GRASS ROOTS OPINION

MARYSVILLE, WASH. GLOBE: "If we are to remain a sovereign state, with sufficient taxable area to support and develop our state as an entity, we must oppose the encroachment of Federal reservations, directly or indirectly. Our great resources can all be developed wisely and well without setting aside areas in the state as Federal reservation, which is the ultimate aim of the proposed CVA, and now CBA."

GRESHAM, ORE. OUTLOOK: "It is common knowledge that the amount taken by the Federal government from corporations in taxes today is far greater than the amount the corporations are permitted to retain for distribution as dividends and for the maintenance and expansion of plants. How long can industry go on furnishing jobs, absorbing wage increases, and still meet such rapidly rising tax obligations?"

SCOTTSTVILLE, KY. NEWS: "Somewhere there must be a limit fixed to both taxes and to foreign aid expenditures. We cannot indefinitely continue raising Federal taxes and giving away money at a constantly increasing rate. For the sake of everyone in this nation, Congress must select limitations and pass laws that will prevent reckless administrations from exceeding those limitations."

ANAHEIM, CALIF. BULLETIN: "Long ago, America rejected the cartel system of Europe, and set about vigilantly to stop the growth of business monopoly wherever it threatened. It is apparent that the monopoly power of labor unions is no less a danger to our national security."

HONESTY COMES FIRST

The latest graduating class of famous Texas A. & M. College was addressed by the president of an oil company whose headquarters are in Houston. His subject was, "What Is Success?" He told the young men, many of whom are about to enter the armed forces, "If you concentrate on making money only and reject the opportunity to be of value to your family and to your fellow man, you will lead a narrow, selfish and lonely life. You will have little happiness, no matter how much money you possess."

Then he said that the nation greatly needs young men who are basically and uncompromisingly honest at a time when we are constantly faced with the nauseating spectacle of corruption and crookedness eating away the dignity and moral fiber of our government.

No group of young people, at whatever educational level, could be given better advice than this. If corruption, of the type we have so recently witnessed in high and low places in the national government eats into the fibre of America, into industry and the professions and all other callings, America will die from within. Corruption is a cancer that can destroy peoples and nations no less surely than defeat in war. Uncompromising honesty, coupled with the ruthless weeding

out and punishing of the corrupters, constitute the curative medicine.

Without honor and integrity in every phase of our life, all our much-vaunted possessions become valueless—we will waste and lose them, even as we will lose our freedom and self-respect. Plain honesty is the great need of our time.

THE LAW NOBODY WROTE

The Curry County Times, published at Clovis, New Mexico, recently ran an editorial pointing to some of the tremendous and expensive administrative problems the price control regulations have imposed on business. At the end it said, "Somehow the threat of inflation and skyrocketing prices sort of fades in comparison with the mess artificially maintained levels have precipitated."

"Anyhow, we haven't heard anything about the law of supply and demand being repealed. Until it is, we think it's pretty unlikely anyone in Washington can dream up something better."

Nobody wrote the law of supply and demand, no legislature enacted it, no eager-beaver government people enforce it. It's just a law of nature, and it has governed economies of the world since time began. Every effort to tamper with it or replace it with man-made economic law has created only confusion—and, in some cases, national disasters.

That law makes it certain that manufacturers will produce the things people want—in the quantity and quality wanted. It also makes it certain that our retail stores, from the smallest one-man shop to the biggest national chain, will stock those articles—and sell them at a price which is held to the lowest practical figure by free competition.

No one has come up with anything even remotely as successful as the law of supply and demand in centuries. It's not probable that even our present-day deep-thinkers in government will be able to.

"The freedom of American business is in serious danger. We may be sure that those who believe in the laying on of hands by Big Government will take every possible advantage of any emergency, whether real or trumped up."—Robert E. Wilson.

"We have fallen before a mumbo jumbo designed to lure us into the false theory that the government can do for us better than we ourselves."—Senator John M. Butler.

"There is only one way to stop this wage-price spiral, and that is to stop it. There is only one time to stop it and that is today."—Benjamin F. Fairless.

The famous liberty bell was cracked while tolling for the death of John Marshall, Chief Justice of the United States, who died in 1835.

Fun for Homecrafters

BUILT-IN cabinets, room dividers and other furnishings are the joy of the home craftsman. In constructing them, he not only knows the satisfaction of achievement, but he is able to improve the home at little cost.

Recently placed on the market to give the craftsman a wider opportunity for exercising his skills is a hardboard which is smooth on both sides. Known as Masonite Duolux, this all-wood panel

material is especially suitable for cabinets, cabinet doors, room dividers, partitions, drawer and cabinet dividers, magazine racks and other projects of interest to homecrafters.

These thin, strong, smooth-as-glass panels are handled exactly like the familiar Masonite hardboard which is smooth on one side and has a screen back. They can be sawed, planed, beveled, punched, nailed, glued and bent with common tools found in any home.

Like their screen-backed cousins, Duolux hardboards are manufactured by exploding wood chips in a process discovered by William H. Mason, for many years an associate of Thomas A. Edison. The hardboards with two smooth faces are handled by most lumber dealers.

Mr. and Mrs. John Phillips and children and Mrs. Ben Yarbrough were in Wichita Falls last Thursday.

Boyce House

There was a man who was the governor of the state of Tennessee. He resigned from that position, his name under a cloud, turned his back on civilization to dwell in the wilderness, where he made his home among the Indians.

He was adopted into the tribe and was given two names. One is in all the books and is known to everyone: the Raven. The other, not so well known but more appropriate, was Big Drunk, because many times at night as the Indians made their way about the camp, they had to step aside to keep from stumbling over the giant form of the white man.

Yet the Almighty reached over into the human junkyard and salvaged that man and guided

his footsteps to Texas and, on the fateful field of San Jacinto, he avenged the Alamo and achieved the liberation of the Lone Star Empire!

You've heard the expression, "put on a Garrison finish"—meaning to close strong. I used to think it was derived in some way from a garrison coming out of a fort and giving the enemy a good what-for but an authority says it is derived from the habit of a famous jockey who would lay back till the home stretch and then finish the race with a big rush.

Personally, I prefer another explanation which centers around a fighter named Garrison. No matter how poorly he might have done the first nine rounds of a ten-round fight, he would come out for that final round and give his opponent a terrific time of it. The officials were likely to award the decision to the other man because of the points piled up in the preceding rounds but the crowd, remembering only the last fast-an-furious last round, would boo lustily.

Improvements Made To Rail Properties Of FW&D Railway

Along with the change in name of the Wichita Valley Railway to the Burlington Lines, are coming extensive improvements to the road.

Section crews have been increased all along the route from Wichita Falls and Abilene, and

roadbed and track improvements are now under way, according to M. H. Dean, local depot agent. At Munday, the section crew has been increased to 15 men.

Mr. Dean states also that plans are under way for remodeling the local depot. Details are not complete, but these changes will possibly include doing away with the passenger waiting rooms and making additional dock and loading facilities.

Miss Winona Pace And Joe Sanders Marry In Dallas

Miss Winona Pace, daughter of Mr. and Mrs. A. R. Pace and Joe Sanders, son of Mr. and Mrs. J. W. Sanders, exchanged wedding vows on May 30 in wedding rites held at the home of Mr. and Mrs. W. S. White of Dallas. Rev. J. W. Lindsey officiated.

Vows were recited as the wedding group stood before an arch of greenery flanked by baskets of flowers and candelabra. Faye White of Dallas played the wedding music.

The bride, who was given in marriage by her father, wore a dress of satin and lace fashioned with a bodice (applied with Chantilly lace. The skirt was full gathered. Her veil was attached to a headdress of orange blossoms. She carried a white Bible topped with pink carnations with a shower of satin streamers.

Peggy Pace of Abilene attended her cousin as maid of honor and Clyde Pace was best man. A reception followed in the White home with Sharon Copeland and Faye White assisting in serving.

After a wedding trip the couple is living in Dallas.

The bride was graduated from Welbert High School in 1950. The bridegroom, a 1946 graduate of Goree High, was employed in a Dallas bank for a year before joining the Armed Forces where he served for more than four years. Thirty-four months of the time he was in Japan and Korea as a staff sergeant.

Barbara Jane Almanrode Becomes Bride Of William O. Ratliff Tuesday

The sanctuary of the lovely First Methodist Church in Munday was the setting last Tuesday evening for the wedding of Miss Barbara Jane Almanrode, daughter of Mr. and Mrs. R. M. Almanrode, and William Orville Ratliff, son of Mr. and Mrs. R. L. Ratliff.

Rev. H. Doyle Ragle, pastor, officiated in the double ring ceremony.

The church was beautifully decorated by Mrs. G. W. Ferguson of Temple and Mrs. J. E. Mills of Centerville, friends of the bride's mother, who also made all bouquets and buttonieres for the wedding group.

The bride, given in marriage by her father, wore a wedding dress of ivory satin fashioned on princess lines. Fitted sleeves came to a point over her hands. Her veil of embroidered tulle was caught to a tiara of seed pearls and equins. She wore a double strand of pearls and carried a bouquet of white roses centered with a white orchid. This was atop a white Bible.

For something old the bride wore a handkerchief 52 years old, belonging to her aunt, Mrs. B. C. Horton of Meadows, and an old bracelet; something new was her pearls, and something borrowed was a white Bible belonging to Mrs. Richard Farmer. She also wore the traditional blue and a half-dime in her shoe

that was made in 1839, belonging to her mother.

Barbara was married on the 27th wedding anniversary of her parents.

Her attendants wore colonial style dresses, ballerina length of pastel organdy over matching taffeta. They carried colonial bouquets.

Mrs. C. H. Wingert of Fort Worth, cousin of the bride, was matron of honor. Bridesmaids were Lanelle Easter of Abilene, Jane Lightfoot of Grandview, Margie Lowrey of Knox City and Mrs. John Porter of Munday. Patty Bledsow, niece of the bridegroom from Canyon, and Ann Porter were flower girls.

Don L. Ratliff was his brother's best man. Ushers were John Porter, Charles Baker, J. C. Shockey and Herbert Partridge. Mrs. J. H. Bardwell was organist and Charlotte Williams soloist. Miss Williams sang "Love's Old Sweet Song," "I Love You Truly," and "Because."

A reception at the church parlor followed the ceremony. The bride's table was laid with a cut-work cloth. Yellow roses formed the centerpiece. Service was in crystal.

Guests were present from Bowie, Oklahoma City, Fort Worth, Abilene, Knox City, Temple, Benjamin, Goree, Vernon, McLean, Gainesville, Bridgeport, Wichita Falls, Pampa and Can-

MRS. WILLIAM ORVILLE RATLIFF

WEDDING GUESTS

Out of town guests who were here for the wedding of Miss Barbara Jane Almanrode and Mr. Bully Ratliff were Mrs. Glenn Harris, Dallas; Mr. and Mrs. Marvin Brashear and Mrs. L. W. Brashear of Bowie; Mr. and Mrs. H. H. Bledsow, Canyon; Mr.

and Mrs. Joe Minton and son, Cecil, of Wichita Falls; Mrs. E. B. Denton and Miss Verdie Denton of Knox City; Mrs. G. W. Ferguson, Temple; Mrs. J. E. Mills of Centerville, Mrs. Grace Humphries, Oklahoma City, Oklahoma; and Mrs. and Mrs. L. S. Partridge of Bowie.

Mr. and Mrs. A. H. Mitchell attended a family reunion of Mrs. Mitchell's relatives at Eagle Mountain Lake near Fort Worth last week end. Some forty people were at the reunion. Mr. and Mrs. Mitchell went to Dallas on Sunday and visited there Monday and Tuesday.

yon. After a wedding trip to Colorado and other western states, the couple will live in Munday. For traveling Mrs. Ratliff chose a pink linen suit with navy and white accessories.

The bride is a graduate of McMurry College where she was a member of Delta Beta Epsilon. Wah Wahyaysee, WAA and FTA. She did graduate study at North Texas State College and taught school at Munday, Goree and Albany.

THE CHRYSLER NEW YORKER 6-PASSENGER SEDAN
White side-wall tires at extra cost

WHEN YOU TRY POWER STEERING... HERE'S WHERE TO COME FIRST!

You've heard about it and read about it. Now, if you haven't felt what Power Steering does for you, we invite you to try it first in a Chrysler New Yorker . . . where you will find full-time (not partial) Power Steering!

What happens is this . . .

You handle the steering wheel in normal fashion. But 4/5 of all the work is done for you by hydraulic power, constantly at your command. Also, you turn the wheel 1/3 less distance now for every maneuver . . . the feeling you get of utter control is as wonderful as it is new.

Even at a standstill you can turn the wheel easily. Now, parking is shorn of its troubles (and fatigue!) . . . and you can negotiate traffic, awkward drives, and garage doors precisely and with ease.

You can double the longest day's drive you've ever known . . . end up free from arm and shoulder strain. Rough roads, soft shoulders, snow, mud? . . . the power that helps you steer now prevents the car's wheels from "steering back" at you. The course you set is held, at any speed, till you want it changed. Yet, with this 5-times greater control, "wheel feel" is always the same.

Why not come try it? Learn for yourself why growing thousands of motorists say they'll never be without Full-time Power Steering from now on. Drive a Chrysler . . . and Learn the Difference!

Let's Talk LIVESTOCK

(By Ted Gouddy)

FORT WORTH—The searing summer sun turned pastures brown and stepped up the movement of cattle and sheep to Fort Worth this week. Largest run of the year arrived in the cattle yards Monday and another big run rolled into Fort Worth Tuesday.

There was a sharp break in prices in both cattle and sheep divisions. Only class of cattle or calves to escape lower prices were the strictly good and choice fat calves, most of them showing the effects of creep-feeding these types drew firm prices and sold readily at \$33 to \$35.

Most other cattle and calves skidded a dollar lower and stockers demand remained very narrow over the country and complaints of dry conditions in Western Kansas and Eastern Colorado was a factor in that section and some areas north of that section also were dry. Corn Belt farmers, still smarting from their losses during last season's feeding efforts, were not buying replacements in sizeable numbers. With reserves of corn very low

it seemed likely that many feeders would await further development of the new corn crop before making heavy purchases of stockers and feeders.

Sheep and lambs sagged \$1 to \$2 and more.

The wholesale meat trade in New York pointed up the fact that ample supplies of meat and slow sales had a share in depressing prices. Veal in New York was quoted Monday \$3 to \$6 under the previous Monday. Spring lamb carcasses were \$2 to \$5 lower and old crop lambs \$7 to \$10 under a week earlier.

Hogs moved in a narrow range with little change in prices, except that feeder pigs lost 50 cents per hundred at Fort Worth Monday.

Good and choice fed steers and yearlings cashed at \$28 to \$34, and common and medium offerings drew \$20 to \$27, with cull yearlings from \$16 to \$19. Butcher cows drew \$18 to \$23, with canners and cutters from \$12 to \$18, some below that range. Bulls cashed at \$17 to \$26.

Good and choice fat calves cleared at \$30 to \$35, with common and medium kinds \$20 to \$27, and culls \$16 to \$19. Good and choice stocker calves drew \$30 to \$36, and common to medium sorts \$20 to \$27. Good and choice stocker steer yearlings sold for \$27 to \$31 with common to medium sorts \$19 to \$26. Older steers sold from \$28.50 down. Stocker cows drew \$17 to \$22.

Hog top was \$20.25 and \$22.50 and sows sold at \$14 to \$17.50. Feeder pigs drew \$14 to \$17.50.

Medium, good and choice Spring lambs closed at \$18 to \$26; old crop lambs and yearlings sold at \$15 down. Aged wethers drew \$7 to \$10; slaughter ewes closed at \$5 to \$8. Feeder lambs ranged from \$18 down. Old crop stockers and feeders lambs sold from \$15 down.

Mrs. J. B. Barnicoat of Glendale, Calif., is visiting her daughter, Mrs. Lennie Kuehler and family this week.

Mr. and Mrs. Clarence Jones visited her sister, Mrs. E. E. Trimble and family in Slayton over the week end.

Knox Prairie Philosopher Gets Just A Little Serious, Tells Army How To Run Its Prisoner Of War Camp

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek is a little serious this week. It's probably the warmer weather we've been having.

Dear editor:

It's a long way from here at my place to Korea and hasn't anybody asked me for my opinion but it seems to me the men who have been supervising the prisoners of war on Kojima Island never did get around to learnin a few basic facts about human nature.

The way to run a prisoner of war camp is the same as the way to run your own affairs, your own business, or your own farm, or anything else. The way to run it is like you think it ought to be run, not like some-

J. A.

body else thinks it ought to be run.

Take a man here at home. If he's always wonderin how the next business step he takes is gonna affect somebody else, he's whipped to start with. The fellow that won't decide how much he ought to donate to the Red Cross or the church or anything

else, the one who hedges and tries to find out how much somebody else gave so he can stay in line, ain't near as self-satisfied or respected as the man who makes up his own mind on how much he can give and hauls off and gives it, regardless of what anybody else does, and if he over-shoots or under-shoots, it doesn't matter a particle.

Now take those officials in charge of those prisoners of war camps over on Kojima. Instead of runnin the things like they ought to be run, they been leanin over backwards to run em so they won't offend the enemy, on the theory if they don't please the enemy the latter will take it out on American prisoners of war in their hands.

This is known as baloney. If the Communists want to do anything, they ain't never waited yet for an excuse. If there's anything they're good at, it's manufacturing excuses. We could furnish those prisoners of war with Turkish baths twice a day and air-conditioned loungin rooms and four-bit cigars, and if the Comies wanted to mistreat American prisoners, their cigars and other things wouldn't have any bearin on it.

If the army wants my advice, it's treat the prisoners as well as possible but forget about what somebody else is gonna think, and keep em in line. I don't reckon you got much circulation in Korea though and I doubt if this reaches em.

Yours faithfully,
J. A.

Mrs. Eva Ray Estes returned from Dallas last Monday where she had been with her daughter, Joan, who underwent surgery in the Baylor Hospital. Joan is home and is doing real good.

Fort Worth And Denver Railway To Make Extensive Addition To Equipment

Fort Worth and Denver Railway and associates have ordered \$6,500,000 worth of new equipment and roadway improvements, it was announced today by R. Wright Armstrong, Vice President of FW&D, the Texas portion of the Burlington Lines.

Locomotives, costing \$4,084,000 will include two of the latest type Diesel-electric 2250 HP Passenger service units, and eighteen 1500-HP special duty units for use in all types of train service.

More than 400 new steel 50-ton box cars and gondola and hopper cars will be secured at a cost of \$2,300,000. This is in addition to 600 cars and 24 1500-HP Diesel freight locomotives units purchased last year.

The special duty Diesels, equipped for radio for end-to-end communication of freight trains, were ordered after tests this month between Houston and Amarillo of a pilot model of a new locomotive which engineering experts claim has vast improvements over earlier models.

Nearly \$150,000 will be spent in lengthening eight sidings and passing tracks between Fort Worth and Wichita Falls for handling of longer trains.

Recent corporate and bond changes, approved by Railroad Commission of Texas and Interstate Commerce Commission, paved the way of continuation of modernization and improvement plans, Armstrong said. Delivery of the new locomotives will permit almost complete dieselization of the line from the ports of Galveston, Texas City and Houston to Billings, Montana. Diesels will replace steam power on the line between Childress and Lubbock and Plainview, he continued.

Mr. and Mrs. O. L. Anderson, who have been vacationing in Colorado, came in Friday enroute to their home in Clovis, N. M., and to get their daughter, Linda Sharon, who visited with her grandparents Mr. and Mrs. Jess Burrisson, the two weeks Mr. and Mrs. Anderson were gone.

Mr. and Mrs. Clayton Wren, Mrs. W. G. Welborn and son, Gaston, and Mrs. Tom Morton returned last Sunday from a week's vacation in Louisiana, Alabama, Mississippi and Florida.

Mr. and Mrs. Lewis Warren of Abilene spent the week end with Mr. and Mrs. A. B. Warren.

Plenty Of Tires Assures Motorists

AUSTIN — Texas motorists can look forward to continuously well-stocked tire shelves, now that the National Production Authority has removed all restrictions from natural rubber production, according to the Texas Division of the American Automobile Association.

The natural rubber supply in the United States has reached such a plentiful supply, says Texas Three-A officials, that the restrictions on the use of natural rubber, in effect for many months, are no longer needed.

The NPA ordered them removed in a recent directive, referring to the nation's improved rubber outlook. So, on June 1st, the government quit the rubber-buying business, and allowed industry once more to do its own buying, the AAA learned.

Whitey Sure "Rang the Bell"

Telephone woke me out of a sound sleep last Friday about eleven-thirty. "This is Whitey Fisher on River Road," says a voice. "I just wanted to tell you how much I like this week's Clarion."

"Thanks, Whitey," I told him. "But why in blazes call to tell me at this time of night?" "Simple," he says, "your paper boy just delivered it a short while ago. Been waiting for it all evening."

Next day, Buxy Wilson tells me he delivered Whitey's paper late because he stayed for the school dance and thought it would be OK

to drop it off on his way home. From where I sit, I can't blame Whitey for his joke. He was just reminding me we owe other people the same respect we expect from them. Since I'm always talking about respecting the other fellow's rights—including his right to enjoy a glass of beer if he chooses, it was only fair that Whitey should "wake me up" to his right to get his copy of the Clarion on time. Thanks again, Whitey!

INDUSTRY AND AGRICULTURE

The Texas farmer, through no particular fault of his own, is losing many dollars annually because there is little coordination between agricultural production and industrial development in the state.

In one way, we Texans are like the country boy at the carnival. We swing away at that strength-testing contraption and ring the bell. But we're so busy setting crop production records that we don't notice the guy standing behind us with his hand in our pocket.

Most of the raw farm and ranch products are shipped out of the state. These are later processed by manufacturers in other parts of the country. Texas' return has been for the raw materials while someone else has received a much higher return and profit from the semi-finished and finished products.

One example is cotton—the king of Texas agriculture. This state is the nation's leading cotton producer, raising 1-4 to 1-3 of the United States crop. Only a small amount of cotton is processed by Texas mills.

Last year Texas produced over 4 million bales of cotton. About 240,000 of these bales remained in the state and the rest went to eastern domestic mills. Since it costs a minimum of \$1.05 to ship 100 pounds of cotton from Galveston to the nearest eastern market, then the staggering sum of more than \$17,687,000 was paid in freight charges alone. This money would have meant a lot to the Texas cotton farmer if the mills had been in the state.

Texas also leads the nation in dollar volume of annual farm sales. But it ranks low per acre income. The rate in the last year of record was only \$12.05 per acre as compared with the income of some states such as California, New York, Michigan and Illinois, which were in some cases as high as \$47.67 per acre—or four times that of our own. It is, after all, the per acre

income that counts in profits. These states outrank Texas partly because the farmer is closer to the processor.

Perhaps the development of some particular industries in Texas would not be in line with the economic realities of the area. But to the extent that it is possible, the farm products of Texas should be made into finished products within the state. This kind of "regional industry," taking full advantages of our resources, would result in a well-rounded economy and help increase the income and standard of living of Texans.

Mrs. Lee Stodghill and children, Carol and Eddie, and W. F. Henderson of Rising Star are visiting Mrs. J. B. Bowden this week.

M. C. Hallmark returned from Fort Worth last Friday where he had been with Mrs. Hallmark, who underwent surgery in the Harris hospital on Tuesday, June 17th. Mrs. Hallmark is much improved, but is still hospitalized.

Troy Lindsey visited home folks here over the week end, and he stated he was moving his combines and crews to the Stratford area this week.

Mr. and Mrs. James L. Reed were visitors in Lubbock and the Carlsbad Caverns in New Mexico over the week end.

Mrs. E. C. Henry of Floydada is visiting her daughter and son-in-law, Mr. and Mrs. C. P. Baker, this week.

Within lifetime of many Americans alive today a tenth of U.S. population will live to be 100 or older, Dr. Charles E. Dutches, vice president and medical director of Schenley Laboratories, Inc., told Industrial Medical Association.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

AUSTIN—Bacteria grow more readily in warm weather and this increases the danger of food poisoning, warns Dr. Geo. W. Cox, State Health Officer. Since modern refrigeration public health has improved. However, cases of food poisoning do occur, in spite of the more healthful measures of storing food.

Sickness from food poisoning usually strikes quickly and ex-

posively, and those who do not eat the infected food escape. Usually in one to four hours after eating contaminated food, victims feel ill. If it is a mild case of poisoning, recovery begins in eight to twelve hours, but victims may feel the ill effects for several days.

Another important safeguard to prevent food contamination is that the hands of the person who prepares food be scrupulously clean, and free from cuts and sores of any kind.

Usual symptoms of food poisoning are diarrhea, nausea, vomiting, abdominal cramps, and weakness. Whenever you feel these symptoms, be sure to call a physician. Do not wait, hoping it will wear off, sometimes food poisoning is fatal.

The staphylococcus organism grows best in foods which are slightly fatty, such as fat meats, salads with rich dressings, cream pies, cream puffs, or any food with custard fillings. So if anyone in your family takes his lunch to work during the coming hot months, be careful of the foods you put in the lunch, and don't include any of these foods.

No. 1 Killer of BOLLWORM is dieldrin-DDT

Close rival to the weevil as a destroyer of cotton, the bollworm has always been more difficult to control.

As the bollworm season approaches, every cotton grower wants to know "What's the best insecticide?" Actually, no one chemical so far tried will provide top control of bollworm. But . . . field tests prove that certain combinations of chemicals do give effective control.

A mixture of dieldrin and DDT is one of the most deadly bollworm killers of all . . . more lethal than either insecticide alone. Used as a dust or a spray, the combination provides excellent control with relatively small dosages. The same dust or spray gets the boll weevil, fleahopper, tarnished and rapid plant bug, grasshoppers and a host of other pests.

Where large areas of cotton must be protected from bollworm damage, and low cost is a primary consideration, dieldrin-DDT mixtures provide profitable control at the lowest cost per acre.

Whichever combination is used, the timing and form of application (dust or spray) should follow the practice proved best in your area.

TRIM YOUR COSTS 3 WAYS WITH DODGE TRUCKS

"Dodge is by far the lowest cost to operate!"

"We keep complete individual records of each of our trucks and have found that Dodge is by far the lowest cost to operate. In fact, our Dodge costs us .6 of a cent less per ton-mile to operate than our next closest truck! This difference must be the result of Dodge's many economy features. Furthermore, we've found that our Dodge 'Job-Rated' truck will haul a full load of sand or gravel up hills that several of our other trucks won't take. Our next truck will be a Dodge."

... says JOHN S. SCOFIELD, Scofield & Co., Freeport, Illinois

- ▶ There's a Dodge truck that's "Job-Rated" to fit your job—½ ton through 4 tons.
- ▶ Every model "Job-Rated"—engineered to haul a specific load at low cost, to last longer, to save you money.
- ▶ Load-carrying and load-moving units engineered for proper strength and capacity under severe conditions.
- ▶ Ask us for a Show Down of Truck Value—be your own judge. We have all the facts!
- ▶ Come in today for a demonstration and a good deal.

2 Trim upkeep costs! You'll get a "Job-Rated" chassis that's built to stand the gaff. Depend on features such as deep-channel frame and high-capacity springs to keep repair bills down.

1 Trim operating costs! You'll get the right "Job-Rated" engine with high compression ratio. Features like four rings per piston and wear-resistant valves save gas and oil!

3 Trim delivery costs! You'll make more deliveries per day—in less time. It's easy to wheel a Dodge "Job-Rated" truck in and out of tight spots—thanks to short turning diameters.

ROBERT LYNN BOWDEN IN MODEL PLANE CONTEST

Robert Lynn Bowden of Munday attended a model airplane contest, which was sponsored by the Plymouth agency, in Stamford last Sunday afternoon. Although weather was unfavorable for flying the model planes, Robert Lynn won several places. He took first place in speed, second in stunt flying and third place in the beauty contest. Around 100 planes were entered in the contest.

Jimmy Lynn McDonald of Midland is spending several weeks this summer with Mr. and Mrs. J. J. Koel.

NOTICE TO THE PUBLIC

The Munday Senior Class of 1952 regret that the advertisements for the following firms were omitted from the 1952 Annual: Blacklock Grocery and Market, The Hat and Dress Shop, Munday Paint and Body Shop, and Dr. R. L. Newsom. We wish to thank each one of them and assure them that this will not happen in the future.

We wish to thank all of the business firms who had a part in making this year's Annual a success. Every time we turn the pages we will remember each one who had a part in the making of it.

We also wish to thank Mr. Aaron Elgar for the many times he published, free of charge, advertisements for our High School Senior Class of 1952. 1tp

Relatives Here For Albus Funeral

Among out of town relatives here for the funeral of Francis Albus last Wednesday were Mr. and Mrs. Anton Blake and three children of Wichita Falls, Mrs. Joe Bichel of Nazareth and Miss Gertrude Blake of El Reno, Okla.

Burial services were delayed several hours while the family awaited the arrival of a son, Sgt. Daniel Albus, who is stationed in Hawaii. He arrived on the four o'clock bus Wednesday afternoon, and burial services were held at 7:30 p. m.

Nephews served as pallbearers. They are: C. J. Albus, Vincent Albus, James Albus, Elvia Blake and Herman Stengel, all of Munday; Edward Blake and Anton Blake, Jr., both of Wichita Falls, and Fred Albus of Pep.

AMERICAN LEGION TEAM WINS ITS THIRD GAME

Munday Post 44, American Legion team defeated the Munday Indians 10-8 Tuesday night. The win was credited to Tommy Powell, although he had to be relieved in the third inning by Willard Skiles.

This makes three wins and no losses for Post 44 team. They play Rochester Thursday night, June 26.
