

Kracker Krumb's Odd Bits Salvaged At Random

Definition of a garbage can: It's a kinda round can, small at the bottom, bigger at the top; it has two handles on it so it can be lifted and dumped on a truck, and those in the "upper bracket" have bottoms in them that are not rusted out

It would be unpleasant to pick up one of the things, rub it against your body getting it in shape to be dumped, and then find out there had been "leakage" from the holes in the bottom. It happens sometimes.

Then, too, containers for tin cans, etc., should have bottoms in them. They should also be light enough to be lifted by one man.

Ashes should be stored in containers, too, so when picked up to be dumped they won't be strewn all over the person doing the dumping so that he has nothing to dump when he gets to the truck.

With spring around the corner and a clean-up move needed, it's time to begin thinking about those things. Those in charge of collecting garbage, etc., say it would be a lot easier if all the above suggestions were carried out.

There are ten kinds of buyers, according to a card received the other day from one of our supply houses. They were listed as follows:

- 1. Ideal buyer—One who looks and likes and buys.
2. Musical buyer—I'll make a "note" of it.
3. Animal buyer—I'll "bear" you in mind.
4. Marine buyer—I'll be in to "sea" you.
5. Russian buyer—I'll take "one of itch."
6. Repeat buyer—See me next month.
7. Romantic buyer—I'd "love" to buy your line.
8. Blanket buyer—I want you to "cover" me.
9. Barber buyer—Can't you "shave" the price a little?
10. Maternity buyer—I'll buy if you "confine" the line.

The flu bug has hit this area. According to reports, he's the old original type of bug, the one that cause so much havoc back in 1918.

He makes you ache all over; and, from reports the doctor doesn't have to tell you to go to bed.

The flu bug has no respect for race, color or creed, either. He hit the Sunset school so hard last week that school authorities were advised to "close shop" for the week, which they did.

With forty percent of the students absent because of illness, and some of the teachers taking out too, it seemed there wasn't much else to do.

Flu hit the C. D. A., too. Our president, J. L. Stodghill didn't quite make it out of bed Monday morning.

Bobby Price, secretary, reported the directors' meeting was called off. Some had the flu, some were out of town, and a quorum could not be had.

"It doesn't leave anybody but you and Mr. Moore" she says, "and I don't think you two can do very much!"

Of course, we think she underestimated the abilities of the editor and the mayor—but we went ahead and stayed at home anyway. Not many Monday nights we get to stay at home. Just one out of every three months, if we make all our scheduled meetings!

Note to forgetful ones: Have you renewed your subscription for 1950?

Somehow we kinda get the notion along about March or April that the fellow who hasn't attended to this matter doesn't want our paper any longer.

Hope we're wrong about you—and that we'll be seeing you before long.

Knox County Hospital Notes

Patients dismissed from Knox County Hospital since last Monday, February 20th:

- B. B. Benton, Knox City; Martha Turner, (negro), O'Brien; Mrs. W. B. Hudson, Knox City; W. A. Harris, Goree; Mrs. E. O. Jamison, Knox City; June Hudson, Knox City; Mrs. John T. Davis, Jr., Throckmorton; Davis Baby Girl; J. A. Pinkerton, Rochester; K. I. Wright, Rochester; Bobbie Nelson, Munday; Mrs. W. W. Emerson, O'Brien; Emerson Baby Boy; Mrs. Gene Floyd, Munday; Mrs. A. O. Condon, Throckmorton; Mrs. George Reid-enback, Munday; Reidenback Baby Boy; Mrs. Doug Meizer, Knox City; Judy Meizer, Knox City; Penny Meizer, Knox City; Mrs. R. A. Greenwaide, Rochester; Lucille Stodghill, Munday; Mrs. J. A. Pinkerton, Rochester; Mrs. Chester Pogue, Truscott; Mrs. K. J. Wright, Rochester; W. I. Pace, Seymour; Rodney Wright, Knox City; Imogene Postneal, Knox City (negro); Postneal Baby Girl; Mrs. T. L. Belcher, Munday; Mrs. J. N. Stewart, Munday; Stewart Baby Boy; Mrs. Milt. Bradberry, Knox City; Mrs. E. J. Corley, Rochester; Mrs. Frankie Tennison, Benjamin; Sandra Morris, Knox City; Jerry Morris, Knox City; Mrs. Ruth Barnett, Knox City; Mrs. Mary E. Parham, Seymour; Daniel Mendez, Munday; Sarah Sumpter, Knox City (negro); Howard Baby, Rochester (negro); Rena Lea Boldin, Rochester (negro); Miss Willie Jones, Knox City; Mrs. Frank Salmon, Rochester; Max Reeves, Knox City; Mrs. Novell Wright, Knox City; Larry Wright, Knox City; Ceylla Bishop, Knox City; Shelby Von Bishop, Knox City; O. K. Edmundson, O'Brien; Arthur Neal Steadman, Lanagan, Mo.; Mrs. L. A. Steadman, Lanagan, Mo.; Mrs. J. C. Baty, Munday; Baty Baby Girl; Jo Ann Russell, Rochester; Anne Anderson, Knox City; Mrs. Curtis Gollehon, Munday; Mrs. M. P. Faulner, Truscott; H. L. Matheny, Rochester.

Patients admitted to Knox County Hospital since last Monday, Feb. 20th:

- R. C. Bell, Munday; Mr. Beulah Cox, Wichita Falls; Mrs. W. W. Kolb, Aspermont; Gustava Miller, Knox City; J. W. Shahan, Goree; Mrs. J. W. Barton, Benjamin; Mrs. C. E. Knox Singers To Meet At Knox City

The Knox County Singing Convention will be held on Sunday, March 5, at 2 p. m., it was announced here Tuesday.

L. D. Huffstetler of Stamps Music Co., Dallas, will be present. He will start a singing school, free to all at O'Brien on Monday night, March 6, continuing for three weeks.

Other good singers will be present and a good program of songs is in store for all who attend the convention. The public is cordially invited.

Everyone in this area is requested to please take advantage of this free singing school.

FRESHMAN DANCE GUESTS

Margaret Jean Bowman and Joyce Dean Weir of Goree returned home Sunday from Bryan where they were guests of Doug Goode and Don Coffman at the freshman dance given at Texas A. & M. College on Saturday night.

Members Of Local Boy Scout Troop Committee

Pictured above are those who are guiding the activities of the Boy Scouts in Munday as members of the troop committee. They are as follows: Seated left to right: E. L. Goolsby, assistant scoutmaster; Don L. Ratliff, scoutmaster; Clay F. Grove, council director;

W. R. Moore, Jr., advancement. Standing: Alonzo Cartwright, leader of Explorer group; Gill Wyatt, Legion representative; Doris Dickerson, camping; Mark Wadzeck, institutional representative; Charles Baker, public relations; Boyd Meers, camping; Worth Gafford, chairman of troop committee; Elmer Cure, assistant leader of Explorers; Gene Harrell, finance; Russell Penick, camping, and Dwight Key, camping.

Club Boys Win \$2,115 In Prizes At Wichita Show

A total of \$2,115 received from the sale of calves and prize money was brought home from the Wichita Falls Area 4-H and F. F. A. Fat Steer Show held on February 22-24, by four Knox County 4-H Club boys who exhibited 5 steers. The calves sold for a total of \$1933, and the boys received \$181 in prize money.

Nickie Leaverton, son of Mr. and Mrs. Sam Leaverton, of Benjamin, showed the first place calf in the junior division. Nickie received 50c per pound for his 875 lb. League Ranch bred calf. This calf was Grand Champion in the Knox County show held in Munday, on February 11.

Gary Cure, son of Mr. and Mrs. Omar Cure of Gilliland, exhibited the 6th place calf in the junior division and 7th place calf in the senior division. These calves League Ranch bred calves, brought 49c and 45c per pound respectively.

Bobby Miller, son of Mr. and Mrs. O. R. Miller, of Gilliland, sold his 16th place calf for 42c per pound.

The fifth calf shown by Jack New, of Gilliland, was sifted and sold for \$29.50 per pound.

Mr. John Burns, of Fort Worth who judged the Wichita Show, stated this show was one of the best in the state and that the quality of calves was excellent.

E. E. Kings Purchase Blacklock Home

Announcement was made this week that Mr. and Mrs. E. E. King, who are connected with Cobb's Department Store in Munday, have purchased the Winston Blacklock home. Present plans are for the Kings to move to Munday from Seymour to make their home sometime next week.

Mr. and Mrs. Blacklock are making plans to build a new home just north of the Travis Lee residence.

Weather Report

For the period of February 23 through March 1, 1950, a compiled by H. P. Hill, U. S. Weather Observer.

Table with columns: Temperature, LOW, HIGH, 1950-1949. Rows: Feb. 23, Feb. 24, Feb. 25, Feb. 26, Feb. 27, Feb. 28, March 1, Precipitation Feb. 1950, Precipitation Feb. 1949, Precipitation date 1950, Precipitation this date 1949, Precipitation since Nov. 1, 1949.

Church Of Christ At Goree Begins Work On Building

The Church of Christ congregation at Goree will soon have a new place of worship according to Thos. F. Shropshire, minister. Work on the new structure was started several days ago. The foundation has been laid, and framework was going up the first of this week. Most of the work is being done by donated labor by the members, it was stated, and cooperation has been splendid thus far.

The building will be stucco and 34 feet wide by 60 feet long. It will be large enough to care for the needs of this small congregation. Plans are to complete the structure within the next 60 days.

The old building, which had become too small, was sold and moved away some time ago.

Senior Class At Weinert To Present Play

The Weinert Junior Class has selected for its annual play a sure-fire comedy in three acts, "Aunt Hetty Hits Her Stride", which will be given in the Weinert Auditorium Thursday, March 9, 1950 at 8 o'clock, is under the direction of Miss Irene Havran and Mr. Connor Horton.

The cast consists of: Miss Hetty Hoyle, an eccentric middle-aged spinster who is full of "pep" and pepper is ably portrayed by Jolene Dunnam. David Hobbs will act the part of Professor Tate, who is middle-aged hen-pecked husband of Olivia Tate, a refined middle-aged woman, played by Sue Guess. Ann Derr ably takes the part of Thelma, the Tate's studious young daughter who dislikes all males intensely. Bobby Therwanger takes the dual role of Douglas Dombie and Durwood Douglas, two men who are as alike as two peas in a pod. This likeness causes quite a mix-up that in the last act it reaches such a hit across proportions that the laughter raises the rafters. Melba, the gum chewing, boy crazy maid of the Tates, is well played by Marilyn Smith.

The other performers who help to make this play a hit are: Fannie Sue Beason, Billie Joyce Brockett, Lola Pheaster, Alta Josselot, Billy Joe Robertson, Andrew Sanders, Mathilda Ejems, Bob Young, Garland Kreger, Eva Sanders, Robert Drinnon, and Keaton Jetton.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Toby Yates of Munday are announcing the arrival of a baby girl born February 28th at the Knox County Hospital. The little girl has been given the name of Mary Gail. Both mother and little daughter are doing nicely.

Howell Named Crew Leader On Knox Census

Selection of twenty-one crew leaders to supervise the work of enumerators in fifteen counties comprising the Wichita Falls district of the Bureau of the Census has been completed, according to Ben E. Hausler of Wichita Falls, district supervisor.

S. Rex Howell of Munday has been selected as crew leader for Knox and Foard Counties, according to Mr. Hausler. Enumerators will be named at a later date.

Bonner Barton Is Promoted To Sgt.

TEMPLEHOF AIR BASE, Berlin, Germany, 14 February 1950—Bonner Barton, son of Mr. and Mrs. C. A. Barton, has recently been promoted to the grade of sergeant in the United States Air Force.

At Templehof Air Base, Berlin, Barton serves as a transportation dispatcher at this former air center of Nazi Germany.

Having graduated from Munday High School in 1944, Barton attended the University of Wyoming and was formerly employed by Niel Brown Chevrolet Company.

Speakers At McMurry College

Fifth Annual Willson Lectures at McMurry College, Abilene, March 7-10, will be Bishop J. Waskom Pickett and Dr. Bernice Milburn Moore. Bishop Pickett is episcopal head of the

Annual Red Cross Drive Opened On Wednesday; County Quota Is \$1,568

Otis Simpson Announces For Commissioner

Otis Simpson, prominent Knox County farmer, Wednesday authorized the Munday Times to announce his candidacy for the office of commissioner of Precinct Four, subject to the action of the democratic primaries. His announcement follows: To the Voters of Precinct Four: Well, here I am. The old saying goes that it at first you don't succeed, try, try again.

I am again entering the race for commissioner of Precinct Four, and would like to thank everyone who contributed in any way to my support in my first campaign.

I am for good roads, and, if elected, will do all in my power toward keeping all the roads in this precinct in good condition, especially the school bus and mail routes. These will be kept in the best possible shape at all times, so your buses and mail cars can always go.

If elected, I promise to devote all my time to the office. I think the people have a right to expect this of their commissioner. For after all, they are paying for this full-time service. It will be my aim to cooperate at all times with the Commissioners Court, and if elected I will give my best toward making the kind of commissioner you need in this precinct.

I will deeply appreciate your vote and influence.

Philip A. Ziesel Receives Promotion

Highway Patrolman Philip A. Ziesel of Graham was notified on Wednesday, February 22, that he was promoted to sergeant in the Safety Division of the Texas Highway Patrol. Effective March 1, his new station is at Austin headquarters of the Department of Public Safety.

Sgt. Ziesel is the son of Mr. and Mrs. George J. Ziesel of Munday. He graduated from the Munday High School in 1936, and served on the police force in Wichita Falls before becoming connected with the highway patrol.

ANOTHER "DUSTER"

Another dry hole is reported in the C. G. Yost well west of Munday. Drilling was started last week, and the item below appeared in Wednesday's Wichita Falls Record News:

Akin & Dimrock No. 1 C. G. Yost, in the south 60 acres of the northeast one quarter of section 71 block 2 D&WRR survey, three miles west of Munday in Knox county, is running electrical log depth of 2056 feet and will abandon as a dry hole.

Mrs. S. E. McStay and Mrs. T. G. Bengte were visitors in Wichita Falls last Tuesday.

The Red Cross Drive is on in Knox County as well as the entire nation. It began Wednesday, March 1, and will continue throughout the month.

"Now that the war is over, what is the purpose of the Red Cross?" one Knox Countian asked.

Yes, the war is over... but the Red Cross war against misery and suffering never ends. In peace, as in war, Red Cross keeps on fighting—fighting for human happiness and welfare all over the world.

Ask the victims of disaster. Hurricanes, floods and epidemics strike at thousands of American families every year. This year, as always, the Red Cross will be there with emergency medical aid for the injured... food, clothing, and shelter for the homeless... rehabilitation for the needy.

Ask your friends and former Munday residents who lived in Ft. Worth last year when flood waters left thousands homeless "what the Red Cross does".

Ask our wounded veterans. They know first-hand how the Red Cross helps them through their suffering and makes their days less drab. Right now the Red Cross is providing thousands with guidance in personal and family problems... furnishing representation for their claims.

Ask the victims of accidents. Every year 100,000 are killed and 10,000,000 are injured by accidents in the United States. Red Cross First Aid, Water Safety and Accident Prevention programs help reduce this tragic toll.

Yes, the war is over... but the war against human suffering never ends... concern for the veterans' welfare never ends... and the war on accidents never ends.

For this vital humanitarian work, the Red Cross needs your help. Your contribution will help thousands of our fellow-Americans, many of them in our own community.

Won't you give now to the Red Cross? It depends on you just as countless Americans depend on it. We know you won't let them down." Knox County chairman J. B. Eubank, Jr. urged this week.

Knox County's quota is \$1,568 and it is hoped by the community chairman that the quota can be reached early in the month.

Cub Scouts Of Goree Meet On Last Monday

Monday evening, February 27, at 7:30 o'clock, was a gala occasion for the Goree scouts of pack 75 when they met in the assembly room of the memorial building for their annual banquet.

Invocation was given by Roy Mayo. The out-going scoutmaster, Leslie Treat, acted as toastmaster and presented "Bear Badges" to the following boys:

Don Bowman, Tommy West, Buddy Mayo, Charles Gaither, David Moore, Johnny Jones and Jimmy Routen. Other boys among the bear badges, who were absent because of illness were Jimmy Treat, Clifford Bradley and Dayle Lowrance.

Mr. Treat introduced the new scoutmaster, S. G. Hampton, also paid tribute to Mrs. Roy Mayo, who has been loyal den mother for the past two years. The menu consisted of baked chicken, dressing and the trimmings, topped with cherry pie served on tables beautifully decorated with Scout colors centered by a huge three-tiered imitation birthday cake depicting the 40th birthday of boy scouts.

There were about forty present to enjoy this meeting including parents of the boys.

New cub members present were Jerry Williams, Jr., Jackie Hampton and Billie Little.

Reports from the Port Aransas Causeway Co. are that Mr. and Mrs. I. E. Cook are catching the fish. From a pier Mr. Cook caught a 15 pound drum and a whiting; then surf fishing he snagged a panpango and three whiting while Mr. Cook caught a large gafftop and two whiting from the pier.

 Act of Congress, March 2, 1879.

OUR NEEDS FOR 1950

1. Completion of our portion of the Throckmorton road, giving the farmers of that area an all-weather outlet.
2. A farm-to-market road to the north and east of Munday, possibly connecting with the Heifer road.
3. A U. S. Federal building. Munday needs a new post office home.
4. More homes in Munday. We did a good job in 1949, but there's still a housing shortage.
5. A new telephone system, giving the town adequate telephone service and tapping the rural area surrounding the town.
6. Greater cooperation of business man, farmer, and citizen toward long-range development for our community.

NOTHING IS FREE

A great many fine-spun arguments have appeared in both sides of the government medicine issue. But, to leave theory aside for the moment, it is interesting to see how it looks to an individual subjected to it.

The Oregon Voter recently published an excerpt from a letter written by a woman in England. In a section dealing with the Labor Government's "free" medical aid scheme, she says: "People do have to wait for beds in hospitals and it is all very difficult. Nurses are short and of course doctors are terribly overworked. . . . People run to the doctor for colds and finger ache. When someone is really almost dying the doctor cannot give as much attention as he should since he is so rushed. . . . The working classes cannot see that indirectly they pay as long as they live, through the nose. For this health scheme they will pay always; nothing is ever free."

This squares with many reports on the workings of the plan. The standards of medical attention have gone down; initiative has been destroyed, and the old and immensely important doctor-patient relationship has been undermined. And the cost, whether Britons know it or not, is huge, and is born by everyone who pays a tax of any kind.

The scheme which is proposed for this country is the same in most essentials. It, too, would require compulsory tax payments; it also would promote "mass medicine", which is always second-rate, assembly line medicine. It will be a tragic day if it is ever adopted.

EXPENSIVE "WILDCATS"

Last year the American Petroleum Institute announces, the oil industry drilled about 7,250 "wildcat" wells—the greatest number in any one

SUBSCRIPTION RATES

year since the discovery of oil in 1859. "Wildcat" wells are test wells which the oil men drill in the course of exploring new or unproved territories. Through them new pools are discovered and new fields brought into production. Our proved oil reserves have now reached the enormous figure of nearly 27,000,000,000 barrels—and the "wildcats" are largely responsible for that.

A "wildcat," however, is not a safe, sure and conservative piece of business. It involves great financial risks since about four out of five of them turn out to be dry holes. The science of geology has made great progress, but it isn't foolproof by a long shot. The only sure way to prove that there is oil in any given place is to go down and look.

Last year's "wildcats" cost the oil industry more than \$350,000,000 in drilling expense.

Since only one out of five was a producer, the average cost of finding a worthwhile well was about \$250,000. And that doesn't include the huge sums paid to landowners for leases, the cost of geological and geophysical exploration, and other heavy and necessary costs. In 1949 the total costs of exploring for oil and gas within this country was over \$1,000,000,000.

In a free economy, men will take these risks for the possible rewards for success—thus bringing progress and a better life for millions of people. What is true of oil is true of all the rest of our basic industries.

THE BIG DIFFERENCE

A new insight into the vast difference between a regimented and a free economy was recently given by Paul H. Nystrom, Professor of Marketing, Graduate School of Business, Columbia University. Dr. Nystrom is an internationally celebrated authority in his field.

"Under a state controlled economy," he said, "or under conditions of absolute monopoly, the burden of negotiation and of effecting exchange falls upon the buyer. The buyer must seek out the sources of supply. He can only buy what is made available to him. He must pay the price that is asked or go without."

"In a competitive economy, such as we have, when there are adequate supplies of goods and conditions are normal, those who have goods to sell or their representatives, must look up the customers. . . . The customer is under no obligation to buy. He buys only what he wants. He buys in accordance with his own decisions. The function of selling under these conditions is to stimulate desires, to make it easy for the customer to buy and to persuade. . . . In the months that lie ahead business is not likely to go to those who sit and wait for it. It will go to those who go out and get it and earn it."

Uncle Sam Says

This is the time we honor the birth date of one of our greatest Americans, George Washington. Properly called "The Father of His Country," our first President revealed sound judgment in everything he undertook. And one of these wonderful traits was thrift. Every American should hold fast to that habit by saving—every payday—a part of his earnings. Enroll on the Payroll Savings Plan where you work or, if self-employed, the Bond-A-Month Plan where you bank. **START SAVING IN 1950 FOR 1960**

7-Step Cotton Program Steps Out In South

The South-wide 7-step cotton program, because of the reduction in cotton acreage, will receive even more consideration than in the past, says Fred C. Elliott extension cotton work specialist of Texas A. & M. College. The reduced acreage, he says, means a greater concentration on better methods for greater production from fewer acres, for now, it will be the efficient producer who will continue to make a profit from his cotton operations.

The seven steps include: fitting cotton into balanced farming; taking care of the soil; using the best variety; making your labor count; controlling insect and diseases; picking and ginning for high grade and selling for grade, staple and varietal value. Basically, says Elliott, this is just a good farming program that individual farmers can carry out on their own. It is not new but it does emphasize the basic practices and methods that can lead to greater and cheaper production per farm and at the same time the soil can be improved and built up.

Elliott says the Texas Extension Service has had the active support of all cotton interests in the state and this cooperation on the county and state level has been responsible for making the program successful.

Last year, more than 7000 farmers in 87 counties cut their losses from root-rot by planting legumes, principally sweet clovers. In 146 counties, farmers planted cotton following phosphate and legumes and barnyard manure was used on nearly 8,000 other farms in 124 counties of the state.

Elliott says cotton farmers are planting better seed. Higher yielding varieties of superior fiber are being bred by the Agricultural Texas Experiment Station and the seed breeders of the state. In 1949, nearly 600 one-variety associations produced better cotton on approximately 5 million acres.

Mechanization has saved labor and has cut the cost of production for the cotton farmer. The rotary hoe, the stripper and mechanical picker have been widely

and successfully used. He reports that farmers last year really went after bugs. Cotton farmers used more than 50 million pounds of insecticides, as dusts and sprays, on 5 million acres of cotton. This insect control program was a contributing factor to the high state average yield in 1949. The best per acre yield since 1894.

He reports that more than 100,000 cotton farmers in 167 counties were members of groups that received free classing service under the Smith-Doxsey Classing program.

Elliott expects even greater achievements for the coming years, for he says the program is now well organized and all interested individuals know and recognize the value of the program to the cotton industry. He believes that per acre yields can be increased even above the 1949 figure if farmers will continue to use the best known production methods and practices on their farms.

Mrs. Al C. Williams and Gail went to Spur last Saturday to visit Mr. Williams. On Sunday they visited relatives in Slaton and Lubbock.

Mr. and Mrs. Sidney Lee of Fort Worth spent the week end here with Sidney's mother and brother, Mrs. O. W. Lee and Harvey Lee.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

AUSTIN—Millions of flies help to cause the illness and death of thousands of children and adults each year in the United States. Hundreds of these casualties may be in the state of Texas this year if residents fail in their responsibility for develop-

ing the best possible sanitation measures in the area where they reside. Typhoid fever, summer complaint, and other intestinal diseases can be traced to the common housefly as the carrier of infection.

Dr. Geo. W. Cox, State Health Officer, speaking in this connection recently said, "Be sure that your windows and doors are tightly screened so that stray flies from a careless neighbor will not endanger your family. Be sure that flies are kept away from food, drink and utensils used in the preparation of food. Make sure, if you live in rural districts, that outside privy vaults

Texas Congressman Plays New Role in Nation's Capital

WASHINGTON, D. C.—Texas Congressman Frank Wilson (standing, extreme left) is a star performer in the Democratic Barbershop Quartet, with whom he is shown here, rehearsing for the unique Old Gold Original Amateur Hour show (V.I.P. edition), which will feature bigwigs of the nation's capital in novel roles as entertainers.

Designed to spark the American Heart Association's drive for funds, the gigantic Constitution Hall show will also present Texan Sam Rayburn, Speaker of the House of Representatives, in a prominent role.

Texas will be further represented in the show by Congressmen Ken Regan and Lloyd Bentsen and their wives, who will take a prominent part in a gale square dance number.

Congressman Wilson, who sings bass in the Democratic Barbershop Quartet, is shown here with other members of the contingent, from left, Congressmen Oren Harris of Arkansas, Toby Morris of Oklahoma, and Percy Priest of Tennessee.

things about their awful prospects, a man can't help but worry a little. I even worry a little about my roof just from hearing my wife say it's gonna cave in on me some day.

As I understand it, the first atom bomb would destroy everything in a mile area, the later ones about 5 miles, the hydrogen bomb they claim will destroy everything in a 25-mile area, and the scientists have in mind other bombs which will extend the territory and somebody is gonna invent something some day that will sweep over the earth like ignited gasoline. Strik a match in one direction and have your coat-tail burned off from the other.

Ain't no sense in man puttin all his wars in one basket. He ought to string them out for years to come.

Therefore, I got a proposition to make. It's called the J. A. Plan For Outlawing New Inventions. Instead of the world spendin billions of dollars in a race to see which country gets to destroy all the rest and itself, too, why not just appropriate a small amount and give it to the scientists and make em stay out of their laboratories and stop thinkin. Let em go fishin at the world's expense for 25 years. Be the cheapest money we could spend. I fish a lot and you ain't never heard of me endangerin the life of anybody.

Yours faithfully,
J. A.

Hugh Beaty was a business visitor in Fort Worth the first of this week.

Winston Blacklock was a business visitor in Wichita Falls last Monday.

LOCALS

Mr. and Mrs. Jack Benton and son, Mike, of Corpus Christi spent the past week end here visiting Mrs. Benton's parents' Mr. and Mrs. J. D. Crockett. The Bentons plan to move to Knox City this week.

Mrs. M. C. Hallmark and daughters, Frances and Sue, were visitors in Abilene last Saturday.

Mr. and Mrs. D. E. Holder, Sr., returned home last Friday from Alice where they visited Mr. and Mrs. Rex Holder and family for several days. They also visited in Corpus Christi, Weslaco and Brownsville while away.

L. J. Hill and son, Joe Mac, spent last Sunday in Stamford visiting relatives.

Knox Prairie Philosopher Doesn't Want The World To Put All Its Wars Into One Basket; Advises A Vacation

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek sounds serious this week, but you can't tell about him.

Dear editor:
I never was one to stand in the way of progress, as far as I'm concerned a man can have all the gadgets he can pay for

are tightly covered so as not to permit the entrance of flies. Infections from this source can be picked up and spread to human beings through contact with food, drink, and utensils. Keep all garbage covered until collected or buried. Eliminate all breeding places for flies and you will be helping your community in its work of controlling communicable diseases and preventing unnecessary illness."

Dr. Cox said that the State Health Department would furnish upon request a pamphlet outlining safe and practical methods recommended for use in fly control.

and has the patience to keep running, and I recognize that what the world has today may seem as old-fashioned 100 years from now as the walkin plow looks alongside a four-row tractor, but I have been thinking.

There's enough gadgets invented to where a man could be fairly comfortable if he had a set of each, and don't you reckon it would be advisable to get the scientists and inventors to slow down?

I don't believe all I hear about these new bombs, but so many people who are considered smart are sayin so many serious

HEFNER NEWS

(Mrs. E. J. Jones, correspondent)

Friendship Church held only the regular Sunday school last Sunday, as the pastor, Elder J. L. Gray, was attending the bedside of his father in New Mexico. Mrs. Gray and children remained at home.

Mrs. J. H. Cooksey is spending a few days in Arkansas with her daughter, Mrs. Dee Jones, and her children. Mrs. Cooksey is also visiting in Oklahoma while away.

Mrs. Della Harriet of Lubbock and son, Floyd and wife, spent the week end with her sister, Miss Emma Cooksey, and with H. J. Cooksey and family. They formerly lived in Knox County.

Mr. and Mrs. Floyd Harriet of Clyde also visited here over the week end. They formerly lived

near Hefner.

Mr. and Mrs. Jack Steward and little daughter were visitors in their parents' home, Mr. and Mrs. J. G. Hudson, in Goree last Sunday. Mrs. Hudson has been sick for several days.

Mr. and Mrs. L. A. Haskin visited their mother, Mrs. E. C. McElhannon in Goree last Sunday.

Quite a few sightseers visited the new oil wells on the Bates and Cooksey places every few days.

Miss Wynelle Fitzgerald of Fort Worth spent the week end here visiting her parents, Mr. and Mrs. Cecil Fitzgerald and with friends. On Sunday, Mr. and Mrs. Fitzgerald and children visited in the home of Mr. and Mrs. Lee Ward and baby of Lubbock.

Gaynor Kendall of Austin visited with friends here several days last week.

Prize Winners In This Group

In this group of future citizens are three of the prize winners in the recent Woltz Studio photo contest. Pictured left to right, these youngsters are:

Top row: Tommy, 2 years, son of Mr. and Mrs. Thomas J. Cloud, Goree; first place winner; Maurice, 8 years, son of Mr. and Mrs. Jack Tidwell, Munday; Janette, 8 years, daughter of Mr. and Mrs. V. V. Routon, Goree.

Bottom row: Larry, 15 months, son of Mr. and Mrs. Edwin Darter, Munday; third place winner; Eddie, 3 years, son of Mr. and Mrs. Turner Standlee, Goree; fourth place winner; and Reed, 3 years, son of Mr. and Mrs. Marion H. Brumley, Munday.

Winners in the contest may secure their free photos at the Munday Times office.

Munday H. D. Club Meets Wednesday At Study Club

The Munday Home Demonstration Club met in the study club rooms February 22nd with ten members answering roll call.

The meeting was opened with a song. Mrs. J. C. Gollehon read council recommendations which the club voted to accept.

The club president, Mrs. Joe Patterson, announced that the 4-H Club girls dress review would be held at some date in April. The club members have some beautiful greeting cards that they are selling to help with financing home demonstration work. Anyone wanting these cards can get them from the club members.

After the business meeting, a club skit was presented. Those taking part in this little skit were: Mrs. R. E. Foshee, as the announcer; Mrs. Nora Broach, a news reporter; Mrs. F. Bowler, as Grandma, a very enthusiastic club member; Mrs. Bill Morris, as Mrs. Gray; Mrs. Fred Lain, as Jean; Mrs. Buel Claborn as Betty and Miss Shirley Patterson as 4-H Club girl.

With Mrs. Otis Simpson at the piano, the group sang The Patriotic Hymn of the Republic.

The next meeting will be March 8th in the club rooms. The topic of this meeting will be Bread and Cereal Products.

Don Reynolds, Bobby Gray and Charles Hardin of N. T. S. T. C. in Denton visited with homefolks last week end.

Jimmy R. Crouch, Mrs. Margaret Ramo, Marry February 17th

Sgt. Jimmy Ray Crouch, son of Mr. and Mrs. George Crouch and Mrs. Margaret Ramo, daughter of Mr. and Mrs. E. T. Wickham, were married Friday, February 17th in the First Baptist Church at 4 o'clock in Oklahoma City, Okla. They were married by Rev. G. E. Jacobs.

The bride was attired in a light tan suit with brown accessories and a white gardenia corsage.

Sgt. Travis M. Lourence was best man and Mrs. Billie Jo Bates was bridesmaid. She wore a blue two-piece dress with black accessories.

After the wedding, a reception was held at the home of the bride's parents.

Those attending were Mr. and Mrs. George Crouch, Mrs. Buster Latham, Mrs. Billie Jo Bates, Gerald Blackwell, Travis M. Lourence, Mr. and Mrs. John O. Buller, Miss Betty Garner, Mr. and Mrs. E. T. Wickham and Beverly Ramo.

GOES TO HOSPITAL

Miss Barbara Jane Amanrode was taken to the Knox County Hospital last Saturday where she is receiving medical treatment. Reports are that she is doing nicely and is expected to return home the latter part of this week.

Be careful. Observe state and local traffic laws.

\$2,000 In Prizes Now Offered By Cottonseed Firms In 1950 Contest

For the second time, the Northern Star Seed Farms of O'Brien and Wacona Seed Farms of Waco are offering \$2,000 in contest awards to cotton growers in all cotton growing states.

W. R. Woodward of the Wacona Seed Farms said the only changes in this year's contest compared to the first one offered in 1949 is the number of acres to be entered. "This year the acreage is five; last year it was ten," he said.

Woodward listed rules for the contest as follows:

1. To be eligible for a prize, the winner must plant either Northern Star or Wacona Texas State Registered Cotton Seed.

2. Awards will be based on the actual monetary value of the cotton and cotton seed produced on five acres of land.

3. One set of prizes will be awarded for irrigated land and a duplicate set of prizes for non-irrigated land.

4. Entrants in contests must leave a check row in the plot until yield has been checked by one or more of the judges.

5. To enter, notify Northern Star Seed Farms or Wacona Seed Farms by Sept. 1 giving location of your farm.

Prizes for winners are as follows:

Non-irrigated land:
First prize, \$500; second prize, \$300; third prize, \$200.

Irrigated land:
First prize, \$500; second prize, \$300; third prize, \$200.

Woodward said there are no entrance fees and no applications to file. "If you wish to enter, be sure to notify Northern Star Seed Farms at O'Brien, or Wacona Seed Farms here in Waco

before Sept. 1," Woodward said.

Judges and inspectors of all plots in the contest will be the local county agent, local ginner, and a representative of either Wacona Seed Farms or Northern Star Seed Farms. Decisions of the judges will be final.

Now is the time to get the farm tractor in shape for the busy days ahead.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Herbert Stodghill of Munday are the proud parents of a baby boy born Monday morning at 1:30 o'clock in the Knox County Hospital. The little son tipped the scales at eight pounds and thirteen ounces. Both mother and little son are doing nicely. Maternal grandparents are Mr. and Mrs. Clyde Rodgers of Goree and paternal grandparents are Lyle Stodghill of Munday and Mrs. Lucille Stodghill of Munday.

Mrs. Otis Simpson spent the past week in Cleburne visiting her daughter and son-in-law, Mr. and Mrs. E. C. Elliott.

BETTER... FROM EVERY ANGLE!

The New FERGUSON TRACTOR

More Power! More Speeds! Greater Economy!

Open the throttle of the new Ferguson Tractor under a full 2-plow load. You'll fully appreciate the responsive power that walks away with your work!

Stepped-Up Power

There's no secret about what gives the new Ferguson Tractor improved performance. It's the combination of the genuine Ferguson System with a new, special-design, valve-in-head engine, product of Ferguson and Continental engine designers. With the Ferguson System to develop traction without excess built-in weight, plus this wonderful valve-in-head engine, you'll be amazed at the amount of work you can do with a gallon of fuel.

But stepped-up, valve-in-head engine power is only one of the reasons why you can save so much in time, money and work with a new Ferguson Tractor!

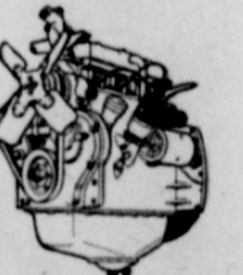

So easy to use! The original built-in system of hydraulic implement control, both Finger Tip and automatic, with 3-point, one-minute attachment of Ferguson unit implements - 4 forward

speeds - Front wheel tread adjustable without the bother of adjusting steering linkage - Automatic hydraulic overload protection if unit implement hits a solid, hidden obstruction - Individual turning brakes, plus a single pedal that brakes both rear wheels to stop the tractor without side pull - Tip-up hood to give instant accessibility.

But try it for yourself! We'll gladly show you the "proof of the pudding", with a demonstration on your own farm, at your own work. Just tell us a convenient day.

Powerful Fuel-Miser Valve-in-Head Engine

Exceptionally high torque at low engine speeds gives amazing tugging power—often lets you use third gear when you'd expect to need second. "Wet" sleeves fully water-jacketed, improved cooling fan, full pressure lubrication and precision manufacture—it's an engine built to take it!

We have all the necessary accessories and parts for Ferguson tractors in stock.

Goree News Items

Mr. and Mrs. Henry Cowser of Odessa spent the week end visiting relatives in Goree.

Mrs. H. F. Johnson, who has been visiting a sister in Perryton for some time, returned Mr. and Mrs. Floyd Harriest and Mrs. R. W. Harriest of Lubbock visited in the home of Miss Emma Cooksey Saturday and Sunday.

Mr. and Mrs. Ira Stalcup and Mrs. J. M. Edwards of Seymour visited Mr. and Mrs. Beverly King in Graham Sunday.

Heard Crouch, who has been in Houston for several years, returned home last week to stay with homefolks for awhile. He is recuperating from a long illness and stay in a hospital.

Mr. and Mrs. Jim Earl Hammons of Sheppard Field, Wichita Falls, spent the week end with his parents Mr. and Mrs. J. R. Hammons.

Robert Couch of Kermit visited his parents, Mr. and Mrs. W. R. Couch, this week.

Mr. and Mrs. Bryan Lawson and daughters of Rule, visited in Goree Sunday.

Mrs. W. F. McCauley has returned home after visiting some

of her children in Dallas an Oklahoma City, Okla. Mr. and Mrs. Bluford McCauley and daughter of Oklahoma City returned to Goree with her Saturday.

Henry Coffman of Fort Worth was a Goree visitor Saturday.

Mr. and Mrs. Gene Payne of O'Donnell visited in Goree and Munday during the week end.

Mrs. Farris Mobley returned home from Plainview Friday where she visited Mr. and Mrs. Gene Bingham. Mrs. Bingham and little daughter returned with her.

Mrs. J. H. Cooksey is visiting her daughter, Mrs. D. Jones and family in Duarnt, Okla. this week.

Charles Arnold of Austin visited his parents Saturday and Sunday.

Mr. and Mrs. Joe Hudson and children of Wichita Falls visited relatives here during the week.

Mr. and Mrs. S. M. True of Plainview were Goree visitors part of this week. They brought Mrs. R. D. Stalcup home after an extended visit in their home.

Mr. and Mrs. Leo Cunningham and son of Hagerman, New Mexico are in Goree on business this week and visiting relatives.

NEW LOOK IN CHAIRS

Grandfather's chair was never like this—nor, for that matter, was Grandma! This new chair, just introduced, is of satin-finish chrome in a distinctive modern design which enhances the appearance of modern rooms without making undue demands on floor space. The steel tubing is in a unique new square styling. Armrests are of black plastic, and the upholstery is nylon available in a choice of pastel colors.

News From The Boy Scouts

The Boy Scouts met Monday night, February 27 with the following present: George Spann, Jerry Tuggle, Perry Reeves, O. D. Wallace, Gerald Morrow and Gordon Stevens.

Leaders present were E. L. Goolsby, assistant scoutmaster; Gene Harrell, finance chairman; Bob Bouse of Wichita Falls, area scout executive; and Charles Baker, E. L. Anderson, scoutmaster of Troop 72 of Seymour, was a visitor.

The program and activities for the Explorer Scouts for the next two months were discussed, and plans were made for future activities.

Mr. Bouse discussed the functions of the four committees of explorer scouts, which are: Community service, social service, indoor activities and outdoor activities.

Double Deck Beds Will Solve Space Problem For Son

Here is one way to lick the space problem in the son's bedroom or in the summer house when more beds are needed. You may not have the floor space for an extra bed, but you can use some of the space above the bed by building a double decker bed.

Beds should be well built to take care of the strain that comes from climbing on them. They should be at least 39 inches wide and built so they can be cut and made into twin beds later. The addition of a guard rail will make the double decker safe even for the small child.

You'll find it easier to make the double decker from soft wood. Glue and screws are recommended for putting the bed together and angle braces should be used to make the bed strong. This is a job the young men in the family will enjoy doing.

Jessie George Smith, who is attending Baylor University in Waco, spent several days this week here visiting his parents and friends.

Mr. and Mrs. W. H. Thompson of Aledo and Mr. and Mrs. Tommy Roe and little son, Billy, of Wichita Falls, spent the week end in the home of Mrs. Thompson's mother, Mrs. G. P. Burns.

Mr. and Mrs. M. L. Wiggins and Mr. and Mrs. Don Boyles attended the annual Chamber of Commerce banquet in Abilene last Tuesday night.

Premium Grade Gasoline Placed On The Markets

HOUSTON — An improved premium grade gasoline meeting the requirements of the latest high compression automobile motors is being made available to Gulf Oil outlets throughout Texas today, according to M. Farnsworth, Division General Manager.

Working closely with automotive engineers, Gulf's research staff has developed the new gasoline during the last three years, Mr. Farnsworth said.

Half page advertisements announcing the new anti-knock fuel will be carried during March and April in the leading daily newspapers and in several hundred weeklies and small dailies. The advertising campaign is by far the most extensive, involves the use of more newspapers and the expenditure of more money than any other Gulf sales promotion program released in Texas since World War II.

The campaign is indicative, according to Farnsworth, of two things: first, the determination of the country's leading petroleum products suppliers to provide fuels that will fully meet the requirements of the high compression motors developed since the war; and second, the keen competition for retail business that is becoming increasingly evident under the present supply and demand situation.

Gulf distributors throughout the state, and dealers in every area where Gulf products are sold, have been invited to supplement the overall Company program with localized promotions of their own.

BOYCE HOUSE

Did you know that Marshall, Texas, was once the capital of the state of Missouri? That's right—Marshall, Texas was the capital of the state of Missouri. The way it happened was this? When the War between the States broke out, the governor of Missouri was a Southern sympathizer and he wanted his state to secede but there was a battle and his side lost—so he left Missouri, taking with him official papers and the official seal and came to Marshall where he opened his executive office and announced that was the capital of Missouri.

He issued proclamations and documents as governor and affixed thereunto the great seal of the State of Missouri. Of course the folks back in Missouri didn't pay any attention—but that is how Marshall, Texas, was capital of Missouri.

Here's another believe-it-or-not: Travis and the other brave Texans in the Alamo died while fighting under a Mexican flag.

You may have seen paintings showing a Lone Star flag flying over the defenders of the Alamo—but this was a mistake, Texas declared her independence from Mexico before the Alamo fell but Travis had not received the news.

The flag the men of the Alamo fought under was the flag of Mexico to which the numerals 1824 were added, referring to the Mexican Constitution of 1824, the democratic principles of which Santa Anna, the dictator, had swept aside.

Did you know that Brownsville, Texas was the only town in the United States that ever had an ordinance prohibiting camels on Main Street?

Back in the 1850's when Jefferson Davis was U. S. Secretary of War, he had camels brought to Texas as an Army experiment to see whether the animals could carry men and supplies over the dry and sandy wilderness of Southwest Texas. During the Civil War, these

Rubber In Your Roads May Stretch the Highway Dollar

Laying a rubber road in Virginia. Particles of natural rubber are mixed with the asphalt surfacing to increase wear and reduce skidding.

It costs nearly a billion dollars a year to keep America's 3,300,000 miles of present highways and streets in repair, to say nothing of building new ones. So it is no wonder that highway engineers and tax-payers are watching with keen interest a new idea in road surfacing that may cut millions of dollars off the annual road repair bill.

The idea is to mix particles of natural rubber with the asphalt surface coating on a road. The Dutch tried it 12 years ago, and found that it made the road stand up better under winter cold and summer heat.

A test rubber road in Holland, after 12 years' use under heavy

traffic, is still in good shape, while adjacent strips without rubber have had to be repaired twice.

In 1949 four states—Ohio, Virginia, Minnesota and Texas—laid test strips of natural rubber-asphalt paving. If these prove as successful as highway engineers hope, a new era in road construction will be here. And in addition to extra wear, these rubber-surfaced roads have proved that they reduce skidding.

A free booklet describing these rubber roads and the tests which are being made can be obtained from the Natural Rubber Bureau, Dept. N100, 1631 K St., N.W., Washington 6, D. C. It is called "Stretching Highway Dollars with Rubber Roads."

Black Walnut Trees Profitable In This Area

The wood of the black walnut tree has long been a favorite of the furniture manufacturer, the gun-stock makers and the interior finishers, but today it is becoming a scarce item. Looking to the future the growing of walnut trees around the homestead could prove profitable. The native black walnut tree will provide shade, nuts and wood and can be used to replace less valuable shade trees.

The more desirable walnut varieties, such as the Thomas and English, can be budded or grafted on the native black walnut trees. Rough land unsuited for crop production, could be made more attractive and profitable if it were used to produce walnut timber.

The black walnut is well adapted in all sections of the state. It thrives under irrigation in West Texas and will grow slowly in areas of 15 to 18 inches of rainfall per year. It does best on deep, rich, moist soil, but will thrive in other soils if fertilizer and moisture are supplied.

Black walnut seed planted in the late winter or early spring usually comes up in the summer

if given good care. This means plenty of moisture and drainage. They should be planted about two inches deep under firmly packed soil, and should be covered with a mulch to help hold soil moisture and protect them. Deep planting will delay or prevent growth. Good drainage helps prevent rotting of the young plants and plenty of sunshine helps to control powdery mildew and leaf diseases.

The nuts may be planted in a corner of the vegetable garden, in a seed bed, in the spots where they are to grow or may be started in pots or cans. They should be transplanted when small for their big root system makes them difficult to move.

If pots or cans are used, holes should be punched in the bottom for drainage. Put an inch of gravel in the bottom and fill with loam or sand and keep the soil in the pot or can moist. When the roots begin to grow out of the bottom, they should be transplanted. Growth will not be retarded, if the soil in the can is

taken out in one piece. Fertilize and water the young trees and give them protection from animals and fire.

When planting the nuts where the tree is to be left, use at least two nuts for each planting. When they are up and growing, the extras can be moved to another spot. Since the walnut makes a large tree, they should be planted 30 to 40 feet from buildings.

Black walnut seed can be obtained from The Texas Forest Service, College Station, Texas, for a small charge—to take care of mailing and handling. If you are interested, write the Texas Forest Service.

Mrs. W. R. Mitchell and Annette and Mrs. A. E. Bowley were visitors in Big Spring last Friday and Saturday. Mr. and Mrs. Joe Frank Bowley and son returned with them for a week end visit.

Mr. and Mrs. Clyde Franklin of Stamford and Mr. and Mrs. Zane Franklin visited with relatives in Lubbock last week end.

Mrs. E. A. Teaff and Mrs. Joe Summers of Eddy and Mrs. Archie C. Price of Grand Prairie are visiting their brother, C. R. Elliott, and with Mr. and Mrs. J. C. Elliott and family this week.

Mrs. T. G. Bengel returned home over the week end from Dallas where she had been visiting Mrs. Gustaff Fladger who has been in the Medical Arts hospital there.

Mr. and Mrs. R. M. Almanrode left Sunday for Dallas where Mr. Almanrode will enter a Dallas hospital for treatment.

Have Your Planting Cottonseed Kemas Delinted Recleaned, Graded and Treated with Ceresan at the Munday Kemas Plant

This method is recommended by the Texas Experiment Station and the USDA for controlling the germs of cotton diseases on seeds and insect pests in seeds; saving chopping expense; reducing losses from root rot; improving and hastening germination and increasing yields.

Kemas Delinted Seed Are Planted with Corn Plates at the Rate of 5 to 7 Pounds of Seed per Acre

Tractors plant more per acre as there are few stops to refill with seed and no fuzz and trash to choke planters, cause skippy rows, and delay planting operations while the boxes are being cleaned.

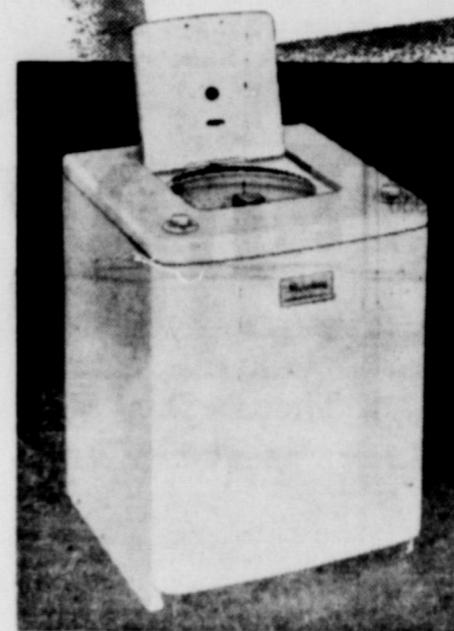

Kemas delinted seed come up quicker and grow faster, enabling cultivation a week earlier.

For further information write or phone:

Alice Steinbach, Mr. Albin Halfmann
Wed February 20th

In a ceremony held February 20th in St. Joseph's Church in Rhineland, Miss Alice Steinbach, daughter of Mr. and Mrs. George Steinbach, became the bride of Albin Halfmann of Rowena.

The Rev. Fabian Diersing, O. S. E., read the double ring vows and officiate at the nuptial high mass. The altar was decorated with gadioli and lemon leaves.

The bride wore a white slipper satin gown, fashioned with a marquisette yolk outlined in chantilly lace with a fitted bodice and a full skirt. Her fingertip veil of bridal illusion was held in place by a tiara of orange blossoms. She carried an arm bouquet of white carnations and wore a necklace of rhinestones, a gift of the groom.

Miss Dolores Deirschke, niece of the groom, was maid of honor and wore a dress of green brocaded marquisette and lace. She carried a bouquet of yellow carnations.

Miss Virginia Gruber, niece of the groom, was bridesmaid and wore a gown of pink brocaded marquisette trimmed in lace. Her bouquet was pink carnations.

Calvin Steinbach was the best man and Frank Steinbach was

Guild Members Meet On Monday With Miss Dingus

Miss Merle Dingus was hostess to the Wesleyan Service Guild last Monday night when it met in her home. Co-hostess was Mrs. Joe Bailey King.

The Guild has been discussing the study of "Women of the Bible" and Mrs. C. P. Baker reviewed the book and brought it up to date with a quiz after which Rev. Butler gave the last

usher. Following the ceremony a reception was held at noon at the home of the bride's parents for relatives and friends.

For traveling, Mrs. Halfmann wore a spring gaberdine suit with black accessories and a corsage of red roses. After a two-weeks wedding trip, the couple will be at home on their farm near Rowena.

Out-of-town relatives attending the wedding were: Mrs. Raibina Halfmann, Mr. and Mrs. Otto Stinbach and daughter, Mr. and Mrs. Arthur Halfmann, and sons, all of Rowena, Mr. and Mrs. Ed Kuhler and family of Pep, Mr. and Mrs. Otto Dierschke and family of San Angelo, and Mr. and Mrs. Frank Gruber and family of Ballinger.

Munday Girl To Participate In Annual TSCW Stunt Nights

Texas State College for Women's annual stunt nights are scheduled for March 3-4 and participating in the sophomore stunt will be Miss Charlotte Anne Williams, daughter of Mr. and Mrs. P. V. Williams, Munday.

The inter-class competitive event began with a circus frolic by the "Middlers" class at TSCW some 36 years ago. It became all college in 1938 when a silver loving cup was presented for the first time to the winning class.

Stunt themes vary from musical to heavy dramatic, abstract to realistic ideas. Many times original musical scores are incorporated into the plot and specially designed costumes, sets, and lighting effects give the impression of professional productions to the twenty-minute skits.

Mrs. J. O. Tynes returned home Saturday from Springtown where she had been visiting relatives or several weeks.

IT PAYS TO ADVERTISE

Refreshments of frosted drinks were served by the hostess to the following:

Rev. and Mrs. R. L. Butler, Mrs. Levi Bowden, Mrs. I. V. Cook, Mrs. J. C. Harpham, Mrs. R. H. Hicks, Mrs. Oscar Spann, Mrs. C. P. Baker, Mrs. A. H. Mitchell, Miss Ruth Baker and Miss Florence Gaines.

The next meeting will be held in the home of Mrs. A. H. Mitchell on March 13th.

Improper roof and ground drainage are chief causes for failure in farm buildings. Keep water away from the foundations and the parts of the buildings near the ground.

Farm buildings require management along with maintenance and the more uses that can be made of the structures the more profitable they are for the farm business.

FIELD SEEDS

Get your planting seed now! There is going to be a shortage this year.

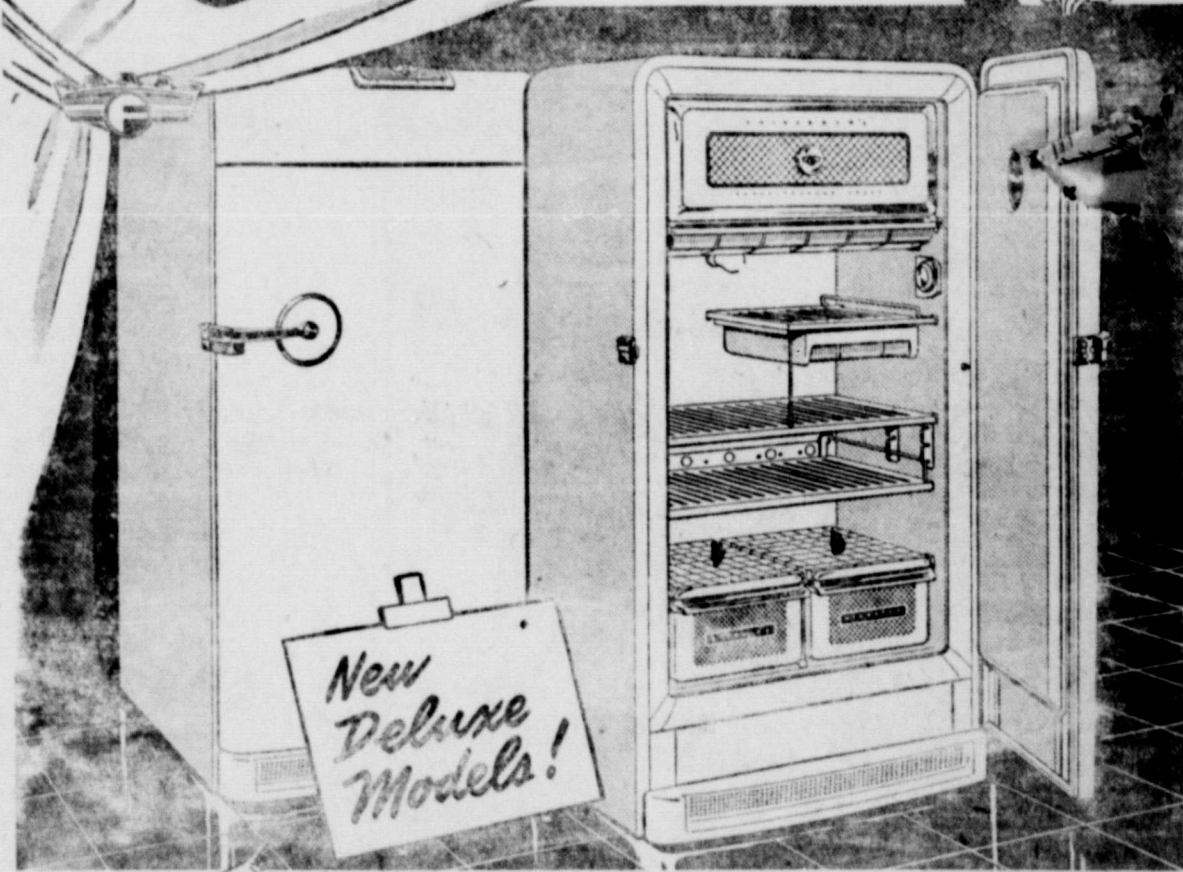

We have all the popular seed for this territory.

If we do not have what you want, we will get them for you. We handle only the very best.

The FARMALL House

Washington News Letter

By Congressman Ed Gossett

WASHINGTON, D. C., Feb. 24. As predicted in last week's newsletter, the House this week passed the so-called Fair Employment Practices Commission bill, FEPC. The Washington Star headline read: "House Passes Feckless FEPC Bill". While the bill passed by the House was a milk toast affair, it is exceedingly dangerous. Once a Fair Employment Practices Commission is created, it will in some way or another acquire teeth. The agency would be staffed by negroes and radical members of minority groups. They would write administrative rulings and administrative orders and would acquire in one way or another more and more power. The agitation for this legislation has from the beginning been fomented by agitators and trouble makers. The philosophy back of this legislation is totally absurd. It assumes first, that all people alike and equal. It assumes secondly, that any segregation is discrimination.

While some good people, of course, favor FEPC, it is curious to note that every communist in America enthusiastically supports such legislation and of course all of the left wing organizations strongly endorse the movement. When we reach the point where we dictate to a person whom he shall hire and fire, what he shall pay, how and under what conditions promotions are to be made then, our free enterprise system will be as dead as the dodo. What we have left might be called democracy but it will not be distinguishable from communism.

In this connection, we might note that the Solicitor General of the United States, i. e., the attorney who represents the Department of Justice in matters before the Supreme Court and the Congress, Mr. Philip B. Perlman, is a strong advocate of FEPC. Mr. Perlman is the gentleman primarily responsible for the recent executive order outlawing segregation in public housing projects. He has recently filed briefs in the Supreme Court asking the Court to hold "separate but equal" facilities in Interstate Commerce to be unlawful. His most recent brief is one he filed in the Sweatt case. The Sweatt case, you will recall, comes from Texas. It's the case where a Negro by the name of Sweatt tried to enter the University of Texas. Although this suit is between Texans and no official business of Mr. Perlman, he interjects himself into the case and files a brief in which he asks the Court to outlaw all segregation in Texas schools. These reds, the professional do-gooders, and many misguided idealists contend that even though Negro schools are better and superior to white schools, they still constitute discrimination and should be outlawed. They seek to mongrelize, if not to bastardize Americans. They do not recognize racial pride and purity as a virtue, but rather condemn it as a vice. In my opinion, Mr. Perlman is a dangerous wolf in sheep's clothing. If he were absolutely

1950 MAID OF COTTON

Nineteen-year-old Elizabeth McFee, of Spartanburg, S. C., a charming hazel-eyed Southern belle, is the 1950 Maid of Cotton. The pretty brunette Maid was selected from a group of several hundred Cotton Belt beauties to make a 40,000 mile tour as King Cotton's fashion and goodwill ambassador. Beginning at Miami Feb. 6, her cotton travels will carry her to 35 major U. S. cities and to England and France before the tour concludes in June.

honest he would doubtless praise the Russian system of government. In one of his briefs he cites with apparent approval Russian writings and publications which condemn segregation. On this subject, a Baltimore congressman tells me that the colored children of the city of Baltimore have better schools and better teaching than do the whites. He explains this by saying that the highly skilled and highly educated negroes go into the teaching profession, whereas it is difficult to get a staff of white teachers who are equally well trained.

There is soon to get under construction, at Falcon, Texas, a gigantic dam across the Rio Grande river. This dam will be approximately 60 miles long and 150 miles above Brownsville. It is being constructed under a treaty agreement between our country and Mexico. It will cost between 40 and 50 million dollars. Mexico will pay 42% of the cost

and will get 42% of the water. It will have much to do with flood control and with a stable water supply for a substantial portion of the Rio Grande valley. My colleague, Congressman Lloyd Bentsen, of McAllen, tells me he has just introduced a bill for the relocation of six small towns that will have to be moved to make way for the new lake. These six small towns will be combined into one town under his bill which will provide funds for their removal. One of these towns is Zapata, the county seat of Zapata county. The present courthouse will be 10 to 15 feet under water when the dam is built and the lake filled.

666 GIVES FAST RELIEF
LIQUID OR TABLETS
when COLD
INFLUENZA STRIKE

New cases of the sweet potato internal cork disease have been reported by a few counties in east and central Texas. It is a virus disease and can be checked only by planting disease free plants. All bedding stock should be checked by slicing samples out of each lot. Look for hard, black, corky islands or streaks inside the potato. Don't bed diseased potatoes.

Lee Roy Bartlett, a 4-H boy, in Upshur county produced 149 bushels of corn from his measured acre.

Fryers and broilers are now in plentiful supply and recent price drops make them one of the best food buys. The lower prices will help the homemaker balance the family food budget and the increased consumption will help the producer.

The poinsettia can be planted in the yard after the danger of frost is past. Better protect from the sun by planting in a semi or shady area.

Make every day in 1950 a safe day on your farm.

Eggs are an excellent protein food. They are rich in vitamins A and D and also contain vitamin B. They supply iron and phosphorus. Both are needed to build strong teeth and bones.

The 1949 rice, wheat and grain sorghum crops in Texas were the second largest on record.

Beware Coughs From Common Colds That HANG ON

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back. **CREOMULSION** for Coughs, Chest Colds, Bronchitis

Care and management of your pecan trees is not complete without insect control. Even with the right variety growing in good soil, a pecan crop or the tree itself can be lost from attacks of controlled insects.

Feed Everything You Grow with this complete, balanced diet

Rites Held Friday For Knox City Man Killed In Gun Battle

Funeral services were held Friday for R. G. (Guy) Milford, 62-year-old cafe operator at Knox City, victim of a gun battle in an alley at the rear of his cafe last Thursday morning at about 1:20 o'clock.

Milford was instantly killed when struck down by a volley of six shots fired by Nightwatchman Lee Wampler, according to Knox County officers. It is reported that Wampler told officers that he opened fire after Mil-

ford had fired two shots. A gun found near Milford's body had also had been fired six times, officers said.

Murder charges were filed against Wampler early Thursday morning, officers said, and he was released after posting a \$5000 bond. Wampler received treatment at the Knox County Hospital for two flesh wounds received in the gun battle.

The shooting occurred as Mil-

ford was preparing to close the cafe, and Wampler was making his rounds of the block. According to reports, Wampler said he saw Milford stepping from the rear door of his cafe with a gun in his hand. He said he told him to hand over the gun, but instead he rushed for the back door and fired twice at the nightwatchman. Wampler said he then returned the fire, emptying all six compartments of his gun chamber.

Milford, a native of Union Grove, Alabama, was born Sept. 4, 1882. He is survived by his widow; a daughter, Mrs. Clarence Thompson of Knox City, and two sons, John Milford of Odessa and Bud Milford of Wichita Falls.

Funeral services were held at 3 p. m. Friday from the First Baptist Church in Knox City, with the pastor, Rev. R. G. Hartheck, conducting the services.

GLENNA MARGARET HAS A SISTER IN ILLINOIS!

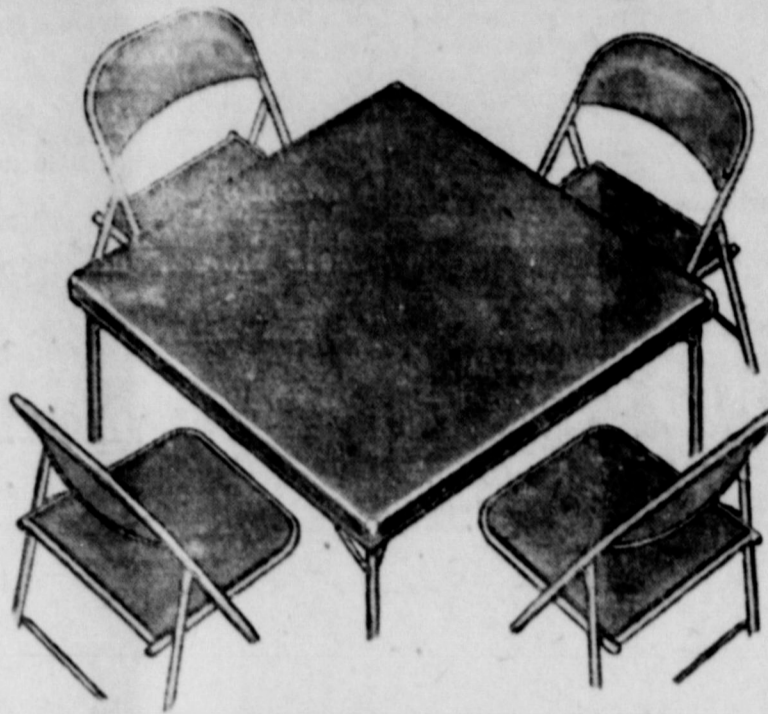

Word comes from Mrs. W. V. Tiner of Urbana, Ill., that Glenna Margaret Dyke, daughter of Mr. and Mrs. James Dyke, has a baby sister. She is very happy about her "Little Sisser" and is glad to help take care of her. The "little sisser" is Thelma Lane Dyke. She arrived February 8, weighing eight pounds and seven ounces. Her hair is dark and, Mrs. Tiner says, "We hope her eyes will be brown." As you probably guessed, the name Thelma is for Mrs. Tiner, and the Lane is for Mrs. Dyke's favorite uncle.

Visitors in the home of Mr. and Mrs. M. L. Raynes over the week end were Mr. and Mrs. Arnold Edwards and daughter, Dallas; Mr. and Mrs. Jiggs Edwards and daughter, Weinert; Mr. and Mrs. Frank West and children, Slaton; Mr. and Mrs. Clarence Boyles and son, Bisby, Ariz.; Hoot Edwards and Purd Edwards of New Mexico; Mr. and Mrs. Bruce Edwards, Weinert; Mr. and Mrs. Earl Tayntor, Wichita Falls; Mr. and Mrs. Don Johnson Lubbock; Mr. and Mrs. Felton Raynes and Mrs. H. L. Burnison of Munday and Mr. and Mrs. R. S. Edwards of Weinert.

The per acre corn yields for Texas in 1949 were the highest since 1919 and were 6.5 bushels per acre higher than the average for the past 10 years.

"Here's the tire I want!"

GOODYEAR

SUPER-SURE-GRIP TRACTOR TIRE

First choice for 2 reasons!

- 1. Deeper soil penetration — greater pull.** Goodyear's open center tread has straight deep-biting lugs. They cut cleanly into the soil, penetrate full depth, full length. Straight bars closer together at the shoulders wedge the soil for firmer grip—don't "plow out" soil at the sides.
- 2. Balanced straight lug tread design — longer wear.** Goodyear open center lugs are all straight, all equal in size and spacing. That's why every lug works equally, pulls fully, wears more evenly.

Goodyear Super-Sure-Grips don't cost a penny more. Get them for your tractor.
