

ALL STUDENTS TO ENROLL HERE MONDAY

Expect Large Group at Rally Next Wednesday

SALES BARN TO BE COMPLETED BY NEXT WEEK

Has 30 Pens for Livestock; Interest is Growing

Construction was being pushed this week on the new community sales barn to have it ready for the first sales day, set for Tuesday, Sept. 20. It is expected to be finished by next Wednesday.

About 30 pens are being built for livestock with several additional pens to the south of the barn, especially for hogs.

Committees are busy here, making arrangements for the opening and advertising the project, and one of the largest crowds ever gathered here is expected on the date of the first sale.

The barn is 40 by 60 feet, and is being furnished with comfortable seats for those who attend the sales. "We are trying to make things as comfortable as possible for the people, and are making a special bid for wives of the farmers to attend, also," C. R. Elliott, one of the directors, told The Times. Seats are not of the bleacher type, but are solid all the way back and should be an especial inducement for women to attend, as well as the men.

Final arrangements as to leasing and selection of an auctioneer had not been completed Thursday morning, as the committee is carefully considering each step, before entering into contracts with anyone, it was said. Leasing was expected to be settled by the weekend, and a full announcement will be made in The Times next week.

Local Schools Are Highly Accredited

The standardization of the Munday Schools is a constant process which began in 1920, according to Superintendent J. Horace Bass. At that time the high school was housed on the third floor of the old elementary school. Beginning with that year, the work of the high school became accredited, subject by subject, from year to year. By 1923 the school's graduates were admitted to colleges and universities of the state.

At the present time the high school is rated as one of the most effective ones in the state, Dr. Bass said. The courses total 26 accredited units. Home economics was added in 1929 and the school now offers three credits in that field. Business courses were the last to be added to the curriculum and in the last session a two-credit course for seniors was offered.

The commercial department will open with nine new typewriters in addition to four machines that have been in use for two years. The school requires a fee of \$5 each semester from students taking typing, but this is still one of the most popular courses. Other business offerings are bookkeeping, business arithmetic, and business law.

No new courses are to be given for the coming session, the superintendent said.

Mrs. Lowry To Serve School Lunches

Mrs. Phil Lowry will again serve noon-hour lunches at the local public schools, it was announced by Supt. J. Horace Bass, Tuesday. This is one of the most indispensable services offered in connection with the Munday schools, the school official said, and it is expected to grow in service this year.

The lunch room was moved to a site at the rear of the elementary school building last year. Under the direction of the local Parent-Teachers association it was renovated and modernized, and wholesome meals will be served at a minimum of cost.

Mr. and Mrs. W. A. Campbell of Roaring Springs visited Mrs. G. C. Spann and other relatives over the week-end. They formerly were pioneer citizens of this section, having been in business here for a number of years and are well known to a large host of friends.

Mrs. J. F. Bolander, of San Angelo, was here to attend the funeral of Clint Bolander. She visited friends until Thursday, when she returned home.

Crutcher Cole, Game Warden, Here Saturday

Game Warden Crutcher Cole of Vernon was here Saturday checking over matters pertaining to his official duties.

Warden Cole reports everything in good shape in his district at this season and informs a Times reporter that dove and quail are more plentiful than in previous years. This perhaps is due to the very favorable season during the past few months, with an above average rainfall which naturally affords plenty of water and abundant feed for the birds.

Warden Cole's district covers five counties, namely: Knox, Foard, Baylor, Wilbarger and Hardeman.

4-H Boys Report Calves in Fine Shape for Show

Plans are going forward in a big way for the annual calf show which is to be held at Knox City in February, W. W. Rice, county agent, said this week. Calves are showing fine gains and competition bids fair to be keen among the several farm youths of the county who will exhibit steers at the coming event.

Joe Dean Clough, of Munday, has one Hereford calf and an Angus calf, and he is reported to be doing a good job with his two wards. The Hereford is from the Hamilton ranch at Benjamin, and gained 80 pounds during the month of August—which is nearly three pounds per day. The other calf is from the T. B. Masterson ranch at Truscott and this calf gained 110 pounds during the month, a remarkable gain, according to stock raisers.

Robert Schumacher of Rhineland is feeding two Angus calves from the Masterson ranch. Robert has not been able to weigh his calves to date but Mr. Schumacher, Sr., complains that the calves are taking care of his surplus grain crop nicely. The calves have already been fed 1,000 pounds of grain.

Arnold Koenig, also of Rhineland, is making a good showing with his Angus calf. Billy Robinson of Goree, is feeding a Ben Hunt Hereford calf. He is doing a good job. Other boys feeding calves are Bobbie Armstrong, Knox City, two calves; Junior Montandon, Knox City, one calf; Lowell Cure, Gilliland, two calves; Hope Bratcher, Finis Bratcher, Wade McGuire, Charles Roberson, Bobby Roberson, all of Vera, one calf each, and Joe Wayne Roberson, Elton Scott, and Gaylon Scott, of Vera, two calves each, and Darwin Shipman of Vera, three calves.

County Agent Rice tries to visit each boy once a week and looks over the calves at least every two weeks to see that they are making the proper progress. Mr. Rice predicts an unusually good show this year and reports that much interest is being shown.

Broach Hardware Co. To Give Demonstration

Announcement is made, on another page of this issue, of a free demonstration of the new McCormick-Deering hammer mill, to be given by Broach Hardware company at Munday Saturday afternoon.

The new mill is the No. 10 type and is described by the manufacturer as the very latest type of feed grinder. Farmers and feed raisers everywhere are invited to see this machine in action at the adjoining lot to the Broach Hardware on the afternoon of September 10th.

All's "Fair" in Love And Fairs

New York, Sept. 8.—Facilities for attending to every medical emergency, from a finger scratch to childbirth, will be provided at the New York World's Fair in 1939, bulletin received this week states. There will be 10 first aid stations on the grounds, a large corps of physicians and nearly 100 nurses, 10 ambulances and a mobile X-ray truck.

Editor's Note: Who will be the first "fair" baby?

Mogulettes To Be Feature of Rally Sept. 14

Girls of the local school pep squad will not be outdone next Wednesday at the community-wide rally, by the football boys in their new uniforms—and under Munday's new night-lights at the football stadium, for the flashy young misses are expected to be on hand in full force and new uniforms to fill their part of the big program being planned.

Plans were partially completed last week for the big celebration but it was learned this week that the pep squad will be organized and ready to go, after a period of slight uncertainty.

Everyone is urgently requested to attend this dedication celebration of the newly-lighted field. Festivities are scheduled to open up with a chicken barbecue (with all the trimmings) at 8 o'clock, and following that will be a short program, with Frank Kimbrough, head coach of Hardin-Simmons University, as main speaker. Coaches from Haskell, Hamlin, Anson, Stamford, and Albany are expected to attend, as will superintendents and other school officials from most of these schools.

Munday is facing one of the most promising football seasons in history this year and the celebration next Wednesday should be a big end-off for a big team, which will meet Seymour in that city for their initial contest, two days after the Wednesday night event.

Fires Monday and Wednesday Result in Slight Loss

Resuming its activity of the past two weeks, the Munday fire department answered two calls which resulted in any great loss from fire. The first alarm was to a residence of Mrs. W. E. Hammack in the southwest part of the city, and was the result of a gas explosion in a wash house early Monday morning. The fire was well under control by the time the department arrived, and the booster unit of the pumper was used to finish the fire. Damage was slight.

Wednesday morning at eleven o'clock the department responded to a call from the Jack Mayes residence to find that a trash fire had ignited the back fence at that place. The booster unit was all that was required to extinguish the fire.

Weather Report

Weather report for the week ending September 7th, 1938, as recorded and compiled by H. P. Hill of the Munday Cottonoil Company.

	LOW	HIGH
1938 1937		
Sept. 1--71	68	97
Sept. 2--70	71	95
Sept. 3--69	72	94
Sept. 4--70	71	91
Sept. 5--71	73	93
Sept. 6--72	71	95
Sept. 7--72	71	95
Rainfall this week, .60 inches.		
Rainfall this year, 22.64 inches.		

Plan Trench Silo Demonstration

A trench silo demonstration will be held at the farm of August Schumacher, located one-half mile north of Rhineland, Thursday, Sept. 15, at 9:30 a.m., announced Walter Rice, County Agent.

Mr. E. R. Eudaly from the Extension Staff at College Station will assist with the demonstration. All farmers in Knox County are invited to attend this demonstration as Mr. Eudaly is considered an authority on trench silos in the state.

New Lunch Room Opens Here

A new lunch room will be opened to the public Saturday morning in the building one door west of the Atkinson food store.

Fixtures the being installed this week by Mr. Bane, formerly of Graham, and he plans a complete dining service, he said this week. It will be known as the Bane Lunch Room, and the formal announcement of the opening appears elsewhere in this paper.

Clint Bolander Called by Death At Home Sunday

Death came unexpectedly and a quite a shock to his many friends in this county when Clinton Bolander passed away at his home, 1½ miles south of Munday, at 3:10 a.m., Sunday, Sept. 4. He is believed to have been the victim of a heart attack, following a near heat prostration on the day before.

Clinton Elmer Bolander was born September 6, 1878, at Brownwood, Texas, and was 59 years, 11 months, and 28 days of age. When only a young boy he came with his parents to Knox County and his residence here dates back to 50 years or more, during which time he became well and favorably known to a large host of people in this section. Mr. Bolander was one of the county's pioneer citizens and had led an active life up until the last few years when his health began to fail. He was engaged in farming.

Surviving Mr. Bolander are his widow, Mrs. Lula C. Bolander; one daughter, Miss Leota Bolander, Amarillo; two sons; Jack, of Amarillo, and Clifford, of Graham; and seven brothers: John Bolander, Crosbyton; Willis, of Wynnewood, Okla.; J. G. and Harry, of Reno, Nev.; Frank, of Oak Grove, Ore.; George, of Pampa, and Sterling Bolander of this city.

Funeral services were conducted at the local First Baptist Church Tuesday afternoon at 2:00 o'clock by Rev. W. H. Albertson, pastor, with Mahan Funeral Home in charge of arrangements. Interment was in Johnson cemetery. Pallbearers were E. B. Bowden, J. B. Reneau, S. J. Warren, J. J. Keel, J. A. Reed, and C. L. Mayes.

Piggly-Wiggly Formal Opening Is This Weekend

Munday's newest grocery firm, the Piggly-Wiggly store, will be hosts Friday and Saturday, on the occasion of their formal opening, to a novel get-acquainted party and sales campaign when they will officially open for business here.

Announcement is being made this week, in the form of a two-page advertisement, and extra salesmen have been busy for several days getting stocks and fixtures arranged.

Free candy will be on hand for the kiddies, and coffee will be served to grown people, Virgil Reynolds, manager, said this week. In addition the store will give away two tons of sugar, and the meat department has a large consignment of mayonnaise salad dressing intended for free distribution to the visitors on these two days.

Mr. Reynolds, associated with his father, R. J. Reynolds, in the ownership of the Munday and Haskell Piggly-Wiggly stores, came here two weeks ago and purchased the stock, fixtures and goodwill of the former store, and with an added force including Ed Poytk and Ralph Loran, who were connected with the other store, has been busy since, making preparations for the opening date.

"There will be music all day and a good time for everybody," Mr. Reynolds said. "Everyone is invited to join in the celebration and to trade where they can save money on groceries and fresh and cured meats." The market equipment is all new and of the latest design, and fixtures throughout the store have been arranged so as to make shopping easier and a pleasure to housewives.

Mr. Reynolds has established his home at the Clarence Eiland place and expects his wife and two children, Robert Bruce, age four, and Chris, 15-months-old son, to arrive early next week.

State Police Urge Safe Driving

Austin, Sept. 8.—Auto clinics conducted by state police are testing 2,000 cars daily for mechanical defects which might contribute to traffic accidents.

Homer Garrison, Jr., assistant state police director, said modern equipment is being used by two units of state patrolmen in searching for defective horns, brakes, lights, wheels and windshield wipers.

He explained that the intent of the officers is to have the faults corrected rather than bring charges against drivers. The clinics, in co-operation with local officers, operate on schedules of from two to five days in Texas towns and cities.

Leland Hannah of Eiland drug store, was in Dallas Thursday transacting business.

16-Year-Old Boy Terraces 1337 Acres

Earl Bratcher, a 16-year-old 4-H boy, of Vera, is taking his work seriously and as a result, has established a local—if not a state record, to date.

Bratcher has terraced 1337 acres of land and contoured 436 more in Knox County.

In January, County Agent W. W. Rice had more calls for terracing than he could take care of. C. W. Russell called him to run terrace lines on the farm where young Bratcher's father was making a crop. Earl helped the agent lay off the lines and made such an unusually good hand that he was given more instruction in terracing and as a result was hired by neighbors to lay off their terrace lines.

His achievement is considered a remarkable achievement for a youth of his age.

Moguls Getting Into Condition For Initial Test

Two stiff workouts daily and skull practices interspersed, is the program being followed by Coach Billy Cooper for his band of 20-odd youngsters who would carry the proud banner of M.H.S. to victory on the gridiron this fall.

An average of 20 are showing up each session, the mentor told a Times reporter this week, and are catching on. He is stressing kicking and has vacancy right now for a cub or two who can toss a pass. But the boys are taking football seriously, and they have decided to take the first tilt, with Seymour by a margin of something like 20 to 12. Cooper does not promise anything, but he knows how it ought to be done and The Times believes he has a squad in the making who will do it.

"I'm building a team for next year," Coach Cooper said. "We hope to have a good season but it takes time to build a good machine, and I don't know what they will do until they are seasoned."

NO LIONS LUNCHEON NEXT WEDNESDAY

There will be no regular luncheon of the Lions Club next Wednesday because of the chicken barbecue and program which has been planned for that evening at the newly-lighted football field. All Lions are urged to attend that event, which will begin at 8 p.m.

PRIZES OFFERED STUDENTS FOR ESSAYS ON LAND CONSERVATION

All Students in County Invited to Try For \$37 Prizes

Every school student in Knox county will be invited to compete in the essay writing contest on the subject, "History of Soil and Water Utilization in Knox County Prior to January 1," according to plans worked out by the local conservation committee in a meeting here Monday morning. Prizes of \$37 will be given for the best essays.

The local Soil and Water Conservation Commission met to discuss the contest being sponsored by the West Texas Chamber of Commerce wherein \$1,000 in prizes is to be given by that organization early in 1939 for the best history of soil and water conservation sent in. These prizes are to be divided into three groups: \$500 first prize, \$300 second prize, and \$200 third prize, and the money is to be used by the winning counties in the furtherance of the 4-H Club program and work.

Local Prizes Offered

The Knox county committee, in an effort to complete local records on terracing and land conservation, announced the county-wide essay contest to be held through the various schools. Students will be urged to gather all available data from parents and nearby farmers and to give a comprehensive history in 500 words or more. Individual schools will select the two best essays from the group and submit them to the county committee.

In each commissioner's precinct a first and second selection will be awarded prizes of \$5.00 and \$3.00 respectively. In addition, the best of the four first submitted will receive a further award of \$5, for the best in the county, the committee announced.

Students will be urged to compile all possible information relating to soil and water conservation and may seek the help of anyone in getting details. However, competing students will be required to write their own stories. The project is planned in an effort to make farmers "terrace-conscious,"

Hendrix Family Invited to Take Part State Fair

Mr. and Mrs. J. A. Hendrix of Munday, who recently celebrated their golden wedding anniversary, have been invited to participate in "Golden Wedding Day" at the Golden Jubilee Celebration of the State Fair of Texas.

Invitation to the couple has been sent out by Otto Herold, president of the State Fair of Texas, who announced that Saturday, October 22, has been designated Golden Wedding Day. Couples throughout Texas and the Southwest will be invited to participate in the celebration.

In addition to those celebrating their golden wedding days this year, the invitation will be extended also to those couples who are celebrating anniversaries of more than fifty years of married life.

Complete plans for the day have not been worked out, but each couple invited to participate will be mailed passes to the Golden Jubilee Fair, at which time a complete program will be announced.

Legion to Meet Tuesday Evening

Next Tuesday evening, at the regular meeting of the local American Legion, an election of officers will be held for the coming year, according to Jim Reeves, post commander.

It is desired that there will be a 100 per cent attendance of members as this is one of the most important meetings of the year, Mr. Reeves said. The meeting will be in the Legion hut.

Hotel Munday Has New Owner

Announcement was made this week of a change in ownership of the Munday Hotel, wherein Ed Dye becomes the new proprietor.

Mr. Dye has lived here for a number of years, having operated a filling station here for the past several months. He and Mrs. Dye are remodeling the interior of the building and refurbishing the rooms. The change became effective on September 4 when he purchased the interest of O. A. Brown, who has moved to San Saba.

650 EXPECTED TO REPORT AT NINE O'CLOCK

More Than 100 Rural Pupils Will Be Enrolled

Munday public schools will open their doors to approximately 650 students next Monday morning at 9 o'clock when enrollment is to be made for the coming term. Of this number, about one-fourth are expected to enter high school and the others will be classified in the elementary grades. Slightly more than 100 will come by bus from Hood and Washburn school districts which have contracted to send their students to the local schools again this year.

Supt. J. Horace Bass has called a meeting of the faculty for Saturday morning at 9 o'clock and it is expected that every member will be here by that time. Final plans for registering students and opening the work of the new session will be made at this meeting, Dr. Bass said.

W. E. "Billy" Cooper is the only new teacher for the 1938-39 session and he will be in charge of the school's athletic program. Mr. Cooper was football coach at Cisco prior to his coming here and his qualifications are in line with the high standard of efficiency maintained in the local teaching faculty. Howard Cobb, who returns as instructor in business courses, will assist in athletic direction.

Pupils Urged to Register

All school students who expect to enroll in the Munday schools during the coming session are urged to report Monday morning for registration and classification, and texts. This includes those who will not be able to attend until later in the session. It will enable principals to estimate grade placements, teacher loads and textbook needs rather accurately for the entire year, Dr. Bass explained, and it will prevent delays for those who will not enter at the beginning of the semester.

Former students should bring book cards, and all new students and transfers should bring book cards and scholastic records from the last school attended. All students will be required to present certificates of successful vaccinations for diphtheria and smallpox.

The forenoon will be devoted to routine registration and the organization of classes and clubs. The afternoon will find the regular meeting of the classroom courses and assignments for the following day.

Lions Club Visits At Sunset School

Seventeen members and the sweetheart of the local Lions Club enjoyed a luncheon and sponsored a program at the Sunset school, six miles west of Munday, Wednesday noon. The visit was the first of a series of such visits planned by the club and took the place of the regular weekly luncheon here.

After a very enjoyable dinner, served by Miss Spragins' home economics class, the group repaired to the auditorium where school pupils were assembled, and the following program, under the direction of W. R. More, club president, was presented:

Song by Miss Wanda Williams. Novelty reading, by Billy Cooper, who had a letter allegedly written by Supt. T. W. Harber of the Sunset school. The contents of this letter caused much laughter among those present, and no little amount of surprise and confusion on the part of the writer.

Song, by Miss Gayle Reynolds. Reading, by Dr. J. Horace Bass, superintendent of Munday schools, who had a letter supposedly written by a student in the Sunset school.

Song, by Miss Reynolds. Tap dance, by Miss Jean Williams.

Following this a short talk was made by Mr. Moore and Mr. Harber voiced the appreciation of his school for the visit.

The program closed with a group singing of "The Eyes of Texas."

T. F. Fry Joins Times Staff

T. F. Fry, of Sherman, began work with The Times Monday morning as advertising manager and assistant editor. Mr. Fry has been connected with the Denison Herald for some time and is an experienced newspaper man, both in the mechanical and the editorial departments. Mrs. Fry, who is visiting relatives at Sherman, is expected here later in the week.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"

A Safety Yardstick

We do not profess to be expert in the field of traffic safety. There are those whose business it is to study the causes and cures of the automotive malady that takes a toll of some 40,000 lives a year.

But, inexpert as we may be, the proposal of the American Legion in Maryland and the District of Columbia to create in the Baltimore-Washington Highway a National Laboratory of Traffic Safety strikes us as being a simple, direct and eminently sensible procedure. Most importantly because it would serve as a medium through which to impress on the taxpayer, on you and me, our responsibility in demanding the type of highways which would give us at least an even chance. After all, the motorist isn't completely to blame.

The trouble, today, is that too many people know too little about too many national problems, and that includes the traffic problem. The public has no opinion as to what it should expect or demand in return for the huge gasoline and motor-vehicle tax it pays—what is practical and what isn't.

All sorts of remedies have been suggested. But what we need is a more complete understanding of the simple why, when and where. For example, everyone knows that adequate visibility is essential to safety. But we realize, too, that the lighting of a great proportion of our highways would be impractical. What we want to know is what type of highway, under what conditions, can be practically and economically lighted.

What the American public needs is some standard by which to judge what they are getting; some measurement of what can be done in this modern day to make highways safer than they are. Whether such a safety model, or yardstick, is located in this state or another is of no importance. The important thing is that we do need a national precedent and example for all to follow. From that point of view, there could be no more fortunate choice than the highway leading to and from the country's capital. And the idea, as Commander Bair of Maryland points out, is so fundamental that every state might well develop a model safety highway or highways. Why not have one of our own?

Likes to Pay Taxes

If we happen to have two-bits at the proper time, we'll see every movie in which Carole Lombard appears. We never were particularly fond of her, although she is one of the cleverest of the light-drama actresses. But she said some things about taxes last week (or is that another Hollywood publicity gag?) that put her in the same class with Plato, Benjamin Franklin and W. Lee O'Daniel.

Miss Lombard made \$397,575 last year—which sets her apart as the highest paid movie star of 1937. State and federal taxes claimed 84 1/2 percent of that amount, or \$397,575, leaving her \$67,425. Out of the latter figure, she paid a business manager, financed parties, publicity and a thousand and one other things incident to a screen star's career—things not of a personal nature.

So, after dividing her yearly fortune among tax collectors and other money eaters, Miss Lombard had \$20,000 or five per cent of the total, for her very own. That \$20,000 is probably worth little more than half that amount, as salaries go, in view of the manner in which movie stars are expected to live.

But Miss Lombard doesn't live as she is expected to live. For instance, she is building a new house, with a two-car garage attached, after living in a rented one for some time. The new one will cost her \$9,500 (cash). It has only two bedrooms, one for herself and the other for her cook, her only servant.

The United Press adds "In honor of her new home, with two-car garage attached, Miss Lombard has had her automobile—built by Henry Ford in 1935—repainted. That cost her \$30."

The startling thing about the whole matter is that Miss Lombard, when questioned about her reaction concerning taxes and other such expenses, said: "But I have no kicks at all. Fact is I'm pretty happy about the whole thing. . . . As for giving the government most of my income, I think that's fine. I enjoy this country. I like the parks and highways and everything this government does."

Yep, we'll go to see Miss Lombard's movie, and her next and her next, if for no other reason than that even a celluloid view of such a uniquely broad-minded person is worth two-bits.

There's Business Coming

Fall is about here. That usually means business will pick up. If the Munday merchant "gets on his toes" he can snare some of that business into his store. Otherwise, you'll loose out, and declare it to be one of the worst Falls faced in years, and you'll be crabbing at the town, country, and the Government in general.

Cotton yield is not to be quite as heavy as we anticipated. But it never is. There'll be cotton, however, and enough to insure a good Fall business.

Don't be hesitant about letting the people know what you have to sell. Sell your merchandise as reasonably as you can, yet make your profit, and stay in there and pitch! You'll benefit.

In spite of our depleted forests there seems to be plenty of timber for government bureaus.

Unfortunately, it's always the things we enjoy most that we have to give up to save money.

If you listen wistfully to the words of a popular song it's a sign you're in love.

The way some folks drive out on the highways one would think that they were just dying to get a glimpse of the pearly gates.

It's surprising what a little friendly advice at the right time will accomplish for some people.

THE MUNDAY TIMES

Published Every Thursday at Munday

In first zone, per year \$1.50
In second zone, per year \$2.00

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party politics, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

Schools Start Again

SUMMER is practically over. We know that because the local schools are preparing to begin their 1938-1939 terms. And with the opening of the local schools each year comes a change in the attitude of Munday and Knox county citizens along with the weather. A spirit of optimism prevails, especially during the Fall months, as it never does during other seasons of the year.

Merchants and their employees shake off an attack of summer lethargy and get to work. They feel and look a hundred per cent better. Perhaps it is football. The beat of drums, the starting whistle, colorful uniforms, 22 men down on the gridiron—it is exciting, something to look forward to, something to talk about. The monotony is broken and everyone is happy.

But football is not the only thing to mark the opening of our schools. It means that with September our children are a year older. They have made the grade of the year before and are ready to tackle the problems of the grade above. It signifies another milestone in the educational careers of our children, at least in the preparatory stage, upon which their future success depends to a great extent.

Not a small consideration is in the increased business school opening brings to local merchants, business and professional men and women. Retail establishments are rushed by students, gleefully making their purchases of clothing, supplies and other necessities for the school year. In Knox county are nearly 3,000 boys and girls of scholastic age. Many of these attend the Munday Public Schools.

School bells are ringing out . . . let them ring . . . they bring sweet music to everybody.

Take Time to Live

Take time to work . . . It is the price of success.
Take time to think . . . It is the source of power.
Take time to play . . . It is the secret of perennial youth.

Take time to read . . . It is the fountain of wisdom.

Take time to worship . . . It is the highway to reverence.

Take time of be friendly . . . It is the road to happiness.

Take time to dream . . . It is hitching your wagon to a star.

Take time to love and be loved . . . It is the privilege of the gods.

Take time to look around . . . It is too short a day to be selfish.

Take time to play with children . . . It is a joy of joys.

Take time to be courteous . . . It is the mark of a gentleman.

Take Time to Live!

—Author Unknown

U.S. Debt Reaches All-Time High

With our federal debt climbing day by day, it is expected to exceed \$43,000,000 before the end of the fiscal year. If relief expenditures continue, which seems likely, it may go far beyond that huge figure.

In the light of that fact, is it any wonder that business is worried, that the investor is discouraged, and that unemployment is near the record level? Government, like an individual, can spend beyond its income just so long. Then come bankruptcy.

If the next Congress wants to avert that end, it will give thought and immediate attention to the tax and debt problem. Until an honest start is made toward a balanced budget and regular debt reduction, we can't have good times in this country.

The Success Family

The mother of Success is Ambition.
The father of Success is Work.
The oldest son is Common Sense.

Some of the other boys are Perseverance, Honesty, Thoroughness, Foresight, Enthusiasm and Cooperation.

The oldest daughter is Character.
Some of her sisters are Cheerfulness, Loyalty, Courtesy, Care, Economy, Sincerity and Harmony.

The baby is Opportunity.
Get acquainted with the "old man" and you will be able to get along pretty well with the rest of the family.

It is estimated that there are over three million golf players in this country. And most of them admit it.

The town of Rabbit Flat, Ore., has just changed its name to Wocus because the residents thought the old name was vulgar. You could hardly call the new one common.

Considering all the lying and bunk it's little wonder that we have political bedlam.

A British novelist visiting this country says our English is poor. But he ought to taste our Scotch.

Man's ingenuity is dandy, but how do you suppose China's feeling just now, recalling the fact that several centuries ago it invented gunpowder?

LISTEN TO THIS

By TOM FIZDALE

If the new "Story of the Month" innovation by NBC is successful, it is very likely to set a new trend in daily radio serials. The idea is to stream-line the present continued fiction stories in magazines, rather than to continue the same story for years at a time. . . . Advantages are an appeal to a more diversified audience by having a new story or, at least, a new situation, every month or so, precluding the possibility of a story "running dry" . . . Biggest disadvantage is possibility of losing audience because of a weak story and losing the effect of a long-time build up. . . . In any case, it is the listeners who will decide and it's an experiment worth watching.

Jane Froman

Beautiful Jane Froman, whose golden voice catapulted her from a network solo spot to leading lady of the "Follies," motion pictures and big-time radio, will visit the city that was her springboard to fame when she is guest soloist at Chicago's famous Grant Park concerts late this month. . . . Jane arrived in Chicago after studying journalism and voice at the University of Missouri and an apprenticeship in radio in Cincinnati. . . . Her lovely voice, her beauty and her winning personality put her on top where she remains one of the most gracious of stars. . . . Judy Starr, Hal Kemp's 85 pound vocalist, said "I do" with Jackie Shirra, another member of the band, last week. . . . Bayard Veiller, "Valiant Lady" author, has been dubbed "Squire" by his fellow New Canaanites.

It is very possible that you may be seeing that new comedy hit, "The Laugh Liner," in the movies next winter. . . . Billy House, the 290 pound star of the show, is due in Hollywood to make another Paramount picture this fall and Jack Fulton, singing star on the show, is being eyed for the flickers. . . . House believes that "The Laugh Liner" has all of the elements for a good motion picture vehicle, and because of his long experience in the show business, it is probable that the movie biggies may agree with him. . . . Uncle Ezra's "Station E-Z-R-A" on NBC is taking its first vacation in four years. . . . Will be back on the air later this fall. . . . In the meantime, the "Jumpin' Jenny Wren" will continue to be heard Saturday nights on the "National Barn Dance."

"Fibber McGee and Molly," in private life Mr. and Mrs. James Jordan, have just completed a fishing trip in the north woods of Ontario and are now off to Yellowstone National Park for a look-see at some more of nature's wonders. . . . "Molly" is practically recovered from her long illness and is looking forward to being back on the show when it returns to the NBC-Red network in its old Tuesday spot on September 6. . . . Until that time they will both continue to take it easy and relax.

Prof. William (Wild Bill) McGovern, whose Tuesday chats on NBC are swell, is one professor who should fit big time radio. . . . Adventurer, explorer, linguist, he is one of the most colorful as well as most intelligent commentators on the air. . . . Joan Kay, the Marian Moore of "Arnold Grimm's Daughter" is back from a Florida vacation. . . . Paul Whiteman's fourteen-year-old son is taking drum lessons during rehearsal each week. . . . George McCall set some kind of a record last week when he flew from Hollywood to New York to spend two hours.

Gems Of Thought

PHILANTHROPY

Man's best work is to labour and
leave
As best he may—earth here with
heaven.
—Robert Browning

We rise by raising others—and
he who stoops above the fallen,
stands erect.
—R. G. Ingersoll

I expect to pass through this
world but once. Any goodness
therefore that I can do, or any
kindness that I can show to any
fellow creature, let me do it now.
Let me not defer or neglect it, for
I shall not pass this way again.
—Attributed to Stephen Grellet.

Blessed is that man that seeth
his brother's need and supplieth it,
seeking his own in another's good.
—Mary Baker Eddy

Walk life's dark ways, ye seem to
say,
With love's divine foreknowing
That where man sees but withered
leaves,
God sees sweet flowers growing.
—Albert Lighton

What is done for another is done
for oneself.
—Paulus

A man should never be ashamed
to own that he has been in the
wrong, which is but saying, in other
words, that he is wiser today than
he was yesterday.
—Alexander Pope

It is much less what we do
Than what we think which fits
us for the future.
—Philip James Bailey

'Twas a thief that said the last
kind word to Christ;
Christ took the kindness and for-
gave the theft.
—Robert Browning

We are all capable of more than
we do.
—Mary Baker Eddy

How sweet and gracious, even in
common speech,
Is that fine sense which men call
Courtesy.
—Jas. T. Field

The reward of a thing well done
is to have done it.—Emerson.

Mrs. Fred Broach, Jr., is Honoree at Seated Musical and Shower Friday

One of the outstanding social events of the season was the occasion of the seated musical and shower given last Friday afternoon at four o'clock in the home of Mrs. P. B. Broach, Sr., honoring Mrs. Fred Broach, Jr.

In the receiving line were Mesdames Louise Ingram, Fred Broach, Jr., H. F. Barnes, Fred Broach, Gordon O'Dell, T. G. Bengel, A. D. O'Dell, John O'Dell, and Silvia Barnes, and guests were seated in the spacious rooms where gifts were presented to the honoree and an interesting program presented.

For the first number, Mrs. H. Longino played "At Dawning" (Cadmian). Following this was "Romance" (Sibelius), and "Hungarian" (McDowell), by Mrs. Jim McDonald. Miss Myrtle Lowe gave a reading and Mrs. Orb Coffman gave as the concluding number, "Just a Waterfall" (Hanley).

Refreshments, which further carried out the color scheme of yellow and white, were served, and programs were in the form of wedding bells. Bells were also used in decorations throughout the reception rooms.

Hostesses for the occasion were Mrs. Louise Ingram, Miss Louise Ingram, and Mrs. T. G. Bengel. Assisting in the house party were Misses Lucille Neff, Betsy Reeves, Beth Lee of Throckmorton, and Mrs. Lillian Broach presided over the guest register.

Besides those named, the guest list included Mesdames John Lane, Reuben Bates, Miss Virginia Bess Atkinson, Mmes. J. H. Bass, R. H. Neff, W. P. Farrington, W. R. Moore, G. R. Eiland, P. V. Williams, W. V. Tiner, Tom Haney, Carl Jungman, Lawrence Kinsey, A. A. Smith, Gene McStay, Effie Alexander, C. R. Elliott, John Ed Jones, C. P. Baker, H. A. Pendleton, Cecil Cooper, Charlie Mayes, W. E. Braly, Leland Hannah, J. C. Borden, Dick Atkinson, L. M. Palmer, and Misses Louise Beatty, Fannie Isbell, Virginia Smith, Betsy Reeves, Lucille Neff.

Out-of-town guests included

Amigos Sunday School Class Has Picnic

Observing an annual custom, the Amigos Sunday School class of the Baptist church met Tuesday evening for a picnic with doves the "piece de resistance." The roadside park south of town was the site chosen for this enjoyable outing.

The menu also included steak, potato salad, baked beans, onions, pickles, fruit, cookies, pecan pie and coffee.

Games were the evening diversion and the following members and guests took part in this delightful outing.

Mr. and Mrs. M. L. Barnard, Mr. and Mrs. John B. Ingram, Mr. and Mrs. Chandler Hughes, Mr. and Mrs. Riley B. Harrell, Mr. and Mrs. Don Wardlaw, Mr. and Mrs. M. C. Hallmark, Mr. and Mrs. Vick Jungman, Mr. and Mrs. R. B. Bowden, Mr. and Mrs. Curits Coates, Mr. and Mrs. Ralph Heath, Mr. and Mrs. Jim Reeves, Rev. and Mrs. W. H. Albertson, Dr. and Mrs. J. H. Bass, Dr. and Mrs. H. B. Douglas, Mrs. Bill Cooper, Mildred Kennedy, Virginia Ruth Albertson, Bernice Douglas, Sue and Frances Hallmark.

Mr. and Mrs. Jim McDonald were in Wichita Falls over the week-end, visiting Mrs. McDonald's parents, Mr. and Mrs. J. Milt Erwin. They were accompanied home by Mr. and Mrs. Erwin who visited them overnight.

Mrs. Agnes Floyd, who underwent a major operation in Knox county hospital about two weeks ago, is expected to be brought back home this week-end.

Mrs. Mart Hardin had as guests over the week-end her sister, Mrs. Bill Tucker and Mr. Tucker and her brother, Vernon Nelson and family, all of Konowa, Okla.

Mr. and Mrs. B. Hassan of Hamlin, visited here Sunday with Mr. and Mrs. Sied Waheed.

Miss Lorene Newsom returned Sunday from a two weeks vacation spent in Wichita Falls and at Clarksville.

Mr. and Mrs. George Spann spent the week-end here with the former's mother, Mrs. G. C. Spann. They were enroute to their home in Abilene after a vacation trip to points in Colorado.

Miss Dolores Campbell spent the week-end in Baird and Abilene, visiting friends.

Hal Pendleton and Preston Ingram attended the all-star football game in Wichita Falls, Monday night.

Mr. and Mrs. Sied Waheed and three children left Tuesday afternoon for points in New Mexico, where they will enjoy a week's vacation.

Mrs. W. H. Chapman and son Lynn are moving this week to Texas City. Mr. Chapman, who formerly was manager of the Musser lumber yard in this city, now has a similar position in Texas City, and went there last week.

Coach Billy Cooper and Boyde Carley were in Wichita Falls Monday evening to attend the football game.

Mrs. Joe Lynn Mayes and son, Charles, of Corpus Christi spent the week-end here with the former's father, C. L. Mayes, and friends.

Miss Merle Dingus returned last Tuesday night from Guymon, Oklahoma, where she visited her sister, Mrs. Clyde Longbottom.

Mr. and Mrs. Ed Chamberlain returned to Sherman Tuesday after a short visit with their parents, Mr. and Mrs. B. B. Chamberlain.

Mrs. C. R. Parker of this city, returned last Monday from Carbon, Texas, where she has been visiting in the home of her parents, Mr. and Mrs. J. S. Reese. She was accompanied home by Mr. and Mrs. Weldon Parker of Lueders, Texas.

Carroll Blacklock of Littlefield returned home Tuesday after spending the week-end in the home of Dr. and Mrs. A. A. Smith.

Gene W. Harrell, of Oklahoma City, visited over the week-end with his parents, Mr. and Mrs. E. W. Harrell.

Miss Shelly Lee and nephew, Moulton Wiggins, are visiting at Hereford and at the Carlsbad Caverns. They left last Friday and expect to be gone about a week.

W. A. Spelce and daughter, Billie Lou went to Fort Worth Saturday evening. They were accompanied home by Mr. and Mrs. J. K. Spelce and daughter, Miss Dora Mae, who will visit here for a time.

J. W. Tindall of Nacogdoches, Texas, was a guest last week in the home of his daughter, Mrs. John Ed Jones and Mr. Jones.

Miss Maxie Dingus went to Dallas Sunday on business.

M. T. Chamberlain, county clerk, and family were in Munday last Saturday night.

Mr. and Mrs. Billy Cooper were in Cisco last week-end.

Mrs. E. W. McGlathlin and E. W. Wanda and Billie of Marble Falls, spent the week-end with relatives here.

Mrs. H. W. Quicksall of Rod Rock has returned home after a three weeks visit here in the home of her parents, Mr. and Mrs. J. Smith.

Local Jeweler Reveals How To Grow Diamonds

A new and original plan of "Growing Diamonds" has just been introduced by the McCarty Jewelry Store. The plan provides a novel means of growing a large diamond from a small diamond by successive stages. This unique merchandising plan offered by Mr. McCarty is attracting wide attention.

The "Grow a Diamond" Club, sponsored by this well-known jeweler, is gaining many new members and in celebrating the inauguration of the plan, McCarty's store is displaying what is believed to be one of the largest and most extensive collections of diamond rings ever exhibited in this city.

"Diamond experts believe that diamond prices will advance rapidly during the next few years," declared Mr. McCarty yesterday in an interview. "It is my own sincere belief that a diamond offers the wisest, soundest and most profitable investment. For this reason, our store is giving all friends and customers an opportunity of investing in a small diamond and will show them how easy it is to watch a small diamond grow into a large diamond."

For the convenience of those who wish to make a purchase on a budget investment plan, Mr. McCarty is permitting members of the "Grow a Diamond" club to grow diamonds with small weekly deposit while they wear the ring.

Among those attending the night football game at Wichita Falls Monday were Winston Blacklock and D. E. Holder, Jr., and Misses Mary Moore and Lucie Pierson of Haskell.

Mr. and Mrs. Houston McCarty and children of Nara Visa, N. Mex., were here from Thursday until Sunday transacting business and visiting Mrs. McCarty's parents, Mr. and Mrs. J. R. Counts.

Mr. and Mrs. Billy Cooper were in Cisco last week-end.

Mrs. E. W. McGlathlin and E. W. Wanda and Billie of Marble Falls, spent the week-end with relatives here.

Mrs. H. W. Quicksall of Rod Rock has returned home after a three weeks visit here in the home of her parents, Mr. and Mrs. J. Smith.

Knox County Had 300 Live Births During Year 1937

AUSTIN—"In Texas during 1937, 698 mothers lost their lives through childbirth and associated conditions. Fatality struck 8,618 babies under one year of age and 3,972 infants fere stillborn. These facts become particularly distressing when it is realized that at least two-thirds of this motherhood mortality could have been avoided," states Dr. Geo. W. Cox, State Health Officer.

Knox County had 300 total live births, of which 273 were white, 9 were negro and 18 Mexican; 165 of the infants were male and 135 female. Physicians attended the births of 280 infants, midwives attended 16 and 4 were unattended births; 84 of the total births were in hospitals and 215 were at home; 8 children were stillborn, giving the county a rate of 2.7 per 100 live births; 14 children died under one year of age, a rate of 46.6 per 100 live births, and 2 mothers died in childbirth at rate of 66.6 per 10,000 live births.

"The State Health Department wishes to call attention to the fact that Texas is at last approaching the national average of infant and maternal mortality. In 1933 the nation as a whole had a maternal mortality of 62 while Texas' rate was 77; in 1934 the U.S. had a rate of 59 and Texas 73; and in 1935 the nation came down to 58 and Texas stayed at the previous year's 73; and in 1936 the nation had an average of 58 and Texas' was 69. The national average for 1937 is as yet unavailable but Texas has come down to 59. The infant mortality table presents a similar comparison.

Advancing public health practices, better prenatal care, and better hygienic conditions contribute to this steadily diminishing percentage of Texas mothers and children lost in childbirth.

"Never before in the history of obstetrics have scientific precautions against complications been so advanced and so available as they are today. However, in spite of the improvement in the techniques involved and the further development of antiseptic control, the maternal mortality figures pathetically indicate that medical knowledge alone cannot solve the problem," Dr. Cox further stated.

"Generally speaking, innocent or willful neglect is largely responsible for the preventable maternal deaths. It is to be emphasized that the proper time for expectant mothers to seek medical attention is when the expectancy is first realized.

"Indeed, pre-natal care is the great defense against any of the conditions that cause tragedy at birth. Consequently, expectant mothers should place themselves under the supervision of a physician at the beginning of the term. If this fundamental safety rule would be adopted more generally, the present maternal mortality toll would be markedly diminished.

"As one authority aptly states, 'To cut the appalling maternity death rate, thoughtful and cooperative initiative must originate in the home.' In other words, science had done its part, now the prospective mothers must do theirs."

TUBERCULOSIS!

A series of articles dealing on the disease and the Texas hospital for Tubercular Patients.

By DOROTHY GARRETT

There is one fact that should be stressed greatly to the people: A person should see a specialist on tuberculosis instead of a family physician. Of course we all have confidence in the family doctor, but nevertheless that amounts to so little at a time when you have this disease.

For instance, a woman came here thinking she had tuberculosis, when all the time she needed other medical attention. She was sent home and two weeks later she died. If she had had the care she needed, in all probability she would have lived.

A girl came out here a few weeks ago for the same purpose the other woman did. After being examined and X-rayed by a specialist here, a safety pin was found in her lung. There is a specialist coming from Dallas to operate on her and I am curious to know how the operation will turn out, although I'm quite sure it will be successful.

There have been a number of cases where people have been told they had tuberculosis and after coming out here and being examined it was disclosed that they had only bronchitis.

The above two cases are just two that I have heard of recently. There are numerous others due to the fact that that person placed confidence in a doctor who was not an authority on tuberculosis.

Miss Mavoureen Reeves left Saturday for Harrod, where she has a position on the faculty of the high school. Miss Reeves was graduated from Hardin-Simmons college in June and was chosen to head the commercial department there, where she will also be an assistant in the superintendent's office.

M. Boggs, of the Home Furniture Co., was in Fort Worth Tuesday, purchasing new furniture for the local store.

Cotton Price Adjustment Being Made 60pct of Base

COLLEGE STATION—Cotton price adjustment payments on the 1937 crop will be made on a maximum of 60 per cent of the 1937 base cotton production of farms for which applications are submitted, according to word received from the Washington headquarters by the state AAA office at Texas A. & M. College.

An appropriation of 130 million dollars is available for these payments. Of this amount, Texas will receive approximately \$37,013,000, it was learned. The average payment rate will be 2.89 cents per pound.

While payments are applied to the eligible part of a producer's 1937 base cotton production, regardless of whether or not he took part in the 1937 Agricultural Conservation Program, no payment will be made to a producer who knowingly overplanted his 1938 cotton acreage allotment.

In case the amount of cotton produced in 1937 was less than 60 per cent of the base, payment will not be made on more than the amount actually produced, except in cases of crop failure from specified causes. The maximum payment rate applies to all eligible cotton produced in 1937 and not sold by the producer before September 10, 1937, and includes cotton held by producers or put under the 1937 government loan.

The payment rate on eligible cotton sold before September 10, 1937, will be the amount by which the average price of 7-8 inch middling cotton on 10 designated spot markets was below 12 cents on the date of sale, but not to exceed 3 cents per pound in any case.

In case of crop failure to hail, drought, flood, insect or fungus infestation, a payment not to exceed 50 per cent of the farm's 1937

base allotment will be made on the normal production of the 1937 cotton acreage.

The amount of cotton eligible for payment on a farm will be divided among the 1937 producers in accordance with their share of the acreage planted to cotton in 1937.

Cotton Loan Rate Set at 8.30 Pound

COLLEGE STATION—"The cotton loan rate is a very satisfactory one from every angle," Geo. Slaughter, Wharton, chairman of the Texas Agricultural Conservation Committee, has commented.

The U.S. Department of Agriculture has set the loan rate on 1938 cotton at a base rate of 8.30 a pound for 7-8 inch middling, with differentials for other grades and staple lengths.

The loans will actually run from 5.30 cents in 13-16 or shorter low middling to 10.75 in 1 1-8 inch or longer good middling or better cotton.

"The main function of the cotton loans should be to set a bottom to the market and to help growers who wish to hold cotton off the market for possible higher prices," Slaughter said.

Loan rates at a higher level, as desired by many, would have tended to hurt rather than help the cotton situation, he believes. "A large proportion of the crop would have gone from commercial channels to the hands of the government. This would have further aggravated our foreign market problem, and while cotton farmers would have been helped temporarily the long time effect would have been disastrous."

Workers of the Texas A. & M. College Extension Service were pleased with the provisions of the loan plan which dealt with variable rates for different grades and staple length. The movement to improve the quality of Texas cotton, they felt, had been hindered in the past by a blanket loan.

OCTOBER TERM DISTRICT COURT OPENS OCT. 3rd

Juror List Given For First, Second and Third Weeks

The October term of District Court will open in Benjamin on Monday, October 3, with District Judge I. O. Newton, of Seymour, Texas, presiding.

Following is a list of Grand Jurors for the October term as well as Petit Jurors for second and third weeks:

 Bernie Welch, Vera.
 L. H. Tepfer, Benjamin.
 Nolan Phillips, Munday.
 B. S. Westbrook, Truscott.

One Variety Cotton Plan Is Growing in Texas

COLLEGE STATION—"The one variety cotton community plan has grown from 60 organized communities in 1936 and 62 in 1937 to 213 in 1938," E. A. Miller, agronomist of the Texas A. & M. College Extension Service, has announced.

There are 22,589 farmers and 632,897 acres, or more than 6 per cent of the estimated 1938 planting of 9,661,000 acres, involved in these 213 communities. These figures do not include a number of large plantations and cotton breeding blocks planted to cotton of quality varieties.

If normal yields are obtained, and all the seed from the 1938 blocks were used to establish new one-variety community associations, a potential 5 million acres could be planted to quality cotton in 1939, even with liberal allowances for replanting.

"Of course we cannot hope for the movement to spread as fast as that," Miller commented. "We do feel, however, that Texas is definitely in the way towards an improvement in the quality of her cotton."

"The experience in 1937 of such successful blocks as the Lone Tree community in Victoria county, the Coupland group in Williamson county, Aiken, Lockney, and Floydada in Floyd county, and the county-wide standardization movement in Harrison county, was, in a large measure, responsible for the expansion of the movement in 1938. We are confident that 1939 will see a further increase in the

HOUSEHOLD SCRAPBOOK

By ROBERTA LEE

The Patch Bag
 A most practical patch bag can be made from a yard or two of mosquito netting. This enables one to see the contents from the outside, and there is no necessity for emptying the entire contents to find the exact piece of goods wanted.

Pouring From Cans
 The secret of pouring liquid from cans is to make two holes in the can instead of one, about an inch apart. The one hole is for the liquid to pour from, the other hole to let the air into the can.

Writing While Traveling
 When necessary to write while traveling in an automobile, train, or bus, press the elbows into the

body just above the hips, and you will find the task easy.

The Door Key
 The important door key will not be evasive any more when the housewife returns from the grocery if she will sew a large sized dress hook inside her handbag, near the top, on which to hang the key.

To Clean Playing Cards
 Soiled playing cards can be cleaned by dipping a small sponge in spirits of camphor and rubbing the card gently. This will restore the whiteness.

A Convenient High Chair
 If four rubber-tipped door stops are screwed into the legs of an ordinary chair, it will make an ideal high chair for kitchen work or for a small child.

number of one-variety cotton communities.

"Farmers would go to the production of quality cotton a lot faster if they thought they would be paid on the basis of quality," Miller pointed out. "The communities selling cotton in pools on sales days, are finding that uniformity and a staple of an inch or better are resulting in handsome increases in price."

There were 15 trench silos in Brown county at the end of 1936 and 79 were filled there last year. It is estimated that 125 will be dug and filled in 1938.

Three new peaches have been developed that are resistant to delayed foliage, a common failing of peaches in regions of mild winters.

Recent heavy rains caused thousands of dollars worth of damage to feed in Kimble county. N. I. Fritz of the London community told his county agricultural agent, "All I have left in 3,000 bundles of feed I put down in a trench silo, while I lost 5,000 bundles stacked as dry feed."

The government forces in Spain may be beaten but they seem to ignore the fact.

American Society of Civil Engineers, American Society of Mechanical Engineers and American Institute of Mining Engineers will be held in San Francisco and on Treasure Island at the Golden Gate International Exposition July 10 to 17.

Criminals caught anywhere in the seven San Francisco Bay area counties during the 1939 Golden Gate International Exposition will be paraded each hour, in a line-up on "Treasure Island, site of the World's Fair, as one of measures to protect millions of visitors.

Country-wide operations of Western Union Telegraph Company will be graphically illustrated in the Palace of Electricity and Communications at the 1939 Golden Gate International Exposition on Treasure Island in San Francisco Bay.

A staff of several nurses, in-ternes will be in attendance at the Treasure Island hospital throughout the 1939 World's Fair of the West which starts next February Eighteenth.

The United States is a big country but the nation will be no greater than its people.

Arizona's special brand of Western hospitality will be on display in abundance at that state's exhibit at the World's Fair on Treasure Island in San Francisco Bay in 1939. It has been promised by J. M. Sparks of Phoenix, chairman of the state commission of the Exposition.

Correct this sentence: "Here, sir, is the twenty dollars that you loaned me when the depression got under way in 1932."

So far as we are concerned the system of financing that is popularly referred to as the "extortion plan" is well named.

Munday may not be the largest municipality in the nation but it can be the best, so far as the people are concerned.

Of the NEW

McCormick-Deering

Hammer Mill

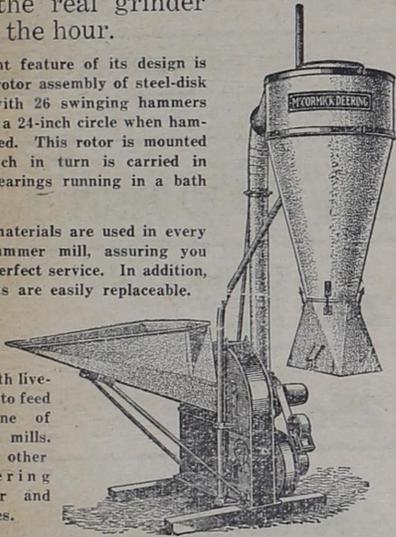

Saturday Afternoon
September 10

AT BROACH IMPLEMENT CO.

Although a small mill in size, the new No. 10 is a giant in capacity, grinding from 4,700 to 12,500 pounds of shelled corn an hour... and other grains and roughage in proportion. Its big capacity and low price makes it the real grinder bargain of the hour.

An important feature of its design is the flywheel or rotor assembly of steel-disk type equipped with 26 swinging hammers which operate in a 24-inch circle when hammers are extended. This rotor is mounted on a shaft which in turn is carried in tapered roller bearings running in a bath of oil.

The finest materials are used in every part of this hammer mill, assuring you many years of perfect service. In addition, all wearing parts are easily replaceable.

Every farmer with live-stock or poultry to feed should have one of these efficient mills. There are two other McCormick-Deering mills of larger and smaller capacities.

STAFF REPORTERS

Senior—Lucille Petrus Junior—Alma Schumacher
Sophomore—Ethel Stengel Freshman—Teresia Andrae
Grade School—Elsie Schumacher

Exams are over although exceptionally good grades were made by them, some of the Seniors say that they will improve on them the next time.

The Seniors have completed their poem written in Anglo-Saxon entitled "The Knight." Even though they did find it difficult to read, they thought it was interesting. They also have completed the poems "L'Allegro and Ill Penseroso" written by John Milton.

Some of the Seniors are wondering why...

Teresia's face is blistered. Angelina has begun studying. Bertha raises her temper. Wilma gets thirsty for water. Josephine mentions "Duley Boy Play Ball."

Lucille likes to go to Vernon. Mr. Hoffman says the Juniors are babies, but the Seniors are so old they are childish.

Rhineland Seniors on Parade

Miss Lucille Petrus, the daughter of Mr. and Mrs. George Petrus, was born August 28, 1922, in Vernon, Texas. At the age of three she moved to Morton, Texas. From there she went to St. Louis, Mo. She now lives three miles east of Rhineland. She has spent all her school year here. She is the youngest in the Senior class. She was reporter and president in the Junior class and has been a member of the indoors ball team two years and volley ball team three years.

GRADE SCHOOL NEWS

The second grade had a fair last Friday and everyone had a good time. They sold lemonade, candy, popcorn, and balloons. Each second grader had charge of some particular thing. They sold tickets at the gates and had quite a few experiences such as making correct change and selling lemonade, etc.

They also had charge of the slides, merry-go-round, swings, and see-saws.

One of the most interesting of the events of the afternoon was the horse race which followed the parade.

The pupils were glad to have many visitors.

The class took in nearly five dollars but their bookkeeper says they have a little over two after the expenses were paid.

They plan to buy books for their library with the remaining money.

Third Grade News

The third grade is glad to have Elmo Meador back with them. He moved to Millsap last year, but has moved back to the Sunset Community again this year.

Sixth Grade Gives Plays
The sixth grade pupils have a way of entertaining themselves, by giving plays each week.

The class is divided into four groups. Each group has a captain. The captains are: Dwain Russell, Wanda Sue Partridge, Mildred Screws, and Keith Burnison. Billy Bob Burton is the president, Winoma Cheek is the secretary and treasurer, and Houston Hays Sweatt is the vice-president.

Last Friday, August 26, Dwain Russell and his group gave the first play. The name of the play was "The School of Good." There were ten characters in it. Everyone enjoyed it because it was full of laughs. Friday, September 2, Wanda Sue Partridge and her group will give their play.

This will be a surprise to everyone in the class, because they don't know the name. Next Friday, September 9, Mildred Screws and her group will give their play. They have already selected it and are working hard on their parts. Last of all comes Keith Burnison and his group. They too have selected their play and are studying hard on their parts.

Miss Hutton is the director of this work and the plays are given in the Sunset Auditorium.

Seventh Grade News

The seventh grade is learning "Silver on the Sage." The song is taken from the show, "Texans." Dolly May Robinson and Harry White are missing school. They are losing out on the fun.

SENIOR REPORT

The Senior class has just finished taking three-week's tests. They find that Chaucer's Canterbury Tales are much more interesting than they thought.

The Senior class is hoping that they will be able to order their rings before school turns out for cotton-picking.

SOPHOMORE REPORT

Friday afternoon eleven of the Sophs, Nettie Griffith and Mr. I. W. Walling, from the grammar school force, went to the roadside park between Munday and Weinert, and enjoyed very much the watermelons, the cookies, and the outing in general.

They left Sunset at four o'clock and returned at nine o'clock. Everyone had a grand time, and were very pleased to have Nettie and Mr. Walling with them.

JUNIOR CLASS STUDIES

Will the Juniors ever go into the newspaper business? That is the question being asked as Juniors are seen scurrying from one newspaper to another in quest of articles, news stories, editorials, and interviews. For the past week they have been delving into the realm of journalism. They have written almost every type of news article. The work is being done in English and is proving to be interesting work.

The class is working hard on their studies as the approaching examinations cast ominous shadows.

Glendon Matthews

Following are some of the news articles written by pupils of the English III class:

School Boy Receives Bad Cut

September 1.—Mr. Leland Floyd of the Sunset High School received a very bad cut in his finger. He was jumping and swinging on a porch top, and there was a nail sticking up and caught his finger.

You May

meal had been cooked. The menu was:

Ham with Apricots
Mashed Potatoes String Beans
Boiled Eggs White Bread
Cake Cherry Pie
Coffee

The girls enjoyed the demonstration very much.

BRIDGE CONSTRUCTION IS FINALLY UNDER WAY

Rises Delayed Construction For Long Period of Time

On the Brazos River highway bridge between Knox City and Benjamin, active construction is now under way due to dry season. After many attempts to dig pier holes in the quicky river mud the Oran Speer Construction Company is now succeeding in the task. Due to the past few weeks of fair weather the river-bed has dried out, permitting the holes to be dug. This bridge is being constructed on the Salt Fork of the Brazos River about six miles north of Knox City, Texas.

Due to rises caused by heavy rainfall in the country south and west of the site of construction the company has had much difficulty in keeping on the job.

The company now has the abutments and three piers completed. They have two piers under construction and have part of the steel up.

Traffic is now detoured by way of a dirt road east of the old bridge, due to the collapse of the end pier in the old bridge. This occurred when the end pier excavation for the new bridge was dug.

The hole beside the old structure allowed it to sink. Traffic will be detoured by way of the Rhineland Bridge in case of another rise.

Amarillo and Dallas Get New Veterans' Hospitals

WASHINGTON.—Two new veteran's administration hospitals, instead of the one originally planned,

will be built in Texas. One will be located at Dallas, and the other at Amarillo, it was learned today.

The hospitalization board of the veterans administration recommended the two new hospitals to the president nearly three weeks ago and the president accepted the recommendations Tuesday during a conference with Veterans Administration Director Frank T. Hines.

Announcement Withheld

The president announced his approval of the plan at his press conference, but did not disclose the nature of the recommendations. The veterans administration is still withholding public announcement pending completion of minor technical details, but it is expected to make the formal announcement within the next several days.

The two locations were recommended after an exhaustive survey of various sites in nearly all parts of Texas. It was in line with the administration's policy to give hospital facilities to veterans in North and West Texas.

May Increase Fund

The original allotment of funds for the new hospital was \$1,400,000. This is expected to be substantially increased to provide for the two structures. It was reported that the entire amount may be spent at Amarillo and another sum, of approximately size, allotted for the Dallas hospital.

The two hospitals will be used for general cases. Actual acquisition of sites and construction are expected to get under way within a short time.

A vigorous effort was made to have the hospital located near Houston, but the board felt that the present need was more acute in North and West Texas. It is possible that a Houston hospital will be built later when the peak-load of veterans hospitalization is reached.

Frank W. Fuller, Jr., wealthy sportsman pilot and winner of the 1937 Bendix Trophy race, is "Flying Ambassador" of the World's Fair of the West, opening on Treasure Island next February 18.

Rhineland News

By BERTHA STENGEL

Mr. and Mrs. John Decker and family of Anton, Texas, were visiting friends and relatives here.

Mr. and Mrs. Edmund Diersing and Miss Francis Diersing of Pep, Texas, were visiting friends in the Rhineland community over the week-end.

Mr. and Mrs. C. J. Smajstrls of Wace were visiting in the home of Mr. and Mrs. John Michalik over the week-end.

Mr. Peter Loran and son Martin, and granddaughters, Angelina, and Florine Decker were in Abilene Sunday. They were accompanied home by Mrs. Peter Loran. Mr. Albert Franklin, Michael Birkenfeld and Carl Striegel made a business trip to Wichita Falls Saturday.

Munday Compress
Completes A New Warehouse Friday

John Lane, manager of the Munday Compress, announced the completion of a new warehouse Saturday on the company's property in the south part of the city.

The building was constructed of combination frame and sheet iron and is 166 x 66 feet, located about 100 feet south of the main warehouses. This additional floor space will increase the storage capacity 3,000 bales, states Lane, bringing

the total warehouse storage capacity of the local plant to 17,000 bales, which is expected to be sufficient to take care of this season's crop.

Mr. Lane states that in case this proves to be inadequate for handling of this community's crop, the company is ready and willing to build more warehouses.

Miss Maxine Burnison, who has been attending the University of Colorado, at Boulder, returned home last week end and left Sunday to begin teaching in a consolidated school near Rule.

Mr. and Mrs. M. C. Hallmark and family have returned from a vacation spent in New Mexico.

News From County
H. D. Clubs

The Hefner Home Demonstration Club met Tuesday afternoon at 3 o'clock with Mrs. W.M. Taylor. The president opened the meeting with a business session, and committees reported and discussion was heard on these matters. Mrs. Howard Barnett gave a report on our last county council. The club delegate was absent at the time. The topic Cookies and Party Cakes was demonstrated by Miss Nina Astin, county agent. Several delicious kinds were made and later served to the 12 members, one visitor and the county agent.

Mr. and Mrs. G. W. Hawkins of Sweetwater were weekend visitors in the home of her parents, Mr. and Mrs. J. B. Bowden.

Mr. and Mrs. Harry A. W. Anderson of Boulder, Colo., were here over the weekend visiting in the home of Mr. and Mrs. Dick Atkinson and family. Mrs. Anderson, who formerly was Miss Alene Ferguson, is a sister to Mrs. Atkinson.

The 13 boys' 4-H clubs in Jones county have a trench silo contest among themselves to see which club can fill the most trenches.
