The six men were Alvin Colement, Michael of Seymour; John Thomas Bowdoin, Vera; Lawton Richards, Vera; James Archibald Siddens, J.; Seymour; Jack Wair Gough, Seymour; and Bob Haynie, of Truscott.

The next physical examination call for Board No. 82 is for February 7, with a call for 38 boys. Registrants in this group are now being notified of some. Boys leaving on February 7 will go by charter bus to Amarillo for examination.

DEFENSE PRODUCTION ON THE FARM

Farmers of Knox County are way out ahead in fitting their farming operations into the nation's defense production, says J. C. McGee, chairman of the county PMA committee.

All indications are that in 1951 they will continue the ACP practices which stockpile soil fertility and potential production, the chairman believes. Instead of cutting into these reserves by needlessly plowing up sodland, farmers cooperating in ACP are planning to produce all that is needed and at the same time continue building up stockpiles of soil fertility.

BIG PAYROLLS BOOM HOME COTTON DEMAND

Knox County farmers have a big order from American consumers to fill in addition to the emergency demands. "Today's high record of employment and the biggest pay envelopes cotton consumers have ever had will be boosted again in 1951 by the National Defense Program," ACP Chairman J. C. McGee said today.

"Cotton farmers' business is growing cotton," said McGee. "With our armed forces and our emergency workers needing more and more of it, Knox County won't let them down."

Details For 4-H Calf Show Are Announced

Knox City will be host to the annual 4-H Club calf show on Saturday, February 10. County Agent K. O. Lewis this week reveals the following details of the show:

Thirteen calves will be exhibited this year, together with 15 fat hog exhibits. This is the first year that hogs have been exhibited in conjunction with the calf show.

Calves will be judged in three classes: junior, senior, and dry lot. Nine milk-fed animals will be shown, while four of the club members will show dry-lot calves.

Prices in each class will be \$20, \$17.50, 15, \$12.50, \$10 and \$10.

An additional prize of \$20 will be given for the grand champion calf, and \$15 for the reserve champion. These will be selected from the first place and second winners in each class.

The swine division will be divided into three classes: Duroc, Hampshire, and mixed breeds. Prizes will also be awarded for the grand champion and reserve champion hog.

Judging will be by Ray C. Mowrey, head of the animal husbandry department at Texas Tech, Lubbock. Mr. Mowrey has judged the Knox County show on prior occasions and is known to many Knox County people.

Activities of the day will consist of junior livestock judging contests between the Knox City 4-H Club, Benjamin, Knox City and Munday F. F. A. chapters.

Swine judging will be held Saturday morning, and the Knox City Lions Club will serve free lunch to the contestants, exhibitors and their parents.

Judging of the calves, selection of those to be shown in the Wichita Falls show, and the auction sale will be held in the afternoon.

Dear editor: I took a copy of the Fort Worth Press away from one of my steers yesterday, they must be using a saltier brand of paper these days or it may be ink, and

sat down on the sunny side of the barn and read where Washington has put a stop to lots of kinds of construction, to save materials for the defense effort.

Part of the article the steer already had beaten me to, but as I understand it, new construction has been banned for numerous kinds of businesses, and I want you to know Washington and I see eye to eye on this.

For years I been puttin off a lot of construction around my farm, for example there ain't a

## Enlistment Not Accepted After Induction Begun

AUSTIN—State headquarters for Selective Service and some local draft boards in Texas are being swamped with pleas of many young men of draft age to permit them to join the service of their choice after the induction process has begun.

"We are forbidden by law and regulation to permit enlistment in such cases," commented Brigadier General Paul L. Wakefield, state Selective Service director. "We have no authority to act favorably on such requests."

The state director said that Section 15 of the Selective Service law states that no person shall be accepted for enlistment after the induction process is once started.

"This prohibition against enlistment has been interpreted by the Department of Defense to mean that no person shall be accepted for enlistment after he has been notified to report for armed forces physical examination by a Selective Service local board," General Wakefield said.

Local draft boards were advised of this interpretation by official publication under date of November 15, 1949, and the official advice has been in force and effect since that time.

Before order to report for pre-induction physical examination is issued there is no prohibition of any kind against the enlistment of any man registered with a draft board.

"If the individual is acceptable to the service concerned, he can be enlisted before he gets his order for physical," General Wakefield said. "Under such circumstances, there is no need to consult the local board, as the permission of the board is not required."

"If the man waits until the physical notice is mailed, then it is too late. The draft board cannot, because of the prohibition against it, release the man to join a service of his preference," the state director concluded.

Recruiting stations of the different armed services ask men of draft age to sign certificates that they have not received orders for pre-induction examination. Those who sign false certificates can be discharged for fraud and then inducted.

**Gloria June Elliott  
And Jimmy Bell  
Marry January 19**

Miss Gloria June Elliott daughter of Mrs. Evelyn Elliott, became the bride of Jimmy Bell, son of Mr. and Mrs. Jim Bell, on Friday evening, January 19, at 7:15 in the home of Rev. E. L. Butler, pastor of the First Methodist Church, with Rev. Butler officiating.

The bride wore a navy dress with white accessories. For the traditional "something old and borrowed" she wore a ring of her mother's; "something new", a necklace from the groom, and her dress was the "something blue."

Miss Billie Jean Tuggle was bridesmaid, also wearing a navy dress and white accessories, and the best man was Troyce Raynes.

Eugene Howard attended the service.

After the ceremony the couple took a short wedding trip to Wichita Falls, and other points of interest in Texas, returning to Munday where they plan to make their home.

Mr. Bell is now employed with his father at the Bell and Bell Blacksmith Shop.

**Gaston Welborn

**Delores Bodkin And  
Cooper Rutherford  
Wed In Lubbock**

In a double ring ceremony, read at 8 o'clock on the evening of January 12th, in the Parkdale Baptist Church in Lubbock, Miss Dolores Bodkin, daughter of Mr. and Mrs. C. D. Bodkin of Olton, became the bride of Cooper Rutherford, son of Mr. and Mrs. Walter Rutherford of Munday.

Reverend I. D. Walker performed the service before an altar decorated with palm and basket arrangements of white gladioli. White cathedral tapers in tall candelabra lighted the scene.

Misses Bobbie and Gloria Bodkin, sisters of the bride, lighted the candles. Mrs. H. Weise of Lubbock, pianist, played "Sous-vin", "I Love You Truly" and accompanied Miss Vera Kinkler as she sang "Because". The traditional wedding marches were used.

The bride given in marriage by her father, wore a white wool crepe dress with navy and white accessories and carried a white Bible topped with a bouquet of red roses. She observed the bridal tradition of wearing "something old, something new, something borrowed and something blue."

Miss Betty Hall, maid of honor, wore a beige lace dress with navy accessories and carried a nosegay of pink carnations.

Carl Yates of Lubbock served as best man. Ushers were Derwood Forehand and H. L. Yandell, both of Lubbock.

At the reception which followed the ceremony in the home of Mrs. H. Weise, the table was laid with a lace cloth and center-

## 2,778 Cases Of Polio In Texas During 1950

AUSTIN—Texas wound up 1950 by setting a grim new record in polio incidence—2,778 cases for the year.

Never before in state history have so many cases been reported during the 12-month period. Eight cases occurred during the last week in December. That in itself is significant, for not a single week passed that didn't see at least one case of the so-called hot weather disease being diagnosed in some part of the state.

The total incidence of the dread disease reached 2,355 cases, establishing a record up to that time. But there were 53 weeks in 1949 instead of the normal 52, and that figure includes cases occurring all 53

## Nothing Better Than Good Food, Says Ohio Man

If a man isn't able to eat the foods he likes he's in mighty sorry shape—imagine going through life without being able to enjoy a fine big platter of bacon and eggs. That is the way Joseph N. Damillot, 3414 E. 5th Street, Dayton, Ohio, used to be, but since he has been taking HADACOL, he says he feels just fine and is able to enjoy lots and lots of fine foods. Mr. Damillot found that taking HADACOL helped his system overcome a deficiency of Vitamins B, B<sub>12</sub>, Niacin and Iron.

Here is Mr. Damillot's statement: "My first bottle of HADACOL convinced me that HADACOL was what I needed for the gas on my stomach at nights. I could not keep food on my stomach, but after the first bottle I was going great. Now I eat bacon and eggs, and other foods that never would stay with me. I also can sleep well at nights. Thanks to HADACOL I will never be without it, and can recommend it to all who suffer with the above ailments that I had. I know because I have suffered for quite some time."

## Cover Crops Protect Land From Erosion

This is the time of the year to be thinking about the necessity of cover on the ground to protect the land from wind and water erosion that will occur this spring following rain. It is very necessary, believe the Supervisors of the Wichita-Brazos Soil Conservation District that all maize and cotton stalks remain on the surface of the soil and that all tillage be performed with a chisel at this time of the year.

Moldboard plowing is not a

dicted that 3,000 cases would be diagnosed before the year ended. He missed his estimate by 222.

Twenty-eight counties had 20 or more cases; ten had more than 50 cases; six had more than 100 cases; and three counties—Dallas, Harris, and Tarrant—had more than 200 cases each. Those three areas represent the most populous regions in Texas.

Early in the polio season, Dr. Cox pledged the facilities "of the entire State Department of Health" to local communities in combatting polio. The health agency's laboratory and field personnel, working in cooperation with civic organizations and local health units, were credited with keeping the epidemic from reaching even greater proportions.

State health department death records show 210 polio deaths through the first 11 months of 1950, and 192 deaths from that cause during all of 1949. Complete death figures are not yet available for December, a department spokesman said.

good practice for the land, believe the Supervisors. Yields may be increased the first year, but will return to normal in a year or two and then fall below the normal thereafter. The planting of soil conservation crops in the fall of the year is very necessary to hold the land from blowing and to build up the badly needed organic matter. The practice of plowing with a moldboard plow is a great factor in the rapid deterioration of plant food.

Land that is subject to severe wind erosion each spring should be retired to a permanent cover of perennial grass, believe the board. The grass seed drills that belong to the district are now being used by cooperators to plant grass. Technicians of the Soil Conservation Service are assisting these cooperators carry out this part of their conservation plan.

the Railroads **RESPECT...** What is the **TRUTH?**

the Labor Unions **REPUDIATE** this agreement!

At various states in the present dispute with the brotherhoods of railroad operating employees... the railroads agreed to arbitrate. The union leaders refused. ... the railroads accepted the recommendations of President Truman's Emergency Board. The union leaders refused. ... the railroads accepted the White House proposal of August 19, 1950. The union leaders refused. Finally an Agreement was signed at the White House on December 21, 1950. Now the union leaders seek to repudiate the Agreement. The railroads stand ready to put the terms of this Agreement into effect immediately, with back pay at the rate and date indicated. The Agreement is given in full below.

MEMORANDUM OF AGREEMENT  
Washington, D. C.  
December 21, 1950

- Establish 40 hour week for yardmen with increase of 23 cents effective October 1, 1950, and additional 2 cents effective January 1, 1951.
- Set aside 40 hour week agreement until January 1, 1952, and establish 6 day work week for yardmen. Effective with the first pay roll period after 30 days from the date of execution of the formal agreement, yardmen required by the carrier to work on the 7th day to be paid overtime rates except engineers who shall receive straight time rates for the 7th day. This does not create guarantees where they do not now exist. On and after October 1, 1951, three months' notice to be given of desire to go on 40 hour week. Provide for consideration of availability of manpower and 4 cents per hour if and when the 40 hour week actually becomes effective.
- Settle rules for 40 hour week and 6 day week.
- Grant yard conductors and brakemen other rules such as daily earnings minimum, car retarder operators and footboard yardmasters as recommended by Emergency Board No. 81.
- Settle following rules: Initial Terminal Delay (Conductors and Trainmen) Interdivisional Runs Pooling Caboose (Conductors and Trainmen) Reporting for Duty More than One Class of Service Switching Limits Air Hose (Conductors and Trainmen) Western Differential and Double Header and Tonnage Limitation (Conductors and Trainmen, all Territories)
- Road men to receive 5 cents per hour increase effective October 1, 1950 and additional 5 cents per hour increase effective January 1, 1951.
- Quarterly adjustment of wages on basis of cost

of living index (1 point to equal 1¢ per hour. First adjustment April 1, 1951. Base to be 176).

- Agreement embodying principles applicable to yardmasters to be entered into for benefit of yardmasters.
- Effective October 1, 1950, the basic hours of dining car stewards shall be reduced from 225 to 205 hours per month; no penalty overtime to accrue until 240 hours have been worked, the hours between 205 and 240 to be paid for at the pro rata rate.
- Effective February 1, 1951, overtime at time and one-half shall accrue after 220 hours have been worked. The basic monthly salary to be paid for the 205-hour month shall be the same as that now paid for the 225-hour month. Except that four dollars and ten cents (\$4.10) shall be added to the present monthly rate effective January 1, 1951.
- In consideration of above, this agreement to be effective until October 1, 1953, and thereafter until changed or modified under provisions of Railway Labor Act. Moratorium on proposals for changes in wages or rules until October 1, 1953, as follows:  
No proposals for changes in rates of pay, rules or working conditions will be initiated or progressed by the employees against any carrier or by any carrier against its employees, parties hereto, within a period of three years from October 1, 1950, except such proposals for changes in rules or working conditions which may have been initiated prior to June 1, 1950. Provided, however, that if as the result of government wage stabilization policy, workers generally have been permitted to receive so-called annual improvement increases, the parties may meet with Doctor Steelman on or after July 1, 1952, to discuss whether or not further wage adjustments for employees covered by this agreement are justified, in addition to increases received under the cost of living formula. At the request of either party for such a meeting Doctor Steelman shall fix the time and place for such meeting. Doctor Steelman and the parties may secure information from the wage stabilization authorities or other government agencies. If

the parties are unable to agree at such conferences whether or not further wage adjustments are justified they shall ask the President of the United States to appoint a referee who shall sit with them and consider all pertinent information, and decide promptly whether further wage increases are justified and, if so, what such increases should be, and the effective date thereof. The carrier representatives shall have one vote, the employee representatives shall have one vote and the referee shall have one vote.

- If the parties cannot agree on details of agreement or rules they shall be submitted to John R. Steelman for final decision.

The usual protections for arbitrators, miscellaneous rates, special allowances, and existing money differentials above existing standard daily rates will be included in the formal agreement.

The foregoing will not debar management and committees on individual railroads from mutually agreeing upon changes in rates, rules and working conditions of employees covered by this agreement.

## GOOD YEAR SUPER-SURE-GRIP TRACTOR TIRE

First choice for 2 reasons!

1. Deeper soil penetration — greater pull. Goodyear's open center tread has straight deep-biting lugs. They cut cleanly into the soil, penetrate full depth, full length. Straight bars closer together at the shoulders wedge the soil for firmer grip — don't "plow out" soil at the sides.
2. Balanced straight lug tread design — longer wear. Goodyear open center lugs are all straight, all equal in size and spacing. That's why every lug works equally, pulls fully, wears more evenly.

Goodyear Super-Sure-Grips don't cost a penny more. Get them for your tractor.
