MUNDAY, KNOX COUNTY, TEXAS, THURSDAY, OCTOBER 20, 1949

NO. 12

## Kracker Krumb's Odd Bits Salvaged At Random

Cotton seems to be the subject of the day.

That and the weather.

And the two were combined to make good subjects of conversation last Monday.

With the cotton fields ripe unto harvest and with pickers still scarce, it looked like the weather man was casting a big frown on all of us.

Dark clouds that seemed laden with rain began to assemble here and yon, and by nightfall it looked like we were in for two weeks of gloomy weather.

We went to bed with the patter of rain on the roof, expecting to find a gloomy Tuesday morning with lots of cotton pickers in town instead of in the fields.

But the rain was light, and the morning dawned but very little gloomy.

But the forecasts seem to be for occasional rain, and the weather may not be at all fit to write about by the time this gets into print.

But the main topic of conversation remains cotton and cotton pickers.

Saturday afternoons, it seems there are enough pickers in town to gather all of Knox county's cotton in short order.

There was a picker shortage in front of the Roy Theatre and the Times Office last Saturday afternoon and Sunday.

Trouble was, there was no cotton to pick right in that area, and the pickers were seeking entertainment and refreshment.

And judging from the rapidity of ticket sales at the show and from the litter in front of all business houses Monday morning, the pickers received both.

We spent a good while Monday morning sweeping pop corn containers, ice cream containers, chewing gum wrappers, cigarette packages, picture show heralds, and the like away from our front door and off the sidewalk.

But we aren't alone. Practically every other business man was doing the same. It all goes with fall of the year.

But the fact remains there is still a shortage of pickers.

Many farmers with big acreages and better than a half bale to the acre open are still without hands.

Gins are running day and night—24 hours—and not keeping up with the cotton that comes in. Yet, there is much cotton in the fields that needs to come out.

Hoyle A. Sullins reports that 5,566 bales of cotton were ginned in Knox county up to October 1—nearly 1,000 more than were ginned in the same period last year.

And efforts continue to secure cotton pickers from every source possible.

Moody Johnson, a director in the Farmers Co-op Gin, returned recently from down the border way with some 600 Latin American laborers to work in the fields of Knox county.

H. A. Pendleton of the Paymaster Gins has been on a trip in the same direction in an effort to get some 700 laborers. Reports were that he was coming in with them the first of this week.

And many farmers have taken the initiative on their own behalf trying to get the crop out.

When we think of the farmer's life being the easy one, we have but to call back to the days when they've gone through this much work and expense and anxiety and agitation trying to get the debt-paying fleecy stuff out of the burr and into the bale.

And your subscription is our (Continued On Last Page)

## Stamford To Play Moguls On Friday Night

The hapless Stamford Bulldogs, for many years strong contenders for the district title, will come to Munday next Friday night for their annual set-to with the Munday Moguls.

The Bulldogs are at the bottom of the ladder in the conference this year, having yet to ring up a conference win. The Moguls have suffered one conference loss—that to the Greyhounds of Throckmorton.

The Mogul-Bulldog game is always a wide attraction for this area, and many fans are expected to be on hand for the game. Rivalry of the two teams have made this an outstanding game each year, in years past when the Moguls were district winners, they had strong competition in the Bulldogs.

It will be one of the most interesting games of the district, since Stamford will be out to add one conference ribbon to her side, while the Moguls will be fighting to hold their losses to the present standing, that of only one conference game.

Remaining on the Moguls schedule are the following games:

October 21, Stamford here.  
October 28, Roby there.  
November 4, Albany here.  
November 11, Haskell here.

## Federation Day To Be Observed By Munday Study Club

October the twenty-eighth is Federation Day for Texas Federation of Women's Clubs, and director for the Munday Study Club program will be Mrs. Fred Broach, Jr., first vice-president of District No. 1.

Mrs. Herschel Eichler, president of District No. 1, will be guest speaker.

Visiting club members will arrive at four p. m. and Munday ladies at three-thirty p. m.

The meeting will be in the Study Club rooms.

## Munday Girl Is Chosen Member Of Choir At T. S. C. W.

DENTON—Miss Charlotte Williams, daughter of Mr. and Mrs. P. V. Williams, has been selected as one of the forty-four members of the Texas State College for Women Choir for 1949-50.

Directed by Dr. William E. Jones, professor in the Department of Music, the choir gives concerts and recitals on the campus and in cities and towns near the college. It has been compared by critics to the outstanding women's musical organizations in America.

Miss Williams, a sophomore voice student, was a member of the college chorus last year.

## Mrs. Al Williams Attends Lectures In Wichita Falls

Mrs. A. C. Williams spent Saturday, Sunday night and Monday in Wichita Falls. She was one of the many piano teachers, who attended the lectures given by the famous John Schaum. The lectures were held in Hardin College and the luncheons were also at the college.

Over three million copies of Mr. Schaum's instruction books have been sold in the past three years and the lectures are very instructive and interesting.

## Mexican Infant Is Buried On Monday

Espananza Garza, age 1 month and 14 days, passed away at 10:30 p. m. Sunday at the Knox County Hospital, where she had been taken for treatment.

The child was the daughter of Mr. and Mrs. Ramon Garza, Mexican laborer.

Graveside services were held at the Goree cemetery on Monday afternoon, with the Mahan Funeral Home in charge of arrangements.

Mr. and Mrs. J. C. Borden and Mr. and Mrs. J. C. Campbell visited relatives in Spur last Sunday.

## Officials In Lone Star Gas Co.

JOE C. BARROW

M. L. BIRD

Appointment of Joe C. Barrow of Dallas as superintendent of Lone Star Gas Company's Abilene division of distribution has been announced by Chester L. May of Dallas, vice-president in charge of distribution properties. Mr. Barrow will direct distribution operations for Lone Star here and in more than seventy other cities and towns comprising the division, Mr. May said.

Mr. Barrow has been superintendent of distribution for the gas company's Dallas division of distribution since 1946. He succeeds M. L. Bird of Abilene who has been appointed operating manager for Lone Star Gas Company's general division of distribution which represents local gas distribution systems owned and operated by the company in more than 300 cities and towns in Texas and Oklahoma, according to Mr. May. Mr. Bird will have headquarters in Dallas and his territory will include all Lone Star distribution plants except those located in the company's Dallas and Fort Worth divisions, Mr. May said.

## Reserved Seats Are Available For Game On Friday Night

Reserved seats for the Munday-Stamford game next Friday night and for the two remaining home games, have been made available, it was announced on Monday.

These seats, located in the center section of the bleachers on either side of the field, will make it possible for those who arrive late to have good seats for the games, provided they are purchased ahead of game time.

Plans are being made for rebuilding the bleachers next year, and money derived from the sale of reserved seats will go into this fund, it was announced. So buy your reserved seat tickets—be assured of a good seat near midfield, and help out on this fund.

## Cotton Ginnings

Census report from the Department of Commerce, bureau of the census, at Washington shows that 5,599 bales of cotton were ginned in Knox County from the crop of 1949 prior to October 1, as compared with 4,840 bales for the crop of 1948.

The report was issued by Hoyle A. Sullins of Vera, special agent for the department.

A survey of the Munday gins at nine o'clock Thursday morning showed that a total of 5,764 bales have been ginned in Munday.

Dr. G. E. Strickland, of Phoenix, Arizona, visited with his brothers, Mr. and Mrs. Melvin Strickland and Mr. and Mrs. Jim Strickland, and family, last Tuesday.

Mr. Darrow and Mr. Bird have combined service records with Lone Star totaling forty-six years.

## Rhineland Girl Is Named Assistant Editor Of Magazine

Miss LaVerne Albus, daughter of Mr. and Mrs. P. W. Albus, has been named assistant editor of "Prologues", the college literary magazine of Briar Cliff College, Sioux City, Iowa.

In her freshman year, Miss Albus was feature editor of the college newspaper and for the past two years, has contributed articles to the college magazine while serving on the editorial staff.

Miss Albus, a senior student in English, is an active member of Sigma Tau Delta, national English fraternity. One of her poems was published in the 1949 spring issue of the "Rectangle", Sigma Tau Delta literary magazine. She also holds membership in the Iowa Future Teachers of America and at present is serving as secretary of the Northwest Region of that organization.

## DR. WILLIAM E. PONDER FINISHES SCHOOL

Dr. William E. Ponder, son of Mr. and Mrs. Earl R. Ponder, who recently graduated from the Northern Illinois College of Optometry, has returned home. After a few days visit with his parents, he went to Plainview, Texas, where he is helping Dr. Joe Webb in his office. Dr. Ponder has not decided where he will set up practice.

## BIRTH ANNOUNCEMENT

Mr. and Mrs. E. C. Browning are announcing the arrival of a son born Sunday, October 16, at the Knox County Hospital. The little boy weighed six pounds and has been given the name of Larry Edward. Mother and little son are doing nicely.

## Our Citizens Of Tomorrow

Here's another sextette of our citizens of tomorrow. They are, left to right, top row: daughter of Mrs. Lona Caddell, Munday; James David, son of Mr. and Mrs. James G. Gaither, Munday; Diane, daughter of Mr. and Mrs. K. B. Ritchie, Vera. Bottom row: Johnny, son of Mr. and Mrs. Clarence Jones, Goree; Lee Ann, daughter of Mr. and Mrs. Robert Green, Munday; son of Mr. and Mrs. L. G. McGuire, Gilliland.

## Nocona Man Wants On Board Of Education

W. J. Stone, Nocona, Montague County, Texas is a candidate for the State Board of Education from the Thirteenth (Congressional) Educational District of which Knox County is a part. Stone announced for this place after he was petitioned by more than 1000 citizens representing each of the fifteen counties of the district to make the race for the State Board created by the Gilmer-Aikin laws passed by the current Legislature.

The new twenty-one member State Board will replace the old appointive board of nine members and they will in turn appoint a State Commissioner of Education to take the place of the elective State Superintendent of Public Instruction under the present system of education for the State. The Board serves without pay.

The election date has been set for November 8 at which time one member will be elected for each of the twenty-one Congressional Districts. Ten proposed changes to the Constitution of Texas will also be presented to the voters in this same election.

Stone is a veteran of the school business in Texas, having served as a teacher and public school administrator in the state for 25 years, the last twenty as Superintendent of the Nocona Public School. He resigned in 1945 to enter private business as a truck and farm implement dealer in Nocona and is actively engaged in that same business at present. During his long and successful tenure as a superintendent of schools, he was very active in trying to improve the lot of public school education for Texas by raising the standard of teachers and facilities. At the time of his resignation, he was serving on the executive committee and the legislative committee of the State Teachers Association.

Mr. Stone states that "the Gilmer-Aikin legislation is a very important step in the right direction toward making Texas schools second to none in the nation." In announcing for the job he stated that he wanted it made clear that he believes in the "best in education for Texas and with equal opportunities for every child."

In addition to his interest in school work, Mr. Stone is also active in civic and church work of the area. He has served as superintendent of his local Sunday School, president of the Rotary Club, president of the Chamber of Commerce and many other activities.

## Cliff Swain's Toe Valuable Asset To H-S. U. Cowboys

The toe of Clifton Swain, Munday Mogul star a few years ago, when the locals won the regional championship, is helping the H-S. U. Cowboys win their games this year, point by point.

Up until last week, Swain had kicked 13 extra points in 15 tries for the Hardin-Simmons Cowboys in four games.

Local fans who see the Cowboy games don't see much action out of Swain. He goes in to kick for the Cowboys, then warms up a bench until a touchdown is made, when he goes in to add the extra point. But Swain has his value there, and the Cowboy coach seems to be saving him for these emergencies.

## Hallow'en Carnival Set For October 16 At Sunset School

The Sunset School will present its hallow'en carnival on Wednesday, October 26th, at 7:00 p. m.

Queen's coronation will be the high light of the carnival. Amusement and food booths and games have been planned. A musical program by Brownie Tackitt and his playboys will precede the coronation.

An award will be presented to the room having the highest percentage of parents belonging to the Parent-Teachers Association.

Mr. and Mrs. Clyde Nipper and children of Kirkland were guests in the home of Mr. and Mrs. H. E. Sharp last Sunday.

W. J. STONE

## Annual Boy Scout Drive To Open Nov. 1st

The annual Boy Scout drive for funds will open for the Northwest Texas Area Council on Tuesday, November 1, it was announced here Monday.

M. L. Wiggins of Munday has been named county chairman, and he stated the various community chairmen would be announced later, possibly next week.

There is no set quota for this year, Wiggins said, and the contributions will be voluntary; however, some member of the committees will likely contact individuals for contributions.

The drive will continue through November 5th, it was stated.

## Local F. F. A. Chapter Purchases Registered Boar

The Munday Future Farmers of America has purchased an outstanding registered Duroc Jersey boar. This boar, as well as a number of his offspring won the Grand Championships of the Haskell Fair and the Abilene Fair, and this boar, (A. C. C. Royal Beauty) won third place at the 1949 Dallas Fair. This boar, we think, is an unusually good one, and we are proud of him. It is the purpose of the Munday Future Farmers chapter to improve their hogs as well as to help the community in keeping good hogs.

So if you are in favor of improving your hogs and wish to breed to this boar, the F. F. A. boys extend you a welcome. The breeding fee is five dollars, \$5.00.

If you wish to really see a large number of this boar's offspring, we invite you to make a trip to Mr. B. E. Smith's farm, six miles east of Munday. His hogs are really pretty. B. E. Smith will keep this boar for the chapter.

## EARL R. PONDER, Adviser

## GERALD MYERS RETURNS FROM KANSAS CITY

Gerald Myers, who won the right to represent the Munday chapter at the national convention at Kansas City, Missouri, attended this convention this last week. Gerald was all enthusiastic upon his return. He reports he had a wonderful time. He gave a good report of the happenings at the convention and states that it was a real educational trip for him. He states that he would really like to go again. M. J. Fields had about the same story to report last year after he made the trip. He tried to win the trip again this year but could not beat Gerald.

The Munday F. F. A. chapter wish to thank each of you people who gave the boys your subscriptions to newspapers, and magazines. This made the trip possible. We are still taking subscriptions and promise you prompt service. Let us renew your paper or magazine. We can give you bargain rates on any of them.

## JOE WOMBLE VISITS THE FRENCH RIVIERA

Joe L. Womble, seaman, USN, of Munday, Texas, recently visited the French Riviera on a ten-day leave when the radar picket destroyer USS Furse, of which he is a crew member, put in to Golfe Juan, France.

Leave parties to Paris and other points of interest in France have been arranged for the crew.

## Stranolind To Drill Two Wells In Knox County

The Stranolind Oil and Gas Company, with vast holdings in Knox county, has located two deep tests in the county, one just north of Knox City and another in the extreme northwest portion of the county.

Stranolind O & G No. 1 Big Four Ranch is 2970 feet from the north and 990 feet from the west lines of Section 35, block 4, D&WRR survey, a 5500-foot test in the northwest portion of the county.

Nearer home is the same company's No. 1 Marjorie F. Baker 6500-foot rotary test which is 660 feet from north half mile north of Knox City.

One of the tests is expected to begin operations within the next 30 days, and both will be watched with interest, since they might mean the first wells in the county to produce oil in commercial quantities.

## Vernon Contractors Submit Low Bid On Knox Road Project

Low bid of \$37,302 for approximately 6.11 miles of highway construction work at Gilliland, Knox County, was submitted Tuesday to the State Highway Commission by Stephen Luce and A. L. Sheppard of Vernon.

The project, the Highway Commission said, calls for grading, drainage structures, flexible and single asphalt surface treatment. This is the Gilliland project, which the Highway Commission announced some three weeks ago that bids would be received on.

The project will extend from a point three miles west of Gilliland to Gilliland, and from U. S. Highway 82 south 3.11 miles.

## Goree Is Host To Knox Teachers Tuesday Night

Around 80 teachers and visitors assembled last Tuesday night for the regular meeting of the Knox County Teachers Association, which was held at the Goree school auditorium.

The program opened with entertainment by the Goree high school choral club, under the direction of Mrs. Joe Mae Davis and Mr. Miller. Mr. Treat of Barmont then supervised a period of fun and foolishness.

Principal speakers were Dr. D. C. Eiland and Russell Penick, co-ordinator for the Knox County Vocational School for Veterans. Dr. Eiland told of newly instituted health program and of the work of health nurses in the county, while Mr. Penick talked of the work done by the veterans' school, as well as a future program for the school.

Two health nurses are now employed in the county. Mrs. Harold Stephens of Knox City is county health nurse, while Mrs. Fitzgerald is employed as nurse in the Munday Public Schools.

Supt. W. C. Cox extended an invitation for the association to hold its next meeting in Munday. This will probably be the latter part of February or early in March, it was stated.

## Durwood Scott Is Out For Tackle On A & M Fresh Team

Durwood Scott is already getting his pictures in the papers, and he's only a freshman of a few weeks at Texas A. & M. College, but as "Johnny" Scott.

Scott, a former Munday Mogul star back, is among the top tackle candidates for Texas A. & M.'s freshman football team.

"He's the type of player who is apt to improve and see lots of service for the Aggies before he graduates," says the Wichita Daily Times, which paper carried his picture last Friday.

Mr. and Mrs. Jerry Edwards, who are attending Hardin-Simmons University in Abilene, spent the past week end here visiting with Mrs. Edwards' parents, Mr. and Mrs. Chester Bowden and other relatives and friends.

Act of Congress, March 2, 1879.

### LOCAL NEEDS FOR 1949

We're pulling for these needs in 1949. What will the year bring?

1. An adequate waterworks system. This is a must for the continued growth of Munday.
2. Building of more housing projects. There continues to be a housing shortage.
3. Recreational facilities for our youth of today—our citizens of tomorrow.

### IN THIRTY MINUTES

During the next half hour, the railroads, as usual will be quietly going ahead with the job of meeting the huge transportation demands of this country. And what they will accomplish in that brief period of time may come as a surprise to the millions of us, who, from long habit, take good railroad service for granted.

In the coming 30 minutes, some 600 freight and passenger trains will start on their runs from points all over the country. The freights will turn out a service which is equivalent to moving about 30,000,000 tons of goods for one mile.

In the same half hour, the passenger trains will perform a service equivalent to moving the entire population of a city the size of Philadelphia one mile.

But that won't end the railroads' contribution to the national economy. Every half hour they pay out \$250,000 in wages—\$45,000 in taxes—\$115,000 for fuel and supplies. Railroad spending approaches \$1,000,000 an hour—and it goes on every hour of the day, and every day in the year. The rails are never on vacation.

The romantic story of the pioneer days of the railroads has been told many times—they brought civilization to the wilderness and built this nation. Their present-day contribution to agriculture, industry and civilian needs is equally important. The lifeblood of the country lies in the swift, economical and dependable movement of goods. No other medium of transportation, when it comes to the big jobs, can do a tithe as much as the railroads.

### MORE FIRE PREVENTION WEEKS

This year's observance of Fire Prevention Week ran from October 6th to the 15th. It will be tragic if the lessons learned during the week are immediately forgotten. Careless individual habits are responsible for all but a small minority of fires. Fire prevention must be practiced for 52 weeks of the year—not just one.

During the first eight months of 1949, our fire waste totaled nearly \$450,000,000. This marked a decline as compared with the same period last year, but most of the drop was probably due to slightly lower commodity and construction costs. Our fire record is the probably due to slightly lower commodity and construction costs.

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.  
**NOTICE TO THE PUBLIC:** Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

Our fine record is the worst in the world, and it cannot adequately be measured in mere thousands of human beings annually, many of them children—in the destruction of great forests and other invaluable natural resources—in lost jobs, in piles of ashes that once were homes, in ruined factories.

What makes this all the more disgraceful is that most fires can be easily prevented. The major causes of fire are "little things"—carelessness with matches and cigarettes, rundown stoves and heating systems, improperly stored paints and solvents and other inflammables, out-of-repair electrical equipment, and so on down the list. A little thought, a little effort, could eliminate most of these hazards.

If, as individuals, we make every week a fire prevention week, we will win the war against this great destroyer.

### TOWARD LEANER HOGS

For many years successful research has been given to developing hog strains which produce more lean meat, for which the market is usually strong and profitable to the producer, and less lard, which is difficult to sell and is of small financial value. Yet, according to one student\* of the problem, "The outstanding fact is that, while everybody talks about it, no widespread changes have as yet taken place. In years of plentiful feed supply, farmers pour corn into their butcher hogs to bring many up to 300 to 350 pounds. Of ten times these hogs carry a quilt of fat over four inches thick with very little added growth in the muscular core of the animal."

The solution of the problem lies in raising more hogs and marketing them at lighter weights. The simplest way to do this is for farmers to save more of their little pigs. The average litter is about 10 pigs—yet last year, a government survey found, only 6½ were alive at weaning time.

Half of that loss is caused by the sow crushing her young when she rolls or shifts position. It has been proven, through actual tests, that this can be largely avoided by improving hog houses. A ledge is built, under which the pigs can run to safety when the sow moves. If, in addition, a covered brooder heated by a lamp is provided so the pigs can find warmth, a substantial part of the remaining loss can be prevented.

It is estimated that such simple steps as this would, in time, give the country 16,000,000 more pigs a year. The hog supply could then be marketed at a lower weight and in a leaner state, there would be no need for overfeeding, and the farmer and all others concerned would profit greatly.

The War of Roses was so called because the emblem of the House of York was a white rose and that of the House of Lancaster was a red rose.

### Uncle Sam Says

Take a good look at that plane, Dad! It's the "Flying Cartoonist" and it's carrying a group of Americans who are doing their "bit," a great big "bit" for their country. The passengers are some of our top-flight cartoonists, every one of whom has helped to sell U. S. Savings Bonds, using their comic strips to emphasize the old American principle of thrift. And they practice what they preach, realizing that the regular purchase of U. S. Savings Bonds is the one sure way to save. And Savings Bonds pay you \$4 for every \$3 invested, in just ten years.

Two soldiers from distant parts of the nation who were stationed at Gainesville during the war were strolling down the street one night. They paused in front of a book store which had an entire window filled with copies of a single title.

One slowly read the name of the book, "I Give You Texas!"

The other replied, "I'll give it right back to you."

A civilian, standing on the curb a few paces away, refrained from identifying himself. He was the author.

Another time, I did not identify myself, either.

It was this way: A friend living in another town wanted six copies of "I Give You Texas!" for Christmas gifts and he wanted them autographed. So I hied myself to a book shop, took six copies from the stack and was waiting for a saleslady to wrap them up when a customer came along, picked up one of the copies, glanced through the pages, then said to me:

"Have you read this book?" I wanted to say "Yes, ma'am, and it's truly terrific"—but refrained from modesty; and besides, this was in Fort Worth where I live and probably the next moment some friend would have come along and called out, "Boyce, old boy, how's the book going?"

So I replied, "Yes, ma'am; in fact, I wrote it." She looked at me, then looked back at the book, again at me, and said, "Well, I believe I'll take a copy, anyhow."

### KITCHEN KOMMENT

Don't throw away old cotton powder puffs. Wash them thoroughly and keep them near the sink. They make excellent pads for applying scouring powder.

Follow this method for best results in washing a chenille bedspread so that the tufts will retain their original fluffiness: Fold the wet spread, tufted side in, and pin it securely to the line. As the wind blows, the sides of the spread rub together, making the tufts fluff out.

A piece of cheesecloth, saturated with turpentine and dried thoroughly, will make a dust cloth which will hold dust until the cloth is shaken.

William Hertel, who is attending St. Edwards University at Austin, visited his parents, Mr. and Mrs. Bill Hertel of Rhineland, the latter part of last week. Mr. and Mrs. H. F. Jungman took him back to Austin last Sunday.

Fred Broach, Jr., was a business visitor in Breckenridge last Monday.

**Frostair**  
3.5 CU. FT. ZERO LOCKER  
Constant zero cold keeps food frozen-fresh for months right in your kitchen. Bushel-big twin bins store 130 lbs. of meat or 80 qts. of fruits, vegetables. Zero Locker has separate compressor.

**REDUCED PRICES**  
Special price on a new Frostair during the next 30 days. This box is now being manufactured by the Deepfreeze Company. We will give you a liberal allowance on your old box. See us first!

**J. L. Stodghill**

**NEW WALL COVERING TO BE AVAILABLE**

A new kind of wall covering made of cotton with a baked-on paint finish will make its debut for home decorators this fall, the National Cotton Council reports.

The new process by which the paint is baked onto the cotton base not only allows the materials to be washed but makes it cover and hide cracks in the wall

plaster, the manufacturer said. Because of the its strength, it also resists fresh cracks.

Eight patterns, as well as plain tints in high style colors, soon will be available.

The requirements for a U. S. Grade A turkey are: must be well fleshed, entire carcass covered with fat and practically free from pin feathers. These birds bring the top prices.

**OLD STOVE Round-Up SALE**

Pay only \$5.00 down, 36 months to pay the balance. This does not apply on butane stoves.

**Bargains in Hot Plates and Waffle Irons**

2-burner electric hot plates, and waffle irons now going at dealer's cost. Get yours at these prices.

**Stanley Wardlaw Appliance Co.**

There's more than one way to dress a fowl! Feed sack fashions have put the chic in chickens, and Virginia Kireddorfer of Memphis has given a real cock-o'-the-walk strut to her rooster by making him a tux complete with top hat. Virginia, too, is clad in a sack outfit. It all started, the National Cotton Council says, in a feedbag-sewing contest dreamed up by the Poultry and Egg National Board to find the ten "best-dressed" fowls in the nation. Winners will be selected in Kansas City in February with an automobile as the grand prize. Any poultry fancier may enter his chick, duck, or turkey by writing for an entry blank to the Fowl Fashion Show, Poultry and Egg National Board, 208 W. Washington St., Chicago 6, Illinois.

**Knox Prairie Philosopher Isn't Worried Over The Chances Of Science Making Steak Out Of The Pulp Wood**

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek has been reading newspapers again, his letter this week reveals.

Dear editor:  
I picked up a copy of a newspaper out here yesterday afternoon out of force of habit and when I noticed a headline about atomic energy I started to put it down as I have a rule now against readin about Atomic energy oftener than once a week, it's like taking cornbread three times a day, you can get enough of it, but since I ain't prejudiced against gettin in a rut, in fact I've been in one most of my life, and have noticed most folks who claim they're gettin out of one are merely climbin over another, I kept the paper down and read where some scientist who got tired of his laboratory and wanted in the newspapers claims in the future a handful of atomic energy will run a ship across the Atlantic ocean two or three times and all the present sources of fuel will be obsolete. A man with a oil well will be about like a farmer with a gyp-water well.

Not so long ago I read where scientists was workin on a formula that would duplicate a T-Bone steak without having to cut it from a steer, and from time to time I've read other claims about how simple life is gonna be when the scientists stop talkin and get down to work. One claims a teaspoon full of atomic energy will do all the work around a farm for a whole year.

Now my neighbor has a tendency to believe all this, and while it may be handy to us as an excuse for not working, after all no use raisin cattle if science is gonna make steaks out of pulp wood, no use plowin if you can get it done with a pinch of atomic energy, I personally ain't being swept off my feet.

In the first place, talkin about manufacturin a steak as good as one from a fat steer is one thing and doin it is another, just like runnin a ship or a plow with atomic energy is one thing in the talkin stage but something else when it comes to actually doin it and I ain't heard of anybody lettin his cattle die off because they was obsolete or gettin any plowin done with atomic energy, and

in the second place a thinkin man doesn't have to wait on science to avoid work. I been doin it successfully for years out here, long before anybody split an atom.  
Yours faithfully,  
J. A.

Rough preparation of cotton at the gin is costly to both the ginner and farmer. Cotton picked green or wet and taken directly to a gin not equipped to handle such cotton may be reduced in value from \$5 to \$35 per bale.

October 9-15 is National Fire Prevention Week. Practice safety and fire prevention every week.

**Legal Notice**

**THE STATE OF TEXAS**  
To H. W. Seay, and the unknown heirs of H. W. Seay, if deceased.  
Greeting:

You are hereby commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday, the 21st day of November, A. D., 1949, at or before 10 o'clock A. M. before the Honorable District Court of Knox County, Texas.

Said plaintiff's petition was filed on the 6th day of October, 1949.

The file number of said suit being No. 4734.

The names of the parties in said suit are:

W. W. Naylor, Guardian of the person and estate of Mrs. Fannie P. Bunts, a widow, and a non compos mentis, as Plaintiff, and H. W. Seay and the unknown heirs of H. W. Seay, as Defendant.

The nature of said suit being substantially as follows, to-wit:

Being a suit in trespass to try title to the following described land, situated in Knox County, Texas, to-wit:

Being the South 77.4 acres of land out of the East 100 acres of land in Sub-Survey 3, and the North 22.6 acres out of the East 100 acres of Sub-Survey 1, both in Original Survey 10, D. G. Burnett lands in Knox County, Texas, and being the same land described in a deed of record in Volume 46, page 575, Knox County, Texas, Deed Records, and for general relief.

Issued this 6th day of October, A. D., 1949.

Given under my hand and seal of said Court, at office in Benjamin, Texas, this 6th day of October, A. D., 1949.

OPAL H. LOGAN,  
Clerk, District Court, Knox County, Texas.

## Perome Ermis And Frony Franklin Are Wed At Rhineland

In an impressive double ring ceremony preformed in St. Joseph's Church in Rhineland on Monday, September 26th, Miss Frony Franklmbac e...I mmm Frony Franklin became the bride of Mr. Jerome Ermis of Seymour.

Rev. Fabian Diersing, O. S. B., officiated. Acolytes assisting the pastor were Lawrence Fetsch Marce Homer.

For the exchange of wedding vows, the bridal couple stood before a beautifully decorated altar of natural flowers and lighted candles. The processional and recessional wedding march was played by Mrs. Francis Albus, organist, who also provided music for the services.

The bride wore a gown of slipper satin. It was fashioned with a full skirt and fitted bodice. The back was buttoned to below the waistline with tiny self-cov-

## Gift Shower Is Given To Honor Mrs. Patterson

Mrs. L. B. Patterson, Jr. was honored with a gift shower\* last Tuesday evening, October 18th, from 8 to 9 o'clock, at the Munday Study Club house.

Bouquets of yellow dahlias and pink roses were used to decorate the party rooms.

Mrs. John E. Nelson greeted the guests as they arrived. At the register, Mrs. T. L. Thompson secured the names of the ones present.

Refreshments of hot chocolate and white cake squares, decorated in pink and green, were served by Mrs. Leland Floyd and Mrs. Wayne Patterson, respectively. Plate favors were tiny diapers filled with nuts.

Mrs. Lee Patterson displayed the gifts which circled a huge stork.

Hostesses for the occasion were: Mrs. Lee Patterson, Mrs. John E. Nelson, Mrs. Leland Floyd, Mrs. Wayne Patterson, Mrs. T. L. Thompson and Mrs. Lanora Guess.

ered buttons. The long sleeves extended to points over the hands. Her finger-tip, lace edged, double illusion veil fell from a beaded tiara. She carried a bouquet of white carnations and satin stramers.

Mrs. Johnnie Sykora, sister of the bride, was matron of honor. She wore a yellow gown and wore a corsage of white carnations. Miss Irene Ermis, sister of the groom, was bridesmaid. She wore a gown of aqua and wore a corsage of pink carnations.

Mr. Johnnie Sykora, brother-in-law of the bride, served as best man and Gus Ermis, brother of the groom, was groomsman.

During the afternoon, a reception was held at the home of the bride's parents where many relatives were served. In the center of the table was a beautiful three-tiered wedding cake, decorated with a miniature bride and groom.

The bride is a graduate of the Rhineland high school with the class of 1946. The groom attended the Seymour schools.

The young couple plan to make their home in Seymour.

**RETURNS FROM HOSPITAL.** Mrs. W. M. Mayo returned home last Thursday night from the Knox County hospital where she had been taken for treatment. Reports are that she is doing nicely.

Mr. and Mrs. Clarence Eiland of Lamesa visited with relatives and friends here last Tuesday and Wednesday.

R. F. Polster of Megargel was a business visitor in Munday last Tuesday.

Mr. and Mrs. Lewis Wallace and daughters of Abilene visited relatives and friends here over the week end.

## Sweetheart Of Texas Aggies

## Mrs. Fred Broach Is Director For Study Club Program

The Munday Study Club met in the club rooms for the October 16th program with Mrs. Fred Broach, Jr. as director.

"India," was the topic and Mrs. W. R. Moore, Jr. gave a most interesting geographical sketch of this very important country, today, and she also brought movie films of India, the capital of Delhi and especially of Kashmir, where her brother Pannie Farmer, took the pictures during his stay in India during the war.

Mrs. Broach gave a vivid description of Pakistan, its origin and its importance to the Western Allies, and also of the Indian Union.

Members present were given two hours of educational value. A short business meeting was held after the program and special mention made of the next meeting October 28th, Federation Day.

Mrs. Riley Brooks, Mrs. F. L. Burroughs and granddaughter, Patricia, of Odessa, visited the past week in the home of Mr. and Mrs. J. O. Bowden.

## Hefner H. D. Club Meets Tuesday In Home Of Mrs. Jones

The Hefner Home Demonstration Club met Tuesday evening, October 18th at 2:30 in the home of Mrs. E. J. Jones.

In the business session, it was decided to send sewing material and scraps to the state hospital in Wichita Falls.

The next club meeting will be in the home of Mrs. Billie Hutchens November 1st at 2 p. m. at which time the Munday Home Demonstration Club will be guests for "Achievement Day"

A refreshment plate was served to the following members: Mrs. George Weber, Mrs. Clyde Warren, Mrs. Ben Holder, Mrs. Bob Lambeth, Mrs. Billie Hutchens, Mrs. E. J. Jones and two visitors, Miss Stella Cowzar and Mrs. S. G. Hampton.

Mr. and Mrs. Burton Boyd and children, Ann and Layne, of Dumas visited in the home of Mr. and Mrs. J. O. Bowden last Friday. They were accompanied by Mrs. Boyd's mother, Mrs. Oliver Lilly, who remained for a longer visit. Mrs. Lilly is Mr. Bowden's sister.

## Relatives Are Entertained In J. O. Bowden Home

Mr. and Mrs. J. O. Bowden entertained Tuesday evening with an informal party, honoring Mr. Bowden's sister, Mrs. B. L. Bowden and Mrs. Oliver Lilly. Only relatives attended this very pleasant affair.

A sing song, several games of "42" for the men and visiting among the ladies, was the program for the evening, followed by refreshments of frosted punch and cookies.

Those attending were: Mrs. Maye Bowden, Mr. and Mrs. Chester Bowden, Mr. and Mrs. Oscar Spann and George, Mr. and Mrs. C. J. Reece of Knox City, Mr. and Mrs. Levi Bowden, Lee and Jerry, Mrs. J. B. Bowden, Mr. and Mrs. G. W. Hawkins and Jan, Mrs. Dwayne Russell of Wichita Falls, Burnice Bowden, Miss Shelly Lee, Mr. and Mrs. J. A. Caughran, Mr. and Mrs. Sherman Hill and the guests of honor, Mrs. Bowden and Mrs. Lilly.

Robert Gaines and Jimmie Amerson spent the week end with Gordon Gaines, who is a senior at Texas Tech, Lubbock. They also attended the football game between Tech and Baylor.

## BIRTH ANNOUNCEMENT

Mr. and Mrs. Antone Jungman of Hale Center are announcing the arrival of a baby girl born in a Plainview hospital on Friday October 7th. The little girl has been given the name of Patricia Ann. The Jungmans are former residents of Munday.

Mrs. T. G. Bengte left Wednesday for Ballinger where she is visiting Mrs. W. H. Lynn for several days. She is also visiting with Mrs. Lynn's cousin, who arrived Saturday from England by plane.

Mr. and Mrs. Ernie Reynolds and sons, Mrs. Dora Wardlaw and G. E. Reynolds spent the week end in Sadler visiting Mr. and Mrs. Dick Hughes and also in Bell where they visited Mr. and Mrs. Claude Reynolds.

Mrs. Don Wardlaw and Mrs. Dick Wardlaw were Wichita Falls visitors last Monday.

## Munday H. D. Club Meets October 12 With Mrs. Morris

The Munday Home Demonstration Club met in teh home of Mrs. Bill Morris October 12th.

Club officers for 1950 are Mrs. Joe Patterson, president; vice-president, Mrs. Clint Haws; secretary-treasurer, Mrs. Bill Morris; council delegate, Mrs. Sharp, and reporter, Mrs. Frank Bowley.

Miss Eugenia Butler gave a demonstration on making Christmas wreaths and corsages from different types of native materials.

The next meeting will be in the home of Mrs. J. R. King on October 26th.

Refreshments were served to twelve members and the county agent, Miss Butler and assistant county agent in training, Miss Nelda Jo Kindman from Spur.

## Munday F. F. A. Boys Winners At Haskell Fair

The Munday F. F. A. boys made a good showing in the Haskell Fair. Recently six of the Munday chapter boys purchased Registered Jersey heifers. Four of these boys took their heifers to the Haskell Fair. Joe Bailey Roberts won first place in the Junior division, \$10.00; first place in the open class, \$10.00; and a rosette for Grand Champion. L. C. Searcy won first place in his class of the Junior division, \$10.00; first place in his division of the open class, \$10.00. Bobby Lawrence won second place in both the junior and open class and was awarded \$15.00. James Simpson won first place in both the Junior division and the open class and was awarded \$20.00. J. L. Ford won third place in both divisions and was awarded \$10.00. Gerald Myers did not show his heifer. He was making preparations to attend the F. F. A. National Convention. Norman Gaines had not purchased his heifer. Norman went to Denton to get his heifer. She is a good one. These boys have paid high prices for these heifers. But when we consider that no other heifers in Texas have better breeding, we begin to see that the Munday boys really have something good started. Let's offer them every encouragement.

## LOCALS

Mr. and Mrs. Ernest Welch of Seymour and Mr. and Mrs. Charles McCauley attended the T. C. U.-Texas A. & M. football game in Fort Worth and the S. M. U.-Rice game in Dallas last Saturday.

Mr. and Mrs. Lloyd Lucky and children of Lubbock spent the past week end here visiting in the homes of Mr. and Mrs. Lynn Hay and Mr. and Mrs. Terry Harrison and family.

Don L. Ratliff and Tommy attended the A. & M.-T. C. U. football game in Fort Worth last Saturday. They also attended the Rice-SMU game in Dallas Saturday night.

Mr. and Mrs. A. H. Ladd and Mrs. Irene Meers left Tuesday for Huntsville to see the prison rodeo and will see the fair in Dallas on their way returning home.

Mrs. G. R. Eiland Jr. and daughter, Jan, and Mrs. Jim Grammar and daughters, June and Jane, of Lamesa, visited relatives in Munday last week end.

N. A. Chastain was a business visitor in Spur the first of this week.

## Activities Of Colored People

The tea sponsored by the P.-T. A. last Sunday evening was quite successful. Amount raised was \$24.13. The proceeds will be applied to a payment on our range, which cost \$79.50. We will then have a small balance of \$17.00 which will soon be eliminated.

The luncheon has been delayed in opening because of some other minor details which will be taken care of this week. The opening date has been set for Monday.

Thursday night is the regular meeting of the P.-T. A. All patrons are urged to be present.

Be careful! Observe state and local traffic regulations.

## LOCALS

Mrs. M. C. Hallmark, Frances and Sue and Miss Bobbie Price attended the A. & M.-T. C. U. football game in Fort Worth last Saturday. They also attended the state fair in Dallas on Sunday.

Mrs. Irene Meers had as her guests Sunday, Mr. and Mrs. A. H. Ladd of Wichita Falls, Mr. and Mrs. Brice Meers of Seymour, Mr. and Mrs. Paul Barron of Lorraine and Mr. and Mrs. Boyd Meers and family.

Miss Gwyna Lee Smith and Lendol Smith, who are attending Baylor University in Waco, spent the week end here visiting their parents, Mr. and Mrs. A. L. Smith and with friends.

Mr. and Mrs. A. E. Bowley and Mr. and Mrs. Joe Frank Bowley and son visited in the home of Mr. and Mrs. T. M. Anderson in Wichita Falls last Sunday.

Miss Ida Mae Spann of Wichita Falls visited relatives in Munday last week end.

Mrs. M. E. Fairman of San Angelo is here visiting her daughter and family, Mr. and Mrs. A. A. Smith, Jr.

Mrs. Gilbert of Little Rock, Ark., is visiting in the home of Mr. and Mrs. Bill Sharp and family.

Mr. and Mrs. L. A. Hackney and son of Fort Worth visited relatives in Munday the past week end.

Mrs. B. L. Bowden of Olton is visiting relatives and friends in Munday this week.

## Weekly Health LETTER

Issued by Dr. Geo. W. Cox  
M. D., State Health Officer  
of Texas

**AUSTIN**—Some people claim oysters are good only during the months which have R in their spelling.

But the Texas State Health Department says oysters are not safe any month, with or without the R if the seafood has not been cultivated, shucked, packed, and shipped under sanitary conditions.

Texas' veteran health officer Dr. Geo. W. Cox, says oysters have much to commend them as a source of food.

"They have protein of good quality, iron, and copper (important as a protection against anemia), iodine, which is essential to proper working of the thyroid gland and a fair amount of vitamins," Cox says. But he adds emphatically, "Beware of uncertified oysters."

According to the doctor, each oyster grower in Texas is given a certificate of approval for the oyster beds he uses, provided health department officials find

the beds free from pollution, and the shucking houses are clean and well-kept. Otherwise, no certificate.

Each shucking house, where oysters are opened, must have a certificate showing all employees are free from communicable diseases, especially typhoid fever. The certificates are issued annually.

The Federal government cooperates with the State by keeping a list of certified shippers in Texas. If a shipper isn't certified by the State Health Department, his oysters can't be shipped in interstate commerce. And since Texas has some fine oyster beds, Dr. Cox says the Interstate Commerce ruling is an incentive for oyster shippers to adhere to sanitary practices. Other-

wise they miss the out-of-state market.

That's the situation on oyster sanitation from a man who knows. So don't look at the calendar when you order oysters. Ask the seller if his product is certified by the proper public health officials.

# FARM NEWS

from the County Agricultural Conservation Committee

## PMA CHANGES COMMITTEE-MEN ELECTION PROCEDURE

As the time approaches for the annual election of farmer-committeemen who administer many Federal farm programs in Knox County, the county office of the Production and Marketing Administration announced this week that new regulations of the Department of Agriculture will affect somewhat the procedure for selecting of committeemen.

"The established pattern whereby farmers participating in PMA programs in each agricultural community elect a community PMA committee and a delegate to a county convention which selects the county PMA committee is not changed," Mr. Partridge, present county chairman points out.

The new regulation provides, however, that (1) a member of the county committee may not be elected a delegate to the county convention in his own county, and (2) a delegate to the county convention may not be elected to membership on the county PMA committee.

"Since delegates to the county convention will now have no personal interest in the jobs to be filled, we believe that they will be able to approach the task of selecting committeemen in much more objective manner," says Partridge. "The farmer-committee system should be strengthened by this action."

The voting eligibility requirements have been liberalized somewhat to include those farmers who are, in effect, participating in the Agricultural Conservation Program but because of their rotation practices or other planned features of their farm conservation program, will not, during the current calendar year, receive a payment or grant of aid. To be eligible, however, such farmers must have received a payment or grant of aid under ACP during one of the preceding three calendar years, or qualify under one of the other PMA administration programs during the current calendar year.

Mr. Partridge says that dates for community PMA committee

men elections in Knox county's seven agricultural communities will be announced within the next two weeks.

## COTTON QUOTA QUESTION COMING UP

By October 15, farmers will have some indication of how much cotton they should grow next year to meet national requirements, B. F. Vance, chairman of the State Production and Marketing Administration Committee, said today.

No later than that date, the Secretary of Agriculture must "find and proclaim" the total and the normal cotton supply, the amount of the national marketing quota—if any, and the national acreage allotment necessary to produce the marketing quota. Under terms of the national acreage allotment to produce the marketing quota. Under terms of new cotton legislation enacted last August, the Secretary must proclaim marketing quotas for 1950-51 if the total supply of cotton for 1949-50 exceeds the normal supply.

If quotas are proclaimed, a referendum of cotton farmers must be held not later than December 15. To become effective, quotas must be proclaimed for the 1950 crop of American upland cotton.

## Accidents Take Many Lives; Tops Causes Of Death

CHICAGO—Are accidents now the leading cause of death in America?

In a scene—yes. That is the statement made in the 1949 edition of "Accident Facts," statistical yearbook of the National Safety Council.

Accidents take a greater toll of productive years than any one natural cause of death, according to a study by the American Medical Association.

More actual deaths still are caused by heart disease, cancer and cerebral hemorrhage. But the report points out that such deaths usually befall older persons after their working lifetimes are ended.

In the usual working age span

## Rayon Home Frock

Dress by Nali-Dee

Lovely rayon fabric in a new-looking print gives double-duty beauty to this smart daytime dress. Comfort and complete washability make the dress right for housework, while up-to-date print and attractive design make it a good choice for shopping, travel or informal entertaining. The rayon fabric, made with Avisco yarns, comes in a year-round weight that's comfortable right around the calendar. This dress is priced at around six dollars — nice for any budget!

of 20 to 65, accidents claimed 1,750,000 work years; heart disease, 1,680,000; pneumonia, 1,110,000 and cancer, 1,040,000.

Every one in the United States is affected directly or indirectly by accidents to farm resident. Organizations having an interest in farm life can be greatly affected because of the economic upsets caused by accidents on the farm. The greatest grief and loss resulting from farm accidents, of course, is to the farmers themselves.

The most common causes of farm and home accidents are falls, machines, animals, motor vehicles, handling objects, hand tools, stepping on or striking against objects, falling and flying objects and burns or shock. Safety in the home is just good home management.

## Boom In Land Buying Is Now Slowing Down

Almost two-fifths of Texas' farm and ranch land has changed hands since 1940.

In one county, Nacogdoches, more than half of all farmland has changed ownership in the past eight years.

And for the past two years land prices for Texas as a whole have been at record high levels.

But there is evidence, according to the joint USDA-Texas A & M. College System study released by the Texas Agricultural Experiment Station as Progress

Fatal home accidents can result from the failure to identify a bottle before taking medicine or placing poisonous materials out of reach of children.

Neglected ladders, open cisterns or old wells and other hazards lead children to tragic mishaps. Remove the temptations and be safe.

Farm people post 17 million days from regular activities because of accidents in 1948, an average of 20 days per accident.

Now is the time to put the the home and farmstead in top shape for winter.

Report 1181, "Texas Farm and Ranch Land Prices, 1948," that the boom is slowing down.

Actually the average per acre land price fell 1 per cent in 1948, from \$41.79 in 1947 to \$41.36. The 1947 price level was the all-time high.

More significant, says John H. Southern of the USDA bureau of agricultural economics and Wayne C. Rohrer of the A. & M. department of agricultural economics and sociology in their report, is that volume of sales fell off 15 per cent in 1948. There was also a 20 per cent drop in total acreage sold.

"Such marked reduction in sales volume in connection with the leveling off of price can be taken as evidence of a slowing down in the activity of the land market," they point out.

The leveling off of land prices was rather spotty, and the range

in prices in the various areas of the state was also wide, the highest sometimes being four to five times greater than the low price paid.

Average land prices in 1948

ranged from \$8.96 per acre on sales of three large ranch holdings in the Edwards Plateau grazing area to \$624.00 per acre for irrigated land in the Upper Rio Grande Valley.

## Legume Crops Furnish Needed Soil Fertilizer

The most expensive element in the fertilizer bag is nitrogen and Texas farmers last year spent five million dollars for nitrogen fertilizers. This bill will probably increase yearly unless more soil-building work is done on the land and that means higher production costs, says C. H. Bates, extension farm management specialist of Texas A. & M. College.

Farmers are interested in cutting costs and Bates says it is possible to save a lot of money that is now being spent for nitrogen fertilizers by growing it.

## RELIEF AT LAST For Your COUGH

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly stops the cough or you are to have your money back. **CREOMULSION** for Coughs, Chest Colds, Bronchitis

He says, grow fall or spring seeded legume crops such as vetches, winter peas or clovers and let them convert the unlimited free nitrogen in the air to usable plant food. It is necessary to supply these crops with the low cost phosphate needed to produce more growth and bigger yields from the crops to be planted after the legumes are turned under. Legume seed should be inoculated with the right kind of inoculant before they are planted, he adds.

Growing your own nitrogen for next year's crops is where the profit comes in. You not only get the fertility element placed in the soil in usable form, but the organic matter help to hold the rain that falls on the land and permits deeper moisture penetration. The fertilizer freight bill and cost of distribution is also cut down.

According to Bates, an acre of rye and hairy vetch can be seeded for about seven or eight dollars, excluding the cost of phosphate. The crops should produce four to five tons of green material and should contain around 75 pounds of nitrogen. The same amount of nitrogen—supplied in commercial form—usually costs from \$9 to \$15 depending on the source material. That means, says Bates, a saving of \$2 to \$8 in favor of growing your own and the grazing is thrown in as an extra. It is worth the money, too.

The cost of seed for Madrid

## LONG AND SHORT OF IT

You'll see 'em at the Prison Rodeo! "Horsefly" Carrillo, four foot two inches of genuine cowboy, the demon bronco rider from Central Farm and "Long John" who measures six feet, four inches, not including hat or boots. Old Timers predict it will be the greatest show of the year. The 18th Annual Prison Rodeo will be held every Sunday during October. Reservations are available at Prison Ticket Office, Huntsville, Texas.

and Hubam sweetclover, recommended on heavy soils, will increase the seeding expense for these crops, but on the positive side these clovers definitely decrease cotton root rot. The cotton grower gets a double profit—one from the nitrogen added and another from a decrease in the amount of "dead cotton" in the field next year.

Dollars saved will look good on the profit side of the ledger next year, says Bates. Legumes needed new with phosphate and inoculated will start your nitrogen factory to work—the profits and pay off will come later.

Dr. Edwin Preston has resigned as president of the famous Cumberland University, Tennessee Baptist school. One of Dr. Preston's accomplishments during his term was to secure accreditation for the university's well-known law school.

## Moffett Gives Explanation Of Amendments

By Senator George Moffett  
The State legislature adjourned on July 6, 1949. It submitted ten propositions for the people to pass judgment upon at an election on Nov. 8, 1949. I did not vote for all of these ten proposals, which are in the form of amendments to the constitution of Texas. I did not think all of them were sound. Furthermore

ten new propositions are too many to put on the ballot at the same time. But a considerable majority of the legislature voted to submit all ten of them and I will attempt to explain them in this and succeeding articles. I will give some of the arguments on each side of the question involved.

Last week I discussed the proposition of women serving on juries in Texas, as they do in thirty seven other states. The straw votes taken up to this time indicate that this amendment will be adopted.

Another one which I hope will be adopted, provides that a district judge may issue an order at the county seat of any county in his district affecting litigation in any other county seat in his district. As the constitution now reads he must get in his car and travel to the county seat of another county to sign any paper affecting that county. I am the joint author of this amendment, and as far as I know there is no objection to it. It should have been a part of the constitution long ago. It is number seven on the ballot. I hope that you vote for amendment number seven.

Another important amendment relates to the people who are thought to be mentally unbalanced or insane. The present constitution says that they must be brought to the court room and face a jury before they can be confined permanently in an asylum. This follows the long established theory of a trial by jury before anyone can be confined, but every state except Texas, has abandoned this mandatory trial by jury, of mentally afflicted people, and left it optional with the judge, as to whether the person involved must come into court and face a jury, and hear himself described as crazy. The medical profession says with considerable logic, that such an ordeal is enough within itself to make a person unbalanced, and if he is already leaning that way it often puts him over the line into incurability. By waving the embarrassment of a courtroom trial the patient can often be brought back to a normal condition. Jurors are not medical

experts anyway, and are no better qualified to pass judgment upon some cases of mental illness than they would be as to whether the patient has typhoid fever or an internal cancer. These

are the arguments that have been made in other states to bring about the adoption of this amendment, which is number nine on the ballot. More Next Week!

## Mechanization Will Increase Cotton Profit

**Farm Machines Can Bring Production Efficiency, Experts Declare**

Higher production efficiency through mechanization of cotton farming will bring more profits to the farmer and help keep cotton out front in competition with rival synthetic fibers and paper, leaders from the cotton industry and related industries agreed at the Third Annual Beltwide Cotton Mechanization Conference recently held at Bennettsville, S. C.

Theme of the three-day meet-in, which brought together key representatives from Cotton Belt land grant colleges, the farm equipment industry, and the cot-

ton industry, was "Tooling for the South's New Pattern of Agriculture."

### Problems Analyzed

Every major problem in mechanizing the production of cotton was pointed up by the sessions. Speakers of national prominence, including American Farm Bureau Federation President Allan B. Kline, appeared on the program to discuss such subjects as economic aspects of mechanization, progress in cotton mechanization, the world and domestic cotton situation, mechanization needs and accomplishments, and efficiency in cotton farming in various sections of the Cotton Belt.

This year's conference is the third sponsored by the National Cotton Council to consider the problems and progress in the mechanization of cotton and related crops.

### Demonstration

A mechanized field demonstra-

## Shoulder Holster Raincoat

Smooth rayon gabardine, water-proofed against the weather, gives extra fashion appeal to this well-styled raincoat. The same fabric, made from Avisco rayon yarns, is used in the smart shoulder holster that holds an umbrella and a pair of rubbers. On sunny days remove the detachable hood and wear the coat as an all-weather casual.

tion, displaying machines used in the production of cotton in the Southeast, was one of the outstanding events of the meeting. Equipment used in land preparation, planting, fertilizing, cultivation, application of insecticides and defoliants, and harvesting of cotton was exhibited during the demonstration.

Amazing gains have been made in mechanized cotton production, it was pointed out by speakers at the sessions. In July, 1949, there were 638,357 tractors on farms in the ten major cotton producing states, an eight per cent increase over 1948 and 17 1/2 per cent increase over 1940. For each of these tractors there is an average of five tractor-powered implements.

**Mechanical Harvesters**  
This year mechanical harvesters which will be available, ap-

## LOOPHOLES in the Law

By WILL WILSON

Past President, Texas District and County Attorneys Association

(Editor's Note: This is one of a series of short case histories, all taken from court records, showing how legal loopholes often enable criminals to escape punishment in Texas. Will Wilson, of Dallas, is chairman of a special steering committee of the State Bar, which is working for revision of the antiquated Criminal Code and Code of Criminal Procedure in order to eliminate these loopholes.)

Having drunk more beer than he could handle, Joe started a great disturbance in a tavern. The county sheriff was called. When he reached the tavern he tried to quiet Joe by talking to him. But Joe was in no condition to listen to reason. He threatened to kill the sheriff. The sheriff was unarmed, so he went back to his car and got a pistol. When he returned to the tavern Joe had been carried to the back door by two men. The sheriff followed the men and approached Joe. As he came close, Joe stabbed him in the chest with a knife.

The wound was wide and went to the rib. It would have produced death if it had not struck a rib. Since that happened, however, the wound was not serious and the sheriff had to make only one visit to a doctor.

Joe was arrested, of course, and charged with assault with intent to murder. He was convicted of that charge. But when the case was appealed the higher court reversed the decision, the court ruling that the trial testimony was faulty because the record contained no testimony regarding the size and length of the knife blade or the type

eratating at practical capacity and under optimum conditions, could harvest slightly more than 2,300,000 acres of the cotton crop, cotton experts declared. These machines are capable of harvesting approximately eight per cent of the 1949 cotton acreage, as compared with an estimated five per cent mechanically harvested last year and one per cent in 1946.

of knife Joe had used. To many criminals go free in Texas because of such technicalities as this one. The State Bar wants to close the loopholes through revision of the criminal statutes.

### KITCHEN KOMMENT

A handy little helper for the housewife, when she is pressing is called a "press-mit." A glove-like pad made of cotton duck, it helps the ironer get at fancy sleeves, coat shoulders, curved seams, and hard-to-press places. The press-mit is placed under the part to be ironed and makes the job easier. It is also good for removing occasional wrinkles in a garment without the need of setting up an ironing board, the National Cotton Council reports.

A sewing specialist advises women who sew to use unmerciful cotton thread to make button holes. She says the button holes are more resistant to wear than those made with mercerized thread.

In Texas, 136 crops are grown—40 are of sufficient commercial importance to be reported by the U. S. Department of Agriculture. Crops of major importance are cotton, feed grains, rice, wheat, vegetables and citrus fruits.

Cotton linters are an important raw material in the manufacture of plastic products, including suchet mstac ombu sawfgm ing such items as automobile and airplane instrument panels, radio cabinets, furniture, lighting fixtures, fountain pens, shoe heels, combs, and cigarette cases.

Cotton insulation has been proved more efficient than ten other commercial insulating materials by government tests. Experiments showed that cotton insulation can stand up under the concentrated flame of a blowtorch of 1800 degrees!

A government survey among women consumers shows that they prefer ready-made window curtains of cotton 4 to 1 over any other type of material.

Cotton is grown on one out of every four farms in the United States. In the ten leading cotton states, it is grown on two out of every three farms.

## Official Memorandum

Governor of Texas  
ALLAN SHIVERS

AUSTIN, TEXAS

### GREETINGS

Farming and ranching activities afford the principal income of a vast majority of the inhabitants of the State of Texas.

The farmers and ranchers of Texas, through their various organizations, have crusaded for recognition, representation and economic equality by democratic procedures.

These groups recognize the necessity and supreme importance of having an educated, prosperous and organized agricultural husbandry in our State.

WHEREFORE I, as Governor of the State of Texas do hereby request the observance throughout the State of October 20 through 27, inclusive, as

### TEXAS FARM BUREAU FEDERATION ORGANIZATION WEEK

AND I urge that our citizens do cooperate in the recognition and observance of this week in an effort to publicize this important phase of our Texas life.

In official recognition whereof, I hereby affix my signature this 10th day of Sept., 1949.

*Allan Shivers*  
Governor of Texas

**LUXURY or MONEY-SAVER ???**

Your home frozen food unit can be either...

It can be an expensive luxury... or it can be the most important money-saver in your household!

To make your home storage unit pay, buy your meats, frozen foods, and other perishables from us at wholesale prices.

You'll get top-grade inspected meats, properly chilled, aged, and professionally cut and trimmed to suit your family size and preferences. Your meats will be wrapped in materials, scientifically designed for this purpose, and will be sharp frozen at temperatures much colder than a home storage unit, resulting in juicier meat that keeps its original flavor longer.

We welcome your patronage—whether you rent one of our lockers or not. Come in and let us show you how we can save you money.

## Kracker Krumbs

(Continued from Page One)

"debt-paying" crop. If your subscription has expired, or is about to, let us welcome you here with the two batwings!

Mechanical harvesters have sold right readily this year. One firm reports every one on hand sold out, and no more available this season.

John Spann even threatened to close up his entire block last Monday, and the whole kaboodle to be hied off to the cotton fields.

We happened to be in that block at the time, whereupon we readily ambled off into another block!

We remember how the shoulder strap used to rub our shoulder raw, how our poor old back ached, how the knee pads scalded our knees, how the pain racked our body when we stepped on a hard clod with a sore knee, how the burrs pricked our fingers, how we'd use glycerine and rose water and salve and stuff at night trying to cure them up.

If they threaten to close up this block and everybody go to the cotton patch, we may move our print shop up to the house!

Farmer friends, we hope you get your cotton gathered—we sure do—but we don't want to pick it!

## LOCALS

Eugene Kuhler, who is attending St. Edwards University in Austin, visited with homefolks last week end.

Mrs. Joe W. Stephens and son and Mrs. Ray Poore of San Antonio spent the first of this week here with Mr. and Mrs. Ed Johnson and family and with other relatives.

## A GAFFTOP, FRIENDS IS JUST A CATFISH!

"Yes, the fishing at Port Aransas is just like a drum with a hole in it," says a bulletin from the Port Aransas Causeway Co. "you can't beat it!" Most of the fishing boats brought in trout and reds, while reds, drum, gafftops were caught from the piers and jetties.

The bulletin of October 17 stated that I. E. Cook of Munday

caught 15 gafftops. He's fishing from the piers. We goes over to I. V. Cook and asks, "What's a gafftop?" and learned it's just a catfish.

A card came from I. E. stating he's caught a drum and a bunch of "hardheads." A hardhead is I. E.'s name for the gafftop, or plain ordinary salt water catfish.
