Kracker Krumb's Odd Bits Salvaged At Random

Did you get one of those "Low and Behold" subscription cards?

Did you answer it, along with remittance for another year of our weekly effort?

Well, sir, we got those cards in the mail on Saturday—and late at that—and the following week a total of 106 people had ordered the Munday Times for another year.

Some came by mail, others in person, and still others would hand us the two bucks on the street. We enjoyed most of the comments that came along with those renewals.

Here are a few of the striking examples:

From Hubert Owens out at Lorenzo: By all means I must have my Munday Times renewed. I was through Munday on the week end of the 11th. I guess that everyone had gone to see grandma or somebody. All I could see was about a jillion Mexicans in front of Posey's picture shows!

From Mrs. E. E. Trimble of Post: I am enclosing \$2.50 for the Munday Times. It expired this month. We enjoy reading it.

From Mrs. J. E. Patton, Seymour: Sorry I failed to send check in on time.

From L. R. Perdue, Grand Prairie: Enclose \$2.50 for renewal of my subscription. Sorry I am late with it.

From Guy Trimble, El Cajon, Calif.: Enclosed you will find \$2.50. Please renew our subscription to the Munday Times for another year.

From L. M. Palmer, Van, Texas: Thanks, bud.

Then six days later we gets another check from L. M. with no comment.

Our guess is that L. M. sent the first one and didn't let his wife know it. Isn't that just like a man?

Anyway, we sure did hate to send that kind of note-paying money back to them!

We've had other comments, too, such as those who designated their subscription money to apply on the note, etc.

As we thanked Mrs. A. J. V. Johnson recently upon her annual visit to the office to send the paper to all her children and some other kinspeople, she replied: "You're welcome. If you hadn't been I wouldn't have come in here."

Roscoe Partridge is another of our "big customers" who has been in and fixed things up for his children and himself for another year.

Then "Ma" Eiland had us check on her paper, and then see that one going to Hazel at Galveston and LaVerne at Morris-town, Penn. are in good shape.

Mat Kreitz came in with the remark: "Guess I owe this firm part of a million dollars, and I guess I just as well pay it."

Sen. George Moffett will read the Times another year, we hope. We got his \$2.50 recently.

When J. M. Terry made his annual visit, he said: "I think I know where my two dollars go. A fellow generally tries to save his new car first!"

And on and on it goes, as our good people continue to come in and plunk down their two bat-wings for us to apply on the note. We assure them that we'll put it where it's needed most, etc.

But, shucks, we couldn't come close to giving you all "a quote".

We couldn't remember all the things you've said. We wouldn't have room to print them, in the first place; and maybe in the second place some of them

Reburial For Lt. Timberlake Set For Friday

Reburial services for 2nd Lt. Jesse Henderson Timberlake will be held at Vera Friday, December 2—five years since he was reported missing-in-action during World War II.

Services will be at the Vera Methodist Church at 10:00 a. m. with Rev. E. A. Ervin of Canyon officiating, assisted by Rev. Cloy Lyles, pastor of the Vera church. After the civilian ceremony, the Vera American Legion Post will be in charge of arrangements, assisted by the Lubbock Legion post. The remains will be carried to Lubbock and interred in Tech Memorial Park, with graveside military honors.

Timberlake was born at Vera December 13, 1919, the son of Mr. and Mrs. Charlie Timberlake. He received his education at Vera and Benjamin, graduating from the Benjamin high school. He entered the Air Corps Dec. 31, 1941, and later began training as an Aviation Cadet. He received his wings and commission at Yuma Air Base in Arizona June 22, 1943, and went overseas Nov. 7, 1944.

Stationed at Foggia, Italy, with a B-17 bomb group, Lt. Timberlake flew his first—and last—mission as co-pilot on a "Flying Fortress." The mission was to bomb oil fields near Bleichheim, Germany. The plane was reported "in trouble" by its radio operator, and was later reported leaving the formation under control. No other word was received concerning Lt. Timberlake's fate until his remains were found, after the war, in a grave at Vranjesi, near Banja Luka, Yugoslavia.

The body was later disinterred and move to Belgrade, and still later to Italy, where it remained until it was shipped to the United States. Survivors are his father and mother; three brothers, Arlin of San Francisco, Cal., Jack of Levelland and Charlie Jr. of Fort Worth; and four sisters, Mrs. Collins Moorhouse of Levelland, Mrs. James Alfred Kinnibrough of Lake Village, Ark., and Miss Laverne Timberlake of Levelland.

W. Bert Welsh, Haskell Farmer, Dies Saturday

William Bert Welsh, 53, farmer of four miles northwest of Haskell, and well known in the Munday area, died Saturday of a heart attack. He had been ill for three weeks.

Funeral services were held at 2:30 p. m. Sunday from the First Baptist Church at Haskell, with Rev. C. Jones and Rev. Allen O. Webb officiating. Burial was in Haskell cemetery.

A veteran of World War One, Welsh was active in American Legion affairs. He was born at Temple and came here in 1916.

Survivors include his wife; two sons, Collins Welsh of the United States Navy stationed at Houston, and William R. Welsh of Haskell; one daughter, Miss Rosemary Welsh of Waco; three sisters, Mrs. Lola Lemmon, Mrs. Ralph Duncan and Mrs. Ruth English, all of Haskell; two brothers, Dr. Hugh C. Welsh of Houston and O. Barton Welsh of Texas City; and his mother, Mrs. W. E. Welsh of Haskell.

Letters To Santa Will Be Published

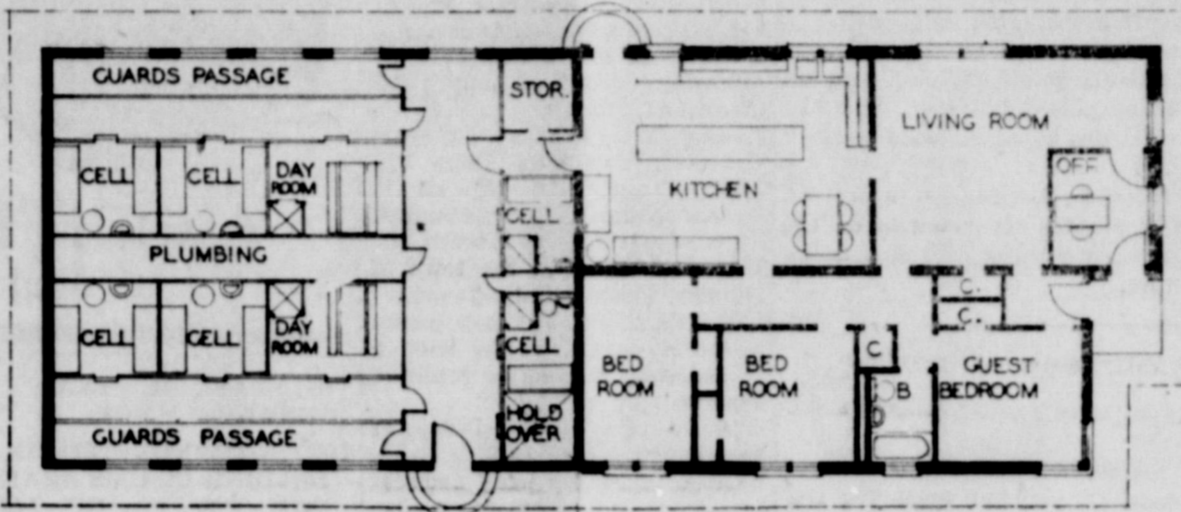

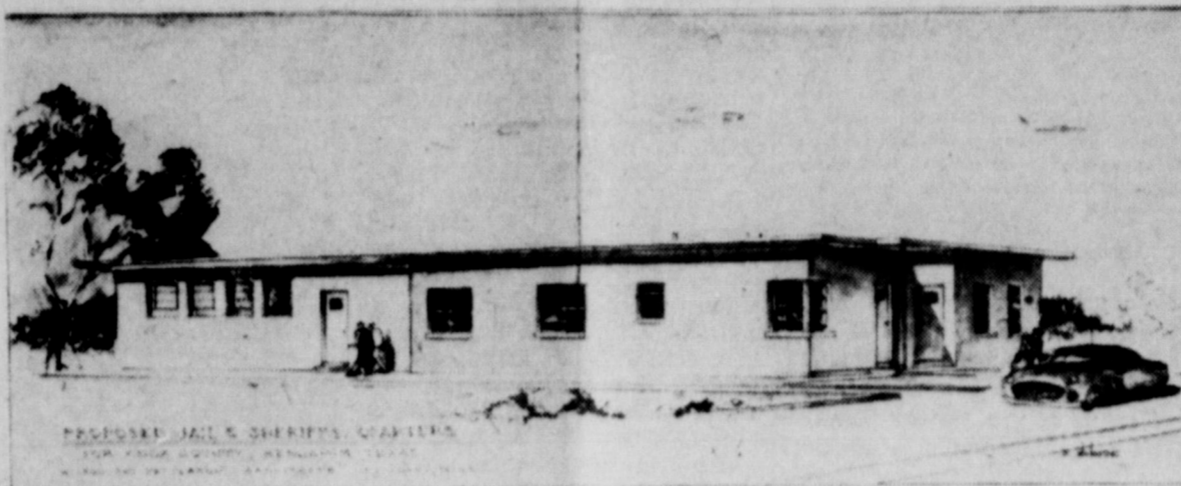

We received our first Santa Claus letters last Sunday, which is a reminder that Christmas is just around the corner.

These were Emma Jean Cooke and Claudia Mae Cooke. They have taken the proper channels to reach Santa Claus and will be published in our Christmas edition.

And we want letters from other kiddies, too. So begin writing those letters and let Santa Claus know what you would like to have for Christmas. Send your letters to the Munday Times, and they will be forwarded to Santa Claus.

Be careful. Observe state and local traffic laws.

Proposed New Jail, Sheriff's Quarters

FLOOR PLAN
SCALE 1/8" = 1'-0"

Plans have been announced by Judge J. B. Eubank, Jr., to construct a modern jail and sheriff's quarters at Benjamin, Texas. The accompanying sketch prepared by Wilson and Patterson, Architects, Fort Worth, shows how the building will look when completed. The building consists of two

parts: the front portion containing the living quarters of the sheriff, including an office, and the rear portion containing cells for the prisoners. The building provides cell space for 21 prisoners, with possibly expanding the capacity to 29. Equipment will be of the latest type to afford maximum safety and to comply with all requirements of

State and Federal authorities.

The front portion of the building will be constructed of light colored face brick. The jail portion will be solid concrete walls and roof.

Judge Eubank stated that the citizens of Knox County will be asked to vote on a bond issue in the near future for constructing and equipping the building.

Appreciation Day Will Be Resumed

After a lapse of several weeks, the merchants of Munday have voted to resume their weekly "Appreciation Day" event, which has been held on the city hall lawn each Wednesday afternoon.

Appreciation Day was discontinued during the peak of the cotton harvest season because it was thought best not to detract people from the cotton fields which were "white unto harvest." Although the harvest is not yet over, the Christmas season is upon us, and local merchants have decided to again take up the sponsorship of Appreciation Day and to continue with this event through Christmas.

The first Appreciation Day event will be held on the city hall lawn on Wednesday, December 7, at 3:30 p. m.

Munday's merchants extend everyone a cordial invitation to be here for this event, and further announcement will be made later regarding the activities of Appreciation Day during Christmas week.

Moguls To Play In District Nine For 1950 Season

The Munday Moguls will be playing in District 9-A next year, although they will be playing practically the same conference teams, according to an announcement made Wednesday by Supt. W. C. Cox.

Due to a change in districts, the district which was 6-A East this year will be District 9-A next year. The same teams will compose the district with the addition of Newcastle. District 6-A West will be District 6-A, and District 9-A will be District 10-A this year.

Teams composing the district are: Throckmorton, Anson, Stamford, Albany, Haskell and Newcastle and Munday.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Douglas Hutcheson of San Antonio are announcing the arrival of a seven pound ten ounce boy, born November 12th, in a San Antonio hospital. The little boy has been given the name of Randy Lewis. Mrs. Douglas is the former Ora Floyd. Maternal grandparents are Mr. and Mrs. Lewis Floyd of Knox City and paternal grandmother is Mrs. Virgie Hutcheson of Munday.

Scouters Of Area Meet Here Next Tuesday

Scouters of this three county area will gather in Munday next Tuesday evening for a business meeting of the district to discuss problems of Boy Scout work in the area. The district is composed of Knox, Baylor and Throckmorton counties.

Milt Wyatt, an executive of the Northwest Texas Area Council, will be present to lead the program. Others who are prominent in Boy Scout work will also be present.

Clay F. Grove is making arrangements for the meeting, which will open with a dinner at 7:30 p. m. at the school lunch room. The fee will be \$1.00 per plate, Grove stated.

The program to follow should be of interest to everyone who is interested in scouting, and an invitation is extended to all parents of Boy Scouts, all committeemen and Scout leaders to be present.

Mogul Cagers Win From Benjamin In Season's Openers

The Munday Mogul cage teams annexed two victories here last Monday night to open the 1949-50 basketball season by defeating the Benjamin boys.

The local team won by a close score of 41 to 37, while the B team took an easy victory to the tune of 30 to 6. Local players complimented the ability of the Benjamin boys, stating they had some outstanding players.

High point man for the team was Herbert Ford, with 20 points while Don Gufey rang up 16 points for high man for the B boys.

The locals will play the Crowell quintet here on Thursday night, January 5th, and the Quannah team on Saturday night, December 10.

This week the local boys will enter the Goree cage tourney, which will be played on Thursday, Friday and Saturday nights.

MUSIC CLASS TO GIVE RECITAL

Mrs. A. C. Williams will present her music class in a recital on Thursday, December 8th, at 8 p. m. in the elementary school auditorium. The public is cordially invited.

Munday To Take On Holiday Dress

Within the next few days, the town of Munday will don her "holiday dress" and take on the appearance of the yuletide season.

Already merchants of Munday are decorating their stores, and showing a wide variety of Christmas merchandise. Soon the entire town is expected to be dressed up in a manner befitting the approaching Christmas season.

For the past several years, Munday has used an attractive array of Christmas lighting around the city hall lawn. This has caused much favorable comment, but a local committee working on the lighting system this year plans something very different, it was stated. Some new wiring and new lights are being purchased for this purpose, and these were needed to replace that which had been used for several years.

Expense of this new lighting equipment is estimated to run around \$500, with much of the old material being used. This expense is being paid by the Munday Community Development Association.

Santa Claus Coming

Continuing a program similar to that used last year, the Community Development Association is planning to sponsor the visit of Santa Claus to Munday during Christmas week.

Santa is expected to make his appearance here early in the week, and will remain here until Christmas.

He will meet the kiddies of this area each afternoon, as he did last year, and will have little bags of candy for each of them. Children are already looking forward to seeing Santa Claus here during the holiday season, and his visit is expected to meet with much success.

Football Banquet Set For December 9

The football banquet which is held annually for the Munday Moguls, will be held at the school cafeteria at 7:30 p. m., December 9th.

The speaker for this occasion will be Billy Stamps, coach at Hardin College in Wichita Falls. Everyone is invited to this event as it is one of the highlights of the school year. Those desiring to come, see about buying your tickets early.

Petition Being Circulated Asking For Bond Election For New County Jail

All-District Football Team Is Selected

Scottie Ponder, Mogul back, made the all-district 6-A East football team by a vote of the coaches in a recent meeting, while Bobby Lawrence, backfield man and tackle on the Mogul squad, lacked only one vote of being named on the mythical eleven.

The all-district team, as selected by a vote of coaches, is as follows:

Ends, Ammons of Haskell and Boyd of Throckmorton; tackles, Burton of Albany and Cox of Haskell; guards, Virtell of Albany and Mullins of Haskell; center, Rhoads of Haskell; backs, Davis of Haskell, Riley of Albany, Ponder of Munday and Whitaker of Throckmorton.

Munday players who received honorable mention are: Bobby Lawrence, Herbert Ford, Junior Howeth, Joe Bailey Roberts, Joe Stevens and Melburn Johnston.

Shallow Wildcat Likely To Become An Oil Producer

Oil production in Knox county was indicated last Saturday following a showing in a shallow wildcat about three miles northeast of Goree.

The well, the R. J. Watson No. 1 Emma Cooksey, showed production in preliminary tests in sand at 1625 to 1630 feet. Early this week it was rated at 40 to 50 barrels of oil per day equipped to the pump.

Nearest production to the well is from 15 to 20 miles away in Baylor and Haskell counties. Previous attempts to find oil in Knox county have ended in dry holes.

The well was being equipped with pump Wednesday, and it was indicated that several other shallow tests would be drilled in the area.

May Be Another Stanolind Oil and Gas Co. No. 1 Marjorie Baker, a half mile north of Knox City, ran a drill stem test in Caddo lime recently at 5588-5612 feet. With tested open 30 minutes, recovery showed 20 feet of slightly gas-cut mud.

Drilling ahead, top of Mississippian lime was encountered at 5858 feet, and the test was drilling in the formation below 6020 feet.

Burglars Take Merchandise At The Fair Store

Munday's second burglary within the past few weeks occurred last Tuesday night when burglars forced entry into The Fair Store and escaped with merchandise such as men's suits, shoes, ladies' clothing, etc.

George Salem, owner of the store, stated that entry to the store was gained by forcing the rear door open. A complete check had not been completed at noon Wednesday, but Mr. Salem estimated the loss in merchandise at around \$1,000.

No cash was taken, and the burglars did not molest either the cash register or safe.

Local county and state officers were working on the case Wednesday, but their findings were not made public.

Cotton Ginnings

Gins are still running steady and are far behind with Knox county's record cotton crop. A report from the gins at 10:30 Thursday morning showed a total of 15,708 bales to be ginned locally. This is around 5,000 bales more than the amount ginned to the same date last year.

Mr. and Mrs. Cecil Suggs and daughters of Ardmore, Okla., and Mr. and Mrs. Charles R. Wasson of Goconda, Ill., and Buddy Suggs of Texas Tech, Lubbock, spent Thanksgiving with Mr. and Mrs. Raymond Suggs.

A petition is being circulated by grand jurors of the 50th District Court calling for an election in the near future on an \$86,000 bond issue for the purpose of constructing a new Knox County jail.

Every grand jury for the past several years has examined the old jail and recommended a new one, it was stated. The grand jury of the October term of court promised its full support in getting a new jail built.

Wilson and Patterson, Fort Worth architects, submitted plans for the building, 109 1/2 feet by 37.8 feet, surrounded by escape proof fence. The jail part, with 21 prisoner capacity, would be of reinforced concrete and should be escape proof. It would have the latest equipment, including automatically controlled doors.

The jailer's living quarters, according to plans, would be of brick, allowing for inexpensive expansion at a later date, if needed.

The bond issue is being worked up by Wm. N. Edwards Co. The state is expected to take up the bonds, because Knox county is in better shape than most counties on bonded indebtedness, not having approached its limit.

Outstanding public buildings indebtedness against Knox county now totals \$129,500, being composed of courthouse bonds of \$54,500, to be retired in 1955; hospital bonds of \$50,000 to be paid from 1956 through 1961; hospital bonds of \$25,000 to be paid at the rate of \$5,000 per year, 1962 through 1966.

The jail bonds would also start in 1962 at the rate of about \$3,000 per year until 1966, it was stated, then increased to about \$8,000 or \$9,000 a year, as no other issue would be outstanding and there would be only \$73,000 outstanding to pay interest on.

There will be no increase in assessment of 25 cents per \$100 valuation for public buildings, officials stated. It is estimated that 18 cents will take care of public buildings indebtedness and retire the bonds, and 7 cents will be available for maintaining the court house and jail.

Judge J. B. Eubank, Jr. and Sheriff Homer T. Melton invite every man, woman and child who is interested to inspect the present dilapidated jail and determine for themselves whether a new one is needed. So far the Baptist women of Benjamin have been the only group to inspect the structure, but an invitation is extended to groups or individuals to inspect it at any time.

R. F. Hedigar Victim Of Auto Mishap Monday

R. F. Hedigar, 83, father of Mrs. L. B. Patterson of Munday, passed away in a Brady hospital at about 1:40 p. m. Monday from injuries received in an automobile accident about 15 miles north of Brady on the Coleman highway at 9:30 a. m.

Mr. Hedigar was riding in an automobile with his grandson, Lloyd M. Patterson and his wife of Munday. Mrs. Patterson suffered a fractured left arm and other injuries, while Mr. Patterson was unharmed.

The accident occurred when another automobile, driven by Glen E. Wright of Waldrip, stopped and attempted to turn left off the highway, according to reports. Patterson's car crashed into the rear of Wright's car. Mr. Hedigar had been residing in the L. B. Patterson home for several months. The L. M. Pattersons were taking him to the home of one of his sons in San Antonio when the fatal accident occurred.

VISIT RELATIVES HERE

Mrs. J. J. Johnson of Auburn, Washington, and Mr. and Mrs. Clifford Moore of San Francisco, Calif., visited relatives here a few days last week after attending the funerals of their mother and sister, Mrs. G. A. Moore and Mrs. Noble Flennagan, in Lamesa. Mrs. Moore and Mrs. Flennagan are former residents of Munday.

LOCAL NEEDS FOR 1949

We're pulling for these needs in 1949. What will the year bring?

4. An adequate waterworks system. This is a must for the continued growth of Munday.
5. Building of more housing projects. There continues to be a housing shortage.
6. Recreational facilities for our youth of today—our citizens of tomorrow.

EXPERTS CAN ONLY DO SO MUCH

Organized fire prevention activity has reached a new peak in this country.

Everything that the experts can think of to awaken the public to the menace of fire is being done. On top of that, much special scientific work is underway—such as a project recently instituted to inspect and report on the hospitals of the nation in the interest of fire safety. A national fire prevention drive has made excellent progress. State and municipal groups have joined in the common effort.

All of this work is necessary, and it should be stepped up in intensity wherever possible. But none of it can accomplish much without public cooperation.

The point is that the authorities can teach us how to prevent fire—but they can't do it for us. Fire prevention literally begins in the grass roots. No one can force you to make your home or farm or place of business safe from fire—except in the case of the most obvious hazards, which are covered by law. The carelessly dropped cigarette—faulty wiring—the overloaded, poorly maintained stove and heating system—these are the roots in which most fires find their beginnings. Only the individual can correct them.

We can make this nation safe from fire. We can cut to the minimum the toll of more than 10,000 lives and some \$700,000,000 in property damage that fire takes each year. But each of us must help—actively, and to the limit—if the desired goal is to be reached.

THE PROTEIN AREA

In an article which appeared in the Journal of the American Medical Association, Dr. J. S. Lester, a distinguished authority on diet as it relates to health, said, "Today we are in the protein era."

In late years, great progress has been made in the science of nutrition. One of the major developments is the discovery of the vital role that protein plays in maintaining vitality, stamina, and even morale. Dr. McLester, for example, ascribed the individual superiority of the American soldier in the last war to the high protein

content of our military diet.

Moreover, the medical men have found that high protein nutrition is of definite value in reducing surgical mortality, by systematically building up the strength of the patient prior to the operation. It is of great service in treating nephritis and nephrosis. In pregnancy cases, protein has strong beneficial effects on mother and child, both before and after the birth.

There are a number of sources of protein. Of these, meat is particularly outstanding, and its protein content is biologically complete. It is one of the few foods that can be eaten twice or more a day with appetite.

All in all, the American diet is high in protein, and the amount of protein consumed is on the increase. This promises a better level of national health for the future.

BACK OF THE SHOW WINDOWS

What does a retail store's show window stand for?

First of all, of course, it is designed to interest you in buying goods. If you like what you see, and consider the price fair, you'll probably become a customer. If not, you'll move on to another store that meets your needs better.

Beyond that, however, the show window is about as good a visual example of how this country works as we can find. We pride ourselves, and justly, on our magnificent system of mass production, which has given us a vast abundance of goods of all kinds, which provides much of our employment, and which has helped raise our living standards far beyond that of any other major nation.

However, mass production would not be a success, or even a possibility, without mass distribution. The goods from the factories must be moved, swiftly, efficiently, and economically, into the hands of the people who use them. American retailing is superbly geared to perform that job. It believes that the sound way to do business is to turn over a large volume of merchandise at a small unit profit. And what keeps that principle always at work is aggressive competition between stores of all kinds and sizes.

Visitors from abroad, and especially the few who come here from the countries within the Soviet orbit, are always amazed and disbelieving when they see a typical American shopping center—whether it be Fifth Avenue or Main Street. They are so used to a subsistence standard of living, and an economy of scarcity at home, that they believe it to be a universal state of affairs. Free enterprise, as exemplified by the shop windows, shows them how wrong they are.

Any person who starts out working a crossword puzzle in ink is a true optimist, if there ever was one.

Sparkling New, Pontiac Makes Debut

The enhanced beauty of the 1950 Pontiac is well exemplified in the dashing lines of the Streamliner two-door sedan pictured here. Pontiac again offers a wide variety of choice with two lines of cars, six or eight cylinder engines and Hydra-Matic or synchro-mesh transmission. The Hydra-Matic transmission is optional on all models at extra cost.

New Refrigerators Make Bow At Munday Truck, Tractor Co.

Munday women in large numbers yesterday viewed latest developments in home refrigerator convenience and design, and placed their stamp of approval on handsome new models just placed on display by Munday Truck and Tractor Co.

Homemakers were delighted with smartly streamlined cabinets, gracefully tapering full length doors, bigger freezer storage compartments, more convenient shelf arrangements and colorful plastic trays and inner doors, according to N. A. Chastain, who was in charge of the premiere showing.

"No wonder women like these new refrigerators," Mr. Chastain said. "The manufacturer, International Harvester Company, went all out to give women just what they wanted. Thousands of homemakers all over the country were consulted; then the Company's home economists planned the new models accordingly. The result is super-convenience—a place in the refriger-

ator for everything—including tall bottles, mason jars, bulky foods, leftovers."

There are four entirely new International Harvester Refrigerators for 1950. They range in size from 7.4 cubic feet to 9 1/2 cubic feet, and there is a choice of full-width and conventional half-width freezer lockers, storing from 35 up to 50 pounds of frozen foods. All models are compact and require a minimum of floor area.

Exclusive features developed by International Harvester for the 1950 line are the "Egg-O-Matt", an automatic egg container and dispenser; diffused interior lighting, and a built-in bottle opener. Shelves have safety edges that can't scratch.

All models have porcelain enameled interiors, acid-resistant on the bottom; and are equipped with sealed "Tight-Wad" refrigerating units which never require oiling or other attention. An innovation is that the manufacturer's warranty is embossed in metal and riveted to the back of the cabinet.

NOTICE OF ELECTION

THE STATE OF TEXAS
COUNTY OF KNOX
CITY OF GOREE
TO THE RESIDENT, QUALIFIED ELECTORS OF THE CITY OF GOREE, TEXAS, WHO OWN TAXABLE PROPERTY IN SAID CITY AND WHO HAVE DULY RENDERED THE SAME FOR TAXATION:

TAKE NOTICE that an election will be held in the City of Goree, Texas, on the 17th day of December, 1949, on the proposition and at the place more particularly set forth in the resolution adopted by the City Council on the 28th day of November, 1949, ordering said election, which is as follows:

RESOLUTION
BY THE CITY COUNCIL OF THE CITY OF GOREE, TEXAS, CALLING AN ELECTION ON THE PROPOSITION OF THE ISSUANCE OF \$6,000.00 OF BONDS FOR WATERWORKS PURPOSES.

WHEREAS, the City Council of the City of Goree, Texas, deems it advisable to issue the bonds of the said City for the purpose hereinafter mentioned.

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GOREE, TEXAS:

1. That an election be held in said City of Goree, Texas, on the 17th day of December, 1949, at which election the following proposition shall be submitted:

"Shall the City of Goree, Texas, be authorized to issue the bonds of said City in the sum of Six Thousand (\$6,000.00) Dollars, maturing serially in such installments as may be fixed by the City Council, the maximum maturity being not more than twenty years from their date, and bearing interest at a rate not to exceed 5% per annum payable semi-annually, and to levy a tax sufficient to pay interest as it accrues and principal as it matures on said bonds, for the purpose of improving and extending the waterworks system of said City as authorized by the Constitution and laws of the State of Texas."

2. That said election shall be held at the City Auditorium, within said City, and the following named persons are hereby appointed directors of said election, to-wit:

T. D. Harlan, Presiding Judge,

Walter Coffman, Judge,
Mrs. W. L. Stewart, Clerk,
Mrs. George Nix, Clerk.

3. The said election shall be held under the provisions of Chapter 1, Title 22 of the Revised Civil Statutes of 1925, as amended, and only legally qualified electors who own property in the City, and who have duly rendered the same for taxation

This Fire Caused \$15,000 Damage

shall be qualified to vote.
4. The ballots for said election shall have written or printed thereon the following:
"FOR THE ISSUANCE OF BONDS"
"AGAINST THE ISSUANCE OF BONDS."
Each voter shall mark out with black ink or black pencil one of the above expressions, thus leaving the other as indicating his vote on the proposition.

5. A substantial copy of this resolution signed by the Mayor of said City and attested by the City Secretary shall serve as proper notice of said election. Notice shall be given in accordance with Article 704, Revised Civil Statutes of 1925, as amended. The Mayor is authorized and directed to have a copy of said notice posted at the City Hall and at two other public places within said City not less than fifteen days prior to the date fixed for holding the said election. He shall also cause said notice to be published on the same day in each of two successive weeks in a newspaper of general circulation published within said City, the date of the first publication to be not less than fourteen days prior to the date set for said election. Except as otherwise provided in said Article 704, as amended, the manner of holding said election shall be governed by the laws governing general elections.

ADOPTED AND APPROVED this 28th day of November, 1949.

ORB COFFMAN,
Mayor, City of Goree, Texas

J. B. JUSTICE,
City Secretary, City of Goree, Texas.

Move Is Started For Beautifying Goliad Park

FORT WORTH—The first of four regional campaigns boosting the statewide "Remember Goliad!" campaign to improve and beautify Goliad State Park got under way this week.

Intensive activities began in the Fort Worth area under the direction of David Donoghue, well known geologist and historian, who is Fort Worth regional advisory chairman.

Similar drives will begin shortly in the Dallas, Houston and San Antonio areas, Brig. Gen. H. Miller Ainsworth of Luling, state chairman, said. Daughters of the Republic of Texas are sponsoring the \$200,000 campaign.

With school children contributing nickels and dimes, donors with more substantial means were gratified to learn that all contributions to the campaign may be deducted from individual and corporate income taxes.

Announcement of the income tax ruling came from L. H. Van Dohlen, chairman of the Goliad Park Restoration Committee, which is receiving contributions at Goliad. The Goliad Park Restoration Committee was incorporated Oct. 24 as a charitable, nonprofit organization.

SICK DOBBIN DEPRIVED OF NIP FORM BOTTLE

Ailing horses often used to get a kick out of life, before modern science came along with fancy pills and wonder-workin' drugs.

The American Veterinary Medical Association says that some veterinarians of the horse and buggy days considered "rum, whiskey, brandy, gin, port, sherry, claret, champagne, stout, ale, and lager beer as particularly useful in aiding the recovery of sick horses."

Today, penicillin, sulfa drugs, and vitamin-mineral tonics have largely replaced the cocktail hour for equine patients.

Mr. and Mrs. Willard Reeves of Dallas spent the Thanksgiving holidays here visiting their parents, Mr. and Mrs. S. G. Smith and Mr. and Mrs. Jim Reeves. Mr. and Mrs. Joe D. Williams of Ozona were also visitors in the Reeves home.

Mr. and Mrs. C. B. Barbee of Elgin, Texas, were guests in the home of Mrs. Barbee's parents, Mr. and Mrs. Clyde Nelson, and other relatives and friends the past week end.

Mr. and Mrs. I. V. Cook visited with friends in Rule Sunday afternoon.

Mr. and Mrs. I. V. Cook visited with friends in Rule Sunday afternoon.

"It looks like every Texan wants to give \$1 or more in honor of the heroes who fell at Goliad," Von Dohlen said, calling attention to the scores of contributions received by the committee each day. "We will have a park that all Texas can be proud of."

Knox Prairie Philosopher Says It'll Suit Him Fine To Let Farmers Be Last This Time On The Price Drop

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek may have his economic twister up again this week, which is the way he usually has it.

Dear editor:
I was out here last week dozing in the autumn sunshine on the sunny side of a tree occasionally tryin' to read the Dallas News and stay awake, ain't no easy job, when I ran across a article that said prices are comin down in some lines but as is generally the case the prices the farmer gets are comin down first.

J. A.

Accordin to this article, farm products always fall first; then a few years later the rest of the things come down, and I got to talkin to my neighbor about this and he says it's only normal.

"The farmer has to take his whippin first," he says.
Now I don't mind prices comin down, any more'n I mind bein out of fire wood in the winter but ain't it somebody else's turn to be first? Ain't it impolite for the farmer always to be hoggin

USO HOSTESS GETS ORCHID

NEW ORLEANS, La. — A handsome young American sailor with an Irish name and a Scottish birthplace pins a USO orchid on nationally-known Cover Girl Nancy Liljenstein, an honorary hostess at the local USO. He is Yeoman Third Class James Patrick Hallinan, 22, of Brooklyn, N. Y., born in Glasgow, and a member of Uncle Sam's armed forces since 1944.

Hallinan is one of 1,600,000 soldiers, sailors and airmen now being served by the reactivated USO.

the lead?

Just for the novelty of it, I would like to have the experience of seeing automobiles and tractors and implements and chewin tobacco fall off first, then maybe clothes and drugs, washin machines, vacuum sweepers, wash tubs, and so forth, and after everything had hit bottom farm prices come down in a manerly fashion.

I know there is a certain element which thinks the farmers have all gotten rich in the past few years, and there are some farmers with new automobiles with a spare tire, and I know of some who have traded in their old radios, some who have new tractors and few a few who have been reported attending college football games, but while I never have liked to dispute a expert's word, I would be glad to have the Hoover Commission or the Mashall Plan officials of your Chamber of Commerce or anybody else come out here and investigate my financial standing to see if I'm rich, in fact to see if my standing is different from any time in the past 40 years.

I never did like to see anybody tryin to be first all the time, and if it's just the same with the economists it would suit me all right to let somebody else hog the lead this time. Generation after generation, farm prices are

the last to go up, the first to come down, and just for the novelty of it, understand we don't expect to make a practice of it, us farmers would just this one time like to be the last to emerge from prosperity.

Yours faithfully,
J. A.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin—Governor Allan Shivers, by official proclamation has designated the week between December 4-11 as Better Health For Texans Week, emphasizing venereal diseases.

The purpose of the week long drive, according to State Health Officer Geo. W. Cox, is to "acquaint all segments of the population with true facts concerning this most serious group of illness, thus providing a weapon of knowledge which all persons can use in their own protection. Cox indicated that the health department informational campaign would be a year to year project from now on, with a different phase of public health being the subject each year.

Highlights of this year's drive will be a state-wide radio address by Governor Shivers, and a short motion picture trailer featuring the Governor and the State Health Officer. Informational packets have been prepared for distribution through the state by city and county health units.

The official proclamation reads: "One of the most important factors that will influence the future of Texas is a healthy citizenship. Public health has many phases, all contributing to the welfare of mankind. "One of these is the campaign

Dr. J. Douglas Lovelady

to eliminate the venereal diseases. Methods of diagnosis and treatment are at hand to prevent the unnecessary suffering caused by these diseases. All that remains now is to induce our citizenship to take advantage of the present day knowledge.

In recognition of these facts and the vital importance of health in our everyday lives, I, as Governor of the State of Texas, designate the week of December 4-11 as Better Health For Texans Week."

Principal appeal of the campaign is directed to leaders of individual communities. Dr. Cox believes that the "final solution to the venereal disease problem will be forthcoming only when it is tackled on a community basis."

Mr. and Mrs. Hooper Wilkinson of Mineral Wells spent the holidays here with Mrs. Wilkinson's parents, Mr. and Mrs. C. T. Jones.

Mr. and Mrs. O. B. Paulsel of Fort Worth spent the Thanksgiving holidays visiting her parents, Mr. and Mrs. T. A. Brown, and other relatives. Mr. and Mrs. Jerry Edwards returned with them for a short visit.

Mrs. Wallace Reid and son, Jimmy, visited in Greenville during the Thanksgiving holidays.

Lee Roy Perdue And Jerrye Sherman Marry November 26

The Rev. C. W. Richard, pastor of the Baptist Church in Portales, New Mexico, read the impressive double ring ceremony which united Miss Jerrye J. Sherman and Lee Roy Perdue, Jr. in marriage last Saturday, November 26th at 2:30 p. m.

The bride is the daughter of Mrs. J. H. Sherman of Goree and the groom is the son of Mr. and Mrs. Lee Roy Perdue, Sr. of Grand Prairie.

The bride was attired in a powder blue dress with gold accessories. Her only attendant was her mother, who wore a wine colored suit and gold accessories.

J. W. Shahan served as best man.

After visiting several points in New Mexico, the couple will make their home in Grand Prairie where the bridegroom is employed at Sears, Roebuck & Co. in Dallas.

Sunset 4-H Club Meets November 16 At School Building

The Sunset 4-H Club girls met at the Sunset School on November 16th, at 10:30 a. m. Thirteen members with eight visitors and three new members were present. Helen, Trivella and Patsy Butler were the three new members.

The club selected the club name, which will now be known as "The Sunshine Club".

The girls' first clothing project will be a plain cotton school blouse. At this meeting, they learned how to measure for buying a pattern.

The visitors were Mrs. S. J. Shannon, sponsor; Miss Eugenia Butler, agent; Miss Nelda Jo Hindman, assistant agent and the seventh grade homemaking class.

Former Munday Boy And Plainview Girl To Wed Dec. 17

Mr. and Mrs. Earl B. Robason, Plainview, announce the engagement and approaching marriage of their daughter, Jeri Ruth Robason, to Richard Henderson, son of Mr. and Mrs. J. W. (Bill) Henderson of Olton, formerly of Munday.

The wedding is scheduled for Saturday, December 17, at 2:30 p. m. at the First Baptist Church in Olton.

Mrs. Dale Williams of Plainview came in last Thursday for an extended visit here with friends and relatives.

Mr. and Mrs. Ky Hunter and children of Iowa Park were visitors in Munday last week end.

Mrs. D. C. Elland and sons, David and Allen, were visitors in Abilene last Tuesday.

COTTON CHASES COLD!

It may be cold outside, but Baby won't know it when she is all wrapped up in a warm cotton corduroy coat. She can brave any weather in this all-purpose corduroy classic coat, for it is processed to shed snow and showers. This trim corduroy topper is a Sherbrooke design, the National Cotton Council reports.

Talmadge Belchers Are Honored With Bridal Shower

A beautiful bridal shower was given in honor of Mr. and Mrs. Talmadge Belcher on Monday night, November 21, in the home of Mr. and Mrs. Calvin Call. Many nice gifts were presented to extend best wishes to the bride and groom.

The group was entertained by some enjoyable singing. Cakes, cookies and marshmallows were served with punch and hot chocolate. A wonderful time was reported by everyone.

Present were Mr. and Mrs. J. B. Goggans of Goree, Mr. and Mrs. Robert Hines, Mr. and Mrs. Carrol Belcher and Carole Rae, Mr. and Mrs. Don Belcher, Mr. and Mrs. Lester Belcher and Eunice, Mr. and Mrs. Irey Lee Belcher and Billie, Homer Lee and Wayne, and the sons and daughters of Mr. and Mrs. Call, all of Munday.

Several gifts were sent by those who were unable to attend.

Munday H. D. Club Meets Tuesday With Mrs. Foshee

The Munday Home Demonstration Club met in the home of Mrs. R. E. Foshee November 22. After a business discussion, Mrs. Joe Patterson and Mr. J. C. Gollehon gave a demonstration on Christmas corsages and wreaths.

Refreshments were served to Mrs. Louis Cartwright, Mrs. G. L. Pruitt, Mrs. J. B. King, Mrs. J. C. Gollehon, Mrs. Joe Patterson, Mrs. J. T. Offutt, Mrs. Otis Simpson and one visitor, Mrs. George Conwell, and the hostess.

The next meeting will be in the home of Mrs. Joe Patterson on December 8th.

Goree Bible Study Class Has Meeting Nov. 21st

The Goree Bible Study group met in the home of Mrs. Walter Coffman Monday evening, November 21st.

An interesting and inspirational Thanksgiving program was led by Mrs. Orb Coffman. Everyone participated in the program.

Refreshments were served to Mrs. Orb Coffman, Mrs. Les Jameson, Mrs. Barton Carl, Mrs. Buster Coffman, Mrs. Clarence Powell, Mrs. Clyde Taylor, Mrs. Mack Tynes, Mrs. Billie Hutchens, and the hostess, Mrs. Walter Coffman.

The Chapel Youth Built

Ten years old Nov. 1, the Little Chapel-in-the-Woods at Texas State College for Women has been the scene of 691 weddings, a number of baptisms, and weekly interdenominational worship services. Built primarily as a place of individual prayer and meditation, the Chapel is constructed of native limestone. Art work, in-

cluding the stained glass windows was done by more than 500 TSCW students. From its plain Celtic cross to its multicolored stained glass windows, the Chapel is not only of the twentieth century but of the Texas landscape. It was the first true masonry building of any moment to be built in Texas since 1870.

Polio Foundation Asks Dimes and Dollars Now to Pay for Patient Care in Epidemic of Infantile Paralysis Throughout Country

With thousands of children and adults in hospitals today as the result of current widespread polio epidemics, and with as many new cases likely to develop in the months just ahead, the National Foundation for Infantile Paralysis has launched a Polio Epidemic Emergency Drive to provide immediate funds for patient care.

The price-tag on this year's epidemic will be so enormous, according to Basil O'Connor, National Foundation President, that \$14,500,000 must be raised to meet the national polio bill.

During 1948, when there were 27,908 cases in the country, the highest number since the record total in 1916, the National Foundation and its Chapters spent \$17,000,000 in March of Dimes funds to provide epidemic services, he said. With even more cases this year, it looks as though it may cost \$25,000,000 in 1949 to pay for that part of medical and hospital care which families cannot pay themselves.

By the end of August, as much money had been advanced in epidemic aid to National Foundation Chapters whose March of Dimes funds have been exhausted by the cost of care as was spent in all of 1948. The nation's total number of cases now is as large as a full year's toll in previous years, with predictions for at least double that number before December 31.

Furthermore, it is estimated that a minimum of \$5,000,000 will be required to continue helping 1948 patients who still need clinic or hospital treatment. The National Foundation gives assistance as long as medical care is necessary, regardless of age, race, creed or color.

The money raised in the Polio Epidemic Emergency Drive will be used exclusively for services to polio patients in all states, Mr. O'Connor said. Contributions may be mailed to POLIO, care of your local Post Office.

"This emergency drive is our only hope of providing care for patients without slowing up scientific research and professional education programs of the National Foundation," Mr. O'Connor explained. "It is an ironical fact that this heavy incidence,

severely taxing March of Dimes resources, comes at a time when the nation's leading scientists are more hopeful of finding an answer to the problem than ever before.

"Scientists working under 68 March of Dimes grants at top medical and educational institutions are waging the largest research attack ever attempted against a single disease in this country, supported by March of Dimes funds. We must not interrupt the search for a solution because of lack of funds. We must—and we shall be able to do both jobs—help pay for the care of the stricken while finding a means of prevention or control—if the American people contribute now to carry the work through until the next March of Dimes in January."

Progress since 1938 when the National Foundation was formed, was indicated by Mr. O'Connor as follows:

More than \$23,500,000 has gone into a comprehensive research and education program, seeking control of polio and training of experts—virologists, orthopedists, pediatricians, public health physicians, nurses, physical therapists, and other medical workers who make up the professional army now battling the disease in laboratories and hospital wards.

At least \$58,000,000 had gone for patient care, prior to 1949, in payment of polio bills families could not meet themselves; in staffing and equipping polio centers for modern care and treatment, in establishing equipment depots in six strategic locations throughout the country from which respirators, hot pack machines, beds, cribs and other emergency supplies can be rapidly dispatched to hard-hit areas.

"We know now that fully 75% of those stricken make good recoveries if good treatment is available," Mr. O'Connor said. "Surely no one would deny a child a three-to-one chance for recovery because of lack of money."

The address is POLIO, care of your local Post Office. Send as much as you can—as fast as you can—today!

The LeBlanc Corp. has purchased a \$250,000 steel and concrete building with 35,000 square feet of floor space in Lafayette, La., and will remodel it at a cost of more than \$50,000 for the national headquarters of Hadaacol, famous B vitamin and mineral preparation.

Dudley J. LeBlanc, Founder and President of the LeBlanc Corp., announced the purchase of the building. The small building which now houses the Hadaacol factory will be converted into a garage for the fleet of Hadaacol trucks and for storage space. The office headquarters of Hadaacol, which now occupies a building in downtown Lafayette, will be moved to the new building.

The new Hadaacol building was built in 1945 and is of excellent construction. Remodeling work already has begun and the LeBlanc Corp. plans to move into the new headquarters early next year. Mr. LeBlanc and officials of his organization already have begun making plans for a gala opening of the new headquarters.

"The office and manufacturing facilities will be the most modern possible," said Mr. LeBlanc. "The building will be air conditioned and will have many other features. It is just another forward step in the remarkable progress of Hadaacol."

Polio Foundation Asks Dimes and Dollars Now to Pay for Patient Care in Epidemic of Infantile Paralysis Throughout Country

With thousands of children and adults in hospitals today as the result of current widespread polio epidemics, and with as many new cases likely to develop in the months just ahead, the National Foundation for Infantile Paralysis has launched a Polio Epidemic Emergency Drive to provide immediate funds for patient care.

The price-tag on this year's epidemic will be so enormous, according to Basil O'Connor, National Foundation President, that \$14,500,000 must be raised to meet the national polio bill.

During 1948, when there were 27,908 cases in the country, the highest number since the record total in 1916, the National Foundation and its Chapters spent \$17,000,000 in March of Dimes funds to carry the work through until the next March of Dimes in January.

Progress since 1938 when the National Foundation was formed, was indicated by Mr. O'Connor as follows: More than \$23,500,000 has gone into a comprehensive research and education program, seeking control of polio and training of experts—virologists, orthopedists, pediatricians, public health physicians, nurses, physical therapists, and other medical workers who make up the professional army now battling the disease in laboratories and hospital wards.

At least \$58,000,000 had gone for patient care, prior to 1949, in payment of polio bills families could not meet themselves; in staffing and equipping polio centers for modern care and treatment, in establishing equipment depots in six strategic locations throughout the country from which respirators, hot pack machines, beds, cribs and other emergency supplies can be rapidly dispatched to hard-hit areas.

"We know now that fully 75% of those stricken make good recoveries if good treatment is available," Mr. O'Connor said. "Surely no one would deny a child a three-to-one chance for recovery because of lack of money."

severely taxing March of Dimes resources, comes at a time when the nation's leading scientists are more hopeful of finding an answer to the problem than ever before.

"Scientists working under 68 March of Dimes grants at top medical and educational institutions are waging the largest research attack ever attempted against a single disease in this country, supported by March of Dimes funds. We must not interrupt the search for a solution because of lack of funds. We must—and we shall be able to do both jobs—help pay for the care of the stricken while finding a means of prevention or control—if the American people contribute now to carry the work through until the next March of Dimes in January."

The LeBlanc Corp. has purchased a \$250,000 steel and concrete building with 35,000 square feet of floor space in Lafayette, La., and will remodel it at a cost of more than \$50,000 for the national headquarters of Hadacol, famous B vitamin and mineral preparation.

Dudley J. LeBlanc, Founder and President of the LeBlanc Corp., announced the purchase of the building. The small building which now houses the Hadacol factory will be converted into a garage for the fleet of Hadacol trucks and for storage space. The office headquarters of Hadacol, which now occupies a building in downtown Lafayette, will be moved to the new building. The new Hadacol building was built in 1945 and is of excellent construction. Remodeling work already has begun and the LeBlanc Corp. plans to move into the new headquarters early next year. Mr. LeBlanc and officials of his organization already have begun making plans for a gala opening of the new headquarters. "The office and manufacturing facilities will be the most modern possible," said Mr. LeBlanc. "The building will be air conditioned and will have many other features. It is just another forward step in the remarkable progress of Hadacol."

Mr. and Mrs. R. M. Almanrode and Barbara Jane spent last Sunday in Vernon visiting with relatives.

Mr. and Mrs. Sue, Welton Parker and children, Sue, Judith Nell and Charles Roy of Leuders. Visitors in the home of Mr. and Mrs. C. R. USE THE LEAVES
Every fall tons of leaves go up in smoke instead of being saved for use later in the vegetable garden, flower beds or for mulches on the trees and shrubs. Burning is an easy but wasteful way to tidy up the home premises of fallen leaves but it is not the best, says Sadie Hatfield, extension specialist in landscape gardening of Texas A. & M. College. She says it takes little trouble or space to make a compost pile and when the leaves decay into humus or leaf mold, you not only have organic matter that has fertilizer value but, more important, it adds to the water holding capacity of the soil and makes it easier to work.

Making a compost pile may seem complicated to the amateur but it can be simple. A stack of leaves held down by boards or a layer of soil will decay in two or three years but this can be hastened by turning the pile over occasionally with the spading fork and keeping it moist. She says leaves and similar grass and garden trash will decay even faster if the pile is made of alternate layers of leaves and rich soil. It is a good

idea to mix in some nitrogen fertilizer or manure if it is available, she adds. Wood ashes from the fireplace may be mixed with the leaves. Use about a pound of ashes for every 20 to 25 pounds of leaves.

She says that leaves make a good mulch for the bulb beds and for trees or shrubs. Apply the leave before the ground is frozen as a protection against heavy freezing and against starting of growth during warm spells.

Texan Will Direct National Truckers

HENRY E. ENGLISH

Austin (Spl.)—A Texas man, Henry E. English of Dallas, was elected president of the American Trucking Association at the truckers' national convention in Boston, it was announced this week.

English, who started out in the transport business in 1929 with a second-hand touring car and is now president of Red Ball Motor Freight, Dallas, terms trucking "a business nobody knows."

"Even truckers, men who are intimate with the business, seldom realize how important the industry 'that just grew up' is to the nation's economy," he said.

"There are approximately 7,500,000 trucks in this country today. "Though trucks constitute only 17 per cent of the total number of vehicles, they pay over 30 per cent of the taxes on roads."

The newly elected president of ATA has held an office in the national trucking organization for the last ten years and is past president of Texas Motor Transportation Association and a member of the association's board of directors.

Novel Gift to Make

Here's an idea for those "extra" presents you need for friends and neighbors who drop in during the holidays. Crochet colorful hot pads, fold and pin them to form cone-shaped holders, and fill with kitchen gadgets, candy or fruit! They'll look gay and festive on your tree, and be ready to pluck when needed! The yarn used in these hot pads is the new rayon All Purpose yarn, that's strong, colorful and washable.

FARM PROGRAM NEWS

From the County PMA Committee

COTTON MARKETING QUOTA REFERENDUM

Some Knox County cotton growers may be voting in their seventh cotton marketing quota referendum when they go to the polls on December 15 to decide whether they want quotas on the 1950 crop, Emmett Partridge, chairman of the county PMA Committee, said today.

"There are others, however, who may be voting in their first referendum. Especially is this true if they were new growers in 1948. Only farmers who grew cotton in 1948 are eligible to vote in the referendum."

Six referenda have been held since 1938. Around a million growers averaged voting in each of the referenda and the average percentage in favor of quotas, based on the six referenda, is around 90 percent. The highest percentage in favor of quotas was cast in December 1941 when 93.9 percent of the voting cotton growers approved quotas. The lowest percentage was cast in December 1938 when 84.1 percent of those voting approved

quotas.

"The Secretary of Agriculture has declared quotas on the 1950 crop because it is apparent they are needed to assure orderly marketing. We have the machinery to handle the growing and marketing of cotton in an orderly manner. But before this machinery can get underway the farmer himself must approve it. Two-thirds of the farmers voting in the referendum on December 15 must approve quotas or they will not be effective on the 1950 crop," Partridge said.

"Vote as you like, but VOTE in the referendum on December 15."

DIVERTED ACRES

What farmers do with their diverted acres—the land taken out of allotment crops—may well determine future margins of profit or loss and the prosperity of agriculture as a whole, says Emmett Partridge, chairman of the Knox County PMA Committee. The chairman points out that if these acres are seeded to crops that are not in plentiful

supply, it can only result in surpluses of these crops. To illustrate, he points out that farmers who cut their wheat acreage to keep within the wheat allotment and then put the land taken out of wheat into barley, the result will be a surplus of barley.

The same holds true of grain sorghums. Any significant shift of acreage to grain sorghum could easily result in a flooded market, insufficient storage, and a real surplus problem.

And to leave the land idle is no solution, says the chairman, for this creates new problems. Unprotected land is an erosion hazard both from wind and water. Erosion started on idle land may cut back into the rest of the farm. Not only is the income from this land cut off but the land itself becomes less valuable each year. Uncontrolled weeds go to seed and spread to other parts to the farm.

To disregard acreage allotments also is no solution to the problem. The farmer who does this is not fair to others who cooperate. If enough farmers disregard acreage problems, surpluses continue to pile up, land is wasted and price support efforts must eventually break down. That is why eligibility

for price supports depends on seeding within the allotment, the chairman explains.

The only safe way out, the chairman says, is to put diverted acres to work growing grass and legumes for seed and feed. Then the farmer is protecting his land and providing for a future income. Price supports for needed legume and grass seed and conservation payments for seeding land to grasses and legumes are Production and Marketing Administration program operations to help farmers accomplish these objectives, the chairman explains.

Mrs. J. J. Denton and children of Spur spent the past week end here in the home of Mr. and Mrs. M. T. Chamberlain. Mrs. Athlene Morton of Wichita Falls was also a visitor in the Chamberlain home.

Mr. and Mrs. Eugene Groce and children returned to their home in Kansas City, Mo., Wednesday after spending several weeks here with friends and relatives.

Mr. and Mrs. David Green and son attended the Hardin College-Trinity football game in Wichita Falls last Thursday.

West Texas Utilities Co. "Trouble Shooters" Get Their Orders By Radio

As of Wednesday, November 23, "trouble shooters" of the West Texas Utilities Company are getting their orders by radio.

The work of linemen, installation servicemen, emergency repairmen, power dispatchers, and substation operators will be directed by two-way radio. According to an announcement by Earl Morley, district manager, the West Texas Utilities Company has received authority from the Federal Communications Commission covering the operation of a 2-way, high frequency FM radio system. "The FCC license was issued on the basis of 'public welfare'." "The new system will materially help the W. T. U. Co. in its efforts to maintain and provide uninterrupted electric service," said Mr. Morley.

At present the system will consist of a 250-watt central station, and 60-watt mobile unit.

The 250-watt central station is located in a frame structure in the East part of Munday. The antenna extends 14.8 feet above a 240 foot antenna tower; total height being 254.8 feet.

This central station, which has been assigned call letters KKA-840 which according to FCC regulations will operate on assigned frequency of 37,700 kc with a maximum variance of .01% from assigned frequency allowed, cannot be heard on standard radio receivers. Only receivers designed to use this frequency will be able to pick up signals from this station.

A dispatcher located in the WTU Co.'s local office operates the central station by remote control. Arthur Mitchell, W. T. U. Co.'s local manager, pointed out that this dispatcher will maintain two-way communications with the operators of mobile units which are installed in service and line trucks operating in this area. These mobile units have a range of from thirty to sixty miles, depending upon the surrounding terrain. The can communicate with each other as well as with the central station.

"In case of disaster, public need, national emergency, or in instances when existing means of communication fail," Mitchell said, "the mobile units provide emergency communication with all communities of the surrounding area."

Recent surveys conducted by WTU Co.'s engineers under FCC experimental license show how this system can aid the company in rendering better service to the public by speeding the handling of many orders, varying from routine to emergency switching orders.

Here's how the new two-way radio thing-a-ma-jig works at West Texas Utilities Co. In the first picture is Arthur Mitchell, local manager, at the controls of the machine in the office building, while the other picture shows two of the company's servicemen receiving instructions at the receiving set in their pickup.

Ed Bell is receiving instructions over the receiving set, while A. D. Walton seems to be enjoying the situation, although ready to do some poll climbing.

Radios are constantly from the time the service cars leave every morning, so that the local office is in constant touch with the servicemen.

The photos were made by Chan Hughes of Munday.

Thanksgiving* At Rhineland Draws Another Big Crowd

Resuming the annual Thanksgiving feed at Rhineland met with the approval of many local people, if the crowds to attend the event can be taken as a criterion.

Many Munday people, as well as those from other parts of the county, were present for the feed at noon, and there was baked chicken, barbecued beef, those delicious sausages, and everything that goes to make a good feed.

The entire day was a big success, according to Rev. Fabian Diersing, O. S. B., pastor of St. Joseph's church, who stated the young people enjoyed a dance that evening. "I want to express my thanks to all who made the day a success, he said, "and I appreciate the many favorable remarks which were made about the meal and other events of the day."

Realizing it was impossible to list the names of everyone who had a part in making the day a success, Rev. Diersing gave special mention to the following: Ted Hertel, who had charge

of making the barbecue and sausage; Mrs. H. P. Decker, who was in charge of the kitchen; Joe Brown, refreshment stand; Lester Anderson and Arnold Wilde, hamburger stand. Everett Kuehler, Jimmie Farber and Clement Krenek and their wives, who were in charge of bingo games.

"Gives You Texas"

"I don't believe in advertising," a merchant in a small Georgia town said many years ago to Henry W. Grady, a young editor.

Next day, that merchant was swamped with cats. People brought the animals by the dozens. Grady had put in a very small ad, "We will buy cats" and had placed the business man's name to the ad.

He sent for Grady and bought a full-page ad. He was convinced that people do notice the ads and he became a consistent ad-

vertiser. Incidentally, in that first ad, he put right across the middle, "We are not in the market for cats."

The first time that E. H. Sothern appeared on the stage, he had just one line to say—and forgot it!

Ask grandpa; he will tell you that Sothern became one of the greatest actors of his time.

Henry W. Grady, the famous Southern editor mentioned above, one said, "A reporter who subsides into an abel editor means a loss to journalism."

This columnist has always felt that there's no work to compare in interest with newspaper work—and no work on a paper that is as interesting as being a reporter.

There was a Kentucky colonel who served in the Union cavalry during the Civil War. His favorite commands were "Huddle up" and "Scatter out."

And this I call poetic justice: A lawyer defended a man accused of counterfeiting and, by an eloquent speech, won an acquittal. The client paid him off—in counterfeit money.

It is told of George Bernard Shaw that, in browsing through a second hand book store, he found one of his own books. Opening it up he found written there in his own handwriting, "With the compliments of the author." He bought the book, wrote, "Still with the compliments of the author—and sent it back to the man he had originally given it to!

Be careful. Observe state and local traffic laws.

Christmas Seal Sales Aid In Fight Of Tuberculosis

Governor Allan Shivers today issued an official memorandum urging the people of Texas to be "generous" in their support of the 1949 Christmas Seal Sale of the Texas Tuberculosis Association and its affiliated county organizations. The Seal Sale opens Monday, November 21, and continues through December 25—the period officially designated by Governor Shivers as Christmas Seal Month.

Stressing the fact that tuberculosis is spread from person to person, the Governor praised the tuberculosis control program of the Texas Tuberculosis Association, particularly its projects, and those of county associations, directed at helping to find the estimated 25,000 "unknown" cases of tuberculosis in Texas. These unknown cases, he explained, are those not reported to the health authorities. Many of them are early cases and the people themselves may not know they are ill since tuberculosis has no ob-

vious symptoms in an early stage he said.

In issuing his official memorandum the Governor said: "The more we support the work of tuberculosis associations, the closer we shall be to victory over tuberculosis in Texas. Since the annual Christmas Seal Sale constitutes the sole support of State and local associations, we take an active part in the fight against this disease every time we buy and use Christmas Seals."

If You Are 85, 45 or 3, Hadacol Helps All Ages

HADACOL is good for all ages, bringing five of nature's B vitamins and important minerals to the young and old alike. Recently the HADACOL folks received the good news that among the countless thousands who had been benefited by HADACOL were a lady of 85, a man of 45 who felt like he was 18, and a beautiful little girl only three years old.

Mrs. Edmond Doucet, of Church Point, La., is 85 years old, having thousands of friends in the picturesque Evangeline section of Louisiana where she was born and has spent all of her life. These friends are happy to know that Mrs. Doucet feels better now than at any time in two years and gives the credit to HADACOL.

"I had been sick for almost two years and was suffering with gastric disturbances and bloating. I was run down, had lost weight and had to stay in bed most of the time. I lost courage and felt that there was no hope for me."

Mrs. Doucet had tried many preparations without apparent beneficial results when she heard the glorious news about HADACOL.

"After taking several bottles of HADACOL I felt like a new person," said Mrs. Doucet. "I eat anything I want without ill effects and sleep well. I feel much stronger."

Neville Dugas, of Route 1, Box 101 B, Carencro, La., is a successful farmer who had worked early and late at all kinds of hard work and it wasn't so long ago that he wondered if he would ever be able to work that way again. He had tried many medicines, but felt no better.

"I had all kinds of stomach disturbances," said Mr. Dugas. "My stomach was so bloated that it felt like it would swell up and burst. I suffered with gastric disturbances, heartburn and was run down and nervous. I had no appetite and suffered with headaches and I couldn't sleep at night. I was so drawn and pale that my friends had difficulty in recognizing me. After the third bottle of

HADACOL I felt a real improvement and after the twelfth bottle of HADACOL I felt like I was 18 instead of 45. I am feeling perfectly well."

"My three year old daughter, Joan, had lost her appetite," said Mr. Dugas. "Her cheeks were pale and she cried often. I started giving Joan HADACOL and after three of the large economy size bottles she is now healthy, has an excellent appetite and her disposition is perfect."

All three of these people were suffering from a lack of B vitamins and the minerals which HADACOL contains. HADACOL comes to you in liquid form, easily assimilated in the blood stream so that it can go to work right away. It is easy to understand, therefore, why countless thousands have been benefited by this amazing tonic, HADACOL.

A lack of only a small amount of B vitamins and certain minerals will cause digestive disturbances... Your food will not agree with you... You will have an upset stomach... You will suffer from heartburn, gas pains and your food will sour on your stomach and you will not be able to eat the things you like for fear of being in misery afterwards. Many people also suffer from constipation. And while these symptoms may be the results of other causes, they are surely and certainly the symptoms and signs of lack of B vitamins and minerals which HADACOL contains. And if you suffer from such a deficiency disorder, there is no known cure except the administration of the vitamins and minerals which your system lacks.

It is easy to understand, therefore, why countless thousands have been benefited by this amazing tonic, HADACOL. So it matters not how old you are or who you are... it matters not where you live or if you have tried all the medicines under the sun, give this wonderful preparation, HADACOL, a trial. Don't go on suffering. Don't continue to lead a miserable life. Many persons who have suffered and waited for 10 to 20 years or even longer, are able now to live happily, comfortable lives because HADACOL supplied the vitamins and minerals which their systems needed. Be fair to yourself. Temporary relief is not enough for you. Give HADACOL a trial!

\$7,650 In Premiums Up For Fort Worth Livestock Show

FORT WORTH—The boys' livestock show entries will compete for cash awards totalling \$7,650 at the Southwestern Exposition and Fat Stock Show, Jan. 27 through Feb. 5, the management announces.

Always one of the most interesting features of the entire exposition, the boys' show has a great, long-range value because cause here is given recognition to the work of the youths who will be leaders in the livestock industry not many years hence.

Not only the cash awards and the coveted ribbons but also the attention bestowed by the livestock visitors on all the entries stimulate the boys' interest in raising the highest type of livestock and with proper feeding and improved methods.

Top of the red letter days of the Stock Show each year are the one especially honoring the Future Farmers of America and the Future Homemakers and the other day in honor of the 4-H Club boys and girls. On those days, thousands of happy girls and boys from all over Texas go through the Show entrance, through the shows and rides on the midway, view the fine livestock and cheer the rodeo and horse show. Saturday, Jan. 28, will be FFA and Future Homemakers' day and Monday, Jan. 30 will be 4-H Club boys and girls day.

Mrs. Prudence Sessions of Vernon visited with relatives here over the week end. She came at this time to attend the funeral of her brother-in-law, Bert Walsh of Haskell.

Mr. and Mrs. Buddie Gafford and daughter visited with relatives in Mansfield during the holidays. Mrs. Gafford and daughter remained for an extended visit.

Mrs. J. B. Scott, Jerry and Durwood, and Miss Gwynne Lee Smith visited relatives and friends in Vernon last Friday.

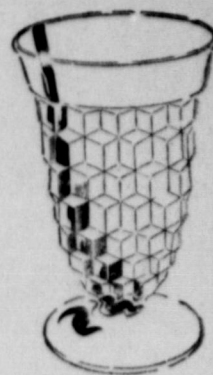

Mr. and Mrs. Carl Jungman and children, Ida Jo and Mike, of Vernon, visited with Mr. and Mrs. H. M. Michels and other relatives here last Thursday.

Mr. and Mrs. Don L. Ratliff and Mr. and Mrs. Charles Baker attended the Texas-A & M football game in College Station last Thursday.

Kracker Krumbs—

wouldn't do to put in print.

We think it downright noble, the way you've been coming in and ordering the Times for another year.

It would be nobler, still, if every lasting one who received a card would come in, or write in, and do the same.

Then we could make a substantial payment—you know what fellows you owe mean when they say substantial—on that note, pay our taxes, and look forward to a visit from old Santa Claus in a few weeks.

We've just a plumb good notion to pay our taxes, anyway!

All pork, regardless of the cuts should be cooked to the well-done stage. For the large cuts of pork such as hams, etc., one-half hour of cooking time per pound is a good allowance.

Milk production can be increased as much as 10 percent during the winter and on less feed if the dairy cows are kept free of lice, grubs, stomach worms and other parasites.

Livestock numbers should be adjusted to fit the grazing capacity of the range and this should be based on the number and amount of good grass present. Low producing and poor quality animals eat more than their share of the range vegetation. They should be replaced with quality livestock.

"I LIKE IT," SAYS MISSIONARY AFTER 28 YEARS IN NIGERIA

"I like teaching the natives of Africa, and I feel that's where God wants me to be," says Miss May Perry, small, soft-spoken Southern Baptist missionary to Africa for 28 years, now in this country on her sixth furlough. She teaches a school for girls and is now at Southwestern Baptist Theological Seminary, Fort Worth, Texas brushing up on her teaching technique.

A native of Georgia, Miss Perry's African community is a tiny settlement of mud houses and thatched roofs called Abeokuta, 65 miles from civilization, in Nigeria. About the size of Texas and Oklahoma, Nigeria has a population of about 22,000,000 negroes and 5,000 whites.

Miss Perry looks forward to winter. "Even winter in Georgia will feel cold—and wonderful," she says. "Everybody should have winter at least every few years. It's nice. It reinvigorates you. It gives you a new hold on things"

Mrs. J. D. Crockett accompanied the R. M. Almanrodes to Vernon last Sunday where they visited relatives.
