Number 2.

Revival Will Begin Here Sunday

County Seventh Grade Graduation Exercises At Benjamin May 26th

The commencement exercises for the 7th grade students of the county will be held at Benjamin on Thursday evening of next week, May 26, according to an announcement made this week by Mrs. Ethie Lee P'Pool, county school superintendent. The program will begin at 8 o'clock.

Patsy Bentley of the Benjamin schools is valedictorian of the class by virtue of having made the highest average grade for the year, while Scarborough J. Copeland of the Vera schools will be salutatorian.

Class honors for the class for the year will go to the Rhineland school for having made the highest general average in the county examinations, and the students of this class will be given a place on the program to be used as they deem fitting. Members of the class are: Robert Schumacher, Reinhart Kuehler, Billie Struck, Joe Herring, Lillian Herring, Clara Jungman, Thessia Jungman, Delphina Wilde, Lillie Michalk, Ellen Steinbach, Lucas Birkenfeld, Michael Birkenfeld, Reta Homer, Carl Koenig.

The address for the exercises will be delivered by Prof. S. A. Billingsley, principal of the Vera school, and the public is extended a cordial invitation to attend the exercises.

THIS IS BETTER!

Munday Firemen Go To Firemen's Meet At Olney Tuesday

Munday was well represented at the meeting of the West Texas Firemen's association at Olney on Tuesday, in which the raising team of the local department was an entrant in the contest, but failed to bring home the honors, first place having gone to the Benjamin team, with Seymour as runner-up. In the water polo contest Throckmorton was winner. Munday was not an entrant in this event.

A very interesting program was carried out by the firemen throughout the day and in the late afternoon a barbecue was tendered the visiting firemen at the beautiful country club grounds near the city, which was followed by a dance at the American Legion hall.

Among the Mundayites who attended the meeting during the day were: Chief Grady Thornton, Clint Hawes, Bill Shaw, Frank Greer, Porter Bryan, Harvey Lee, Walter Plunkett, Buell Bowden, Paul Mansell, Tom Rigby, Mr. and Mrs. A. B. Warren, Mrs. Porter Bryan and Mr. and Mrs. J. A. Kennedy.

The next meeting of the association will be held at Throckmorton, and members of the Throckmorton delegation at Olney assured the firemen that they would entertain them royally when they come to Throckmorton.

Uncle Tom Cowser and family returned last week from Parker county, where they went to attend an annual reunion of families interested in the re-keep of a cemetery in which Mr. Cowser's mother rests. He reports that a heavy rain fell in that section while the gathering was in dinner, but they were able to continue their labors and left the graves of their loved ones in first class condition.

Thinking Out Loud

By J. A. K.

Despite the fact that we won our golf match last week with the editor of the Baylor County Banner, he now comes back with a little flattery and tries at the same time to claim the honors of the event. Listen to this, will you:

"It was determined up at Munday last Friday that the Seymour editor was the better golf player and the Munday man is the better editor. Mr. Kennedy has been so busy getting up a good paper that he has not had time to play golf."

From some of the protests that have come to us during the past week we have about decided that we both rank low in editing newspapers. Both the Banner and the Times gave Walter Hart and Joe Tom Knuckles credit for having subjugated Ridley Campbell and Lige McCord in a game played while the argument was in progress.

We have since been informed that we are both pretty dumb when it comes to getting the real facts. In fact, the home guards contend that the Seymour team was easy pickings for them, and they don't like to be robbed of their laurels, as has been the lot of TOL.

Anyway, there's lots of room for improvement, both in golf and editing, for both the Seymour and Munday editors.

While we made a solemn promise that we would not divulge any names, we must admit that we derived some (Continued on back page.)

We all of us tend to rise or fall together. If any set of us go down the whole nation sags a little; then by just so much, the nation as a whole is raised.—Theodore Roosevelt.

Rev. Keathley of Graham Will Lead In Meeting Here

Under the leadership of the Rev. Bryan H. Keathley, a meeting will begin at the Methodist church Sunday morning under the auspices of the First Methodist church and the First Presbyterian church of Munday. The Rev. Keathley will have as his song leader and young people's worker Victor Harrison of Winnsboro, Texas, who will be remembered by many Munday citizens as having assisted the Rev. Culpepper in a meeting here last summer.

The Rev. Keathley is pastor of the First Presbyterian church of Graham, Texas. During the eleven years of his ministry he has preached in all sections of the United States. He is not of the "high pressure" type of evangelists, but his power is in the simple, gripping messages, which sink into the hearts of both old and young.

Victor Harrison, the song leader and young people's worker, needs little introduction to the citizens of this community, for during his brief stay here last summer he demonstrated that he was a most capable worker in this line, and the many who worked with him and came in contact with him on that occasion will be delighted to know that he is to again be in the meeting here, the Rev. John H. Crove, pastor of the Methodist church, stated that while the meeting was being sponsored by the two churches named, he wanted every citizen to feel that it was a meeting for everyone, and that the one great object was the saving of lost souls, and the cooperation of all christian people is earnestly desired.

Services will be held daily at 10 a. m. and 8 p. m. at the church and young people's services will be held daily for the children at 4 p. m. and young people at 7 p. m. Plans at the present are to carry the meeting only one week, and everyone interested is urged to cooperate from the very beginning in order that much may be accomplished in this brief space of time.

Munday Trounces Rhineland Lads In Thriller Here

Perfect fielding and timely hitting by the Munday aggregation gave the homeguards the upper hand in the argument with Rhineland Sunday afternoon in what was generally declared one of the most thrilling games of the season.

Abbott, Munday's pitching mainstay, wasn't going so good, and for a time it seemed that the Rhineland lads might take a lead that would blast the hopes of the locals, but perfect fielding brought him out of the hole each time, until finally he relinquished the job to McGraw, who held the situation well in hand, allowing only 3 hits in the final five innings, which netted the visitors no runs.

August Loran, veteran Rhineland mound artist, pitched an almost perfect game for his teammates, allowing only 7 hits throughout the game, and it must be conceded that without the errorless support given the Munday pitching staff the results would have been in his favor. But that's another story.

Wichita Trippers Pay Munday Visit

Headed by Paul Seeds' Los Cabelleros band, 135 business and professional men took Munday by storm at 6 o'clock Saturday afternoon, and were greeted by a typical Saturday afternoon crowd of citizens. After partaking of the special train which was bearing them home from the annual convention of the West Texas Chamber of Commerce meeting at Sweetwater, they formed a circle on the south-west corner of the square, where the band gave a brief concert.

County Scholastics of County Slightly Under That of 1931

Scholastics of Knox county schools showed a loss of 83 this year with the county schools showing a loss of 13 according to figures compiled in the office of the county superintendent. Total county scholastics are 3,266, of which 1,890 are common school scholastics.

Below is a list by schools, according to the 1932 school census: Munday 580; Knox City 281; Goree 263; Truscott 152; Sunset 363; Benjamin 286; Vera 219; Gilliland 145; Rhineland 175; Hefner 128; Hood 92; Lone Star 95; Cottonwood 82; Union Grove 72; Washburn 62; Dixon 56; Brock 64; Antelope Flat 21.

Wilburn Hill, principal of the Weinert High school last year, has been elected as principal of the Sunset Grammar school for next year.

Days We'll Never Forget

Graduation Exercise For Sunset School To Be Held May 29

The first commencement exercises in the history of Sunset Consolidated school will open Sunday morning, May 29, with baccalaureate services in Sunset auditorium at 10:45 o'clock. The Rev. C. B. Stovall, of the Baptist church in Knox City, will deliver the baccalaureate sermon.

Friday evening, June 3, at 8:15 o'clock, the commencement address will be delivered by Superintendent Chas. Lail of Becton, Texas. Mr. Lail was formerly superintendent of the Gillespie school.

There are fifteen students in the first graduating class of Sunset. Lillian Verhalen is the valedictorian, and Ora Mae Read the salutatorian. Hughlan Smith had the highest average, 91.5, of the boys.

More Than \$500 Paid By Knox County For Rabbit Ears To Date

According to M. T. Chamberlain, county clerk, 12,076 rabbit scalps have been purchased by the county to date, which have cost the county \$503.80.

There is a general belief among old-timers that the number of rabbits prevalent in the country is materially larger some years than usual, and this seems to be a good rabbit year, and when one considers the damage that one of these long eared animals can do to growing crops they can realize that the county is doing a great work in aiding in their extermination, as this number of rabbits would destroy crops to the value of many times the price paid by the county for their slaughter.

LIQUIDATION NOTICE
The First National Bank of Munday, located at Munday, in the State of Texas, is closing its affairs. All note-holders and other creditors are hereby notified to present the notes and other claims against the association for payment. Dated March 21, 1932. C. A. Eiland.

PIANO, VIOLIN VOICE
I will teach a 6-week term in the above subjects at my home, beginning June 6th. If interested see me at home or at Akers store. Adrian Akers.
FOR SALE OR TRADE—\$5,000.00 equity in nice home in Abilene. Would assume small debt on small piece of first class land.—MORRIS GILBERT.

How Old?

He doesn't look a day over fifty. And feels like forty. At the age of 62. That's the happy state of health and pep a man enjoys when he gives his vital organs a little stimulant! When your system is stagnant and you feel sluggish, headachy, half-alive—don't waste money on "tonics" or "regulators" or similar patent medicines. Stimulate the liver and bowels. Use a famous physician's prescription every drug store keeps. Just ask them for Dr. Caldwell's syrup pepsin. This appetizing syrup is made from fresh laxative herbs, active senna, and pure pepsin. One dose will clear up almost any case of headache, biliousness, constipation.

But if you want to keep in fine shape, feel fit the year 'round, take a spoonful of Dr. Caldwell's syrup pepsin every few days. You'll eat better, sleep better and feel better. You will never need another laxative. Give the children a little of this delicious syrup two or three times a week. A gentle, natural stimulant that makes them eat and keeps the bowels from clogging. And saves them from so many sick spells and colics. Have a sound stomach, active liver and strong bowel muscles that expel every bit of waste and poison every day! Just keep a bottle of Dr. Caldwell's syrup pepsin on hand; take a stimulating spoonful every now and then. See if you don't feel new vigor in every step.

THE GOVERNOR'S RACE

Finally Gov. Sterling has definitely announced his candidacy for reelection. His announcement will at least alleviate the uneasiness of James E. Ferguson, who has for some time been forced to keep his fireworks back to see at whom he should direct them. Ferguson is happy only when he can direct his caustic remarks at a specific target. But there is a strong likelihood that both the Fergusons and Governor Sterling will have other troubles before the primaries are over, for reports from various sections of the state indicate that neither are any too strong with Mr. General Public, and there is a growing sentiment for a general change in the political line-up down at Austin, and it is not at all impossible that some third candidate might plunge in and muddy the waters for them both.

It is a well known fact that the Ferguson's vest pocket vote will not do any more at the best than to get in the run-off, for having tried their hand at staging a come-back on numerous occasions and failed there is little reason to believe that the public has had cause to change its attitude toward their candidacy.

Gov. Sterling forged his way into the run-off two years ago with the Fergusons, and he won his election for the one and only reason that the people of Texas didn't want the Fergusons again. He has never had a strong following, and the meager following he had two years ago has suffered a slump by reason of the depression and general dissatisfaction.

Otto Stehlik, prominent business man of Wichita Falls, together with Mrs. Stehlik, were here Tuesday morning in the interest of the candidacy of Tom Hunter for governor. Mr. Stehlik is working in the interest of Mr. Hunter over the entire state and reports that he and other friends of Mr. Hunter are greatly encouraged over the progress that is being made by Hunter forces, especially in south and east Texas, where Mr.

Hunter has been campaigning for the past several weeks. Mr. Stehlik reports that good crowds are greeting Mr. Hunter everywhere and former supporters of both Fergusons and Governor Sterling are coming in to the Hunter camps.

THE RHYTHM OF THE PRESS

Oh, there's somethin' 'bout a print shop

That's so lurin' to my heart,
And when in some bustlin' city
'Tis the place for which I start,
Can't explain its soothing feelin'
To my weary soul, unless
It's the smell of ink and rollers
And the rhythm of the press.

I was once a printer's devil
In the happy days of yore,
Settin' type and feedin' presses
On a squeaky office floor.
Did the sweepin', washed the windows
Fed the growlin' dog, and jes'
Couldn't keep from writin' poems
To the rhythm of the press.

Like again to be a devil
Clad in ink-stained overalls,
Foldin' papers, washin' rollers,
Pastin' clippin's on the walls.
Though my face and hands were inky,
I was learnin' more or less
Every day, some mighty lesson
From the rhythm of the press.

—Fred Keller Dix, National Printer Journalist.

Mr. and Mrs. T. G. Benge and Mr. and Mrs. W. R. Moore spent the week end fishing on Lake Kemp. They were accompanied by W. R. Moore, Jr., and Glenn Wallace Kennedy.

CLYDE NELSON

FEDERAL LAND BANK LOANS
5 1/2 - Per Cent - 5 1/2

A long term loan with the option to pay at any interest date, provided the payment to be made is out of one's own funds. And contrary to the general belief, THIS LOAN DOES NOT CARRY ANY LIABILITY ON YOUR FARM, OTHER THAN YOUR OWN LOAN.

This loan offers a saving of \$10.00 on the \$1,000.00 over any loan offered by any Loan Company in Texas.

The Munday National Farm Loan Association
JOHN ED JONES, Secretary-Treasurer
PHONE NO. 199 MUNDAY, TEXAS

IMPORTANT NOTICE FOR JERSEY BREEDERS

W. E. Jones, local county agent, has received information from the American Jersey Cattle Club that provisions have been made that purebred Jerseys past two years of age may be registered, for a limited time, at a fee of \$5.00 instead of \$10.00.

This temporary reduction was made by the National organization because of its appreciation of the present financial conditions of the country and in order that many worthy purebred Jerseys which have not been registered, may now be registered at this saving to their owner.

They were weekend guests of relatives in Munday.

PAIN

HEADACHES, NEURITIS NEURALGIA, COLDS...

Whenever you have some nagging ache or pain, take some tablets of Bayer Aspirin. Relief is immediate.

There's scarcely ever an ache or pain that Bayer Aspirin won't relieve—and never a time when you can't take it.

Don't depress the heart, or otherwise harm you. Use them just as often as they can spare you any pain or discomfort. Just be sure to buy the genuine. Examine the package. Beware of imitations.

Aspirin is the trade-mark of Bayer manufacture of monoacetic acid ester of salicylic acid.

The tablets with the Bayer cross are always safe. They

SAFE

Cooperative Use Pays Well

Here is a lesson in the value of co-operation.

Time was when every community had its own small, isolated electric power plant—if it had any electric service at all.

That was before it was technically possible to link up groups of towns and provide them with power through widespread systems of electric transmission lines.

Today many communities share each power plant. Thus they utilize the facilities more efficiently and receive a higher grade of service at a much smaller cost. The small town's new industrial importance is a direct outgrowth of this improvement in power supply.

The West Texas Utilities Company is rendering this dependable, inexpensive and elastic type of power supply to 125 progressive West Texas cities and towns.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

West Texas Utilities Company

Locals

Mrs. Louis Reinlee of Dallas and Mrs. Glen Dehbs of Frederick, Okla., have returned to their homes after spending several days here with their parents, Mr. and Mrs. John McGraw.

E. L. Covey of Goree was here Monday in the interest of his candidacy for tax assessor of Knox county.

In previous issues we failed to mention the fact that Mrs. Walter Harris recently underwent a major operation in the Knox County hospital at Knox City, and is now well on the way to recovery, much to the gratification of the many friends of the family.

Mr. and Mrs. E. E. Roberts of Wellington, Texas, were here Sunday visiting relatives and friends here and at Goree, and were accompanied here by Mr. and Mrs. Dorso Rogers, who will visit them for several days.

Editor E. B. Harris of the Rule Review was in Monday for short time Monday afternoon and paid this office a pleasant visit.

One of the most successful fishing parties of the season was that composed of D. E. Holder, Dave Mauldin and M. F. Billingsley, who, after spending a night on the lake, returned with a nice catch of crappie and channel cat, and in addition they brought home a number of large carp which they caught with dough bait. They are enthused over the sport of catching carp with a hook and line and say that no game fish has anything on a four or five pound carp when it becomes attached to the other end of the line, and some contend that they eat fairly well when the bass, crappie and channel cat are not biting.

Among the visitors to Monday Saturday afternoon were Mr. and Mrs. Peter Loran of the Rhineland community, who came in late in the afternoon especially for the purpose of hearing the band accompanying the Wichita Falls delegation to the Sweetwater convention. Pete has been playing the cornet since he was a young man, and while he is quite out of practice, he can let you know in an unmistakable way that he can blow the thing, and there's nothing that appeals to the musician more than music, and the greatest tragedy of our modern day seems to be the lack of interest in music. In the olden days every community of any size had a band, but today one must look high and wide for them.

Furniture repaired at Morrison's Mattress factory. Upholstering and refinishing. Second hand furniture bought and taken as payment for repair or mattress work. First door east of Nick Peyson's garage.

Tibbett's 99 Decibels in E Flat Exceed Boiler Factory in Volume

Lawrence Tibbett measuring voice as Harvey S. Firestone Jr., watches

WITH Lawrence Tibbett, noted singer, as the subject of the test, science has now proven that the soothing tinkle of gold in the human voice has greater sound volume than the jarring crash of iron and steel in the familiar discord of modern life. In other words the music of Tibbett's singing exceeds in volume the din of a boiler factory, a riveting machine, or the streets of New York in their most violent moments.

This test is believed to be the first ever made of determining the exact volume of a famous singer's voice. It took place when Lawrence Tibbett was in Akron on the other day as the guest of Harvey S. Firestone, Jr., vice president of The Firestone Tire and Rubber Company, sponsors of the Monday night radio programs of which the Metropolitan grand opera and talking picture star is the regular artist.

The measuring of Tibbett's "golden voice" was done under the personal supervision of Roy W. Brown, noted Firestone research engineer and member of the Society of Automotive Engineers Research Committee. One of the instruments in the Firestone research laboratory is an audiometer, an extremely sensitive piece of mechanism, which is part of the extensive equipment used in detecting, photographing

HOMESPUN SENSE

ETHICS OF BANKING

By MELVIN A. TRAYLOR President First National Bank, Chicago

The function of a bank is, after all, a quite public one, and the banker who has no regard for the ultimate prosperity of his customers and his community will be very quickly condemned by the common sense of the latter, and will ultimately destroy not merely his own reputation but also bring about the downfall of his community.

In other words, the prosperity of a bank is founded upon the prosperity of the community and country in which it is situated. It is clear that we cannot aid in the development of business unless we are willing to place our competence and resources at the service of all, and he who will give the best service is in him all who come for aid and assistance in their undertakings, will be the greatest.

Banker in Strategic Position The banker has always held a strategic position in the business world, and obviously the first requisite necessary is that the banker shall be honest. I do not mean with "honesty" merely that he should be honest to the extent that he would not embezzle funds or swindle his customers and clients. The honesty to which I refer must be of a much higher and greater type.

He must be willing to forego momentary advantages because in the long run the specific action may bring harm to his customers or possibly to business generally.

Sentiment in Business Sentiment in business? Yes, there is nothing else. What is it that prompts agitation for reforms in every avenue of life? Why is it that we are interested in better agriculture, better roads, better schools, better community life? It is sentiment. It is affection; it is pride; it is sense of duty.

It is faith, confidence, hope, the intangible that forms the very warp and woof of modern business, and nowhere is so large a degree of this true as in banking. In no sphere of banking to so great an extent as in the country bank.

Truly the work of the country banker touches the life of the community at every point, from the wedding chance to the cemetery, and at no point does it touch so lightly as at that of cold-blooded business consideration. It is sentiment from the opening hour until the closing hour, and many hours when no banking can be done.

Getting Up Nights

If Getting Up Nights, Backache, frequent day calls, Leg Pains, Nervousness, or Burning, due to functional Bladder Irritation, in acid conditions, makes you feel tired, depressed and discouraged, try the Cystex Test. Works in 15 minutes. Circulating thru the system in 15 minutes. Praised by thousands for rapid and positive action. Don't give up. Try Cystex (pronounced Siss-eks) today, under the Iron-Clad Guarantee. Most quickly allay these conditions. Improve restful sleep and success of money back. Only 50c at

Summer School Will Be Conducted Here If Demand Justifies

Students of the Monday schools, or other schools in this vicinity, who are in need of special summer work will have an opportunity to take the desired work if a sufficient number of students can be enrolled, according to an announcement made Wednesday by Supt. H. H. Riley.

Mr. Riley states that both high school work and grammar school work will be provided if there are a sufficient number of students interested in taking additional summer work, and he further states that the work will be given in accordance with the rules laid down by the State Department of Education, and students will be given full credit for the work done.

Mr. Riley states that rates for the summer term have not yet been determined, but he assures us that the rates will be as low as possible and he hopes that a sufficient number of students may be secured to justify classes for both high school and grammar school work, and in this event he will teach the high school work himself, while one of the members of the faculty will have charge of the grammar school work.

Those who are interested in a summer school are requested to meet Mr. Riley at the high school building Monday morning at ten o'clock, at which time rates will be announced, and Mr. Riley hopes to interest a sufficient number of students to justify carrying on the work.

Emmett Partridge Is Again Chosen Head Farmers Union Gin

Emmett Partridge has again been elected manager of the Farmers Union gin plants in Monday. This action was taken recently at a meeting of the board of directors. Mr. Partridge has been serving in this capacity for the past few years and his services have proven highly satisfactory to the members of the organization.

Some changes were made in the personnel of the board of directors at their recent meeting. J. A. Reid and Robert Myers retiring from the board and their places were filled by J. C. Rice and J. B. Bowden. The entire board as now composed is as follows: A. J. Bunt, president; W. E. McNeill, vice-president; J. C. Rice, secretary.

The above named men together with C. C. Cunningham and J. B. Bowden compose the board of directors.

H. I. Kiefer Goes Muskogee Newspaper As Staff Reporter

Halbert I. Kiefer, who has been associated with The Times for the past six months, left on Friday afternoon of last week for Muskogee, Okla., where he has accepted a position on the staff of the Muskogee Phoenix and Times-Democrat.

During the months he was in Monday Mr. Kiefer performed a most worthy service to the community, not only by his work with this publication, but by the large volume of news which he sent to the daily newspapers from this community, and we are sure that many of our citizens will regret that it was impractical for him to continue the good work that he was doing here.

ELECTRIC POLISHING, expert greasing and washing. When your car needs attention let us serve you. We make a specialty of giving services that will stand the closest inspection.—R. B. BOWDEN, Gulf Service Station.

RESTFUL SLEEP for FRETFUL, FEVERISH CHILD

—With Castoria's regulation

When your child tosses and cries out in his sleep, it means he is not comfortable. Very often the trouble is that poisonous waste matter is not being carried off as it should be. Bowels need help—mild, gentle help—but effective. Just the kind Castoria gives. Castoria is a pure vegetable preparation made specially for children's ailments. It contains no harsh, harmful drugs, no narcotics. Don't let your child's rest—and your own—be interrupted. A prompt dose of Castoria will urge stubborn little bowels to act. Then relaxed comfort and restful sleep! Genuine Castoria always has the name:

CHILDREN CRY FOR IT

CHURCH OF CHRIST

The crowd at the Church of Christ was smaller Sunday morning than usual on the account of the rain, but the night crowd was larger.

We had a good young people's meeting and started our study of Acts. It proved to be very interesting and can be made useful if you will come and be with them.

The subject for next Sunday night will be "The Good Confession". Our Sunday Bible study starts at 10 a. m., morning worship at 11 a. m., Young People's program 8 p. m., preaching following the Young People's program.

You are welcome. Wibur Hill, Minister.

TO PARENTS:

I want to trade with you. If you need me in any way to help you care for your children in my home during this vacation, let's trade. I can help them review or go forward with their school work or including fifth grade work, or I can care for children in any way while you are busy doing something else. I want to begin this work on Wednesday, June 8 and close Tuesday, August 3. My charges will be reasonable. I need the cash but I will trade my services for anything you have that would be useful to me and my home. See

Mrs. Jim Lewis, Corner third block east of depot. 3tc

Mrs. E. E. Akers and granddaughters, Miekie Jo and Emmett Ophelia Macon, are visiting in the home of Mr. and Mrs. E. Donna David of Garman, Texas.

Prizes Will Be Given At Stamford Reunion For Typical Cowboys

Stamford, Texas, May 18—Elaborate plans are being made for the entertainment of the sponsors who will represent the various cities and towns in the Texas Cowboy Reunion to be held here July 4, 5 and 6.

Each city is being invited to make its own selection of a sponsor. The girls will ride in the first day of the Reunion, July 4. Sponsors will be required to furnish their own mounts.

Prizes will be given to the two sponsors having the most attractive riding outfits, the best mounts and showing the best horsemanship. First prize will be a handsome pair of hand-made riding boots and the second prize a pair of famous McChesney silver-mounted spurs.

Wichita Falls and Haskell have already announced that they will send sponsors. Selectin of the two most typical

active cowboy will be a new feature. One will be solicited from among the cowpunchers 55 years of age or over and the other from those under 55. Each will be presented with a "ten-gallon" Stetson hat.

Secret judges will make the selection, observing the cowboys on the street, in the opening parade and at the rodeo grounds. Typical cowboy clothes, such as are worn by actual cowhands on the ranches, will play an important part in the judging.

Mr. and Mrs. Bernard Stodghill and

little daughter, Bernadine, were here from Hobbs, New Mexico, the latter part of the week visiting relatives and friends.

ONE CENT INVESTMENT

Do you remember when the penny had purchasing power? There was a time when our grandfathers used this small coin to encourage good behavior. Peanuts, popcorn and candy money—there was power in a penny in those days! Today, even the price of "good behavior" has gone up and the American boy thinks in terms of nickels and dimes.

NATURAL GAS But there is still power in its your cheapest and best servant natural gas service. The low cost of this convenience STILL brings you the biggest penny's worth you have ever known.

In fact, a penny invested in natural gas will do any of these tasks in the modern home: Operate a good burner for 3 people. Operate a bath room heater 2 hours. Heat enough water for 2 baths. Make 33 cups of coffee. Operate a living room heater 45 minutes. Heat enough water for 14 shaves. Operate a Laundry Dryer 45 minutes. Operate an Incinerator 15 minutes. Run a Gas Refrigerator from 8 to 10 hours.

...and save your time, health and energy as well as your money.

"There's a Death Message for This Man, we must catch him when he comes through here"

His mother had died suddenly. His family was perplexed about notifying him, for he was "somewhere on the way to California." Just where, nobody knew.

They did know, however, he was motoring over a route selected by the Conoco Travel Bureau. So the death message was wired to Albuquerque, New Mexico, which was on that route.

The Continental office set every Conoco station attendant in Albuquerque looking for the traveler. All day Conoco men asked motorists their names. And finally the right man was found, the message delivered to him. An unusual incident. Just one of many out-of-the-ordinary happenings, however, that

oco Travel Bureau, and every Conoco attendant is the traveler's well-informed friend.

If you are planning a motor trip, write us where and when you want to go. Or fill in convenient application at any Conoco station. We will send you a Conoco Passport, 1932 road maps and other travel information. Our service is absolutely free, maintained for the benefit of American motorists by Continental.

We do more than furnish road maps, help choose routes and supply other travel information. We look upon every Conoco Passport holder as a personal friend to be served in every way possible. Every Conoco station is a branch of the Conoco Travel Bureau.

Capinizing Demonstration
On next Thursday, Friday and Saturday afternoons in the Klan hall the boys of the vocational agricultural classes of the Munday High School will demonstrate capinizing. Those interested in this kind of work may find some by being present. Bring your own chicks.
Before bringing chicks to be oper-

ated on, the following should be strictly adhered to. No food or water for at least 30 hours before operation.
This is the last free opportunity to learn this work. The boys will, after this time, make the following charge: 10 cents each for less than 25; 7 cents each for less than 50; 5 cents each over 50.
—R. D. Rawls.

T. O. L.

(Continued from front page.)
kick out of the firemen's convention at Olney.

Just as the sun was sinking in the west two Munday firemen—both ex-service men—took notice of the fact that some of the Olney business men were glibly about their flag etiquette, and had left their flags waving in front of their places of business.

These firemen agreed that they became a self-appointed committee to make the rounds and take the flags down and fold them up.

They made fine progress until they arrived in front of a barber shop, but after taking a few husky lifts at a newly painted barber pole they concluded that the work was heavier than they anticipated, so they decided just to leave that one out for the night.

Many Munday citizens have taken advantage of the bountiful spring season to beautify their yards, and one finds an abundance of lovely flowers in the yards over the city.

Also those who have given their attention to gardening this spring say that the season has been ideal and their gardens are the best they have ever grown.

A good garden will go a long way toward relieving the situation arising from the depression, and those who grow gardens are not, as a rule, look-

ing to the community chest or the Red Cross for the necessities of life.

WHERE THE TEACHERS GO.

With the completion of the year's school work this week, the teachers are departing for their respective homes or summer schools.

Miss Lucille Jarrell will go to her home at Mabank for the vacation period.

Miss Cora Touch will go to her home at Olney, and will not be a member of the faculty next year.

Miss Virginia Curry will spend the vacation period with her parents at Knox City.

Miss Maudie Mae Bennett will spend the summer months with her family at Glen Rose.

Mr. and Mrs. Riley B. Harrell will go to Denton, where they will be students in the North Texas State Teachers College during the summer term.

Mr. and Mrs. L. S. Hardigree will go to Denton, where Mrs. Hardigree will enroll as a student for the summer term of the North Texas State Teachers College.

Miss Dessie Kennedy will go to Haskell, where she will spend the vacation period with her parents. She will not be a member of next year's faculty.

L. M. Palmer will be a student in the North Texas State Teachers College at Denton during the summer.

Miss Irene Clifford will go to Westlaco to spend the vacation months with her parents.

Miss Maidee Watson will spend the vacation period at her home in Haskell, and will not return here next year.

Miss Pauline Chappel will spend the summer months at her home at Chris-

How to play Bridge AUCTION and CONTRACT by Wynne Ferguson

Author of "PRACTICAL AUCTION BRIDGE"

ARTICLE No. 3

In what way does this expert differ from any other auction player? Has he more imagination, more courage, more resourcefulness, more originality? What particular quality makes him stand out among his fellows? If there is anything that we don't understand, we usually subject it to close examination and analysis, so let's do the same with the expert. Let us place him under the microscope and let us judge his tactics. Let us observe and analyze his bidding and play.

The following hand is illustrative of the writer's contention that in the language of sport, the expert "has everything."

Hearts—A, 10, 9, 7
Clubs—Q
Diamonds—A, K, 10, 5
Spades—K, Q, 8, 7

No score, rubber game. The expert, Z, dealt and bid one diamond, a perfect example of the four-card rule and preference to the no trump. The singleton club is a danger spot in no trump because a good player with a set-up club suit and the lead would make the no trump. In this particular hand, A had a six-card club suit and his partner the ace of spades, so that a no trump bid by Z would have failed to make the contract by one trick. Z, however, possessed the first requisite of the expert: good judgment; so he bid one diamond. A passed and Y bid two diamonds to give his partner another chance to bid. B passed and Z now had to do a little thinking. Y's bid of two diamonds indicated a willingness on his part to have Z bid another suit. This suit could be either clubs, hearts or spades.

The expert figured that his partner would not bid two diamonds merely to obtain a club bid from him because it

is just as difficult to go game at clubs as in diamonds. There would be nothing to gain by such tactics so Y must be prepared for a heart or spade bid. Z, therefore, bid two spades. A passed and Y bid three diamonds. B passed and Z was now certain that Y was hoping for a heart bid so he bid three hearts with the greatest assurance in the world. All passed. Y's hand was as follows:

Hearts—K, 8, 6, 4
Clubs—J, 7
Diamonds—Q, J, 9, 7, 2
Spades—6, 4

At hearts Z made four odd, losing only one heart, one club and one spade trick. At diamonds, the result would have been the same, so the expert's imagination and clear analysis of his partner's bidding gave him a game not otherwise possible. How many players would have bid the hand like the expert?

At contract, the bidding would have been the same up to Z's three-heart bid. His partner, Y, would then have bid four hearts. The foregoing hand was not selected at random but only as representative of the margin of superiority that the expert has over the average player. To excel at Auction and Contract, as in any other game, the expert must "have everything." He must be able to do the right thing at the right time and it is this quality that is most strongly evident in the hand given. It may seem easy and the expert's play and bidding the natural thing to do, but how many players could honestly say that in actual play they would have done the same? If they can, they are in the class of the expert. If not, they still have something to which to look forward. We cannot all be experts, but we can all improve our game by analyzing the expert's methods and profiting thereby. Put the expert "Under the Lens" at every opportunity and you cannot help but benefit. Another example will be given in a later article.

Solution to Last Week's Problems

Hearts—K, 8, 7, 3, 2
Clubs—none
Diamonds—none
Spades—A, 10

Hearts—Q, 6
Clubs—K, 10, 4, 2
Diamonds—none
Spades—Q

Y : Z
A : B

Hearts—9, 5
Clubs—8, 7
Diamonds—10, 4, 3
Spades—none

There are no trumps and Z is in the lead. How can Y, Z win five of the seven tricks against any defense?

Solution: Z should lead the deuce of spades. A must play the queen and Y should play the ten, thus allowing A to win the trick. B should discard the seven of clubs. A now has the choice of two leads: (a) He may lead a heart or (b) a club.

(a) Suppose A decides to lead a heart. If he leads the six of hearts, Y should play the king and lead back the deuce of hearts, which A must win. On these tricks Z should discard the five of clubs and the four of spades. A is thus obliged to lead a club up to the ace queen in Z's hand. On the first lead of clubs, Y should discard the ace of spades, and thus all of Z's cards are good. If at trick No. 2, A leads the queen of hearts, Y should let it hold the trick. If A then leads another heart,

all of Y's cards are good. If he then leads a club, all of Z's cards are good. Y discarding the ace of spades as before.

(b) Suppose A leads a low club at trick No. 1. Y should discard the ace of spades and thus all of Z's cards become good except the ten of clubs at the end. In all cases, therefore, Y, Z must win five of the seven tricks against any defense.

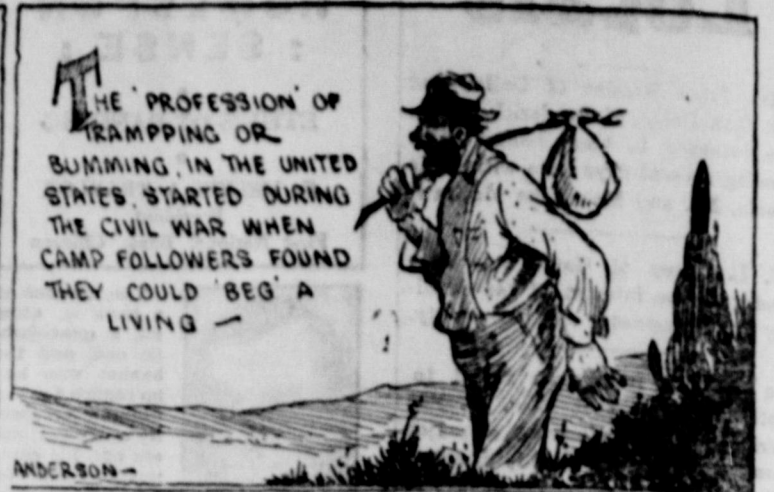

False Solution: Suppose Y wins the first spade trick. He must then lead hearts. If he leads a low heart, B will win the trick with the king and make his diamonds. If Y leads the king of hearts, A should play the queen and thus enable B to win the second heart trick. Played in this way, Y can only win three tricks.

This is a good example of not allowing an opponent to force the lead in one's hand when by so doing one or more tricks will be lost.

O. McDaniel, Box 337, Seymour, Texas.

Supt. H. H. Riley plans to remain in Munday for several weeks to conduct a summer school, after which he will go to Denton and enroll for special work in the North Texas State Teachers college. He will go to Canton next year as principal of the high school.

Miss Mildred Kennedy plans to spend the vacation period at Waco, and will be accompanied by her mother, who has been here with her during the school year.

IMPROVED THANKS TO CRAZY CRYSTALS

"We want to let you know how much CRAZY CRYSTALS have done for us. My husband has been sick for one year and a half with rheumatism and his father for six months with the same. I was the only one able to work—I was beginning with pains in my knees, then we heard over the radio about CRAZY CRYSTALS, so we got one box. They helped me a lot. I feel better than I have for a long time. My husband feels better than he did when he took baths and medicine. His father is 70 years old, but feels better than he has for three or four winters. We are going to get another box tomorrow."

Signed: Mr. and Mrs. Tschida, 1534 Adrian Street, St. Paul, Minn.
