

## Kracker KrumbS

Odd Bits Salvaged  
at Random

One who sleeps soundly is one whose conscience does not bother.

Our conscience, if any, wasn't bothering us one whit last Sunday night. And by our sound sleep, we were cheated out of hearing some good music—the pitter-patter of raindrops on the roof.

Being-out-of-pocket for two nights, we arrived home at 7 p. m. Sunday to enjoy the comfort of our own bed. After perusing Sunday's papers for a spell, we took to bed with our air conditioner going because the closed up house had not become cool enough for sleep.

The cloud came up, the rain fell, the wind blew, and the little woman turned off our air conditioner and raised the window a mite. She later came in and lowered the window to keep the rain out.

We awoke Monday morning and were surprised to see water standing in places and the ground wet. After having hours to soak in, the water didn't tell a very convincing story, and we came to work believing we had at least a half-inch of moisture. Another surprise came when we struck H. P. Hill on the street and he told us it had rained 1.28!

Attention burglars: Better stay away from our house at night. We are a very light sleeper!

Rainfall reported ranged up to four inches across the Brazos to the north. Two inch or better was reported southeast of Rhineland, with hard wind, that blew out some window lights. Hill was reported in the Hefner community.

Some believe this was a good starter, and that we will eventually receive plenty of rain. We're inclined to go along with this. A dry spell is always broken by rain, or moisture in some form, and each week that passes brings us a week nearer the end of the drought!

We were asked a question we couldn't answer last Monday morning. "Why is it that two cars collide head-on on a straight stretch of road in broad daylight?"

But they do. The two that collided last Sunday afternoon, causing mangled and dismembered bodies, death to a Seymour youth and serious injuries to others, went together within 50 feet of the spot where a head-on collision took the lives of two persons on August 16th. That stretch of road was straight, the day was bright and sunny, traffic was comparatively light—yet, the accident occurred, and death stalked the highway.

Remember our Chamber of Commerce Golden Jubilee banquet last spring, at which time Jerry Lindsey became the first Munday youth to attain the rank of Eagle Scout? Well, Jerry's going to have company pretty soon.

Last Tuesday at the Lions Club luncheon, Jimmie Lee received his Life Scout badge, with only seven more merit badges to go before becoming an Eagle Scout. And Jim Johnson, scout executive for the Northwest Texas Area, said that two other boys are coming along the same trail and within a matter of a few months Munday will have four Eagle Scouts.

The other two Scouts who are on their way to the Eagle rank are John Walter Massey and Allen Elland.

## Local Farmer Dies Of Heart Attack

Word was received early Thursday morning that Gene Michels, well known local farmer, died of a heart attack in Colorado on Wednesday night.

Mr. Michels, with his brother, John, and several others were on their annual deer hunt in Colorado, leaving here the latter part of last week.

The body is due to arrive in Munday sometime Thursday night, and funeral arrangements will be announced later.

## Public Invited To Showing Of New Chevrolets

"We're making plans for hundred of our friends to visit our showrooms Friday for the first showing of the new 1957 Chevrolet cars and trucks," L. R. Frost of Frost Chevrolet Co. in Munday, stated Wednesday. "The new cars, 'just out and just wonderful!' is a daring new departure in design, and we believe the '57 cars will meet with your approval."

When guests enter the showrooms, they will be given an opportunity to register for the door prize which will be given away later in the day. In addition, Mr. Frost will have free gifts for the ladies and balloons for the kiddies.

Coffee and doughnuts will be served to all who visit the agency to view the new cars and trucks. "Come and see the new car that goes 'em' all one better—the new 1957 Chevrolet," Mr. Frost said. "Make yourselves at home and stay as long as you like."

## Local Boy Named Airmen Of Month

Airman First Class Kenneth W. Stubblefield has been designated as September Airman-of-the-Month by the 2347th Air Reserve Flying Center of Long Beach, California. Formerly residing at 1024 Eleventh Ave with his parents Mr. and Mrs. Horace B. Stubblefield, Kenneth attended the Munday High School and the North Texas State Teachers College.

Airman Stubblefield is a Record Clerk at the Center's Reserve Personal Section and is responsible for the maintenance of the records of assigned Air Force reservists.

Entering the Air Force early in 1953, and soon completing basic training, he was sent to the clerical school at Scott Air Force Base, Ill. Upon graduation, he was assigned to the Northeast Air Command where he served both in Newfoundland and Labrador, remaining until late 1954. His return to the United States brought him to his present assignment at the Long Beach ARFC.

## Weinert Boy Is Injured When Hit By Pick-up

Danny Earle, son of Mr. and Mrs. E. D. Earle of Weinert, received injuries to both his legs last Saturday night when struck by a pick-up.

Several boys were engaged in a "water fight" when Danny dashed in front of the pickup with a pail of water. The driver was unable to stop before the vehicle hit Danny.

He received a compound fracture of his right leg and a cracked bone in the left. He was taken to the Haskell Hospital for treatment.

## THIRD GRADE WINNER OF MEMBERSHIP PRIZE

Mrs. Ina Cowan's third grade won the recent PTA membership drive prize of \$5.00 with 51.5 per cent. Honorable mention went to Mrs. Maurysse Blacklock's fourth grade, with 50 per cent, and Mrs. Earl Ponder's first grade, with 42.4 per cent.

The annual Halloween carnival will be held at 7:30 p. m. Wednesday, October 31, in the school gym.

## Rev., Mrs. E. L. Hill Occupy Superannuate Parsonage In Munday

Rev. and Mrs. E. L. Hill, formerly of Weatherford, moved to Munday to make their home last week and are now occupying the superannuate parsonage, just south of the Methodist Church property.

## 1957 Chevrolets Carry Individual Beauty

Distinctive styling and trim treatments for each of the three series of 1957 Chevrolet passenger cars are emphasized dramatically in this two-level photo of the "Two-Ten" sport sedan, at top, and the Bel Air convertible. Bodies plus wide range in color choices total 460 for the line.

## Moisture Received In Area; Damage To Crops Reported

### Munday School Board Orders Election To Assume Indebtedness, Set Tax Rate

An election of interest to patrons of the Munday Independent Schools has been ordered for Saturday, November 10.

This election is for the purpose assuming the bonded indebtedness of certain tracts of land which the Munday school district, through action of the County School Board, recently annexed from the Knox City school district and for setting a maintenance tax for the Munday schools.

H. P. Hill has been named election judge, and he will appoint such clerks as may be necessary. The election will be held at the city hall.

Voters will be presented two ballots—one on the assumption of bonds, and the other on the maintenance tax.

W. C. Cox, superintendent, explained that approximately 500 acres was detached from the Knox City district and annexed to the Munday district through action of the board. By this action, it is necessary that voters empower the local board to assume the bonds and set a maintenance tax. The tax of \$1.50 on the \$100 valuation is the same rate as the present tax, it was explained.

### Morrow Serves On Formosa Two Months

OSAN AIR BASE, Korea—Second Lieutenant Gerald L. Morrow, son of Mrs. Freddie Morrow of Munday, will return to Osan Air Base this week after two months duty in Formosa.

Lieutenant Morrow, an F-86 Sabre jet pilot, accompanied his fighter bomber squadron, the 310th, on a mobility move to the Chinese Nationalist Air Base, Formosa, where members of the 58th Fighter Bomber Wing participated in air defense and gunnery exercises.

U. S. Air Force units in the Far East, such as Lieutenant Morrow's squadron, must be highly mobile and self-sufficient to be combat ready.

The lieutenant entered the Air Force in January, 1954, and completed pilot and gunnery training in the Phoenix, Arizona area.

His assignment to the only combat ready jet wing in Korea will be for a one year duration.

## Weather Report

For seven days ending 7 p. m. Oct. 16, 1956 as compiled by H. P. Hill, U. S. Weather Observer.		
	LOW	HIGH
	1956-1955	1956-1955
Oct. 10	54	94
Oct. 11	54	88
Oct. 12	63	88
Oct. 13	70	88
Oct. 14	70	88
Oct. 15	51	81
Oct. 16	60	77
Precipitation to date,		
1956		7.99 in.
Precipitation to date,		
1955		22.26 in.
Precipitation this week		1.28 in.

### Books Are Added To The Library

A number of new books were recently added to the Munday Library, including five Newberry award books—for the most distinguished contribution to American literature for children, which are as follows:

The Wheel on the School, by Meindert DeJong; And Now Miguel, by Joseph Krumgold; Dobry, by Monica Shannon; Roller Skates, by Ruth Sawyer; and Shen of the Sea, by Arthur Bowie.

Other new arrivals are: God and My Country, by McKinlay Kantor; Ginger Pye, by Eleanor Estes; The Adventures of Capt. Grief, by Jack London; Tales from Silver Lands, by Charles J. Finger; Fortune Hill, by Cora Cheney; Date Data, by Beverly Brandow; Pumpkin, Ginger and Spice, by Margaret Otto; Syrup, by Otto; Gift from the Sea, by Ann Morrow Lindberg; Under Six Flags (story of Texas), by M. E. M. Davis; Hiram the Hill-billy, by Phil Stong; After you, Marco Polo, by Jean Bowie Shor; Sam Patch, by Arna Bontemps; The Adventures of Arab, by Louis Slobodkin; Complete Book of Etiquette, by Amy Vanderbilt; Questions Girls Ask and Questions Boys Ask, by Helen Wilshimer; The Boy on Lincoln's Lap, by Terrell Belm; and Miss Brimble's Happy Birthday, by Jane E. Quigg.

### Moguls Down Chillicothe Eagles, 46 To 0 To Win Second District Victory

Again being led by Glenn Amerson, the Munday Moguls overpowered the Chillicothe Eagles, 46 to 0, on Chillicothe's field last Friday night for their fourth win of the year and their second conference victory.

Amerson set the Munday fans to yelling hard when he wheeled 65 yards for the first touchdown in the opening quarter. The superior Moguls then added 20 more points in the second period.

Amerson passed 46 yards to Gerald Tidwell for the second counter; Don Elliott returned an intercepted pass 30 yards for another, and Amerson snatched an Eagle aerial and returned it 30 yards for another tally.

Elliott again showed heads-up football when he intercepted another Eagle pass in the third quarter and scampered 93 yards for another TD to give the Moguls a 34-0 lead.

Not content with these spectacular plays, the Moguls added two more TD's in the fourth period on long runs. Boyd Meers took a 62-yard gallop with the ball for one counter, and Amerson dashed a total of 78 yards for another.

Amerson's punting toe added four extra points after touchdowns. Unable to gain on the ground, the Eagles took to the air often, but the Moguls' interceptions proved they had plenty of aerial defense.

A step toward drought-breaking moisture came last Sunday night when rains fell over a large portion of this area, bringing the first measurable relief in some time.

Munday recorded a total of 1.28 inches, according to H. P. Hill, local U. S. weather observer. Hard winds came with the rain clouds, and a little hail fell with the rain.

To the north and northwest of Munday the moisture amounted to two inches and better, with high winds blowing out window panes and causing minor damage.

Still further north, in the Vera and Gilliland communities the rain was heavier. From four to five inches fell at Gilliland, and ungathered cotton was damaged by the hard winds blowing out the cotton and the rains beating it into the ground.

Goree received about the same amount of rain as Munday, with heavier precipitation reported north of town. Some wind and hail damage was reported to un-gathered crops, but most of the cotton had been gone over where the storm was heaviest.

Knox City received only .50 of an inch, only a sprinkle fell at Sunset, and little or no rain to the south of Munday.

### Knox Teachers To Meet Here Monday

The regular meeting of Knox County Teachers Association will be held at 7:30 p. m. Monday, October 22, at the Munday elementary school building, it was announced Wednesday.

### Holidays Listed For Munday School

The following is a schedule of holidays for the 1956-57 term of Munday schools, as announced by Supt. W. C. Cox:

Thanksgiving—dismiss Wednesday afternoon, November 28; resume work Monday morning, December 3.

Christmas—dismiss Friday afternoon, December 21; resume work Wednesday morning, January 2, 1957.

Oilbelt Teachers Meeting—dismiss Thursday afternoon, March 14; resume work Monday morning, March 18.

Easter—dismiss Thursday afternoon, April 18; resume work on Tuesday morning, April 23.

## Seymour Youth Dies In Head-on Collision

### Knox County Hospital Notes

Patients in the hospital October 15, 1956:

E. R. Hobert, Munday; Miss Bertha Sweatt, Knox City; J. T. May, Knox City; Jerry Ray, Knox City; Geo. McElroy, Haskell; Maxine Johnson, Munday; Mrs. Effie Howard, Knox City; Mrs. Jack Freeman, Munday; Mrs. Clifton Grant, Benjamin; Juan Davila, O'Brien; Inez Lata, Knox City; Mrs. Chas. Reese, Knox City; Chas. Reeves, Knox City; S. Zarata, O'Brien; Ernest Castellon, O'Brien and J. C. Morton, Goree.

Patients dismissed since Monday, Oct. 8, 1956:

M. G. Nix, Munday; C. Montavalo, Sabistin, Wanda Jean Offutt, Munday; Antonio Martinez, O'Brien; Mrs. Ross Mac Oliver, Knox City; Mrs. M. A. Quintero, Gilliland; Claude Berger, Guthrie; Manuela Barentez, O'Brien; Mrs. Ivan Rowan, O'Brien; Mrs. W. O. Nippert, Kirkland; Mrs. Delbert Hayes, O'Brien; Mrs. Earl Williams, and baby, Fort Worth; Mrs. J. B. Reneau, and baby, Munday; Mrs. Victor Thomas, Knox City; Mrs. Lee Smith, Knox City; Mrs. S. P. Keny, Knox City; Donald Tankersley, Knox City; J. H. Bates, Goree; C. C. Cunningham, Goree; J. J. Foshee, Knox City; Jackie Miller, Gilliland; Deborah Ann Hart, Knox City; A. Esecobar, Knox City; Mrs. Jerry Decker, and baby, Rule; Irene Luna, Rochester; Mrs. Jeff Graham, and baby, Knox City and Ralph Earl Russey, Knox City.

Births: Mr. and Mrs. Earl Williams, Fort Worth, a daughter.

Deaths: Mrs. Maggie Martin, Rochester.

### Oil Activities

Nine new wildcat exploratory ventures were recently staked in Knox County, five of them by Schulz and Brannon Drilling Co. They are:

No. 1, No. 2 and No. 1-A J. C. Gollehon, 3 1/2 miles northeast of Munday; No. 1 C. L. Mayes, three miles northeast of Munday, and No. 1 J. W. Zeissel, six miles northwest of Munday.

Christie-Stewart Drilling Co. staked two wildcats. They are: No. 1 F. C. Russell, one mile north of Munday.

Ajax Oil and Development Co. No. 1 R. C. Partridge is five miles west of Munday.

Fain and McGaha staked the No. 1 G. L. Pruitt, 1 1/2 miles southwest of Munday.

Leland Fikes of Dallas No. 2 Buster Coffman in the Goree Field flowed 151.16 barrels of 36 gravity crude during a 12-hour test. Hole was bottomed at 1833 feet.

Other new operations are Ted A. Norwood et al No. 1 Wall, seven miles northeast of Knox City, and Gardner Drilling Co. No. 1 Wisdom, six miles northeast of Goree. The well is a 2,400-foot venture, while Wisdom's is 2000.

I&L Development Co. and Hayden Farmer have abandoned the No. 2 H. M. Michels, 1 1/2 miles northeast of Munday at 2,090 feet.

The Texas Highway Patrol investigated a total of three accidents in Knox County during September with the following breakdown: three property damage, no personal injuries and no fatal accidents. This was an increase of one accident over the same period of 1955.

The Patrol contacted a total of 2,920 traffic law violators in the district during the month. Capt. K. B. Hallmark, Jr., commanding officer, reported that 891 of these were arrested, while 2,029 were warned for violation of the state traffic laws.

Speed was the leading cause of arrest, with improper passing second, and DWI ranking third.

Counties of the district are: Archer, Baylor, Clay, Cottle, Hardeman, King, Montague, Wichita, Wilbarger, and Young.

Tommy Jack Jenkins, 16-year-old Seymour high school student, was killed Sunday in a car accident about two miles west of Goree on US Highway 277.

The boy's father, Ben Jenkins, underwent surgery at midnight Sunday. He suffered internal injuries and a "badly mangled" right arm. His condition is listed as serious to critical at Baylor County Hospital.

The smash-up occurred within 50 feet of the spot where two cars collided head-on on August 16th, claiming the lives of two persons.

Mrs. Jenkins, the youth's mother and only other passenger in the car, received third degree burns and suffered shock. Her condition is good.

State Highway Patrolman G. T. Garrett reported the Jenkins' 42 Plymouth sedan collided head-on with a westbound 1956 Oldsmobile driven by Henry C. Biggs, 47, a San Angelo car dealer.

Biggs, his wife, Otha Jean, 50; mother-in-law, Mrs. Belle Yeargain, 80, and grandson, Stephen Clyde Ginn, 3, were treated for injuries at the hospital and released.

Both cars were totally destroyed, the Jenkins car gutted by fire, and the other demolished by impact.

A Munday man, Lee Roy Wren, arrived on the scene just after the collision, and pulled the injured people from the burning Jenkins car.

Funeral services for the victim were held at 3 p. m. Wednesday from the Calvary Baptist Church in Seymour. Rev. E. H. Scott, pastor of the Assembly of God Church, officiated, and was assisted by Rev. Roy Mosley, pastor of the Calvary Baptist Church. Burial was in the Masonic Cemetery in Seymour.

Survivors include his parents, Mr. and Mrs. Ben Jenkins, and two sisters, Mrs. Lydia Mae Martin of Midland and Mrs. Mary Garner of Wichita Falls.

### Emergency Feed Grain Program Is Extended To Dec. 31

Walter T. McKay, State Director, Farmer Home Administration, today advised, Wilburn A. Satterwhite, County Supervisor of the extension of the Emergency Feed Grain Program in Baylor, Knox, and Throckmorton Counties. Under this extension, farmers and ranchers may now file applications through December 3, 1956, for a supply of feed grain necessary to carry basic livestock herds through December 31, 1956.

This extension of the emergency feed grain program now coincides with the assistance available under the roughage program for Texas, and enables county FFA committees to consider total feed requirements, both roughage and grain, through December 31, 1956.

### Three Accidents Are Investigated In County In September

The Texas Highway Patrol investigated a total of three accidents in Knox County during September with the following breakdown: three property damage, no personal injuries and no fatal accidents. This was an increase of one accident over the same period of 1955.

The Patrol contacted a total of 2,920 traffic law violators in the district during the month. Capt. K. B. Hallmark, Jr., commanding officer, reported that 891 of these were arrested, while 2,029 were warned for violation of the state traffic laws.

Speed was the leading cause of arrest, with improper passing second, and DWI ranking third.

Counties of the district are: Archer, Baylor, Clay, Cottle, Hardeman, King, Montague, Wichita, Wilbarger, and Young.

Mr. and Mrs. Sam Hampton and Jack visited their daughter and husband, Mr. and Mrs. Kenneth Phillips, and attended the fair in Dallas over the week end.

Marion Jones of Wichita Falls visited friends here the first of this week.

### ATOMS FOR POLITICS? ? ?

The Detroit Times has something of the first importance to say about the development of peacetime uses of atomic energy—and about the efforts to turn this development into an ironclad government monopoly.

"If the government keeps a strangle hold on atomic energy," says the Times, "it will keep, also, a strangle hold on economic development. More than any other single commodity, short of sheer military power, control of power supplies means control of the whole economy."

"Our government, both in its wisest and most honest leaders, and in its most sincere and humane businessmen, has in the last two years made real and great strides toward promoting 'atoms for peace.' But if the attempt succeeds to drive private brains and energy out of the atomic energy field, it will be the end of 'atoms for peace,' and a victory for 'atoms for politics.'"

"Atomic power, utterly ruled by politicians, will be the greatest political tool of our age."

The independent utility companies, naturally, are most directly interested in making possible the production of power from the atom on a commercial scale. In pursuit of that end, they are offering full cooperation to the Atomic Energy Commission and the other interested government agencies. It is unthinkable that these offers should be rejected, that the vast resources and know-how of the industry be lost to atomic progress, and that this enormous new energy source become a political football.

INTERNATIONAL FALLS, MINN., DAILY JOURNAL: "Nationalization, a form of socialism under which the government controls basic resources and industries, is a two-way street. . . . The return of a nationalized function to private operation is both possible and feasible. . . . however, it is much easier to scramble than to unscramble. . . . England's conservative government has been finding this out. . . . Since coming into power in 1951, the conservatives have tried to denationalize only two, the trucking and steel industries. Neither effort has been entirely successful."

NOGALES, ARIZ., DAILY HERALD: ". . . To a very substantial degree, the wage gains won by steel labor are sure to be largely offset within a fairly short span of time by higher price tags on the things the worker buys."

### A VOTING YARDSTICK

Before one gets carried away with enthusiasm by all the things political candidates promise to have the government do for us, it might be well to consider what has made this country what it is as a yardstick in making a choice between candidates.

Most of the social and economic gain in this country have come from the efforts and initiative of the individual and not from government planning: Fulton invented the steamboat; Bell developed the telephone; Ford built the first low-cost car; Franklin discovered electricity; Wright created the airplane; Whitney designed the cotton gin; and so on, ad infinitum. Without the work of the individual, we would still be living under a feudal system that allowed us only a bare subsistence. It is the accomplishments of the individual that have lifted us to present levels—not the accomplishments of government.

Yes, American progress rooted in individual freedom. That points to a yardstick that can well be used in judging those candidates who would bring about a society where "do-all" government would reduce the individual to the status of a statistic.

### END OF THE BIG TOP?

Many a heart was saddened by the announcement that the tour of the last of the great circuses had been abruptly ended in mid-season, and that the spectacle would not be seen again, at least in traditional form. Soaring costs apparently had made operation impossible.

The circus parade—finally destroyed by modern traffic—was as American as apple pie. And the circus itself brought color and wonder to all the Main Streets of the nation.

A thought expressed by the New York Herald Tribune will be echoed by millions of us: "But if the tent itself and its ranked wooden benches, its tanbark, its color and its whole atmosphere of impermanent fantasy, were to vanish forever into folklore and fading memories, it would be a tragedy of large proportions. Americans are ingenious. They pride themselves on it. Let's summon up that quality to save the big top."

TRAFER, IA., STAR-CLIPPER: "The changes in newspaper production methods through the years have been extraordinary. Our ways are as different today from 40 years ago. . . . as power farming compared with the days of horsepower."

### WHAT DOES THE BIBLE SAY?

#### WHAT THE SPIRIT DOES BY THE WORD

1. QUICKENS. "Thy word hath quickened me." (Psa. 119:50; Jn. 6:63).
2. CONVERTS. "The law of the Lord is perfect, converting the soul" (Psa. 19:7).
3. SAVES BY THE WORD. "Who shall tell thee words by which thou and thy house shall be saved" (Acts 11:13-14).
4. GIVES FAITH BY THE WORD. "So then, faith cometh by hearing, and hearing by the word of God" (Rom. 10:17).
5. BEGETS SINNERS. "Of his own will begat he us by the word of truth" (Jn. 1:18). "I have begotten you by the gospel" (1 Cor. 4:15).
6. BORN AGAIN BY THE WORD. "Being born again . . . by the word of God which liveth and abideth for ever" (1 Pet. 1:23).
7. CLEANSED BY THE WORD. "Now ye are clean through the word which I have spoken unto you" (Jn. 15:3).
8. WORD IS ABLE TO SAVE.

"Receive with meekness the ingrafted word which is able to save your soul" (Ja. 1:21).

9. WORD IS POWERFUL. "The word of God is quick and powerful" (Heb. 4:12).

10. SANCTIFIED BY THE WORD. "Sanctify them through thy truth, thy word is truth" (Jn. 17:17, 19).

11. GROW BY THE WORD. "Desire the sincere milk of the word that ye may grow thereby" (1 Pet. 2:2). Yes, the gospel "Is the power of God unto salvation" (Rom. 1:16). It is the Spirit's power to save, and He does not save by a direct operation upon sinners, but does his work by means of His word, message or gospel. Do not wait for something else. If you know the truth, believe and obey it. There is no other way to be saved. "In whom the god of this world hath blinded the minds of them which believe not, lest the light of the glorious gospel of Christ, who is the image of God, should shine unto them."

### IT'S THE LAW in Texas

A public service feature of the State Bar of Texas

#### Who Has the "Right of Way"?

Possibly the most mystifying of all traffic rules to the average drivers are those relating to "Right of Way" at an intersection. In reality, however, these rules are quite simple.

In trying to understand the laws regulating intersecting traffic, it is best to start off with the premise that all streets are of equal dignity, legally speaking. Traffic signs and signals may vary this rule somewhat, but when in doubt it is safest to assume that all drivers crossing

your path have a claim to the right of way equal to your own.

Obviously, however, in many cases one driver or the other will be legally entitled to the right of way. When it becomes necessary to determine right of way in a particular situation, the driver who reaches the intersection first, or who is going to get there first, is ordinarily favored.

But when two automobiles are on an equal distance from the intersection, that one approaching from the other driver's right normally has the right of way.

Some intersections are known as "courtesy corners," having a stop sign or a flashing red signal facing each direction of approach. The first driver reaching the corner and coming to a complete stop will normally have the right of way over other vehicles not already in the intersection. However, don't depend too much on the other fellow's courtesy, and be sure to keep a "proper lookout" and your car under "proper control," as explained in a previous column.

At intersections involving one through street and another street having a stop sign, a driver approaching the stop sign and coming to a full stop is ordinarily said to have the right of way over vehicles approaching on the through street but not already in the intersection.

However, this last rule must be qualified by saying that you should not proceed, cross or turn onto the through street until you can do so without interfering with oncoming traffic. In other words, if an approaching car will arrive within the intersection before you are completely clear, wait just a little longer. The same rules apply to entering a highway from a side road containing a stop sign.

Many drivers violate the rules of right of way covering left-hand turns at intersections. When turning left, you should always be on the inside (or center) lane, displaying the proper hand signal. You must allow all cars coming from the opposite direction, already in the intersection, to pass through before completing your turn. Even when the intersection is cleared, do not proceed unless other oncoming traffic is far enough away to be able to see your signal and slow down to allow you to turn with safety to all concerned.

Stay in the inside lane until your left-hand turn is entirely completed, and only then move gradually over to the right-hand lane if you wish. When turning right, stay in the right-hand lane at all times. Do not swing wide into the center lane, as to do so is unnecessary, unlawful and dangerous.

Many detailed rules and suggestions for safe driving are included in the official "Texas Driving Handbook" which is available to any person requesting same from the Texas Department of Public Safety, Drivers License

## Distinctive Qualities In 20 1957 Chevrolet Body Models To Be Shown

The widest selection in history marks the 1957 passenger car line which Chevrolet dealers show to the public for the first time, Friday, October 19.

The customer has his choice of 40 model-color combinations, almost one-third more than available at the outset of 1956 production.

Here's how the variety in models stacks up:

**Bel Air**—Two- and four-door sedans, two-door sport coupe, four-door sport sedan, convertible, Nomad station wagon and four-door, six passenger station wagon.

**Two-Ten**—Two- and four-door sedans, two-door club and sport coupes, four-door sport sedan, two- and four-door, six-passenger station wagons, and four-door, nine-passenger station wagon.

**One-Fifty**—Two- and four-door sedans, utility sedan and two-door, six-passenger station wagon.

**Corvette**—Two-passenger sport model with manual or automatic fabric or solid plastic top.

Overall length of the passenger cars is increased to a total of 200 inches with wheelbase remaining at 115 inches. The lowered hood emphasizes the horizontal sweep of body lines to the flared rear fender fins for balanced beauty. The conventional hood ornament is replaced by twin lance-shaped windshields. Headlamps are farther apart than in the 1956 models.

Widest color choice in Chevrolet's history is offered. The total of 460 model-color combinations compares with 364 at the outset of 1956 production. Of the 17 exterior colors, seven are new. There are 16 solids and 15 two-tone selections. Two-tone paint is available on all models except the convertible.

Seats, fabrics and instrument panel carry the most striking Chevrolet interior styling changes for 1957. Front seat backrests are of a slim, tapered Gothic design, giving roominess and elegance.

A wide array of pattern cloths and vinyls, featuring modern finish designs, are color-keyed to exterior paints.

Front seat headroom has been increased in most models while front seat legroom has been added in all sedans and coupes.

With the lower hood, windshields have greater visibility area than previous Chevrolets. The glass increase ranges from 69 to 75 square inches through the model lineup.

Instruments are concentrated under a deep, flat hood superimposed on the dash panel crown. Full-face gauges with red indicators are easy to read while tell-tale generator and oil pressure lights are located at the top of the unit where they are readily spotted. Similarly, green buttons in the cluster serve as flashers for the turn indicator.

A completely new ventilation system operates by air passing through intake screens over each headlamp. The air reaches the

passenger compartment through louvered outlets at either edge of the dash. This system delivers up to 746 cubic feet of air per minute at 60 miles an hour while providing greater water draining capacity.

## Amendment Vital To Texas School Youth

The parents and taxpayers of Texas will make a decision November 6 that will affect Texas youth for generations to come.

Many of our state-supported colleges and universities have reached a saturation point in their physical facilities in relation to their present enrollments. With the oncoming tidal wave of students now in primary and secondary schools, we are faced with the possibility of turning away qualified boys and girls because of lack of space, or in the alternative, initiating a building program designed to take care of our

future citizens whose opportunity for college training is their Texas heritage.

The program specified in Amendment 3 will make available to all state-supported colleges and universities sufficient building funds for the next 20 years. The program will be carried out without the levying of additional taxes, and also without the necessity of any legislative appropriations for the next 20 years.

Amendment 3 not only resolves the Texas higher scholastic building problems, but it will further support the need for facilities in our vital service and research projects now being carried on in the fields of agriculture, medicine, engineering and national defense.

If every Texas citizen will take the time to acquaint himself with the benefits to higher education in Amendment 3, and with its stern safeguards to the endowment fund, we sincerely be-

**CARD OF THANKS**  
I wish to thank each and every one for the kind expressions and the beautiful cards received while in the hospital. May God bless you all.  
Mr. and Mrs. J. M. Watson. 1tc

lieve the amendment will receive the approval of the Texas electorate. The amendment was passed by an overwhelming majority in the State Legislature, and is being actively supported by every governing board of every state-supported college and university in Texas.

Miss Sue Clark of Fort Worth spent the week end with her parents, Mr. and Mrs. T. H. Clark.

Mr. and Mrs. Joe Frank Bowley and children of Midland visited their parents, Mr. and Mrs. A. E. Bowley and Mrs. T. H. Arinstrong, from Thursday until Sunday.

Guests of Mr. and Mrs. Ray D. Ford last Sunday were Mr. and Mrs. Alvin Jungman and family, Mr. and Mrs. Jimmy Stout and son, Mr. and Mrs. Doc High, Mrs. Ruth High, Mike and Mitch High, all of Seymour.

## Peggy Armstrong And Adrian Albus Married In Church Ceremony on Sat.

Miss Peggy Armstrong and Adrian Albus were married in St. Joseph's Catholic Church at 4:00 p. m. Saturday, October 13, with Rev. John Walbe officiating.

Mrs. Fannie Armstrong of Munday is mother of the bride. The bridegroom is the son of Mrs. Lena Albus of Rhigeland.

The choir of St. Joseph Church sang softly before the altar decorated with pink rosebuds. Pink gladiolus decorated the church. Miss Joyce Michels, maid of honor, wore a pink waltz length gown of pink satin covered with pink net. She carried a bouquet of white carnations. The bridesmaid, Miss Sue Clark of Fort Worth, was dressed in a blue gown identical to the maid of honor. Her bouquet was white carnations.

Daniel Albus, brother of the groom, served as best man. Groomsman was Albert Schumacher, Tommy Blake, cousin of the groom, of Wichita Falls and William Hertel were ushers.

Given in marriage by her brother-in-law, Joe F. Bowley of Midland, the bride wore a waltz length gown of white net and chantilly lace over satin. Her fingertip well extended from a tiara of seed pearls. She carried a white pearl prayer book covered with white sweetheart roses.

Reception followed in Parish Hall. The bride's table was laid with white lace cloth over pink and was centered with a bouquet of pink gladiolus. Appointments were crystal and silver. The four tiered wedding cake topped with a miniature bride and groom was served by Miss Lorene Armstrong of Munday, sister of the bride, and Miss Helen Ford and Kathleen Michels of Munday, Mrs. Billy J. Lain of Midland, sister of the bride, and Mrs. Charles Kotulek of Munday served the pink punch. Mrs. Joe F. Bowley, sister of the bride, of Midland presided at the guest where approximately 200 guests registered.

Mrs. Albus is a 1953 graduate of Munday High School and has been employed as cashier-book-

keeper at the West Texas Utilities in Munday the past three years. The groom is a 1950 graduate of Rhineland High School. He spent two years in Germany serving with the Army. He is now employed in Fort Worth at Con-

For her traveling costume the bride chose a beige sheath dress with black velvet jacket and black accessories. The couple are making their home at 1121 6th Avenue in Fort Worth.

## Weinert 4-H Girls Name New Officers

The Weinert 4-H girls held a meeting in the seventh grade room on September 27 and elected the following officers:

Julia Drinnon, president; Gayle Davis, vice president; Janie Cox, secretary and treasurer; Mary Raynes, game and song leader; Patsy Raynes, reporter, and Ardrea Struck, council delegate.

Other 4-H members are: Mary Alice Davis, Betty Hill, Annette Swamer, Sherry Hix and Onedia Walker.

Drive carefully. The life you save may be your own.

## TRAVEL ETIQUETTE Insurance For A Happy Trip

Travel etiquette is the most important insurance for a happy journey.

This is a sound word of advice from a lady who should know. "Remember," etiquette authority Emily Post advised recently in a film released by the American Express Company, "when you're abroad, you are the foreigner."

All the petty, but important details of traveling—itineraries, tours, reservations and transportation—can be taken care of by a travel agency, such as American Express. Mrs. Post pointed out, but a friendly, understanding attitude is something that only the tourist can bring to his travels.

Generally, she noted, "you will find that Europeans tend to be more formal than we Americans are." She suggested that Americans adopt a leaf from the same book.

For instance, Europeans shake hands on meeting a group of people and again upon leaving. Europeans don't use first names as quickly as Americans do—nor are they apt to indulge in a hearty slap on the back early in an acquaintance.

Don't expect other people to know English, Mrs. Post warned, although many Europeans are more likely to know another language than Americans are.

However, the solution to the language barrier is not to repeat English words very loudly. Amplification and translation are not synonymous.

A better bridge to understanding is to learn a few essentials of politeness in the language of the land you are visiting. The fact that you are making a valiant effort to speak another tongue will be greatly appreciated by all people and they will be more eager to offer their assistance.

When it comes to tipping, Mrs.

Emily Post

Post reports that many European hotels and restaurants add a percentage to the check for service. But it is customary to tip additionally five to ten percent. If the service charge has not been added, it should be fifteen percent.

When traveling by air, tipping is forbidden, but steamship travelers should count on about five to eight percent of their fare to be apportioned among cabin, dining room, bath and deck stewards.

Last but not least, the tourist should remember that everywhere he goes he creates an impression. If he makes an honest effort to understand the country he is visiting, his friendliness and courtesy will add up to a very considerable fund of good will for America.

## "Democracy In Action" Studied At Club Meeting

"Democracy In Action" was the subject of the Munday Study Club's program directed by Mrs. R. M. Almanrode when members met on Friday, October 12. Mrs. Chester Bowden was hostess for the meeting.

Issues and personalities of the Democrats was discussed by Mrs. Tom Bullington, who prefixed her remarks with the statement that this was the first time since 1932 that the United States had held a presidential election away from the glare and gun-fire or the shadow of depression.

Mrs. Chan Hughes highlighted her remarks with a comparison of the Democratic and Republican presidential and vice presidential nominees.

Mrs. W. O. Radliff summed up the program by urging every study club member to go vote and to use her telephone and car to help get others to vote.

## YWA Girls Meet On Monday, October 15

The Y. W. A. girls of the First Baptist Church met on Monday, October 15, with four girls present. Officers were elected for the year.

An interesting program on Japan was given as the mission study by the counselor, Mrs. Clovis Winchester. Next week, the program will be continued, and all girls 16 years of age and over are invited to attend.

## Former Munday Girl Is Contest Winner

Mrs. Deon Martin, daughter of Mrs. Freddie Morrow of Munday, was named "Maid of Oil" to represent Abilene in the local oil industry at numerous functions during Oil Progress Week. She is secretary for Continental Oil Company's land and geological division.

Mrs. Martin, known to her friends as "Pat", was suggested by the Abilene Geological Society. She received a free week end for two in Fort Worth and Dallas and tickets to Saturday's Oklahoma-Texas football game in the Cotton Bowl, in addition to a number of other gifts.

The 35th National 4-H Club Congress will be held in Chicago from November 25-29. Approximately 1,600 official 4-H club delegates, adult leaders and chaperons will attend as representatives of the more than 2 million 4-H members of the nation.

## ALINE JOHNSON HAS SURPRISE ON BIRTHDAY

On October 15, Mrs. Aline Johnson entered her home about 8:15 p. m. and found a surprise birthday party was waiting for her, with the following present: Mrs. Elvora Hendrick, Mrs. Charity Lee Cherry, Mrs. Rossila Sanders, Mrs. Eva Hemphill of Fairfield, Mrs. Paralee Davis, and Mrs. Cherry.

Mrs. Hendrick served ice cream and cake. The cake was a lovely white with pink candles. Gifts were presented by Mrs. Hemphill. The party was enjoyed by all.

Oil Serves You  
OIL PROGRESS WEEK  
Oct. 14-20

# LET'S MEASURE AN OIL WELL

... in West Texas

You can measure an oil well by its depth, by its production, or in any of a number of ways. But the real "measure" of an oil well is to be found in the jobs it creates, in the schools and highways it provides, in the stores, shops and industries it supports. . . in short, the real measure of an oil well is in the benefits it brings to all the people of an area. The West Texas Utilities Company, too, can be measured in the record it has made in helping the West Texas Oil Industry serve the people of West Texas.

**West Texas Utilities Company**

Congratulations to the OIL INDUSTRY on its service to the people.

## PEGGY PARKS ON STUDENT COUNCIL

Peggy Parks, a 1955 graduate of Munday High School, has been named Student Council representative from the Cowgirls Club of Midwestern University in Wichita Falls, daughter of Mr. and Mrs. Lee A. Parks of Munday, is a sophomore majoring in biology.

Mr. and Mrs. Wayne Smith of Abilene were guests of their parents, Mr. and Mrs. Joel Massey and Mr. and Mrs. A. L. Smith, during the week end.

Mrs. Elta Webb spent the first of this week with her daughter and husband, Mr. and Mrs. Leon Reagan, in Spur.

Mr. and Mrs. Hugh Eubanks visited their daughter and husband, Mr. and Mrs. Jack Amerson, in Abilene last Monday.

**NEWS FROM VERA**

(Mrs. Thelma Lee Coulston)

Harold Hurd of Abilene visited a few days last week with his mother, Mrs. T. M. Hurd.

Mr. and Mrs. Thurman Allen of Jacksboro, Texas spent last week end with his parents, Mr. and Mrs. Edd Allen.

Mr. and Mrs. Pete Feemster of Weatherford visited Saturday and Sunday with Mrs. W. P. Hurd.

Visiting in the home of Mr. and Mrs. Clifford Roberson on Friday night were Mr. and Mrs. John Gray Whorton and David and Mrs. Ray Kendrick of Lubbock.

Rev. and Mrs. S. A. Wolfe were in Norman, Oklahoma, last week to take Mr. Wallace Ferrell to the home of his daughter.

Mrs. Barney Welch, Mrs. Bill Feemster and Mrs. Bobby Roberson and Cathy shopped in Wichita Falls on Thursday of last week.

Mrs. Clelan Russell entertained the Matron Club members with a forty two party in her home last Thursday afternoon.

Mrs. Jim Hughes, Mrs. Jess Trainham and Mrs. Wesley Trainham were business visitors in Wichita Falls on Tuesday.

Mr. and Mrs. Tom Russell visited over the week end with Mr. and Mrs. Bill Randles and little son Jon David, in Lubbock.

Mr. and Mrs. Morris Robertson and daughters attended the State Fair in Dallas and visited with relatives last Saturday and Sunday.

Mr. and Mrs. Irvin Nichols and children spent the week end with relatives in Abilene.

Mrs. Clelan Russell and children were recent visitors in Wichita Falls, where Myra Nell was a patient at the dentist.

Mr. and Mrs. Clyde Couch and Patty visited Saturday with friends in Goree.

Jack Mathews is a patient in a Wichita Falls hospital.

Mr. and Mrs. Ernest Beck Jr. and family were business visitors in Wichita Falls on Saturday.

Mrs. Dalton Gore entered a Wichita Falls hospital on Monday where she will undergo surgery.

The Vera 4-H Club met last Tuesday at the school house. Twenty three members were present with one leader and one new member. The discussion was on Fire Prevention.

Mrs. Calvin Campbell and little daughter, Linda of Fort Worth visited over the week end with her parents, Mr. and Mrs. M. A. Bradford and children.

Virginia Jackson, Derrell Coffman and Jeannie Beasley were home from Midwestern University over the week end.

Paul Weiss was in Lockney one

**Largest Task-Force Fleet Bows in '57**

Largest and most versatile fleet of commercial vehicles ever produced by Chevrolet, the company's 88 truck models for 1957 include 43 husky medium-duties. A representative of the group is this 2-ton stake truck with dual rear wheels. More powerful engines, coupled with advances in safety, durability and performance are outstanding features of the new line to be shown Oct. 19.

day last week on business.

Mr. and Mrs. A. C. Nichols and family of Lubbock have been visiting with their Nichols kin.

Most of the high school students, with their sponsors, attended the State Fair in Dallas on Friday of last week. The group left the school house at 4:00 a. m. and returned home late Friday night. Sponsors accompanying the group included Supt. and Mrs. Milton Kirby, Mr. and Mrs. Oliver Albright, Rev. and Mrs. S. A. Wolfe and Coach Eugene Parker.

The Vera Home Demonstration Club met Tuesday, Oct. 9, in the Fellowship Room at the First Methodist Church. The Chairman, Mrs. Wesley Trainham presided over the business meeting. Plans were made for the Knox County Achievement Day which will be held in Benjamin on Tuesday, Oct. 23rd. Everyone is invited to attend this meeting.

The finance Committee presented plans for a "Hobo Stew" and forty two party to be held Friday night, Oct. 19, beginning at 7:00 at the Vera School house. Supper will be served for 60 cents to adults; 30 cents for school children and 15 cents for preschool. Everyone is urged to come out for a good time and plenty to eat. Mrs. Trainham introduced Mrs. E. W. Balch of Seymour, who presented, in her charming way, a book review, on "Old Yeller", written by Fred Gibson. Everyone expressed their enjoyment of her delightful presentation. The hostesses served lovely refreshments to the following: Mesdames, E. W. Balch, of Seymour, Fay Hinton of Carlsbad,

**Weekly Health LETTER**

Issued by Henry A. Hollie, M. D., State Health Officer of Texas

AUSTIN—All of us at one time or another have pain and cramping in the abdomen. Fortunately, most of these pains are unimportant. However, if the pain persists it should not be ignored. It may be the beginning sign of appendicitis, a disease which, although far from being simple, is easily and safely cured if surgery can be performed in time, says Dr. Henry A. Hollie, Commissioner of Health.

There are two main types of appendicitis—acute and chronic. Acute appendicitis strikes suddenly. It is usually marked by severe pain, that generally grows sharper and stronger. Occasionally, the pain may let up or stop entirely, but this must not be taken to mean that the attack is over. In fact, it may be a warning signal that the appendix has ruptured, thus lessening the localized pain, while a more serious condition—peritonitis—usually get a start. Other usual signs of acute appendicitis are slight fever, nausea, vomiting and tenderness over the region of the appendix. Chronic appendicitis is just what its name implies; it comes and goes. But it may, at any time, become acute. It results from acute attacks that have been mild enough to subside without an operation. Symptoms in general are the same as in the acute type, but they are also similar to other adverse abdominal conditions, and only a physician can determine accurately what is wrong.

Operations for the removal of the appendix are comparatively simple and safe, if the patient has not taken a laxative and has called the doctor in time. The use of laxatives or enemas is one of the leading causes of appendicitis deaths. The action caused by the laxative or enema increases the pressure in the appendix and may cause it to burst. A ruptured appendix spreads infection and peritonitis often results. Modern drugs are now used quite successfully in the treatment of peritonitis, but this condition is still serious and may

New Mexico, J. A. Fuller, Sam Shipman, Maurice Hughes, Clyde Beck, Rube Richards, Bill Feemster, Fred Wiles, Loran Patterson, Jimmie McGaughey, Grady Hardin, Calvin Christian and Wesley Trainham.

cause death.

Usually the pain begins abruptly, often mild at first, but it also may be quite severe. It may disappear for a while, and then return in increasingly severe cramps. It is important to note the location of the pain. It does not typically begin in the right lower part of the abdomen as is commonly thought, but it is generalized over the whole abdomen. In a short time it begins to localize, first toward the middle and later to the right lower part of the abdomen. By this time, the inflammation is quite active and the muscles overlying the diseased appendix are sore to touch. A better sign is the sharp grabbing pain that occurs if the pressure of the hand on the abdomen is suddenly released. This reaction, known as rebound tenderness, indicates irritation of the peritoneum beneath.

If sudden persistent abdominal pain makes its appearance, there are three important rules to follow. They are: go to bed, call your doctor, and do not take any laxative or enema.

**Kennedy Named To Head WTU'S New Department**

ABILENE—R. E. Kennedy has been selected to head West Texas Utilities Company's new Public Service Department, according to an announcement made today by Cal Young, WTU President.

The new department was formed by the consolidation of the Advertising and Industrial Departments following the retirement of R. M. Fielder October 1. Mr. Fielder had served as head of the Company's Industrial Department since 1946.

"One of the principal functions of the new department," Young said, "will be to assist and cooperate with local and area organizations and agencies in achieving the fullest development and utilization of the tremendous resources of the area served by this Company."

Kennedy has been employed by WTU for the past 23 years, has worked in the Advertising Department since 1943, and was made Advertising Manager in 1946 following his return from service with the Armed Forces. Previously he served in the Treasury and Purchasing Departments.

Born in Abilene, Kennedy is a graduate of Abilene High School and Hardin-Simmons University where he majored in Business Administration and served as President of the Student Council in his senior year. He is well known in Abilene as an outstanding civic leader and is prominent in state advertising and public relations circles.

**LOCALS**

Mrs. J. D. Crockett accompanied Mr. and Mrs. Paul Gibson of Rule to Dallas over the week end where she visited with her son and family, Mr. and Mrs. David Crockett and daughters.

Mr. and Mrs. J. R. Burnison, accompanied by their daughter and daughter and family, Mr. and Mrs. O. L. Anderson of Clovis, N. M., visited Mr. and Mrs. Aristol Thompson and children in Dallas over the week end.

Sandra Lee and Wayne Thompson of Dallas are visiting with their grandparents, Mr. and Mrs. J. R. Burnison, while their parents, are attending a bankers convention in California.

Gary Offutt and Lonnie Rice, students in Texas University in Austin, visited Gary's parents, Mr. and Mrs. J. T. Offutt, over the week end.

Guests in the home of Mr. G. P.

Burns over the week end were Mr. and Mrs. Henry Thompson of Aledo.

Mrs. Dee Clough left Wednesday for Fort Worth for a medical checkup. She plans to visit her daughter and husband, Mr. and Mrs. Charles Finch, in College Station before returning home.

Mrs. Agnes Mayes and grand-daughter, Chloe Ellen Mayes, of Amarillo spent the week end with

her mother, Mrs. Emma Mayo.

Mr. and Mrs. Don Combs and Luann were guests in the home of Mr. and Mrs. Claude Rogers, Jr. in Abilene over the week end.

Mr. and Mrs. Rusty Doran of Odessa and Miss Gayle Littlefield attended the fair in Dallas over the week end.

Mrs. Allene Koenig and sons, David and Robert, and Mrs. Neil

McAnulty and daughters, Carol and Rita Joyce, of Oklahoma City, Okla., visited Mr. and Mrs. W. C. Bevers over the week end.

Week end guests in the home of Mr. and Mrs. R. M. Almanrode were Mrs. E. R. Davis of Tahoka and Mrs. Hubert Davis of Marlin.

Mr. and Mrs. Layne Womble visited M/Sgt. and Mrs. Jack Hensley and daughters in Lawton, Okla., several days last week.

## MODERN HOMEMAKING RECIPES... HOUSEHOLD HELPS

By Julia Hunter

HOME ECONOMICS DIRECTOR, LONE STAR GAS COMPANY

Temperature of water for laundering is as important as temperature when cooking.

Research has established the hotter the water, the cleaner the clothes, the whiter the wash, the fewer the bacteria. But how hot is hot?

Tests of a comfortable heat vary from person to person, therefore the use of a water thermometer is the only sure gauge of knowing the temperature of laundry water. And there is a right temperature for every washing job.

Most washing should be done at a temperature too high to hand-test. Since the temperature of the laundry water is important and there is a wide variety of fabrics on the market today, instructions for laundering an article should be taken from the article's label or discussed with the sales person when the article is purchased.

Generally, fabrics that may be washed in water 140 to 160 degrees F. include white cottons, linens and rayons. Table damasks and fine linens, colorfast cottons and linens are usually washable in water heated to 120-125 degrees F. In water 90 to 120 degrees F., silks, wools and man-made fibers may usually be washed.

Important for the homemaker is to make sure the water heater will deliver the hot water needed. Most washers have a water temperature dial, but the dial does not control water temperature at the water heater.

The dial permits the washer to receive water at the temperature the water heater delivers it. If the water heater delivers water at 120 degrees F., that's the way the washer gets it.

Today's ideal water heater supplies two temperature of water automatically. From one line it supplies very hot water for use at the washer and dishwasher. From another line it provides hot water for dozens of other uses in the home.

If there is a doubt as to wash fastness of a colored fabric, don't risk ruining a whole washer load. The article may be tested by cutting a small sample from a seam or placket. Place the sample in a jar with detergent and water of the same temperature to be used in the washer. Let it stand a few minutes, then shake the jar. If the water is even slightly colored, the article is a poor washing risk.

For successful home removal of stains, the homemaker should know the fabric and the kind of stain. A stain removal successful on one fabric may ruin another so a test for color change on a sample before using stain remover is wise.

Here are some tips on removing stains:

To remove chewing gum, rub with an ice cube to harden. Scrape off and sponge with a cleaning

fluid. To remove chocolate from white cottons and linens, work detergent suds into stain. Wash. If stain remains, apply perborate bleach. On colored fabrics, wools, silks and all fine fabrics, sponge with a cleaning fluid.

For removal of peach, pear, cherry or plum stains, work a synthetic detergent suds into the stain and then wash the garment.

Grass stains on white cottons and linens may be removed by working detergent suds into the stain. Wash and if the stain remains, apply bleach. For colored fabrics, wools, silks and all fine fabrics, sponge with equal parts of alcohol and water.

For additional information on laundering, send a postcard to Home Economics Department, Room 601, Lone Star Gas Company, 301 S. Harwood, Dallas, Texas.

### RECIPE OF THE WEEK

**Cranberry Ice Cream Pie:** Place in a ginger snap crumb crust one quart of vanilla ice cream. Top with one one-pound can of whole cranberry sauce, chilled. Store in freezing compartment of refrigerator until firm.

**Ginger Snap Crumb Crust:** Blend thoroughly 1 1/2 cups ginger snap crumbs, 1/4 cup sugar and 1/4 cup of melted butter or margarine. Pat onto bottom and sides of nine-inch pie pan. Chill in refrigerator at least 20 minutes.

When I was a boy, my father and I were traveling in a wagon in South Texas and, at the edge of a town, there was a billboard of a store, "We sell cheap hats." My father said, "It should have read,

**Closed  
Temporarily**

After five years of operation in Munday, our laundry will be closed temporarily while we take a well-earned rest.

We plan to re-open our laundry again soon. Thank you for your past patronage.

**Medford Laundry**  
Mr. and Mrs. H. A. Medford

"We sell hats cheap." The remark impressed me with the importance of the way in which words are put together.

In 1943, my book, "I Give You Texas" appeared and then for a period of seven years I brought out a new book each year. This prompted a columnist to quip: "There ought to be a Texas Book-of-the-Month Club — and Boyce House ought to write 'em."

It was once my distinction to bring out two books the same day—so far as I know, the only time this has ever happened.

And it resulted in a little misunderstanding—natural, under the circumstances.

One of the books was a collection of jokes; the other was a book of verse. At the time, the author was a reporter. Thinking the editor would not be interested in the poetry, I gave him a copy of the joke book and, thinking the society editor would not be interested in jokes, I gave her a copy of the volume of poetry.

Soon afterward, the society editor asked the editor, "Have you seen Boyce's new book?" He smiled and replied, "Yes, and isn't funny? In an offended tone, she said, "I don't think it's a bit funny."

Times certainly change. In 1915 (when I lived there) and for many years before, a Southern city had "coal-and-ice" companies. In the summer, a company would sell ice from door to door. (You hung a sign in the front window if you wanted ice and in each corner of the card was a different number: "25", "30", "75" and "100" and the corner at the top signified

how many pounds of ice you wanted.) In summer, as I was saying, they delivered ice. Then in the winter the same company sold coal. In this way, the concern had a year-round volume of business.

Now, most homes there have electric refrigeration and they burn gas.

## LOCALS

Miss Shirley Hill of Lubbock was a week end guest of her parents, Mr. and Mrs. L. J. Hill.

Bobby and Dicky Waheed of Texas Tech in Lubbock visited

their brother, Donald Waheed, and attended the Munday and Chillicothe football game last Friday night.

Mrs. Ocie Murry of Brownfield, Mrs. Woodrow Roberts of Goree and Mrs. Kirby Fitzgerald attended the funeral of their cousin, Mrs. Floyd Manley, in Bryson on Tuesday of last week.

Mrs. Billy J. Lain and children of Midland visited her mother, Mrs. Fannie Armstrong, over the week end and attended the wedding of her sister, Peggy, on Saturday afternoon.

James David Gaither of Texas

From where I sit... by Joe Marsh

### Barnyard "WHOOdonit"

The Barn Owl Controversy still rages in our town. One group claims owls should be protected because they eat vermin. The other faction holds that those little howlers also eat chickens... and should be shot.

Now Pops Parker claims both parties are right. All owls clean up vermin. Some owls also clean up an occasional hen yard.

The way to spot a bad owl, according to Pops, is to put up a 10-foot pole in the chicken run with a No. 2 trap on it. A marauding bird generally perches to

look over the situation before he strikes, giving you your evidence, and the culprit!

From where I sit, I doubt if this will end the owl argument. People have different opinions on the subject—just as they have different opinions about whether beer, tea or what-have-you makes the best thirst quencher. Examine the facts and make up your own mind, I say... and be thankful we live where that's possible.

Joe Marsh

Copyright, 1956, United States Brewers Foundation

Tech in Lubbock visited his parents, Mr. and Mrs. James Gaither, and attended the Chillicothe and Munday football game last Friday night.

Mrs. Eugene Groce and son of Torrance, Calif., are spending this week with her mother, Mrs. Lucille Stodghill, and other relatives.

## Texans Find Ike Stands For Same Things We Do

A fellow was in our town the other day selling men's suits. He was from St. Louis, and he said he was a manufacturer's representative. Grandpa would have called him a dry goods drummer, and Papa would have referred to him as a traveling salesman. This shows you how things change with time. But actually that fellow from St. Louis was doing just about what the earlier visitors did—trying to sell suits.

You might say that he stayed in the same place but the names went off and left him. Reminded me some of the political situation in Texas.

I was reading a letter in the daily newspaper last week, from a man who said he was going to vote for Eisenhower. "I am a Democrat," he wrote to the editor of the paper, "but I feel like the party has run off and left me."

Come to think of it, a lot of conservative-type Texas Democrats are in that shape today. They haven't changed their views much on such things as local control, government spending, bureaucratic red tape, and freedom of the individual; they still travel down the same road they did 20 or 30 years ago, even if they do it at 70 miles an hour instead of 25.

They grew up believing that a man could live down nearly any-

thing except voting for a Republican. They always voted 'er straight, until a good many of them jumped over the traces in '52 and went for Ike.

"I can't figure out what's happened," one of them told me, "seems like Eisenhower talks like a Democrat and Stevenson talks like a college professor."

The other day this same fellow said: "I think I've got it figured out. Ike stands for the things us Texas Democrats have always stood for. Adlai is too thick with Walter Reuther and that crowd to suit me. I'm going for Ike again."

That's the way with most folks in our town. They decided to give Ike a try at it in '52, and they like the way he has gone about the job. There are some things they wished he'd done a little different, but by and large they think he has made us a fine President. At least all the hometown boys are back from Korea, and as far as we can tell the government is being run honestly.

Somebody asked that Missouri suit salesman how Mr. Truman was getting along, and he said he didn't know. "He isn't in the clothing business any more," he explained. "In fact, as far as I can tell, he is clear out of all kinds of business."

Yours Truly,  
Tex

(Pol. adv. paid for by Texas Democrats for Eisenhower, Weldon Hart, Director.)

## Here! New Task-Force 57 Chevrolet Trucks!

Performance-proved in a history-making test on the ALCAN Highway to Alaska

The Alcan Highway is the road where trucks grow old before their time. The road where gravel endlessly sledgehammers the life out of trucks. Where a fog of superfine dust chokes engines, and vicious ruts subject chassis to months of wear in a few hundred miles.

Six new '57 Chevrolet trucks, representing light-, medium- and heavy-duty models and heavily loaded with cargo, roared north from Dawson Creek, B. C., through 1,520 miles of mountains and mire, rain and hail to Fairbanks, Alaska. Running around the clock, they made this tortuous trip—normally a 72-hour run—in less than 45 hours. The fleet made normal stops along the way, and maintained safe and legal speeds. As a special test during the run, two of the trucks went the entire distance without once having their engines stopped!

It's all down in the AAA record book. And more besides! Never before has a new truck been so thoroughly proved. Come in and see how well these new Alcan champs measure up to your job.

### FIRST WITH THE MOST MODERN FEATURES!

New 283-cubic-inch Taskmaster V8 delivers 160 high-torque horsepower. Standard in Series 5000, 7000 and 8000, optional in Series 6000 at extra cost. Horsepower ranges up to 210 in Chevrolet's complete line-up of modern V8 and 6 truck engines.

Revolutionary Powermatic Transmission—exclusive with Chevrolet trucks! This six-speed automatic, designed specifically for heavy-duty hauling, is an extra-cost option in Series 5000 and 6000 and all heavy-duty truck models. Hydra-Matic is offered in 3000 and 4000 Series models at extra cost.

New 1957 work-styling gives Chevrolet trucks an even fresher, fleetier appearance. There are three different and distinctive styling treatments.

L.C.F. models outdate the C.O.E. because they're lower, handsomer, easier to get into and out of, and save time in routine engine maintenance. Yet they offer all the traditional C.O.E. advantages.

Heavyweight Champs with Triple-Torque tandem are rated at 32,000 lbs. GVW, 50,000 lbs. GCW. And Chevrolet's advanced tandem axle unit offers a built-in three-speed power divider—plus a unique "self-steering" action that reduces tire wear and increases handling ease.

Alcan fleet gets up to 18.17 miles per gallon! That's the mileage reported by the Cameo Carrier, with Thriftmaster 6 and extra-cost Overdrive.

All the way in DRIVE range! This Powermatic-equipped 10000 Series tractor traveled the entire Alcan Highway in a single forward-speed range!

Only franchised Chevrolet dealers display this famous trademark

**Soil-Grass Story Told At State Fair**

All State Fair-going Texans, whether they farm or not, should make an honest effort to attend the special feature of this year's Agriculture Show—The Story of Soil.

For anyone who has been confused on the matter of soil conservation and land mismanagement, the fair has a program designed to increase soil concern as well as to educate its visitors.

Introduction to the soil story is told through the relation of grass to soil. Grass is the prime factor in bringing the soil into balance with the forces of nature.

In this connection, thirty of the more useful species of Southwestern grasses will be the predominant display, among the Agriculture Show's other exhibits. A few of the grasses are: little and big bluestems, switchgrass, four flower trichloris, marsh hay cord, Lindheimer muhly, can bluestem, sirly mesquite, green sprangletop, sidecoats grama, vince mesquite, buffalo, plains bristle, sand love and tall dropseed.

These and other grasses will be displayed alive and growing in metal containers against pictorial backgrounds illustrating development of soil from rocks. Major crops produced on various Texas soils will also be represented.

Technicians will be present daily during the fair to answer questions concerning the grasses and soil conservation in general.

In connection with soil conservation practices, the Agriculture Show will include a model farm showing misuse of the land and rebuilding and conserving the soil a small watershed is included with a compilation of practices summarizing beneficial results from overall soil, water and plant conservation.

**Grass Machine Has**

**Notice**

**To Our Customers**

Due to circumstances beyond our control, we are forced to discontinue finished laundry for the time being.

We will continue to do Help-Self, wet wash, rough and flat work, and will appreciate your continued patronage.

**City Laundry**

Mr. and Mrs. Elmo Morrow

**6-Day Growing Season**

Mr. Gaston Perin, Belgian Biologist, is not one to let grass grow under his feet. Instead, his soil-less "Herbage" machine grows it complete with roots in a six-day operation.

The Herbage is a chest with 7 stages (or drawers), and when bare seed has completed the cycle which first mixes it with water and a nourishing salts combination then rations water and heat in controlled amounts, presto! There's spring grass enough for 10 cows until another cycle is finished.

The machine requires only about 30 minutes daily attention and produces one of the cleanest, most scientific feeds in existence.

Niamco, Inc., of Dallas has the American patents of the Herbage.

**LET'S TALK LIVESTOCK BY TED GOULDY**

FORT WORTH—Presidents of cattlemen's unions in Northern Mexico will be special guests at the stocker and feeder sale at the Fort Worth Stockyards Friday, October 19. The Texas Hereford Association received word from Francisco Vargas, Union Reg. Genadera de Durango, Mexico, that he would arrive in Fort Worth Wednesday and perhaps have some other Mexican ranchmen with him.

Manuel Torres, Presidento Union Reg. Ganadera de Sonora, Mexico, reported that he was anxious to come to the sale and was trying to get other cattlemen to accompany. Humberto V. Reyes, fieldman for the Hereford Association, talked with Torres and Vargas by telephone.

Invitations were extended to presidents of the cattlemen's associations of Sonora, Coahuila, and Chihuahua by the Texas Hereford Association and the Fort Worth Livestock Market Institute late last week after it was learned that the Export-Import Bank had agreed to lend the cattlemen money to buy breeding stock they need.

While they likely will not be able to buy cattle in the sale Friday, they expressed keen interest in watching the sale and the sponsors announced that when

they want a special sale of breeding stock, it will be staged at the Fort Worth market on the date they prefer.

Last week it was announced that \$5,000,000 had been loaned Northern Mexico cattlemen for the purpose of buying breeding stock. The major portion of this loan will go for beef cattle. The Texas Hereford Association has been pushing the program for months and since Texas cattle are so well acclimated the Mexican cattlemen are keenly interested in filling their needs with good commercial females from Texas ranges.

President Henry Arledge of the Hereford Association expressed his pleasure at the success in getting the loan, and reported that the purchase of cattle from drought hit Texas ranchers would be extremely helpful.

**Cattle Steady At Fort Worth**

Cattle trade was uneven and prices were about steady on most classes. Some of the more desirable quality calves and cattle were steady to strong, and light canners and lower quality cattle and calves were steady to weak. Bulls were around 50 cents lower Trade was reported highly uneven on virtually all classes as salemen pressed for higher prices in view of the rain reports in much of the territory.

Good and choice slaughter steers and yearlings cashed at \$17 to \$24, while common and medium offerings cleared at \$9 to \$16. Fat

cows sold from \$8.50 to \$11 and canners and cutters sold from \$5 to \$8.50, with some emaciated lightweight canners attracting bids of under \$5 in some cases. Bulls sold from \$8 to \$11.50 with odd head above that range.

**Hogs Open Higher**

Butcher hogs sold 25 cents above Friday's close and sows were 50 cents higher. Choice hogs topped at \$16.25 to \$16.75 and less desirable weights and grades cashed at \$13 to \$16. Sows cashed at \$13 to \$15.

**Lambs Open Strong**

Slaughter lambs were steady to strong and other grades and classes sold fully steady in the sheep division. Good and choice slaughter lambs topped at \$17 to \$20, mostly \$19 downward. Cull

to medium lambs drew \$8 to \$16. Stocker and feeder lambs sold from \$11 to \$15.50. Some light undesirable lambs, stockers, sold around \$7 to \$10.

Slaughter ewes sold mostly from \$4 to \$5.50, with some fresh shorn culls down to \$3 or below. Old bucks drew \$3.50 to \$4.50. Old wethers sold from \$8 to \$12. Slaughter yearlings sold from \$9 to \$15.

**CARD OF THANKS**

We desire to express to our kind neighbors and thoughtful friends our heartfelt thank for their many expressions of sympathy. The food, the beautiful floral offerings, cards and other expressions of sympathy were especially appreciated.

J. C. Riley 1tc

Mr. and Mrs. L. B. Patterson, tonio and Corpus Christi, last Sr. visited relatives in San An-week.

**GATE-CLOSERS**

*Dear Friends*

A farmer friend of ours paid Humble's field men a fine compliment recently.

He said, "There's one thing about you Humble people, you close gates."

Well, of course we do.

All of us at Humble want the good will of the folks with whom we do business. And among those folks, the farmers and ranchers who lease their land to us for exploration and production are right at the top of the list.

In fact, you farmers are partners with us in the development of a vital natural resource. If our efforts are successful then everyone involved benefits.

Keeping the gates closed and the fences mended—things like that are the least we can do.

We know. A lot of us grew up on farms and ranches.

**I DON'T HAVE** a lot of prospects, but I do have some who would buy 40 acres of farm land, 80 acres of farm land, or 160 acres of farm land. I have sold all that I have listed in these sizes. Who knows?—I might could sell yours with a listing. I still have 480 acres of tight land for sale. Will stand a good loan. See Wallace Moorhouse. 12-2tc

**LISTINGS WANTED**—If you have a farm or real estate for sale, see me. Salty Blankinship, Phone 4, Goree, Texas. 12-tfc

**DO YOU HAVE**—320 acres, 640 acres or more of grass land, or there could be some farm land, located in the NE part of Haskell, NW part of Throckmorton or the SE part of Knox Counties that you want to sell? I might be able to move it for you if priced within reason. Let's talk about it. See Wallace Moorhouse. 12-2tc

## Knox Prairie Philosopher Gives Advice To City People Planning On Retiring To A Farm In Ease

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek discusses one of his favorite subjects, retirement, this week.

Dear editor: With the 4-day week being promised and the retirement age being lowered and social security being increased, oratorically anyway, naturally the problem of leisure is a big issue for the minds of the country to grapple with, and I was especially interested in an article I found in a newspaper which blew out of a car as a couple of teenagers rounded a corner by my farm yesterday afternoon throwing up gravel like a ditch-digging machine.

According to it, a lot of older people are considering retiring to a farm to take things easy, but some of them after they've tried it are finding a farm wasn't what they expected.

One man, who invested his life's savings in a farm and settled down to live on his social security check, found it was costing him more to live in the country than it did in town. The well was always running dry or caving in or the pump burned out, his milk cow was eating more than the price his milk would cost him at

a supermarket, not counting the fact he had to milk her twice a day, his chickens layed fine for a while then coasted and he figured his investment in a hen house, chickens, and feed would more than pay for all the eggs he could eat for the rest of his life. Etc.

Well, I'll tell you. Any city man who is figuring on retiring to a farm wants to think it over. It's true you can get by on a farm in some cases without working much, but it takes years of practice. You take the average city man and retire him to a farm and he'll find himself confused before he starts. When he gets there, he figures for example it'll be pretty nice not to get a water bill on the first of the month, but one of the facts of life is that a lot of people in town can chip in through taxes and put in

a community water system a lot cheaper per man than one man can put in one water system for himself in the country. Turning on a hydrant and getting water in the country involves a lot more than turning on a hydrant in town.

Actually, the only way to retire in the country is to do it gradually. You've got to start way back, and work up on it gradually, so when the time comes to retire you can't hardly tell the difference from what you've been doing all the time. That's the system I'm using.

Yours faithfully,  
J. A.

### LOCALS

Mr. and Mrs. Wallace Reid and Jimmie were visitors in Dallas and Greenville last week end.

Dumont Bridge and W. J. Bridge of Afton visited Mr. and Mrs. Aaron Edgar a while last Thursday.

Mr. and Mrs. Robert Gaines of Dallas were guests of his parents, Mr. and Mrs. Jim Gaines, over the week end.

Week end guests of Mr. and Mrs. Oscar Spann were their children, Miss Bera Faye Spann of McMurtry College in Abilene and George Spann of Texas Tech in Lubbock.

Lee Bowden of Abilene spent the week end with his parents, Mr. and Mrs. Levi Bowden, and

Jerry.  
Mr. and Mrs. Ralph Watkins and children of Wichita Falls were Sunday guests of her parents, Mr. and Mrs. W. E. Reynolds.

Mrs. Virgil Peddy of Chickasha, Okla., visited friends here the first of this week.

Week end guests of Dr. and Mrs. A. A. Smith were Mrs. W. H. Steveson, Mrs. Irene Rives and T/Sgt. Bob Rives of Houston.

Mr. and Mrs. Noble Roberson, Mr. and Mrs. Bill Nishka and children of Ranger visited Mrs. S. E. Roberson, Mrs. Jimmie Bullington and Mr. and Mrs. Zane Franklin and Laura Gladys over the week end.

### Moguls To Rest Friday, Then To Play Iowa Park

The Moguls won't score next Friday night, but will enjoy an open date and a good rest before engaging the Iowa Park Hawks on the Iowa Park field on October 26.

This rest will enable them to loosen up sore muscles and take cognizance of their standing in the district. Both the Moguls and Hawks hold equal district standings, having won all district games thus far.

While the Moguls were drubbing the Chillicothe Eagles 46 to 0 last Friday night, the Hawks took the count 7 to 0 over Archer City.

The Mogul-Hawk game will likely be the one that will determine district winners, unless a slip-up comes further down the conference schedule.

All the remaining Mogul games are conference battles. After Iowa Park on the 26th, will come Archer City, November 2; Holliday, November 9; and Crowell, November 16.

Mrs. Lee Lemaster of Wichita Falls and Mr. and Mrs. Dale Williams and children of Plainview were week end visitors of Mrs. Lucille Stodghill and other relatives.

Mrs. U. R. Houser, who has been making her home in Waco, is here for a few days visit with Mr. and Mrs. C. L. Mayes. She will go from here to Denver, Colo., to make her home.

Drive carefully. The life you save may be your own.

### Too Late to Classify

FOR SALE—Franklin drop-head sewing machine, in good condition. Good, solid stand and still nicely varnished. Foot treadle, long bobbin. Shoe Shop, Goree, Texas. 1tp

QUILTING WANTED—Mrs. Addie Logsdon, phone 2501. 1tc

RABBITS FOR SALE—New Zealand Whites and Blue Dutch. Also pens, at a bargain. Jack Hampton, phone 99, Goree, Texas. 1tp

FOR SALE—Early Triumph seed wheat, cleaned and treated. \$2.50 per bushel. Dwight C. Key. 13tf

FOR SALE—American kitchen cabinet with double sink and wall cabinets. Mrs. John Lambeth, north of Goree. 13-3tp

FOR SALE—'98 Oldsmobile motor, recently overhauled. Suitable for irrigation or other purposes. Frank Oman, phone 43, Weinert, Texas. 13-2tp

### Goree School Being Enlarged

A seven-year drought is no deterrent to Goree Independent School District going forward to improve its large school system under Supt. J. B. Lawson.

In June this year patrons voted \$125,000 in bonds for new buildings and remodeling of existing buildings.

To the rear of the present handsome school an addition is being added to give the plant an "H" structure. It will contain eight classrooms in two wings off the "H" stem, officers and teachers' lounge, work room and book room. In the stem will be lunchroom with the present gymnasium joining it with the present structure. The new structure will have overhang eaves and concrete walks outside. The new building will be 340 by 22 feet, built of brick. The overall contract was for \$100,169. General construction is being done by the Seymour Lumber & Construction Co., Seymour; the plumbing and heating by Roland Plumbing & Heating Co., Vernon; and the electrical wiring by Ball Electric Co. of Abilene.

In one wing of the new building will be two primary classrooms each 22 by 28 feet, and two each 22 by 30 feet.

Floor and foundation\* were started Sept. 17. The structure should be ready to hand over to the school by next April. In addition, a dressing room each for boy and girls will be built adjoining the gymnasium.

J. B. Lawson, the superintendent, who came to the schools in 1950, has 12 teachers under him. The school operates four buses to pick up 120 pupils. The school has about 196 scholastics, with 66 in the high school and 130 in the primary grades. The prolonged drought has precluded increases in enrollment this year.

The school operates a lunch room which feeds at the rate of 25 cents a pupil, Lawson said. It feeds around 110.—Abilene Reporter-News.

Jimmy Peek of Pasadena came in last Sunday night for a two week's vacation with relatives here and Goree. His wife and son have been visiting her mother, Mrs. Lucille Stodghill, the past two weeks.

Noel Nabors, Skip Bradley, Kenneth Searcey, Jimmie Routon, Joe Patterson and Frank Ross Bates, all of Goree, attended the Dallas Fair last Saturday.

Mr. and Mrs. Layne Womble and Mrs. A. E. Womble were accompanied to Dallas by Miss Sammie Darr of Knox City where they visited Mr. and Mrs. Bill Womble and children, Buddy Womble and Mr. and Mrs. R. W. Hightower over the week end. Mrs. A. E. Womble remained for a longer visit.

### TEXAS WHEAT FARMERS SIGN MORE THAN 12,000 SOIL BANK CONTRACTS

Texas wheat farmers signed 12,116 agreements and placed 919,985 acres under the winter wheat Acreage Reserve program of the Soil Bank through October 5. The figures were released by the state office of the Agricultural Stabilization and Conservation to A. B. Wooten, extension economist.

Wooten said if the farmers who have signed agreements comply with the requirements of the program, they will be eligible for a maximum of \$14,067,075 in Acreage Reserve payments on the acreage pledged.

Aimed primarily at reducing price-depressing surpluses of wheat, corn, cotton, rice, tobacco and peanuts, the Acreage Reserve program of the Soil Bank is available only to producers having acreage allotments of these crops or a Soil Bank corn base acreage said Wooten. Program details for 1957 have been made available so far only for winter wheat seeded this fall for harvest next year.

The 1957 Acreage Reserve program goal for the nation for both winter and spring varieties of wheat is 15,000,000 acres. Nationally, through September 28, wheat farmers had signed 106,483 agreements placing 4,335,555 acres under the 1957 winter wheat Acreage Reserve program. The final date for signing agreements was October 5.

### Jerry Bowden Wins Trip To State Fair

Jerry Bowden, son of Mr. and Mrs. Levi Bowden of Munday, was one of the 85 boys and two girls who were guests of the Times Publishing Co. of Wichita Falls on an all-expense paid tour of the State Fair in Dallas last Sunday.

The youths were winners in the Times and Record-News subscription contest which ended Saturday. Many valuable prizes were won by the youngsters who did not qualify for the trip to the fair.

Reuben Bates and daughter, Sammie Sue, spent the week end in Dallas and attended the football game in the Cotton Bowl on Saturday afternoon.

C. L. Mayes returned home last Wednesday from several days visit in Corpus Christi and other points in south Texas.

Mr. and Mrs. Venon Routon and Jeanette and Sharon Turner of Goree visited Mr. and Mrs. Ed Jones in Irving during the week end, and all attended the State Fair in Dallas on Saturday.

### Legal Notices

#### NOTICE

The Munday School Board has ordered that an election be held on the 10th day of November, A. D. 1956, at the City Hall in the City of Munday to determine whether or not the bonded indebtedness of certain territory detached from Knox City School District be assumed by the Munday School District. Only qualified property tax paying voters of the Munday School District shall be permitted to vote in said election.

Ray Holcomb, President, Board of Trustees, Munday Independent School District.

Attest: Travis Lee, Secretary Board of Trustees, Munday Independent School District.

This election is based on the action of the county school board that detached territory from Knox City School district and attached to the Munday School District. 1-tc

#### NOTICE

The Munday Independent School District has hereby ordered that an election be held on the 10th day of November, A. D. 1956, at the City Hall, in the City of Munday, to determine whether or not the Board of Trustees shall be authorized and empowered to levy and collect \$1.50 tax upon each \$100.00 valuation of all property located within the territorial limits of said school district for maintenance of public schools in said district.

Ray Holcomb, President, Board of Trustees, Munday Independent School District.

Attest: Travis Lee, Secretary, Board of Trustees, Munday Independent School District.

This election is based on the action of the county school board that detached territory from Knox City School District and attached said territory to the Munday School District. 1-tc
