phillips, Big Spring;

Mr. and Mrs. Cecil Phillips and son, Knot, Texas; Seytha Bagwell, Gorman; Mr. and Mrs. Robert M. Myers, Munday; Mr. and Mrs. J. R. Rogers and Jimmy, Azle; Mr. and Mrs. Ky

## Winchester Home Opened Thursday At Anniversary Party

The beautiful new home of Mr. and Mrs. Sidney Winchester was again opened to relatives and friends last Thursday evening as the couple observed their silver wedding anniversary with a reception.

More than 75 guests called during the reception hours, from seven to ten o'clock.

Mrs. C. C. Jones greeted the guests as they arrived, and Mrs. D. A. Melton presided at the guest register. In the receiving line were Mr. and Mrs. Winchester and Rev. and Mrs. Huron A. Polnac.

A linen cutwork cloth covered the tea table, where Mrs. J. O. Bowden and Mrs. Worth Gafford served the anniversary cake and tea. The huge silver punch bowl was an anniversary gift to Mrs. Winchester from her husband.

Misses Shirley Yost and Joan Winchester and Lynet Tankersley played piano music during the calling hours. Others in the house party were Mrs. Toby Winchester, Mrs. Clovis Winchester and Mrs. B. A. Yarbrough.

Joe Layne Womble, who is with the navy in California, came in last Monday for several days visit with his parents, Mr. and Mrs. Layne Womble, and other relatives and friends.

Sammy Snelson left last Sunday for Camp Hood, where he is stationed, after re-enlisting for the army.

Hunter, Iowa Park; Marvin Myers, Crowell; Mr. and Mrs. G. L. Hunter, Munday;

Mr. and Mrs. John E. Nelson and Bobbie, Roseann and John Lee, Munday; J. W. Coats, Waurika, Okla.; Mr. and Mrs. Weldon Floyd and Loreta and Elton; Munday; Mr. and Mrs. J. E. Hunter and J. L. and Johnnie, Knox City; Mrs. Jim Driggers, Weirert; Mr. and Mrs. E. C. Hunter, Haskell; Jimmie and Ethel Wheeler, Fort Worth, and Hassell E. Hunter, Abilene.

## Knox Prairie Philosopher Says He Doesn't Need Experts To Tell Him When He Is In A Depression

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek is amazed that anybody needs an expert to let him know when a depression is on, he says in the following letter this week.

Dear editor:  
Most of the time I don't have much trouble understanding what I read in the newspapers that turn up out here on Miller Creek, especially yours, and ordinarily even the Times-Herald ain't exactly what you'd call beyond comprehension, but the other afternoon while I was lookin over the paper which I brought along with me as I figured it would be handy to clean out my skillet with I noticed another article on the argument over whether we're in a depression or not.

As I understand it, the experts can't make up their minds whether we're in a depression,

J. A.

and the arguments have gotten so mixed up even President Truman came out with a statement sayin we aren't in one, adding: "If we were in a depression, I would be the first person to tell you."

I guess times is changin and things don't mean what they use to, but up to now I ain't never had to depend on the President of the United States to let me know whether I was in a depression. Always managed to figure it out for myself. I don't

know what kind of depressions the experts are devisin now, but up to the present it was about as hard to tell if you was in a depression as it was to know if you was hungry, and to require the President of the United States to get on the radio and let us in on whether we was in one or not would be about like him tellin an Eskimo there was snow on the ground, or a man with a naggin wife that he was married.

I guess the country's gettin soft. Why even as late as 1932, it was the hardest thing on earth to find a man who didn't know whether he was in a depression or not. Didn't none of em live out here and I don't think none of em lived in Munday.

Personally, I don't care what the experts say, we ain't in a depression. Any time I can still find a store that'll sell the bacon on credit, times is boom-in, and so far as I'm concerned the experts' have about run out of somethin to argue about. Now it may be true we're head-in for a depression, as it's my observation that most boom times was followed by a depression, but we ain't got there yet and when we do it won't take the President of the United States to let us in on it. I suggest the President take up his time worryin with Congress and the atomic bomb and leave me in charge of discoverin when we're in the middle of a depression.

Yours faithfully,  
J. A.

## 4-H Safety Workers in All-Out Attempt to Reduce Accidents on Farms in 1949

MR. FARMER, has the 4-H Club member in your family checked your farm and home for accident and fire hazards lately? If not, you can expect him to do so any day now. 4-H'ers are making an all-out attempt to reduce the annual cost of accidents affecting farm folks—including motor vehicle, fire and property damage—which totals more than one billion dollars, or about \$35.00 per person! They are also trying to cut down the number of accidental deaths, which kill 51 farm residents in the U. S. every day in the year.

Your 4-H'er doubtless will caution you to drive carefully on highways, and use proper signals when turning or stopping (top right). More than 7,300 rural people are killed annually in motor vehicle accidents. In fact, more fatal automobile accidents occur in rural areas than in any other location.

Falls rank second in farm accident causes. So watch your step when carrying a clothes basket, like the girl shown in right photo. Your 4-H safety worker probably will suggest you tack down throw rugs or put them on non-slip matting, and keep stairways uncluttered.

Are your lightning rods properly grounded? The 4-H'ers shown at top left found the ground wires broken, and therefore worthless. Lightning, which is one of the greatest causes of farm fires, each year destroys 20 million dollars worth of farm property, kills 599 farm residents and injures 1,390 others.

National Farm Safety Week will be observed July 24-30. Rural boys and girls taking part in the National 4-H Farm Safety program

want to make you, your family and neighbors safety minded so that accidents mentioned above won't happen.

For achievements in safety work, the 4-H boy or girl may receive a prized sterling silver medal of honor as county winner. General Motors also provides an educational trip to the National 4-H Club Congress, Chicago, next November, for the state winner, and \$300.00 college scholarships for each of the eight national champions. By practicing safety from this time on, you'll not only help your 4-H'er in his safety work, but help save a life—which may be your own.

The National 4-H Farm Safety program is conducted under the direction of the Cooperative Extension Service.

The storage of canned foods should be cool, dry, well-ventilated, clean and free from odors. Even good quality canned foods will develop a flat, sour taste and will lose food value when stored at warm temperatures.

Rotenone or dierris will kill more insects when applied during the heat of the day or when the temperature is rising.

It Pays To Advertise

A big cotton crop doesn't necessarily mean big profits for the cotton growers. Profits will be determined by the price received and the cost of producing and harvesting the crop.

## Retail Sales In June Show A Decline In '49

AUSTIN—June dollar sales of Texas retailers lagged behind a year earlier for the fourth consecutive month, the University of Texas Bureau of Business Research reported.

Retail sales in Texas slid 7 per cent from May to an estimated \$395 million in June, dipping 1 per cent under June 1948.

Durable goods stores presented a 3-per-cent gain over last year's sales in contrast to a 5-per-cent decline in nondurable goods store sales. From the previous month, June sales slipped 2 per cent in durable goods stores and dropped 11 per cent in nondurable goods stores.

Motor vehicle dealers recorded the biggest June-to-June rise among both durable and nondurable goods stores with a sales increase of 21 per cent. Smaller gains over June 1948 were turned in by general merchandise store, 4 per cent; florists, 3 per cent; and filling stations, 2 per cent.

Jewelry stores turned in the heaviest reduction of sales in comparison with June a year ago, their sales falling 20 per cent. June sales of lumber and building material dealers fell 16 per cent during the 12-month period; farm implement dealers, 14 per cent; office supply stores, 11 per cent; men's and boys' clothing stores, 11 per cent; women's specialty shops, 10 per cent; grocery stores without meats, 9 per cent; and shoe stores, 7 per cent.

With the exception of a 4-per-cent increase in hardware stores June sales of all durable goods stores declined from 1 to 10 per cent from the previous month.

In the non-durable goods group good stores and filling stations increased their June sales 1 to 10 per cent, respectively, over their June sales 1 to 10 per cent respectively, over the preceding month. Other stores registered decreases ranging from 1 per cent in eating and drinking places to 25 per cent in women's specialty shops.

When picking up broken glass, dampen a piece of cotton and tap it over the surface where the small pieces of glass are lying. The cotton will pick up the tiny particles, and there will be less danger of cutting yourself.

## Now... Chrysler Offers

**1—Safer Driving!** Through the years, the greatest advances in safety come to you first from Chrysler. Now there's a new advance in steering—Chrysler's "center control" steering! Your days of fighting a wheel are over. There's greater road stability, easier handling, less road shock. Even the leather covered foam rubber Safety-Cushion dash, and the new "Bulls-Eye" headlight lenses are designed to give you extra protection.

**2—Safer Design!** Now the engineers who pioneered the first all-steel car bodies have developed a still safer body and frame design—23% more rigid. You have full control of your automatic gear shifting car. With Prestomatic Fluid Drive Transmission, the Safety Cushion dash, and the new "Bulls-Eye" headlight lenses are designed to give you extra protection.

**3—Safer Vision!** When Chrysler engineers introduced the first 4-wheel hydraulic brakes 25 years ago—they brought to the automobile industry a new idea. It is the idea of car design that begins with safety, then builds beauty, comfort, performance! You can't possibly appreciate the difference until you drive this car. Find out how much more confident you feel in this Chrysler with its mighty High Compression Spitfire engine.

**Mrs. Dorse Rogers In Summer School**

ABILENE—Among the new summer school students who have enrolled at Hardin-Simmons University for the second ones of Goree are Mrs. Jerry Rogers, daughter of Mr. and Mrs. E. L. Jones of Goree.

Mrs. Rogers is a member of the senior class. She is the wife of Dorse Rogers, Goree drug-gist.

Nineteen fields of study are being offered during the summer at H-SU. The courses include those in art, bible, biology, business administration, English, chemistry, education, psychol-

A man who was going to run for a State office accepted an invitation to speak at a high school graduation in a small town. As he entered the building, he greeted a friend, who was a member of the legislature. The lawmaker said, "I want to be frank with you; I am going to support Joe Doakes because we have served together in the House."

The State candidate, in beginning his speech, said, "I am happy to see my good friend, your representative, here tonight. I want to bear testimony to the fact that there is not a more hard-working and more sincere member of the legislature than he is and he enjoys the respect and affection of his colleagues and of the press. I want to thank you citizens of this district for giving Texas such a fine public servant."

Then he launched into his speech. The hall was crowded, even the walls were lined with listeners and others massed outside the windows and peering in. The address was received most enthusiastically and afterward many flocked up to shake the speaker's hand. Among them was a member of the legislature. The visitor said, "Well, Henry, don't hurt me any more than you have to."

"Hurt you!" exclaimed the

French, government, history, physics, journalism, mathematics, physical education, radio, Spanish, speech and music. A three weeks term of instruction will begin Monday, August 22. Commencement will be Friday, August 19. The tenth annual school for band directors and band members will be held August 15 to 27. Director Marion B. McClure has announced

representative. "Thunder, I'm for you!" Will Rogers' comments after World War I are by no means untimely today: "The conference is off to a flying start. There is nothing to prevent their succeeding now but human nature."

**CHURCH OF CHRIST**

### Maytag Dutch Oven Gas Range

cooks automatically or by conventional methods, and brings you the never-equalled excellence of famed Dutch Oven cooking.

As a conventional range, it's years ahead. Cooks faster—saves gas—with its new heat-focusing Spiral Flame burners. And you'll like the new ease of cleaning, with entire top and burner bowls stamped from one piece of gleaming porcelain!

For Dutch Oven cooking, set the dial and forget it. A whole meal cooks without attention... automatically. Gas shuts off at the specified time, and cooking continues on retained heat. Super-insulation keeps the heat in... and keeps the kitchen cool.

COME IN AND SEE HOW IT COOKS ON WITH THE GAS OFF
