It's a condition they don't like and rightly so. They like for the premises around their rural homes to look just as clean as we in town want ours.

They don't have the services of the garbage truck to help keep theirs clean. And when people make a dump ground of the area all along the roadway, it aggravtes the condition no end.

So if you have garbage to be dumped, any you get out on this road, then keep going a little further. Soon you'll find the proper place to dump it without infringing upon the good nature of those neighbors who live Munday. along the way.

BUSY MAN

American retailing always co-operates in worthwhile civic and other endeavors, and often takes the lead. And when some good cause that needs promoting comes along, it is in a position to take part on a national scale.

Officials of the Treasury Department and a committee from a retailing association which has some 7,000 member stores recently met to discuss the Defense Bond Campaign which will be launched on September 3 to extend through October 27. Following the meeting, the Association announced that it is asking all its members to co-operate to help make the campaign a success. It is expected that store participation in the drive will parallel a similar program which met with uotstanding success during the last World War, when retailers were credited with selling a high percentage of the total bonds sold.

This particular association includes chains and independents, big stores and relatively small stores. The stores compete hard for the consumer's business-but they all pull together in causes that benefit the whole nation and everyone in it. They deal directly with millions of people every day and so they are in a particularly fine position to "sell" a worthwhile idea.

The retailer is a busy man these days. He's doing his best to hold down prices in the face of all the inflationary pressures. He is burdened with a mass of complex red-tape that is an inevitable part of the price and other economic controls. He faces the problem of conusmer resistance to high prices coupled with rising averhead costs which are beyond his control. His profit percentage is nowhere near are large as most people think. He's doing his job.

OVERWORKED DOCTORS

News reports say that Britain's "free" national health servcie is threatened with a mass withdrawal of doctors. The doctors-20,000 are now enlisted in the service-have many criticis cluding the fact that they are forced to do far more work for less pay than in the days before medicine was socialized.

One need not be overly concerned with the plight of the dcotors to understand the significance of this development. The real victims of socialized medicine are the patients. An overworked doctor, firced under the panel system to attempt to treat an excessive number of people will inevitably make mistakes, and patients who are seriously ill will not, in many instances, receive the character of medica service they need. Morevover, under "free" medicine a dangerously large part of the doctor's time is taken up by people who have little or nothing wrong with them, and simply go to the office for examina-

tion because it's something they have coming. Under socilaized medicine, in addition, there has been a critical decline in research and in preventive medicine. Doctors simply haven't time

for it. And the British system offers small in-

Finally, if the real costs are honestly cuonted. "free" medicine is mightly expensive in terms of money as well as in terms of substandard medical care. The bill is paid in taxes. In Britain's case, the actual cost of the service has run far beyond the optimistics estimates, and has bene

Republicans Rescue Texas Tidelands

When the House recently passed Ed Gosseti's Bill proposing to restore to the States ownership of their submerged coastal lands by a vote of 265 to 109, or by more than a two-thirds majority, we Texans naturally felt greatly relieved.

But what we Texans ought to know, and what very few of us even suspect is that in many respects we owe this wonderful victory to the Republicans. Yes, the Republicans!

Let's take a look how both parties voted:

For the Bill: 156 REPUBLICANS, 109 Democrats

Against the Bill: 17 Republicans, 91 **DEMOCRATS**

This voting record clearly shows the Democratic Party split wide open on an issue of State's Rights. Fortunately, 90% of the Republicans vote was FOR State's Rights.

I think the time has come for all Texans to state publicly: "Thank God for the Republicans. We needed them and they didn't let us down." Soon, we will need them again to override Harry Truman's promised veto. They won't let us down the next time either; the Republican platform is for State's Rights.

The present so-called "Democratic" platform is AGAINST State's Rights.

I am sure very few of us know that in 1948 at the Democratic National Convention, Dan Moody of Texas introduced a resolution which demanded that State's Rights be fully supported by the Democractic Party. THIS RESOLUTION WAS DEFEATED.

As a Texan, I will never forget this insult.

If the Republicans in the House had treated Texas the way we Texans have treated Republicans in the past, our Tidelands would belong to the socialistic administration at this very mo-

It is high time that we return to a Government that will conduct the affairs of this country, strictly according to The Constitution of the United States.

That is why I am going to vote for JOE JACK-

All his opponents are members of a party that just doesn't know what the words Morality, Honesty, Economy and Courage mean.

This is not the time for party politics.

We must be Americans first September 8th.

I hope we will make that day ring with real Texas independence.

It reminds me of trying to lift your spirits by thinking about the time when you got 35c a pound for a steer while the one ou're sellin now is goin for 21c. can remember four years ago thought I was out-smartin a man when I sold him a calf for 16c a pound, and while the same calf will bring 30c a pound now, that ain't no consolation to me. as it would also have brought 35c four months ago. Tryin to keep cool now by thinking about last winter is about like bein tickled over high taxes now because they was low in 1911. like bein over-joyed with a sorry bill Congress passed because they passed a good one year be-
