

Kracker Krumb's Odd Bits Salvaged at Random

We're lucky, we guess.

Recently we reprinted an article about a little girl, and received many comments about it. Some even told us they had a clipping of "What Is A Boy?", too, but we didn't see one until recently.

The same trade magazine which carried the definition of a little girl has given us her little brother this time. These provocative characteristics were summed up by Allen Beck of the New England Mutual Life Insurance Company:

"Between the innocence of babyhood and the dignity of manhood we find a delightful creature called a boy.

"Boys come in assorted sizes, weights and colors, but all have the same creed: To enjoy every second of every day and to protest with noise (their only weapon) when their last minute is finished and the adult males pack them off to bed at night.

"Boys are found everywhere—on top of, underneath, inside of, climbing on, swinging from, running around, or jumping to.

"Mothers love them, little girls hate them, older sisters and brothers tolerate them, and heaven protects them.

"A boy is Truth with dirt on its face, Beauty with a cut on its finger, Wisdom with bubble gum in its hair, and the Hope of the future with a frog in its pocket.

"When you are busy, a boy is an inconsiderate, bothersome, intruding jangle of noise. When you want him to make a good impression, his brain turns to jelly or else he becomes a savage, sadistic, jungle creature bent on destroying the world and himself with it.

"A boy is a composite—he has the appetite of a horse, the digestion of a sword swallower, the energy of a pocket-sized atomic bomb, the curiosity of a cat, the lungs of a dictator, the imagination of a Paul Bunyan, the shyness of a violet, the audacity of a steel trap, the enthusiasm of a firecracker, and when he makes something he has five thumbs on each hand.

"He likes ice cream, knives, saws, Christmas, comic books, the boy across the street, woods, water (in its natural habitat), large animals, Dad, trains, Saturday mornings and fire engines.

"He is not much for Sunday school, company, schools, books without pictures, music lessons, neckties, barbers, girls, overcoats, adults, or bedtime.

"Nobody else is so early to rise or so late to supper. Nobody else gets so much fun out of trees, dogs and breezes.

"Nobody else can cram into one pocket a rusty knife, a half-eaten apple, three feet of string, an empty Bull Durham sack, two gumdrops, six cents, a sling shot, a chunk of unknown substance, and a genuine super-sonic code ring with a secret compartment.

"A boy is a magical creature—you can lock him out of your workshop, but you can't lock him out of your heart.

"You can get him out to study but you can't get him out of your mind.

"Might as well give up—he's your captor, your jaller, your boss, and your master—a freckle-faced, pint-sized, cat-chasing bundle of noise.

"But when you come home at night with only the shattered pieces of your hopes and dreams, he can mend them like new with only two magic words—"Hi, Dad!"

We didn't have any particular boy in mind when we saw the article and decided to reprint it—just like we didn't have any (Continued on last Page)

Cotton Insect Control Work Is Continued

As a followup on the cotton insect control work, meetings have been held in practically all communities in the county to present control information to cotton farmers who missed the meetings conducted by A. C. Gunter, State Entomologist, earlier this year. In addition to the 225 who were present for the first series of meetings, about 200 more farmers have been reached by meetings conducted by the county agent.

Purpose of these meetings are to answer the individual questions of the farmers, and present new control information. Insect count is still stressed for time of application thus saving as much money as possible for poisons.

The last series of meetings were held in Munday, Goree, Vera, and Rhineland, and meetings of this type will be held as long as there is a demand for them. Arrangements may be made by contracting your county agent.

Latest tabulations show that approximately 140,000 to 145,000 acres are planted in cotton, and to get the most from this acreage, the insects must be controlled when they appear. Control measures when insects are not present or only present in small numbers does not pay, but by making weekly cotton insect checks, each farmer can tell when the insects are on the increase, and the time comes to poison.

For Congress

W. D. McFarlane of Graham formally opened his campaign for Congress in the special election to be held in the thirteenth district on September 8 in his home town at 8:30 Saturday evening, August 4, speaking on the court house lawn.

McFarlane has always received strong support from his home town and county, and a large crowd heard him announce his platform on which he is asking the voters to return him to Congress, where he has served for six years prior to 1938.

Water Shortage Remains Acute

Munday, along with many other West Texas towns, is still faced with the water shortage problem, which becomes more acute with each day of this hot, dry weather.

"We have enough water to take a bath and to shave, provided you don't lather all the way around your face at one time," Harvey Lee, city secretary, said jokingly last Tuesday.

Of course it isn't that acute, but the problem is one of the increasing concern for city officials.

Mr. Lee advised Munday people to "go easy" on the use of water, using only a minimum of water for their lawns and other purposes.

The well seems to be supplying lots of water, but local consumption is more than can be pumped from the well each day, he said.

"We've been shutting off the storage tank each day," he said, "saving the water in storage to be used in case of fire. If the storage should be drained daily, then we would be in a precarious position in case of a fire should break out."

Shutting off the storage tank means that during the day no water is used for storage. Our supply of water comes from pumping directly from the well into the mains.

Officials are taking steps to remedy the situation, but this is a slow process. Indications, too, are that we may continue to have several more weeks of this type of weather, making the situation more acute each day.

4-H Encampment Held Recently At Camp Perkins

The annual district 4-H encampment was held at Camp Perkins, near Wichita Falls, on July 30-31 and August 1. One hundred and sixty-five 4-H members, 30 leaders and 20 agents attended. The camp was under the direction of J. A. Scofield, district agent.

The Knox County group of 10 boys and one leader was jointly sponsored by the Munday Community Development Association and the Knox County Lions Club.

The county group included Bill Pfallmeyer, county agent; Omar Cure, club leader, and the following 4-H members: Gary Cure, Bobby Miller, Dale Jackson, Ernest McGaughy, J. C. and Jimmy Decker, Wayne Lawrence, James Claus, Glen Bruce and Bobby McBeth.

Dale Jackson of Vera was elected county delegate. Each of the 20 counties selected leaders, and this group made the rules for the camp.

Floyd Lynch, state 4-H leader, gave pointers on how to become winners in 4-H work and the goals that 4-H is attempting to reach. He also conducted other activities and shows.

A. C. Hunter, state entomologist, gave training on insects and presented a collection for the campers to observe. Paul Haines, state conservationist, gave schooling on land judging, and a range conservation demonstration was given by the Wichita 4-H team. The Archer team presented a demonstration on tractor maintenance. In addition to the studies, the boys enjoyed swimming, ball games and other games.

In addition to learning valuable pointers in agriculture and enjoying the recreational program, the boys met many others from this section of the country. Local boys are looking forward to a return to the camp later.

Local Students To Receive Degrees From Midwestern

Forty-two seniors will graduate from Midwestern University on Friday, August 24. Graduation exercises are scheduled for 10 a. m. in the university auditorium. Baccalaureate will be on Sunday, August 19, at the Floral Heights Methodist Church in Wichita Falls, with Rev. Earl Hoggard as speaker.

Aubrey P. Denton of Knox City and Dwaine H. Russell of Munday will receive the bachelor of science degrees, with majors in animal husbandry.

Aubrey P. Denton of Knox City and Dwaine H. Russell of Munday will receive the bachelor of science degrees, with majors in animal husbandry.

Dr. W. W. Kemmerer, president of the University of Houston will be speaker for the graduation exercises.

Bowden Wins 6th Place In Recent Plane Contest

Robert Bowden of Munday, son of Mr. and Mrs. R. B. Bowden, won sixth place in team racing with his model plane at the recent 20th National Model Airplane Championship contests at Dallas.

Bowden attended the week-long meet which was held at the U. S. Naval Air Station in Dallas. More than 600 contestants from 47 states, Alaska, Canada, Mexico and North Africa participated in this youth education project sponsored by the National Exchange Club in cooperation with the U. S. Navy.

Robert was leading in his contest when an error in timing caused him to land his plane too soon, but he got it back into the air to win sixth place. He was attending the meet with the Abilene Club.

Bill Lofland of Abilene won first place and broke the world record in Class B, rise off the water, free flight. His time was 4 minutes and 11 seconds. The previous record was 2 minutes and 11 seconds.

Audubon Homing Set For August 12

The Audubon community, six miles northeast of Alford, Wise County, will hold its annual homecoming on August 12. Rev. A. W. Cunningham of Celeste will deliver the homecoming address, and other interesting numbers are on the program.

A basket lunch will be served at noon. Everyone is cordially invited to attend, bringing a well filled basket.

Mr. and Mrs. Jot Tynes and children, Judy and Davy, of Big Spring spent the week end with relatives here.

Rural Minister

BIRMINGHAM, Ala.—The Rev. J. R. Kidwell, pastor of the Methodist Church, LaPryor, Texas, has been named Rural Minister of the Year in Texas by The Progressive Farmer magazine.

For 41 years, the Rev. Mr. Kidwell has tried untiringly to make the farm and village the greatest place on earth in which to live. He has led in working with schools, civic organizations, and all agencies for the betterment of rural life. He writes a weekly column in the Zavala County Sentinel.

In connection with his Minister of the Year award, he will receive a scholarship to the Town and Country School for rural ministers at Emory University in Atlanta in August.

Burton Thomas Home Destroyed By Fire On Tuesday

The home of Burton Thomas, in the colored section of town, was destroyed by fire which broke out at about two o'clock Tuesday afternoon. Cause of the fire was not readily determined.

The local fire department carried both fire trucks to the scene, but as there was no water available except from the booster tanks, fireboys were unable to control the flames. Several trips were made to the nearest fire plug to refill the tank of one truck so they could continue combatting the fire.

Two Area Men To Answer Sept. Call

Mrs. Zena Waldron, clerk of Local Board No. 82 at Benjamin, has announced that the board has received the September call for induction in the armed forces.

"Our share of the state's September quota of 619 men is only two men," she said. "These two will report for induction on September 12."

Mr. and Mrs. Don Wardlaw returned home last week from a vacation trip to points in Colorado.

Sister of Local Resident Buried Saturday, July 28

Funeral services for Mrs. Floyd G. Nash, sister of Mrs. Emmett Branch of Munday, were held from Edgefield Church of Christ in Dallas at 4 p. m. Saturday, July 28. Leonard Mullins, minister of the church, officiated, being assisted by Paul E. Thompson, minister of the Trinity Heights Church of Christ.

Mrs. Nash died at her home in Dallas on Friday morning, July 27, following a lengthy illness.

She was born Knoxie Alma Workman at Grays Prairie, near Kaufman, the daughter of Mr. and Mrs. J. J. Workman. She was reared in Kaufman County, and had lived in Dallas for twenty-seven years.

Besides her sister, she is survived by three sons, Homer Gene Nash, Bonnie Joe Nash and Robert Marian Nash, all of Dallas; a daughter, Mrs. Gene Ritchie of Dallas; a brother, Bonnie C. Workman, Lubbock; another sister, Mrs. Abbie Rupe Cotton, Dallas, and three grandchildren.

Interment was made in Laurel Land Cemetery in Dallas.

Lt. Rathbone Of U. S. Navy Killed In Korean War

Word has been received that Lt. (jg) Henry B. Rathbone of the U. S. Naval Air Force in Korea and was recently killed in action. Lt. Rathbone, pilot of a jet fighter plane, was starting on a bombing mission when, for reasons unknown, his plane crashed as he was taking off from the aircraft carrier.

Lt. Rathbone, a graduate of the Naval Academy at Annapolis, Md., has been in service of his country four years. For a year preceding his going overseas, he was connected with the Naval Air Station at Alameda, Calif.

A memorial service was held for him at the chapel at the Naval Air Station at Alameda, California, on Tuesday, August 7.

Another memorial service will be held for him at a later date at his home town, Providence, R. I., where his mother resides.

His wife, Lt. (jg) Mary Jean Rathbone of the U. S. Naval Nurse Corps, daughter of Rev. and Mrs. S. E. Stevenson of Goree, has recently been transferred from the U. S. Naval Hospital at Corpus Christi, where she served two years, to the U. S. Naval Dispensary at the Naval Air Station, Alameda, Calif.

GOREE THEATRE OPENS

After being closed for about a month for repair work, the Goree Theatre will open again on Tuesday, August 14. It was announced this week by Mr. and Mrs. George Nix, owners. The first picture, "Best Of the Bad Men," is being sponsored by the Goree Fire Department and will be shown on Tuesday and Wednesday.

REVIVAL AT GILLILAND

The Church of Christ at Gilliland will begin a revival meeting on Friday, August 10. Minister W. H. Francis of Mangum, Okla., will do the preaching. The public is cordially invited to attend.

RUSSELL INJURED

F. H. Russell of Kaufman, formerly of Munday, was injured when hit by a car last week while visiting in Tyler. Word received here was that Mr. Russell received a broken arm in the accident. He is reported to be getting along nicely.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Kenneth Osburn are announcing the birth of a daughter, who arrived at 10:20 a. m. Monday, August 6, at the Knox County hospital. She weighed seven pounds and 14 ounces and has been named Jan Elizabeth. Mother and daughter are reported doing nicely.

School Land Suit Is Set For August 27th

The school land controversy between the Munday Independent School District and the Knox City School District will be heard in the 50th District Court on Monday, August 27, it was learned here this week.

This controversy came about as a result of an election in which the Sunset school district was consolidated with the Munday school district. Following the election, the County School Board, acting upon petitions presented by the Knox City board, annexed portions of the Sunset lands to the Knox City district. Then followed an injunction by the Munday board, questioning validity of the county board's action.

District Judge Lewis M. Williams has "excused himself" as presiding judge in this suit, and the trial will be heard by an appointed judge.

The trial judge will be appointed by the presiding judge of the administrative judicial district. It was stated.

Graveside Rites Held On Saturday For Jones Infant

Graveside funeral services were held Saturday, August 4, Friendship cemetery for Eddie Lane Jones, infant son of Mr. and Mrs. Ed S. Jones of Wichita Falls, formerly of Munday. Rev. Jess Gray officiated.

The baby was born in a Wichita Falls hospital on August 2, and passed away August 3, living only 24 hours.

Survivors include the parents and grandparents, Mr. and Mrs. Clarence Jones and Mr. and Mrs. Jim Strickland, all of Munday.

Base On Road Project Being Laid This Week

With the roadbed and drainage structures being completed, the construction crew being employed on paving the road southeast from Munday started hauling in base material the first of this week.

Topping of the road is expected to be done within the next few weeks, as soon as the base has been laid and properly worked. Soon Knox County will have several more miles of paving.

The road goes southeast from the West Texas Utilities Company office past the Munday Municipal Country Club and to the Haskell county line.

Seymour Physician Over Fifty Years Dies On Monday

Dr. J. F. Bunkley, 87, whose family has been prominent in Texas Medical circles for several years, died at 5:30 p. m. Monday in a Seymour hospital.

Dr. Bunkley began practicing medicine in Seymour and Baylor County in 1893, and entered semi-retirement several years ago.

Surviving him are two sons, Foster Bunkley of Seymour and Dr. T. F. Bunkley of Temple, and a sister, Miss Beulah Bunkley.

Funeral services were held from the First Baptist Church in Seymour at 10 a. m. Wednesday.

OPS Meeting Set For August 15th

The Office of Price Stabilization will hold its next regularly scheduled clinic at Benjamin on Wednesday, August 15. It was announced this week by J. B. Eubank, Jr., county judge.

The meeting will be held in the assembly room of the court house, beginning at 9 a. m.

EDITORS FIGHT SOCIALIZED MEDICINE

Last spring, the National Editorial Association held a convention in New York. A resolution was offered which read, in part: "Whereas we believe that an outstanding contribution, during the past year, to the cause of individual freedom and the maintenance of our American way of life has been the nation-wide campaign by the American medical profession in behalf of freedom for both physicians and the cause of political freedom, therefore be it resolved that we do publicly commend the doctors of our country for their enlightened contribution to the American way of life . . ."

This resolution was passed without a single dissenting vote.

It is to the credit of the newspaper fraternity that the great bulk of papers, and most especially the smaller papers, have been leaders in the fight against socialized medicine and government controlled or influenced medicine. This was done as a matter of principle—not because of any particular personal worry as to the welfare of the doctors. The typical editor knows full well that socialized medicine would be a long step toward the totally socialized state. And he knows that it would inevitably result in a sharp decline in the standards of medical service, especially in the all-important fields of research and preventive medicine. The experience of England has proven this.

Even the proponents of the compulsory government health scheme admit that it has no chance to get through Congress now. But that should not lull the people into apathy. The bill will be brought back—again and again and again. And it need only pass once to start the destruction of free medicine as we know it. Any socialistic measure must be beaten every time, without fail. The fine old saying, "Eternal vigilance is the price of liberty," was never more valid than at present.

AGENT OF THE FARMER

Frozen retail prices are dangerous to the farmer. That is the gist of an item by Wheeler McMillen which recently appeared in Farm Journal. Here is what Editor McMillen said: "Farmers see that if their selling prices are controlled, and their costs keeps going up, their chance for profit will go down. Businessmen find themselves in the same trouble. An executive of a big baking company showed me some of his figures the other day. During the four weeks after his retail prices went up for eggs, milk powder, butter, cake shortening, lard and raisins. These increases cost \$23,960—about \$6,000 a week. Since he could not raise his prices, he was naturally worried! Every baker, butcher, and grocer is a sales and distributing agent for farmers. The agent has to make a profit if he is to keep on selling . . . Controls mess up everybody's business, and

only hide the real causes of inflation." The logic of this is unassailable. Aggressive, highly competitive retailing is an essential ally of the farmer—as it is of the manufacturer and all the people who work in agriculture and industry. It does everything possible to sell more goods. The very force of competition holds profits to a low figure. But when controls threaten to turn profits into losses, the retailer must draw in his horns. He stocks less goods. He takes no chance that he can avoid. He is no longer a free agent. To an ever-increasing extent, his business is dominated by bureaucrats who know little or nothing about his problems.

A controlled economy hurts everyone—the producer, the worker, and the consumer.

GRASS ROOTS OPINION

LIBERAL, KAN., DAILY TIMES: "Everybody now has, or should have, an interest in taxation, and in governmental extravagance and waste. A blanket demand for government economy is the only way it will ease up, this newspaper believes."

VERSAILLES, KY., WOODFORD SUN: "The Federal bureaucracy obviously does not want to play on the nation's anti-inflation team. The Army set up a requirement of 4,636,000 web belts for the year 1951. This is three belts per man . . . Its 1951 requirement for combat boots was set at 11,753,000 pairs, although the total consumption was estimated at 4,800,000. Military 'scare' buying not only precipitates general shortages of consumer goods, but naturally forces up the price of goods thus bought. For example, since June 1950 the price of army blankets has risen from \$7.82 to \$16.00 each; combat boots from \$6.03 to \$11.63 per pair; army mattresses from \$7.83 to \$13.42 each; winter drawers from \$1.55 to \$4.15 per pair, and so down a long list."

VELVA, N. D., JOURNAL: "There was a law passed against it in 1913, but there are currently reported to be 4,199 publicity men in government bureaus at a cost of more than a hundred million dollars a year. Senator Byrd (Dem.) of Virginia, the nation's No. 1 champion of Federal economy, thinks we could get along without quite so many."

"A central bank should not hesitate to allow rates to rise to whatever level proves necessary. Though interest costs on the debt rise, it is far better that this occur than that the American people constantly lose their savings through continued declines in the purchasing power of the dollar."—B. H. Beckett, Professor of Banking, Columbia University.

"In the past few years there has been built up a grand illusion that somehow a small group of government people can wave a wand and make everything work just right. Well, they can't.—The Wall Street Journal.

No Sparking!

Wind-blown sparks from smoldering bonfires often cause destructive fires, so safety officials recommend keeping a galvanized steel pail filled with water near all bonfires. The safe way to douse fires with water is to stand at a safe distance from their flames.

HOUSE JOINT RESOLUTION NO. 8

proposing an Amendment to the Constitution of the State of Texas amending Article III, Section 51a, providing that the Legislature shall have the power to provide for the care and maintenance of persons of the State of Texas who are aged persons over the age of sixty-five (65) years, needy blind persons under the age of sixteen (16) years, needy children under the age of sixteen (16) years, removing the Thirty-five Million Dollars (\$35,000,000) limitation upon expenditures for such purposes and providing for a limitation of Forty-two Million Dollars (\$42,000,000) upon such expenditures; providing a maximum payment of Thirty Dollars (\$30) per month from State funds for old age assistance; prohibiting payment of assistance after disposition of property under certain conditions; providing for acceptance of financial aid from the Government of the United States of America for such assistance; providing for the payment of such from State funds shall not exceed the payments from Federal funds; providing for the form of ballot, proclamation, and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 51a of Article III of the Constitution of the State of Texas be amended, and the same is hereby amended so that the same shall hereafter read as follows:

"Section 51a. The Legislature shall have the power, by general laws to provide, subject to limitations and restrictions hereinafter contained, and such other limitations, regulations, and regulations as may be by the Legislature be deemed expedient for assistance to, and for the payment of assistance to:

(1) Needy aged persons who are over the age of sixty-five (65) years; provided that no such assistance shall be paid to any inmate of any State-supported institution, while such inmate; and provided that any resident of the State, if otherwise eligible, may not be excluded who has resided in the State for five (5) years during the nine (9) years immediately preceding the filing of the application for such assistance including the one (1) year continuously immediately preceding the filing of such application; provided that the maximum payment per month from State funds shall not be more than Thirty Dollars (\$30) per month.

"Any applicant for or recipient of assistance, including the spouse in each instance, who shall dispose of any property after June 1, 1952, and any person who initially applies for assistance after June 1, 1957, who has disposed of any property within five (5) years prior to the date of application, shall be ineligible to receive assistance; provided, that if such property was disposed of by bona fide sale and the proceeds, and for value commensurate with the actual market value thereof, such disposition shall not affect eligibility for assistance if it is shown that all proceeds from such sale have been used by such person and spouse for normal living expenses, and spouse shall sell any real property, neither such recipient nor spouse shall thereafter receive assistance until all net proceeds of said sale have been expended for normal living expenses; and in case of disposition of such property by gift or for an amount less than its actual market value, such person and spouse shall not thereafter receive assistance until the expiration of the period of time during which the net proceeds of said sale would have paid their normal living expenses had the actual market value been realized therefrom.

"(2) Needy blind persons who are over the age of sixteen (16) years; provided that no such assistance shall be paid to any inmate of any State-supported institution, while such inmate; and provided that any resident of the State, if otherwise eligible, may not be excluded who has resided in the State for five (5) years during the nine (9) years immediately preceding the filing of the application for such assistance including the one (1) year continuously immediately preceding the filing of such application.

"(3) Needy children who are under the age of sixteen (16) years; provided that any child, if otherwise eligible, may not be excluded who has resided in the State for one (1) year, whose parent or other relative with whom the child is living has resided in the State for one (1) year immediately preceding the birth of such child.

"The Legislature shall have the authority to accept from the Federal Government of the United States such financial aid for the assistance of the needy aged, needy blind, and needy children as such Government may offer not inconsistent with restrictions herein in anticipation of the adoption of this Amendment, such Acts shall not be invalid by reason of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of Texas at the Election to be held throughout the State of Texas on the second Tuesday in November, 1951, at which election there shall be printed on such ballot the following clause:

"FOR the amendments to the Constitution giving the Legislature power to set up a system of payments of assistance to needy persons over sixty-five (65) years of age; to needy blind persons over the age of sixteen (16) years; to needy children under sixteen (16) years of age, removing the Thirty-five Million Dollar (\$35,000,000) limitation upon amount of State expenditures for such purposes; disqualifying persons who dispose of property under certain conditions; providing a maximum payment of Thirty Dollars (\$30) per month from State funds for old age assistance; providing for the acceptance and expenditure of funds from the Federal Government; providing that expenditures from State funds shall not exceed the expenditures from Federal Funds with respect to any individual; and providing conditions as to residence within the State in order to be eligible to receive assistance; and providing a limitation of Forty-two Million Dollars (\$42,000,000) per year on State fund expenditures for such purposes each year."

Sec. 3. The Governor of the State of Texas is hereby directed to have the necessary proclamation for said election and have the same published as required by the Constitution and laws of the State of Texas.

HOUSE JOINT RESOLUTION NO. 9

proposing an Amendment to Article VII of the Constitution of the State of Texas by adding thereto a new Section 11, Section 11 thereof to be designated Section 11a, providing for the investment of the Permanent University Fund in additional securities to those now enumerated in Section 11 of Article VII of the Constitution of the State of Texas, providing for the necessary proclamation and publication and calling of an election therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article VII of the Constitution of the State of Texas shall be amended by adding after Section 11 thereof a new section to be designated Section 11a, which shall read as follows:

"Section 11a. In addition to the bonds now enumerated in Section 11 of Article VII of the Constitution of the State of Texas, the Permanent University Fund may be invested in such other securities, including bonds, preferred stocks and common stocks, as the Board of Regents of the University of Texas may deem to be proper investment for said fund; provided, however, that not more than fifty per cent (50%) of the said fund shall be invested in any one class of securities, and that not more than one per cent (1%) of the said fund be invested in securities issued by any one (1) corporation; and that such securities are limited to stocks of companies incorporated within the United States which have paid dividends for the last five (5) consecutive years or longer immediately prior to the date of purchase and which, except for the last five (5) years, have been listed upon an exchange registered with the Securities and Exchange Commission or its successors. This amendment shall be self-enacting."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the second Tuesday in November, 1951, at which election all ballots shall have printed thereon:

"FOR the Constitutional Amendment providing for the investment of the Permanent University Fund in additional securities to those now enumerated in Section 11 of Article VII of the Constitution" and "AGAINST the Constitutional Amendment providing for the investment of the Permanent University Fund in additional securities to those now enumerated in Section 11 of Article VII of the Constitution."

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State. The expense of publication and election for such Amendment shall be paid out of the proper appropriation made by law.

HOUSE JOINT RESOLUTION NO. 12

proposing an Amendment to the Constitution of Texas by adding to Article XVI thereof a new Section to be numbered 63, and authorizing the Legislature to provide for a statewide system of retirement and disability pensions for appointive officers and employees of the several counties of the State, providing that participation therein by counties shall be voluntary, and authorized by the qualified voters of such county; providing that the Legislature shall not be authorized to make an appropriation to pay any retirement or disability benefits authorized herein, and providing that administration of said system may be committed to the same body set up to administer the statewide municipal retirement system authorized under Section 51f of Article III, providing for the calling of an election and the publication and issuance of the proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article XVI of the Constitution of the State of Texas, be amended by adding thereto a new Section, to be numbered Section 63, which shall read as follows:

"Section 63. The Legislature shall have the authority to provide for a statewide system of retirement and disability pensions for appointive officers and employees of the counties of the State under such a plan and program as the Legislature shall authorize; provided, that participation therein by counties shall be voluntary and shall first be authorized by vote of the qualified voters of such county; provided further that the Legislature shall not be authorized to make an appropriation to pay any retirement or disability benefits authorized herein. Administration of such system may be committed to the same body as may be set up to administer the municipal retirement system provided for by Section 51f of Article III."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors at an election to be held throughout this State on the second Tuesday in November, 1951, and at said election the ballots shall have printed thereon the words:

"FOR the Constitutional Amendment authorizing a statewide system for retirement and disability pensions for appointive county officials and employees," and "AGAINST the Constitutional Amendment authorizing a statewide system for retirement and disability pensions for appointive county officials and employees."

Each voter shall strike out one of said clauses on his ballot, leaving the one unmarked which expresses his vote upon the proposed Amendment.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the foregoing proposed Amendment published as required by the Constitution for proposed amendments thereto.

Sec. 4. If at said election, a majority of the votes are "FOR the Constitutional Amendment authorizing a statewide system for retirement and disability pensions for appointive county officials and employees," the foregoing proposed Amendment shall become Section 63 of Article XVI of the Constitution of Texas, and proclamation shall be made by the Governor therefor.

SENATE JOINT RESOLUTION NO. 8

proposing an Amendment to Section 48-d of Article III of the Constitution of the State of Texas, authorizing the Legislature to provide for the creation and establishment of rural fire prevention districts so as to provide that the Legislature may authorize an ad valorem tax not to exceed Fifty (50) Cents on the One Hundred (\$100.00) Dollars valuation.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 48-d of Article III of the Constitution of the State of Texas be amended to read as follows:

"Sec. 48-d. The Legislature shall have the power to provide for the establishment and creation of rural fire prevention districts and to authorize a tax on the ad valorem property situated in said districts not to exceed Fifty (50) Cents on the One Hundred (\$100.00) Dollars valuation for the support thereof; provided that no tax shall be levied in support of said districts until approved by vote of the people residing therein."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electorate of the State at an election to be held on the second Tuesday in November, 1951, at which election all ballots shall have printed thereon (or in counties using voting machines, the said machines shall provide) the following:

"FOR the constitutional amendment authorizing the Legislature to provide for the levy of an ad valorem tax not to exceed Fifty (50) Cents on the One Hundred (\$100.00) Dollars valuation for the creation and establishment of rural fire prevention districts," and "AGAINST the constitutional amendment authorizing the Legislature to provide for the levy of an ad valorem tax not to exceed Fifty (50) Cents on the One Hundred (\$100.00) Dollars valuation for the creation and establishment of rural fire prevention districts."

Each voter shall mark out one of said clauses on the ballot, leaving the one unmarked which expresses his vote on the proposed amendment; and if it shall appear from the returns of said election that a majority of the votes cast are in favor of said amendment, the same shall become a part of the Constitution of the State of Texas.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamations for said election and have the same published as required by the Constitution and laws of this State.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

AUSTIN—Dr. George W. Cox, State Health Officer, today took mild exception to reports that South Texas faces an invasion of a widely circulated newspaper story quoting a Mexican government rabies specialist, Dr. Malaga-Alba, that pig faced vampire bats carrying the dread disease had been discovered 100 miles southwest of Presidio County in the Big Bend country.

"I think it's a remote, fantastic interpretation," Dr. Cox said. "This whole problem was discussed at the U. S. - Mexico Border Health Conference in Chihuahua two years ago. He said he was sure Dr. Malaga-Alba is 'entirely competent' and that the State Health Department would take every advantage of his warning.

"But the story didn't mention several pertinent facts about the situation. Vampire bats require a tropical environment. The story didn't mention that. And it didn't mention that vampire bats are relatively rare in tropical countries."

The newspaper story, originating in the Austin American, was "interesting," the long time health officer said. But he believes it might make all bats vampire bats "in the eyes of the public."

"And for the most part, bats are beneficial. Only the vampire is a blood sucker. The rest feed on harmful insects, including mosquitoes," Dr. Cox warned.

San Antonio has an ordinance which makes it unlawful to kill bats of familiar species. The State Bureau of Laboratories said they had never found bats positive for rabies.

Dr. Cox's statement: "The invasion of Texas by this vampire bat is a remote, fantastic interpretation (of Dr. Malaga-Alba's report). This bat is known to inhabit only certain southern geographical locations. Vampire bat history was discussed last year at the U. S. - Mexico Border Public Health Association in Chihuahua. Its limited migrations are to be expected.

"Isolated rabies infections caused by the bat have been reported from time to time in animals and man; however, there is no reason to expect bats to visit over the Rio Grande."

Be careful. Observe state and local traffic laws.

McFarlane Sets Forth Platform Of Candidacy

W. D. McFarlane opened his candidacy for Congress, in the special election to be held September 8, in his hometown, Graham, Saturday evening, August 4, speaking to a large and enthusiastic crowd on the Court-house lawn. He was introduced by John J. Gallagher, prominent Graham business man and former mayor. Mr. Gallagher cited Mr. McFarlane's record of service which includes eight years in the House and Senate of Texas and six years in the United States Senate, his outstanding legal career, and his proved ability to render to the people of this district honest, efficient service. He added to this the pride and esteem with which Bill McFarlane is held by those in Graham, his hometown for thirty years.

Mr. McFarlane, expressing his deep appreciation for the honor paid him on opening his campaign, by his hometown, stressed that he has "always been a candidate on my record of service rendered and not on the demerits of any other candidate, and in this campaign I hope to keep the discussion strictly upon the issues now pending solution before the people. I have voted consistently for what I believe to be right, whether or not it agreed with the administration program.

"The platform upon which I ask the privilege of representing the people of this district is as follows:

- 1. NATIONAL DEFENSE:** I have always favored a National Defense second to none. As a World War I veteran I became acquainted with our national defense equipment, as a member of the House Naval Affairs and Appropriations Committees I became familiar with and have continued an active interest in the problems confronting the national defense program in Congress.
- 2. AGRICULTURE:** I have always favored parity for farm and ranch products. We should continue the program of assistance to the farm, including soil conservation, rural electrification and cost of production plus a reasonable profit on all agricultural products. We should continue to improve federal highway aid for farm-to-market roads.
- 3. LABOR AND MANAGEMENT:** I have favored fair treatment for labor and management to protect each other's

rights. We should now enact such legislation as is desirable to establish a just body of rules to assure free and effective collective bargaining to determine in the public interest the rights of employees and employers and to enable unions to keep their memberships free from communistic influences.

4. ANTITRUST LAWS: I have favored strengthening and intensifying enforcement of anti-trust laws. We should enact legislation providing that violation of our anti-trust laws should be punished on the same basis as violations of other criminal laws. We must stop monopolies, unfair trade practices and unfair competition and give small business an equal opportunity to survive and prosper.

5. RIGHTS OF THE AGED AND VETERAN: I have always voted for uniform treatment and benefit for veterans, their widows, and orphans. Their rights under law should be made uniform for all wars, including the Korean, which so far has received little consideration by congress. I have voted for the Social Security Act and the corrective amendments to provide \$10 per month pensions for the aged. We should now increase old age assistance commensurate with the increased cost of living.

6. STATES RIGHTS FREE FROM FEDERAL DOMINATION: I have favored states rights wherever this question has arisen and favor the states' title claim in the submerged lands.

7. DEBTS AND TAXES: As a member of the Appropriations Committee I have favored rigid economies in government spending and have advocated placing safeguards on administrative agencies and limiting their expenditures. I favor reduction of taxes on incomes under \$10,000 and more liberal exemptions for each dependent I have always favored retention of the community property exemptions and deduction allowances, which have been a part of the statutes for many years.

8. SOCIALIZED MEDICINE: I am opposed to socialized medicine as it now exists in England. We should enact legislation that will encourage and provide more doctors, and through insurance programs care for those unable to pay for needed care.

9. FOREIGN AFFAIRS: Under our bipartisan policy we won World War II and have been winning the cold war against communistic hostility whenever and wherever it has shown its ugly head. We should continue to strive for preparedness, not weakness; collective security, not isolation; our people ev-

erywhere want peace, not war.

10. PRICE AND WAGE CONTROLS: During the Korean situation and any other war emergency when and where our government is purchasing tremendous war supplies we should immediately have price and wage controls to protect consumers against the perils of inflation.

Because the last three republican administrations followed their fundamental policy and principles that government exists for the benefit of the privileged few, they wrecked our governmental economy. In this campaign it has been charged and denied that the Republican National Committee has a man in Wichita Falls directing the republican candidate's campaign in this district, to try to "win this race and others lead us back down the road of Hoover's prosperity into an economic state of collapse. In 1932 the Democrats were entrusted with the responsibility of correcting these wrongs which under republican neglect of the people's rights had blighted their hopes, had squandered the fruits of prosperity and had plunged the nation into the depths of our worst depression and despair.

You remember those chaotic conditions confronting the nation back in 1932. Cotton was selling at 5 cents per pound, corn at 10 cents per bushel, wheat at 25 cents per bushel, cattle at 3 cents per pound on the hoof, crude oil at ten cents per barrel and all other products in proportion. Our nation was staggering under the heavy load of poverty, unemployment, and want. Farms and homes were being foreclosed, by the thousands, and farm products were rotting in the fields for lack of a market and buying power to purchase them. Fifteen million men were unemployed. Factories were closed; banks went broke. The whirlwind of hunger and starvation howled through the empty streets and vacant buildings throughout the land.

It was at this time and under these conditions that you good people elected me to Congress to right these wrongs perpetrated by these three republican administrations. The above program and platform upon which I now ask your support is the record I made as your representative in Congress.

In going to the polls on September 8, I urge you to select your representative in Congress as you would your lawyer, doctor, banker or place of doing business, which is and should be based upon their ability, integrity, honesty, and efficiency to now render the service in the position involved. On this basis I urge and request your vote and influence.

Better Use of Space

THE problem of making better use of large spaces in kitchen cabinets is a common one. One way to solve it is to add some dividers. The ones illustrated are easily installed and inexpensive.

If the shelves are removable, take them out and cut saw grooves into which panels of Masonite 1/4-inch tempered

hardboard may be slid. A common alternative is to install commercially available metal moldings to serve as slides for the hardboard dividers.

Note that circular segments are cut from the front edges of the dividers to provide easy access to each space. Homemakers will find the spaces useful for storing over-size platters, cookbooks, large shallow pans and other odd-size pieces of kitchen equipment.

Misses Jerry and Nancy Brooks, who visited several days last week in Hamlin, returned home with their parents Sunday. They also visited friends in Stamford.

Mrs. Nell Stratton left a few days ago for Cleveland, Ohio, to visit in the home of her daughter, Mr. and Mrs. Jack Carter. She will also visit in Charlotte, N. C., before returning home.

Miss Charlene Robinson is visiting in Dallas with relatives.

Mrs. Bill Collander and children, Billy and Janice, and Mrs. J. T. Barnett and children, Darlene and Johnny, of Irving, visited their parents, Mr. and Mrs. Jim Proffitt, and sister, Mr. and Mrs. J. W. Shahan and son of Goree recently.

W. W. Coffman Of Goree Is Honored On 74th Birthday

Mr. and Mrs. O. E. Moore of Goree were hosts for a happy occasion last Sunday when they entertained with a sunrise breakfast, followed by a buffet dinner, honoring Mrs. Moore's father, W. W. Coffman, who celebrated his 74th birthday.

His six children were together for the first time in 13 years. Pictures were made in the afternoon. An exact replica of a picture made more than 40 years ago was made with the exception of the mother, who passed away 13 years ago. The 26 children, grandchildren and great grandchildren present are as follows:

Mr. and Mrs. Floyd Coffman and son, Edwin, Littlefield; Bill Coffman, Fort Worth; Mrs. Neva Kennedy, Lubbock; Mrs. Mark McWhorter, Monahan; Mr. and Mrs. Walter Coffman, and daughter, Mary Kathryn, Goree; Mr. and Mrs. E. Texas Crusade for Freedom Chairman Lieut. General Preston A. Weathered, left, points out spot in Europe where Radio Free Europe stations are making great strides in refuting Soviet lies and propaganda to L. D. Whiteley, Texas Jaycee president. The Texas Junior Chamber of Commerce adopted the 1951 Crusade for Freedom, a gigantic drive by Americans to halt Communism everywhere, as a statewide project.

Survey Made On Observance Of Holidays

ABILENE—Growing interest in observing Memorial Day as a holiday instead of Armistice Day, November 11, and the "victory" days is shown by a survey of West Texas cities just completed by the community services department of the West Texas Chamber of Commerce.

Sixty-six local chambers of commerce contributed to the survey.

Twenty-eight reported their towns observe Memorial Day while only twenty "close up" on Armistice Day and none on V-J Day.

All 66 observe the fourth Thursday of November as Thanksgiving Day. All observe Christmas but four do not close on Independence Day and only 48 observe New Year's Day.

One town observes Easter and one other Good Friday. Labor is a holiday in 39 of the 66 towns.

None reported a holiday on San Jacinto or on George Washington's Birthday.

Traffic Accidents Taking Heavy Toll Of Human Lives

AUSTIN — Texas established another "first" last year but it's one in which the State's citizens can find little to be proud.

The "first" was officially announced in the Texas Motor Vehicle Traffic Accidents Summary for 1950 just released today by Homer Garrison, Jr., Director of the Texas Department of Public Safety. Entitled "Their First Time—and Last", the annual booklet does an exceptionally fine job of traffic accident analysis, breaking down the subject into every conceivable category from age of drivers and autos involved to the causative factors contributing to accidents.

The "first" was the all-time high of 2,410 lives lost in traffic accidents in the State last year. These represented the more gruesome aspect of twelve months period which saw a total of 202,641 accidents and 68,801 personal injuries on the streets and highways of Texas. Total economic loss resulting from these accidents was reported in excess of \$96 million.

Texans can find even less to

boast about in the fact that N. K. Woerner, Chief of the Public Safety Department's Statistical Division, indicates that the all-time traffic fatality toll of last year is due to be replaced this year by an even higher figure. "Precluding the adoption of a rationing program affecting gasoline and tires, and more rigid controls governing the manufacture of motor vehicles, all of which would result in a reduction of traffic accidents through the curtailment of vehicular travel," Woerner stated, "we estimate that traffic deaths in 1951 will exceed 2,500."

National Farm Safety Week may be past history for 1951 but farm families are urged to observe safety rules in the home or on the farm if they want to be around when the 1952 Farm Safety Week rolls around.

Watermelons cannot be successfully frozen but some of their goodness can be preserved for future use in the form of watermelon rind preserves.

When used properly machinery and home appliances save labor and human drudgery but when used carelessly they become agents of destruction.

Let's Talk LIVESTOCK

(By Ted Goadly)

FORT WORTH, Aug. 3—The Summer cattle marketing season rolled into August with prices at generally all time highs for this season of the year.

During the past week most cattle and calves and stocker and feeder lambs showed higher prices. This was a development that is contrary to the normal seasonal trend.

Many carloads of stocker and feeder cattle and calves went in to Northern farming and ranching areas from Fort Worth this week at strong prices, some calves and yearlings \$1 or more above prices a week ago.

A factor in this movement has been the exceptionally good grazing available in fields and pastures in the middle west where rains have been abnormally large this summer.

This good grazing spells quick and economical gains in weights for farmers and ranchers there and with plenty of time to take advantage of it before frost, these buyers are getting in the market in larger numbers each week.

Most Midwest farmers are lagging this year in buying replacement stock. High prices, coupled with confusion over the ceiling and control laws which have been in the making, accounts for the fact that purchase of stockers and contracting for Fall delivery has been very slow.

There is a feeling current among stocker buyers in the North that stocker prices will break sharply in September and October. Their wait-and-see attitude stems from this belief.

Currently, prospects for winter wheat grazing in the Panhandle and Upper Plains section are very good. Some observers feel that there is season enough in the ground in most of that section to get the wheat up to a stand without more rain. If later rains come, this could be another big year on the winter wheat pastures.

Some buyers are now putting up suitable stockers with this in view. Generally buying types that can go either onto wheat or into the feedlot if the wheat does not develop.

It all adds up to a highly favorable Summer cattle market at a time when the Southwest is

Governor Allan Shivers has named Ben H. Carpenter of Dallas new head of the Livestock Sanitary Commission of Texas. Carpenter operates extensive farm and ranch properties in Freestone, Navarro, Kaufman, Henderson, Anderson and Dallas counties. Other activities which enhance his value to the new post have been his service on the Livestock Committee of the State Fair and work on livestock and agriculture committees of the Dallas Chamber of Commerce. Carpenter, while young in years, is already established as a progressive livestock operator who should make the Governor and the State of Texas a top hand at his new job.

It has been a regrettable fact that in years past the Commission has from time to time been at odds with the Legislature for one reason or another and at times has been seriously handicapped by lack of funds. These political fights have crippled the effectiveness of the Commission's work for the good and welfare of the State's livestock producers. In recent years the Commission and Legislature have gotten along better but more funds are needed and much can be done to make livestock safer and more profitable.

Carpenter's fellow members on the Commission are Ray Wiloughby of San Angelo and Claude McCann of Victoria, both of these gentlemen are progressive and know what it is all about. If the Legislature will heed these men's requests they will make no mistake and the Commission can begin getting

3-Bottom Mounted Plow

Fall plowing gives the WD and its new 3-bottom plow a chance to show what they can do. Let us prove to you that the WD will do the work of a much heavier tractor and that the new square-built plow is built to take it.

Two Allis-Chalmers features:

- 1. HYDRAULIC TRACTION BOOSTER** automatically puts extra weight on the WD rear wheels as the drawbar load increases. Takes off the extra weight as soon as you pass the tough spot.
- 2. THE PLOW IS FREE-SWINGING.** It follows contours and is free to dodge rocks. Short-coupled hitch gives quick penetration at the ends and mounts the plow bottoms close to the rear wheels for uniform depth control.

Let us prove it on your own fields.

Rhineland Catholic Church To Be Dedicated During September

St. Joseph's Catholic Church, which has been renovated at a cost of \$100,000, will be dedicated some time in September by Most Rev. Augustine Dangelmyer, auxiliary bishop of Texas.

The exact date has not been set, Fr. Fabian Diersing, O. S. B., of St. Joseph's Church, said. "It depends on when the auxiliary bishop can fix a date," Fr. Diersing said.

However, the interior of the magnificent, Gothic style structure will be completed in the next few days. The auditorium has been relined with white oak flooring. All furniture will be new, including 125 oak pews from Pilot Point, Texas. Ultimately, 400 pews will be installed. The pews will cost around \$8 a lineal foot. The 125 seats will cost about \$5,600. The sanctuary has red oak flooring.

Leo Dielman, San Antonio, was architect. The entire exterior of the large structure—54 feet wide and 125 feet long—has been remodeled at a cost of \$40,000. Turrets of the old building were removed, copper sheeting and new gutters installed, with copper shields. The old building of brick made on the ground. The original cost was about \$35,000, but all labor was donated. It had an actual value of around \$65,000.

Extensive Remodeling

Fr. Diersing said that in the remodeling about \$50,000 has been spent alone on the interior. Ninety-seven per cent of the labor was consumed in moulding work in the interior.

The choir loft is in the rear, elevated above the nave and amplified organ, costing around \$1,700, and now in the parish house will be installed by dedication

time, Fr. Diersing said.

The heating system is being installed by the Lone Star Gas Company which has a pipe line through Rhineland. The system has ducts so that air conditioning can be substituted in summer time.

The tall tower at the front of the enormous structure contains three sweet-toned bells. These peal out thrice daily—6 a. m., 12 noon and 6 p. m. The first is Angelus. Also parishioners are called by the bells to divine services. Fr. Diersing said he hoped parishioners would donate electric equipment in the near future so bells might ring in response to push buttons.

Has 525 Members

The St. Joseph Catholic Church, Fr. Diersing said, has about 525 members in 120 families, most of German extraction. For the last several months members have held services in the Rhineland school auditorium, which is too small. Only morning service at 6 o'clock on Sundays has been held. "When we return to our church we'll resume morning and evening services," he said.

It has required over a year to renovate the St. Joseph Church. Work started July 24 in 1950. Completion is expected by August 15. Fr. Diersing has been priest here since June 17, 1947.

St. Joseph congregation was founded in 1895. Since then many have moved away and established Catholic churches elsewhere, Fr. Diersing said. Some are in Albuquerque, N. M., on the Plains, at St. Francis, Groom, Nazareth, and Pep. Special invitations have been extended these to be present at the dedication. "We look for many from Seymour, Munday, Scotland and throughout this area. The attendance will be terrific," Fr. Diersing added.

A big picnic will be staged at the noon hour of the day of dedication. Dedicatory service is expected to be around 9 a. m., enabling people at a distance to be here. And because the immense crowd will probably overflow the large auditorium, Fr. Diersing has arranged for a large public address system to be installed to carry speakers' voices throughout the churchyard.—Abilene Reporter-News.

Jungman Family Reunion Held At Lubbock July 26

Eighty-three members of the Jungman family attended the annual reunion at the newly air-conditioned party house in McKenzie State Park, Lubbock, on Thursday, July 26.

At 9 a. m., members of the family started gathering, each bringing baskets filled with eats. Prior to the noon meal, "America" was sung by the group, accompanied by Herbert Jungman of Rogers, on the piano. A bountiful meal was enjoyed.

A business meeting followed, with A. G. Jungman of Pep, chairman, in charge. Minutes of the 1950 reunion were read, and the 1952 reunion was set for the last Thursday in July, to be held either in Munday or Seymour.

All old officers were re-elected: A. G. Jungman, Pep, chairman; Mrs. H. A. Fuchs and Herbert Jungman, Bucholts, vice-chairman; W. A. Jungman, Munday, secretary and treasurer.

A. G. Jungman gave a full report of the family history which he has compiled during the past two years, of which 97 books have been sold. He distributed a list of two marriages and six births of children since the book

HOUSE JOINT RESOLUTION NO. 3 proposing an amendment to Section 49-b, Article II, Constitution of Texas, so that the total amount of bonds or obligations that may be issued by the Veterans Land Board is increased to One Hundred Million Dollars (\$100,000,000); providing for the issuance of said bonds and certain conditions relating thereto and the use of the Veterans Land Fund; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-b, Article II, Constitution of Texas, be amended so that the same shall hereafter read as follows:

"Section 49-b. There is hereby created a Board to be known as the Veterans Land Board, which shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Veterans Land Board may issue not to exceed One Hundred Million Dollars (\$100,000,000) in bonds or obligations of the State of Texas for the purpose that recited in the first Legislature provided, that when the limitation of Twenty-five Million Dollars (\$25,000,000) is used as provided in Senate Bill No. 29, the same shall hereafter be construed as One Hundred Million Dollars (\$100,000,000), or as such Act may be amended, or by other laws that the Legislature may hereafter enact; provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3%) per annum, and that the same shall be sold for not less than their face value and accrued interest.

"In the sale of any such bonds, a preferential right of purchase shall be given to the administrators of the various teacher retirement funds, the Permanent University Funds, and the Permanent Schools Funds; such bonds to be issued as needed, in the opinion of the Veterans Land Board.

"The Veterans Land Fund shall be used by the Board for the sole purpose of purchasing lands suitable for the purposes hereinafter stated, situated in this State, (a) owned by the United States, or any governmental agency thereof; (b) situated by the Texas Prison System, or any other governmental agency of the State of Texas; or (c) owned by any private corporation.

"All lands thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of the Veterans Land Fund.

"The lands of the Veterans Land Fund shall be sold by the State to Texas Veterans of the present war, or to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, so may be included within this program by legislative act, in such quantities, and on such terms, and at such prices, and under such rules and regulations as are now provided by law, or may hereafter be provided by law.

"All moneys received and which have been received and which have not been used for redemption of land as provided herein by the Veterans Land Board from the sale of lands and for interest on deferred payments, shall be credited to the Veterans Land Fund for use in purchasing additional lands to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be included within the program by legislative act, in like manner as provided for the sale of lands purchased with the proceeds from the sale of the bonds issued hereunder during the period ending December 31, 1950; provided, however, that so much of such moneys as may be necessary to pay principal and interest on the bonds hereunder issued hereafter, shall be set aside by the Veterans Land Board shall be set aside for that purpose. After December 31, 1950, all moneys received from the sale of lands and interest on deferred payments, or so much thereof as may be necessary, shall be set aside for the retirement of said bonds and to pay interest thereon, and any of such moneys not so needed shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All bonds issued hereunder shall be approved by the Attorney General of Texas, registration by the Comptroller of the State of Texas, and delivery to the purchaser, be incontestable and shall constitute obligations of the State under the Constitution of Texas. Of the total One Hundred Million Dollars (\$100,000,000) of bonds herein authorized, the sum of Twenty-five Million Dollars (\$25,000,000) has heretofore been issued; said bonds are hereby in all respects validated and declared to be obligations of the State of Texas. This amendment shall become effective upon its adoption.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State of Texas on the second Tuesday in November, 1951, at which election all voters favoring the proposed Amendment shall write on their ballots the following words:

"FOR the Amendment to Section 49-b, Constitution of Texas, for increasing Veterans Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945."

Those opposing said proposed Amendment shall write on their ballots the following words:

"AGAINST the Amendment to Section 49-b, Constitution of Texas, for increasing Veterans Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945."

If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date of the determination of such result and the Governor's proclamation thereof.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this State.

Drive carefully—the life you save may be your own!

Editor's note: For this hot weather, the Knox Prairie Philosopher on his Johnson grass farm on Miller Creek is writing pretty seriously. It's the heat, no doubt.

Dear editor:

I was out here yesterday sitting around in the shade waiting for cooler weather, some people want to do something about the weather but I find waiting is the best plan, seems like it's been hotter this summer than it's ever been before, but I felt the same way about last summer, and a little whirlwind not stirring up more air than the fourteenth candidate on a ticket for governor or passed by and dropped a lot of trash near me, including a copy of the Star-Telegram and since I needed something to fan with I picked it up and after I got through fanning, after deciding the amount of breeze I generated wasn't worth the effort it took, glanced over it and noticed an article saying the United States is in for a period of austerity.

That is, with more and more money being spent for defense, with more and more money going for taxes to pay for it, with more controls loomin, etc., the American people may not be able to keep up prosperity indefinitely and harder times may arrive, the experts contend, addin that with all this soft livin we been havin there's some doubt whether we could stand up to austerity.

Personally, I ain't worried. It's true this country has more comforts than any country on earth, but it's also true at one

time we had the fewest, and neither condition has gotten the best of us. I know a few people right now who ain't got no bed of roses and I know alot who can remember nickel cotton and two-bit corn. There's one thing about Americans, they can stand hard times as well as prosperity, or prosperity as well as hard times, and I know people now who started out pretty prosperous but wound up broke, but they seem to be gettin along about as well as anybody else, and I know some properous people now who, if the bottom should fall out, will fall out with it, carryin a few creditors along, but people who say Americans have been ruined by soft livin just don't know Americans.

Why, I been taking things easy out here for years and I got just as much strength of character as I started out with and about the same amount of money and, like the rest of the country, a few more debts.

Yours faithfully,
J. A.

Draft Call In September For 619 Texans

AUSTIN — The September draft call for Texas will be 169 men. Brigadier General Paul L. Wakefield, state director of Selective Service, announced today. General Wakefield said a telegram was received from national headquarters which said the Department of Defense had requested 34,180 men from all states and territories in September.

Texas draft headquarters was advised during the past week that its August call had been raised from 485 to 772. The July quota, now being filled, is 367. Local board quotas for September will not be available to state Selective Service headquarters before sometime in August, General Wakefield said. The September call brings the number of men called for in Texas since the beginning of

the fight in Korea to a total of nearly 29,000. Around 75,000 Texans have been sent by draft boards of reexaminations, since fighting broke out in the Far East.

Whether or not cease-fire in Korea is agreed upon, we expect to continue to get calls each month," General Wakefield commented. "The draft law has been amended and renewed for a period of four years, and the country seems determined to keep on a strong footing for any emergency which may arise."

FARMERS ARE URGED TO COMPLETE CONSTRUCTION PRACTICES

Prepare now to meet next year's national defense needs for farm products by completing the dirt-moving practices planned for 1951 under the Agricultural Conservation Program, J. C. McGee, chairman of the Knox County PMA Committee, advises Knox County farmers.
In many instances, the chairman points out, the completion of these practices will result in

increased yields next year. Also they will help to prevent losses of soil and water needed to produce next year's crops.

With the call for ever-increasing yields to meet growing military requirements and mounting civilian demands, these conservation measures are needed as a means of stepping up yields as well as to protect the land against erosion and depletion.

Terraces completed this year will hold moisture and check run-off and erosion. The moisture held back by these terraces could be the means of greatly increasing yields in the event of dry weather during the growing season. The same is true of other conservation practices. The dams which have been planned for completion under this year's ACP will have to be completed to be of value in producing the food and fiber next year.

Where farmers are depending on contracting for dirt-moving equipment to complete these construction practices, arrangements should be made early to assure getting the job done and for more orderly scheduling of the use of heavy equipment.

The chairman suggests that arrangements also should be made for necessary technical assistance in laying out and checking out this type of conservation practice. The Soil Conservation Service is to provide for technical assistance but arrangements should be made with the county PMA committee.

The fuselage and wings of the plane are equipped with tanks and hoppers for dusts and liquid materials. The plane has low, thick wings and a wide landing gear. Its design gives the pilot an extra-ordinarily clear view all around, particularly forward and down. He is protected from electric wires by a steel-tubing frame above his head and a stout wire running from this frame to the tail. The landing gear legs are sharpened down their forward edges to aid in cutting wires the plane may encounter.

The experimental plane was exhibited in Arkansas, Texas, New Mexico, Louisiana, and Oklahoma during July. In August it will be shown in Georgia, North Carolina, South Carolina, Florida, Alabama, Tennessee, and Mississippi. In September it will move west to California, Arizona, Utah and Nevada.

The Massey-Harris One-Way Discs are built in two sizes: 510-10-inch spacing 24" discs, 6, 8 1/2, and 10-foot sizes; 509-9-inch spacing, 24-inch discs, 6- and 8 1/2-foot sizes.

NEW MASSEY-HARRIS ONE-WAY DISCS WITH EXCLUSIVE Roto-Lift*

Roto-lift isn't ordinary... It's the new easy way to raise and lower the disc gangs on the Massey-Harris One-Way Discs. It's a rolling action that reaches full clearance in only 40 inches of travel.

And only the disc gang moves—the frame is fixed... lifting is easier on your tractor. No bulky connections... no excessive weight. You save power because discs cut clean, stay sharp. You prepare seed beds that hold more moisture... resist soil drifting. See us today—we've got complete details on the Massey-Harris One-Ways with Roto-lift.

GOOD YEAR SUPER-SURE-GRIP TRACTOR TIRE

First choice for 2 reasons!

1. Deeper soil penetration — greater pull. Goodyear's open center tread has straight deep-biting lugs. They cut cleanly into the soil, penetrate full depth, full length. Straight bars closer together at the shoulders wedge the soil for firmer grip — don't "plow out" soil at the sides.
2. Balanced straight lug tread design — longer wear. Goodyear open center lugs are all straight, all equal in size and spacing. That's why every lug wears equally, pulls fully, wears more evenly.

Goodyear Super-Sure-Grips don't cost a penny more. Get them for your tractor.
