Odd Bits Salvaged

Those tornado alerts make a fellow jittery!

k-k

We had been called out about 5:30 p. m. Sunday by Lee Bivins to see if we could get a picture of the tornado that dipped down in Kent County, and which many local people watched. Bivins was observer for Munday and saw the twister cutting up, but its activities were over by the time we joined him.

k-k

Anyway, we visited for a while and watched progress of that cloud and heard him as he kept in touch with other observers of the area over his two-way radio. That was enough to make a person tornado conscious.

k-k

So Sunday night we were enjoying a nice sociable game of "I pass" when the fire alarm sounded. "What a time for a fire," was the remark made, but when Big Bertha emitted only two long blasts, we knew it was a tornado alert.

k-k

Then the fire trucks started rushing about the town, sirens screaming, to warn the citizens that there was danger of a tornado. As others rushed to storm cellars, we joined the H. F. Jungman in their basement for a time, taking into the shelter with us such emergency items as a jar of cool water, candles and matches, etc.

k-k

The danger appeared to be over in a short time. We weren't disappointed that we didn't have a tornado, but in the fact that we received only a sprinkle of rain. And the tornado alert was not out of place. The clouds were cutting up, and as they went on northeastward the winds took a roof off a dwelling in Seymour.

k-k

Munday is in the fixing up mood. The old Firestone building was completely remodeled for the Kemletz and Carl store; then the bank started its extensive remodeling program. Last week LeLand Hannah has the front of El-Land Drug remodeled, and A. L. Smith started a remodeling job on the Rexall Drug. Just this week a new neon sign was installed at the Coffee Shop.

k-k

Improvements under way at the Chamber of Commerce office and library building are so extensive that Sue Bowden had to move into the city hall during the remodeling process.

k-k

You can tell who is making the money here, "by seeing who is doing a batch of remodeling." But sometimes there are things that need to be done, even if the money has to be borrowed, so we don't know!

k-k

M. T. Chamberlain is going to be "well graduated" this year. He attended the exercises here and at Goree, but the Knox City event kind slipped his mind or he would have gone to it. One this week in Wichita Falls in which his granddaughter-in-law, Mrs. Keith Chamberlain, received her diploma, makes a total of three for him this year.

k-k

Our citizens will miss the presence of the Doyle Ragle family in Munday for a time. During these four years, they've just sorta become a part of us, taking an active interest in town and community events, as well as their main interest—the church. We don't know of any family that has more completely fitted in at the town's affairs than have they.

k-k

As we extend a welcome to the new parsonage family, the J. F. Michaels, who come to us from Wellington, our guess is that they, too, will endear themselves to the hearts of our citizenship. This has been their record in the past, during their long stay at Abilene, Wellington and other places. Such seems to "ring true" with a sincere pastor and his family—they love the church and the people who make up the church and community, and in so doing, win the love and respect of those with whom they associate.

Mr. and Mrs. Billy Bradford of San Antonio visited their parents, Mr. and Mrs. Coy Tuggle and Mr. and Mrs. Monk Bradford of Vera, over the week end. Mrs. Bradford remained for a longer visit with her parents.

## Munday School Board Orders Bond Election

Members of the Munday School Board ordered a bond election in the amount of \$125,000, following the meeting of school patrons last Friday night, to make necessary repairs to the present school system. The election will be held on Wednesday, June 6th, it was stated.

Qualified voters will vote on the questions of issuing the bonds and assumption of the indebtedness and levying a tax in payment thereof. However, it was pointed out that this bond issue can be voted without raising taxes in the school district.

The remodeling program, if the election carries, will include remodeling of the colored school, a new roof on the elementary school, repairs to the Sunset building, repairs to the band house, additional plumbing and replacement of wornout furniture, it was stated.

All qualified voters are urged to vote on the bond issuance question next Wednesday.

## M. Y. F. Installs New '56 Officers

The local Methodist Youth Fellowship installed new officers for the coming year last Sunday night in an impressive ceremony at the altar of the church.

Miss Shirley Cammack takes over as president; Rexine Howell is vice president; Roland Offutt, secretary, and Mary Lou Booe, treasurer.

Retiring officers are Pat Putnam, James David Gaither and Margaret Yandell. Mrs. O. O. Putnam is youth counselor.

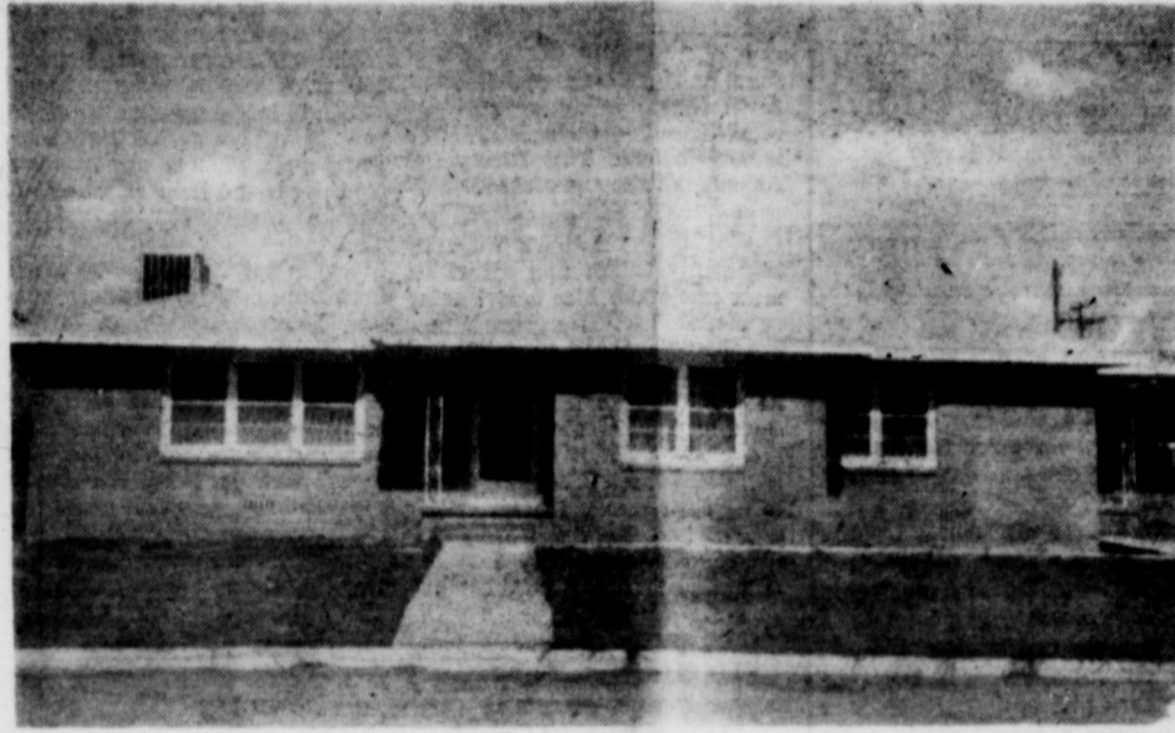

## LOWRY WILSON HOME AT LORENZO BURNS

Word was received here Tuesday that the home of Mr. and Mrs. Lowry Wilson of Lorenzo burned last Monday night. Neither of them were at home at the time of the fire. He was in New Mexico and she was employed in Meadows. They are former residents of Munday.

## SWIMMING CLASSES TO BEGIN MONDAY

Swimming lessons will begin Monday, it was announced by Coach Troy Stewart, who will be swimming instructor. Adult classes will be held from 9 to 10 a. m. and children's classes from 10 to 11 a. m. Those interested in joining the classes should contact Mr. Stewart at the swimming pool.

## Open House Planned For Sunday

Open house will be held Sunday, June 3, for the new home of the Church of Christ minister which was just recently completed by the church membership. Visiting hours will be from 2 to 4:30 p. m. The new modern and attractive new home is of brick veneer with five rooms and two baths and is located about two blocks north of the church. Much of the labor in its construction was donated by men of the church. Minister Payne Hattox and his family extend the public a cordial invitation to visit the new home Sunday.—Staff photo.

## To Canyon

Rev. H. Doyle Ragle, who has completed four years as pastor of the First Methodist Church in Munday, was transferred to Canyon by the annual Northwest Texas Conference held at Big Spring last week. The Ragle family left the first of this week for their new field of endeavor, and they carry with them the best wishes of the entire citizenship of Munday.

## Methodist Launch New Campaign With Congregational Picnic

In order to achieve a sound financial basis from which the church may more easily take care of its obligations, Methodists last night launched an "Every Member Canvass" plan at a congregational picnic held at the local church. The object of the canvass is to secure a more systematic support of the church than in the past. By applying the best Christian principles of business, the Methodist Church expects to end the 1956-57 conference year, not only meeting its commitments, but with a surplus on hand.

To a large percentage of Methodists who attended the picnic, General Chairman Weldon Smith explained the purpose of the canvass. Additional pointers were explained by Charles Baker and Herbert Partridge. Performing his last pastoral duty in the local church, the Rev. Mr. Doyle Ragle asked for spiritual guidance and wished them success in the new year. He and his family leave today for their new charge in Canyon.

The canvass will begin in observance of Loyalty Sunday June 24th, when members will sign their pledge cards, and it will climax on Victory Sunday, July 1st, at which time members will have the opportunity of dedicating their time, talents and treasures to the services of Christ, through his church.

## DORSE ROGERS IN HOUSTON HOSPITAL

Dorse Rogers of Goree, who has been undergoing treatment in a Wichita Falls hospital for a lung ailment, was taken to a Houston hospital for further treatment last Saturday. He returned home for a while last week in preparation for the trip to Houston.

## Graduation Services For St. Joseph's School Are Held On Sunday, May 27th

## Band School Is Now In Progress

The Mogul Summer Band School, now in progress, has 125 enrolled including members from Seymour, Goree, Olney, Knox City, Benjamin and Crowell.

Mr. Jackson, band instructor, stated that they were planning a concert for the close of band school and that they would announce the time and place at a later date.

## Goree School To Vote On Bond Issue June 9th

The Board of Trustees of the Goree Independent School District met Monday May 28th at a special meeting to call an election on June 9th to determine a proposed bond issue of \$125,000. The money, if the election carries, will be used for 8 new classrooms for elementary pupils, cafeteria facilities and remodeling the present grade school building for high school use. The remodeling will include taking off the top floor of that part of the present building which was built in 1921 and was part of the original Goree school.

The Board called the election after being presented with a petition, bearing the required number of signatures of the qualified voters of the district, asking that the election be held.

The school district will take advantage of a new school law generally known as Senate Bill 116 which was passed by the last legislature and went into effect on Sept. 6, 1955. The new law was designed to aid the smaller schools such as Goree to maintain an adequate school system and to allow it to keep pace with its building program. Under this law a school district can issue bonds up to 10% of its assessed valuation and can levy a tax rate sufficient to pay the annual principal and interest requirements.

## O. E. S. Chapter To Hold Installation Saturday Night

Munday Chapter No. 993, Order of the Eastern Star, will hold open installation of officers at 8 p. m. Saturday, June 2. Chapter members extend an invitation to all Masons and their wives to attend. The meeting will be at the Masonic Hall.

Installing officers will be Mrs. Joe Lee of Fort Worth and Mrs. Mary Katherine Smith of Greenville, both representatives of the Grand Chapter of Texas. Assisting will be Mrs. Bessie Shannon, Mrs. Charlotte Lloyd and Mrs. Ina Cowan, all of the local chapter.

## Contract For County Paving Is Awarded

A contract for the construction of grading, structures, base and surfacing on Farm to Market No. 2379 and 143 in Knox County was awarded in Austin this week, Palmer Massey, district highway engineer at Childress, has announced.

The firm of Harry Campbell submitted the low bid of \$74,513.61 on the project, which runs from the Haskell County line northeast to F. M. Road 143, and at Union Creek, west of Knox City.

Resident Engineer H. T. Cunningham of Munday will be in charge of the project for the highway department, and it is estimated that the work will take 110 days to complete.

## Three Injured In Accident At Goree Friday

Three men injured, two of them seriously in a freak accident at Goree at about 8:30 p. m. Friday. The men were repairing a truck tire at a Goree service station when the clincher rim blew off, striking them.

Seriously injured were Lloyd Burgess of Hale Center, the truck driver, and D. R. Donoho, operator of the station. Donoho's son, Douglas, received minor injuries.

Mr. Burgess was taken to the Knox County Hospital with a fractured skull, and later was transferred to a Dallas hospital by a McCauley Funeral Home ambulance. Reports early this week were that he had a slim chance of survival.

Mr. Donoho was taken to Baylor County Hospital in Seymour for treatment of a broken shoulder and fractured vertebra in his neck. He is reported improving, but will remain in the hospital for several weeks.

## Tour Conductor

George B. McElroy, former railroad city passenger agent in Fort Worth, who is now conducting tours to Yellowstone-Grand Teton National Park on behalf of travel agents throughout Texas, Louisiana and Oklahoma. Details of these tours may be secured from the local Burlington agent.

Mrs. Chas. Sargent and Lou of Fort Worth spent from Thursday until Monday with Mr. and Mrs. J. A. Hill.

Rev. J. F. Michael, pastor of the First Methodist Church at Wellington for the past five years, was named pastor of the First Methodist Church in Munday, to succeed Rev. H. Doyle Ragle, who was transferred to the Canyon church.

Rev. Michael and his wife are moving to Munday this week, and he will preach his first sermon here next Sunday. He is known as "the jolly Irishman" of the Northwest Texas Conference.

Before going to Wellington, Rev. Michael was pastor of Fair-mong Church in Abilene for several years. He is loved by members of churches he has served, and has a record of several years' stay at each pastorate. The Ragle family, who have been with the local church for four years, is moving to Canyon this week, and they carry with them the best wishes of the church membership, as well as those of the entire community.

The C. R. Copeland family, who has been occupying the superannuate parsonage here during the past year, moved this week to Mobeetie, Texas, where Rev. Copeland will pastor the First Methodist Church.

Rev. Marshall E. Rhew was returned as superintendent of the Stamford district, and only a few changes were made in pastorates of the district. Appointments for the district are as follows:

Albany, W. V. O'Kelly; Aspermont, Rex L. Mauldin, Voca; Henry Salley; Elbert, Charles Sargent; Goree, Walter Halley; Hamlin, Faith, H. C. Adair; Hamlin Forest, Darris L. Egger; Haskell-Paint Creek, J. B. Thompson; Jayton-Peacock, Carl Hudson.

Knox City, Walter Driver; Longworth, William Davis; Lueders, Guy McLain; McCauley Circuit, Luther Walker; Moran, J. P. Cole; Munday, J. F. Michael; O'Brien, A. T. Mason; Roby, E. R. McGregor; Rochester, Davis Edens; Rotan, J. Alvis Cooley; Rule, Weldon McCormick; Sager-ton-Tuxedo, Frank Knox.

Seymour, Rollo Davidson; Stamford, St. John's, W. A. Apple; Sylvester, Joseph Yoho; Throckmorton, C. R. Hankins; Vera-Benjamin, S. A. Wolfe; Weinert, Gene Louder; Westover, Jarrell Sharp; Woodson, Kenneth Haigrove.

## Donkey Ball Game Slated Saturday

A donkey baseball game, using trained animals of the Houston Rock and Roll donkey Baseball Club, has been booked here for Saturday night at eight o'clock at the football stadium. The game is sponsored by the Munday Fire Department.

Donkeys the players will ride have been specially trained for their role in the game, and are guaranteed to provide plenty of trouble for their riders along with a multitude of laughs for spectators.

A parade is planned for 4 p. m. Saturday through the business section, with members of the fire department riding the donkeys that will be used in the night's game.

## Bivins Wins In Snake Rodeo At Spur Thursday

Lee Bivins of Munday was one of the winners in the rattlesnake shooting rodeo at Spur last Thursday, when some 315 persons turned out for the eighth annual Cap Rock Peace Officers Association meeting which got underway at 9 a. m. A medal was awarded to the Munday man.

Cecil Fox, state game warden of Spur, president of the association, presided at the meeting held on the Horace Wood ranch, 20 miles south of here on the Salt Fork of the Brazos River.

The grand entry began at 10 a. m. C. C. Kimmel, vice president of the organization gave the welcome address.

A. M. Aikin, state senator of Paris, spoke to the peace officers. He is a candidate for lieutenant governor.

A barbecue was held at 12:30 p. m.

### GOOD IDEA

During the June 11-15 period, the American Medical Association will hold its annual session in Chicago. And this time a novel idea will be carried out.

Invitations have been issued to many prominent leaders in education, industry, politics, labor, religion, business, the press, and other callings to view the AMA scientific and technical exhibits. The purpose behind this is to acquaint these leaders with the vast amount of new scientific work in which the medical profession is constantly engaged, and with new developments in the field of medicine. An AMA spokesman said the idea resulted from the enthusiasm which lay people usually express every time they tour medical exhibits as guests of physicians. As he put it, "These people seem to bubble over with enthusiasm."

In other words, the purpose it so encourage more people outside the medical profession to learn what is going on within it. And it will, beyond doubt, lead to the replacement of much misinformation with information. Almost all of us tend to be suspicious of that which we do not understand. There can be no question that many of the commonly-heard criticisms of American medicine and its practitioners stem from this all-too-human characteristic.

The greatest of achievements will remain obscure unless the story is widely told. The AMA's innovation is an excellent one.

### BIG DAY

You probably didn't know it, but Monday, May 7, was a very important day in your life—if you are an average citizen, financially speaking.

That Monday was designated "National Tax Freedom Holiday." And it was the first day of this year that the money you earned was really your to spend.

Why is this so? The answer is as simple as it is grim. All that the average American earned from January 1 to May 7 had to be paid out in taxes, direct or indirect, to one unit of government or another.

In other words, the average taxpayer works more than four months of the year to meet his tax bill. And remember—this is true of the masses of people with moderate incomes, not the few in the big brackets. The fight for efficiency and economy in government is your fight.

"Our liberty depends on freedom of the press and that cannot be limited without being lost."—Thomas Jefferson.

### PROBLEM OF THIS CENTURY

What is the great problem of this century? It is "limited state or total state, democracy or totalitarianism, whether the state should continue to exist for the people, or the people for the state."

That is taken from Bertram D. Wolfe's recently published "Six Keys to the Soviet System"—one of the most authoritative of all works on the nature and purpose of communism.

Obviously, practically every American would stand up in defense of the limited state as against totalitarianism. The trouble is that we can fall into totalitarian ways without knowing it. Dictatorship—which simply means giving unlimited power to those who govern—does not necessarily come about through violence, out of war or revolution or conquest. It can as surely come about on a step-by-step basis. We give a little more authority to government here, a little more there. The hand of the officeholder and bureaucrat becomes more dominant in the affairs of business, agriculture, labor, the professions. This may seem beneficial at the time—it may be regarded as social progress in the interest of deserving people. But there are two sides to this coin—and when, at last, the coin is turned over, the people see the face of the oppressor and it is too late to do anything about it.

That, indeed, is the great problem of this century, and it is as great and fateful a problem as any century has known.

### RAYMONDVILLE, TEXAS, NEWS

Roadside protection—for both the man with the flat tire and those who must pass him—is provided for now in the Uniform Vehicle Code of the National Committee on Uniform Traffic Laws and Ordinances. Simple attachments to convert your turnlights to this double duty are available now. . . . They may soon be standard equipment on new cars. The question is: How much more blood must strain our highways before this flashing "disability flare" become mandatory? "

### BUILT-IN MORAL

The lead to a news story carried by the Wall Street Journal on April 16th, last day for filing federal income tax returns, carries a built-in moral: "Smack in the midst of the nation's biggest business boom, many Americans still must borrow money to meet today's federal income tax deadline."

"Like a small boy with a new knife, a man who has discovered he has a sharp tongue never knows when to stop using it."—Chicago Daily News.

## WHAT DOES THE BIBLE SAY?

### Meet To Be Partakers

Paul says, "Giving thanks unto the Father, which hath made us meet to be partakers of the inheritance of the saints in light" (Col. 1:12.) As here used, the word, "Meet" means fit, suitable, appropriate, worthy. At the river of Jordan, John the Baptist said to the sadducee who came to hear him preach, "Bring forth therefore fruit meet for repentance" (Matt. 3:8.) This means to bear fruit fitting the repentance they professed.

Man can be made fit for heaven only on God's way. By his own wisdom and effort no man can make him self worthy of eternal life. There are a few people who think that, if God were as good as he ought to be, he would make it possible for man to live in sin, yet go to heaven when he dies. That is as impossible as it is for a blind man to enjoy a fine painting, or for a deaf man to enjoy inspiring music. The blind and deaf are not meet to enjoy pictures and

music. A sick man is not meet to enjoy good food. And so a sinner is not meet to enjoy heaven.

It is by obedience, service and worship that God makes man meet to be partakers of the inheritance of the saints in light. The Lord requires his people to come together on the first day of the week to break bread Acts 20:7. We are to sing spiritual songs, to study the scriptures, to pray, and give as we have been prospered. This is not because God needs the help of man, but because man needs the help of God.

God is not impoverished when man fails to perform these acts of obedience, but man is impoverished. The writer of Hebrews says, "How shall we escape if we neglect so great salvation?" No man escape straying to death if he neglects to eat food. In his great mercy the Lord has revealed to us the plan of salvation, but if we neglect it we cannot escape the consequences.

**AGENT'S ACTS BIND PRINCIPAL**

Suppose that you hire your neighbor's teen age son, Jimmy, to cut your grass, and he runs your new mower into another neighbor's hedge. The hedge is ruined. Are you responsible for the damages? Quite likely you are.

Or let us suppose that you find you need a loaf of bread for the evening meal. You ask a friend to take your car and run to the store for it. On the way, he runs down old Mr. Peabody, seriously injuring him. Can you be held responsible? It is possible that you can.

In both instances, an "agent" was acting for you. His acts while performing those duties are, in the eyes of the law, your acts. In legal terms, you are the "principal".

You may be liable despite the fact that you may have cautioned him to be extremely careful.

The average individual expects to answer for his own actions. He does not usually consider that he may be responsible for the actions of other persons. That, however, is frequently the case.

Suppose you ask another person to do something for you, that is, to act as your agent. You may pay him, or he may be doing it without compensation.

You may ask him to buy or sell property for you. Or, his responsibility may be to negotiate an agreement for you with a third person.

If representations or warranties are made by your agent in performing the task which you assigned to him, you are responsible.

In a like manner, you are responsible for the contract made by him while he was acting for you.

You may be held responsible for the acts of a person who customarily represents you even though he entered into a contract for you without your consent or approval.

For example, you have a partner in a business, and you and he have agreed that certain contracts shall be made only upon the signature of both of you.

Unknown to you and without your consent, your partner signs such a contract with a third person involving partnership business. If the person with whom this contract is made has no knowledge of the terms of your partnership agreement, you are responsible for the contract which your partner has made.

You may have agreed between you that neither of you would buy, without the other's consent, any items of merchandise costing more than \$50. You did not give this information to salesmen who called on you. In your absence on a Thursday afternoon, your partner ordered merchandise for your store costing more than the \$50 limit.

When the merchandise is delivered, you can not refuse to

Terry cloth today is used to make a lot of things besides towels, the National Cotton Council reports. It is found in military and industrial uses, apparel, and a variety of household products. Because it's comfortable, washable, and absorbent, cotton terry cloth has become a favorite sportswear fabric. Cannon terry is used for this pair of coveralls made for swimmers to don after a dip.

accept it because you can be bound by the contract of your partner. This is true in many situations and the salesman is not bound by your partnership agreement because you did not advise him of the \$50 limitation.

As the actions of your agent are considered to be your actions, you assume the responsibility of his doing them correctly. (This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the application of the law.)

## GRASS CATTLE AND CALVES WEAK MONDAY

FORT WORTH—Marketings of cattle and calves continued their seasonally heavy pace Monday and prices were steady to weaker on most kinds. The run included sizable numbers of grassy calves and yearlings and heifers, and these kinds attracted lower bids from packers and got faint support from stocker or feeder interests.

Prices ranged from barely steady to as much as 25 to 50c lower on grassy cattle and calves with the low end of the prices on the common and plain quality offering. Grainfed cattle were about steady.

Comparative Prices: Good and choice steers and yearlings \$16.00-20.50, the latter figure for a load of mixed steer and heifer yearlings from F. P. Feltz, Tarrant County. Two loads of mature fed steers cashed at \$19.50. Common, plain and medium grassers sold from \$10 to \$15.50, those at the lower figure in cutter flesh.

Fat cows mostly \$10.00-12.00, few choice young cows \$13.00. Canners and cutters \$6.00-10.00. Bulls \$9.00-13.50. Good choice fat calves mostly \$16.00-18.00, a few fancy to the butcher trade to \$20. Medium and lower grades \$10.00-15.50, few culls under \$10. Good and choice stocker steer calves \$16.50-18.50; steer yearlings \$17.00 down; stock cows \$9.00-12.00.

## BIDS GO OUT TO JUDGES FOR STOCKER SALE JUNE 22

Secretary Henry Elder of the Texas Hereford Association announced Monday that bids had gone out to the prospective judges for the Hereford stocker and feeder show to be held June 22 at the Fort Worth Stockyards.

An estimated 5,000-6,000 white-faced calves and yearlings are expected for the event and already some of top ranch strings in the Southwest have announced entries. Among them will be some from Texas Highland Hereford Country, some from the rich lands of Bosque County, and some

from far West Texas. South Texas will be represented from the Wharton area.

Buyers from all over the United States have signified their intention to be at the sale in person to view what is expected to be the largest showing yet in these events.

## SPRING LAMBS RALLY, GAIN 50 CENTS TO \$1.00

Near 10,000 sheep and lambs again showed up at Fort Worth Monday, and trade was active and strong. Spring lambs of good and choice grade cashed at \$18 to \$22, and cull, common and medium slaughter Spring lambs sold from \$10 to \$17. Stocker and feeder Spring lambs sold from \$13 to \$16.50.

Shorn fat old crop lambs of good and choice grades sold from \$16.50 to \$18.50; with cull to medium kinds from \$8 to \$15.50. Stocker and feeder shorn wether lambs sold from \$12 to \$14.50. Stocker yearlings ewes sold from \$15 to \$19, and two-to-three year olds breeding ewes sold around \$12 to \$13. Old solid mouths sold from \$6 to \$10.

Slaughter ewes cashed at \$4 to \$5. Old bucks sold for Slaughter around \$4.

## SPECIAL FEEDERS SALES PROPOSED ON SHEEP

A number of sheepmen have asked Fort Worth market people when they were going to stage some special stocker and feeder sales for sheep similar to the special cattle sales. One group suggested that the Pure Bred Breeders of Texas should offer some bucks at the same time for the buyers of replacement sheep for farm flocks.

These sales are in the talking stage now and the first ones will probably be announced for September.

## Hogs Open 25 Cents Higher Top Meat Hogs \$16.75

Choice meat type hogs brought \$16.50 and \$16.75 at Fort Worth Monday, a gain of 25 cents over last week's close. Sows were steady at \$10 to \$13. Butcher pigs sold from \$10 to \$12, and light hogs and excessively heavy hogs ranged from \$12 to \$16, according to their merits. Stags were reported from \$5 to \$7.

Sunday guests in the home of Mr. and Mrs. J. D. Crockett were his sisters, Miss Margaret Crockett and Mrs. R. M. Kiner of Stamford, and Mrs. Crockett's niece, Mrs. C. R. Martin of Vernon.

## "Nothing Is Good Or Bad, But By Comparison."

In 1900 about 135 infants out of every 1,000 died before they were one year of age. Now we are losing less than 25 out of 1,000. It is bad to lose any of our precious ones, but good that improved medical techniques and new drugs are helping to save lives.

Childhood diseases can now either be prevented or more easily treated. Among the weapons used in this battle are vaccines, antibiotics, and powerful, but safe anti-septics. All of them are in our Pharmacy awaiting the opportunity to help.

Most can be had only upon a prescription from your physician and his specific instructions should be followed in using or taking them.

### Activities of The Colored People

The Junior department of the Dunbar School went on an educational tour May 14. A bus was furnished by the school board for the trip. Mr. Allred was the driver.

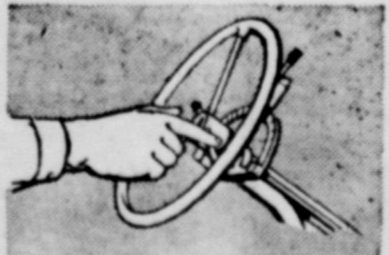

The tour was made in Abilene, Texas. Places visited: the new modern swimming pool, the new high school, air port passenger station, Coca Cola bottling plant, the down business district and the park zoo. Dinner was served to the entire group at the park.

Mrs. E. J. Calvin is teacher of that department and states that the tour was one of the most enjoyable ones the classes have had. The 6th and 7th grades are members of that department. The children said it was the best trip they have ever had. They all prefer Mr. Allred as their driver. He is a very fine person to know, and spared no pain in showing every courtesy possible while on our tour.

In case we have a chance to make another trip next year we hope Mr. Allred will be our driver. Thanks to Mr. Cox and the school board for furnishing the bus for our trip.—Reporter.

**Checking The Mediterranean Fruit Fly**

The Texas citrus industry recently had a big scare when it was learned a new citrus pest, the Mediterranean Fruit Fly, had left its European home and arrived in Florida.

The insect was first discovered in backyard orchards around the Miami, Florida, airport in April. However, commercial fruit growing area in Florida are believed still to be free of infestation. And what's more important, the Mediterranean Fruit Fly hasn't found its way westward to Texas citrus regions.

Protective measures are already underway to prevent the citrus pest from getting a foothold in America. Some 2,500 fruit fly traps have been shipped from Texas to Florida in the past few weeks. In addition eight insect specialists from the Rio Grande Valley will aid entomologists in stamping out Florida infestation.

A federal quarantine on the Mediterranean Fruit Fly became effective May 1 and all Florida citrus coming to Texas will be

carefully checked to safeguard Valley growers.

This new-found citrus foe is probably the most serious insect ever to threaten our citrus industry. Its consequences are much more harmful even than those of the black fly now being combated in the Rio Grande Valley.

No official quarantine action has been taken to date by the Texas Department of Agriculture. However, should some difficulty arise in the federal eradication program, it is likely that some restriction on interstate movement might be established.

Persons interested in further information concerning the Mediterranean Fruit Fly may write to the Division of Plant Quarantine in care of Commissioner John White, Texas Department of Agriculture, Austin 14, Texas.

**Weekly Health LETTER**

Issued by Henry A. Holle, M. D., State Health Officer of Texas

AUSTIN—Nursing and custodial care homes in Texas have "practically all" been licensed and are meeting minimum standards of operation as prescribed by law, the State Department of Health has announced.

The announcement comes exactly three years after the nursing home licensing law went into effect on June 1, 1953.

"We now have 466 homes under license and subject to routine inspection," reported J. W. Hornburg, chief of the Nursing Home Licensure Section, a part of the Department's Hospital Services Divisions.

Of that number, 207 homes offer only custodial care and 259 give nursing services, representing altogether 10,067 beds. The beds stay occupied about 70 percent of the time.

Hornburg said there are still a few faith healing homes, and a small number of homes in which less than four people are cared for which have not been licensed because they do not fall under the letter of the law.

The state licensing act provides that any home or institution caring for four or more persons unrelated to the proprietor and which offers a personal service beyond room, board, and laundry must comply with minimum standards for humane and hygienic care as established by the State Board of Health before being licensed.

Each home must pay annual license fees of \$25, plus \$1 per bed which goes toward administering the law.

The present trend is for church and fraternal organizations to build and operate non-profit homes in which indigent oldsters can be cared for. Twenty-seven such non-profit institutions have licensed to operate in Texas to date.

The records show that most proprietary homes are doing good work in caring for low pay patients, in that profits are being turned back into homes for improvements in facilities and services.

Many sub-standard homes which were granted temporary licenses in the beginning have

It will take sometime to know just what the real effect of the recent explosion of the hydrogen bomb will have had had it been dropped on some city. It will take months of careful study and analysis by the scientists to come up with the answer. However, we do know for certain that this first hydrogen bomb to be dropped from the air contained greater force than all of the explosives used in World War II combined and that if it had been directed

made sufficient improvements to meet minimum standards and win regular licensing.

A major problem still facing the licensing program is a shortage of qualified registered nurses to meet the needs of nursing homes. Custodial homes do not require nurses, but each nursing home must employ registered nursing personnel to supervise nursing care.

Another problem is that homes keeping fewer than four persons are unregulated, but there is nothing to be done under the law. Too, boarding homes offering only board and room to otherwise homeless oldsters are left unregulated.

at a large metropolitan area, probably millions of people would have killed. It may be that the existence of this weapon, the effect of which none of us can really comprehend, may work to assure peace in the world for its mere existence may prevent those who would seek to dominate the world from provoking a situation that would require its use. This bomb is only a part of our defenses which cost us such tremendous sums and even though the necessity to guard our security continue to be our greatest burden as far as Federal spending is concerned. Just recently the Defense Appropriations for the fiscal year 1957 were approved totalling 33.6 Billion Dollars which was 513 Million Dollars less than had been requested. 7.5 Billion of this huge appropriation was for the Department of the Army; 10 Billion for the Navy; and approximately 15.5 Billion for the Department of the Air Force. The remainder was allocated to the Office of the Secretary of Defense and for inter-service activities. There is also some indication that the Air Force will at a later date ask for additional funds for their ballistic missile program. According to Secretary of Defense Wilson, this appropriation will meet our critical needs.

Recently, the F.B.I. released its annual report on the crime situation in the United States. From this mass of statistical information come some very interesting

facts. For instance, in 1955, there were over 2 million major crimes in the United States. It is significant, however, that 1955 was the first year in the last eight when major crime was not on the increase. The loss of property last year due to robbery, burglary, theft, etc., was almost 400 Million Dollars, and peace officers were able to recover about 57% of this loss.

**More Than She "Bargained" For**

Dad Baker retired from active dairying—seven or eight years ago—but still keeps a half-dozen purebreds more or less as a hobby.

Dad goes all-out for these six. Temperature-controlled barn, expensive feed . . . the works. As a result his milk has a low bacteria count, a high butterfat content. And as a favor to neighbors, he sells it just two cents above the ordinary price.

Recently, a neighbor complained—asked if she couldn't get the milk "at cost." Dad agreed,

sent her a bill for exactly what the milk cost: 75¢ a quart.

From where I sit, it's easy to misunderstand if you don't get all the facts. That's why we ought to consider the other fellow's viewpoint before we talk out. For example, you have your reasons for liking particular beverages. I have mine. And whether we're talking about buttermilk or beer . . . let's try to respect each other's point of view.

We are trying to establish a market for Dry Black Eye Peas in Haskell County

We are not sure what Market Prices will be at this time, but prices for the 1955 crop were \$6 to \$7 per 100 lbs.

Yield depends on our weather conditions — Approximately 600 to 1600 pounds per acre .

**This Is the Deal:**

1. We must have at least 2,000 acres.
2. We will furnish California Blackeye Pea Seed at cost—\$10.00 per 100 lbs. We will purchase no peas this Fall that do not come out of this lot.
3. Peas can be harvested with an A. C. Combine and we will purchase in the bulk.
4. Peas MUST be planted by July 15 in order to have a uniform harvest period. You must purchase your seed now, so that we will know how many acres to expect.

tedness of the District is \$32,000 which is part of an original amount of \$47,470 issued back in 1934 and requires a tax rate of approximately 17½¢ to pay the annual principal and interest requirements. The present bond issue will be paid off in 1974.

The bonds for the proposed new classrooms, cafeteria and remodeling of the old building, which will include shower facilities and dressing room space for the boys and girls gym classes, will run 35 years and will require a tax levy of 41½¢ making a total of approximately 59¢ per each \$100 assessed valuation to pay off both the old and new bonds. According to Supt. J. B. Lawson the present showering facilities are limited to one shower for the boys and none for the girls.

The 1955 Assessed Valuation of the District was \$1,499,518 and to issue the \$125,000 for the 1956-57 rolls. This represent an increase of around 5½% over last year's assessed valuation.

The present tax rate is voted at \$1.50 per each \$100 assessed valuation, however, the Board is only using \$1.25 for both bonds and local maintenance.

The new school law, Senate Bill 116, provides a maximum of \$1.50 per each \$100 assessed valuation that a school may levy for local maintenance expense. The law provides, however, that as a school's outstanding indebtedness goes up the maximum tax levy for maintenance goes down and this is the limiting factor of the new law. The amount of Goree Independent School District's outstanding indebtedness will be very near the maximum of 10% thereby placing them in maintenance tax bracket of \$1.20. The Board, however, feels that they will be able to get by on a tax levy of \$1.00 depending on the number of extra teachers they will have to employ.

A representative of the Central Investment Company, Mr. James O. Mullins of Lubbock, with whom the school board has conferred on the bonds, said, "The District has a low debt and assessed valuation compared to other Districts of the same area and enrollment." He also complimented the Board on the conscientious manner in which they have proceeded on this new issue.
