FLOOD WATERS DESCEND UPON CITY; 5 DROWN

Business Houses and Homes Are Deluged By Flood

A flood of water in unprecedented quantities swept down through the streets of Munday shortly after midnight Friday night and entailed a loss to the residents and business concerns of Munday ranging into the thousands, and verified the statements of pioneer citizens of this section that in former years they had seen water of sufficient depth in the business section to swim a horse, and while the water did not reach this depth at any point within the business section, the fact that it did not may be attributed to the fact that more provisions have been made for drainage than existed in the years referred to by the old-timers.

At any rate no citizen now residing within this section has ever witnessed the flood that visited the town and surrounding country at this time. It began raining late in the afternoon Friday and continued until about two o'clock Saturday morning, during which time some eight inches of rainfall were registered in the gauge maintained by Mr. A. E. Whittemore. Other citizens, however, who gauged the rainfall for buckets, tubs, wash kettles, etc., contend that there was from twelve to fourteen inches of rainfall.

The local rainfall, while very heavy at times, never reached the proportions of a cloudburst, and the flood waters which swept through the city came from the Thorp and Gillespie communities where the rain fell in torrents and without warning swept through the business section. At the height of the flood the water swept over the city hall lawn at a depth of some three feet and was so swift that it was difficult for a person to stand up in the current. Water stood from various depths ranging as high as eighteen inches within the business section. The postoffice stood eighteen inches in water, the Isbell-Burton Motor Company had eighteen inches of water in the building, and both banks had six to eight inches of water on their floors, and all other business houses were flooded, and many citizens were forced to leave comfortable beds and hie themselves to higher ground when the water came up in their homes.

Business concerns suffered losses ranging from a few dollars to thousands. The Munday Cotton Oil Company was possibly the heaviest loser, having suffered a loss of approximately \$5,000. Residents of Munday and the Munday section suffered heavy losses in poultry and livestock, and a careful survey of the country visited by the storm indicates that crops have suffered from wash-out only about ten per cent, however in some particular sections the loss is far more. The heaviest losses from wash-out that we have heard of was in the section north-west of the Gillespie school, where the crop damage was almost complete and in many instances the soil has been washed out to the point where it has been permanently damaged.

The flood waters came down upon the town almost without warning. While the heavy rains here had flooded the streets and low places, the real flood did not reach the city until after the rain had ceased and the stars twinkled through the scattering clouds. At about two o'clock citizens residing within the wake of the oncoming torrent were awakened by a roar, which proved to be a veritable roll of water, and as it rushed into the town and continued to rise business men hurried to their places of business to save what merchandise they could while other members of the families hurried about to save household effects from the rising waters.

Saturday, which is ordinarily a busy day for merchants, was a day of housecleaning. Business folks were busy sweeping and scouring the film of mud from their floors and walls that had been left by the receding waters, and were moving and salvaging merchandise that had been within reach of the flood waters. Washouts on the Wichita Valley resulted between Munday and Weinert and between Goree and Seymour, and no trains reached Munday from Friday evening until Monday evening when a relief

Miss Sarah Wright Seeks New Office of Tax Collector

We are authorized to announce the candidacy of Miss Sarah Wright of Benjamin for the office of County Tax Collector, subject to the action of the democratic primaries.

While the creation of this office in Knox county is contingent upon the population reaching ten thousand on the face of returns from the census enumerators, Miss Wright feels so confident of the creation of the new office that she has authorized us to announce her candidacy.

Miss Wright has been in the county almost continuously since 1920 and for the past six years has been a deputy in the office of Sheriff and Tax Collector, and she is therefore thoroughly familiar with the duties of the office, and is also familiar with the tax rolls of the county and with every detail pertaining to the duties of the office.

Miss Sarah is well and favorably known to the citizens of Knox county, and all are familiar with her efficient service in the tax collector's office and her courteous treatment toward all who have had occasion to visit the office, and she very respectfully solicits the consideration of the voters at the polls.

Ice Plant Visited By State Health Man; Ice Is Safe

Dr. M. H. Jensen, director of the Nolan County Health unit, and a representative of the State Department of Health, who was here for a couple of days looking into the water situation, visited the plant of the Munday Ice Co. Wednesday afternoon, and after inspecting the plant thoroughly and their method of treating the water from which the ice is made, he stated that there was not the slightest danger in using the ice from the plant.

Mr. Jensen stated that the method of treating water that has been followed in the plant here is a safeguard against impure ice and when so treated it is far safer than untreated water from any source.

The plant had a sufficient supply of ice on hand to run for several days which was made from water drawn from the well prior to the flood, in fact, at the time of the flood they had 140 tons of ice and water in storage.

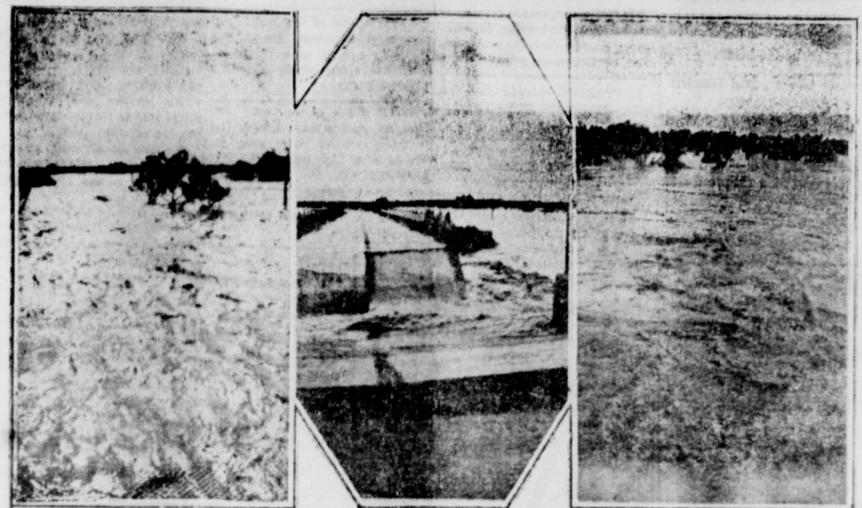

Bill Mabry Will Open New Store in Tull Building

Will Mabry, who has been associated with the E. B. Cash Grocery, has purchased the interest of Edgar Jones in the fixtures that escaped the fires and is moving them to the E. B. Tull building, where he will open a grocery and market as soon as the fixtures can be repaired and put into first class condition. He will be in the building formerly occupied by the Haney grocery and market, and will carry a complete line of groceries and meats.

FIRST BAPTIST CHURCH

The B. Y. P. U. meeting for Friday night of this week has been postponed indefinitely. The Workers Meeting of the Association will be held at Weinert next Monday. All services next Sunday will be at the usual hours. There will be special music at both the morning and evening services. The church with a welcome. W. H. ALBERTSON, Pastor.

SCENES OF KNOX COUNTY FLOODS WHICH TOOK HEAVY TOLL LIFE AND PROPERTY

The first pictures show Lake creek, at a point one-half mile east of Goree, during the high water Saturday and Sunday, when the stream got out of banks, overflowed hundreds of acres of farm land, washed out pavement and bridges, flooded homes and wrought havoc generally. It was in this section of Knox county that bore the brunt of the flood. In the same vicinity, Miller creek, another small stream, took five lives and caused heavy damage to property and crops.

MUNDAY POPULATION 1318

Increase of 33 1/3 Per Cent Is Shown

Munday has a population of 1318 according to the report of the census enumerator for this district, which represents an increase in population of 33 1/3 since the last census in 1920, and which we believe to be a very good showing in view of the fact that our population at the time the census was taken was less than at any time during the past few years due to the fact that many people have had to leave here to find work during the dull spring months. According to authentic information we have received the population of Knox City is given as 904, as against 698 in 1920, and which represents a gain of 296 for that city, while Goree has suffered a loss of 158 according to the report, the present census giving that city 456 as against 614 in 1920.

Let us say that the same conditions apply to our neighboring towns that apply to Munday. Many people have moved out to find employment and it is likely that all of them have a smaller population at this time than at any time during the recent years, as is evidenced by the large number of vacant residences here and in the neighboring towns.

The figures verify Munday's status to a normal population of 2000, as the number of vacant residences in Munday at this time, which are normally occupied, will easily run our population figures to that point.

No figures have been made public yet for the county as all reports have not been checked. Owen M. Unger, supervisor for this district, was here from Plainview last week checking the reports of enumerators in the county and stated that as soon as those reports could be checked he would make them public. The figures given out are subject to correction. There is considerable interest in the county in the complete report of the county, as it is likely that the office of sheriff and tax collector will be divided. In the event that the population of the county reaches 10,000 this will be done, and as the county had a population of 9,240 in 1920 it is generally believed that it will exceed 10,000 this year, and so strong is this belief in the minds of some that three candidates have filed for the office of tax collector, which office will be created only in the event that the population of the county reaches that figure.

I had so many tomato plants washed up in my garden and realizing that many have suffered the loss of plants in the recent rain I am going to give to all who call, as long as they last, tomato plants to replace those washed away.—Mrs. G. T. Hughes.

INFANT SON OF MR. AND MRS. W. L. KINNEY DIED

The infant son of Mr. and Mrs. W. L. Kinney, who reside in the home of Mrs. R. P. Munday, died on Thursday morning and the funeral services were conducted at Johnson cemetery Thursday afternoon by the Rev. W. H. Albertson.

Mr. and Mrs. Kinney came here some months ago from Sweetwater, Texas. The Times extends sincere sympathy to the sorrowing parents.

Mr. and Mrs. G. W. Tate had as guests last week Mr. and Mrs. F. L. Rector and daughter, and Mrs. A. C. Wood of McCauley, Texas. Mrs. Rector is a sister of Mr. Tate.

CO. Supt. MAKES REPORT ON SCHOOLS OF COUNTY

Mrs. Ethie Lee P'Pool, county superintendent of education, has completed her report to the State Department of Education, which contains the following interesting information: Total value of school property, excluding independent school property, \$132,900.00. Salaries paid during the year \$50,306.50. Number of pupils in attendance 1266. Number of common school districts in county 18. Average cost per pupil \$39.00. Average length of term 7 3/4 months. Number of teachers in county holding degrees 9.

Presiding Elder Will Preach At Methodist Church

We are requested by the Rev. W. J. Mayhew to announce that the Rev. R. A. Stewart, presiding elder of the Stamford district, will preach at the Methodist church Sunday morning and quarterly conference will be held at 2 o'clock in the afternoon. The pastor will preach at the evening hour.

In his letter Rev. Mayhew states that he plans to return home with Mrs. Mayhew on Friday, and states that she continues to improve, and her many friends will be glad to know that she has recovered sufficiently to return home.

Many Enter Pleas of Guilty Before Judge I. O. Newton

In the district court at Benjamin this week the criminal docket has received the attention of the court and a number of cases were disposed of. When the jury list was read Monday morning a number of jurors failed to answer to their name but Judge Isaac O. Newton stated that he would not impose any fines as road conditions were such that travel was uncertain.

The cases disposed of so far this week are as follows: The State of Texas vs. Ed Williams, charged with driving an automobile while intoxicated, defendant entered a plea of guilty and punishment was assessed at \$25.00 and costs.

The State of Texas vs. Shab Harrah, charged with driving an automobile while intoxicated, defendant entered a plea of guilty and punishment was assessed at \$50.00 and costs. The State of Texas vs. Ban Bales, charged with selling intoxicating liquor, defendant entered a plea of guilty and was given a two year suspended sentence.

The State of Texas vs. Iseal McArthur (col.) charged with removing mortgaged property from the state, entered a plea of guilty and was given a two year suspended sentence. The State of Texas vs. A. J. Brown, charged with forgery, entered a plea of guilty and was given a two year term in the penitentiary.

The State of Texas vs. C. E. Bolt, charged with transporting, was tried before a jury who brought in a verdict of guilty and assessed punishment at one year in the penitentiary. Judge Newton has called the grand jury back into session for Monday morning to resume their deliberations and investigations.

Knox Grand Jury Reports County Free From Crime

To: Hon. Isaac O. Newton, District Judge, Knox County, Texas: We, your grand jury, duly sworn, empaneled as such for the June term, 1930, beg leave to submit the following report: We have diligently inquired into all the alleged violations of the law that have been brought to our attention, and have returned 21 bills of indictment, 15 of which have been felonies and 6 misdemeanors. We have inspected the County Jail building and find the same to be in good condition. We have thought and talked of the stone floors upon the court house, and think there is some danger of their falling over on the roof of the building, as well as their being unsightly and we would recommend that the commissioner's court have same removed.

We have observed and inspected the appearance of the court house yard, with its white wash of paint upon the tree and the clean neat appearance of the yard, and we desire to take this method of commending Mr. Elliott for having same done and also prisoner Burgess, whom we understand has done the work in beautifying the grounds.

We wish to commend our county peace officers in the work they have done in suppressing and apprising law violations in the county, and in keeping Knox County a decent and desirable place in which to live. We have finished our deliberations and respectfully request to be discharged. C. M. Guynn, Foreman.

Sheriff C. R. Elliott left Benjamin Monday afternoon with two prisoners, J. C. Burgess of Knox City and Bud Boone of Vera, each of whom received a one year sentence on charges of violating the prohibition laws. The prisoners were conveyed by Sheriff Elliott to Wichita Falls, where they were turned over to penitentiary agents.

Mr. and Mrs. T. L. Wallace and children, Fern and Barbara, have moved to Munday from Olney. Mr. Wallace is employed by the Home Bakery.

Members Oscar Tidwell Family Drown In Miller

Five lives were snuffed out and damage amounting into the thousands in the flood which visited this section of Knox and parts of Haskell and Throckmorton county on Friday night of last week.

The entire family of Oscar Tidwell was drowned on Miller creek east of Goree when the flood came down and washed their home away, apparently without warning. Those dead are:

- Oscar Tidwell, age 36. Mrs. Oscar Tidwell, age 29. Etan Bell Tidwell, age 13. Oscar D. Tidwell, age 10. Mrs. Belle Gilliland, age 70.

The above list includes all the members of the Tidwell family as well as Mrs. Tidwell's mother, who made her home with the Tidwell family on the banks of Miller creek.

Neighbors discovered at day-break Saturday morning that the Tidwell home was gone and spread the news as soon as possible. A neighbor went to the telephone and phoned the news into Goree and a posse was immediately formed to search for the missing family, and citizens of the Miller creek country joined in the search.

The bodies of Mr. Tidwell and wife and son were found during Saturday. The body of Mr. Tidwell was found some three hundred yards from stream from where the home stood, while that of Mrs. Tidwell was found further down stream a half or three quarters of a mile. The bodies of Mrs. Gilliland and the little girl were not found until Sunday morning and were about a hundred yards from the place where the body of Mrs. Tidwell was found.

The bodies were conveyed to Goree over the tracks of the Wichita Valley with the aid of a hand car borrowed from one of the crews at work rebuilding the tracks and were carried to the home of Mrs. T. M. Anderson. Funeral services were conducted at the high school auditorium at Goree Sunday afternoon over the five bodies by the Rev. J. P. McGee, pastor of the Methodist church, after which interment was made in the Goree cemetery.

Grandma Gilliland, who was the widow of the late "Uncle Mack" Gilliland, one of the pioneers of this section, is survived by three children, Gray Gilliland of Childers, Bryan Gilliland of McCauley and Mrs. Hubert Stone of Eddy, Texas, while Mrs. T. M. Anderson and Mrs. Cavie Tynes of Goree are step-daughters. Oscar Tidwell is survived by four brothers, Joe and Ed of Goree, Will, of Olney and Jess of Chattanooga, Oklahoma, and two sisters, Mrs. Laura Goree, of Bradford, Texas, and Mrs. Ha Craufield of San Francisco, California.

Democratic Chiefs Hold Pow-Wow and Make Ticket

The County Democratic Executive committee in session at Benjamin on Monday certified the following names for district, county and precinct offices. The names appear in the order in which they were drawn by the committee and in which they will appear on the ballot: Associate Justice Court of Civil Appeals: W. P. Leslie, Eastland.

Congress, 18th Congressional Dist: Marvin Jones, Amarillo. James O. Cade, Amarillo. State Senator, 23 Senatorial Dist: Geo. W. Baccus. Roy J. Daniel. Ben G. Oneal. Ruben Loftin.

Representative 114th District: George Moffitt. O. D. Benschamp. Dist. Atty., 50th Judicial Dist: Dick Dresser. Wm. E. Combest. County Chairman: Chas. Moorhouse. County Judge: S. T. Easley. J. W. Melton. A. E. Reese. O. W. Lee. N. S. Kilgore.

(Continued on back page.)

Danger! Typhoid Fever

FOLLOW THESE INSTRUCTIONS:

1. Boil or chlorinate all your water until the City notifies you that the supply is safe. Directions are given below.
2. Handle milk and other foods carefully.
3. Destroy flies and their breeding places. Assist the City Workers in cleaning up the town. Make your pit toilets fly proof.
4. Take the Typhoid shots immediately.

DIRECTION FOR CHLORINATING AND BOILING:

Drink no water unless it has been boiled or chlorinated. If you boil the water, do so for at least fifteen minutes. In washing clothes, let clothing soak in chlorinated rinse water as shown by directions for preparing drinking water, on the can of Chlorinated Lime.

For Preparing Drinking Water: Follow directions on the can of Chlorinated Lime but double the quantity of solution recommended on the can, that is, use twice the amount of Chlorinated Lime Solution that the can directions recommend.

Be sure to chlorinate or boil water from the City well before drinking it. As soon as the city supply is safe you will be notified.

For Chlorinating Your Well:

You will have to know how many gallons of water it contains. Figure this by multiplying the diam-

eter (distance from side to side) x the depth of water in the well x 3. This gives the number of cubic feet of water. Then multiply by 7.1-2, which gives the number of gallons in the well. For example, a well is 3 feet in diameter, and the water stands 5 feet deep in the well. 3 x 5 x 3 = 45. This multiplied by 7.1-2 = 45 x 7.1-2 = 314 and 1-2 gallons, or roughly, 300 gallons.

The directions on the can of Chlorinated Lime will give the amount of chlorinated lime solution to add to each 10 gallons of water. For the above example it would take 30 times the amount for 10 gallons to chlorinate the 300 gallon well. To be safe, you should then use 5 times as much solution as you have figured above.

Don't depend on this alone to make your water safe. Chlorinate again or boil after you get it in the house. Before using your well water without treating it, have at least two tests made on separate days. D. T. Mauldin, City Secretary, will give you directions for taking water samples and sending them to the State Laboratory.

For Killing Vermin Under Houses:

Burn 1 pound of sulphur to every 100 square feet of ground under the house. Place the sulphur in a small metal vessel and put this vessel in a pan of water. This will keep the sulphur from setting fire to the house if it burns through the vessel it is in.

CAUTION:

Stay away from under the house while there are any sulphur fumes. Keep the underpinning of the house as tightly closed as possible so the sulphur fumes will not escape too quickly. For fumigating rooms against vermin, use 1 pound of sulphur to every 1000 cubic feet of air space in the room. Keep the room tightly closed for at least 6 hours and stay out of the room until it has aired thoroughly after being opened up. Burn the sulphur as directed above, and be careful not to set fire to the house.

To Keep Down Flies:

weeds, rubbish and refuse around your place or on any property close to you. Keep the flies away from your milk and feed. If you have City water supply, open up all faucets in your house and yard and let run for at least ten minutes. Repeat this in about four hours. The City water is being chlorinated but is not yet safe. Boil or chlorinate it until the City notifies you it is safe to use without sterilizing.

Dr. J. C. ANDERSON, President, State Department of Health.

Dr. M. H. JENSEN, Director, Nolan County Health Unit. This notice printed and mailed through courtesy of the City of Munday.

NOTES GATHERED IN HIGH WATER

Too much credit cannot be given to Dave Mauldin for the faithful effort he made to give uninterrupted water and sewerage service to the citizens following the flood. While the city well was flooded, he started early Saturday morning to making efforts to pump the flood waters from the well and succeeded in restoring water service with an interruption of only about four hours.

Formal dress was thrown aside Saturday in Munday. Men strolled the streets in their bare feet with their trousers rolled to their knees. Ladies went about in various garbs that provided them ease and comfort in negotiating the water-covered streets—and everybody seemed to enjoy it.

When the postoffice crew came to work Saturday morning they found 14 inches of water standing in the postoffice. Mail matter of various kinds was floating around in the office and many patrons who received merchandise received it in a wretched condition.

"Static" Dickerson down at the Utilities Office was lamenting the loss of 130 gold fish which inhabited the large concrete tank at the rear of the office. During the night they quietly swam away and no trace has so far been received. They were probably drowned.

Some two or three boats were operating over the streets and on the square Saturday morning, and some negroes in a small boat came near capsizing when they hit the swift current in the city hall park.

Several business houses escaped heavier damage by reason of the fact that their doors held the high water back. The Tate Furniture Company in the new Broach block would have had more than a foot of water on the floor had the

doors not held the water back. As it was only about two inches of water covered the floor.

The Munday Produce Company had just received 5000 pounds of salt which was stacked on their floors in sacks. Saturday morning when Red West came down he found only a stack of sacks in the swift current that was running through the building.

Mrs. J. R. Smith has returned home from the Knox County Hospital at Knox City, where she has been undergoing treatment, and is much improved.

Dr. Gilbert S. Lambert Now Endorses Sargon

DR. GILBERT S. LAMBERT
 "For over two years I suffered with chronic stomach trouble and constipation that I was unable to correct with ordinary medicines. My appetite failed, I couldn't sleep and I was losing weight rapidly. I had frequent bilious attacks when my complexion be-

came yellow as if I had jaundice. The Sargon treatment appealed to me because of its scientific background. Three bottles taken with Sargon Soft Mass Pills overcame my troubles, and I am in better physical tone than in years."—Dr. Gilbert S. Lambert, well known retired physician of San Francisco.

The Rexall Store, Munday; T. F. Frizzell, Knox City; Griffin Drug Store, Goree, Agents.

Announcements

The Times is authorized to announce the following candidates for office, subject to the action of the Democratic primary:

For Governor: CLINT C. SMALL

For State Senator, 23rd District: RUBEN LOFTIN of Clay County BEN G. ONEAL of Wichita County

For Representative 114th District: GEORGE MOFFITT of Hardeman County O. D. BEAUCHAMP of Feardi County

For District Attorney, 50th Judicial District: WIN. B. COMBEST DICK DRESSER

For District Clerk: ROY PHILLIPS J. C. PATTERSON

For County Judge: J. W. MELTON O. W. LEE N. S. KILGORE S. T. EASLY A. B. REESE

For County Superintendent: MRS. E. F. BRANTON

For Sheriff and Tax Collector: C. R. ELLIOTT

For Tax Collector: MISS SARAH WRIGHT

For County Clerk: A. E. (Buck) PROPPS M. T. (Marvin) CHAMBERLAIN THOMAS E. WEST THOS. F. GLOVER

BATTERY CHARGING

We are equipped to do battery charging and repair work on batteries. Experienced workmen and good equipment insure the best of service. We do repair work on all cars. Special equipment and trained workmen for Ford cars.

LAND MOTOR COMPANY

After the First Twenty-five Thousand Miles

THE VALUE of sound design, good materials and careful craftsmanship is especially apparent in the new Ford after the first twenty-five thousand miles. Long, continuous service emphasizes its mechanical reliability and economy of operation and up-keep.

As you drive the Ford through many months and years you will develop an increasing pride in its appearance and a growing respect for the substantial worth that has been built into it. From every standpoint—in everything that goes to make a good automobile—you will know that you have made a far-seeing, satisfactory purchase.

Wherever you go, you hear enthusiastic praise of the car and this significant, oft-repeated phrase—"I'm glad I bought a Ford."

A FORD owner in New York tells of a 13,000-mile trip across the United States and back in sixty days and says "the car was extremely economical to operate, comfortable and speedy." A grateful father tells how the Triplex shatter-proof glass windshield saved his wife and children from serious injury.

To test tires, a large company drove a new Ford day and night, for an average of 500 miles every twenty-four hours. It was still giving satisfactory service after 105,000 miles.

A Ford car that had fallen into Fernan Lake was submerged for twelve days before being raised. After a new battery and carburetor bowl were installed, it was driven back to Spokane under its own power.

Many police departments have written of the special advantages of the Ford in crowded traffic because of its alert speed, acceleration, and ease of control. An increasing number of fleet owners are also purchasing the Ford because their cost figures have given conclusive proof of its economy of operation and up-keep.

In addition to important triumphs in Germany, France and Italy, the Ford won six out of seven leading places in a contest in Finland, first and second in the Rafaela races in Argentina, first and second in the

run from Copenhagen-to-Paris-to-Copenhagen, three gold medals in England, first ranking in the durability test over the tortuous Amancaes road in Peru, and first place in the 1930 reliability run conducted by the Royal Automobile Club of Sweden.

This contest was an exceptionally severe test of endurance and sturdy construction because it was held in the dead of winter and covered 600 miles of steady running over snow-covered country roads and mountainous hills.

NEW LOW FORD PRICES

Kitchen on Wheels Coming to Munday

The Lone Star Gas Company has recently introduced a novel method of demonstrating compressed natural gas delivered in portable steel cylinders to homes not having pipe line gas service. A model kitchen has been especially designed and constructed on a truck chassis. This traveling kitchen tours the suburban communities in Texas giving special demonstrations with compressed gas. The interior of the truck is equipped with standard gas appliances, including a cook stove, water heater, refrigerator, lights and small wall heater. These appliances receive a supply of gas from standard installation mounted on the rear in a steel cabinet exactly the same as the installation for service in the home. Two cylinders are included in the installation. As one cylinder becomes empty it can be cut and the other turned on; the empty cylinder can be replaced without interrupting service. The Stamford & Western Gas Co. of Munday, the distributor of Stargas in this territory, will bring this kitchen to this district for public inspection. The route of the truck is as follows: Tuesday, June 24th: Fancher, 9 to 10 a. m. Bomarton, 10 to 11 a. m. Goree, 12 noon to 2 p. m. Munday, 3 to 5 p. m.

RHINELAND HAPPENINGS

The long looked for rain came at last. And how! Some damage was done here; however, it did not prove serious.

A number of the young men of this community have gone to the plains where they will work in the harvest fields. Among those

who left are: Eddie and Bill Koehler, Leo and Albert White and Lawrence Birkenfeld.

Mr. Clement Albus was a visitor to Wichita Falls the first part of last week.

Messrs August and John Schumacher made a business trip to Vernon, Texas, Thursday of last week.

Mr. John J. Hoffman and family have been visiting in Scotland the past two weeks.

Alfred Decker and Robert Albus are visiting in Wichita Falls. Rev. P. Mosler returned to his

home at Seymour Tuesday, after a picnic last Thursday. They were spending a week here.

Several of the young boys Bonks, The lads report a wonderful time at the Seymour park on full day.

VERA ITEMS

Hello, Munday folks! How did you like the rain? We also got a good one. Talk about growing; the crops should come leaping. We are hoping that they make good.

The District League Union was rained out Friday night. They are supposed to meet each second Friday night. Guess they will meet here next time.

The Epworth League meets each Sunday evening at 7:00 at the Methodist church and the Sr. B. Y. P. U. at 6:00 o'clock at the Baptist church. Everyone is invited to attend. We want to see more of the older people present to encourage the younger ones.

Bro. Hester is away for a two weeks school at Dallas, but he will be back on the job Sunday. There will be preaching at the Methodist Church Sunday at 11:00 and 8:15 o'clock.

Mr. T. J. Couch and family have just returned from a few days visit in New Mexico.

Mr. and Mrs. Wesley Trainham are visiting at Stanton, Texas. They accompanied Mrs. Mollie Bratcher and family.

Mr. R. N. Smith is in the Knox County Hospital at Knox City, undergoing an operation for neuritis of the head. He has been suffering severely and we're hoping for him a speedy recovery.

Mr. John McKinney is not improving very much. He is up and down, but is gradually growing weaker.

Mrs. Welch doesn't seem to be getting much better, but the many friends are hoping they'll soon be restored to their health.

Grandma Kinsborough is improving after a period of illness.

There was no preaching service at the Baptist church Sunday morning on account of a funeral conducted by the Baptist pastor, Bro. Copeland. The deceased was an infant of Mr. and Mrs. Delaney of Colocorner. We extend our deepest sympathy to the bereaved.

Miss Ruby Feenster is at home after a two week's visit in Dallas.

Mr. J. E. Jeffcoat and family and Miss Lillian Spinx are also at home again after a short vacation.

Messrs Carl and T. L. Cannon of Hood community have been Vera visitors.

Mr. Solimon Hayek has returned to San Antonio after a brief visit with homefolks.

Miss Edith Craft has returned from a visit in Palo Pinto county.

Mr. and Mrs. Ira Owen of Hood community were visitors of Mr. John McKinney and family recently.

Miss Winnie Grace Hughes is at home from college for the summer.

Misses Margaret McGoy and Vernie Colson, two of Vera's young ladies, were in a car accident at Seymour Thursday night. Vernie was slightly injured, but Margaret was only excited and escaped uninjured.

Grissom-Robertson's Creed

The Most Valuable Asset To Us Is The Customer's Confidence. To Gain It And Retain It At All Cost Is Our Aim.

We Earnestly Endeavor AT All Times--

To render a real service to the community in which we serve.

To deal fairly and squarely and to shun misrepresentation as a pestilence.

To offer merchandise of a reliable quality and to stand behind whatever we sell.

To push steadily onward and to rise in the estimation of our customers as we go.

To strive to increase our business by high principles and modern methods.

To put our utmost enthusiasm and sincerest appreciation into each day's work.

To give every customer our most courteous and considerate attention.

BRUSHY NEWS

Health of the community is better at this writing.

We are glad to report that Grandmother Strickland is able to be up.

The little daughter of Mr. and Mrs. Nugent Strickland was very sick Saturday and Sunday but is all right now.

This country was visited Friday night by the heaviest rain that any of us ever saw fall. The water got higher than ever before.

This community witnessed one of the saddest occasions that it has ever witnessed. The water reached such a high mark that it washed Oscar Tidwell's home completely away. He lived almost on the bank of Miller creek. The house was torn to pieces and the family swept down stream and drowned. The family consisted of Mr. and Mrs. Tidwell and two

children, a boy and a girl, and Mrs. Tidwell's mother, Mrs. Gililand.
