

MOTLEY COUNTY BOYS STEERS TOP MARKET
FORT WORTH—The extreme top for fed steers at Fort Worth Monday was set by the steers fed by H and F. F. A. boys of Motley County. One steer brought \$24.50, two steers sold at \$22, and the big end of the load sold at \$23.75. Most of the boys reported their commercial feeding project had resulted in their making a little money.

Some of them reported their cattle weighed more at Fort Worth than they did at home, while some of the others reported normal shrinkage from the trip.

In the group were County Agent Bill Pallmeyer, Vocational Agriculture Instructor N. L. McKibben, Roaring Springs; Mrs. Jack Bearden, Mervin Green and Mr. and Mrs. Carl Bird.

Boys in the market group were Rodney and Pewee Long; Jerry and Bert Green; Bob, Gale and Richard Stafford; Ross and James Bearden, Carter and Jack Luckett, David Keith, Richard Hamilton and Bill Martin.

CATTLE STRONGER AS SUPPLIES ARE SMALLER

Slaughter steers and yearlings sold 50c to \$1 higher at Fort Worth Monday as supplies were smaller and the buyers were caught in a forced trade which enabled the salesmen to raise prices. Cows were strong to 50c higher. Bulls steady and slaughter calves steady to 50c higher. Stockers steady to strong.

I. S. Scott, Castro County, had a load of steers at \$51-lbs. at \$22, and O. W. Holcomb, Erath County, had a load of 678-lb. yearlings at \$21.50. Numerous lots of good fat yearlings sold at \$20, among these were mshp neistsh maSk these were shipments from C. C. Winters, Erath County; Slaughter Ranch, of Ellis County; G. C. Spann, Taylor County; Maxey G. Harvey, Jones County; Pat Mitchell, Stonewall County; W. P. Triplett, Hill County; R. M. Simpson, Wise County; and a load of 676-lb. yearlings from John Murrin, Tarrant County, drew \$20.50; D. D. Alexander of Tillman County, Okla., had two loads at \$66 lbs. at \$21; C. F. Brown Estate, Falls County, had four loads at 609 lbs. at \$19.25.

Fat cows drew \$11 to \$14.50, canners and cutters \$8 to \$11.50. Few under \$8. Bulls \$10 to \$15. Good and choice fat calves \$18 to \$21 and stocker calves and yearlings \$15 to \$20.

LAMBS BOUND BACK TO A TOP OF \$25.00

The trade in the sheep yards was also a lively affair with the salesmen once again having the upper hand due to lighter receipts. The buyers also found the quality of much of the run much better, also, and the result was higher lamb prices by from 50c to as much as \$2 per hundred.

Top milk lambs sold from \$21 to \$25, and shipments at the extreme top of \$25 included from Scott Graham, Collinsville; Martin Reese, Midlothian; Max Lindsay, Newark; E. L. Jenkins, Pilot Point; Carl Abbott, Godley; O. B. Beckner, Prosper; R. J. Wilson, McKinney; L. W. Metzger and Jim Fortenberry of Lone Oak and Frank Rucker, Celina; J. H. Standifer & Son, Col-

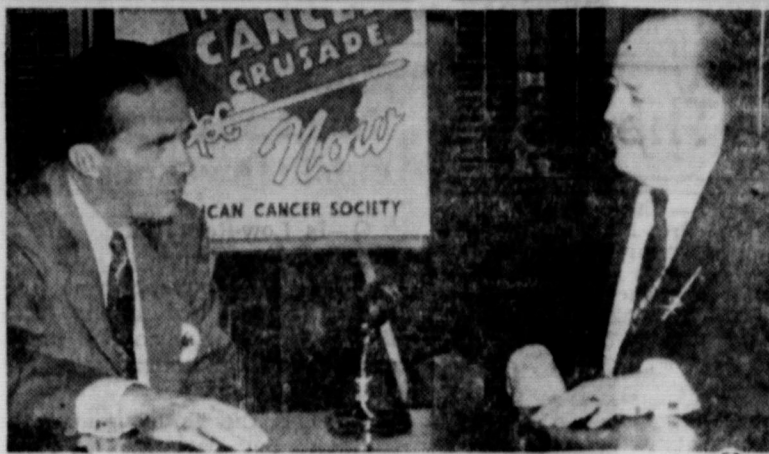

lin County, had lambs at \$24, as did W. J. Medlin, Denton County, Ed Browner, Hill County; E. D. Pickering, Lake Creek; H. W. Scroggins had some lambs at \$24.50.

Shorn fat lambs drew \$16 to \$20, and feeder lambs drew \$14 to \$17. Old wethers \$9 to \$10.50; ewes \$5 to \$6; old bucks \$4 to \$5.

HOGS UNEVEN TOP WAS \$27 TO \$27.75

A few butcher hogs taken by shipper buyers reached \$27.75 at Fort Worth Monday, but the practical top was \$27. Sows were steady at \$22 to \$23.50.

Drive carefully. The life you save may be your own.

TEACHER PLACEMENT AGENCY IN OPERATION

As a professional service to the teachers of Texas, the Texas Teacher Placement Agency had its formal opening at 102 Adrian Drive in San Antonio, last week.

With the increasing need of teachers in the schools of Texas from the kindergarten through the college level, the newly-formed agency will be in position to offer a service in placement of teachers through local superintendents and other administration officials.

The Texas Teachers Placement Agency is state licensed and bonded. It is owned and operated by three Texas teachers and will operate exclusively in the

placement of teachers in Texas schools.

PREVENTION IS BEST CURE FOR BORERS

Wood boring insects seldom attack healthy growing trees, but unfavorable weather conditions in some areas have allowed many ornamentals to become weakened and infested with these unseen pests.

Proper pruning, fertilization and watering are the best defenses against such insects, says Neal M. Randolph, assistant extension entomologist.

Many kinds of borers may cause damage, Randolph adds. The presence of bark beetles is noted by BB-shot like impressions in the bark. Flat-headed borers usually tunnel just underneath the bark. The round-headed borer eats its way deep into the heartwood leaving its passages hollow.

Since borers spend most of their lives within the wood and out of reach of chemical insecticides, Randolph explains that prevention is the best cure. Infested trees may be treated effectively with DDT, however, he adds.

The life cycles of the insects vary greatly, making it impossible to set a spraying date so the adults will be killed when crawling about the bark laying their eggs. By brushing or spraying the bark over a long period

of time, Randolph says, the insects can be kept from laying their eggs.

Munday's Housing Group Answers Public Questions

Q—Is Low-Rent Public Housing Tax Exempt?

A—Yes. This exemption is provided by state law and is confirmed by our city council in its cooperation agreement with the housing authority.

Q—Does the Housing authority make any payments to local taxing jurisdictions?

A—Yes. In this Cooperation Agreement, there is a provision for payment of not to exceed ten percent of shelter rent to the various taxing jurisdictions. This payment is in lieu of taxes made in recognition of the services that these jurisdictions render. Likewise, these jurisdictions acknowledge the tax exemption of the low-rent public housing project, since they recognize the services that the low-rent project renders the community in terms of better housing and health conditions.

Q—How do payments in lieu of taxes by the Housing Authority compare with actual taxes previously received by the city, school district, and other local taxing jurisdictions?

A—The experience of housing authorities in the Southwest has been that payments in lieu of taxes to local jurisdictions have invariably exceeded real taxes previously assessed on the slum or vacant sites. In other words the revenue to local taxing jurisdictions have been increased because of the low-rent projects built in the community.

Friday after a three weeks visit here with her daughter and husband, Mr. and Mrs. Bob Jarvis.

ADDITIONAL DROUTH AID REQUESTED

Despite recent rains, many more millions of relief dollars may have to be plowed into our agricultural economy before the disastrous effects of the drouth are nullified.

The situation remains serious enough to warrant the direct attention of the President of the United States for the second

straight year. The problem still remains unsolved.

Governors from five states, including Texas, met in Washington recently to place their recommendations before the national administration. Their initial plan was for a grant of \$15 million to combat dust and wind problems in disaster areas. This amount would be in addition to the \$195 million already ear-

marked for the agricultural conservation subsidy program this year.

The \$15 million figure is not an unreasonable sum. It would go a long way in relieving the strain imposed by the three-year dry spell. However, the request was not accompanied by any concrete recommendations as to how the money should be used.

The governors frankly admitted they had made no attempt to find any long-range solution to the dust bowl threat and added that the requested sum would cover "emergency and immediate" problems for the next two months, only. It was stipulated whether this would be by direct relief grants or on a loan basis.

Rains over the state during April were an encouraging factor in the present optimism for good crop production this year. Row crop farmers have a good chance of recovery without much additional drouth aid. But many areas are still far below normal in rainfall and much of our pastureland is in extremely poor shape. Here is where the money must be spent, if any becomes available.

Two supplemental recommendations were made to the federal government. They were:

1. That loan and credit facilities of the federal government be used to give "maximum benefits on a long-range basis" to farmers in the drouth-stricken area.

2. That farmers and ranchers in the five states be "encouraged and helped in the proper use of land."

It is in the second recommendation that the true solution to our problem lies—conservation and proper use of our land. To this we might also add the need to conserve our water.

The State of Texas, alone, is not prepared to assume the full burden of responsibility at this time. Help is needed from the federal authorities. But in the long run, Texas must prepare to take care of its own in times of natural disasters.

Mrs. R. E. Foshee visited with Mr. and Mrs. Ronald Foshee and daughter in Graham on Tuesday of last week. Mrs. Foshee and baby returned home with her for a few days visit.

Haskell To Go Western For Rice Springs Roundup

The entire town of Haskell will "go Western" during the coming week in adding colorful atmosphere for the Rice Springs Roundup to be presented May 13-14-15 in the large, new Fair Park Arena.

Merchants and their employees, along with members of civic clubs and organizations all will wear some type of Western regalia during Roundup week. C. of C. manager, Rex Felker, has announced.

A complete program of rodeo events will be presented each night during the three days. The Saddle Tramps riding club is sponsoring the Roundup, and the rodeo program will be produced by Dock Pitner of the Denton County Rodeo Association.

Prize money totalling \$1,850 will be paid in bronc and Brahma bull riding, calf roping, double mugging, and cutting horse contests. Silver belt buckles will be given in finals of bronc and bull riding. Also, the contestant making best combined time on four head of stock, two from each roping event, will receive a

handmade saddle. Other events will include cowgirls barrel races, an amateur jackpot each night, specialty acts, trick riding, and other rodeo attractions. On Oldtimers Jackpot Calf Roping contest for men 55 or older will be held Saturday morning, May 15.

Additional seats are being completed at the arena this week. Also new stalls have been built for individual animals of contestants in roping and cutting horse events.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox, M. D., State Health Officer of Texas

AUSTIN—The Texas State Department of Health urges strict attention to sanitation as a fly control measure. The main sanitation problems responsible for fly production are neglected phases of community clean up, like garbage storage, disposal, animal shelters and insanitary disposal of decaying industrial wastes.

Now is a good time to clean up the insanitary conditions around your town and home. Every time you destroy a breeding place, you stop whole colonies of flies before they can start. Insecticide spraying is effective only after a complete clean-up job if sanitary conditions are maintained throughout the year.

Proper garbage storage is one of the most important factors in good sanitation. Garbage should be stored in water tight, galvanized containers with a tight lid. Dispose of all cans, bottles and other rubbish. Proper disposal of garbage collected is equally important in the prevention of fly breeding areas.

Another measure in proper fly control is proper screening of homes. Each householder should check the screen on his house for holes that will allow flies to enter. Repairing of screens will help to protect food from contamination by fly borne disease organisms.

The importance of fly control can be realized when it is known that flies carry and spread such diseases as typhoid fever, the dysenteries, infant diarrhea and

Knox Prairie Philosopher Comes Out With A Plan To Settle Argument Over The Rigid, Flexible Farm Prices

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek has a novel idea this week which we offer for what it is worth.

Dear editor:

I know that with so many important matters bothering Congress, such as the Indo-China matter, K. P. duty for Private Shine, how big the hydrogen bomb ought to be, and many other things which require so much thought, I'm ashamed to devote any time to farmin'. It's sort of out-of-place to be talkin' about the farm problem at all, with world-shaking problems on every hand, but since I figure the farm problem will be here after the others are settled, in fact, if the hydrogen bomb gets out of hand the farm problem may be the only one confrontin'

J. A.

mankind, or that portion of him still left, and I thought I would give you the benefit of my thinkin', to save Congress the trouble.

As I understand the problem, Congress is now worryin' over what to do about farm price supports. Should they be rigid or flexible?

Accordin' to Sec. Benson's ideas, price supports ought to be flexible, but there are a lot of people in favor of keepin' them rigid.

Under the flexible system, opponents argue, a man might work all year on a crop, take it to town, and discover the market is so limber he's wound up in the hole. On the other hand, Sec. Benson argues that if we keep a rigid, guaranteed price, the surpluses will keep on mountin' and it'll break the government.

Now when it comes to a choice between me or the government bein' busted, I hate to make a choice as I ain't in favor of either proposition.

I have thought the whole thing over though and I believe the trouble is that Sec. Benson has the right terms, flexible and rigid, but he's usin' them in the wrong place, and I have worked out a compromise, which will take care of both the rigid camp and the flexible camp.

What the farm program ought to allow, under my system, is rigid price supports but flexible workin' hours.

Rigid price supports with rigid workin' hours is no better than flexible prices with flexible hours. It's these extremists that keep the country in hot water all the time. A little give and take is what this country needs.

My proposal, rigid prices, flexible hours, ought to satisfy all sides in this controversy, and if

Fashion in Rayon

W

This sleekly molded afternoon dress by Christian Dior-New York is made in an airy fabric of 100 per cent rayon, notable for its exceptionally luxurious, soft hand. Called "cashene" by Dior, the fabric is smooth and sheer, but not transparent, and is most comfortable to wear. Suitable now and on through the summer, this dress features Empire lines and a stand-away collar that blends into the sleeve for a softly rounded shoulder line.

REAL COWBOYS, IN FROM THE RANGE, FOR RODEO IN STAMFORD

STAMFORD—When a gate opens and a bucking horse bounds into the arena and somebody whoops, "Ride 'im, cowboy!", you can be sure that shout is strictly accurate—at the rodeo of the Texas Cowboy Reunion in Stamford.

In most rodeos, the contestants are men who make a career of going from one show to another and it has been a long time since some of them roped a calf or broke in a horse on a ranch—and some never worked on a ranch at all.

But at Stamford, the cowboys are really that; they have come in from the range to compete.

You think it has any merit I wish you'd send it on to the Department of Agriculture and to Congress and let's settle this thing once and for all.

Yours faithfully,
J. A.

and when it's over, they will return to the range. They look forward to the glory of competing at the tradition-rich Texas Cowboy Reunion. Dates are July 1, 2, 3 and 5—(the Fourth falls on Sunday). There will be a rodeo performance each night, also a matinee on Monday, July 5.

Mr. and Mrs. Tom Burns of Snyder were Sunday guests in the home of Mrs. Burn's brother, Zane Franklin, and family.

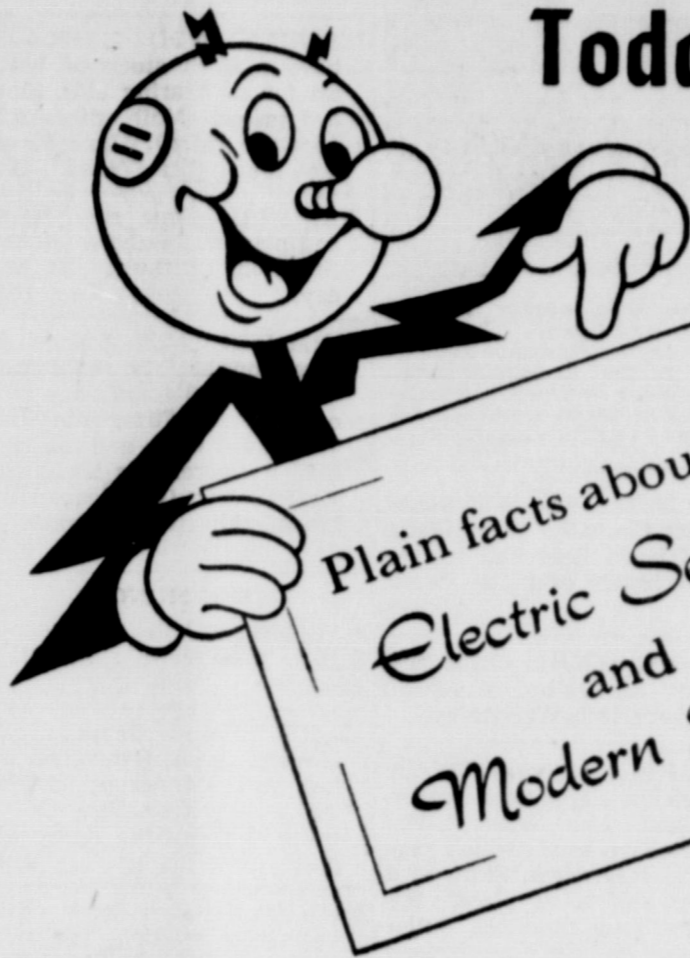

Mr. and Mrs. Fred Lain and Joan visited relatives in Cleburne and Weatherford over the week end.

Mrs. Troy Denham and children of Lueders spent the week end

with her parents, Mr. and Mrs. Leland Hannah.

Mr. and Mrs. Jim Porter and children of Sherman visited friends here during the week end.

Your Electric Service — Today's Biggest Bargain for Modern Living

Be Modern---

Live Electrically!

See Your Electric Appliance Dealer

He will be glad to demonstrate for you big appliances... small appliances... new appliances... all designed to save you work, time and money — to give you more leisure for you home and family. Take advantage of today's biggest bargain, your electric service, and live the modern way — electrically.

If you're an average WTU customer, you are now using almost twice as much electric service as you did ten years ago. Naturally, your electric service bills are larger today because you are using so much electricity. But—the average cost of a kilowatt-hour of electric service for home

use is actually twenty-two per cent LESS than it was in 1944. Ten years isn't so very long, and think how other costs, including the costs of providing your electric service, have risen since then. Now think of the many ways your electric service helps you today — think of the comforts and conveniences your modern electric appliances give. Isn't it a fact that for MODERN LIVING your ELECTRIC SERVICE is today's BIGGEST BARGAIN?

MAY IS SAFETY MONTH... CHECK YOUR CAR—CHECK ACCIDENTS

News From Munday's Future Farmer Chapt.

Mr. Ponder carried two teams to the State judging contest at A. and M. College May 1. The dairy cattle team, composed of Johnny Orsak, Jimmy Morgan, and Claude Hill. They won 18th place of 67 teams entered. This places us much above the average in the state.

The dairy products team, composed of Albert Caram, Robert Hertel and Collis Michels, won 1st place in Area IV at Fort Worth. Robert Hertel was 3rd highest in the four areas and won a pair of blue jeans and a tie clasp. This team placed 46th in the state contest.

Jerry Bob Goodwin won 9th place in meat judging in the 4 area contest at Fort Worth and was awarded a pair of blue jeans. He ranked 4th in Area IV.

We are proud of our teams ac-

complishments this year. These teams have placed three new banners in our class room this year: 2nd place in Farm Demonstration, 5th place in Dairy Cattle Judging, 1st place in Dairy Products Judging.

We are now working on the tractor driving contest and the land judging contest. The land judging contest is going to be held in the Munday territory at 1:30 Saturday, May 8th. This is a comparatively new contest but a very valuable one for farm boys.

A new Ford tractor will be awarded the boy who wins the State contest at San Antonio. It just as well be a Munday boy, don't you think?

All the chapter and Mr. Ponder wish to thank the First National Bank and the Chamber of Commerce for helping finance the trip to the State judging contest.

See You in Church Sunday

DOUBLE DUTY STRIPES

Stripes look equally gay on pretty girls or houses. When summer sun peeks out, canvas awnings will be unfurled to protect homes from summer heat, while sun-loving girls don canvas sports togs for exposure to Old Sol's tanning rays.

Donis Melton, who is stationed at James Connally Base, Waco, visited friends here and relatives at Rochester over the week end.

M. and Mrs. Rolan Crabb and daughter of Dallas visited friends here last Wednesday.

To add to the serviceable life of electrical appliance cords, keep them free from kinks, knots or sharp bends which may break the fine wires. Store in a cool, dry and clean place. Remove the cord from the outlet by pulling on the plug instead of the wire.

CARD OF THANKS

We take this means of expressing our thanks to all of our friends and neighbors for the many kind deeds shown during the extended illness and death of our loved one, J. F. Draper, and for the beautiful floral offering and the lovely food. Especially do we thank Dr. W. M. Taylor who was so attentive at all times. The family of J. F. Draper.

Drive carefully. The life you save may be your own.

Miss Tina Rossmiller of Clinton, Okla., is visiting in the home of her son and daughter-in-law, Mr. and Mrs. Norton Pendergraft, and daughters. She plans an extended visit.
