

Kracker Krumb's

Odd Bits Salvaged
at Random

"I wish you'd tell the people it's just as much against the law to steal one of these as anything else that belongs to Uncle Sam."

When Postmaster Lee Haymes made that request of us the other day, he was holding in his hand one of those new type ball point pens that recently replaced those old pens at all U. S. post office.

When the pens arrived, they were placed in their proper places—at the P. O. windows and at the desk in the lobby. Before the new was worn off, one was stolen from the desk. The chain had been broken off about an inch from where it had been fastened to the desk. Now as a security measure, the pens are put out in the morning and taken in each evening.

Personally, we'd hate to be seen anywhere, except in the post office building, writing with one of those pens that's clearly stamped, "Property of U. S. Post Office."

From out Los Angeles, Calif., way we received a post card with the following message: "Fines do not seem to stop traffic violators. Perhaps better results could be obtained by impounding the car from one to thirty days. If those violators had to walk to work for a few days each time, they might wise up."

Football's in the air—but good—by now. Following the high school team's "limbering up" games of early in the season, they are now entering their tough conference games. And with the arrival of the autumn season—with still summer weather—and college teams getting in the swing, we're going to hear lots of pigskin talk for several weeks.

Our Moguls play their first home game of the season Friday night, with the Throckmorton Greyhounds. Since we've been switched into another district, this is not a district game, but those who remember the heartbreakers of years past will be rooting for a Mogul win.

The Moguls, it seems, have the backing of all the town and student body, judging from the response received to efforts of Mrs. Troy Stewart to secure a football page in the paper this week. She has just about come up with enough advertising for two pages—one this week and one next week. From the showing the Moguls made last Friday night, which won them praise from all fans, this backing will continue until the end of the season.

The local team will enter district play after next Friday night. Their first district game will be played at home, too, with Paducah being their opponents.

"Another week of close companionship with a broom!" That's what we told other Lions when we were issued that little whisk broom last Tuesday. Those brooms signify that the Lions are holding their annual "Blind Caravan" broom sale next Tuesday morning—and they'll be seeing you.

Smiling cheerful, always jolly, friendly, good-natured and helpful Buddy Bumpas will be missed by hundreds of people over the area. The tragic accident that took his life last Tuesday was a severe blow to his family and friends, who were numbered by the hundreds in the county and state. Buddy was trying to live by and practice The Golden Rule.

He had gained quite a reputation as a public speaker and was in demand for talks at service clubs, church meetings and even graduation exercises. Buddy's talks were designed to lift people's thoughts to higher things, rather than upset the tickle-box. It seemed he was at the height of a period of service to humanity. We'll miss him, too.

It's going to fool around and rain, yet! Those pop-showers Monday and Tuesday nights fooled everybody, even our weather recorder. Total rainfall for the two efforts, .52 of an inch. It was appreciated!

Irrigation Specialist To Speak At Meeting Of Farmers Here October 2

Dr. John Schrunk, internationally known irrigation specialist, will discuss "Use of Irrigation Water for Profit" at a meeting at the elementary school building in Munday on Tuesday, October 2.

In conjunction with this meeting, a tour will be made that afternoon, at which time Dr. Schrunk and members of the tour will observe some of the problems and conditions of special interest to Knox County farmers.

Dr. Schrunk was born and reared in the sand hills of Nebraska, graduated from agricultural engineering department and soil and water division of the University of Nebraska. He worked seven years with the Soil Conservation Service in Oklahoma and Texas.

As an instructor, he taught in the field of soil and water at the University of Nebraska from 1947 to 1953. He joined the Irrigation Equipment Co. in Denver in January, 1953, and has been with the firm since that time.

His job with the company is conducting irrigation schools and clinics over the United States and putting out technical information for the company.

All irrigation farmers, business men and persons interested in irrigation are urged to attend this meeting and to accompany Dr. Schrunk on the afternoon tour. This tour is scheduled to depart from the city hall square at 2 p. m. Thursday, and the evening meeting is at 8 p. m.

The tour is being sponsored by the Extension Service and the Fort Worth and Denver Railway.

Stamford PCA Has Open House For New Bldg.

Around 750 persons visited the new office building of Stamford Production Credit Association in Stamford during the open house hours last Saturday and Sunday afternoons.

The building is considered one of the most modern and attractive of this area. It is of Roman brick, masonry construction with half of the front in plate glass. It is 50x70 feet and faces south on Hamilton Street.

Striking a modern keynote which is reflected in every detail of structure, is the metal louver section across the west portion of the front. The interior is also ultra-modern and provides ample office space and working space for all officers and employees, as well as a directors' meeting room which is large enough for small community gatherings.

Most employees of the area served by Stamford PCA were on hand to welcome visitors and show them through the new building. Stamford employees were hosts to others of the area for a barbecue supper Saturday night.

Prizes Offered In Local Child Photo Contest

Arrangements have been made with Winston B. Lucas of Irving for conducting another local "Child Photo Contest," and pictures made in the contest will be run in a series in this paper.

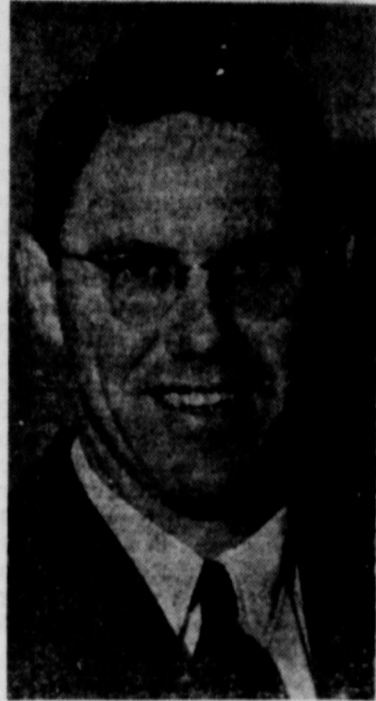

Mr. Lucas will be at Bertha's Babyland on Tuesday, October 2, from 10 a. m. to 6 p. m. for the purpose of making the photos. Children will also be competing for \$18.20 in prizes which are being offered for the three best photographs made during the day.

Proofs will be shown and from these you select the picture of your child which you would like to appear in the newspaper. If you wish extra photos they may be purchased. It is entirely up to you whether you buy pictures or not.

There is no age limit in the contest and parents are invited to bring their children in for the photographs on the above date.

TO NHDA MEETING

Mrs. R. M. Almanrode is attending the National Home Demonstration Association in San Antonio this week. She plans to visit her brother in San Benito before returning home.

DR. JOHN SCHRUNK

Lion Club To Hold Boom Sale Next Tuesday

Members of the Munday Lion's Club will be seen canvassing the town next Tuesday morning, holding their annual boom sale—and they plan to "sweep the town clean."

This is the third annual sale sponsored by the local club, and it is expected to meet with equal success as the prior sales.

In addition to various types of brooms, they will also feature door mats, mops, ironing board covers and pad combinations. The caravan will be located on the northwest corner of the square, and proceeds will be used for Lions Club charities.

All brooms are manufactured by Texas blind workmen in blind shops, or "lighthouses," which are non-profit organizations. Get ready next Tuesday—the Lions will be calling on you.

Youth Rally To Be Held At Rule

Evangelism will be the theme of the Haskell-Knox youth rally which will be held in the First Baptist Church of Rule at 3 p. m. Sunday, September 30.

Featured speaker will be Dr. Otis Strickland, president of Decatur Baptist College. Music will be furnished by the association Baptist youth choir.

All pastors are urged to encourage youth attendance and come to this rally.

A Girl For The Lloyd Bridges!

Again we have a baby in the Munday Times official family! Mr. and Mrs. Lloyd Bridges—he's linotype operator at The Times—rolled out the Welcome mat Tuesday for Bobbie Beth, the new daughter who arrived at 1:47 a. m., September 25, at the Knox County Hospital.

Lloyd came in at 9:30 Tuesday—he didn't get much sleep Monday night—and passed out the big, fat cigars, and showed a pleasant smile that extended from here to yonder!

Bobbie Beth weighed eight pounds, one and three-fourth ounces. Her parents had her bed and wardrobe, and all those things a baby needs, ready for her. She and her mother are doing fine.

Grandparents are Mr. and Mrs. Irvin Bridges of Cyril, Okla., and Mr. and Mrs. E. P. Haynes of Walters, Okla. Mrs. Haynes has been here a week to help in welcoming the little doll, who had really been expected since September 19th.

Quarterback Club To Meet Thursday

Members of the Munday Quarterback Club meet on Thursday night of this week, it was announced Monday.

A motion picture film of the Seymour-Munday game will be shown at this time, and all members are urged to attend.

M. A. Bumpas, Jr., Tax Collector-Assessor, Killed In Gun Accident

M. A. (Buddy) Bumpas, Jr., beloved resident of this county and tax assessor-collector for the county, was killed at 9:20 a. m. Tuesday in a tragic gun accident that brought shock and a pall of sorrow to all the county.

Mr. Bumpas died instantly of gunshot wounds inflicted when his shotgun discharged as he attempted to take it from his automobile. He had parked his car behind Clonts Hardware in Knox City and had gone into the store to purchase a new recoil pad for the gun. He left the store to bring the gun inside, and it was discharged as he attempted to remove it from the car.

The discharge struck him in the abdomen, and he died instantly. Buddy, who was well loved in his youth as well as during his mature life, was a native of this area. He was born on Munday on October 11, 1920, and was 35 years, 11 months and 14 days of age. On November 23, 1940, he was married to Clara Sue Mitchell of Munday, and the couple lived here until he was elected tax assessor and collector soon after the close of World War II.

He served his country during the war, held the tax office for 10 years and in July was re-elected for a four-year term. During the summer he was also engaged in the grain business at Benjamin, operating an elevator during the grain harvest.

Active in work of the Texas Tax Assessors' Assn., he served as vice president and was elected president at the last annual meeting. He was a member of the Knox City Lions Club and of the Benjamin Church of Christ.

Survivors include his wife; three sons, Billy, Brett and Bryant, all of Benjamin; his mother, Mrs. Maggie Bumpas of Munday, and two sisters, Mrs. W. A. King of Weimert and Mrs. A. L. Newberry of Bismarck, N. D.

Funeral services were scheduled for 3 p. m. Thursday from the Church of Christ in Knox City with Minister Ed Kirk of Abilene officiating. Assisting him will be Minister Mitchell Greer of Knox City, Rev. K. E. Wooley and Rev. Walter Burney, both of Benjamin. Burial will be in Johnson Memorial Cemetery at Munday with the McCauley Funeral Home in charge of arrangements.

Named to serve as pallbearers were Herbert Partridge, Jack Barker, Fuller Shannon, Sam Leverton, Allen Hester, Homer T. Melton, Tom Campbell and Claude Richardson.

Father Of Local Woman Dies At McKinney Hospital

Funeral services for Hershell High, 67, who died Monday night in the veterans hospital at McKinney, were held at 2 p. m. Wednesday from the Church of Christ in Seymour. He was the father of Mrs. Ray Ford of Munday.

James Scott, evangelist of the church, officiated and burial was in Riverside Cemetery in Seymour.

Mr. High was a lifelong resident of Seymour.

Other survivors are his widow, a son, John High of Fort Worth, and three daughters, Mrs. Ed Reynolds of Wichita Falls, Mrs. Alton Jungman and Mrs. Jimmy Stout, both of Seymour, and 11 grandchildren.

CEMETERY ASSOCIATION TO SERVE DINNER

The Goree Cemetery Association will serve dinner at the Memorial building in Goree Friday, September 28. Serving will begin at 11:30 a. m. Everyone is invited to come out and enjoy this good meal.

Weather Report

Salvation Army Launches Drive

The annual fund drive for the Salvation Army was launched at 7 a. m. Tuesday with a kickoff breakfast at the American Legion hall.

M. L. Wiggins, service unit chairman, presided at the meeting and extended welcome and thanks to the workers who are helping in the campaign. He stated that this is one opportunity for all to help those who are less fortunate than ourselves. It is the purpose of the Salvation Army to help those in need with unnecessary "red tape" and without regard to race, color or creed.

Tom Bullington is campaign chairman this year, and he expressed sincere thanks for the fine spirit of cooperation he had received. Bullington explained that the Munday campaign takes in the area of Gilliland, Vera, Goree and Munday, with a goal of \$750 set for this area.

Team captains and workers in the drive are: Charles McCauley, L. R. Frost, Charles Baker, Lee Bivins, Earl Hughes, Delmon E. Alexander, Ralph Cypert, Barton Carl, Royce Hardy, Bill Quattlebaum, R. M. Almanrode, Stanley Wardlaw, E. H. Nelson, Billy Mitchell, Winston Blacklock, W. H. Stewart, Varney Moore, E. B. Littlefield, Jerry Kane, Mrs. O. Putnam, Mrs. Nora Broach, Miss Merle Dingus, Miss Christine Burton, Milton Kirby of Vera, Mrs. McGuire of Gilliland and Mrs. John Broach of Goree.

Dan E. Johnston, field representative for the Salvation Army, had the program at Tuesday's meeting of the Lions Club and showed the film, "Behind the Shield." Johnson expressed thanks to the club for the help and support of his organization to port given each year.

SOPHOMORES TO SPONSOR BAKE SALE

The sophomore class will hold a bake sale in the Chamber of Commerce office on Saturday, September 29, beginning at 9:30 a. m. Cakes will be sold for \$2.00 and pies will be \$1.00 each. Solve your baking problem and help the Sophomores.

Moguls Shut Out Albany's Lions For Season's First Win; Play Greyhounds

Hitting their stride last Friday night after two early-season losses, the Munday Moguls shut out their former district foes, the Albany Lions, 27 to 0, last Friday night on Albany Field to rack up their first game of the season.

The local boys staged a brilliant defensive and offensive show—the result of intensive training and the will to win—that sent the Lions down to their third straight defeat of the season.

Halfback Boyd Meers sparked the Moguls' first half attack, scoring from six yards out in the first quarter and from 10 yards in the second. Quarterback Glenn Amerson kicked both extra points to sew up the first half 14 to 0.

Amerson turned in the longest payoff run of the game in the fourth quarter, following a no-score third stanza, when he crashed off tackle for 30 yards to score, but failed to add the extra point.

Freddy Caram added Munday's final score on a plunge from

Sheedy Well Opens New Oil Pay Here

Knox County Hospital Notes

Patients in the hospital Monday, September 24, 1956:

E. R. Hobert, Munday; Karen Clonts, Knox City; C. M. Walsworth, O'Brien; Miss Bertha Sweatt, Knox City; Stanley Duckworth, Knox City; Mrs. S. P. Keny, Knox City; R. B. Howell, Knox City; C. A. Steinride, Munday; W. A. Thomas, Knox City; J. H. McGee, Knox City; G. Hicks, Rochester; Simon Najera, Rochester; M. Garcia, O'Brien; C. Escobada, O'Brien; Mrs. Josfa Catano, O'Brien; M. Soto, O'Brien; Mary Lee Johnson, Munday; J. Torres, Munday; P. Bionas, Knox City; Ramirez Perez, O'Brien and Ortiz Perez, O'Brien.

Patients dismissed since Monday, September 17, 1956:

Mrs. Victor Vasquez and baby, Knox City; Mrs. F. E. Starrick, and baby, Knox City; Irene Luna, San Antonio; Mrs. Delbert Hayes, O'Brien; J. Chavez, O'Brien; Rodolfo Livar, Knox City; Manuel Moreno, O'Brien; Chas. Moorhouse, Munday; Mrs. J. W. Sokora, Munday; Ramon Zamora, Munday; Ken Pierson, O'Brien; Mrs. Billie R. Anderson, Knox City; Mrs. F. Garcia, and baby, Munday; Mrs. Louis Pattona, and baby, Munday; Mrs. A. E. Booe, Munday; O. Hernandez, Mrs. K. D. Bradford and baby, Big Spring; M. V. Chowning, Truscott and Mrs. Rosa Wilson, Knox City.

Births: Mr. and Mrs. Delbert Hayes, O'Brien, a daughter; Mr. and Mrs. F. E. Starreck, Knox City, a son; Mr. and Mrs. Victor Vasquez, Knox City, a son.

Munday Mogul Band Has Busy Schedule

The Munday Mogul Band has a busy schedule for the next few days. Thursday (today) they are in Iowa Park to attend the Texas-Oklahoma Fair and to compete in the marching concert. Gayle Littlefield and Jacqueline Clowdis are competing in twirling.

Early Friday morning they will hold their pep rally, and Friday night will be the big game with Throckmorton.

At 9:30 a. m. Saturday, they will open their membership drive for the Band Booster Club with a concert on the city hall lawn. Members will sell ribbons for 50 cents, and the money will be used to purchase uniforms and instruments.

TO FLORIST SHOW

Mrs. Bertha Perry of Knox City, who is connected with the Munday Flower Shop here, attended the florists show in Abilene over the week end. She stated that she got new ideas for fixing bouquets, sprays and wreaths to make them more attractive.

Knox County Saturday held the spotlight in the North Texas (Wichita Falls) District oil activity when a prolific oiler was potentialized to open a new Tannehill sand pay 1 mile north of Munday.

Discovery is the Ajax Oil & Development Co. No. 1 Sheedy which flowed 84.98 barrels of 41 gravity oil through 3/4-inch choke during a three-hour test. This would make the calculated 24-hour potential 679.84 barrels.

Production is from a middle Tannehill pay—which probably will be known as the Ajax Tannehill sand—perforated with eight shots to the foot at 2010-20 feet. Completion was natural, with no water showing.

Test was made with 300 pounds pressure on casing and 150 pounds pressure on tubing. Gas-oil ratio was 400-1.

The well is situated in a 40-acre lease in section 77, block 2, D&W survey.

L. T. Mork, partner in Ajax Oil, said his geologist definitely classified the pay as a new Tannehill zone for that area of Knox County. Other nearby Tannehill pay is from 40 to 50 feet below the pay logged in the No. 1 Sheedy, while a higher Tannehill sand is found in the area at around 1900 feet.

Drillstem Test

During drilling phase, a drillstem test was conducted at 2002-23 feet. Tool was open for 20 minutes and then shut in for 20 minutes. Gas surfaced in eight minutes and oil flowed in 25 minutes. Recovery was 1880 feet of free oil and 100 feet of drilling water.

Initial flow pressure was 280 pounds and final flow pressure was 460 pounds. Twenty-minute shutin bottomhole pressure was 380 pounds. Hydrastatic pressure was 1020 pounds.

Top of the pay was logged at 2001 feet, with 23 feet of sand then being drilled, followed by two feet of hard sand and shale and then 22 more feet of sand. The 5 1/2-inch casing was set at 2053 feet, one foot off bottom.

Ajax Oil & Development has its main offices in Encino, Calif., and recently established Texas offices here in the Stanley Building. E. R. Stewart of Fort Worth, well known in North Texas oil circles, will be in charge of the company's Texas operations.

The company also maintains offices in New York City and in Brush, Colo.

2,000 Acres Under Lease

Mork said Ajax has about 2,000 acres under lease in Knox and Baylor Counties and plans to drill 15 more wildcat tests in that area.

The No. 1 Sheedy is Ajax's first attempt in the North Texas District.—Wichita Falls Daily Times

Another wildcat staked in Knox County and three more completions in the Goree area were reported last week.

Christie-Stewart Drilling Co. started the No. 1 E. H. Nelson, one mile northwest of Munday, as a 2200-foot exploratory test. It has been abandoned as a failure. Completions were: H. S. Rose and Burton E. Ellis of Fort Worth No. B-6 Joe Maloney, two miles south of Goree, which flowed 90 barrels of 38 gravity oil per day; J. C. Choate of Goree, No. 1 Lane, in the Goree townsite, which pumped 50 barrels of 38 gravity oil per day, and Shell Oil Co. No. 4 B Coffman, one-half mile south of Goree, which flowed 58.10 barrels of 34.7 gravity oil per day.

Eleven new exploratory tests were recently staked in Knox County, nine of which are in the area just north of Munday.

Schulze and Brannan have drill-sites for six wildcats. They are: No. 1 Lowrance, No. 2 Lowrance, No. 2 J. T. Offutt, No. 2 D. B. Weaver Estate, No. 3 Weaver and No. 4 Weaver Estate.

Three ventures staked by Ajax Oil and Development Co. are: No. 2 S. Sheedy, No. 3 Sheedy and No. 4 Sheedy.

Christie-Stewart Drilling Co. has staked the No. 1 W. S. Campbell, three miles northwest of Goree.

Fain and McGaha No. 1 J. A. Kinnibrugh is three miles south of Vera.

Sidney Johnston of Lubbock visited relatives and friends here the first of this week.

AMERICAN AGRICULTURE LEADS THE WORLD

Discussions of farm problems often produce much more heat than light. So an unemotional contribution to the subject made by Dorothy Thompson is of unusual interest.

In Miss Thompson's view, the farm troubles that exist have stemmed from what she terms the "scientific-technological revolution." Modern farming, inevitably, requires substantial investment in mechanized equipment. Marginal land and terrain unsuitable for efficient mechanized operation have been going out of use.

But this, Miss Thompson points out, does not mean that the family-sized farm is disappearing—"on the contrary, such units are still the chief and most efficient producers." These units are increasing in size, even as they diminish in numbers, for the reason that with modern equipment and techniques each man can do so much more work than could his predecessors. Astonishing increases in productivity have resulted. Miss Thompson points to strawberries. Twenty years ago, she says, a ton per acre was good—now certain favored regions produce as high as 30 tons per acre.

Finally, Miss Thompson writes: "There is no crisis in agriculture as a whole. In productivity, prosperity, assets owed liabilities, and dynamic progress, American agriculture, as a whole, leads the world." As evidence, she cites the facts that the going value of good farm land has not only been maintained but has increased.

All technological revolutions cause dislocations. But all, in the long run, benefit everyone. And that is true in agriculture.

IN A FREE COUNTRY

One of Texas' leading newspapers, the Dallas Morning News, recently ran an editorial on certain legal matters affecting the state's right-to-work law. In conclusion it said: ". . . The News is sincerely and unalterably dedicated to the conviction that in a free country, no law should be enacted or upheld as constitutional that compels a man to join a union to obtain or keep his job, just as no law should prevent him from joining a union to hold his job."

That is a simple and admirable sentence—for it completely covers the great principle of the right-to-work movement, regardless of the verbal complexities that may appear in a particular piece of legislation.

MAKE THE MOST OF YOUR LUCK

We Americans are a lucky people, so lucky that we take our miracles for granted. We have grown used to the fact that we can bridge time and distance with the twist of the dial, that we can push buttons to control light and darkness, heat and cold. We no longer marvel that we can swallow a few pills, and take a few simple injections, and thus banish much of the pain and sickness that has been mankind's lot since the world began.

It's a dangerous attitude, this complacency of ours, if it leads us to neglect the great benefits with which modern science has enriched our lives. Right now millions of Americans are facing just that danger because they have failed to use the latest medical miracle, the Salk Polio Vaccine.

The season of greatest polio danger is upon us and many needless victims have already paid the price of neglect. But many more such tragedies, children, will avail themselves of this cheap and can be prevented if everyone, men, women and easy insurance against the crippling disaster. Millions of dollars and seventeen long, hard years of painstaking research went into this discovery. More than 300,000 people were cruelly stricken while scientists sought the weapon which provides protection against paralytic polio. Now the weapon is known, the vaccine is available to all. It will be ironic and tragic if thousands more are stricken while the vaccine lies idle in the physicians' refrigerators.

WHAT GOVERNMENT DOES TO YOU

Life magazine vividly restates what it termed an "old truth" in these words: ". . . The more a government does for you the more it has to do to you."

Before government can provide you with any service, it must first take the money from the pockets of you and all the rest of the taxpayers. And it always takes more than it returns, inasmuch as the administrative costs run high.

That isn't all—or even the worst of it. Any welfare state eventually turns to a cheap money policy and lets loose the tides of inflation. Every dollar then buys less and less. The result is a murderous combination of sky-high taxes and depreciated money.

—SAY YOU SAW IT IN THE TIMES—

WHAT DOES THE BIBLE SAY?

He Pleased God

What a wonderful statement to make about anyone. How much all should desire to have such said of them! Yet of how few it may be said that they pleased God. Enoch was such a man (Heb. 11:5). Now it is stated that he walked with God. That surely meant that he did as God directed and at no time did he try to change the word of the Lord. Too many people now want God to please them and they almost act like they are going to make God like what they do. Often people state that they know the word of God commands a certain thing to be done but they are not going to do it and they will go to heaven as well as those that do what is commanded.

Jesus is the best example of pleasing God. "And he that sent me is with me; for the Father has not left me alone; for I do always those things that please Him" (Jn. 8:29). Here it is stated that he did always those things that pleased the Father. Now we do that some of the time but not at all times. No man ever lived without sin. Since sin is not pleasing to God therefore no man ever pleased God at all times. But Jesus did no sin, therefore he pleased God

at all times.

John expresses a confidence which should thrill each of us which should thrill each of us (1 Jn. 3:22). Here he states that we get what we ask for if we keep his commandments and do those things that are pleasing in his sight. Yes, oftentimes we do not get what we ask because we do not keep his commands but want to keep ours or some other person's and leave the Lord's out for a while.

We must have faith to please God (Heb. 11:6). We must not please our selves, "for even Christ pleased not himself" (Rom. 15:3). And do those things that are pleasing in his sight (1 Jn. 3:22). Our ways should please the Lord, "When a man's ways please the Lord, he maketh even his enemies to be at peace with him." (Prov. 16:7). The only way that can be done is to find what God wants us to do and then do that with a willing heart or otherwise our ways will not please the Lord. Now since we are to be saved by the Lord and our ways must please him it is our sole duty to learn from his will what he commands and do that to enter the kingdom of heaven (Matt. 7:21). Are we all willing to do what God commands to please him?

What Makes People Successful?

Series of Booklets Is Presented Seniors By Kings Cleaners

A series of booklets on "What Makes People Successful" has recently been presented members of the 1956-57 senior class by King's Cleaners of Munday.

The booklets, which deal with almost every phase of becoming a success, are designed to aid seniors in choosing a vocation in life, as well as to help them in the senior year of school work.

Each member of the class receives one of those booklets each month during the year, and parents have also stated that they also enjoy reading them. Supt. W. C. Cox expressed his appreciation to King's Cleaners for making them available to the school.

The first in the series is entitled "Getting Along with People" and others are on the fol-

lowing subjects: "Cooperating With Others," "Handling People," "Understanding Human Nature," "It's Easy—When You Know How," "You've Got To Mean Business," "Selling Ideas to Yourself," "Get Along If You Want To Get Ahead," "Have a Target To Shoot At," "It Pays To Be Ignorant—Sometimes," "Start From Where You Are," and "Nine Magic Words." —Adv.

Miss Henrietta Hertel, who is attending school in Wichita Falls, spent the week end with her parents, Mr. and Mrs. W. C. Hertel. Her mother took her back to school Monday.

Mr. and Mrs. G. W. Parris of Grandfield, Okla. were week end guests of her brother and wife, Mr. and Mrs. H. E. McMahon.

MODERN HOMEMAKING RECIPES . . . HOUSEHOLD HELPS

By Julia Hunter
HOME ECONOMICS DIRECTOR, LONE STAR GAS COMPANY

The smart homemaker can plan and serve tastier meals if she makes the best use of the large food freezing compartment in her refrigerator by freezing small quantities of seasonal foods.

For best results when freezing foods, the homemaker should give careful consideration to the selection of the food, the preparation, packing, freezing and storage. Each step can play a big part in making the frozen product desirable.

Care should be exercised when selecting foods for freezing. Food taken from the freezer is no better than the food put into the freezer, since freezing does not improve quality. Preparation of foods for freezing should be done quickly because promptness in handling and freezing any product helps retain quality. Preparation instructions should be followed carefully.

Proper packing of foods is essential. The purpose of packaging is to preserve texture, flavor, color, food value and to prevent drying out or evaporation. Use moisture-vapor-proof materials such as double cellophane bags, heavily waxed cartons, tin cans, glass freezer jars, plastic cartons, aluminum cartons, cellophane, ployfilm, polyethylene and laminated freezer paper. Milk cartons, ice cream cartons and waxed paper are not moisture-vapor-proof.

Food should be frozen soon after packaged. No more unfrozen food should be put into a freezer section than will freeze within 24 hours, usually two or three pounds of food per cubic foot of freeze space.

For quickest freezing, place packages against walls or on the floor of the freezer section. Food packages should be arranged with a little space between them so air can circulate freely.

Preparation, packaging, storage temperatures and kind of food stored affect length of time foods may be stored. Suggested storage periods are: fruits and vegetables, one year or less; beef, veal and mutton, 1 year or less; pork and poultry, six months. Storage periods for cooked foods vary considerably.

A free bulletin on preparation of individual foods for freezing may be obtained by sending a post card to the Home Economics Department, Lone Star Gas Company, Room 601, 301 S. Harwood, Dallas, Texas.

RECIPE OF THE WEEK
Macaroon Fruit Fluff: Beat until stiff, gradually adding sugar, one egg white and two table-spoons of sugar. Fold in one cup of frozen peaches or strawberries, thawed, ½ cup whipped cream

and three cups crumpled coconut macaroons. Spoon into serving dishes. Chill in refrigerator three hours. Yields eight servings.

Guild Meeting Held On Monday At Local Church

Members of the Wesleyan Service Guild met last Monday night in the fellowship hall of the First Methodist Church. Mrs. Layne Womble was hostess, with Mrs. Joe B. Roberts as program leader.

The lesson subject was "With Humble Hearts." Mrs. Lee Hayes read the 13th chapter of Corinthians for the devotional. "Why Americans are Prosperous" was discussed by Mrs. Levi Bowden, and "Sharing with Southeast Asia" by Mrs. Joel Massey.

After a short business meeting, led by the president, Mrs. Oscar Spann, the meeting adjourned. Nineteen members were present, with Mrs. Grady Beck being welcomed as a new member.

Weekly Health LETTER

Issued by Henry A. Holl's
M. D., State Health Officer
of Texas

AUSTIN—Must a child born out of wedlock carry the stigma of illegitimacy on his birth record all his life, even though his parents later marry each other?

No. A new birth record can be issued on which the child is shown to be legitimate.

What about the birth record of an adopted child? There are legal means by which a new record of birth can be filed showing the adoptive parents to be the natural parents.

These and many other complications of vital statistics—fact of life and death so confidential that discarded correspondence must be specially burned—will be aired during a 2-day conference on vital records and public health statistics December 6-7 at the State Department of Health.

If you happen to be a "nosologist" they will be expecting you at the December meeting. Nosologists are cause-of-death coders. State Registrar W. D. Carroll said they will meet simultaneously with other vital statisticians from throughout the state. Carroll and his staff will discuss with them each point in the international system of death coding, the method established by international agreement to standardize death records and permit comparisons for world-wide study.

"The problems facing registration officials are as varied as the personalities of the 8 million Texans they try to keep tabs on," Carroll said.

One of the most important items to be considered will be the necessity for requiring complete documentation before amending a birth certificate.

A recent case involved a youth who made application for his birth record to enter air cadet training. When the certificate was issued his middle name was listed as "Roger" instead of "Robert," the name he had been using all his life.

Before the amended record could be issued he had to furnish documentary evidence in the form of a baptismal record showing early use of "Robert" as a

TIME TO PLANT Daffodil Variety

SPRING REALLY ARRIVES when the daffodils burst forth in a dazzling wealth of color. Fall is the time to plant next April's flower spectacle. Here three daffodil types — large trumpets in foreground and smaller orange and white varieties behind—blend in a cozy cluster. Birch trees make ideal backdrop.

P-TA Outlines Year's Programs Gives Reception

Approximately 100 parents and teachers were present for the teachers' reception at the school gym on Thursday night, September 20. Mrs. F. W. Pape, president, gave the welcome, and each teacher was introduced by a parent in his or her particular school.

Mrs. Lonnie Offutt, second vice president and chairman of the program committee, gave an outline of the year's programs, the theme being "We, the People, Spotlight the School."

For October, Hallowe'en spotlights the school with a carnival. November is spotlighted with an afternoon Thanksgiving program; December with a Christmas program under the direction of Harold Jackson, Mrs. J. H. Bard-

well and C. C. Brown. February's program is not complete, and in April the homemaking department will be spotlighted under the direction of Mrs. Canafax.

The room count at the reception went to the freshman class. The membership drive is still on. Remember, the room with the highest percentage gets \$5.

MUNDAY, TEXAS

NEWS FROM VERA

(Mrs. Thelma Lee Coulston)

Mr. and Mrs. Ernest Beck Jr. and two children visited recently with the Harold Beck family in Lubbock. Don Brown of Monument, N. M. visited over the week end with his parents, Mr. and Mrs. Fred Brown, Elizabeth and Floyd Milton.

Mr. and Mrs. Harold Hurd and two children of Abilene spent three days last week with his mother, Mrs. T. M. Hurd.

Mr. and Mrs. Ted Russell were in Albuquerque, N. M. last Tuesday and Wednesday to attend the funeral of Mrs. Annie Roberts. Mrs. Roberts was a sister of Mr. Russell's father.

Mr. and Mrs. J. L. Trainham Jr. and sons, Tommy and Eric, of Duncan, Oklahoma, visited during the week end with J. L.'s parents, Mr. and Mrs. Jess Trainham.

Rev. and Mrs. Bob Taylor of Aubrey spent the week end with her parents, Mr. and Mrs. James McGaughey and William.

Visiting in the home of Mr. and Mrs. Tom Bowdoin last Saturday and Sunday was their son, Mr. and Mrs. Johnny Bowdoin and two little daughters of Ralls.

Recent guests in the home of Mr. and Mrs. C. A. Parham Sr. were Mr. and Mrs. A. D. Johnson and children and Mr. and Mrs. Alton Morgan and son of Odessa.

Mr. and Mrs. Clyde Beck and two children are temporary citizens of Nocona where Clyde is employed.

Mrs. Jake Welch was brought from the Baylor County hospital on Wednesday of last week.

Mrs. J. M. Roberson returned home Saturday from a two weeks visit with her children, Mr. and Mrs. Fred Roberson and Mr. and Mrs. Jimmy Jefcoat, in Dallas.

Supt. and Mrs. Milton Kirby entertained the Matrons Club members and their husbands with a dinner and 42 party, at their home last Wednesday evening.

Attending the National Home Demonstration Association and Texas Home Demonstration Association in San Antonio, this week are Mrs. Lewis Parker of

the Benjamin H. D. Club, Mrs. R. M. Almanrode of the Munday Club and Mrs. Wesley Trainham of the Vera Club. Mrs. Homer Martin, the Council Chairman of Gilliland, also attended.

Mr. and Mrs. J. A. Caldwell of Holliday visited Sunday with their daughter, Mr. and Mrs. Ferman Dowd, Nelda and Jo Carol.

Johnny Gore and Mr. and Mrs. H. H. Gore visited with Mr. and Mrs. John Rushing and family in Dimmitt last week end.

Mr. and Mrs. Charles Bradford and family and Mr. and Mrs. Bobby Bradford and children of Midland visited recently with the boys mother, Mrs. M. A. Bradford and children.

Johnny Gore and Dalton Gore are employed in Wichita Falls.

Mr. and Mrs. Alton Lee Patterson and two children and Mr. and Mrs. Levoyn Kinnibrough and two sons, Douglas and Dennis, are now living near Floydada, where the men are employed.

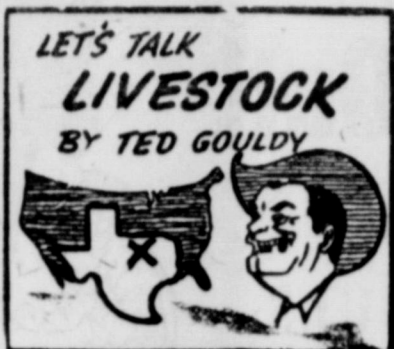

Mr. and Mrs. Ed Trainham of Holliday visited over the week end with Mr. and Mrs. Charles Trainham and Bobby.

Mr. and Mrs. Finis Bratcher are now making their home in Seymour where Finis is employed.

TIME TO Plant Tulips

HALF-A-DOZEN TULIPS planted in a clump, like these pink Darwins, provide a bright touch of color against a hedge or in an obscure corner of a lawn. Planted in blocks of single colors or in patterned designs they can transform a backyard garden into a color spectacular. Imported Dutch bulbs are planted in fall for spring enjoyment.

Cattle Prices Firm After Severe Break

FORT WORTH—Trade was fairly active and most classes of cattle and calves sold fully steady at Fort Worth Monday. At Fort Worth a major portion of the cattle supply was again aged cows and bulls. Fed steers topped at \$24.

The strike against Swift & Company packing plants across the country affected 39 of that firm's plants. However, since most of their employees at Fort Worth and other Texas points were members of an independent union and not affected by the strike, operations were normal here.

All other packers were operating normally, and a check in this area Monday morning revealed practically all plants operating near capacity.

In the critical New York area the U S D A reported in the wholesale meat trade that "the strike situation was causing little excitement as wholesalers are functioning on a normal basis. Supplies little changed from a week ago." The U S D A report on wholesale meat trade out of Chicago said in part: "Beef offerings not quite as plentiful as most recently."

Comparative prices at Fort Worth: Good and choice steers and yearlings \$17.00-24.00; common and medium \$10.00-16.50; fat cows \$8.50-11.00; canners and cutters \$5.50-8.50; bulls \$8.00-12.50; slaughter calves \$8.00-17.50; baby beef to \$18.00 and above; stocker calves \$19.00 down; stocker yearlings \$17.50 down.

Hogs Open 50 to 75 Cents Higher, Puns Decline.

Butcher hogs opened 50 to 75 cents up at Fort Worth and topped at \$17.50 to \$17.50, and sows were 50 cents higher at \$14 to \$15.50. While about normal supplies arrived here, the total around the 12 major markets was about 20,000 under a week ago. This factor was credited with the good advance in live hog prices.

Sheep And Lambs Open Steady; Lamb Top \$21.00

Woolled fat lambs topped at \$21 at Fort Worth Monday as the trade was steady and fairly active throughout. Shorn lambs with short pelts topped at \$19, some at that figure bearing No. 3 skins. Longer pelts were quotable higher.

Old ewes were steady, most from \$4 to \$5, a few outside that range. Yearlings sold from \$10 to \$16. Old wethers drew \$8 to \$12. Old bucks sold around \$3.50 to \$4.00. Cull to medium lambs drew \$10 to \$17. Stocker and feeder lambs sold from \$12 to \$16, a few higher.

Stocker Sale Grossed Over \$278,000.

The stocker and feeder sale held at Fort Worth Friday saw a top of \$25 per hundred paid for the grand champion pen of steer calves by J. M. Huffington of Hockley, Texas. The steers were consigned by Joe Waide & Son of Sanger, Texas. Other choice and good grade steer calves sold from \$18 to \$21, and plainer sorts from \$15 to \$17. Stocker heifer calves of the better kinds bulked at \$16 to \$19, with a top of \$21 paid for a load from Marfa.

In all some 3,771 calves and yearlings were sold for a gross of \$278,536.16. The average straight straight across was \$73.87 per head.

Munday FFA News

The Munday F. F. A. boys started their annual Curtis School Plan magazine subscription campaign. This plan has 107 magazines to choose from. If your favorite magazine is not on the list, just tell the boys when they come around, and we will send in your subscription. The FFA boys offer you the same special rates that you may get through

the mail. Just fill out the special rate card and give it to one of the boys.

The FFA boys have some rather heavy expenses this year, since we are moving our projects to the new home south of town, the school board purchased for us. We will certainly appreciate you giving the boys your subscription orders. Ask for specials on the Ladies Home Journal and Holiday.

The boys are also taking subscriptions for the following news-

papers: Munday Times, Wichita Record News, Abilene Reporter-News, Fort Worth Star-Telegram and the Dallas Morning News. Support the FFA boys, most of whom are members of the Mogul football team.—E. R. Ponder.

Mr. and Mrs. Thomas Harman and Tommy Jean and Mr. and Mrs. Eddie Howery of San Angelo visited Mr. and Mrs. Irey Belcher and family over the week end. They also visited Mr. and Mrs. Felton Jackson in Goree.

EXAMS SLATED FOR MILITARY ACADEMIES

Senator Lyndon B. Johnson has announced that Civil Service examinations for Texas boys seeking appointment in 1957 to the Army, Navy and Air Force service schools will be held November 20 at 71 cities and towns throughout the state.

Senator Johnson uses the results of these examinations as a guide in making his appointments to the military academies. Persons interested in taking the competitive examination on November 20 are advised to write Senator Lyndon B. Johnson, Senate Office Building, Washington, D. C., not later than October 15.

Mrs. Earl Little, Mrs. Jimmy Bell, Mrs. F. W. Pape and Mrs. Dessie Fields attended the funeral of Hershall High in Seymour on Wednesday.

Thank You

We extend our sincere thanks to our many friends and customers for your patronage during our stay in Munday.

We are leaving this week for Wichita Falls, where both will be employed. Again we thank you very sincerely.

Mr. and Mrs. W. K. Dowdle

Knox Prairie Philosopher Agrees Not To Send Any U. S. Ships Through The Suez Canal, If The Pay Is Right

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek is trying to twist international news around to suit his personal needs, his letter this week indicates.

Dear editor:
According to an article I read in a newspaper yesterday afternoon while I was out here hard at work managing my farm, some people might think it was a queer use of the word manage to be sitting in the shade watching the sky and wondering if a cloud would work itself up into a rain storm, but they're the kind of people who can't understand how a man in town can manage his store by standing out on the curb in front watching the traffic go by or arguing football with some friends, at any rate, according to this article, the United States, is considering putting up half a billion dollars to pay ship owners not to use the Suez Canal. If they'll go the long way around, the U. S. will pay them the difference in cost.

Now it's not my job to pass on these things or to figure out why it's the job of the United States to rush in and solve every crisis that turns up in the world, although it may be the news-

papers' fault, if they weren't so all-fired determined to get all the news and left a few crisis unreported and Washington never heard about them, the chances are they might fizzle out on their own, like a tree falling silently in the woods with nobody there to hear it, but when Washington has half a billion dollars to turn loose, I'm interested, doesn't make any difference if I'm not a foreign country.

Here's the thing, I've got a little land in the Soil Bank, but the income from that won't quite see me through. Now I don't have a ship, but thunder, I could start building one, couldn't I? And besides, Washington's not going to balk at a technicality. When you are dealing with a threatening crisis, hang the expense.

For a reasonable figure, I'll agree not to send any ships

through the Suez Canal. I'll even do better. I'll agree not to send any the long way around, or anywhere. All I want is a little canal money to go with my soil bank money, until the world situation gets back to normal. I figure I'd have a fixed income from now on.
Yours faithfully,
J. A.

Time For A Change

Many struggle along without the power to live the kind of life they want to. If you long for a change from your old life, why not come to God? If any man be in Christ, he is a new creature: old things are passed away; behold, all things are become new. 11 Corinthians 5:17

Reappraisal Of Roughage Program Slated In Texas

The volume of approved applications for assistance under Texas emergency roughage program has exceeded the estimates of demand made when this program was negotiated so it is necessary to reappraise the actual cash requirements.

The agreement between Secretary Benson and Governor Allen Shivers provides for an allocation of one million dollars of Federal funds for the roughage program. Funds available to the U. S. Department of Agriculture to finance roughage programs must be allocated among all disaster states where such a program is needed.

Mr. Walter T. McKay, Texas state director of Farmers Home Administration, has been instructed by K. L. Scott, director of Agriculture, to immediately instruct all FHA county offices in the designated areas to withhold further approvals of roughage purchase certificates. The county offices are authorized to continue to accept and hold on file applications for assistance under this roughage program, but are instructed to take no action on these applications and to make daily reports on the tonnage requirements covered by such applications to Mr. McKay's office.

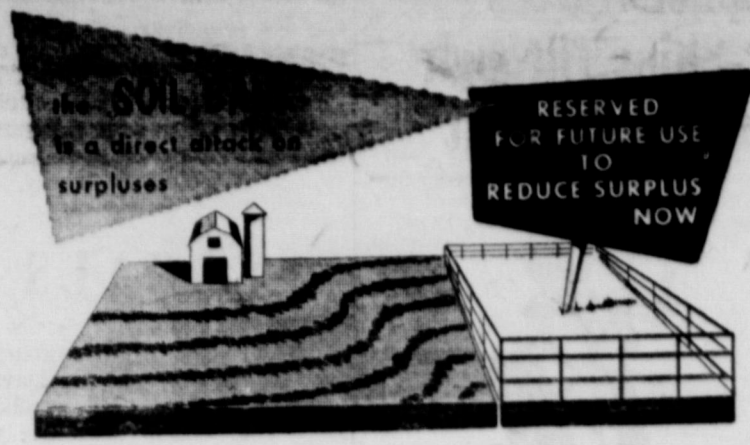

Mr. McKay has been asked to solicit the assistance of the Texas USDA Drought Committee and the office of the governor in making a careful reappraisal of the demand for assistance under this emergency roughage program including financial requirements.

Mr. Scott stated that in keeping with the policies and the desires of Secretary Benson, the department will continue to work closely with Governor Shiver

- ✓ Will reduce surpluses by reduced production
- ✓ Will increase farm income
- ✓ Will protect land for future use

The National Soil Bank program will help reduce price-depressing surpluses of wheat, corn, cotton, peanuts, rice and tobacco without placing all of the burden on the farmer, the U. S. Department of Agriculture says in announcing the 1957 Soil Bank program. Surpluses of these six "basic" crops have continued to pile up despite production controls and intensive marketing programs here and abroad. The 1957 Acreage Reserve encourages farmers to cut production below their acreage allotments and corn bases, with payments for acreage reduction to help maintain or improve net farm income. Under the Conservation Reserve, farmers receive payments for land taken out of production and conserved for future use. Participation in the Soil Bank will not affect future establishment of State, county, or farm allotments. The Soil Bank supplements other farm programs. The County Agricultural Stabilization and Conservation Committee will assist farmers in planning their participation in the Soil Bank.

and leaders in the State and give all assistance possible within the authority and funds available to the department in providing assistance to drought stricken farmers and ranchers in Texas.

Cub Scouts Make Trip To Haskell

The Sweet Shop in Haskell was visited by Den 2 of local Cub Scouts on September 20 when Mrs. James Carden, den mother, took them for a visit.

Of special interest to the Scouts were the automatic pie roller, 60 and 20-quart cake mixers, four Dutch ovens, bun diver which cuts 36 rolls at a time, refrigerators, and the sealer for wrapping bread.

They were treated to ginger bread and brownies. Making the trip were Bill Moors, Bill Leflar, Gary Cluck, Jimmy Carden, Kenneth Smith and Arthur Smith. On the way home, they noticed a Burlington engine taking on water at the tank. They stopped and engineers gave them a treat by showing them the engine.

The right equipment can go a long way in lightening housework. Place your wet wash in a cotton canvas cart on wheels. The cart will eliminate carrying the heavy wash and stooping over while hanging clothes on the line.

Texas High In Bond Purchases

Texans are continuing their record purchases of Series E & H Savings Bonds. W. E. Braly, Knox County Saving Bonds Chairman announced today. During the year of 1955 and the first eight months of 1956, Texans have purchased more bonds than during any like period since the war years of 1944-45.

Sales in Texas for the first eight months of 1956 were \$130,902,185. The people of Knox County purchased \$189,726 for the same period. Our county has achieved 59.3% of its 1956 quota of \$320,000. August purchases amounted to \$14,043.

Chairman Mr. Braly reminded those people whose Savings Bonds have been lost, stolen or destroyed that the Bonds can be replaced by contacting their bank or the Federal Reserve Bank.

Savings Bonds are absolutely indestructible, Mr. Braly concluded.

HOME FROM HOSPITAL

Chas. Moorhouse was able to be brought from the Knox County Hospital last Friday and is doing fine. Mr. Moorhouse underwent surgery in Wichita Falls hospital and was later moved to Knox City.

Oil Activities

Eight more wells have been completed in the county, seven of which are in the Goree Field two miles south of Goree. H. S. Rose and Burton E. Ellis reported potentials on seven flowing wells. They are:

No. A-5 Joe Maloney, which flowed 95 barrels; of 38 gravity oil per day; No. A-7 Maloney which flowed 72 barrels; No. A-8 Maloney, flowing 84 barrels; No. A-9 Maloney, flowing 96 barrels; No. A-11 Maloney, which flowed 72 barrels; No. A-12 Maloney, flowing 90 barrels, and No. B-7 Maloney which flowed 72 barrels.

In the Voss Tannehill Field, Lomas and Maxwell of Dallas has finished the No. 3 J. K. Johnson, which flowed 72 barrels of 34 gravity crude per day.

Five more wildcat ventures were reported Wednesday in the county. Deepest of these is No. 1 A. P. Denton, two miles northwest of Knox City.

Tex-Star Oil and Gas Corp. of Dallas staked four 2200-foot wildcats, three of them four miles northeast of Munday. They are: No. 1 A. A. Brown, No. 1 J. A. Hendrix, No. 2 Hendrix, and the fourth is the No. 1 R. G. Lawrence, four miles northeast of Goree.

Scotty and Danny Ponder, who went into military service in October, 1953, have been released a

little early in order to return to college at the beginning of the fall term. Danny has been stationed at Fort Bliss, and is now attending Texas Western College in El Paso. Scotty has been in Japan for 19 months, and is now enrolled in Texas Tech at Lubbock. Dick is also a student in Texas Tech.

Mr. and Mrs. J. D. Giespie and Pamela, Mr. and Mrs. Aaron

Edgar and Mr. and Mrs. J. C. McGee of Knox City were among those who attended the formal opening of the new PCA office building in Stamford last Saturday.

It's not the rain you get, but the rain you keep that counts, says G. O. Hoffman, Texas Agricultural Extension Service Range Specialist. Make provisions now to hold rainfall.

From where I sit ... by Joe Marsh

Changed Her Whole "Point of View"

Some local high school teachers spent the summer taking courses at the State University. They learned a lot, but one of them—Miss Williams—got homesick.

"To save expenses," she reports, "we chose a hotel that was clean but grim. When I found my window looked out on a coal yard—my heart just sank!"

But, when Miss Williams noticed a pot of geraniums on the window sill—and a note saying "Look at these instead, (signed) Last Occupant"—she decided to stick it out. She kept those flowers

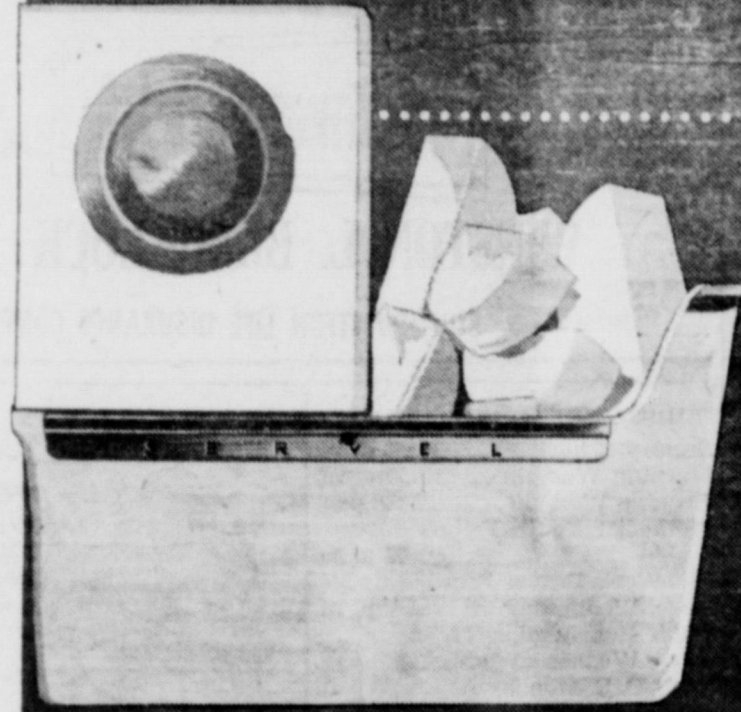

watered and tended to make things that much easier on the next occupant.

From where I sit, it's often hard to adapt to new surroundings—just as new customs often seem strange to us at first. For instance, if you've always had tea with your meals you might find it odd that I prefer a glass of beer. It's OK to prefer what's familiar to you ... but also keep an open mind on what's not.

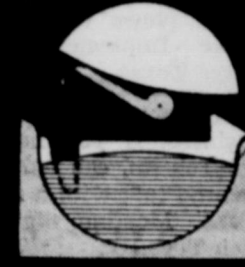

Joe Marsh

Outlaw vs. Outlaw!

The "Wild Horse Race" provides plenty of action when three-man teams of convicts try to ear down, saddle up and ride range-wild broncs. Ten wild broncs and 10 convict teams truly action-pack the arena. And this is just one of many exciting events in the 25th Annual Prison Rodeo filling four big Sundays in October with thrills. October 7, 14, 21 and 28.

Cotton And Other Crop Prospects

Texas' prospective cotton crop estimate as been whittled down by 140,000 bales since the United States Department of Agriculture's previous guess of August 1. The new prediction is for 3,460,000 bales this season.

Observers point out that dry weather in unirrigated sections has taken its toll and the production outlook is smaller than for any year since 1950, and is 2 percent below average. Acreage allotments are a big factor in the reduction.

TURKEY growers in Texas are raising an estimated 4,457,000 birds this year. This increase of 47 percent over the 1955 output has trade nervously wondering whether the market will absorb such an increase and still provide any kind of profit for the grower. The turkey crop is bigger than at any time since records were begun in 1934.

Over the United States as a whole, the number of turkeys is put at 75 million, or 16 percent above last year.

As a result of this increase and the unsettled condition of the market, the U. S. D. A. has inaugurated a turkey purchase program to prop up the anticipated sag in demand. Turkeys which the government buys will be distributed to non-profit school lunch and institutional programs.

PECANS, the fruit of our state tree, may amount to 26,800,000 pounds, according to the Crop Reporting Board. The estimators, remembering a bad miss in their guess of last year, cautiously add that the casebearer

insect is busy on the crop and may reduce is somewhat. Drouth is also cited as a factor that may cut his figure down before harvest time.

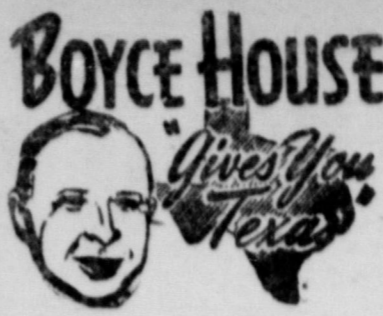

BROOMCORN, a minor state crop but one of importance in South Texas, is estimated at a low of 2,500 tons this season. This is only 26 percent of the 9,500 tons of last year and 36 percent of the 10-year average.

A record low crop of 25,800 tons is expected for the entire United States.

Production details for any of the above crops or other state production may be obtained by writing John C. White, Commissioner, Texas Department of Agriculture, Austin, Texas.

Drive carefully. The life you save may be your own.

TIMES CLASSIFIEDS PAY!

Shortly after I became cub reporter on the Memphis Commercial Appeal, I was put on the police run. One night, a big mill caught fire and the city editor called me at the police station and told me to go to the scene.

I had heard that it was difficult to get past the fire lines so I asked the desk sergeant for a badge. He dug up a star that was as big as a saucer and bore the lettering, "Health Inspector" and I put it on the outside of my overcoat.

Soon after that, Chief of Police Perry came into the news room. He was followed by a dozen officers and said to the slip of a boy who didn't look to be 19 but was, "Hold up your right hand" and I did and then, in a long and solemn ceremony, he swore me in and pinned on me a star which said "Special Police." (I believe he was having a little fun with me.)

Two boys were in the same class in school.

One became the driver of the Memphis police patrol. The other became president of the United States.

I would rather have been Patrol Wagon Driver Brownlee than to have been President Warren G. Harding.

"What kind of man is Smith?" a friend asked. I replied, "I've met him only once but he impressed me as a quiet kind of person, with little to say." My friend said, "That doesn't mean a thing—anybody would seem quiet around you."

When I was in high school, I tist's. I walked into Dr. Walker's had an appointment at the den-office and he said, "Boyce, your appointment isn't today; it's at this same hour tomorrow." I asked, "Shall I wait or come back?"

Long ago, the little incident faded from my mind but a few years back, my aunt Agnes was talking to Dr. Walker and he chuckingly related the occurrence.

IT'S THE LAW in Texas

A public service feature of the State Bar of Texas

STOP FOR SCHOOL BUSES

Thousands of school children are now trooping back to school throughout Texas. Many of them will be transported by school buses. Most people are careful when approaching a school bus which may be standing beside the road or school to pick up school children or allow them to alight. However, we have already had some very bad accidents this year because a child or a motorist, or both, were careless at that very time.

Most Texans are aware of the law which requires a driver to come to a complete stop when overtaking from the rear a school bus which has stopped to receive or discharge school children. After stopping immediately behind the bus, he is then allowed by law to proceed past same at a speed "which is prudent, not exceeding ten (10) miles per hour, and with due caution for the safety of such children."

What many persons do not realize is that the very same rule applies when MEETING a stopped school bus. While everyone is interested in protecting our children, unthinking violators of

this simple safety rule greatly outnumber those who comply. Failure to follow the law in this case can lead to fines up to \$200.00 even when no accident occurs. Following an accident in which some child is injured or killed, the penalties are naturally much more serious.

Although the above rule does not always apply when passing a stopped school bus in a business or residential district of a town, the necessity for extreme caution even in those locations is obvious.

When it comes to overtaking and passing moving vehicles, exercise of ordinary common sense will generally keep a driver within the law. For instance, when passing a car it is only common sense to proceed on past it a safe distance before cutting back to the right side of the highway. Also, any driver would realize the danger of increasing his speed while another is attempting to pass him.

In the same category is the prohibition against passing on the right under most ordinary conditions. Of course, you may legally pass on the right in a few specific instances, such as when the vehicle overtaken is making or about to make a left turn, or upon a four-lane highway.

However, our traffic laws state that even when passing on the right is allowed, it shall be done only under conditions permitting such movement in safety. And, in no event should such passing be accomplished by driving off the pavement or main-traveled portion of the roadway.

Familiar to all are the no passing zones designated by dash lines placed to one side of the center stripe on our highways.

Not so well known are the restrictions against crossing the center line when approaching within 100 feet of or when traversing any intersection or railroad grade crossing.

A driver should never cross the center line of a highway when the left side of the road is not clearly visible and free of oncoming traffic. Generally speaking, when not engaged in passing another vehicle, one should not drive to the left of the center of the roadway.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the application of the law.)

ENGLISH EDUCATOR BI-DISTRICT SPEAKER

ABILENE—Methodists of the Abilene and Stamford districts will have an opportunity to hear Rev. John W. Waterhouse of Highbury Park, London, England, at a bi-district meeting to be held at First Methodist church here Friday, Sept. 28, at 7:30 p. m. Bishop William C. Martin of the Dallas-Fort Worth Area, The Methodist Church, calls the meeting "an after session of the Ninth World Methodist Conference", which was held at Lake Junaluska, N. C., Sept. 1-12.

Rev. Hubert Thomson, Abilene district superintendent, is in charge of arrangements. Rev. Marshall Rhew is the Stamford district superintendent. Waterhouse will be speaking on the subject, "World Methodism: And Its Expanding Mission."
