

Kracker Krumb's Odd Bits Salvaged at Random

Not many folks in town these days.

Rains may have brought sufficient moisture to most places, but it seems to have been sufficient to put people to work in the fields.

Heard one person remark last week that it hardly tver failed to rain here at wheat harvest time.

But the rains didn't delay the harvest for long—and it won't be long until the wheat harvest is over for this area.

It's happening just about the same time in most of this 75-too. We used to think the harm-ale area, too. We used to think the harvest to the northwest of us was some two weeks later than it was here.

We took a trip to Childress and return last Sunday, and most all fields had combines running or standing by waiting for the moisture content of the wheat to be reduced some.

Back by way of Crowell, we noticed a lot of the fields already cut—and our big surprise came when we reached the town of Crowell.

Trucks loaded with wheat were lined up for several blocks, waiting their turn at the elevator. The line reached almost all the way from the elevator to the business part of town.

This is not unusual at the peak of harvest in that area. Sometimes it's a double line instead of the single one we saw Sunday.

But the surprise to us was that the harvest there came at about the same time it did here. The time to harvest wheat is when it's ready, and if we were a farmer we'd want to get it out in one day if we could.

Talked to our city secretary briefly about the new water well the town has hopes of getting...

He expressed the belief the well should have been dug and in operation by now. But as the situation stands, the city council has not received final plans from the engineer.

You know, the city recently allowed us an additional 1,000 gallons of water on our minimum charge. In other words, we can use 1,000 gallons more this month than we did last month, and at the same price.

It would be a little disappointing here in the dead of summer if the city officials should come out with the statement we're running short of water, and ask us to shut 'er off.

We'd been looking forward to the completion of the new water well as putting an end to our water shortage. We've been fortunate in the past. Only on about two occasions have we been asked to cut our water consumption down to the minimum.

Most of us have found out how discouraging it is to watch grass, and flowers and gardens burn up and not be able to supply them with life-giving-water—to say nothing of not being able to fill the bath tub as full as you want to on Saturday night!

We're kinda embarrassed when folks come to our office and say: "Well, I declare, I didn't know you were working here!" Guess it's all our fault in a way. It looks like she might be here quite a while, too, so here's the announcement:

Mrs. A. E. (Bill) Bowley is an employee of the Munday Times. She took the job made vacant by the resignation of Mrs. John F. Nixon.

Bill is our chief news gatherer, the bookkeeper, proof reader, correction putter-inner, and whatnot.

She's been on the job here about two months. At first we placed her in charge of a desk—sometimes we think she's going to take charge of the entire office!

At first she'd take the blame for everything that went wrong. Now she's getting to be a seasoned newspaper person—she passes the buck just like the rest of us.

She's on the job—and doing the job—so don't express surprise at finding her in the newspaper office.

Bankers Meet In Haskell; Hamlin Man Heads Association Next Year

Tate May, president of the Farmers and Merchants National Bank in Hamlin, was elected president of the Seven County Bankers Association at the annual meeting held in Haskell last Friday. Charles F. Markham, vice-president of the First National Bank of Stamford, was elected secretary.

One hundred and thirty bankers and their wives from Baylor, Haskell, Jones, Knox, Shackelford, Throckmorton, and Young Counties attended the meeting and selected Stamford as their meeting site for 1953.

Agriculture in relationship to banks was the topic of the program. J. C. Porter, manager of the agricultural department of the First National Bank of Wichita Falls, listed poor management, improper financing, failure to use new scientific methods, and misuse of soil as major production limitations in his speech on "problems limiting agricultural production."

In a talk on conservation and agricultural loans, Charles D. Morrison, manager of the agriculture department of the City National Bank of Wichita Falls, declared that "conservation is a sound business and it is up to the bankers to help the farmers." He said, "if the bankers do not help them, socialized credit will."

R. W. Harren, Haskell farmer, concluded the program by discussing "what we farmers expect of our banks." He suggested that banks offer farmers advice on their bookkeeping, records and finances. He also added that banks need agricultural contact men to appraise farmers' security.

Attending the meeting from the First National Bank in Munday were Mr. and Mrs. W. E. Braly, Mrs. L. V. Cook, Mrs. Don Boyles, Mrs. Tom Morton, Mrs. Freddie Morrow, Paul Pendleton, M. L. Wiggins and J. Welton Smith.

Local Golfers Club Tourney Now Under Way

Members of the Munday Municipal Country Club opened their annual spring golf tournament last Sunday, as matched play got under way. Qualifying rounds were played during last week.

Thirty-four golfers entered in the four flights of the tournament. Matched play was slow during the early part of the week, with many of the players being busy in the wheat harvest and with other types of work.

Through Tuesday, Joe Morrow, champion of last year's tournament, was leading in the championship flight. He had defeated Billy Mitchell and Lamoine Blacklock to give him a spot in the finals.

Final play will be reeled off on the club's new grass greens next Sunday.

City Lake Yields Big Channel Cat To Coy Tuggle's Line

One look at the big channel cat which Coy Tuggle was exhibiting last Thursday made lots of folks want to go fishing. Some might have entertained ideas of giving up their favorite fishing spot and heading straight for the city lake east of town.

There's where Coy made his catch, and he said the channel cat tipped the scales at 9½ pounds. Looked that big, too.

LOCAL MERCHANTS GO TO FASHION MARKET

DALLAS—J. A. Choucair, Mrs. M. C. Hallmark, E. E. King, and Kay Wahed of Munday attended the Fall and Back to School Fashion Market of the American Fashion Association in Dallas during the week of May 25 to 30.

More than five thousand buyers from seventeen states filled the Dallas hotels to capacity during the five day event.

The highlight of the week was the presentation of "The Seven Keys to Fashion" by the Dallas Fashion Arts, Inc.

Mrs. Ralph Watkins of Wichita Falls spent the first of the week with her parents, Mr. and Mrs. W. E. Reynolds.

Masonic Lodge Names Officers

Officers for the new year were elected by members of Knox Lodge No. 851, A. F. & A. M., at the regular stated meeting last Monday night. They will be installed at the regular meeting in July.

All members of the lodge are urged to pay their annual dues before the deadline, June 24. New officers are: Joe B. Roberts, re-elected worshipful master; Terry Harrison, senior warden; Levi Bowden, junior warden; G. B. Hammett, re-elected treasurer and secretary; Rev. J. R. Bateman, chaplain, and Fletcher Gates, tiler.

Appointive officers are: J. D. Gillespie, senior deacon; Robert Green, junior deacon; Chester Bowden and Clyde Hendrix, stewards.

A called meeting has been set for Monday night, June 16, for work in the fellowcraft degree.

Knox County Hospital Notes

Patients in the Hospital June 2nd:

Bill Chapman, Goree; George Hardburger, Knox City; Myrtle Nettton, Goree; J. F. McAfee, Munday; Mrs. Silberio Munoz, Munday; Sam White, Knox City; L. C. Hawkins, Knox City; L. C. Hankins, Knox City; Mrs. W. A. Baker, Munday; Mrs. Dana Hodge, Big Spring; Mrs. Roy Hester, Knox City; Mrs. Kenneth Lawson and baby, Knox City; Mrs. C. W. McCarty, Knox City; Hugh Rogers, Knox City; Mrs. A. J. Waldron, Munday; C. F. Holloway, Shawnee, Okla.

Patients dismissed since May 26th:

Mrs. Clara Williams, Goree; Mrs. Victor Flores, Vera; J. W. Burleson, Throckmorton; Mrs. Adolph Johnson, Stamford; Almond Kaiser, Weatherford, Okla.; Gordon Gaines, Munday; Mrs. J. L. Ford, Munday; Shirley McCarty, Munday; Joe Ortega, Knox City; Mrs. B. B. Benton, Knox City; Mrs. O. J. Beeler, Benjamin; R. W. Barrington, Throckmorton; Mrs. W. M. Hertel, Benjamin; W. H. Paul, Knox City; Mr. and Mrs. J. R. Rye, Stamford; George Kaiser, Weatherford, Okla.; Mrs. H. T. Cook, Gilliland; Bernice Webber, Munday; C. V. Hackney, Knox City; Mrs. Howard Marshall and baby, Knox City; Mrs. Harry Tucker and baby, Knox City; Ed Fletcher, Knox City.

Deaths:

J. D. Simmons, Knox City

Births:

Mr. and Mrs. Kenneth Lawson, Knox City, a son.

News Of Munday's Fire Department

On Friday evening of last week the local firemen rushed to answer the fire alarm. The front seat of a 1948 Pontiac, parked on Main Street, was smoldering. The seat was drenched with water and was only slightly scorched.

Starting Saturday morning, June 14, there will be many kinds of pies and cakes on sale at the C. D. A. office. Anyone wishing to enjoy the pleasing and delicious flavor of these home baked delicacies may do so by rushing down Saturday morning and purchasing them.

Also, anyone wanting to aid the local Volunteer Fire Department by baking either a pie or cake, may do so. Any information concerning the sale will gladly be given by calling any of the firemen. Remember, your donation will be greatly appreciated.

Mr. and Mrs. M. C. Cude and sons of Dallas visited with Mr. and Mrs. E. J. Cude and other relatives over the week end.

GROUND BREAKING FOR NEW GILLESPIE CHURCH Ground breaking for the new Gillespie Baptist church building will be held on Sunday, June 15, at the 11 o'clock service.

All members and friends are invited and urged to be present for this service.

Shucks, We're Not Scared!

Nothing but smiles with these youngsters as they face the future. The cares of the world are not going to get them down. They are:

Top row, left to right, Judy, 6 months, daughter of Mr. and Mrs. Gene Brown, Munday; Carol, 7 years, daughter of Mr. and

Mrs. J. M. Moore, Munday; Kathy, 4 years, daughter of Mr. and Mrs. Larry Wilson, Goree; Bottom row: Tommy, 2 years, son of Mr. and Mrs. Curtis Golehon, Munday; Janice, 3 years, daughter of Mr. and Mrs. E. M. Peek, Goree; Patty, 5 years, daughter of Mr. and Mrs. J. A. Hill, Jr., Munday.

PMA CHAIRMAN STRESSES FARMER RESPONSIBILITY IN CONSERVATION

To guide farmers of Knox County in determining the "most urgently needed conservation" on their individual farms, J. C. McGee, chairman of the county PMA committee, emphasizes the points which farmers should consider.

The objective of conservation is production. Whatever is done should be aimed at meeting current needs stimulated by the defense effort and at meeting the future needs of our increasing population.

The chairman points out that emphasis should be on those conservation practices which will give the greatest return on the investment—both the investment of the individual farmer and the investment of the public provided through the Agricultural Conservation Program.

Practices which the farmer would carry out without program help should not be included. This applies to practices which ACP helped get underway but which have not become a part of routine operations.

Particular emphasis should be on soil and water conservation practices "most urgently needed" on the individual farm. This may mean a concentrated effort to meet a common problem affecting several farms or it may mean distinct and quite different operations for adjoining farms.

The chairman especially urges farmers to consider practices of the permanent type—small dams and water courses, contour systems, terraces, establishment and improvement of grasses and legumes. If the soil structure is breaking down, practices to restore humus may be the primary need.

In determining the "most urgently needed" conservation, the chairman urges each farmer using ACP assistance and Soil Conservation Service technical help "to keep in mind his own responsibility as a partner in the Nation's wide effort to protect and improve the Nation's land and water resources."

Just Posing

Nothing about that camera that's scary for these two young folks. They are Kenneth, 4 years, and Shirley, 3 years, children of Mr. and Mrs. Archie Struck of Goree.

Mr. and Mrs. Wilkie Guinn and children visited relatives in Fort Worth over the week end. Linda and Wanda remained for a visit with their grandparents, Mr. and Mrs. M. C. Warren.

Mr. and Mrs. Herschel Thompson of Seymour were guests in the home of Mr. and Mrs. Elmer Dickerson last Monday.

Mr. and Mrs. W. J. Simpkins and Iva of Plainview were guests of Mr. and Mrs. Dee Allred last Monday.

Wheatime Band Here On Tuesday

Goodwill trippers for the Wichita Falls Wheatime celebration came noisily into Munday at about 10:30 Tuesday morning. The delegation stopped on Main Street and gave a short program of entertainment while others in the bunch visited various business houses and distributed Wheatime programs and literature.

The celebration opened at 11 a. m. Thursday, at which time John Michels of Munday, who harvested the first load of wheat in the area, was awarded the King of Wheat prizes. A souvenir program of the Wheatime celebration carried a picture of Michels on its front page.

Munday is being well represented, with Miss Patsy Morrow representing the community as Wheatime princess.

Mattson Principal Comes To Munday As Commercial Teacher

George M. Beard, principal of the Mattson high school in Haskell County for four years, announced his resignation last Tuesday.

In making his resignation, Beard said he had accepted a position with the Munday Public Schools and will serve as elementary school principal. He will also teach two typing classes and a shorthand class in high school.

Beard received his master's degree in education from Hardin-Simmons University last Monday.

Alfred Guinn, who is attending Midwestern University in Wichita Falls, spent the week end with his mother, Mrs. L. C. Guinn, and other relatives.

Mr. and Mrs. Gene Harrell and children visited friends in Snyder last Sunday.

Miss Norma Lee Smith has returned home from Shawnee, Okla., where she had been visiting Mr. and Mrs. O. N. Smith for several days.

Mr. and Mrs. Carl Jones of Loco Hills, N. M., visited in the home of Mr. and Mrs. Bill Galthier and with other relatives here and at Goree over the week end.

Mrs. Mike Willoughby and sons, Michael and Pat, are visiting their sister and aunt, Miss Laura Moylette, in Wichita Falls this week end.

Mrs. J. K. Jackson and son, Kenny, are visiting Mrs. Jackson's parents, Mr. and Mrs. Felty, in Celeste this week.

Ross Jones, son of Mr. Marion Jones has enrolled at Midwestern University in Wichita Falls for the Summer semester.

VIOLA CAMPBELL CIRCLE TO MEET NEXT MONDAY

The Viola Campbell Circle of Baptist W. M. S. will meet in the home of Mrs. J. R. King next Monday afternoon at four o'clock. All members of the circle are urged to attend.

Economic Production Of Cotton Is Stressed To Tri-County Ag. Club

Rev. Doyle Ragle Is New Methodist Pastor At Munday

Rev. Doyle Ragle, for several years professor at McMurry College in Abilene, was named pastor of the Munday Methodist Church at the annual Northwest Texas Conference in Lubbock last week. Rev. Ragle comes to the local church highly recommended as a pastor and church leader. He succeeds Rev. R. L. Butler, pastor here for three years, who retired because of declining health.

Rev. Ragle, his wife and three children are moving to Munday this week, and he will fill regular appointments at church next Sunday.

Rev. Bourdon Smith was returned to Goree for his second year as pastor there.

Few changes were made in the various districts. Moran, Albany, Hamlin, Sylvester, McCaulley, Longworth, Roby and Rotan churches were taken from the Abilene District, and Rev. J. H. Crawford was returned as superintendent. Appointments for the Stamford District are as follows:

Albany, E. S. Yeats; Aspermont, Aaron Mitchell; Avoca, W. M. Wilkinson; Elbert, to be supplied; Goree, Bordon Smith; Hamlin, S. Duane Bruce; Hamlin, Fifth Church, Oran Lewis; Haskell-Paint Creek, J. B. Thompson, Jayton, J. E. Peters, Knox City, Oscar Bruce; Longworth, Fred S. Cox.

Leuders, Roy Shillings; McCaulley, Virgil Smith; Morna, Melvin Mathis; Munday, Doyle Ragle; O'Brien, J. B. Johnson; Rochester, James Price; Roby, Roy Patterson; Rotan, P. E. Yarbrough; Rule, Homer Salley; Sagerton-Tuxedo, R. L. Kirk, Jr.; Seymour, Rollo Davidson.

Stamford, St. John, Charles E. Fike, Jr.; Sylvester, C. R. DeGoo; Throckmorton, R. S. Watkins; Vera-Benjamin, J. P. Cole; Weimert, C. C. Lamb; Westover, to be supplied; Woodson, Ray Elmore.

Hill On Leave Of Absence From Duties As Deputy Sheriff

Frank Hill, deputy sheriff of Knox County, announced Tuesday that he has taken a 60-day leave of absence from the sheriff's office in order to devote full time to his campaign for county judge.

"I do not feel it was fair to the voters to be running for office at their expense by remaining on the county payroll," he said. "My intention is to fully cover the county during the coming two months, seeing all voters possible in behalf of my candidacy."

Teachers In Goree Schools Receive Their Degrees On Monday

J. Bryan Lawson, superintendent of the Goree Schools, and Mrs. Homer Moore, principal of the grade school, were members of the graduation class at Hardin-Simmons University in Abilene last Monday. Both received master of education degrees.

Other Goree teachers doing college work this summer are: Mr. and Mrs. James C. Carver, Mrs. Bettye Taylor and Mrs. Ava Thibaud, who are attending Hardin-Simmons University; Mr. and Mrs. M. J. Kirby, who are attending Sul Ross College in Alpine.

ATTEND HOMECOMING

Mrs. S. A. Bowden and Chester visited relatives in Rising Star over the week end and attended the annual homecoming and singing which was organized 61 year ago. People from different parts of Texas came to meet old friends and renew old acquaintances. An enjoyable picnic dinner was served.

Mrs. L. A. Walker of Medina was a guest in the home of Mr. and Mrs. Riley D. Bell last Wednesday.

Dr. Fidelia Moylette is attending the Texas State Chiropractic Association in Dallas on June 5, 6 and 7.

Fred Elliott, Cotton Specialist of the Texas Extension Service spoke to members of the Knox, Baylor, Haskell Agricultural Club on factors for economical cotton production at the regular monthly meeting held at the American Legion Hall in Munday on May 29th.

The meeting was started at 8:00 P. M. with a dutch lunch, and after eating, L. B. Patterson of Munday was introduced to the group as president for the coming year. Vice presidents were Omar Cure, Knox County; Henry Arledge, Baylor County; and C. G. Burson, Haskell County. Russell Penick of Munday was appointed Secretary. Program committee consisted of Roy Saunders, Munday; Roy McClung, Baylor County Agent; Frank Martin, Haskell County Agent; and Bill Pallmeyer, Knox County Agent.

Elliott started his talk by pointing out the duties of the three divisions of Texas A. & M. The student body which trains young men, the experiment branch which deals with research, and the Extension branch which carries information to the rural people of the state. Elliott stated that the college was now carrying out 52 cotton research projects, which ranged from cotton breeding through cotton machinery to cotton marketing.

Highlights of Elliott's talk were the breeding program carried on by the college, and the use of chemicals for weed control. Several new chemicals and oils promise to reduce the price of producing cotton, and the use of machines to harvest the crop also reduce the producers' expense. Elliott also recommended planting varieties that have been proven to give high yields because the aim of cotton producers is to produce the most per acre at the least cost per acre. The June meeting will be held on Thursday, June 26th at 8:00 P. M. at Munday. Subject of the meeting will be COTTON INSECT CONTROL, and all interested are invited to attend.

Local Girl Receives Degree From TSCW

DENTON — Miss Charlotte Williams received the bachelor of science degree during the commencement exercises at Texas State College for Women June 2.

Miss Williams, the daughter of Mr. and Mrs. P. V. Williams majored in voice at TSCW. President John A. Gu'n'n of TSCW addressed the 238 graduates. Delivery of the commencement address by the college president is a 16-year tradition at TSCW.

Exercises followed a week-end of social activities honoring the senior class.

Sue Ilseng High Ranking Student In Dallas High School

Sue Ilseng, daughter of Mr. and Mrs. A. T. Ilseng, 1707 Mentor, Dallas, was the second highest ranking student in the graduating class of Crozier Technical high school in Dallas. Graduation exercises were held Friday.

Miss Ilseng, a former resident of Munday, was a member of National Honor Society, the Y-Teens and the student government association. She plans to go to college.

ATTEND METHODIST CONFERENCE IN LUBBOCK

Among members of the local Methodist church to attend Annual Conference during its session in Lubbock last week are the following:

Rev. R. L. Butler, Mr. and Mrs. Lee Haymes, Mr. and Mrs. W. R. Moore, M. L. Wiggins, H. H. Cowan, Mr. and Mrs. J. A. Caughran and Mr. and Mrs. Oscar Spann.

Curtis Gollehon of Austin visited relatives here last week end. Curtis is attending school for Highway Patrolmen at Camp Mabry.

Miss Gayle Littlefield visited relatives in Dallas and Comanche a few days last week and is spending this week with Mr. and Mrs. Bill Sharp at Lake Kemp.

Jimmy Boyles, who has been attending Texas University in Austin is visiting his parents, Mr. and Mrs. Don Boyles.

GRASS ROOTS OPINION

DENVILLE, N. J., HERALD: "It really surprised us to read in the New Jersey Power & Light Company magazine that 'If the Company had been forgiven its tax bill for the year 1951 it would have been able to provide FREE electric service to every residential customer for five months of the year.'"

HOOD RIVER, ORE., NEWS: "In this, the greatest tax collecting year in the history of the world, the United States Federal government is claiming to be exacting much of its 'extra tax dollars' from the rich. This can't be true. The 'little guy' is suffering. The Oregon Business and Tax Research reports if the U. S. government took all the taxable income in excess of \$6,000 from all individuals that would raise less than \$6,000,000,000."

BIRMINGHAM, ALA., INDUSTRIAL PRESS: "We cannot understand why the leaders of organized labor have not been able to recognize their duty to their members and the American public. We believe that any intelligent worker knows what he and every other American needs most is a decrease in the cost of living instead of an increase in pay. Why the leaders refuse to see this is a mystery."

ELKTON, MD., CECIL WHIG: "Mr. Murray, the union leader . . . orders the members of his union to work or not to work, as he sees fit . . . For any one individual to be vested with and exercise the authority to tell thousands of American citizens, from day to day, whether they shall or shall not go forth to win their daily bread . . . is extremely difficult to fit into the pattern called 'American.'"

SOME DIFFERENCE

Many newspapers recently carried an article by William L. Ryan of the Associated Press which dealt with conditions in Moscow. It was based on information gained from a man who has recently left the Soviet capital. According to him, the Kremlin makes a point of raising living standards a trifle each year. Even so they are far below the level in the United States and many other nations. A constant barrage of propaganda is employed to convince the Russian masses that "nobody else in the world ever had it so good."

Mr. Ryan dealt briefly with the situation in Russian retail stores. One leading department store, he wrote, "opens at about 11 a. m. At 9 a. m. there is already a que running far back from the entrance. The store is invariably crowded, as are the food stores. There are some attractive displays in the windows, but usually the purchaser fails to find these items on the shelves."

Contrast this with the average American store—whether it be large or small, a chain or an independent. Long waiting lines are unknown, except in the case of some terrific bargain sale. There is plenty of goods for all who want to buy—and a very wide selection of styles, colors,

qualities and so on. There are no phony window dressings—whatever is displayed there is on sale inside. If the customer doesn't like one store, he is free to go to a competitor's shop. He could not do that in Russia, where everything is a state monopoly.

Next time you shop, whether for such daily necessities as food or for a season's wardrobe, think of the vast differences between freedom and communism. It should make you mighty glad you live here—not in the "workers' paradise" the Kremlin bosses.

PRODUCTION FOR FREEDOM

A nationwide salute to the production miracles of America, which have made this country the bastion of the free world, will be given this fall.

This will show how the outpouring of materials from farms, factories, mills and mines under the American free enterprise system has made our country a world leader. It will highlight the great strides made by agriculture and industry since 1945.

The activities will be carried out under the banner of production for Freedom, and they will center around the week of September 7-13.

With agriculture and industry hitting new production goals, it will be a startling story that every community has to tell.

The program has the endorsement of the Chamber of Commerce of the United States. The Chamber told its local groups: "Production for Freedom Week is designed to promote economic understanding . . . a better appreciation of the role of your business firms in the unique American system of Production for Freedom."

Since the availability of electric power has been a major factor in making this production possible, the electric theme will run as a current through the activities. Power use by manufacturers has increased 109 percent since 1940. The United States, with less than seven percent of the world's population, produces one-third of the world's goods. The American worker uses an average of 14,000 kilowatts of electric power a year to do his job—the equivalent of having 210 other men as helpers.

Every type of industry will participate in some form to tell the dramatic story of America's production might.

Andrew Carnegie, the great philanthropist and business man, wrote the following epitaph about himself: "Here lies a man who knew how to enlist in his service better men than himself."

The residence of the President of Argentina is called the Casa Rosada, or the Pink House.

President Monroe was the last man in public life in this country to wear knee trousers.

Louis Paulsen, playing chess against Paul Morphy, deliberated 14 hours and 28 minutes before making one move. (Morphy won.)

 MUNDAY KNOX CITY

Let's Talk LIVESTOCK

(By Ted Gouldy)

FORT WORTH—The annual Summer movement of cattle and calves began in earnest at Fort Worth during the past week. Several shipments of stock from ranches which regularly "work" their cattle early arrived during the week and like the arrival of grass and flowers—this presages a season in livestock marketing as surely as there is a vernal equinox.

As the season takes shape there are more than the normal numbers of question marks in the minds of livestock producers, market men and packers.

Currently the nation is looking at the best stocked larder—with regard to meat—that it has enjoyed in years and years. Heavy amounts of pork in storage and continued heavy runs of hogs to the markets weights the scales toward lower meat prices in all categories.

Equally heavy supplies of poultry, especially the produce of the huge broiler industry, coupled with movement of cattle far in excess of a year ago is making the meat trade a sluggish affair at nearly all oints.

Extremely slow demand for stocker and feeder animals from Northern feeders has marked the early season, and this reticent attitude on the part of those buyers has made contracting the lowest in years in the Southwest.

Cattle, calves, sheep and lambs are currently selling substantially below prices of a year ago at the end of May. Hogs are currently about on par with prices in effect at the end of May last year.

Good and choice fed steers and yearlings on May 31 a year ago were quoted from \$32 to \$37, and this week similar cattle sold at \$30 to \$34, some

choice and prime 1,202-pound steers from Paul Newman of Lubbock sold at the \$34 figure, and some choice and prime Brahma yearlings from the Blue Bonnet Experiment Station at McGregor averaging 650 pounds also at the top of \$34 this week.

Common and medium steers and yearlings a year ago sold from \$24 to \$32 and currently bring \$22 to \$29. Stocker steers of the good kinds at \$33 a year ago, currently sell around \$29 to \$31. Stocker yearlings last year of medium to choice kinds sold from \$29 to \$37, and currently bring \$27 to \$35. Stocker cows at \$21 to \$28 a year ago, compare with \$17 to \$24 kinds today.

Stocker calves at \$30 to \$40 a year ago, compare with \$28 to \$38 kinds this week. Good and choice fat calves quoted at \$32 to \$36.50 a year ago, currently sell at \$30 to \$34.50, lower grade slaughter calves at \$20 to \$32, a year ago compare with \$18 to \$29 today.

Spring lambs topping at \$33 to \$34 a year ago, compare with \$28 to \$29.50 values this week. Old fat crop lambs at \$30 and \$31 a year ago, compare with \$23 and \$23.50 values this week. Two-year-old wethers at \$25 a year ago, compare with \$20 values here this week. Shorn feeder lambs a year ago at \$25 to \$28, currently sell around \$20 to \$21. Good aged wethers at \$18 to \$20 last year, top at \$15 this week. Cull to good ewes at \$13.50 a

Guar Recommended As Legume Crop For Soil Improvement

Guar, a deep rooted legume, is being planted by a lot of farmers this year. This legume is not new in this district. The League ranch has been planting it for several years and has reported good results. Last year, cotton following Guar made a bale of cotton to the acre.

Some farmers are planting this soil improving crop along with their cotton. That is, they are planting two rows of cotton and 1 row of Guar with the in-

tervention of plowing out the Guar when it has made sufficient growth to do the soil some good, probably by the last of July if planted at this time.

Guar is a summer legume that will stand drought, is not bothered by insects and is fairly resistant to root rot disease. Guar is not considered as a grazing crop and is strictly planted for soil improvement and seed production.

Seeded in rows with cotton, most farmers are planting from 6 to 8 lbs. of seed per acre. This is being done by using a maize plate. The depth of planting is also about the same as maize. Assistance for paying part of cost of seed is available through the PMA.

Farmers interested in this crop are urged to contact the local Soil Conservation Service.

Mrs. M. B. Irland and daughter, Ina Merle of St. Louis, Mo., are here for an extended visit with her father, G. W. Dingus and family.

Guar is a summer legume that will stand drought, is not bothered by insects and is fairly resistant to root rot disease. Guar is not considered as a grazing crop and is strictly planted for soil improvement and seed production.

Seeded in rows with cotton, most farmers are planting from 6 to 8 lbs. of seed per acre. This is being done by using a maize plate. The depth of planting is also about the same as maize. Assistance for paying part of cost of seed is available through the PMA.

Farmers interested in this crop are urged to contact the local Soil Conservation Service.

Mrs. M. B. Irland and daughter, Ina Merle of St. Louis, Mo., are here for an extended visit with her father, G. W. Dingus and family.

Knox Prairie Philosopher Wants The Government to Hire Man To Come Out There And Empty His Rain Gauge

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek comes up with one of his laziest ideas this week.

Dear editor:

For some time now I've had a rain gauge out here on my Johnson grass farm at the creek and it's a handy gadget, but there's one thing wrong with it.

After each rain, when it does rain, you have to go out there and empty it, and a man with the problems of the world on his mind and already three years behind with his plowin' ain't got time to do it.

What I want to know is why the government don't hire Rural Rain Gauge Emptiers, give each

J. A.

one a regular route and take this burden off us farmers? You might say it's a small job, empty a rain gauge, any farmer ought to be able to do it, but after you consider all the other things he has to do, it adds up.

BEAR SAFETY SERVICE

People, Spots In The News

MID-AIR REFUELING from big bomber puts seven-league boots on Republic F-84 Thunderjet during first round-trip non-stop coast-to-coast flight of single engine jet fighter. By thus extending range, lightweight jet fighters can perform heavyweight duties.

STARS in her eyes, famed war correspondent Marguerite Higgins honeymoon in California with two-star Maj.-Gen. William Hall. They met in Berlin blockade.

SHES AND SKIS line up at Tallahassee before Intercollegiate Water Ski tournament. In this Florida State U. quartet are Diane Van Dusen, Kay Kayse, Jan Cronmiller, Adrienne Pope.

GAMBLING tax stamp was held unconstitutional by U.S. District Judge George A. Welsh, who urged speedy review by Supreme Court in dismissing case against Philadelphia.

A man can go just so far and no further.

The fellow that gave me this gauge said he gave one to another farmer and after a rain one time he asked him how much it measured and he said three inches, when everybody knew it hadn't rained near that much.

"Did you empty it after the previous rain?" he was asked, and he said naw, didn't know he was supposed to.

Well, I got sense enough to know I'll make better crops if I keep the weeds and grass out, just as I've got sense enough to know if I do the latter I'll have to work harder. Thinkin' is a great thing but sometimes it just leads you in a circle and you get right back where you started from.

But back to these rain gauge emptiers. A lot of people say times are so good it's a hard proposition to find anybody who wants to work these days, but

I've never seen a job remain unfilled very long if it had two drawin' cards, good pay and little effort. I will be glad to help work up a route through this area for a government rain gauge emptier, but I'm not an applicant for the actual job, I won't have time. I got the Presidential election on my hands, not to mention Korea, Europe and my wife's naggin'.

Yours faithfully,
J. A.

Mr. and Mrs. M. C. Cude and sons, Martin and Jim, and Miss Beatrice King, all of Dallas, spent the week end with Mr. and Mrs. E. J. Cude and other relatives.

Donald Hill of Dallas is spending this week with Ralph Hargrove.

Mr. and Mrs. Harold Green and son visited Mrs. Green's parents in Rogers, Ark., this week.

LOCALS

Mr. and Mrs. H. L. Wade of Dallas were guests in the home of Mr. and Mrs. Aaron Edgar. They went on to Childress last Sunday to visit Mrs. Wade's mother, Mrs. E. M. Edgar.

Mr. and Mrs. J. C. Spann were guests in the home of Mr. and Mrs. George Spann in Stephenville last Thursday and Friday.

Mr. and Mrs. Raymond Hargrove and children spent last week with friends and relatives in Dallas and DeLeon.

Perry Reeves, who has been attending Texas Tech in Lubbock, is home for the summer.

Mrs. R. M. Almanrode and daughter, Barbara Jane, were in Abilene one day last week.

Miss Maxine Hill has returned home from Midland, where she was teaching last year.

Mr. and Mrs. Carl Green visited relatives in Wichita Falls over the week end.

Burns Ashley of Fort Sill, Oklahoma visited friends here over the week end.

Mrs. Dorsey Looney and son, Leon, are visiting her mother in Dallas this week.

Mr. and Mrs. Press Phillips visited relatives in Abilene last Monday.

Power A-Plenty

AT REASONABLE PRICE

If you need rugged dependable power — long, steady service with low fuel costs and mighty little upkeep — let us show you these two Allis-Chalmers power units.

The W-201 provides 37 1/2 hp. at 1600 rpm. for heavy-duty work such as pumping for irrigation, grinding feed, etc. The B-125 provides 28 hp. at 1900 rpm. for hay driers, elevators, blowers, and many other farm jobs.

These are the same type of heavy-duty engines as used in Model WD and CA Tractors. You know their reputation as leaders of the entire power farming field. Let us show you how little it costs to get these quality engines for stationary power.

"Quest canvas pipe" brings you... Positive Irrigation Control

Combines the Best Features of Ditch and Overhead Irrigation

SAVES time, fuel, labor, money... Pays for itself
UP HILL OR DOWN HILL — TAKE IT ANYWHERE

The Quest Positive Irrigation Control method means savings for you in every phase of irrigation. You save **TIME**... there are no ditches to dig, no mechanical failures, no heavy equipment to wrestle around. You save **LABOR**... the flexibility of **QUEST CANVAS PIPE** means easy handling. The initial cost is surprisingly low and you have practically no upkeep. You pump only enough water to actually cultivate crops, thereby conserving **WATER** and saving **FUEL** at the same time. **FROM ANY SOURCE**... from a spillway reservoir or from a ditch. Many farmers hook **QUEST CANVAS PIPE** to the discharge pipe of their deep-well pump. Others use it with a centrifugal pump from rivers and lakes. **MAINLINE**... two different types of **QUEST CANVAS PIPE** solve every water conveyance problem... mainline lengths are to pipe water to the cultivated field. **DISTRIBUTIVE LINE**... the patented **QUEST CANVAS PIPE** sleeves make it ideal for sending water down the crop rows. These sleeves can be tied off easily so that you control flow of water.

Notice

EFFECTIVE JUNE 1st, I have taken a 60-day leave of absence from my position as deputy sheriff of Knox County in order to devote full time to my campaign for County Judge. This action was taken for two reasons; first, as above stated, in order to devote my full time to the race, and secondly, that I did not feel it was altogether fair to the voters to be running for office at their expense, by remaining on the county payroll.

My intention is to completely cover the county during the coming two months, seeing each voter personally if at all possible. Should anyone be missed, however, it will be greatly appreciated if they will consider this announcement as a personal solicitation for their assistance and influence.

THE CHRYSLER IMPERIAL 6-PASSENGER SEDAN

YOU'LL FIND IT EVEN BETTER THAN YOU'VE HEARD!..

It's been many years since a new car has caused as much talk as today's Chrysler Imperial has. What you may not realize is how long it's been since a car gave so many reasons for excited talk as this one.

May we invite you to drive and test the best and most worth-owning engine on the road today? (Chrysler's magnificent new 180 H.P. FirePower V-8.)

May we invite you to handle the easiest and safest steering wheel in existence at the moment? (Chrysler's full-time Power Steering.)

May we invite you to try out brakes which require as little as one-third the usual foot-pressure, and still stop you in many feet less than other cars do? (Chrysler Power Brakes.)

May we invite you to sit on the most comfortable seat cushions, and enjoy the fullest window vision you can find? May we invite you to ride on the rough-road miracle of the Oriflow shock absorbers which only Chrysler-built cars have?

May we invite you to drive a Chrysler Imperial... and learn how much you'd

miss, and deeply regret, if you bought another car today without knowing this one first?

We... and Imperial by Chrysler... are at your service, any time.

Why are women's purses bigger than men's?

Remember all those cartoons you've seen of a wife going through her sleeping husband's trouser pockets? They may give you a clue why some women's purses are bigger.

But we're inclined to think that there are other and better reasons why more women than men own stock in so many of America's largest companies.

For one thing, women are practical, thrifty, and inclined to do something sensible about their future finances and those of the family. Forgive us, mister, but the facts speak for themselves:

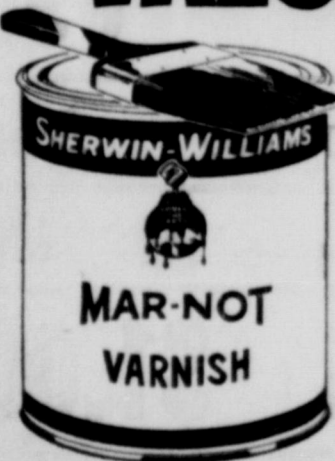

Women have outnumbered men share owners of telephone stock since 1900. The big food companies have a predominance of women share owners. Ditto the country's largest auto maker. And, at last count, 116,800 women owned shares in General Electric as against 83,000 men.

Big business, as it turns out, is a woman.

About 2,100 of these women—and men—turned out this spring to attend the G-E annual meeting and eat a box lunch in one of our largest factory buildings. If you'd like a report of what was said and done, just let us know. A card asking for "Report of the Sixtieth Annual Meeting," Dept. 6B, General Electric, Schenectady, N. Y., will do the trick.

You can put your confidence in

What is the best way to KILL BOLLWORM?

Close rival to the weevil as a destroyer of cotton, the bollworm has always been more difficult to control.

The mature bollworm in the illustration has been feeding inside the boll for several days. During this time the boll itself offers the protection that makes it extremely difficult to get a high kill with insecticides. For this reason, proper timing of insecticide application is essential: Early bollworm infestations must be treated as soon as worms are found; later broods should be treated within a day or two after hatching and while young worms are still feeding outside the boll. A good measure for this is when 4 to 5 small worms (or 10 to 15 eggs) are counted on 100 terminals.

As the bollworm season approaches, every cotton grower wants to know "What's the best insecticide?" Actually, no one chemical so far tried will provide top control of bollworm. But field tests in widely separated areas prove that certain combinations of chemicals (chlorinated hydrocarbons) do give effective control. At the same time, these mixtures kill almost all other in-

sects that destroy cotton.

A mixture of dieldrin and DDT, for example, is one of the most deadly bollworm killers of all... more lethal than either insecticide alone. Used as a dust or a spray, the combination provides excellent control with relatively small dosages. The same dust or spray gets the boll weevil, flea-hopper, tarnished and rapid plant bug, grasshoppers and a host of other pests.

Where large areas of cotton must be protected from bollworm damage, and low cost is a primary consideration, aldrin-DDT mixtures provide profitable control at the lowest cost per acre.

Whichever combination is used, the timing and form of application (dust or spray) should follow the practice proved best in the area.

Your insecticide dealer can supply either dieldrin-DDT or aldrin-DDT in suitable formulations for your cotton program. Further information can be obtained by writing to Shell Chemical Corporation, P. O. Box 2099, Houston, Texas, or 808 William-Oliver Building, Atlanta 1, Ga.

MRS. KENNETH W. VAUGHAN

Virginia Albertson, Kenneth W. Vaughan Marry In Abilene

ABILENE—Miss Virginia Albertson, daughter of Rev. and Mrs. W. H. Albertson of Brownwood, became the bride of Kenneth Wayne Vaughn in a double ring ceremony performed here Tuesday afternoon, May 27, at 4:30 o'clock. Rites were read by the bride's father in the home of Mr. and Mrs. Bob Havin's, brother-in-law and sister of the bride.

Vows were repeated before an improvised altar of gladioluses and greenery.

The bride wore a white linen suit with accessories in navy and white. Her shoulder corsage was of red roses. Mrs. Vaughn is a teacher in the Snyder public schools. She is a graduate of Munday High School and of Howard Payne College in Brownwood.

The bridegroom, son of Mr. and Mrs. G. A. Vaughan of Johnstown, Texas, is a spring graduate of Howard Payne College. The couple will enroll in

Jennie Lou Howard, Patrick P. Martin Marry On May 24

Miss Jennie Lou Howard, daughter of Mr. and Mrs. Homer Howard, became the bride of Patrick Preston Martin, Jr., son of Mr. and Mrs. Pat Martin, Sr., of Rochester, in a simple but impressive double ring ceremony performed Saturday afternoon, May 24, at 3 o'clock in the home of the bride's parents in the Hefner community north of Goree.

The Rev. S. E. Stevenson, pastor of the First Baptist Church of Goree, directed the exchange of vows in the presence of a few relatives and close friends. The nuptial space was marked with attractive arrangements of seasonal flowers.

Pre-nuptial music was supplied by Miss Deloris Mobley of Goree.

The bride, who entered on the

that school for graduate study after a trip to East Texas. Only members of the immediate families were present for the wedding ceremony.

arm of her father, was lovely in a light blue, semi-formal, ballerina-length gown which was fashioned with a light blue bodice with small, covered buttons and a pleated net skirt over blue taffeta. Her accessories were white. She wore a small, white lace hat with rhinestone trimming. Carrying out the traditional bridal rhyme, the bride completed her costume with white gloves and white linen opera pumps. She carried a corsage of white carnations tied with white satin ribbon atop a white Bible.

Mrs. Everett Gaither of Goree, aunt of the bride, was matron of honor.

Mr. Everett Gaither of Goree served the bridegroom as best man.

Reception

The newlyweds were honored with a reception held immediately following the ceremony.

The table was covered with a lace cloth and was centered with the beautifully decorated wedding cake. An attractive arrangement of red roses graced one extremity of the board and the crystal punch service was at the other.

Mrs. Terrell Boggs of Goree and Mrs. Gaither presided at the refreshment board and Miss Mobley secured guests' names in the bride's book.

The couple left immediately

for a short wedding trip, and for travel Mrs. Martin chose a navy linen dress with white trim.

The bride was the valedictorian of the 1952 graduating class of Goree High School. The bridegroom graduated from Rochester High School and attended John Tarleton College in Stephenville.

Mr. and Mrs. Martin will make their home in Grand Falls where he is employed with an oil producing company.

The Texas Department of Agriculture
By JOHN C. WHITE, Commissioner

TEXAS HERBICIDE REGULATIONS
Reports of crop damages resulting from careless or misuse of hormone type herbicides are beginning to trickle into the offices of the Texas Department of Agriculture at Austin. These reports are expected to increase daily unless farmers and ranchers exercise normal precautions

in chemical applications as the season advances.
Herbicides 2,4-D and 2,4,5-T are excellent for the control of weeds, mesquite and bushy growths. They are not "poisons," as many believe. Instead, these hormone chemicals energize plants, causing them to literally "grow themselves to death."
Most broad-leaf plants are susceptible to this growing action. Rice, flax, grain sorghums and grasses are not affected, however, and for this reason, 2,4-D and 2,4,5-T are good solutions to use on these crops to keep down weed infestations.

But many crops, such as cotton, can be severely damaged by hormone herbicides if adjacent fields are sprayed carelessly.
Herbicides should never be applied, either from ground or air equipment, during a high wind which would cause droplets to drift from pasturelands into crop fields. Another common mistake is the use of too much pressure in the equipment which causes a fine spray susceptible to long drifts. Heavier drops are most effective and are more apt to settle in areas where they are

Mr. and Mrs. Harry W. Meredith of Mineola, Texas, pose with the portrait of Mrs. Meredith painted by Dmitri Vail of Dallas, Texas. The life-like painting will hang in the main hall of the "Daisy Meredith" cottage for girls on the Methodist Home campus in Waco, Texas.

Pioneer Banker, Civic Leader Builds Home for Orphan Girls

"Uncle Harry" as Mr. Meredith is affectionately known to his boys and girls in Waco, is a pioneer in Texas banking history, having opened his Mineola State Bank in 1906. In 1933 he retired from active banking business and became Chairman of the Board of the First National Bank which position he continues to hold. Besides their active interest in civic and church affairs, the Merediths are enthusiastic and active members of the well known Little Sandy Fishing and Hunting Club.

Three years ago they donated \$95,000 for construction of the

Meredith Home for Boys on the Methodist Home Campus in Waco, and commissioned Dmitri Vail to paint the portrait of Mr. Meredith which now hangs in the living room. Cost of the newly completed "Daisy Meredith" cottage is running close to \$120,000.
Mr. Meredith wanted a Texas artist to paint the two portraits and selected the nationally known portrait painter Dmitri Vail, of Dallas, Texas. He says he had the portraits painted to hang in the cottage so that in twenty-five or fifty years from now the children might say: Those are the folks who gave us our home.

intended.

Damage from herbicides is usually easy to recognize. It causes mutations in the plant, sometimes making the leaves grow in odd shapes and to curl at the edges. Unless the accidental dosage is too great, however, the farmer may still make his crop, even though the yield might not be as much as before damage occurred.

One of the duties of the Texas Department of Agriculture is to inspect all ground and air equipment used in application of herbicides to see that it comes up to specifications of Texas Herbicide Regulations. The department also issues permits to those farmers, ranchers and commercial spraying companies who wish to apply herbicides to the land.

All dealers are required to keep sales records, and all spraying companies or individuals must keep records of date of

herbicide applications for two years.

These regulations apply in cases where more than 20 acres are to be sprayed. A fee of 10 cents per acre is charged for permits. For plots less than 20 and more than 5 acres, no permit is required but written notice must be given the department that chemicals are to be applied. For less than 5 acres, no permit or notice is required.
A few counties in West and South Texas are exempt from the Texas Herbicide Regulations. A request for information on exempt counties and regulations should be addressed to John C. White, Commissioner, Texas Department of Agriculture, Austin, Texas.

Mr. and Mrs. Harold Green and son, Larry are visiting Mr. Green's parents, Mr. and Mrs. Carl Green, for a few weeks. Harold received his discharge from the Navy on the 21st of May. He served five years in the Navy, three of them being spent overseas. The Harold Greens will make their home in Wichita Falls here Harold is employed by the E-Z Grocery.

Mr. and Mrs. H. R. Keeney and daughter, Oma Dell, of Plainview visited in the home of Mr. and Mrs. Press Phillips over the week end.
